**HELD ANNUAL MEETING**  
PLYMOUTH AGRICULTURAL ASSOCIATION HELD ANNUAL MEETING LAST WEEK THURSDAY AND ELECTED NEW OFFICERS FOR THE ENSUING YEAR.

The annual meeting of the Plymouth Agricultural association was held at the Grange hall, last week Thursday afternoon. The report of the secretary and treasurer was read and the showing made for the past year was very creditable indeed, considering the fact that the tomato crop was practically a failure so far as the local association was concerned, and very little pulp was made at the packing plant, compared with the average season. During the past year the association has installed some additional machinery at their packing plant, and has made other improvements.

During the coming year the association will sell supplies, such as coal, seeds, etc., to the general public at the same retail price as they do the members of the association. The coming season the association will enter the Detroit markets on a co-operative basis. They will also operate a greenhouse this year to raise plants for the members, that will be a fine feature, which will not only result in a saving, but will standardize the crop, which is very important with regard to the marketing to the best advantage to the producer.

The outlook for the coming year for the association seems to be very bright, and Manager George C. Raviler, to whom a large part of the success of the association is due, has every reason to believe that the coming season, with all conditions equal, will be one of the best that the association has yet had.

The annual banquet of the association was postponed until a later date because of so much sickness being prevalent.

The following officers were chosen for the ensuing year:  
President—William Farley  
Vice President—Walter Postiff  
Sec'y-Treas.—George S. Raviler  
Board of Directors—Wm. Kobbe-man, Sam Spicer, James Gates, Charles Root, W. S. Birch, Clifford McClumpha.

**DEATH OF ANOTHER PLYMOUTH SOLDIER**  
J. EDWARD TIGHE OF THIS VILLAGE DIES OF PNEUMONIA IN MILITARY HOSPITAL AT AUGUSTA, GEORGIA.

The sad news was received here yesterday morning of the death of J. Edward Tighe, son of E. H. Tighe of this village, which occurred in a military hospital at Augusta, Georgia, Wednesday evening at 6:40 o'clock of pneumonia. The father, E. H. Tighe, had left that day in response to a telegram for the bedside of his son. The young soldier was one of Plymouth's brightest and best young men and his untimely death comes as a great shock to his relatives and friends. At the time of our going to press no arrangements for the funeral had been made.

**THE WEATHER A YEAR AGO**  
Last Sunday and Monday were considerably different than January 12 and 13, 1918. The snow then was ten feet deep everywhere and the thermometer was 24 degrees below zero. Deep snowdrifts and cold weather demoralized train service leading to and from the village, and for several days it was impossible to leave the village. Business in every line was at a standstill. There was no one on the streets and many business places were closed during the day. Last Sunday the thermometer did not reach a freezing point until late in the evening. On January 12, 1918, the following readings were taken from the government thermometers: Noon, 12 degrees below zero; maximum temperature, 20 above; minimum, 24 below zero. Last Sunday they were as follows: Noon, 30 above; maximum, 34 above; minimum, 15 above.

**A SPLENDID LECTURE**  
RABBI LEO M. FRANKLIN OF DETROIT, GIVES LECTURE UNDER AUSPICES OF THE WOMAN'S LITERARY CLUB.

The lecture given by Rabbi Leo M. Franklin of Detroit, in the Presbyterian church, last week Thursday evening, under the auspices of the Woman's Literary club, was well attended, the church being filled. The meeting opened with an organ prelude by Miss Madeleine Bennett. Mrs. C. H. Bennett, president of the club, in a pleasing manner greeted the guests and requested them to arise and give the flag salute. Miss Evangeline Foster, with Miss Madeleine Bennett at the organ, favored the company with a vocal solo, after which invocation was given by Rev. L. M. Bicknell.

Mr. Franklin was then introduced and gave his popular lecture, "Religion of America." Dr. Franklin is not only an interesting speaker, but is a thorough biblical student as well. He handled his subject in a very able manner, bringing out many interesting points. He held the close attention of his audience until the close.

After the lecture the guests were invited into the church parlors to meet Dr. Franklin, and also to partake of light refreshments, which had been previously prepared by the civic committee of the club, under the direction of which the lecture was given.

In response to the invitation extended to the Northville club members, several Northville ladies and husbands were in attendance.

"It was a frank, conscientious and remarkably liberal discussion of religion and religious institutions, as he sees them from the standpoint of a religious system somewhat separated from the rest by its rejection of the very centre of christianity," said Rev. E. M. Field, pastor of the Methodist church, when asked his opinion concerning the lecture by Rabbi Franklin. "I was very much interested in what Dr. Franklin had to say, although there were many points at which I differ very radically from his position. Although he treated with humorous criticism some things dear to my own religious creed, as well as treading on tender places in other church's beliefs and practices, I do not think he meant any of it unkindly. His pointing out of shortcomings in christian institutions might, in some instances be of value to us who 'got his' if we would consider it thoughtfully in a charitable a spirit as it was given."

**PURCHASES BUSINESS BLOCK**  
H. W. Murray has purchased the building owned by the Plymouth United Savings Bank, and formerly occupied by Pettingill & Campbell's grocery, and will move his ice cream and candy store from the Gayde block to that location about the first of February. Mr. Murray will build on an addition at the rear of fifteen feet, which will give him ample room for his business.

**A NEW GARAGE FOR PLYMOUTH**  
Clyde Bentley announces that he will build a modern garage on the vacant lot owned by him opposite the Plymouth Hotel, and known as the old Fuller property. This will be an ideal location for a garage. The new building will be constructed of brick and will be 80x110 feet in size, and will be equipped with all modern conveniences. Work on the new building will be started early in the spring. Mr. Bentley is the agent for the Buick and Dodge cars for this locality and is a hustler. He expects to move from Redford to this village next month.

**CANDIDATES FILE PETITIONS**  
Wednesday was the last day in which to file nominating petitions for the office of village commissioners. Only five petitions were filed. Commissioners W. T. Conner and E. R. Daggett are up for re-election, while A. V. Jones, George H. Robinson and Edward E. Foster are the other candidates. The election will occur Monday, March 10th.

WILL PUBLISH INTERESTING ARTICLE

The Mail has secured for publication in next week's issue a most interesting and important article by William G. McAdoo, director general of railroads and former secretary of the treasury.
In this article Mr. McAdoo will outline the reasons for his recent action in asking congress to extend for five years the period of government operating and control of railroads. He will clear up some doubts that have existed as to his attitude on the question of government ownership and government control.
There is no after-war problem of greater interest to all the people than this question of what shall be done with the railroads now that the war emergency has passed. Whether you agree with Mr. McAdoo or not on all the points he raises, you will find his article of the greatest interest coming as it does from the directing head of all the railroads in the United States.
Look for this article in the next issue of the Mail. It will be worth reading.

Cured at a Cost of 25 Cents
"Eight years when we first moved to Mattoon, I was a great sufferer from indigestion and constipation," writes Mrs. Robert Allison, Mattoon, Ill. "I had frequent headaches and dizzy spells, and there was a feeling like a heavy weight on my stomach and chest all the time. I felt miserable. Every morsel of food distressed me. I could not rest at night and felt tired and worn out all the time. One bottle of Chamberlain's Tablets cured me and I have since felt like a different person." Advt.

REVIVAL MEETINGS

LOCAL PASTOR TO BE ASSISTED BY SINGERS WELL KNOWN IN PLYMOUTH.

Mr. and Mrs. Lawrence A. Meade, who won so many warm friends in Plymouth during the four weeks that they were here with the Fikes evangelistic party in November, 1917, will assist Rev. Frank M. Field in special revival meetings at the Methodist church, the first two weeks in February. Mr. and Mrs. Meade are now assisting in union meetings in Birmingham, continuing over two Sundays, in which they have charge of the music, while the four local pastors are the evangelists. They have a large chorus choir and orchestra to lead the singing, and the same plan will be carried out in the meetings here.

Many who have heard of the securing of Mr. Meade to direct the singing and Mrs. Meade to serve as pianist, have expressed great delight in the arrangement, which is sure to add greatly to the success of the meetings. The meetings will begin Sunday, February 2nd, and continue at least over three Sundays.
Special services have been in progress at the Methodist church, this week, in observance of the week of prayer, with considerable interest being shown.

BUMBLE BEE BUSY WORKER

Only Severe Cold Weather Induces Insect to Take a Rest From Its Labors.

