WHOLE NO. 1324.

## Local Correspondence

### NEWBURG.

Mrs. A. Stevens and daughter Mabel attended a miscellaneous shower Saturday last at the home of Miss Lettie Anderson in honor of Miss Elizabeth Truesdell of Canton.

Miss Mattie Messer is staying at home for the present.

Farmers are getting busy with their spring work.

Mrs. Clark Sackett and baby of Plymouth spent Tuesday with her mother, Mrs. James King.

Mr. and Mrs. Reuben Barnes spent Tuesday with Mr. and Mrs. Horace Wight.

Miss Ross of Salem visited her grandmother Monday of this week.

We are glad to note that Harry Farley is convalescing from a severe illness. He was remembered with a beautiful plant from the senior class of the Plymouth high school and also one from his Sunday-school class at Newburg.

Word has just been received from Detroit that little Edwin Norris is very sick with pneumonia. His grandpa Clark Mackender went in to see him Wednesday.

W. Ostrander, formerly of this place, has purchased a 160 acre farm near Howell and is moving thereon from his late residence in Detroit.

Mrs. C. Mackender's Sunday-school class presented her with a pretty plant. Dorothy Joy was quite sick last week.

### LIVONIA CENTER.

Tuesday was what one might call a weather breeder, but oh, such a day as it brought us Wednesday.

Dan Peck and wife of Detroit visited his cousin Frank and family last Sunday.

George Kincaid has moved his goods to the city and his father contemplates moving back to the farm.

Your correspondent saw a man plowing Tuesday. Wonder if he plowed Wednesday.

Mr. and Mrs. Palmer Chilson are entertaining friends from the city this week.

C. F. Smith is building a kitchen for John Stringer.

Farmers are busy trimming orchards and spraying trees these days and making maple syrup.

Mr. and Mrs. Frank Peck were in Farmington on business Tuesday.

### WEST PLYMOUTH.

Spencer Heeney spent Monday in Detroit.

Miss Helen Smith attended Maebeth Saturday and remained over Sunday in Detroit to visit with her friend, Miss Julia Schmidt.

Gladys and Mildred Wilson are the two new pupils in District No. 7.

Mr. and Mrs. A. Delmas of Bay City were guests at the O'Bryan's Thursday and Friday of last week.

The Grange held an all day session at Oddfellow's Hall Thursday. Ten new names have been received for membership already this quarter. An invitation from Belleville to our Degree Team to initiate for them March 21 was read by the Secretary, Mrs. C. F. Smith.

Miss Brown entertained her friend Miss Nichols of Ypsilanti at C. F. Smith's last Saturday and Sunday.

Mrs. Daniel Murray and her Elizabeth spent a portion of last week at Mrs. Valentine's in Plymouth.

Hunting and trapping has been and is positively forbidden on the premises farmed by J. C. O'Bryan. Will the party who set traps Saturday, March 11, please call at the house and identify the same?

Miss Nina Stuart and Mr. William Heeney were guests at Leon Stuart's Sunday.

Thomas Heeney was a Wayne visitor Tuesday evening and attended a St. Patrick's banquet.

Mrs. James Heeney entertained her father, James Spencer of Livonia last Thursday.

The pupils in District No. 7 are greatly interested in the spelling contest.

### Sixty Years Ago

The people of New England were using Dr. Herick's Sugar-Coated Liver Pills for biliousness, sour stomach, indigestion and constipation and they are still using them when needed for the same purpose. Why? Because they never fail to give the desired results and they do it gently and comfortably but thoroughly. A dose taken at night makes you feel fine, bright and cheerful next morning. Try them. Price 25c per box. Sold by Pinckney's Pharmacy and Beyer Pharmacy.

### THE DETROIT JOURNAL INTER-VIEWS J. L. HUDSON

Detroit's Leading Merchant Says Public Interests Demand Judge Murphy's Re-election

The Detroit Journal, though a staunch Republican paper, came out strongly editorially in favor of Judge Alfred J. Murphy's re-election as Circuit Judge in a recent issue. It also gave conspicuous place to an interview which it had with J. L. Hudson, Detroit's leading merchant, upon Judge Murphy's candidacy. The interview appeared March 8, 1911. It is so notable an interview that it is herewith given in full:

"The citizens of Detroit and of Wayne County owe it to themselves to re-elect Judge Alfred J. Murphy. It would be a great calamity to the welfare of the community were the city and county to be deprived of this excellent jurist's services."

"In these words J. L. Hudson expressed himself this morning. The big business man, active in every phase of the community's progress, a leader in the commercial and economic prosperity of the day and foremost in measures for the improvement of social conditions, has by virtue of two months' experience on the Wayne circuit court jury panel come to a keen appreciation of judicial worth—and he speaks unflinchingly in praise of Judge Murphy."

"Judge Murphy was presiding judge during the time I served," Mr. Hudson continued. "And I was particularly impressed with him, impressed with his knowledge of law, with his conception of justice and with his administration of it."

"I admired his dignified bearing on the bench. In these times there is all too little of dignity about and respect for the courts, and it is good to find a man like Judge Murphy, who is every inch a judge."

"He has a wonderful grasp of affairs. He understands things. He makes no mistakes, no blunders."

"I regard him as one of the best judges this community ever had and I should regard it as a public calamity were he and the county to be deprived of his services."

"Of all the candidates for the circuit bench he is the one I want to see elected first."

"It would show that we were unwise in our choice were we to leave him out."

John W. Sickelsmith, Greensboro, Pa., has three children, and like most children they frequently take cold. "We have tried several kinds of cough medicine," he says, "but have never found any yet that did them as much good as Chamberlain's Cough Remedy." For sale by all dealers.

### Farmers, Attention.

There is money in stock, there is money in all stock, but most money in the best stock. To have the best stock and be envied by your neighbors, use Harvell's Condition Powder, the best stock renovator and conditioning powder on earth. Accept no other. ## GOOD BUSINESS MEN IN ROME

Book Publishers Turned Out Work Quickly and With Ample Assurance of Profit.

There were in Augustan Rome established publishing houses which not only turned out large numbers of books, but many editions of them, and at an incredibly small price (says Algernon Tassin in the Bookman). That their arrangements were business-like may be inferred from the testimony of Horace. He relates that when an author failed to please the metropolis the publishers shipped the entire edition of his work to the provinces, and if he still failed to go off as writer they made arrangements to bring it back again and sell him as a pig to the pastry and spice shops. One great firm in Rome had over two thousand trained slave copyists; and their work was swift and cheap, for Martial writes that they had ready an edition of a thousand copies of his "Epigrams" in just one hour to be sold at ten cents a copy. The exceedingly large reading public which all this indicates must have been many years in growing, and one may assume that Rome had long been a city of readers. Atticus, the publisher of Cicero, had a great many modern methods in the conduct of his business, and the fact that Caesar's "Commentaries" were very quickly dispatched to the outposts of civilization shows that the machinery of distribution was also well organized. Thus we may conclude that the advertising and publicity department was in good shape.

### Paying by Check.

The peanut vender had a white elephant on his hands in the shape of a check for \$1.05.

"Disa t'ing no good," he said. "I wanta da mon."

Having ascertained just where the check came from, a sympathetic customer passed over "da mon" in exchange for the check and then started an investigation of somebody's reasons for buying 6-cent bags of peanuts on time. Finally the woman who had introduced a new wrinkle into the credit system was cornered for an interview.

"I pay for everything by the month," she said, "absolutely everything—groceries, dry goods, drugs, stationery, hair dressing, and church dues, and I see no reason why I should make an exception in peanuts."

### The Cardinal's Coach.

A cardinal must not walk in the streets of Rome or in the populous districts beyond the walls. He goes in a closed carriage drawn by ambling and well-groomed black horses. Before the loss of the temporal power the carriages were scarlet, drawn by four or six horses, surmounted by a gilt railing resembling a crown. Valets and coachmen wore gorgeous liveries and three other carriages conveyed the secretaries and chaplains of his eminence. These equipages were laid down in 1870, and some of them may be seen taking farmers and their families to the Roman market. Vegetables are packed on the roof and where the valets stood behind.

### Might Spare a Few.

It is said that never was there a gentler critic than Doctor McClintock of Dickinson college. One day a young orator presented his speech for Doctor McClintock's approval. He evidently did not anticipate adverse criticism.

He received it, nevertheless, given in the doctor's gentle, humorous way, which never could offend.

"It's a good speech," he said, "but there is, perhaps, a little too much of a certain sort of rhetoric. For instance, I find in it two midnight owls, two midnight wolves, three American eagles and four unfurled banners. It seems to me that the supply exceeds the demand."—Youth's Companion.

### The Vacant Literary Throne.

There is, we must admit, today no monarch in any tongue upon the literary throne no sovereign world-named in poetry or prose, in whom—as has happened before now not so many generations ago, in royal succession, to Scott, Byron, Goethe, Victor Hugo, Tolstoy—all the civilized world, Teuton, Latin, Celt, Slav, Oriental, are interested, for whose new works it looks, or where it seeks the gospel of the day. Nabochish, to use an Irish word that became a favorite with Sir Walter Scott: it does not matter. Do not let us nurse the humor of the dependent editor who mournfully told his readers, "No new epic this month."

### For German Monument.

Plans of the national German-American alliance for a monument to commemorate the founding of the first German settlement in this country are to be consummated. The memorial is to be located in Vernon Park, Germantown, Pennsylvania, and congress has voted to add \$25,000 to a similar amount raised by the alliance.

### Afraid of Disfigurement.

She—Aren't you going to ask papa tonight, George?  
He—No, dear, I think I'd better not I want to have my picture taken to-morrow.

# THE THINGS DONE AT STATE CAPITOL

THE JUDICIAL PRIMARIES IN THEIR WORKING CAUSE SOME CRITICISM.

THE LEGISLATURE HAS PASSED A BATCH OF LAWS THAT ARE UNCONSTITUTIONAL.

A Very Graphic View of the Work Done and Being Done by the Law Makers.

By Toby Candor.

The result of the judicial primaries has not increased the popularity of this method of nominating judges in the least. In several instances the result has been to nominate men not fitted for the bench, but merely able to round up the votes just as any other politician rounds them up. In consequence a strong sentiment has developed in the legislature in favor of not only doing away with the nomination of the judiciary by primary, but of doing away with the election of the judges. Senator Charles White of Berrien is most outspoken on this subject and is seriously considering the advisability of introducing a joint resolution for an amendment to the constitution providing that all judges shall be appointed by the governor for life or during good behavior, thus removing them entirely from politics and from political or other influences. The sentiment in this line is growing daily and this method of naming judges is bound to be adopted sooner or later. So far nobody has tackled the task of revising the primary law. Every session of the legislature since the primary law was first enacted the act has been tinkered with and revised over and over again. Today it is in worse condition if possible than ever. A considerable number of changes are badly needed, but so far nobody has made an attempt to straighten out its many tangles. Senator James has introduced a corrupt practices act, but the enrollment features, the date of the primary and some other things of similar nature have not been touched.

The legislature has been very busy passing acts which are unconstitutional. The constitution provides that all acts shall be general, but the legislature has been passing local acts regardless. Of course, if anybody chooses to kick on such laws they will not hold water. P. J. M. Hally, corporation counsel of Detroit, has raised a constitutional question of vast importance to the state and which must be taken into the supreme court at once to determine the validity of a lot of important laws now on the statute books. The constitution provides that the legislature shall provide for the incorporation, etc., of cities and villages "by a general act." Now "a general act" does not mean by several acts. Mr. Hally points out that a strict interpretation of this clause would make it impossible for the state to regulate the sale of liquors in cities and villages and all our liquor legislation pretty nearly would be void. The same would be true as applied to local elections and to the legalizing of bond issues as has been done during the present legislature for several cities. Attorney General Franz Kuhn looks upon the matter as most serious and it is planned to take a case into the supreme court at once and secure a construction of the clause.

The action of congress in adjourning without having fixed a basis of congressional apportionment has left Michigan high and dry in the air. Unless the work is now done by a special session of the legislature following the action of the extra session of the new congress, Michigan may have to elect a congressman-at-large. The law provides that should the basis of apportionment be changed while the legislature is not in session and the number of congressmen should be increased the additional representatives to the national house may be elected at large. But this being a Democratic congress with no desire to increase the representation of Michigan but rather to reduce it it is possible it may result that Michigan will have to get along with less than the present 12 congressmen in which event it would be necessary to call the special session of the legislature to redistrict the state.

Governor Osborn may soon awake to find himself without a secretary. By the nomination of prosecuting Attorney McDonald of Houghton county to the circuit bench, a vacancy appears in the prosecutship. William R. Oates, the governor's secretary, is a candidate for the place and so is Rep. Anthony Lucas, who defeated Oates in the primaries for the legislature. Lucas is now bustling for the nomination, while Oates is sticking to business and depending upon his friends to land the job for him if possible.

Senator Watkins proposes to protect in some measure the blue gills and sunfish which are annually taken out of the lakes and streams in vast numbers. He has introduced a bill limiting the catch to 25 in a day and no person may have more than that number in his possession at one time.

The Flowers bill demanded by Governor Osborn by which an expert tax commissioner will be appointed to investigate and possibly revise the tax system of Michigan has passed the House. Rep. Lord's fight against the bill failed.

Judge F. J. Russell, recently appointed a member of the pardon board after Governor Osborn's big shake up surprised everybody by getting married. Judge Russell is 70 years of age while his bride, Miss Cecil Eddy of Watsonville, Cal., is but 22.

Rep. Woodworth has introduced a bill to take a fall out of the D. & M. railroad, which under its special charter and ownership of the Grand Trunk has been escaping its just proportion of the taxes for years. His bill provides a tax of 2 per cent upon the shares held to be paid by the road and of 1 per cent upon the indebtedness of the road. It is expected this tax, if levied, will raise the taxes of the road to an equality at least with other roads and perhaps a little higher. If this last condition should arise, Mr. Woodworth would grieve none, since he believes the state would then be getting back a little of the money the road has not been paying in the last few years.

A new bill as a substitute has been drafted for the teachers' pension fund bill. The original provided that the teachers should create this fund by assessment upon themselves. The substitute provided that the money shall come from the primary school fund. This is on the theory that the teachers shall retire after 30 years of service but shall do such substitute work as may be required by the board of education. In return they will be kept upon the pay roll at half the average salary of the city or town in which she has been teaching. Since the primary school fund may be used for nothing but teachers' salaries it is considered fitting that this pension fund should come from it.

War talk in Lansing is as general as in Washington. Two members of the House, one of the Senate and one newspaper correspondent are members of the national guard and have had their sabers ground to a keen edge and their buttons polished up ready for the fray. Rep. Stewart of Kent is a major commanding the Grand Rapids battalion of the second regiment. Rep. Gansser of Bay is a captain. Senator Collins of Bay is a captain and Roy C. Vandercok, newspaper correspondent, is a captain commanding Battery A, field artillery. All are ready and anxious to go to the front, where they believe something is about to happen.

Sentiment in favor of adjournment on April 19 seems to be growing in the House and within a week the concurrent resolution already adopted in the Senate may pass the House. If legislature does adjourn at that time it is certain a lot of the most important legislation will not have been touched. Among the things left undone will be the revision of the taxation system, the revision of the primary law, the redistricting of judicial circuits, the redistricting of congressional districts, and a large number of other important measures, all of which are essential to the good government of the state.

The uniform probation bill prepared by Tracy McGregor and Detroit attorneys has been introduced in both branches of the legislature. It provides that persons who have committed their first minor offense shall be placed in charge of the probation officer to be appointed by each judicial circuit. In communities of less than 200,000 population the salary of the chief probation officer is fixed at \$1,200 and his assistant at \$800.

Paul H. Kink, clerk of the House, was the hero recently when he entered the House, pushing his baby cab, in which was his little daughter, born since the convening of the legislature. Paul was loudly cheered as he made his triumphal entry and the baby was immediately surrounded by members, employes and everybody else present.

Senator Mapes' bill providing that school districts may pay to the parents of poor children \$3 a week while the children remain in school has passed the Senate. This is one of the several measures before the legislature which tends to lighten the burden of poor persons while their children are securing an education.

Senator White's bill compelling supervisors to make annual reports of the financial condition of their townships has passed the Senate. Senator Miller's bill which authorizes the persons of one township to use the public library and reading room of another township has passed the committee of the whole.

Governor Osborn may not after all have a township named for him. Senator Fowle has introduced a bill providing for the organization of Osborn township in Mackinac county. Rep. McEachern of that county is opposed to the bill because he declares it is an attempt to reward some political workers and is unnecessary.

Michigan may add another county to the 33 it already has. Rep. Morford has introduced a bill to organize the county of Forest, to be composed of six townships from Presque Isle and six from Cheboygan counties.

Rep. Bricker has introduced a bill in the House providing that all railroads must so arrange their schedules that passenger trains will connect at all junctions with the passenger trains of other roads.

Senator Foster's bill exempting from taxation private wood lots of not more than 20 acres in order to encourage forestry has passed the Senate.

Rep. Wood has introduced a bill in the house prohibiting piece work in locomotive boiler shops in Michigan.

