Another New Factory Coming to Plymouth

The purchase of the Alter Motor Car Co. plant by Kate E. Allen of this village, Wednesday, means the addition of another manufacturing industry for Plymouth. Mrs. Allen has sold the property to Otto Wurm of the Wurm Plumbing Manufacturing Co. of Detroit, who will move their plant here at once. The sale was made through the Security Trust Co. of Detroit, who were recently appointed in the federal court as trustees of the Alter Motor Car Co. of this village. Paul W. Vochter was the receiver. The personal property of the Alter Motor Car Co. will be sold at public auction, July 28th. The Wurm Plumbing Manufacturing Co. of which Otto Wurm is the principal stockholder, have set down their present quarters in Detroit and have been seeking a new location for some time. They are now employing thirty men. Mr. Wurm is quite well known in Plymouth, having installed the heating plant in the old school house some years ago. The coming of this new factory means much to the industrial life of Plymouth, and is another indication that our advantages as a manufacturing center are becoming more and more recognized by manufacturing concerns. The coming of the new plant confronts us with the serious proposition of housing the families of the men who will come with it. With all of the houses that have been built this summer, it is almost impossible to find a house to rent in town. Some moderate priced renting houses would not be a bad investment. Who will build them? If Plymouth grows we must have houses.

Do Your Ironing
 in cool ease, in comfort and in half the time, with an
Electric Flat Iron
 An electric iron will make your ironing an easy and pleasant task. You are welcome to try one, and to return it if you want to.

Bible Class Elect New Officers
 Mrs. Louis Hillmer was hostess to the Bury Women's Bible Class of the Presbyterian Sunday school, Tuesday afternoon. Twenty-three were present. It being the annual meeting, the following officers were elected for the ensuing year:
 President—Mrs. Wm. Tillotson
 Vice Pres.—Mrs. Louis Hillmer
 Secretary—Mrs. George Cranmer
 Treasurer—Mrs. Edie Roberts
 Teacher—Mrs. J. R. Ratch
 Assistant—Mrs. Ann Joy
 A pot-luck dinner was served on the porch, two long tables being spread with an abundance of food things to eat. By invitation the class will be entertained by Mrs. Melburn Partridge, Tuesday, August 14.

Death of an Old Resident
 Mrs. Charlotte Francis Butler, aged 82 years, for many years a resident of Plymouth, died at the Elmer hospital, Monday, July 18. The funeral services were held from the Behrman Bros. chapel, Tuesday at 12:00 o'clock noon. Rev. Carl E. Miller officiating. The interment took place in Woodmere cemetery, Detroit.
 Charlotte Francis Butler was born at Fennville, Michigan, July 18, 1856. She was the daughter of Andrew Backus and Hannah Harding Allen. In the early fifties she moved to Detroit with her parents, spending the summers at Fort Brady, near St. Marie, where her father was receiver of public monies for the use of government land. She was educated at the Monroe academy, which was at that time a branch of the University. Early in life she became a Christian and for a good many years was an active member of St. John's Episcopal Church, Detroit. She was married to John Butler, August 23, 1877, with whom she lived until his death, Sept. 14, 1899. A few years later her brother, Sylvanus Butler, came to live with her until his death, February 10, 1916, after which she was cared for at the Elmer hospital, St. Luke's hospital and the hospital at Eloise, where she died July 18.

A Serious Accident
 While returning to his home near Beach Sunday evening, at ten o'clock, Harry Linstraw was hit by an auto and thrown off his bicycle near Mr. LeVar's house, breaking his left leg above the knee and dislocating his shoulder and otherwise injuring himself, also smashing his bicycle. The driver of the machine did a cowardly act in not stopping to render assistance to the poor boy, who by his cries for help aroused the neighbors, who hastened to his aid. He was taken to the home of Mr. Carron at Newburg, where Dr. Patterson, assisted by Dr. Kimble, treated the fracture and relieved his sufferings. Monday morning he was taken to his home in Schrader's ambulance, where he is getting along as well as could be expected.

PRESIDENT HITS DOLLAR PATRIOTS

Asks Business Interests to Put Aside Selfishness and Give Aid to Nation.

SHIP OWNERS ARE CONDEMNED

There Must Be One Price for Government and for Public, Says Wilson—Justice is Keynote of Appeal.

Washington.—President Wilson appealed to the country's business interests Wednesday to put aside every selfish consideration and to give their aid to the nation as freely as those who go to offer their lives on the battlefield.

The president's statement follows: "The government is about to attempt to determine the prices at which it will ask you henceforth to furnish various supplies which are necessary for the prosecution of the war, and various materials which will be needed in the industries by which the war must be sustained. We shall, of course, try to determine them justly and to the best advantage of the nation as a whole; but justice is easier to speak of than to arrive at, and there are some considerations which I hope we shall keep steadily in mind while this particular problem of justice is being worked out.

Promises Just Price. "Therefore I take the liberty of stating very candidly my own view of the situation and of the principles which should guide both the government and the mine owners and manufacturers of the country in this difficult matter.

"A just price must, of course, be paid for everything the government buys. By a just price I mean a price which will sustain the industries concerned in a high state of efficiency, provide a living for those who conduct them, enable them to pay good wages, and make possible the expansions of their enterprises which will from time to time become necessary as the stupendous undertakings of this great war develop.

Must Face the Facts. "We could not wisely or reasonably do less than pay such prices. They are necessary for the maintenance and development of industry, and the maintenance and development of industry are necessary for the great task we have in hand.

"But I trust that we shall not surround the matter with a mist of sentiment. Facts are our masters now. We ought not to put the acceptance of such prices on the ground of patriotism."

"Patriotism has nothing to do with profits in a case like this. Patriotism and profits ought never in the present circumstances be mentioned together. "It is perfectly proper to discuss profits as a matter of business, with a view to maintaining the integrity of capital and the efficiency of labor in these trying months, when the liberty of free men everywhere and of industry itself trembles in the balance; but it would be absurd to discuss them as a motive for helping to serve and save our country.

"Patriotism leaves profits out of the question. In these days of our supreme trial, when we are sending hundreds of thousands of our young men across the seas to serve a great cause, no true man who stays behind to work for them and maintain them by his labor will ask himself what he is personally going to make out of that labor.

"No true patriot will permit himself to take toll of their heroism in money or seek to grow rich by the shedding of their blood. He will give as freely and with an unstinted self-sacrifice as they. When they are giving their lives, will he not at least give his money?"

Assault "Bribery." "I hear it insisted that more than a just price, more than a price that will sustain our industries, must be paid; that it is necessary to pay very liberal and unusual profits in order to stimulate production; that nothing but pecuniary rewards will do—rewards paid in money, not in the mere liberation of the world.

"I take it for granted that those who argue thus do not stop to think what that means. "Do they mean that you must be paid, must be bribed, to make your contribution, a contribution that costs you neither a drop of blood nor a tear, when the whole world is in travail and also everywhere depend upon and call to you to bring them out of bondage and make the world a fit place to live in again, amidst peace and justice?"

Appeals to Honor. "Do they mean that you will exact a price, drive a bargain, with the men

who are sacrificing the agony of this war on the battlefields, in the trenches, amidst the lurking dangers of the sea, or with the bereaved women and pitiful children, before you will come forward to do your duty and give some part of your life's work, peaceful fashion, for the things we are fighting for, the things we have pledged our fortunes, our lives, our sacred honor, to vindicate and defend—liberty and justice and fair dealing and the peace of nations?"

"Of course you will not. It is inconceivable. Your patriotism is of the same self-denying stuff as the patriotism of the men dead or maimed on the fields of France, or else it is not patriotism at all.

Full Dollar's Worth. "Let us never speak, then, of profits and of patriotism in the same sentence, but face facts and meet them. Let us do sound business, but not in the midst of a mist.

"Many a grievous burden of taxation will be laid on this nation, in this generation and in the next, to pay for this war; let us see to it that for every dollar that is taken from the people's pockets it shall be possible to obtain a dollar's worth of the sound stuff they need.

"Let us turn for a moment to the ship owners of the United States and the other ocean carriers whose example they have followed, and ask them if they realize what obstacles, what almost insuperable obstacles, they have been putting in the way of the successful prosecution of this war by the ocean freight rates they have been exacting.

Making War a Failure. "They are doing everything that high freight charges can do to make the war a failure, to make it impossible.

"I do not say that they realize this or intend it. The thing has happened naturally enough because the commercial processes which we are content to see operate in ordinary times have without sufficient thought been continued into a period where they have no proper place.

"We are not questioning motives. I am merely stating a fact, and stating it in order that attention may be fixed upon it.

"The fact is that those who have fixed war freight rates have taken the most effective means in their power to defeat the armies engaged against Germany. When they realize this we may, I take it for granted, count upon them to reconsider the whole matter. It is high time. Their extra hazards are covered by war risk insurance.

Warning is Sounded. "I know, and you know, what response to this great challenge of duty and of opportunity the nation will expect of you; and I know what response you will make.