If one were born a bumble bee, his idea of life success would be 40 acres of red clover waist high; in full June bloom and fragrance all the year through and forever. What one bumble bee could do with 40 acres of clover no bee nor mortal ever knew; but the bee, if human wise, would want all that and more.

Invade his flowery honey farm at the height of the season, and he puts out no restraining hand. There is no padlock on his gate. The whole field is a-bum with polyglot plunderers coming from everywhere to carry away the very goods that are gold to the bumble bee. But he puts up no defense. He makes no vicious counter-offensive, as the yellow-jacket might. If you search for him here you find him diligently prospecting with his honey pump humming a barytone solo as he works, loads of pollen strapped to his running board, his tonneau bulging with joy fodder. He is having the time of his life.

When the 40 acres of red clover is a wilderness of dry stubble under a scorching July sun, and his millions in clover are swept away by the hand of the strong, this bumble bee will not be found hanging by a spiderweb to a fence-rail fireweed, a bankrupt suicide. Not he. In this fence corner left by the mower, clad in his velvet suit of black and yellow, even now he is working over the dump of a goldenrod mine, and gold is shining from his fat wings left in his honey jug, and he is still humming his song of high June.

As the season goes down the steep slope toward chilly weather, the bumble bee does not dig his reluctant heels into the sod, lag sullenly back and turn a regretful eye over his shoulder, with his heart in the lost red clover. He takes the small sweets of poverty as he did the rich ease of June honey. From a June millionaire's estate he has fallen to the fortune of an autumn tramp, taking a handout from a belated weed and begging a night's lodging in the last bloom of a wayside hollyhock. But he still reels his well-brushed suit, his good deep barytone and his memories of June.

Why does God give so much sorrow unto His Christians?
An Ingham county man made a profit of \$15 an acre on his clover crop by giving it a dressing of manure, applied to correct the acidity of the sandy land. There may be a hint in this for some of our local farmers who have sold of a depleted sandy type—Oxford Leader.

NEIGHBORHOOD NEWS

Holly Wants It—
Holly is another village that wants the commission form of government.

Opens Night School—
The Howell school board has opened an evening school, giving classes in commercial subjects, mathematics and physics.

Will Organize Commercial Club—
Milford business men and citizens are about to organize a commercial club to boost Milford in every way possible. Good idea, neighbor.

Detroit's Big Auto Show—
Detroit's annual automobile show, which will be held March 1st to 8th inclusive, promises to be the greatest exhibit that has ever before been attempted.

Will Operate Regular School—
A regular school will be operated this year in connection with the annual show of the Michigan Poultry Broilers' association, which opens at the Armory, January 27th. A number of good speakers will be in attendance. The program is being prepared by Prof. Burgess of the M. A. C.

Hospital Unit to Return—
Official announcement has been made that the Shirley and Harper hospital units that have been in France for more than a year, are expected to arrive in Detroit by the first of February. A number of Wayne county physicians, and young men are with these two medical organizations that did such excellent work in France during the war.

Rack on the Job Again—
Justice of the Peace E. C. Smith, who for the past few months has been acting in the capacity of "marrying justice" at the Wayne county building in Detroit, is back in Dearborn again, choke full of the same old pep, and can be found in his office next to the bank building any day now, where he is open for business in a general real estate line, auctioneering or joining two so they can live as cheaply as one. Judge Smith says he enjoyed his engagement in Detroit, but he is glad to be back in Dearborn, his faith in the future of which is unbounded.

Will Remove All Signs—
The board of county road commissioners is having removed all business and commercial signs constructed along the highways in Wayne county. Many of these signs are of firms long out of business, while others were put up in recent years. The new signs put up by the county, the commissioners do not feel that the old ones are needed. They were unsightly and in places were a real menace to public safety. As no favorites could be played, all signs are to be removed and they will not allow any more to be erected. The roads of Wayne county are to be made the model for the world, and this is a part of the plan. This is a good thing as the highways in some parts of the county look as though they were maintained more for advertising purposes than for travel.