Rep. Ball's bill, which provides for a state fire marshal, has passed the House. This is a measure advocated by Governor Osborn and it is believed will greatly reduce the fire losses in the state.

Rep. Woodworth in the House has taken the bull by the horns and has introduced a concurrent resolution providing for an amendment to the state constitution to give the initiative and referendum in state affairs while Rep. Dunn has introduced a similar resolution providing for the recall.

## FISHER IN CABINET

CHICAGOAN FORMALLY SWORN IN AND TAKES DESK OF RICHARD A. BALLINGER.

## IS NOT TO HURRY REFORMS

Asserts He Hasn't Heard That Alaska Coal Claims Are to Be Submitted to Him at Once—Newly Appointed Secretary of Interior.

Washington, March 14.—Walter L. Fisher of Chicago took the oath of office as the successor of Richard A. Ballinger, secretary of the interior in the cabinet of President Taft. The oath was informally administered by W. B. Acker, chief of the miscellaneous division of the interior department, who is a notary public. The only witnesses were Mr. Ballinger and his private secretary, Ashmun Brown. Shortly after the oath was administered Mr. Fisher formally received the bureau chiefs of the department, who extended their congratulations.

Mr. Fisher promptly took charge of Mr. Ballinger's old desk and the first paper he laid upon it was his commission signed by President Taft.

Planning No Personal Changes. Asked as to his policies, Mr. Fisher said:

"I shall give all my time in the immediate future to acquainting myself with the work of the department. No changes in the personnel will be made during that time, and proffered resignations will not be considered. I have no plans for the summer months, and do not know whether I will visit the works of the interior department throughout the country at that time."

When asked whether the Cunningham coal claims in Alaska would be formally submitted to him as reported, Mr. Fisher said:

"If that report is true, I have not been advised of it. Should the case reach me for action at any time no decision would be reached until I have given it the fullest possible consideration."

## U. S. HAS DEADLY EXPLOSIVE

Hudson Maxim Declares It Will Prove Envy of Every Nation in the World.

Boston, March 13.—That the United States government controls a brand new explosive which will prove the envy of every nation in the world was the declaration of Hudson Maxim, the inventor.

"This new explosive," said Mr. Maxim, "will prove a revelation in warfare, and will do almost everything except, perhaps, blow the whole crust off the earth. The value of this explosive lies in the fact it will send a projectile through any armor, and the explosion will not take place until after this projectile has passed through the armor."

## AD WOLGAST TO QUIT RING

Lightweight Champion Announces His Retirement After Fight With Hogan April 1.

New York, March 14.—Ad Wolgast, lightweight champion, is going to quit the ring after his ten-round bout with One-Round Hogan, the California lightweight, which takes place at the Madison Athletic club of this city on April 18. Wolgast made this announcement in Los Angeles, Cal., stating that he is tired of the fighting game and besides had faithfully promised his wife that he would never again engage in the ring after his contest with Hogan.

## Racine Left in Darkness.

Racine, Wis., March 11.—The entire power plant of the Milwaukee Electric Railway & Light company was destroyed by fire last night, causing a loss of \$150,000. The entire city was left in darkness and without street car service.

## VESUVIUS LANDSLIDE FOLLOWS EARTHQUAKE

Famous Funicular Railway is Badly Damaged—Detonations Heard—Part of Crater Falls.

Naples, March 13.—A severe earthquake, accompanied by strong detonations from Mount Vesuvius, occurred last evening.

Investigations showed that a great landslide had dropped from the upper part of the crater. It is estimated that it measured 1,000 by 250 feet, and when it fell it caused enormous clouds of smoke.

The Funicular railway was badly damaged. A party of tourists were about to ascend by the railway when the shock occurred.

The Funicular railway has been entirely put out of commission by previous eruptions, but so profitable has the tourist travel been that the road has always been rebuilt.

The road runs over lava beds its entire length, but was regarded as safe until this new eruption.

## FAT STOCK ON EXHIBITION

Colonel Roosevelt Guest at Opening of National Feeders' and Breeders' Show at Fort Worth.

Fort Worth, Tex., March 13.—The fifteenth annual live stock show of the National Feeders' and Breeders' association was opened at the Coliseum today by Gov. O. B. Colquitt of Texas. Colonel Roosevelt, Senators Bailey and Culberson of Texas, Gov. Lee Cruce of Oklahoma, Governor Sanders of Louisiana and Governor Mills of New Mexico were guests at the opening exercises and delivered addresses.

The exhibition this year promises to be the most notable in the history of the association. The number of entries approximate 6,000 individual animals, many of them having been received from northern, central and eastern breeders and owners. More than \$25,000 in money prizes, six handsome solid silver cups and a score or more of gold medals, silver medals, ribbons and diplomas are offered in the various classifications of pure bred cattle, hogs, sheep, horses and high grade mules. A brilliant horse show will be a nightly feature during fat stock show week.

## T. R. JR. EXPECTS STORK

Why Former President and Wife Are on Their Way to San Francisco.

San Francisco, March 14.—It is to be "Grandpa Roosevelt." It has leaked out that Col. Theodore Roosevelt, Mrs. Roosevelt and Miss Ethel Roosevelt are coming across the continent to be here just before the arrival of the stork in the home of Theodore Roosevelt, Jr. It is understood, if the child is a boy, it is to be called Theodore III. The younger Theodore Roosevelt and his wife, who was Miss Eleanor Butler Alexander, have nearly as many friends as their popular father and father-in-law. Judging from present indications, they all are endeavoring to contribute to the new arrival's layette. Theodore, Jr., married Miss Alexander June 31 of last year.

## BRAZILIANS DIE IN RIOTS

Anticlerical Demonstration Ends in Police Battle and Churches Are Guarded.

Rio Janeiro, March 14.—Anticlerical rioting has occurred at Sao Paulo. The military and police attacked the mob, which fought back, and during the encounter several persons were killed and others injured. One hundred and fifty arrests were made. All of the churches in Sao Paulo have been placed under military guard. The rioting originated in the disappearance from a parochial school of a young girl who could not be produced by the school authorities when a demand for her was made.

First Lady—How very happy the bridegroom looks! Really it is pleasant to see a young man looking so joyful.

Second Lady—Hush! That's not the bridegroom; that's a gentleman the bride jilted six months ago.

## Exhorting the Ducks.

There are two tiny boys in this town whose mother slings often to them at their request, and as she is an ardent church woman, the children hear as many hymns as anything else. The other day they were playing with their wooden ducks in the bathtub, and strangely enough the ducks were more inclined to float sideways than in the approved manner. After several attempts to keep the misguided ducks straight the elder boy shouted:

"Stand up, duck, stand up!" Then two-year-old, noting the familiar phrase, leaned over the tub and exorted: "Tand up, duck! Tand up for Jesus!"

## EDITOR BROWNE

Of The Rockford Morning Star.

"About seven years ago I ceased drinking coffee to give your Postum a trial.

"I had suffered acutely from various forms of indigestion and my stomach had become so disordered as to repel almost every sort of substantial food. My general health was bad. At close intervals I would suffer severe attacks which confined me in bed for a week or more. Soon after changing from coffee to Postum the indigestion abated, and in a short time ceased entirely. I have continued the daily use of your excellent Food Drink and assure you most cordially that I am indebted to you for the relief it has brought me.

"Wishing you a continued success, I am Yours very truly,  
J. Stanley Browne,  
Managing Editor."

Of course, when a man's health shows he can stand coffee without trouble, let him drink it, but most highly organized brain-workers simply cannot.

The drugs natural to the coffee berry affect the stomach and other organs and thence to the complex nervous system, throwing it out of balance and producing disorders in various parts of the body. Keep up this daily poisoning and serious disease generally supervenes. So when man or woman finds that coffee is a smooth but deadly enemy and health is of any value at all, there is but one road—quit.

It is easy to find out if coffee be the cause of the troubles, for if left off 10 days and Postum be used in its place and the sick and diseased conditions begin to disappear, the proof is unanswerable.

Postum is not good if made by short boiling. It must be boiled full 15 minutes after boiling begins, when the crisp flavor and the food elements are brought out of the grains and the beverage is ready to fulfill its mission of palatable comfort and renewing the cells and nerve centers broken down by coffee.

"There's a Reason."

# TALES OF GOTHAM AND OTHER CITIES

## Bad Influence of Cheap Candy Shops

NEW YORK.—Meeting halls, candy shops, cheap theaters, moving picture shows, dance halls and academies, and even street gangs, in their relation to child life in New York was one of the subjects set forth graphically by the Child Welfare Exhibit, given at the Seventy-first Regiment armory. In this section there is one saloon for every 294 persons, with no playground for the child.

Other exhibits were the dangers of child life in playing upon the streets, analysis of street dirt, and the interfering powers of different city departments in keeping the streets clean and properly paved, accidents on the street and street crime, showing not only the moral danger of the street, but the unhappy fact that the chief activities of the healthy boy can and should engage in are banned by law if practiced on the street, and subject the child, if he express his normal tendencies, to the risk of a debasing contact with the criminal law.

The candy shop and its effects on the young ranks in importance in the work of this committee. In many congested districts the candy shops and stands far outnumber the saloons. In

the exhibit a model of a typical candy shop, with its post cards, dime novels and soda water, as well as its candy, was shown. Samples of candy have been purchased and analyzed by the health department.

The development of the moving picture show as a form of social entertainment was also a part of the exhibit. There are 250 of these shows in Manhattan, which reach two million people weekly, and at least a half-million children. Their undesirable features have been taken up by the committee and suggestions made as to their improvement. Low priced theaters, the vaudeville, burlesque and melodrama and the cheap music hall have been made a special study because of the number of children under sixteen that attend them; even the high priced theaters have been investigated.

A very exhaustive study has been made of the dance places, chiefly in Manhattan. Dancing academies in Manhattan, the committee says, are teaching annually some one hundred thousand persons to dance, and of these 45 per cent. are under sixteen and 90 per cent. under twenty-one. Thus practically the entire population between fourteen and twenty of the clerical and working classes is taught annually. These figures become doubly significant when it is known that about half of the dancing academies are rated as undesirable places for young women.

## Pig's Testimony Wins Case in Court

KANSAS CITY, Mo.—Quindaro, a suburb of this city, has a justice of the peace with nerve enough to reverse his own decisions without waiting for some other court to do it for him. It was a pig case in which Justice Pfaff performed this acrobatic judicial feat. The final session of the court was held in the feed lot of Henry Shaw, plaintiff, against whom the court first decided, but for him at the last trial after convincing testimony had been furnished by the pig itself.

Shaw bought a snail pig, supposed to be nearly dead with "blind staggers," paying 25 cents for it. He cut a small hole in the fence for the pig to pass through into the adjoining cow yard and fed the little invalid warm milk twice a day and he got well. A pan was rattled in the cow yard to summons the pig when the milk was ready. The pig soon learned the signal and responded on a run.

Last June the pig, grown large and strong, disappeared. A few weeks ago, on the farm of Mike Evans, five miles

away, Shaw saw a big hog with peculiar spots on his leg that he recognized as belonging to the sick pig of last spring, and he claimed him. Evans refused to give up the pig and suit was brought. The court decided in favor of Evans.

Then Shaw asked a rehearing of the case and proposed to take the hog into his feeding lot, where there was a large number of other hogs. He proposed to go into the adjoining cow yard and rattle a tin dish. The ownership of the hog was to be decided on whether it made a dash for the hole in fence, far too small now to admit of its passing through.

All Quindaro gathered around Shaw's hog lot to see the trial. Justice Pfaff took station where he could see the whole show. The pig was placed in the lot with the drove of hogs belonging to Shaw, who then went into the adjoining lot with a tin pan in his hand.

At a signal from Justice Pfaff Shaw rattled the tin pan. The pig let out a couple of kinks in his tail and started for the hole in the fence on a run. It was barely big enough for the hog to insert his nose, but he struggled to get through and go to his old feeding place in the cow yard. There was a cheer from the crowd, even the Evans faction joining, and Justice Pfaff promptly reversed his previous ruling and awarded the pig to Shaw.

## Michigan Man Is a Marvel in Figures

BATTLE CREEK, Mich.—The village of Vicksburg is the home of a man who is a "marvel in figures"—C. E. Manigold, the "lightning calculator." In instantaneous calculation he is a prodigy.

Recently he was tested by a party of gentlemen. One gave Manigold the figures 4,898 to be multiplied by 67. The answer was instantaneous, 328,166. The man gave his age as thirty-two. Manigold as quickly gave the number of seconds in his life as 995,328,000. The man laboriously reduced thirty-two years to 11,520 days and down to 995,328,000 seconds.

"Suppose I were ninety-nine years old?" Almost before the man had ceased speaking, Manigold said 3,479,296 and three eighths. If thirty-two years and six months old? In a second he replied 101,083 and four eighths.

Mr. Manigold is conscious of per-

forming these lightning calculations. He always closes his eyes when figuring, but the answer is announced so quickly that it seems impossible for him to have done any calculating. Manigold's mind works with incredible swiftness and in one second he says that his mind can travel back over the events of a long time. When numbers are given him he can see every figure on his mental blackboard.

Numbers to him are just a succession of figures, as will be noticed above. Thus 285,534 is not two hundred and eighty-five thousand five hundred and thirty-four, but simply 285, 65, 34. Any number given him he first mentally points off in groups, commencing at the right-hand side, but he works from the left-hand side in all operations. He adds six columns of figures instantly. He uses only addition and multiplication. To subtract he adds enough to the subtrahend to make it equal the minuend, the amount, divided, being the remainder. To divide he multiplies the divisor by a succession of numbers until he hits upon the product nearest the dividend, then the multiplier with the remainder, is the quotient.

## Would Give Away Missouri Bachelors

JEFFERSON CITY, Mo.—John H. Burgin, representative from Gentry county and father of 15 children, announced that he would organize a free matrimony bureau for the purpose of disposing of the bachelor members of the legislature to Cole county girls.

"I got married early," said Representative Burgin, "and I know from experience that it's worth the money. The man who plods along without a wife ought to be arrested as an unde-

sirable citizen. Add the girl who can charm a young man and fails to wed him is not worthy of a husband."

"Now, I have made ten matches, and every one turned out just as ordered. I am one of the happiest men to be found in this country, and it is just because I had brains enough to get married. I have 15 children, and am not too modest to admit that it is the best brood of its size I know of."

"Now, about this bachelor business again. If I had my way I'd make every bachelor marry. And there ought to be a way to punish those girls who toy with the affections of men. This not only takes up a fellow's time, but it has a tendency to make him lose faith in women, and that is the cause of much of this terrible bachelorhood."

## WARDEN SIMPSON'S PLAN.

Work So Many Hours Each Day for Inmates of Jackson Prison.

To establish a definite number of hours as a day's work for the inmates of Jackson prison is the latest reform proposed by Warden Simpson, and it is expected he will inaugurate the change in the near future. The warden believes the inmates have too much time on their hands to hatch up insurrection and plan insubordination.

Under the present system each convict in the various shops is given a certain amount of work to accomplish, and when it is finished he is at liberty to work or not, just as he pleases. If he chooses to work he receives overtime pay, but if he doesn't work he may loaf about the shop. The warden will now make every effort to ascertain the average length of time it takes an inmate to finish his usual stint, and when this is determined he will make a reasonable addition of time in which an inmate may work on his own overtime.

The warden is doing his best to make the justice of the change apparent to the inmates, so they will have no cause for complaint. The plan at present is to have the convicts work between bells rung at intervals of perhaps seven hours, although the same number of hours will not prevail in all shops, as it is believed that in some cases old men should not be made to work as long as young men.

## The Famine in China.

More gruesome stories of the horrors of the Chinese famine reached the state department from the consular general at Shanghai.

One traveler reported passing 13 dead bodies in 13 miles on the road. The missionaries tell of the natives eating cakes made of leaves and stems mixed with millet chaff which they buy with the allowance from the government of three cents apiece. The trees had been stripped of bark, which had been eaten. Dr. Cochran, an American Presbyterian missionary, declared that in the whole afflicted region there were 2,000,000 starving people.

Twenty-five persons, trapped in a burning hotel at Sussex, N. B., escaped from an early morning fire by jumping into blankets held by people outside, or made their way to the ground on ladders that were raised to the windows.

Western railroads are to ask for more time in which to meet the ruling on the long and short haul clause of the interstate commerce commission. A committee has been appointed by the Western Passenger Association to confer with members of the commission at Washington, and its members will leave Chicago with their request within a short time.

Major General G. L. Hodges, in command of the department of the lakes, U. S. A., has closed his active service in the army, having reached the age of retirement. General Hodges has served forty years.

## STATE NEWS IN BRIEF

Sault Ste. Marie.—An armed posse headed by a trio of provincial constables is searching the woods near the Canadian Soo for two Italians who probably fatally stabbed Jules Lavergne, a French woodsman. The stabbing was the outcome of a dispute between the Italians and Frenchman over a girl and wages. Lavergne is in a hospital suffering from a dozen knife wounds.

Saginaw.—Having thought for the last forty-five years that each was dead, Mrs. John Madden of Saginaw and Mrs. Fred Sidensticker of Newaygo are about to be united through the appearance of a mortuary notice of John Madden, who died here several weeks ago. The announcement of his death was carried around the state, and Mrs. Sidensticker read the notice in her home and immediately wrote to Saginaw to ascertain if the Mrs. John Madden was not her sister. The surprise and joy of Mrs. Madden in eventually locating Mrs. Sidensticker can easily be imagined.

Lansing.—Labor Commissioner Fletcher is on the warpath for employers who are alleged to be violating the law which requires that female employes should not be forced to work more than fifty-four hours a week. It has been called to his attention recently that in Bay City, Saginaw, Lansing and a number of other cities throughout the state, this law is said to be disregarded and the labor commissioner says his inspectors, who are investigating the cases, will report the latter part of this week, and prosecutions may result.

Niles.—Postmaster Carmir Smith of this city was elected president of Northern Indiana & Southern Michigan Retail Lumber Dealers' association which concluded its annual meeting and banquet at South Bend, Ind. Arthur Holmes of Detroit was secretary of the association for several years. The association adopted a resolution by practically a unanimous vote in favor of the proposed reciprocity agreement with Canada.

Flint.—The case of Frank Fox, who is charged with the murder of Ella Blade, will go to the jury. The prosecution and defense closed their cases and only the argument remains to be heard. Fox was placed on the stand in his own defense. He maintained his original claim that he could not remember any of the incidents of the shooting, and he also repeated his statement that the crime was not premeditated.

Kalamazoo.—Gov. Judson Harmon of Ohio has advised the Kalamazoo Jefferson club that he will be present at the banquet of the club, to be given in the near future. The club is planning to make the banquet of this year the biggest and best ever given.

Petoskey.—Among the troops ordered to the Mexican border is a Michigan boy, Cresson Hurst of Alanson, who is a member of the Thirty-second artillery, stationed at Fort Baker City. He was unable to attend the funeral of his mother, Mrs. George F. Hurst, on account of these orders.

Richmond.—Believing children should be allowed to have open air exercise, Mayor Zimmerman has refused to allow the police department to place sidewalk roller skating under the ban. Hastings.—Barry county fair will be held during the first week in October this year. Elmer Rising, a prominent stockman of Woodland, has been elected a director to fill a vacancy.

Saginaw.—At a meeting of the executive committee of the Michigan Association of Funeral Directors, it was decided to hold the thirty-third annual convention in Saginaw the first week in September.

Saginaw.—The twenty-fourth annual convention of the Michigan Music Teachers' association will meet in Saginaw June 27, 28 and 29. About 400 from all over the state are expected to be present at the gathering.

Hastings.—The city council has decided to submit to the voters of this city at the April election a proposition to bond the city for \$120,000 to establish a water power plant which will operate a municipal electric plant and pumping station.

Terre Haute.—A man giving his name as Herbert Austin was arrested at the traction station on complaint of Miss Inez Van Cleve, to whom he said he was enjoying himself by flirting. Miss Van Cleve is a probation officer with the duty of protecting girls from flirting.

Marquette.—The body of Samuel Dozzi, a pumpman, who was suffocated in a fire at the Smith iron mine at Swanzy, was recovered by an expert from the rescue station at Urbana, Ill., with the aid of an oxygen helmet. The fire has been extinguished.

Flint.—Evelyn Londerough, a sixteen-year-old girl, disappeared from the home of her parents, 1109 South Saginaw street. No trace of her has been found as yet. Her disappearance was reported to the police.

Cadillac.—Charles Hanre, the man who struck Bernard Fox, a lumberjack, with a beer bottle the other day when it was alleged Fox was attempting to make love to Hanre's sweet heart, has paid a fine and costs amounting to \$24.25. Hanre had already served six days of the 45 days' jail sentence.

## MAIL SACK CLEARS SUSPECT OF THEFT

FOR THIRTY YEARS CLERK HAD BEEN HELD ACCOUNTABLE FOR MONEY LOSS.

## BLAMED BY THE INSPECTORS

Bag Repairer Finds Registry Envelope Caught by Corners at Bottom of Old Sack Where It Was Held While Sender Cried Thief.

Peoria, Ill.—Rev. Charles Burdette, brother of "Bob" Burdette, the humorist, has been vindicated after 30 years of any blame in connection with the disappearance of \$3,500 from a registered letter package sent out by the Peoria postoffice of which he was registry clerk.

The \$3,500 disappeared after it was put in 12 registered letters by John Comstock, a wealthy resident. The evidence was all against young Burdette and after the first investigation had been made Comstock demanded that Gen. B. W. Magee, veteran of the Civil war and postmaster at Peoria, immediately discharge the registry clerk.

"Can't do anything for you," said the old general. "I've known Charles since he was able to walk. I knew all his folk. They are honest and the boy is honest. They are friends of mine and I won't discharge Charlie."

Then Comstock carried the matter to Washington and an inspector came down from Chicago to make a full report.

"Charlie" told him how Comstock appeared at the registry window with the names of 12 men to whom he was sending money and asked that the letters be registered. Comstock had asked him to watch him put the money in the envelopes, which he did.

He also told the inspector he had placed the 12 envelopes in one large one and had put this large envelope at the bottom of a mail sack, in accordance with the custom at that time, with the registry book on top of the registered mail. On top of this he placed the regular mail.

The railway mail clerk, who had sent the registry book back with these

Start of the Ill-Fated Letters.

12 letters unreceipted for, was investigated. He said they were not in the mail sack and Burdette said they were.

The inspector made his report and it was unfavorable to Burdette. When the report had been considered at Washington a letter came to General Magee advising him of what the inspector had reported and suggesting that the best thing to do under the circumstances was to discharge young Burdette.

General Magee wrote to Washington: "This boy is all real and I am not going to brand him by discharging him." And Burdette continued as registry clerk.

Burdette was working to get money to study for the ministry and when he was ordained as a minister was assigned as a missionary by the Assam, India. In far away India Burdette made good as a missionary and after 20 years' service, came back to the United States and accepted a call to an eastern church. He now has a pastorate at Springfield, Mass.

Into the repair shop at San Francisco a few days ago an old battered sack was sent to be patched. It was a veteran and to repair it meant practically to make a new sack.

The first man to inspect the sack decided it needed a new bottom and, with a knife, he ripped the leather bottom off. Then he saw above it a big manila envelope, caught by the corners, which served practically as a false bottom. He opened the envelope and found it to contain the 12 Comstock letters and the missing \$3,500.

The manila envelope was not much different in color from the leather. Sharp eyes had been peering into this mail bag each time it was emptied for 30 years without discovering the treasure. Turning the mail bag upside down and shaking it had no effect on the envelope, for it was held firmly against the leather under which its corners had slipped.

## FAMILY PRIDE.

Prof. Stork—And how are we getting on with our studies, Ernestine? Have you been promoted to the flying class yet?  
Little Miss Quacker—Oh, no, professor. Mother has decided that I shall not take that course. She says anybody can fly—but only the best families take to water naturally.

## WOULD LIE AWAKE ALL NIGHT WITH ITCHING ECZEMA

"Ever since I can remember I was a terrible sufferer of eczema and other irritating skin diseases. I would lie awake all night, and my suffering was intolerable. A scaly humor settled on my back, and being but a child, I naturally scratched it. It was a burning, itching sensation, and utterly intolerable, in fact, it was so that I could not possibly forget about it. It did not take long before it spread to my shoulders and arms, and I was almost covered with a mass of raw flesh on account of my scratching. I was in such a condition that my hands were tied.

"A number of physicians were called, but it seemed beyond their medical power and knowledge to cure me. Having tried numerous treatments without deriving any benefit from them, I had given myself up to the mercy of my dreadful malady, but I thought I would take the Cuticura treatment as a last resort. Words cannot express my gratitude to the one who created 'The Cuticura Miracles,' as I have named them, for now I feel as if I never suffered from even a pimple. My disease was routed by Cuticura Soap and Ointment, and I shall never cease praising the wonderful merits they contain. I will never be without them. In fact, I can almost dare any skin diseases to attack me so long as I have Cuticura Remedies in the house. I hope that this letter will give other sufferers an idea of how I suffered, and also hope that they will not pass the 'Cuticura Life Saving Station.'" (Signed) C. Louis Green, 329 Chestnut St., Philadelphia, Pa., Aug. 29, 1910.

## Base Ball Meeting.

The annual meeting of the Plymouth Athletic Association will be held in the rooms of the Plymouth United Savings Bank next Monday evening at 7:30 o'clock, for the election of a new board of directors and the transaction of any other business. It is hoped and expected that there will be a large turn-out, as upon this meeting may depend the abandonment of the present ball park, one of the best in the state, outside of the city. It would be a shame to the village to have the park abandoned, and the presence at the meeting of all interested in athletics is therefore especially desired.

## Happy Wedding at Wayne.

A very pretty home wedding was solemnized Wednesday evening at eight o'clock at the home of Mrs. Hattie Heyward of Wayne, when her daughter Pearl was united in matrimony to Mr. L. B. Paquin of Hampton Falls, N. H. Thirty invited guests were present. The ring service was used, Rev. Bradley officiating. After the ceremony a bountiful repast was served. A fine array of wedding presents were in evidence, consisting of linen, cut glass, handpainted china and silverware. The guests departed at an early hour, wishing the happy couple a long and happy life. Mr. and Mrs. Paquin leave for the East in a few days.

## All Candidates Elected.

The village election last Monday was not so disinteresting after all, if there was but one ticket to be voted for. Two hundred and twenty-two votes were cast; of which President Hillmer received 215. The name of Andrew Taylor was substituted by the election commissioners for David Allen, the latter refusing to accept the nomination. Friends of Burton D. Brown undertook to secure his re-election by running slips over the name of Andrew Taylor, but only succeeded in obtaining 55 votes. There being no opposition to any other candidates all were elected, and they are as follows:

President—Louis Hillmer.  
Trustees—Andrew Taylor, Fred Hall, A. J. Lapham.  
Clerk—C. Anson Hearn.  
Treasurer—Henry E. Wright.  
Assessor—W. T. Rattenbury.

## Crowds at Lenten Services

Crowds which have taxed the seating capacity of the church have been in attendance at the Lenten services at the Methodist church this week. Dr. Allen of Detroit has been the speaker and H. J. Meier and Miss Chew have greatly aided by their singing.

Dr. Allen's sermons are intensely interesting, as he is a man of wide experience and he knows people and their needs. He utters a message when he speaks. The men's meeting last Sunday and the shop meetings have been a great help. It is doubtful if the tide of interest has ever risen in Plymouth in so short a time, and great things are expected before the service ends. The singing is a special feature and the chorus assists admirably. Services each evening at 7:30, with song service preceding fifteen minutes.

## OBITUARY

Aruna Cady was born Dec. 20th, 1831, in Canton township, Wayne county, Michigan, on the farm where he resided until his death, March 11th, 1911. He was married to Mary McIntyre November 23rd, 1854, who, with his only child, John W. Cady, now survive him. He was one of thirteen children, nine boys and four girls, of whom only four are now living, they being David and Clinton Cady of Detroit, George Cady of Ypsilanti and Jay Cady of Lansing.

Mr. Cady has been a member of the Masonic order since 1862 and his death breaks up the three generations, grandfather, son and grandson, all of whom belong to Plymouth Lodge, No. 47.

## MRS. JEFFERSON HETSLEER.

Artemisia Cline was born in Canada Oct. 25, 1848. She married Jefferson Hetsler Dec. 30, 1863. They came to Michigan about 40 years ago and have resided in this community during the past nineteen years. Her husband, with whom she had lived nearly 43 years, two daughters, two sons, seven grandchildren and one great-grandchild, all mourn her departure, which took place Saturday, March 11th, about midnight.

The deceased united with the Baptist church of this village some ten years ago. She was also a member of the Woman's Relief Corps. Funeral services were conducted by Rev. W. W. DesAutels at her late home on North Main street Tuesday morning. Burial at Riverside.

Do you know that of all the minor ailments colds are by far the most dangerous? It is not the cold itself that you need fear, but the serious diseases that it often leads to. Most of these are known as germ diseases. Pneumonia and consumption are among them. Why not take Chamberlain's Cough Remedy and cure your cold while you can? For sale by all dealers.

We extend a most cordial invitation to all to attend these services.

One of the buildings used in connection with the old Dovee cider mill on Perry Woodworth's farm was burned to the ground Wednesday evening. Perry was in the building splitting kindling wood by the light of a lantern, when a piece of lumber fell on the lamp, smashing it and causing it to catch fire. The blaze was beyond control in a moment and fanned by the high wind prevailing, the building was soon nothing but a mass of ashes.

## SCHOOL NOTES.

The Seniors entertained the Literary Society last week giving a program unique in that it was entirely original. It consisted of a mock trial in which each part, whether judge, lawyer or witness had been worked out by the one taking the part; indeed some of the incidents were introduced on the spur of the moment, thus testing the ingenuity and presence of mind of all the participants. This novel feature the members of the other classes, who were unexpectedly hailed into court as jurors by the sheriff, found rather trying, but some of them proved they could hold their own in the searching examination to which they were subjected by the lawyers. The whole was a most valuable exercise for those taking part, as well as a pleasure to the spectator. This closes the public and "entertainment" sessions of the literary society for the year; the rest of the meetings will be given to parliamentary drills and other essential features of a successful society.

Miss Johnson attended a Biological Conference in Detroit, Saturday.

Harold and Forest Leslie have left the fourth grade.

The new rainbow—"The ring around the moon."

Harry Farley has been out of school for a week because of pneumonia. He is reported better.

Illustration of the Seniors' self-importance. While the fourteen Seniors were having a meeting leaving the rest of the school in the H. S. room, one of them asked a teacher, "Is there anybody in the study hall?"

Hazel Cady is absent from school this week on account of the death of her grandfather.

Miss Hanford took a party of students to Sothern and Marlowe's Macbeth and to the Art Museum last Saturday. Miss Freeland and Miss Newell also joined the party. All report a profitable day.

Mr. Isbell received a letter some time in February from the Michigan College of Mines, stating that examinations, questions and papers from last semester's work here in Physics, Biology, Physical Geography, Algebra I. and II.

A nice line of dress hats at Miss Hassinger's on and after March 23.

had been examined found satisfactory, and the school placed on the accredited list.

Again the black messenger of Death has visited the Science room and carried away the soul of a little green frog, who has been with us two years, and the whole high school is plunged into deepest mourning and tears flow freely. Only the immediate relatives were present at the funeral. The floral offerings were numerous and beautiful. We mourn the loss of a beautiful. He was always patient and humble; no matter what the weather its croak was always the same.

After six months of patient waiting the Domestic Science department has finally started its work. Never before was dishwashing such fun and never before

did baked potatoes taste so good. Even if "plain mashed potatoes" are refused at home, when one has made them in school they really do taste different. You should see the boys peering in the windows and doors to see what is going on; and High School girls, as well as fifth and sixth graders, wish they were in the grades that have cooking.

"There are among the Democratic candidates men who are fitted for and deserving of places on the Wayne Circuit bench. Judge Hosmer for instance is clearly entitled to re-election at the hands of discriminating non-partisan voters."—Editorial of Detroit Journal, Jan. 30th, 1911.

Judge Hosmer is a jurist of dignity, stability, unusual learning and poise. His long and brilliant career on the circuit bench has unusual fitness and the confidence which the community reposes in him. By both Republican and Democratic citizens he is recognized as singularly distinguished for such responsible services.

## ROYAL VALLEY COFFEES

Did you ever stop to think what an important place Coffee holds in your home life?

What could you drink that would take the place of your Coffee?

It is important that you try Royal Valley NERO, or MARGOLD, or TZAR coffee—with a view to having the best coffee for the money that you can get.

Royal Valley Coffees are economical, because they have stronger "body" than any others at the price—so that you don't need to use so much of them, per cup.

And they are as pure and as rich in flavor as any other coffees sold in Plymouth for 10c to 15c more per pound.

The coffees themselves will prove it, indisputably.

Royal Valley NERO at 25c, or MARGOLD at 30c, or TZAR at 35c per pound will afford you more pleasure and satisfaction and benefit than any similar amount you ever before spent for a coffee.

Get a pound of one of these delicious coffees the very first chance you have—and if you don't happen to have a chance, MAKE one. It will pay you!

# NO TROOPS WILL BE SENT INTO MEXICO

## U. S. ARMY IS PREPARED TO LEAVE FORT SAM HOUSTON, HOWEVER, ON AN HOUR'S NOTICE.

### SECRETARY OF WAR DICKINSON HAS ABANDONED HIS TRIP TO PANAMA CANAL FOR THE PRESENT.

#### Americans Witness Battle and Help to Carry Wounded From the Field of Battle in Automobiles.

It is evident that the movement of troops towards the Mexican border will be started in the next two or three days. The officers of the ninth and eleventh regiments of cavalry have received orders to be ready to move their regiments at an hour's notice.

The troops of these two regiments will be distributed along more than 800 miles of the frontier and will materially augment the third cavalry patrolling force now doing field service. Officers of the maneuver division express the opinion that the proposed wide distribution of the troops shows that no concentration of movement for an invasion of Mexico is contemplated at this time.

All the railroads leading from San Antonio to the border points are accumulating and holding in readiness equipment to transport the troops and accoutrements immediately on receipt of such orders. The preparation is being made by the railroads on instruction direct from the war department. According to one report it is planned to mobilize not less than 15,000 troops on the bank of the Rio Grande in the next few days.

The quartermaster's department has ordered large quantities of supplies to be delivered on the cars at Fort Sam Houston, the specific date of delivery to be ascertained later. Major General W. H. Wood and his divisional staff are rapidly mapping out the program of the war game.

With Gen. Carter at headquarters are Col. Steven Mills, chief of staff; Capt. Henry G. Leonard, aide-de-camp to Gen. Carter; Capt. Mallin Craig, of the divisional staff; Lieut.-Col. Eugene F. Ladd, adjutant-general; Lieut.-Col. Harry P. Birmingham, chief surgeon; Lieut.-Col. Daniel E. McCarthy, chief quartermaster; Maj. George Bell, Jr., inspector-general; Maj. Blanton Winship, judge advocate-general; Maj. Harry E. Wilkins, chief commissary; Maj. Paul Straub, sanitary inspector; Lieut. E. B. Garry, Fifteenth infantry, who is in charge of transportation, guard and mess for headquarters, will provide for mess of 20.

Most of the divisional staff will draw mounts from the mounting stations scattered throughout the country. The chief quartermaster has word that several hundred high-class mounts for officers are en route to San Antonio.

Gen. Carter's famous mount, Tom Bass, it is understood, was left in Washington. A veterinary advised against shipping his mount from the post.

#### Americans Care for Wounded Soldiers.

Americans in automobiles rushed to the aid of the Mexican soldiers wounded in the battle fought near Agua Prieta between a force of 500 rebels under General Blanco and a federal force of 300 men.

Some of the most daring of the Americans arrived on the battle field while the engagement was still in progress. When they reached the scene wounded soldiers and officers were lying about and the federals could not remove them because they had no stretchers. One soldier lay dead and with the permission of the Mexican officers the body was taken to Agua Prieta in one of the automobiles.

Other Americans also in automobiles who arrived later had difficulty in securing permission from the Mexican officers to act in similar capacity, but permission was finally granted. The wounded were taken to Agua Prieta. One soldier, who was shot through the breast, died on the way.

When the Americans attempted to relieve the wounded of their guns and heavy carriage belts to lessen the burden, the soldiers refused to give them up. They held their guns to their breasts as they lay on the cushioned seats of the automobiles.

Eleven federals were wounded, but the number of rebels wounded is not known, as they took their injured with them on their retreat to the mountains.

Except for a few prisoners taken by the federals, the rebels retreated in good order.

It is understood that Blanco's entire force did not participate in the engagement.

Blanco's first move was to throw out a skirmish line to draw the federals into action to ascertain their strength.

The battle lasted an hour and it is believed that the retreat that followed was to draw the federals into the canyon, where the main body of Blanco's force was stationed. The federals, however, after a spirited pursuit, rallied and returned to Agua Prieta, refusing to be entrapped.

Because the would-be bridegroom is a cripple, no Battle Creek minister or justice of the peace will marry Arthur Thorp and Miss Julia Saterlee. Miss Saterlee is 18 years old and attractive.

## 25,000 Face Famine in Chihuahua.

Stories of suffering throughout northern Mexico continued to reach El Paso.

A courier who walked from a point north of the city of Chihuahua reported that famine faced the 25,000 inhabitants there.

Fearing siege of the city, hundreds of women have deserted their homes. Accompanied by their children, they are roaming around the country.

### Diaz is a Busy Man.

The health of President Diaz, which appears to have been made a factor in the situation in some quarters, seemingly has not been impaired in the slightest degree by the business of the last few months. Instead of being the sick man that he has been painted, he is said not to have been in better health in a long time.

As evidence of the fact that the executive is in ordinarily good health, to say the least, he is at his offices in the national palace at 9 o'clock every morning, giving personal attention to the affairs of the nation. Frequently his duties keep him engaged until after 10 o'clock at night at his winter residence in the city.

It has been but a few days since he traveled out to the field where an aviation meet was in progress and sat for hours watching the flights with evident interest.

### Troops to Cover 1,000 Miles.

Maj.-Gen. William H. Carter, commanding the division, Sunday morning will take charge of the big war game.

The scene of field operations will be chiefly in the territory to the south and west adjacent to Mexico. The preliminary plans call for maneuvers ranging over a border territory for more than 1,000 miles.

There will be a series of mimic engagements between the combined sea and land forces at Galveston, and several thousand men from the maneuver camp at Fort Sam Houston. It is claimed by the federal authorities of this district that mobilizing of these 20,000 soldiers in Texas and distributing them along the border will serve as an effective barrier against the sending into Mexico of stores of contraband goods for use of the revolutionists. It is well known that a well organized plan of sending arms and ammunition across the border from isolated Texas points has been in effect for several weeks. It is expected that this practice will now be quickly broken up.

### Madero Promises Protection.

Francisco Madero, provisional president of the Mexican revolutionists, has addressed a note to each of the foreign powers guaranteeing the persons and property of foreigners in Mexico. This information was received by the confidential agency of the revolutionists with instructions to deliver the notes, when they arrive, to the diplomatic representatives of foreign countries accredited to the United States at Washington. Juan Sanchez Azcona, secretary of the confidential agency, gave out the following explanation:

"Agents of the revolutionists in El Paso, Texas, telegraph that there has arrived here from Francisco Madero, provisional president, communications addressed to all foreign governments, in which are explained the causes of the insurrection, giving guarantees for the persons and property of foreigners. These communications will be delivered to the diplomatic representatives of all the countries accredited to the United States through the confidential agency in Washington.

"Agents of the revolutionary party in San Antonio, Texas, also telegraphed the confidential agency in Washington that they have just received letters dated March 8, in which sympathizers in Mexico City with the revolutionary movement attribute the mobilization of the American troops to the secret intrigues of the government of Diaz. It is said in Mexico City that the threat of intervention by the United States was influenced by Wall street and that Diaz had hopes that he would be able, by the threat of the possibility of a foreign war, to unify national sentiment in favor of his government. The contrary has been the result and the people now are accusing Diaz of treason and an uprising in the capital seems imminent."

### No Tinkering With Tariff.

That he expects the special session of the sixty-second congress, called for April 4, to restrict itself to consideration of the proposed Canadian reciprocity agreement, was intimated by President Taft in an address before 5,000 persons at the Southern Commercial Congress at Atlanta, Ga.

Mr. Taft believes a majority of the new congress will favor reciprocity, and he thinks it will be passed regardless of party lines.

If the special session attempts to undertake a general revision of the tariff, one of his aims is to revise schedules of the Payne-Aldrich law without sufficient scientific data, the president will exercise his power of veto.

The saw mill and plant of the Red Deer Lumber Company at Barrows, Sask., was destroyed by fire. The loss is \$100,000.

Mrs. Cora Wood, of Branford, Conn., who it is alleged shot and killed her husband, Christopher G. Wood, her 11-year-old son, Vardemond, and who then fired a bullet into her own breast near the heart, has died from the effects of the wound.

Watts Parker, one of the best known jurists in the south, is dead. He was for 30 years judge of the twenty-second judicial district of Kentucky and was probably the oldest circuit jurist in point of service in the country.

The United States government is the first claimant for damages outside of Kenosha county as a result of the explosion at the plant of the E. L. Du Pont de Nemours Powder Co. at Pleasant Prairie, Wis., and a claim for \$2,000 damages was filed by the naval training station at Lake Bluff, Lake Bluff is 35 miles from the scene of the explosion.

# 2,500 LOSE HOMES IN POWDER EXPLOSION

## HARDLY A HOUSE HABITABLE WITHIN FIVE MILES OF PLEASANT PRAIRIE, WISCONSIN.

### SPARKS POSSIBLY CAUSED IGNITION, IS ONE OF THE THEORIES ADVANCED.

#### Two Persons Are Dead and 350 Injured; Property Loss in Neighborhood \$1,500,000.

Pleasant Prairie, Wis., was wiped out and every house within a five-mile radius wrecked by the explosion of an enormous quantity of powder and dynamite at the plant of the Dupont de Nemours Co.

Two men were killed, one seriously injured and several hundred painfully hurt.

At least 2,500 persons are homeless, for the greater part of the inhabitants of this town, Bristol, and the farmers of the adjacent territory have packed the remnants of their household goods saved from the debris, and are moving away until their homes can be rebuilt.

Damage amounting to \$1,500,000 has been done within a radius of 100 miles, and Michigan cities across the lake suffered severe property losses and nerve shaking panics.

The five magazines which exploded contained 150 tons of finished dynamite, 130 tons of unfinished dynamite, 80,000 kegs of finished giant powder.

Supt. Bumstead of the Chicago division of the powder company said the exact cause of the explosion could not be learned, but that it might have resulted from a spark from a hammer blow or from a broken piece of machinery flying against the wall or floor of the glazing or finishing room.

## TAX IS CONSTITUTIONAL.

### U. S. Supreme Court Says Corporation Tax is Constitutional.

The corporation tax provisions of the Payne-Aldrich tariff act were sustained as constitutional by the unanimous opinion of the judges of the supreme court of the United States, which upheld President Taft.

By the decision a source of income of approximately \$25,000,000 annually is assured to the government.

Of all the objections to the tax raised by suits in all parts of the country, none of them was found sufficient to nullify the law.

The court did hold the tax was not applicable to the real estate "trusts" of Boston, which are organized not under any statute, but under the common law.

The law was held not applicable to the Minneapolis syndicate, a real estate concern, on the ground that it was not "doing business" within the meaning of the law.

Justice Day, who read the decision, first announced that it was within the power of the senate to insert the corporation tax provisions in the tariff law, which originated in the house, and of which the tax provisions are a part.

He said the court considered the tax to be an "excise tax on the doing of business," which is exactly the basis on which the government has defended the law.

Justice Day next held that the tax provisions were not the arbitrary exercise of a power. This was urged in argument as one reason why the law should be held unconstitutional.

### Backs Taft Peace Plan.

Causing a sensation in the house of commons Sir Edward Grey, foreign secretary, and one of Britain's most able statesmen, boldly gave approval on behalf of the government to President Taft's proposal of a hard and fast arbitration treaty between the United States and some other nation as a big step toward international peace.

In an epoch-making speech Sir Edward paved the way for the opening of negotiations between the United States and Britain for a treaty which would banish all possibility of war and refer all disputes, however vital, to arbitration. After the secretary had spoken, the house, by a vote of 276 to 56, adopted a resolution favoring international arbitration.

### No Plan to Sell the Pere Marquette.

Vice-President Arthur P. Patriarche, of the Pere Marquette railroad, denied that the road is to be absorbed by the Canadian Pacific system.

"There is no deal on with the Canadian Pacific or any other road for the purchase of the Pere Marquette," said Mr. Patriarche. "The story is merely the revival of an old rumor which gets into the papers every once in a while. There are no negotiations with any other system for the sale of the Pere Marquette."

A new submarine cable through the narrow pass of the South Atlantic ocean, connecting Monrovia, Liberia, with Pernambuco, Brazil, is being laid. The new cable is to be operated by a German company and is believed to be the forerunner of other cable lines from Liberia to practically all the important points along the eastern coast of South America, as far south as Montevideo and Buenos Aires.

## Rheumatism Advice Gives Prominent Doctor's Best Prescription—Is Easily Mixed.

"Get one ounce of syrup of Sarsaparilla compound and one ounce of Toria compound. Then get half a pint of good whisky and put the other two ingredients into it. Take a tablespoonful of this mixture before each meal and at bed time. Shake the bottle before using." This is not new in this city as many of the worse cases of rheumatism and back-ache have been cured by it. Good results come the first day. Any druggist has these ingredients on hand or will quickly get them from his wholesale house. Any one can mix them.

### Her Wedding March.

A young girl who had never heard of Mendelssohn's "Wedding March," but was familiar with the more popular parody on it, was witness to a wedding ceremony in an uptown church recently. As the betrothed pair walked with dignified tread toward the altar to be wed and the organ pealed forth Mendelssohn's inspiring march, the young girl was plainly shocked. When she arrived at the ceremony she told her mother of the ceremony and innocently exclaimed: "What do you think, mother, they played 'Gee Whiz! I'm glad I'm Free.'"

### Dare to Be Happy.

Let us never be afraid of innocent joy; God is good and what he does is well done; resign yourself to everything, even to happiness; ask for the spirit of sacrifice, of detachment, of renunciation, and above all, for the spirit of joy and gratitude, that genuine and religious optimism which sees in God a Father, and asks no pardon for his benefits. We must dare to be happy and dare to confess it, regarding ourselves always as the depositaries, not as the authors of our own joy.—Amiel.

## MILD, GENTLE LAXATIVE

## FOR WOMEN GIVEN FREE

So many of the ills of women are due to habitual constipation, probably because of their false modesty on the subject, that their attention cannot be too strongly called to the importance of keeping the bowels open. It is always important to do that, regardless of the sex, but it is especially important for women.

From the time the girl begins to menstruate until menopause ceases she has always vastly better prospects of coming through healthily if she watches her bowel movements. If you find yourself constipated, with bad breath, pimply complexion, headache, belching gas, and other symptoms of indigestion and constipation, take a small dose of Dr. Caldwell's Syrup Pepsin. It is a woman's favorite laxative. You will find that you can do away with salts, strong cathartics, etc., which are entirely unsuited to woman's requirements.

Mrs. Katherine Haberstroh of McKees Rocks, Pa., and Mrs. A. E. Herrick of Wheeling, Mich., who was almost paralyzed in her stomach and bowels, are now cured by the use of this remedy. A free sample bottle can be obtained by addressing Dr. Caldwell, and after you are convinced of its merits buy it of your druggist at fifty cents and one dollar a bottle. For the free sample address Dr. W. B. Caldwell, 231 Caldwell building, Monticello, Ill.

## Kind but Careful.

John P. Irish, the San Francisco orator and officeholder, was entertaining Joaquin Miller, the poet, one night. Upon hearing a particularly funny story by the host the poet fell off his chair in a paroxysm of mirth.

Irish thought the poet had a seizure of some kind and he rushed to the sideboard, took a bottle of whisky and stuck the top of it into Miller's mouth, hoping to revive him.

Presently Miller waved his hands feebly and Irish removed the bottle. "What is it?" asked Irish solicitously.

"Remove the cork!" whispered the poet, hoarsely. "Remove the cork!"—Saturday Evening Post.

# A Helpless Invalid

## Restored to Health by Lydia E. Pinkham's Vegetable Compound

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is, it would almost seem, to blame for her own wretchedness. Read what this woman says:

Richmond, Mo. — "When my second daughter was eighteen months old I was pronounced a hopeless invalid by specialists. I had a consultation of doctors and they said I had a severe case of ulceration. I was in bed for ten weeks, had sinking spells, and was pronounced to be in a dangerous condition. My father insisted that we try Lydia E. Pinkham's Vegetable Compound, and brought me six bottles. I soon began to improve, and before it had all been taken I was as well and strong as ever,—my friends hardly recognized me so great was the change."—Mrs. Woodson Branstetter, Richmond, Mo.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what another woman says:—

Jonesboro, Texas. — "I have used Lydia E. Pinkham's Vegetable Compound for myself and daughter, and consider it unequalled for all female diseases. I would not be without it for anything. I wish every mother in America could be persuaded to use it as there would be less suffering among our sex then. I am always glad to speak in praise of Lydia E. Pinkham's Vegetable Compound, and you are at liberty to use this testimonial."—Mrs. James T. Lawrence, Jonesboro, Texas.

Since we guarantee that all testimonials, which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?—

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

### THE DETROIT NEWSPAPERS UPON JUDGE ALFRED J. MURPHY

Editorial From  
THE DETROIT JOURNAL  
REPUBLICAN  
March 10, 1911.

Another Democratic member of the circuit bench seeking re-election is Hon. Alfred J. Murphy, who in the last election demonstrated his astonishing personal popularity by leading all the other candidates of both parties. In his service on the bench Judge Murphy has justified this mark of popular appreciation and confidence."

Editorial From  
THE DETROIT TIMES  
(INDEPENDENT)  
March 3, 1911.

"Judge Murphy will undoubtedly be returned by the biggest majority of any of the present members of the bench—his fellow citizens have never withheld this testimonial whenever presented with the opportunity to pay tribute to his sterling qualities as a man and his fairness, soundness and brilliancy as a jurist."

Editorial From  
THE DETROIT FREE  
PRESS  
(REPUBLICAN)

"In the discharge of his duties Judge Murphy has been called upon to conduct cases whose satisfactory outcome offered remarkable tests of ability. To every emergency he has risen and in every trial, involving large interests, his display of fairness, technical knowledge, appropriate dignity and temperate consideration have won for him new applause. The discovery of a man possessing in such fulness the many requirements necessary to the position is not a matter of everyday occurrence. When one is delivered to the people out of the exigencies of politics, they can do nothing less than express their satisfaction by continuing the discovered fitness in the place where it belongs."