"Those who do not respond, who do not respond to the spirit of those who have gone to give their lives for us on bloody fields far away, may safely be left to be dealt with by opinion and the law—for the law must, of course, command those things.

"I am dealing with the matter thus publicly and frankly, not because I have any doubt or fear as to the result but only in order that in all our thinking and in all our dealings with one another we may move in a perfectly clear air of mutual understanding.

Think Not of Self.

"We must make prices to the public the same as the prices to the government. Prices mean the same thing everywhere now. They mean the efficiency or the inefficiency of the nation, whether it is the government that pays them or not. They mean victory or defeat. They mean that America will win her price once for all among the foremost free nations of the world or that she will sink to defeat and become a second-rate power alike in thought and in action. This is a day of her reckoning and every man among us must personally face that reckoning along with her.

"The case needs no arguing. I assume that I am only expressing your own thoughts—what must be in the mind of every true man when he faces the tragedy and the solemn glory of the present war, for the emancipation of mankind.

"I summon you to a great duty, a great privilege, a shining dignity and distinction. I shall expect every man who is not a slacker to be at my side throughout this great enterprise. In it no man can win honor who thinks of himself."

687,000 MEN IN FIRST DRAFT CALL

President Issues Order Calling Soldiers Into the Service of United States.

1,262,985 MEN IN THE ARMY

War Department Announces the Quota to Be Furnished by Each State—Credit Given for Men Now in Service.

Washington.—The war department has promulgated a formal order from the president drafting 687,000 men into the military service of the United States under the selective conscription law. The order shows what part of the total must be furnished by each state and territory.

The only steps now remaining are distribution by the governors of state quotas among the local exemption districts and the great lottery, which probably will be held next week and which will establish the order in which registrants are to present themselves for service or exemption.

The men summoned for service will be used to fill the regular army and National Guard to war strength and to organize the first 500,000 of the new national army.

Total to Be 1,262,985. The total of these three forces will be 1,262,985 men.

Later another 500,000 will be called out, supplemented by sufficient men to make up losses and maintain reserve battalions.

Following is Secretary of War Baker's announcement of the order:

"By virtue of the authority vested in him by an act of congress, entitled 'An Act to Authorize the President to Increase Temporarily the Military Establishment of the United States,' approved May 13, 1917, the president of the United States has ordered the aggregate number of 687,000 men to be raised by draft for the military service of the United States in order to bring to full strength the organizations of the regular army and the

2700 MEN OFFER TO JOIN AS OFFICERS

SECOND OFFICERS' RESERVE TRAINING CAMP CLOSED IN RUSH OF APPLICANTS.

RESULTS PLEASE COMMITTEE

These Selected Will Be Notified When and Where to Appear For Examination.

Registration for the second-officers reserve training camp came to a close and more than 2,700 Michigan men have offered themselves for service. The state's quota, 482, will be selected from the applicants. Recruiting for the camp ended with a rush, 281 men registering in Detroit and about 100 in the outside districts.

"The committee is pleased with the result," said D. Dwight Douglas. "For a time it looked as though Michigan would not produce sufficient applicants to insure the selection of 482 qualified men for the camp. As the period advanced the applicants came in until the number desired was exceeded."

The next step in the selection of men for the camp will be taken when the examining board, after looking over all of the applications, selects about one-third of the total applicants to take the second medical and mental tests. These men will be selected because their business, college or executive experiences as cited on the blank indicate that they have the qualifications for leadership desired by the government.

It is expected this work will be completed in a few days. Those selected will be notified when and where to appear for examination. Those not selected will be notified. This will be done so that men not believed qualified by experience will in no way be inconvenienced in a business or professional way through a desire to hold themselves in readiness for the camp.

Guard Freed From Fire. Under direction of the recently organized Conservation Association of Michigan, which in turn is working under direction of the National Board of Fire Underwriters, more than 100 trained underwriters, inspectors are now making a survey to obtain correct and detailed information for the United States government concerning all food depositories and forms of merchandise that it is desired shall be properly safeguarded from destruction by fire or other agencies during progress of the war.

The work is an outgrowth of a campaign begun by the federal government shortly before the United States entered the European war. In this campaign the entire service, resources and facilities of the National Board of Fire Underwriters was placed at disposal of the government through Secretary Baker, of the war department, by R. M. Bissell, president of the national board.

Through this assistance the government, within six days was supplied with information concerning grain elevators, flour mills, produce warehouses, cold storage plants, packing houses and other forms of property and of merchandise, throughout the United States. The value of this information, it is said, could not be estimated in dollars and cents and the National Council of Defense admitted it would have required years to obtain it through other channels.

The Conservation Association of Michigan was formed in Lansing June 1, at a meeting in the senate chamber of the state capital. There were present more than 100 trained underwriters and inspectors.

Sand Dredgers Pay State \$15,000. The state of Michigan has finally secured a settlement with the sand dredgers in various waters, and may be enriched about \$30,000. Already Assistant Attorney General Ballie and Glenn Munnaw, representing the public domain commission, have received about \$16,000 from Detroit firms. Companies dredging sand on the west coast and around Isle Royale are yet to be settled with.

The settlement is on basis of five cents a cubic yard since 1915 and at the rate of two and one-half cents on all prior to that date. From now on all sand must be paid for at five cents a cubic yard. Most of the money so far collected comes from dredgers on the St. Clair flats.

State Has Spent \$163,164.04.

State Treasurer O'Dell submits a report to the war preparedness board showing \$163,164.04 expended for military purposes out of the \$5,000,000 appropriated by the last legislature.

The principal items of expense are: War preparedness board, \$5,816.67; food preparedness committee, \$11,163.42; Michigan state troops division, including constabulary, \$49,590.04; state naval brigade, \$4,939.05; Michigan National Guard, \$33,317.32; military reservation, \$11,921.24; Home Guards, \$734.33; dependents' relief, \$2,942.86; registration boards, \$1,172.21; and road for aviation camp, \$4,611.81.

Deceased Officer Appointed Henry Miller, 1914 City, died last week of pneumonia at the Soldiers' Home, Detroit. He was 42 years of age. He was a member of the Michigan National Guard and was a member of the Michigan National Guard.

Richmond—Though women spent the entire winter studying school conditions here, they did not vote at the school election.

Greenville—When the infant of Mr. and Mrs. Charles Miers died in her arms, Mrs. Senora Collins was stricken with paralysis.

Charlevoix—Ass Mahoney, who escaped from the Iowa reformatory, fired 16 shots at Sheriff Mowack and his deputies when they met him on the road near here, while searching for him. None of the shots took effect. Mahoney escaped.

Cadillac—A fire starting from the dry kiln destroyed the above mill of E. R. Dupont, Leota; loss, \$11,000.

Holland—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Holland, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Richmond—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Richmond, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Richmond—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Richmond, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Michigan Happenings

Grand Rapids.—Len Coalter, a Kent City farmer, announces he made a net profit of \$209 an acre on 44 acres of peas he has just sold.

Bay City.—Alexander Goebel farmer, who failed to register the draft, furnished \$1,000 bail for his appearance at the next term of United States court.

Jackson.—Howard Graves, of Vandervoort lake, badly burned when his gas balloon in which he was preparing to ascend exploded, hospital attendances believe.

Mason.—William Clark, Millville, White Oak township, was accidentally shot and killed on a fishing trip, according to word received here. He was placing a shotgun in his auto when it was discharged.

Grand Rapids.—Jessie Jones, aged 18, escaped from the county jail. It is believed a hall boy assisted him by giving him a crowbar. Jones had pried off a lock. He had been sentenced to a year and a half at Jackson for larceny.

Menominee.—What may be the last log drive on the Menominee river is nearing this city. The drive is expected to be the smallest since the Menominee River Boom company was organized in 1863. Timber now cut is too far from the river to make it longer available.

Mt. Clemens.—Liquor must be kept away from the privates of Company G, Thirty-third M. N. G., stationed at Selfridge field or Mt. Clemens is in danger of going dry before May, 1918, according to information passed along to the saloon men of the city by Captain Thomas S. Smith, in command of the troops.

Flint.—Fearing that he might be selected for the new army John Bennett, 28 years old, an Italian employed with a Grand Trunk construction crew, is believed to have purposely chopped off his right thumb with an axe. Police say the thumb was cut off in two pieces, indicating the he was done deliberately, although Bennett says it was an accident while he was cutting kindling wood.

Flint.—Flint is almost completely isolated from the surrounding country, because of tornup, impassable roads.

Calumet.—Arthur Smith and Joseph Bullock, privates of Co. A, engineers, killed by a train in Detroit, were buried here with full military honors.

Crosswell.—Confession of several ringleaders led to the uncovering of a band of boy thieves here, many of whom were from prominent families.

Grand Ledge.—When the family with which he lived, returned from a two weeks' absence, they discovered Jas. Wilson, 47 years old, dead in a chair in his room.

Holland.—Thirteen hundred chicks and 350 old birds, all pedigreed, were burned when fire destroyed one of Dr. L. E. Heasley's poultry buildings at Jenson Park. The loss is \$3,000.

Port Huron.—Miss Josephine Bower, 23 years old, St. Louis, while swimming in Gratiot Beach, stepped from a sand bar into deep water, was so frightened she became unconscious and died a few hours later.

Pittsburg.—Now in Russia representing the international committee of the Y. M. C. A., has been named successor to Rev. George R. Catton, who resigned from the presidency of the Benzonza academy.

Traverse City.—Alfred Gross, who has been in a Minnesota lumber camp the last six months, didn't know there had been a registration for selective draft June 5, until he applied to enlist here. None at his camp, he said, knew of the registration. He registered and then enlisted.

Jackson.—Walter C. Miller, bugler of Co. L, Thirty-first Michigan Infantry, who was reported dead on the Mexican border last fall and is so registered on the war books, appeared in his uniform and reported for service. He explains the false report as arising from the fact that a soldier of the same name, but a member of Co. G, died in Detroit last fall. The records at Lansing and Washington will be changed.

Redford.—A company of state troops will be organized here.

Flint.—Protection against bomb plots and fires of incendiary origin aimed at food supplies is planned here.

Port Huron.—Capt. Deneau, who rescued several in the Eastland disaster, jumped into Black river from the Military street bridge to demonstrate a life preserver he just invented.

Owasco.—Barter Brown, local insurance and real estate dealer, and former local option speaker and organizer, was adjudged insane and taken to Ann Arbor for treatment.

Richmond.—Though women spent the entire winter studying school conditions here, they did not vote at the school election.

Greenville.—When the infant of Mr. and Mrs. Charles Miers died in her arms, Mrs. Senora Collins was stricken with paralysis.

Charlevoix.—Ass Mahoney, who escaped from the Iowa reformatory, fired 16 shots at Sheriff Mowack and his deputies when they met him on the road near here, while searching for him. None of the shots took effect. Mahoney escaped.

Cadillac.—A fire starting from the dry kiln destroyed the above mill of E. R. Dupont, Leota; loss, \$11,000.

Holland.—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Holland, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Richmond.—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Richmond, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Under direction of the recently organized Conservation Association of Michigan, which in turn is working under direction of the National Board of Fire Underwriters, more than 100 trained underwriters, inspectors are now making a survey to obtain correct and detailed information for the United States government concerning all food depositories and forms of merchandise that it is desired shall be properly safeguarded from destruction by fire or other agencies during progress of the war.

The work is an outgrowth of a campaign begun by the federal government shortly before the United States entered the European war. In this campaign the entire service, resources and facilities of the National Board of Fire Underwriters was placed at disposal of the government through Secretary Baker, of the war department, by R. M. Bissell, president of the national board.

Through this assistance the government, within six days was supplied with information concerning grain elevators, flour mills, produce warehouses, cold storage plants, packing houses and other forms of property and of merchandise, throughout the United States. The value of this information, it is said, could not be estimated in dollars and cents and the National Council of Defense admitted it would have required years to obtain it through other channels.

The Conservation Association of Michigan was formed in Lansing June 1, at a meeting in the senate chamber of the state capital. There were present more than 100 trained underwriters and inspectors.

Sand Dredgers Pay State \$15,000. The state of Michigan has finally secured a settlement with the sand dredgers in various waters, and may be enriched about \$30,000. Already Assistant Attorney General Ballie and Glenn Munnaw, representing the public domain commission, have received about \$16,000 from Detroit firms. Companies dredging sand on the west coast and around Isle Royale are yet to be settled with.

The settlement is on basis of five cents a cubic yard since 1915 and at the rate of two and one-half cents on all prior to that date. From now on all sand must be paid for at five cents a cubic yard. Most of the money so far collected comes from dredgers on the St. Clair flats.

State Has Spent \$163,164.04.

State Treasurer O'Dell submits a report to the war preparedness board showing \$163,164.04 expended for military purposes out of the \$5,000,000 appropriated by the last legislature.

The principal items of expense are: War preparedness board, \$5,816.67; food preparedness committee, \$11,163.42; Michigan state troops division, including constabulary, \$49,590.04; state naval brigade, \$4,939.05; Michigan National Guard, \$33,317.32; military reservation, \$11,921.24; Home Guards, \$734.33; dependents' relief, \$2,942.86; registration boards, \$1,172.21; and road for aviation camp, \$4,611.81.

Deceased Officer Appointed Henry Miller, 1914 City, died last week of pneumonia at the Soldiers' Home, Detroit. He was 42 years of age. He was a member of the Michigan National Guard and was a member of the Michigan National Guard.

Richmond—Though women spent the entire winter studying school conditions here, they did not vote at the school election.

Greenville—When the infant of Mr. and Mrs. Charles Miers died in her arms, Mrs. Senora Collins was stricken with paralysis.

Charlevoix—Ass Mahoney, who escaped from the Iowa reformatory, fired 16 shots at Sheriff Mowack and his deputies when they met him on the road near here, while searching for him. None of the shots took effect. Mahoney escaped.

Cadillac—A fire starting from the dry kiln destroyed the above mill of E. R. Dupont, Leota; loss, \$11,000.

Holland—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Holland, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Richmond—The infant daughter of Mr. and Mrs. Peter Van Der Burgh, of Richmond, died last week of pneumonia at the Soldiers' Home, Detroit. She was 18 months of age.

Origin of Moon in Doubt. Many theories of the origin of the moon have been advanced, but all seem to present some difficulties. Our satellite furnishes us many unsolved problems. A belief in the meteoric origin of the moon is now quite general. According to this belief the earth was surrounded in the early stages of its existence by a ring of meteoric matter. The material forming the ring gradually gathered into one mass, our present moon, whose pitted face gives evidence of the bombardment it received from meteoric masses within the ring. According to this theory our satellite has always been a dead world, a cold and lifeless mass of meteoric rock. It has never felt the pulse of life or undergone the mighty changes that have passed over its ruling planet. It has remained a cold and silent witness to vast evolutionary processes going on upon a neighboring world such as it could never experience for itself.

The Extinct Billy Goat. Strange is the march of time. The Billy and Nanny goat were once a dominating feature in every American community. A snipehead could not have been taken without a goat somewhere in the picture, but the goat was not deemed a fit insect to honor in swells society. Its product might be admitted across the threshold of the rich, but not its every-day use. The highest standard and the goat has ever attained is the manhood of a volunteer fire company, or a similar office of the U. S. navy, which was practically the lowest rank of any living thing abroad. In his palmy days wild posters were often seen of him in the act of juggling with a glass of fresh milk, and now the American Billy goat is deemed to pass down the line of his becoming extinct.

Amber Lights for Beauty. The electrician of a New York hotel has discovered the secret of making the homely woman look attractive and the pretty woman look like a dream. The trick is amber lights. The roof garden of the hotel is decorated with these lights and they make everybody look like a princess and a queen. "My dear, you look simply wonderful tonight," exclaimed a tall, slender, blonde woman dressed in flax white. "And you were never more beautiful," responded the other, a brunette, as they passed each other on their way to the tables. "How does she manage it?" continued the first, seating herself with an escort, who was attired in immaculate evening clothes. "She really looks quite charming. And she isn't, you know," Amber Lights explained the man if he is concerned the man. "It's a trick of the decorator, and it is a pity more people don't apply for the sake of a week, at least. Amber Lights would be a wonderful help to him. He would be transformed into beauty by the use of the amber lights."

Impassable Road. A very serious winter the night was accompanied by a heavy snowfall, and the roads were impassable. The situation was so bad that the only way to get to the city was by a special train. The train was delayed for several hours, but finally arrived in the city. The passengers were very tired and hungry, but they were glad to be home.

Richmond—The infant daughter of Mr. and Mrs. Peter Van Der Burgh

MOST IMPORTANT NEWS OF WORLD

BIG HAPPENINGS OF THE WEEK CUT TO LAST ANALYSIS.

DOMESTIC AND FOREIGN ITEMS

Kernels Culled From Events of Moment in All Parts of the World—Of Interest to All the People Everywhere.

U.S.—Teutonic War News

The government at Washington has taken steps to mobilize an army of a million men. Approximately 125,000 National Guardsmen were mobilized under an executive order in 11 states. They comprise the first increment of the militia to be drawn into the federal service. It will be not later than October 1 before the majority of the men ordered out will be in France.

The American troops in France spent their first night at their permanent camp Saturday night. The equipment is arriving on schedule time and the transportation is being effected without a hitch. The men will be under fire at an earlier date than had been predicted and expected.

War appropriations of about \$3,000,000,000 in addition to the enormous sums already appropriated or sought will be asked of congress at Washington. It estimates which administration officials have given notice will be submitted next week.

Formal announcement was made by the war department at Washington that 877,000 men will be selected from those registered on June 5 for the first national war army, and to fill vacancies in the National Guard and the Regular army.

Secretary Baker announced at Washington that in the drawing to select men for draft into the war army numbers will be drawn representing every one of the nearly 10,000,000 registered, so that each man may know the order in which he is liable to be called for service.

