In And Around Plymouth

The first robin has been seen in Plymouth.

Novi's new town hall will be dedicated today.

Fowlerville is agitating a sewer system for that town.

Pontiac will have a pay-up week and February 21-28 has been designated as the time.

At the coming spring election Oxford will vote on the proposition of maintaining a public library in the village.

Congressman Beakes of this district, has introduced in congress a bill to limit by constitutional amendment the president to one term of six years.

The grip makes it impossible for some people to go to church, but when it comes to a show or dance—that's different. —Farmington Enterprise.

Called Lake is furnishing good fishing for the day. One day recently six fish weighing between six and seven pounds were caught, the largest of the season being caught by G. Madison, and weighed 14 pounds. —Farmington Enterprise.

The pastor of the Congregational church at Hillsdale evidently considers his position a business one. He has appointed a town-town office which he can use for his own use where all business meetings of the church are held.

The first of the new 1-2 ton auto trucks put out by the Plymouth company will be finished next week. Mr. Porter, the engineer, and Mr. Eddy, sales manager, say the price for a splendid car at a moderate price is very interesting and they believe this truck will fill the bill and be a winner. —Northville Record.

At the stockholders' meeting of the Crown Pender Co., of Ypsilanti, held last week, C. H. Bennett, Fred Bennett and John Patterson of this village were elected directors. At a meeting of the directors C. H. Bennett was elected president and Fred Bennett vice president. Reports showed the company to be in an excellent condition with splendid prospects.

F. D. Schrader of this village and N. C. Schrader of Northville, have been the grand rapid several days this week purchasing their new spring stocks of furniture for their two stores in Plymouth and Northville. The big furniture show is in full swing in Grand Rapids now and progressive dealers from all over the country visit the furniture city and select their goods for the spring trade as first hand.

The "wets" for the "wets" of Detroit county are again asking for a reversal of the order of the supervisors who during the county dry, and on Wednesday, Jan. 26th, of the 1915 session, issued an order to show the petition to compel the supervisors to allow the county wet should not be granted. The seven day February 1st. Copies of the order were served upon each member of the board. —Farmington Enterprise.

The Ladies' Aid Society of the First Presbyterian church will give a social party at the home of Mrs. C. Bennett last Wednesday afternoon, Feb. 2nd. All members are expected to be present and bring their own supplies.

Amulet Suffer

The Plymouth Amulet Association will hold a banquet at the village hall, next Thursday evening at 7:30 o'clock. The program of the evening will consist of a dinner, a play, a song and a talk. The banquet will be held in the hall and all are invited to attend. The proceeds of the evening will be used for the benefit of the association.

Henry Slade Passes Away

David Henry Slade was born in New York State in 1832. At an early age he moved to Plymouth and the most of his life was spent in this village. The time he was absent from Plymouth was spent in the northwest, where he resided for twenty years. In 1906 he returned to this village. Mr. Slade had been in poor health for about three years and succumbed to his illness on Wednesday morning at 2:25 o'clock at his place of residence on East Ann Arbor street. He leaves to mourn their loss a wife, a daughter, Mrs. Eva Coe of Lansing, Mich., two granddaughters and a half-sister, Mrs. Carrie Bast, of Detroit. The funeral service will be held at the Presbyterian church this (Friday) afternoon, at 2 o'clock, Rev. B. F. Farber officiating. Interment will take place in Riverside cemetery.

Gas Company Elect

New Officers.

The stockholders of the Plymouth & Northville Gas Co. held their annual election of officers at the company's office in this village Jan. 19, with the following results. Directors: F. S. Harmon, Northville; Coello Hamilton, Plymouth; C. A. Fisher, Plymouth; C. A. Fox, Plymouth; Chas. A. Dolph, Northville; Chas. F. Roberts, Plymouth. Following a meeting of the stockholders the directors chose the following officers: President—F. S. Harmon; Vice Pres.—Coello Hamilton; Secretary—C. A. Fox; Treasurer—C. A. Fisher.

The stockholders voted to increase the capital stock of the company \$5000. Twenty-five hundred dollars of this amount has already been taken by Northville citizens. The affairs of the gas company are in a most satisfactory condition, and for a concern that is just getting nicely started the outlook for the future seems very bright. The company have many applications for gas as soon as the service work can be begun in the spring, and there is every indication that they will be supplying gas to six hundred consumers in the two towns before the coming summer is over.

Two in One

The first division of Ladies' Aid Society of the M. E. church will serve supper in the dining room of the church Tuesday, Feb. 1, from five o'clock on. If you like pancakes, sausage and syrup, come! Have all you want. If not, come anyway, there will be another supper for you, as the menu below indicates.

Dr. E. L. Ferguson, the new veterinary, discovered a case of glanders the other day. He reported the matter to the State Live Stock Commission who sent Dr. George Dunphy, state veterinary here to investigate the case Wednesday. Dr. Dunphy found the animal suffering with this dreaded disease and ordered it destroyed immediately.

Bad Health

Those who breakfast at eight o'clock or later, lunch at twelve and have dinner at six are almost certain to be troubled with indigestion. They do not know that the best health is secured by eating a light breakfast at nine o'clock, a light lunch at twelve and a light dinner at six. If you are troubled with indigestion, or any other ailment, you may reasonably expect to be cured by following these simple rules.

