MURRAY'S-CORNERS.

John Forshee, Sr. is making daily trips to Ann Arbor as he is serving on jury for the May term of court.
Fred Gottschalk lost a young colt last week.
Will Gale of Fraines Lake is busy in this neighborhood putting up wire fence.
Canton township couldn't have gone dry at the spring election as it rains every day.

ELM

A number of pupils from the Elm school went to Detroit last week Wednesday to be examined in the eighth grade.

A number from here attended Masonic Lodge at Sand Hill last Saturday night.

Mr. and Mrs. Chas. Hirschlieb were Detroit visitors last Sunday.

The Milk Producers' Association met at Ed. Pankow Saturday and three new members added to the list.

August Hirschlieb of Redford called on relatives at Newburg Sunday.

Fred Herrer was in Detroit on business last Saturday.

Mr. and Mrs. Will Green attended the party given at Ed. Criger's Saturday night.

Chas. Hirschlieb attended the Republican State convention at Grand Rapids last Wednesday.

Yellow Dent Seed corn at C. Hirschlieb's, Elm.

Do you get up at night? Sanol is surely the best for all kidney or bladder troubles. Sanol gives relief in 24 hours from all backache and bladder troubles. Sanol is a guaranteed remedy. 35c and \$1 a bottle at J. L. Gale's drug store.

STARKE

Oscar Chapman of River Rouge spent Saturday last with his sister, Mrs. G. Bennett.

Miss Dora Kuhn spent Friday last with friends at Farmington.

Mrs. Wm. Youman of Detroit spent a few days with Mr. and Mrs. Harmon Gottschalk.

There will be a district school field meet and picnic combined at the Patchen school grounds District No. 3, Nankin, near the car line, on Friday, May 22nd. The forenoon program will commence at 9 o'clock. Everybody welcome. The date was changed from 15th to 22nd in order that schools might have longer time to get ready for events.

The Misses Mamie Snyder and Viva Brown went to Plymouth and took the 8th grade examination.

Miss Edith Minning spent a few days of last week with Mr. and Mrs. C. Minning.

John Bell of Detroit spent Monday and Tuesday at home.

Mr. and Mrs. T. Sletoff spent Wednesday of this week in Plymouth.

When you have Backache the liver or kidneys are sure to be out of gear. Try Sanol, it does wonders for the liver, kidneys and bladder. A trial 35c bottle will convince you. Get it at J. L. Gale's drug store.

LIVONIA CENTER.

Mrs. Will Hart and little son are visiting at the Garchow home.

Mrs. Palmer Chilson visited at Novi over Sunday.

Mr. and Mrs. John Baze were Pike's Peak visitors on Sunday.

Mrs. Will Smith of Waterford visited at Mrs. Stringer's Tuesday.

Mr. and Mrs. John Stringer were in the city Monday on business.

Mary Sump and mother visited at Fred Garchow, Sr. on Sunday.

Mrs. Charley Garfield of Northville visited a few days of last week with Mrs. Brown at the Center.

Several from around here attended the party at Ed. Criger's Saturday evening, and report a large crowd, a fine time and a late hour getting home.

This community was shocked on Saturday to learn of the sudden death of Mrs. Courtland Kinney at Stark. Deceased was an old and much respected citizen of this town and will be greatly missed by those who knew her.

The World's Best Climate is not entirely free from disease, on the high elevations typhoid prevails, while on the lower levels malaria is encountered to a greater or less extent, according to altitude. To overcome climate ailments, insidious, malarial, jaundice, biliousness, fever and ague, and general debility, the most effective remedy is Electric Bitters, the great alterative and blood purifier; the antidote for every form of bodily weakness, nervousness and insomnia. Sold under guarantee at The Wolverine Drug Co. and John L. Gale's. Price 50c.

PERRINSVILLE.

Arthur Hanchett and son Donald and Miss Grace Edwards were in Detroit last Wednesday.

Mr. and Mrs. Wm. Wilson and children of Detroit, who have been visiting Mr. and Mrs. Wm. Schunk for a few days have returned home.

Walter Kegal is very ill with inflammatory rheumatism.

Mrs. Katie Wurts, Wm. Wurts and daughter Hazel were in Wayne last Saturday.

Mr. and Mrs. Fillmore Mhyrs and children visited at Geo Baehr's last Sunday.

L. J. Meldrum was in Detroit last Monday.

Fred Theuer of Elm visited his parents last Sunday.

Quite a number of young men of this place attended the show at Elm last Monday evening.

Mrs. Cortland Kinney of Stark died of heart disease last Saturday morning. She was a member of the Perrinsville ladies aid society. She leaves three daughters, quite a number of grand children and great grand children and friends to mourn her loss. Funeral at Livonia Center church on Tuesday. Interment at Redford.

A surprise was given Mr. and Mrs. Frank Kubik last Saturday evening. Arthur Tait brought his phonograph and the evening was very pleasantly spent.

Mrs. Anna Wolf and sons of Detroit visited her parents last Sunday.

PIKE'S PEAK.

Wren Perkins called, on Erwin Wright last Sunday.

Emma Balm was in Wayne last Thursday and Friday, taking the 8th grade county examination.

I. M. Lewis lies very low with dropsy. Mrs. C. Wright and daughter Clara, spent last Sunday with Mr. and Mrs. Albert Krumm of Plymouth.

Mrs. Klatt spent the forepart of this week in Detroit with her son Carl.

It is guaranteed to any woman who will use Sanol Eczema Prescription will find a perfect complexion. It will cure any eruption on the skin. It is a skin tonic. Sanol Eczema Cure is a household remedy. A trial will convince you. Get it at the drug store.

NEWBURG.

The Ladies Aid society met at the hall last week Friday and held one of the most interesting meetings of the season. After scripture reading and song, Mrs. Eva Smith read a new preamble, after which roll call, with very few responding with scripture verses. Mrs. Horace Wight read several chapters from "Aunt Jane of Kentucky," which was appreciated very much by the audience. One new member added, Mrs. Wegner.

Mr. and Mrs. Frank Talmage have moved from Henry Bassett's farm to near Salem.

The L. A. S. will be entertained at the home of Mr. and Mrs. Titus Ruff in Plymouth the 2nd Friday in June.

Henry Bassett is home from Gratiot county for a few days, setting out berry bushes on his farm.

Mrs. James LeVan was called to Ann Arbor recently by the illness of her daughter, Mrs. Hilliker.

Resolutions

Adopted by Plymouth Grange No. 389, as a tribute to the memory of Brother Claude Taylor.

Whereas, Death has again entered our Grange and taken from our midst one of our members, a beloved and respected brother, in the morning of life, capable of enjoying all the blessings of young and happy manhood; and

Whereas, The untimely death of our brother, who gave promise of a long and useful life, is to us all a reminder of the uncertainty of life and the certainty of death; therefore

Resolved, That in the death of Brother Claude Taylor the Grange has lost a true and valued member.

Resolved, That we deeply feel the loss of our brother and that we extend our heartfelt sympathy to his family and friends.

Resolved, That a copy of these resolutions be published in the Plymouth Mail and a copy be sent to the family and also preserved in the records of the Grange.

MRS. C. F. SMITH,
MRS. J. F. ROOT,
MR. J. F. ROOT.

It Reached the Spot.

Mr. E. Humphrey, who owns a large general store at Onaga, O., and is president of the Adams County Telephone Co., as well as of the Home Telephone Co., of Pike county, O., says of Dr. King's New Discovery: "It saved my life once; at least I think it did. It seemed to reach the spot—the very seat of my cough—when everything else failed." Dr. King's New Discovery not only reaches the cough spot; it reaches the sore spots and the weak spots in throat, lungs and chest. Sold under guarantee at The Wolverine Drug Co. and John L. Gale's. Price 50c and \$1.00. Trial bottle free.

-124-

Is our 'phone number and there are 124 reasons why you should get the number by heart.

THE FIRST IS

That we have a 'phone which means instant communication with our drug store whenever anything is required in a hurry whether it is a simple medicinal want or a physician's prescription.

Pinckney's Pharmacy

THE FAMOUS

AROUND THE HOUSE

SMALL THINGS THAT ARE WORTH REMEMBERING.

Simple Manner in Which to Save Thread on Machine-Making Bands for Trimming—For Neat Waist and Skirt.

Save Thread on Machine.—Raise the foot of the machine to remove garments you are sewing, but before cutting the threads lower the foot again with top and lower threads toward the back. You then can cut the threads much shorter and the foot will hold them firmly in place with no trouble about the needle getting accidentally unthreaded. The work can easily be placed under the foot again, and you will find the needle always threaded in place of always unthreaded.

Pea Pir Cushion.—A pretty idea for small cushions is a bunch of green pea pods—about six pods made of green silk and tied together with baby ribbon. Stuff with hair. A good pattern can be obtained from an old seed catalogue.

Simple Buttonholes.—First sew the shape of the buttonhole, and then cut it through the center after it is sewed. Bands for Trimming.—Bands never were used more extensively for trimming than at the present time. To make bands quickly and perfectly, cut the band one and one-half inches wider than desired when finished and sew into one long strip. Draw two parallel lines eight inches long on the ironing board, the distance apart to equal the width of band when finished. Make a catstitch, using the lines as a guide. Pull the goods under the threads, and as it passes under press with a warm iron. If care is taken the edges will turn under evenly as they pass under the threads.