Rudolph Haecht, cousin of Otto H. Kahn, the banker and prominent in society, was taken into custody at New York by federal secret service men and will be interned on Ellis Island for the balance of the war.

Dispatches to Washington announcing the destruction of the Kansas by a German submarine, said that four members of the crew were missing, but all the armed naval guard was safe. The vessel was valued at \$5,000,000.

Domestic

A cyclone that traveled between Champaign, Ogden and Homer, Ill., blew an Illinois Traction passenger car from the track between Ogden and Homer, injuring seven persons.

Harvey D. Gibson, president of the Liberty National bank at New York, was appointed manager of the American Red Cross by Henry P. Davidson, chairman of the Red Cross war council. Mr. Gibson has announced his acceptance and says he will serve without pay.

Branding Mayor Thompson of Chicago as "disloyal," including Congressman Mason in the same category and hurling verbal shrapnel at all pacifists. Federal Judge Landis brought members and guests of the Hamilton club to their feet in a shouting, cheering outburst.

Thirty men were injured, several probably fatally, in rioting between Americans and foreigners employed in the lead mines at Flat River, Mo. Several hundred men formed an unofficial posse and have undertaken to drive from the town every foreign laborer known to sympathize with I. W. W. agitators or with German agents believed to have been active in the district.

More than 1,100 alleged industrial workers of the World, deported from Bisbee, Ariz., were put aboard 24 cattle cars and sent to New Mexico. The men were driven from the city by Deputy sheriffs and about 2,000 armed men, members of an organization known as the "Citizens Protective League." Two men were killed.

The Nebraska council of defense issued a statement at Lincoln, charging certain professors of the University of Nebraska and "the conspicuous representatives of the Lutheran church" in the state with "disloyal activity and passivity that has tended to give aid and comfort to Germany as an enemy."

A child was killed, a number of people injured and thousands of dollars' worth of damage was done at Fairport, Ill., by a storm which attained cyclonic violence. The three-year-old child of Mr. and Mrs. Frank Pritchard lost her life, and the mother suffered a broken arm.

Sixty industrial workers of the World were arrested near Ellensburg, Wash., by federal troops and accused of interfering with crop harvesting and logging in violation of federal statutes. They will be held in a stockade.

It was officially announced at Washington that the Illinois division of the National Guard will be sent to camp at Newport, Tenn. The Michigan division was ordered to camp at Camp Meade, Md., and the Iowa, Minnesota, Wisconsin and Illinois divisions to camp at Camp Sherman, O.

United States engineers are at the service of the government of Mexico to put an end to the ruin of mines in the northern part of the state. The engineers are to be sent to the state of Chihuahua.

Measures for four of the confinement camps at which the national army will be trained were designated by the war department at Washington as follows: Second division, Yaphank, L. I., Camp Long Island; Third division, Wrightstown, N. J., Camp Wrightstown; Fourth division, Annapolis Junction, Md., Camp Admiral; Fifth division, Petersburg, Va., Camp Virginia.

A petition for a receiver for the Pugh Stores company, capitalized at \$20,000,000, and operating 39 stores in six states, was filed in the superior court at Chicago by stockholders.

Washington

Postal employees throughout the country have contributed \$55,904.31 for Red Cross work. The reports to Postmaster General Burleson at Washington are only partial. Complete returns, it is said, will show a much larger sum.

Secretary McAdoo at Washington ordered that no further information regarding shipping be given out by customs officials. All such information hereafter will be under direction of the department of commerce in order to eliminate conflicting reports.

William H. Gale, former American consul general at Munich, has arrived to take charge of the consulate at Copenhagen. Edward D. Winslow, the present consul general, has been summoned to Washington.

Steel manufacturers have agreed to operate their plants for the benefit of the government until a satisfactory price for their products can be arranged, it was learned at Washington.

President Wilson appealed to the country's business interests to put aside every selfish consideration and to give their aid to the nation as freely as those who go out to offer their lives on the battlefield. In a statement at Washington addressed to the coal operators and manufacturers he gave assurances that just prices will be paid by the government and the public during the war, but warned that no attempt to extort unusual profits will be tolerated.

Foreign

Copenhagen dispatches say that the reichstag resolution on plans for peace negotiations advocate peace, without annexations and indemnities and the freedom of the seas, and oppose economic blockades after the war.

Count Ulrich K. von Brockdorff-Rontzau, one of the great aristocrats of the empire, and a cousin of Count von Bernstorff, has been selected to succeed Dr. Alfred Zimmermann as the German foreign secretary, says a Copenhagen dispatch.

Count Michael Karolyi, leader of the Hungarian independent party, speaking in the house of deputies, declared: "The central point of the present crisis is the question of peace. Every one in Germany wants peace, but it is not enough to desire it, the nation must negotiate for it."

Emperor William of Germany has issued an imperial manifesto declaring for equal franchise in Prussia.

J. Austen Chamberlain, secretary for India, has resigned, says a dispatch from London. Lord Hardinge, the former viceroy of India, also presented his resignation as undersecretary for foreign affairs. His resignation, however, was not accepted.

A rumor has reached Amsterdam, Holland, that the entire German government will resign with Imperial Chancellor von Bethmann-Hollweg, the main committee of the reichstag having refused to vote a war credit unless the government declares its policy regarding peace and reform, which the government has declined to do. An imperial proclamation is considered imminent.

Die Zukunft, Maximilian Harden's publication, has now been suppressed for the remainder of the war, according to the Berlin Tageblatt. Herr Harden will be employed as a military clerk.

Personal

Rear Admiral William H. Emery, U. S. N., retired, died at Newport, R. I. Rear Admiral Emery was sixty-two years old. He was graduated at the United States Naval academy in 1890, and was put on the retired list in 1908.

European War News

Attacks by Russian troops in the Lódzian region, southwest of Kalisz, in eastern Galicia, resulted in the Austrians losing their positions, 1,900 men in prisoners, and a number of guns, the Petrograd war office announced. Elsewhere the Russians held their ground against attacks and took more than 600 additional prisoners.

A strongly organized network of German trenches on a front of more than 800 meters and 200 meters in depth, north of Mont Haut and northwest of Teton in the Champagne, was captured by the French in a brilliant attack, with 800 prisoners, the Paris war office announced.

Official announcement that Kaiser's headquarters of the army in Galicia had been occupied by the British was made at Petrograd, coupled with the statement that the occupation was effected after a sanguinary battle.

An air raid on the enemy fleet of Constantinople was announced by a statement of the British war office at London. Bombs were dropped on the Turkish cruiser Yavuz Sultan Selim, the German cruiser Goeben, and the German battleship Goeben.

More than 1,000 prisoners, including 20 officers, have been taken by the German Marine corps in the Yser region of Belgium. British troops were also engaged in the fighting. The British war office announced that the British were driving back the Germans and that their lines were being broken.

DRYING IN THE SUN

Have All Fruits and Vegetables Properly Prepared?

SIMPLE APPARATUS FOR WORK

Bright, Hot Sunny Days Are Best, and Close Watch Should Be Kept That Rain or Dew Does Not Hit Product—Avoid Insects.

(From FARMER'S BULLETIN 841, United States Department of Agriculture.)

The drying of fruits and vegetables in the sun is a simple process if they have been prepared properly. In its simplest form such drying consists in spreading the freshly prepared slices or pieces on sheets of paper, or, if there is danger of the product's sticking, spreading on old pieces of muslin held down with stones. Bright, hot, sunny days are chosen for this work, and a close watch is kept to see that no rain or dew wets the product. If flies and other insects are abundant, a mosquito bar is thrown over the product. Once or twice a day the slices are stirred or turned over with the hand and the thin ones which dry first are taken out. Sun drying has much to recommend it, since it requires no expenditure of fuel and there is little danger of the product becoming overheated. Dust, however, gathers on the product, and, unless it is protected carefully, flies, and especially certain insects which habitually attack dried fruits, will lay their eggs upon it. These eggs later will hatch out, and the worms, or larvae, will riddle the dried fruits or vegetables, rendering them unfit for the table.

Trays of Uniform Size. Fruits and vegetables, when dried in the sun, generally are spread on large trays of uniform size, so constructed that they can be stacked one on top of the other and protected from rain by means of a cover made of oilcloth, canvas or roofing paper.

A very cheap tray can be made of strips of lumber three-fourths of an inch thick and two inches wide, which form the sides and ends, and lath, which is nailed on to form the bottom. Spaces one-eighth inch wide should be left between the laths for ventilation, and the trays can be raised off the ground by placing them on poles or an improvised trestle. As laths are four

Homemade Drier, Made of Lath and Wire Netting.

three-inch space in the back. The other trays alternate in the same way. This permits the current of heated air to pass around and over the trays. A ventilator opening, about two inches wide and six inches long, is left in the top of the drier, through which the moist air may pass away.

This principle of construction is followed so that currents of air will pass over the product as well as up through it, gathering the moisture and passing away. The movement of the current of air induces a more rapid and uniform drying. The upper trays can be shifted to the lower part of the drier, and the lower trays to the upper part as drying proceeds, so as to dry the products uniformly throughout.