The Woman's Literary Club

The eighth meeting of the Woman's Literary club was held at the home of Mrs. Ebered Jolliffe last Friday afternoon, the attendance numbering about thirty-five. In the absence of the president, the vice president, Mrs. R. E. Cooper presided. The response to roll call was given by naming a noted educator. Educational Institutions was the topic for the afternoon program and the papers prepared by the eighth division with Mrs. O. M. Rockwell as leader, were given as follows: 1 Public School—Mrs. Louis Hillmer; 2 Colleges—Mrs. O. M. Rockwell; 3 Technical School—a paper written by Mrs. Wm. Travis was read by Mrs. Leon Christwell; then followed a paper, "Lighthouses for the Blind" by Mrs. Frank Shattuck. Current events by Mrs. Leon Christwell concluded the program. The club adjourned to meet in two weeks with Mrs. F. D. Schrader.

CHAPTER XXII.

The Price of Peace. Important events have a way of striking from ambush, without warning...

And with a shudder to the boy's ears came an echo, "Absalom!" He dropped beside the bed, gathered the white head in his arms...

The dying man looked up with that glowing fire in his keen eyes. "Have I not waited for this hour?" he smiled...

"My Boy!" He whispered brokenly. "I have let you make your start with the bare purchase price of your undertaking, struggle along on insufficient capital, fight to make your ends meet..."

The great specialist, standing in the curtained alcove of the window behind the empty wheeled chair, turned anxiously. Little Doctor Gentry came forward, hesitating.

to the little south room, scratching luxuriously, and promptly jumped as the door swung swiftly inward. Again Fate smiled implacably and sent at that auspicious moment the first good breeze of the warm day pucking up the valley...

The girl in the doorway turned, reaching out a half-unwilling hand to save her ritual's property. Not yet had Siletz learned a tenth of Sandry's code, else she would have folded the packet and laid it aside.

Grand Rapids.—President H. H. Crowell of the Michigan Railway company, Monday said that plans are being made for the erection here of a \$750,000 terminal for all interurban roads entering this city.

Grand Rapids.—Grand Rapids' new South high school, costing \$450,000, was dedicated Monday. Governor Ferris and Superintendent of Public Instruction Fred L. Keeler were the principal speakers.

Ann Arbor.—After having been married 43 years, Mrs. Theresa Gufter of Augusta township has been granted a divorce from William Gufter, whom she charged with repeated cruelty. They have two children.

Fort Huron.—Mr. and Mrs. Charles F. Jones on Monday observed the sixty-second anniversary of their marriage. Mr. Jones is a pioneer engineer of the state and was in the employ of the Grand Trunk for 30 years before retiring.

Jackson.—The body of the woman who was killed by a Michigan train Sunday afternoon, was later identified as being that of Mrs. Rose Mills of Jackson. She was thrown 100 feet and every bone was broken, according to the coroner.

Get the habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons. Millions of folks bathe internally now instead of loading their systems with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate from any druggist or storekeeper. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Teacher's Power Over Children Evidently Was Not as Great as She Had Imagined. An Indianapolis young woman who has been taking a Normal course at an institution for deaf children, told on her return to the city for a short visit of her experience the first few days...

More Home Rules

Singleton—What would we do with our women? You know the old maxim: "The hand that rocks the cradle rules the world." Wedgwood—I don't know about it ruling the world, but I know the hand that rocks our cradle rules the home, and we pay her \$5 per week the date.

Gilbert Stuart

Gilbert Stuart (1755-1828) was born in Narragansett, R. I., the son of a snuff-grinder. At the age of fifteen, without any instruction whatever, he began to paint portraits that attracted the attention of a young Scotch artist named Alexander, who took him to Scotland in 1771. In 1774 he returned to America, where he resided for a year. He went back to London in 1775, and for a short time he played the organ in a small church in that city. In 1778 he entered the studio of Benjamin West at Philadelphia, but later set up a studio of his own, and remained working there for some years.

Harbor Objects to Him

The old British sergeant was out with the new squad of recruits on musketry exercise, range-finding, etc. Pointing out a large house and giving the range, he asked if any of them could pick out any details about the house. "Yes, sir," answered Joe "There's a small well in the garden, some lumps of coal in a heap, and a birdcage in the front window."

THE NEWEST REMEDY FOR BACKACHE, RHEUMATISM AND DROPSY

Kidney, Bladder and Uric Acid troubles bring misery to many. When the kidneys are weak or diseased, these natural filters do not cleanse the blood sufficiently, and the poisons are carried to all parts of the body. There follow depression, aches and pains, heaviness, drowsiness, irritability, headaches, chilliness and rheumatism. In some people there are sharp pains in the back and loins, distressing bladder disorders and sometimes obstinate dropsy. The uric acid sometimes forms into gravel or kidney stones. When the uric acid affects the muscles and joints it causes lumbago, rheumatism, gout or sciatica. This is the time to send Dr. Pierce, Invalide's Hotel, Buffalo, N. Y., 10c for large trial package of "Anuric."

During digestion uric acid is absorbed into the system from meat eaten, and even from some vegetables. The poor kidneys get tired and backache begins. This is a good time to take "Anuric," the new discovery of Dr. Pierce for kidney trouble and backache. Neglected kidney trouble is responsible for many deaths, and insurance companies examining doctors always test the water of an applicant before a policy will be issued. Have you ever set aside a bottle of water for twenty-four hours? A heavy sediment or settling sometimes indicates kidney trouble. If you wish to know your condition send a sample of your water to Dr. Pierce's Invalide's Hotel, Buffalo, N. Y., and describe symptoms. It will be examined without any expense to you, and Dr. Pierce or his medical staff will inform you truthfully. Anuric is now for sale by dealers, in 50c packages.

John Inclined to Resent Innuendo That He Habitually Stayed Away From Church.

"What's that song they're singing now?"

"Rock of Ages."

"Rock of Ages? Well, that's the first time I ever heard those words to 'Rock of Ages,' and that's the first time I ever heard that tune to it. Must be something new. Nice window they got there, ain't it?"

"Ye-ees, I should say it is!"

