SPOONING A FINE ART. Spooning by which is meant that form of affection described by the sage Noah Webster sa "acting with dem-phstrative or foolish fondness." has been placed upon a solid and respon sible basis in the Lynn high school. Books on etiquette for the young usu ally deprecate spooning, or omit to mention it at all, but in this high school boys and girls who desire to spoon have merely to get a permit from their parents. To be more explicit the principal of the school observing some mushy scenes in the cor-ridors of the building, recently announced that public lovemaking must stop; but he added that pupils desiring to spoon must bring a written per from their parents. Spooning thus is reduced to a practical working basis, says the Boston Globe. If you produce the parental permit, presumably you may spoon. So girls who ning, and evidently there are e in Lynn who do, must produce their permit or go unloved. "Mam ma, you haven't made me out a spoot "Mam ing permit yet," may be heard in the homes of Mary, Margaret and Estelle, while in another part of the city, Paul, Henry and Oswald are saying, "Pa just sign this spooning permit, before you go downtown." When the permits are issued and have been O. K.'d by the principal, there will be an opportunity for organized labor to establish Spooners' Union No. 1 in Lynn.

Every other nation except Great Britain that has opera at all has it in its native tongue. France, Spain. Italy, Germany and even Russia have the masterpleces of music sung in words intelligible to the people that hear them. Only we that speak English are content to listen to songs we do not understand and to follow emotions that might as well be rendered in pantomime. The assertion that English is not a singing language was born either of ignorance or of impu-dence, says the New York World. Our language contains some of the most beautiful songs in the world, and some of the greatest of singers have delight ed to render them. Any opera singer could surely learn to sing English as easily as Russian.

The first case of stealing an aero plane occurred the other day at the Puchem aerodrome at Munich. When the pilot, Belat, arrived in the mornfound that some one had broken into his hangar and that the monoplane was missing. On inquiry he found that several persons in the neighborhood had heard the noise motor about 2 o'clock in the morning. Apparently some enterprising pilot had flown away with the machine. In the suburbs of Munich policemen were kept busy scanning the horizon in search of the flyer. Ur to the present the machine has not been recovered.

March 15 for Extra Session.

As the result of the conferences be tween President-elect Wilson and dem ocratic leaders in congress during the holidays, these features of the demo cratic legislative program have been tentatively agreed upon:

Congress will be called in extraor dinary session March 15 to revise the tariff. A complete scheme of tariff revision will be laid before a caucus of the democratic members of the new house early next March by the democratic members of the ways and means committee.

This will include an income tax if the constitutional amendment on this subject has been ratified by threeourths of the states, and an excise tax if it has not. It will also include the administrative features of the new law embracing a substitute or the present maximum and minimum clause. Any changes in the internal revenue taxes made necessar by reductions in the customs tariff also will be laid before the caucus.

The democratic caucus will decide whether the schedules will be reported and passed by the house separately or as one bill.

The decision settles the important question that a "corner" of any commodity is a restraint of interstate commerce and may be a violation of the Sherman auti-trust law.

The decision does not determine the question of the guilt of Patten or the other defendants, but sends the case back to the lower court for trial on the facts with the important principle of law established that if a corner in cotton is proved, the Sherman statute is violated.

Supreme court narrowed down to the validity of the third and seventh counts

The lower court held that such a corner did not produce effects direct enough no interests comfects direct enough on interstate com merce to bring it within the Sherman anti-trust law

Justice Vandevanter, in announcing the opinion, said the Supreme court at this time, under the law, was not authorized to review the lower court's construction or interpretation of the indictment as such, but only the lower court's interpretation of the statute. CHAPTER V.

Eleven o'clock on a moonlight night in Tuly is a bewitching time to sit alone on a balcony and dream, and if the dream be staged at Squirrel Inn, where the scent of perennial stock and the rich, salubrious tang of the hamlocks waft up to meet the nostrils, if it be in the midst of towering trees with a lake lullaby chanting and crooning on the beach and if the spirit of wanderlust is abroad to charm and inspire, ah, then the time and place and the girl are in harmony

Any married woman will bear m I eav that if there is any thing a man dislikes it is to go shopping. When Mabel Arney, the Tuesday girl, apprised Bedight that she desired his protection on an expedition to Lakeville, he was ungracious him to do as directed—and, besides, there was double reason why he should not go to Lakeville. STEAMER RAMMED; FOURTEEN DROWN

THE JULIA LUCKENBACH PRAC TICALLY SPLIT IN TWO IN CHESAPEAKE BAY; FOUR-TEEN SAVED.

BRITISH STEAMER INDRAKULA WAS GOING FAST DURING FOG.