Another Home Drier. Still another home drier is the cook-stove oven. Bits of food, leftovers, especially sweet corn, can be dried on plates in a very slow oven, or on the back of the cook-stove, and for winter use, the oven may be covered with a cloth, and the temperature of the oven noted. Trays for use in the oven can be made from a convenient-sized galvanized wire screen by bending up the edges one or two inches.

Cook-stove driers on the market are of two types. One type consists of a series of trays upon which the material to be dried is spread. These trays are placed in a framework one above the other, forming a compartment through which the heated air flows, carrying off the moisture. The second type consists of a shallow flat metal box filled with water and designed so that one end can rest on the back of the stove

feet long, these lath trays are most economical of material when made four feet in length. Better but more expensive trays can be made by substituting galvanized-wire screen, one-eighth or one-fourth inch mesh, for the laths, in which case the most economical size would depend upon the width of the wire screen obtainable.

A cheap and very satisfactory drier for use over the kitchen stove can be made by any handy boy or carpenter from a small amount of small-mesh galvanized-wire netting and a number of laths or strips of wood about one-half inch thick and two inches wide. The screen may be tacked directly on the framework to make the drying shelves, or the framework can be made to support separate trays. By using two laths nailed together, the framework can be stiffened and larger trays made if desirable. This form or any of the lighter makes of driers can be suspended from the ceiling over the kitchen range or over the oil, gasoline or gas stove, and it will utilize the hot air which rises during the cooking hour. It can be raised out of the way or swung to one side by a crane made of lath when the stove is required for cooking purposes, and lowered or swung back to utilize the heat which otherwise would be wasted when the top of the stove is not in use.

Another homemade cook-stove drier can be used on a wood or coal range or a kerosene stove can be made easily and cheaply. Dimensions: Base 24 by 18 inches; height 36 inches. A base six inches high is made of galvanized sheet iron. This base, slightly flared toward the bottom and has two small openings for ventilation on each of the four sides. On the inside runs a horizontal frame made of 1 or 1 1/2-inch strips of wood. The two sides are braced with 1 1/2-inch strips which serve as cleats on which the trays in the drier rest. These are placed at intervals of three inches. The frame is covered with tin or galvanized sheet from which is tacked to the wooden strips of the frame. Thin strips of wood may be used instead of tin or sheet iron. The door is fitted on small hinges and fastened with a thumb latch. It opens easily. The bottom of the drier is made of a piece of perforated galvanized sheet iron. Two inches above the bottom is placed a solid sheet of

metal-covered cabinet type of homemade drier.

Use of Electric Fan. The use of an electric fan in facilitating drying is feasible for those who already own a fan. It has been found that many sliced vegetables and fruits placed in long trays three by one foot and stacked in two tiers, end to end, before an electric fan can be dried to the requisite dryness within twenty-four hours. Some require much less time. For instance, sliced string beans and shredded sweet potatoes will dry before a fan running at a moderate speed within a few hours. In many cases the electric fan will cost less than one-fourth of a cent an hour to run. The fan should be placed close to the stack of trays, and they should not be filled so full that the air cannot pass freely through them. The fan method has a decided advantage, in that the heated breeze coming to evaporate the water is being dried, thus tending to retain the color and eliminate moldiness.

advanced iron which is three inches less in length and width than the bottom. This sheet rests on two wires fastened to the sides of the drier. This prevents the direct heat from coming in contact with the product and serves as a radiator to spread the heat more evenly.

The first tray is placed three inches above the radiator. The trays rest on the cleats three inches apart. A drier of the given dimensions will hold eight trays. The frame of the tray is made of one-inch strips on which is tacked galvanized screen wire, which forms the bottom of the tray. The tray is 21 by 15 inches, making it three inches less in depth than the drier. The lowest tray, when placed in the drier, is pushed to the back, leaving the three-inch space in front. The next tray is placed even with the front, leaving a

Metal-Covered Cabinet Type of Homemade Drier.

three-inch space in the back. The other trays alternate in the same way. This permits the current of heated air to pass around and over the trays. A ventilator opening, about two inches wide and six inches long, is left in the top of the drier, through which the moist air may pass away.

This principle of construction is followed so that currents of air will pass over the product as well as up through it, gathering the moisture and passing away. Vegetable slices. All kinds of vegetables can be dried in a drier of the type described in this bulletin. The vegetable slices should be dried in a drier of the type described in this bulletin. The vegetable slices should be dried in a drier of the type described in this bulletin.

Vegetable slices. All kinds of vegetables can be dried in a drier of the type described in this bulletin. The vegetable slices should be dried in a drier of the type described in this bulletin.

FREIGHT TRAIN SWITCHED BY HORSES

PERCHERONS USED FOR MOVING LOADED CARS.

When a yard switch engine broke down at Eau Claire, Wis., recently, a train of 19 flat cars, carrying hemlock logs for a paper mill, was switched by two teams of heavy Percheron horses belonging to the paper company. The freight load moved was 118,000 feet of timber, weighing 944,000 pounds, in addition to the weight of the cars. The team weighed 8,400 pounds each.—Popular Mechanics Magazine.

MAKING OVER RAILS

Now Systematically Straightened and Restored.

PLANT WHERE WORK IS DONE

Defects Which Necessitate Removal and Replacement Develop in Eight to Fourteen Years—60 Per Cent Renewed.

It is not generally known that worn rails are now systematically straightened, the worn ends sawed off, and the whole rail restored to service condition. A plant in Illinois where this is done is described in the Railway Maintenance Engineer by John Reiner. All rails in main-line service, Mr. Reiner thinks, will ordinarily develop defects which necessitate removal and replacement in eight to fourteen years. These defects are battered ends and worn fishings add, in curved track, flange-worn heads on the outside rails and crushed heads on the inside rails. Fully 90 per cent of these removed rails may be fitted for further service by appropriate treatment, Mr. Reiner assures us. He says in substance:

Methods of Reclamation. There are two methods of reclaiming rails quite generally recognized as being efficient—one is to heat and re-roll them, reducing the section and theoretically producing a new rail of the original length but of lighter section. The other is to assemble the rails at a centrally located point for inspection, classification, straightening, cropping worn ends, and rebaring for splice-bars.

From the writer's observation the process of re-rolling rails after a service period is successful in that it produces heads of ultimate life over that of simply cropping battered and worn ends. The process, of course, is much more costly than simply cropping the ends at a home plant, and unless the re-rolling plant is in fairly close proximity to the road owning the rails, the cost is prohibitive.

The desired effect of any method is to get the largest possible return from the rails recovered, either in money or in service, which latter ultimately means money, but the value of which in money cannot, for want of data, be so defined in all cases.

At the plant under the writer's jurisdiction the cost per ton for reclaiming rails during 1915 was 49 cents. In the operations of this plant there were reclaimed from scrap condition 2,445 tons of rails, 2,930 tons of which went for ordinary track service and 395 tons for the manufacture of frogs.

Estimating the salvage value of serviceable rails recovered from scrap at \$9 per ton, the operation of this plant shows a clear demonstrable gain of \$22,000.

Working on Rails. Rails passing through the reclaiming plant for reworking are pulled broadside on to the straightening machine (a home-made hydraulic press) by a rope and a belt-drive drum handling from eight to twenty rails at one time. After straightening, the rails are pulled broadside on to the saw table or carriage by means of a horizontal air-hoist manipulated by the straightener.

After removing the rail from the saw-table, the chippers remove the fins or burrs raised by the saws and pass it broadside on to the drills, four of which are in service (two at each end), manned by four men and placed in a staggered position so that four rail-ends are drilled at one time.

When the rails pass out of the mill to the sawed stock piles a man applies a template to the head of each rail marked by the sawyers as a main track or second quality rail to classify them according to depth or thickness. The rollers leading out of the mill are manned by four men who distribute the rails and pile them in stock piles, or load them on cars direct, as desired.

Sorting the rails for condition and uniform thickness of head is of much value in obtaining good track results and economy in maintenance cost. The rails classed as saved main-track rails are calibrated for thickness of head and make as good track joints as new rails if new or worn joint fastenings are applied. The rails classed as second quality rails are as safe as main-track rails. They are more or less worn, but will give good service in branch-line or main-track. The ends will match up to a second class, as the heads are calibrated the same as the heads of the main-track rails.

Private Control of Rails. Private control of railroads in England is being considered. Government control was adopted as a war measure in August, 1914. It has been suggested that the principle will be applied when peace returns.

Private Control of Rails. Private control of railroads in England is being considered. Government control was adopted as a war measure in August, 1914. It has been suggested that the principle will be applied when peace returns.

MAY DRAFT ALIENS IN GREAT WAR CALL

SENATOR CHAMBERLAIN HAS DRAFTED A MEASURE TO MAKE ALIENS SUBJECT TO DRAFT.

INDIVIDUAL CHANCE IS 1 IN 18

Japanese and Italians Are the Only Aliens Exempt Under Treaties With United States.

Washington—As a compromise to senators who have attacked the selective draft bill, claiming it resulted in inequalities in the large industrial cities of the north, two other plans were proposed.

Plan number one calls for the drafting of all registered aliens, except enemy aliens and those exempt by treaties with the United States.

Plan number two provides a reapportionment of the army quotas with the alien registrants left out of consideration. Plan number one would add 1,000,000 to the number eligible for the drawing, and would change the chance of an individual being drawn from one in 15 to above one in 18.

The only aliens exempt under treaties with the United States are Japanese and Italians. Senator Chamberlain, chairman of the senate military committee, has drafted the measure to make all aliens, wherever possible, subject to the draft. The senator said he had not discussed the question with administration officials, and probably would not introduce his bill until he had secured some opinion from the White House or the war department.

Meantime, Representative Dent, chairman of the house military committee, submitted to Secretary Baker a bill introduced by Representative Rogers of Massachusetts, proposing to adopt the other alternative regarding aliens. It would provide that the draft quotas be apportioned according to the population of "military eligible," instead of according to total population, thus excluding aliens from the totals upon which apportionment are made.

"SUFFS" SLEEP IN WORKHOUSE

Sixteen Sent Up for Sixty Days for Picketing White House.

Washington—Sixteen dejected suffragists, sentenced to 60-day terms for picketing the White House, went to bed in the district workhouse at Occoquan, Va., 30 miles below Washington, attired in rough cotton "nighties," amid the odors of the cell house. For 60 nights they will go to bed in the same fashion and for 60 mornings they will awake to a day of labor over the washbasin, in the garden or in the sewing room.

They were given prison garb. No special privileges will be accorded the suffragists. They will miss their silver toilet articles and the comfortable feel of silken lingerie. No delicate luncheons will be sent them and there will be no organ to supply music in the evenings. Assistant Superintendent Ream has decreed that all prisoners look alike to him and that his prison is to be run on democratic principles.

CARSON JOINS WAR CABINET

Relinquished His Post As First Lord of the Admiralty.

London—Sir Edward Carson has relinquished his post as first lord of the admiralty and joined the war cabinet, without portfolio, according to an official announcement of new ministerial appointments. Sir Edward replaces Andrew Bonar Law, chancellor of the exchequer, who has retired from the war cabinet. Sir Edward will be succeeded by Sir Eric Campbell Gaddes, former director-general of munitions supply.

Sir Eric was prominent in railroad work for years in Detroit with the E. & O. railroad.

Winston Spencer Churchill succeeds Dr. Christopher Addison as minister of munitions. Dr. Addison becomes a minister without portfolio in charge of reconstruction.

Edwin Samuel Montagu, a former cabinet minister, is made secretary for India.

Indianapolis—Four persons have been killed and property damaged to the extent of more than \$1,000,000, in a series of terrific storms that swept central and southern Indiana. A score of persons were injured, some seriously. Crops, in several sections, were wiped out.

China—Rains have destroyed crops here. Many farmers were compelled to replant and in some places the second crops are covered with water.

Detroit—Two deserters from the Thirty-third Michigan infantry regiment have been imprisoned. Fred Le Quec, Co. K, an Indian cook, who deserted at Grayling Sept. 13, 1916, has been sentenced to serve 12 months at hard labor in Fort Leavenworth prison. Private Joseph Loomis, of Co. B, who got for 3 days without leave of absence, was sentenced to serve six months.

What—Five thousand men are to be for the annual celebration of the centennial of the Battle of the Marston. Three thousand men and women are to be in the "British week."

THE ELECTRIC SHOP

If you are going to need anything in the way of Electric Fixtures or House wiring and Supplies, there is no need of your going out of Plymouth to get it or have the work done. We carry in stock a complete and up-to-date line of Electric Light Fixtures, which we are able to install at prices as low as goods of equal quality can be purchased in the city. We cordially invite you to come in and see our stock and get our prices before you purchase elsewhere.

Electric Light Fixtures, Electric Motors, Electric Fans, Electric Irons, Etc.

We have the agency for the **CORINDA ELECTRIC WASHING MACHINES**—the best made

We will put one of these machines in your home on a thirty days **FREE TRIAL**.

House Wiring and Supplies

A. A. HOOD

Over Plinckney's Pharmacy Phone 126 F-3 Plymouth, Mich.

U. S. Registration List

Plymouth, District No. 4, Wayne County, Michigan

The Mail prints below the names of all residents of Plymouth who are subject to draft, together with their numbers, by which they will be known in the draft. The government expects to make a drawing July 27, and will immediately send out the numbers drawn. If any number corresponds with the numbers drawn that number will have to go to war, unless for reason he is exempted. The district board, composed of Dr. E. K. Cooper, Bert E. High and Owen Raynes, will begin at once calling in the numbers for examination.

- We cannot print all the names for townships surrounding, but the numbers for Livonia township are from 722 to 836, both inclusive; Canton, 181-251; Northville, 1207-1376; Nardin, 887-1206.

Are You One of Them?
There are a great many people who would be very much benefited by taking Chamberlain's Tablets for a weak or disordered stomach. Are you one of them? Mrs. M. E. Searl, Baldwinville, N. Y., relates her experience in the use of these tablets: "I had a bad spell with my stomach about six months ago, and was troubled for two or three weeks with gas and severe pains in the pit of my stomach. Our doctor advised me to take Chamberlain's Tablets. I took a bottle and the first dose relieved me wonderfully and I kept on taking them until I was completely cured. The gas has been relieved, but after the gas has been relieved may prevent its recurrence."

GENUINE GAS

COKE

We will sell 300 tons of Genuine Gas Coke at

\$8.00 PER TON DELIVERED

Coke to be paid for before delivery

We will supply our gas patrons first, and if we have any surplus, will sell to others.

Plymouth & Northville Gas Company.

NEW PRICES

We wish to inform our members that the price of fertilizers have advanced, and there is no telling how much or when another advance will take place.

We would therefore advise that those of our members who wish fall fertilizer, place their order at once.

NEW PRICES

- 0-16-0 Acid Phosphate \$21.00
- 1-10-0 Corn and Oats Grower \$24.00
- 1-9-1 Wheat Grower \$29.50
- 2-12-0 General Crop Grower \$31.00

Pulverized Limestone

In Sacks per ton \$3.75

Binder Twine per 100 lbs. \$16.85

Jeffery Six
Easiest to Start Easiest to Control

Everyone conceded six months ago that the Jeffery Six was one of the finest cars built. Meantime this car has been refined and improved by Nash manufacturing methods.

Today we believe it stands unquestionably in the front rank of its price class, in power, performance and dependability.

Jeffery Six is free from starting troubles. In coldest weather the motor starts promptly.

This famous Jeffery Six motor is vibrationless and powerful. In an emergency or on the steepest grade, it never fails to respond.

As it stands today, 125-inch wheelbase, streamline body, refined, improved and backed by the Nash organization, the Jeffery Six is a bigger, better value at \$1485.

DEMONSTRATION IS YOURS ON REQUEST.

G. B. CRUMBIE & SONS

Agents for the Jeffery Motor Cars and Jeffery Quad Trucks.
TELEPHONE NO. 64

LA CENTER

Miss Edna Smith is the guest of her grandmother in Detroit, for a couple of weeks.

Mr. and Mrs. O. E. Chilson were Sunday guests of Mr. and Mrs. T. P. Sherman in Plymouth, Friday.

Mr. and Mrs. H. D. Peters and son, Alton, Mrs. Orton Smith and Mrs. Fred Lee were entertained at a six o'clock dinner at the home of Frank Strickland in Detroit, Friday.

George Hayball and Robert Lee were Detroit visitors, Sunday.

An error was made in the date of the township Sunday-school picnic in last week's issue. The date is July 21, instead of the 28th.

Mr. and Mrs. Palmer Chilson were Farmington visitors, Friday.

Little Leona Garchow is the victim of whooping cough.

Guests this week at the H. D. Peters home are Mr. and Mrs. Byron Dates of Detroit, and the Misses Jessie Bennett and Margaret Mead of Middleville.

Mr. and Mrs. Elmer Mauk visited their daughter, Mrs. Louis Nicholson, who is a patient in Harper hospital, Sunday.

Revard Chilson and son, Harold, of Detroit, were Sunday guests of Mr. and Mrs. Palmer Chilson.

The O. H. S. club was entertained at the home of Mrs. Edna Stark, Tuesday afternoon.

There were fourteen members of the club present and the guests were Miss Dora Liverance, Mrs. Zimmer of Dearborn, and the Misses Jessie Bennett and Margaret Mead of Middleville.

The afternoon was pleasantly spent in a social manner and with contests. In the back-driving contest Mrs. Wm. Cort and Mrs. George Kuhn were awarded prizes. At 4:30, ice cream and cake were served by the hostess, assisted by her niece, Mrs. Zimmer of Dearborn.

The next meeting will be held at the home of Mrs. Charles Liverance, August 17.

John Arndt was in Sandusky, O., on business, last week.

William Pankow of Detroit, is at the parental home this week.

Probate Notice.

STATE OF MICHIGAN, County of Wayne

At a session of the Probate Court for said county of Wayne, held at the Probate Court Room in the city of Detroit, on the twenty-third day of June in the year one thousand nine hundred and seventeen.

Present: Henry S. Rebert, Judge of Probate. In the matter of the estate of Charles J. Tuttle, deceased.

An instrument in writing purporting to be the last will and testament of said deceased having been delivered into this court for probate and Genevieve E. McGowan having filed therewith her petition praying that admission with the will annexed of said estate be granted to Samuel A. Ahleson, or some other suitable person.

It is Ordered, That the first day of August next at ten o'clock in the forenoon, eastern standard time, at said Court Room, be appointed for proving said instrument and hearing said petition.

And it is further Ordered, That a copy of this order be published three consecutive weeks previous to said time of hearing in The Plymouth Mail, a newspaper printed and circulated in said county of Wayne.

HENRY S. REBERT, Judge of Probate. ERWIN E. PALMER, Deputy Register.

"Insure Potato Crop"

That potato growers should insure their crop against blight is the opinion of potato specialists of the Michigan Agricultural college.

"In this modern time, most men believe in fire insurance," says C. W. Waid, M. A. C. potato expert, "and they pay their premiums without complaint, even though no loss occurs. But when fire does destroy insured property they reap the benefit of their foresightfulness."

"Many men don't appreciate the fact, but the potato crop is as much in danger as other property and is as often partially or entirely consumed as if it was swept by a conflagration. The dread disease, late blight or downy mildew, is as deadly in its work as are the flames. But this disease, which is an enemy, may like to come at any time, almost without warning."

"The disease is closely associated with a humid atmosphere and moderately low temperature. For this reason some potato growers believe it is entirely due to the weather, but as a matter of fact it is a true disease. That is, minute microscopic organisms grow and develop entirely upon the potato plants and rob them of their vigor. As a result the plants soon wilt and take on about the same appearance as when they have been frosted. Fortunately, however, the potato crop may be protected from destruction by blight."

"The material used for this protection or 'insurance' is bordeaux, though to be effective it must be applied to the foliage before the blight starts to develop."

"It has been demonstrated many times that by the proper use of bordeaux the yield of potatoes may be increased from 50 to 100 bushels per acre during seasons when blight occurs."

"For special directions as to the preparation and application of bordeaux, write to the Michigan Agricultural college."

CHURCH NEWS

First Church of Christ, Scientist, First Church of Christ, Scientist, corner Main and Dodge streets. Sunday morning service, 10:30 o'clock. Subject, "Life."

Sunday-school at 11:30 a. m. Wednesday evening testimony service, 7:10. Reading room in rear of church, open daily except Sunday, from 2 to 4 p. m. Everyone is invited. A lending library of Christian Science literature is maintained.

Presbyterian

Rev. Karl P. Miller, Pastor. Sunday schedule: Session meeting, 9:45 a. m. To welcome those who will unite with the church on confession of faith. Morning worship, 10:00 o'clock. Quarterly observance of the Lord's Supper. New members will be received. Sunday-school, 11:20 a. m. Supt. C. H. Rauch. Lesson, "Sennacherib's Invasion of Judah," Kings 18-19 to 19:37. Sunday-school is not taking vacation. Good attendance; quickened interest. Evening union service, 7:30. The local W. C. T. U. has arranged a special program. All the churches of the village will unite.

Reception, Friday evening, July 20, for the new pastor and his wife. The people of the community are cordially invited to this reception.

St. John's Episcopal Mission, 11 Midworth, Missioner Sunday, July 22—Divine service at 10:11 a. m. Morning prayer, hymns and sermon. Subject, "Who is Thy Neighbor?" Visitors are cordially welcomed. Members of St. John's mission are invited to attend the evening service at the Presbyterian church. The collection will be in aid of the ambulance to be given by the W. C. T. U. for the Red Cross society.

Methodist Rev. Frank M. Field, Pastor. Regular morning services in this church. No evening service, as we unite in the W. C. T. U. union service at Presbyterian church.

Bible Students A. K. Dolph, Pastor. Every intelligent man realizes that he is imperfect. Evolutionists tell us that this imperfection is due to the fact that we have not been progressing for a sufficient length of time; that man was once of a much lower order, but that by process of evolution he is gradually rising and will some day reach perfection. We have, however, no real evidence that man has evolved from the lower creation. From God's word we learn that human imperfection is the result of Adam's disobedience to God's law; that mankind as descendants of Adam have inherited the penalty of sin, death; and that for this reason the whole human race is in a dying condition. We further learn that God graciously provided an atonement for this sin of Adam through the death and resurrection of His beloved Son, that "whosoever believeth on Him shall not perish but have everlasting life." The "Creation of Man" as recorded in the first chapter of Genesis, will be the topic for next Sunday's lesson. All are heartily welcome to participate in these Bible studies every Sunday afternoon at 2:00 o'clock, at the village hall.

SUPPLEMENT

ELM

Mr. and Mrs. John Bentley, Mr. and Mrs. George Bentley and little Dorothy were Sunday guests of Mr. and Mrs. T. V. Shaw of Larchmont avenue, Detroit.

Mr. and Mrs. Dan Currie of Clarenceville, were callers at Charles Bentley's, Tuesday evening.

Farmers are working under great disadvantages, trying to secure their hay crop, owing to the continued rains.

Horace Kingsley has the contract to repaint Wolfson Bros.' buildings.

Bentley Bros. unloaded a car of cement and one of tile, the first of the week.

The Beech Sunshine Girls and a few Aid society members spent a very pleasant day at Bob-Lo, Saturday.

Hundreds of pairs of good standard shoes for all the family at old prices, at Riggs'.

NOW THE LUMINOUS COLLAR

Genius Has Invented Coat With Phosphorescent Green, to Be Worn in London's Darkened Streets.

By the time the war has lasted for 25 years, only the very patient Londoners will consent, whatever views the police and old Count Zeppelin may hold on the matter, to go on colliding with one another and breaking leg after leg and all the available collar bones.

We shall all want to light up, like bicycles, and to follow the example of two illuminated young ladies who have an eye to the times in which we live.

They were wearing a new line in drop fittings—luminous collars. Most of us are, in this period, as invisible as an Ethiopian minstrel wearing mourning in a coal yard on a foggy night.

The city genius has invented a collar for women, the tape in which glows a brilliant purple, and the bucker the atmosphere the stronger the light.

It is a wonderful spectacle. When a representative arrived at the city office, the director, who has applied for a patent for his collar and deserves it—pulled down the blinds, and the two lady clerks had apparently vanished in the Maskelyne manner, only for crossed bars of phosphorescent purple which were the parts of their collars that had been treated scientifically.

Even the laundress, the inventor claims, cannot remove the glow-form effect.

Certainly it would save me from collision with passers-by. Of course a certain amount of risk still remains, for a lamp post, a conservative creature, will not step out of the way of a collar.

Meanwhile, what about luminous hats for men and luminous boots? Can nothing be done in luminous carburetors?

It is obvious, however, that these things will come and a man will be able to hire himself out for the home-ward journey with such luminous devices on his clothes as this:

Wear Spinks' Phosphor Halos and Luminous Blacking.

There seems not the slightest doubt that the luminous collar is practical and will be seen all over London.

But what effect will be produced on the mind of a man going home from an earnest evening at the club when he meets luminous collar girls with rubber-heeled boots walking rapidly toward him—well.—London News.

The Mail only \$1.00 year.

Chamberlain's Colic and Diarrhoea Remedy

Now is the time to buy a bottle of this remedy so as to be prepared in case that any one of your family should have an attack of colic or diarrhoea during the summer months. It is worth a hundred times its cost when needed.—Advt.

Probate Notice.

STATE OF MICHIGAN, county of Wayne

At a session of the Probate Court for said county of Wayne, held at the Probate Court Room in the city of Detroit, on the eleventh day of July in the year one thousand nine hundred and seventeen.

Present: Edgar O. Durfee, Judge of Probate. In the matter of the estate of Fred Williams, deceased.

Charles S. Williams, administrator of said estate, having rendered to this court his final administration account.

It is Ordered, That the fourth day of August next at ten o'clock in the forenoon, eastern standard time, at said Court Room, be appointed for examining and allowing said account.

And it is further Ordered, That a copy of this order be published three consecutive weeks previous to said time of hearing, in The Plymouth Mail, a newspaper printed and circulated in said county of Wayne.

EDGAR O. DUFFEE, Judge of Probate. ERWIN E. PALMER, Deputy Register.

Tax Notice!

Water Taxes

Rule 14—Water rates shall be due and payable semi-annually in advance at the office of the Village Treasurer on the first days of January and July in each year, unless otherwise provided for in the schedule of rates. If rates are not paid in thirty days after due the water will be turned off.

General Taxes

General Village Taxes are now payable at the office of the Village Treasurer, and can be paid at any time on or before August 18, 1917, after which time they may be returned to the County Treasurer. Pay your taxes early and avoid a possible penalty.

R. R. Parrott, Village Treasurer OFFICE 139 MAIN STREET.

COUNCIL PROCEEDINGS

[Official] July 9, 1917.

At an adjourned regular meeting of the common council of the village of Plymouth, called to order by J. H. Patterson, president pro tem, on above date. Present: Councilmen Patterson, Reber, Hall, Sherman, Fisher and Reiman.

The following bills were presented for payment: Road & Decker, surveyors \$121 14 Arthur V. Jones, assessor 126 00 Detroit-Edison Co., June street lighting commission 266 50 E. N. Passay, commission on Wm. Henry property purchase 134 50

Moved by Fisher, supported by Reiman, that the bills be allowed, and the clerk be instructed to draw orders on the proper funds to pay the same. Carried.

The following resolution was read by P. W. Voorhies, village attorney: Resolved by the common council of the village of Plymouth, State of Michigan, that it is necessary for public improvement and for the public convenience to vacate, discontinue and abolish, the following described portion of Depot street in said village, to-wit: Beginning at a point one hundred sixty-four and three tenths (164.3) feet west and sixty-six (66) feet south of a point, where the east and west half section line of section 26, town of south range 8 east, township of Plymouth, Wayne county, Michigan, running thence along the west side of Depot street, in a south-westerly direction a distance of three hundred forty-six and eight-tenths (346.8) feet, thence after turning through an angle of sixty-three degrees and forty-eight minutes (63 degrees, 48 minutes) to the left a distance of fifty-four and one-tenth (54.1) feet to the east side of Depot street, thence along the east side of Depot street in a northerly direction a distance of three hundred and sixty-six and eight-tenths (366.8) feet, thence after turning through an angle of one hundred one degrees and forty-seven minutes (101 degrees, 47 minutes) to the left a distance of forty-nine (49) feet to the place of beginning, containing four-tenths (4) of an acre.

Moved by Fisher, supported by Reiman, that the resolution be adopted: Ayes—Patterson, Reber, Hall, Sherman, Fisher, Reiman. Nays—none. Carried.

Moved by Reiman, supported by Fisher, that the deed of a parcel of land on Ann Arbor street, in the village of Plymouth by one Douglas E. Kellogg, be accepted. Carried.

Moved by Reber, supported by Sherman, that the ways and means committee report at the next meeting the amount of money needed for the construction of the first section of the sanitary sewer and septic tanks for same. Carried.

Moved by Hall, supported by Fisher, that the civil engineers be instructed to receive bids on the main trunk lines for the sanitary sewer and septic tanks. Carried.

Moved by Reiman, supported by Fisher, that the water commissioner order the required number of six-inch water pipe for the extension of water system on Ann Arbor street and other necessary pipe for Garfield, Sherman and Lincoln streets. Carried.

Moved by Reiman, supported by Sherman, that the water committee be instructed to investigate the needed requirements of a four-inch water main from Harvey street south and back of the Allen opera house and extending along back of the stores on Main street, and also the location of hydrant for same. Carried.

Moved by Reber, supported by Fisher, that the marshal be instructed to notify the druggists to present their druggist bonds to the village council on July 16, 1917, for acceptance or rejection. Carried.

Moved by Reber, supported by Fisher, that we adjourn until Monday night, July 16, 1917. Carried.

F. J. TOUSEY, Village Clerk.

At an adjourned regular meeting of the common council of the village of Plymouth, called to order by President Robinson on the above date. Present: Councilmen Patterson, Reber, Hall, Sherman, Fisher and Reiman. Absent: None.

The following bills were presented for payment: Frank Mills 19 38 Harry Mills 17 50 Plymouth United Savings Bank 33 75 Pittsburg Des Moines Co. 1476 00 H. H. Dickinson Co. 16 00 H. Mueller Mfg. Co. 114 61

Moved by Patterson, supported by Reiman, that the clerk be instructed to write the Edison Co. in regard to having three street lamps placed on South Mill street, and also other changes to be made in north village. Carried.

Moved by Fisher, supported by Reiman, that the clerk be instructed to write the state board of health in regard to taking care of the sewage from the village High school building. Carried.

Moved by Reber, supported by Reiman, that the contract of Robert Warner, covering sidewalk building be accepted, when the proper bonds are presented as a security. Carried.

Moved by Reiman, supported by Patterson, that we equally divide the six-inch water pipe order, giving the American Car & Foundry Co. an order for 1500 feet and the James B. Clough & Sons Co. an order for 1800 feet. Ayes—Patterson, Reber, Hall, Sherman, Fisher, Reiman. Nays—none. Carried.

Moved by Reiman, supported by Reber, that we adjourn. Carried.

F. J. TOUSEY, Village Clerk.

Doing Good Few medicines have met with more favor or accomplished more good than Chamberlain's Colic and Diarrhoea Remedy. John F. Yantman, Delmar, S. Dak., says of it: "I have used Chamberlain's Colic and Diarrhoea Remedy myself and in my family, and can recommend it as being an exceptionally fine preparation."—Advt.

OSBORNE BINDERS The New Osborne binder is a machine that has an enviable record of many years of satisfactory service. The New Osborne is a durable machine, strong of frame, easy of operation, readily accessible for adjustments or oiling, easy to mount on transport trucks, and light of draft. The New Osborne binder successfully picks up, cuts and binds the down and badly tangled grain that is entirely beyond the range of the ordinary binder. It is a light draft machine because all of the principal parts are equipped with roller bearings, because the great strength and rigidity of the main frame holds the parts in perfect alignment during the lifetime of the machine, and because of the many adjustment which enable the operator to always keep the machine in perfect working condition. For example, consider the eccentric at the base of the reel arm by which the reel can be kept always parallel with the edge of the platform. HENRY J. FISHER North Village Phone No. 70

Every Dollar Expended For Lumber is Well Invested The buildings you construct with the lumber you buy, mean not only economy in the conservation of crops, machinery and stock, but add to equipment and value of the farm. Lumber purchased for repairs, is an especially wise purchase, as its use prevents the buildings from deteriorating in value and usefulness. Plymouth Lumber & Coal Co. CHAS. MATHER, Sec. & Manager

Ford Ford cars are an important factor in every rural community They help the family enjoy life, bring the pleasures and advantages of the city within reach, and give practical service every day Ford cars require a minimum of attention; anyone can run and care for them. Two million owners the world over prove these qualities every day. We pledge Ford owners the reliable Ford service with genuine Ford parts and standard Ford prices. Grain, Hay, Feeds, Coal, Builders' Material We are in the market for Wheat, Oats, Rye, Corn, Hay and Straw. If you have anything to offer, will be pleased to name you the highest market price. We carry a full line of Feeds and Seeds, Lime Cement, Plaster, Brick, etc. The coal situation is serious. Hard Coal is very scarce, and it looks as if we would have to resort to Soft Coal and Pocahontas. We are not accepting outright orders for anything in the way of coal, which we do not have on hand. We can supply you now with Soft Coal and Pocahontas. Price on request. If you have not done anything on hard coal better let us place your name on file, and fill your bin in turn, at prevailing price time of delivery. A. C. VAN SICKLE, Receiver J. D. McLaren Co. Plymouth Elevator.

The Quality Goes Clear Through DORT You Ought to See this Car! You ought to see the smart, clean lines of it—the honest, sturdy construction—the "big car" features and conveniences. You ought to see the thorough quality and character that thousands of buyers saw and recognized last year—that thousands more are recognizing this season. There are many points of vital importance which you should see and know about—Westinghouse Electric Sparking and Lighting, 5 1/2 inch fuel cut-off rear springs, the rear axle, the most violent abuse, the motor that delivers 33 h. p. These are merely examples of Dort quality. You ought to see the whole inside character of the Dort. It speaks for itself. \$725 RAMBO & GRIFFITH, Agents

McCormick - Binders

Buy a McCormick—Get the Latest Improvements in Binder Construction

McCormick binders sold now are better than ever before. Years of experience in binder building have eliminated impractical features and substituted in their place features that assist in better work, easier handling, and more years of service.

Few binder manufacturers have had these years of practical experience, and it stands to reason that unless they imitate McCormick construction they must be going through experimentally what the builder of the McCormick binders did several years ago. Imitators, while silently commending the original and genuine, are always a few years behind in improvements and refinements.

We carry McCormick Standard Binder Twine. Buy your supply now.

Prevent That Fire!

It may come to you as it does to one out of every thirty men who carry fire insurance.

Fire insurance can't prevent fires, and it can't save your family from the possibility of injury or death by fire.

If you want to know how to prevent fires, you should read the Hartford Fire Insurance Company's booklet.

Fire Insurance and Fire Prevention

It tells about common dangers of fire in home, store and factory, and how to avoid them.

Every member of your family ought to read this booklet. It may save their lives. We shall be glad to send you a complimentary copy, whether you are insured in the Hartford or not. Write to
