### WOMAN'S LITERARY CLUB

A regular meeting of the Woman's Literary Club was held in the Kindergarten room at the school building, Friday afternoon, May 10th. The president, Mrs. C. H. Bennett, called the meeting to order at the usual hour. One guest, one honorary member, five associate and twenty active members were present.

A report was given by Mrs. O. M. Rockwell, chairman of the committee, appointed to act as judges of the essays written by the school children, in the contest during Animal Welfare week. Five books had been purchased as prizes, and later the children winning prizes were invited into the room, and the prizes were awarded as follows: Eighth grade, Carol Pierce; seventh grade, Madeline Kingsley; sixth grade, Louva Rowland; fifth grade, Mrs. Bird's room, Julia Wilcox; fifth grade, Miss Moule's room, Russell Robinson.

A Negro story was the response given to roll call.

The program for the afternoon was in charge of the eighth division with Mrs. Harry Shattuck, leader, and was as follows:

Violin Duet. Negro Melodies—The Misses Anna Baker and Thelma Peck, with Miss Evelyn Thomas at the piano.

Paper, "National Monuments"—Miss Nellie Riddle

Vocal Solo, Southern Melodies—Mrs. Maxwell Moop, with Mrs. L. A. Thomas accompanying on the piano.

Paper, Dr. Hollis B. Frisell, State man of the Negro Problem—Mrs. Robert Jolliffe.

A Dialect Reading—Mrs. Hulda Knapp.

The next meeting, Friday, May 23rd, will be the annual meeting, and as there is considerable business to transact at that time, it was voted to call the meeting to order at 2:00 o'clock instead of 2:15. All members please note the change of hour.

### LIFE OF CHRIST IN MOVING PICTURES

"FROM THE MANGER TO THE CROSS" TO BE SHOWN HERE SOON.

There will be an Open House Night with moving pictures at the Methodist church, next week, on account of the Centenary campaign, and following Tuesday, May 27th, a special attraction in the way of a gospel musical masterpiece in moving pictures to be shown.

"From the Manger to the Cross" is the title of a six-act pictureization of the life of Jesus of Nazareth, produced in amazing locations in Palestine and Egypt at untold expense. The picture is a new and full revelation by the Kalem Company, and is available in the territory by the Victor Exchange, Central N. E. corner, Detroit, Mich. It is three copies of the picture at \$3.50 each.

The subject of the large number of pictures will be presented in a series of the historical pictures it was necessary to study before the war, especially in the case of the "Life of Christ" pictures, and the fact that the picture is so good and so beautiful, that it is a great blessing to the church and to the community.

### PLYMOUTH GOES "OVER THE TOP"

PLYMOUTH GETS LOAN QUOTA OF \$155,800 FOR THE VICTORY LIBERTY LOAN AND A LITTLE MORE.

The Victory Liberty Loan campaign closed last Saturday night, and Plymouth went "over the top" in subscribing for its quota of \$155,800. Up until Saturday night \$83,760 of this quota had been sold to 357 subscribers, and to make it possible to put Plymouth safely over the top, the Plymouth United Savings Bank subscribed for bonds to the amount of \$72,250, which brought the total subscription for Plymouth up to \$155,800.

### SUCCESS ASSURED IN CENTENARY DRIVE

LOCAL CHURCH TO RAISE \$10,000 FOR WORLD REBUILDING.

There is no longer any doubt in the minds of the leaders, that the local Methodist church is going "over the top" with its quota, early in the campaign of the Methodist Centenary \$105,000,000 program. Although the drive does not begin until next Sunday afternoon, lasting from May 18 to 25, voluntary pledges have already begun to come in, and by the middle of this week well toward half of Plymouth's quota of \$10,000, a year for five years had been subscribed.

A careful plan of campaign has been outlined for every Methodist church, the director at large, being no less a financial wizard than C. S. Ward, the director of most of the million dollar Y. M. C. A., Red Cross and other big wartime campaigns. Ten teams of two men each have been chosen for the Plymouth drive, under the direction of campaign director, E. V. Jolliffe. These twenty workers had gathered together at the church, Thursday evening, and laid plans for the intensive drive which opens Sunday afternoon. Before starting out two by two, the workers will be at dinner together at the church on Sunday and receive final instructions for their work.

As many of the workers and friends of the church as possible will be seen on Sunday afternoon by these teams, who will report their results in the service Sunday evening. The workers are anxious to finish the job and cross the line of victory the first day of the campaign.

### RUTHBURN BURNETT

Miss Alva L. Burnett, daughter of Mr. and Mrs. A. G. Burnett of this place, and Thelma Burnett, daughter of Plymouth were quietly married at the Presbyterian church by Rev. L. M. Bicknell, last Saturday afternoon, May 10th. The bride is one of Plymouth's well known young ladies, and is a member of the church. She is a very accomplished pianist, and she is also a very capable business woman. The groom is a very capable business man, and he is also a very accomplished pianist. The wedding was a very quiet affair, and the only guests were the immediate families.

### PLYMOUTH MAY LOSE ICE PLANT

The ice plant, which supplied ice to the people of Plymouth last year, having changed ownership, the present owners have determined to either sell the same to local parties or move the plant from Plymouth. It therefore becomes apparent that if the citizens of Plymouth are to have ice the coming season, it will be necessary to take some action at once.

Therefore a meeting is called at village hall on Tuesday evening, May 20th, at 7:30 p. m., to take action in this matter, at which time an effort will be made to organize a stock company to take over this plant.

All ice consumers are especially urged to be present at this meeting.

### DEATH OF A FORMER RESIDENT

GODFREY HILLMER, WHO SPENT BOYHOOD DAYS IN PLYMOUTH, DIED IN DETROIT FRIDAY.

Godfrey Hillmer, aged 69 years, passed away at his home in Detroit, last Friday, May 9th, after only a few days' illness. Mr. Hillmer was stricken with apoplexy the forepart of last week, which resulted in his death. He is survived by his widow, three brothers, William, Louis and Karl, of this place, besides several nieces and nephews. Mr. Hillmer spent his early life and boyhood in Plymouth and vicinity, but had resided in Detroit for the past forty-eight years, and for many years had been connected with the fire department service of that city. The pallbearers were former firemen associates from his first company. The funeral was held from his late residence, Monday afternoon, and later the remains were brought to Plymouth by funeral car. A short service, conducted by Rev. L. M. Bicknell, was held at the grave. Interment in Riverside cemetery.

Miss Ellen Gardner is visiting Mrs. Earl Stevens at Ypsilanti, this week.

E. L. Bagg left Thursday for the Battle Creek sanitarium, where he will remain for a few weeks' treatment.

USING TOBACCO.
There are thousands of people who welcome the passing of the saloon and the banishment of King Alcohol, but there are few in any community who will endorse the movement to stamp out the use of tobacco in this country.

We ran across one Plymouth man recently who expressed the belief that a majority of people in this would vote in favor of prohibiting the culture or use of tobacco. That is his opinion, and he is entitled to it, but we can't help but feel he is away off.

It is not the reformers who preach against tobacco who can abolish it—it is the people. And it was the people, and not the reformers, who banished booze. The people are not going to be aroused to banish everything reformers take a notion is wrong.

The American people have formed a strong habit in recent years of thinking for themselves, instead of letting a handful of reformers do it for them.

CONDITIONS ARE BRIGHTER
It has not been many weeks since the press was reporting serious labor conditions in some of the larger cities, due to the large number of men who could not find employment.

Now, however, one of the officers of the United States Labor Bureau advises the people of America that a labor shortage of at least four million men exists, with no prospect of the situation being relieved.

We have heard a pessimist or two in Plymouth preaching and predicting hard times and low wages just ahead. This statement from Uncle Sam should silence them.

E. L. RIGGS

There was much complaint in the class of '08 that the professor's marks were incorrect, and particularly in the cases of three students, entitled to widely different marks. When they complained, Professor Sophocles replied: "I can't distinguish between you, gentlemen. You must take your chances as to what you get."

OCEAN'S LAW MOST STRICT

In the Dublin museum a stuffed angler fish, commonly known as a fishing frog, may be seen, its stomach still swollen by an enormous cod which it had swallowed. In the stomach of the cod were found two large herrings.

In the salt sea, it is eat or be eaten. The fishing frog, a fish shaped like a gigantic legless frog, and provided with a luminous ball which it dangles from a long feeler over its wide mouth, has the most prodigious appetite.

Each fish has its special prey. Pul-tack assemble in shoals and pursue the close formations of young cod. They surround the cod, drive them to the surface and devour them. Whittling in similar fashion, parake and devour the herring shoals, while hake feed upon mackerel.

Mackerel will eat any small fish. They devour enormous quantities of fry, being especially fond of young mackerels. The John Dory's favorite food is sprats, while rays are not particular; they will devour any fish that comes their way.

Ships Which Think Themselves.
Newspaper correspondents have been in an uproar and jeerily remind the ship that each of them has its own little life.

Laugh Reveals Much.
There is the man who is always smiling, whose whole person radiates affection and good cheer. He is the frank, open countenance that makes and keeps friends, for he has the true spirit of good-fellowship.

He is the man whom you enjoy going to with good news, and of whose sympathy you can be sure when you are in trouble. He is the friend, always, that everyone admires, trusts and likes, just because he has the smile that spells warmth.

A laugh is a little thing, and apparently to judge a man by his laugh seems like making a mountain out of a molehill. But "straws show which way the wind blows," and psychologists assert that the little things are the real indices to character.

Important National Parks.
Yellowstone national park was constituted by congress many years ago. This public playground of the whole people, now an object of interest to every tourist who visits the West, includes the famous geyser district of the Yellowstone valley and hundreds of other interesting phenomena and beauties of nature.

Hand Picked.
The young bride was enthusiastic over her home and its furniture. It had cost exorbitant prices because it was hand made. To agree with it she demanded hand-made curtains, sheets, etc.

WAS IN MISERY

Mrs. Jones Was in Serious Condition From Dropsy. Doan's Made Her Well.

"I don't think many have gone through such misery as I," says Mrs. C. Jones, 139 Federal St., Burlington, N. J. "That awful pain in my back felt as though my spine were crushed. My head ached and I had reeling and falling sensations when everything would turn black. Through the kidney secretions passed ten or fifteen times in an hour, only a few drops came at a time and they felt like boiling water. I soon found I had dropsy, but I had no money to buy medicine. My face was so swollen I could hardly see out of my eyes. My ankles and feet felt as though they would burst if I put any weight on them. My night clothes became wringing wet with sweat and I would get chilly and shake all over. Doan's Kidney Pills soon had me feeling like a different woman. My kidneys were regulated and all the swelling went away. The sores and pains left me and after I had finished my eighth box of Doan's, I was as well as ever. My kidneys have never bothered me since Doan's Kidney Pills cured me.

Why Bald So Young Rub Dandruff and Itching with Cuticura Ointment

At Princeton they tell of a freshman who, as he blithely went his way whistling on the streets one day, was accosted by a classmate: "Whither away?" "Up going to Doctor Smith's to be examined for appendicitis," said the other.

"Great Caesar!" exclaimed the classmate, "you don't seem to be very much worried about it."

EPISODE NO. 3. WHAT HAS GONE BEFORE. Dick and Polly Van Brunt start after a buried treasure, the only key to whose location is a chart flag divided years before among six men who scout the treasure. Scarface Bender has one piece and kills Polly's father for his. Two other flag holders join Dick, who is attacked in his motor car by Scarface's gang. Meeting with Polly, a bridge is blown up just as his car starts across.

Certainty of death did not shake the courage of Dick and Polly as they sent their motor car at dizzying speed to the brink of Deep Gap, into whose depths the frail bridge had just been hurled by a dynamite blast set off by Scarface Bender and his rufian crew. Stopping the car was out of the question. Their only hope was that their speed would lift the car clear over the abyss.

With a word of encouragement to Polly, Dick grasped the wheel and leaned backward as if to lift the car by his mighty strength. Like a catapult it shot from the torn roadway, rose under its own impetus and, clearing the intervening space, landed on its four wheels in the road on the other side. Bouncing high in the air, it swerved viciously, but Dick quickly had it under control and when safe around a bend, he brought the car to a stop.

"Ton ride on to town," he said to Polly, "and get the sheriff and a posse and have them bring some long lariat. I am going back to rescue Teel."

The outlaw who had exploded the charge of dynamite beneath the bridge had witnessed with amazement Dick's amazing leap in the car and escape, then hurried back to inform Scarface and the others. Cursing their luck, Scarface cried:

"We'll make Teel suffer for this." Then they wheeled their horses and dashed up the road to where Teel had been thrown, gagged and bound, in the brush. Scarface wanted to kill him on the spot, but Screwwe was crafty. He had a better idea and said:

"If I know that fool, Van Brunt, he'll be back to rescue this bird. We'll use him as a decoy."

The others saw the "beauty" of the scheme and Teel was thrown on a horse and taken to the top of the cliff, where a lariat was tied about his waist and he was lowered to a point midway the top and the foot and opposite a ledge. Then Scarface tied the end of the lariat about a tree and waved his companions away, saying:

"Now, if Van Brunt wants to rescue him, he'll have to come up the road to here and we'll get him."

Quite forgotten by both parties, the Chinese servant had freed himself of his gag and his whistles brought Teel's dog, who immediately gave his attention to gnawing the ropes that bound the Chin.

Meanwhile, Dick, by means of a rope he had taken from the automobile, had crossed Deep Gap and made his way to where Teel had been left. From there, he followed the trail of the horse to the foot of the cliff, where he discovered his friend hanging down his face. Shouting words of encouragement, he started around the cliff, where a road led to the top—then paused, as if he were suspecting a ruse. He then returned directly beneath Teel, and aided by projecting rocks, twigs and his rope, caught the ledge within a rope's throw of the suspended man. Making a noise, he was then able to draw Teel to him on the ledge, whence he lowered him to the ground.

From the top of the ledge, the outlaw watched the route and realized that both their chances were in a fair way to elude their trap. Scarface

sently the outlaws waited for the appearance of their victims.

Scarface and his companions, with grins of satisfaction, stood by the tunnel mouth into which flames and heavy smoke were drawn in deadly quantities. Suddenly they heard the approach of many men, and looking around, saw the posse closing in. Not for an instant considering a fight against such odds, they dashed to their own horses and were away.

Within the tunnel, Dick and Teel, choked and blinded and all but overcome by the heat, realized that it meant death to hold out a moment longer and, raising their hands, staggered out—not to face the outlaws, as they supposed, but amidst friends. There was a moment of surprise all around.

The outlaws continued their retreat to a shack owned by Scarface, where they halted to plan a new attempt to get the pieces of flag. Bringing a long piece of fuse from the shack, he left one end beneath a corner of

Set About Their Preparations to Smoke Them Out.

the building and took the other end to a clump of bushes at the edge of the clearing. There they built a fire, about which they seated themselves and waited.

Dick and Teel, having recovered from the heat and smoke, took two of the deputies and started after the outlaws, while the sheriff and Polly and the others turned back to the Ransome cottage. As the former were riding along, one of the deputies, pointing off the trail, said:

"Scarface has a shack up there."

"There they are. We'll get them now," exclaimed Dick, and all spurred for the clearing. The outlaws saw them coming and rushed for the front door, into which they dashed and out their rear door, which they barred after them. Their pursuers, not realizing a trap, rushed after them into the shack, and, as they did so, their enemies raced around a corner and slammed and barred the door, making their prisoners.

"We got 'em trapped. That's nothin' but a short shaft. We'll smoke 'em out."

Ordering his men to bring brush, he stood pistol ready to shoot should the trapped men attempt to escape.

Polly, while these events were transpiring, had reached the sheriff's office, and in less time than it takes to tell, thirteen excited and heavily armed men had piled into two big touring cars, which dashed full speed for Teel's cabin. At Deep Gap the cars were abandoned, the men and Polly crossing the chasm on lariats. They were advancing cautiously toward the cliff when they came on the terror-stricken Chinese, who tarried only long enough to point the general direction the outlaws had taken and continued his flight.

FINE CROPS SURE

Outlook in Western Canada Never More Favorable.

Perfect Weather Conditions Enabled Early Seeding and Wheat Has Long Been Above Ground in the Land of Opportunity.

The greatest optimism prevails throughout every district in Western Canada. From the eastern boundary of Manitoba to the slopes of the Rocky Mountains the farmers have been busy for three weeks in seeding operations. Last fall, even for Western Canada, was an exceptional one. Threshing was completed at an early date and the amount of fall plowing made ready for crop from fifteen to twenty-five per cent more acreage than in any year in the brief history of the country. Therefore there was ready for seeding this spring an acreage away beyond anything ever before experienced in that country.

On April 20 Calgary (Alta.) reported that in south country points there was a notable spirit of optimism amongst the farmers there. Moisture and weather conditions were good, while land in most places was in the best possible condition. More tractors were being put into operation than in any previous year. In some parts of the south country, however, there was a marked shortage of labor, but in the consideration of the country as a whole the labor outlook was bright.

Seeding operations were well under way in every part of Western Canada by the fifteenth of April. The practice of the farmers in that country is to commence as soon as the frost is out of the ground enough to allow the few inch seed bed to be worked up well. Beneath this the ground may still be frozen, but from this frost the young and tender wheat roots get the moisture at first so necessary to its existence. The warm days of spring and the long hours of sunlight that are ushered in with it thaw the frost out day by day and pay to the growing plant the moisture as it is needed. Nature's way of producing moisture to the young wheat plant is one of the chief reasons why Western Canada has become world famous as a wheat-producing country. What may be said of wheat can as truly be said of oats and barley, and yes, in fact, corn, too. Rapid and strong growth is stimulated in this manner. Heavy spring rains usually occur after seeding is over and the grain well above ground.

Already a report has been received, dated April 20, that a farmer near Cabri, Saskatchewan, had 180 acres of wheat showing above the ground.

A good, strong and sturdy wheat plant is necessary when it is expected that there will be produced a forty-bushel-to-the-acre crop of wheat of a quality that will weigh out its sixty-five pounds to the measured bushel.

These spring wheat conditions represent but one of the reasons why Western Canada has been able to produce, with so little effort, world's record grain crops, wheat and oats that have carried off all championship awards at America's largest exhibitions.

Western Canada has this spring shipped ten thousand bushels of Marquis wheat, the variety that holds most of the world's championships, to Australia, where it is to be tried out. Seventy-five thousand bushels of the same variety has been sent to France to be used for seed.

The wheat lands of Western Canada are probably the most undervalued of any on the continent.

A comparatively small acreage of Western Canada's lands has been sold as high as \$80 an acre. The greater portion of the best farming land in its unimproved state may be purchased at \$25 an acre. The comparison between these prices and an annual revenue derived from grain-growing alone, with big yields and present prices, can but more firmly impress one with the certainty of a rapid increase within the next few years.—Advertisement.

WOMEN NEED SWAMP-ROOT

Thousands of women have kidney and bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. Pain in the back, headache, loss of ambition, nervousness, are often-times symptoms of kidney trouble. Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, may be just the remedy needed to overcome such conditions. Get a medium or large size bottle immediately from any drug store. However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—ADV.

IT'S NO SECRET

Probably no man in America was ever better qualified to successfully treat the diseases peculiar to women than Dr. Pierce, of Buffalo, N. Y. The cases that come to him run into many thousands, giving him an experience that rarely comes to any one man. Dr. Pierce found that in nearly every case there were certain vegetable growths which rarely failed to give prompt relief in these feminine disorders from which so many women suffer. He combined these roots and herbs into a temperance medicine that he called Dr. Pierce's Favorite Prescription. This medicine is sold in both liquid and tablet form by druggists everywhere. A weakly, sickly, backache, headache, nervous, dependent woman, with regular or irregular pains—with feminine disorders that come in youth or middle age—is pretty sure to find in Dr. Pierce's Favorite Prescription the exact remedy that her condition calls for.

Clergy Asserts Itself. Clergymen in Great Britain may strike for higher wages. At a recent conference of the Southwell diocese at Derby, the bishop delivered ultimata to certain missionaries who asked that a minister be appointed for their churches. The bishop has refused to assign pastors for the parishes until they have assured him they will have a house and adequate food. Eight of the parishes of the diocese recently were combined into one.

The question of poor church wages has kept many aspirants to the ministry from being ordained and the church hierarchy has been asked not to establish any more \$1,000 a year parishes.

Announcing that he will build 60 houses this summer, Mr. Miller, a Detroit Real Estate Board member, has disclosed a plan whereby one may live outside the village limits and yet have all the advantages that those within our incorporate limits enjoy. The ingenious plan of erecting a windmill to furnish a water supply for the entire subdivision will be adopted, he said, and a septic tank sewage system will be installed. This subdivision is situated south and west of the village proper.—Dearborn Press.

Sometime ago a smooth solicitor, claiming to represent the National Association Co. of Chicago, canvassed this village and secured about a dozen orders for Colliers, Cosmopolitan, McClure's and a War Atlas for which the people signed what they supposed was an order. These have now turned up at the bank as notes for \$12 each. And the worst of it is those signing haven't as yet received the magazines for which they subscribed.—South Lyon Herald.

Through the efforts of President Yerkes of the Northville Auto club, and Caas R. Benton, one of its directors, co-operating with the Detroit city council and the Wayne County Road commissioners a continuation of the Seven-mile cement road up through the village will be built this year. The cement road will be extended to the Floyd Northrop corners, the entrance to the newly acquired Detroit City Hospital grounds. It is the intention of the commissioners, it is understood, to put in proper drains when the grading is being done, the same plan probably as is being worked out in Farmington, Orion, Belleville, Wayne and other places.—Northville Record.

Plans are completed for the erection of a bath-house and pavilion at Whitmore Lake on the Groomes subdivision adjoining the Stilson beach. The latter property recently passed into private ownership and will no longer be open to the public. An appropriate ground will be laid out about the new pavilion, and May 30 is the date set for the opening. In addition the installation of various amusement devices is contemplated. Northville Commandery No. 39 has a busy month ahead. It was voted Tuesday evening to attend the Grand Commandery Conclave at Jackson, on Tuesday, June 3. The trip will be made by special car arriving in Jackson in time to take part in the Victory parade. Fifty Sir Knights will attend. The Commandery has also accepted an invitation to appear in the Memorial Day line of march with the G. A. R. and present war veterans. This was a feature introduced last year and proved very satisfactory. Shortly morning, May 18, the Commandery will attend Assumption Day services in the Methodist church in response to an invitation from the pastor, Rev. W. C. The meetings of the Woman's Christian Temperance Union have been extremely well attended lately, especially the one held Thursday, May 8th, at the home of Mrs. Coats. A pleasing program of readings, mostly humorous, was given, and the "Smiles," by members, caused many laughs. The vocal solos by Mrs. Cooper, and the violin selections by Miss Baker were greatly enjoyed. Winifred Draper concluded the program with a charming little song, which was heartily enjoyed.

The committee reported that the baked goods sale was a success despite the stormy weather. One new member was enrolled. The next meeting occurs Thursday, May 22nd, at the home of Mrs. Phebe Patterson, Ann Arbor street. Leader, Mrs. Sheldon Gale. Topic, "The Outlaw of the Cabinet." Everyone welcome.

**A NEW ORGANIZATION**

**LIVE STOCK SHIPPING ASSOCIATION ORGANIZED.**

A rousing meeting of 150 farmers from VanBuren, Sumpter and Canton townships, held at Belleville, May 7th, resulted in forty-three signing up for a Co-operative Live Stock Shipping Association. This assures the top price for all live stock to the producer with minimum cost for handling.

G. C. Ravler, Extension Specialist in Marketing from the M. A. C., explained the method of organizing, while Charles McCalla and George McCalla of the Ann Arbor Live Stock Shipping Association, explained the work of an association from the farmers' standpoint. Petitions for signing up are in the hands of H. D. Schweigert, Chris. Sweitzer, Frank Merrell, Irving Riggs, F. C. Fry, Ed. Robson, George O. Perry and Steve Pearl of Belleville, and E. W. Moyer and A. Huston of Plymouth. If not already asked to do so, see them and sign up.

A second meeting to organize and elect officers will be held at Belleville, May 21st, while a meeting for forming a second association will be held the evening of May 25th, at Flat Rock, with Monroe and Wayne County Farm Bureaus co-operating. It is through such organization that the farmers are able to get what rightfully belongs to them. One hundred thirty associations are already operating successfully in Michigan, doing a business of twenty-five to thirty millions of dollars a year. O. I. GREGG, County Agent.

**CLEAN-UP DAY**

A happy time is clean-up day, That comes to us in merry May; When feathered songsters gayly sing A carol sweet of the joyous spring. In cellar, dark, and in attic high, Begrimed with dust, unused, they lie The diverse things we have stored away, Awaiting the dawn of Clean-up Day.

We drag them out and pile them high, To brave the jeers of the passerby; Broken chairs we can use no more, Dishes and tins and cans galore.

An old oil stove, it must go, alas, It gave its place to the modern gas; And a hanging lamp with a mammoth shade, Now, on the pile is quickly laid.

No longer we care to give them space, The old, to the new, has given place; And gladly we watch to see them go, When the "clean-up" men come down the row.

God grant to the world a Clean-Up Day, When hatred and strife are cast away; When nations shall dwell in perfect peace, And the horrors of war forever cease. Nettie H. Pelham

VALVE-IN-HEAD MEANS BUICK

Utility, as expressed in the various Buick Valve-in-head models for nineteen-nineteen, is a composite thing, made up of those elements, which may be considered vital factors in the service-ability of a motor car.

Always Buick cars have been developed, not redesigned. And for nineteen-nineteen they reach the highest pinnacle in this development. Each model has a certain scope, a particular range of usefulness. Enough models have been provided in the complete Buick line to enable any purchaser to select a Buick car that is exactly equipped to serve him to the utmost limit of his demands for utility.

### LYMAN A. HOWE'S TRAVEL FESTIVAL

OKLAHAWA, THE MYSTERIOUS, HAS ATTRACTED MANY FAMOUS TOURISTS.

The romantic Oklawaha river in Florida, called Oklawaha, the mysterious, has been the goal of many famous tourists. Lyman H. Howe's camera men visited the Oklawaha, toured its long, winding channel and recorded many scenes of rare and singular beauty for the newest Howe Travel Festival, which comes to the Penniman Allen Theatre on Monday, May 19th.

Among the famous visitors to the Oklawaha since its course was opened to navigation just after the Civil war was Harriet Beecher Stowe. Mrs. Stowe called the Oklawaha "a visit to fairyland," in her writings and said that the trip was "a weird, wondrous, magical, to be remembered as one of the things of a lifetime." General U. S. Grant spent some time voyaging down the Oklawaha after his famous tour of the world.

All the old romantic flavor is still preserved. At night, for instance, instead of searchlights, negro boatmen burn wood upon the upper decks of the tiny river steamers. The result is a scene as if from Dante's Inferno. The grey Spanish moss hangs like silver veils from the gnarled magnolias and cypresses, while the hanging vines and dense tropical jungles cast weird shadows. Strange birds call, wild animals crash through the underbrush and occasionally alligators splash lazily in the waters.

The Howe photographers have succeeded in filming the strange and elusive charm of the Oklawaha in a series of scenes of genuinely haunting beauty.

Other prominent features of the latest Lyman H. Howe program show spectacular scenes of Italian ski runners training for army service in the Alps; a picturesque tour of Japan; a breath-taking flight in a somersaulting warplane over the city of Washington; the exciting capture of sea-elephants, sharks and swordfish in the far away South Sea Islands; an explanation in motion of the insignia of the United States army; new views of geysers, waterfalls and fantastic formations of Yellowstone Park; and a strenuous hunting and fishing expedition into the Canadian wilds.

Funny animated cartoons and mystifying film novelties from the Lyman H. Howe studios will be freely interspersed among the more sedate subjects of the new Travel Festival.

### Today's Reflections

It has been our observation that many a Plymouth man who claims to be discreet is only a coward.