The Indrakula, With a Big Hole is Her Side, Headed for the Beach and Grounded in Time to Save

Her Crew.

After being rammed by the British steamer Indrakula off Tangier bar in the Chosapeake bay, the tramp steamship Julia Luckenbach was practically split in twain and foundered

Though within easy wireless reach of 10 steamers, 14 lives were lost after a desperate battle with the seas. Among the drowned are Captain H. A.

Gilbert and Mrs. Gilbert.
Captain Gilbert and Mrs. Gilbert ived at Raspeburg, near Baltimore Nineteen of the crew, were lost. Eight were saved by the steamer l'ennsylvania, and six others were rescued by the Indrakula according to a wireless message received at Newport News from the revenue cutter Apache, which went to the Indrakula's assistance.

First Officer Hunt, half crazed by his terrible fight for life, and by the remembrance of the tragedy through which he had passed, at first said that 22 persons had gone down with the ship, but subsequently it was learned that only 28 in all were on board the Luckenbach including the crippied wife of Captain Gilbert

The Luckenbach sank five minutes after the Indrakula, coming out of the fog, dealt her a death blow.

Only those on the top deck had time to escape. First Officer Frederick Hunt and seven members of the crey climbed into the rigging and huns there for six hours in the terrible cold until the Danish liner Pennsylvania rescued them. The others, caught below decks, died without knowing what had happened

The Indrakula, with a big hole in side, backed away from the sinking ship and headed for the beach. She was groupded in time for all of

her crew to be saved.

The Luckenbach reached the capes late Thursday. She ran into the gale blowing but was able to make the passage into the Chesapeake bay. She passage into the Chesapeake bay. She was slowly working her way up the bay when the Indrakula, driven at a high rate of speed by the gale, bore down on the Luckenbach and the col-

Increasing anxiety is felt by pavy department officials for the safety of the supply ship Panther and the naval tug Sonoma, as the hours pass and the long arm of the wireless is unable to locate the missing vessel, which left Brooklyn navy yard last Thursday for

Guantanamo.
Secretary of the Navy Meyer, on being informed that no word has been received from the Panther, ordered the entire Atlantic fleet, now on its way to Guantanamo, to watch for missing vessels and added that if the squadron does not report on its ar-rival at Guantanamo he will send every vessel available to search for the ships. The Panther and Soroma, the former carrying 120 and the latter 30 men, left the Brooklyn navy yard just previous to the beginning of the terrible storm which swept the Atlantic last Thursday night and all day Friday.

Food prepared from cereal grains supports life and strength better than any other single food product. Wheat bread is the universal food of civilization because the gluten in it furnishes the greatest amount of digestible nutrients.

Ariston Flour is made from Red Turkey Wheat. That means gluten superior in quality and quantity. No imperfect or unsound grain—just the single, hard, ripe, wholesome berry. This makes Ariston a strong, rich, water-absorbing flour. It yields bread of wonderfully better flavor, better crust, better texture. It makes the loaf that keep fresh and palatable longest—the one that actually reaches the highest point of food efficiency.

council held Monday evening evening January 6th, the following res roll call: Prezident Hillmer, truste Caster, Lapham, Jones, Hall and Curtiss Phore was quite an number of our citasens present to advise with the council concerning the purchase of an auto fire truck. The question was discussed proand con, but no final action was taken by the council on account of opinions of citizens present. The trus-tee thought it the wisest course, to invite one of the officials prominently identified with the fire department of Detroit, to come out and look over our resources and advise us as to the best course to take to better our fire pro-

tection.

The question of protecting the village from loss on electric light bills by ten nants skipping out discussed, and a motion was lost, that provided that a tennant desiring to use electric lights shall make application which shall have the guarantee of the owner of the property Bills totaling \$1,262.17 were allowed and ordered paid. A resolution to build a sewer on Union street receiv-ed its third reading and was adopted. A motion was carried that all pool day and the marshal be instructed to rigidly enforce the ordinance. The council voted to borrow \$2,000 for six months to tide the village over until the tax money for 1913 begins coming in. F. D. Schrader of the cemetery commitee urged the council to formulate some plan to assess lot owners annually a small fund to assist in keeping River-Of course if such a thing were done it would be optional with each lot owner as to whether he wished to care for his own lot or pay a small sum to have it done. At the present time 684 lots have beer sold in the cemetery. The council referred the matter to the proper com mittee to report at the next meeting Council adjourned to February 3.

