Home Coming Meeting Was Postponed Until Tuesday Evening, April 1

Owing to the inclemency of the weather Tuesday evening, there were only about fifty people out to the mass meeting held at the opera house for the purpose of completing arrangements to hold a home coming celebration in Plymouth the coming summer, and it was decided to postpone the meeting until Tuesday evening, April 1st, at which time it is hoped that there will be a large attendance of our citizens. The ladies are especially invited to come, as their assistance will be needed to make a successful home coming. The people of the township are also cordially invited to attend this meeting. At a meeting of the temporary executive committee held last Friday evening it was decided that the best plan to adopt was to form an association to be known as the Plymouth Home Coming Association, the membership fee to be 50c. for each person desiring to become a member. This plan has been adopted by other towns where home comings have been held and it has been found to be one of the best and most successful methods to raise funds to help defray the expenses

of a celebration. Many plans for entertaining the big crowds that are sure to be here were discussed, and it is safe to say that there will be something doing every minute if only half the plans are carried out.

The matter of selecting a date for the celebration was discussed at some length and it was finally decided that July 31, Aug. 1, 2 and 3 would be most preferable.

Those who have attended the two meetings that have been held have been very enthusiastic over the matter and are ready to do all they can to boost the thing along. There is none too much time now to solicit memberships, obtain the names and addresses of all former residents and send them an invitation, and if we are to have the big celebration, work must commence just as soon as possible. Every citizen should be interested in this matter and feel that he has a part in it. Now don't forget that there will be another meeting next Tuesday evening at the opera house at 7:30 o'clock and make your plans now to attend.

Wind Does Heavy Damage

H. J. Fisher's Blacksmith Shop was Blown Down and Much Other Damage Done.

One of the worst wind storms that has prevailed in this section of the state in years raged here last Friday, and it was a day long to be remembered by everyone. During the early forenoon the wind gradually increased until about 10 o'clock when everything that was not securely fastened down began to move. The greatest damage done in this village occurred at the blacksmith shop of Henry Fisher in north village. It was about 10:30 that the roof on the two story brick structure was torn loose and lifted clear from the building. After the roof had blown off his left the walls, in a weakened condition and the exposed position of the building to a full sweep of the wind soon caused the upper walls to crumble and fall. Mr. Fisher and several workmen were in the building just before the roof was blown off or they might have been fatally or seriously injured. The building is nearly a complete wreck and the damage is estimated to be in the neighborhood of \$2,000, which is partially covered by insurance. Mr. Fisher will rebuild the building as soon as the insurance is adjusted and work can be commenced.

The heavy wind played havoc with the electric light and trolley wires. The local electric light plant was obliged to shut down and there was no current for several hours, and the D. U. R. cars were unable to keep their schedule. In the country districts many small buildings were upset or damaged. At Albert Eckles farm the roof was torn off from the large barn and two silos were blown down. At the George Lee farm the wind mill was blown down.

The roof on the mammoth Henry Ford barn near Dearborn was completely blown off and at Inkster a two-story double brick store was completely wrecked as well as several smaller buildings. Long distance wires of both telephone systems were down and business was practically at a standstill until the lines could be repaired.

Plymouth Grange met in their hall last Thursday afternoon. Mr. Reed of Howell, president of the Michigan Live Stock Breeders and Feeders Association, gave an interesting talk on stock raising. Everyone present declared it to be one of the most instructive meetings that had been held in some time.

Republicans Nominate Township Officers

There was a good turnout to the Republican township caucus held in the village hall, Wednesday afternoon. There was no real contest on any of the offices except treasurer, on which there was a three cornered fight. In fact some of the offices almost went begging.

The caucus organized by electing Karl Hillmer chairman and Edward Gayde secretary. George Springer and Jay Burr were appointed tellers. Supervisor Bradner and Clerk Gayde were renominated without opposition. Then came the contest for treasurer. The first ballot showed a total of 72 votes, of which P. B. Whitbeck received 33, E. P. Lombard 22 and Henry Wright 18. The second and third ballots showed no great change either way, in favor of the third Mr. Wright withdrew before Mr. Lombard. The fourth ballot gave the nomination to Mr. Whitbeck by 42 votes, Lombard receiving 34.

For Justice of the Peace, full term, Frank Tousey was nominated without opposition, as was Theodore Chilton for short term (vacancy).

There was one ballot taken for highway commissioner, Henry Heger, present incumbent being an easy winner. Tom Bissell was nominated for highway overseer.

The other nominations were—Drain assessor, Albert Eckles; Board of Review, W. T. Rattenbury; Constables, George Springer, Clarence Pelley, Lee Nowland, Henry Wright.

Resigns His Position

C. H. Rauch, who for the past several years has been manager of the local telephone exchanges in this village and Northville, and for the past year and shall general superintendent of all the long distance lines of the Interstate Long Distance Telephone Co., outside of the city of Detroit, with an office in the city, has tendered his resignation to the company, to take effect April 1st, to accept a more lucrative position with the Daisy Mfg. Co. of this village. Mr. Rauch has had fifteen years experience in the telephone business, he being one of the most enthusiastic promoters of the Plymouth telephone exchange when it was built, and was its first manager. His thorough knowledge of the telephone business in its every detail made him a most valuable man to the company by whom he was employed, and they were loth to part with his services. While Mr. Rauch's sever's his connection with the company next Monday, he will be in charge of the exchanges here and at Northville until April 15th.

Another Sad Death

Viola, the ten-year old daughter of Mr. and Mrs. Chas. Wagonshultz, died at Ann Arbor hospital Tuesday. The child had been quite sick with the measles from which she had not fully recovered, when on Tuesday of last week appendicitis developed. She was taken to Ann Arbor hospital last Thursday, where she was operated on at once, but to no avail, as she only lived until the following Tuesday. The funeral will be held from the Baptist church this (Friday) afternoon at two o'clock. Mr. and Mrs. Wagonshultz have the sympathy of the entire community in their sad bereavement.

Subscribe for the Mail today. Mr. and Mrs. Simon Newhouse of Meir spent Sunday with their son, H. E. Newhouse and family.

According to an opinion handed down by Attorney General Fellows, the Bull Moose ticket must appear first on all township, village and county ballots this year in Michigan because that party polled the largest number of votes for Presidential electors last fall.

Epworth League Contest

On Friday evening, March 21st, at the residence of Dr. E. E. Easter, occurred the final wind-up of the thirty-day Epworth League experience campaign. The boys of the League were pitted against the girls of the League, each side vying with the other to determine who should accumulate the largest sum of money for League purposes, missionary, benevolent, etc. The occasion was dramatic in its interest. It was marvellous all the dishes that were washed last month, the shoes shined that possibly had not known polish for some time, the shaves that the barber lost, and the young man taxed himself for, the ribbons that the girls did not buy, etc. One young man stopped a citizen on the street and told him that he was the best looking man in Plymouth; the man was so delighted with the frank statement of a condition that he himself had always believed true, but had never heard anybody else express, that he promptly paid the Leaguer 25c. for the cause.

The final reports showed \$40.29 earned by the boys, and \$58.25 by the young ladies. The few cents lacking to make an even \$100.00 was contributed on the spot; after music and refreshments everybody went home with everybody else and all were happy. The boys pay the forfeit on Friday evening of this week by serving a banquet to the girls.

A Successful Opening Day

Gayde & Fisher, dealers in farm implements, wagons, buggies, etc., had a very successful opening day last Saturday notwithstanding the fact that Mr. Fisher's shop was practically destroyed by the wind storm the day before. Luckily nearly all the machinery, etc., was in an adjoining building, and was but slightly damaged. There was a good attendance of the farmers of this vicinity, and representatives of the several lines displayed were on hand to explain the makings and all the good points about their goods. The new firm took quite a number of orders for implements and buggies and are highly pleased with the outlook for a good business during the coming season.