"I don't think I'll care much for your new preacher—don't like his collar."

"John!"

"Well, I don't! And I don't like the way he says 'dear,' neither. If your other preacher hadn't talked like he had a lot of potato in his mouth all the time I'd have come oftener. Lots of times I came here just on your account, and sat here in misery."

"Yes, how many times were you here in the last year?"

"Wasn't I here last Children's day?"

Folled.

"Tompkins was around trying to borrow money today. I thought he married a widow with three or four millions."

"He did, and then discovered to his sorrow—that she intended to keep them."

SCANDAL QUICK TO SPREAD

How It Comes That Indianapolis Lady Is Unjustly Accused of Smoking Cob Pipe.

Quite a number of Indianapolis people have cottages in Brown county, to which they go to spend the week-end. Among these are Mr. and Mrs. H—, who have a cozy log house on a hillside near Nashville. Mr. H— is fond of a pipe, particularly of a cob pipe. The other day, having mislaid or lost his solace of his resting hours, he called his boy-of-all-work and said: "Josh, go to the grocery and get me a cob pipe. Well, get two while you're at it and pick out good ones."

As Josh came out of the grocery with the pipes in his hand, he was hailed by a group of acquaintances: "Hello, Josh, where did you get them pipes?"

"Mr. H— sent me fur 'em."

"Sent y' fur two?"

"Yen."

"Well, one of 'em must be for the missus. Dinged if I knew before that she smoked."

And now the news is abroad in the Brown county hills that Mrs. H— smokes a cob pipe.—Indianapolis News.

Now They Don't Speak.

"He says he can read much in my face."

"Between the lines, I suppose," suggested the other girl.

INDIA IS QUIET AND LOYAL TO BRITAIN IN WAR

Only Disturbances Are Caused by the Ever Restless Warlike Border Tribes.

TO ASK VOICE IN EMPIRE

One Effect of War Will Be Demand by India for Greater Degree of Autonomy—Mohammedans of India Are Greatest Bulwark of the British Rule.

London.—All efforts to stir up serious trouble for the British in India have so far failed signally. The few seditious movements noted have had their origin in Hindu organizations which antedate the great war.

When it is considered that the population of India—215,000,000—is more than three times that of the United States, the relative insignificance of the few outbreaks in the last year and a half is evident.

In such a great nation disorders are inevitable, in either war or peace, just as the United States or any other nation is never quite free from labor troubles causing loss of life or property. All the information, official and otherwise, received here, shows that the Indian empire is profoundly quiet, except for the ever-restless, warlike border tribes of the Northwest.

The rulers of the great native independent or semi-independent states, from the sultan of Hyderabad, with his 14,000,000 people, down to the ruler of his tiny principality, King George V of England. They have contributed liberally of their public and private means to assist Great Britain against her enemies. Many of their relatives are active members of the British army.

The Mohammedans of India, far from being an element to be distrusted, are the greatest bulwark of British rule. This minority of 75,000,000 has always sided with the British as its protectors against the more numerous Hindus. It is stated here that no Mohammedan has ever been convicted of complicity in a treasonable enterprise in India.

Just Quiet Farmers.

It must be remembered that of the 300,000,000 people in India at least 250,000,000 are quiet, uneducated, gentle agriculturists, quite uninterested in politics, asking from their government only a chance to till their little farms in peace and caring no further as to the character of their rulers.

It must not be concluded from these facts that the world war is without important effect on India. The Hindu intellectual leaders see the growing prominence of Canada, South Africa, Australia and New Zealand in the empire. They know that these British dominions will soon ask a place in the councils of the empire, and a voice in the peace congress which shall follow the war.

They believe that the time has come for India to have a voice in the empire, too. They demand a further degree of autonomy for India, something approximating the freedom of England's white dependencies.

This was clearly set forth by the Indian National congress at Bombay on December 30, which unanimously adopted a resolution demanding self-government for India.

At the same time the delegates to the congress heartily applauded Baba Surendranath Banerjee when he said: "India's devotion to the throne during the war has been unsurpassed."

Fellow Feeling Among Asiatics.

India, like other eastern nations, is permeated, too, with the spirit of "Asia for the Asiatics." Despite the long hostility between certain nations, notably China and Japan, there is developing a fellow feeling in Asiatic nations against European dictation. An illustration was an incident which occurred in Tokyo in December.

Two young Indians, British subjects, received 36 hours' notice to leave Japan, the reason being their alleged complicity in German plots to foment disturbances in India. The notice was so timed that the only vessel by which the departees could sail was bound for Shanghai, where they were liable to arrest by the British consul.

The Indians laid their hard case before sympathizers in the Japanese press. Leading independent politicians were approached. In a few hours a formidable agitation was afoot. A deputation waited on the foreign minister and asked that the order should be withdrawn or altered so as to permit the Indians to board a ship bound for America.

The minister refused, whereupon the government was defied. A leading member of the diet who delights to act the part of a "rouin," or free lance (literally a warrior without a lord), took the Indians to his home and kept them there till the time specified in the order had expired.

The authorities drew a cordon of police round his house but did not risk entering and removing the Indians. Next morning they covered up their capitulation by saying the Indians had escaped, which nobody believes.

\$100 ENOUGH FOR A KISS

Women Sew for \$100, but Arkansas Jury Decides That Is Too High.

Fort Smith, Ark.—A jury in the circuit court found a verdict for the defendant in the suit of Mrs. Della M. Gerts against Sam Street, a wealthy property owner, whereby the plaintiff sought \$1000 damages on the ground that the defendant had seduced her.

The jury returned a verdict for the defendant, awarding her \$100. The jury's decision was based on the fact that the defendant had seduced the plaintiff when she was only 17 years of age.