It is perfectly apparent that here ate action, and that this action should ate action, and that this action should bring about the vigilant protection for all time, and in all parts of the courtry, of all insectivorous birds. Many of the most useful of these birds are ahready on the toboggansilde toward extermination, as the result of stupid state legislation, or the lax enforcement of such laws as have been assacted. Yet this bird is murdered literally by the thou-sands for pothes by necross and bird is murdered literally by the thou-sands for pot-pies by negroes and poor whites in the southern states above mentioned, and is more or less hunted in other states. Mr. E. A. "Every negro man and boy who can raise a gun is after them," says Mr. McIlhenny. Although this bird causes some loss

Although this bird causes some loss to small fruit growers, it certainly does vastly more good than harm. It is constantly at work on lawns and fields hunting for destructive insects, which it is exceedingly difficult to keep in control. It devours many caterpillars, including hairy species, which infest the orchard, woodland and shade trees. Forty per cent, of its food is insects, and 43 per cent. wild fruit. It would pay the farmer well to go some expense in order to keep the robins away from his fruit trees and berry bushes rather thar shoot these birds which are so useful to him in many ways. bor and a very useful one, for it is remarkably swift and graceful on the wing, and is expert and persistent in catching rose beetles, May beetles, cucumber beetles, mosquitoes, house files and files that trouble horses and cattle. One observer records that 32 parent martins made 3,275 visits to their young in one Jay, each visit meaning, probably, anywhere from one to half a dozen insects.

The nighthawk (also called "bull-bat") ir probably one of the most unseful of birds. It feeds exclusively on insects, and ranks next to the golden-winged woodpecker (flicker) as a feathered destroyer of ants, which it takes when they are in the winged stage. Potato beetles, cucumber beetles, leaf hoppers, bugs of various kinds and enormous quantities of gnate and

It is also feeds freely upon beetles, grasshoppers, crickets, caterpillars, and other harmful insects, as well as on weed seds. Yet it is rapidly growing rare because it is much hunted for food. It should be protected everywhere and at all times.

In view of the decrease already ac-complished in the general volume of bird life in America, in view of the enormous losses annually inflicted upenormous losses annually inflicted upon the people of this country by the ravages of insects, and in view of the destruction of wild life which is now turiously proceeding throughout America, the McLean bill, which is now before congress, to provide for the federal protection of all migratory birds, becomes the most important wild life measure that ever came before that body. In view of the annual economic loss that will continue as long as a federal migratory bird bill fails to pass, it is impossible for anyone to put forthrone good reason—unless it be on pass, it is impossible for anyone to put forth-one good reason—unless it be on purely technical grounds—against that measure. The Weeks bill, before the lower house of congress, is precisely like the McLean bill, and it matters not which one passes first.

Unless the people of this country wish to shut their eyes to their own interests, and pay out millions of dol-lars annually in the form of increased lars annually in the form of increased cost of living due to the losses caused by insect pests which would be destroyed by the birds, they should demand that a foderal migratory bird bill be at once enacted into a law. It is Senate Bill No. 6497, and on the senate calendar it is No. 600. We cannot afford to wait until 1914 or 1915, and congress has full power to act this winter.

Royal princesses are considered inferior to the mother of the sultan, who is the real queen of the little world of the harem, has absolute authority, a large staff of officials and the supreme title of "Valide sultan." Thus it happens that a woman of slave birth may, if she be the mother of an heir to the throne, eventually become the highest woman of the land.

Every royal princess has her daira, or separate apartmosts, slaves, servants and so on, the management of the household being given over to her kalfas, or ladies in waiting—that is to say. Turkish women of good birth who have remained unmarried.

Royal princesses rarely take a husband of their own rank. They are

NEWS FROM THE

THE SENATE DEMOCRATS WILL NOT PUSH THROUGH ANY PARTISAN MEASURES.

THE HOUSE REFUSES RECOUNT TO CONTESTANTS FOR SEAT.

The Governor Does Not Believe In Prize Fights-Bills, Election of U. S. Senator and other Matters of interest.

(By Gurd M. Hayes.)

Lansing, Mich., Jan. 5. It is not the Intention of the democrats, just because of the fact that they have a governor in the executive office, to get cocky and endeaver to push through any partisan measures. least this is the declaration made by Senator James H. Murtha, chairman of the senate committee on executive business and democratic floor leader

in the upper house.
"Because we are fortunate enough to have a governor just across the said Murtha. for everything in the democratic plat-form and in this we are not going to confine ourselves to bills introduced stand for every let me say that in spite of the fact that I do not and never have believed in the initiative and referendum and in spite of the fact that there is a total absense of senitment for this so called progressive Measure among my constituents—will vote and work for it as it is in our platform.".

Election of U. S. Senator.

Apparently the lieutenants of United States Senator William Alden Smith, are satisfied that he will have the required number of votes on the joint ballot January 14. State salt inspector John Baird, who has been looking after the senator's interests, has left for his home and Alfred Lucking's supporters have withdrawn from the scene of action.

House Refuses Recount.

der cover of a plea for ecconomy the house has refused to conduct any recounts or give any of the defeated candidates a chance to contest the seats of the members who have been admitted to the legislature. This is the first time in the history of the state that the house has refused to conduct recounts and the members who voted for Rep. Farmer's resolu-tion are coming in for considerable criticism. The matter has stirred up considerable feeling and indicates that the house will be as noisy and belligerent as last session. Recresentative Taylor of Kent, Burke of Wayne Taylor of Kent, Burke of Wayne, Neller of Lansing, McNitt of Wexford and Weidenfelier of Van Buren and McBride of Holland, all of whom were confronted with contests, voted with

Rep. Farmer to prevent recounts.

Reduce force of Employes. In the interests of economy Lieut Governor Ross plans to cut down the working force of the senate and thus limit expenses. The plan of the pre siding officer of the senate is based upon the proposal to combine committee clerks and stenographers. Ross says six appointments may be saved in this manner. Clerks and messengers will be cut down at every possible point and the total employes of the senate will be reduced to less than 40. There were 54 last session and more than 70 four years ago.

The Introduction of Bills. It is evident that there are few standpatters in the house and senate his year. Hardly had the cheers which followed Governor Ferris' this year. message died away, when republicans members of the Legislature poured in a mass of bills covering practically every progressive measure advocated. Senator Fred L. Woodworth of Huron introduced a bill providing for the ment to give the people of the state the initiative and referendum. Sena-tor O'Dell of Oceans came through with two dairy and food department measures, one of which calls for the registration with the dairy and food department of all cheese factories, milk condensaries and creameries.

Banking Bills.

Senator Rosenkrans of Shiawassee introduced a batch of banking law

amendment bills. The most important of these calls for the examination and O. K. by the banking department of banks which desire to liquidate for the purpose of consolidation. Senator Amberson introduced a bill providing that every man to be admitted to law practise, must first take the examination, regardless of the fact that he had graduated from the University of Michigan or a recognized law school.

Revise Election Law.

Michigan's entire list of election aws is to be revised by the present legislature. The progressive elemnt among the republicans in the state senate took up the matter of a revi-sion of the primary and decided that not only the primary, but the general election law too, should be completely

Senator James called the elections committee together for a considera-tion of the election law questions and it was voted to draw up bills for primary and election law revision which should be submitted to the following the ten day recess. be known as the elections committee bill and will not bear the name of any individual member. The committee is unanimous on this score and all of the senators will take a hand in making it the most progressive and workable bill possible.

Opposes Prize Fighting.

"I do not favor the licensing of anything that is a compromise between hall who is of our political faith, the anything that is a compromise between democratic members of the senate are not going to try to alip anything over", said Gov. Ferris when the proposal for We are going to stand a state boxing commission was sub-"I ampopposed to prize fighting; unutterably opposed to it. I stand for every clean manly sport and by democratic members. Governor for all real athletics. But prize figurers made a plea for party loyalty and harmony and good government. That is to be the plan for us in the senate. Just to show you how determined I am to carry out this plan let me say that in apite of the fact that he worked out at levels when you are attempting more than can be worked out at levels. by political or governmental regula tion. I believe in boxing as a gymnas um sport but boxing such as men their money to see is not of this character".

The Governor's Appointments.

James W. Helme's appointment as dairy and food commissioner has been confirmed by the senate, and Helme will assume charge of the office January 15. In sending to the senate for confirmation recess appointments Governor ex-governor Osborn, Ferris said he was treating his predecessor as he hoped to be treated at the end of his term. Practically all of Osborn's recess appointments are republicans and the action of Governor Ferris shows conclusively that he intends to pick men who will serve the best interests of the state regard less of their political affiliations.
Following is the list of recess appointments:

Nelson C. Rice, St. Joe, pardon

Morgan W. Joplin, Marquette, state board corrections and charities. Edward Frensdorf, Hudson, of control etate prison at Jackso

Efforts to bring about a fusion of progressives, democrats and republic ans who opposed the election of Rep. Gilbert M. Currie, of Midland, as speaker of the house, in an effort to nake Ran. Noble Ashley, of Detroit presiding officer, did not materialize and when the roll was called Currie received all of the 54 republican otes. The democrats turned their 34 otes over to Rep. Farmer, of Livingston county, while Rep. McBride, of shiswassee, received the votes of the 12 progressives in the lower house.

Geography of Liquor.

Mayor Gaynor, discussing city government in his wonted illuminating and brilliant way, said in New York:
