Local Correspondence

CANTON.

Miss Irene Nikirk of Clyde, Ohio, has been spending a few days with Nora Cole.

Misses Maude VanVleet and Ada Griffin and Messrs. Earl Griffin and Glen Woodard spent Monday at Put-in-Bay.

Schools in this locality opened Monday with Miss Joslyn of Ypsilanti as teacher at the Canton Center and Miss Switzer of Superior at the Bartlett.

Miss Nora Cole spent last week visiting friends at Mt. Pleasant, Marion and Manistee.

Miss Pearl Dicks visited friends near Milan last week.

Leon Huston and Mrs. Iche of Highland Park were united in marriage at Detroit last week Tuesday, and left that night for a trip to Buffalo, returning to their home Friday. Mr. and Mrs. Huston have the best wishes of their many friends.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge in the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

LIVONIA CENTER.

Mrs. Fred Lee entertained her Sunday school class at her home Saturday afternoon. Refreshments were served on the lawn and all spent a very pleasant time.

Gus Noyez was taken seriously ill last Friday night. The neighbors rushed in and did all they could to alleviate his suffering. Dr. Holcomb was sent for, but when he got there the patient was feeling some better.

Mr. and Mrs. John Smith are visiting at Garchow's this week.

Geo. Cort and Carl Peck, of Detroit, called on the former's brother and the latter's cousin here Monday.

Mr. and Mrs. Harvey Millard entertained Mrs. Millard's son and family, also her daughter and husband, Saturday and Sunday.

Our school opened up Tuesday with a fair number of scholars.

Mr. and Mrs. Herman Johnson were in the city Tuesday on business.

Mrs. Charles Kuhn was on our street Tuesday.

Emiel Larden and family visited at Richard Fisher's, Sunday.

Mr. and Mrs. Wm. Esch visited at Will Cort's last Sunday.

Mrs. Wm. Hobbins entertained the Larkens club at her home last Saturday.

Mr. and Mrs. Will Cort were in Farmington, Saturday.

Horse shoeing by lamp light is the latest at the Center. Our Smithy keeps busy.

An article that has real merit should in time become popular. That such is the case with Chamberlain's Cough Remedy has been attested by many dealers. Here is one of them. H. W. Hendrickson, Ohio Falls, Ind., writes, "Chamberlain's Cough Remedy is the best for coughs, colds and croup, and is my best seller. For sale by all dealers."

PIKE'S PEAK.

Mrs. C. W. Wright and daughter Clara visited at Ypsilanti Sunday.

Mrs. Sarah Cummings of Plymouth visited Mrs. C. W. Wright and family of this place Wednesday and Thursday of this week.

Mrs. John Markey of this place has been entertaining company from Detroit for the past week.

Mrs. Ellen Lewis, formerly of this place, but now of Detroit, died Monday, Sept. 2d. She was buried at Redford Center Wednesday. She was the widow of the late Isaac Lewis.

Clara Wright has gone to Plymouth this week.

John Houk and wife spent last Sunday at Henry Klatt's.

Mrs. Mertie Witt visited her mother, Mrs. H. Klatt Wednesday.

MURRAY'S CORNERS.

J. A. Cady, wife and daughter, Mrs. Eva Bruner, Mrs. Renton of Belleville and Miss Bertha Clark of Fremont, Ohio, and N. W. Ayres and wife of Detroit were visitors at S. W. Spicer's Sunday.

Ed. Gibbon of Detroit is visiting at C. E. McClumpha's.

Box, to Mr. and Mrs. Elam Moyer, a son, Monday Aug. 26th.

The Aid Society met at the home of Mrs. Ida Burrell yesterday afternoon.

Chas. Shortman, formerly of this place, who now lives in Yorkville, Ill., was renewing old acquaintances here this week.

NEWBURG.

Next Sunday morning's church service will be the last for the conference year. Everyone come and hear Dr. Caster, also help in the Sunday school work.

The L. A. S. will hold their regular meeting at the hall, Friday afternoon, Sept. 13. A picnic supper will be served and ladies are requested to bring their thimbles.

The social at the home of Mr. and Mrs. C. E. Ryder last week, Wednesday evening, was well attended and a very pleasant evening enjoyed by all.

Chas. Paddock, also Edwin L. Crosby and son, Lewis, of Detroit, took dinner at C. E. Ryder's Monday.

E. Bassett is busy canning tomatoes in his canning factory.

Margaret LeVan returned from Highland Lake, last Friday.

Donald Ryder returned to Chicago, Monday.

Gladys Smith spent the week-end with her cousin, Marjorie Wight of Wayne.

Mr. and Mrs. R. Bruce spent the day with Mr. and Mrs. Ross at Salem, Friday last.

The school house has been newly painted and the interior cleaned, which greatly adds to its appearance.

Miss Florence Paddock of Detroit, was a guest at the Ryder homestead last week.

Mrs. Arthur Patullo and children, who have been spending a few weeks at the LeVan home, returned to their home in Cincinnati, Wednesday.

Vern Mackender was home from Detroit over Sunday.

Mr. and Mrs. James King entertained their children last Sunday.

Wayne County Federation of Gleaners held an all day session at Newburg hall, Tuesday, Sept. 3. There was a good attendance, considering the busy season. They adjourned to meet the 1st of October at Romulus.

Sunlight Arbor wishes to thank Mr. Amerhein for the use of his woods for the Gleaner picnic. Also those who kindly assisted in the program.

Parties from Ohio are leasing land in this vicinity for the purpose of locating oil.

Improve the Stock

If your stock is in poor condition, does not thrive or look well, it will pay you to get a 25-cent package of Harvell's Condition Powder. There is no food-stuff in the package. It is all medicine. Every ingredient being chosen for its beneficial effect on the stomach, blood and bowels. The animal improves right from the start and quickly recovers flesh, spirits and a bright glossy coat. Price 25 cts. Sold by Jones, the Druggist, and Beyer's Pharmacy.

WEST PLYMOUTH.

Mr. and Mrs. Eldon Tiffin of Detroit were visitors at Chas. Tiffin's Sunday.

Wallace Becker of Fenton and Mrs. Burgess and two children were visitors at F. L. Becker's this week.

Mr. and Mrs. F. King and son Donald were visitors at C. F. Smith's Wednesday.

A number of our West Plymouth young people spent Sunday at Walled Lake.

Ward Stroud of Fenton came Friday for a few day's visit with his uncle and aunt, Mr. and Mrs. F. L. Becker.

Mrs. Durfee returned to her home in Wayne Monday, after an extended visit with her daughter, Mrs. Don Packard.