Tomato Growers Enjoy "Smoker"

There were about 70 present at the "smoker" given by the tomato growers association, in Grange Hall, last Saturday evening. Mr. Hood of the M. A. C. gave an interesting and instructive talk on tomato culture. Plymouth expects to have a co-operative experimental station here for the benefit of the tomato growers.

Mr. and Mrs. J. D. McLaren were Saginaw visitors last Saturday. Miss Margaret Giles of Detroit was the guest of her sister Elizabeth Saturday and Sunday.

EASTER JEWELRY

Easter marks the death of dreary winter and the birth of joyous spring—a change from somber to the gay.

No time of all the year is more opportune for the purchase of some article of jewelry. Nothing adds to one's personal adornment so much as a well selected piece of jewelry from our stock.

Then, too, Easter is a time when our friends and loved ones should be remembered by some token, and nothing lends itself more fittingly for such expression of esteem than jewelry—the kind that is treasured for its worth—the beauty and sentiment expressed—the kind we sell and guarantee.

Stiff Joints Sprains, Bruises

are relieved at once by an application of Sloan's Liniment. Don't rub, just lay on lightly.

"Sloan's Liniment has done more good than anything I have ever tried for my joints. I got my hand hurt so badly that I had to stop work right in the middle of the year. I thought as long as I would have to have my hand taken off, but I got a bottle of Sloan's Liniment and cured my hand."

Good for Broken Snows
O. G. Jones, Buffalo, N. Y., writes: "I used Sloan's Liniment for broken snows above the knee caused by a fall and to my great satisfaction was able to resume work in less than three weeks after the accident."

LARGEST RACE PROBLEM.

"Erver Jones, does you think a girl is a black man or a white man?"
"I dunno; an' all I does know is—de biggest race problem is how ter keep ten yards ahead of him!"

Perfectly Clear.
"I wonder why so many trains are late?" said young Mrs. Torkins as she watched the man climb up the figures on the blackboard.

"Well," replied her husband, "for one thing, traffic is much heavier than it used to be."
"Of course! And the heavier a load is, the harder work a locomotive has to pull it!"

Tales of GOTHAM and other CITIES

Wins by Pen; Voice Loses; Refused a License

NEW YORK.—Henry Segal of 100 East 125th street is a proponent of the accepted theory that most men who wield a pen do not express their views so well orally and that the extemporaneous speaker is not always a literary success.

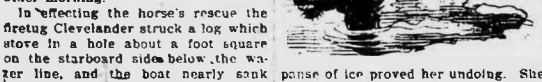

Segal is a plumber and he did well in the written examination before the examining board of plumbers for his certificate of competency. But there were several other candidates who did exactly as well as Segal. In fact, in the same language, which caused the board to investigate. The result was that they and the commissioners of accounts, who took part in the investigation, believed fraud had been perpetrated by the eight whose answers to the questions were the same.

It was decided that either some one had impersonated Segal or else he had a list of the questions asked him before the examination. The certificate

Mare Tries Suicide; Fire Tug Has Narrow Escape

CLEVELAND, O.—A small, black, untamed mare, fresh from the wilds of Arkansas, jumped in the river across from the life-saving station after being unloaded from a box car at the foot of W. 9th street early the other morning.

In effecting the horse's rescue the fire tug Cleveland struck a log which stuck in a hole about a foot square on the starboard side below the water line, and the boat nearly sank before it could be tied up in a shallow spot in the Sycamore slip.

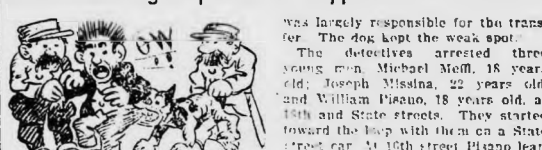

Hugh O'Neil, to whom the consignment of wild horses was made, received a kick in the stomach when he, together with Captain James Nimmo, of the Cleveland, three of his crew and Captain Hansen of the life-saving crew, attempted to lead the animal over the concrete pier to shore.

When released from the pier the animal broke away from the others and ran through the railroad yards, past the freight house on the river front to a point near the customs office and opposite the life-saving station.

Hesitating only a moment, she jumped to the pier and skated about ten or fifteen minutes, apparently enjoying the experience. The mare's unfamiliarity with so large an ex-

Brave Bulldog Captures a Supposed Safe Blower

CHICAGO.—A dog the other night captured a young man who had been a member of a band of safe blowers and held him until the police arrived to take him into custody.

While only a volunteer aid to the overworked police department the bulldog took hold of things when they got beyond the grasp of the five detective Sergeants Mullin and Burns.

So careful was he that his prisoner should not escape that he required all the persuasive power of the two policemen, two other members of the band to which the youth is supposed to belong and the prisoner himself to effect his transfer to the arms of the law. Then a weak spot in the things the dog took hold of when they got beyond the grasp of the detectives

Bees Brimming With Energy Give Grocer Worry

PITTSBURGH, Pa.—There is a grocer in the East End who knows the answer to the question, "How doth the little busy bee?"

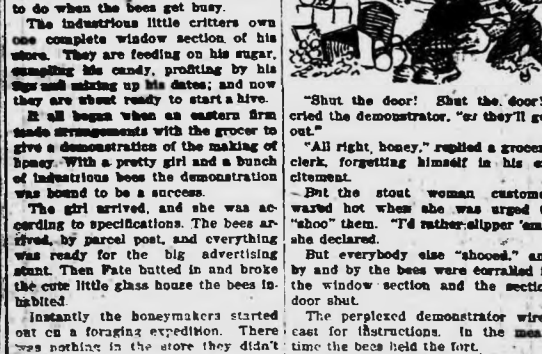

What he doesn't know is just what to do when the bees get busy.

The industrious little critters own one complete window section of his store. They are feeding on his sugar, emptying his candy, probing by his sugar and mixing up his dates, and now they are about ready to start a hive.

It all began when an eastern firm made arrangements with the grocer to give a demonstration of the making of honey. With a pretty girl and a bunch of industrious bees the demonstration was bound to be a success.

The girl arrived, and she was according to specifications. The bees arrived by parcel post, and everything was ready for the big advertising stunt. Then Fate butted in and broke the cute little glass house the bees inhabited.

Instantly the honeybees started out on a foraging expedition. There was nothing in the store they didn't

MICHIGAN HAPPENINGS

Port Huron.—Mrs. Bessie Barr of Yale escaped possible punishment in the circuit court through the fact that her three children, the oldest of whom is thirteen years of age, would become county charges if taken from their mother. The woman was arrested on a statutory charge. She will take her children to the home of her parents, near Charlevoix, as ordered by the court.

Pontiac.—The Upper Peninsula Poultry association has changed its name to "The State Poultry Show of Upper Michigan," and is planning to hold the banner poultry show of the northwest at the Calumet Light Guard armory the middle of next January. Three judges have already been engaged for the 1914 show, which is to be made statewide in scope.

Saginaw.—Fire threatened to wipe out the wholesale district and caused a \$20,000 loss to the Valley City Spice mills, owned by Lee & Cady of Detroit. Carlisle's tannery offices and 1200's commission house were damaged by water. The losses are almost all covered by insurance.

Muskegon.—Alderman Edward M. Langland of the Fifth ward has been named by the Democratic city committee as the party's candidate for mayor at the spring election, succeeding Charles W. Marsh, who, although nominated, declined to make the race.

Flint.—James Roberts, eighty years old, was instantly killed when he was struck by a Grand Trunk passenger train running 50 miles an hour through the village of Davison east of here. Roberts, who was deaf, had a habit of walking on the tracks every day in pleasant weather. He was a Civil war veteran and had lived in Davison 60 years. There were scarcely any wounds on his body.

Dowagiac.—Immediately following the services held at the Evangelical Lutheran church on Mill street the pastor, Rev. J. J. Reide, offered his resignation to the congregation. It was accepted and Rev. Reide left at once accepted a pastorate in Plymouth, which was recently offered him.

Standish.—Winnie Gulah, living a mile east of town, is dead from the results of injuries received while working in the woods up north about a month ago. He was brought to his home here and was thought to be recovering, but had a relapse and sank rapidly.

Standish.—A new bridge which was built over the Rifle river, a few miles north of Standish, was torn loose from its foundation by the ice jam. The bridge sank and no trace of it has been found.

Denton Harbor.—Five students have been expelled from the high school because they indulged in a hazing prank. As a climax to a war that waged between seniors and underclassmen, five of the latter caught Oscar Hennes, a senior, ripped his clothes off and paraded him about the building. Not until the police were called was Hennes rescued. Hennes and classmates have sworn vengeance on the boys who subjected him to such humiliating treatment.

Charlevoix.—Nearly 200 persons attended the Progressive banquet at the Masonic temple here. The banquet was given by the women of the Sunnyside club and was one of the largest held here in years. Dr. A. H. Miller of Olivet college was toastmaster and the speakers were Rev. C. T. Park of this city, William Olin, Andover, Mass.; F. Chaddock, Charlevoix; Horatius S. Corie, Detroit, and E. N. Dingley, Kalamazoo.

Saginaw.—Because there is no money in the city fund for the pursuit, arrest and trial of criminals, Gordon Raymond and John Taylor, wanted here for a charge of burglary, will probably go free when finishing out sentence imposed by a judge in St. Cloud.

Sault Ste. Marie.—Rev. Arthur Howes Lord, rector of St. James church, has accepted a call as pastor of St. James church, Milwaukee, Wis., and will take up his new duties May 1.

Hastings.—Officers have arrested Dr. G. Wilkie Shipman, charged with a third offense as drunkard and tippler, and Russ Scheib, accused of furnishing whisky to a seventeen-year-old lad. Scheib has a wife and four children. Shipman, formerly of Detroit, has frequently served sentences for drunkenness.

Detroit.—Philip Cohen, a butcher, made a melodramatic rescue of Mrs. John Papa of 174 Goodwin avenue, when he went to the house to collect a bill and arrived just as Papa, crazed with drink, had chopped his way through a bedroom door behind which the woman had barricaded herself, and was attempting to reach her and play her with a hatchet.

As Papa chopped at the door, she screamed, and Cohen, at the door, forced his way in, overpowered Papa after a struggle and turned him over to the police.

Small Girl—Please, sir, an' he did bo get along in the world before?"

Thousands of Women

Have Been Restored to Health By Lydia E. Pinkham's Vegetable Compound.

There is no doubt about this fact. Why? during the last 30 years we have published in the newspapers of this country volumes of letters from women who have been relieved of all their suffering by the timely aid of this grand old medicine. Letters like the following, true, genuine and honest expressions of gratitude coming from grateful hearts. Surely you can believe these women.

Mrs. L. S. BRENNER, Hudson, Mich., says:—
"Sometime ago I was taken with a terrible pain in my right side, such sharp pains just like a knife sticking me. I tried hot applications but that did no good. I went to our family doctor (we were living in Fayette, Ohio, at that time) and he said it was ovarian inflammation. I got over with him a while but kept getting worse. The pain was so terrible I could hardly stand on my feet. I would have that sharp pain in my right side, and a dull heavy pain the whole length of my limb. I realized that something had to be done quickly, so I looked up all of your advertisements I could find, and saw several that described my case. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it helped me from the first dose, and when I had taken two bottles my trouble was gone. Your medicine has done so much for me that I am willing you should publish this letter for the sake of other suffering women."—Mrs. L. S. BRENNER, Hudson, Michigan.

Mrs. L. E. BOWERS, Girard, Pa., says:—
"I take pleasure in informing you of what Lydia E. Pinkham's Vegetable Compound has done for me. I had a sick spell last February, and for some months after that I was not regular and had many bad feelings. I was tired all the time, had dull headaches, not much appetite, and also what the doctor called ovarian inflammation. Your Vegetable Compound has entirely cured me and I feel like a new woman. You are perfectly welcome to use my testimonial for the benefit of others."—Mrs. L. E. BOWERS, R.F.D. No. 1, Girard, Pa.

Mrs. ELIZABETH GENTILCORE, Buffalo, N.Y., says:—
"I feel that I must write to you about your wonderful remedies. About ten years ago I was troubled with female weakness and was all run down. I was tired all the time and could hardly walk without feeling dizzy. I heard about Lydia E. Pinkham's Vegetable Compound, took it, and also used the Sanative Wash. I got stronger, and have not had those dizzy spells since. I feel that I owe my health to you, and hope your remedies will help others as they have me. I had almost everything I heard of, and yours are the best medicines for women's ailments."—Mrs. ELIZABETH GENTILCORE, 26 Olur Street, Buffalo, New York.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

OBITUARY.

Sybil Ethleen Williams was born in Marian township, Livingston county, Michigan, September 10th, 1886. She lived at Howell and vicinity until 1899 when she moved with her parents to Salem, Washtenaw county, where she lived until 1907, when the family moved to Plymouth where she has since resided. Her life was much the same as other girls, being of a sunny disposition she always made the best of everything and made many friends. On June 8, 1912 she was united in marriage to Emory Hix of this village and after a brief married life of nearly ten months she departed this life on March 19th. She leaves to mourn their loss her husband and infant daughter, father, mother, one brother and one sister, besides other relatives and many friends among whom are the Lady Maccabees.
 Departed, yes, we know not why. The time was yours, but how to die. 'Tis all left for us to try to meet her in that home on high.
 We take the following from the Pontiac Gazette of March 15, in regard to the death of T. W. Chaffee, a former resident of Plymouth, and a brother of our townsman, A. W. Chaffee:
 T. W. Chaffee, a well known Pontiac grocer, passed away at 4 o'clock this morning at his home, 32 west Huron street, after only a week's illness with pneumonia. Mr. Chaffee first complained of illness a week ago yesterday but was able to be at his store. The following day he took to his bed and his condition soon became serious.
 T. W. Chaffee was 67 years of age and was born at Plymouth, Michigan, March 24, 1846. He was a son of Mr. and Mrs. Elmer Chaffee. His boyhood was spent at Plymouth and he was married March 3, 1870, to Miss Mary Murden. Two years later they came to this county and Mr. Chaffee was employed for a time on the Erza B. Donelson and the Ebb Voorhies' farms west of this city on the Elizabeth Lake road. They moved to Pontiac in 1875 and for 11 years Mr. Chaffee acted as foreman of the knitting mill in the Wakeman & Hitchcock knitting mill. After that he clerked for a time for C. H. Going. Fourteen years ago he entered into partnership with A. F. March and opened a grocery store on east Lawrence street, where they continued in business three years. Mr. Chaffee continued the business at the same place until Dec. 11 when he moved to the new Lawson block on east Huron street where he was enjoying an excellent business.
 Mr. Chaffee is survived by his widow and one brother, Alfred W. Chaffee of Plymouth. He was a member of the Oakland County Lodge No. 3, I. O. O. F., Court Mayflower and Court Pontiac Foresters, and of Pontiac Lodge No. 810, B. P. O. E. He had also been a member of the First Presbyterian church for many years.
 Mr. Chaffee was a man of few words and was possessed of quiet, retiring disposition. By those who were intimately acquainted with him he was loved and appreciated.
 Mr. Chaffee's funeral was held Monday afternoon, March 17, at 2 o'clock from his late home on West Huron street, Pontiac, with Rev. W. S. Jerome of Detroit, and Dr. J. R. J. Milligan of Pontiac, officiating. The remains were placed in a vault at Oak Hill cemetery until spring. All of the grocers of the city closed their doors between the hours of 2 and 3 o'clock out of respect to Mr. Chaffee.