TERROR IN SERBIA

Guerrilla Chief Metes Out Stern Justice to Evildoers.

"Executed" Man Escapes and Is Now Safe in America After Being Stabbed and Thrown Into Vardar River.

Belgrade, Serbia.—One of the most picturesque figures of the European war is the Serbian "komitadjil" or guerrilla Ivan Stokovitch, known to fame as "Babounsky." The name is drawn from the famous Babouna Pass, where recently the Serbs so long held the invading Bulgarians at bay. Ivan Stokovitch comes from that part of Serbia and is therefore known to his followers and to the Serbian population at large by a nickname indicating the fact.

A slight man, tall, with honest gray-blue eyes and the pale features of a student, he impresses the stranger with anything but the terror which his name inspires. Nor do his looks belie his real profession. For the redoubtable "Babounsky" was a schoolteacher until fired by an ardent patriotism he gave up his classes to gather about him a band of intrepid spirits in the fight for the release of the Turkish part of Serbia from the Ottoman yoke.

Ever since the first Balkan war he and his followers have been under arms. Unrecognized by the laws of war, they have taken their own risks of capture and instant execution. Their refuge is in the Serbian mountains, and they have been willing to trust their security to their own astuteness and the impregnability of their numerous hiding places.

Especially since the complete breakdown of the Serbian administration, has "Babounsky" become a personage of prime importance in Serbia. Before the advancing German and Bulgarian armies turned after town was evacuated, only the Turks and the Bulgarians remaining. While waiting for the arrival of the armies of their compatriots they were not averse to going through the deserted Serbian dwellings and acquiring a few useful articles. "Babounsky" did not approve of this. Naturally the deserted dwellings and all in them would fall into the hands of the conquerors. That was all right—the chance of war. But that former neighbors should do the looting was not in "Babounsky's" code. And those who tried it were dealt-with in a most summary manner.

Whoever among the Bulgarians was suspected of giving information to the advancing Bulgarian armies also received short shrift. A story is told of the first Balkan war when a certain pseudo-Serb known as "Kechko" was suspected of treason to the Serbian cause. "Babounsky's" hand appeared upon the scene one night and "Kechko" and four others were arrested, tried in secret by the band and sentenced to death. The bodies of the Vardar river, stabbed and thrown in, their bodies to drift down with the current to Saloniki. All five were lined up on the bank. "Babounsky" gave the signal for the fatal blows to be struck. But unfortunately "Kechko's" executioner, a lawyer from Belgrade, had never killed a man before and his hand slipped. The five bodies were thrust into the Vardar, but "Kechko" was still alive.

A week later the Serbian consul at Saloniki was called to the hospital. "Kechko" told him the story of his escape from death, but begged that it be kept secret until after his departure for the United States. Ultimately recovered from the unskillful stab of the Belgrade lawyer, "Kechko" quietly departed for America.

Whenever the allied troops have need of fresh meat or wood or mules one of the officers acquaints a Serbian with what is required. The next day 20 sheep, two cords of wood, or 100 mules are brought into Negotin or Kaphadar, as the case may be, by a Serbian peasant. The peasant collects an equitable sum for the goods delivered, and in time each Serbian who has been involuntarily levied upon for lamb or wood or mules receives his payment. "Babounsky" does not even keep a commission.

SAW AND CHOP FOR CHURCH

Wood Enough to Heat the Place for the Winter Is Provided in One Day.

Columbus, Ind.—How to get wood to heat the Garden City Christian church through the winter bothered some of the members of the church, which is situated two miles southwest of this city. Then somebody suggested a "wood chopping and sawing." The members of the church turned out the other day, cut down trees, sawed the logs into proper lengths, and then split the blocks into stove wood. Mrs. Mack Neptune, one of the members of the church, served dinner at noon. Rev. W. H. Book, pastor of the Tabernacle Christian church of this city, used a cross-cut saw a part of the day.

TERROR IN SERBIA

Guerrilla Chief Metes Out Stern Justice to Evildoers.

"Executed" Man Escapes and Is Now Safe in America After Being Stabbed and Thrown Into Vardar River.

Belgrade, Serbia.—One of the most picturesque figures of the European war is the Serbian "komitadjil" or guerrilla Ivan Stokovitch, known to fame as "Babounsky." The name is drawn from the famous Babouna Pass, where recently the Serbs so long held the invading Bulgarians at bay. Ivan Stokovitch comes from that part of Serbia and is therefore known to his followers and to the Serbian population at large by a nickname indicating the fact.

A slight man, tall, with honest gray-blue eyes and the pale features of a student, he impresses the stranger with anything but the terror which his name inspires. Nor do his looks belie his real profession. For the redoubtable "Babounsky" was a schoolteacher until fired by an ardent patriotism he gave up his classes to gather about him a band of intrepid spirits in the fight for the release of the Turkish part of Serbia from the Ottoman yoke.

Ever since the first Balkan war he and his followers have been under arms. Unrecognized by the laws of war, they have taken their own risks of capture and instant execution. Their refuge is in the Serbian mountains, and they have been willing to trust their security to their own astuteness and the impregnability of their numerous hiding places.

Especially since the complete breakdown of the Serbian administration, has "Babounsky" become a personage of prime importance in Serbia. Before the advancing German and Bulgarian armies turned after town was evacuated, only the Turks and the Bulgarians remaining. While waiting for the arrival of the armies of their compatriots they were not averse to going through the deserted Serbian dwellings and acquiring a few useful articles. "Babounsky" did not approve of this. Naturally the deserted dwellings and all in them would fall into the hands of the conquerors. That was all right—the chance of war. But that former neighbors should do the looting was not in "Babounsky's" code. And those who tried it were dealt-with in a most summary manner.

Whoever among the Bulgarians was suspected of giving information to the advancing Bulgarian armies also received short shrift. A story is told of the first Balkan war when a certain pseudo-Serb known as "Kechko" was suspected of treason to the Serbian cause. "Babounsky's" hand appeared upon the scene one night and "Kechko" and four others were arrested, tried in secret by the band and sentenced to death. The bodies of the Vardar river, stabbed and thrown in, their bodies to drift down with the current to Saloniki. All five were lined up on the bank. "Babounsky" gave the signal for the fatal blows to be struck. But unfortunately "Kechko's" executioner, a lawyer from Belgrade, had never killed a man before and his hand slipped. The five bodies were thrust into the Vardar, but "Kechko" was still alive.

A week later the Serbian consul at Saloniki was called to the hospital. "Kechko" told him the story of his escape from death, but begged that it be kept secret until after his departure for the United States. Ultimately recovered from the unskillful stab of the Belgrade lawyer, "Kechko" quietly departed for America.

BIG EATERS HAVE BAD KIDNEYS AND BACKACHE

Take a Glass of Seltz at Once If Your Back Is Hurting or Kidneys and Bladder Trouble You.

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness. Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

GENTLE RUBBING HELPS VARICOSE VEINS

Rubbing the swollen veins nightly for about two minutes with a gentle upward stroke brings benefit to sufferers and is mighty good advice, says an authority.

After the rubbing, which should always be toward the heart, because the blood in the veins flows that way, apply Emerald Oil (full strength) with brisk massage.

Try this simple home treatment for a few days and improvement will be noticed, then continue until veins are reduced to normal. It is very concentrated and penetrating and can be obtained at any modern drug store. It is so powerful that it also reduces Gout and Wens.

A KIDNEY REMEDY THAT NEVER FAILS

EXPERIENCED DRUGGISTS IN EVERY STATE RECOMMEND AND USE SWAMP-ROOT IN THEIR OWN FAMILIES

Dr. Kilmer's Swamp-Root sells well because it invariably produces good results in kidney, liver and bladder troubles. We sold a dollar bottle to one of the inmates of our Soldiers' Home near here, and after using it he brought in about one dozen gravel stones, some as large as a pea, which he had passed. He states that he obtained wonderful relief from the use of Swamp-Root.

WOMAN AVOIDS OPERATION

Medicine Which Made Surgeon's Work Unnecessary.

Astoria, N. Y.—"For two years I was feeling ill and took all kinds of tonics. I was getting weaker every day. I had chills, my head would ache, I was always tired. I could not walk straight because of the pain in my back and I had a heavy breakfast with my husband. I went to a doctor and he said I must go under an operation, but I did not go. I read in the paper about Lydia E. Pinkham's Vegetable Compound and told my husband about it. I said 'I know nothing will help me but I will try this.' I found myself improving from the very first bottle, and in two weeks time I was able to sit down and eat a hearty breakfast with my husband, which I had not done for two years. I am now in the best of health and did not have the operation."—Mrs. JOHN A. KORNIG, 602 Flushing Avenue, Astoria, N. Y.

Every one dreads the surgeon's knife and the operating table. Sometimes nothing else will do; but many times doctors say they are necessary when they are not. Letter after letter comes to the Pinkham Laboratory, telling how operations were advised and were not performed; or, if performed, did no good, but Lydia E. Pinkham's Vegetable Compound was used and good health followed.

FIND GOODNESS IN PLEASURE

People Are Beginning to Understand That It is a Mistake to Work Too Hard.

For a good many years we read a creed that the only way to reap men or women good was to work them to death. We didn't consider ourselves virtuous unless we ended each day so tired-weary that we had no ambition for anything but bed.

The doctors are telling us now that there is a fatigue poison, that we owe it to ourselves not to overwork. The great labor unions are demanding shorter hours and graded work, so that men and women workers shall not be overtaxed, and so that the few may not be overworked and underpaid at the expense of the many.

We are learning very, very gradually, that man was not created to labor 18 hours out of the 24 in order that he may have the privilege of eating and sleeping. Very, very gradually we are being taught that we are partners in God's pasture, and that, rich or poor, we have the right to take our share of sunshine and fresh air and an idle time to enjoy them.

A fair measure of leisure in each day is necessary to cultivate sweetness and sanity of soul, and the man or woman, boy or girl, so overworked that there is no opportunity for recreation, never reaches the higher planes of being.

Indeed, too much work has often been as much a breeder of crime as too much idleness. Sometimes it is a desperate effort to escape from the grind. More often it is an intelligent craving for excitement—"something different."

I believe it is in one of Aesop's fables where we are told of the man who was so busy grubbing in the muck heap that he never had time to look up and see the crown above his head.—Philadelphia Bulletin.

Age of Elephants and Parrots. Berkeley-Wilmet, in his "Life of an Elephant," says that these animals live one hundred years under favorable circumstances. R. Lydekker in his "Great and Small Game of India" says of the Indian elephant that its age depends upon its teeth.

Definite information as to the age of parrots is hard to find. In a work on "Parrots in Captivity" one black Madagascar specimen in the London zoo is mentioned, which was presented to the society full grown in 1831, and was still alive and well in 1884. Several others about twenty years old are mentioned.

MADE THEM BOTH ASHAMED

Frail Newboy Taught Irritable Business Men the Folly of Giving Way to Temper.

Apparently it had been a bad day for the big, pompous business man, and he must have dealt heavily in wheat just before the 2,000,000-bushel contract was canceled, for he slammed his office door shut with a bang and mumbled something profane concerning the breaks in the market as he stumbled out into the street.

He might have known that one of us would have to turn out, but he expected me to do it, and I wasn't in a pleasant frame of mind myself, what with a trying headache all afternoon and a fuss with the boss. So I didn't propose to get out of somebody's way when I was on the right side and he was wrong.

Well, we couldn't walk through each other, so we just naturally came together, while the big business man proceeded to cuss me as he had just finished cursing the market, and I tried to make him understand that he couldn't walk over me, regardless of markets.

Then Benny came hobbling along; Benny Paul, who was whistling to beat the band! His small, frail body was bent on crutches and he was lugging a big bundle of papers that seemed almost too much for him, but he was whistling just the same. Not a worry nor a care, making the best of today and hoping for the best from an uncertain tomorrow. He stopped and smiled. "Paper, mister?" he called cheerily.

I exchanged a sheepish glance with the big business man, and he dug down in his trousers pocket and said: "I'll take the whole bundle." Then he paid Benny for them and gave them back and I bought them and did the same thing, and we all whistled!—St. Paul Pioneer Press.

His Precarious Condition. "I overheard someone saying that your nephew, Emmett Uekles, is lying in a critical condition. What is the nature of his complaint?"

"He isn't making any," replied Uncle Foggy. "It is his wife who is doing the complaining. You see, Emmett went to Kansas City not long ago to buy goods, and a few days after his return there came a dainty note signed 'Your Little Sunshine.' It fell into his wife's hands, and he has been lying ever since. I should call his condition middle' trinket, too, for I don't see how in tunkit, he is going to falsify his way out of it.—Kansas City Star.

Wide Awake. An abnormally fat man lumbered into a Pullman on a west-bound train, and set up a loud protest when he found that his berth was at the end of the car.

"I can't sleep a wink if I'm over the car wheels. I won't close my eyes if you put me over the car wheels, porter."

"Can't help it, sah," said the porter. "It's the one that was sold you, and it's the only one there is. You'll have to take a chair car and set up if you don't take this."

The fat man finally decided to keep the berth, protesting to the last that he did not expect to close his eyes. Shortly his snore were heard above the rumble of the train, but it was not until the train had a long wait that the sounds issuing from the berth caused anything but amusement. In the attack, however, they got on the passenger's nerves, and by request the porter probed him in the ribs.

"My goodness, sah," exclaimed the porter. "If you make snore like that when you're in the berth, you'll never get any sleep. You'll have to take a chair car, sah, if you won't sleep in the berth of the car."

Council Had A Lively Session.

Ever since the action of the electric light committee in the removal of B. J. Havershaw as superintendent of the municipal electric light plant, and the subsequent resignation of Mr. Havershaw, last November, there has been considerable discussion of the matter pro and con. The climax in the situation came Monday morning when President Louis Hillmer took the matter into his own hands and ordered Mr. Havershaw to take charge of the light plant and also removed Trustee George Robinson as chairman of the electric light committee and as president pro-tem of the council, and appointed Trustee A. V. Jones to fill both places. Mr. Havershaw went to the light plant and he and his men remained on duty all day, together with the men who have been employed there. Marshal Springer was on hand to see that perfect order was maintained.

A special meeting of the council was called by several members of the council for the same evening to take some action in the matter. When President Hillmer called the meeting to order the council chamber was packed with interested spectators, who anticipated a lively session. Trustee Tighe, member of the electric light committee opened the argument of the evening, by asking President Hillmer what authority he had for re-instating Mr. Havershaw as superintendent of the light plant. Mr. Hillmer replied that he had assumed the same authority that the light committee had in discharging him from the position. President Hillmer stated that he had no legal authority in the matter, but that he had taken the action because he had been urged to do so because by many citizens who were not satisfied with conditions at the light plant and the service.

Then came up the matter of the removal of Trustee Robinson as chairman of the electric light committee and as president pro-tem. Trustee Tighe argued that the president did not have the authority to remove Mr. Robinson from these positions. Mr. Hillmer took issue with him on this point and cited the law governing matters of this kind. A lively discussion followed in which several of the councilmen took part and the matter was finally laid on the table until the next regular meeting of the council. During the discussion of the question, Trustee Robinson asked President Hillmer why he had been removed from the chairmanship of the electric light committee and as president pro-tem. Mr. Hillmer declined to give any specific reasons other than he was acting within his authority.

Trustee Jones stated that complaints had reached him in regard to conditions at the light plant and the service. People wanted a change made, and many had urged the re-instatement of Mr. Havershaw as superintendent, and he would therefore make a motion that Mr. Havershaw be re-instated as superintendent. The motion found support in Trustees Streng, but on being put to an aye and nay vote was lost. The council voting as follows; aye: Jones and Streng. Nay: Tighe, Robinson and Laug. Ladd not voting.

Trustee Robinson then made a motion which was supported by Trustee Tighe that Wm. Wilson be employed by the council as superintendent and to employ his own help. This motion was carried. The council also voted to employ Alfred Lyon to have charge of the outside work, but to do no other work on the time of the village.

Another important motion which was made and carried was that which makes it necessary that all employees at the light plant secure engineers papers within 30 days or be removed.

Mr. Wilson, the new superintendent has been in charge of the plant since Friday, January 21. He has been employed there since Mr. Havershaw quit, but has not been in actual charge.

THOUGHT SHE KNEW COFFEE

Young Lady, Tasting Beverage Made of Refuse, Declared It Unmistakably the Right Thing.

A great many people who flatter themselves that they are judges of coffee or other beverages may learn a lesson of caution from the experiments carried on by Sir Hiram Maxim when he was trying to find a palatable preparation of wheat and coffee. It occurred to me, says Sir Hiram in "My Life," that very few people knew much about coffee. One Sunday I brought out from the Maxim Lamp works about thirty young men and women. My stenographer was also present; she was one of those young ladies that know all—from whose decisions there is no appeal.