Human nature is not what it ought to be as long as it would rather stand around and tell how anything should be done instead of rolling up its sleeves and helping to do it.

If a Plymouth woman is wise she will never remind a man of the hundred and one fool things he said while he was courting her.

Men do not put new wine into old bottles, the ministers tell us, but they sometimes put new cylinders into old autos with just about as good results.

If the people became very much disgusted with public ownership, they'll soon be giving this country back to the Indians.

One well-known Plymouth citizen asked us yesterday if we have ever been able to find out why it is that married men always have more buttons off of their clothes than bachelors.

Wouldn't Burleson be in a dickens of a shape if the wire owners and railroad owners would refuse to take 'em back?

For our part we wouldn't make a good union man. If we went on a strike it would have to be when the sun was shining and the fish were biting.

The Plymouth woman who fails to say, "because," usually has some other excuse.

The books now being written by former Hun leaders may be expected to tell the truth about everyone except the men who wrote them.

Another thing we are unable to understand is why, when they were sending out bombs, they left the ex-laiser's name off the mailing list.

When a Plymouth man says "There is no use talking," you may just as well prepare for a long-winded argument.

A farmer says wearing high heels and pointed toes indicates a big corn crop.

### THE COUNTY NORMAL SCHOOL

SUMMER COURSE TO BE CONDUCTED AT BELLEVILLE, THIS YEAR.

Announcement is made that a Summer Normal school will be conducted at Belleville this year, starting the 3rd of June and continuing a period of six weeks. County School Commissioner E. W. Yost has brought this about through State Superintendent Johnson, and a complete corps of college instructors are promised. Prof. John Thomas of the Martindale Normal, will be in direct charge of the course, which is an assurance that it will be thorough and beneficial. Fred Fisher, assistant superintendent of the county schools, will also be a participant and in advance do the missionary work that will make the first efforts along this line in Wayne county a success. The residents of Belleville will make plans to properly entertain all of the teachers who attend.

### NOTICE TO CEMETERY LOT OWNERS

Persons having lots in Riverside cemetery who wish their lots cared for during the coming season, will please pay their assessment now that the lots may be properly cared for before Memorial Day, when it is desired to have the cemetery present a clean and sightly appearance. Payments can be made to the village clerk. Do it today.

### MASTERS OF HIGH FINANCE

New England Youngsters Raised Hawks From Eggs and Collected Remunerative Bounty.

Freetown, Mass., will break a long-standing custom this year and pay no bounty on the hawk. After a long and heated session of the town fathers at Assonet it was unanimously agreed that the debt side of Freetown budget had been taken too heavily by this item when Moderator Nichols disclosed the leak in the town's financial condition.  
"Every spring when the nests of the hawks are filled with eggs," explained the moderator, "the country boys shinned the trees, took out the eggs, carried them home, put them under setting hens and hatched them out, and thus raised numerous young hawks at no cost whatever. Then the boys clipped their wings to keep them home, and when they had grown full size killed them, took them to the town office and obtained their bounties."

To give an approximate idea of the scope of this industry, one need only compare the small output of pure totol in 1912 and 1913, for which years it was approximately 500,000 gallons, with the estimated output for the year just past (1918), during which period it is hoped that the output will have exceeded 20,000,000 gallons. Practically all of this increase has been possible because of the recovery of totol from coke-oven gas and city surplus.

## PEACE TERMS FOR GERMANY MADE PUBLIC

Treaty Makes Berlin Responsible for All Losses Caused to Allies.

FIRST PAYMENT 5 BILLION

Paris, May 8.—The treaty of peace between the 27 allied and associated powers on the one hand and Germany on the other was handed to the German plenipotentiaries at Versailles. It follows:

**Part Provides Return of Alsace-Lorraine; Internationalization of Saar Basin and Danzig; Territorial Changes for Belgium, Denmark and East Prussia; Upper Silesia to Poland; Foe Must Agree to Trial of Ex-Kaiser and Approve League.**

New York, May 8.—An official summary of the peace treaty delivered to the German delegates at Versailles by representatives of the associated powers was made public here by the committee on public information. It follows:

It is the longest treaty ever drawn. It totals about 80,000 words, divided into 15 main sections, and represents the combined product of over 1,000 experts working continually through a series of commissions for the three and a half months since January 18, the treaty printed in parallel pages of English and French, which are recognized as having equal validity.

**Does Not Deal With Foe's Allies.**  
It does not deal with questions affecting Austria, Bulgaria and Turkey except in so far as binding Germany to accept any agreement reached with those former allies.

Following the preamble and deposition of powers comes the covenant of the league of nations as the first section of the treaty.

The frontiers of Germany in Europe are defined in the second section; European political classes given in the third; European political classes in the fourth. Next are the military, naval and air terms, as the fifth section, followed by a section on prisoners of war and military graves, and a seventh on responsibilities. Reparations, financial terms and economic terms are covered in sections eight to ten. Then comes the aeronautic sections, ports, waterways and railways section, the labor covenant, the section on guarantees and the final clauses.