Spring Coats of Exceptional Value

WOMEN who reckon savings in other ways than by dollars will be quick to recognize the advantages in buying these Workshop or Worth garments. They will figure that coats tailored with so much precision, will outlast any two coats put together with less regard for detail. They will appreciate, too, the refinement of the styles that make coats wearable for another season.

WE consider the Pedestrian quite the most distinctive coat that London has given to Fashion this season. It is of English corded diagonal worsted in cell blue, Biscuit tan or pale grey, and its buttons are of fresh water pearl, colored to blend perfectly with the goods and ribbed like the weave of the material. Has that unmistakable London appearance and is a smart coat for all 'round wear. **\$16.75**

A WHIPCORD coat in three quarters length with the foreign idea of covering the revers with Oriental silk is conservative in cut; has three seams to give a well shaped back and will fit the average figure with ease. The whipcord is that good, firmly worn kind which will outwear most any other fabric. **\$18.75**

A NOTHER three-quarters whipcord model is made with seamless back and outway front to show the dress worn beneath it. The body and sleeves are lined with "Kelley's" green messaline and an extra Medici collar of supple Bulgarian ratine gives a most fashionable finish. The Medici can be removed, leaving a plain-tailored coat that will always be in style. And the price is a most surprising feature. **\$19.75**

JAUNTY debonair coat models in Juniors sizes—13, 15 and 17, may be had in a tan and white novelty coating with cord trimmings Copenhagen ribbed silk and pretty side belt-straps at \$8.75, or in a London striking Check with trimmings of golf red thibet and black soutache at **\$12.50**

TO cap the climax of values, we offer a coat in odd sizes, that will fit most hard to fit figures. Come in a grey and black diagonal, plain grey diagonal coating or black serge. Finished with neat notch collar, satin covered. Has bone buttons and is priced **\$13.50**

All the New Styles of Children's Spring Coats **\$5.00 to \$8.75**

Splendid New line of Dress Skirts, all styles **\$5.00 to \$7.50**

New Clothing Hats and Caps for Men and Boys.
 New Dry Goods, Carpets, Rugs, Matting, Linoleum,

The Buick "31"

 BUICK "31"

Sells for \$1285 F. O. B. Flint
 The Buick "31" is a motor car of the highest type. It has the appearance that makes the people you pass take that second look. It has the power that will take you anywhere and bring you back. It has the durability that makes it a good investment. It costs less to run it and to keep it up than it does any car ever built. It is easy riding, easy to handle, commodious, graceful in body contour, and it is beautiful of finish. Every part that goes into Buick manufacture is made in the Buick shops. There are 110,000 Buicks on the road. Some of them have gone 100,000 miles and are still going. This company challenges anybody to produce a worn out Buick, or one that has been junked because the owner could not secure parts. The Buick shops are the largest in the world, and you can find a Buick dealer anywhere you go. And the Buick sign is always a sign of good treatment.

"Self Starter Facts" is the title of an attractively gotten up and convincing booklet just issued by the Buick Motor Company. The company occupies the unique position of standing out against the demands of a purchasing public in their unqualified refusal to put some thing on their cars which in the belief of their engineers not only lacks efficiency in itself, but also impairs the efficiency of the motor. Buick finally and openly taking the stand they do, the Buick Company states that in addition to their own cars, they have made thorough tests with other starter-equipped cars of medium price. "Each of these cars," reads the pamphlet, "came to us in the highest possible state of efficiency both in reference to the starter and the motor, and after giving them a limited amount of service under the most favorable conditions possible, we were surprised beyond description to find that on not one of the three cars in question was the starter effective, or would it partly perform the office for which it was intended after starting the motor less than seventy-five times. While we admit there are starters which under favorable conditions will start a car, there is not a car on the market today that will run as well when equipped with one of these starters as it will without. In summing up its position, the company makes it plain that they are no way prejudiced against self starters, and says: "On the contrary we are making every possible effort to find a starter which in our opinion, is efficient and as high grade as the balance of a Buick's automobile. The moment such a satisfactory and dependable appliance can be had, regardless of the price, it will be found on Buick cars."

LIFE'S UNFINISHED BUSINESS.

The habit of finishing one task ere setting his hand to another is the ingrained custom of the man who accomplishes a great deal, "without haste and without rest," to cite the phrase of Goethe. It is the fate of the man who cannot concentrate on one fixed issue, one narrowly specialized occupation, to muddle ineffectually in various employments and never to "get through." He is always worried, preoccupied, overwrought and yet futile, because he has not learned the virtues of system and a set program—which does not signify a written schedule by any means. Indeed, the man who consults a time table at every turn and pulls out his watch to announce his hurry is hardly likely to be any more successful than the one whose life is desultory, whose appointments are fortuitously kept, whose regiment refuses to fit itself to fixed hours and observances. The secret of success, before any other formula or recipe, seems to be to end the work that is begun before more is undertaken. There are many admirable starters, comparatively few prize-worthy finishers. Almost any one can master the courage—it might be called the effrontery—to make a pleasing first impression, but to continue day after day, year in and year out, to do valuable work, to "deliver the goods," is quite another story.

The difference between pleasure and happiness is, that the former relates to the body and the latter to the spirit, and the peculiar situation in which we find them is that civilization makes more provision for the former than for the latter. There is plenty to endow and strengthen the spirit, but what caters to the body seems to increase faster. The amusements, excitements, entertainments, sports, functions of society, etc., all belong to the latter class. Happiness has little show when pleasure gets busy. The latter is crowded with victories. It walks all over happiness. Pleasure gives the virtues the slip and sets down the spirit as a sort of a slow poke. Art, books, nature conversation, thought, belong to the spirit and are the instruments of happiness. Pleasure cares little for them. It would rather holl and smoke, and laugh, and rah-rah, and encore. The distinction is plain and he who ignores it doesn't know the true path of life, the path that leads to high manhood and high womanhood. Pleasure is, of course, a part of life, but to make it a greater part than happiness is the mistake that most of us make, and a sorry mistake, too.

Madrid advices are positive that King Alfonso in conference with Ascarate, the republican leader, has promised immediately to establish an old age pension system, liberalize the educational system, reduce the expenses of Spain's military program, establish religious tolerance and bring into being many other reforms that the republicans long have sought. At this agreement on the part of the king, of whose sincerity Ascarate declares himself assured. Spanish republicans are much elated. It was firmly asserted long ago that there was a great deal of ability in Alfonso, and that he would have the tact and intelligence to prolong the life of the monarchy in Spain, notwithstanding what has happened in the adjoining portion of the Iberian peninsula.

The report of Naval Surgeon General Stokes as presented in Washington shows that many of Uncle Sam's valiant tars are not seaworthy when left alone in the water. In other words, the mortality list demonstrates that the majority of sailors who die in the service reach their end by drowning. The surgeon general makes the sensible suggestion that sailors be compelled to learn to swim. It should hardly be necessary to have this suggestion made in the naval authorities in an official way. It would seem the best of discretion to see to it that the man who goes down into the sea in ships should at least have a swimming acquaintance with the element they are supposed to be most familiar with.

The palmtree, a wonderful German invention, has four men to its credit in Pittsburgh. They "went dead" 40 minutes in a big fire before the patent was applied to them. As soon as the smoke had been pumped out of them they revived and are alive and well.

THOUSANDS PERISH IN FLOODS WHICH DEVASTATE OHIO CITIES

DAYTON COVERED WITH WATER IS HELPLESS AND PEOPLE ARE DROWNED LIKE RATS IN TRAP.

SWOLLEN RIVERS BREAK LEVEES AND SWEEP OVER MANY TOWNS.

Dayton at Time of Highest Tide Has Twenty Feet of Water in Principle Streets of the City With Fires Raging Unchecked.

Fully 8,000 people are reported to have been drowned in the flooding which swept through Ohio, passing from a telephone operator in Dayton reservoirs and swelling rivers into rushing lakes.

According to the latest dispatches, 5,000 are reported drowned in Dayton, 1,000 in Hamilton, 500 in Piquette, nearly 100 dead and missing in Delaware and hundreds in other cities through the state.

The four days of steady rain filled every reservoir in the state to overflowing. A big power plant reservoir just north of Dayton broke and poured its thousands of tons of water into the Miami valley. A wall of water seven feet high swept down upon Dayton, carrying all light structures before it. The water continued to pour into the city and hundreds of people were forced to flee from their homes. They had little warning and many of them were caught in the flood and drowned.

The water continued to rise until

Mr. Stevens on P. M. Debt.

That innocent stockholders would suffer and the reputation of the state would be blighted if the state made a reduction by force in the debt of the Pere Marquette railroad was the declaration made by Frederick W. Stevens, former general counsel for the road and now with J. B. Morgan & Co., at the close of Friday's testimony before the legislative committee investigating the increase of the funded debt of the Pere Marquette from \$25,000,000 to \$70,000,000 in 14 years.

He said that all of the stock issued by the Pere Marquette had the stamp of approval of the state of Michigan upon it and was bought by the holders with the assurance of its legality. If the state attempted a forced reduction of the debt, the common stock would be the first item that would have to be reduced, next would be the \$5,000,000 in debentures issued to the stockholders who contributed that sum to the road in 1904, and next would come the \$3,000,000 in notes issued in 1911 to defray legitimate expenses, making a total of close to \$39,000,000, all of which would come from people who had acted in good faith with the road.

Detroit Suffragists.

A two weeks' open-air suffrage campaign, during which the entire city of Detroit is to be thoroughly covered, opened Saturday night with meetings at the corners of various streets, with stirring addresses by Mrs. Glendower Evans, of Boston, and Mrs. Susan M. Sellers, vice president of the Wayne County Equal Suffrage association.

During the next two weeks six automobiles will be in commission every night. In each of these two speakers will be carried who will address open-air meetings in different parts of the city. The equal suffrage workers, if the weather does not disturb their campaign, have planned to spread the gospel founded on woman's rights in every part of the city and are hoping to win a large following to their cause as a result.

The Balkan War.

The developments of the last week appear to make the conclusion of the Balkan war a matter of only a few days.

Turkey, having no hopes of obtaining more money, has entrusted her interests to the good offices of the powers, and the allies have accepted the powers' offer of mediation.

The supreme court reversed the decision of the Saginaw circuit court granting a verdict of \$1,500 to Mrs. Elizabeth Reimers in her suit against the Saginaw-Bay City railway company for alleged injuries.

NEWS FROM THE STATE CAPITOL

ODELL FREE TEXT BOOK MEASURE IS REPORTED OUT IN THE SENATE.

UNIFORM TEXT BOOK BILL FAILS IN THE HOUSE.

The Committee of the Whole Approves Law to Prohibit Extension of Credit in the Selling of Liquor by Retail.

[By Curd M. Hayes.]

When the uniform text book bill known as the Young-Dunn measure was under consideration in the house there was an equal division when the vote was taken, each side mustering 42 votes, and as a result the proposition has been tabled ready to be taken up at some future date, but it is evident that the chances of its passage hinge largely on the success of the free text book legislation which is now pending.

Almost simultaneously with the failure of the uniform text book bill in the house, the senate committee on education was reporting out the Odell free text book bill. Supplementary to the Odell bill is a measure introduced by Senator King which demands that text book companies sell their wares in Michigan at a price as low as any other state or community. The enemies of the uniform text book bill have urged the free text book measure and for the first time in years there is a chance for serious consideration of such a proposal. Friends of uniformity as a general thing do not oppose the free text book suggestion if it can be put through and the situation seems to have reached a showdown in which it will be demonstrated for all time when the demand for text book legislation is in the interests of the consumer.

Rep. Fitzgerald, of Kalamazoo, made a stirring speech against the uniform bill when it came up for consideration on third reading. Rep. Charles M. McBride, of Holland, also opposed it. There were more than a dozen speeches pro and con until Rep. Nank finally suggested that there had been enough oratory and it would be well for the house to vote on the bill. Having failed to obtain the necessary 51 or more the measure was declared defeated. Rep. Dunn, however, moved for a reconsideration of the vote and had the measure tabled in order that it might be available at any time when the chances seemed better for its passage.

Farmers who desire to select some euphonious name for their country places will be allowed to have these titles registered with county clerks and projected from some other farmer in the neighborhood selecting the same title for his farm. The Follette bill passed by the house which gives county clerks a fee of 50 cents for registering the title was agreed to in the senate, and without any comment to indicate the senate is disposed to be friendly to the measure. Another bill that has received favorable consideration was the Foote bill allowing counties to establish sinking fund commissions to have charge of such funds raised to meet any bonded indebtedness of a county.

Rep. Pray, of Eaton county, has introduced a bill intended to fit in with the Webb interstate shipment act recently passed by congress. The Webb act does not absolutely prohibit the shipment of liquor from a wet state to a dry state, but rather takes away the protection the United States government has heretofore given interstate shipments of liquor even after they entered the state and until actually delivered to the consignee. Now the state can control all intrastate shipments of liquors.

The purpose of the bill introduced by Rep. Pray is to prevent shipments of liquor whether intrastate or interstate to persons who hold U. S. internal revenue receipts, druggists of course, excepted. It also prohibits persons and transportation companies from keeping liquors at any other place than a private residence, and contains regulations to prevent shipments in violation of the spirit of the bill. The bill is not aimed at the person who gets liquor for personal or family use, but the one intends to violate the law.

Teachers and school officers from all the principal cities of the state gathered in Lansing to participate in the big public hearing before the joint educational committee of the house and senate on the question of the teachers' retirement fund bill.

The teachers' pension proposal has inspired one of the most persistent oblates ever sent to Lansing. The members are flooded with petitions by the thousands and personal letters are coming in on every mail to the mem-

The days of palmistry and fortune telling are nearly at an end in Michigan. The senate has agreed to the Metz bill which prohibits the art or practice in this state along with those of similar seekers after the money of people anxious to have their fate foretold and to be informed whether they are going to marry rich or have a fortune left to them. The bill has passed the house and is ready for final action in the senate with no amendments in sight which are liable to give opportunity to kill the measure. The senate has also passed the Amberson measure which allows boards of supervisors to increase the amount they may appropriate for repairing county buildings from \$5,000 to \$10,000.

In committee of the whole the senate has agreed to the Burke bill which has passed the house, prohibiting credit being extended in the sale of liquors at retail. One amendment was made to the bill but not of a character that will change its purpose and as there was no opposition in sight, it is probable that the bill will be before the senate for consideration within a few days.

The house has voiced its disapproval of any proposal designed to curtail the constitutional prerogative of its members of introducing bills. Rep. Skelton introduced a concurrent resolution recommending that no bills be introduced after April 5. Under the rules it must lie on the table five days and only 21 votes could be mustered to suspend the rules and put the resolution on its immediate passage.

Nearly 700 bills have been put in on the house side and they are still coming. Many of them are duplicates or near duplicates and a great proportion cover ground similar to that in at least three other measures.

The primary election system is said to be responsible for the overwhelming number of bills. Every man realizing he must go back to face the people of his district is anxious to gain honors in a personal way. Each vie with his colleague in being first in and in getting first consideration by the committee and the legislative sessions of the past four years have developed largely into a bitter race on the part of the members to get individual measures considered and passed.

Should the people of Michigan desire to adopt the recall to apply to all officials, except judges of courts of record, the opportunity is at hand. The senate and the house got together on the proposition Tuesday afternoon and Secretary of State Martindale rushed the resolution to the printers in order to hurry the necessary formalities through and get the proposed constitutional amendment on the ballot for consideration at the coming spring election.

In the senate there was a war of words and efforts to obstruct with parliamentary tactics, but in the end the amendments were adopted by unanimous vote, while in the house only seven members got into the record in opposition. Those seven were Representatives Edwards, of Houghton; Fitzgerald, of Kalamazoo; Flowers, of Detroit; Griggs, of Oakland; Morgan, of Marquette; Palmer, of Detroit; and Newell Smith, of Gratiot. As passed the proposed amendment to the constitution requires 25 per cent petitions, and in determining whether sufficient number of names have been secured to require a vote on the question of recalling a public official, the basis will be the count on governor at the last preceding election.

Secretary of State Martindale, personally conducted the certifying out of the amendments to the county clerks and sat up a greater portion of the night in order that the work might be completed in time. There will be six amendments to the constitution to be voted upon this spring and the attorney general's department has ruled that each amendment shall be printed upon a separate ballot.

Rep. Arthur Odell's celebrated bill which provides for the sterilization of the mentally deficient, has passed both the house and the senate and is ready for the signature of Gov. Ferris. The chief executive has read the measure and declares that he will approve it.

The senate's amendments to the measure were of little importance as affecting the bill. Rep. Odell said the senate had improved the proposal in the few amendments it had attached and made it broader in his application. The only material change provides for the adjudication of the proposal to sterilize in any case where the relatives or guardian may see fit to enter objection.

Senator Robert Walter, chairman of the fish committee appointed to meet with the Wisconsin legislature to frame uniform fish legislation for Lake Michigan, has just received word from the game warden of Wisconsin, commending the Clark commercial fisheries bill which just passed the house. The Wisconsin expert says it is the best measure of its kind he has ever seen bearing on lake fisheries and will ask the Wisconsin legislature to adopt it for that state as the basis for uniform fish laws.

A 5-passenger touring car, equipped with a full set of these tires has been in daily use all winter, has demonstrated the satisfaction of hundreds of people, including Automobile Engineers and manufacturers, that this tire is the SOLUTION OF THE TIRE PROBLEM. This car may be seen any day by calling at 1802 Ford Building, Detroit. These tires will be manufactured in Detroit by the

Cross Section of the Wilson Tire and Demountable Rim

This cut is reduced to one-half actual size. The tire cannot be punctured because there are 3/4 inches of the flexible rubber tread between the ground and the inner air tube. Illustration: The dark portion is the Flexible Rubber Tread, made all in one piece. The light portion is the ordinary Inner Air Tube, now in common use in other pneumatic tires. The outer tread surrounds the inner tube and both are held in place by the steel rims. These rims are made of Vanadium steel and are attached to the felloes of the wheel by a special demountable device. They are firmly held in their relative positions with double shouldered studs passing through steel lined openings in the tread, near the periphery, clamping against the steel rims and being held rigid by a round nut on the outside. Note where the shoulder on the rubber tread, cast against the inward curve of the rims, thus preventing the air pressure from forcing the tread outwardly beyond a certain point. It is impossible to throw this tread off the wheel.

Directing Children Aright.
The young need to be taught that although there is sometimes a pleasure of the senses in committing sin, it is inevitably followed by remorse and punishment. Crime, remorse, punishment form an inseparable trio. On the other hand, while it is often hard to do right, the sense of satisfaction, self-respect and self-control that follows right action is worth all the effort made.

Memory Gems for Children.
Children learn readily of right thinking and right doing through anecdote and memory gem. We cannot give them too many memory gems, provided they are suited to their age and intelligence. Every thought will not affect every child, but every thought will affect some child. Robert Louis Stevenson said he was brought up on poetry and stories, and these poems and stories were the source of his later inspiration.

Familiar Type.
A hypocrite, son, is a person who gets moral commandments in conspicuous places about his premises and goes out and forgets them.—Judge.

Paint on Window Glass.
If the window glass has been splashed with paint, seal some soda in very hot water and wash the pane with it, using a soft flannel rag.

Liberty Stays THE Last.
When liberty goes out of a place it is not the first to go, nor the second or third to go; it waits for all the rest to go; it is the last.—Walt Whitman.

Just a Way They Have.
When one woman wants to make another one sore, she tells her how much better than usual she is looking.—Milwaukee Sentinel.

Even There.
Just as soon as a man succeeds in getting on Easy street somebody comes along and begins to tear up the pavement there.—Chicago Record-Herald.

New Old Certain.
A little ochre powder dissolved and used to starch will make old white garments look like new ones.—Home Department, National Magazine.

Frank, at Least.
"My dear, my salary has been raised." "Good. Now I can start in being extravagant."—Detroit Free Press.

Self-Confidence.
No man can get far without believing in himself; but he should also believe in a few other things.

Not a Complaint.
There is a good deal of complaint because people don't walk more, but it doesn't come from the head of a horse until you have to buy.—Milwaukee City.

Doing the Impossible.
The only person who can answer all a small child's questions is the youth who has first had his first year in college.—Rockland Union.

Daily Thought.
No liberal man would impute a charge of unsteadiness to another for having changed his opinion.—Cleveland.

Making Mistakes.
The wisest man is likely to make a mistake, but he isn't the wisest man if he makes another like it.

Extravagance Wasted.
"What's doing?" asked the tall plumber. "You're all dolled up." "Had a date with my best girl," explained the short bricklayer. "But aren't you going to keep it?" "I showed up all right, but she wasn't there." "That was pretty tough." "I wouldn't care," said the short bricklayer. "Only I went and had my shoes shined all for nothing."—Youngstown Telegram.

Noticed Improvement.
A commercial traveler on arriving at a wayside station between Sligo and Enniskillen, remarked to the chief official: "I observe your service has improved latterly." "Can't see it," replied the stationmaster stoically. "Oh, I can," said the commercial. "Your trains are able to whistle without stopping now."

Yet to Be Discovered.
"Can you manage a typewriter?" "Ask me in about a year. We've only been married a month."

Daily Thought.
I am more and more impressed with the duty of finding happiness.—George Eliot.

Never Opened Stolen Letters.
Arthur Wheeler, a postman, was at Aldershot recently, charged with stealing 376 letters, post cards, and packets at Harborough. Packets of letters were found in his kitchen, bedroom and coal cellar and in his clothing, but there was no evidence of the letters, some of which bore dates of more than three years old, having been tampered with.—London Mail.

Arsenic That We Eat.
It is known that arsenic exists normally in the tissues of the human body without doing harm. It is a constituent of peas, almonds and beans. Fresh lettuce, though rich in water compared with almonds and beans, reveals scarcely less arsenic. The foodstuffs richest in arsenic are the banana, chestnut and locust.—Harper's Weekly.

Friendship.
A friend advises by his whole behavior, and never condescends to particulars. Another chides away a fault; he loves it away. While he sees the other's error, he is silently conscious of it, and only the more loves truth itself, and assists his friend in loving it till the fault is expelled and gently extinguished.—Thoreau, in "Spring."

Content.
I would have nobody control me; I would be absolute, and who but I? Now, he that is absolute can do what he likes; he that can do what he likes can take his pleasure; he that can take his pleasure can be content; he that can be content has no more to desire. So the matter's over; and come what will come, I am satisfied.—Carver.

Daily Thought.
Such are the habitual thoughts, such also will be the character of thy mind, for the soul is dying by the thoughts.—Marcus Aurelius.

Literal.
"Do you like my execution on the piano?" "I must say I would have to describe it as an execution for killing time."

Then and Now.
It used to be that father would buy ten cents' worth of kerosene and the grocer would stick a potato on the spout of the can to keep it from spilling. Nowadays the gas bill is never under \$5 and potatoes are worth two cents each.—Cincinnati Enquirer.

Source of Joy.
Among eligible women there is more joy over one divorced man than over ninety and nine men who stay married.—Judge.

To Be a Man.
A man shall and must be valiant; he must march forward and quit himself like a man.—Carlyle "On Heroes."

Close Proximity.
May we venture to offer the hint that the phrase "close proximity," which seems to have acquired a certain vogue, is slightly antological?

That Proverbial Scam.
Something is the matter with our eyes when we see plainly the mote in another's eye and don't even notice the beam in our own.

As a Last Resort.
"Should a girl propose to a bashful suitor?" "Not until she has tried everything else. Ask him if he is going to invite you to his wedding. That usually starts something."

German Use of Potatoes.
Potatoes are dried in slices, chips and flakes in Germany for feeding to cattle, swine and sheep and hundreds of thousands of tons are consumed in that way.

To Mend Agate Ware.
When rust has eaten a hole in an agate or enameled ware foot tub or other vessel of similar ware, that is not used on the stove, the hole may be covered by dropping in melted sealing wax; hot water does not affect the wax and when eventually it falls off, it may easily be renewed.—Home Department, National Magazine.

Trees Resist Lightning.
The electrical resistance of trees is quite great, a quality which protects them to a considerable degree from lightning stroke. This resistance varies greatly with the character of the tissues and also with the temperature. This fact results in an annual and daily period in resistance. The cambium layer shows the least electrical resistance, followed by the phloem and sapwood.

Daily Thought.
Of all human things, nothing is more honorable or more excellent than to deserve well of one's country.—Hecro.

Occasionally.
Occasionally the man who has the bird in the hand gets so badly bitten that he wishes it were two in the bush.

Better Silence Than Empty Words.
Let thy speech be better than silence, or be silent.—Dionysius.

Explained.
"Why do you suppose he has such a vacant expression?" "Well, he thinks of himself a good deal."—Judge.

One Day.
One day, with life and heart, he took time enough to find a world.—William Russell Lowell.

Naturally.
"Tramps lead a vegetable sort of life, don't they?" "Of course they do. Aren't they beards?"

Daily Thought.
To cultivate kindness is a great part of the business of life.—Samuel Johnson.

Fixing Carpet Rug.
When a hole is worn in your carpet rug whip over the edges of the hole with yarn, matching the color; the rug; then, also with yarn, fill in the hole with very tight crocheted stitches, using a plain stitch; then over this work little loops of yarn that will correspond to the loops in the weave of the carpet.

Alloys of Gold and Iron.
Iron and gold, when melted together, may be mixed in various proportions and hardened or crystallized. Alloys containing ten per cent of gold are harder than pure iron, but as the proportion of gold increases above that amount, the alloy becomes softer. Silver and iron do not form alloys.—Harper's Weekly.

Uses Horses to Drag Nets.
In the lower part of the Columbia river, between Oregon and Washington, men are often seen on horseback, wading about in what appears to be a aimless manner. They are really fishing for salmon with huge dragnets, which are so heavy as to make the assistance of horses imperative.

See Ole Ciss Fox.
"My idee o' wasted effort is tryin' borry a dollar from your landlady."—Milwaukee Sentinel.

Rather Far-Fetched.
A scientist, at least he styles himself "Dr.," has been suggesting that young people and children may be cured of bad habits when in a hypnotic sleep. He has a long, long time to wait till parents, or teachers, either, will approve of hypnotic influences being used upon the young.

Suicide by Dynamite.
A workman, determining to commit suicide, placed a stick of dynamite inside his clothes and exploded it. He succeeded only in being horribly burned. A second attempt was equally abortive. Then he dragged himself home and got more dynamite, and went into a nearby field and placed a stick in his mouth and blew his head to pieces.

To Get Rid of Mice.
To rid a house of these troublesome pests lay a block of camphor near their haunts. They dislike the smell of camphor and will quickly disappear.

Altercation.
Sunday School Teacher—"Who can tell me what an altar is?" Small Girl—"Please, sir, it's where they burn insects."—Philadelphia Ledger.

How About Madame.
"Under the lax American system of bringing up girls," says a Paris journal, "the American young man rarely wins the first kiss from the girl who is to be his bride." Maybe, but by Heck! that is not so bad as the Gallic absurdity of never knowing who has won the last kiss from the "madame."—Louisville Courier-Journal.

Quite So.
"Love is a joint stock concern," murmured the girl. "Sort of a holding company," opined the young man, as he gently shifted her to his other knee.

Use for Dried Potato Vines.
Experiments in Germany seem to have shown that dried potato vines have the same value for feeding stock as good meadow hay.

How Michigan Farmers Are Successfully Fighting Live Stock Diseases

If you are not doing something to rid your farm animals of the deadly stomach and intestinal worms you are simply **Letting Down the Bars** to hog cholera and all the other fatal diseases which have cost the farmers of this country over fifty millions of dollars the past year. YOU can't afford to run this risk. YOU can't afford not to take preventive measures. The best way of preventing these deadly plagues from getting a foothold among your stock is to keep every animal **worm-free** and in the best possible condition.

Worms are the cause of 90 per cent of live stock losses. Thousands of Michigan farmers have learned this fact and by effectually striking at the cause have successfully won their fight. They have found "an ounce of prevention is better than a pound of cure." Read how they have stopped the loss and improved the value of their live stock.

"I have had SAL-VET in all my sheep, hogs and pigs and also to one of my best horses and it has done me a world of good. I have never had a wormy animal since I started using SAL-VET. It is the best thing I have ever used for worms. It is so easy to use and so effective. I have had it in my sheep, hogs and pigs and it has done me a world of good. I have never had a wormy animal since I started using SAL-VET. It is the best thing I have ever used for worms. It is so easy to use and so effective." — FRED MARKER, Michigan.

"I have been feeding my SAL-VET to my sheep, hogs, horses and calves for some time and feel that I would not be able to do without it. It keeps all my stock in fine condition and in a high state of health, and since feeding your stock SAL-VET I have seen no evidence of worm infestation. I can only recommend SAL-VET to every stockman." — W. M. E. ANDERSON, Pres. Fourth National Bank, Grand Rapids, Mich.

The Great Worm Destroyer and Live Stock Conditioner

Look Out for These Danger Signs

Coughing, rough coats, laggard steps, poor appetites and dull eyes. These are the common symptoms of worm infestation and should disease break out in your neighborhood the chances are a hundred to one against you, and your entire herds may be swept away with a suddenness that will appall you. You can greatly lessen this danger from disease if not altogether avoid these heavy losses simply by letting your stock run on "Sal-Vet"—the cheapest and greatest worm destroyer as well as the best preventive of live stock diseases.

