Paint More—Scrub Less

Avoid the hard work and backaches caused by scrubbing floors. Wood floors absorb grease and dirt. No amount of scrubbing cleans them absolutely clean. Paint protects floors, does not absorb dirt, is easy to clean and is absolutely sanitary and pleasant appearance.

ACME QUALITY FLOOR PAINT

It is inexpensive, a quart is enough to cover an average sized floor and you can apply it with a brush or roller.

Do You Believe in Church Union? Plymouth Surely Has It

In the membership of the Plymouth Presbyterian congregation are representatives of Universalist, Independent, United Brethren, Congregationalist, Disciples, German Lutheran, Episcopal, Baptist, Methodist Episcopal and Roman Catholic churches. Here we have a melting pot, and all churches are fused into one body by the heat of the Eternal spirit. Incidental of Ecclesiasticism are brushed aside in a genuine desire to do the work Jesus gives us to do as an organization. Any form of baptism will be administered; any believer, regardless of church, may sit at communion; pre-millennial, post-millennial, or non-millennial; verbal inspiration, partial or plenary inspiration; Latter day miracles or postter day miracles only. These varieties of belief and many others, live in perfect concord in the Presbyterian church; only two fundamentals: Salvation by Christ, Service for Christ. On these, all christians stand.

Alumni Will Give Benefit Dancing Party

About Five Hundred Invitations Have Been Sent Out for the Event Which Takes Place Tuesday Evening, June 18, at Penniman-Allen Auditorium.

About five hundred invitations have been issued by the Plymouth High School Alumni Association to its members and their friends, to attend a benefit dancing party in the Penniman-Allen auditorium on next Tuesday evening, June 18th.

The annual business meeting of the association and reception to the graduating class of 1918 will be held early in the evening, after which members and guests will enjoy dancing and renewing acquaintance with former schoolmates and friends. This occasion will bring together both the older and younger members of the association, which with the presence of their many friends, should prove a happy occasion.

The proceeds of the entertainment will be used to defray the expense incurred in placing in the High school auditorium the beautiful curtain and stage scenery, which will for many years to come be a source of pleasure and benefit, not only to the pupils and Alumni of Plymouth High school, but to all other citizens as well.

A Big Crowd in Town Last Saturday Night

Another Concert and Free Picture Show Saturday Evening, June 15.

The first of the series of free entertainments to be given by the Plymouth business men this summer was given last Saturday evening, and judging from the number of people and the hundreds of automobiles that were on the streets, about everybody for miles around must have been in Plymouth. It was some crowd. The band concert by the new Millard band was thoroughly enjoyed by the big crowd, and many compliments were heard on every side on the excellent program that the boys rendered. The committee on arrangements were disappointed in not being able to pull off the picture show part of the evening's entertainment, owing to the non-arrival of the picture machine, which was sent away for repairs. There will be no disappointment in this respect tomorrow evening, however. The machine has arrived and will be in readiness for the occasion. The Millard band will give another concert with an entire change of program. Don't miss the concert and the pictures. Come early and stay late. Tell your neighbors to come, too.

The Baccalaureate Sermon

Several hundred people attended the baccalaureate sermon held in the High school auditorium, last Sunday evening. The room was prettily decorated with pennants and American flags. Music was furnished by the Presbyterian choir, and Rev. Karl P. Miller, pastor of the Presbyterian church, gave the scripture reading and prayer. Rev. C. Strasen, pastor of the Lutheran church, delivered the address of the evening. Mr. Strasen gave a fine talk, and in addressing the members of the graduating class he aimed to leave the message with them, "that it was not so much the amount of knowledge they had acquired as the way they applied it." He urged them to live christian lives as much depends on the moral part of their characters, whether their knowledge leads them in paths of good or evil. The twenty-three members of the class attended the service.

School Play Great Success

The Shakespearean play "Midsummer Night's Dream" given by the ninth grade under the direction of Mrs. John P. Peterson, in the High school auditorium, last Friday evening, was a great success.

Woman's Literary Club Enjoy Annual Picnic

The Club Was Entertained at the Farm Home of Mrs. Carmen Root, Last Friday.

The annual picnic and last meeting of the year of the Woman's Literary Club was held at the pleasant home of Mr. and Mrs. Carmen Root, a few miles west of town, last Friday afternoon, June 7th. The weather was ideal, and about sixty members and guests took advantage of the fine day for a delightful afternoon in the country.

After the ladies had all gathered there they were invited into the two spacious living rooms where the retiring president, Mrs. R. E. Cooper, called the meeting to order. A short business session followed, after which the chairman of the program committee for the past year, Mrs. George Wilcox, in a pleasing manner expressed the regret of the club in the retiring of the present, Mrs. R. E. Cooper, who had for the past two years filled the office in a very efficient manner. She also welcomed the new president, Mrs. C. H. Bennett, who is an interested and enthusiastic member, and will fill the office of president with honor. The retiring president, in a unique and charming way, then presented the gavel, surrounded by a bouquet of old fashioned pinks, to the incoming president. She in turn made a pleasing response. Mrs. George Wilcox then presented both ladies with flowers.

Several selections on the Victrola were enjoyed during the afternoon, and Mrs. L. Thomas entertained the company with a few selections from the pen of Edgar Guest.

After the program the guests were invited into the dining room, where they partook of a dainty self-serve lunch. Late in the afternoon all returned to their homes declaring Mrs. Root a delightful hostess and the afternoon a most enjoyable one.

The meetings of the club will be resumed in the early fall.

News of Sergeant Beals

Word was received here the latter part of last week from Rev. B. F. Farber, who is in the Y. M. C. A. in France, saying that he had seen Myron Beals, who was reported wounded a few weeks ago. He stated that Myron had been in a gas attack, but was now rapidly improving. His friends here are greatly relieved to know that his injuries are not more serious.

Children's Day Observed at Presbyterian Church

Children's Day was observed in the First Presbyterian church of this place, last Sunday morning. The program under the direction of Mrs. Calvin Whipple was exceedingly well rendered. It consisted of vocal and instrumental music, and recitations by the pupils of the Sunday-school, and each one is worthy of special mention. A short talk was given by the pastor, Rev. Karl P. Miller, and during the service gold stars were taken for the establishment of Sunday-schools in the isolated parts of our own country. The rites of baptism were administered to two children. The church was filled for the occasion.

Commencement Exercises Tonight

The annual commencement exercises of the Plymouth High school will take place in the High school auditorium, this Friday evening, June 14th. The class of 1918 has a membership of twenty-three. The commencement address will be given by William H. Stout of Indianapolis, Indiana, a lecturer of note who is with the Civil Liberties Bureau of Cleveland, Ohio. An admission of 10 cents will be charged.

PRICE ADVANCES ON COKE

The price of coke will advance from \$1.00 per ton to \$1.10 per ton, effective June 15, 1918.

Children's Day at the Methodist Church

An Interesting Program Will Be Rendered Next Sunday Evening.

The Children's Day cantata, which will be rendered by the children of the Methodist Sunday-school, at 10 o'clock, is a most appropriate and timely program, entitled, "Children of America." Following the preliminaries, which will include the baptism of little children of christian parents, recognition of the cradle roll graduates and the special offering, the central figure, Columbia, taken by Miss Florence Newell, will be introduced, and with her several groups will participate, such as public school children, Sunday-school scholars, Boy Scouts, Red Cross workers, army and navy lads, etc.

The pageant is being prepared under the direction of Mesdames Hillman, Bartlett and R. Jolliffe and Miss Ruth Jenkins. Following is the program to which all are invited:

- Music—The Orchestra
- Prayer—Rev. Field
- Solo—Miss Evangeline Foster
- Baptism of Children
- Promotion of Cradle Roll Graduates
- Announcements and offering
- Central Figure, "Columbia"—Miss Florence Newell
- Children's Exercise, "Columbia"

Buick

EVERBODY KNOWS VALVE-IN-HEAD MEANS BUICK

Among its myriad other uses, the motor car acts as a connecting link between the various conveniences that form the machinery of modern business. It helps to unify the activities of the railroads, the tractors, the telephones, the reapers, in developing the productive ability of the individual and the nation.

Nearly a score of years spent in the development of the Valve-in-Head principle have fitted Buick cars for the important part they are filling in the industrial world today. And side by side with the engineering achievements have been developed those niceties of manufacture that result from ripened experience and sincere effort.

Thus the seasoned motorist favors the Buick. He likes its sleek trimness. He prides himself on its power and performance. And he needs its unfailing serviceability in his daily occupation.

The Buick line is a broad one, composed of both open and closed models for from two to seven passengers. It contains a car for every kind of motoring service.

We again urge you to give us your order without delay, if you want your car for use this summer. The will be hard to get a little later. Give us your order today.

A demonstration for the asking and you will be under no obligation to buy.

Second District Politics

John Fitzgibbon, the political oracle of the Detroit News, has the following on the situation in the second district:

Rep. Samuel W. Beakes, democrat, has three times in succession been elected in the second district, and his highest plurality at none of the three elections exceeded 209. The district polls a little over 50,000 votes, and is normally republican by about 3,000. He is a candidate for a fourth term. Two and perhaps three republicans will try for the nomination.

State Rep. H. Wirt Newkirk, Ann Arbor lawyer, has already given notice that he is a candidate.

Rep. Newkirk is a veteran republican worker, and 64 years old. Thornton Dixon of Monroe, says that it is his intention to become a candidate, but he has been so busy working and delivering addresses for patriotic war endeavors that he has not yet done anything to get the nomination. Mr. Dixon is a lawyer and head of a quarry company that produces crushed stone for road and building construction work.

State Senator Charles J. Deland of Jackson, acknowledges that he would like to represent his district in congress. The senator facetiously writes: "I have not yet made up my mind whether to be a candidate for congress, to run again for the state senate or stay at home and hold fast to the old reliable meal ticket, to-wit: my law practice. I realize that the time is getting short and that I must soon make up my mind which to do." Both Senator Deland and Thornton Dixon are five wires in the thirties.

Since the above was put in type, we learn that Mr. Newkirk has withdrawn as a candidate, and Durand W. Springer of Ann Arbor, has announced himself as a candidate for the Republican nomination.

Big Circus at Ann Arbor

The Hagenbeck-Wallace Circus, one of the largest circus organizations in the world, will exhibit in Ann Arbor, Wednesday, June 19. Excursion agents of the circus have arranged for round trip tickets on the railroads and other lines of travel. In as much as the Hagenbeck-Wallace show is the largest circus to visit this section of the country this season, two capacity crowds are anticipated by the management. While the title of the circus remains the same as it has been for many years, still the organization is an American one, being owned and operated by Edward Ballard.

Three special trains are utilized to transport the circus from city to city. Traveling with the great organization are 1,000 employees, in addition to 108 advance men. Twenty-two tents, covering twelve acres of ground, shelter the transient city in day-time. Draft horses to the number of 500 are used, with half as many head of pony and ring stock. The circus has its own doctor, lawyer, dentist, U. S. postman, detective, and, in fact, every artisan found in the average small city. The famous Hagenbeck menagerie declared to be the finest and most complete traveling zoos in the world, is a part of the show. The circus represents an expenditure of \$3,000,000. The daily operating expense is \$7,500 per day.

More than 400 acrobats, gymnasts, riders, contortionists and athletes, together with fifty clowns, compose the circus end. In addition, the big show is augmented with Hagenbeck's trained wild animal exhibits. Hundreds of wild animals, lions, leopards, tigers, pumas, jaguars, elephants, seals, monkeys, etc., will constitute that department.

Performances will begin at 2 and 8 o'clock P. M. A three mile long street parade will leave the grounds at 10 o'clock the day of the exhibition and will pass through the principal downtown streets.

Cholera Morbus

This is a very painful and dangerous disease. In almost every neighborhood someone has died from it before medicine could be obtained or a physician summoned. The right way is to have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house at all times. It is the best medicine for cholera, cholera morbus, and dysentery. During the summer of 1911, two of my children were taken sick with cholera morbus. I used Chamberlain's Colic and Diarrhoea Remedy and they were cured.

Methodist Mention

The Children's Day committee have worked out a program for next Sunday morning, which will be a great credit to our school. "Children of America" is the subject of this patriotic pageant, the program of which will be found elsewhere in this issue.

Baptism of children and recognition of the cradle roll will be special features. Members of the school are provided envelopes for the offering, which goes to the loan fund for worthy college students.

The June meeting of the Sunday-school board was held in the dining room of the church, Tuesday evening. With Mr. and Mrs. Wellington Newell as host and hostess, a potluck supper was served, after which each person present responded to roll call with some incident of the war. After the transaction of business some splendid moving pictures were ending. The room was decorated in the national colors.

Mrs. Arthur White, who has rendered splendid service as a teacher in the primary department of the Sunday-school, has been chosen unanimously as superintendent of that department. Mrs. White and her efficient corps of teachers, Miss Penney, Miss Jones and Mrs. Larkins have some fine plans for the little folks.

A party for the little tots of the cradle roll department and their mothers is being arranged for by the superintendent, Mrs. Retta Smith. The plans were announced at the monthly board meeting.

As fine a moving picture entertainment as one could wish for was given at the church, last Monday evening. Folks laughed at the adventures of the baby, which the tramp stole by mistake, and were deeply interested in the war scenes in France, shown by one of the popular war reels. "Billy, the Drummer Boy," a Revolutionary war story, was a touching picture.

The local Epworth League will be represented at the state institute at Albion by at least two delegates, Lorena Terry and Mrs. George Oldenburg. The institute comes June 24 to 30. The attendance last year was a little over 1,000.

It was a delight to the congregation, last Sunday morning, to hear a former pastor, Rev. James B. Oliver, of Highland Park, who filled the pulpit, while the pastor was preaching to his former congregation at Oak Park church, Flint. Both pastor and people enjoyed the change. Although Rev. Oliver preached in Plymouth more than twenty years ago, he has a host of warm friends here, and his sermon, last Sunday, was a remarkable discourse for one of his years.

It will be of interest to many Plymouth people who knew Rev. Ralph M. Pierce, pastor of the Methodist church at Northville until three years ago, has just been transferred by Bishop Henderson from Hancock to Flint, where he will take up the pastorate of the Oak Park Methodist church, July 1st. This is the church which Rev. F. M. Field of this place, organized and built and served for five years.

Rev. G. H. Whitney, pastor of the Methodist church at Chelsea, has purchased the Lombard house on West Ann Arbor street, and expects to move here this fall, retiring from the active ministry. We are looking forward to his residence among us and participation in the life of the church here.

We Have Always Wanted To Handle the BEST Manure Spreader --- And We've Got It

As all our friends know, we have been engaged in the farm implement business right here for a long time. We've made it a rule to handle only thoroughly reliable goods. No matter how tempting a maker's proposition is, we leave it alone, unless we are convinced that the article will be of real value to our customers.

Now please keep this rule of ours in mind and then come in and see the

NISCO

The New Idea

Manure Spreader

The fact that we have this machine set up, ready to demonstrate, shows that we believe there isn't a better spreader made. If there had been we would have found it. "Nisco" is the original wide-spreading spreader. Built to spread outside its own wheel track when other machines merely dumped manure behind. Low down and light draft, easy to load, easy on a team. Its chain conveyor brings every scrap of manure to the two cylinders where it is thoroughly pulverized and thrown onto swiftly revolving steel paddles that distribute it in even width and depth across three corn rows. This makes driving over spread manure unnecessary.

The Nisco Spreader can't clog and spreads at will, 3, 6, 9, 12, 15, 18 loads per acre. It has a chain drive—no gears to break or strip from cold or under sudden strain. Wide tires fit the "Nisco" for use on soft soil. The Nisco Spreader is thoroughly well built of exceptionally stiff and sturdy materials, and the makers cheerfully guarantee it for a year against breakage from any cause. With proper care it will last a lifetime.

Now here is a machine that will give you dollar for dollar on a moderate investment in one year's time; because if used regularly it will absolutely save the full fertility value of manure and put it on the soil in such condition that growing plants can get it all.

The Nisco Spreader will save you money. Come in and see it next time you're in town. You'll be interested.

DONT FORGET TO ASK US FOR THIS FREE BOOK We've a book here we would like you to read—"Helping Mother Nature." This shows about the care and use of manure that you've ever thought of. Written by an expert and full of right-up-to-the-minute scientific data. Don't forget this—it's important.

Yours for better farming.

ANN ARBOR.—NATURALIZATION CEREMONIES FOR 18 ALIENS IN TRAINING AT THE U. OF M. WERE TO BE HELD IN THE COURT HOUSE.

Fort Heron.—Ten policemen have remained here in the last two months, chiefly, because of higher wages offered in manufacturing plants.

Pontiac.—Caught under a heavy gravel after which fell on him in a gravel pit near South Lyon, Edward Moore, 64, was instantly killed.

Kalamazoo.—Paul T. Butler, Jr., son of Dr. Paul T. Butler, this city, is reported recovering in a French hospital from the effects of German poison gas.

St. Joseph.—The 1918 convention of the Michigan Knights of Columbus will go to Battle Creek if hotel conditions permit, otherwise Lansing will get the convention.

Grand Rapids.—Saló Dewolf, 19, vaudeville orchestra leader, who was to have appeared at a theater here this week, was drowned June 5 at Reed's lake. A canoe in which he was riding capsized.

East Lansing.—Frederic Kibbee, 16, of Coldwater, has been singled out by the club department of the Michigan Agricultural college from among 30,000 other boys and girls as the best boy gardener in the state.

Ann Arbor.—Professor Theodore Harrison, of the University School of Music, has been invited to take charge of the music at the international war time convention of Rotary clubs in Kansas City the last of this month.

Lapeer.—A report has been received that Robert Stapleton has left his missionary field at Erasm, Turkey, and is at Vladivostok on his way to Yokohama, Japan. All missionaries in that section except those at Trebison, have left.

Rochester.—The body of Charles Brandt, recently manager of the Diamond Grocery, Rochester, and formerly manager of the Kroger store in Pontiac, was taken from the Ohio river at Cincinnati. His widow and 14-year-old son live in Cleveland.

Rockford.—With 1,200 population purchased \$1,000 worth of war savings stamps. The matter was brought up at a special session of the village council, and the investment was considered the best thing that could be done with the money that is coming in from taxes.

Lansing.—The Michigan Anti-Slavery League at its annual meeting here voted a budget of \$100,000 to combat the beer and light wine amendment proposed by the brewers, which the league leaders are confident will be defeated by a majority of 150,000 votes next November.

Traverse City.—Potato growers of northern Michigan will meet here in conference June 17 with M. A. C. experts to perfect a state wide marketing organization to maintain potato prices. This action is considered necessary to keep potatoes among crops that can be profitably grown.

Lansing.—After June 10 employes of the state can only use Pullman cars for actual sleeping purposes and have the state pay for it. The board of auditors June 6 made a ruling cutting out of expense accounts chair cars and Pullman cars except for night travel, and then only when a sleeping car berth is occupied.

Niles.—Dr. J. Livingstone Wilgus, 209 South State street, Chicago, aged 65, has a fracture of one leg and his wife and 20-year-old daughter are dead as a result of an auto accident when a Michigan General truck No. 14 struck their car near New Buffalo, Mich., Friday. The bodies and the injured man were brought to Niles.

Washington.—The commission of Alkan Armstrong, Detroit, as captain in the quartermaster's corps, Ralph Phelps Collier, of Battle Creek, is among the second lieutenants of aviation commissioned at the training school at Fort Sill, Texas. George Edward Young, Coleman, Mich., has been commissioned a second lieutenant of aviation at Rockwell field, Cal.

Ann Arbor.—Lieutenant Paul Eaton of Jackson, who was taken captive by the Germans while in the aviation service, was a student in the literary college of the University of Michigan when he enlisted May 4, 1917. Lieut. W. L. Miller, who was included in the U. S. casualty list was a well known Saginaw physician. He graduated from the Detroit College of Medicine.

Lansing.—The secretary of state, Coleman C. Vaughan, said Saturday that he had issued no orders to the chief of police at Port Huron, or any other police official, to arrest New York automobile dealers, who are driving Michigan cars back to New York with dealer's licenses. Secretary Vaughan is unable to understand the basis for the stand taken by Port Huron officials.

Pontiac.—Simultaneously with similar requests made in other cities where the Consumers Power Co. controls the gas utilities, the local branch of the company has filed a petition with the city commission asking that it be permitted to raise its gas rates from \$1 to \$1.15 per 1,000 cubic feet. The increase is to be only for the period of the war or as long as business conditions are unsettled.

Jackson.—W. T. Ballamy, of Bay City, was elected grand counselor of the United Commercial Travelers of America at the twenty-fifth annual state convention held in Jackson Friday, about 150 delegates, many of whom were accompanied by their wives, attended the meeting. The convention also voted \$1,000 for Liberty bonds and contributed \$500 to the Jackson Red Cross. The United Commercial Travelers now have 1,163 members in Michigan, a substantial increase having been made of late years.

Lansing.—Members of the Michigan Anti-Slavery League, at the annual meeting held in Lansing Friday, expressed confidence that the proposed new anti-slavery amendment submitted by the league, would be adopted at the November election by a majority of at least 15,000. Nevertheless, the Anti-Slavery League proposes a vigorous campaign against the amendment and a number of 100,000 was called for the anti-slavery cause.

Ann Arbor.—Naturalization ceremonies for 18 aliens in training at the U. of M. were to be held in the court house.

EXPERT'S TRIBUTE TO WESTERN CANADA SOIL

That there is good reason for the wonderful crops of grain grown in Western Canada, which have made thousands of former residents of the United States wealthy, is not always given the thought that it deserves is quite apparent. But that there must be a reason is quite evident. Probably more than one—but the one that requires emphasis—is that the soil is of the nature that will produce good crops.

It was not long since that the farmer selected his land in the most haphazard way. He need not do so today. He will select it on the soil analysis plan. Soil from Western Canada was submitted to Prof. C. Slevens, soil physicist of the State College of Washington, at Pullman, Wash. His report should no doubt further encourage settlement in Western Canada. It reads as follows:

"We have analyzed this sample and find that it runs high in lime, very high in potash, phosphorus and in nitrogen; that it has a splendid supply of organic matter and is in the best of physical condition. There is nothing wrong with this soil from the standpoint of crop production, and I am satisfied that it will give splendid results wherever put under cultivation."

It is soil like this properly worked, and on scientific lines, as is the rule today, that gives the opportunity to quote the experiences of farmers who have increased their incomes from \$500 to \$30,000 in two seasons, and whose story would read as follows:

"I have threshed altogether 7,000 bushels of No. 1 Northern wheat from 200 acres, which went from 24 to 56 per acre—sood breaking 24, spring plowing 56, back setting 56 bushels—the average being 35 bushels per acre."

The newspaper giving an account of this man's experience says: "When he disposed of his 1,000 acres from north of Brooks, Alta., to four Oak Harbor men, he was worth \$30,000. Two years ago he came here with \$500 and a few horses."

It is the soil of Western Canada, and the knowledge of what it will do that brings to Canada the hundreds of settlers that are daily arriving at the border. A growing enthusiasm for the fertile prairie lands of Western Canada is spreading all over the continent. This enthusiasm is the recognition of the fact that sufficient food could be produced on these prairie lands to feed the world. From the south, east and west, hundreds of men, too old for military service, are pouring into Western Canada to take up land or to work on the farms. A great many of the incoming settlers have arrived at such central points as Calgary, Edmonton, and Lethbridge, Alberta, and at Regina, Moose Jaw, and Saskatoon, Saskatchewan. Judging from the bulk of their household effects, the number of their horses and cattle, and the quantity of implements they are bringing with them, most of the new arrivals also seem well blessed with the world's goods.

Reports from North Fortia, Saskatchewan; Coutts, Alberta, and Kingsgate, British Columbia—the principal gateways into Western Canada from the United States—indicate that the present influx of farmers is in such volume as has not been witnessed for many years. From Vancouver, British Columbia, people are going to the prairies for summer farm work, many with the intention of taking up land themselves at the end of the summer.

The influence of this tide of farmer settlers on greater food production will be more readily appreciated when it is considered that the average settler takes up at least twice as much land as he has hitherto been farming—and land which, acre for acre, produces better and larger crops.—Advertisement.

GET USED TO SUDDEN DEATH

Get Humor in the Trenches by Me Means Denotes Callousness of Disposition.

Capt. Leonard C. Wells of Baltimore, who recently permitted himself to be bitten by trench lice, thus contracting trench fever, that the doctors might study it, said on his return home:

"To submit yourself to the hungry jaws of a trench louse is a grimly humorous procedure, isn't it? Well, war is grimly humorous in many of its aspects."

"They tell over the water a story about a company of tough tough boys from New York's East side who sat playing poker one night in a dugout during a bombardment."

"The game went on, the shells whizzed and banged outside, and then a grenade came through the doorway and finished one of the poker players' playing forever."

"While the rest sat waiting for the stretcher-bearers, the nearest dough boy took up the cards from the dead man's hand, studied them, and then put them down again and said: 'It don't matter, fellers. Poor Bill couldn't make it, anyway. I had four kings.'"

FRECKLES

There's no more to get rid of them than to get rid of your freckles. On October 15th, 1918, the first bottle of Freckles was put on the market.

Freckles are the result of an overabundance of melanin in the skin. This melanin is produced by the cells of the skin and is the cause of the freckles.

It is a common mistake to think that freckles are the result of sunburn. Freckles are the result of an overabundance of melanin in the skin.

MAN SLEEPS WHILE HIS BEDDING BURNS

Occupant of Next Room Finds Him Stretched Out Like Bruhlida.

Newton, N. J.—He slumbered deeply and loudly in his room at the Waldmere hotel. After a little a cigarette butt that he had dropped ignited the mattress. He continued to sleep, while little flames ran along its edge and the room filled with smoke.

The man in the next room began to choke and traced the fire to the door of the slumberer. He entered to find the mattress afire, with its occupant stretched out like Bruhlida.

Entered to Find the Mattress Afire. stretched calm and still like Bruhlida on her pyre—only Bruhlida did not enore.

The intruder picked up the pitcher and emptied its contents on the modern Rip Van Winkle, who stirred, muttered drowsily, and slept again. The fire was out, to all appearances, and the rescuer left, pursued by the enores of the rescued.

Five hours later the man in the next room appealed to the management. "He's afire again," he complained, "and I can't wake him up."

It took two strong men to rouse him sufficiently for him to slide off the burning mattress.

HUG BY PRETTY GIRL ENDS IN LOSS OF \$130

San Francisco.—A long hug by a pretty girl cost Charles Smulter, of this city, \$130, and the fact that the young woman was beautiful does not console him in the least.

Smulter told the police that he was walking down the street when the "fair young thing" threw her arms about his neck babbling terms of endearment with vehemence. Smulter struggled a half block before he could break from her embrace.

Then he discovered that his wallet was missing.

THOUGHT SHE BURIED SON

Georgia Woman Treated to Sensation When She Meets Him in Atlanta.

Atlanta, Ga.—All the sensations associated with the miracles of olden times have been experienced by Mrs. Rosa Holley Whitehead of Atlanta, who recently attended, as she thought, the funeral of her son, Aubrey Whitehead in Louisville, Ky. After the ceremonies Mrs. Whitehead returned to Atlanta and met her son, who is in perfect health.

The cause of the curious mistake was the result of a remark made by Aubrey, which was overheard, that he "would and it all in the river." The body of a man was found in the Ohio river and young Whitehead disappeared. There was great resemblance in the body to young Whitehead. A Louisville undertaker is wondering who is going to pay for the expensive funeral.

700,000 U. S. MEN OVER THERE—BAKER

SECRETARY OF WAR BIDS GOOD-BYE TO FRANCE'S BLUE DEVILS WHO SAIL FOR HOME.

U. S. ARMY IN FRANCE GROWING

Toured America to Assist in the Third Liberty Loan Drive; Many Attend Ceremonies.

Washington.—More than 700,000 American soldiers have gone overseas to carry back to France the encouragement and assistance which Lafayette and Rochambeau brought to America, Secretary Baker told the French Alpine chasseurs in bidding them farewell here Monday at the base of the Washington monument.

The war secretary's last announcement some weeks ago concerning the size of the American forces abroad was that 500,000 men had sailed for the battle front.

The Alpine chasseurs, better known as the "blue devils" of France, came to America last month to assist in the third Liberty loan campaign and since have toured the south and middle west.

They were reviewed and received by the secretary of war before leaving for Baltimore, Newark, New York and Boston, enroute to their native land. Attending the exercises were M. Jusseland, the French ambassador, representatives of the French high commission, Mr. Baker's staff and many government officials.

The secretary said: "You soldiers of France came to this country in order that the people of America might see with their own eyes in your persons the kind of men who have written a new page in the record of human heroism and success. You are welcomed in this country from one end of it to the other. The hearts of our people went out to you and your people. As the embodiment of the determination, the courageous and the heroism of France you have been accepted and received. And now you are about to go back to France."

FOOD CHIEF URGES EAT NO WHEAT

Supply On Hand Not Enough to Carry Us Through Till Next August.

Lansing.—"Help save flour," was the appeal of Food Administrator Prescott Monday.

"For the next two months this is imperative. Here are the facts: Our normal consumption in the United States is 44,000,000 bushels of wheat a month. May 1 the inventory of all wheat and flour in United States indicated a supply equivalent to only 14,500,000 bushels a month to August 1. Either you or the boys in the trenches, or our Allies, will go without flour. Which?"

"But you must do more. Help pass the word to eat less bread. Make the 12-ounce loaf do where you formerly used the 16-ounce loaf. All the bakers have been requested to make a three-quarter instead of a pound loaf. The food administration has requested the bakers to reduce their output. This industry has volunteered its hearty cooperation. You can help them greatly by lessening the demand for any and all products containing wheat flour. There is absolutely not enough flour (including the present schedule for substitutes) to go around on a 33-1-3 per cent basis. If the requirements of the Allies and our army and navy should be increased before August 1 our supply would be that much less."

\$5,000,000,000 MARINE FLEET

By 1920 U. S. Will Have 25,000,000 Tons of Shipping; World's Largest.

South Bend, Ind.—America in 1920 will have a merchant marine of 25,000,000 deadweight tons, Chairman Hurley of the shipping board, declared here Monday in an address giving the most complete statement of the nation's shipbuilding program which has yet been made public. He was speaking to graduates of Notre Dame university.

This great commerce fleet, Mr. Hurley said, the largest ever assembled in the history of the world, and involving the expenditure of more than \$5,000,000,000, will link the United States to South and Central America by weekly steamer service which will enable the Latin-American countries to utilize their unlimited natural resources in the freest competition with other nations. It also will bridge the Pacific for the transportation of the products of Japan, Russia, China, Australia and the Orient, and will continue to promote America's trade with Europe.

2,000,000,000 Due This Week

Washington.—The biggest outpouring of federal taxes in the history of the nation will occur this week. More than \$2,000,000,000 in income and excess profits taxes from individuals and corporations is due by next Saturday night, in addition to the \$500,000,000 which already has been paid in this year. Total receipts from these sources are expected to be about \$2,775,000,000. More than 6,000,000 separate payments of income taxes are to be made.

Death Sentences Asked for Plotters

New York.—The death penalty will be demanded, it was declared, if the speedy trial, planned for the defendants indicated for treason and conspiracy to commit espionage, results in the conviction of Mrs. Ethel E. de Victoria, Jeremiah O'Leary, John T. Ryan, Albert P. Frick, Edward J. Brennan, Carl van Kesteren and Emil Kipper. O'Leary and Ryan are fugitives from justice. Substantial corroborative evidence is believed to have a formidable reputation in destroying Allied ships.

Names That Signify Nothing. Really, what is in a name? Irish stew is little known in Ireland; Roman candles did not originate in Rome; what is known in baseball parlance as a "Texas League" happens in as many games played outside of the Texas league as those played in it; the Irish daisy is in reality a dandelion; Netherlands don't make it a custom to pay for their own refreshments while eating and drinking with friends, and thereby make constant what is known as a "Dutch Treat." And as on, for infinite examples.

Using Water as a Weight. A pint of water, or of wheat, sugar, or butter weighs about one pound and may safely be used as a basis for weights and measures. This knowledge is often valuable to the farmer who keeps seed wheat on hand, for it may be made to weigh, by balance, all other farm products.

Cross of St. Andrew. The Cross of St. Andrew is white-satin on blue ground, to represent the cross on which the Scottish patron saint suffered martyrdom. It is combined with crosses of St. George and St. Patrick in the Union Jack of Great Britain.

Wood Growth. Wood grows lengthwise but once, during the first year. After that it continues to grow in thickness each year of its life, but the length growth is each year extended only by new twigs.

Onions. Even now few people perfectly realize the beneficial effect that this vegetable has on the system, and it is too often ignored on account of its pungency of flavor and smell. A well-bolled Spanish onion will induce sleep when most other things fail, and on this account alone it should frequently form a supply dish for the brain-weary man or woman of business.

Changing Color of Flowers. Many pink flowers may be turned blue by exposing them to the fumes of ammonia for a few minutes, and blue flowers become pink when exposed to soda.

Sour Stomach This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat, and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatsoever. When you are over-eaten take one of Chamberlain's Tablets to aid digestion.—Adv.

Merchant Marine Needs Men

O. F. Beyer of the Beyer Pharmacy, has a personal interest in a stereopticon slide, which is being shown on the screen of the local theatre this week. The lettering on the slide is as follows: MAN THE SHIPS!

THE MERCHANT MARINE Needs Men from 21 to 30 As Sailors, Firemen and Cooks Good Jobs at Good Pay MILITARY EXEMPTION Apply to Official Enrolling Station Of United States Shipping Board At any Retail Store

Mr. Beyer is a special enrolling agent here of the U. S. Shipping Board, and is signing up young men to enter the training service of the Merchant Marine as sailors, firemen, coal-passers, cooks and messmen. The young men are given a special course of instruction on training ships maintained by the U. S. Shipping Board, before being placed in the crews of the big new merchant vessels now being commissioned by the Shipping Board to take supplies to Europe. They receive good pay and are given exemption from military service by special regulation. If you have anything to say or sell, advertise it in the Mail. You will get quick returns for your money.

The only way to be safe

THE proverb says that the only way to be safe is never to feel secure. But that proverb was made before the Two Hartford's began to offer their complete insurance protection.

If you have a fire insurance policy, you have wisely guarded against one source of loss, but there are many others which might cause you as much loss as a fire. The
