### MURRAY'S CORNERS.

[Received too late for last week.]  
Frank Culver, from Utah, is visiting relatives in this vicinity.

The house on the Fred Kimmel farm, occupied by Chester Yost, was burned to the ground Friday morning, as the result of a defective chimney.

Everything in the house was saved except about twenty-five bushels of potatoes in the cellar. Had there been less excitement and a few pails of water available, when the fire was first discovered, the building might have been saved.

Mr. and Mrs. Walter Voorhies at tended the funeral of his father, Johnathan Voorhies at Xpsilanti Tuesday.

A sleigh load of young people from this vicinity spent Thursday evening at Harry Miller's near Plymouth.

Fred Kimmel, from Idaho, is in this vicinity and is expecting to undergo an operation at Ann Arbor hospital next week.

Mrs. Frank King, Mrs. H. Murray and Mrs. S. W. Spicer entertained about 100 people at their meeting yesterday. This was the largest attendance the society have ever had. Guests were there from California, Idaho and Utah, and sleigh loads came, from every direction far and near. Collection was \$10.25. Next meeting will be held at Robt. Clark's Feb. 23rd and we hope all who were at Mrs. King's will be with us at this meeting.

Mrs. Frank Jeffries, of Evansville, Ohio, is visiting Mrs. H. O. Hanford.

Miss Bertha Knight, of Oakland, Cal., who has been visiting Miss Verna Root left today for Northern Michigan.

A sleigh load of young people spent Thursday evening with Mr. and Mrs. Leon Shuart.

Frank Jeffries, of Evansville, Ind., made a short call at Mrs. H. O. Hanford's Sunday.

A sleigh load spent last Saturday evening with Mr. and Mrs. John Forshee, Jr.

Mrs. Cal. Whipple returned from Detroit after a few days' visit accompanied by Mrs. B. C. Bradford of Detroit.

Mr. and Mrs. Randolph Brown give a dinner party Thursday.

Austin Whipple spent Saturday and Sunday with his brother Cal.

Leon Shuart is moving to Plymouth.

### Agonizing Burns

are instantly relieved and perfectly healed by Bucklen's Arnica Salve. C. Rivenbark, Jr., of Norfolk, Va., writes: "I burnt my knee dreadfully; that it blistered all over. Bucklen's Arnica Salve stopped the pain and healed it without a scar." Also heals all wounds and sores. 25c at The Wolverine Drug Co.'s and John L. Gale's.

### PERRINSVILLE.

W. R. Parmales, of Milford, was seen on our streets one day last week.

A surprise rag bee was given at Mrs. Mae Fox's Friday.

There was a large crowd at the entertainment given by Frank Brown, Will Herr, and Frank Bevernitz at the P. of I. hall Saturday evening.

William Wright is visiting his brother, Charley Wright.

There was neither service or Sunday-school at the M. E. church Sunday.

Mrs. Anna Foster is visiting her sister at Stark.

Miss Myrtle Klatt is visiting her sister Mrs. Della Houk at Northville.

L. Sherman and family have moved in with Allen Cory.

Mr. and Mrs. A. Hanchett and family and Alonzo Hanchett visited with Mr. and Mrs. John Edwards and family Sunday.

### Pneumonia and LaGrippe.

Coughs cured quickly by Foley's Honey and Tar. Refuse substitutes. Sold by The Wolverine Drug Co.

### ELM.

A very quiet and unexpected marriage was solemnized at this place on Friday last when Harry Austin and Miss Minnie Rattenbury, both of this place, were united in the bond of matrimony. Joy and success to them. Shaw and Braden who purchased the tops and standing timber left by the sawyers in Goers' woods for \$150, have cut and piled up 200 cords of stove wood and sold the surplus to Mr. Goers for the same amount they paid for the whole.

The Valentine social at the hall on Tuesday evening was not very well attended on account of the cold weather. This vicinity of late has been in the

thoes of a surprise party epidemic. A large number of our young people starting out on Saturday evening as usual to surprise some of their friends were surprised themselves in finding the doors locked and consequently had the laugh turned on them.

Mrs. Fremont Ruddick has been visiting relatives at Inkster the past week.

### LAPHAM'S CORNERS.

How's this for cold weather? 18 degrees below zero makes one wish for the good old summer time.

The L. A. S. at Mrs. Shoop's was largely attended. The collection being over six dollars.

Miss Tena Packard and Chas. Bovee spent Sunday with the former's cousin Miss Zada Quackenbush of Ann Arbor.

The roads are so blocked with snow this week as to be almost impassible. The rural mail-carriers are having a hard time and some of them have been forced to turn around and go back not being able to get through the drifts.

The coal supply has given out in Plymouth. Pretty hard luck for this weather. Some of our farmers who depend upon coal for the warming of their houses look kind of blue.

The social which was to have been at Tom Rones on Tuesday evening was postponed on account of the severe weather.

The Ladies Aid society are preparing for an entertainment soon.

### Poisons in Food.

Perhaps you don't realize that many pain poisons originate in your food, but some day you may feel a twinge of dyspepsia that will convince you. Dr. King's New Life Pills are guaranteed to cure all sickness due to poisons of indigestible food—or money back. 25c at The Wolverine Drug Co.'s and John L. Gale's. Try them.

### Deaths in Michigan.

According to mortality statistics of Michigan for last year, the total number of deaths from all causes was 34,015, an increase of 1,208 over 1903.

The report gives the number of deaths of children from one to four years of age as 2,088, a slight increase over the previous year.

Dreaded tuberculosis caused the decease of 2,648 persons; typhoid fever, 633; diphtheria and croup, 633; scarlet fever, 189; measles 193. Pneumonia caused more deaths than any of the other diseases, the number reaching 2,685, a slight decrease over the previous year. Deaths from violence increased from 2,170 in 1903 to 2,256 in 1904. There were 10 deaths from smallpox in Michigan during January. Five occurred in Jackson City, two each in Columbia township, Jackson county, and Hillsdale City, and one in Battle Creek. The total number of deaths in the state in January was 3,084, corresponding to a death-rate of 14.2 per 1000 population. This is 1.2 higher than in December.

### Costs to Open Wrong Letters.

The authorities at Washington have fixed a penalty of \$200 fine on any person taking out of the postoffice mail other than their own. All postmasters are liable to make mistakes and get the mail in the wrong boxes, and the law says that people must examine their mail before leaving the office, and should they receive a piece which is not addressed to them, it must be returned at once. That it is the fault of the postmaster makes no difference. This law includes newspapers as well as first class mail. There is a class of curious people everywhere, and they are, as a rule, contemptibly curious about letters and other mail matter which they chance to get hold of. They will open all letters coming into their possession, and often when knowing full well they don't belong to them. They will, after reading the letters, write on the envelope "opened by mistake," and without signing their name drop it back in the postoffice box at night or during the night when not observed. This class of curious individuals is warned to be careful in the future. If they open hereafter mail which does not belong to them they must sign their name and state why they opened the same, whether by accident or design.—Galesburg Register.

### Fraud Exposed.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection to you is our name on the wrapper. Look for it on all Dr. King's or Bucklen's remedies, as all others are mere imitations. H. E. Bucklen & Co., Chicago, Ill., and Windsor, Canada.

### CHURCH NEWS.

The subject for Sunday morning at First Church of Christ, Scientist, will be "Christ Jesus." All are cordially invited.

Services in the Presbyterian church next Sabbath morning and evening. The pastor will preach. Christian Endeavor meeting at 6 p. m.

The Epworth League will give a Valentine social at the home of Mr. and Mrs. S. O. Hudd this evening. A fine program has been prepared.

Mrs. Isbell will have charge of the E. L. devotional meeting next Sunday evening. Miss Cady, from Wayne, 1st. Vice President of the District E. L., will be present and take part in the meeting.

Rev. B. McDermond, Michigan Field Secretary of the International B. Y. P. U., will speak in the Baptist church Sunday evening at 7 o'clock. Everybody is invited. Rev. C. W. Fisk, of Detroit, will preach in the morning.

Miss Esther Karnell, field secretary of the Woman's Baptist Home Mission Society of Michigan, will deliver an address in the Baptist church Wednesday evening, Feb. 22, at 7:30 o'clock. Everybody will be welcome. At 3 o'clock in the afternoon she will meet the ladies of the church at the parsonage and at 4 o'clock she will address the children and young people at the church.

### Grave Trouble Foreseen.

It needs but little foresight to tell that when your stomach and liver are badly

affected grave trouble is ahead, unless you take the proper medicine for your disease, as Mrs. John A. Young, of Clay, N. Y., did. She says: "I had neuralgia of the liver and stomach, my heart was weakened and I could not eat. I was very bad for a long time, but in Electric Bitters I found just what I needed, for they quickly relieved and cured me." Best medicine for weak women. Sold under guarantee by The Wolverine Drug Co. and John L. Gale, at 50c a bottle.

# PRESIDENT STANDS PAT

## PRESIDENT WILL HOLD UP ARBITRATION TREATIES.

ARE NOT TO BE PRESENTED TO COUNTRIES INTENDED.

SAYS SENATE'S ACTION IS A STEP BACKWARD.

The Treaties Will Now Be Sent to the Librarian, Where They Will Remain—Rep. Hearst's Grave Charge.

President Roosevelt will not present the arbitration treaties, as amended by the senate, to the countries with which they were negotiated. Secretary Hay makes this explanation: "The president regards the matter of the general arbitration treaties as concluded by the action of the senate on Saturday. He recognizes the right of the senate to reject a treaty either by a direct vote in that sense, or indirectly by changes which are incompatible with its spirit and purpose. He considers that with the senate amendment the treaties not only cease to be a step forward in the cause of general arbitration, but are really a step backward, and therefore he is unable to present them in this altered form to the countries with which we have been in negotiation."

Senator Cullom, chairman of the committee on foreign relations, after reading Secretary Hay's comment on the action of the senate in amending the arbitration treaties, said: "The senate's position is right undoubtedly. If anything is done hereafter the president will have to take the senate into his confidence. It might require a little more time, but otherwise I can see nothing in the senate's course inconsistent with the president's interpretation of his treaty-making power."

Rep. Sullivan addressed the house Monday in reply to certain statements regarding himself alleged to have been printed in the New York American as an outcome of last week's debate on the railroad rate question, in the course of which he was frequently interrupted and stirred up by Rep. Hearst, who replied, Hearst then sprung a sensation which threw the house in an uproar. He charged that John A. Sullivan was one of two brothers who had kept a saloon in Boston where a murder was committed and that the two Sullivans were indicted for manslaughter.

"I would like to ask the gentleman from Massachusetts," calmly inquired Hearst, "what he knows about that incident?"

Sullivan arose and facing Hearst said: "If the gentleman is asking that question of me I will be very glad to answer it."

Things became lively at this point and Mr. Butler shouted: "He has interestingly charged the gentleman with murder."

Butler was thoroughly enraged, and as he walked across the aisle exclaimed: "This is not fair to the country."

After the excitement had subsided Hearst said he recognized the justice of the remarks of Butler and that he greatly regretted it, but said he was compelled in defense of himself, "to define the character of men who have made their attacks upon me."

Speaker Cannon's admonition caused Hearst to cut short his remarks with a statement that he was proud of the hostility of such as Sullivan, and that he would continue "to incur the hostility of that class of individuals," so long as he was in journalism or in congress.

To Investigate Oil.

The house on Wednesday adopted a resolution without debate in committee or on the floor calling for an investigation of the Standard Oil Co. The resolution was offered by Mr. Campbell, of Kansas, and is the outcome of the Standard Oil order discontinuing work in Kansas because the legislature declared pipe lines to be common carriers. The resolution requests the secretary of commerce to investigate the cause of the low price of crude oil or petroleum in the United States, especially in the Kansas field, and also the unusually large margin between the price of crude oil or petroleum and the selling price of refined oil and its by-products.

In the senate Mr. Beveridge presented a memorial from the legislature of Indiana and Mr. Berry a memorial from the legislature of Arkansas, both praying for the enlargement of the powers of the interstate commerce commission. Mr. Berry expressed the hope that the senate committee would soon be able to report a bill on the question.

Killing Railroad Legislation.

Everything indicates that the senate will win out in its determination not to pass any railroad rate legislation this session. The method to be followed is to keep the hearings before the committee on interstate commerce going as long as possible and just before adjournment Senator Keam's resolution providing for a congressional commission to sit during the recess will be passed.

Smallpox among Indians at Saginaw has caused the death of five of them within the last few days and the epidemic is still raging.

Residents of South Forest, Presque Isle, are forming an organization to protect themselves from hunters who come into their county and shoot at everything they see.

Negotiations have been concluded between Gov. Davis, Minister Barrett and the government of Panama under which the canal officials will assume complete charge of the city's sanitation.

Through the will of Frank H. Croker, killed in an automobile accident at Ormond Beach, Fla., his father, Richard Croker, Tammany ex-chief, inherits the entire estate of \$400,000. Croker wants his son, Richard, Jr., to be administrator.

# THE STATE LEGISLATURE.

No bill to pay the legislators a fixed salary instead of per diem has made its appearance in either house this year, though it has been the custom in former sessions to at least vote down any such proposition, chiefly because the salary proposed was not big enough, or if it were big enough it would look too big to observant constituents.

There was no quorum in the senate this morning and hardly enough votes in the house to do business. The representatives worked less than an hour and passed some minor measures.

Half a dozen bills were introduced, including one by Turner to allow an appeal to the circuit court from the order of a township board on the improvement of highways; by Brockway, to provide for the determination of the personal liability of defendants in suits of chancery to foreclose mortgages by the original decree in such suit; by Acens, to provide for the filing of all contract notes, title notes and notes of writings signed by the purchaser of personal property, retaining title to such property or a lien thereon in the seller for the purchase price thereof, and making the same subject to the statute relative to fraudulent conveyances.

The new primary bill for Wayne county was introduced Wednesday and within an hour had passed both houses. Senator Baird, of Saginaw, cast the only vote against it. There were some amendments made to meet the wishes of the townships.

Senator Yeomans has introduced a bill which would prevent all non-taxpayers from voting on any question involving the raising of taxes.

Rep. Ming has introduced a bill making it a misdemeanor for any dealer to give trading stamps. He says he thinks his measure is constitutional, though he has not consulted any attorney about it.

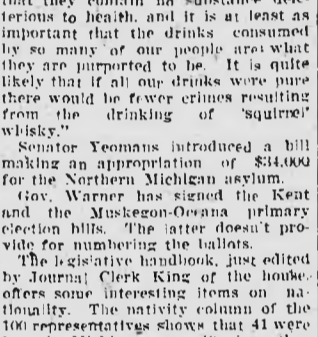

Gov. Warner says he favors the plan of having a state analyst pass upon the purity of all alcoholic drinks sold in Michigan. "We are examining all foods," said the governor, "to see that they contain no substance deleterious to health, and it is at least as important that the drinks consumed by so many of our people are what they are purported to be. It is quite likely that if all our drinks were pure there would be fewer crimes resulting from the drinking of 'squirrel' whiskey."

Senator Yeomans introduced a bill making an appropriation of \$34,000 for the Northern Michigan asylum.

Gov. Warner has signed the Keat and the Muskegon-Oswawa primary election bills. The latter doesn't provide for numbering the ballots.

The legislative handbook, just edited by Journal Clerk King of the house, offers some interesting items on nationality. The nativity column of the 100 representatives shows that 41 were born in Michigan and 40 in other states. Canada produced 10 of the present members, England 4, Germany 2, Scotland 1, Ireland 1, and Norway 1. Of the 22 senators 14 were born in Michigan, 11 in other states, 4 in Canada, 1 in England, 1 in Scotland and 1 in Germany.

Probable Route of Russian Fleet to the Neighborhood of Japan.

The route is indicated by a dotted line. After leaving the Indian Ocean, 1,500 miles northeast from Madagascar and about the same distance west of Sumatra, the fleet may, it is predicted, call at Lampong bay on the south coast of Sumatra, pass through Lombok straits, to Banca Islands, northward of the Celebes group, and thence proceed to the Bonin Islands, stopping on the way at the Caroline Islands to coal.

Tanner Confesses.

Judge A. H. Tanner, United States Senator Mitchell's law partner, confessed in Portland, Ore., court Saturday to perjury in his evidence given before the federal grand jury in connection with the investigation of the land frauds in this state, when testimony was being taken with a view to connecting United States Senator Mitchell with the conspiracy to defraud the government.

"Do you expect to testify against Senator Mitchell?" was asked.

"Yes, I expect to be called as a witness in the case against Senator Mitchell, and I will tell the whole truth regarding the business of the firm, without regard to consequences."

Post's Petition.

President Pro Tem Frye on Saturday introduced in the senate the petition of C. W. Post, of Battle Creek, Mich., asking for the expulsion of Senator Platt, of New York. The petition was referred to the senate committee on privileges and elections.

Where Did It Get.

Soldiers of the 6th U. S. Artillery applying to the state for bounty claims to be due them for enlisting in Michigan regiments. There is something very strange about it all. Veterans file their claims and make affidavits time after time, that they have never received their bounty, yet according to the records of the military department, their claims have been paid and accepted for.

People who lend to the Lord by giving to the poor generally expect a pretty stiff interest on their money.

## THE GRAND RAPIDS CONVENTION AND THE NOMINATIONS MADE.

MUSKEGON MOURNS THE DEATH OF PHILANTHROPIST HACKLEY.

A MANIAC MAKES HIS AGED FATHER RACE FOR LIFE.

THE REMAINS LAY IN STATE ON MONDAY IN THE HACKLEY LIBRARY ASSEMBLY ROOM, IN MUSKEGON—QUIET, PLAIN FUNERAL.

Sawyer Nominated for Regent.

The Republican State Convention, held in Grand Rapids on Tuesday, was missed by several delegations owing to the late arrival of trains, notably that from Wayne and Marquette, though the former telegraphed its vote of 134 for Sawyer and 10 for Lawton from Lansing, which was received by the convention. Chairman Diekmann, presiding, as Mr. Humphrey, of Saginaw, failed to reach the city. Senator William Brown, of Lapeer, placed in nomination Judge Moore. Judge Moore's nomination was made unanimous and W. W. Wedemeyer, of Ann Arbor, made a speech for the renomination of Arthur Hill, of Saginaw, for regent. Mr. Hill's nomination was quickly put through and W. H. Frankhauser, of Hillsdale, placed in nomination Dr. Walter H. Sawyer, of Hillsdale, to succeed Charles D. Lawton, of Lawton. Senator Woodman, of Van Buren, presented Mr. Lawton's name. The vote stood 523 for Sawyer and 201 for Lawton, not counting the vote of Wayne county. W. J. Kone, of Albion, received the nomination for member of the State Board of Education to fill a vacancy.

The chairman of the committee on resolutions, W. J. Hunsaker, of the Saginaw Courier-Herald, read the platform, the primary election plank of which is:

"We congratulate the state administration and the legislature now in session upon their manifestation of a determination to pass a law for direct voting, based upon the views of the Republican party, as adopted in the platform of the last two state conventions and ratified by the voters at the polls. We observe with satisfaction the conscientious determination of the administration to indicate and establish judicial business methods and practical economy in the conduct of all state affairs and we pledge our assistance to the endeavors to this end of Gov. Warner."

The platform was adopted and Gov. Warner briefly addressed the convention which then adjourned.

Muskegon Mourns.

The remains of Charles H. Hackley lay in state Monday in the assembly room of the Hackley library in Muskegon with members of the G. A. R. and Michigan National Guard on duty while the whole populace filed past the bier.

The funeral services at the residence on Tuesday were quiet and simple. The remains were escorted to the Hackley mausoleum in Evergreen cemetery by all the civic and military societies and the school children in a body. A plan is being discussed of erecting a heroic statue of Mr. Hackley on the triangle fronting the federal building and the Hackley bank.

Mrs. Hackley is still confined to her home, but her condition is gradually improving.

Oppose Detroit.

The meeting of the executive committee of the Michigan State Agricultural Society, called to consider protests to the fair going to Detroit, was very stormy. Though it was finally voted that the previous action of the committee was regular, and the time allowed Detroit to complete its contract was extended to March 1, yet there was talk by Poutice, Saginaw and Grand Rapids men of carrying the fight against Detroit into the courts on the ground that the committee's action is illegal. It is claimed that Detroit has four members on the executive committee, whereas the constitution provides that no one county shall have more than two members.

A Race for Life.

Converted into a maniac by strong drink in which he had been indulging for two weeks, John Fitzgerald, a Long Rapids young man, nearly killed his father, Sheriff Peterson, who was called by telephone, was snowbound and could not get to the place for several hours. When he arrived he found that the old man was nearly exhausted from being caught around and around the house for eight hours. All of the furniture in the house was broken, and the old man had been severely cut about the head. The son is in jail and his father's recovery is doubtful.

Who Called?

"I had an inspiration from Heaven," said Simeon Lewis, who was sentenced to serve a life term in Marquette prison for assaulting and robbing his former employer, Thomas Twamley, of \$28. "I was told to go forth and be a preacher to the convicts in the prison on there and I will spend the remainder of my life in that service."

The continued storms have left Marcellus and vicinity snowbound. One doctor started out with snow shovel and wire clippers, prepared to cut barbed wire fences and dig out of drifts, but had to give it up and return without making professional visits, finding snow banks higher than his horses' heads within a mile of town. A liveyman found in Volinia township drifts as large as a house, and the farmers had tunneled a road through, leaving it bridged overhead.

Fire destroyed the home of George Reed in Mundy, with a loss of \$1,000.

# STATE NEWS CONDENSED.

Benjamin C. Dean, a heavy owner of timber and mineral lands in Michigan, is dead in Boston.

Court officials now say that Lant K. Salisbury will be in Grand Rapids for the Conger trial on February 23.

John J. Harrer, recently appointed deputy state treasurer, has resigned as assistant inspector-general, of the M. N. G.

William Butler, who lived near Otisville, is dead of general debility, aged 78 years. His wife died thirty hours before he did.

The Muskegon division of the Pepee Marquette railroad was still closed Saturday by the blizzard which has raged since Tuesday.

Bert Bartlett, the Ann Arbor man arrested in Detroit for the burglary of the saloon of James Burke at Wiltmore Lake, has confessed.

Swan Carlson, of Escanaba, got out of his burning home and re-entered to secure some clothing. He was so badly burned that he may die.

Charles H. Sluger, a Grand Rapids mail carrier, who collects mail with a cutter, was caught between two cars and probably fatally crushed.

Live stock throughout the state is reported in very good condition. The condition in the state of horses is 95 per cent; cattle, 93; sheep, 95, and swine, 94.

A petition to have the United States Food Co., of Battle Creek, declared bankrupt has been filed. Attorney E. B. Kresge has been appointed receiver.

Two great breaks in Lansing city's water mains have reduced the pressure to such an extent that little fire protection could be furnished in case of danger.

The death of a quarr named Van Dusen has revealed the fact that during his forty-five years' residence in Muskegon he had saved and left nearly \$50,000.

Charles May, aged 27, of Cadillac, while in an epileptic fit, fell into a small bog pond. Water in his lungs caused hemorrhages, which resulted in his death.

Axel G. Burman, whose wife and family live in Sweden, died in Cadillac after a three days' illness. He was a wealthy real estate dealer and a prominent politician.

Andrew Mylott, aged 25, single, lies at his home, paralyzed from injuries received to his spine during a scuffle with a fellow employee of the Ann Arbor railroad in Owosso.

Little Creek has four new cases of smallpox. The epidemic which began October 7 had dwindled down to two cases. All the patients are in the city hospital.

Caro is trying to recover the \$1,000 bonus given the Lacy Shoe Co. that under contract was to be operated a certain number of months each year. The factory has been idle a year.

Heavy rainy purchases, big extensions and the opening of a southern route talked of by the Grand Trunk, weakens the hope that Battle Creek may soon be the third city of the state.

The Seo Milling Co. has closed down its plant, owing, it is claimed, to the discrimination of the upper peninsula railroads in favor of Minneapolis mills, so they could undersell in the local markets.

Receiving news that he had been granted the pension which he had tried to secure for many years, Christian Cook, a well-known farmer of Owosso township was deeply affected and died of heart failure.

Miss Bertina Markham, a nurse at Emergency hospital, Coldwater, set her hair on fire, but with presence of mind threw her dress over her head, smothering the flames. She lost a fine head of hair, however.

The coldest weather of the season struck St. Joseph Saturday morning, the mercury dropping to six below. Tonight a heavy snow is falling. Fruit of all kinds is in good condition, being well protected by snow.

Mrs. Oliver Karnes, widow of an old soldier and a former flagman, has since the death of her husband, recently been the "flagman" at the Maumee street crossing of the Detroit Southern in Adrian. She is 67 years of age.

The Broadwell Brush & Ware Co., of Cincinnati, claiming to have lost \$10,000 in two years, paying 55 cents a day per man, has served notice on Warden Vincent that it desires to cancel its contract for 120 convicts at the prison.

A burglar escaping from the home of James McKnight, three miles from Memphis, with \$30, met Mrs. McKnight at the door and struck her over the head with his fist or a club. It is supposed he feared capture.

Carl Lohr, son of Albert Lohr, of Marshall township, who graduated last week from the United States naval academy at Annapolis, is home on a visit. He has been assigned to duty as junior officer on the new battleship Maine, the flagship of the north Atlantic squadron.

The Montague creditors held a meeting at Caro to discuss the selling of 4,000 acres of land turned over to them by Charles Montague a year ago. The plan is to sell the land at auction, allowing the full claim of any of the creditors to go in payment on any parcel they may desire to purchase.

Seizing a hatchet, Mrs. Walter D. Groves, wife of a Kalamazoo mail carrier, chopped her left arm off. She was found unconscious by her daughter Irene, aged 14, lying on the floor in a pool of blood. She died in a few hours. Mrs. Groves was a former asylum inmate. She was 41 years of age, and leaves a husband and five children.

Louis, the 12-year-old son of George Smith, of Adrian, who is in jail on the charge of attempting to murder his wife by feeding her ground glass, died of scarlet fever. The prisoner was unable to attend the funeral owing to the nature of the disease. The wife, who was so seriously ill, was improving somewhat, but the death of her son may set her back.

Frank Varnadine, his wife and five children are confined to their home in Port Huron with frozen feet. The family arrived in this country from southern Italy a few weeks ago, and the change of climate produced the peculiar effect.

# COLDEST IN MANY YEARS

## MICHIGAN SNOW-BOUND FROM END TO END.

MUCH SUFFERING AND HARSHSHIP REPORTED IN THE WEST.

AT LEAST A DOZEN FROZEN TO DEATH IN THE WEST.

The Entire Country in the Grip of the Ice King—18 Degrees Below Zero at Chicago, Causing Much Suffering Among the Poor.

DETROIT WAS THE COLDEST PLACE IN THE UNITED STATES.

Michigan is in the grasp of one of the greatest storms that has been experienced in years. Reports from all sections show that the mercury is down from 15 to 20 degrees below zero. Trains are stalled on nearly all lines of railroads and the mails arrive at from four to ten hours late on regular runs. Much suffering is being experienced in rural communities, as the farmers are unable to traverse the country roads to get supplies.

With almost unprecedented cold and deep snow, delays in passenger and freight traffic, much loss of human life and some damage to live stock were reported from a vast territory west, south and north of Chicago.

In Chicago the rare temperature of 18 degrees below zero was reached, causing great suffering among the poor.

The most unusual of the present cold weather conditions are experienced in the southwest, including Oklahoma, Indian Territory, Arkansas, New Mexico, Missouri and northern Texas.

With a record-breaking temperature of 25 degrees below zero at Kansas City and 15 inches of snow under a clear sky, and this indicates conditions in the whole southwest, a dozen persons have been frozen to death during the last two days in Oklahoma, Indian Territory and adjoining states.

Trains are delayed by snow drifts, but what is protected and live stock losses will not be extensive.

Zero weather prevailed throughout northern New Mexico, the coldest in many years. Trains on several New Mexico railroads are many hours late.

In the middle west, including Iowa, Kansas, Nebraska and adjoining states, the cold is intense but so unusual. Trains are much delayed and coal is scarce at several places. Herders and travelers have been frozen on the prairie in several states.

The line of zero temperature was today extended as far south as Memphis, Tenn., and several Arkansas cities, while at New Orleans the mercury dropped down in the twenties.

NATIONAL CAPITAL NOTES.

The sub-committee of the senate committee on Indian affairs has completed the Indian appropriation bill and it will be submitted probably today to the full senate committee on Indian affairs.

The isthmian canal commission received a cablegram from Gov. Davis, of the Panama canal zone announcing there had been no deaths during the past month among the employees from the United States.

Treasurer Milton E. Allen, of the inaugural committee, yesterday stated that tickets for the inaugural ball to be held on the night of March 4 are being sold at a rapid rate, and he expects the aggregate sales to break all records.

The senate committee on judiciary has issued a favorable report on a bill fixing the boundary line between South Dakota and Nebraska. It provides that the boundary line south of Union county, South Dakota, shall be in the main channel of the Missouri river as now existing.

Senator Bacon introduced a resolution calling for an investigation by the senate committee on foreign relations of a protocol of an agreement under which it is alleged, the United States is now administering the customs affairs of Santo Domingo, or at least a part of such customs.

A second partial report of the public lands commission was sent to congress yesterday by President Roosevelt, who in his letter of transmittal, says the report seems "to require a radical revision of most of the laws affecting the public domain, if we are to secure the best possible use of the remaining public lands by actual home-makers."

Ex-Mayor Hagedorn.

Without a tremor J. Samuel McGue, aged 40, ex-mayor of Charlottesville, Va., met death on the scaffold at 7:35 o'clock Friday morning for wife murder. Hardly had his struggles ceased when his confession was given out by his three spiritual advisers.

CONDENSED NEWS ITEMS.

Hammond, Ind., buffet eatrons are hurried to learn that they have been served with horse meat at free luncheon counters. One saloonkeeper found the hoof of a horse, while examining a quarter of meat.

The U. S. grand jury sitting at Portland, Ore., has returned an indictment charging U. S. Senator Mitchell, Congressman John M. Williamson, Blinger Hermann and others, with conspiring to obtain possession of more than 200,000 acres of public and school lands in several states, valued at over \$3,000,000.

Negroes of Indiana are terrified by the introduction in the legislature of a bill to require the establishment of crematories in certain cities, so that persons who die of infectious diseases may be burned and not buried. The negroes fear that the bill legalizes the burning of members of their race at the stake.

## More Good Promises.

Sept. Richmond, of the D., P. & N. Ry., called up The Mail by phone a day or two ago and gave us some information of what the street railway company is going to do. Mr. Richmond stated he had just returned from Jackson, where as the head offices of the company, and whither he had been summoned. At the company offices he was assured that there "would be something doing" within two or three weeks. He said the Hanover Bank, of New York City, had taken the property in its control and that all promises heretofore made of better service, new cars, etc., would be realized. He was also possessed of other knowledge of what the new owners intended to do with the line, but which he was not permitted to divulge.

We believe the Hanover Bank has figured in the Boland deal ever since he purchased it and the bank people's connection therewith is not new. Mr. Richmond's honesty and desires in the matter of the railway company are not questioned by any one. He has acted conscientiously and with no intention to deceive and he is not to be censured or held responsible. Promises have been held out by the company ever since the road was built—nearly five years ago. Thus far promises is all the people of Plymouth have received. The present installment, based on past experience, may be classed as equally deceptive. What the people of Plymouth want is some evidence that the street car people mean what they say. The only seeming way that this may be accomplished is for the village authorities to assert their prerogatives and compel the officers of the line to do something. The Mail, and the people of the village, expect President Robinson and the council to compel the company to live up to its franchise and agreements or deny them the further use of the streets of the village. No more promises. It's time to act.

## Republicans of the State Meet.

The Republican State convention at Grand Rapids Wednesday was not largely attended owing to the extreme cold weather. The Wayne county delegates, who left on a special train over the Pere Marquette Wednesday morning, did not arrive until the convention had adjourned, the train having become stalled in the snowdrifts. The convention nominated Judge J. B. Moore for the supreme court to succeed himself and also Regent Arthur Hill. There was a contest for the other office of Regent, Dr. Walter H. Sawyer, of Hillsdale, winning out. Prof. W. J. McKone, of Albion, was nominated for member of state board of education. The resolutions reaffirmed the platform of the last State convention on the primary reform question. Governor Warner was in attendance and was given an enthusiastic reception. He thanked the Republicans of the State for his election and stated he believed a primary election law would be passed by the legislature that would be acceptable to the people.

Coroner Toepel was sentenced by Judge Donovan last Saturday to thirty days in jail and to pay a fine of \$250 for contempt of court. The contempt consisted in presenting false certificates for the Judge's signature in alleged State cases. Toepel began serving his time last Saturday night. He thinks he is a much abused man, but the people generally think he is getting his deserts.

After many days delay Sheriff-elect Hoffman was released from jail yesterday on a \$10,000 bond pending his appeal to the Supreme Court for a new trial. Hoffman's pilferings from the State is costing him a whole lot of money and trouble and when he gets through, even if he gets a new trial and is not finally convicted, he will be much poorer in purse and name. His graft has not helped him in either case.

## A Thousand Dollars Thrown Away.

Mr. W. W. Baker, of Plainville, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope, when a friend suggested trying Foley's Honey and Tar, which I did; and thanks be to this great remedy, it saved her life. She is stronger and enjoys better health than she has ever known in ten years. We shall never be without Foley's Honey and Tar, and would ask those afflicted to try it." ## HIGH SCHOOL NOTES.

By Louise Gentz, Vargie Thompson, Eugene Spencer, Arthur Whipple.

We can't see why it is that our girls have more "grip" this kind of weather than the boys. There was to have been a party at Laura Peterson's, Cherry Hill, and also at Roy Armstrong's, Newburg, but the boys "backed out" because it was so cold.

The severe cold weather Tuesday prevented quite a number of non-resident students from attending school and some from the town reached the school with frost-bitten ears.

The business of the freshmen class must be important, as they have a meeting nearly every night.

On account of important business, Miss H. failed to appear at the beginning of the English Literature at the noon session. L. M. took charge of the class for fifteen minutes and had as much influence as though he was an experienced hand.

Ninety books were drawn at the library Friday afternoon.

Twelve little ladies enjoyed a valentine party at Mrs. Hamilton's last Saturday. Progressive finish was the order of the afternoon.

By the time our friends read his Valentine's Day for 1905 will be a thing of the past. Nevertheless the good old Saint visited several of the rooms, the primary and kindergarten, making special red letter days in his honor. We are not sure that Cupid with his quiver full of darts has not given the H. S. a visit.

One of our lower classmen has considerable trouble hearing what teachers say—he is always turned half way round to enable him to hear better, we suppose. Realizing his defect, last Monday night he took heroic treatment, increasing the size of his ears by half. All appreciate his endeavor to improve.

Naughty flies have a secret. Who does not know it?

Fire drill is to be reinstated again.

## HAVE NOT GIFT OF THOUGHT.

Animals Utterly Without Reasoning Powers Says a Writer.

Animals have no language. Languages are conventional signs of thought and have to be learned. Animal sounds are instinctive and are instantly recognized by all the members of a family without learning. Animals may learn to express their wants by signs which sympathetic persons can understand, but animals do not think in the way human beings do. They do not learn the alphabet or the multiplication table, learned horses and pigs to the contrary notwithstanding. By patience and skill a man can teach an animal to do things which express thought but the thought is in the mind of the man and not in the mind of the beast, and is communicated by signs which suggest certain actions. When a pig tells the difference of the time between Boston and Saratoga, he uses the cards which in some secret way his master practices to him by signs long practiced and associated with eating. Darwin made much of the heredity in pigs. A sow was taught to point, and her offspring instinctively pointed at birds; but it is now known that it is a habit of pigs to point. Perhaps that sow's ancestors had been pointing for a thousand generations. The new nature study is giving us, both through its common sense and its follies, new data for the study of the animal mind.—Boston Christian Register.

## AN ABSENT-MINDED ACTOR.

Had Himself Hidden Article He Needed on Stage.

Sheridan Knowles, the Irish dramatist, was noted for his absent-mindedness. He not infrequently took a "part" in his plays. He was on at the Theater Royal, Dublin, in "The Hunchback." Just before his turn to appear a friend went into his dressing-room and found him in a state of great agitation.

"Look at me, William, look at me," said he, stretching out his right leg, on which was a red stocking; the other leg was bare.

"What is the matter?" said the friend.

"Ah," said he, "Isn't an actor's a fearful life. The other stocking is lost. The overture has begun. I must put on black stockings, and in five minutes go on the stage to disgrace myself. The part was never acted in black stockings. Oh! I'm a dear fellow, pull off this red one."

This the friend did, and under it was the lost one. He had two on one leg.

## Good-By, Sweet Day.

Good-by, sweet day, good-by!  
I have so loved thee, but I cannot hold  
Departing like a dream, the shadows fold  
Thee!

Slowly thy perfect beauty fades away,  
Good-by, sweet day!

Good-by, sweet day, good-by!  
Dear were thy golden hours of tranquil  
Sadly they yielded to the evening tender,  
Who were so fair from the first morning  
ray.

Good-by, sweet day!

Good-by, sweet day, good-by!  
Thy glow and charm, thy smiles and  
tones, and glances,  
Vanish at last, and solemn night ad-  
vances.

Ah, couldst thou not a little longer stay!  
Good-by, sweet day!

Good-by, sweet day, good-by!  
All thy rich gifts my grateful heart re-  
members,  
The while I watch thy sunset's smolder-  
ing embers.

tients Say of Him.

Daily Press, Pontiac, Mich.: Dr. W. C. Walker, of Detroit, has made regular professional visits to Pontiac for nearly nine years. This fact, together with his continued large and successful practice here commends him to all in need of skillful and reliable medical treatment.

## WHAT PATIENTS SAY.

Mrs. J. E. Boyer, of Pontiac, says: "I quite well know how to be in very poor health for several years, suffering from bronchitis and lung trouble. She says: When I consulted Dr. Walker I was coughing and raising terribly all the time nearly night and day, and had been a long time. I was so run down I could scarcely get around. Dr. Walker helped me right along and after being under his treatment a few months only, I am now able to do my own work, cough is all gone and I feel like myself again. I give this statement to the public with pleasure."

Signed, MRS. J. E. BOYER,  
27 Osman street, Pontiac, Mich.

Mr. Chas. Noodel, of Walled Lake, Oakland county, Mich., gives the following for publication. He says: "I have tried the different doctors for stomach trouble, but found no relief until I treated with Dr. Walker, who makes regular visits to Pontiac. The doctor has made a complete cure of my trouble."

Signed, CHAS. NOODEL,  
Walled Lake, Mich.

M. Walter Bartow, of Pontiac, says, after taking a course of treatment of Dr. Walker for catarrh: "Am now free from that very distressing and annoying disease."

Signed, WALTER BARTOW,  
Pontiac, Mich.

Mr. Isaac Voorheis, a well-known citizen of Clarkston, Oakland county, Mich., says: "I had suffered terribly with stomach trouble for years, but after taking a course of treatment of Dr. W. C. Walker of Detroit, I feel like a new man. I have also gained fifteen pounds in weight under his treatment."

Signed, ISAAC VOORHEIS,  
Clarkston, Mich.

Mrs. Charles Todd, of Hamburg, Livingston county, Mich., says: "About four years ago my trouble began. The doctors called my disease consumption of the bowels. From the time I was first taken I steadily grew worse in spite of all medical aid. I realized that I was on the decline and that death was staring me in the face. In this condition I met Dr. W. C. Walker, of whose skill I had heard so much. After taking a course of his treatment I am entirely cured. I feel very grateful."

Signed, MRS. CHAS. TODD,  
Hamburg, Mich.

Mr. E. Myres, Detroit, says: "I have treated with seven different doctors; also taken several of the best remedies advertised, all of which did me no lasting good. Was permanently cured by Dr. W. C. Walker in a few months. Discontinued treatment about six months ago. I feel splendid. Have had no return of former trouble."

Signed, E. MYRES,  
Detroit, Mich.

Mr. J. F. Arnold, of Oxford, Mich., cured of chronic eczema, 15 years standing.

Dr. Walker's methods for treatment and cure of diseases peculiar to women are unsurpassed. Also men suffering from Nervousness, Debility, Neurasthenia, Nervous Debility, Defective Memory, etc., or any disease that weakens or impairs the physical or mental health, successfully and skillfully treated. The railroad company made no attempt to move freight trains this week. The first local freight received here was yesterday morning.  
Mrs. Dr. Adams returned to her home in Northampton, Mass. Monday night and was accompanied by Miss Ella Shattuck, who will remain for a time.  
Miss Estelle Hamilton entertained twelve of her young friends at progressive finch last Saturday afternoon. The young people had a delightful time.  
Plymouth passengers on the evening train out from Detroit last Saturday did not get home until nine o'clock. The delay was caused by a broken engine.  
Even if the village council was favorable to primary election under the new Wayne county law, there would not be time this spring to take advantage of the same. Some other spring, possibly.  
The constitutionality of certain sections of the new Wayne county primary election law are already being questioned. And with very good reason, too, if criticisms published are facts.

Winter coughs are apt to result in consumption if neglected. They can be soon broken up by using Foley's Honey and Tar. Sold by The Wolverine Drug Co.  
Candidates for the office of supervisor next spring are already in the field. Supervisor Bradner desires a renomination and E. N. Passage and F. R. Beals are out for the office. Jay Burr wants to be township treasurer and Warren Lombard is figuring on the town clerkship. The prospects are for a lively spring campaign.  
The inability of the railroads to operate their lines on account of the snow and cold weather is causing serious trouble to local coal dealers and others. The dealers are about cleaned out and for the past two days have been parceling out their supply in small lots to keep their customers in fuel. The electric line has been tied up three days for want of coal, and the village lighting plant is out of fuel. Unless a supply of coal is received within a day or two the condition of many families will be serious.

Devoy Berdan is escaping all this nice cool weather by going down to New Orleans, where the thermometer stands at about 81. Wish we could all go down for a few days.

The thermometer went down to eighteen degrees below zero Tuesday morning, the coldest weather experienced for many years. There were not many people in town that day, and business was practically suspended. The only people busy were the coal dealers. Trains were all late from one to three hours.

Despite the cold weather Tuesday A. N. Brown was perhaps the happiest old gentleman in town. He had received notice that his private pension bill had passed Congress and been signed by the President. The law gives him \$24 per month. For 22 years he had been unsuccessful in getting all the pension money he believed himself entitled to. His many friends will rejoice with him in his good fortune.

### Overcome by Gas.

While J. D. McLaren and his son Charles were packing apples in the Gentz cellar, north side, Monday afternoon, Mr. McLaren was overcome by gas generated from a charcoal stove, and sustained some serious injuries by falling against a jagged stone wall. Charles succeeded in getting his father out into the air where he revived somewhat and was then taken home. Physicians were summoned who attended him and although ill from the effects all night, he was able to be up next day, though very weak. Mr. McLaren had worked in the cellar for some time before being overcome and did not notice the presence of gas. Charley McLaren was in and out of the cellar frequently and was not affected.

### Do Plymouth Township Voters Want It?

Under the new Wayne county primary election law, the primaries for the spring election will be held the first Monday in March. This occurs this year on the sixth. Under the new law also townships must hold primary elections unless action is taken by the township boards to the contrary. This spring primaries must be held for the nomination of circuit court judges, so that the expense of township primaries this spring will cut no figure, they being made compulsory anyway. It has been suggested that under these circumstances the township also hold a primary election at the same time for township officers. If this is done, some quick work will have to be done to secure names of candidates on the primary ballots. We understand the township board would be glad to know the wishes of the voters of the township.

### About Chicago Catalogue Houses.

There is no kind of doubt that catalogue mail order houses are diverting a great deal of trade from Plymouth and vicinity. Whether the people who deal with them are getting their money's worth is for them to know. The merchants of our village are the losers by the deal and The Mail asks, are they doing what they can to convince the people they can sell goods as cheap and of better quality than the catalogue houses? The latter concerns are making an effort to still further encroach upon the privileges of the home merchants and dealers by asking the local newspapers for large advertising space for special lines. The Mail has received such a proposition. Plymouth merchants as a rule have been liberal advertisers and we are grateful for it. Most of them run an ad. continuously, one or two occasionally and yet two or three none at all. Singularly enough the advertiser desired by the catalogue house would directly affect the latter classes. The Mail has turned down the advertising proposition, and our home merchants will see the point.

## The North Side

Mrs. Tighe, of Detroit, visited her parents, Mr. and Mrs. Geo. A. Stark-weather last week.

Henry Sage and Mr. Dewey, of Lansing, are looking up acreage for the Lansing sugar factory.

The Baptist church is putting in a new lighting machine this week and will be able to have the evening service in the auditorium next Sunday.

Freight trains were all tied up here Tuesday and Wednesday. It was impossible to get passenger trains through on time, nearly all being 4 and 5 hours late.

S. W. Everett received a package of Quam Quats, fruit from a friend in Florida this week; also several leaves from the tree from which the fruit was picked.

The convention special train on the P. M. to Grand Rapids Tuesday which should have gone through here at 8 o'clock did not get out of here till nearly noon.

Mr. and Mrs. Fred Sallow and son visited Mr. and Mrs. Frank Coon at Dearborn, Mich., last week. Mr. Coon is butter maker in a creamery there, being formerly employed here by the Plymouth Creamery Co.

Oak street was drifted so full of snow Tuesday that it was impossible to get through with a load. S. W. Everett went through it several times with his snow plow the next day, which made quite an improvement.

### I Move

Not "I would move" nor "I move you." Good people of Plymouth, young and old, men and women, come to the School of Instruction in Parliamentary usage, and learn what to say and how to say it should you be called upon sometime as you are likely to be, to preside over a meeting of any kind whatsoever. Not only should the presiding officer be intelligent on this line, but also those who are on the floor of the house, that business may be dispatched quickly and wisely. I move that you come and learn how to make and entertain motions. Such a parliamentary drill will be held under the auspices of the Woman's Literary Club, and the Woman's Christian Temperance Union, Friday evening the 24th and Saturday afternoon and evening the 25th of February, in the lecture room of the Presbyterian church. Course tickets 25c. Single admission 15 cts.

The Presbyterian ladies postponed their Valentine Tea until Saturday afternoon from 5:00 until 7:00. Tickets 15 cents. Following is the

## CHAPTER XI.

### I Meet One I Have Met Before.

I descended the flight of stone steps belonging to the Bow Street mansion more sedately than I had ascended them. I held myself in check, for the joy of the anticipated encounter was stirring within me. "Three days from now," seemed ages away; "three days," in which I must wait before I should meet this braggart, and after him the others. Happily, by that time the King's business would be over.

I gave myself up to thought. Sir Raoul Dwight was the cousin of the woman I loved. If I put a dot to his life by a snafu, what then? Would Mistress Rosemary Allyn think with amiability of the man who had given a coup de grace to "Cousin Raoul"? Such an event would be putting an end to my own existence, for an existence without my lady would be blank indeed to me. I would give him a slight pink, I decided, yet enough to lay him up for a time, since I owed him malice.

It is true that women either love or hate; I would have her love. It is equally true that women are to be won; I would win her. As a man puts his hand to the plow and sows, so shall he reap. Should I some day pluck sweet fruit in that fair garden? It was worth striving for, and we waiters did not bear the motto, "Sit Vote," for naught.

I turned into Drury Lane. I passed a sedan chair and inadvertently I looked up. Surprised, I looked again. Then I stopped, for in that elegant conveyance who should sit quite at her ease but Mistress Rosemary Allyn's maid—the red-headed maid of Castle Drott—Oh, ye gods! think of it—a waiting maid in a sedan chair and most gorgeous attendants! It had not taken her long to use my letter of credit, as I had called the

sharply. "Where is the paper?" "Paper," she reiterated, still good humoredly; "I know not of what you speak—but come, man, wouldst stop the traffic of the street with your bulk?"

A crowd made up of gentlemen of fashion, apprentices, street gamins, charwomen, etcetera, had collected about us. They blocked the way in their desire to ogle the pretty maid, my bulk had naught to do with it. I heard such exclamations as: "Tis she—'His Majesty likes them bold and brown'—'They fall like ripe plums in his mouth'—'The pretty darlin'." "Let me pass, good people," she said saucily; "why obstruct the street?"

And she alighted with all the airs of a grande dame—the jade! She swept past the crowd disdainfully, paying no heed to their nudgings or loud whispers, as they commented upon her form and features even as farmers at a country fair upon their prize stock.

She beckoned me to follow. We went up a narrow stairway and entered a room on the second story. She threw herself into a chair, while she motioned me to another.

"Now, my fine gentleman," quoth she, "what complaint have you to make of Nell Gwyn?"

"Nell Gwyn!" I echoed. "Yes, Nell Gwyn," she mimicked, and made a moue at me.

My face, no doubt, was expressive of many things, and she burst into laughter—a laughter of Drury Lane, not Westminster.

"Nell Gwyn, the actress," I meditated; "that explains all." I took off my hat and swept her a bow. "I must crave your pardon—you will grant it, since I can pay you no higher compliment than by saying your acting was to the life."

"Do not trifle with me, sweet Mistress Nell," I begged.

"Well, first let me know what you intend doing with it?" she asked.

"Dear Mistress Nell, you would not have me lightly throw away a paper containing a promise of marriage with so renowned a beauty as my Lady Felton?" I returned.

"Um—" she smiled and her hands played with the tassels of her gown coquettishly; "have you ever seen her?" she asked.

"No," I replied. "You see there is something in store for me, since all the sparks of town are mad for love of her."

"The town seems divided between the two beauties—Mistress Rosemary Allyn and Lady Felton." She spoke sarcastically.

"Not divided," I corrected her. "They seem to serve with equal loyalty both Mistresses."

"The man from Long Haut, however, swears allegiance only to a fair lady with big blue eyes—is it not so?" she asked.

"If I plead guilty to the charge, can I rely upon the discretion and help of another fair lady with glowing black eyes?" I inquired.

She answered my question with a question: "Does not all the world love a lever?" Then: "I will help you, since I like you, and also because I do not think Rosemary is suited to Raoul Dwight. But you will do well to remember that he is her cousin."

"I shall not forget it," I said grimly, "nor that I found him both literally and figuratively at her feet while his lips were yet hot from swearing love for Lady Felton."

"I see I shall have to tell you who has the paper, since you are so dense you cannot guess it," she said. "Mistress Rosemary Allyn."

"Ah!" I cried, "it could not be in better keeping. Tell her to guard it closely until such time as I shall ask it of her to return to the lady named within it. Bid her cherish the secret so the bloods about town, especially Raoul Dwight, get not hold of it. Give her also assurances of my affection, and whisper a good word for me into her dainty ear."

"Have I not promised to speed your wooing? Is not Nell Gwyn's word worth something?"

"Indeed, yes—and I thank you," I hastened to say.

Before I left she gave me as much encouragement as this: that my lady was a wayward creature (as if I did not know), but if I would persevere—we she would not say, but I was vastly heartened; so much so that as I bent over her hand, saying my adieu, her satiny cheeks tempted me, remembering the time I had not hesitated. I take virtue to myself in my self-denial, still I believe in showing a good pair of heels at such a time, and I waited only to ask:

"Who was in the coach with you when it stopped at the White Swan Inn?"

"It was, of course, Mistress Rosemary Allyn," she answered.

(To be continued.)

## MANILA TO BE REBUILT.

### Work Begun to Make It Model City of the Orient.

Plans have been perfected and the work begun of rebuilding Manila and making it the beautiful city of the Orient. It will not only be clean and healthful, with wide streets and attractive plazas, but it will be a capital of art as well. It is seldom that such an opportunity has presented itself in the Orient to make a model city, says the World's Work; and the insular government, with the active co-operation of the United States government, is taking every advantage of it.

For example, for years open ditches throughout the city have been used for sewage purposes, so that the public health has been put in jeopardy. These ditches will be made into clean canals, spanned by numerous bridges. Pleasure boats will ply on them. A complete sanitary sewerage system will replace the present ditches.

But the most interesting feature of the reconstruction of the city is the preservation of the famous Walled City, which was erected 300 years ago to repel the Spanish and Dutch invaders. This Walled City has a distinctive historical as well as a picturesque value.

The work of filling in 155 acres adjoining Malabon will give Manila an ideal pleasure ground for all the people. This drive is a favorite resort, and the view is said to be one of the most beautiful in all the Philippine Islands. Bandstands will be erected for popular concerts. Another important step is the construction of a complete waterworks system, for which there has been a bond issue of \$4,000,000. The water will be piped from the Mariguina valley, fifteen miles away.

## Necessity Knows No Law.

"It's a remarkable thing," said Simon Ford the other day, "how some men never find out that they can make a speech until they just have to do it. They remind me of a dog that belonged to a Western friend of mine. He was a good dog, and my friend never tired of bragging about what he had done and could do.

"Well, one day he was telling a crowd that that dog could tree anything. 'Why, he even treed a coyote one day,' said my friend.

"Oh, come now," said a cowboy who was listening; "that's a little too steep for us. Your dog might have outrun the coyote, but everybody knows that a coyote can't climb a tree."

"Of course a coyote can't climb a tree," my friend replied, "but that coyote just had to."

# FARM MISCELLANY.

## Discussions in Convention.

Officers of our state dairy associations may profit by an action of the American Warehousemen's Association at their convention in Washington last week. It was there decided that hereafter all such portions of committee reports as invite discussion by the members at the annual convention shall be printed and distributed to the members before the meeting.

In the conventions of associations formed to forward the mutual interests of the membership by improving methods of business, devising and urging legislation, etc., a full discussion by the assembled members is, if properly conducted, the most potent force. This is generally recognized and yet in a great majority of cases the time of the sessions is so largely taken up by the reading of addresses upon various subjects that the discussions are cut short and very often have to be left out altogether.

At the meetings of dairy associations and butter and cheesemakers' associations there are usually a number of papers prepared upon subjects designated by the officers the reading of which takes much time. If these could be forwarded to the secretary in advance they might be printed and distributed to the members before the meeting with very little additional expense to associations which print their reports in full because the type forms could be kept standing for use in the full report. The advantages would be threefold: First, the members would be much better prepared to discuss the subjects brought up if they had time to consider them before the meeting; second, the time of the convention could be more largely devoted to the discussion; and third, the full report of the proceedings could be published much more promptly after the convention had closed.

We commend this plan to the consideration of all such associations; as would be benefited by its adoption.—N. Y. Produce Review.

## Alfalfa and Corn.

Up to the last ten years alfalfa and corn did not grow generally in the same region, the alfalfa clinging to the dryer regions, where corn does not flourish. But during the last decade the corn-growing area has been pushed steadily westward by dry farm culture and methods that pack the soil to make the moisture there most available for the corn crop. A alfalfa, on the other hand, has been moving eastward and northward till now it has swung away entirely, so to speak, from the arid regions and grows both in humid and in arid lands. Where the two crops can be grown in the same locality, there is probably no better combination of feeds for cattle. The corn is rich in fat-forming material and the alfalfa rich in material to make muscle. The one furnishes a great over-balance of carbohydrate and the other a still larger over-balance of protein. It is easy to compound from the two a ration that is in every sense profitable and easy to feed.

Some farmers think they are making money feeding corn and prairie hay, but there is still more profit in feeding corn and alfalfa. Alfalfa and corn and clover and corn are combinations that cannot be excelled for cattle feeding and fattening, provided they can be obtained at a reasonable cost. The fact that several crops of alfalfa can be grown the same year greatly reduces the per ton cost of alfalfa and gives it a certain advantage over common hay.

## Dairying in Michigan.

Michigan is not considered a dairy state, and yet, according to a recent census, there are in that state 14,116 farms deriving their chief income from dairy products. On these dairy farms there are 74,043 cows, which makes an average of a little over five cows to a farm. The number of cows in the state used for the production of milk principally is over 875,000, according to the census of 1900. About 60,000,000 pounds of farm butter are made yearly, and this has a value of \$9,000,000. In addition, over 26,000,000 pounds of butter are made in the creameries, and the value of this swells the aggregate value of the butter made to over \$14,000,000. This is a good showing when it is considered that in the enumeration of the cows must be a very large number that produce little or nothing. How much greater would be the production if every poor cow were replaced with a good cow!

## Unstrained Milk.

At the Illinois State Dairymen's Association one of the speakers said that if milk were produced as carefully as it should be there would be no necessity for straining it. There would then be nothing to strain out. Under a rigid course of procedure it is entirely possible to have the milk as clean as indicated. The calf takes the mother's milk unstrained, and it is clean, not even a microbe getting in. In the main we have not yet been able to do by ourselves quite as well as nature does by the calf in the way of giving it pure milk.

The knife and saw still remain the principal remedies against the blight. We have not yet found a remedy that may be applied to and cure sick limbs and twigs.

## PEOPLE ENTIRELY WIPED OUT.

### Cruelty of Russians Blamed for Island's Depopulation.

When Cabrillo coasted along the shores of California in 1542, Santa Cruz Island was densely populated; but in 1790, the early part of the mission period, only a few inhabitants remained, and these were gradually removed by the padres to the vicinity of the Santa Barbara mission. The cause of the depopulation was this: The Russians and Aleuts on their annual seal hunts, continued through more than a century, pillaged the island, massacred the men and children and carried off the women. Only the relic hunters now find traces of the number and character of these Islanders in the stone disks, mortars, arrow heads and ornaments of bone or shell scattered thickly throughout the island.—Heatherwick Kirk in Sunset Magazine.

## Heir to Great Income.

The young heir to the Duke of Westminster, if he lives, will be one of the wealthiest men in Great Britain. His income will be more than a million and a quarter dollars a year. He will inherit, among other possessions, 30,000 acres, including 600 acres of the most valuable land in the West End of London, which, as years go on and leases fall in, increases constantly in value. There are also 23,400 acres waiting for him in the country.

## Within and Without.

How often, while women and girls sit warm at sweet firesides, their hearts and imaginations are doomed to divorce from the comfort surrounding their persons, forced out by night to wander through dark ways, to dare stress of weather, to contend with the snow-blast, to wait at lonely gates and stiles in wildest storms, watching and listening to see and hear the father, the son, the husband coming home.—Charlotte Bronte.

## About Coquettes.

Men, said Victor Hugo, are women's playthings, women the devil's; and it was somebody we do not know who said that "women know a point more than the devil." Life, said Addison, is not long enough for a coquette to play all her tricks in, and the poet would perhaps have fathered this saying: "A coquette is a woman who places her honor in a lottery; ninety-nine chances to one that she will lose it."

## IT'S THE TERROR OF ALL WOMEN.

### Backache Quickly Cured by Dodd's Kidney Pills.

Mrs. W. H. Ambrose tells how her pains vanished never to return when she used the Great American Kidney Remedy. Dover, Ky., Feb. 13th.—(Special)—So long has backache been the terror of the women of America that the numerous reports of the complete and permanent cures of this ailment now being made by Dodd's Kidney Pills are causing wide satisfaction and not the least remarkable of these cures is that of Mrs. W. H. Ambrose of this place. Mrs. Ambrose says:

"I had such pains in my back at times I could hardly move and other symptoms showed that my kidneys were affected. One box of Dodd's Kidney Pills drove away all the pains and I have never been troubled since." Backache is the kidney's first notice that they are out of order and need help. If they get that help in the form of Dodd's Kidney Pills all will be well. If they are neglected the disease may develop into Diabetes, Bright's Disease or Rheumatism.

## Cost of Capital Punishment.

France was on the verge of abolishing capital punishment because of the expense. Yet the salaries of the executioner and his assistants amount to only \$3,800 a year, with fees of \$4 for each execution outside of Paris, and it costs \$300 a year to "stabilize" the guillotine.

## Salzer's Home Builder Corn.

So named because 50 acres produced so heavily, that it proceeds built a lovely home. See Salzer's catalog. Yielded in Ind. 137 bu., Ohio 160 bu., Penn. 193 bu., and in Mich. 230 bu. per acre. You can beat this record in 1905.

WHAT DO YOU THINK OF THESE YIELDS?  
120 bu. Barless Barley per acre.  
210 bu. Salzer's New National Oats per A.  
60 bu. Salzer Speltz and Macaroni Wheat.

# WOMEN WHO CHARM

HEALTH IS THE FIRST ESSENTIAL

It Helps Women to Win and Hold Men's Admiration, Respect and Love

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of feature.

Mrs. Chas. F. Brown

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. At the first indication of ill-health, painful or irregular menstruation, headache or backache, secure Lydia E. Pinkham's Vegetable Compound and begin its use.

Mrs. Chas. F. Brown, Vice-President Mothers' Club, 21 Cedar Terrace, Hot Springs, Ark., writes:

Dear Mrs. Pinkham:—  
"For nine years I dragged through a miserable existence, suffering with inflammation and falling of the womb, and worn out with pain and weakness. I one day noticed a statement by a woman suffering as I was, but who had been cured by Lydia E. Pinkham's Vegetable Compound, and I determined to try it. At the end of three months I was a different woman. Every one remarked about it, and my husband fell in love with me all over again. Lydia E. Pinkham's Vegetable Compound built up my entire system, cured the womb trouble, and I felt like a new woman. I am sure it will make every suffering woman strong, well and happy, as it has me."

Women who are troubled with painful or irregular menstruation, backache, bloating (or flatulence), leucorrhoea, falling inflammation or ulceration of the uterus, ovarian troubles, that "bearing-down" feeling, dizziness, faintness, indigestion, or nervous prostration may be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

### Lord Bacon on Tall Men.

When King James asked Lord Keeper Bacon one day what he thought of the new French ambassador Bacon answered evasively that he was a tall and handsome man. "Yes," continued James, "but what do you think of the headpiece?" "Sire," was the answer, "tall men are like high houses, wherein commonly the uppermost rooms are worst furnished."

### Resented Assistance.

A friendly fire brigade recently perceiving that a neighboring town was being swept by a big fire, hurried over and immediately began to assist in the attempt to stop the fury of the flames. Whereupon the local fire chief came up and haughtily asked the chief of the assisting brigade: "Come, now; is this your fire or is it ours?"

### Irish Inscription.

In the old churchyard at Killeel, Ireland, is a tombstone with the following inscription: "Here lie the remains of Thomas Nichols, who died in Philadelphia, March, 1753. Had he lived he would have been buried here."

# WAS CURED RAPIDLY

RHEUMATISM IN TWO SEVERE CASES MASTERED IN FEW WEEKS.

The Remedy Used by Mr. Schroepfel and by Captain Laffair in Great Demand in Vicinity of Their Homes.

In the winter of 1902-3 Mr. Schroepfel was confined to his bed by a severe attack of rheumatism. His doctor's treatment proved unsuccessful, but he subsequently regained his health by means which he describes with great enthusiasm.

"After five or six weeks of helplessness and pain," said he, "during which I was receiving regular visits from the doctor, I felt as bad as ever. Just then my mother, a woman eighty years of age, paid me a visit. She had received great benefit from Dr. Williams' Pink Pills, and she was confident they would help me. At her solicitation I gave up the doctor's treatment and took the pills in its place."

"And were you cured as the result of taking her advice?"  
"Yes, quickly and thoroughly. Before the second box was finished I felt very manifest improvement, and within two weeks I was able to leave my bed and take up my neglected farm work. I continued to use the pills, however, until eight boxes had been taken, although long before that I felt that every vestige of the disease had been eradicated."  
"Are there no traces left?"  
"Absolutely none. For a year and three months there has never been the slightest return of the old trouble. For this happy result I and my family freely praise Dr. Williams' Pink Pills."

Within the bounds of China township, St. Clair county, Mich., there is no better known farmer than Mr. Henry Schroepfel. His cure has therefore naturally attracted a great deal of attention. One of Mr. Schroepfel's neighbors, Captain George Balfour, after hearing of the satisfactory results in Mr. Schroepfel's case, decided to try Dr. Williams' Pink Pills for an attack of rheumatism from which he was himself suffering. He took eight or ten boxes and now declares himself free from the painful ailment.

It is little wonder that Dr. Williams' Pink Pills are so well and favorably known. They are sold by all druggists and are equally successful in curing sciatica and neuralgia.

# THE LAMENT

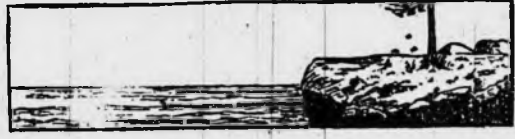

By PERCY BYSSHE SHELLEY

Swifter far than summer's flight,  
Swifter far than youth's delight,  
Swifter far than happy night,  
Art thou come and gone;  
As the earth when leaves are dead,  
As the night when sleep is sped,  
As the heart when joy is fled,  
I am left alone, alone.

The swallow, Summer, comes again;  
The owl, Night, resumes her reign;  
But the wild swan, Youth, is vain  
To fly with thee, false as thou.  
My heart each day desires the morrow,  
Sleep itself is turned to sorrow;  
Vainly would my Winter borrow  
Sunny leaves from any bough.

Lilies for a bridal bed,  
Roses for a matron's head,  
Violets for a maiden dead—  
Pansies let my flowers be;  
On the living grave I bear,  
Scatter them without a tear,  
Let no friend, however dear,  
Waste one hope, one fear for me.

## OLD BOSTON WHIPPING POST

Instrument of Punishment Had Permanent Position Near Famous State House

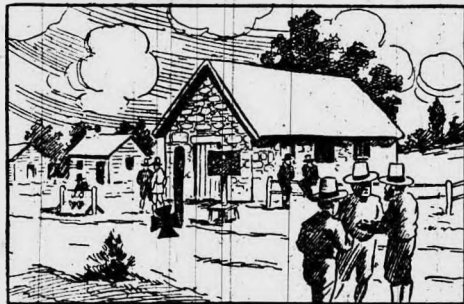

Fresh impetus has been given to the discussion of President Roosevelt's recommendation of the establishment of a whipping post in the District of Columbia by the report of the Washington grand jury endorsing the president's recommendation, and in the action of prominent citizens of Boston favoring the re-establishment in that city of its famous whipping post.

The Boston whipping post used to stand near the present site of the old state house, not far from Thomas W.

"The ordinary forms of punishment, like imprisonment or fines, do not take hold of certain wifebeaters," declares Mr. Paine, "and where boys in pure devilry are guilty of malicious mischief, the courts should have discretion to whip them."

Judge Fallon of the South Boston District court; Max Mitchell, president of the Boston Federated Hebrew charities; and a number of other prominent citizens heartily endorse Mr. Paine's sentiments.

Boston's first whipping post was

Lawson's office. It might come handy in spelling such encounters as it was feared might take place between Boston's copper magnate and the redoubtable Col. "Bill" Greene, should there ever be a renewal of hostilities.

Robert Treat Paine, an eminent citizen of Boston, says that not only wifebeaters, but mischievous boys, should be given a taste of the medicine so freely administered in the time of their great-great-grandparents.

### LEARNED LESSON TOO WELL.

Customer of Book Agent Had Read Up on Etiquette.

Henry James, the novelist, who, after an absence of twenty years, has returned to the United States, tells of a book agent driving many miles to a farmhouse where on a previous occasion he had sold a book. He found the daughter at home and discoursed fluently and impressively on the merits of his book. For each chapter he had a word of commendation. The pictures received detailed explanations. When he had concluded his argument and stated the financial proposition, the girl opened her mouth reluctantly and said: "Papa brought that book home with him the day before yesterday." After the agent had exhausted his supply of polite yet emphatic words and condemned the girl for letting him discourse when his time was so valuable, the daughter ventured the following explanation: "Sir, last year you sold me a book on etiquette. That book says that the art of being agreeable consists in knowing how to be a good listener. I did not wish to be discourteous."

### The Woman and the Dog.

If the average Belgian farmer were deprived of the services of his wife and dog he would soon succumb. The women and dogs do very nearly a full half of all the work done on the farm. Here on chill days when an overcoat and gloves are very highly appreciated by a pedestrian taking a brisk walk, on all sides are seen women working like beavers in the fields, weeding turnip beds, hoeing out potatoes, doing all sorts of work. In some instances, the man is by her side, but she is generally alone, excepting for the companionship of from one to four or five little "pots," boys or girls, who gather up the potatoes or pile up the weeds.

erected in 1637 by Edward Palmer, who built the first pillory and the stocks. To the lasting joy of the wicked, he himself was the first to sit in the stocks, languishing in them, for turning in a bill which the authorities deemed excessive.

The whipping post stood in front of the First Baptist church, and was generally flanked by the pillory and stocks, but these could easily be removed from place to place, while the post was stationary.

### JOIN FOR MUTUAL DEFENSE.

Stratford Girls Will Stand No More of Yale Filtrings.

Tired of the frivolous attentions of Yale students who are "rusticated" to their town, Stratford's young and pretty society girls have banded together in an organization known as the Bachelor Girls' club.

The chief object of the club, according to its president, Miss Dora Rogerson, is to repel the flirtatious advances of Yale students who come to their town. In college life students who fail to make satisfactory progress in their studies are "rusticated" to places outside of New Haven.

Milford and Stratford get most of the students who are subjected to this form of discipline, but instead of trying to catch up with their studies the students have been trying to win the hearts of Stratford's pretty girls. When they return to college, however, the students quickly forget their rural acquaintances.

It will now be an offense punishable by a fine for a member of the Bachelor Girls' club to be seen in the company of a Yale man.—New York World.

### Not Information to Her.

Senator Nelson W. Aldrich was traveling from Providence to his summer place at Warwick a while ago, and as the train was somewhat crowded he sat down beside a bright little girl of about eight years who went to and from school on the line five times a week. She was a pretty blue-eyed, fair-haired little thing and the senator, by way of pleasant conversation, remarked: "What pretty eyes you have."

The small damsel looked at him calmly and responded, "So I've been told before." The conversation stopped right there.—New York Times.

### SLOWEST OF ALL ANIMALS.

Scientists Unanimously Award Palm to the Loris.

Scientists say that the slowest-moving mammal in existence is the slow-paced loris, an animal more or less closely allied to the monkeys. Its technical name is "Nycticebus tardigradus," the last part of which might be translated "lazy-footed." One of them, when timed, took exactly thirty-two minutes and three seconds in moving across a space of four feet toward a roach that it was endeavoring to capture. The animal belonged to an Asiatic genus that extends from Java and Sumatra through Borneo and quite possibly some of the Philippine islands, through parts of Hindustan. When its progress was timed, it advanced "within ten or twelve inches of its quarry, rested upon its hands, drew its hind feet gradually forward until almost under its breast, very slowly and cautiously raised itself upright into a standing position, balancing awkwardly with uplifted arms, and then threw itself bodily—not upon the insect, which was off like an arrow from a Tartar's bow, but upon the spot the roach had occupied half a second before."

### Strengthening the Nerves.

Self-control or nerve force is the great lesson of health, and therefore of life itself. To understand how to relax is to understand how to strengthen nerves. Hearty laughter is a source of relaxation, as are also all big thoughts, as those of hope, beauty, trust or love. Relaxation is found in diversion. An occasional outing or holiday is necessary. As there are conscious and unconscious thoughts there are conscious and unconscious nerve tension. Women, when shopping, do not know the very tight grip they give their parcels until, on reaching home, their hands fall relaxed in their laps and they say they are so tired.—Health Culture.

### Did She Still Approve?

A handsome English girl, recently returned from Spain, was recounting her experiences to a circle of friends, among whom was a Spaniard, says the London Chronicle. "The thing that delighted me most," she said, "was that charming practice they have in Spain of offering you instantly what you may chance to admire. 'Do you approve of the custom?' asked the Spaniard friend. 'Oh, yes!' was the reply. 'Senorita, you have very beautiful lips,' exclaimed the impulsive Andalusian.

Sold by all druggists at 50c and \$1.00. Money back if it fails.

### Color and Sensibility.

Color and sensibility are closely allied, and one inattentive to clashing combinations is likely to be also a little blunt to the finer moral and intellectual distinctions, a little impervious to the more delicate tastes and acuter pains.—Harper's Weekly.

# DANGERS TO BE AVOIDED IN FEBRUARY.

### Intense Cold Breeds Catarrh.

Winter Scene in the North.

February is a month of severe storms and intense cold.

Even in the South where the prevailing temperature is much above wintry latitudes, February brings sudden changes of temperature.

Mercury sometimes drops 20 degrees in a single night.

Therefore, the following health hints are applicable to the whole of North America:

**Ventilation.** The sleeping rooms should be well ventilated, but so as to avoid direct currents of air.

**Bathing.** Those in vigorous health should take a cold water towel bath every morning before breakfast. Those in feeble health should take a brisk dry-towel bath every morning.

**Diet.** The diet should be a generous one, including meat, and occasionally fresh vegetables.

**Sunshine.** The nights being long and the days short, as much sunshine as possible should be let into the house during the day.

**Clothing.** The head should be kept cool at all times. The feet should be kept warm and dry, day and night.

**Reserve.** When unavoidably exposed to cold or wet, a few doses of Peruna will avert bad consequences.

**Precaution.** When seized with a chill, or even slight chilliness, a dose of Peruna should be taken at once.

**WANTED**—One person in every community to represent old well-known house. Good income. Send address, Donohue Co., 425 Dearborn St., Chicago.

There are few women so perfect that their husbands do not sometimes repent their choice.

**A GUARANTEED CURE FOR PILES.** Itching, Itted, Bleeding or Protruding Piles. Your druggist will refund money if PIAZO OINTMENT fails to cure you in 6 to 14 days. 50c.

Summer heart trouble has many symptoms of the first love affair with no lasting effects.

**FITS** permanently cured. No fits or nervousness after treatment. Send for FREE \$2.00 trial bottle and receive 10c. H. H. Kline, Ltd., 321 Arch Street, Philadelphia, Pa.

Place windows to the south turn the milk of human kindness into clabber.

**Mrs. Winslow's Footing Syrup.** For children teething, softens the gums, reduces inflammation, always cures wind colic. 25c bottle.

Old age can dye its whiskers, but old age can't look young.

I am sure Piso's Cure for Consumption saved my life three years ago.—Mrs. TROTT ROMBERG, Maple Street, Norwich, N. Y., Feb. 17, 1900.

Many a man is in advance of his age—and many a woman is several years behind hers.

### Sudden Changes Breed Catarrh.

Winter Scene in the South.

As much sleep as possible should be obtained in the forepart of the night.

**Catarrh of Head.** Mr. Frank Cobb, 175 Summit Street, Deering, Me., writes: "I was troubled with catarrh in my head. I wrote to Dr. Hartman for advice and he prescribed Peruna."

"I took it and am happy to say it helped me at once. I feel better than I have for years."

**Bronchial Trouble.** Mr. J. Ed. O'Brien, Pres. American Pilot Ass'n, Pensacola, Fla., writes: "I heartily give my endorsement to Peruna as an effective cure for catarrh and bronchial trouble."

**Throat and Lungs.** Frank Battle, Jr., 111 N. Market St., Nashville, Tenn., writes: "Peruna has cured me of chronic bronchitis."

"It is the grandest discovery of the age for the throat and lungs."

**Pneumonia.** Mr. A. C. Danforth, St. Joseph, Mich., writes: "I contracted a severe cold which settled on my lungs. I was threatened with pneumonia."

"Peruna gave me relief within a couple of days. Three bottles saved me a large doctor bill and a great deal of suffering."

**Thousands of Testimonials.** We have on file thousands of testimonials like the above. We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving.

WEALTH AT SEA'S BOTTOM.

Untold Treasure of Pure Manganese Lies Under the Pacific Ocean.

In spite of the enormous hoards made on this earth's great store of wealth, diamonds, gold, oil, coal, iron and other materials, recent investigations have brought to light the interesting fact that treasure fields containing fabulous wealth still remain intact.

Investigations have proved, for instance, that huge areas of the floor of the Pacific are strewn thick with immense deposits of nodules of pure manganese. Invented a practical and economical method of recovering it, and the individual who does so will at once become rich beyond the dreams of avarice.

The most crying need to-day is a substitute for Para rubber. It is certain to be discovered sooner or later.

Celluloid and oxidized linseed oil are useful for some purposes for which rubber is used, but for cycle and automobile tires real rubber is the only material with the necessary elasticity.

The inventor of a substitute would soon become a multimillionaire.

Folks in Ruts.

The world is full of ruts, my boy, some shallier an' some deeper. An' every rut is full of folks, as high as they can creep.

The Mind Needs Diversity.

Put variety into your mental bill of fare as well as into your physical. It will pay you rich returns. No matter if you are strong and rugged and able to work every day in the year, your mind needs a change, even if your body does not.

Some Folks Are Inspiring.

Some people act like a tonic or an invigorating and refreshing breeze. They make us feel like new beings. Under the inspiration of their presence we can say and do things which it would be impossible for us to say and do under different conditions.

In London's "Alien" Districts.

As illustrating the way the people live in the "alien" districts of London's East End, a member of parliament told this as a postman's common experience: "He knocks at the door with the first delivery; a head is put out of the first floor window and the question is asked, 'Is that letter for So-and-so?' 'Yes,' replies the postman. 'Well,' says the lodger, 'please leave it on the window sill; I can't get down until the people who are sleeping in the passageway have moved their beds.'"

Curious Directions.

While walking through Wiltshire, England, a week or two ago a pedestrian asked a native how far it was to the next village, and received the curious reply, "About three pipes o' haccs." He subsequently found that watches and clocks were very rare in that district, and that it was usual to indicate distance by the number of pipes of tobacco one could smoke on the journey.

INCOME WAS TOO LIMITED.

12 a Month Really Not Enough to Support a Gentleman.

Somewhere in town is a man of good family and excellent education who has simply gone to the dogs. He has reached the dime stage of the growing habit. One of his friends, by name, grew tired some time ago of his importunities.

"See here, Joe," said he, "if you'll promise to stop asking me for a dime every time you see me, I'll give you \$2 a month. I can't stand being bothered much. I'll tell the cashier, and try first of the month you come in, I'll give you the \$2."

CENTURY OF GREAT MEN.

Immortal Characters in Modern History's Pages.

From 1730 to 1830 is the most memorable period in modern history. Six great men made their marks—Napoleon, whose chief feature was ambition; Nelson, courage; Pitt, statesmanship; and George Stephenson, industry. Washington and Nelson secured the affection of posterity. Washington and Stephenson have done the most for mankind. Wellington enjoys the respect of all. Pitt has our admiration and Napoleon will forever excite the wonder of the world.

Days of Prosaic Courtship.

In Shakespeare's England courtship was not the prolonged and romantic affair it is now. The young folks did not make and unmake engagements as they pleased without consulting their parents. The etiquette of a betrothal was almost as formal and as rigid as that of marriage is to-day.

We Haven't Time.

A smile to make the heart rejoice Enwrapped a face most fair. The music of a low, sweet voice Came in upon the air.

Her father's desk she soon found there, And how those bright eyes shone. A holding up a posied rare. She'd picked up on leaving home.

Log Tells of Nelson's Death.

There is still in existence the log of Nelson's flagship, the Victory, on the day of Trafalgar. A clerical hand, clear and distinct, wrote amid the echoes of French and Spanish guns: "The Right Honorable Lord Viscount Nelson, K. B., commander-in-chief, was wounded in the shoulder 1h. 30m." Later, on the other page: "Partial firing continued until 4h. 30m., when a victory having been reported to the Right Honorable Lord Viscount Nelson, K. B., and commander-in-chief, he then died of his wound." And all the time in the margin the variations of the wind are calmly noticed.

Ingenious Door Lock.

An ingenious lock, which has just been patented, has the keyhole in the knob or handle of the door. The mechanism of the lock is so constructed that a person on the inside of the door can, by turning the knob in one direction, lock the door so that it cannot be opened, even by a key, on the outside. By turning the knob in the opposite direction the door is locked, but can be opened on the outside by the use of a key designed to fit the lock.

PAID FOR SMART TRICK.

Drummer's Joke on Colored Waiter Led to Much Tribulation.

"I suppose there comes to every man a desire to do something smart on an occasion," said the drummer, as a sigh took the place of his smile.

"Well, such a desire came to me as I was leaving a certain southern city after a week's stay. The waiter at my table had called me 'General' and been at great pains to cure for me, and I made up my mind to reward him with a \$5 bill. It was a counterfeit with which I had been struck, but I thought it would be the biggest kind of a joke to work off on Bob.

"I had got 400 miles away when I was arrested on a telegram for passing counterfeit money, and when taken back I was arraigned in a United States court and had to give bail and appear on three different occasions. I had a lawyer and other expenses, lost a good three weeks altogether and just escaped prison by the skin of my teeth. In addition to this I had to make good to the waiter, who sorrowfully shook his head when he received the money and said: 'I'm sorry for you, General, but dis may be de means of savin' your contemptible soul from the gallus!'"—Chicago News.

BATTLED TO KEEP WARM.

Personal Combat Alone Saved Two Soldiers From Freezing.

There are various ways of keeping oneself from becoming benumbed by the cold, but perhaps not the least remarkable is that adopted by two soldiers of the first regiment on duty in a fortress on the Italian-French frontier on Mont Cenis. While going off duty toward their barracks they lost their way in a snowstorm, and when found by their comrades they were in a pitiful condition. On being carried to their barracks they related how they had struggled for two days against the blizzard, and in order to keep themselves awake, and to counteract the effects of the cold, they unceasingly struck one another. At times they fought stubbornly for hours on end, which explained the reason for the exhausted state in which they were found.

Sunflower Seeds in Russia.

A traveler says that one of the first things which struck him on his arrival in Russia was the enormous quantity of sunflower seed consumed in that country. The seeds, which are oleaginous and have an agreeable taste, are constantly chewed by the people. The outer husk is detached with the teeth and spat out. These husks are seen scattered about on pavements and garden walks, in railway carriages, tramway cars and cabs, on the floors of restaurants and private rooms. On days of public festivity the ground everywhere is covered with them. At every street corner a husk trade is done in the seeds by old women.

Food Value of Eggs.

Eggs consist of proteins, and fat, water and mineral matter. It is the proteins, or nitrogenous matter, that builds up and repairs the tissues of the body, while the fat supplies energy. The white of an egg is often said to be pure albumen, but it also contains phosphoric acid and sodium chloride or common salt. The yolk contains the fatty part of the egg, phosphorus, calcium, magnesium, potassium and iron. Eggs also contain sulphur, and this probably accounts for a dark stain left by an egg on silver, the sulphur coming in contact with the silver forming silver sulphide.—Medical Talk.

The Strange Part of it.

"An English woman, supposed to be dead," so a voracious contemporary reports, "arose while the undertaker was measuring her for a shroud, and asked him if he thought she would be caught dead with a garment that didn't fit better than that." The improbable thing about this is that English women should so object to being caught dead in ill-fitting garments, though they seem to make a point of wearing that sort of apparel when living.

Pretty Dining Table Idea.

A pretty device that has been greatly admired may be seen in the dining room of an English dowager. It is nothing more or less than a glass table. The top is transparent glass, set in woodwork painted white and gold, and the idea is to illuminate it from beneath at will, the lights being so arranged that they shine upward through the ferns or orchids or beauty rears, or whatever it is the table is decorated with.

Giant Roach Found in Thames.

Stated to weigh 3 1/4 pounds and having a length of 18 1/4 inches, a roach which was found in a dying condition in the Thames at Marlow is now being preserved, says Goosequill, in the London (England) Leader. It is a record specimen for the Thames. All anglers who have seen it up to the present pronounce it to be a true roach. The fish was removed from the river with a landing net. I wonder whether it was dying from old age or overfeeding. What a whopper! I wonder how many anglers' floats it had pulled under in its day.—American Field.

Think Straight.

It would be impossible for a lawyer to make a reputation in his profession while continually thinking about medicine or engineering. He must think about law, and must study and become thoroughly imbued with its principles. It is unscientific to expect to attain excellence or ability enough to gain distinction in any particular line while holding the mind upon and continually contemplating something radically different.—Success Magazine.

English as Used in Japan.

At a recent exhibition of pictures in Tokyo, Japan, the following notice was posted: "No visitor who is mad or intoxicated is allowed to enter in, if any person found in shall be claimed to retire. No visitor is allowed to carry in with himself any parcel, umbrella, stick and the like kind, except his purse, and is strictly forbidden to take within himself dog or the same kind of beasts. Visitor is requested to take care of himself from thievery."

Sawdust for Wounds.

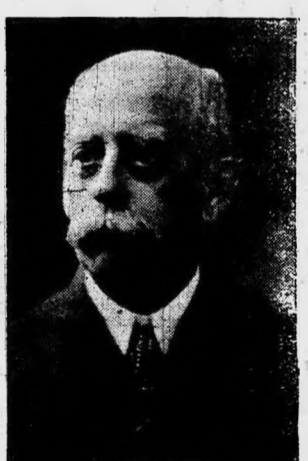

Fine sawdust has been suggested as a dressing for wounds and as a vehicle for antiseptics. The finely sifted dust, when used alone, is said to make a clean and pleasant dressing, for it readily absorbs the discharges without becoming lumpy or adhering, and it is as easily rendered antiseptic as cotton wool. Sawdust of the yellow pine, rich as it is in turpentine, is a valuable antiseptic application for wounds.

Churches in Australia.

Australia has 210 churches to every 100,000 people. England has 114 and Russia about fifty-five.

Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1908. I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite. I became weak and lost my vitality. In three weeks I lost fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman.