Will Run Full Capacity—
The tractor plant of Henry Ford & Son, located at Dearborn, will be run to the fullest capacity in the future in an endeavor to fill the orders as they roll in and also continue to expand. Also the Ford activities along the River Rouge will be pushed during the coming year as fast as possible, but the biggest factor cannot be placed in operation until the water connections with the Detroit river are developed. As part of the new development program, Henry Ford has resigned as president of the Ford Motor Company, and his son, Edsel, has been elected to fill his place. Mr. Ford stated that he desired to give his entire time to the new enterprises located at Dearborn and down the river. It is believed that he will devote considerable time to his new newspaper venture, the Detroit Independent. The Ford Motor company declared a 200 per cent cash dividend, and also announced a minimum wage scale of \$8 per day. The Ford properties around Newburg, where a water power is to be developed are expected to start progress with the opening of work weather in the spring.

PRESBYTERIAN NOTES

The evening congregations are growing. Are you helping to make the evening service a real asset? We want and need you.
C. H. Beach, our Sunday-school superintendent, will be away for a few weeks. Let us all rally to the support of the Sunday-school and show our appreciation of his service and fine work by keeping the home fires burning during his absence. We cannot have any slump in the work.

The Busy Woman's Bible class met with their teacher, Mrs. J. R. Rauch, Tuesday afternoon, and enjoyed a most delightful afternoon.

The Home and Foreign Missionary society of the church, held an interesting meeting with Mrs. Ella Chaffee, Wednesday afternoon. The discussions and papers were greatly enjoyed by all.

Mr. Foster's Woman's Bible Class will meet in the church house, Friday evening for a feed and a good time. Plans for definite work will be discussed.

be discussed. This class is assisting a real work of soul under the inspiration of its earnest teacher and some splendid results for the kingdom are promised.

The Junior and Intermediate Christian Endeavor societies will meet to organize and start their work, next Sunday afternoon from 3 to 4. Mrs. Whipple and Mrs. Parker will be the leaders. Fine work is promised.

At the first meeting of the newly elected trustees, last Monday evening, F. D. Schrader was elected chairman, and D. G. Brown, secretary. The chairman appointed John Henderson and Harry Shattuck as church committee; W. H. Shaw and M. G. Hill, committee on purchasing, and D. G. Brown and C. H. Bennett as financial committee. Plans were discussed for the work of the church and much enthusiasm was aroused. The work has started on a very business-like and systematic method, and it is hoped that the work for the kingdom will be made more effective.

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women ailments I have ever used."—Mrs. SARA SEAW, R. Cold Water Thaws Frozen. Use of water to thaw frozen ground in gold placer mining has recently been tried out with great success in the Candler region, Seward peninsula, Wash. The innovation was the discovery of J. H. Miles, superintendent of the Alaska Miles corporation. A description of the Miles method, as given by George H. Kilroy, just returned from Nome, states that the cold water is introduced through small pipes into the frozen placer ground. In the past summer season, it is said to have cut the cost of operation from 30 to 50 cents per cubic yard.

ALL PAY TRIBUTE TO COL. ROOSEVELT

PUBLIC OFFICIALS AND PRIVATE CITIZENS JOIN IN PRAISE OF THE DEAD LEADER.

GREAT LOSS TO THE NATION

Pure Patriotism, Unfailing Courage and Illustrious Service of Former President Extolled by His Countrymen, Regardless of Party.

Americans of all shades of political opinion have joined in paying warm tribute to the fearless Americanism of Col. Theodore Roosevelt and to the great service the dead leader rendered to his country and to all mankind. Here are some of the expressions of public men and private citizens telling of the loss the nation has sustained:

SECRETARY OF STATE LANSING—The death of Col. Roosevelt removes from our national life a great American. His vigor, mind and ceaseless energy made him a conspicuous figure in public affairs. Friends and enemies alike recognized the force of his personality and the great influence he had in molding public thought and purpose. His patriotism and devotion to his country will long be remembered by all his fellow citizens, while his sturdy Americanism will be an inspiration to future generations.

ACTING SECRETARY OF STATE FRANK L. POLK—He was one of the most striking figures in the history of this country, and, in fact, of his time. It is impossible to measure today what he did to arouse the political conscience of the American people.

NEWTON D. BAKER, Secretary of War—His relations to the navy and to the army are, of course, a part of the history of those two services, and during the eventful period he brought his powerful personality and energy to bear upon economic problems of the greatest moment. I do not know of any other American who has so diversified and intensively pursued activities—frontiersman, explorer, naturalist, seaman, soldier, executive and publicist. In each of these relations he was successful and left his mark.

JOSEPH DANIELS, Secretary of the Navy—He has blazed new paths and refused to be fettered by conventionalities. Original, forceful, courageous, he was the monitor of millions of his fellow countrymen, who will miss his leadership and his example.