To Hang a Skirt.—One of the most difficult things in dressmaking is to make a skirt hang well. To get it even take a hoop and set it on the floor on little blocks of wood whose height is the number of inches the skirt is to be from the floor. Stand in the center of the circle and have someone mark the material along the top of the hoop with a piece of chalk.

House Dress.—A shirt waist and skirt make the neatest of house dresses, providing the skirt band does not sag, and, to prevent this, the band usually is worn too tight to be comfortable while at work. Sew buttons at regular distances apart on shirt waist band; in skirt band work buttonholes, or, if band is narrow, sew tape loops to correspond. When fastened to waist by means of these buttons and buttonholes or tape loops the weight of dress hangs from shoulders, as it should. Do not use hooks and eyes, as these will cause rust spots when sent to laundry.

To Clean Tan Leather. The knowledge that tan leather is hard to clean at home keeps a great many people from wearing it as much as they would like.

Unless one is very careful, the efforts of renovating make it become dark and streaked in places. Heavy tan gloves, which are almost every one's greatest comfort, can be kept in good condition by taking a damp rag and rubbing it over the surface. This removes the dirt and restores the original color.

Yellow shoes, which no girl considers herself in the latest style without, can be cleaned by putting a few drops of turpentine on a woolen rag and rubbing them evenly all over. When dry polish with a soft brush, and they will look like new.

Eggs in Cheese Sauce. A supper course to be made in the chafing dish. Melt a heaping teaspoonful of butter in the blazer, add one tablespoonful of flour and stir until smooth, then add two cups of milk and stir until a creamy sauce results. Flavor with a teaspoonful of salt, a dash of red pepper, one small teaspoonful of Worcestershire sauce. Finally add one cupful of grated cheese. When the cheese is melted, break into the sauce as many eggs as the blazer will hold, being careful not to break the yolks. When the eggs are well set, or poached, serve with the sauce on pieces of toast. If you have no chafing dish, use a porcelain-lined skillet on gas or coal stove.

Concord Cream Peppermints. This is an especially nice way to make mints in the chafing dish. Put into the blazer two cups sugar and a half cup water, with a tiny pinch of cream of tartar. Stir until the sugar is dissolved, remove the spoon and boil just eight minutes from the time it commences. Turn off the light, add eight drops essence of peppermint, stir hard, then drop from end of spoon on waxed paper.

To Repair Carpet. Make an ordinary flour paste; boil and be sure it is free from lumps. Take away old piece of carpet that will cover the worn part in the carpet you wish to repair; wet thoroughly with paste and spread smoothly over wrong side, over the thin or worn part. Be careful not to get paste through on right side. With a little trouble you can give new life to a worn carpet.

To Brighten a Gas Mantle. When your gas burns poorly, probably the mantle is black. If so, remove the globe, get a salt shaker, and when it sprinkles salt on the mantle, as soon as it will cover it, then light the gas and let it burn till all the black is off. Then replace the globe. Cleaned thus, the mantle should be as good as new again.

AT A CRITICAL TIME.

Women Are Likely to Suffer with Dangerous Kidney Disorders.

Mrs. John Kirk, R. F. D. No. 2, Detroit, Mich., says: "Five years ago at a critical time of life I was on the verge of a collapse with kidney troubles, backache, dizziness, puffy dropsy swellings and urinary irregularities. I lost flesh and felt languid, nervous or unstrung all the time. As my doctor did not help me I began using Doan's Kidney Pills. In a few weeks all these symptoms left me. I now weigh 163 pounds and feel in excellent health."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The Prettiest Kind. "The young heiress who has just made her debut has a very pretty good figure to her credit."

"That's nothing. Her father has six pretty good figures to his."

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do to you far exceeds any good they possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Very Likely. "Again Mae Wood!" exclaimed the non-sensational reader of the newspapers.

"Yes," replied his cynical friend; "I guess they wish Mae wouldn't."

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of *W. C. Little* in Use For Over 30 Years.

The Kind You Have Always Bought.

Economical Physician. Ambassador Wu Ting-fang was once, it is alleged, telling about a certain selfish politician. He said: "The man reminds me of a doctor of Shanghai. A mandarin came to this doctor for advice. He could not sleep, had no appetite, suffered a good deal from depression and, nevertheless, was taking on fat at an alarming rate. 'Well soon put you in condition again,' said the physician. 'What you need is exercise, good, hard exercise. Four times a week you can come here and put in the morning polishing my floors.' 'But why not my own floors?' the mandarin inquired. 'Mine,' said the physician, 'are larger.'"

A Kansas Girl's Advice. A Lincoln county girl writes this advice to the Kansas City Star: "Why do young men do so much loafing? Go to work. Push ahead! I am but a young girl, but I clothe myself and have money in the bank. I lay up more money every year than any young man within three miles of my home. When they get a dollar they go to a dance and go home a dollar out. I advise all girls to cut clear of loafing boys. Stand by the boy who works, and never put your arm through the handle of a jug."

Hanging Scaffolds. With the modern skyscraping office building has come a new form of building scaffold. Instead of constructing the scaffold from below, which is impossible in the cases of buildings ranging from 10 to 50 stories high, platforms are suspended from the steel girders above. On these swinging platforms the bricklayers work and the scaffold is raised as the work progresses.—System.

Laid Off. "And you say you are looking for work?" asked the kind lady of Frazzled Franklyn. "That's right, mum, but I can't find anything to do." "How did you lose your last position?" "I was pardoned, mum."

CHANGE IN FOOD

Works Wonders in Health. It is worth knowing that a change in food can cure dyspepsia. "I deem it my duty to let you know how Grape-Nuts food has cured me of indigestion. 'I had been troubled with it for years, until last year my doctor recommended Grape-Nuts food to be used every morning. I followed instructions and now I am entirely well. 'The whole family like Grape-Nuts, we use four packages a week. You are welcome to use this testimonial as you see fit.'"

The reason this lady was helped by the use of Grape-Nuts food, is that it is predigested by natural processes and therefore does not tax the stomach as the food she had been using; it also contains the elements required for building up the nervous system. If that part of the human body is in perfect working order, there can be no dyspepsia, for nervous energy represents the steam that drives the engine. When the nervous system is run down, the machinery of the body works badly. Grape-Nuts food can be used by small children as well as adults. It is perfectly cooked and ready for instant use. Read "The Road to Wellville," in pink. "There's a Reason." Ever read the above letter? A new one appears from time to time, and they are genuine, true, and full of interest.

PRACTICAL QUESTIONS FOR LIVE STOCK OWNERS

BOOK ON HOGS AND HORSES Question:—"Can you tell me where to procure a reliable book about hogs and horses? My bread and butter is dependent upon my keeping my animals in good health and would much appreciate a reply to this question."—C. C. L., Mich.

Reply:—"We take pleasure in referring you to two new books just published, one on hogs and one on horses. These are usually sold for 75c apiece, but if you write to the Pratt Food Company, Department "R," Philadelphia, they will send you copy without charge. The books are the most practical we have ever seen."

HORSE OFF HIS FEED Question:—"I have two valuable horses which will not eat and seem to be in poor condition. Can you tell me something that will put them in good shape?"—M. D. P., Mich.

Reply:—"There is nothing very serious the matter with your horses except general run down condition, which is somewhat usual at this season of the year. We recommend a good tonic and probably the best thing you could use would be Pratts Animal Regulator, mixing it twice daily with their regular feed. This is an old reliable remedy and we give it our hearty endorsement."

SCRATCHES Question:—"I have a young horse troubled with scratches. Please advise how I can cure him."—A. S. D., Mich.

Reply:—"Clip hair off sores and wash with castile soap, apply Pratts Veterinary Healing Ointment twice daily. This is a positive cure."

DISTEMPER Question:—"My eight-year-old horse has distemper. He is in fairly good health but perspires freely when working and occasionally sweats in stable."—J. D. O., Mich.

Reply:—"If you are working him regularly, would suggest that you increase his grain allowance and also buy a reliable Distemper Cure. We can heartily endorse Pratts for the cure of this disease."

MORE MILK Question:—"I am having great trouble in getting milk from my cows, although they seem to be in general good health."—N. B. R., Mich.

Reply:—"All your cows need is probably a good spring tonic and from experience, we know Pratts Animal Regulator is most beneficial for putting the animals in good shape and increasing the flow of the milk. Mix it in the feed twice a day."

A GOOD COLD.

"That seems a very bad cold you've got, my little man!" "It's a very good cold; it's kept me away from school for two weeks now!"

BOY KEPT SCRATCHING. Eczema Lasted 7 Years—Face Was All Raw—Skin Specialists Failed—But Cuticura Effected Cure.

"When my little boy was six weeks old an eruption broke out on his face; I took him to a doctor, but his face kept on getting worse until it got so bad that no one could look at him. His whole face was one crust and must have been very painful. He scratched day and night until his face was raw. Then I took him to all the best specialists in skin diseases but they could not do much for him. The eczema got on his arms and legs and we could not get a night's sleep in months. I got a set of Cuticura Remedies and he felt relieved the first time I used them. I gave the Cuticura Remedies a good trial and gradually the eczema healed all up. He is now seven years old and I think the trouble will never return. Mrs. John G. Klumpp, 80 Niagara St., Newark, N. J., Oct. 17 and 22, 1907."

How He Got Rid of Rats. A farmer describes his method of clearing the premises of rats in the following manner: "On a large number of old shingles I put a half-teaspoonful of treacle each, and on that with my pocket knife I scraped a small amount of concentrated lye. I then placed the old shingles around under the stable floors and under the cribs. The next morning I found 40 dead rats, and the rest left the farm for parts unknown. I have cleared many farms of the pests in the same way, and have never known it to fail."

COMPLAINTS ABOUT PAINT.

The time to complain about paint is before the painter applies it. The man who puts up the money should not shirk the responsibility of choosing the paint. True, the painter ought to know paint better than the banker, the professional man or the merchant. The trouble is, the house-owner too often deliberately bars the competent and honest painter from the job by accepting a bid which he ought to know would make an honest job impossible.

Secure your bids on the basis of National Lead Company's pure White Lead and pure Linseed Oil and see that you get these materials. No one need be fooled by adulterated white lead. A blowpipe testing outfit will be mailed to anyone interested in paint. Address, National Lead Company, Woodbridge Building, New York City.

Those who await no gifts from chance have conquered fate.—Bichter. Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, cures wind colic. "Beware of cheap imitations."

VERY O. T.

Stork—I see you've got the gont, Flamingo. Flamingo—Wrong. Hear of centipede being caught scorching? Stork—Yes. Flamingo—Well, I put my foot on him and got burned.

You Would Not Accept Counterfeit Money, Why Accept Counterfeit Goods?

Good money is made by the Government in which you have implicit faith and confidence. Good goods are made by manufacturers who are willing to stake their reputations on the quality of the material offered to you through the medium of their advertisements in this paper. Counterfeit goods are not advertised. The reason for it is they will not bear the close scrutiny to which genuine advertised goods are subjected. Counterfeit money pays more profit to the counterfeiter. Counterfeit goods are offered to you for the same reason.

Insist on the Genuine—Reject the Counterfeit.

Alike. Working for a living is like Shakespeare's plays—always praised, but avoided as much as possible.

Kill the Flies Now before they multiply. A DAISY FLY KILLER kills thousands. Lasts the season. Ask your dealer, or send 20c to H. Somers, 149 De Kalb Ave., Brooklyn, N. Y.

It is no disgrace to be mistaken; it is a crime to be a hypocrite. That is the sin against light—the worst of all.—John Oliver Hobbs.

SORE EYES, weak, inflamed, red, watery and swollen eyes use PETTIT'S EYE SALVE. 25c. All druggists or Howard Bros., Buffalo, N. Y.

Even a poor wall-paper hanger may put up at good hotels.

One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Cut the cost 1/2 You can decorate your home with Alabastine year after year at one-half the cost of using either wall-paper or kaolin.

MADE FOR SERVICE IN THE ROUGHEST WEATHER AND GUARANTEED ABSOLUTELY WATERPROOF. TOWERS' PUMEL SLICKERS \$3.50. This trade mark and the word "TOWERS" on the bottom distinguish this high grade slicker from the just as good but inferior brands.

What is Pe-ru-na?

Is it a Catarrh Remedy, or a Tonic, or is it Both?

Some people call Peruna a great tonic. Others refer to Peruna as a great catarrh remedy.

Which of these people are right? Is it more proper to call Peruna a catarrh remedy than to call it a tonic? Our reply is, that Peruna is both a tonic and a catarrh remedy. Indeed, there can be no effectual catarrh remedy that is not also a tonic.

In order to thoroughly relieve any case of catarrh, a remedy must not only have a specific action on the mucous membranes affected by the catarrh, but it must have a general tonic action on the nervous system.

Catarrh, even in persons who are otherwise strong, is a weakened condition of some mucous membrane. There must be something to strengthen the circulation, to give tone to the arteries, and to raise the vital forces.

Perhaps no vegetable remedy in the world has attracted so much attention from medical writers as HYDRASTIS CANADENSIS. The wonderful efficacy of this herb has been recognized many years, and is growing in its hold upon the medical profession. When joined with GURBER and COPAIRA a trio of medical agents is formed in Peruna which constitutes a specific remedy for catarrh that in the present state of medical progress cannot be improved upon. This action, reinforced by such renowned tonics as COLLISONIA CANADENSIS, CORYDALIS FORMOSA and CEDRON SEED, ought to make this compound an ideal remedy for catarrh in all its stages and locations in the body.

From a theoretical standpoint, therefore, Peruna is beyond criticism. The use of Peruna, confirms this opinion. Numberless testimonials from every quarter of the earth furnish ample evidence that this judgment is not over-enthusiastic. When practical experience confirms a well-grounded theory the result is a truth that cannot be shaken.

Manufactured by Peruna Drug Manufacturing Company, Columbus, Ohio.

I Am REYNOLDS, the Roofing Man

I have been in the roofing business for 40 years and they call me the "Pioneer." I have been in no other business.

I know the roofing business; have made a scientific, practical study of it. I am at the head of my company, of which I am proud. I have also made a success of my business. The result has been our two brands—Torpedo and Wolverine. The "red granite kind," which are the very best brands of roofing on the market today at any price.

This roofing will last longer, is cheaper to lay and cheaper in the long run than any other you can buy. If we could make a better roofing, we would, but we can't. You will make no mistake in using it.

It only costs about half what shingles would cost laid on the roof.

We will give you an absolute guarantee that our roofing will last you five years. We know it will last for 12 or 15 years, but five years' guarantee is enough to make and we say five years simply to show faith in our own roofing.

It cost us \$10,000.00 to find out that our kind of roofing was better than the other man's. The difference is this: Our roofing is made of crushed, irregular shaped granite particles put on two heavy sheets of asphalt felt cemented together. These particles of quarry granite have sharp points and sharp edges and

stick into this asphalt for evermore. You can easily understand why they will stick a great deal better than the round, smooth little pebbles, which are sometimes used. The granite is to protect the roof from sun, wind and rain, and our granite does protect it. Do not buy a roof that will need painting. It means there is a weakness somewhere. You don't have to paint a Reynolds' roof.

We have so much to tell you about our roofing that we cannot begin to do it here, but want you to write and let us tell you just why our roofing is what you want and why you cannot afford to buy any other. We have a liberal proposition to make to you, and no matter how much you may know about some other roofing you should get our proposition. It means a saving.

This roofing is set up in one square roll, all ready to lay and securely packed inside of the roll are the trimmings consisting of galvanized iron nails and cement in a can with directions how to lay the roll.

Give us all the information you can about the roof, and we will tell you something that will interest you. WRITE US TODAY.

H. M. REYNOLDS, Pres. H. M. REYNOLDS ROOFING CO., Dept. A, Grand Rapids, Mich.

One trial will convince you that Sloan's Liniment

will relieve soreness and stiffness quicker and easier than any other preparation sold for that purpose. It penetrates to the bone, quickens the blood, drives away fatigue and gives strength and elasticity to the muscles. Thousands use Sloan's Liniment for rheumatism, neuralgia, toothache sprains, contracted muscles, stiff joints, cuts, bruises, burns, cramp or colic and insect stings. PRICE 25c, 50c, & \$1.00. Dr. Earl S. Sloan, Boston, Mass., U.S.A.

FRIDAY, MAY 15, 1908.

NEW ELECTION ORDERED.

Village will Vote June Second on Proposition to Pave with Brick.

After debating upon the matter for several weeks the council at a special meeting held Wednesday evening decided to resubmit to the electors of the village of Plymouth the proposition of paving Main street. The new proposition is identically the same as that submitted at the general spring election except that the paving material is to be of brick instead of macadam.

When the paving of Main street was first discussed last summer it was the general belief that a brick pavement would be too expensive and that a cheaper material would answer all purposes. It was estimated at that time that a brick pavement from the Plymouth House to the railroad would cost not less than \$20,000. It was a "scare-head" figure. The decisive manner in which this proposition was voted down by the people determined the council to submit another proposition this spring to pave with macadam.

The vote carried by a large majority and contractors were invited to bid on brick, cement macadam and plain macadam.

When the bids were opened three weeks ago there was a surprise in store. One firm of contractors placed a bid to pave with the best shale brick at a price but a very little above the lowest bid for cement macadam. By cutting off a few "corners" this amount has been scaled down so that it is practically about the same as the macadam bid.

But as the council had submitted a macadam improvement to the electors, they were in a quandary for a time what to do. Everybody realizes that a brick pavement is far superior to a macadam, and there being no difference in the price in this instance, the council was very reluctant about putting down macadam. In fact no member was in favor of the proposition. To go on and substitute brick for macadam without the authority from the people was the point considered. There was the possibility of being stopped and the work held up. To avoid any delay and all legal complications the council then determined to put the matter again before the people and get their authority to substitute brick for cement. The election will be held on Tuesday, June 2nd.

Clear the Track for Taft.