Mrs. Porter and daughter Ellen of Cleveland and Miss Essie Stephenson of Detroit spent the week end with their sister, Mrs. Geo. Innis.

Gus. Gates and wife entertained friends from the city Sunday and Labor day.

N. J. Moore of Hanover spent Sunday and Labor Day at the home of James Purdy.

John Murray and wife and William Pfeiffer, wife and daughter Doris of Plymouth visited at Dan. Murray's Sunday.

Mrs. L. E. McRoberts of Northville and Mr. Smith of Denver, Col., visited at James Purdy's Thursday.

Eli Schoch and wife are entertaining Mr. and Mrs. Messinger of Bangor, Pa.

A Peppier Wrench

Of the foot or ankle may produce a very serious sprain. A sprain is more painful than a break. In all sprains, cuts, bruises and scalds, Renne's Pain-killing Magic Oil is the best thing to use. Relieves the pain, reduces swelling, is a perfect anti-septic and heals rapidly. Effective also when taken for Cholera Morbus, Cramps and Dysentery. Price 25 cts. Sold by Jones, the Druggist, and Beyer's Pharmacy.

Mr. and Mrs. Harry Willis leave tomorrow for Grand Rapids, where they will visit their son, Julius and wife.

Commissioner's Notice.

IN the matter of the estate of Oscar A. Fraser, deceased. We, the undersigned, having been appointed by the probate court for the county of Wayne, State of Michigan, commissioners to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that we will meet at the store of John L. Gale, in the village of Plymouth, in said county, on Saturday, the 15th day of October, A. D. 1912 and on Thursday, the 15th day of December, A. D. 1912, at ten o'clock A. M. of each of said days, for the purpose of examining and allowing said claims, and that four months from the 15th day of August, A. D. 1912, were allowed by said court for creditors to present their claims to us for examination and allowance.

Dated, August 19, 1912.
JAMES F. WOODARD,
JOHN L. GALE,
Commissioners.

Readers of The Mail are advised that the Detroit Business University, the oldest and most influential business training school in the State, is located in new fire-proof premises at 55 West Cass Street, Ave., Detroit, and under new management is doing better work than ever in training young men and women for good salaried positions. FRIDAY, SEPTEMBER 6, 1912

MORE LOCAL.

William Weiher is very sick with typhoid fever.

Mrs. Lena Patten visited relatives in Ann Arbor last Friday.

Mrs. Minnie Weiher of Detroit is spending the week at home.

Mrs. Oren Stevens of Detroit is visiting at A. B. Scott's this week.

John Williams is very sick at his home on E. Ann Arbor street.

Arthur Weckerle of Detroit visited friends in town Saturday and Sunday.

Miss Bessie Robinson has resumed her duties as clerk in E. L. Riggs' store.

Mrs. Arthur Hood and daughter Mildred spent Sunday with relatives in Wayne.

Mr. and Mrs. Clarence Jackson of Dayton, Ohio, spent Sunday at Geo. Jackson's.

Mr. and Mrs. Laurence Johnson and Mrs. F. B. Park are spending the week at Walled Lake.

Mrs. Janette Huston attended the funeral of Mrs. Nelson Francisco in Wayne Sunday.

Mrs. Will Stearns of Grand Rapids was a guest of Mrs. Janette Huston the first of the week.

Miss Myrtle Nowland of Detroit visited her parents, Mr. and Mrs. Eli Nowland, last week.

Mrs. Frank Ray and son Irving visited friends in Detroit last week. Irving remained over Sunday.

Chas. Greenlaw had his right thumb severely pinched Wednesday while at work in the Daisy shop.

Miss Madge Harlow has returned from a three weeks' visit with relatives in Standish and Lapeer.

Clyde Cortrite of Wayne and E. H. Crosby of Bad Axe were over Sunday visitors at W. T. Pettingill's.

Mr. and Mrs. Harry Barker of Detroit visited at Frank Dicks' over Sunday and the first of the week.

Floyd Sherman has moved his family to Detroit, where he will work with his father doing carpenter work.

Mr. and Mrs. Don Voorhies of Detroit were over Sunday visitors at the parental home—Eli Nowland's.

Mrs. Merritt Hanchett returned to her home in Clarkston Monday, after a week's visit with relatives here.

Mrs. Alma Maywood and Miss Kate Rice of New Boston were guests of Mrs. Eli Nowland last week Thursday.

Mr. and Mrs. Jerry Lewis and Mr. and Mrs. Fred Lewis of Detroit spent Sunday with Mrs. Charity Harlow.

The commencement of school has brought back several of our townspeople who have been spending the summer at Walled Lake.

Mrs. Geo. Shafer, Mrs. Ida Dunn and Mrs. W. T. Pettingill, with a party of Detroit friends, took a boat trip to Chatham last Friday.

The Plymouth band will take their annual outing next Sunday. They will spend the day at Ed. Shafer's summer home at Union Lake.

Mrs. John Watson and children, Gerald and Dorothy of Detroit spent Saturday and Sunday with the former's mother, Mrs. Elizabeth Terry.

Mr. and Mrs. Chas. Pitcher, Jr., and Mr. and Mrs. Richard Pitcher motored down from Flint and spent Sunday and Monday with Mr. and Mrs. Charles Pitcher, Sr.

Miss Olive Brown entertained about twelve young people at her home, west of town, on Thursday evening of last week. A corn roast was the feature of the evening.

Wendell Lewis and Mrs. H. Merrill of Detroit, Mr. and Mrs. Harry Green of Chicago and Mr. and Mrs. Ernest Tucker of Southville were week end visitors at E. S. Cook's.

James Cork of Northville, who has been employed by the Daisy Mfg. Co. for some time, died at his home of typhoid fever last Sunday. Mr. Cork was Mrs. George Taylor's brother.

Mr. and Mrs. Fred Reiman and family of this place and Mrs. Merritt Hanchett of Clarkston, attended the Hicks reunion, held at the home of Ben Hicks, north of Wayne, last Saturday. There were over ninety present. Other relatives were there from Milan, Battle Creek, Ypsilanti, Detroit and Dearborn.

Running up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

CHURCH NEWS

CHRISTIAN SCIENTIST.

First Church of Christ, Scientist, holds services at church edifice, corner Main and Dodge streets, Sunday morning at 10:10. Subject, "Man." Sunday-school at 11 a. m. Wednesday evening testimonial service 7:10. Every one is welcome.

ST. JOHN'S EPISCOPAL MISSION.

Service will be held as usual in the above church next Sunday, Sept. 8th, at 2:15 in the afternoon. All welcome. Choir practice will be held in the church on Thursday evenings at seven o'clock. All members are asked to attend.

LUTHERAN.

Rev. O. Peters, Pastor.

There will be no service in this church next Sunday on account of the 25th anniversary of the Lutheran seminary at Saginaw. The congregation are invited to attend the service there.

There will be Sunday-school in this church at 11 o'clock. All are welcome.

PRESBYTERIAN

Rev. B. F. Farber, Pastor.

Services will be held in this church on Sunday, September 8th, as follows: Morning worship at 10 o'clock. At this service the regular quarterly sacrament of the Lord's Supper will be observed. A large attendance of members is desired. The loose change of the offering will go to the poor fund.

Sunday-school at 11:15 o'clock. Presbyterian Guild at 5 o'clock. Evening service at 7 o'clock. The pastor will preach. His theme will, "Jehoshaphat—the peaceful."

Prayer meeting on Thursday evening at 7 o'clock. A cordial invitation is extended to all to attend these services.

BAPTIST

Rev. W. W. DesAutels, Pastor.

Services at this church on Sunday, Sept. 8th, will be as follows: Preaching by the pastor at 10 a. m. and 7 p. m. Sunday-school will meet at 11:15. The people of the community are cordially invited to attend all of our services.

Service at Livonia Center in the afternoon at 2:00.

The ladies' aid society will serve a first class supper in the basement of the church on Friday, Sept. 13th, from 5:00 o'clock until all are served. The charge will be only 15c. A large number of persons are desired to partake.

Look out for the East Detroit Male Chorus that will give us a fine treat toward the end of this month. Notice date and place next week.

METHODIST

Rev. E. J. Warren, Pastor.

Next Sunday, September 8, will be the last Sunday of the conference year. The pastor and the officials are, therefore, particularly anxious that there shall be a full attendance of the whole membership and congregation at both the morning and evening services.

At 10 a. m. there will be the celebration of The Holy Supper and baptismal service. Several are to be received into the church also.

Sunday-school at 11:30 a. m. Epworth League devotional meeting at 6 p. m.

We want the closing service of the year to be the most successful of all the year. It will be held at 7 p. m. There will be special music as follows: Solo by Mrs. E. J. Warren, "Hold Thou My Hand, Dear Lord," with violin obligato by Rev. Chas. Lee. Quartette, "My Faith Looks Up to Thee," also with violin obligato. The pastor's theme will be "The Exaltation of Jesus."

Lad Hit by an Automobile

Max, the nine year old son of Mr. and Mrs. W. E. Harris, was severely injured last Saturday evening while crossing Main street, between the Plymouth House and Mrs. Geo. Willis' residence. The lad was playing along with an express wagon and did not see an approaching automobile, driven by Paul Nash. The machine hit the child, breaking his leg below the knee and injuring his hip. The boy was carried to his home on Ann Arbor street and Drs. Peck and Patterson were summoned, but they advised taking him immediately to the hospital. Mr. and Mrs. Harris took the child to Harper Hospital that night, where everything is being done for his comfort and recovery. The accident appeared to be an unavoidable one, as the driver of the machine was not to blame, the child starting out suddenly from the curb of the street. Mr. Nash was able to stop his machine within ten or twelve feet after hitting the boy.

The King Automobile Co. of Detroit has gone into the hands of a receiver, the Union Trust Co. being appointed by Judge Tuttle of the U. S. court. Several Plymouth people are interested in this company financially.

Old Friends Are the Best

Because they have stood the test and are known to be true. Dr. Herrick's Sugar Coated Pills have been used by more than three generations for relieving biliousness, disordered stomach and constipation. They are to this day the main dependence in thousands upon thousands of families for keeping both adults and children healthy and vigorous. Price 25 cts. Sold by Jones, the Druggist, and Beyer's Pharmacy.

Mrs. Mina Fowler and grandson George of Holly visited Mrs. Wm. Arthur last Wednesday. Mrs. Fowler was enroute to her new home in Texas.

The business men have decided to continue closing their stores three nights of the week at six o'clock until the holidays. The stores will be open Monday, Wednesday and Saturday evenings.

Miss Helen Fite, who has been visiting Mrs. W. O. Allen, returned to her home in Norwalk, Ohio, last week. Mr. Fred Fite, Mrs. Allen and Mr. and Mrs. F. B. Parks accompanied her as far as Toledo, making the trip in Mrs. Allen's car.

The heat record for the summer was broken yesterday by the severest storm of the season. Torrents of rain fell, accompanied by some hail. Hot weather has continued since last Saturday, the heat reaching top notch yesterday at about noon.

A Mr. Cramer from Marietta, O., is in this vicinity securing leases on land for the purpose of exploring for oil and gas, John Wilcox assisting him. It is said Mr. Cramer is backed by a Marietta banker and as soon as a sufficient acreage has been secured, drillers will be set to work. We haven't much faith in the project, however, but it isn't our money.

A little party of Plymouth people, consisting of Mrs. John Gale, Harry Cole, J. W. Mellow and wife, Herbert Ede and wife, A. J. E. Torre and wife, visited at Chatham, Ont., last week. Notwithstanding the state of the weather and the roughness and tossing they had in Lake St. Clair, which resulted in quite a lot of "seasickness" on board, everyone had a good time. The trip up the beautiful river Thames, and the return journey which was fine and calm, fully made up for the inconvenience experienced during the first part of the trip.

A new water main is being put down on Maple avenue from Fair Ground ave. to Harry Willis' residence, and on Wing street from Nelson Steves' through to South Main street; also in the Blount sub-division. The traction ditch digger that has been used for the digging is a wonderful piece of machinery and has been of great interest to many people. The digger is made in Finley, Ohio, and is run by a gasoline engine. The machine which does the work of nearly fifty men per day is operated by two men, and digs from two and one-half to three and one-half feet per minute.

The Lonesome Pine Co.

Bert Mosher, the producer and owner of many attractions had the good fortune to discover that in Roy La Mar's writings there was good food for him to branch out and pen dramatic production. The result was that Roy La Mar is now considered one of the brightest coming play writers. Mr. La Mar will appear here personally, Sept. 13th, at the opera house, in "The Lonesome Pine," with a well balanced cast including Alice Gordon, Bert Roberts and many others. "The Lonesome Pine" is considered one of the best western dramas, devoid of all the wild west acting that usually goes with such plays, but instead brings out the beautiful side of the life of a happy ranchman, whose heart full of love and tenderness for his neighbors, leaves an everlasting remembrance of what kindness can do when brought to bear at all times.

SPICES

The biggest little thing in our store is our Spice Department.

Q-U-A-L-I-T-Y

Is the only way to spell our Spices. We have a full line of

Golden Sun Spices

The quality is there, due to the class of raw spices and the perfect system of milling. Many women are happy to-day over their pickles, preserves and catsup.

DON'T BUY BULK SPICES,

They are not clean and cannot be kept clean, due to much handling, and they lose strength, being exposed so much to the air. Golden Sun Spices are SEALED AIR TIGHT in wax paper bags, enclosed in pasteboard cartons.

Miss Beulah Parsons has returned to her home in Linwood after a week's visit with friends here.

Mr. and Mrs. Will Hawthorne returned Tuesday from a three weeks' outing at North Lake, near Jackson.

Claude and Ruby Williams spent Monday at Salem with their grandparents, Mr. and Mrs. Walter Holmes.

Miss Verne Rowley has moved from her rooms in Mrs. Lottie Rathburn's house and taken rooms at Geo. Wilcox's.

Mr. and Mrs. Fred Emerson and little daughter Doris of Harrisville, Mich., are visiting Mr. and Mrs. T. T. Ruff this week.

Mrs. H. R. Merrill and daughter Dorothy and Mrs. J. P. Gatfield of Detroit were guests of Mrs. Chas. Draper's last Sunday.

Mrs. Fraser Smith who went to Detroit four weeks ago to visit friends, has been quite ill there with la grippe, but is improving now.

The supper given by the Lady Macabees last week Thursday was very well patronized. A fine supper was served to over fifty people.

The Misses Laura Wiedmaier and Cora Gottschalk, who have been visiting their aunt, Mrs. Willard Cole, of Northville, the past week, returned home Friday.

Miss Jennie Jessop of Omaha, Neb., who has been touring England the past four months, stopped over at this place to visit a few days with her cousin, Mrs. W. Bennett.

Mrs. Harley Johnson died Wednesday morning at her home in Northville after an illness of many months. Mrs. Johnson will be remembered as Rachel Stevens, who was in the millinery business here a few years ago.

The Lonesome Pine.

This attraction as offered by Bert Mosher can be truthfully classed as a city attraction on a par with "The Lion and the Mouse," "The Climax," "The Wolf" and all late successful plays. For a star Mr. Mosher has secured Stanley DeWolf who will be remembered for good work in several productions. Coming Sept. 13th, Plymouth opera house.

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

Brown & Pettingill,

THE WHITE FRONT GROCERY

Telephone No. 40.

Free Delivery

Not how Cheap, but how Good

To tell the truth we don't like the words "cheap groceries." We much prefer to deal in the highest qualities obtainable. Because reduced prices ALWAYS stand for reduced values. It is inevitable.

Business is so regulated that it cannot be any other way. So we talk high qualities month in and month out. And we sell accordingly.

And strange as it may seem it is the truest sort of economy to deal here.

No waste of materials—Constant satisfaction—Most healthful eatables—Those are reasons enough.

We promise you a courteous, pleasing service and the best that money can buy in Groceries to-day, to-morrow and always.

Our EDEN, JAMO and CHEF brands of COFFEES are coffees of QUALITY.

Let us fill your next GROCERY order.

TURKS FEEL THE - PINCH OF WAR -

TURKEY in war times is apparently a cheerful and carefree land, but one has to dive under the surface at times to find an undercurrent like that of the Boeophorus itself. Old globe trotters are well aware that the surface current of the Boeophorus flows merrily from the Black sea down past the Golden Horn and into the Sea of Marmora, while far below there is a counter-current going the other way and carrying the saltier waters of the Mediterranean up to the doors of Costanza and Odessa.

In the city of Constantinople one would suppose that war was unknown. Doubtless the beads that are under a million red fezzes have some inklings of it, but they do not think very hard of it. "You see," said a member of the Young Turk party, "this war is about the unluckiest thing that could have happened to the government. It was only a short time ago, as history is written, since the revolutionists came over from Macedonia and with very little ceremony lifted the sultan out of the chair of his fathers and deposited him in the provincial city of Salonica, where he remains even unto this day.

"They did not let him take even his wives or his beautiful pair of

mouth and handles visitors and intruders with consummate sang froid. A company of gendarmes, very badly drilled and extremely awkward in appearance, lines up at the curb, while an officer walks along and kicks their feet into some sort of position.

Presently there is a clatter of horses' hoofs and three closed carriages roll up from the west. In them are women wearing white veils. There are also some children. These are from the imperial harem.

The horses are unharnessed and led away, and then the carriages are trundled by hand to positions against the curb east of the mosque. This important operation is supervised by the chief eunuch, a coal black Ethiopian over six feet tall, clothed in the black broadcloth of an undertaker, but wearing the inevitable fez.

Meanwhile the minister of war is lounging in front of the mosque entrance and apparently cracking jokes with another brilliantly bedecked officer. At any rate both are laughing, and so are most of the other military dignitaries. In a few minutes these officers are lined up in a diagonal direction from the mosque steps.

The music of a military band is heard coming from the east. Then the sultan's bodyguard, a finely mounted and well set up body of cavalry, comes up in a column of fours. When they pass the sultan's carriage drives

If you ask a Turkish business man, he will tell you at once that the war is ruinous. He will tell you that there is positively no business at all. In the Grand Bazaar the merchants sit cross-legged and smoke cigarettes. They leap at a stranger like so many hungry wolves and almost drag him into their shops.

We left Constantinople at 5 p. m. on Sunday. The regular sailing hour is noon, but the vessels are compelled to start now at an hour which will bring them to the Dardanelles in the early morning. They cannot pass at night on account of the mines. It is at the ancient gateway of the Hellespont that one first realizes that grim war is not far away from Constantinople. The forts are all fully garrisoned and the quiet discipline of military routine is in evidence.

A 24-hour run from Constantinople brings us to Smyrna, the key to Asia Minor, the queen city of Turkey's Asiatic possessions, situated in a place almost ideally planned for attack from the sea. The gulf runs inland 34 miles. It is bounded by bold mountainous headlands. Off its shores lie large islands, Mitylene and Chios, behind which an enemy's fleets can assemble unseen and make sudden descents.

"There is no business at all," said a Smyrna merchant. "It is true that Constantinople has been affected, but it is very little. People continue to go there. But here everything has stopped. Why, you can buy our best rugs at your own price. We can't sell anything. We give things away. What can we do?"

"We don't have the big caravans," said a Smyrna man, "and there is no business for them. The little caravans carry necessities to the places

THE SUMMER QUARTER ON UPPER BOSPHORUS

TURKISH TROOPS

white horses. He is an exile and a prisoner. So they put his brother in his place, and started a new regime.

"Now the new sultan is hardly more than settled in the Yildiz Kiosk when Italy declares war at 24 hours' notice and put up to the young government a most momentous situation. The young government cannot afford to be beaten. It must fight to the bitter end. To be beaten means to be destroyed. The people of Turkey would trample it under foot."

But of all this one cannot find a sign in Constantinople—that is, not on the surface. Every Friday, for example, the sultan goes to a mosque to worship. The brass band from the barracks near by takes up a position just west of the entrance to the mosque. Across the street in front of the military guardhouse: privileged spectators assemble. The officer of the guard, cheerful and smiling, bustles about with a cigarette in his

up—an open carriage, containing a somewhat portly, white bearded man, whose salute to the line of officers is something of the slovenliest. He lumbers out and into the mosque, while the band from the barracks blows as hard as it can and makes a shocking series of discords with the infantry band at the head of the small column of foot soldiers following the sultan's carriage.

At the same time the muezzin pops out of his little hole away up in the minaret and intones the customary summons to the faithful to go to prayer. The faithful, however, remain outside, because no one is allowed to go into the mosque while the sultan is there.

The whole ceremony is carried out in a cheerful and careless way. There appears to be no attempt to make any special parade of good humor. The thing just goes off as it might in the piping times of peace.

not on the railway line. That's all. There is no business in Smyrna any more. I this war does not end we shall all be bankrupt."

Behind Smyrna are many great ravines in the hills. In all of them are the tents of soldiers. Driving along the roads in the mountains one occasionally meets a wagon loaded with wooden boxes. On the top of the boxes, perches a soldier with rifle in hand and filled cartridge belt slung around his body. One realizes that he is passing a load of munitions of war.

But everywhere there is a dead silence. One hears no martial bugles blowing, no jangling of arms, no curt words of command.

Only the squeaking siren of the little brown boat in the mine fields advertises the fact that fear hovers over Smyrna. Yet her business is paralyzed, and in the hollows of her hills are camped 60,000 Turkish troops.

WHAT IS DENATURED ALCOHOL?

Denatured alcohol is also known as industrial alcohol, that is, it is made to be used in the industries, in manufactures and the arts, and in the production of light, heat or power. It was first known in Europe a number of years ago, and came to be very extensively used there. Its manufacture and use in this country are comparatively recent, though its chemical nature has been long known. It can

be made from the fermentation of any substance containing starch or sugar, and as these elements exist throughout the vegetable world, this alcohol can be made from an innumerable number of things. The main reason why the use of industrial alcohol developed slowly in this country was because of the heavy tax on all kinds of alcohol. But in 1906 congress passed a "denatured alcohol

law." This declared that any kind of alcohol might be made free from tax, for any industrial purpose, provided that it was denatured in such a way as to destroy its character as a beverage, and render it unfit for liquid medicinal purposes.—Uncle Remus Home Magazine.

Mutual Satisfaction.
"I understand Doem's marriage to Miss Mix was one of convenience."
"Yes. He couldn't keep a cook, and she couldn't afford a chamber."

ANOTHER INNOVATION

To Be Seen at the Michigan State Fair Will Be Great Farm Tractors.

There will be over forty individual exhibitors in the annual automobile show at the State Fair grounds, the opening show of the fall and winter season. These exhibitors include a great majority of the leading makers of the country. This show taken with the automobile factory to be inaugurated this year in the Industrial Building and employing 300 men, will interest automobile men from all over the country in the fall show. The exhibitors at the show include the United Motors Detroit Co., showing the Maxwell, Columbia, Stoddard Dayton and other lines, the Oakland Motor Car Co., Commerce Motor Truck Co., Century Electric Motor Car Co., Reo Motor Car Co., Elmore Motor Car Co., Abbott Motor Co., Colonial Electric Co., Grant Brothers, Seltz Auto and Transmission Co., R-C-H Corporation, Hudson Motor Car Co., Punctureless Tire Co., The Emergency Wheel Co., Thompson Auto Co., Overland Motor Car Co., Regal Motor Car Co., Cadillac Motor Car Co., Patterson Motor Car Co., Neumann Lane Co. (Chalmers), Warren Motor Car Co., Detroit Electric Co., Essenkay Tire Co., Barber Motor Sales Co. (Briggs-Detroit), Studebaker Corporation, Cole Motor Car Co., Michigan Motor Sales Co., Jackson Automobile Co., International Harvester Co., Cartercar Co., Wahl Motor Sales Co. (Rambler), Jeffrey-De Witt Co., Waverly Electric Co., Rauch Lang Co., Standard Electric Co., and others. A majority of the exhibitors will show 1913 models, adding interest to this show more than ever this year.

Not less than a dozen and probable a score or more firms interested in the manufacturing of tractors will take part in the greatest contest and demonstration ever held in America not barring the great contest at Winnipeg, the Michigan State Fair having added one more to its great list of innovations for the State Fair this year opening Sept. 16, and closing Sept. 21. The demonstrations and contests will be held in the William H. Rice farm which adjoins the Fair grounds and visitors will be given pass-out checks enabling them to return after witnessing the events. The great farm tractors will plow the field, will prepare it for seeding and will do the seeding and every style of tractor known, both those for the small farm and those for the larger farm, will be seen in actual work. This is by far the most important of the score or more new features that have been added to the State Fair of Michigan this year and it is certain to attract the attention of the world at large. That many additional visitors will come to Detroit on this account cannot be denied as hundreds journeyed to far off Winnipeg to witness the only tractor contests known, when these events were held during the spring. At the Winnipeg exhibition a majority of the tractors were crude as compared to the finished products that will be seen at this contest. Most of those in Canada were manufactured in that country, but few exhibitors from the states being on hand. The Michigan State Fair is laying its plans to make the tractor contests an annual feature and for the present year among many others has secured entries of a number of machines from each of the following concerns: The Oliver Chilled Plow Works, South Bend, Ind., the Rock Island Plow Company, Rock Island, Ill., the Unber and Gibbs Plow Co., Canton, O., the Port Huron Engine and Thresher Co., Port Huron, Mich., the International Harvester Co. of America, the Buffalo Piffs Co., Buffalo, N. Y., A. D. Baker Co., Swanton, O., the Huber Manufacturing Co., Marion, O., and many more. The addition to this active demonstration of the utility of firm tractors in connection with the demonstration of good roads building, the working exhibits in the Industrial Building and other live demonstrations, will give the Michigan State Fair the lead easily among the state fairs of the country as a Fair of innovations and a fair that is "So Different."

STATE FAIR ITEMS.

Several millions of dollars will be represented in the various industrial plants that will prove one of the most interesting of the many added features at the Michigan State Fair, Detroit, Sept. 16 to 21, inclusive. The main building has been given over entire to exhibits showing process of manufacturing, and here will be found a complete automobile plant with a million dollars worth of machinery in operation manufacturing cars. An automobile factory will be represented in the actual course of operation. This is an exhibit never before seen at any fair of the country and the Michigan state fair management has again introduced a novelty to make the country set up and take notice. In the same building pianos will be manufactured as will also be piano players. There will be bread making there as well. The manufacture of binding twine, shirts, cloth, clothing and type and steel screws will be among the other prominent exhibits in the process building.

In adding these features the management of the Michigan State Fair added much to the annual exhibit. Still life exhibits, while interesting in the main building, did not attract one-half nor one quarter the interest that will be taken in the manufacturing exhibits.

Canadian Day at the Michigan State Fair, Sept. 16 to 21, inclusive, will be an event in Detroit. The 21st regiment of Canada and the Boy Scouts of Windsor, will parade Thursday, Sept. 19 and at the Fair grounds a number of events will be put on for the visitors from Canada with special fireworks in the evening, including Maple Leaves and the King and Premier in fire. Several big races will be carded including the 2:30 trot for the King George purse, the 3:10 pace for the Ontario purse, and the free-for-all for the Borden purse. The 1:57 trot will be for the Windsor stake.

THE DAIRY INDUSTRY EPITOMIZED.

The National Dairy Show, having arranged for a permanent home in which to forward the Dairy Industry in all of its branches, and recognizing the cow as the foundation of all things Dairy, is undertaking to build an annual Exposition that will not alone prove to be a school for the farmer, but an advocate of the highest type for the more general and varied use of the products of the Dairy. To do this successfully we must first have the attention and interest of the farmer and dairyman; next the support of the many interests allied with and collateral branches of the industry.

With this thought in mind, the management of the National Dairy Show desires to report progress made for the 1912 show to be held in Chicago, October 24 to November 2. We have assurances from the best breeders of the different breeds of cattle that they will be with us, and for purposes of competition we have arranged a very complete classification, and by obtaining the very strongest talent for judges, who will be selected with the sole purpose in view of making a ribbon at this great National Show an article of supreme value, settling the question of show yard supremacy each year after the herds have done battle in the fairs and shows in their respective territories. We will make this show yard the mart for highest type of selection and the place from where all matters of breeding and feeding will be demonstrated as a guide to the old-timer and new beginner. Here is what we will have for you: Judges of National and International repute to pass upon the cattle; a Government exhibit in charge of experts that will display breeds with record of test performance, the kind to own and the kind not to own; the test of feeds for results; the proper and improper methods of handling the products and marketing of same; civic sanitary and hygienic requirements will be illustrated and explained by experts of National prominence. We have prepared a splendid premium list for Dairy Products which will bring out a strong lot of contestants with milk and cream exhibits for honors; butter and cheese makers will enter their products for supremacy and everything that can be developed for the benefit of the visitors in direct connection with the cow will be shown.

The Borden Milk people, at an enormous expense, will give daily demonstrations of the pasteurizing, cooling, bottling and distributing of milk. They will erect in the show a plant equal in size to that used in a city branch. This must be helpful in allaying all agitation of the pure milk question for the city consumption. The Blue Valley Creamery will erect a plant in the show capable of making a ten of butter each day, showing the pasteurizing process and the cleanly, sanitary methods of a creamery. The Consumers Company will manufacture ice cream in a glass machine in full view of the visitors, showing the thoroughly healthful and sanitary manufacture of this now extensively used condiment. Demonstrators from domestic science schools and colleges will give exhibitions and distribute recipes covering the more general use of milk as a food. The Universal Cement Company will erect an educational exhibit of large proportions, so that methods of preparation and care of ensilage, as well as the construction of silos, may be thoroughly discussed and understood. There will be exhibits from the many machinery houses, who will actively display and explain every new and modern device to their better understanding, and, in fact, the ten-day period of the show will have crowded into it more of real value for the dairy industry than any other show ever before held for such a purpose. The man engaged in producing dairy products and the consumer will get immeasurable benefit by an attendance upon this entire detail working of all that pertains to dairying under one roof.

Some girls are given away in marriage, and some throw themselves away.

A CURE FOR PILES.
Cole's Carboline stops itching and pain and cures piles. All druggists. 25 and 50c.

SAN JOSE SCALE DOES IMMENSE HARM TO MANY PROFITABLE ORCHARD TREES

Usually Farmer or Fruit Grower Does Not Discern Trouble Until Too Late to Employ Ordinary and Practicable Methods of Eradication.

Infested twig to right; immature scales in center; full grown female scale above; infested pear fruit to left, showing reddish blotches.

(By FRANKLIN SHERMAN, JR., Entomologist, North Carolina Department of Agriculture.)

The San Jose scale does great harm to orchard trees which become infested, unless they be thoroughly and persistently treated. In order to combat it to the best advantage some knowledge of its life-history, habits, means of spread, etc., is necessary.

Trees that are badly infested with the San Jose scale appear as if they had been dusted over with ashes. If the branches and twigs where the insects are numerous be scraped with a knife it will be seen that this unnatural covering is quite easily removed, coming off in little flaky patches. Each of the little circular gray objects is a separate scale, each covering a tiny yellow insect underneath. On thickly infested branches they often become so crowded that the scales are piled over one another so that the real bark of the tree is not visible at all. Branches and twigs which are only slightly or moderately infested will not be thus completely covered over, and the bark may be of its ordinary color and appearance except here and there along the branches where the scattering scales are found. The largest full-grown scales are about the size of an average pinhead. They can, therefore, be detected by any person who has in the beginning an intelligent idea of the insect, has sharp eyes, and who happens to look in the right place.

Usually the farmer or fruit grower does not know that there is any serious trouble until the trees begin to die. By that time they are covered by the scales and present the ashy appearance. Then, if the owner finds that his trouble is San Jose scale, he is apt to think that it is only on those trees that present the unnatural appearance, when in reality it may already be on every tree in the orchard. Such a mistake often costs the lives of many trees, since the owner, instead of examining closely and treating every infested tree, as he should do, simply takes out those which are already in dying condition, and then, because he sees no more of similar appearance, he imagines he has exterminated it, when as a matter of fact other trees moderately or slightly infested still stand in the orchard and soon begin to die, having in the meantime spread the insect into still other trees, and so on, until the whole orchard may be ruined.

Where the scales are not numerous enough to crowd one another each individual grows to somewhat larger size than when they are crowded.

The San Jose Scale.

The full-grown female insects always remain under their circular scales and there give birth to their

living young, for this species does not lay eggs as is the case with most insects. The males, on the other hand, finally develop into tiny two-winged fly-like insects, but in consequence of their sex they can not play much part in spreading the insect, as young can only be born where females are present, and these, as we have stated, remain attached to the twigs.

The insect was not discovered in the eastern United States until August, 1893. At that time it was found in Charlottesville, Va. It was soon found that the infested trees were purchased from nurseries which had been introducing stock from California. Then fruitgrowers and entomologists began to inspect orchards especially for this pest, and in 1897, five years after its discovery in Virginia, it was known to exist in twenty states east of the Mississippi river.

One thorough spraying (or washing) each year with proper remedies, will keep the San Jose scale in good control. This is amply proven by the experience of hundreds of our fruitgrowers and farmers every year. It is best to give the treatment in late winter, before the buds have opened (February or early March), but any time after the leaves are shed in fall and before the buds open in spring will do. Spraying with a regular spray pump is by far the best method. For this treatment the great majority of growers depend on lime-sulphur wash (either commercial or the home-made), or soluble oil (of which there are several brands). Although the weight of opinion is in favor of late winter as the one best time to spray for scale, yet a few people prefer fall spraying, and some even spray both in fall and late winter, though we do not think this is necessary as a regular practice. Fall spraying is done after all fruit has been gathered, when the leaves have begun to drop, or soon after they have dropped. For fall spraying we believe there are special advantages in using the soluble oils, as they will penetrate more of the small crevices and reach a larger percentage of the small young scales which pass the winter. On the other hand the lime-sulphur solutions leave a coating on the branches so that when they are applied in late winter this coating acts as a considerable protection to the trees during spring and early summer. So, if one wants to come as near as possible to exterminating the scale—we believe that the best plan would be to use soluble oil in fall and lime-sulphur in late winter. But we want to emphasize the fact that the insects are so small that absolute extermination is impracticable (if not absolutely impossible), and even at the best we must expect, and plan, to treat infested trees once each year.

SEEDS FOR SPRING CROPS SOWN IN FALL

Ground Should Be Deep and Mellow, With Moist Soil, Until Plants Are Rooted.

Seeds for the spring crops are sown in September, from the fifteenth to the twentieth, for the first sowing, and the first week in October for the late sowing, says the Baltimore American. Have the ground deep and mellow. Sow one quart of woad ashes and one quart of bone flour over each six-foot square bed and rake it in, then sow the seed and cover lightly with fine earth. Keep the soil moist until plants are well rooted. The object is to get good, strong, young plants, with plenty of fibrous roots. These plants are set out in ridges the last week in October or in the cold frames. The plants are set deep on the north side of ridge of earth. Where the winter temperature is not below zero for more than a day or so during the winter, the plants, if well grown, can be set out in the open ground. A slight covering of brush

or long, strawy manure, spread quite thin over the rows the latter part of December will give all the protection required. In the western counties of the state the plants should be set in the cold frames about two inches apart each way and protected by glass and straw mats during severe weather. Plenty of air must be given even in cold weather to keep the plants tough. Cabbage and black-seeded lettuce should be sown this month for the late winter and early spring markets. Plant shallots for early spring greens this month; plant the bulbs in good soil in rows one foot apart, the bulbs being six inches apart. In favor they are stronger than onions; they are largely used for eating green and flavoring soups.

Training Colts.

Of two colts similar in disposition and sense, one may develop into a steady and valuable family horse, while the other may be everything that is vicious, treacherous and unsafe—all because of the difference in the men handling them.

Naval Disease.

Many colts die of naval disease contracted at foaling time. Tie the cord tightly with silk string and cut away the portion below the tie. Wet the rest for a few days with disinfectant.

Potato Culture

By H. J. EUSTACE, Professor of Horticulture, Michigan Agricultural College.

The Soil and Its Preparation.
A well drained sandy loam is ideal for potatoes. Such a soil should, if possible, be included in a regular rotation and the potato crop follow a clover sod which should be turned under in the fall, or early in the spring. When fall plowed, the sod will partly decay by spring and there will be an opportunity to work the soil several times with both disk and harrow before planting, which is very important. It has been demonstrated many times that much better crops can be produced upon a soil that has had extra working than when it has not been given.

Always avoid low fields where the frost may destroy the plants early in the fall before the growth has been completed.

The Seed.

Whole tubers about the size of a hen's egg are very satisfactory for seed, especially so in a dry season. If such seed is not available use cut pieces about the size of a hen's egg and have at least two good eyes on every piece. Larger seed pieces may give a large yield but not enough to pay for the extra amount of seed required, especially if it is expensive.

If any of the seed is "scabby" even to a very slight degree, it should be treated by soaking for two hours in a solution made up in the proportions of one pint of formalin to thirty gallons water. Formalin can be procured from any druggist. Do this shortly before planting and before the seed is cut. Do not put the treated seed back into crates or bags that held the tubers before treatment, unless the crates are washed and the bags soaked in the solution. The scab disease may live in the soil for some years, so do not plant upon land that recently grew scabby potatoes or beets if it can be avoided.

Fertilizers.

The best fertilizer for the potato crop is undoubtedly stable manure spread upon a clover sod before plowing in the fall. If spring plowed, spread the manure on during the winter or early spring. The plowed-under clover will in itself make a good fertilizer.

If it is desired to use a chemical fertilizer, our experiments made during the past few years indicate that a "home mixed" fertilizer containing 4 per cent nitrogen, 7 per cent phosphoric acid, and 10.8 per cent potash used at the rate of 500 pounds per acre is the most satisfactory. A ton of this fertilizer is made by mixing:

- 193 pounds nitrate of soda containing 15.5 per cent nitrogen.
- 357 pounds dried blood containing 14 per cent nitrogen.
- 1000 pounds phosphoric acid containing 14 per cent nitrogen.
- 450 pounds sulphate of potash containing 48 per cent nitrogen.

2,000 pounds "home mixed" potato fertilizer.

It should not be overlooked that the value of a chemical fertilizer depends largely upon the physical condition of the soil, the moisture content as well as proper drainage and cultivation. Even very heavy applications of fertilizers will not make up for the lack of any of these conditions nor will the use of any kind of chemical fertilizer take the place of the humus or decayed matter in the soil.

Planting.

When the planting is done by hand, furrows may be opened with team and one horse plow and if any chemical fertilizer is to be used it can be spread in the furrow by hand. On light or loose soils it is desirable to plant the seed about four to six inches deep. If shallow planted some of the potatoes will become exposed and sun burn. The seed pieces are dropped the distance desired, covered with a hoe, and the whole field smoothed over with a harrow.

It would be profitable to use machine planters upon large acreages (over ten acres) and with these a fertilizer attachment is often used to distribute the fertilizer. If the planter is not equipped with such an attachment the fertilizer may be drilled in with an ordinary drill before the field is planted, or can be spread by hand.

The distance for planting depends upon the fertility of the soil, but rows three feet apart and from 18 to 24 inches in the row has given good results on an average soil. With intensive cultivation and a rich soil, they may be planted as close as one foot to the rows.

Cultivation.

Frequent cultivation will greatly help to produce a good crop and keep the field free from weeds. A spike tooth harrow is usually used once or twice before the plants come up and again just as they appear. A weeder is often used, at this time and about once a week afterward until the plants are several inches high. During this time it may be advisable to go over the field once or twice with a cultivator. After the plants are five or six inches high cultivate about once a week or every ten days until there is danger of injury to the vines.

Spraying.

Potato plants are sprayed with bordeaux mixture (8 pounds of copper sulphate, 5 pounds of stone lime and 50 gallons of water) to protect them from blight and rot (Phytophthora infestans) and with poison (½ pound of paris green or 2 or 3 pounds of arsenate of lead added to the bordeaux) to kill bugs. The blight and rot are not present every season in Michigan,

but in tests made at the college during several recent seasons, it has paid to spray the plants when blight has not been present. The application of bordeaux mixture in some way stimulates the plant and it grows longer in the fall, is freer from sun scald, tip burn and other troubles. Begin spraying when the plants are six or eight inches high or when the first spraying for "bugs" has to be made and repeat the treatment about every two weeks so that the new growth will be covered with the bordeaux mixture. If the weather is "muggy," conditions under which blight flourishes, spray oftener. Four or five sprayings will usually be sufficient and they can be made for 80 cents to \$1.00 per acre for each spraying, all expenses of material and labor included.

Winter Vetch for a Cover Crop in Michigan Orchards.

By H. J. EUSTACE, Horticulturist, Michigan Agricultural College.

Most of the successful orchards in Michigan are plowed in the spring and cultivated until mid-summer. This season is the natural one for trees to make a growth of new wood and the plowing and cultivating make the plant food in the soil available and stimulate the growth. After the cultivation ceases, the new growth will ripen, become hard and in a condition to pass through the average winter without injury, which it could not do if growth continued late in the fall.

At the last cultivation, it is desirable to sow something that will make a "cover crop" on the land during the fall, winter, and early part of the spring. If nothing is sown, weeds will make a "cover," but they will not make a uniform growth nor will they result in any benefit to the land and they may become a serious annoyance.

Many desirable features will result from having a cover crop in an orchard or vineyard, some of the more important ones are:

1. Their growth helps to check the tree growth and ripen the new wood.
2. A cover of vegetable growth over the soil, supplemented by the root system will prevent, to a very large extent, the washing of the valuable top soil by the heavy fall and spring rains. This feature is especially valuable on knolls and hillsides.
3. A cover crop will catch and hold the leaves as they fall from the trees. They contain some fertility and afford some protection.
4. The cover crop itself will make a blanket over the soil and by holding the snow from blowing away, this feature will be more effective, as it will largely prevent deep and severe freezing of the roots and the alternate freezing and thawing, all of which causes serious losses in many Michigan orchards, especially those located upon the lighter and more porous soils.

One of the most valuable results from the use of cover crops is that they add humus and plant food to the soil. Certain plants commonly used for cover crops as clover, vetches, peas and beans, possess the power of gathering nitrogen from the air, storing it in the plants and later it becomes available in the soil.

Some of the advantages of the cover crop that might be mentioned are: That they encourage the deep rooting of trees; they make the fall and spring operations in the orchard more comfortable and they improve the physical condition of the soil.

A plant suitable for an orchard or vineyard "cover crop" must meet some unusual demands. It must make at least a fair growth during late summer and fall; it must be able to stand the tramping necessary at picking time; it must be able to withstand a possible drought; in most cases in Michigan, it must live over winter and grow vigorously in the spring; it must be hardy and it should have the power to gather nitrogen from the air and hold it in the roots.

The experiment station has been carrying on tests in orchards and vineyards in different parts of the state to determine the best plant for a cover crop under Michigan conditions. At this time, winter vetch (*Vicia villosa*) promises to be especially valuable for this purpose. The plant is sometimes called Hairy or Sand Vetch. It was imported from Europe many years ago and has long been used in the southern states especially as a forage crop. An appreciation of its value for orchard cover crop purposes is comparatively recent.

When sown as late as the middle of August, it makes a fair growth before winter, it will stand tramping well; it is not difficult to get started; it is hardy and will withstand the possible drought of fall and cold of winter; it grows vigorously, in the early spring; it adds a large amount of nitrogen to the soil; it will succeed on a variety of soils and especially on sandy soil.

For cover crop purposes in Michigan, the seed should be sown during July or early August, usually at the time of the last harrowing.

If the seed is sown broadcast about 25 to 30 pounds to the acre is required and it should be harrowed in. Good results have been secured by drilling 18 pounds of seed per acre.

A quick growth or "catch crop" can be secured by sowing a bushel of oats or rye with the vetch. Since the vetch does not make a large growth in the fall, this combination is often desirable.

There will not be any difficulty in turning under the vetch if the orchards are plowed at the proper time in the spring. When the growth is extra large, a chain or rolling cultivator may have to be used on the plow,

A Picture of Contentment

All men look pleased when they smoke this choice tobacco—for all men like the rich quality and true, natural flavor of

Liggett & Myers

Duke's Mixture

Smoked in pipes by thousands of men—everywhere known to cigarette smokers as "the making."

We take unusual pride in Liggett & Myers Duke's Mixture. It is our leading brand of granulated tobacco—and every sack we make is a challenge to all other tobacco manufacturers. Every 5c sack of this famous tobacco contains one and a half ounces of choice granulated tobacco, in every way equal to the best you can buy at any price, and with each sack you get a book of cigarette papers FREE.

If you have not smoked the Duke's Mixture made by the Liggett & Myers Tobacco Co. at Durham, N. C., try it now.

Get a Camera with the Coupons

Save the coupons. With them you can get all sorts of valuable presents—articles suitable for young and old; men, women, boys and girls. You'll be delighted to see what you can get free without one cent of cost to you. Get our new illustrated catalog. As a special offer, we will send it free during September and October only. Your name and address on a postal will bring it to you.

Coupons from Duke's Mixture may be exchanged with tabs from HORSE SHOE, J. I. TINSLEY'S NATURAL LEAF, GRAN-CER TWIST, coupons from FOUR ROSES (10¢), THE CIGARETTE, PICK-PLUG CUT, WEDDING CIGARETTES, CLIX CIGARETTES, and other tags or coupons issued by us.