FRANK K. LANE, Secretary of the Interior—Colonel Roosevelt was a great man, a very great man—great in his soul, great in his personality, great in his conception of America's place in the world. He will sit at one of the high tables.

CARTER GLASS, Secretary of the Treasury—Colonel Roosevelt was an extraordinary figure and leaves a legacy of patriotic endeavor and achievement of which those who most respected and honored him will always be proud.

DIRECTOR GENERAL MADON—Colonel Roosevelt's prodigious activities made him one of the most conspicuous figures in public life. We are too near the event to place a just estimate on his life and career, but he will always be distinguished for one great achievement—the construction of the Panama Canal.

FORMER PRESIDENT TAFT—The country can ill afford in this critical period of history to lose one who has done and could in the next decade have done so much for our humanity. We have lost a great patriotic American, a great world figure, the most commanding personality in our public life. I mourn his going as a personal loss.

SENATOR LENROOT of Wisconsin—I regard Colonel Roosevelt's death as a very great calamity for the nation. His usefulness to his country is so great that his greatest usefulness might have been in the future.

SENATOR LEWIS of Illinois—The death of Colonel Roosevelt is the loss of a great man, of a great force, and of a great benefit to America. Whatever differences men may have with Colonel Roosevelt in party lines or political principles, all must certify that his fight for cleanliness and integrity in public life did much to rid the nation of corruption in public affairs.

SENATOR NEW of Indiana—Intellectually he was in the first rank among those who have figured in our public life, and his energy and application he was without an equal. He was a true patriot, a thorough American at all times and in all respects.

SENATOR MARTIN of Virginia—He met all the responsibilities of citizenship in the most courageous manner. A characteristic of his life was his unqualified courage. He never had a conviction in his mind that he did not have the courage to follow it. He was a man of unlimited courage, of limitless resources, and of unbounded patriotism.

SENATOR CHAMBERLAIN of Oregon—A true, noble American never lived. Colonel Roosevelt was a great man, a great patriot, a great American, a great man. He was devoted throughout his life to his country. He tried always to be a servant of humanity.

It is not surprising that he was America's greatest living hero. REPRESENTATIVE MEDILL M'COMICK—He was the greatest American of our time. We are his debtors for his tremendous labors of the past and for his public life, for the quickening of our national spirit, for the reclamation of our patriotism.

REPRESENTATIVE JAMES R. MANN—I think Roosevelt was the most wonderful individual character in his time. He was a student of mankind and so profoundly so that his influence was tremendous and his loss will be deeply felt here and in other countries.

REPRESENTATIVE FESS, chairman of the Republican congressional committee—His death at this moment is a national calamity. Never were his talents so much needed as now.

FORMER SPEAKER CANNON—Colonel Roosevelt's place in history will be as one of the great presidents of the republic. He kept in closer touch with the legislative department than any other president I have known.

REPRESENTATIVE GILLET of Massachusetts—Colonel Roosevelt was the most remarkable man America has produced since the death of George Washington. His knowledge was unbounded, his personal magnetism extraordinary.

REPRESENTATIVE SHALLENBERGER of Nebraska—It is impossible to overstate the influence of his personality at this crisis in the affairs of government and mankind.

REPRESENTATIVE SHERLEY, chairman of the House appropriations committee—Mr. Roosevelt was one of the really great men of his age and above all else was wholly an American.

CHARLES HUGHES—The death of Colonel Roosevelt is an irreparable loss to the nation. His virility and courage were a constant inspiration. He personified the American spirit of the day.

WILLIAM JENNINGS BRYAN—The death of Colonel Roosevelt is a national tragedy. He was a man of great courage and great vision. He was a man who was not afraid to stand for his principles.

MAJ. GEN. LEONARD WOOD—The death of Colonel Roosevelt is a great loss to the nation. He was a man of great courage and great vision. He was a man who was not afraid to stand for his principles.

FRANK K. LANE, Secretary of the Interior—Colonel Roosevelt was a great man, a very great man—great in his soul, great in his personality, great in his conception of America's place in the world. He will sit at one of the high tables.

AMERICAN MOTHERS

By DR. JENNY B. MERRILL. The phenomenal success of American boys at the front after an unusually short military training was not only a great cause of thankfulness, but indicated that American mothers' methods of discipline had not been so indulgent nor lax in the past as some good critics have feared.

By CLARA H. BURROUGHS. What a large part music has and should have in the lives of all children! How quickly they respond to a musical idea, whether of marching or dancing or a funny song. All children should be encouraged to sing, for the voice is God-given, a priceless instrument that needs no trick for its use.

Very helpful tone exercises may be given to the children to keep this beauty of voice, if given wholly in the spirit of play. Miss Alys E. Bentley has devised some very interesting "tone plays." One of the best is the "ring of a bell."

Hearing Their Own Voices. "Ring—roll the 'r,'" then sing the whole word immediately, continuing the tone for a short while, using a moderately high pitch, "c," "d," or "e." Use also "sing" and "ding" in the same way.

Never Flourished in Germany. Froebel, the founder of the kindergarten, was German but not Prussian. Prussia soon recognized that "democracy" would be the outcome of his method and promptly suppressed it.

Mothers of America, many of them, as well as teachers, have studied kindergarten principles for 50 years and have again and again testified to their value.

WHAT HE WANTED TO KNOW

Question of British Working Man Taken as an Indication That He is Waking Up.

Lord George Wellesley said at a luncheon in Philadelphia: "One result of this war will be that the English workingman will be better paid. He'll be content no longer with the shameful wages of the past."

"The English workingman is showing in numberless ways his resolve to have a better share of the good things his labor creates. I know a lady who, when the submarine crisis was at its worst, lectured in the east end of London on cheap and tasty dishes for the masses."

"My next dish," the lady said in the course of her lecture, "is boiled cod's heads. A boiled cod's head, dear friends, is, properly prepared, a dish fit for the gods. You take four cod's heads of good size and quality, place them in a casserole with salt and pepper, an onion, and—"

"Wait a bit, ma'am!" "A gaunt chap had risen from a front seat. He was pointing his long forefinger at the lady and scowling. "Wait a bit, ma'am!" he repeated. "What I want to know is—who gets the cod?"

WOMEN SUFFERERS MAY NEED SWAMP-ROOT. Thousands upon thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

Pain in the back, headache, loss of ambition, nervousness, are often times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmor's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions.

Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmor & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper—Adv.

Matter of Judgment. "If a man happens to think more of his wife's relations than he does of his own, is the soundness of his mind to be brought into question?"

"I don't know about the soundness of his mind," replied Mr. Dulwaite, "but a great many people would be inclined to question the soundness of his judgment."—Birmingham Age-Herald.

RECIPE FOR GRAY HAIR. To half pint of water add 1 oz. Bay Rum, a small box of Barbol Compound, and 4 oz. of glycerine. Any druggist can put it up for you at home at very little cost. Full directions for making and use come in each box of Barbol Compound. It will gradually darken streaked, faded gray hair, and make it soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off. Adv.

Don't Forget Cuticura Talcum. When adding to your toilet regimen. An exquisitely scented face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum). 25c each everywhere.—Adv.

The man who forgets a favor seldom forgives an injury.

In 1848 Sir Arthur Garrod proved that in gout (also true in rheumatism) there is deficient elimination on the part of the kidneys and the poisons within are not thrown off.

Prof. H. Strauss attributes a gouty attack to the heaping up of poisons where there is an abundance of uric acid which is precipitated in the joints and sheaths, causing an inflammation. Before the attack of gout or rheumatism there is sometimes headache, or what is thought to be neuralgia, or rheumatic conditions, such as lumbago, pain in the back of the neck, or sciatica. As Prof. Strauss says, "The excretion of uric acid was able to effect by exciting diuresis." Drink copiously of water, six or eight glasses per day, hot water before meals, and obtain Anuric tablets, double strength, for 60 cts., at the nearest drug store and take them three times a day. If you want a trial package send 10 cents to Dr. Pierce's "Anuric" Hotel, Buffalo, N. Y.

"Anuric" (anti-uric) is a recent discovery of Dr. Pierce and much more potent than lithia, for it dissolves uric acid as hot tea dissolves sugar.

"FIRST-AID" BOOKS

Attach to the medicine closet, with a string and pencil, a small alphabetically arranged notebook. Under the title for the different poisons, for, although one may know them, when the baby swallows the wrong tablet knowledge is apt to desert one, and by the time the doctor arrives upon the scene it may be too late.

Under F write "Fainting Spells" and what to do. "Cuts and Bruises" list under their proper letter, and "Sunstroke," "Burns," and so on through the list of accidents and sudden illnesses. All this may be taken from a regular first-aid book, but added to this may be remedies for sickness to which one's special family is subject.

From year to year one forgets what it was that proved so effective in that case of quincy, but can easily refer to it in this manner. Being arranged alphabetically, it is the work of but a moment to find the desired information.

Queer Fish. That fish captured off Land's End is a very rare visitor to our coast, remarks the London Times, the only previous specimens recorded having been caught so long ago as 1827. It belongs to a numerous and important family of the tropical seas, which are so called because the first dorsal fin is situated on the front with small projections that suggest some resemblance to a fish.

"Artificial Rain" Theory. Some have thought that the jarring effect of concussion joggles together the moisture particles in the air, just as a sharp tap on a window pane will start a descent of larger drops from many small ones made by a mist or drizzle. A sharp downpour of rain following immediately after a heavy crash of thunder is supposed to be an example of the same cause and effect. This theory was partly back of the "rain-making" attempts formerly tried in Kansas, Texas and elsewhere to break droughts by a "bombardment of the skies."

Wealth of Africa. The wealth of the resources of Africa is thought equal to any two of the other continents of the world. For instance, she has 300,000 square miles of coal fields, 95,000,000 acres of fertile farm lands, iron ore equal to five times the output of North America, 90 per cent of the world's diamonds, \$100,000,000 worth of rubber each year, and uncounted millions in ivory, nuts and oil, copper and gold.

Taking It Lightly. "It is true that Dibble was thrown into bankruptcy," "No, indeed," "But his bankruptcy isn't he?" "Oh, yes, that Dibble took safe notice to transfer his property to safe hands, he hasn't thrown his bankruptcy. He merely resigned it, I should worry, and just got out."—Birmingham Age-Herald.

Don't Depend on Eyes. Blind Jokers are now being taken in by a new kind of medicine. They are told that if they only put in the medicine in the eyes, they will be cured.

After the "Flu" —Fever or Cold

Clean the Acidity and Toxic Poisons Out of the Digestive Tract

Millions are now suffering from the after effects of the deadly "flu," a fever or a cold. Their appetites are poor; they are weak, and they are waiting for their strength to come back. If these people could only realize that the return to health and strength would be greatly helped by giving attention to the stomach—that is, removing the acidity and toxic poisons from the entire digestive tract, making it act naturally, so that the body will enter a great deal of suffering would be saved to humanity.

Everyone knows that the disease itself, and the strong medicines that have been taken, upset the stomach, leave it hot and feverish, the month dry, the tongue coated, a nasty taste, and no desire to eat. This is a poor foundation to build new strength on.

Now, tens of thousands of people all over this country are using EATON'S for the purpose of cleaning their system and they are obtaining wonderful results. It is wonderful that the amazingly quick benefits are hardly believable, just as shown in the remarkable letter which is published upon the request of the writer of this column.

"It is true that Dibble was thrown into bankruptcy," "No, indeed," "But his bankruptcy isn't he?" "Oh, yes, that Dibble took safe notice to transfer his property to safe hands, he hasn't thrown his bankruptcy. He merely resigned it, I should worry, and just got out."—Birmingham Age-Herald.

In an awful shape, I tried three different doctors and got no relief. At a last resort I read and got a box of EATON'S and to my great surprise the very next day I felt better. I had never felt any thing I want, you know. I am healthy. Yours, Indiana, Dec. 4, 1918. C. S. Martin.

P. S.: If you can write me one line of the letter, suffering human beings, you are at liberty to do so. I will be glad to answer it. C. S. M.

This is only one case out of thousands. You should make the EATON'S test in your own case at once. You have everything to gain—not a penny can you lose, for we take all the risk. Your own common sense, your own feelings, tell you that a good appetite, good digestion, a good stomach, with the fever poisons and effects of strong medicines out of your system, will put you on the road to strong, robust health again.

You want to enjoy life again after you have battled with the "flu" fever or cold, or any other illness that has taken your strength. You want to get back your normal vigor, to feel of your own confidence—be able to work with ease, instead of listlessly, half-heartedly dragging out a weary existence.