Free Press: If there are favored sons who refuse to give Secretary Taft a clear right of way at the Chicago convention they can only have a motive reaching into the future. He is the chosen candidate of a great majority of the Republicans throughout the nation and the authority which they have delegated with instructions that cannot be misinterpreted will make Mr. Taft the head of the ticket named in June.

Popular opinion has created the exciting situation and the crisis is a logical one. Mr. Taft has the backing which means a nomination and an invaluable prestige at the polls. The controlling numerical power of the party is fixed upon him and his invincible strength grows day by day.

It is the right of any other candidate to make his fight until the convention takes its final action, but in such a course there is a questionable service to the party. Unanimity of choice means incalculable advantage to the party making it and to the man chosen. If is brushing away at the outset of all the stumbling blocks that are placed by factional dimensions or half-hearted support.

Nothing could be wiser in politics at this stage of the proceedings than to gracefully concede, applaud and support the inevitable. The men who adopt this course, as Mr. Fairbanks has openly done and as others are inclined to do, serve their worthy ambitions better than they could possibly by trying to stem or stay an irresistible movement of public sentiment. Taft is the destined nominee and the nominee and the method of his nomination can be made the guarantee of his election.

Valued Name is Gold.

B. G. Stewart, a merchant of Cedar View, Miss., says: "I tell my customers when they buy a box of Dr. King's New Life Pills they get the worth of that much gold in weight if afflicted with constipation, malaria or biliousness." Sold under guarantee at The Wolverine Drug Co. and John L. Gale's, Etc.

CHURCH NEWS.

CHRISTIAN SCIENTIST.

Next Sunday morning at First Church of Christ, Scientist, 10:00 A. M. Subject, "Mortals and Immortals." Sunday school for children 11:00 A. M. Wednesday evening testimonial service 7 P. M. Every one is welcome.

UNIVERSALIST

The usual services next Sunday. Sermon at 10:00 a. m. Subject, "The Divine Law is Impartial." Sunday school at 11:15 a. m. Y. P. C. U. service at 7:00 p. m. The pastor will give a talk upon the subject, "The Individual's and the Community's Need of the Church."

METHODIST.

Services next Sunday as follows. Morning service at 10 o'clock. Preaching by the pastor and music by the quartet. Sunday school at 11:30. Attendance last Sunday 167. Epworth League at 6 p. m. Evered Jolliffe, leader.

Evening service commencing at 7 o'clock, with fifteen minutes song service at closing at 8 o'clock. You are invited to all our services.

BAPTIST.

Men's meeting Sunday morning at 10. Morning worship 10:30. Sermon by pastor. Sunday school 11:45. B. Y. P. U. at 6:30. Leader, Carrie Allen. Topic, "Being a Christian at Home and at School." The pastor will review the lecture given in the opera house last Friday night on Christian Science, and will be from the orthodox standpoint. A cordial invitation is extended to all Scientists. Our physicians are especially invited as it is a subject in which their profession is assailed and denounced. Everybody invited and made welcome. Mid-week prayer and praise service Wednesday night, 7:30.

PRESBYTERIAN.

Sunday 10:00, morning worship. Sermon by Rev. Harry L. Crain of the Second Avenue Presbyterian Church, Detroit. The pastor will occupy the Second Avenue pulpit. Mr. Crain is a young man, having been ordained only three years ago. He is a graduate of Union College, Schenectady, N. Y., ('02) and Auburn Seminary, Auburn, N. Y., ('05). He is a brilliant speaker and all who can do so should hear him. 11:15 Sunday school. 5:00. Instead of the usual seven o'clock gospel service, a vesper service will be held before the supper hour, beginning promptly at 5 and closing by six o'clock. It is hoped that this hour will find favor with families having children who cannot attend the later evening service. If the vesper service meets popular favor it will be continued during the summer months. Mr. Crain will give a short address at the first 5 o'clock service next Sunday.

There will be a joint meeting of the two women's societies of the church the Ladies Aid and the Missionary society at the home of Mrs. O. H. Loomis Wednesday afternoon at 2:30 o'clock. It will be the annual meeting of the Ladies' Aid Society. The program will be of a social nature. All women are invited.

Prayer meeting Thursday evening at seven o'clock. Study of the First Epistle to Timothy. You are invited to all the above services.

OBITUARY.

Mary E. Fuller was born July 27, 1830, died May 9, 1908, aged 77 years, 9 months and 13 days. She was married to Cortland Kinney in York State in 1851. They moved to Redford in 1852, and while living there she united with the M. E. church. From there they moved to their farm near Elm, where they resided until his death, Feb. 1st, 1906, when she moved to Stark and lived there until her death, which was very sudden, of heart failure. There were four children born to them, three remain to mourn their loss—Mrs. Giles Foster, Mrs. Charles Millard, Mrs. Osband Richards.

Funeral at Livonia Center church on Tuesday, Rev. E. King officiating.

Board of Review.

Notice is hereby given that the Board of Review of the township of Plymouth will meet at the office of F. W. Voorhies on Tuesday and Wednesday, May 19 and 20, and also on Monday and Tuesday, May 25 and 26, at 9 o'clock a. m. on each of said days, when and where the assessment roll of said township will be reviewed and any person feeling aggrieved by the assessment may be heard.

Dated May 13, 1908.
CHAS. W. BRADNER, Supervisor

Village Board Review.

Notice is hereby given that the Board of Review of the village of Plymouth will meet at the Council Room on Tuesday and Wednesday, May 19 and 20, at 9 o'clock a. m. on each of said days, when and where the assessment roll of said village will be reviewed and any person feeling aggrieved by the assessment may be heard.

Dated May 13, 1908.
W. T. BATHENBURY, Assessor

A California's Look.

"The luckiest day of my life was when I bought a box of Bucklen's Arnica Salve," writes Charles F. Hedden of Tracy, California. "Two 25c boxes cured me of an annoying case of itching piles, which had troubled me for years and that yielded to no other treatment." Sold under guarantee at The Wolverine Drug Co. and John L. Gale's.

SCHOOL NOTES.

The first grade have started the study of the Greeks.

Mr. Isbell visited the Northville school Tuesday p. m.

Miss Thompson visited in Ypsilanti Saturday and Sunday.

The sixth grade are making bill-books for their work in drawing.

The English II class are practicing making extemporaneous speeches.

The German I class have started reading Gerstaecker's Gernelshausen.

School visitors this week were Lettha Brown, Ethel Decker, Mrs. Leach and Mrs. Fraser.

A large audience was present at the Arbor Day exercises given by the school May 1st.

The Kindergarten are finishing silhouette pictures of Little Boy Blue which are very interesting.

Rev. Mr. Miller conducted the devotional exercise Tuesday morning and then gave a talk on honor in athletics.

The 7th grade debated the question Resolved, That the Indians have been Unjustly Treated. The affirmative won.

The Ladies' Literary Club have presented the school with a book in which the seniors are to keep a record of important events of each year.

At the invitation of the Ancient History class, Dr. Caster gave a very interesting and instructive talk on Rome to the high school last week.

Decoration Day exercises are to be held in the opera house Friday afternoon, May 29, at 2:30 o'clock. The program will appear in next week's paper.

The C. P. C., consisting of girls from the 5th, 6th, and 7th grades will give a fay social at the home of Edna Fisher, Friday evening, May 22nd. Bring your friends and money and come. Open from 7 to 10:30.

The Silver Cup which is to be contested for in the Field meet at Wayne next Saturday, has been adorning the piano in the high school this week, and has inspired the boys in their practicing. We hope to see it on the piano next week.

Twenty Free Trips Down the St. Lawrence River.

The Detroit Free Press will take twenty young women on this beautiful trip, which will cover a period of twelve days, and pay all expenses from the time the party leaves Detroit, Aug. 25, until they return, Sept. 6. You can make this trip if you wish to. For full particulars see a copy of The Free Press or write them direct. Address Tour to Quebec Dept. Free Press, Detroit, Mich.

Kaiser Travels in "Tube."

Emperor William of Germany has had his first experience in "tube" locomotion. Accompanied by a numerous suite, he made the journey along the entire length of the Berlin underground railway for the purpose of inspecting the newly opened suburban extension and terminals. At the last station the kaiser had the pleasure of admiring the interior decorations made of majolica tiling from his own factory at Cadzand. Among the orders which he distributed in honor of the trip was one for the motorman of the train in which he traveled.

Stand Up, Knocked Down.

The London Lancet urges pedestrians to stand up for their rights in the streets which the automobilists are wreathing from them. But the result of any such heroism on the part of pedestrians would be more cases for the doctors and the surgeons, and the Lancet is the organ of the medical profession.

Baffled.

"Help you!" snorted the stung citizen. "You look like a fake."
"Fair, sir," replied the blind (?) begger. "I'm too polite to say the same of ye; besides ye have yer hat pulled down so far over yer face I can't git a good look at ye."

Where is Your Hair?

In your comb? Why so? Is not the head a much better place for it? Better keep what is left where it belongs! Ayer's Hair Vigor, new improved formula, quickly stops falling hair. There is not a particle of doubt about it. We speak very positively about this, for we know.

Does not change the color of the hair.

