**HOOVER** says we must export 20 million tons of food this year—nearly twice last year's record. You can sell in this foreign market—get good prices—serve the world—if you plan your operations right.

Good stock, good implements and good improvements are the big need. Of labor there'll be plenty, but still high in price, and you'll need to save the hours now wasted in a poorly built or badly equipped stable, hog house or shed.

You'll save loss by weather and rats by overhauling or rebuilding corn crib and granary and by making certain that your roofs are tight.

## Plan Spring Building Now

Now is the time. Later you will be too busy with plowing to give much thought to building plans. That will be the time for action—not thinking. Do that part now.

**GOOD LABOR GOES TO BEST IMPROVED FARMS.** You want reliable help. The work of your men will be easier, cleaner and pleasanter. They will be more willing to stay with you all year long, regardless of what the city factory offers to pay.

## Cost Will Come Back Quickly

Building costs may go higher. War kept back so much building that, with the opening of spring, all construction will probably be active. This may mean difficulty in getting materials even at today's prices. We can sell you materials now, for delivery at once or in the spring, at today's prices and probably save you money.

Look over your plant, decide what must be rebuilt and let us talk it over. We'll help you plan and give you estimates of cost. Our long experience in building work should help you to get what you want at least cost.

### Ask Your Wife About that New Chicken House

If she has been losing money this winter because the hens laid few eggs in the old, wet, drafty hen house, plan to get big egg money by building a modern house.

## New Barns for Old

If you're to grow bigger crops and increase your herd your barn and stable may be too small. If they were built years ago, before modern equipment and modern designs were developed, it may pay to tear down the old and rebuild right. You can save labor by a modern design. You can produce better milk in a modern stable. You can keep horses healthier in well lighted, airy stalls.

## W. C. T. U.

The meeting of the Woman's Christian Temperance Union, held at the home of Mrs. Emma Huff, Thursday, February 27, was unusually well attended, several members from Newburg being among those present.

Mrs. M. A. Patterson gave an interesting report of the Republican state convention, held at Lansing, where she was one of the delegates; she also continued her school of instruction for women voters.

The next meeting will occur Thursday, March 13th, at 2:30 p. m. in the Kindergarten room at the schoolhouse, and will be addressed by Prof. Smith.

All members should make special effort to be present and invite others to come with them. Women voters who have not yet registered should register with the township clerk for the April election. Remember, although you can register any time before March 29th, it is well not to put it off until the last moment.

Register now, lest something happens to prevent your registering at all, and you lose your chance to vote against the "Beer and Light Wines Amendment." The speaker of last Sabbath evening, told his audience that every woman who did not vote against the amendment committed a sin. He pleaded with the women not to be careless and indifferent, but to register and vote "no" to help save the boys of our state from the curse of intemperance.

Mack was enrolled in the sixteen weeks general agricultural course as a "first year man," which means that while he completed the work offered at M. A. C. this winter, he will be eligible a year hence to attend the most advanced training to be given in the state.

At the opening of the Penniman Allen auditorium, Mrs. Allen expressed a hope that the people of Plymouth would regard the building as a municipal social center, and this hope is once more made manifest by a generous offer to donate to the Women's Auxiliaries of the Lutheran, Baptist, Methodist and Presbyterian churches her share of the net proceeds of the local talent play presented last week in her theatre. Mrs. Henry S. Davis, who is staying with her aunt, Mrs. Emma Hamilton, received a cable, Friday, February 28, stating her husband, Captain Davis, had been made major and chief lieutenant surgeon for ten divisions, "Camp Custer," the 85th division, being one of these. Major Davis and dental surgeons accounted for four thousand jaw and facial operations and seven thousand fillings along with other work in January. The major says rainy "gunny" France is experiencing a little winter weather. All are fine there, but anxious to get home. Miss Mamie Snyder, daughter of Mr. and Mrs. John Snyder of Perrinville, was united in marriage to Elmer Klump Law of Northville, Wednesday afternoon at 2:00 o'clock, in the M. E. church at that place. The ceremony was performed by Rev. W. C. Francis. Miss Ruth Johnson of Detroit, a friend of the bride, was bridesmaid, and Walter Snyder, brother of the bride, acted as best man. They will reside on the farm of the bride's father, and best wishes of a host of friends are for many happy, prosperous years of married life. Mayford Siskoff, who has been in the city for some time, is leaving here and in the next week in Plymouth Monday evening. He says, "Talk about over there! It's America for me." Word was also received from John Snyder. He writes that he had been some hard fighting and that he never thought about home very much. He never, however, forgot his home again, but now that the war is over, he is very anxious to get back. He has two gold stripes on his sleeve for service, one wounded stripes and an iron cross. He also says he knows what hunger and thirst are for he was "liberal" with them. He says he is now in the hospital and that he is glad to get home after passing through such a hard time.

### Today's Reflections

There are said to be a lot of disappointed Germans over there. They thought Hoover would pass around the spagouse as soon as the armistice was signed.

We've noticed that every Plymouth woman pins her hat on securely, but allows her skirt to blow where it will.

Everything comes to the faithful. Mr. McAdoo served Uncle Sam at a dollar a year, and now has caught on to a \$1,000,000 a year job with a moving picture concern.

It seems fashionable all over the United States to go out on strike now, but we heard a Plymouth woman say yesterday that, "the whistle never blows for mother."

The camel is said to be able to go three weeks without a drink, and after the first of next July, he's going to have a lot of company.

There are a few men around Plymouth who are like cheap watches. They are never satisfied unless they are having a noisy time.

Every girl in this nation would want to vote if she thought there was any chance of them electing a second lieutenant president.

We heard one Plymouth man say yesterday that if serving whale meat ever becomes popular in this section, his boy will be among the first to yell for the drum-stick.

If there are not enough jobs for the soldiers they might be kept in service to guard the money some war profiteers put in the banks.

Maybe the reason some Plymouth people remain at home is because they are compelled to pay as they go.

Instead of plotting to regain his crown, ex-Kaiser Bill should be tickled to death that he still has the place where the crown would be.

The Plymouth mother who speaks of her boy as coming through the war without a scratch seems to have forgotten the cotties.

Some women don't tell their husbands everything for the simple reason that they can't get them to listen more than three or four hours at a stretch.

Any Plymouth woman can tell you that a shine on the shoes is worth two on the nose.

Blood is a good deal thicker than German propaganda, says a New York editor. Yes—but it took the people of this country a long time to find it out.