"Sal-Vet" is a medicated salt which works a wonderful change in all live stock. It first destroys and expels the deadly worms and gives nature a chance to put every animal you own in a healthy, vigorous condition. It is the best stock insurance you can get. It costs so much. For one-fourth of a cent a day any hog or sheep can run it freely and will doctor themselves. It costs only a trifle more for larger animals and requires no mixing, no dosing, no drenching, no starving—no bother at all. I prove all this or no pay.

Here is My Money-Back Trial Offer

Simply call at my "Sal-Vet" dealer's store and get enough "Sal-Vet" to last all your stock 60 days. Take it home with you and place it where all your farm animals can run to it freely. Then watch results. If "Sal-Vet" does not do what I claim—if it does not rid your stock of the deadly stomach and intestinal worms and prove entirely satisfactory TO YOU, simply return the wrapper and we will refund your money in full. You won't be out a single penny. I take all the risk. Remember, you get ALL your money back if you are not pleased. You certainly can't afford to risk the loss of a single animal when such a fair, square, liberal offer like this is made to you. You know your dealer—he accepts your word as to the results. You take no risk whatever.

SIMPLY R. FELL, Pres., The S. E. Fell Co., Cleveland, Ohio

To Our Patrons: Get rid of the worms in your stock and watch your profits grow. "Sal-Vet" is giving wonderful satisfaction to our customers. We carry it in stock and will gladly arrange to let any farmer in this vicinity try it 60 days on Mr. Fell's liberal money-back offer. Come in and get a supply the next time you come to town. We guarantee "Sal-Vet" and back up every statement in this advertisement. You take no risk. You'll find it the cheapest stock conditioner you ever used.

John Mone does not gain in health as fast as his friends would like to see him do.
News was received here Monday of the death of the infant child of Mr. and Mrs. Walter Kingsley at Sheldon. They have our sympathy in their bereavement.

The ice of Wednesday made it almost impossible for one to get out at all. Mail carrier Dickinson left his horse at the Center Tuesday and made four miles of his trip on foot.

The high wind of last Friday did considerable damage in these parts to buildings, but all feel very thankful for being spared the terrible fate that our sister States met with.

The heavy general turnout on Wednesday to raise the German church sheds and get them back to place after the work done by the elements last Friday.

H. C. Peck's folks visited at Otto Hawk Jr.'s last Sunday.
Mrs. Martlett of Elyria, O., formerly of this place, is visiting friends here this week.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.—Adv.

Mrs. Willard Sherman, who has been sick for the past week, is much improved at this writing.

Wm. Hirschlieb attended the Gleaner State Federation at Flint Wednesday and Thursday of last week.

Mr. and Mrs. Henry Beyer and family visited relatives here Saturday and Sunday.

Mrs. James Freekleton, who has been very sick with pneumonia, is convalescing.

Mary Long, who is working west of Plymouth, spent Sunday at home.

The heavy wind which swept this district last Friday, laid low a toolshed for Wm. Beyer, twisting and breaking the lumber considerably, broke in the roof of the church sheds and did much other damage in this vicinity.

Harvey Meldrum was at Livonia Center Friday and after tying his horse under the sheds went into the store, when it was reported that the sheds had blown down. Going out Mr. Meldrum found his horse down and pinned under the debris, but with a little help the animal was gotten out with only a few slight scratches.

Miss Mamie Theuer of Detroit visited her cousin, Miss Elizabeth Theuer, a few days last week.

A very pleasant time was had the 13th of this month at a party given at Mrs. Becker's home in honor of her birthday. Among the friends present were Mrs. Ida Smith of Easton, Michigan, Mrs. James East, Rhoda, Edward Holmes, George Baehr and Wm. Parmelee of this place.

Mr. John Beyer visited friends at Flint a few days last week and was also in attendance at the Gleaner State Federation held at that place.

Indies writes he held at the home of Mrs. Fred Theuer April 2nd, to which all are invited.

Chas. Hirschlieb, who has been attending a college at Chicago, has returned home, after finishing a course in the work offered there.

Arthur Hanchett is confined to the house with rheumatism.

Miss Helen and Donald, Raymond and Lawrence Hanchett have the measles.

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets. Many have been permanently cured by their use. For sale by all dealers.—Adv.

Miss Bertha Cady visited Mrs. John Kubik of Perrinsville last Thursday.

Mr. Wendland of Detroit Sundayed at home.

Mr. and Mrs. Joseph Roach and two sons spent Easter Sunday with the former's mother, Mrs. Kubik of Perrinsville.

Mr. Beebe moved his family onto the farm he recently purchased of A. D. Fitcher.

NEWBURG.

Easter services were fine last Sunday but on account of the stormy day only a few were present.

Last Friday's wind storm did a good deal of damage in this section. Wm. Farley's silo was blown over, as was also one on Harmon Smith's farm. Part of Bethune Stark's barn was unroofed. Mr. LeVan had two large windmills demolished. At C. E. Ryder's one window broken, roofing blown off the porch, a number of trees in the wood and orchard blown down, fences laid low in every direction. Some of the evergreen trees in Newburg cemetery were laid low, necessitating a few of the men to turn out and getting them out of the driveway. They also burned off the dead grass, making a decided improvement.

The heavy wind of last Friday also blew a brand new baby boy into the home of Mr. and Mrs. Fred Geney. We extend congratulations.

The many friends of Mr. and Mrs. James Joy are sorry to have them move away. They are leaving Wednesday for their new home near Wiscom. A host of friends wish them Godspeed in their new venture.

Mrs. Beckholt of Detroit has been staying with her daughter, Mrs. James Joy, and expects to go with the Joy family to their new home.

Mrs. James King is spending the most of her time at the home of her daughter, Mrs. Clark Sackett, who, with her daughter Ulah and baby girl, are sick with the measles.

The matron's contest of Plymouth will give their entertainment at Newburg hall Wednesday evening, April 2. Music furnished by Meldrum's orchestra. The Misses Youngs and Mr. and Mrs. Harmon Kingsley will sing. Admission 15 cents. You will be more than pleased to hear these ladies.

Sunlight harbor will hold their regular meeting April 4th at Newburg hall. All members are requested to be present as business of importance will be transacted.

Easter company at the home of Mr. and Mrs. Mark Joy were as follows: Mr. and Mrs. James McNabb and Miss Vina Joy of Detroit, Mr. and Mrs. M. S. Weed of Plymouth and James Joy and family. All partook of a fine dinner served by the hostess.

Mr. and Mrs. Frank Blakely of Detroit visited at Reuben Barnes' Tuesday.

Margaret Stevens is sick with measles. Aunt Desire Stark died at the advanced age of 87 years Tuesday, at the home of her niece, Mrs. Mary Stark Gardine. Further notice next week.

You judge a man not by what he promises to do, but what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.—Adv.

Farmers' Listen!

If you are looking for nice large FENCE POSTS, we have them. We also have smaller ones at less price. We have a good supply of DRAIN TILE of both kinds, that we are selling at attractive prices. We have a big stock of WHITE PINE BARN SIDING that we are selling a lot of just now. You better get yours home while the stock is full.

To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid medicine.

We honestly believe we have the best bowel remedy ever made—the most pleasant-to-take, most permanently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements if we did not feel sure you would find them true.

Our faith is built both on the knowledge of what **Rezall Ordinaries** are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk
If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them—we will refund your money—and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in property doing their work—just let their action be delayed and incomplete and the entire system and every other organ suffers. We mean that.

CAUTION: Please bear in mind that **Rezall Ordinaries** are not sold by all drug stores. You can buy **Rezall Ordinaries** only of the following:
