It cost the Northvillites \$17,000 for their electric light plant. Quite an investment.

Wayne High School graduates, a class of twelve this week. Judge Murphy delivers an address.

Farmers should cut their timothy hay when in first blossom. It weighs more and sells better, and dealers will tell you this. Over ripe timothy hay will not sell for much more than straw in the city market.

Halsey Sayre says he has 55 acres of wheat ground which would not produce a barrel of flour, and which must go by default, except to gather the timothy which is now maturing nicely.—South Lyons Excelsior.

Lee Truesdel, of Canton, has purchased the teams used by Milton Blount in the oil business and has received the appointment of Standard oil agent. The district covers Plymouth, Dearborn and New Boston.

The Republican congressional convention for the second district, embracing Plymouth, will be held at Manchester, Washtenaw county, July 11th. Rather an out-of-the-way place to get to from this section of the district.

Many farmers through Oakland county will not allow their binders to get loose in the fields where they sowed wheat last fall. The scattering heads of wheat will mostly be gathered in with the grass and weeds for hay by the mower.

The M. C. railroad people at Wayne have been trying for several months to obtain water by a bored well, but the Wayne Review thinks the prospect of finding it is very small. What will the village dads do with a fire engine when no water in any quantity is available.

People who are annoyed by flies should remember that clusters of the fragrant clover, which grows abundantly by nearly every road side, if hung in the room and left to dry and shed its faint fragrant perfume through the air, will drive away more flies than sticky saucers of molasses and other fly traps and fly papers can collect.

The third congressional district Republican nominating convention will be held a Howell June 25th. Congressman Sam Smith is a candidate for re-nomination, Senator McGraw of Detroit is a candidate, as are also Pet-

tingill of Lansing and Horton of Genesee. The fight appears to have narrowed down to a contest between Smith and McGraw. Both candidates have friends in this township.

A petty lawsuit has sent Delia Harrington of Milan, to the insane asylum. She and her sister lived near Ann Arbor and owned considerable property. A calf belonging to them got on the land belonging to their neighbor, Dan Aylsworth, and a lawsuit and long litigation followed and the property of the sisters was swallowed up. When Delia appeared in court she wore a skirt made of a wheat bag.

The most generous man on record has been found at Carleton. When he went to engage a minister to marry him on a certain night he said he wanted the very nicest certificate that could be found. Accordingly the dominie made a special trip to Detroit for it, expecting to be well paid for his trouble. Imagine his surprise when the groom presented him with fifty cents, payment in full for ceremony and certificate.

A Free Press dispatch from Northville says that A. S. Nichols is a candidate for the Democratic nomination of state senator from the first district. J. J. Perren, of Detroit, the present incumbent, is also a candidate, but the country Democracy figure out that the townships have not had a candidate for six years and that this is their year. Nichols is a hustler and the chances for his nomination are said to be very promising just now.

The Detroit, Plymouth & Northville railway, are going to extend their line to Walled Lake and Novi. This will, no doubt, be a very profitable investment for the company, and will be a whirlwind for Walled Lake. This is one of the prettiest lakes in the state, and has not been the summer resort, because of the fact of its isolation from the ways of transportation, but this will make it easy of access, and will boom it.—Wayne Echo.

The Curtain Shade company has made a contract with the Columbia Shade Cloth company, whereby the latter takes \$50,000 worth of their manufactured goods during the next eleven months. The directors of the company thought the proposition of the Columbia people a good one and accepted it. This will assure the company a profit on their investment for the first year and they will then increase their capacity as fast as the occasion warrants.—Northville Record.

Congressman H. C. Smith is home from Washington after making a good record for his constituents. He has earned a re-nomination and will have it without any opposition. For a first term he has come into much more prominence and influence than is usual with new members. He has also made a lot of friends among his constituents by looking after their interests. One of the best things any of our congressmen have ever done is his securing more rural deliveries than in any other district.—Ann Arbor Courier. All of which may be cordially endorsed by The Mail.

The Milford Maccabees have taken the initiative in arranging for a Maccabee celebration at Island Lake the coming Fourth. They have invited all of the Michigan Tents to participate and look for a large gathering of Maccabees and their friends. The Great Commander, Maj. N. S. Boynton of Port Huron has promised to grace the occasion with his presence and other good speakers are partially arranged for. The Milford band will be on hand with music galore. McCullough & Goite's orchestra will furnish music for the dancing at the auditorium.—Milford Times.

To correct the impression formed by many that under the new dog law it is the duty of the dog warden to call on the owner to collect the tax, The Mail will state that the taxes are due and payable at the dog wardens office in each township on the 1st day of May. All owners of dogs are required to call at his office on that day and pay their tax and will receive a tag which must be worn on the dog's collar during the year. The dog warden is authorized by law to kill all dogs on which the tax has not been paid and which are not provided with a label. There are a number of canines in the village who have not yet been "tagged."

We have been requested to print the following, taken from the Portsmouth (N. H.) Post Express: On the authority of a Concord correspondent of the Portsmouth "Times," Mary Baker Eddy, "Mother of Christian Science," is afflicted with creeping paralysis. Crowds of Christian Scientists, including delegates from nearly every state in the Union, visited Concord last week, but very few, if any of them, got a glimpse of her, though many of them enjoyed the privilege of kissing the front door step at Pleasant View. It was understood, says the correspondent, that all would have an opportunity to see Mrs. Eddy from a proper distance as she took her daily drive, "but it so happened that some other person is generally rigged up to resemble her for these daily drives and such was the case most of the time the past week."

SCHOOL NOTES.

Commencement to-night. Miss Lina Bfank of Miss Hawthorne's room, has the highest average, 97.

Miss Edna Trinkaus, of the 5th grade, has been perfect in spelling throughout the spring term.

The members of the class of 1900 wish to thank Rev. F. L. Beckwith for his fine address at the baccalaureate service last Sunday evening; also the male octet that rendered such nice music, and the ladies of the decorating committee of the Presbyterian church, who made the church look so very attractive.

On Tuesday morning at the opening exercises in the high school room, the pupils sang a number of the special songs that have been learned during the year.

Examinations were held on Tuesday and Wednesday.

The pupils of the third grade have sold all of the 100 boxes of Olivine, and but a few boxes are left in the fourth and fifth grades.

W. C. T. U.

Plymouth W. C. T. U. observed Memorial Day last Friday afternoon, visiting the graves of their departed members and leaving beautiful flowers as a token of loving remembrance.

Mrs. M. A. Patterson, delegate to the Convention of the Michigan W. C. T. U. lately held at Petoskey, reads her report of the convention this afternoon at the regular meeting of Plymouth W. C. T. U. Members are urged to be present and an invitation is extended to all interested in the temperance cause to come and listen to the report. Meeting at three o'clock in I. O. O. F. room.—Supt. Press.

Woman's Literary Club.

At the special meeting, held at the home of Mrs. F. B. Adams Friday afternoon, June 15th, the following officers were elected: President, Mrs. Ella Chaffee; vice president, Miss Harriet E. Hartsough; 2nd vice president, Mrs. O. A. Fraser; secretary, Miss Lillian B.

Fairman; treasurer, Miss Nellie Riddle; custodian, Miss Ella Shattuck.

McKinley and Roosevelt

President McKinley was unanimously renominated by the Republican convention at Philadelphia yesterday. Gov. "Teddy" Roosevelt, of New York was also unanimously nominated by acclamation for Vice President. The greatest enthusiasm prevailed when the nominations were made. Mark Hanna was re-elected chairman of the National committee.

Attention—Important to Farmers.

I am about to purchase my supply of Fertilizer for use this fall. Those wishing to use fertilizer can get it for very much less money by paying for it at the time of sending their order. I shall order for my own use the "Armour Grain Grower." Prof. Kedzie, of the Agricultural College, who is undisputed authority, gives its analysis as follows:

Nitrogen, 1.65 to 2.47 per cent.
Ammonia, 2 to 3 per cent.
Phosphoric acid, 10 to 12 per cent.
Phosphoric acid available, 9 to 10 p. c.
Potash Nitrate, 3.17 to 4.75 per cent.
Potash K 2 O, 2 to 3 per cent.
Call at the "43 Pharmacy" and I will give you all the particulars of the deal, and save a lot of money for you.
F. MARKHAM BRIGGS.

Mr. W. S. Whedon, Cashier of the 1st National Bank of Winterset, Iowa, in a recent letter gives some experience with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He got a bottle of it from the druggist here and informed me that one dose cured him, and he is again at work." For sale by Meiler's drug store, Plymouth.

CONVENTION OPENED

GOVERNOR ROOSEVELT RECEIVED AN OVATION AS HE ENTERED.

SENATOR LODGE WILL BE THE PERMANENT CHAIRMAN.

NEW YORK GOVERNOR BELIEVES HE IS OUT OF THE RACE.

Philadelphia, June 20.—Chairman Hanna, with a rabbit's foot suspended from a miniature of McKinley in the lapel of his coat, surveyed an imposing spectacle when he called the twelfth Republican national convention to order in the export exposition building in West Philadelphia at 12:35 Tuesday. In the valley below him were crowded the eighteen hundred delegates and alternates, and stretching away to the four corners of the immense hall were endless vistas of people rising in terraced seats to the walls. He looked into the faces of fully 15,000 men and women. Opposite, in a broad gallery, were massed a hundred musicians, their leader a mere pigmy in the distance. The large hall was profusely decorated with flags and bunting, and portraits of President McKinley were everywhere in evidence.

It was not a riotous convention. There were no wild outbursts of enthusiasm from the frenzied partisans of rival candidates, no entrance of delegations with banners to set the multitudes cheering, no fierce skirmishing and clashing of candidates' managers over the rules of procedure and contesting delegations. The chief-tain in the coming battle had already been selected by the unanimous vote of the Republicans of the country. The man who had stood at the helm of the ship of state for four years was their unbroken choice. The platform was the record of his administration. The only question that remained for the convention to decide was the vice-presidency, and it was not a sufficient bone of contention to produce the tumultuous scenes which usually attend the assembling of a national convention.

The quiet was broken, however, when Gov. Roosevelt entered the hall just before Chairman Hanna was ready to drop his gavel. The vast audience was electrified. He stalked in at the main door. His rough rider hat signaled him out to the craning multitude. Seemingly the audience had been waiting for him, and the applause that announced his appearance swept over the vast amphitheater and swelled into a great roar as he made his way toward the seats of the New York delegation. Senator Dewey and Chairman (Dell) of the New York state committee, were with him, but the crowds had eyes only for the dashing hero of San Juan. No stage idol ever made an entrance more opportunely. But he made no acknowledgment of the ovation his appearance elicited. His jaw was firmly set and he came on through the press like a soldier performing a duty. He did not even remove his hat, but pushed his way through the delegates, who swarmed from their places to grasp his hand. Fully two minutes it took him to traverse the length of the hall to his place near the stage. All that time the roar followed him, and the handkerchiefs rose and fell like the wings of gulls over a summer sea.

Lieut.-Gov. Timothy L. Woodruff will be presented to the national convention as the candidate of New York for vice-president. It was decided to do this after a four hours' stormy session of the New York delegation, during which every kind of appeal was made to get Gov. Roosevelt to say that he would accept a nomination. The vice-presidential situation is still mixed because it is asserted that New York makes this move so as to roll into the convention with a candidate and yet hoping that Gov. Roosevelt will be nominated. Mr. Woodruff was as much surprised as anybody over the result. In general the idea seems to be prevalent that Senator Lodge is the most favored candidate with a probability that Roosevelt may still be nominated. Gov. Roosevelt believes that his wishes having been respected by his own delegation that he is finally out of the race.

The committee on permanent organization, of which Gen. Grosvenor, of Ohio, is chairman, and Thos. N. Hastings, of New Hampshire, secretary, met after adjournment of the convention and by unanimous consent selected Senator Lodge, of Massachusetts, for permanent chairman and voted to continue Charles W. Johnson, of Minnesota, permanent secretary. The list of secretaries, clerks and other officials recommended by the national committee was approved and the committee adjourned.

Philadelphia, June 20.—The partisans on both the Roosevelt and anti-Roosevelt sides were aspirant. The friends of the governor were disposed to think his fault with his pronouncement. Said one of the U. S. senators who started the Roosevelt movement: "We can compare him if he will only say he wants the office, but his talking and coy attitude renders the task difficult. If Roosevelt is the politician he is credited with being, he will come out in plain terms as a candidate. Standing as he does now between the lines, he is liable to get shot at by both armies and it is quite probable that if he fails in the vice-presidential nomination he will also fail in securing the New York governorship. He who hesitates is lost."

Treasurer's Office Robbed. St. Clairsville, O., June 20.—Burglars blew the safe in the county treasurer's office here Monday night and secured \$800 worth of stamps belonging to the postoffice and \$120 in cash. They failed to reach the strong box, which contained \$50,000.

AN IMPORTANT DECISION.

Supreme Court Sustains the Tax Commission Law.

Lansing, June 20.—The Supreme Court has decided that the feature of the state tax commission law giving the commissioners or any one of them the right to review assessments and to the rolls is constitutional, all the justices concurring in the opinion. This is a victory for the commission of wide importance. Without the right of the commission to correct rolls from which property has been assessed for much less than its actual value, the tax commission, to use the expressive phrase of one of its members, would be only "a talking body," without power to right the wrongs which resulted in the creation of the commission.

The Grand Rapids board of assessors refused the commissioners the right to review the tax rolls in that city, claiming that the constitution had guaranteed the municipalities local self-government, with which the legislature could not interfere. The broad question was raised that the state could not interfere with the making of assessments in towns and cities, and the decision of the Supreme Court is, therefore, of importance not only to the cities of the state, but it gives the tax commission the right to review the tax rolls in every township and place thereon any property which may have been omitted from the rolls, as well as to increase the valuation of property assessed too low, and the decision of the tax commission in such matters is final.

MICHIGAN POLITICS.

How the Rival Candidates Stand in Recent Conventions.

Detroit, June 20.—The Republican convention of Macomb county was held Tuesday, and the fourteen delegates chosen to the state convention were instructed for Bliss for governor.

In Eaton county Stearns captured the solid delegation of sixteen.

The Grand Traverse delegation to the state convention were instructed for Stearns.

It is estimated that the 100 delegates to the Republican convention of Oakland county will stand Bliss, 74; Ferry, 18; and O'Donnell, 8.

The Mackinaw county delegates have been instructed for Osborn for governor.

The Republicans of Flushing township held caucuses Tuesday. Bliss secured eight delegates, while Stearns, after a fierce fight, succeeded in electing only one.

Sunday Saloon Closing.

Port Huron, Mich., June 20.—Mayor Fred T. Moore, having succeeded in his effort to suppress Sunday ball playing, is now about to turn his reform efforts upon other abuses, particularly the suppression of the Sunday open saloon. The liquor law is said to be flagrantly violated in this regard, and one minister, in an anti-saloon sermon last Sunday, asserted that on that day twenty-five saloons were counted doing a thriving trade with open side doors. The mayor is said to be in favor of a strict enforcement of the law, shutting the liquor shops up tight, but there has been a clash of authority upon the matter between him and the police commission, and it is a mooted question how far the mayor's authority extends over the police department. At last evening's council meeting the mayor addressed a communication to City Attorney Avery asking the latter to define the duties of the chief magistrate relative to enforcement of the liquor laws, and his powers over the police in their efforts to execute or failure to execute such laws. The required opinion will be presented at the next session of the council.

National Guard Camp.

Jackson, Mich., June 12.—Brigade headquarters of the M. N. G. in this city has received very full responses from the officers and men of the three regiments and the independent battalion of the National Guard. The answers to the letters sent out by Brig.-Gen. Tyrnell are unanimous in favor of his proposition to wait any reasonable length of time for their per diem. Mail was too slow for the upper peninsula companies and fourteen telegrams have been received from them in the last two days. With the showing made by the auditor-general of \$28,000 available in the military fund July 1, and \$15,000 in the old fund, there now appears to be no valid reason why the National Guard should be deprived of a camp. The result of the responses of the National Guard have been mailed to Adj.-Gen. Case in time for the meeting of the military board Friday, when a decision will be reached.

Stiek to Their Posts.

Washington, June 20.—About the only officials of the government to stick to their posts while the political excitement is on at Philadelphia are two Michigan men, each of whom is temporarily at the head of the department with which he is connected. Gen. A. L. Spaulding, first assistant, is acting secretary of the treasury, while E. C. Mendenhall, third assistant, is acting postmaster-general.

STATE SPECIALS.

The saginaw officials and their friends will hold their annual outing Thursday at Tawas Beach. Leo Kopt, of Ann Arbor, who was thrown from his buggy Monday night, died of his injuries Tuesday night. James Dunbar, an employee of the Portland Cement Company of Coldwater, had his arm caught in a level gear and the arm was badly ground and the shoulder injured. There is a movement on foot in Saginaw for the appointment of a grand jury to investigate municipal scandals, but as there is much opposition thereto it is doubtful if one is ordered. The firemen's tournament, which was to have been held at Bay City, this year, has been postponed for another year, on account of the butchers' and grocers' carnival and jubilee to be held in Ansonia.

WHOLESALE WEDDINGS

FORTY-THREE MARRIAGES A DAY'S RECORD AT ST. JOSEPH.

DESPONDENCY CAUSED A MENDONIANER MAN TO TAKE HIS LIFE.

A YOUNG MAN SERIOUSLY INJURED BY CARS AT NILES.

St. Joseph, Mich., July 18.—County Clerk Needham reports Sunday forty-three weddings, not a bite to eat since breakfast and good humored parties from both Chicago and Milwaukee. The ceremonies were performed by Justice St. Clair, Justice Smith and Rev. Mr. McRoberts, pastor of the Congregational church of this city. Railroad men seemed to be in the lead, either as engineers, brakemen and in several cases conductors. In the latter list was a conductor on the Illinois Central, whose home was Channah, Kas. Clerk Needham says he has found there are occasional fakirs in every line of business. One man ordered a room for himself and one for his bride. A carriage was ordered for the couple to take the evening boat and on their departure the man pleaded poverty and neither the justice nor the clerk received a red cent for their trouble. The man borrowed seventy-five cents while the new wife cried. McRoberts' last word to the twain was, "You needn't consider yourself married until you remit my regular marriage fee."

In another case the groom vowed he had changed his trousers, hence was without a penny. Justice Smith was the victim in this case. Clerk Needham says: "Oh, well, it's all in a lifetime. I have taken in over \$60 cash today and will see that you lose nothing."

Shot Himself While Dependent.

Menominee, Mich., June 18.—Peter Perregoud, a well-known resident, committed suicide Sunday morning by shooting himself with a double-barrel shotgun. The charge carried away one side of the head, though death did not result for nearly seven hours. Despondency over sickness resulting from partial paralysis and mental derangement was the cause. Perregoud was a prominent member of Maurice order. He was 40 years of age, leaves a widow and two sons.

Serious Accident at Niles.

Niles, Mich., June 18.—Major Smith, a young man of this place, attempted to board an excursion train which was moving at the rate of several miles an hour here Sunday morning and was thrown and terribly injured. He has a wife and one child.

New Michigan Corporations.

Lansing, Mich., June 18.—The following corporations filed articles with the secretary of state during the past week: Sultana Yacht Club, St. Clair; Fancy Work Publishing Company, Detroit, \$5,000; Peninsula Accident Society, Bay City; Citizens Telephone Company, Ewart, \$25,000; Leeland Township Farmers' Club, Northport, \$5,000; First Church of Christ, Scientist, Constantine; Onaway Telephone Company, Onaway, \$1,000; Winko, Hallenbeck-Crawford Company, Lansing, \$25,000; Hoyt Steam Laundry Company, Detroit, \$10,000; Loomis-Hamilton Glove & Mitten Co., Hillsdale, \$5,000; Fruit Belt Canning Company, Waterbury, \$7,150; Ross Bros. Company, Spaulding, \$150,000; Ryan & Company, Inc., Detroit, \$20,000; Morgan Glove Company, Mendon, \$5,000; Union Buggy Company, Pontiac, \$25,000. The Wayne Publishing Co., of Detroit, has increased its capital stock \$30,000.

Destroyed by Fire.

Vicksburg, Mich., June 18.—The depot of the Chicago & Grand Trunk and Grand Rapids & Indiana railways at this place caught fire in the roof about 9 o'clock Sunday forenoon from a spark from a north-bound Grand Rapids & Indiana engine and burned to the ground. A strong east wind blowing at the time soon put the fire beyond control. Four cars of freight on the Grand Rapids & Indiana "Y" adjoining were also burned and six cars loads were saved. The building was a landmark of the town and has been saved from destruction by fire a dozen times before. Either a new depot will be built or each road will erect a new one. The fire department did good work in saving adjoining property. Workmen are clearing away the debris this afternoon.

Nationalist Elected Mayor of Havana.

Havana, June 18.—Gen. Alejandro Rodriguez, nationalist, was Saturday elected mayor of Havana, polling 10,723 votes against 4,534 cast for Senator Estrella Mora, Independent. The vote fell about 100 below the prediction.

LARGEST ON EARTH.

That is What Baldwin Expects in a Cement Factory.

Baldwin, Mich., June 18.—Baldwin is to have the largest Portland cement factory in the world. The Great Northern Portland Cement Company is capitalized at \$5,000,000 and Baldwin is to be the head center of the Portland cement business in Michigan. During the past year this company has acquired more than 6,000 acres of marl and clay lands in this vicinity. The company is a very strong one, among the officers are several Detroit business men. Although the people have felt reasonably sure that a plant would be located here, nothing definite has been known until yesterday. About two weeks ago men were set at work clearing the grounds which extend from Baldwin three miles southeast to North Lake. These grounds have been platted into village lots about 3,000 in number which will be incorporated in our village. These lots are wide and deep and front on proposed streets and boulevards from eighty to two hundred and fifty feet wide. Promoters say that the plant will be situated at North Lake and connected with the town by an electric street car line on Cadillac boulevard, which as laid out, is 300 feet wide.

It is expected that the first unit of 4,000 barrels capacity will be completed before May 1, 1901, and the other two units before May 1, 1903. It is expected that when completed the output by this concern will be 12,000 barrels daily and that over 1,000 men will be employed. The company will employ as far as possible only heads of families living in Baldwin or its addition so that an increase of about 6,000 in population is looked for and more than 100 houses will be erected during the year.

Baldwin is the county seat of Lake county and is at the junction of the Saginaw and Grand Rapids divisions of the Pere Marquette railroad.

ASSAULTED A WOMAN.

Action of a Cowardly Mob in St. Louis.

St. Louis, June 18.—Mrs. Eva Doman was roughly handled by a mob at Marion street and Broadway Sunday. As she alighted from a transit car she was quickly surrounded by a crowd of girls who shouted "scarl" at her. A large throng soon joined the girls. Mrs. Doman ran down several streets with the mob in pursuit and sought refuge in Joseph Bene's saloon in South Broadway, but Bene pushed the woman back in the street. A woman living over the saloon succeeded in getting Mrs. Doman to her apartments, but not before both had been pelted with mud and stones. Mrs. Doman was escorted home by a police officer. The police arrested Bene, charging him with assault and battery.

Chief of Detectives Desmond sent a dozen of his men to the neighborhood of Broadway and Marion streets to lay in wait for other crowds that might attack women. An hour later two detectives were sent to the locality with a woman as a decoy. As soon as the woman stepped off the car she was surrounded by a crowd. The detectives used their clubs, doing much damage to the heads of those in the mob. The crowd dispersed.

TWO ENGAGEMENTS.

Between United States Troops and the Filipinos.

Manila, June 18.—The United States forces had two engagements of importance last week. The troops under Gen. Funston and Gen. Grant organized an advance with parts of five regiments and two guns against 500 rebels in a mountain stronghold east of Biacopata, where it was supposed Capt. Roberts, of the Thirty-fifth regiment, was captured last month at San Miguel de Mayumba, was held captive. The Americans operated under many difficulties and over an exceedingly rough country, but the rebels retreated, only a few being killed and the stronghold was occupied and burned. As the result of last week's scouting sixty Filipinos were killed, 200 were captured and 300 rifles, with 25,000 rounds of ammunition were surrendered. Three Americans were killed. Malaria fever has been prevalent since April in parts of Cavite and Batangas provinces which are garrisoned by the Forty-sixth and Thirty-ninth regiments. Thirty per cent of the men of each regiment are on the sick list. Of two battalions in Batangas province one has 150 sick and the other 100.

STATE SPECIALS.

The Barnard Coal Co., which is sinking a shaft eight miles east of Saginaw, has struck the first vein of coal and has only about sixty feet to go to reach the lower strata. The coal is of fine quality. The coal shipment of Bay county coal to be shipped to Little Current, Ont., amounting to 420 tons, was cleared Saturday. The remains of V. V. Bentley, a few weeks ago a resident of Albion, and who died in Algona, Ia., last week, were brought to Albion for interment. He was about 45 years. He leaves a wife, son and daughter. The Union Knights of Pythias held their annual decoration day services Sunday at Riverdale, Barron, and Hamilton. Dr. Battle Creek, delivered the address. Henry McAvoy, an insurance agent, was arrested at Newberry by Deputy Sheriff Helmer on a charge preferred by the Northwestern Accident Insurance Company, of Okechogon, for falsely representing himself as an agent of that company. Earl Taxbury, a 4-year-old Detroit boy, while playing in front of his home Saturday night, was run down by a bicycle rider and his collar-bone fractured. Charles Frith, of Sunfield, thought that corporal punishment applied to his wife was the proper thing. His wife thought otherwise, and made complaint before Justice Clark, of Grand Ledge, who fined Frith \$25 and costs.

FRIDAY, JUNE 22, 1900

The Japanese Government has in-
formed the Treasury Department,
through its legation here, that it has
issued an order restricting emigration
to the United States, which will prac-
tically be prohibitive. This step was
taken in consequence of the alarm felt
in this country over the recent heavy
Japanese immigration to the Pacific
coast. Under the new order, only five
persons per month will be allowed to
emigrate to this country from any pre-
fecture in Japan and only to Canada.

During May 17, 752 visitors went to
the top of the Washington monument
making a total of 1,844,635 visitors since
the shaft was opened in October, 1888.
Hardly a month of the spring and sum-
mer passes that the monument is not
struck by lightning. While the struc-
ture itself escaped last month, a man
who was standing on the lower floor of
the monument, leaning against one of
the iron columns which support the
stair way, received a shock of electric-
ity in his arm and shoulder. Two
other men who were looking out of one
of the windows at the top of shaft
narrowly escaped with their lives, as
the lightning came in the window
directly over their heads. They were
blinded for a moment, but escaped in-
jury.

Washington has made a new depart-
ure which other cities would do well to
copy. Although the city already has
more parks than any other city of its
size in the world, it has heretofore had
none especially for children. Recently,
however, Col. Brigham, who has charge
of the public buildings and grounds,
has set aside one of the parks as a play-
ground. Football goal posts and cross
bars have been erected, a baseball
diamond has been mapped out, and
other things have been done which
will contribute to the enjoyment of the
children. The grounds have been
leveled and improved hydrants have
been erected to supply water, and the
reservation is perfectly drained. The
cost of this improvement was defrayed
by a philanthropist, who refuses to dis-
close his identity.

A very curious contribution to reli-
gious literature has been made by Col.
Archibald Hopkins, of Williams Col-
lege, who descended from a long line of
Puritan ancestors. Col. Hopkins seeks
to prove that the Apostles' Creed is an-
tiquated, illogical and useless. This is
a curious attitude for the son of Presi-
dent Hopkins. No college President,
it is said, ever sent out so many young
men imbued with the influences of his
moral and religious training as Presi-
dent Hopkins, and his theological and
philosophical works are accepted as
standard textbooks at all educational
institutions. Col. Hopkins adheres to
the utilitarian faith, but his book is
written from what may be termed a
"utilitarian standpoint." In other
words, the motives of his book may be
summed up in the inquiry, "What is
the use of the Apostles' Creed?"

A curious feature of Washington
life is furnished by people who desire
to preserve some article or manuscript
which they believe will be very
precious in time and who apply to the
Government to assist them to do so.
Every Department in the city has sev-
eral packages stored away with strict
injunctions against opening them for a
certain length of time, usually a cen-
tury. Sometimes the contents of these
are known and sometimes not. The
latest is a box which has been placed
in the care of the Congressional Librar-
y. It required four able-bodied men to
place the package in its present loca-
tion. This package, whatever it con-
tains, is a donation to the government
by a noted collector of curios, the only
stipulation accompanying the gift be-
ing, that it should not be opened until
the close of the twentieth century, or
100 years hence.

DEAFNESS CANNOT BE CURED
by local applications as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that
is by constitutional remedies. Deafness
is caused by an inflamed condition of the
Eustachian Tube. When this tube is in-
flamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed, deafness is the result, and
unless the inflammation can be taken
out and this tube restored to its normal
condition, hearing will be destroyed for-
ever; nine cases out of ten are caused by
Catarrh, which is nothing but an in-
flamed condition of the mucous surfaces.
We will give One Hundred Dollars for
any case of Deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars, free.

BACCALAUREATE.

A Very Fine Sermon Preached by Rev.
Beckwith to the Class of '00.

There wasn't room enough in the
Presbyterian church last Sunday evening
for all the people who wanted to
hear the baccalaureate address of Rev.
F. I. Beckwith to the class of '00, and
many turned away from the doors, un-
able to gain admission. Flowers and
potted plants helped to make attractive
the rostrum, and their perfume spread
sweet fragrance over the congregation.
Seats had been reserved for the senior
and junior classes, the board of educa-
tion and teachers, and at the proper hour
they marched in from the church
parlors, the juniors acting as escort to
the seniors. Rev. Beckwith took his
text from Matt. 16, 1-3, his theme being
"Education and the Signs of the Times."
The gentleman made a very eloquent
address and impressed his hearers most
favorably, his counsel and advice to
the class being especially valuable.
Below we give a brief synopsis of his
effort, regretting that we can not print
it entire.

The Pharisees were time-servers and
the Christ was a time-discerner. They
saw the superficial traits of the time, as
they saw the signs of to-morrow's
weather in the evening sky, but He
was interpreting the interior life of the
age as one who foretells a storm of
which the sky gives as yet no sign.
There are time-servers and time dis-
cerners in every age, and I suppose
there is no question which bears so di-
rectly on our career as the question of
the real and substantial signs of the
times in which we live. Each new life
as it ventures out into the world of its
own age, asks afresh: What are the
signs of my own times? What are the
things about me that look as if they
were going to stay? How shall I dis-
tinguish the evanescent and insignif-
icant signs of the time from those which
reveal its inner life? And even in our
own times, there are two kinds of signs
which stand over against each other—
the signs which satisfied the Pharisees
and the signs which inspired the Christ;
the shallow judgment which interprets
the surface of the times and the faith
which reads the heart; the way of easy
conformity and the way of creative and
illumined.

I don't consider the end of education
is so much mere acquisition as it is the
power of discernment. Prof. Williams
used to say over there at Kalamazoo
College—"An education enables one to
cut down deep into the heart of things
and lay them open," and my opinion
the Professor knew what he was talk-
ing about, for, considering it from the
side of acquisition, the things it might
be most expected that we acquire don't
stick by us. If this graduating class
had physiology in their freshman year,
I'll guarantee that not one of them
could name today the 200 bones that go
to make up the human skeleton, though
it is altogether probable they could do
it then. But it is nothing unusual if
they can't do it now; indeed it would
be something very unusual if they
could. But, if by reason of that study
they are enabled the more to appreciate
the wonderful mechanism of the bodies
in which we live, and can discern some-
thing of the Divine wisdom that
wrought out this faultless machinery,
they are profited more than they possi-
bly could be by a mere acquisition of
facts.

Now, with this class of 1900, let us
enter into the place of serious thought
and discern, if we can, what are the signs
of our times.
First of all, I would name the de-
mand for the idealist. And yet on the
surface of things it looks as though the
very opposite of this demand is seen.
It looks like an age of materialism, of
commercialism, of realism. There was
a time when poetry, oratory, sculpture,
and art were the ideal of man. Now it
seems, as a friend said to me the other
day, we think ourselves sublime because
we can build office buildings twenty-
seven stories high, and consider our-
selves noble because we can kill more
hogs in Chicago than in any other city
in the world. Scientific habits have
strengthened confidence in material
accumulation, the apparent motto of
the business world is—"Get all you can
and can all you get;" social habits
multiply material luxury; even litera-
ture yields to material motives. Oh
foolish generation, answers the Master,
ye can discern the face of the heavens,
but ye cannot discern the signs of the
times. Ye can understand the superfi-
cial incidents of the passing hour, but
ye have no conception of those things
which the heart of the age desires. If
there is anything manifested by the in-
terior life of the present age, it is its
sense of the inadequacy of this materi-

alism as a law of life and its hunger
for a revival of idealism. This sign of
the times is for you. You should thank
God, my brother and my sisters, for the
education you have thus far received.
It is enough to enable you to discern
that life is more than meat and raiment,
I understand that some of you intend
to teach. May God bless you in it.
Others: I hope, will continue their
studies in higher institutions of learn-
ing. Give yourselves then to the studies
which enlarge, to the teachers who in-
spire, to the leadership which strength-
ens your ideals, and to the religion
which you will find not noisy but deep
and pure. Remember you can never
rise higher than your ideal, then "hitch
your wagon to a star."
There is a second demand of the
times which grows out of the first and
which makes its appeal to educated
men and women. It is the demand for
the optimist. All about us we hear
the pessimist's wail. Some people are
ever going about wagging their heads
and their tongues and vowing that
every good thing is sure to turn out to
some bad end. Bah! I tell you friends,
I would rather have a man or a woman
around me who thinks they can see
dutch-cheese in the moon than a per-
son who can see nothing good in the
heavens above or on the earth beneath.
The young man or woman who reads
the signs of the times today is an opti-
mist, not with the easy optimism which
ignores the graver aspects of life, but
with the rational hope which has dis-
cerned good at the heart of things.
There is no greater happiness than liv-
ing in the line of God's work with the
present age, a laborer together with
God, a discerning of the signs of the
times, adding the effort of our oars to
the current of divine intention.

Probate Notice.

STATE OF MICHIGAN, County of Wayne, ss.

At a session of the Probate court for said
county of Wayne, held in the Probate office, in
the city of Detroit, on the eleventh day of
June, in the year one thousand nine hundred
and zero, Edgar O. Duffee, Judge of Probate,
in the matter of the estate of Electa Ann
Hadden, deceased.

On reading and filing the petition, duly ver-
ified, of Nettie F. Brander, administratrix de
bonis non with the will annexed of said estate,
praying that she may be licensed to sell the
real estate of said deceased for the purpose of
paying the debts of said deceased and the
charges of administering said estate.

It is ordered, that the tenth day of July
next, at ten o'clock in the forenoon, at said
Probate office, be appointed for hearing said
petition, and that all persons interested in said
estate appear before said court, at said time
and place to show cause why a license should
not be granted to said administratrix to sell
real estate as prayed for in said petition.

And it is further ordered, that a copy of this
order be published three successive weeks pre-
vious to said time of hearing, in the Plymouth
Mail, a newspaper printed and circulating in
said county of Wayne.

EDGAR O. DUFFEE,
Judge of Probate.

Geo. Vandecar, Dr. Granger, John Oliver and Frank Huston went to Walled Lake Tuesday for a day's outing. They got a good catch of fish.

About thirty Northville people are given employment at Plymouth these days, going and coming by the D. P. & N. electric.—Northville Record.

Yes, and these same thirty men are spending the wages they earn in Plymouth for goods in Northville, when in all probability if house room could be obtained in Plymouth they would all be living here and spending their money here. This question is a serious one for our business men to consider. More workmen living here, means more trade. The Mail believes from twenty-five to forty cottages, costing from \$500 to \$800 each, could be rented here very advantageously at a fair percentage on the investment, and many could be sold undoubtedly be sold on a contract. The factories here are permanent institutions, and are every year increasing the output of their product, necessitating the employment of more men. There is an opportunity here for a man or set of men to do something for themselves as well as the town. A \$10,000 apartment house may pay out, but the same money invested in several rows of cottages would, we believe, pay as well or better, and there would be a chance to get back the original investment in sales made. Think about the matter, gentlemen.

Children's Day exercises in the M. E. church next Sunday morning promises to be very fine. Following is the program: Music, The Crowning Day of all the Year, Chorus; scripture reading led by S. A Good Cough Medicine.

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says Druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary colds and for the cough following la grippe, and find it very efficacious." For sale by Meiler's Drug Store.

CHURCH NEWS.

The rite of baptism will be administered at the M. E. church next Sunday morning.

Probationers of the M. E. church are requested to meet in the League room, Saturday evening at 7:30.

Mrs. Helen Elgie, of Ypsilanti, will speak in the M. E. church next Sunday evening. Don't fail to hear her.

The subject of the Epworth League devotional meeting Sunday evening, June 24th, is "Our Eternal Destiny." Leader, Miss Whaley.

The services at the Baptist church next Sunday will take on the nature of revival services. Rev. Grow will preach in the morning and Pastor Beckwith in the evening. Everybody invited.

About 15 of the good Baptist ladies played the good samaritan to Mrs. Theodore Chilson Wednesday. Mrs. Chilson is ill and the ladies took possession of the house thoroughly cleaning and papering the same.

Rev. Wm. K. Grow, formerly pastor of the Plymouth Baptist church, has offered his "photo" to all of his old friends who will pay 50c. towards repairing the church. The same offer is open to all who want Mrs. Grow's picture.

Ten were baptised into the Baptist church last Sunday morning. One remarkable feature of the baptisms was that five were from one family. It is very unusual that so many to come from one family at one time. A large congregation was present.

The Epworth League, assisted by foreign talent, will hold a Patriotic service at the M. E. church Sunday evening, July 1st. The programme, which will be announced later, has been carefully prepared and a pleasant entertainment will be given.

The Baptists are rejoicing over the removal of their church debt. In the last three months they have paid one note of \$85, another of \$100 and a third of \$277. They now propose putting \$2,000 improvements on their church property during the summer.

There was a large attendance at the service last Sunday of the First Church of Christ Scientist in their hall. The members of this organization will soon buy a lot and build a church thereon. Subject for next Sunday will be, "Christian Science." All are most cordially invited.

Call at Meiler's drug store, Plymouth, and get a free sample of Chamberlain's Stomach and Liver Tablets. They are an elegant physic. They also improve the appetite, strengthen the digestion and regulate the liver and bowels. They are easy to take and pleasant in effect.

A COSTLY BLAZE

LOUISIANA SUFFERS A LOSS OF \$100,000 BY FIRE.

BATTLE CREEK HAS DISCOVERED A MAGNETIC SPRING.

THREE MEN NARROWLY ESCAPE DEATH FROM SEWER GAS.

Louis, Mich., June 20.—The Louisa Wagon Co. plant sustained a loss by fire Tuesday evening that will approximate \$100,000. At 5:20 o'clock fire was discovered in the dry-kiln adjoining the factory. The Louisa fire department hurried out and at 6 o'clock had it well under control, when the supply of water gave out. The fire then spread rapidly to the stock sheds and lumber yard. The Grand Rapids department was telephoned for help and an engine arrived at 7:40, laid a line of hose 1,300 feet to Grand river and soon had the fire under control and all danger to the factory buildings was averted. The most heroic work by the home department and the absence of any wind saved the entire plant from destruction.

The factory employs 130 hands and was doing a rushing business, having orders ahead for 2,000 to 3,000 wagons. The stock of spokes, felloes, hubs and all kinds of lumber entering into the manufacture of wagons was totally destroyed, and the engine room of the main factory is disabled. The loss estimated at about \$100,000, with a blanket insurance of \$130,000 on the plant. It was the largest factory in the city and expected this year to turn out from seven to ten thousand completed wagons. Work will probably be suspended for the remainder of the season. The cause of the fire is unknown.

Magnetic Springs Discovered.

Battle Creek, Mich., June 20.—Moneyed men from New York have been here the past week negotiating for the well upon the farm of Thomas Black, in Ashtabula township. In expectation of striking oil, a well 1,000 feet deep was drilled upon his farm. No oil was found, but a gushing well of magnetized water was struck, which issues a solid stream twenty-two feet high through an eight-inch pipe, which threatens to flood the whole country. If a knife blade is immersed in the water, when drawn out it will pick up needles, and so strong is the attraction that a half-inch pipe through which some of the water runs will attract it and hold fast a 20-ounce spike. The water is being bottled and shipped daily to adjoining cities. The New York parties, if they can make the deal, will pipe the water to Battle Creek and open bath houses and a hotel and bottle the water for sale. The company will pay \$30,000 in the enterprise. The analysis of the water shows that it is superior to that of Mt. Clemons and Battle Creek expects to rival that city in the future.

Had a Narrow Escape.

Marshall, Mich., June 20.—H. E. Riggs, of Toledo, superintendent of the new sewerage system in this city; David Lamson, of Saginaw, one of the contractors, and Pat Murray, a laborer, came very near losing their lives Tuesday morning. Mr. Riggs went down a manhole to investigate some work when he was overcome by sewer gas and fell to the bottom of the sewer, a distance of fourteen feet. Lamson at once went to his assistance and he, too, was overcome and fell to the bottom. Murray went after Lamson and met a like fate. The only laborer left was badly frightened and summoned assistance from the Royal Bicycle Works near by and all three men were rescued in a short time, though Riggs had been in the sewer fully seven minutes. Medical aid was promptly secured and all three are now out of danger and doing nicely.

Municipal Lighting Plant.

Saginaw, Mich., June 20.—After an exciting contest the common council, by a majority of one, Monday night approved of the city engineer's plans for a municipal lighting plant and authorized the advertising of bids for the construction of the same at an estimated cost of \$71,820. Those opposed to the plans claim that a suitable plant will cost at least \$25,000 more than is estimated. The people by their votes last spring authorized bonds in the sum of \$75,000 for the construction of a plant.

Exchange of Bonds.

Washington, June 20.—The amount of bonds exchanged to date at the treasury for the new two per cents of 1930 is \$300,000,000, of which \$73,218,120 were received from individuals and institutions other than national banks.

TELEPHONE DEAL.

A Most Important Development in the Telephone Field.

Grand Rapids, Mich., June 15.—One of the most important developments in the telephone field has been announced in the purchase by the Citizens' Telephone Co. of the Peninsular Telephone Co. system, comprising several exchanges and more than 100 miles of long-distance wires in the southern part of Michigan.

The deal has just been consummated and the Citizens' men are on the ground now securing detailed information of the new property. The purchase is regarded as one of the most important that the Citizens' people have yet made, because it places the company in direct communication with a line of busy towns in central and southern Michigan, to which it has heretofore not had access. The local exchanges at Bellevue and Athens have been bought with the rest of the system of the Peninsular company and the subscribers in these towns will continue to be served as before except that the management will be under the control of the Citizens' company. The long-distance lines purchased are those running from Charlotte to Battle Creek by way of Olivet, Bellevue and Pennfield and from there to Athens. From Athens the line runs to Homer via Union City and Tekonsha, and from there to Coldwater and Quincy. An unfinished line from Conant to Jackson is also bought and will be completed at once. The workmen are now on the line.

Drank Wood Alcohol.

Bay City, Mich., June 15.—An autopsy was held on the body of Daniel McDonald for the purpose of enlightening the coroner's jury to-morrow. McDonald died early Tuesday morning from the effects of drinking wood alcohol, as was supposed. The doctor who made the post-mortem examination found the mucous membrane of the stomach irritated and the kidneys inflamed. The attending undertaker, not knowing that there was anything mysterious about the death, injected embalming fluid and this fluid prevented the doctor from making a satisfactory autopsy. It is now believed that the wood alcohol was taken on a full stomach and this fact made it longer for the poison to act.

London, June 20.—The Russian relieving force arrived outside of Peking this morning," says the Shanghai correspondent of the Daily Express, "and immediately began to attack the city on two sides, employing numerous artillery. The force apparently arrived in the nick of time, for the Chinese, since the attack upon the legations had been successfully renewed. On the night of June 16 the Chinese troops under Gen. Tang Fuh Siang and Tang Ching attacked the legations and set on fire five European buildings. Nothing definite is known except that the Chinese were disappointed, although other reports, utterly discredited by foreigners here, are that the Chinese, infuriated by the destruction of Taku, have since massacred all the foreigners in Peking."

Returned Into Pastures.

Lansing, Mich., June 20.—The Michigan weather crop bulletin issued Tuesday says that the condition in Michigan is in the best condition and that the spring wheat of the Russian fly is now manifesting itself in the stalk, which is breaking down. Many fields are being abandoned and turned into pastures. Oats promise a heavy crop, although they are rusting somewhat in the southern part of the state on account of the heavy rains. Hay prospects fairly well and hayling is about to begin throughout the state. A large acreage of beans has been planted and buckwheat seeding has begun. Sugar beet seeding has been finished. The crop is in fine condition. Fruit conditions remain about the same as last week. Apples are dropping some. The strawberry crop has been abundant.

North American Turnoverhand.

Philadelphia, June 20.—The feature of Tuesday's session of the convention of the North American Turnoverhand was a speech by A. Vahlteich, of Chicago, formerly a socialist member of the German reichstag. Mr. Vahlteich appealed to the convention to place itself on record as being in active sympathy with the principles of social democracy. Philip Andros, of Nebraska, spoke against the idea of bringing politics into the association, and Carl Eberhardt, of Boston, said he was a Socialist, but thought it unwise for the Turners to enter the field of politics. The discussion arose during the consideration of the platform as submitted in the majority report with several amendments.

ATTACK ON PEKIN

THE RUSSIAN RELIEVING FORCE IN THE NICK OF TIME.

REPORT THAT ALL FOREIGNERS IN PEKIN WERE MASSACRED.

BARON VON KETTLER, THE GERMAN MINISTER, IS SAFE.

London, June 20.—"The Russian relieving force arrived outside of Peking this morning," says the Shanghai correspondent of the Daily Express, "and immediately began to attack the city on two sides, employing numerous artillery. The force apparently arrived in the nick of time, for the Chinese, since the attack upon the legations had been successfully renewed. On the night of June 16 the Chinese troops under Gen. Tang Fuh Siang and Tang Ching attacked the legations and set on fire five European buildings. Nothing definite is known except that the Chinese were disappointed, although other reports, utterly discredited by foreigners here, are that the Chinese, infuriated by the destruction of Taku, have since massacred all the foreigners in Peking."

A modified version of these rumors received at Berlin is that the French as well as the German minister has been killed. The English at Shanghai think that the Chinese had foreign advice in organizing the defenses at Taku, because of the precision with which their attack was delivered. The wires connecting with the harbor mines were cut by the boats of the warships the night before the bombardment. It is now reported at Shanghai that it was on board the Russian cruiser Korietz and not the Mandschur, that the explosion occurred, killing and wounding more than fifty. It is reported that no fewer than 700 Chinese were killed in the forts.

The Shanghai correspondent of the Daily Express says he is officially informed that Japan is mobilizing twenty-five thousand men for immediate transport. The British cruiser Endurance arrived at Shanghai yesterday, cleared for action and took up a position commanding the Chinese forts. There are three Chinese cruisers in the harbor. The new Chinese cruiser Hai-Yang, built by the Armstrongs, has been taken into custody at Taku by the British and Russians.

At Yung-Nan-Fu, where the rising has been gathering force for several days, 200 Christians have been attacked, many being put to death. The French consul and three missionaries are still in prison.

The disorderly elements have secured the upper hand at Wu Hu and Cze-chun, where the native Christians have been massacred.

A thousand Boxers have gathered on the outskirts of Pien Tsin.

Berlin, June 20.—An official dispatch says that everything is quiet at Kiao Chou. The mother of the German minister at Peking, Baron von Ketteler, in Munster, has received a cablegram from China, saying that the news of her son's death is not true.

London, June 20.—Judging from German official dispatches American ships took on part in the bombardment of Taku forts Sunday morning. No news has yet been received of the relief of the legations at Peking, and Europe's attention is centered on the fate of the diplomatic staffs and 600 cosmopolitan residents guarded by a handful of international marines within the legation compounds.

Washington, June 20.—Secretary of State Hay has been notified that 4,000 Russian troops have been dispatched from Port Arthur to Taku.

Paris, June 20.—At a cabinet council today the minister of foreign affairs, M. Delcasse, announced that the telegraph line between Peking and Pien Tsin was still interrupted. A dispatch received here from Shanghai says Li Hung Chang has been summoned to Peking from Canton.

Chicago, June 20.—A special from Washington says: Persistent rumors are afloat that President McKinley has decided to call an extra session of congress to deal with the Chinese situation. If war exists in China, growing out of the destruction of the United States and other legations, it will be necessary to send more troops to China. Owing to conditions in the Philippines no more troops can be withdrawn safely. Therefore, it will require authority from congress to furnish troops.

The rumors of an extra session cannot be traced to a reliable source, and inquiry at the White house throws no light on the subject. A member of the president's official family, when questioned said: "I do not know whether this matter has been discussed or not, but the president can be depended on to do everything in his power to protect the lives and property of Americans in China. However, this country has acted independently, but is now acting in concert with the powers."

INSTITUTE OF HOMOEOPATHY.

Holding Its Annual Meeting at Washington.

Washington, June 20.—The American Institute of Homoeopathy has begun its annual session here, Dr. U. S. E. Walton, of Cincinnati, presiding. The chief feature of the convention will be the dedication and presentation to the government of the beautiful statue of Dr. Hahnemann on the east side of Scott Circle Thursday afternoon. The president will attend the dedicatory exercises and addresses will be delivered by Attorney-General Griggs and other well known men. The same evening the president will give a reception to the members of the convention.

President Walton in his annual address earnestly advocated uniformity of medical laws in every state of the union. He said the right to practice medicine in one state should carry with it the right to practice in every state, and he favored any means, whether by concerted state legislation or congressional action, that would bring about this end. He opposed the establishment of homoeopathy chairs in allopathic colleges. Dr. Custis, of Washington, presented a report of the international bureau of homoeopathy, and Dr. Geo. B. Peck, of Providence, presented one with a paper on the present condition of homoeopathy in the United States. He said there are 2,000 regular homoeopathic physicians in this country, of whom 1,158 are women. There are now twenty-one homoeopathic colleges, with 13,120 alumni. In connection with the meeting of the institute the American Homoeopathic Laryngological Society held a meeting at which technical papers were read by a number of physicians.

North American Turnoverhand.

Philadelphia, June 20.—The feature of Tuesday's session of the convention of the North American Turnoverhand was a speech by A. Vahlteich, of Chicago, formerly a socialist member of the German reichstag. Mr. Vahlteich appealed to the convention to place itself on record as being in active sympathy with the principles of social democracy. Philip Andros, of Nebraska, spoke against the idea of bringing politics into the association, and Carl Eberhardt, of Boston, said he was a Socialist, but thought it unwise for the Turners to enter the field of politics. The discussion arose during the consideration of the platform as submitted in the majority report with several amendments.

SCARED OF SNAKES

GREENVILLE PEOPLE SHUN HOUSES WHERE PROF. SLOUS LIVED.

SAGINAW HAS RAISED MONEY FOR A GLASS FACTORY.

AN OLD MAN COMPLAINS OF CRUELTY TO HIS SON.

Greenville, Mich., June 16.—The house in which Percy Selous lived and died with his snakes in Greenville is shunned by people as if it were a pest house. His few household goods and his collection of stuffed birds, animals and snake skins remain locked up in the house since the lay he died from the moccasins bite. His wife has just sent for the goods and all of his effects; no one would buy them for fear of finding a rattler coiled up in the furniture or bedding. The house cannot be rented, because people are suspicious that the cellar and partitions are full of snakes. It has been claimed by some that they have been there and seen a snake's head protrude from a hole in the wall, where the plaster was knocked off. His neighbors say he sent to Florida and imported different varieties of snakes to plant in a marsh in the rear of his house. His neighbors are led to believe that such is the case, for he has been seen to take the snakes out to a brush heap and then call them all together or all that he could with a mouth organ; and the neighbors are not dead sure that they all went back in their cages.

Will Make Glass.

Saginaw, Mich., June 16.—The full amount required to secure the location of a glass factory in Saginaw has been raised and the factory is assured. It will be located on the river front in the first ward. Another proposition was received by the board of trade today for the establishment of a factory here for the manufacture of bottle glass. The proposed factory will employ 100 men, and as the parties making the proposition are of good financial responsibility the board of trade will take hold of the project and push it through. The requisite capital has been subscribed for another factory in the wood-working line.

An Old Man's Plait.

Saginaw, June 16.—Eberhardt Trier has filed a bill of complaint against his son, Herman Trier, and wife. The complainant is 76 years old and has resided in Saginaw county fifty years. He says that his son Herman made trouble between complainant's wife and the other children, and the wife left him and went to live with a daughter. For \$800 she released her interest in the homestead, which is valued at \$3,600. Complainant then dedded the property to his son, who agreed to provide him with the necessities of life. He sets forth the son failed to do this and abused him and he asked that the deed be set aside. Judge E. H. Hanch granted an injunction restraining the defendant from disposing of the property.

Afraid of Uncle Sam.

Berrien Springs, Mich., June 16.—Last year congress passed an act making it a misdemeanor for any person or persons to dam or undertake to dam any navigable stream without consent of congress. The Berrien Springs Water Power Co. undertook to bluff Uncle Sam by paying no heed to the law. Reports of their proceedings were sent to the war department, and Uncle Sam sent a representative here last Wednesday to make sketches and get list of names of the offenders. Work has been suspended.

Again Dunning the Sultan.

Constantinople, Thursday, June 14.—The United States legation has not yet received a reply to the note regarding the indemnity question handed to the porte on May 21, and Lloyd C. Griscom, United States charge d'affaires, is making verbal representations to the government and pressing for a solution of the matter.

THE TABLE LINEN.

The Best For the Ordinary Home—And How to Care For It.

A thousand times better is it to have a good dinner, served on a table simply covered with a shining damask cloth, the dishes and glasses immaculately clean, than a bad one served with lace and silver galore. And money has little to do with the matter sometimes.

Ordinarily the best covering for the table is the double satin damask, in fair quality costing from \$2 to \$5 a yard. Coverings may cost as high as \$100, but they do not come within the range of ordinary table linen. Those patterns are best that are complete—that is, bordered all around to suit the length of the table—and generally the small figures are to be preferred. Hem-stitching on table linen is a mistake, as it wears badly, but the hem ought to be at least two inches deep. The napkins for formal use must match the cloth and may be either three-fourths or seven-eighths in size. The very largest are not as good form now as formerly.

The ordinary waitress takes such little care of table linen that it requires good common sense on the part of the laundress to wash it properly. First of all, every stain from tea, coffee or grease must be removed before washing. Certain other marks, of iron rust or mildew, ought never to appear; but, if they do, they require separate treatment. For fruit, tea or coffee stains the cloth can be held tightly across the top of a pan while boiling water is poured over it from a height. For iron rust nothing is better than javelle water, but it must be prepared carefully, used properly and rinsed out quickly. For iron rust wetting the spot and applying salts of lemon, with good rinsing afterward, will generally be of benefit.

As for the washing, words give but little idea of what must be done. Any one who is considered competent to attempt it ought to know how to do it properly, as there are right and wrong ways to soap and soak, to rub and boil, to rinse and blue. The bluing is needed to counteract the tendency of the linen toward a yellowish tint. A light wind and a warm sun are needed to dry the linen properly. It should never be hung out when the wind is high.

The sprinkling and folding come next, and, while the old fashioned method of stretching was of excellent service in straightening the cloth, it is not a necessity. The sprinkling must be thoroughly done till every inch is wet, and when folded and rolled the linen may stand 12 hours, but must not be dry in any spot when ready for ironing. The damp cloth, the hot iron, the strong arm and quick movement will accomplish wonders, but the pressure back and forth must be constant until the linen is dry.

Such care will easily pay for itself to any one who sees the figures and lines show like satin, and the cloth, smooth, glossy and firm, will be a delight to the eye and touch.—Table Talk.

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower in liquid form to make you satisfied there is nothing

serious the matter with you. Sample bottles at '98, pharmacy.
