A HOUSEHOLD TREASURE.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best Cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested. Trial bottles free at John L. Gale's drug store. Regular size 50c and \$1.00.

FROM OUR EXCHANGES.

A noted divine recently said in a sermon concerning the newspaper profession: "One of the greatest trials of the newspaper profession is that its members are compelled to see more of the sham of the world than any other profession. Through every newspaper office day after day go all the weaknesses of the world—all the vanities that want to be puffed, all the revenges that want to be reaped, all the mistakes that want to be corrected, all the dull speakers that want to be thought eloquent, all the meanness that want to get their wares noticed gratis in order to save the tax of the advertising column, all men who want to be set right who were never right, all the crack-brained philosophers with stories as long as their hair and as gloomy as their finger nails in the morning bereft of soap, all the bores who come to stay five minutes and stay five hours. Through the editorial and reportorial rooms all the follies and shams of the world are seen day after day, and the temptation is to believe in neither God, man nor woman. It is no surprise to me that in this profession there are some skeptics. I only wonder that newspaper men believe in anything."

Another startling evil of bicycle riding has come forth. A tobacco journal grieves that the craze has caused the cigar habit to fall off among young men to a ruinous extent. This may well arouse the mothers of the American youth. That their darlings should go flying along the public highways, risking sore throats in the open air, constantly annoyed by the twitter of birds or the giggling laughter of pretty girls, when they might be sitting safe and contented in some dark corner, sucking at two-fers, is a danger that needs looking after.—*Deerfield Times-Journal.*

Bro. Wilks, who some years ago graduated from the penitentiary to the ministry (showing that the state criminal institute is a reformatory as well as a penal establishment) has been holding meetings on Tecumseh's military square. The Evangelist's splendid gospel chariot and well dressed occupants indicate that even in these days of tight nipping to keep up the interest on farm mortgages, there is a "spot cash" value in the service of the Lord as some evangelists serve him.—*Adrian Press.*

The following sign is posted on a certain tract of land not far from Richbuckto, N. B., says an exchange: "If any man or woman's cow or oxen get in these oats, his or her tail will be cut off, as the case may be. I am a Christian and pay my taxes, but don't let the man that let his critters run loose."

They sat beside the evening fire. He scanned the ads. all over. She said, "my dear, I think we need New carpet on this floor." "Well, here is just the thing you want. This man is advertising A line of carpets fresh and new At prices quite surprising." They talked of curtains blinds and rugs. And every ad. read through. And thus remembered many things. Which they would fain renew. Next day they took a walk around. And, as may be surmised, They purchased all their furnishings From men who advertised.

The day has passed for saying "women never invent anything," says one of our Item Box contributors. A San Diego (Cal.) woman, who was pestered by other folk's chickens scratching up her flower bed and littering her yard, hit upon a novel scheme for conveying a gentle hint to her neighbors. She tied a lot of small cards with strong thread to big kernels of corn, and wrote on the cards, "Please keep your chickens at home." The chickens ate the corn and carried the message to their owners in a fashion that was startling, and no doubt effective. As there has been no "patent applied for" it may be used at the discretion of other sufferers, of whom there are many.

Mrs. Mary Ann Bush, by well authenticated records to be 112 years of age, died Friday night at the home of her daughter, Mrs. Alva Sage, at Novi.

Every one must have found how difficult it is to eradicate early impressions, or to overcome prejudices acquired later in life. Our first impressions cling to us with a tenacity which no change of situation can destroy. The home of our childhood, the friends and associations of youthful days, form images in our remembrance which can never be wholly obliterated. The wanderer from his native country may in his adopted home meet new associations and acquire more wealthy connections and a higher standing in society than he held in the land which gave him birth, still in the humble dwelling in which he was reared, the partner of his early joys and sorrows, the habits accustomed to in youth, are all "green spots" in reminiscences, continually watered from a fount of never failing memory.—*Home Life.*

About Marriage.

The most solemn earthly obligations engendered in any earthly contract are assumed through marriage. The entire life of man and woman entering the state of matrimony undergoes a transformation. Each assumes an interest in another's welfare that calls for consideration at the expense of self-interests, for each has the power to exalt or debase the life thus connected with their own. Humanity at large has a vested interest in every matrimonial venture, in the heritage bequeathed children, in the influences radiating from the home center, which each married couple create.

No one truly worthy the privileges of married life will enter the estate hastily or selfishly; effects upon the possible lives that may come under their charge will always be a consideration with wise heads and just hearts. Society has a right to protest against the acceptance, by any girl, of a moral leper as the father of her children, even if a fascination bewilders her own pure instincts, and leads her to believe the sacrifice of her pure life to the service of reformation is justifiable.

Every girl who accepts as a husband a man of immoral habits is a participant in crime resulting in untold human miseries. No less evil is the man who conveys motherhood upon an unworthy woman. The silly, selfish girl, who through vanity and ignorance distorts her physical vigor, is unworthy that crown of womanhood, while the simple child who would marry for the excitement of a wedding, a few fine clothes and the title, is the most pitiable spectacle of the deluded social condition that has produced unintelligent women and considered her available in marriage. What the world needs today is women capable of strength in wifehood and noble intelligence in motherhood wedded with pure-hearted and pure-souled men.—*Home Life.*

An Old Relic.

The following is a clipping published April 30th, 1891, and will no doubt, interest many Mail readers of today. It has been preserved by the Hon. John S. Jackson, of Northville, since that day. Mr. Jackson would not part with the original for love or money:

The citizens of Plymouth, without distinction of party, held a meeting on Tuesday evening last, for the purpose of forming a volunteer company to be tendered to the governor subject to call when desired. The meeting was addressed by Hon. Johnathan Shearer, E. J. Penniman, Henry Fralick and George A. Starkweather. A muster-roll was prepared and the following volunteers signed their names thereto:

1 Peter Fralick	25 Frank McGraw
2 Geo. A. Starkweather	26 Elbezer Tulloch
3 John L. Young	27 Theodore J. Mason
4 Henry Seely	28 James Daise
5 Milo T. Mason	29 John Sly

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by Dr. J. G. Meller Druggist."

A Picturesque Kentuckian.
The late General Frank Wolford was a picturesque survival of the old-time Kentuckian. It has been said of him that he was a cross between Davy Crockett and Bishop Bascom, and while he said "whar" and "thar" and "pint" (for point) and "sot," he knew the bible almost by heart. Once when asked at Chamberlain's what dishes he preferred to choose from the elaborate bill of fare he replied: "Drap dumplings and 'biled hen." He was an ideal soldier—the Forrest of the federal army—yet he could not discipline his troops. When rebuked for this in a review of the Army of the Cumberland, he said: "I know nothing about your drills and maneuvers, but my boys know how to shoot. You may take any two regiments in the army, station them whar you please, and I will take my regiment, and what I don't kill of them I will chase out of the state of Tennessee in forty-eight hours."

Singing for Soldiers.
General Polience De Sair, Mars, commanding the French Twelfth army corps, has issued an order of the day regretting that the soldiers do not sing on the march, and suggesting to the regimental bandmasters that they train capable men in the ranks to sing national and warlike songs, sentimental and popular airs and lullabies to the accompaniment of mandolins, accordions or other instruments that can be easily played while marching.

There are few instances of full-blooded Indians entering the learned professions.

A WONDERFUL ESCAPE.
Related by a Keeper of the Michigan State Prison at Jackson.

(From the Jackson Citizen.)
Mr. A. E. Wing resides at 612 N. Jackson Street, Jackson, Mich. He is a keeper in the Michigan State Prison, a man of sterling integrity, and whose word is beyond dispute. He tells the following story of a wonderful escape, and the incidents connected with the dangerous position in which he was placed. He says, some months ago my attention was attracted by a swelling of my groin, which began to increase in size to such an extent that I was alarmed. It spread down my legs to my feet, and I was bloated from my waist down, so badly that I could not pull my pants, over my legs, and I had to open my shoes fully two inches before I could get them on. Even my face became puffed up, and my whole system seemed affected. I could hardly drag myself upstairs to unlock my men. I consulted a physician, one of the best in the city. He said the swelling was caused by an irritation of the kidneys, and I commenced treatment with him. But I seemed to be getting worse. I was strongly urged by a friend to try Doan's Kidney Pills, and I finally consented. After the first week I commenced to see a change, and felt much better. This was encouraging, and I continued their use. I took five boxes in all, with the happy result that I was completely cured. I have never heard of any medicine which had such a pronounced and radical effect, and yet not affect the system generally and leave it in such a good condition. I feel better now than I ever did. After the effect was once established the swelling gradually disappeared until it was entirely gone. I regard Doan's Kidney Pills as a most wonderful agent in the curing of any form of kidney disorder.
For sale by all dealers—price, 50 cents per box. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

