

THE PLYMOUTH MAIL.

VOLUME XIII, NO 41.

PLYMOUTH, MICH., FRIDAY, JUNE 15, 1900.

WHOLE NO. 666.

AN ORDINANCE.

An ordinance granting to Thomas Muir and Patrick E. Kinsella, their successors, associates and assigns, hereafter to be organized into a corporation under the laws of the State of Michigan, and to be known as the Detroit, Plymouth and Ann Arbor Railway; or to any person or corporation succeeding to its property rights, the right to construct, maintain and operate a street railway on certain streets in the village of Plymouth, county of Wayne, as may be hereinafter designated.

The village of Plymouth ordains:

Section 1. That consent, permission and authority are hereby given, granted and duly vested in the said Thomas Muir and Patrick E. Kinsella, their associates, successors and assigns, to construct, maintain, use and operate a single track street railway with such necessary switches, turn outs and connections as the village council shall approve, on and along the streets, from the southerly limits on South street, running northerly to Ann Arbor street, thence west on what is known as the Ann Arbor road to the westerly limits of the village of Plymouth, for a period of thirty (30) years from and after the acceptance of this ordinance, upon the following terms and conditions, to-wit:

Section 2. The track of the said street railway shall be of a gauge of four feet, eight and one-half inches in width and shall be laid with "T" rails. The location of said tracks through the village shall be in the center of above mentioned streets or roads, and the location of the poles for the said street railway line shall be as ordered by the village council at the time of its construction, and at such times as changes in width of streets and other such conditions shall render necessary.

The said Street Railway shall, at the time of laying the tracks, plank or fill with gravel, cinder or crushed stone, as the council shall direct, the space between the rails and eighteen inches outside of same, so that the railway track shall conform to the grades now established or hereafter to be established by said village council, and shall maintain the same; and in the event of the said village paving the streets thus occupied by street railway, then the said street railway shall at the same time pave with same material as shall be used in the streets adjoining their tracks, that part of such streets lying between their rails and eighteen inches on the outside of said rails.

The poles erected within the village shall be of uniform size, selected to give good alignment, and shall be painted and kept painted. The main feed wires extending through the village shall be properly and safely insulated.

Section 3. Cars upon said railway shall be propelled by electricity or any other motive power, other than steam, which is or may become suitable for street railway purposes, and cars shall be run over said railway not less than hourly trips each way daily, between the hours of 6:30 a. m. and 11:30 p. m., and more frequently as the business shall from time to time demand. The rolling stock and general equipment of the line shall be equal to that of the Detroit, Ypsilanti & Ann Arbor railway.

Said grantees, their successors and assigns shall be entitled to run trains for construction, light freight or other purposes, for general traffic, provided same shall not interfere with the regular passenger service.

The street railway shall at all times be entitled to the tracks, and vehicles shall turn out when signalled and leave railway tracks unobstructed.

The speed of railway cars through the village shall not exceed ten miles per hour, or as the village council may direct.

Section 4. A station and waiting room at a convenient stopping place for the passenger and other cars of the street railway shall be provided by said railway company within the village of Plymouth.

Cars shall be stopped at street crossings within the village when so required for the convenience of passengers, but they must not obstruct street walks or street intersections.

Section 5. The said grantees, their successors and assigns shall be entitled to charge at the rate of one and one-half cents per mile, except as hereinafter provided, for the carriage of a single passenger for one continuous trip over said railway between the city of Detroit and the city of Ann Arbor, provided that no passenger shall be carried any distance for a less fare than five cents. Tickets shall be put on sale for single continuous trips from the village of Plymouth to City Hall in Detroit, at the rate of thirty cents, and from said village to the city of Ann Arbor at the rate of twenty cents, and for sale by conductors of the road. School tickets, eight for twenty-five cents, good only within the township of Plymouth, shall be put on sale by conductors. Children under the age of six years, when accompanied by parent or guardian, shall be carried free. Mileage books covering 500 miles for \$5.00 shall be put on sale, the conditions being that coupons shall be detachable for each five miles or fraction thereof.

Section 6. Nothing in this ordinance or grant shall take from the village council the control of the streets or highways to be occupied by said street railway, nor put the village under any liability or damage claims for obstructions to the railway service when said street is being opened up for laying, changing or repairing underground pipes, provided reasonable care and attention are exercised by those employed to do such work for said village to obviate any delays and obstructions to the railway service.

Section 7. The grantees, their successors and assigns shall furnish and maintain electric lights within the village at all street crossings and high-way intersections, and at their waiting room or station, within the times their cars are running after sundown of not

less than 80 candle power.

Section 8. The grantees, their successors and assigns shall construct and maintain a suitable bridge on Ann Arbor street, over the "Tonquish," extending from inside of walk on south side of street, 44 feet north, and to widen the grade of Ann Arbor street from South street to village limits 18 feet from center each way, and all other streets that may be occupied by them and the same to be gravelled with good washed gravel the entire width.

The bridge on South Main street to be extended on the west end a distance of ten feet, of the same construction as the one now there, and the entire bridge to be kept in repair by said grantees.

Section 9. The said grantees, or their successors and assigns, shall build and put into operation within one year from the date of the acceptance of this ordinance a continuous line of street railway to and between the cities of Detroit and Ann Arbor, provided that if said construction shall be delayed by injunctions or other action of the courts the delay so caused shall not be computed in the time herein granted for said construction and equipment. The work of construction within the village shall be fully completed within 90 days from its commencement, and one street or section shall be fully completed before the other is broken or occupied by said grantees.

Section 10. The terms, conditions and agreements contained in this ordinance shall constitute a binding contract between said village of Plymouth and the said grantees, their successors and assigns, and this ordinance shall take effect upon its acceptance in writing by said grantees within ten days from its passage.

Section 11. To secure the construction of the line, including street and bridge work, as herein specified and called for, a certified check for the amount of one thousand dollars made payable to the treasurer of the village, shall be lodged with the treasurer prior to commencing work within the village, which money may be drawn out upon orders of the President and Clerk and used by the council for the completion of any portion of the work which the said grantees, their successors and assigns may fail to complete, and the said check or funds thus deposited, or any such portion as may not have been called for, shall be returnable to the grantees, their successors and assigns promptly upon the fulfillment of their undertakings herein set forth.

Section 12. The grantees shall pay all expenses incidental to the granting of this ordinance by the village council. In witness whereof, we have hereunto set our hands and seals this sixth day of June, 1900.

Geo. A. STARKWEATHER, President.

H. J. BAKER, Clerk.
Adopted June 6, 1900.

The country will remember the case of Mrs. Ricardo Ruiz, whose American husband was brutally murdered in a Cuban prison by his Spanish guards. Afterwards, Mrs. Ruiz was brought to the United States by one of the New York yellow journals for advertising purposes and exploited until the public lost interest in her. Under the treaty of peace with Spain, our government assumed all claims of American citizens against Spain, and that of Mrs. Ruiz for \$50,000 was among them. Her condition is now a most pitiable one, as she has no money at all, and the yellow journal which brought her away from her friends, has deserted her. By teaching Spanish in the daytime and sewing far into the night she has barely been able to keep the wolf from the door. She has been forced to divide her little family, sending her oldest son to New York, two daughters to a Catholic institution in Baltimore, and keeping two young children with her. Now one of these has fallen and fractured her skull and Mrs. Ruiz' cup is full to overflowing.