Ayer's

Indeed, the one great leading feature of our new Hair Vigor may well be said to be this—it stops falling hair. Then it grows men stop further—it aids nature in renewing the hair and leads to a healthy condition. Ask for "the new kind."

Made by Dr. J. C. Ayer Co., Lowell, Mass.

PARDRIDGE & BLACKWELL

PARDRIDGE & BLACKWELL

This Is as Much as a Store Men as for Women.

Women come here in preference to the exclusive houses. Men are getting to be of the same notion. Our assortments of Men's Wear are larger and better than those of the exclusive men's apparel stores. We have destroyed many illusions during the years we have been doing business here. One of them is the old foggy idea that a dealer who carries only a limited quantity of merchandise carries better quality.

Time was when there was foundation for this opinion, but nowadays the big dealer gets the preference with the manufacturers. We go to the same sources of supply as the small hatter, haberdasher, clothier or shoe dealer.

The difference is that we go DIRECT, while they buy through middlemen. We buy in hundred dozen lots while they buy in small quantities. Furthermore, the rental of the exclusive store, and other expenses, is an enormous tax upon profits necessitating higher prices. Here the percentage of selling expense is reduced to the minimum because our total rental is divided among a great many departments.

We state a fact when we say that Men's Clothing, Hats, Shoes and Furnishings of every kind cost on an average a third more than is necessary, and that the man who wishes to economize to this extent, and yet dress as well as his fellows, can do so by trading at Pardridge & Blackwell's.

Pardridge & Blackwell,

Farmer St., from Gratiot to Monroe Ave.

igan of Detroit spent Sunday at Dr.
Patterson's.

Mr. and Mrs. C. G. Draper visited
Mr. and Mrs. Ernest Kohler in North-
ville Sunday.

Mrs. H. R. Merrill and daughter
Nettie of Detroit visited Mrs. C. G.
Draper Saturday.

Mr. and Mrs. C. S. Mason of Detroit
spent Sunday with her parents, Mr. and
Mrs. W. D. Dean.

Miss Lillian Dean of the Ypsilanti
Normal spent Sunday with Rev. and
Mrs. H. N. Ronald.

Don't forget that the opening ball
game takes place on Athletic Park
next Friday afternoon.

Rev. G. D. Ehnis and Wm. Hillmer
underwent an operation successfully
at Ann Arbor last week.

Rev. Nicholas of Monroe, will fill the
pulpit in the German Church Sunday
evening in the absence of Rev. Ehnis.

James McLaren of Chelsea, Lou
Bullen and Mr. and Mrs. Chas. McLar-
en of Novi spent Sunday at J. D. Mc-
Laren's.

C. S. Butterfield returned home Mon-
day night very much delighted with
his six weeks' trip to California and
the west.

Allen Bordine and Jesse Tyler have
been drawn as circuit court jurors for
the June term. T. P. Sherman of
Nankin is also on the list.

Mrs. A. W. Chaffee, who spent the
winter at Long Beach, Cal., returned
home Tuesday morning, much benefi-
ted in health. Her husband met her
in Kansas City.

Clarence Cooper is home from Chica-
go, where he had been since the first
of January. Mr. Cooper expects to locate
at some point in the west in the un-
dertaking business.

Fred Thompson who has been on the
local freight between Plymouth and
Grand Ledge for some time has moved
to Grand Rapids. He will now run
between Grand Rapids and Detroit.

Decoration Day coming on Saturday
this year, the usual service by the
children of the school will be given at
the opera house on Friday afternoon,
May 29th. The exercises will consist
of recitations, singing and remarks by
one of the local pastors.

Judge Robt. E. Frazer of Detroit
died last Sunday morning. The Judge
was one of the stalwart figures of the
county, a man of sterling char-
acter, brusque in speech but of good
heart. The county and State can ill
afford the loss of men of his ability and
worth.

The amount of primary school
money to be apportioned for Wayne
county this month is \$746,076.50. Of
this amount Plymouth gets \$3,802.50,
Canton \$2,106, Livonia \$2,392, Nankin
\$4,699.50, Northville \$3,942. The town-
ship of Salem in Washtenaw county
gets \$1,456 and Northfield \$1,735.50.

Greeley Hill has sold his property in
the village to A. C. Dickerson and will
hold an auction sale of all his house-
hold furniture on Thursday afternoon,
May 21st, at 1 o'clock. There will be
nothing reserved and the terms of sale
will be \$5 or under cash; over \$5 one
year's time. H. C. Robinson, auction-
eer.

R. D. Safford of Detroit is in town
this week.

Born, to Mr. and Mrs. Fred Sallow, a
boy, Monday.

Mr. and Mrs. Frank Hicks will move
to Ypsilanti soon.

Miss Ruth Munn of Salem is visit-
ing Mrs. Chas. Riggs.

Miss Lottie Bowen of Calgary, Can.,
is visiting relatives here.

Mrs. John Hahn and two children of
Detroit are visiting at W. D. Dean's.

Miss Martha Drews received a large
box of trailing arbutus from Oscoda
yesterday.

Mrs. Theodore Aach of South Lyon
visited at Chris. Drews' Wednesday
and Thursday.

Mrs. P. E. White of Northville and
Harry Baker of London, Eng., visited
last Friday at Chas. Riggs'.

Rebekahs will meet Friday evening,
May 22. There will be initiation, nom-
ination of officers and refreshments.

Roy Sallow, ten year old son of Fred
Sallow fell down in the cellar where
the old Wilcox building stood, and cut
his arm quite badly on a broken crock.

Mrs. E. L. Tiffany visited her sister
Mrs. F. F. Bennett this week. Mrs.
George Buell who has been visiting her
for several weeks, returned home to
Chicago with Mrs. Tiffany.

As a token of the appreciation of her
services while telephone operator,
the patrons of the rural lines of the
Plymouth company presented Miss
Grace Nowland with twenty dollars
in gold as a wedding present. Other
beautiful presents were also received
by the bride.

While Mrs. Elizabeth Hassinger was
getting dinner last Tuesday noon, she
suddenly became aware that the gaso-
line stove was a mass of flames. She
aroused the neighbors by her screams
for help and the stove was soon hustled
out of doors. An alarm of fire was
given but the services of the depart-
ment were not needed. Mrs. Hassinger
had her hair singed somewhat and
hands slightly burned. There was
slight damage to the walls of the
kitchen. It is supposed the gasoline
caught fire from a leak of the burner
in the oven.

Judge Wm. G. Ewing, of Chicago, a
member of the Christian Science board
of Boston, spoke to a large audience in
the opera house last Friday evening
upon the subject of Christian Science.
The speaker was introduced by Miss
Fida Hassinger and at once began the
discussion of his subject. He explained
the meaning of Christian Science and
claimed the power of mind over
matter as one of the strong church
principles. The Judge made many
good points in the course of his re-
marks and left his hearers impressed
with some new ideas and thoughts.

Base Ball Opening.

The Plymouth base ball club goes to
South Lyon today to open the ball
season. Plymouth will employ only
home product and expects to develop
as good a team as we have had in
some years. Charley Rathburn will be
the box artist for the time being with
Charley Riggs as backstop. Ray Smith
will occupy the first bag. It is said
Clyde Bentley and Roy Armstrong
will return from the west within a few
weeks and the addition of these two
will strengthen the team materially.
Season tickets are now on sale at \$2.00
each and as some money is needed in
the treasury it is expected that all fans
and lovers of the sport will purchase
one or more of the pasteboards. The S.
Lyonites will play the return game on
Plymouth grounds a week from today.
Get in line at the gate at 3 o'clock.

Hit by a Bullet.

Ann Arbor dispatch: While hunting
on Murray's lake in Superior township
Saturday afternoon, Clyde Brown shot
at a mud hen. The rifle bullet glanced
from the water and struck Willard
Galpin, aged 15, who was walking in
his father's orchard. The bullet en-
tered the boy's right arm and passed
through it into his body. The boy's
cries attracted his father, who brought
the lad to Ann Arbor in a buggy. The
patient was taken to the university
hospital where the bullet was extracted
and it is said that the lad will live.

Choice Pansies and Geraniums, in
various colors. Gladiolus bulbs
(mixed) including various shades of
light colors, also the Butterfly Gladi-
olus, 20 cans a per dozen.

tionery. Get it at The Mail office.

WORLD'S GREATEST SHOW TO EXHIBIT HERE JUNE 1ST.

The people of Plymouth will have
an opportunity on Monday, June 1st,
of visiting Ringling Brothers' World's
Greatest Shows, the point of exhibition
being Detroit. This season marks the
twenty-fifth anniversary of this great
circus, and the Ringling Brothers are
celebrating the year by presenting the
greatest European program ever offer-
ed, a parade that surpasses all those of
the past, a new and complete menage-
rie, another brilliant spectacle, and
the most sensational "thriller" in all
history.

The "thriller" is nothing less than a
double somersault in mid-air made by
a heavy automobile with Mlle. La
Belle Roche, a young French woman,
at the wheel. The car dashes down a
steep incline from the dome of the
tent. An abrupt up-curved terminal
bursts the car high above the heads of
audience, where it accomplishes two
complete revolutions and then lands
with a crash on a narrow speedway,
exhausting its terrific momentum on
the hippodrome track. This is an act
that defies English. It cannot be de-
scribed, and when once seen the pic-
ture of it will be carried in memory to
the end of life. It is the first instance
where a single automobile has turned
two somersaults in space.

