A WORD TO FARMERS

You keep chickens, of course, and naturally want them to be strong and healthy, free from any disease and you rejoice on finding some cold, wintry morning, a full nest of eggs. Such results are always accomplished when Crewso's Poultry Powder is used. It comes in packages and is sold, of course, at Roe's. If you want your hens to lay this winter and to keep well, it is the only thing to use.

Happenings of the Week Chronicled Briefly For Busy Readers

SIX PERISHED.

Deadly Gas in the Port Huron Tunnel Kills Trainmen.

Six lives snuffed out by deadly gases in the record of the second disaster of the kind in the Grand Trunk tunnel under the St. Clair river, between Port Huron and Sarnia. It was caused by the breaking in two of a coal train, leaving part of the train, on which were three of the crew, in the tunnel. The other three victims of the disaster were railroad employes who sacrificed their lives in a fruitless attempt to rescue their fellow workmen. The dead are: A. S. Beggs, aged 50, Port Huron, superintendent western division terminals; he leaves a widow, two grown sons and two daughters. John Coleman, engineer, Port Huron; leaves a widow and three small children. J. B. Simpson, brakeman, Sarnia; leaves a widow and three children. R. T. Tinsley, conductor, Sarnia; leaves a widow and three children. Thos. McGrath, brakeman, Sarnia; leaves a widow and seven children, all boys under 7 years of age. Daniel A. Gillis, brakeman, Sarnia, aged 26 years; unmarried.

Jail Quarantined.

The Battle Creek jail has been under quarantine since Friday night, due to a case of smallpox, discovered on the person of John Pampopee, an Athens Indian, arrested for drunkenness. The Indian says practically every Indian on the reservation has the same disease, which a village doctor called chickenpox. The Indian will be removed to Athens by wagon and the jail fumigated. Pampopee said he had been sick and had come to Battle Creek to seek it out of his system with fire water. His infected neighbors have been peddling vegetables throughout the county, around Athens.

Saved by Freight.

A "young cyclone" blew things about promiscuously at Muskegon Heights, where the brick wall of the Gray Bros. Manufacturing company was blown down. D. D. Walker, Frank Gray and a stenographer were in the office. Mr. Gray and Mr. Walker rushed outdoors, the former escaping unscathed. The latter, however, was caught under the falling bricks and sustained possibly fatal internal injuries. The stenographer was too frightened to move, and although bricks and debris fell about her, she was unharmed.

Lad Burned to Death.

The 14-year-old son of Wm. Blowers, living eight miles southwest of Nashville, was burned to death in a fire that consumed the barn Tuesday night. The barn was struck by lightning, and the boy's mother sent him to drive out the cattle. This he succeeded in doing, but was himself overcome by smoke, and before help could arrive the whole building was in flames, and only the charred bones of the boy were recovered. The barn contained over 30 tons of hay, and was a new one.

Perry's Trial Delayed.

The motion made by the defense in the case of ex-Mayor George R. Perry, of Grand Rapids, to quash the entire jury panel was not allowed to reach the judge. When the superior court opened Saturday morning Prosecutor Ward announced that he would not oppose the motion made by the defense, admitting that the jury was not drawn within the rules provided in the law. The case has been adjourned until October 24, in order to give time to draw and notify another panel.

Poor Wheat Crop.

The monthly crop report issued by the secretary of state places an estimate of 5,500,000 bushels on the wheat crop of the state this year, the estimated yield being eight bushels per acre. The quality of the wheat produced is very poor and much of it will be unfit for milling purposes. The acreage sown this fall as compared with an average is, in the southern and central counties 87, in the northern counties 82, and in the state 86.

Potato Crop Rotting.

Considerable apprehension is felt in Howard City, the center of Michigan's potato belt, over this year's crop since the recent rains and warm weather. On all the lowlands farmers report white spots appearing on the tubers, which foredooms rot. The crop up to this time has promised to be big and of good quality. Shipping has been given a temporary lay-off on account of the price being "off" in eastern and southern markets.

Mines Closing.

The Volunteer mine at Palmer has suspended operations and nearly 300 men are thrown out of employment. The Richmond mine, located in the same village, will suspend operations with the close of navigation, letting out 75 men more. These mines are the sole sustenance of a village of nearly 1,000 people, and the closing of mines so near winter when other work is scarce will be a severe blow.

The Sco Flooded.

A terrific cloudburst struck Sault Ste. Marie about 6 o'clock p. m. Sunday. All the streets south of the power canal were flooded two feet deep, and hundreds of cellars under residences and stores were filled with water. The damage done will amount to thousands of dollars. Two small houses sitting on a hillside on Ashmun street were washed away. The cloudburst seemed to be confined to the south side of the town. The rainfall as registered at the weather bureau station was two inches within three hours.

FOUND DEAD.

Farmer's Death Seems a Mystery to the People of Sanilac Center.

Appleton Connors, a farmer living near Juhl, in Elmer township, was found dead by the roadside two and a half miles south of Sanilac Center, Sunday morning, by persons on their way to church. He was lying face downward and his neck appeared to be dislocated. It was first thought that an investigation would reveal a vital or weapon with which he had taken his own life, but a search by the coroner brought out nothing of this nature, and the people are in doubt as to whether or not he met with foul play. This is the first occurrence of this sort ever known in this community and the people are horror-stricken. Connors was a married man and was about 52 years old. For some time past there have been family complications and his wife had not been living at home since spring. It is alleged that about a week ago he broke into his daughter's room and tried to assault her, after which he attempted to commit suicide by severing an artery in his left wrist. Saturday he came to Sanilac Center to adjust property matters and divided his real estate between his absent wife, who is supposed to be either in Grand Rapids or Coopersville, and his daughter.

Unknown Dead.

The body of a man about 70 years old, who came to Lexington recently, was found in the lake at the end of the dock. He had been seen a few minutes before sitting on the edge of the dock reading, and it is supposed that he was taken with a fit and fell off. There was no identification except "Stevens" on the collar. A bank draft was found on him made out to W. H. Clark, drawn on the First National bank of Cheboygan. The bank officials say that it was an old draft that had been duplicated, and they do not know how it came into the possession of the man.

A Grand Rapids man who refused to allow his name to be used, has established a new yearly prize of \$50 each to the two honor debaters in the university oratorical contests.

An electric storm in Hollandston lasted 12 hours and five inches of rain fell. Three barns were set on fire east of here and burned with contents, and one man was killed by lightning.

George McDonald is lodged in jail at the Soo. He claims to be the oldest man in the world; that he has had a million wives, and that he comes from Jerusalem, where he lived 60 years.

During the month of September 572, 321 barrels of salt were inspected in Michigan as follows: Saginaw county, 15,283; Bay, 34,889; St. Clair, 113,420; Manistee, 251,606; Mason, 39,176; Wayne 92,967. This is an increase of 147,285 barrels over September, 1903. The grape harvest has begun on the early varieties, Concord, Wordens and Delaware will require a week more. The crop will not be large, owing to the spring frosts and hail, but the quality is good. Probably from 700 to 900 carloads will be shipped from the grape belt.

The other day a young man living on a farm near Nashville picked up a supposedly empty gun, and pointing it at his dog with the remark, "You ought to see how scared my dog is of a gun," pulled the trigger. The canine was blown into fragments, and a companion standing a short distance away received part of the charge.

The circuit court in Charlotte this week will have 23 criminal cases on the calendar, including the five celebrated Copeiland riot cases. The murder case of Dr. Newark is the first on call—this will be the second trial, the jury having disagreed on the first trial.

MORE FIGHTING.

General Battle Between the Armies of Omura and Kuropatkin.

Tokio, Oct. 12.—General activity has been resumed in the theatre of war. A general engagement is in progress between Liao Yang and Mukden, and it is impossible to say at this time what has been accomplished.

The main body of Gen. Oku's column which has been moving against the Russian right flank, is at last in touch with the main of Kuropatkin's forces opposing his advance, and heavy fighting is reported to have occurred between the two armies.

MUKDEN NORTHWEST GATE.

St. Petersburg, Oct. 10.—Gen. Kuropatkin is in the field, personally directing the forward movements of the army, which it is understood is divided into two strong columns, moving on each side of the railroad. The Russians are operating along a front of between 40 and 50 miles. They are taking every precaution against possible counter attacks, throwing up entrenchments as they advance southward.

The Japanese appear to be concentrating their forces in the fortifications formerly occupied by the Russians on the right bank of the Taitze river, which are exceedingly strong, and they have an equally good defense north and south.

An engagement is reported to have occurred yesterday on the Russian right bank, 11 miles southwest of Mukden.

Heavy Losses.

Tokio, Oct. 14.—7 p. m.—Tokio tonight is eagerly awaiting tidings of the engagement south of Mukden. It is reported that the Russians attacked Gen. Kuroki's forces, capturing a position which the Japanese, being strongly reinforced, recaptured and reconquered. The Japanese, it is reported, have checked the Russian advance. It is said the losses on both sides were heavy.

Tokio, Oct. 11.—4 p. m.—It is reported that the Russians have crossed the Hun river in heavy force and are aggressively attacking the Japanese forces which were moving northward. A general engagement is said to be in progress.

St. Petersburg, Oct. 11.—Gen. Kuropatkin has telegraphed to the emperor that the Russian vanguard is now in contact with the Japanese, who are within gunshot. The scouts are skirmishing along the entire line.

Heavy Wage Cut.

With the exception of employees of the rod mills, all tonnage men at the Jolly Hill plant of the steel corporation, are now at work under a new schedule of wages, which represents a reduction in the pay of the men ranging from 20 to 40 per cent. According to statements given out here, it is part of a general plan, put into operation in all plants of the United States Steel Co., October 1, the notices having just reached plants at Joliet, South Chicago and other plants, from headquarters.

The men expected a cut, but did not look for so radical a reduction. However, the new scale was accepted and all departments are running.

Boston Won Pennant.

The Boston and New York teams were scheduled to finish their close fight for supremacy Monday at American League Park, New York. The double victory which Boston scored over New York at Boston on Saturday gave the present champions the upper hand, and by the winning of a single game of Monday's double header they would repeat their championship victory of a year ago. New York scored two runs in the fifth inning. This was tied by Boston in the seventh and the game won in the remaining two innings.

Emperor's Bad Health.

In spite of all official denials, the rumors that the health of the kaiser is once more threatened by the dread disease from which his father, mother and uncle died continue. Prominent physicians declare that the appearance of another growth in the kaiser's throat must have been looked for ever since the last operation, and that it would be more surprising if it did not appear, as not even the most optimistic specialists on cancer dared to hope that the germs had been eradicated from the kaiser's system.

Twenty-seven Killed.

Twenty-seven persons were killed and 30 injured, some of them fatally, in a head end collision Monday two miles and a half east of Warrensburg, Mo., between the second section of a Missouri Pacific passenger train which left Wichita, Kas., Sunday night for St. Louis with world's fair excursionists and a heavy west bound extra freight train. The collision occurred in what is called Dead Man's Bend. Both engineers and both firemen saw the danger and jumped.

Peleee Active Again.

The report that there had been a serious eruption of Mount Pelee, Island of Martinique is not true. There has been great activity on the mountain during the last few days, and a week ago the volcano emitted enormous quantities of steam and ashes. On September 29 the mountain was throwing out steam all day, forming a dense cloud 8,000 or 10,000 feet high. The escape grew less violent as night approached, but after dark there were two points on the cone that were brilliantly lighted, while at the foot of the dome was a hole from which fire escaped into the valley below, but not in sufficient quantities to occasion damage.

One-fifth Women Dead.

Mrs. Emma Ewing Palmer, the last of the two "suffragist" sisters, died Thursday at Sherburne, N. Y., aged 50. Owing to a disease of a rheumatic nature, which has baffled the skill of many prominent physicians throughout the country, Mrs. Palmer had lain motionless upon her back, totally blind and with every muscle rigid for the last 27 years. The disease manifested itself within a few days after her marriage at the age of 23. Her sister, Miss Stella Ewing, who died two years ago, was afflicted in the same way.

CONDENSED.

A woman's club formed for the purpose of killing burglars is being organized in South Chicago.

Twenty-two wireless telegraph stations have been erected along the Atlantic coast by the navy department for naval and general maritime use. The service will be installed at 60 additional points.

Lifting a keg of beer high above his head as an exhibition of strength, Henry Peters of Chicago slipped upon the wet floor of the dance hall and fell, the heavy keg fracturing his skull. He died a short time later at the hospital.

Crazed by his wife's death, Bohmml Schreff, a Cleveland Bohemian, aged 41, took his two children, Emma and John, into the cellar of his home and killed them. He then went to his wife's grave and shot himself, but not fatally.

Trashy novels so affected the minds of Minnie Hland, aged 20, and Lulu Cooke, aged 14, daughters of farmers near Kankakee, Ill., that they made a suicide pact. Chained in each other's arms they drank from a bottle of strychnine and died.

Killed His Father.

John Whipple, the outlawed Connecticut farmer, put two bullets into his head when he found himself cornered by a posse of armed men near East Glastonbury. Whipple defied the officers, who wanted him on a charge of shooting a neighbor, Frank Starnes, for setting fire which destroyed two farm buildings, and for shooting State Officer Louks. He had kept in the woods for three weeks.

Profane with his hands was the singular charge upon which Geo. Gilbert, a deaf mute, was haled into court at Minneapolis on complaint of Edward Gallman, another mute.

HIGH SCHOOL NOTES.

Laura Bell, Clyde Bentley, Beatrice Hood and Clara Patterson.

The foot-ball game which was to have been played Tuesday night between Northville and Plymouth was forfeited to Plymouth 5 to 0 by Referee McLaren on account of Northville's "backing out" at the last moment.

It is doubtful whether the first foot-ball team will get back into running order or not as some of the best players have dropped out.

A foot-ball game was played between the first and second teams of the high school which resulted in a score of 15 to 5 in favor of the former.

The teachers intend going to the Institute to be held at Wayne Oct. 15. An interesting program has been arranged for. It is hoped a large number of students will attend also.

The power of concentration is rapidly increasing in the Geometry class.

Remember, Seniors should set a good example for the rest of the students.

No broken bones among the basket ball girls have as yet been reported.

You may change, you may turn from the slant if you will, but the scent of the vertical clings to it still.

Finders of hairpins, pen knives, side combs and other valuables, notify members of the basket ball team and receive reward.

George McKim was the last pupil to enroll in the high school.

The teachers were represented at the foot ball game at Ann Arbor last Saturday and reported a score of 95 to 0 in favor of Michigan.

Miss Howes has been entertaining her brother from Decatur, Ill. He has paid the high school grades several pleasant visits.

The complete works of Edgar Allen Poe were added to the Library this week.

Miss Nettie Merrill visited the high school Tuesday P. M.

Post office boxes have been added to the high school, that the work of the pupils can be returned with less confusion.

Mr. Isbell is reading the life of Frederick Douglass to the pupils of the high school.

Evidently some of the teachers on the first floor have been favored with a "shower of fruit," such as pears, apples, peaches, oranges, and bananas, this week.

Lookout for a concert from the German II class sometime in the near future. Something good and out of the ordinary is promised.

Esop's Fables were not in it with those furnished by the Junior class last week.

One of the Freshmen boys has added a new hat to his wardrobe.

Any clear evening of the present month of October, furnishes an excellent opportunity for any one with an ordinary field glass to observe the rings of Saturn. The august planet now sways in the southern sky, and may be recognized by brilliant yellow light.

We have heard on good authority too, that our Plymouth boys at Ann Arbor went bare headed last Friday night, but we have not heard of their visiting the swimming (?) hole, as the Freshies did quite extensively after urgent invitations by the invincible Sophs.

It has always been a puzzle to philologists why the student is called a bookworm and young America a kid. But several immature specimens of *Capra hircus* (see dictionary) were found in public the other day—recognized because they chew the cud. Should any of this rare and nearly extinct species be captured we shall promptly turn them over to Supt. Isbell to share there the fate of the caterpillars.

Scarcely credible but too true! One of our teachers visiting Ann Arbor rescued a plump little member of the feline family, to be specific, Fells domestica Angora, from the horrors of the vivisection table or the dungeons of the Medical Lab. At last report the little innocent was doing well in its new surroundings. For particulars see Miss M—.

While ye editor was trying in vain to recall events worthy of chronicling in this column—Click! Shadows fled—light appeared. Truly the wiring of the building is a welcome utility.

FOR COUNTY TREASURER

Edward Wildman, Publisher of the Detroit Courier, Republican Candidate.

After mature deliberation and at the earnest request of his many friends, Edward Wildman entered the race for County Treasurer on the Republican ticket. He has a wide acquaintance both throughout the city and in the townships, and his friends are confident that with so extensive a circle of voters, who are favorable to his candidacy, Mr. Wildman should show a running capacity likely to land him on top at the primaries. He is no novice in politics, having been successively alderman from the sixth ward, Chairman of the Wayne County board of supervisors two terms, and is now acting as a member of the board of poor commissioners. His fraternal associations and happy faculty of gaining the confidence and respect of all he meets are bound to stand him in good stead. He is a member of Zion lodge of Masons, Myrtle lodge of Knights of Pythias, Detroit lodge of Oddfellows, Majestic tent of Maecabees, St. Andrew's society, Michigan Sovereign Consistory, Muslim temple, Mystic Shrine; being also a member of the Arab patrol, Dramatic Order, Knights of Khorassan, and Uniform Rank Knights of Pythias. He is also a member of the Fellowcraft and Detroit Press clubs. As proprietor of the Detroit Courier, he has been in business many years, so there need be no apprehension as to his ability to manage the finances of the county in a business like way and on the same strict lines of economy and carefulness which characterized his own affairs. He promises to give the people of Wayne county, if nominated and elected, an honest, fearless and economical administration.

**-FOR-
County
Auditor**

GEO. D. JONES,
Candidate for
Republican Nomination

The country part of Wayne Co. has not had a change of representatives in the County Auditors office in seven years. Is a change desirable now? If you think so, I respectfully solicit your vote and influence. I am a book-keeper and auditor by profession and have had 20 years of business experience. I have filled many offices in the village of Trenton and township of Monguagon and to each office that I have been elected I have always been re-elected by an increased majority. I am supervisor of Monguagon now. If nominated and elected I promise you a business administration, allowing no waste of public monies for unnecessary appointments or increase of salaries that are not allowed by the Board of Supervisors.

The ladies of the W. L. C. have made a special effort to secure a fine course this year and trust that they may have the support which it so justly merits. The opening number, Whitney Brother's Quartette, is said to be exceptionally fine and all should hear them. Remember the date, Nov. 2.

H. J. Baker has secured a position as advertising manager on the State Republican at Lansing, and expects to move his family there this week. Mr. Baker and family have long been citizens here and have many friends who will regret their departure from this village. Mr. Baker will prove a valuable addition to the staff of the Republican, being well fitted for the place he occupies.

To test the efficiency of the Wayne county primary law, every voter should express his choice of candidates at the election next Wednesday. If there are any discrepancies or faults in the law, or if there are any abuses of the same, the only way to point them out is by a full attendance of the voters of the county. Then each may know for himself. Turn out and vote at the primaries, no matter what political party you belong to.

Mrs. Harriet Corwin caught her heel on the step as she was coming out of C. G. Draper's store Monday afternoon and fell heavily upon the stone sidewalk, fracturing her left hip. She was removed to her home and Drs. Adams and Patterson were summoned to render the necessary surgical services. Mrs. Corwin is quite an aged lady and the mishap is a serious misfortune for her, though Dr. Adams reported her yesterday as resting comfortably.

Youthful Depravity.

Half a dozen hoboes camped on the farm of James Purdy, north of town last Friday. They were all of youthful character, two being less than 17 years of age. Like all humanity, they became hungry and seeing some nice fat turkeys on Purdy's farm, a desire for roast turkey became so strong that two of the birds were caught and prepared for the "spit" before the fire. Mrs. Purdy saw the gang and gave an alarm. When the men folks arrived the tramps beat a retreat. Mr. Purdy notified the officers and four of them were caught by Officer Smith. On Saturday they were arraigned before Justice Valentine where they gave their names as Harry Reese, Chas. and Wm. VanNorman and Lyman Warren. All pleaded not guilty. The two latter were found to be under the age limit. After hearing the witnesses, Justice Valentine decided the party was guilty and sentenced Reese and Chas. VanNorman to the work house for fifteen days.

County Agent Lawrence was notified of the case of the two boys and he came here Monday morning. A jury was empaneled and the boys found guilty. They were sentenced to the Industrial School at Lansing until they attain the age of 17.

WHAT ROME THINKS

THE POPE'S PHYSICIAN ENDORSES AN AMERICAN REMEDY.

Dr. Lapponi Uses Dr. Williams' Pink Pills in His Practice Because Results Meet His Expectations.

Dr. Lapponi, the famous physician to the Vatican, whose name has recently come so greatly to the front on account of his unremitting attention to His Holiness, the late Pope Leo XIII, and the high esteem and confidence with which he is regarded by the present Pope, His Holiness, Pius X., is a man of commanding genius. He is more than a mere man of science; he is a man of original and independent mind. Untrammelled by the "etiquette" of the medical profession, and having used Dr. Williams' Pink Pills for Pale People in his practice with good results, he freely avows the facts and endorses the value of this remedy with an authority which no one will venture to question.

Dr. Lapponi's Letter.
"I certify that I have used Dr. Williams' Pink Pills in four cases of the simple anemia of development. After a few weeks of treatment, the result came fully up to my expectations. For that reason I shall not fall in the future to extend the use of this laudable preparation not only in the treatment of other forms of the category of anemia or chlorosis, but also in cases of neurasthenia and the like."
(Signed)
GIUSEPPE LAPPONI,
Via del Gracchi 232, Rome.

The "simple anemia of development" referred to by Dr. Lapponi is, of course, that tired, languid condition of young girls, whose development to womanhood is tardy and whose health at that period is so often imperiled. His opinion of the value of Dr. Williams' Pink Pills for Pale People at that time is of the highest scientific authority and it confirms the many published cases in which anemia and other diseases of the blood, as well as nervous diseases, such as nervous prostration, neuralgia, St. Vitus' dance, paralysis and locomotor ataxia have been cured by these pills. They are commended to the public for their efficiency in making new blood and strengthening weak nerves. After such an endorsement they will be accepted by the medical and scientific world at their full value.

PISO'S CURE FOR CHRONIC BRONCHITIS AND CONSUMPTION

WITH THE WORLD'S BEST WRITERS

THE VALUE OF SAYING "NO."

"No" is characterized as "a monosyllable the easiest learned by a child, but the most difficult to practice by the man."

Dr. Johnson displays a world of wisdom in these few simple lines, and the saying is no less true in regard to women than it is to men.

It seems cold and heartless to a man to refuse to lend a friend a little money to tide over some anxious time, and yet it is a great question as to whether he is justified in doing so if he himself is forced to make some of his own creditors wait while his money is fulfilling a friend's need.

In domestic life a woman has also much call for the little monosyllable "No." She may dislike to disappoint her children in some matters, but knows in her heart of hearts that the granted favor would be bad for their health or future happiness.

THE WEST LENDING MONEY.

It has not been very many years since the great and growing West was largely dependent on the money centers of the far East for the greater part of the money needed in all lines of business. Funds required for about everything from crop moving to county courthouses had to be secured from Wall street or some of its adjacent branches and the charges for this money in the aggregate made quite a drain on our traffic profits. This dependence on the East had a tendency to belittle the importance of the West in the eyes of the Manhattan money kings and the possibility of a release from this commercial bondage to them received but scant consideration. It is now being forced upon them with unmistakable clearness. Not only has the West developed a financial power that renders her almost wholly independent of the East, but western capital is actually invading the domain of Wall street and picking up financial bargains which, by virtue of years of monopoly, that great money power had come to regard, as exclusively its own.—Portland Oregonian.

UNPROFITABLE HOARDING.

Money hoarded means interest lost. The old stocking is as undesirable for the keeping of money as the unsound bank. This is a financial turism.

It is equally true of goods and chattels. The gown of winter before last, stored in a capacious attic, gathers moths, but loses its rightful interest—the comfort and ease which it might bring to some poor woman. The worn overcoat, kept by its owner "in case of need," fails of its proper service in the actual "case of need" of the half-clothed laboring man out of work through illness.

So of the cast-off clothes of the mind—discarded magazines and books. The increasing piles of these waste interest on the top shelves of the well-filled library, while the active minds of men, women and children less well supplied hunger for the food of the printed page, until ungratified desire dies, and they sink to the level of the unreading mass.

HOW TO STAY YOUNG.

How old are you? The adage says that women are as old as they look and men as old as they feel. That's wrong. A man and woman are as old as they take themselves to be.

Growing old is largely a habit of the mind. "As a man thinketh in his heart so is he." If he begins shortly after middle age to imagine himself growing old he will be old.

To keep one's self from decrepitude is somewhat a matter of will power. The fates are kind to the man who hangs on to life with both hands. He who lets go will go. Death is slow only to tackle the tenacious.

Ponce de Leon searched in the wrong place for the fountain of youth. It is in one's self. One must keep one's self young inside. So that while "the outer man perisheth the inner man is renewed day by day."

THE POWER OF "DIXIE."

No other song has ever touched the hearts of all the people of this land as "Dixie" touches them. During the war "John Brown's Body" swept the heart strings of the north and their brave "boys in blue." The war has passed and the song is passing, is already much of a memory. But "Dixie" is more vibrant with life to-day than it was when it cheered the lean and hungry legions that were battling for the "lost cause." It has not only survived the war, but since then it has conquered the conquerors and echoes in the hearts of those that loved the blue as in the hearts of those that loved the gray. It has the magic of the "Marseillaise" in it. But it is without its clarion call that excites the red blood of strife. It is gay, sweet, serene, indefatigable. It may not be great music, but it has the quality of all that counts in this world—survival—and it is one of those ballads of a nation that the very wise man reckoned as more powerful than laws.—Indianapolis News.

NO PLACE FOR SHIRKER.

Then it bluntly follows that there is no religion at all in shirk and no salvation for the shirker. There must be a new vision of honest labor, as the hopefulest sign of manhood. To cut down our work to a minimum is the new sin of the twentieth century. To hinder a man or a woman from earning daily bread violates not so much civil law, as the Golden Rule. We have got a huge lie imbedded in our modern view of labor. It is something to be avoided, something to be legislated out as far as possible. The new religion will demand more work rather than less, but a fair division of its obligations—and afterward justice in distribution. The sooner we turn our faces away from the dogmas of mediaeval pletism and the crotchets of formalism the better for us.—Church Register.

THE FOLLY OF GILT LACE.

As I have often said, I wonder that monarchs cannot officially meet without each arraying himself in the uniform of the other. If I were to call on a Turk I should not put on a fez and expect him to cover his head with a hat. Why, indeed, monarchs should wear uniforms except when taking part at reviews I do not know. They are the heads of states which are composed of civilians who pay a certain number of persons to be soldiers, or who oblige all to serve as soldiers for a fixed period.

Why, too, an English citizen who is asked to attend the Levee of his Sovereign—supposing that he has no uniform, as is the case with many—should be called upon to array himself in the dress of a bygone age of velvet and frills, with a sword by his side, is also a thing that surpasses my understanding. The poor man manages to look as ridiculous as some stout civilian, deputy-lieutenant strapped up in the uniform of a colonel.—London Truth.

BEAUTY ON THE DOWN GRADE.

A warning note is struck by a lady, who has both medical and literary skill, against the reckless disregard of those laws which make for beauty. We English are growing plainer, she avers, simply because we allow even our children to be affected by the stress and strain of modern life. The smartness, the ability to look after themselves and the athleticism of the women and children of the present time spell physical ruin. Beauty is rarely seen nowadays in its unadorned style. Lovely women are artificial products, and really lovely children are as scarce as auks' eggs. The reason is that our expressions have grown anxious, eager, cold, our limbs and members are strained out of shape by overexercise, our complexions and hair are starved for lack of nerve force. The exquisite complexions, luxuriant locks, delicate features and clear, innocent-looking eyes that one associates with beauty are so seldom seen as to be quite remarkable when they are, and we are threatened with a still further decrease of these elements of good looks unless we bring back our girls to the prunes and prisms style of upbringing, which perhaps after all is the best for them. The "larger life" certainly has its drawbacks.—London World.

WHY NOT ENDOW MEN?

We venture to assert that if our men of great wealth and philanthropic motives who have lately been giving so generously and largely of their accumulations to the endowment of colleges, hospitals, libraries and other worthy objects and institutions should turn some part of this volume of beneficence into the endowment of men, they might be contributing even more largely in some instances to the progress of the world and the happiness and well-being of their fellows. We mean by this the selection of men of character, experience and proved ability and their assignment to some line of needed educational, charitable or reform work, with a fair and just salary allowance guaranteed for a reasonable number of years, if not for life.—Leslie's Weekly.

TWO SAMPLES OF PRAYER.

Appeal for Needed Assistance and a Petition in Person.

At a prayer meeting in Mississippi during the civil war, a brother of fered this prayer:

"O Lord, we thank Thee for all Thy boundless goodness; for this rich and beautiful land of ours; for our brave women and valiant men. We think Thee that we are fully able to take care of ourselves on land; but, O Lord, we do most humbly implore Thy assistance when the yankees send those infernal gunboats to destroy us."

A prominent southern lawyer who had just repented of his wild ways and joined the church was called upon in a religious meeting to pray. He started off very well, but did not know how to stop. After asking the Divine blessing on everything he could think of, he finally, with a determined effort, ended with these words: "Yours truly, P. Q. Mason."—Harper's Week ly.

The opportunity is always ripe for the man who is ready. Judge a man's success by the methods he used in succeeding.

Nature's Defense.

How are children so often able without injury to swallow such sharp things as pins, needles, tacks and bits of glass? The secret, as disclosed by Dr. Albert Exner of Vienna, lies in the fact that, when a pointed or sharp edged body comes in contact with the lining of the stomach or intestine the part touched contracts and puckers so as to thicken itself in that place. At the same time it withdraws itself in such a manner as to form a little pocket and gradually twists the object around so as to turn the edge or point away, pushing the thing along.

Temper is Good Thing—in Harness.

"I wouldn't give much for a man that hasn't temper," says D. L. Moody. "Steel isn't good for anything if it hasn't got temper. But when temper gets the mastery over me, I am its slave and it is a source of weakness. It may be made a great power for good all through my life and help me; or it may become my greatest enemy from within and rob me of power. The current in some rivers is so strong as to make them useless for navigation."

ALL BROKEN DOWN.

No Sleep—No Appetite—Just a Constant Backache.

Joseph McCauley, of 144 Bohlo St., Chicago, Schem of Tecumseh Lodge, says: "Two years ago my health was completely broken down. My back ached and was so lame that at times I was hardly able to dress myself. I lost my appetite and was unable to sleep. There seemed to be no relief until I took Doan's Kidney Pills, but four boxes of this remedy effected a complete and permanent cure. If suffering humanity knew the value of Doan's Kidney Pills they would use nothing else, as it is the only positive cure I know."

Husband of Little Importance.

Among some of the ancient Mexican tribes the husband left his people and dwelt with his wife's family, where he seems to have been considered of minor importance.

Mrs. Anderson, a prominent society woman of Jacksonville, Fla., daughter of Recorder of Deeds, West, who witnessed her signature to the following letter, praises Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—There are but few wives and mothers who have not at times endured agonies and such pain as only women know. I wish such women knew the value of Lydia E. Pinkham's Vegetable Compound. It is a remarkable medicine, different in action from any I ever knew and thoroughly reliable.

"I have seen cases where women doctored for years without permanent benefit, who were cured in less than three months after taking your Vegetable Compound, while others who were chronic and incurable came out cured, happy, and in perfect health after a thorough treatment with this medicine. I have never used it myself without gaining great benefit. A few doses restores my strength and appetite, and tones up the entire system. Your medicine has been tried and found true, hence I fully endorse it."—Mrs. R. A. ANDERSON, 225 Washington St., Jacksonville, Fla.

Mrs. Reed, 2425 E. Cumberland St., Philadelphia, Pa., says:

"DEAR MRS. PINKHAM:—I feel it my duty to write and tell you the good I have received from Lydia E. Pinkham's Vegetable Compound.

"I have been a great sufferer with female trouble, trying different doctors and medicines with no benefit. Two years ago I went under an operation, and it left me in a very weak condition. I had stomach trouble, backache, headache, palpitation of the heart, and was very nervous; in fact, I ached all over. I find yours is the only medicine that reaches such troubles, and would cheerfully recommend Lydia E. Pinkham's Vegetable Compound to all suffering women."

When women are troubled with irregular or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion, and nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

The experience and testimony of some of the most noted women of America go to prove, beyond a question, that Lydia E. Pinkham's Vegetable Compound will correct all such trouble at once by removing the cause and restoring the organs to a healthy and normal condition. If in doubt, write Mrs. Pinkham at Lynn, Mass., as thousands do. Her advice is free and helpful.

No other medicine for women in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any substitute.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Medicine Co., Lynn, Mass.