Governmental aid to the St. Louis exposition to the amount of \$5,000,000 got through the House at almost the last moment as a rider tacked on the sundry civil appropriation bill, when it did not belong, but where it had been placed by the Senate. Speaker Handerson tried to prevent a vote on the subject as he believed if the House was given an opportunity to vote on it, it would be agreed to. When the question was taken up the leaders continued their fight, and appealed to their associates to stand by the rules of the House which provide against putting new legislation in appropriation bills. For a time it looked very squally for the exposition, but the Missouri delegation appealed to the Illinois members to help them and they did so. How successful they were is shown by the vote, which was 127 to 75 in favor of the exposition.

You may as well expect to run a steam engine without water as to find an active energetic man with a timid liver and you may know that his liver is timid when he does not relish his food, or feels dull and languid after eating, often has headache and sometimes dizziness. A few doses of Chamberlain's Stomach and Liver Tablets will restore his liver to its normal functions, renew his vitality, improve his digestion and make him feel like a new man. Price 25 cents. Samples free at Meier's drug store.

Here is some political fact and speculation of timely interest: The total vote in the electoral college will be the same this year as it was in 1896, when McKinley received 271 electoral votes and Bryan 176. These states, whose electoral votes were given to McKinley, Delaware, Indiana, Kentucky, Maryland and West Virginia, are said to be more likely to favor than to be against Bryan this year. But if these five states should give Bryan their electoral votes and he should lose none of the states that he carried in 1896 he would have only 200 electoral votes, the Republican leaders say, against 227 for McKinley. The Republicans expect to get the 1 vote given for Bryan in California and the 1 vote for him in Kentucky, besides the 10 of Kansas, the 8 of Nebraska, the 4 of South Dakota, and the 4 of Washington, 28 in all. If Bryan should get the 44 votes of Delaware, Indiana, Kentucky, Maryland and West Virginia, he would have a net gain of only 13 votes.

The first session of the fifty-third congress closed Thursday. It was a very busy congress. We refer briefly to some of its accomplishments. The new territorial possessions have received much attention and forms of government have been given to Porto Rico and Hawaii. Important changes have been made in the laws regarding the finances. The declaration of the gold standard was made specific. The Nicaragua bill has passed the house and been put on the senate calendar for Dec. 10. Anti-trust legislation has been advanced. The Pacific cable measure has passed the senate. Roberts of Utah, Quay of Pennsylvania and Clark of Montana, have been given to understand that there is dignity and honesty in congress. The total appropriations for the session are about seven hundred million dollars. The Pago Pago harbor treaty has been ratified. The general pension laws have been materially changed in accordance with the wishes of the G. A. R. The free homes act has become a law, opening to free homestead entry many millions of acres. The naval appropriation bill adds two battleships, three armors and three protected cruisers and five submarine boats to the naval strength.

The seventh grade did great credit to themselves in the exercises that they gave last Friday afternoon. Especial pains were taken to decorate the school room with flowers and flags, so it presented a very pleasing appearance. The fourth grade who furnished most of the music did finely and received much praise from the visitors present.

All of the pupils, except the little ones in the kindergarten, marched to the depot with banners flying to see Admiral and Mrs. Dewey last Monday morning. The Admiral expressed great pleasure on seeing them and after a few pleasant words, he gave out some flowers which were worn home with great pride by the children.

The baccalaureate sermon will be preached at the Presbyterian church next Sunday evening. Rev. Beckwith, pastor of the Baptist church, will deliver the sermon, and a male octet will furnish music.

As already announced the graduating exercises of the class of '00 will be held at village hall, Friday evening, June 22. The class consists of five—Verna Leone Root, Zada Helen McClumpha, Carrie Gertrude Ahleson, Luella Maude Rosenburg and Raymond Alfred Ryder. Following is the program, the music being rendered by the Conservatory Male Quartet from the State Normal College:

Miss Mary Schoettle, teacher in the kindergarten, was called home Monday by a message from Crosswell, Mich., announcing the death of her father. Her place is being filled by Miss Maude M. Spangh.

Some of the teachers will go on an excursion from Detroit to Port Huron to-morrow. It is the last meeting of the Wayne County Teachers' Association for this year, and the program will be given on the boat while returning from Port Huron. The beautiful steamer, Tashmoor, has been chartered, and any teachers or their friends in town who would like to go can obtain

coupons which will enable them to get the reduced rate tickets from Mr. Rogers, or from Commissioner Yost in Detroit. Fare for round trip is 50 cents and the steamer will start from the foot of Griswold street at 9:00 a. m. city time and will return to Detroit at 8:30 p. m. The teachers will take their own dinners.

LIVONIA CENTER.

The remains of Aunt Hannah Harlow were interred here in the Center cemetery on Sunday last. Rev. Stephens of Plymouth, preached a very interesting sermon from Isaiah, 64th chap., 6th verse.

Mrs. A. Stringer returned home Tuesday after a visit with her niece, Mrs. Leslie, at Delhi.

Mr. and Mrs. E. C. Leach visited at the farm on Wednesday.

Mr. and Mrs. Asa Lyon, of Plymouth, spent Sunday at the home of the latter's parents, Mr. and Mrs. John Baze.

Mr. and Mrs. Law and children called on friends at the Center Monday. It seemed natural to hear little Mile's "hello" once more.

The board of supervisors Monday settled the question as to who is to build the elevators in the new county building, after months of argument, junkets and readvertising. The contract for the machinery will go to the Otis Elevator Co., at \$34,610, and the contract for the cars and inclosures to the Winslow Co., of Chicago, at \$7,500, making the total cost \$42,110.

FOR SALE. Farm of 64 acres in Plymouth township on section 33. Enquire of E. McClumpha, Plymouth.

J. R. Rauch & Son will handle harness goods and supplies.

Mr. W. S. Whedon, Cashier of the 1st National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He got a bottle of it from the druggist here and informed me that one dose cured him, and he is again at work." For sale by Meier's drug store, Plymouth.

THE CHINESE CRISIS

THE SOLE PURPOSE OF THE POWERS TO BRING PEACE.

AMERICAN MARINES ORDERED TO THE LAND OF THE CELESTIALS.

ALL NAVAL FORCES EXCEPT RUSSIA UNDER BRITISH ADMIRAL.

Washington, June 12.—The Chinese crisis continues to be an absorbing topic at the foreign embassies and legations in Washington, but the prevailing sentiment is that it will be confined to mob outbreaks and will not eventuate in a territorial dismemberment involving the various powers. It is pointed out that up to this time the foreign powers have stated most positively that their sole purpose was to restore order and protect their citizens and property, and while there has been some suspicion of an ulterior motive on the part of some of them this has not taken form. On the contrary all the official declarations have disavowed anything more than a restoration of order. That serious international entanglements are not expected soon is indicated to some extent by the departure from this city of the foreign representatives.

The navy department has received the following cablegram from Admiral Kempff: "In case all communication with the Chinese coast is cut off, if other nations go to the aid of the Chinese coast, I will join to relieve American pending instructions. Situation serious. Battalion of marines from Manila has been urgently requested." Upon receipt of the above, Secretary Long sent the following cablegram to Admiral Bessy at Manila: "Send by cable immediately with all dispatch to Kempff 100 marines, arranging if practicable that after landing Soloco shall continue homeward voyage as previously ordered."