I had cleared off a long bench and arranged on it a large number of cups, milk, sugar, cream, much coffee, and plenty of apparatus for making coffee. I got from the army and navy stores various kinds of coffee that were supposed to be the very best in the world, such as Mocha, Java, and so forth, and I also got from a dealer in coffee some of the sweepings and sittings of his shop—small, imperfect, and broken kernels. These I freed from dust and dirt, roasted and ground, and mixed with three times their weight of chicory. I was ready for the test.

My shorthand-writer came in, tasted the Mocha, the Java, the Costa Rica, and pronounced them all very bad. She then tried some of my wheat coffee, which she said, was also bad, but not so bad as the others. But when she reached the mixture of sittings and chicory she was delighted. "That is coffee!" she said, with an air of finality. "That's it! That's the right stuff!"

In all probability the young lady had never tasted a cup of genuine coffee in her life until that Sunday morning.

REFORESTATION GREAT WORK

What the Industrial Accident Board Has Done in a Year, and How Timber is Growing Under Proper Care.

Lansing, Mich.—Attention of the Michigan railroad commission has been directed to a communication from an Indianapolis school teacher to the public utilities commission of Indiana, which apparently made a poor investment in a Michigan concern, and who believes her experience should serve as a warning to the Indiana commission in regard to a proposed merger of two big gas companies in that state.

"I saved from my small wages, and when I saw that the state of Michigan authorized those bonds, I thought it would be a good place for a permanent investment and saving for my old age," says the woman. "The company, however, is already in the hands of a receiver and the bondholders are holding the sacks. I am only a small investor. Indeed, it took some time for me to save the \$500 I thus tried to lay aside. The state of Michigan permitted the impression to be given me and other investors that its regulatory body had investigated and then authorized the issue of bonds by this company."

There is no record either in the railroad commission or the office of the secretary of state that the company is in the hands of a receiver. The railroad commission authorized an issue of \$30,000 in capital stock and \$45,000 in bonds November 13, 1913, and the company filed its annual report with the secretary of state December 31 of that year.

What the Indiana school teacher says about the Michigan commission having authorized the stock and bond issue of the Peoples' Light & Power company of Constantine is true, but as Commissioner Glasgow says, the commission is without any authority to guarantee to the investing public that such concerns will be properly managed and will be paying ventures.

Under the terms of the Michigan law the state railroad commission is required to authorize stock and bond issues to public utilities companies for any amount equivalent to the actual value of the physical property owned by the corporation.

In the case of the Peoples' Light & Power company, it was demonstrated to the satisfaction of the Michigan railroad commission that the property of the concern was actually worth \$75,000. In these matters the word of the promoter is not accepted. An appraisal of the property is made by Dean Geesey of the University of Michigan or a member of his engineering department. Where the property is not worth the amount requested by the corporation, the application is denied.

Hardly a week passes that some company desirous of raising money does not appear before the railroad commission with an inventory of inflated value. If the company's report does not tally with the report of the university engineers the promoters are told to take their application and return home.

Cases similar to that of the Indiana school teacher have arisen in Michigan. A few weeks ago a farmer in the northern part of the state wrote to the commission and told how he had sold his farm for \$8,000 and invested it in the stock of a telephone company, the issue of which had been authorized by the commission.

"I am sorry," said Commissioner Glasgow, "that some people take the authorization of a certain stock issue by the state railroad commission to mean that it is endorsed by the commission as an investing proposition. We are simply here to see that no stock is issued that is not represented by tangible assets. We do not accept franchises and good will. It is up to the people to investigate these propositions to some extent before placing their money in them."

The state accident fund is not included in this report, as the state was not authorized to cover medical and hospital service until special provision for this was made by the last legislature. Although in some instances the awards of the industrial accident board were reviewed by the courts, compensation in the big majority of cases was paid without litigation and the load of many a widowed mother has been lightened through the administration of this law which was designed to bring about prompt settlements without recourse to the courts.

The industrial accident board was killed on an average of each working day for the year 1915. The total number of accidents reported during the past twelve months was 39,781, of which 332 were fatal. The fatal accidents are classified according to industry, and from this classification it appears that the largest number of accidents occurred in mining, the total being 116.

Lands Deeded Back. Auditor General Fuller is deeding back to the state 2,589 more lots in Roscommon county that have been held for non-payment of taxes. This makes nearly 10,000 lots in Roscommon county sold a number of years ago by enterprising real estate speculators that have been returned to the state for delinquent taxes.

The State's Forest Reserve. When the public domain commission formally accepts the policy of reforestation given to it by the state forester Marcus Schaaf—and there is every indication that it will do so within a few months—Michigan will begin to take rank with any of the states in the matter of reforesting waste lands.

For several years the Michigan forestry department has been slowly building up to the time when planting of trees in the waste lands of the northern peninsula and the northern part of the southern peninsula could become a reality. The nursery which was established at the Higgins lake reserve is now on the way to the zenith of its capacity to turn out trees for planting.

It is planned by the same time to get ready to plant about 4,500 acres a year and keep on working at the plan until all of the state's land which can grow white and Norway pine is covered. By the time the planting of these lands is completed the first crops should be ready for harvest and then the planting can proceed all over again.

The state now has control of about 525,000 acres, about one-half of which Mr. Schaaf thinks can be used for planting purposes. The rest he does not think is good enough ground even for trees.

On one of the forest reserves now there are pine trees 11 years old. This is the oldest which the state has tenderly watched and cared for, and the trees are just beginning to loom up as real component parts of a forest. Since 1904 there have been plantings on a small scale each year so that already the state has some crops coming in rotation. The acreage which was planted each year has increased. During the spring and fall planting seasons last year 1,097 acres were planted.

To carry out the plan for years to come it will be necessary for the legislature to increase the appropriation somewhat, but Mr. Schaaf thinks he can get along with a comparatively small increase. As far as planting has proceeded, it costs about \$5.50 an acre.

GERMANS MAKE NEW ONSLAUGHT

RENEWAL OF HEAVY FIGHTING ON WEST FRONT—CAPTURES FRENCH POSITIONS.

DUNKIRK IS BOMBARDED

New Attack Will Probably Reach Its Highest Effort on German Emperor's Birthday.

Paris—Germany has opened a vigorous offensive in Belgium with the evident intention of making a new drive at Calais and the English channel. After a heavy artillery bombardment near Nieuport the Germans launched an infantry attack on a front a mile wide. They captured several French positions of the first line, but were expelled later from most of this territory.

The British force that is moving up the Tigris river in Mesopotamia for the relief of the British army of 45,000 that is surrounded by the Turks at Kut-el-Amara has lost 6,000 in killed and wounded in recent fighting. Monastir and Giogvill, Serbian towns recently captured by the Teutons and Bulgars, have been bombarded again by French aeroplanes.

THE PHILIPPINE QUESTION

Reported That Wilson Will Have Freedom in Two Years.

Washington—Granting of independence to the Philippine islands in not less than two years and not more than four years, may be favored by the Wilson administration, Senator Hitchcock, chairman of the senate Philippine committee, discussed with President Wilson a provision to that effect which Senator Clarke, of Arkansas, had introduced as an amendment to the pending Philippine bill.

BLOWER PLANT BLOWS UP

Four Killed and Many Others Are Missing.

Buffalo, N. Y.—Four persons are known to have been killed, several are missing and four were injured in an explosion that wrecked the plant of the Kelker Blower company, manufacturers of planing mill exhausts and ventilators.

MEASLES STRIKE TOLEDO

Many Deaths Are Reported By Local Health Board.

Toledo—One thousand cases of measles with 11 deaths resulting therefrom were reported by local health authorities.

TELEGRAPHIC FLASHES

Washington—American exports increased 70 per cent in 1915 and reached a total of \$3,555,000,000, breaking all previous records.

Buenos Aires—The Hamburg-South American Steamship Co.'s coasting steamer Fradette Mire, which was seized in November of Cape San Antonio, by a British transport, has arrived at Buenos Aires, having been restored to her owners.

Paris—Jack Johnson, it is said, wants to come back to the U. S. A. The Negro boxer has grown tired of Europe and tired of being urged to come and make of himself a target for German guns. It is said that he will come back to the U. S. A. if he can get a fight with a white man.

Vom Schauplatz des europäischen Völkerrkrieges.

Die Lage bei Saloniki ist eines der großen Rätsel des Krieges. Jeder Aste hatte eine deutliche Offensive gegen die anglo-französischen Saloniki-Stellungen schon vor Wochen erwartet. Es schien jedem logisch zu sein, daß die glücklich vollendete ferbische Kampagne ihre Fortsetzung in Griechenland, hinter dessen Neutralität die Alliierten sich sehr verzagt hatten, finden würde.

Es ist nicht ausgeschlossen, daß die montenegrinische Kampagne bisher ein Grund zu der abwartenden Haltung der Zentralmächte war. Eine Landung von Alliierten Truppen in einem montenegrinischen oder albanischen Hafen war eine Möglichkeit, mit der man ernstlich rechnen mußte.

Die Einnahme von Roeben hat die Gefahr für die Zentralmächte befreit, und für den Beobachter muß es desto unerklärlicher bleiben, daß die Alliierten die bei Antwerpen gemachten Erfahrungen nicht ausnützten und eine starke Armee nach Montenegro warfen, um wenigstens den Schloß zu Montenegro und Nordbalkanien zu retten.

„Graben“ Raunen werden in England fabriziert.

Berlin, drahtlos. (Uebersetzung Nachrichten-Agentur.) Brest-Depeche aus Ardenne melden, fürzlich sei die unübliche Erfindung gemacht worden, daß hohe russische Offiziere und Armeekorpsbefehlshaber in der Nähe von Paris eine Fabrik errichtet hätten, in welcher gefällige Gräben und Gräben, hauptsächlich japanische Artillerie, nachgeahmt worden seien. Diese Gräben hätten als russische Gräben bezeichnet und seien in England fabriziert.

Der englische Genie als Friedensstifter.

Berlin, drahtlos. Das Berliner Tageblatt behandelt in einem längeren Artikel das Verhältnis zwischen Deutschland und den Ver. Staaten auf Grund der kürzlich erschienenen Debatte im Kongress in Washington. Die Zeitung zitiert an mehreren Stellen amerikanische Blätter, (welche diese in Deutschland eingeworfen, und gibt ihren Beobachtern darüber Auskunft, daß es geradezu unmöglich sei, eine vollständige Kenntnis von den Verhältnissen in Amerika zu erlangen, wie es ja wahrheitsgemäß ist, daß auch in den Ver. Staaten keine vollständigen Angaben über Deutschland zu erlangen seien, da die englische Genie alles unterdrücke, das dazu angetan sein könnte, zur Verletzung eines guten Verhältnisses zwischen den beiden Ländern beizutragen.

Die Zeitung schließt mit der Erklärung, Deutschland betrie um Niemandes Freundschaft begreife aber alle Zeichen eines gegenseitigen Verständnisses zwischen der deutschen und der großen amerikanischen Nation mit Freuden, hoffe es doch, mit diesem Volk nach dem Krieg sein vorteilhaftes Verhältnis zum Vorteil beider aufrecht erhalten zu können.