JOE'S REMARKABLE CASE.
COL. E. R. ROE.
CHAPTER XII.—(Continued.)
The silversmith, who had come over with Molier, called upon him: said he had been shown the medal and chain, and positively identified it as his own lettering in the engraving, and by his private mark.
That night Molier was called upon by Colburn, the claimant's attorney, and invited to come to the lawyer's office. On reaching there he was treated with "distinguished consideration," and another contest of craft and cunning was begun.
"You reside at Cincinnati, I believe, Mr. Molier?" [Smithers, the claimant, had seen Molier and told the attorney who he was and what kind of a reputation he bore at home.]
"I reside at Cincinnati," replied Molier.
"You are aware, Mr. Molier, that there is no impropriety in telling us you have been subpoenaed on the claimant's part, I believe?"
"Yes."
"In telling us what your testimony will be? Such is the fact."
"What do you wish it to be?" asked Molier.
Colburn was stumped. He had been told that Molier was mercenary; but he was not quite sure whether this was an offer to sell his testimony or merely the honest inquiry of an honest man. At length he said:
"What do you know about our case, Mr. Molier? What do you know in our favor?"
"Not much, anyway, if anything. How am I to know what is in your favor?"
"Well—first we wish to prove the identity of a certain medal. But of course you know nothing about that."
"What about the medal?"
"My client, Joseph Blake, wore a medal from his childhood, which entitles a big figure in the case. We want to identify that."
"Did he have it with him in England?"
"Yes; always wore it on his neck—never been without it, and has it yet."
"I know nothing about that medal."
"What does the defense want of you?"
"I don't know exactly."
"You have talked with Clayton? Clayton is attorney for Sam Blake?"
"Yes. Shall I tell him all that has passed between you and me?"
"I rather think that wouldn't be proper. Did he say he should use your testimony?"
"Said he would see about it."
"Did you ever know a man named Smithers?"
"Where?"
"At Cincinnati."
"I think not. Who is Smithers?"
"At Cincinnati; sorry you do not know him."
"I'm sorry too, if it would help Joe Blake."
"You believe Joe Blake's no fraud?"
"I know he is not," replied Molier.
"Very good. I think we shall call you at a venture, Mr. Molier. You appear to have been candid and to have no bias in this matter, and I thank you."
Molier went out, walked straight across the square beyond the court house and called again upon Clayton.
"I have just talked with the opposite counsel, Mr. Clayton," said he, "and, if I am not meddling, I think you might well subpoena John Drake of Cincinnati, keeper of the Third street hotel."
"Thank you, Mr. Molier; why?"
"He probably knows this claimant."
"I learn that of Colburn?"
"I intimated to Colburn that it would not be proper for me to tell him what passed between you and me, and I did not."
"I see," said Clayton: "that was correct, Mr. Molier. Trial comes Tuesday, and there is barely time to get the Cincinnati man here. I will send a special officer for him. Very much obliged, Mr. Molier. Any other suggestion?"
"I think not."
And that ended the conference.
At the Gray Sulphur the very slaves had caught the spirit of contention over the pretended Joe. Not one of them had known while he was at the hotel that he claimed to be Joseph Blake, the long lost "Little Joe." Yet several of the older ones now declared that they saw him and knew him on sight. "Old Mammy," the black woman who had been "Little Joe's" special nurse, and had loved him dearly and wept for his loss, was not one of these. She scouted the idea and declared him a cheat and a "defaulter."
"Re's no mo' my Little Joe," said Mammy, "dan I's John de Baptis."
Mammy was very devout in her way, and had not only often heard negro preaching in her younger days, but she had frequently gone to "de white folks' meetin'." And, on religious matters, Mammy was authority, and almost a saint among her people.
"Dis man got turn-up nose," said

she in a waddy contest; "s'pose Little Joe's nose gwine to turn up? Dis man got little finger gone." [No one else had observed that fact.] "S'pose Little Joe gwine to have little finger gone? I 'spect when he come back little finger come back too." Taint Little Joe: Ole Mammy knows."
"Dar you goes gin," said Winny, the laundress, Mammy knows it all, and nobody but Mammy knows nuthin."
"Taint Joe," said Mammy.
"Why Mammy, da says Old Judge Crane knows him, an 'tis Joe."
"Taint Joe!"
"An' Judge Crane 'll swar to it."
"Taint Joe!"
"An' god many mo' swar to it."
"Taint Joe!"
"Mammy knows mo'rn all de res!"
"Taint Joe; taint; I knows taint."
And, in a manner quite as logical as this of Winny and Old Mammy, the argument went round among the old colored people—especially the women. Among the men, there was more reserve, but no less interest. They did not know how soon the new-comer might take control and wield the lash, and they were more anxious to be on the winning side than to be right—which was also true of many with whiter faces.
And so the interest deepened among all parties as the day of the trial approached.

CHAPTER XIII
A NOTABLE DEATH-BED: AN EPITAPH FOR TWO: ADOLF AND VIVETTE.

WHILE ALL WAS excitement at Gray Sulphur Springs over the approaching trial which was to decide the ownership of that estate, at Cincinnati there was passing a scene where a dear human life was ebbing quietly away from the companionship of husband and friends. Mary Gust was dying. A week before, she had observed just above that graceful curvature which divides the neck from the chest a small throbbing tumor. It was painless, and at first gave no alarm. It grew rapidly and throbbed more violently; and, from mere precaution, Dr. Ross was called. He pronounced it aneurism—a bursting of the internal coats of an artery and escape of the blood into the external coat. "Specifically," he said, "it was subclavian aneurism, affecting the great branch of the largest artery, and coming out from under the collar bone."
"Is it dangerous?" asked Mary Gust.
"It is incurable—too close to the heart and too inaccessible to tie, and too large for successful treatment by other modes."
"Then I must die, doctor?"
"Yes, sooner or later. You had better know the truth."
"I thank you for the truth, doctor."
"What shall we do?" inquired her beloved husband.
"Avoid all excitement; eat sparingly, and little meat; make no avoidable exertion. It is beyond medicine; she needs none."
"Thank you, doctor. Please call often. It's a comfort to have you present."
Aunt Ruthy was sent for. She was horrified. Mary Gust put out her hand, took that of Aunt Ruthy, and with a smile of calm resignation said:
"I am going home."
The big tears dropped from Aunt Ruthy's eyes as she replied:
"Why, Mary?"
"Dr. Ross says a large artery is broken, and nothing can be done."
This was said without alarm, and with an expression of contentment which fairly shone. Aunt Ruthy examined the tumor with much interest and tenderness. It was throbbing rhythmically with the heart. The surface above it was slightly livid and very tense. Finding that Mrs. Gust did not suffer, Aunt Ruthy said:
"How can that kill!"
Mr. Gust—speaking for his wife—explained. The doctor had shown him how the strong and muscular coat of the artery was torn open, letting the blood into the sack formed by the yielding external coat of the artery. "This will grow larger and larger until it intrudes upon the breathing apparatus and produces suffocation; or it will burst into the chest and there produce the same effect upon the lungs."
"I can almost see it grow from hour

to hour," said Mrs. Gust. "Listen!"
The aneurism was throbbing audibly, with a suppressed murmuring sigh.
"Mary, are you ready to die?" said Aunt Ruthy, in a regular camp-meeting tone.
"I would rather remain; but my life has been a happy one," (taking her husband's hand fervently), "and I will not murmur."
"Have you made any preparation?"
"The journey is not a long one, Anny," (pretending pleasantly to misunderstand Aunt Ruthy), "I take nothing with me."
"Aunt Ruthy almost said, 'you may take your sins with you,'—but she had not the heart to do it—seeing the almost glowing face of Mary Gust. That face—always lighted with benignity, appeared now radiant with love and resignation.
Aunt Ruthy abandoned the part of confessor, but asked Mrs. Gust if she would see Father Burky.
"Oh, most gladly. Please send for him, Anny."
And there came stillness so profound that the throb, throb, throb of the aneurism could be heard distinctly.
Next day, by request of Mrs. Gust, her adopted son brought Vivette. Vivette was almost born a nurse. She had that peculiar womanly gift of feeling another's woe to the bottom of her sympathetic heart without thereby being rendered useless as a nurse. She sometimes appeared to have a sixth sense, knowing the wants of others without the necessity of words. Mrs. Gust was able to sit up most of the time; though the aneurism was fast becoming a great throbbing lump at her throat, and interfering with respiration. This caused her to bear her head to one side and made her wearisome, whether sitting or lying. Vivette knew intuitively just how to place the pillows. Her touch was gentle and naturally skillful. She came now every day, and Mrs. Gust anxiously waited her coming.
On the day when Father Burky, the minister, came, he sat some time near Mrs. Gust without saying anything but a few words of recognition. Seeing how quietly Vivette went about caring for every little want of the doomed woman, the preacher said:
"This good girl has her excellencies from her mother—I knew her well."
Vivette, hearing this, said:
"Not more than from my father whom you do not know so well. He is a loving father, Mr. Burky."
"To them who love much, much shall be forgiven," said the preacher. Then, suspecting he had unwittingly wounded the feelings of Vivette, he said: "But we all of us need to be forgiven. How are your hopes, Mary?" (To Mrs. Gust.)
The expanding aneurism throbbed with increased heart-beats as she replied:
"I thank the heavenly Father that I have lived, and that I am ready to die."
"Have you ever been baptized, Mary?"
"I think not. When I was young I lived where there was not much water; and while Joseph (her husband) and I have been husband and wife we have not thought it necessary."
"Are you willing to be baptized?"
"Do you mean sprinkled?"
"Baptized by sprinkling—yes—your husband would not object?"
"Joseph nor I never object to what one of us desires. That is his foot upon the stair. He is never out many minutes."
When Mr. Gust came in, the preacher told him his proposition that Mary should be baptized, and asked his approval.
"Sprinkled," said Mrs. Gust with an explanatory glance.
"Certainly, Mr. Burky, if you desire to do so, and she does not object. A sprinkle will do no harm."

LAWMAKERS GET NO SHOW IN NEW YORK.
No More Liquor to Be Sold on Sunday—Theodore Roosevelt Has Caused the Liquor Men No End of Worryment—A Determined Man.
IN THE REALM of American public affairs the most interesting topic of the past few weeks has been the enforcement of the laws against Sunday liquor selling, by the police commissioners of New York City. Theodore Roosevelt as president of the new police board has taken the astonishing ground that he will observe his oath of office and respect the laws. New York has never been so shocked and surprised in all its 250 years of existence. The great politicians are aghast and are declaring that the party will be ruined. They protest that it was not for this that they helped to elect the reform ticket last November. Mr. Roosevelt's intrepidity seems even to have disconcerted Mayor Strong himself a very little, but upon the whole the mayor evidently likes Mr. Roosevelt's logic and intends to support him to the end. It happens that Mr. Roosevelt's colleagues on the police board are in absolute harmony with their president and are as actively committed to the execution of the policy as Mr. Roosevelt himself. Col. Frederick Grant, who is one of the commissioners, has not forgotten that his illustrious father used to say that the best way to deal with an unpopular law is to enforce it. The police commissioners do not give themselves much concern with the question whether the law is wise or mistaken. They simply stand upon its enforcement until the legislature chooses to alter it.
Mr. Roosevelt is a veritable dynamo of earnestness, force, and physical and mental energy. In build he is of the medium height, broad, very thick-set, solid, and muscular. Even through the large-lensed glasses he is obliged to wear when at work he looks boyish and is constantly thus referred to in the press. That is because he is not only young, but his youth has been preserved by an active outdoor life rationally directed. He has a plump, almost round face, thick brown hair, the small light mustache of a younger man than he is, and snapping blue eyes. His photographs make him look a trifle stern because they (all that I have seen) are taken with his glasses off and the strong light makes him half close his eyes, like a man influenced by a stern resolution or character. In reality, he is a kindly, genial, happy man, too full of animal spirits and too fond of fun

guard—each and all were known to the First Consul.
Incredible and exaggerated as such statements must appear, the testimony to their truth is so abundant and unimpeachable that it seems to the reader as if at this crisis there had appeared in Europe a being neither human, demonic nor celestial, but a man with superhuman powers of endurance, apprehension and labor, an angel without perfection, a demon without malevolence. For, on the whole, Bonaparte's work, while replete with dangerous expedients, and, as the future conclusively proved, inspired by self-seeking, was beneficent, constructive and permanent in regard not merely to France, but to Europe and the world—Professor Sfoane's Life of Napoleon in the August Century.

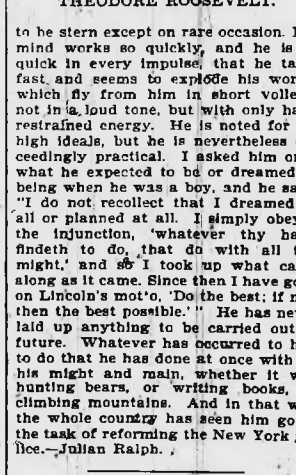

JUDGE THOMAS M. COOLEY.
Sketch of One of America's Most Eminent Legal Lights.
Judge Thomas M. Cooley was born in Attica, N. Y., Jan. 6, 1824. He began the study of law in Palmyra, N. Y., in 1842, and removing to Michigan the next year was admitted to the bar at Adrian in January, 1846. For a time he edited the Adrian Watch-Tower, a newspaper, and in 1857 was assigned to the work of compiling the general statutes of Michigan, which were published in two volumes. In 1858 he was appointed reporter of the Supreme court, which office he held for seven years. In 1859 he

was made justice of the supreme court of Michigan, becoming chief justice in 1868, and served until 1885, when he retired permanently from the bench. When the law for the regulation of interstate commerce went into effect Judge Cooley was made chairman of the interstate commerce commission, a post which he resigned in 1893. He has held the professorship of constitutional and administrative law in the University of Michigan, and the chair of American history in the same college. He is the author of a number of legal works, digests and commentaries, that are much used in the profession, and has written a history of the governments of Michigan.

It is puzzling to account for the different status of the cigarette in England and the United States. Here it is very rare to find a man past middle life smoking cigarettes, yet the statement made on good authority that Herbert Spencer, who is seventy-five, smokes them, and it is noticeable in reading the personal gossip of London weekly papers that the same fault (from a cigar-smoker's point of view) is alleged against many men of prominence in public life. When Emily Faithful died, the story of her fondness for cigarettes was repeated, and it shocked many American readers; but Miss Faithful was not unique among English ladies in this indulgence. In the case of men, perhaps the inferior quality of their cigars and the proximity of England to the continent may account for the preference given the cigarette.

After he was graduated from Bowdoin college ex-Speaker Reed thought seriously of becoming a minister, but he studied law instead of divinity, and went to California to hang out his shingle. The story of his admission to the bar there is interesting. "Tom," said the judge, "is the legal-tender at constitutional?" "It is, sir," answered the young lawyer, who knew his examiner's bent. "You shall be admitted," said the judge, and the ceremony was at an end. Three years later Mr. Reed was back in his Maine home, and a member of the legislature.

Stanley's Remarkable Career.
Between John Rowlands, otherwise Howell Jones, walf from a British poor-house, and Henry M. Stanley, member of parliament, there extends a career of adventure and vicissitude as dramatic as anything in a romantic novel. As cabin boy, confederate soldier, Indian fighter, reporter, war correspondent and African explorer, Stanley has had a life of rare interest, and now, at Napoleon's industry.
Before the time when the campaign could open in the spring of 1860 all these parts were intended to be, and actually were, running smoothly; but they were running by the inspiration and activity of a single man. The council of state was his greater self, the senate his instrument of governing; the legislative body was as silent as the tribune was noisy—neither was a serious check on his plans. Legislation of the greatest importance was under way; it was devised for the purposes of centralization, and was studied in detail by the First Consul.
Administration was proceeding with scarcely any friction whatsoever, but this was because Bonaparte kept his eye on each separate office, and carefully superintended its working. By special arrangement foreign relations were considered and settled in secret consultation by the chief of state and Talleyrand, but the latter never pretended that in unravelling the threads of so tangled a web, or in their skillful arrangement the initiative was his. Carnot, at his old work with his old genius unimpaired, needed little encouragement but even in his department every corps, every battalion, every regiment, every company of all the arms—cavalry, infantry or artillery of every class, conscript, soldier, reserve or home

The premium list of the 11th annual fair to be held Tuesday, Sept. 17, to Friday, Sept. 21, on the Plymouth fair grounds, Wayne county, came to our table Tuesday. It was printed in the Plymouth Mail office, and is a very neat piece of work, deserving all the praise that can be given it. —*Plat Rock News.* And the Man, man says amen.

Just now it is the fashion to fasten babies' dresses in the back with three tiny gold or silver safety pins linked together with a fine chain, writes Elizabeth Robinson Scovill in the September Ladies' Home Journal. They save making the button-holes, of which a double number is required if studs are used. The prettiest studs for this purpose are those shaped like a heart; they are made in both gold and silver. Handsome shirt studs can be utilized for the baby by having them fastened together by a delicate chain. Bib pins are also of gold and silver, plain, engraved with the baby's initials, monogram or crest, and set with pearl or turquoise. It is worth while to get, especially pretty ones for little girls, as they can wear them later in their dresses. Some mothers use a pair of similar pins, rather smaller in size, to fasten the bib on the shoulders. Before this protector is worn the bib pin can be put in the yoke of the slip and the others used to catch up the sleeves.

The state law beginning with Aug. 10th, requires that all railroad companies, at all stations shall have a bulletin board, and on this board shall be written at least 30 minutes before the time for the arrival of a train, the fact whether such train is on time or not, and if late, how late. The law will be a very accommodating one for passengers, especially on the line of some roads where the railroad employees do not pretend to give a civil answer to a civil question. Railroad Commissioner Billings proposes to have this new law enforced, and has given all railroads notice to that effect.

The farmer is about the only man in business who receives cash for his goods at all times. The wholesale houses and factories wait for their money, and the merchants are stood off for the price of their goods, but the farmer comes to town with a load of hay, wheat or corn and gets cash in hand. When his hogs are ready for market he gets his money, and it is so with every product of a farm.

The Ladies' Every Saturday, of Philadelphia, Pa., desire women of ability every where, to write for their high class illustrated 32-page newspaper for women. A lady of energy in each city or town can secure a permanent income by representing the Ladies' Every Saturday and assist in introducing it in that locality. A beautiful and interesting newspaper for women with an entirely new plan for securing circulation, which is meeting with success everywhere. Send three two-cent stamps for sample copy and full particulars. Address: LADIES' EVERY SATURDAY, 36 South Seventh St., Philadelphia, Pa.

"Have you observed," said the merchant to a customer "the handsome advertisement I have just painted on the fence?" "No," the customer said, "but if you will send the notice to our house I will try and read the announcement. I read the papers and I haven't time to go round reading the bill boards." The merchant scratched his head.

A father talking to his careless daughter, said: "I want to speak to you of your mother. It may be that you have noticed a careworn look upon her face. Of course it has not been brought there by any act of yours, still it is your duty to chase it away. I want you to get up tomorrow morning and get breakfast. When your mother comes and begins to express her surprise, go right up to her and kiss her on the mouth. You can't imagine how it will brighten up her dear face. Besides you owe her a kiss or two; away back when you were but a little girl, she kissed you when no one else was tempted by your fever tainted breath and swollen face. You were not so attractive then as you are now. Through years of childish sunshine and shadows she was always ready to cure, by the magic of a mother's kiss, the little, dirty, chubby babies whenever they were injured in those first skirmishes with the rough old world.

It is stated that a son of a well-to-do farmer quarreled with his parents when 17 years of age and went west to make his fortune at mining. He had been west 12 years, and during that time his parents had heard nothing from him. Hiram came home after a complete financial failure not long since. He was ragged, penniless and penitent. He got home just in time to escape a drenching from a terrific storm. His aged father and mother had just recorded their wayward son's glad greeting, when lightning struck and killed a calf in the barn yard. From there the lightning entered an open window of the house, hit the family Bible and opened it at the 15th chapter of St. Luke, leaving a black mark opposite the 33rd verse of that chapter. This verse reads as follows: "And he lying under the fatted calf, and kill it; and let us eat and be merry." Truly, this was the second returning of the prodigal son.

SUMMER IN FRANCE.
 The Most Delightful Country in this Wide World.

The people in France make a much simpler affair of every-day life than we, and thus find more time for recreation, which, indeed, is so much a matter of course with them that there is no trace of effort about their little diversions. Where a garden is possible, it becomes furnished with a table and chairs, a much-used outdoor room: roofed with that dome some three miles high of soft dappled gray and yellow cloud, through the vast lattice work whereof the blue sky peeps. There in pleasant weather the children play among the lilac bushes and the mignonette; there their elders resort with needlework and newspapers; and there a simple meal is often served. How well appreciated are the public gardens of Paris any fine day will show. Groups of happy people along the main walks, or in some out-of-the-way nook of the lovely gardens, seem entirely at home as they quietly make the most of their opportunities for pleasure.

A pleasant feature of some French houses is a porch before the entrance door partly enclosed with glass. One such vine-clad summer parlor, opening into its tiny Paris garden, was a most refreshing contrast to the glaring, dusty street from which it was all hidden by a high wall. With its cool summer furnishings, and large ornamental plants in green tubs, it made a delightful reception room for visitors, while a little round table with its load of work baskets and books bore evidence of the family liking for this summer rendezvous. In a pretty country house the space between two projecting wings was roofed and fronted with glass. The room thus gained was one of the most interesting of its kind, being graced with an extensive collection of the ferns of the locality, and guarded by a pair of curious Chinese idols holding back the opened door on either side.

To the American in France it never ceases to be a wonder where so much leisure for out-of-door life is found, particularly as it does not follow that home duties are shirked to obtain it. Indeed, the proverbial French thrift is in no way better shown than in the readiness with which French women take a share in the work of the household, even in well-to-do families, and this without loss of dignity, since custom sanctions the keeping of few servants in France. And but few servants are needed, as no baking or laundering is done at home, and polished floors do away at once with dust, and that tearing-up and setting-to-rights process which we call house-cleaning. It would seem that they arrange their days, as well as their household affairs, wisely in France, and are skilled in the happy art of making the most of each one as it passes. For, however busy the morning hours may be, in most French homes the long afternoon finds household cares laid aside for a time, while rest and quiet enjoyment take their place.

Perhaps one secret of this wonderful leisure may lie in the fact that French mothers, strange as it may seem, do not consider it one of the cardinal virtues always to have cake in the house, and it really was not evident that the children suffered at all in consequence. It is, therefore, quite possible that the pleasant sight of mothers spending whole happy afternoons with their children out in the open air may be partly owing to this great lack of ambition in cake making.

The little baskets which French children carry with them to their much-loved parks and gardens are usually supplied with a generous piece of one of the long French loaves of bread, and a bar or two of sweetened chocolate. A few scones procure this quite sufficient lunch, as well as time for those pleasant little expeditions—it may be only to the nearest public garden, which they like and so well know how to arrange in sunny France.—*American Agriculturist.*

He Wanted Work and Got It.
 Frank Matthews has been in Chicago three weeks. He has answered all the advertisements he has seen, but in no instance was he successful in securing the coveted employment. Meanwhile his slender savings had become all but exhausted. Necessity proved the mother of invention, and according to a Chicago paper, he took a great board about a foot square and marking on it in big black letters,

WORK WANTED.

he fastened it on his breast and took up his beat among the commission houses. A great many people stopped him, but none offered him work. He walked several other down town streets, the object of the same curiosity. At last one man gave him a situation.

Saved from Death by Grasshoppers.
 James Clone, a farmer of Stonyford, N. Y., believes grasshoppers saved him from death by an enraged bull. Mr. Clone was crossing a large, open field, when the bull pursued him. The farmer ran as fast as possible, but the bull steadily gained on him, and when nearly exhausted a small clump of bushes was passed, from which arose a large cloud of grasshoppers. The insects struck the infuriated animal in the face, and it turned aside. Mr. Clone escaped from the field unharmed.

Clever Indian Horseman.
 An interesting illustration of the Indian's clever horsemanship was given by a young buck at Wilbur, Wash., a few days ago. Carrying in his hand an ordinary cup brimful of water, he rode on a cayuse at full gallop the length of the main street and returned without spilling so much as a drop of the water.

FOX RAISING IN ALASKA.

Hopful of Realizing Large Profits from the Sale of Many Pelts.

Fox farming in Alaska, which has assumed immense proportions, was originated by a Pittsburgher. In 1879 George Wardman was traveling about the coast in the steamer Rush. He saw a valuable black fox skin sold for \$300 and conceived the notion that raising the fox would be profitable. He got Peach Taylor, Thomas F. Morgan and James K. Redpath interested, and a company was formed. The gentlemen are agents of the Alaska Commercial company at St. George.

Morgan suggested as a place for the experiment the Semedies group of seventy rocky islets, sixty miles west of Kodiak, which produced nothing but seal birds and sea lions, and are uninhabited. At the seal islands of the Prudloff group the Alaska Commercial Company catch 1,000 to 1,600 blue foxes every winter. The black foxes are scarce, while the blue fox is not nearly so valuable.

During the winter of 1880 arrangements were made with an agent at Kodiak to get some black fox cubs. He secured half a dozen, and while he was away on business the natives killed the cubs by kindness and by overfeeding them. No more of the cubs could be found, and no further effort to carry out the scheme was made until the summer of 1884, when about twenty blue fox cubs were caught. They were taken in a steamer to Unalaska and thence in a chartered schooner, with a quantity of seal meat, to the Semedies Islands, where they were released.

The islands are inaccessible except in calm weather, which helped the enterprise, as it kept poachers and Indians from catching the stock. At first it was difficult to get any right on the land. The treasury department, however, addressed a letter to revenue steamers and the provisional government of Alaska, to give their protection to the fox farmers under the law protecting squatters, and the company has not been molested in its enterprise.

The foxes eat eggs and catch birds in the summer. They are also adept at killing sea lions, which serve them for food. They are very intelligent. They take the eggs in summer and hide them in the thick moss, which is like mattresses, and leave them until they get hungry in winter and can find nothing else to eat. If they hid the eggs in the dirt they would be unable to scratch the frozen ground away from them in winter, hence the wisdom displayed in covering them with moss. The foxes have been watched during the months of July and August on the cliffs searching for eggs, and have been tracked to their hiding places.

The blue fox pelt is valued at \$15, and as seals become scarcer it becomes more valuable. All attempts to catch black foxes have proved failures, as they are so scarce. Natives are hired to live on the island and watch the foxes. The latter are trapped in certain seasons, killed, and skinned. The carcasses are valueless, as the Indians, who will eat almost anything, will not touch the fox meat. The number has multiplied from twenty cubs to about 5,000 foxes, and they have been trapped every season since they were large enough to be of value. Mr. Wardman sold his interest to Byron Andrews of Washington.

Two Boys Lost Underground.
 Hazleton, Pa., Special: The curiosity of Edward Boyle and William MacFarlane, aged 12 years, led them into a coal mine yesterday. In the afternoon they conceived the idea of taking the trip. Fearing that they would be prevented from doing so, their preparations were made without the knowledge of any other person. Together they picked their way into the recesses of the mine. After penetrating the gloomy passageways for a considerable distance, they struck a reverse current of air suddenly, which extinguished the lamp they carried. They had not thought of guarding against such an emergency, and found themselves in darkness. How to get out was then the serious question. They did not know which way to turn. Their cries for assistance were answered only by the echo, which reverberated through the subterranean tunnels, and added to the chill of fear which took possession of them. They could not get out. Miners in going to work this morning were surprised to find the lads on the gangway. They were piloted to the surface and sent to their homes, where their parents were anxiously awaiting them.

The Youngest Tramp on the Road.
 Roy Jones, who ran away from his home in Monticello, Ill., over two years ago, is, perhaps, the youngest tramp on the road to-day. When he was registered at the county jail at Logansport, Ind., one night recently by a policeman who had picked him up on the street, he gave his age as 10 years and his destination as New York. He had just returned, he said, from a trip to San Francisco, and in the two years of his absence from home had traveled all through the south and west. He started out with a burning desire to camp and herd cattle on the plains, and continued roving merely for the variety and excitement it afforded. Because of his extreme youth it was easier for him to beat his way than it would have been for an older person. He refused a pass home, and continued on his way east.

Apples on a Maple Tree.
 A clever chap at Russellville, N. Y., stirred up a lot of excitement in that town the other day. This youngster arranged a lot of green apples on the wings of a maple tree. A number of persons were caught before the joke was found out, and one of the victims had sent for Judge Finley to come and explain the trick.

Died.

BRADNER—At the summer resort a few miles above Morrison, Colo., Thursday, August 29, 1895, Dr. W. F. Bradner, aged 43 years.

The deceased was well known by the people of Longmont, having resided here four or five years and practiced dentistry. He came here from Toledo, Ohio, although unless our memory is at fault, he was a native of Michigan. He was a graduate of Ann Arbor University and was well skilled in his profession. About 10 years ago he removed from Longmont to Greeley, and subsequently located in Denver, where he resided ever since.

When Dr. Bradner came to Colorado 14 years ago, he was suffering from an advanced stage of pulmonary consumption. But the excellence of our climate restored his impaired health to such an extent that he was able to successfully practice his profession for 10 or 12 years. But during the past two or three years his health has been gradually failing, and a few weeks ago he went into the foot hills near Morrison for a change, where he died quite suddenly at the date above stated. He was a man possessing a most genial temper, who had no enemies, and was in reality a man without guile. He leaves a wife, both his parents, who reside in Detroit, Michigan, one brother and three sisters.—*Ledger, Longmont, Colo.*

The above will be sad news to many of our readers, as the deceased was well and favorably known here, he being a son of Mr. and Mrs. N. T. Bradner.

The Medical Raven.

Once upon a midnight dreary,
 The doctor slumbered, weak and weary,
 And all the town could hear him snore.
 While he lay there sweetly sleeping,
 Suddenly there came a tapping,
 Like a rat that had just rapping
 His head upon the door—
 "Get thee up," a voice said loudly,
 "Come in haste," it added graciously,
 Like an inebriate who owned much more,
 But the doctor never heeded:
 Back to dreamland fast he speeded.
 For such men as that he needed never more.
 For long months that man had owed him,
 Not a cent he'd ever paid him,
 But the doctor now will dun him never more.

The Detroit Journal says that Detroit's lady school teachers wear pretty clothes and are very charming. And the Pontiac Gazette says Detroit has been taking teachers away from Pontiac and Oakland county for years. But if the Journal will just take a look at Pontiac's lady teachers of today it will have no more superlative remarks to make about Detroit's teachers. We don't care so much about clothes and beauty, what Plymouth looks out for is "have they got brains?" You can just bet that our teachers have.

How to Treat a Wife.

(From Pacific Health Journal.)
 First, get a wife; second, be patient. You may have great trials and perplexities in your business, but do not therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, or a tender look, will do wonders in chasing from her brow all clouds of gloom.—To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Dr. J. G. Meiler Druggist.

Advertisers will please bear in mind that on and after the 1st of September, the advertising rates of this paper will be: Per column, on 1st page, \$100.00; Per column, on 8th page, 75.00; Per column, on any other page, 65.00. Present contracts carried until completed.

The Arena Club.

The Arena Club held its first meeting after the vacation Wednesday evening. The following officers were elected for the ensuing term: President, Samuel Spicer; Vice-President, Marguerite Tapley; First Teller, Paul Bennett; Second Teller, Maud Packard; Chairman of the Literary Committee, George Lee; Literary Committee, second, Hervey Packard; third, Edward Corwin; Secretary, Etta Hilmer; Treasurer, Scott Hodge. 16 new names were proposed for membership. The club will continue to hold its meetings every alternate Wednesday.

For every quarter in a man's pocket there are a dozen uses; and to use each one in such a way as to derive the greatest benefit is a question every one must solve for himself. We believe, however, that no better use could be made of one of these quarters than to exchange it for a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, a medicine that every family should be provided with. For sale by Dr. J. G. Meiler Druggist.

The Superior cornet band, consisting of 20 pieces, will furnish music for the Plymouth fair.

Mrs. James Marshall, formerly of this place, but now of Chicago, is visiting friends in this vicinity.

Mrs. Chas. Shattuck was in Detroit, Tuesday purchasing millinery and getting ready for the fall trade.

Carl Capel, who is at present engaged in the Record office, Northville, made us a pleasant call last Saturday.

Bear in mind the Plymouth MAIL offer and get a ticket to the fair gratis. We only have 25 or 30 tickets left.

Bassett & Son are in line again this week with a new ad. They sell the very best furniture at rock bottom prices.

M. R. Weeks attended the National G. A. R. encampment at Louisville, Ky., this week. He returned Thursday morning.

The Fair Messenger will be a daily paper of which Plymouth can justly be proud. Don't fail to get a copy each day.

Miss Lizzie Howlett, of Ypsilanti, sister of Mrs. Chas. Shattuck, will assist in the millinery establishment of Howlett & Stevens during the coming season.

The tea meeting of the W. H. M. S. and W. F. M. S. of the M. E. church at Mrs. G. E. Brownell's on Wednesday afternoon was an enjoyable affair and was largely attended.

A prettily decorated booth on the fair grounds will be headquarters for the Daily Fair Messenger. Papers can here be obtained, free, each day. Committees of ladies will also distribute them among the crowd.

Everyone seemed to be satisfied with the game between the Wayne Stars and Pearls which was played here on Saturday. The Pearls played an excellent game and came very near shutting out their opponents. Score, Pearls 10, Stars 2.

Some people have acquired the idea that the same reading matter will appear in the Fair Messenger each day, and that the only change made will be in the locals. This is, however, a great mistake. The papers will be entirely different, each day's edition containing new, bright and original matter.

The Brighton market fair, which is to be held at Brighton, September 24-27, promises to be the best and largest in its history. A goodly amount for premiums and large purses for races insures a good show and fine sport for those who attend. For particulars address B. T. O. Clark, Sec., Brighton, Mich.

An oil stove exploded at the residence of J. R. Rauch last Sunday morning, which would have resulted in the fire department being called out, had it not been for the presence of mind of Miss Steng, who is employed there. She picked up the stove and carried it out of doors all ablaze. A few scorches was the only damage.

Among the many attractions which the Plymouth Fair Association have secured for the benefit and amusement of its patrons is Prof. Martine, of Brooklyn, with his troupe of 50 trained dogs. Mr. Martine is also a tight wire performer and an all-around acrobat, and will give performances every day of the fair on the grounds. This alone is worth the price of admission.

CHRISTIAN SCIENCE.

Services held in Safford's Hall every Sunday morning at 10:30. All are most cordially invited to attend.

Camilla Taft is again teaching school at Shutt's Corners.

Bennett & Co.'s shoe store can now be found in the Dohmstreich block.

The traveling men's club, of Detroit, will play another game of ball with Plymouth business men next Saturday afternoon. Every body invited.

Miss Fannie Briggs has purchased of Wm. Smitherman the house and lot situated on the corner of Spring and Mill streets. Consideration, \$600. Miss Briggs will move here next spring.

The law suit between P. Micol and the Shattuck brothers, in which P. Micol sued for \$75 damages, came off Monday before Justice Webber, of Northville, jury trial. Verdict, no cause of action.

Three things help you town and thereby help you. Trade at home. Do what you can to keep it clean and neat. Speak well of it. In any of the above texts there lies room for a sermon, and every person in Plymouth should preach and practice it.

Frank H. Hendrick, of Lansing, formerly of Plymouth, and Miss Mary A. Walton, of Cheboygan, were married at the home of the bride on Thursday of last week. The many friends of Mr. Hendrick will be pleased to learn of his new venture.

"She was a hummer," was the verdict of one who attended the ball game last Friday between the Excelsiors, of Detroit, and the Plymouths. The visitors brought two homing pigeons with them, which they let go at the end of the fifth inning when the score stood 5 to 1 in favor of Plymouth. At the end of the game Plymouth 9, Excelsiors 7.

Want to see Detroit on Sunday, if it won't cost much? It's the most delightful place in the state to spend a day, and to enable every one to go, the D. L. & N. R. R. will run a special train excursion on Sept. 22nd. Train will leave Plymouth at 10:30 a. m. and arrive at Detroit at 11:00. Returning leave at 7:00 p. m. Round trip rate \$0.50 IT'S VERY CHEAP. GEO. DEHAVEN, G. P. A. (418-19)

Wm. King, of Newburg, went to Detroit last week to get his pension. He put \$33 in his pocket just before riding down in the elevator and when he reached the bottom he had it not. Pickpockets are lying in wait for just such snags as these and it is remarkable sometimes how quickly they get in their work. Mr. King hardly had time to learn the color of his coin.

At the annual election of officers of the M. E. Sunday school the following officers were elected for the ensuing year: Superintendent, E. J. Burr; Asst. Superintendent, Mrs. G. E. Brownell; Asst. Superintendent, J. R. Rauch; Secretary, Lotta Davey; Treas., Flora Fitzgerald; Librarian, Willie Stewart. The report of the secretary shows an average attendance of 101 for the past year.

For two or three weeks the fair eddres of the Trenton Visitor has been doing her prettiest to arouse a feeling of jealousy on the part of her exchanges by recounting from time to time the different delicacies sent to her sanctum sanctorum, such as tomatoes, chickens, celery, melons, mushrooms and pumpkin pie. Our mouths have watered again and again, while we wondered why the good things of this earth were so unevenly divided. But the old adage, "All things cometh to him who waits," has again proven true. During the past week we have been the grateful recipients of vegetables, fruits and flowers almost every day, and "still there's more to follow." C. E. Rickey furnishes us some good squashes. George C. Peterhans donated a basket of peaches and tomatoes, one of the tomatoes bore the editor's name in a good bold script. George says he has a watermelon that bears the same freak and will have it conveyed hither when the proper time comes. The peaches Mr. Peterhans donated are the fruit of trees grown from pits. They were as large as good big oranges. We say thanks from the heart.

Nobody need have Neuralgia. Get Dr. Miles' Pain Pills from druggists. "One cent a dose."

A tintype tent has located in town.

Mr. and Mrs. Smitherman are visiting relatives in Novi.

Have you noticed the crockery display in J. R. Rauch's window.

Mr. Smith, who lived in Mrs. Merriman's house on Ann Arbor St., moved to Detroit this week and will reside at 977 Russel St.

The prizes for the bicycle races at the fair can be seen at the window of the First National Exchange Bank. The articles are first-class.

Cards are out announcing the marriage of Eleanor, daughter of Mr. and Mrs. Robt. Birch, to Harry G. Shattuck, to take place Wednesday next at the home of the former.

Being compelled to vacate the store formerly occupied by Bennett & Co., the shoe dealers, have located in the Dohmstreich block, and to induce shoe buyers to visit them, have decided to offer a genuine 1/2 off sale of all goods until Oct. 1st. This is a bona fide sale, as their announcement in their ad. proves.

ABRAHAM LINCOLN'S sentimental perplexities are to be shown in an article of singular interest which John Gilmer Speed has written from unpublished letters of Lincoln to Joshua Speed, for the next issue of *The Ladies Home Journal*. The article will show that the great President was not steady in affairs of the heart, and he floundered in his love, and finally induced his friend Speed to marry and tell him (Lincoln) whether marriage was a failure or not.

We doubt if all of the retailers of gasoline in this town are complying with the law in selling this article. The statute is as follows: "The people of the state of Michigan enact, that every druggist, grocer, or other person, who shall sell and deliver at retail, any gasoline, benzine or naphtha, without having the true name thereof and the words, 'explosive when mixed with air,' plainly printed upon a label securely attached to the can, bottle or other vessel containing the same, shall be punished by a fine not exceeding \$100." It won't cost a great amount to comply with this law, yet it may save you a number of dollars and possibly prevent a serious accident.

The much talked about game of ball between Northville and Plymouth, was played last Wednesday, and resulted in a swoop for Plymouth, score 17 to 5. Both clubs were composed of home players. Of course German pitched, and when he saw he was being mopped all over the grounds — 3 baggers, 2 buggers and singles by the bushel—he began his usual kicking against the umpire, Harry Robinson, who wouldn't call a wrong turn for love or money. The facts are that Harry was umpiring too straight a game, and German and his second nine players were out-classed against the Plymouth Giants. It was the biggest snap the Giants ever had, and at times simply made sport of their opponents, until at last, sick and disgusted, German fell out of the box into the field where he more properly belongs when playing in a first nine game. But this is the first game. More will follow. By fooling, Northville was given 5 runs in this game. Next game they will have a big 0 at the end of the ninth inning. It is needless to say anything about the usual mob and the howling. When Northville comes here to play they will find that we will not only give them pointers on ball playing, but a good lesson on how to govern a crowd at a ball game, and we will guarantee that no demonstration other than applauding of good plays will be seen or heard. But we doubt if they will come, for German was heard to remark that they would not. However, Manager Brooks isn't "that kind of a caterpillar."

TWO LIVES SAVED.

Miss Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at John L. Gale's drug store. BRIEF ITEMS ABOUT MICHIGAN PEOPLE AND THINGS.

Gov. Rich Sends the Fifth Regiment, Michigan National Guard, to Ishpeming to Protect Mining Property.—Strikers Don't Like It.

Marquette Miners Still Striking.

The day following the arrival of the troops at Ishpeming there was great excitement caused by the burning of the strikers' headquarters, but whether it was accidental or incendiary is not known.

The socialistic element of the strikers are endeavoring to work up a petition to Gov. Rich to withdraw the troops, but with poor success.

Chapter of Street Car Accidents.

Detroit has had rather a serious time with its street cars for some years, but unless something is done to stop this recently inaugurated slaughter of the citizens the city will be depopulated.

At the corner of Woodward and Grand River avenues a little girl was struck and badly cut on the arms and chest. A little later at the same place Mrs. Geo. L. Maltz and daughter were pulled from under a car, but were not seriously injured.

On Jefferson avenue a car struck and dangerously injured Martin Rowe, a newsboy, who was trying to board it to sell papers.

Peter Burns was run into while driving. His buggy was demolished, his horse killed and Burns so badly hurt that his life was despaired of.

Fred Dudas was instantly killed at Ecorse, a suburb, by being struck by a motor car on the Wyandotte & Trenton suburban line.

INTERESTING CHRONICLE OF GENERAL NEWS MATTERS.

Thirty-three Miners Entombed by Fire in the Osceola Copper Mine at Calumet.

Michigan—No Hopes of Their Rescue Alive—Indications Suggest Incendiaries.

Thirty-three Miners Killed.

The Osceola copper mine at Calumet caught fire, and 33 miners were imprisoned far below the surface of the earth. There was little hope of their escape, and in all likelihood most, if not all of them, were dead within a few hours.

Something over 200 men were at work on the day shift when the fire was discovered. Of this number the greater portion escaped in safety, although some of the men who were last to reach the surface climbed out in a fainting condition.

A number were half carried out by their companions. Rescuing parties were sent down the other shafts but without avail and escaped themselves with difficulty.

It was judged impossible to quench the fire by ordinary means, and the buildings at the mouth of the shaft were torn down and heavy timbers placed across the mouth, over which dirt was thrown and closely packed.

This work was very difficult because of the great volume of smoke pouring out. As the natural vent was stopped, the smoke and hot air forced its way along the connecting drifts to the main mine, and soon began to emerge from them in great clouds.

It was now out of question to enter the mine through any shaft connecting with the main workings. The person attempting it would be suffocated before he had descended fifty feet, it will be impossible to enter the mine until the fire has burned out which will require several days.

The Osceola fortunately has a smaller amount of timbering underground than almost any other copper mine in the district, using very little wood except in the shafts. The outlook for the 33 missing men is now most gloomy.

It is probable that most if not all of them were overcome by the smoke while attempting to fight their way out of the mine. If they are on any level above the twenty-seventh it is certain that they are dead.

If, however, all or a portion of the number descended to the levels below the twenty-seventh they are doubtless still alive. If they are still living they can survive in the lower levels for several days.

The scene about the mouth of the shafts beggared description. Wives and children of the unlucky miners, fathers and mothers of the poor little drill boys, relatives and friends, are crowded about, weeping and wailing. No blame can be attached to the mine owners or managers.

Boston's Masonic Temple Burned.

Boston's Masonic temple is the scene of desolation and destruction wrought by fire, which gutted the two upper stories. The loss is estimated at \$400,000.

All of the regalia of the Scottish Rites, one of the most expensive outfits in the Masonic order, was destroyed, and the Gothic hall, Egyptian hall and red rooms, with their valuable tapestries and furnishings, were ruined.

The 26 lodges and commanderies which meet in the temple, and all of them will sustain some loss. Several accidents occurred during the fire. District Chief Regan was carried by the falling roof 30 feet, sustaining a broken leg and injuries to his head, and severe internal injuries.

Lieutenant Madden's skull was fractured. Fireman James Downey was struck on the head by a piece of slate.

600 Pounds of Dynamite—Five Killed.

Edward Latschaw, a government contractor on Mississippi river improvement, had 600 pounds of dynamite stored in the cellar of his house at Specht's Ferry, Ia.

His son, while practicing with a revolver, missed the target, the bullet entering the cellar and firing the dynamite. The house was blown to splinters and five persons were killed, including Latschaw, his wife and two children and a friend.

Three other persons were probably fatally injured. The report of the explosion was heard 12 miles away.

Sioux Indians Prepare for Bloodshed.

The Sioux Indians at the Rosebud (S. D.) agency, under the leadership of Hollow Horn Bear, have warned Indian Agent Wright and the agency employes to vacate the agency, and they make threats to burn the buildings.

The Indians became enraged because the agent reduced the rates paid them for hauling freight from Valentine, Neb., to the agency. The Indians sent out runners to distant camps and about 3,000 angry and excited Indians gathered about the agency. Settlers are becoming very uneasy.

Alleged Crooked Officials at Toledo.

Last February the common council of Toledo appropriated \$4,000 for the investigation of the various city department and expert accountants were set to work.

They state that they have discovered a den of official rottenness and corruption that promises to be a big sensation. Discrepancies to the amount of \$7,000 have already been discovered.

Five employes of the Providence (R. I.) Gas Co. went to their death in cellar of the West field street gas holder, asphyxiation by gas being the cause. For several days leaking gas had been detected in the holder and the six men went to repair the leak, which proved to come from a defective valve.

MORE HORRORS IN ARMENIA.

Turkish Troops Torture Christian Men and Ravish Women and Children.

London: A dispatch from Kars, Armenia, says that the entire district of Kemaks is surrounded by Turkish troops dispatched by Zekki Pacha under the plea of arresting Armenian revolutionaries.

The villages of Carni, Tiriguerro, Turtian, Horopot, and Marigarr are reported to have been completely sacked while the population aggregating 5,000 people were foully treated. The men were tortured and the women and children were ravished.