Tien Tsin, June 12.—The captain in charge of the British defenses here has commanded a third and special train for the transport of 213 Russians and two guns and 62 French marines, with stores and one gun for the British. The international forces are near Lang Fung, forty miles from Pekin, but it is doubtful if they reach the capital before Tuesday.

London, June 12.—A special dispatch from Shanghai, dated today, says: "All the naval forces except the Russians are acting under the orders of the British admiral. It is reported that the head of a foreigner has been seen exposed on a pole northwest of Tien Tsin. The Chinese are fleeing from Pekin and Tien Tsin to Shanghai. There are ominous indications of outbreaks in the Yang Tse district. All classes of natives in the north display intense hostility toward foreigners, and the Chinese soldiers point their guns at foreigners as they pass."

London, June 12.—The Shanghai correspondent of the Daily Express telegraphing Monday, says: "Wang Tung Ho, emperor Kwang Hui's tutor and confidant, who was dethroned by the defender emperor after the coup d'etat in 1908, sends with the special sanction of the emperor and his party, including three viceroys, a message to the people of the west. In part it is as follows: 'His majesty is convinced through ample trustworthy sources, that the loyal support of many scores of millions of the Chinese will be accorded to his proposals for putting an end to the state of anarchy brought about by the action of the emperor Hsiang Tai. The government of China being virtually non-existent, the emperor proposes that the foreign powers whose troops dominate the capital shall remove the imperial person from the palace in which his majesty is confined a prisoner, shall declare Empress Hsi Tai and her present ministers to be usurpers and shall bring Emperor Kwang Hui to Nanjing, Wuchang, or Shanghai, whichever the said foreign powers deem to be the most suitable situation for the new capital of the Chinese empire, under the new conditions. It is proposed by his majesty and his advisors that the foreign powers should declare a joint protectorate and undertake the task of governing the country through his majesty.'

Dewey at Lansing.
 Lansing, Mich., June 12.—Fully 20,000 people welcomed Dewey here Monday and gave him enthusiastic applause as he rode through the principal streets in a carriage. The train reached here from Detroit at 11:15 and a stop of forty minutes was made. The admiral was met at the station by Mayor Hammett and the reception committee. The party was driven through the town and the large crowd was able to get a glimpse of the admiral during the victory. There were several bands of music, the Governor's Guards, several hundred industrial school boys, the College Cadets and the G. A. R. in line, but no street parade was given on account of lack of time. The various organizations were drawn up in front of the capital where they were reviewed by the admiral as he passed along.

Storm Did Great Damage.
 Eaton Rapids, Mich., June 12.—Reports from all the surrounding country give Sunday's storm as the worst in years. The wind divided about three miles west of this city, going north and south and doing an immense amount of damage, destroying orchards, barns, windmills and leveling everything in its path.

Charged With Forgery.
 Menominee, Mich., June 12.—A man giving the name of Guy Morse was arrested and held for trial on a charge of forgery Monday afternoon. He attempted to pass a forged check for \$25.00 against the Holt Lumber Co. of Oconto.

TROOPS FOR CHINA.

Ten Thousand Soldiers of All Nationalities to be Sent There.

London, June 12.—The admirals at Taku, acting in concert, are forcibly reopening the railway from Tien Tsin to Pekin. Gangs of laborers are repairing the damaged line, which is guarded by 1,500 men, composed of detachments from the foreign fleet. One hundred Americans under Capt. McCalla are among them. They have guns and armored trains for use when the line is repaired, which can hardly be effected before Monday night. Ten thousand troops of all nationalities, according to a dispatch to the Daily Express from Shanghai, will be sent to Pekin to back up the demands of the minister upon the government, or, if necessary, to suppress the "Boxers" themselves.

Tien Tsin, June 11.—About 1,500 foreign troops of all arms left for Pekin by two troop trains this morning. Hong Kong, June 11.—Two hundred and fifty men of the Welsh Fusiliers also Sappers and Miners have been expected to hold themselves in readiness to proceed north on account of the "Boxer" disturbances. Their places will be filled by troops from India.

Contribute to the Church.

Benton Harbor, Mich., June 12.—The fruit crop with the abundance of strawberries that are now going on the market puts the farmers to their wits end how best to keep the most perishable articles from being destroyed. There is a sentiment that prevails among the better class that berries should not be picked on Sunday. However, it has been proven that returns from Monday morning market in the city are far the best. Sunday a fruit grower eased his conscience by picking at the early dawn his strawberries drove to the church at which he regularly worshiped with his wagon load of fruit and deposited a slip in the contribution which entitles the holder to one-half the returns of his berries for today's shipment.

No News From Congo.

Washington, June 12.—Not a word had been received by the state or navy departments up to 9 o'clock Sunday night regarding the situation in China. Minister Conger has been in almost daily communication with the state department for the past week so that the failure to hear from him is somewhat unusual. The general interpretation put upon his silence is that affairs have remained practically unchanged. At the same time the minister has been fully advised by the officials here as to his course in dealing with the situation so that he would be fully prepared to get without further communication with the state department. Several dispatches came to the navy department during the day but none of them were from Admirals Remy at Manila or Kempff in charge of the Asiatic squadron and now at Taku. The latter's force will be increased soon by the arrival of the Monocacy and the Nashville. With the additional marines these vessels accommodate the available force of men subject to Minister Conger's needs or demand will be considerably increased.

Cubans Want a Navy.

Havana, June 12.—Gen. Lacroix has brought before Gen. Wood the plan which, five or six years ago, for forming a Cuban navy, to be composed of the outfit of sixty vessels, having in view for the present the protection of Cuban fisheries and the prevention of smuggling.

He desires that all the naval property be turned over to the Cubans and that a large staff be employed at the naval arsenal in repairing ships, which could be made self-sustaining. In the scheme many officers are arranged for, together with numerous clerks of departments and sub-departments. Last year the entire plan was rejected as unnecessary. It being felt that 12 small revenue cutters would be adequate and that those could be maintained much cheaper in connection with the customs department. Gen. Wood takes the same view and the Cuban navy, therefore, will probably remain in abeyance until Cuba is independent.

Clark's Reception.

Clark, Mont., June 11.—Hon. Wm. A. Clark, who resigned his position as United States senator from Montana and who was immediately appointed to the vacancy by the sitting governor, reached home Sunday and was given a tremendous ovation. When the train pulled into the Northern Pacific depot several thousand people were waiting and as the senator stepped from the car he was greeted with cheers. A band of musicians had been engaged. When the senator had been almost carried to his carriage, the crowd formed in line, and headed by the band, led the procession up town. It is estimated that 4,000 men were in line while many times that number lined the streets along the route.

Killed Five Persons.

Mosheim, Arkansas, June 12.—Postmaster Alex. McArthur and four members of his family were killed and another fatally wounded at Welton, 10 miles north by John Morrison, the hired man, during a fit of insanity. Morrison shot himself in the chest after committing the crime. The dead are Alex. McArthur, father; Mrs. Alex. McArthur, mother; Demsey McArthur, aged 12; Chas. McArthur, aged 5; Russel McArthur, aged 4. The wounded—Mamie McArthur, aged 6; Henry McArthur, aged 2; Baby McArthur, aged 3 weeks, fatally.

Robber Killed.

Chicago, June 12.—James Delaney, a private watchman, and a man suspected of being a burglar and believed to have been named M. H. McCauley, fought a short and fatal duel shortly after 1 o'clock this morning in Madison street. The supposed robber was shot dead. Delaney was shot twice and at the county hospital one of the wounds was pronounced serious. Part of the four bullets fired found a mark. The shooting took place in the presence of a crowd.

THEY ARE STAGGERED

THE PHILIPPINE COMMISSION WITH SUGGESTIONS.

TRAINING OF NATIVES NECESSARY TO GOOD GOVERNMENT.

TWO HUNDRED FILIPINOS KILLED IN LAST WEEK'S SCOUTING.

Manila, June 12.—Judge W. H. Taft and his colleagues of the Philippine civil commission were beset during their first week in Manila by a multitude of callers of all nationalities, professions and interests, who presented a bewildering assortment of recommendations touching military and civil policies. The commissioners maintained the attitude of unprejudiced listeners. They admit that while they anticipated an enormous task, the complexity and difficulty of the problems and conditions are well nigh staggering. They are determined, however, with the cooperation of the army in pacifying as well as in fighting, to make the Philippines a peaceful and honestly governed country before departing.

They find Gen. MacArthur administering affairs in a way that is universally popular. The Filipino party, embracing prominent insurrectionists who accepted American rule through force of circumstances, is already making overtures for the discussion of a scheme of permanent government, practically reviving the old proposition of autonomy under an American protectorate.

One of the foremost questions is how and from what materials to organize a civil force with which gradually to supersede the army as a governing machine. Spain's auxiliary, the church, is necessarily barred from consideration. American experience with the natives discourages the hope of honest government through them until a generation or more of training shall have eradicated the results of Spain's tutelage. A large proportion of the provincial officials already installed have proven treacherous, while the native police and officials here in Manila are living on a scale of luxury suspiciously disproportionate to their salaries. Charges against native judges of falling to account for thousands of dollars received in fines are under investigation.

At present the governmental alternatives are the army on one hand and anarchy on the other. Ota's plan of municipal government is being inaugurated in the principal towns of central Luzon and in parts of the Visayas but the Filipinos persist in thinking that the question whether the United States will retain the Philippines is still open and some local leaders ask that municipal elections be postponed until after the presidential election. Many people object to taking the oath of allegiance to the United States government which is the first qualification for voting for municipal candidates.

As a result of last week's scouting more than 200 Filipinos were killed and 100 captured, while 140 rifles, with ammunition and stores, were secured. The American loss was nine killed, including a captain and a lieutenant; two captains and twenty-one privates wounded and one captain taken prisoner by the Filipinos.

FOUR PERSONS KILLED.

And Twenty-Five Injured in a Collision at Providence.

Providence, R. I., June 12.—By a collision which occurred in Warwick on the suburban line of the Union Railroad company Sunday noon, two regular cars striking and on four persons were killed and about 25 injured, of whom three are probably fatally hurt. The dead are Arthur Lincoln; George W. Baker, 18 months old; Lewis C. Sawden, Providence; Ed. D. Burroughs, motorman.

The injured are Lieut. Gov. O. O. Kimball, Providence, not expected to live; C. N. Kinsley, Pawtucket; Mrs. Kingsley, Pawtucket; Wm. Mallet, 1 Prime street; H. A. Palmer, 22 Weymouth street; H. T. Palmer, 228 Point street; E. B. Bragg, 41 Carpenter street; Mary Tourtelot, 156 Lockwood street; Wm. J. Bogarty; Owen J. Harley, Mansfield; Mrs. Boonry and son, 1 Redwing street; D. Babcock, 131 Chapin avenue; George Baker, 108 Irvington street; Mrs. Baker; Florence Baker; Thos. Jackson and Mrs. Jackson, 18 Olla street; E. J. Fleming, Mrs. Fleming and two children, 28 Sumner street; unknown woman, 32 years old; J. E. Brown, 478 Friendship street; E. E. Munroe, Gakind Bench; Henry Hamlin, car motorman; Claude E. Harrier, conductor.

Dewey Enjoyed a Drive.

Detroit, June 12.—Admiral and Mrs. Dewey were driven about the city yesterday afternoon accompanied by Mayor Woodhull. The party over the principal streets and visited the city park. They were attended by a carriage but successful crowd of people in carriages and on bicycles, and they were the observed of all observers. They expressed themselves as well pleased with the city yesterday and their visit to this city. George G. Dewey, the admiral's son, came over from Chicago yesterday to see his father. He expressed regret at not being able to be here for Saturday's parade. A delegation from Grand Rapids arrived in the city, and the distinguished guests left for that city at 9 o'clock this morning.

Wind Storm in Illinois.

Springfield, Ill., June 11.—A terrific wind storm passed over this section Sunday. In Springfield a number of shade and fruit trees were destroyed, and reports from neighboring cities for a radius of 40 miles show great damage done to fruit trees. At Petersburg and Athens several buildings were injured and at the latter place the tower of the electric light plant was destroyed. The damage will aggregate thousands of dollars.

HABITS OF HOGS.

THEY ARE INTELLIGENT ALWAYS AND FASTIDIOUS WHEN THEY HAVE A CRANCE.

Hogs are not stupid, the proverb and the popular mind to the contrary notwithstanding, says the Washington Post. In herds they are tremendously gregarious. They feed and range and sleep in gangs. Their leaf beds are heaped together as soon as frost falls. The older animals begin the heaping, and the pigs quickly fall in line. At first the mound is moderate, but when cold or snow threatens it grows as if by magic. Not only leaves, but low, bushy brush and straw sedge are gnawed off and carried in great mouthfuls to re-enforce the bed. If 20 hogs are to sleep in it, it will be breast high to a man before the accumulation ceases. Then as soon as feeding is over the hogs make a dash for it, burrow under and bury themselves, head and ears, in its depths. They lie cross and pile—any fashion, indeed, which brings them as close together as possible. As the cold strengthens in the night those upon the outer edges push themselves under and between their sleeping mates, thus rousing them to squeal discontent.

A suckling sow makes her own bed and fights away from it everything except her pigs. She heaps it conically, gets upon top, works herself half way down in it, then whirrs around and around until she has hollowed for herself and her piglets a snug nest. After she lies down in it with her pigs strung along her side she rises upon her fore legs and with her snout flirts the bed stuff all over her litter. Upon a bitter day the pigs do not leave the bed. Hogs of every sort indeed lie asleep through the cold unless driven out by hunger.

Hogs learn quickly to discriminate. They will set up a prodigious squealing when hungry at sight of their habitual feeder, yet pay no attention

WITH COVERED HOG TROUGH.

whatever to any other person. They also learn their own calls as distinguished from those of other animals. Up in the region of mountains and moonshine whisky hogs are called with long wooden trumpets, whose sound is like that of a hunting horn, but more powerful and carrying farther. Revenue vigilance is of course the horn's reason of being—its blasts do not awaken suspicion as would the usual calling. The hogs ranging miles of mountainside come when they hear the trumpet a little before daylight for their beloved swill, but cannot be fooled by blasts of any other horn.

Similarly once upon a time three pet pigs were trained to come for their morning mush and milk at the sound of Dixie most vigorously snug. They never failed to hear and heed, even though half a mile off, yet paid no attention whatever to any other song or sound. Another pig, friendless and stray, fell into the way of feeding with the cows in pen and until he was transfused into bacon answered only to the call of "Sook cow! Sook-sook!" And still another learned to regulate feeding by the sound of the big farm bell and came grunting and joggling to the trough whenever he heard its clamor.