The world-wide character of this
year's remarkable company can be seen
at a glance. From France come the
great St. Leon family of acrobats; the
Patty Brothers, who walk, skip the
rope and dance on their heads; Bur-
geos and Clara, the gymnasts; the
wonderful Martell troupe of cyllists;
the aerial Milletes, and Miss La Belle
Roche, who does the dangerous auto-
mobile double somersault.

From Italy have come the great Be-
dini family of riders and the Mar-
nello-Marnitz quartet of acrobatic bell-
ringers. In Germany were found
Schadel, the great zebra rider; Mar-
guerite and Hanley, the gymnasts and
the Prosit trio and Horton and Lin-
den, burlesque bar performers. Ricco-
bono, the world's greatest trainer of
animals, and his marvelous company
of horses are from Russia, and the
Mirza Golem acrobats are from the
court of the Shah of Persia.

Wormwood and his trained bears;
the Duttons and the Clark Brothers,
riders; the great aerial Clarkonians
and the famous Jordan family are
from England; Kerslake and his com-
pany of pigs that skip the rope and
shoot the chutes are from New Zea-
land and the eight Carnellos, acrobats;
Alvarez, the aerialist; DeMarlo, the
contortionist, and a company of bur-
lesque bull fighters are from Spain.

Are Happily Married.

From a weather standpoint yester-
day was not a very propitious day, but
it was a very auspicious one for Miss
Grace Nowland and Don Voorhies
who were married yesterday at the
home of the bride's parents, Mr. and
Mrs. Eli Nowland, by Rev. H. N.
Ronald. Only a few friends of the
bride and groom were present. The
groom; up to a couple of years ago
had been a resident of Plymouth all
his life, and is now a valued employe
of the State Savings bank in Detroit.
He is a product of this town which it
may well be proud of. The same may
also be said of Miss Nowland, who is
one of the popular young ladies of the
village. Both bride and groom will
have the cordial congratulations of a
host of friends, who will unite in wish-
ing them a happy and prosperous
journey through life.

CARD OF THANKS—I desire to ex-
tend my sincere thanks to all who as-
sisted in putting out the fire in my
home on last Tuesday noon. Their
services are greatly appreciated.
MRS. E. HASSINGER.

NEWS OF A WEEK IN MEMORIZED FORM

Epitome of the Most Important Events Gathered From All Points of the Globe.

IN CONGRESS.

Republican members in conference adopted an emergency currency bill. The house, by agreeing to senate amendments, took the final congressional step to stop betting at the Benning race track.

PERSONAL.

H. Heath Bawden, professor of philosophy at the University of Cincinnati, was asked by President C. W. Dabney to tender his resignation because of his private views on marriage.

GENERAL NEWS.

Tornadoes in Mercer and Henry counties, Illinois, in the vicinity of Madison, Wis., and in Oklahoma and Texas killed several persons and destroyed a great amount of property.

Four more bodies were dug up in the barnyard of Mrs. Guinness' farm near Laporte, Ind., making nine found so far.

THE STATE IN GENERAL

EX-TREASURER GLAZIER WAS ARRAIGNED AT MASON FOR TRIAL.

STOOD MUTE; BAIL RAISE

Frank P. Glazier, former state treasurer, indicted by the Ingham grand jury on the charge of having embezzled about \$200,000 of state money, which was on deposit in his bank in Chelsea, appeared in the circuit court in person at Mason Monday morning.

CASH SHY.

Cashier of Grand Rapids Post Office Short \$1,500.

Franklin D. Eddy, cashier of the Grand Rapids postoffice, has been found to be short \$1,500 in his accounts.

Wilson Gives His All.

William L. Wilson, defaulting secretary of the United Home Protectors' fraternity of Port Huron to the extent of more than \$100,000, Tuesday completed arrangements to turn over to Horace G. Snover, receiver of the fraternity, all of the property of his wife and himself.

A Miner's Find.

Two years ago John Dempsey, of Alden, left for Nevada to stake out a claim in the gold region.

Does Not Look a Sick Man, Walks Unaided and is Kept From Talking With Anyone.

Frank P. Glazier, former state treasurer, indicted by the Ingham grand jury on the charge of having embezzled about \$200,000 of state money, which was on deposit in his bank in Chelsea, appeared in the circuit court in person at Mason Monday morning.

Admiral Evans Retires.

In a great naval and military parade at San Francisco Saturday morning to mark the arrival of the battleship fleet, Rear Admiral Robley D. Evans made his last public appearance as an active naval officer.

Atlanta's Big Fire.

Two solid business blocks of Atlanta, Georgia, are in ruins today as the result of a fire which threatened for a time to carry its destruction through the business section of the city.

Perito Ricans Dismantled.

Commissioner Larrinaga, the official representative of the island of Porto Rico in congress, stated in a speech made in the house Saturday that the people of that island were very much displeased with the government of the United States.

TELEGRAPHIC BRIEFS.

Mme. Anna Gould, her children, and the faithful Prince Helie de Sagan, who still declares he is ready to renounce Catholicism to win the heiress, have left Rome for Monte Carlo.

THE LAPORTE MURDERESS

EVIDENCE POINTS TO THE VIEW THAT THE GUNNESS FIEND IS ALIVE.

NO MORE BODIES FOUND

The Remains of Ten Victims She Had Buried in the Yard of Her Home May Not Be All.

There is no better way of indicating the demoralizing qualities now generally ascribed to Mrs. Belle Guinness than by saying that when it was announced Saturday night that no more bodies had been dug up in that garden of death on the Guinness place, everybody in Laporte was surprised.

Meantime where is Belle Guinness? Are those fragments of a female body that lie in the morgue charred past recognition really hers or are they the remains of still one more of her victims intended to throw dust in the eyes of the police until the multi-murderer makes good her escape?

These facts were unearthed by an examination of the 82 letters written by the woman to Andrew Helgelein. The letters describe with certainty the woman's fellow-worker.

Helgelein said Saturday: "I shall have my brother Halvor, at Aal Hallingdal, Norway, get the police of that country to search for Mrs. Guinness. I shall also notify the police of American cities. My duty to my brother is to see both Lamphere and Mrs. Guinness hanged."

Before his departure Helgelein was allowed to talk with Lamphere in the jail.

Coroner Mack has changed his records which showed that "Mrs. Belle Guinness and her three children" had died in the fire which destroyed their home. The record now reads: "An unknown woman and three Guinness children" perished in the fire. The coroner is convinced that Mrs. Guinness is alive.

Ray Lamphere continues to rave like a madman in his cell. He is in a state of hysteria.

Atlanta's Big Fire. Two solid business blocks of Atlanta, Georgia, are in ruins today as the result of a fire which threatened for a time to carry its destruction through the business section of the city.

Ray Lamphere continues to rave like a madman in his cell. He is in a state of hysteria.

MICHIGAN BRIEFS.

Edwin C. Dayton, president of the City National bank at Kalamazoo, is seriously ill.

Trustee C. H. Kimberlin, of the Dowagiac bank, says he expects to pay depositors 50 cents on the dollar.

Because of slack freight conditions the Pere Marquette has placed all shop employes and repair gangs on half time at Saginaw.

Eugene Croft, of Bay City, was struck by a train while driving across the Michigan Central tracks Sunday afternoon, and probably fatally injured.

Leaving a note in which he said he did not blame his wife, but was "just tired of life," Daniel Roe, of Dimondale, took his life with strychnine.

"Merry widow" hats displayed in the window of Bradford's millinery store at St. Joseph were stolen. The police are holding two women as suspects.

The state board of health has declared the Owosso depots to be in an unsanitary condition and steps will be taken to have the railroads better their conditions.

W. V. Marsh, arrested two weeks ago on complaint of the wife he deserted at Allegan, was sentenced in Laporte, Ind., to serve from two to five years for bigamy.

Chauncey S. Boucher, of Marion Ind., and Leonard C. Read, of Cheboygan, were elected managing editor and business manager, respectively, of the Michiganian, the U. of M. annual.

A dam in Lake Billings, at Mantion, gave way, releasing about five acres of water. The Mantion electric lighting plant was flooded, the Michigan street bridge carried away and other mills are threatened.

A few months ago Dr. L. F. Sipher and his wife, of Traverse City, were sent to the Northern Michigan asylum as insane. Now Dr. Babcock, who took Dr. Sipher's practice, has been sent to the same institution.

The question of appropriating a sum to build a fire house at South Park is said to have caused City Controller Cady and Ald. Sullivan to square off to fight at a council meeting in Port Huron. The mayor interfered.

Mrs. Jessie L. Mitchell, of Ionia, Mich., is in a hot contest with Mrs. Eunice Wilbur, Beatrice, Neb., for the position of supreme receiver of the supreme council of the Royal Neighbors of America, whose encampment opened here today.

Attorney Willis Baldwin, of Monroe, gave notice to the council that the Toledo, Ottawa Beach & Northern railway would ask for a franchise through Monroe. It is planned to extend the line to Trenton or Flat Rock and possibly Detroit.

Unwilling to see or accept an income from the house in which her parents, Mr. and Mrs. Homer S. Jones, were murdered by her husband, Mrs. Joseph B. Blunt, of Battle Creek had torn down and removed the cottage. It was about the only source of income.

Judge Kinney discharged the 15 prisoners arrested in connection with the riot at the Star theater at Ann Arbor on the night of March 22. The students had raised \$1,000 to pay the damage done by them during the riot and it was agreed not to press the charges further.

William Johnston, of Northport, 50, brother-in-law of State Food Inspector Dame, is dead. He had spent several months in the southwest, and falling to obtain relief from tuberculosis of the throat, returned home a short time ago. He leaves a widow and three children.

The name of Herman O'Connor was brought before the Muskegon county convention and he defeated John A. McLaughlin, avowed candidate for delegate from the ninth district by two votes after a hot fight. O'Connor is a Bryan man. Bryan was endorsed. The Campau matter was not discussed.

Ira Thompson, of Owosso, discovered that William Herman, about to be taken to the Detroit house of correction for 65 days for stealing chickens, was wearing shoes stolen from his house at the same time. He angrily demanded their return, and Herman started for the workhouse wearing a pair of old rubbers tied to his feet.

Maj. A. M. Keeler, Richmond's "grand old man," now in his 82nd year, has resigned as county agent of the state board of corrections and charities, an office he has ably filled for seven years, and Gov. Warner has appointed Robert J. Crawford, of Armada, a former Richmond high school superintendent and county commissioner of schools of Macomb county, in his place.

Fire damaged the lower part of the large flouring mills of William Callan & Son in the business section of Saginaw. The wind was blowing hard and the fire, which originated in the basement, near the boiler, gave the entire department a hard fight. The three-story plant was filled with dense smoke which ruined a large stock of flour. The loss will be several thousand dollars. The cause is unknown.

EX-TREASURER GLAZIER WAS ARRAIGNED AT MASON FOR TRIAL.

STOOD MUTE; BAIL RAISE

Frank P. Glazier, former state treasurer, indicted by the Ingham grand jury on the charge of having embezzled about \$200,000 of state money, which was on deposit in his bank in Chelsea, appeared in the circuit court in person at Mason Monday morning.

Ray Lamphere continues to rave like a madman in his cell. He is in a state of hysteria.

BUSINESS NOTES.

With the opening of navigation Mammette is experiencing a renewal of business activities, and the season looks fairly encouraging. Wages are less than last year, but there seems to be no dearth of employment.

Nearly all the Cadillac mills are running full time, stocks are about normal, and orders for the better grades of mill stuffs are coming in with greater frequency every day.

Muskegon's leading business men are of the firm belief that, with the exception of last year, they will experience the most prosperous year of their existence since the days when pine was king.

The financial stringency has affected the farmer but little to his disadvantage, and Clare county, which is a fine farming country, is prospering.

The Boyne factories are all running, and while the labor supply is ample, there seems to be no great overplus. Wages of course are lower than last season, and as a result trade has slackened off considerably.

Spring finds the majority of Alpena mills with large stocks on hand, and demand light. The belief is that the summer will be quiet, logging operations will be restricted and production will be considerably curtailed.

Admiral Evans Retires. In a great naval and military parade at San Francisco Saturday morning to mark the arrival of the battleship fleet, Rear Admiral Robley D. Evans made his last public appearance as an active naval officer.

John Armstrong Chanler, the wealthy brother of Lieut. Gov. L. S. Chanler, of New York, has been granted permission to re-enter New York to testify in the suit he has brought against his guardian without danger of being taken to Bloomingdale asylum. Chanler was adjudged insane in New York in 1897, escaped and was adjudged sane in Virginia, where he immediately brought the suit against his guardian to recover \$1,000,000.

THE MARKETS.

CHIEF TOPICS AND SPEAKERS AT CONFERENCE FOR CONSERVATION OF NATURAL RESOURCES

Natural Resources Conference

At the White House May 13, 14, 15

Topics Under Discussion

Some of the Chief Talkers

(All from stereographs, copyright, 1908, by Underwood & Underwood, New York.) Ingenious news Photograph, showing at a glance a most remarkable, epoch-making conference, the first of its kind in the history of civilization. In the center, Mr. Roosevelt. In the inner circle about him, beginning at the top and passing from left to right, are Speaker Cannon, Forestry Chief Pinchot, Postmaster General Meyer, John Hays Hammond, president of the American Institute of Mining Engineers; Senator La Follette, Senator Knox and Secretary Root. In the outer circle, beginning at the top, John Mitchell, Seth Low, Samuel Gompers, Secretary Cortelyou, Gov. Folk of Missouri, Justice Moody of the supreme court, Gov. Haskell of Oklahoma, Gov. Curry of New Mexico, William J. Bryan, Andrew Carnegie, James Wilson, secretary of agriculture; Gov. Hughes and Gov. Johnson of Minnesota. On the margin are pictured mining, cattle raising, railroading, farming, river transportation, manufacturing, building material and forestry.

When the conference of governors of states and men distinguished in political life of the nation met at the White House in Washington, May 13-14-15, in behalf of the preservation of the country's natural resources, the strangest, and, perhaps, the most important convention ever held in the capitol was inaugurated.

Among those invited to attend by President Roosevelt himself were members of the cabinet, judges of the supreme court of the United States, governors of all the states in the union, including the executives of Alaska and Hawaii, and Andrew Carnegie, William Jennings Bryan, James J. Hill, the railroad magnate; John Mitchell, the labor leader, and prominent scientists and business men from all over the country.

Political differences, opposing issues of national questions and business rivalry were laid aside to discuss the ways and means of conserving the natural resources of the country.

President Roosevelt opened the convention with an exposition of the why and wherefore of the conference and an outline of his views of the matter. While on his trip down the Mississippi river last fall, with the governors of 16 states, under the auspices of the Inland Waterways association, he is said to have obtained the nucleus of the idea which resulted in the present conference.

It will be remembered that President Roosevelt on that trip expressed the opinion that the question of the conservation of the natural resources of the country was of more importance than the regulation of the rate question.

A number of papers, prepared at the president's request, were read and discussed.

James J. Hill, the railroad king, spoke on "Relations Between Rail and Water Transportation." His paper dealt with such subjects as the growth of rail transportation, its distribution and extent of systems, cost and present value, traffic and earning capacity, estimated cost of the cultivation of trees for railroad ties and their preservation, increasing railways to meet prospective requirements, etc. Regarding water transportation Mr. Hill dealt with its cost, present facilities, relation to rail transportation, pressing lines of development, regulation by business interests or by law, influence of cheapened transportation on production, etc.

Under the general head of land resources, Prof. T. C. Chamberlain of the University of Chicago, in a paper on "Soil," dealt with its origin, natural products, progressive enrichment, effects of cultivation, erosion, and general estimates of loss to the country through needless reduced

fertility and decreased production.

The question of "Forests" was expounded by R. A. Long, president of the Long-Bell Lumber company of Kansas City, Mo., who explained their early use and destruction, present extent and value, rate of consumption, estimated duration, prospective prices of forest products, the influence of forests on soil, ground water and springs, rivers, floods and low water, waterway improvement and navigation, and the relation between forest control and crop production, commerce and population.

Dr. George W. Kober of Washington in a paper on "Sanitation" spoke of the development of systems of community water supply, relation between purity and clarity of water for community supply, mortality and disease due to impure water, and the action required in the interests of the public health.

"Reclamation," by Hon. George C. Pardee of Oakland, Cal., dealt with the extent of arid and semi-arid regions, development and extent of irrigation, growth of concepts concerning water-rights and water as a basis of property, influence of irrigation on production, commerce, population, consumption of water and other resources, reclamation and stream control by drainage, and extent of swamp and overflow lands and increased value available by drainage, protection and flood prevention.

Judge Joseph H. Carey of Cheyenne, Wyo., in a paper on "Land Laws," dealt with their early policy of disposal, transfer under state charters, special grants, etc., development, effect of creation of national parks, forests and other reserves, advantages of making this a nation of homes and home owners, state and federal action required, etc.

Hon. H. A. Jastro, president of the National Live Stock association of Bakersfield, Cal., delivered a paper on "Grazing and Stock Raising." He treated on the development of the industries in the United States, their extent and value, grazing in the arid and semi-arid regions, methods and results, comparative cost and profit and relation between stock raising and commerce.

Under the general head of mineral resources, Dr. I. C. White, state geologist of West Virginia, in speaking of mineral fuels, dealt with the coal fields of the United States, methods of mining, losses in mining, estimated duration of present methods of mining and use, improvements in mining and use, connection with coal production and transportation, relation between coal and other resources, petroleum and rock gas and possible substitutes for fuel.

Andrew Carnegie spoke on "Cores

and Related Minerals," their production in the United States, price, estimates of available quantity, duration of supply, processes of mining and quarrying and probable consequences of exhaustion of standard minerals.

On May 12 President Roosevelt entertained at dinner the cabinet, the members of the supreme court, the governors and the other more distinguished guests. Gifford Pinchot, chief of the forestry division, gave a reception to the governors and the Inland Waterways association on May 14. On the afternoon of May 15 Mrs. Roosevelt gave a garden party on the White House grounds for all the delegates to the convention. At the various hotels in Washington arrangements were made for smaller receptions and dinners.

All of the governors who accompanied President Roosevelt on his Mississippi river trip last fall were present. They are: Comer of Alabama, Broward of Florida, Deneen of Illinois, Cummins of Iowa, Hock of Kansas, Blanchard of Louisiana, Folk of Missouri, Shelton of Nebraska, Cury of New Mexico, Burke of North Dakota, Frantz of Oklahoma, Chamberlain of Oregon, Davidson of Wisconsin and Brooks of Wyoming.

That the conference attracted world-wide interest was evidenced by the fact that many of the foreign diplomats at Washington followed the affairs of the convention closely.

Those who were in close touch with the conference arrangements declare they have never known another movement which has been greeted with such quick and enthusiastic popular approval.

An indication of public opinion was afforded by the great mass of correspondence which poured into the White House on this subject. Organizations of all sorts expressed realization of the greatness of the enterprise.

That conservation of national resources is nothing about which the political parties wish to raise an issue is indicated by the attitude of the Democratic leaders. Both William J. Bryan and Gov. John A. Johnson, leading candidates for the Democratic presidential nomination, wrote to President Roosevelt expressing their approval. Equally emphatic indorsement, it is understood, has been voiced by Grover Cleveland. Mr. Bryan's letter to the president read: "I greatly appreciate your kind invitation and shall take pleasure in attending the conference on the conservation of natural resources. I am, I beg to assure you, in hearty sympathy with the purpose of the conference, and I have no doubt that the discussions of the subject will be very helpful to us all." Gov. Johnson's letter read: "To as-

sure you that I heartily agree with your conclusion that the conservation of the natural resources of our country presents a problem demanding the best thought of our times is superfluous. We have been exploiting our resources with no thought of the morrow, and the claims of posterity upon us should certainly be taken into account."

In his letter of invitation to the conference President Roosevelt said:

"There is no other question now before the nation of equal gravity with the question of conservation of our natural resources, and it is the plain duty of us who, for the moment, are responsible, to take inventory of the natural resources which have been handed down to us, to forecast the needs of the future, and so handle the great sources of our prosperity as not to destroy in advance all hope of the prosperity of our descendants."

The need for such a conference is illustrated by a few facts vouched for by investigators. Government experts say that between 300,000,000 and 400,000,000 tons of coal were lost in 1906 by penny wise and pound foolish methods, and that the total so wasted since the beginning of the industry is 50,000,000,000 tons. Millions upon millions of horsepower are going to waste through failure properly to utilize and conserve the waterpower of the United States.

The construction of reservoirs at the sources of streams in which flood waters may be stored to be released at periods of low water is expected not only to keep the waters at a continuous level, but prevent the destruction of property by floods, maintain constant levels for navigation and to develop water power.

At the present rate of timber consumption it is estimated that the price of every kind of lumber will be about double the present price only one decade from to-day.

It is said that the total iron ore available in the world to-day is 25,000,000,000 tons, of which three-fifths is in the United States. Should the rate of consumption continue to increase in the United States in the same ratio that it has in the course of the last score of years, at the end of two centuries there would be no more ore to be mined.

In the United States there is an area of 175,000,000 acres of land susceptible to reclamation by irrigation, and 500,000,000 acres of western public range which may be made available for increased production of meat by restricting the grazing and reseeding portions which have been destroyed by unrespected grazing. With this area made available once more, it is estimated that its meat producing capacity will be nearly doubled.

Graceful and Girlish Fashions in Hair Dressing

WHEN a young girl reaches that milestone in her career which is marked by the lengthening of her frocks and the turning up of her braids she is so deeply concerned about the fashion of doing her hair as any debutante is over the question of puffs or no puffs. Candidly, the subject of hairdressing means more to the girl who wears her braids up for the first time than it does to her older sister, declares a writer in the New York Herald. She has nothing to guide her in the way of former experience, and she does not always get that sympathetic help older sisters might render if they remembered how important the coiffure is to the school-girl.

Because it is an arrangement new to her and to her friends she can learn what becomes her only by trying the various styles which are approved by fashion. She must devote a good deal of study to her head and her face. She must consider carefully the poise and shape of her neck; then after she has studied herself due thought should be given to the styles of hairdressing themselves, and she must choose just that one out of the many, ranging from the jaunty to the classic, which becomes her best. And, above all, it should always be remembered that simplicity is the keynote of girlish hairdressing. Elaborate and imposing effects are not only bad taste, but they make a young girl look ridiculous instead of sweet and charming and simple.

Doing the hair up does not mean that the hair is actually arranged on the top of the head. The "up" is used comparatively in contrast to the hanging braids or curls worn by girls under 14. In a general way the young girl's coiffure is following in the lead of the one adopted by fashionable women. It suggests ever so slightly a Grecian effect by reason of its fullness at the back of the head. Whether the hair is done in one or two coils or is braided and then pinned up, prominence is given to it at a point midway between the crown of the head and the nape of the neck. This slight change distinguishes it from the low coil which was worn last season, and it also makes it more difficult to wear becomingly. A well-shaped head is required to set it off advantageously and give it a smartness that is not characterized by a jumplike arrangement at the back of the head.

A simple way to manage this style of dressing is to roll the sides of the hair back from the face, either from a middle part or straight back from the forehead, and twist it all together in a double loop, pinning the coils across the head in a horizontal line instead of having them follow a vertical axis. With a hat this dressing looks particularly well. Girls will find it a little trying at other times, however, on account of the sudden projection it makes just under the crown of the head. When this is not becoming it can be made by leaving the hair fluffy over the top of the head and with a softness again in the arrangement of the hair low in the neck.

Next to the turned-up braids, in point of simplicity and gradual change in the coiffure evolution, is the loose coil or twist which is generally described as a figure 8. The coil starts at the back of the head, just below the crown after the front has been brushed back in a soft youthful pompadour, then it twists up and down, covering the head from the crown to the nape of the neck. The loops are fastened securely with shell hairpins, and a wide black ribbon bow may be tied through the center to bring the loops and ends just back of the ears. For girls who have very little hair this ribbon dressing will be found becoming and graceful.

No matter how beautiful and luxuriant the hair may be in its infancy, unless it is well cared for it soon loses its softness and beauty of tone. Mothers understand the importance of bestowing attention regularly and systematically upon their youthful daughters' heads, and they insist upon the maid following the most careful process to promote the growth and beauty of the hair. Every night, despite protests from the tired young charge, her hair is given a vigorous and freshening brushing. There are some hair experts who insist that brushing is injurious to the hair, yet nothing responds so quickly and satisfactorily to regular treatment as the hair. Fifty or 100 brisk strokes of the brush are given at night, with the result that the hair is polished and cleansed, the scalp is invigorated and the weariness is dissipated to some degree, while the hair is given a new lease of life. Again in the morning more brushing is bestowed upon it and the hair enjoys a little exercise and an air bath, that mean as much to it as such things do to the system. Much washing is injurious to the hair, and when it is brushed regularly and thoroughly the dust is removed, thus making shampooing less necessary. Once in three or four weeks is considered often enough to shampoo the head if the scalp and hair are kept fresh and clean by constant brushings.

Fewer pumps are seen. Fancy stockings are prophesied. There is a craze for a touch of color in all summer shoes.

An innovation is the wearing of tan silk gloves to match the tan stockings.

In millinery the two most insistent spring shades are taupe and pomegranate.

One of the touches characteristic of some of the French millinery is the presence of huge loops of lawn ribbon.

The latest in gloves is the long chamolis with the buttoned strap across the wrist.

FOR THE CHILDREN

Suit for Boy from 4 to 5 Years.—The knickerbockers are in dark brown velvet, lined with satin, the blouse is in white washing silk, trimmed with frills of the same, it fastens quite up to the throat, under a wide bonnet edged with a narrow frill. The wide collar is frilled at the edge, then fastened with embroidered silk. Elastic is threaded in the hem at the waist. Materials required: 1 1/2 yards velvet and 1 1/4 yards silk.

Dress for Girl from 15 to 17 Years.—Checked material in two shades of blue is employed for this dress, the skirt is trimmed three inches from the foot with a band of blue velvet. The bodice has a round yoke and underleaves of tucked blue silk, the material is gathered to the yoke under a plaiting of silk, and a shaped band, in which incisions are made, through which soft ribbon is threaded and tied in a bow in front. Materials required: 6 yards 46 inches wide, 2 yards silk, 5 yards satin for lining.

Dress for Girl from 8 to 10 Years.—This dress is in sage green cashmere, it has a long-waisted bodice, lined with satin, the round yoke is of cream lace, the material is tucked each side the front, and attached three parts down; four velvet-covered buttons ornament the center, the pockets are trimmed with velvet, they are fixed to the edge of yoke, yoke attached with a row of buttons. The skirt is a circular shape, tucked at the foot, it is joined to the bodice under a folded band of velvet. Materials required: 2 1/2 yards 44 inches wide, 1/2 yard velvet, 1/2 yard lace, and 1 1/4 yard lining.