The four monasteries of Aukwauk, Sonrphop, Thervorithchoga and Sonphagop were sacked and the altars destroyed. The excitement and alarm are universal.

High Officials Plan Another Massacre.

Authentic information from Moosh is to the effect that an anti-Christian society of Turkish officials has been formed there and at Hittis with the avowed intention to slaughter the Christians in the event of the acceptance of the Porte of the scheme of reforms presented by the powers.

It is declared that Consul Hampton is to be the first victim.

650 Spaniards Killed in Battle in Cuba.

Key West, Fla.: Private letters from insurgent sources bring the news of a big battle fought on August 31, near Santiago de Cuba, between the insurgents and Spanish troops, commanded by Carnellas, in which the insurgents completely routed the troops, killing 600 soldiers and 80 officers and wounding Carnellas.

The Spanish papers report that the battle was fought, but do not give the details.

Cubans Will Appeal to Uncle Sam.

New York: Thomas Estrada Palma, the president of the Cuban revolutionary junta, issued an address on the recent arrest of Cubans at Peñon's Grove, N. J., using the incident as a basis for a plea to the United States government for recognition of the Cuban insurgents as belligerents.

He compares the present relations of Spain and Cuba as similar to those of America and England, and recalls the help extended by France to the United States.

Another Attempt to Dynamite Rothschild.

Paris: Baron de Rothschild's banking house was the scene of another anarchistic attempt at murder. A man entered the bank from the Rue La Fayette. In the vestibule a detective who was on guard there saw the stranger ascend the stairs leading to the banking office and try to light a bomb.

When he saw that he had been detected he threw the bomb to the ground and ran out into the street, being pursued by the bank detective. When overtaken the desperate man turned and confronted his pursuer with a razor.

The officer ward off a blow which was aimed at him and seized the man. At the station he told Commissary Girard that he made the bomb himself. He expressed regret that he had not taken enough precaution to insure an explosion. He had tried to light the fuse with a cigarette, but the ashes upon the latter interfered.

Train Plunged Through a Bridge.

Twenty-five persons were hurt in a wreck on the K. C. F. S. & M. railroad near Monmouth, Kas., several seriously. As the train neared the bridge over Indian Creek, and axle on the rear coach broke, and when the train had reached the bridge, the baggage car tipped and crashed into the side timbers of the bridge.

The structure gave way and the entire bridge pitched into the creek 20 feet below. The baggage car fell first and the front coach fell partially over it, thus preventing the passengers from being drowned.

Kansas Town Destroyed by a Storm.

Gridley, Kas.: A town of 400 people on the Santa Fe road suffered the total destruction of many of its best buildings by a storm while hardly a structure in the place escaped injury.

The loss is very heavy. Mrs. Clara Massie was fatally hurt. Another report says the storm extended from the north to the south end of Coffey county, destroying scores of houses, barns and granaries and greatly damaging orchards and crops. At least three persons were killed and a number badly injured.

Stole \$16,000 From the Express Co.

J. D. Farden, cashier of the Adams Express Co., and J. R. Barnett, city ticket agent of the Vandavia, at Terre Haute, Ind., have disappeared also a collector of \$16,000 deposited by Revenue Collector Jurno for shipment to the Cincinnati sub-treasury.

Farden gave a receipt for the \$16,000. The police say that the amount stolen by the men will probably reach \$10,000, and that the two men had literally cleaned the office of the four day's receipts.

"Baby" McKee a Hero.

There came very near a drowning accident at Dodd Camp, near Old Forge, N. Y., Mrs. Russell B. Harrison's little daughter and Benny, better known as "Baby," and May McKee were playing about the dock at the camp when the Harrison child slipped and fell into the water.

Benny McKee saw her fall and ran to her rescue. He held her hand until Gen. Harrison heard the screams and rescued his granddaughter.

Spaniards Kill 37 Innocents.

Atrocities by Spaniards have just been reported to the Cuban revolutionary party in New York, in a letter from Juan Franco, chief of staff, under Gen. Gomez the commander-in-chief of the insurgent army.

It gives details of the capture and recapture of the city of Bañe, and the massacre of 37 innocent Cubans, mostly women and children, by the Spaniards under Garrido.

The Ohio Wool Growers' association passed resolutions urging the Fifty-fourth congress to pass legislation favorable to wool protection.

Benjamin Sutter, treasurer of Ripley township, Putnam county, O., is missing and his accounts are about \$7,000 short. It is feared he has suicided.

A horrible accident occurred at the State fair grounds at Springfield, Ill. The west tower of the great machinery hall, which is being roofed, collapsed and fell in, burying several men beneath its ruins.

CUBA AS A REPUBLIC.

The Insurgents Form a Government with a Capital at Nagasa.

Havana: The meeting of insurgent delegates at Nagasa proclaimed a constitution for the republic on a federal basis of five states. They also elected the Marquis of Santa Lucia president and appointed various officers, as well as confirming the nominations of Antoine Maceo to be general commanding in Santiago de Cuba, Maximino Gomez in Puerto Principe and Roloff in Santa Clara.

Nagasa was proclaimed as the provisional federal capital. A resolution was adopted permitting farmers to sell their produce in the towns on the payment of 25 per cent ad valorem duty. A proposal to proclaim Maceo dictator of Cuba was discussed for six days and was finally withdrawn.

The autonomist party intend to petition Spain for self-government on Canadian lines. It is stated that Gomez is inclined to accept conditional autonomy, but Maceo declines any compromise.

The Spanish residents in Havana have decided to form a volunteer guard to defend the city in case of need. A company of Cubans, under sentence of imprisonment in the fortress of Centa, Morocco, for rebellion, were deported on board the steamer Cataluna. Three are under sentence of life imprisonment, and 10 are condemned to 20 years.

Numerous dispatches are being received from Cuba which tell of skirmishes between the Spaniards and the rebels but no decisive engagements have been fought recently.

Michigan's Foreign Population Increasing.

Secretary of State Gardner has issued advance sheets of a bulletin showing the parent-nativity of the inhabitants of Michigan, July, 1894. Of the total population, 1,676,786 were native, and 570,855 foreign born.

Of the native inhabitants 856,198, or 50.89 per cent, were males, while of the foreign inhabitants 310,342, or 54.26 per cent, were males. The number whose parents are both native is 41.92 per cent, the number whose parents are both foreign-born 46.20 per cent, and the number whose parents are one native and the other foreign-born is 11.88 per cent of the total number reported.

The number of inhabitants with native parents, to each 1,000 of population, was 172 less in 1894 than in 1870. In each 1,000 inhabitants, the total of foreign parentage was 412 in 1870, 547 in 1890, and 584 in 1894. Comparing the state by sections, in each 1,000 inhabitants, the number whose parents are both native is, in the southern section, 49%; central, 36%; northern, 33%; upper peninsula, 31%.

The number whose parents are both foreign is, in the southern counties, 50; to each 1,000 central, 49%; northern, 54; upper peninsula, 73%.

36 Vessels Sank—Hundreds Drowned.

Advices have been received of a destructive typhoon of unusual fury which spent its strength at Kuebinotsu, Japan. All foreign ships in the harbor were blown on shore. Thirty-six vessels became total wrecks and the crews were all drowned.

The wreckage piled to death hundreds of men, women and children clinging to the floating parts of vessels. The loss of life was enormous. The crew of an American steamer spent a day in rescuing the drowning. The damage done by floods in Gifu prefecture, Japan, is very alarming. Over 600 villages suffered, 1,309 bridges were washed away, 20 people drowned and 22,226 persons received relief.

STORY OF TWO DOLLS.

(For Little Girls.)

ONE MORNING THE postman rang at our bell and asked Jane, the upstairs girl, whether any one named Miss Eveline Arabella Rosalie Estelle lived there.

I was sitting on the top step of the stairs, and heard it all; and I heard Jane answer: "No, sir; there is no one in the house who has all them fine names. I'm certain sure of that."

"Jane did not mean to tell a story, Mr. Postman, but this is the lady that letter is for. We call her 'Evy,' for short, and that is why Jane did not know."

The postman laughed, and said: "That explains it," and tucked the letter under Evy's arm and went off; and I took Evy and her letter into the dining-room.

"Dear Eveline Arabella Rosalie Estelle—I am coming to lunch with you at two o'clock today. I shall bring Lucy Bell with me. Give my compliments to Lottie Lee."

"Yours very affectionately, Grace Genevieve." Grace Genevieve was Lucy Bell's very finest doll.

I suppose Lucy's aunt Fannie wrote the note, for she was always doing things to make us laugh; and usually I should have been glad, but just then the doll's house was in a dreadful state, and how my Evelina Arabella Rosalie Estelle could entertain Lucy Bell's Grace Genevieve properly I did not know.

"You do not look quite happy, Lottie," mamma said after awhile. "What troubles you?"

"I'm so sorry for dear Evy, mamma, I said. "I'm sure she'll be mortified. The doll's house is in a dreadful state. We were going to have a regular house-cleaning, and the furniture covered, and the walls papered with figured gold paper, and the curtains done up; but the paper-hanger and upholsterer—that's brother Tom, you know—disappointed us."

"I should not mind if I was you, said mamma. "You can have a picnic lunch on the grass-plot in the back garden."

"But you haven't heard the worst, mamma," said I. "Poor Evy's china tea-set is actually gone—smashed to pieces! The day Cousin Jane was here she fell down with the china-basket. There's not a whole piece left."