While a fat pig is about the laziest and the clumsiest of created things one lean and hungry is among the most active in mind and body. A fearless forager, the fence that turns him has to be almost bullet and bomb proof. He learns to climb post and rail as a dog climbs to throw down snake rail after the manner of breachy cattle, to evade barbed wire as shrewdly as a politician evades the fulfillment of a promise and to worm his way through everything in a manner to justify the angry farmer who said, "I don't know about a camel going through the eye of a needle, but if it was a hog I'd bet on his doing it every time."

Horses' Coats.

Nature provides the horse with a fine and comparatively short coat for summer wear and a coarser and longer one for winter use, says the London Live Stock Journal. The animal sheds the former covering during the autumn and the latter during the spring. The hairs of the forelock, mane and tail and the long hairs about the muzzle and eyes are not shed. Good grooming and the use of warm clothing greatly tend to reduce the difference between the summer coat and the winter coat. If while the coat is being changed in the spring the brush or other means be employed to hast

FRIDAY, JUNE 15, 1900

The Secretary of Agriculture has learned that the thousands of cayuse ponies annually killed in the north-west and shipped abroad, are sold in Sweden as reindeer. As is well known in the west, the cayuse pony is an animal weighing about 700 pounds and lives almost exclusively on grass. Many of them never did a day's work, and it is said their meat is of a delicate flavor. Considerable damage is done to the grazing lands of the west by these horses, and frequently it becomes necessary to shoot them for the sole purpose of getting rid of them. Lately, however, a new industry has sprung up, and at Portland these horses command about \$5 each when sold in lots of 100 or more.

Congress has always got through a good deal of work in its closing hours. The most striking feature of the session has been the enormous total of the expenditures, which were over \$700,000,000, and exceeded those of the fiscal year 1898 by nearly \$180,000,000. It is estimated that over \$131,000,000 of this amount are due to the war with Spain. After this has been deducted and similar estimated expenditures for the same purpose in the last three years have also been deducted, it appears that the ordinary civil expenditures of the Government still break all records exceeding those of 1900 by about \$24,000,000; those of 1899 by about \$48,000,000 and those of 1898 by about \$50,000,000.

Senator Hanna has announced that the Nicaraguan canal bill will be called up for consideration on December 10, next. During the summer, the administration will hold the Canal Commission closely to its work, insisting on a full report not later than December 1. In the meantime, our minister to Nicaragua and Costa Rica, will be instructed to make provisional treaties with those republics, defining the terms upon which we can procure the necessary concessions. Arrangements of a corresponding tentative sort will be made with the Panama company. These treaties and provisional compacts will be sent to the Senate at the same time with the submission of the commission's report, and the whole matter will then be in the hands of Congress.

Gen. Wheeler has been created a brigadier in the regular army, thus resuming the post he surrendered at the beginning of the civil war. He is the first confederate soldier to receive such an appointment. The dashing little cavalry leader has had this in his mind's eye since the beginning of the Spanish War, and the appointment is immensely popular in Congress, and particularly among the confederate veterans here in Washington. Gen. Wheeler, of course, will soon retire on three fourths of the pay of a Brigadier General, so that his appointment gives the President an excellent opportunity to heal the last scars of the Civil War while at the same time no injustice is done to the officers in the regular army. The President also wishes to appoint Generals Lee and Wilson to similar offices, but cannot do so because they are over the age for retirement.

The people of the United States are paying a million dollars a day for tropical products used in the manufacturing, or food and drink, and most of which are produced in greater or less degree, or can be readily produced in the islands which have come into closer relationship with the United States through the events of the past two years. The April Summary of Commerce and Finance, which has been issued by the Treasury Bureau of Statistics, shows that in the ten months ending with April, our imports of tropical products have been over \$300,000,000 in value, thus averaging fully a million dollars a day and indicating that for the full year they will reach \$365,000,000. India rubber, fibers, raw silk, cotton, gums cabinet woods, indigo, ivory, dyewoods and certain lines of chemicals make up the share of this vast sum which the manufacturers alone take and require in constantly increasing quantities.

A TRIUMPH OF SURGERY.

The Case of a Man Who Swallowed His Suspenders.

A case recorded in the Boston Medical and Surgical Journal by Dr. M. H. Richardson is a remarkable example of the extraordinary feats in swallowing foreign bodies sometimes performed by men.

A man, aged 20 years, was admitted to the hospital. He said that two weeks previously, while he was in a despondent state, he had endeavored to swallow his suspenders and had succeeded in getting down certain portions, but how much he had swallowed he could not tell. He did not complain of pain, but rather of discomfort under the breast while eating. The food at times passed easily into the stomach. At other times it was regurgitated immediately. Nothing could be seen in the throat. With a probe some obstruction was felt.

A skiagram showed a suspender buckle at the middle of the chest and possibly another higher up. As the chief danger in esophageal impaction is from ulceration into the great vessels, especially when the foreign body has sharp edges, and as fatal erosion usually takes place in two weeks or less, it was concluded that if there was any erosion it was sufficiently advanced to make even the most careful manipulation dangerous. The problem was how to perform extraction without producing fatal hemorrhage.

The throat was opened, and with a pair of forceps, a string attached to a brass ring and then half a suspender with two buckles and finally a third buckle were removed. A probang was passed into the stomach without meeting with further obstruction. The wound was closed with silk sutures, and recovery ensued.

Obituary.

Sexton Macomber was born in Vermont, March 22, 1816, and when one year old came with his parents to York State. He was married to Mary Baldwin, Sept. 7, 1857, and then removed to Chicago for one year; then came to Michigan, where he resided until his death, which occurred June 12, 1900. He has been the father of ten children, of whom eight and his widow survive him. Funeral will be held at the M. E. church this afternoon at 2 p. m., Rev. Stephens conducting the services.

A CRY FROM NATURE.

A Warning that Should Be Heeded by Every Sufferer.

Nature soon rebels when the human machinery is out of order. Her appeals for help should be quickly answered. Life is too short and dear to us to neglect our health.

When the system becomes run down, the blood impure, the liver torpid, nerves all on a quiver, and the stomach refuses to do its work, then nature utters her warning note. It may be a sick headache, nervousness, dyspepsia, catarrh, loss of appetite, insomnia, languor, constipation, but it is nature's signal of distress.

The human machine should be attended to without delay. The system needs building up, the impurities must be driven from the blood, the liver made to do its work, and the stomach placed in a natural, healthy condition.

Knox Stomach Tablets are a new combination of vegetable-remedies compounded by one of the best chemists in the world; and are guaranteed to build up the whole system. They do not act as a stimulant, but are a sarsaparilla in tablet form, containing twice the medicinal properties of any other combination known. They give health and strength to the entire body and immediately relieve indigestion and positively cure dyspepsia. A single box will prove their power to cure chronic invalids and make them strong, healthy men and women.

If unable to secure Knox Stomach Tablets of your druggist, send fifty cents to the Knox Chemical Co., Battle Creek, Mich., and a full sized package will be sent postpaid.

In the War

Comrade S. H. Burtis of Leighton, Ill., had some thrilling experiences, but none seemed more dangerous than those of his late heart trouble. He says:

"I had severe palpitation of the heart for years. My physicians said I was liable to drop dead any moment. Palpitation at times would be 150 a minute and I could scarcely breathe. I grew worse under doctor's care and began taking Dr. Miles' Heart Cure. It gave me prompt relief, and today I am in good health."

It is sold by all druggists on guarantee first bottle benefits or money back. Book on heart and nervous system free. Dr. Miles Medical Company, Elkhart, Ind.

Does It Pay to Buy Cheap?

A cheap remedy, or coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the ONLY remedy that has been introduced in all civilized countries with success in severe throat and lung troubles. "Boschee's German Syrup" It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try ONE bottle, Recommended many years by all druggists in the world. Sample bottles at 93 Pharmacy.

Probate Notice.

STATE OF MICHIGAN, County of Wayne, ss. At a session of the Probate court for said county of Wayne, held in the Probate office, the City of Detroit, on the eleventh day of June, in the year one thousand nine hundred. Present, Edgar O. Durfee, Judge of Probate. In the matter of the estate of Eliza Ann Hodden, deceased. On reading and filing the petition, duly verified of Nettie F. Bradner, administratrix de bonis non with the will annexed of said estate, praying that she may be licensed to sell the real estate of said deceased for the purpose of paying the debts of said deceased and the charges of administering said estate. It is ordered, that on the tenth day of July next at ten o'clock in the forenoon, at said Probate office, be appointed for hearing said petition, and that all persons interested in said estate appear before said court, at said time and place, to show cause why a license should not be granted to said administratrix to sell real estate as prayed for in said petition. And it is further ordered, that a copy of this order be published three successive weeks previous to said time of hearing in the Plymouth Mail, a newspaper printed and circulating in said county of Wayne. EDGAR O. DURFEE, Judge of Probate. (A true copy.) JOHN F. PETERA, Deputy Register.

That Musical Bouquet.

The people who went to see "The Musical Bouquet" at village hall last Friday evening certainly did not regret the time and money spent. The late minstrel show given by the "colored boys" was fine, but the "Bouquet" went to the ladies just the same. Many of the acts and songs were parodies upon those of the minstrel show, and for that reason all the more appreciated. The author of the play, Miss Nettie Pelham, of this village, is to be complimented upon her ability to place upon the boards an originality in farce and burlesque, all of the lines and verses being adapted especially for those who were to represent the characters.

The Blossom family is composed of seven daughters. Mrs. John Quill and Grandma Blossom. John Quill has gone to the Klondike to make a fortune. Then comes a letter stating that unless the mortgage on the farm is paid, the premises would be sold. The family is sorely distressed at being turned out doors, that the girls finally resolve to "start a show." This is the prologue. The next act gives the "show," in which the Blossoms appear in songs and recitations. Mrs. John Quill acting as announcer. "Juniper," a negro boy, is also quite a feature in the performance. The first on the bill is a song by the "Bouquet," in which the Blossoms girls appear handsomely grouped in the shape of a bouquet. Grandma Blossom then sings a song—"Times Aint What They Used to Be." A monologue, by Juniper, was received with great applause. The "Kissing Bug," a song by the Blossom twins was nicely done. Pansy recited "The Boy Stood on the Backyard Fence," a parody on the "Boy Stood on the Burning Deck," in a most approved dramatic style, and was compelled to repeat the last verse. An illustrated song was nicely done by darkening the hall and raising a white sheet back of which a light was placed. Living "shadow pictures" were then produced on the curtain, and the effect was appreciated. Mrs. Philury Jarvis related a shopping experience which emphasized the oft repeated advice of The Mail to "patronize home industries."

The balcony scene of "Romeo and Juliet" was finely executed in burlesque by Myrtle and Rose Blossom. It was a great hit. An original poem by Grandma Blossom. Daisy and Violet Blossom sang "We're Poor Little Sisters," in a charming manner, and responded to an enthusiastic encore. Mrs. J. Q. gave some advice to women that was amusing. The richest thing probably was the song by Lily Blossom. It was an especial hit on Harry Robinson in his minstrel song "My Hannah Lady." Lily carried off the honors, surely. The performance closed with a chorus by the company. The performance was repeated Wednesday evening to a fairly good house. The total receipts of the two entertainments were \$32.85. The total expenses, \$32.13.

In coming south through the cut under the P. M. track above the Phoenix mills Saturday evening, the brake-chain on the car manned by Fred Dunn as motorman and Bert Phillips conductor, broke in two. Phillips pulled the trolley from the wire, the pole sprung up in the air and the next thing Bert knew his head was plowing up a sand bank. The car gained a big momentum and continued across the bridge and part way up the hill, see-sawing back and forth until it finally stopped on the bridge. What if the chain had broken going down the Phoenix hill north?

Who Vada. Miss Courtenay Morgan and her eminent company will be seen at the Northville opera house, Saturday night, June 16th, in a grand scenic production of the great Christian play, Quo Vadis. The play depicts the early struggles of the Christians against the brutal followers of Nero, when he was emperor of Rome, in defense of their faith. A thorough production, with all the scenic and mechanical effects will be given, as no expense has been spared to make this one of the greatest stage spectacles ever seen. Prices 25 and 35 cents.

Nitrogen, 1.65 to 2.47 per cent.
Ammonia, 2 to 3 per cent.
Phosphoric acid, 10 to 12 per cent.
Phosphoric acid available, 9 to 10 p.c.
Potash Nitrate, 1.17 to 4.75 per cent.
Potash K 2 O, 2 to 3 per cent.

Rev. Florence K. Crooker will occupy the Universalist pulpit next Sunday at 10:30 a. m. Subject of sermon—The Higher Service. No evening service.

Services in the Presbyterian church each Sunday afternoon at 3 o'clock. Sunday-School at a quarter before 2 o'clock. C. E. Society at 6:30 o'clock. Midweek meeting at 7:45 Wednesday evenings. Ladies' Aid Society on Wednesday afternoon. Rev. Wm. Jerome, of Northville, supplies the desk and leads the midweek meeting. Citizens and strangers gladly welcomed to free seats at all services.

There will be baptisms at the Baptist church next Sunday morning. Rev. Wm. Grow, of Pennsylvania, will assist Pastor Beckwith. Rev. Grow was the first pastor of the Plymouth Baptist church 57 years ago. The present church building was erected by him. This was Rev. Grow's first pastorate and it is the present pastor's first pastorate, so it is particularly fitting that Rev. Grow should assist in the first baptisms under the present pastorate. Everybody invited.

The audience at the Presbyterian church last Sabbath was smaller than usual, but those who were there heard an excellent discourse founded upon the apostles' enumeration of the qualities necessary to a symmetrical development of Christian character. Some of us who have attended a public installation of officers of the I. O. O. F. wondered whether Mr. Jerome had in mind the emblems of those virtues so conspicuously displayed in the lodge room of that fraternity, in selecting his subject. Perhaps the fact that the annual memorial services for that order were in progress at the same hour in the M. E. church might have been responsible both for the diminished attendance and for the subject chosen.—T. S. CLARK.

THE LONG ARM.

A Case of Plagiarism.

It was 6 o'clock in the evening, and
the editor of The Monthly Record sat
alone in his room at a large desk
strewn with papers and cuttings,

"I can't understand it at all," he was
thinking. "Except for the change of
scene and the matter of turning a col-
lusion into a fire the two stories are
practically identical."

"Dear Sir—If the author of the short
story, 'The Solitary Soul,' will call at
this office at 3 o'clock on Thursday after-
noon, I or my representative will be
glad to see him."

"There, that ought to fetch him,"
said the man, with a peculiar smile, and
he signed the letter 'Douglas Baird,
Editor.' Then, directing the envelope
to the address given on the manuscript,
he posted it at the corner of the street
on his way home.

"On the afternoon of the following
Thursday Douglas Baird sat in his
office again. He was obviously not
quite at his ease, and from time to
time he would open one of the drawers
of his desk and examine the papers it
contained as if to assure himself that
none of them were missing. Presently
he looked at his watch.

"H'm! A quarter past 3 already,"
he mused. "I wonder if my corre-
spondent is going to fight shy after
all."

A tap at the door interrupted his so-
liloquy. In answer to his somewhat
surlily "Come in," the visitor entered.
The editor of The Monthly Record
slightly raised his eyebrows. Accus-
tomed as he was to all sorts and condi-
tions of visitors, it was not often that
such a pretty girl as this invaded his
office. His surliness vanished instant-
ly. He could be charming to ladies
when he chose. This was one of those
occasions. Accordingly, he set a chair
for the visitor and returned her timid
greeting with a geniality calculated
to dispel her very obvious nervousness.

It was a young but sad and troubled
face that looked at him across the
desk. The soft, fair hair might have
adorned the sunny head of a child, but
the girlish mouth had assumed a curve
of unnatural determination, and the
blue eyes were full of that awful fear
which is to be seen only in the eyes of
the refined poor.

"I have a letter from Mr. Baird, the
editor—I don't know if you are here—
asking me to call at 3 today," said the
girl.

"I am the editor, certainly, but I
can't recollect writing to Miss—Chester.
In fact, I expect some one else at this
hour."

"Mr. Claude Hellingham, perhaps?"
"Yes. Do you know him, then?" asked
the man eagerly.

"Oh, yes, I think I may say I do, a
little," she replied, smiling again. "In
fact, I—I am the individual himself!"

"I don't quite understand," returned
Baird wonderingly. "Is there such a
person at all, then?"

"Oh, yes, very much so. I'm he, or,
rather, he's my nom de guerre," she
answered quickly, seeming to enjoy his
evident mystification.

"You?" he replied. "You? What on
earth made you take such a pseudo-
nym?" he demanded wonderingly.

"Oh, because I thought a man's
name would give my story a better
chance of acceptance. But why did
you write to me?" she continued anx-
iously. "I was so glad to get your let-
ter! I thought you had accepted the
tale. You are going to publish it, aren't
you?" she added, all her smiles vanishing.

"No," said Baird, looking at her
steadily. "I don't think I shall."

The girl's eyes filled at the answer,
and, as he saw the bitter disappoint-
ment in her face, the editor began to
feel quite remorseful. It was a deuced
awkward business, he told himself.

THE BEST OF ALL.

As down the stream of life we glide,
And vistas open far and wide
Along the way,
We seek the pleasure of the hour
And, like the bee from flower to flower,
Live out life's day.

The Scarlet Spider.

Whether They Skated In Winter or
Swung In a Hammock In Sum-
mer, They Were Caught
In Its Web.

"Love, the scarlet spider, will in a
night hang between two that have been
apart a web too fine for either to see,
but the strength of both will never be
able to break it."

Who was he? She hardly knew. A
partner. She thought of him as noth-
ing else. All the women were given
partners as a matter of course.

"Dick," their host had said, "will you
have the goodness to look after my
niece, Miss Blynn? Edith, let me pre-
sent Mr. Kirkland." They bowed.

"I see your skates are on," she said
indifferently. "So are mine. Let us
skate rather slowly with a long sweep."

"I didn't know we were to have mu-
sic. It is a waltz. Now I am ready,
Mr. Kirkland."

"He took her mitted hand in his
firm grasp. They moved slowly and
easily down the gleaming floor. They
crossed the silver ribbon and entered
the shadows.

"We shall presently be out of sound
of the music," protested Miss Blynn
gently. Not that she cared; she and
her new companion were moving along
with perfect rhythm.

"Perhaps if we listen hard we shall
hear the music of the spheres," he
said.

"The shadows are black," she re-
marked, "and the wind is cold. After
all this is too serious for pleasure. It is
hard to be frivolous in a place like this.
See how forbidding the trees look to
the shore and how solemn and men-
acing the sky is. This is a sermon—
this winter night—or it is a tragedy.
Let us go back to the house where the
lights are burning."

"There is a fire in the lantern. I
heard your uncle say coffee was to be
served there. But if you are too much
oppressed I wish you would listen to
the tragedy a little longer."

"Listen to it! I look at it. It is a
tragedy for the eyes, not for the ears."
They swung along together with fine
momentum. They were conscious of
their youth and strength and vigor.
Miss Blynn gave voice to her thoughts
in an indirect fashion.

"Some people," she said, "are old and
weary and sit by the fire and wonder
if the winter will never pass."

They both laughed at this—it made
a harmonious but startling duet, that
laughter, and it echoed from the wood-
ed shore.

"Some people," he responded, "go to
winter and drag him out of his den,
and shake him out of his sulks and
make him dance like a trained bear."

"I have been skating with you an
hour," said he at length, "and I have
not an idea of how you look."

"I have been skating with you an
hour," she retorted, "and I do not
know whether you have red curls or
black elf locks."

"Come to the boathouse," he suggest-
ed, "and see."

They went in where the fire crackled
and where their friends stood in groups
drinking coffee and chatting. He undid
his cap with its ear lappet; she untied
her scarlet velvet hood. What she be-
held was a young man of 24 or 25, with
deep set gray eyes, a dark skin, dark
hair, heavy brows, a smooth face and
a large sensitive mouth.

What he beheld was a woman with
a snow white skin, black eyes, melan-
choly and timid in their expression; a
high brow, abundant dark hair and a
mouth that, essentially serious, broke
into unexpected illuminating smiles.

"It would be rude of me to say what
a service the light has done me," he
said stupidly.

"The light has told me a number of
things," she responded daringly.

"What?" he inquired.

"That you have been a student, lov-
ing solitude; that you are melancholy
often than you are merry, and that
you like a good book better than a
good friend."

"No, no; not the last!"
she laughed and took the cup of cof-

PLEASURE RESORTS.

Traverse City, Mich., June 12.—The
Manistee & Northwestern railroad is
making a survey of a proposed route
through Leelanau county, connecting
Traverse City with the resorts Empire
and Good Harbor and touching at Sur-
ton's bay and other points in the coun-
ty. Engineer Hubbell went over the
route and thinks favorably of extend-
ing the line from here west to Carp
Lake, thence across the lake at Provo-
mont to Sutton's bay. Mr. Hubbell
has been instructed by the company
to begin the work of constructing the
line as soon as possible if he finds it
feasible. The company has also de-
cided to build a large pavilion at
Carp Lake, eight miles from here, near
Fouch, and to lay out the grounds for
a park on the lake there. The plan is
to make a day resort near this city
with numerous attractions and quick
and convenient means of transporta-
tion.

SIX SHAFTS OF THE HECLA MINE ARE STILL CLOSED.

Houghton, Mich., June 12.—Shafts
6 and 7 of the Hecla mine were re-
opened and a party of miners de-
scended No. 7 to the bottom. The air
was found to be very foul. Six shafts
are still closed. It is thought the fire
in No. 2 Hecla is entirely out, but the
shaft will not be reopened for a week,
owing to the danger of rekindling the
flames. The mine probably cannot be
worked until next week, even if the
flames do not start up. The extent of
damage to the mine is not yet known.
About 2,000 mine workers are idle un-
til portions of Calumet and Hecla now
closed are reopened.

THIEVES MAKE RAID ON SILVER AT ALMA COLLEGE.

Alma, Mich., June 12.—Saturday last
thieves broke into the ladies' hall at
the college and stole all the silver
knives and forks save a few forks
which were used for ice cream at a
meeting of the Classical club. The
thieves broke through a window in the
basement, took things on the cupboard
and then took the contents. The au-
thorities have no idea as to the perpe-
trators.

RICHTEST IN HIS COUNTY.

Jackson, Mich., June 12.—Supt. of
Door Rockwell has received a letter
from the chief of police of Ottumwa,
Ia., that the man picked up on the
streets May 21 and who still lies here
in a semi-conscious condition, the re-
sult of sand-bagging, is William Man-
ning, and that his father is Edward
Manning, of Keosauqua, Ia., the richest
man in the county. The authorities
are now in telegraphic communication
with the father. Manning believes he
is in Detroit and has no idea of what
happened to him. He was undoubtedly
robbed of his watch and money.

CHARGED WITH FALSIFICATION.

Marshall, Mich., June 12.—Justice
Tillotson issued a warrant for the
arrest of A. C. Kuster, organizer and
deputy for the southern district of
Michigan for the Order of Ben Hur.
The complaint was made by Mrs. Zim-
merman, chief of the local court, and
the warrant authorized by Prosecuting
Attorney Hatch. The warrant charges
Kuster with falsification in that he
appropriated \$46 to his own use belong-
ing to the court, of which amount
have been paid to the local medical
examiner, Kuster has left town.

MICHIGAN PENITENTIARY.

Washington, June 12.—Billington,
Tuscola county, Henry A. Bailey, vice
Wm. A. Bailey, resigned; Wailer, Tus-
cola county, Henry Struval, vice Mrs.
C. C. H. Fox, resigned.

STATE SPECIALS.

Blake Campbell, the 9-year-old son
of Arch Campbell, was drowned in
Belle river at Marine City yesterday
afternoon while playing in a boat. His
body was recovered at 6 o'clock last
evening.

The infant daughter of John C. Kan-
neler, of Port Huron, accidentally swal-
lowed a large headed black snake pin.
All efforts to recover the same were
fruitless. The child is suffering no ill
effects from the pin and no serious re-
sults are anticipated.

Charles Lange and James Duffy
have been arraigned in the Police
Court at Bay City, charged with selling
liquor without a license. Their cases
were adjourned, and if they take out
their red cards before the cases come
up again the prosecution will be
stopped.

Lansing merchants have subscribed
about \$1,000 for a rip roaring Fourth
of July celebration, of the old fashioned
sort. The town has not celebrated the
Fourth for twenty years.

A carrier pigeon flew into the
smokestack of the Peninsula Box &
Lumber Co.'s factory at Menominee
Sunday evening and fell to the bottom
deck. An aluminum tag was attached
to one leg bearing the inscription: "Pha
3, 1900."

P. J. Sampson, a pioneer resident of
Niles is dead, aged 81 years. He
leaves a widow and three grown chil-
dren. He has resided in Berrien coun-
ty nearly all of his life and was widely
known.

Miss Edith Williams, of Anse, an
employee of the secretary of state's of-
fice, aged 27 years, died at the Lansing
city hospital of typhoid fever. Miss
Williams came to Lansing little more
than a year ago, and had made many
friends while in the city.

TEMPERANCE CONGRESS.

Delegates From All Parts of the
World in Attendance.
London, June 13.—The temperance
congress was opened here under the
presidency of Mr. Thomas Wallace
Russell, M. P. delegates from all parts
of the world were present. J. L.
Bailey, of Philadelphia, was elected
one of the vice-presidents. He read a
paper on "The United States and South
America," by Rev. J. B. Linn.

Mrs. J. H. Barney, of Providence, R.
I., superintendent of the Women's
Christian Temperance Union and Penal
and Charitable Reformatory Work,
read a paper at the afternoon session,
at which Lady Biddulph presided, on
"Intemperance in Relation to the De-
pendent Delinquent Classes," describ-
ing the work of the leading American
institutions.

Canon Barker, presiding over the re-
ligion and morals section, said that
when strained relations occurred be-
tween Great Britain and the United
States a few years ago the whole
American press favored war, but the
following Sunday a majority of the
ministers preached against such a
calamity successfully and averted it.

The archbishop of Canterbury, Most
Rev. Dr. Frederick Temple, delivered
the annual address before the temper-
ance congress last evening, recalling
the triumphs the cause had attained
in science, religion, politics and public
opinion. He added that there still re-
mained one enemy to encounter, the
more difficult of all, namely, the indif-
ference of men in general, even very
good men, to the duty of helping our
fellows who are yielding to temptation.

J. L. Bailey moved the adoption of
the address, which, he said, would en-
courage workers on both sides of the
Atlantic.

Washington, June 13.—Glover Gage,
of Saginaw, United States member of
the Chilean claims committee, met the
two other members of the commission
for the first time yesterday morning in
formal though preliminary conference
at the state department. The lack of
an American agent at a secretary
makes progress at this stage impossi-
ble. President McKinley nominated
Robert P. Kennedy, of Ohio, last week,
but the senate refused to confirm him.

The claims which the commission
must discuss and determine aggregate
\$4,000,000. They date back in some
cases to 1822, but most of them are of
newer origin. A prior commission
failed to complete its work, hence the
necessity of the present body. The
cases arise from differences between
citizens of one country against the
other nation and in no case are they
between the two countries. The life
of the commission is six months, but
if the work is not done then an exten-
sion may be granted. Mr. Gage will
remain for another session of the com-
mission and will return to Michigan in
a few days. Nothing definite can be
done until the agents, or solicitors, of
the two countries have prepared their
cases.

Durand, Mich., June 13.—Monday af-
ternoon while shingling a barn belong-
ing to A. J. Kellogg, Henry Steele,
Charles Long and another workman
were thrown to the ground by the scaf-
fold giving way. The distance of the
fall was thirty feet and Long died in
twenty minutes' time. Steele is in a
serious condition and his recovery is
doubtful. The third man on the scaf-
fold escaped with a few scratches and
was able to ride after medical atten-
dant. Long has parents in Venice
township and resided in Durand with
his sister, Mrs. Aden McBride. He was
19 years old. Steele is 63 years old and
has built scores of barns, but the acci-
dent yesterday was the first he ever
had.

Mason, Mich., June 13.—Three
Polacks with the Michigan Central
work train were run over by a handcar
at this place about 6 o'clock last even-
ing. They were going full tilt when
three of the crew fell overboard direct-
ly in front of the car. One man's face
was gashed from the top of his head,
to the chin with the flange of the
wheel, and another one's foot caught
in the cog wheels of the car and cut off
his toes. The third one was also badly
wounded. A physician was quickly
summoned, who made the unfortunate
as comfortable as possible. The in-
jured men reside in Bay City.

London, June 13.—The vicar of
India, Lord Curzon, of Kedleston, has
elected to the secretary of state for
India, Lord George Hamilton, an-
nouncing that a good rain has fallen
in southern India, that there have been
severe showers elsewhere and that the
meteorological reporter forecasts
a good but late monsoon. The hot
weather, however, still prevails, and
the famine-stricken situation has not al-
tered. There are now about 5,922,000
people surviving relief.