"I feel great sympathy for Evelina," said mamma. "I've been in much the same position myself. But Lucy will make allowances."

"It is not Lucy that I mind," said I. "She is only a plain little girl like myself; but Grace Genevieve is so elegant, and always comes in pale-blue satin, and wears a diamond coronet."

"Rather dressy," said mamma, "for a small and early."

"She can't help it," said I. "Her things won't come off. But Evelina will want everything to match, you know."

"I'm afraid there's not time to buy a new set of china," said mamma. "But leave it all to me. I'll think of something."

When mamma said that, all my cares were over; and about one o'clock she called me to come out into the garden. She had a box in her hand, and when she opened it, there were the loveliest shells of all shapes and sizes, and a beautifully embroidered towel, and she had strawberries and cakes and a paper of sugar-plums and a little pitcher of milk; and she told me just which shells to place for plates and which for cups and which to use for dishes; and when they were all set out, with a big bouquet of flowers in the center, and a shell at each plate, I never saw anything so pretty. I brought Evy out.

"My dear doll," I said, "when I first heard that you were going to have an unexpected company, I thought you would certainly be dreadfully mortified; but mamma has helped us out of the trouble. And how remember, my dear Evy, when Miss Grace Genevieve arrives, don't look the least anxious, or make any apologies, but just say: 'I am so glad to see you, and as it is such a warm day we'll have a shell lunch on the lawn for variety; one sets so tired of the same old cups and saucers every day.'"

Mamma laughed and clapped her hands, though I do not see what I had said that was funny. Do you? I only told Evy nearly what I had heard real big people say when they had unexpected company, and pit away the corn-beef and cabbage and had a lunch instead. Still, when mamma laughs, I don't mind, for she loves me dearly; and I love her more than tongue can tell.

Everything was done, and I had on my white dress when Lucy rang at the door. I opened it.

"So glad to see you, Miss Grace Genevieve," I made Evy say; and Lucy made Grace say:

"And I am pleased to be here, Miss Evelina Arabella Rosalie Estelle."

Then Evy said—I interpreted, of course—what I told mamma I would say about a shell lunch on the lawn; and Grace Genevieve answered:

"What a lovely idea! But you always have such splendid ideas, my dear."

Then we put the lady dolls on the sofa to converse awhile, and I took Lucy out and told her all about the accidents that happened to the china and the delay in the doll's house-cleaning.

"How wonderfully Evy carried it off!" said Lucy. "I have often heard mamma say that the only way to do when you had unexpected company was to behave as if there never was a time when you wanted them so much; and that is exactly what Evy did."

A MYSTERY OF IMPORTED BEER

The sales increasing, while the imports are decreasing.

It is regarded by some persons as surprising that while the importations of beer have fallen off considerably in the last two years, the consumption of imported beer has increased more than fivefold, says a New York paper. Where ten years ago there were, perhaps, a dozen places in town at which imported beer was sold, there are now, probably, six hundred. It has become, in fact, a prime necessity in saloons of the first class to have on draught imported beer, and the multiplicity of such signs is significant of the constantly increasing demand for the beverage. Some saloons keep as many as six or seven varieties of imported beer, but at the same time the receipt of barrels in which it is contained—it is shipped in barrels, not kegs—is constantly falling off.

The explanation of the matter is one which can with much greater candor be given by a consumer than by a dealer in the imported article. The fact is this: Very little of the so-called imported beer sold in New York city saloons at present is really imported. It is domestic beer of a different kind from that usually sold, and the difference is to be found in the use of coloring matter and in the larger infusion of alcohol. It is alcohol that gives to imported beer its strength and which, at the same time, preserves it during the ocean voyage and the constant changes of temperature to which it is subjected in its transfer over 4,000 miles of land and sea. Genuine imported beer sent from Germany to the United States contains a larger proportion of alcohol than the beer sold and drunk in Germany. The distinctive mark of American beers is that they are what is called light, of amber color, and have a bitter taste, supplied in good beer by the hops. Kaiser beer, Pilsener beer, and some few other varieties of German beer are light, but the great majority of beers sold in Germany are dark, of a reddish-brown color, somewhat resembling malt wine in hue. Now many American brewers, and especially those in the city of New York, brew two varieties—dark and light. The dark is heavy; the light is frothy. The general demand of consumers is almost universally for light beer, but the dark has some admirers, especially among those persons who like a heavier article, sometimes prescribed for medicinal use, and resembling, to some extent, porter in its nutritive properties. This dark beer, the product of American brewers, costs usually a little more than the light, but it costs considerably less than the imported article with the duty added to it. So in many New York saloons the so-called "imported" beer sold over counters or at tables is really nothing more or less than the ordinary American dark beer, colored somewhat, and with alcohol added. Knowledge of this fact thoroughly explains the apparent paradox that while the importations of foreign beer have fallen off, the sales of foreign beer in New York are increasing. During the last two years many American brewers have been extending their trade by the manufacture of a variety recommended to invalids to whom, heretofore, porter has been prescribed. This variety of domestic beer has largely superseded porter, and, to some extent, ale, and the sale of it appears to be increasing. It is brewed only by very large concerns, however, and considerable advertising work is necessary to get it on the market.

The experience social held at Calvin Wheeler's Friday evening, was large attended, and the exercises were very good. The Salem Cornet Band was in attendance and the experiences related by the ladies were instructive and amusing, several of which were related in poetry. Among the different means resorted to were the following: Selling ice cream, bread and cake; making and selling lace, ink, popcorn and bouquets; oiling a carriage; carrying drink to swine; one lady even earned a dime by endeavoring to refrain from talking for a whole half hour, but said before the time was up, her husband (who had hired her to remain silent for the proposed length of time) offered her five cents to commence talking again, which she did, thus earning 15 cents. The proceeds of the social came to nearly \$30, the exact amount we are unable to learn however.

Weak, Irritable, Tired

"I Was No Good on Earth."

Dr. Miles' Nervine strengthens the weak, builds up the broken down constitution, and permanently cures every kind of nervous disease.

"About one year ago I was afflicted with nervousness, sleeplessness, creeping sensation in my legs, slight palpitation of my heart, distracting confusion of the mind, serious loss or lapse of memory. Weighted down with care and worry, I completely lost appetite and felt my vitality wearing out. I was weak, irritable and tired. My weight was reduced to 160 lbs., in fact I was no good, on earth."

A friend brought me Dr. Miles' book, "Low and Startling Facts," and I finally decided to try a bottle of Dr. Miles' Restorative Nervine. Before I had taken one bottle I could sleep as well as a 12-year-old boy. My appetite returned greatly increased.

"When I had taken the sixth bottle my weight increased to 176 lbs., the sensation in my legs was gone; my nerves steadied completely; my memory was fully restored. My brain seemed clearer than ever. I felt as good as any man on earth. Dr. Miles' Restorative Nervine is a great medicine, I advise you."—Abigail, nee Waltera R. Bennett.

Dr. Miles' Nervine is sold on a positive guarantee that the first bottle will benefit. All druggists sell it at \$1.00 bottles for \$5.00, or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

VACATION DAYS

The approach of vacation days is a time for selecting some interesting place for a summer outing. A few places combine so many advantages that will quickly suggest themselves when vacation plans are canvassed. One of these is always Bay View, rich in varied recreative delights, social and educational advantages, and growing more interesting every year. This season's summer announcements are particularly attractive, filling nearly sixty pages of the Bay View Magazine, and beautiful with a hundred halitone views. The Flint and Pere Marquette Railroad has secured a quantity of the magazines, and placed a liberal supply at their ticket office in this place for the public.

All persons planning a vacation, or intending to attend some of the summer school will be interested in the Bay View announcements. The public is invited to call for copies.

The F. & P. M. R. R. will as usual make very low rates to Bay View. Besides the low priced summer tourist tickets now on sale, half fare tickets to Bay View will be sold from July 8 to 17, inclusive, return limit August 15th. 418

Don't Stop Tobacco.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user becomes a stimulant to the system, continually craving. DO YOU WANT TO STOP TOBACCO?

You Can Be Cured While Using It.

The habit of using tobacco grows on a man until grave diseased conditions are produced. Tobacco causes cancer of the mouth and stomach; dyspepsia; loss of memory; nervous affections; congestion of the retina; and wasting of the optic nerve resulting in impairment of vision, even to the extent of blindness; dizziness, or vertigo; tobacco asthma; nighty suffocation; dull pain in region of the heart, followed later by sharp pains; palpitation and weakened pulse, resulting in fatal heart disease. It also causes loss of vitality.

QUIT, BEFORE IT IS TOO LATE.

To quit suddenly is too severe a shock to the system as tobacco—to an inveterate user, becomes a stimulant that his system continually craves. "BACO-CURO" is a scientific and reliable vegetable remedy guaranteed to be perfectly harmless, and which has been in use for the last 23 years having cured thousands of habitual tobacco users—smokers, chewers, and snuff-dippers.

YOU CAN USE ALL THE TOBACCO YOU WANT WHILE TAKING "BACO-CURO." IT WILL NOTIFY YOU WHEN TO STOP. WE GIVE A WRITTEN GUARANTEE to permanently cure any case with three boxes, or refund the money with 10 per cent interest.

"BACO-CURO" is not a substitute, but a reliable scientific cure—which absolutely destroys the craving for tobacco without the aid of will power, and with no inconvenience. It leaves the system as pure and free from nicotine, as the day you took your first chew or smoke.