**Restores Alsace-Lorraine.**  
Germany, by the terms of the treaty, restores Alsace-Lorraine to France, accepts the internationalization of the Saar basin temporarily and of Danzig permanently, agrees to territorial changes toward Belgium and Denmark and in east Prussia cedes most of upper Silesia to Poland, and renounces all territorial and political rights outside Europe as to her own or allies' territories, and especially to Morocco, Egypt, Siam, Liberia and Stantung. She also recognizes the total independence of German-Austria, Czechoslovakia and Poland.

**Must Pay for Damages.**  
Germany accepts full responsibility for all damages caused to allied and associated governments and nationals, agrees specifically to reimburse all civilian damages beginning with an initial payment of 20,000,000,000 marks (\$5,000,000,000), subsequent payments to be secured by bonds to be issued at the discretion of the reparation commission. Germany is to pay shipping damage on a ton-for-ton basis by cessation of a large part of her merchant, coasting and river fleets and by new construction; and to devote her economic resources to the rebuilding of devastated regions.

She agrees to return to the 14 most-favored nations tariffs, without discrimination of sort; to allow allies and associated nationals freedom of transit through.

**Must Agree to Trial of Kaiser.**  
She agrees to accept highly detailed provisions as to preparatory, unfair competition, internationalization of roads and rivers, and other economic and financial clauses.

She also agrees to the trial of the ex-kaiser by an international high court for a supreme offense against international morality and of other nationals for violation of the laws and customs of war. Holland is to be asked to extradite the former, and Germany being responsible for delivering the latter.

**Must Accept League.**  
The league of nations is accepted by the allied and associated powers as operative and by Germany in principle, but without membership. Similarly, an international labor body is brought into being with a permanent office and an annual convention. A great number of commissions for different purposes are created, some under the league of nations, some to execute the treaty. Among the former is the commission to govern the Saar basin till a plebiscite is held 15 years hence, the high commissioner of Danzig which is created into a free city under the league and various commissions for plebiscites in Malmedy, Schleswig and east Prussia. Among these to carry out the peace treaty are

### WHAT GERMANY MUST DO TO GAIN PEACE

Restoration of Alsace-Lorraine.  
Temporary internationalization of Saar coal basin.  
Permanent internationalization of Danzig.

Territorial changes toward Belgium and Denmark.  
Cedes Silesia to Poland.  
Removes all territorial and political rights outside Europe.  
Renounces "especially" her rights in Morocco, Egypt and Siam.  
Freedom of transit through her territories.  
Highly detailed provisions as to reparations.  
Provisions as to unfair competition, internationalization of roads and rivers and other economic and financial subjects.

Agrees to trial of the ex-kaiser by an international high court for a supreme offense against international morality and customs of war.

Holland to be asked to extradite the former kaiser and Germany to be responsible for delivering the latter.

Accepts league of nations in principle, but without membership.

Germany recognizes total independence of German-Austria, Czechoslovakia and Poland.  
German army reduced to 100,000 men, including officers.  
Conscription within German territories abolished.

All German forts for 50 kilometers east of the Rhine razed.  
All importation, exportation and nearly all production of war materials stopped.

Germany accepts any agreement reached with its former allies.  
Allied occupation of parts of Germany to continue until reparation is made.

Any German violation of conditions pertaining to the Rhine zone constitutes an act of war.  
German navy reduced to six battleships, six light cruisers and 12 torpedo boats, with no submarines.  
German navy personnel to consist of not over 15,000.

The reparations, military, naval, air, financial and economic commissions, the international high court and military tribunals to fix responsibilities, and a series of bodies for the control of international rivers.

Certain problems are left for solution between the allied and associated powers, notably details of the disposition of the German fleet and cables, the former German colonies and the values paid in reparation. Certain other problems, such as the laws of the air and the opium, arms and liquor traffic are either agreed to in detail or set for early international action.

**Army Cut to 100,000.**  
Her army is reduced to 100,000 men, including officers; conscription within her territories is abolished; all forts forty kilometers east of the Rhine razed, and all importation, exportation and nearly all production of war materials stopped. Allied occupations of parts of Germany will continue till reparation is made, but will be reduced at the end of three five-year periods if Germany is fulfilling her obligations. Any violation by Germany of the conditions as to the zone 50 kilometers east of the Rhine will be regarded as an act of war.

**Navy to Six Battleships.**  
The German navy is reduced to six battleships, six light cruisers and 12 torpedo boats, without submarines, and a personnel of not over 15,000. All other vessels must be surrendered or destroyed. Germany is forbidden to build forts controlling the Baltic, must demolish Helgoland, open the Kiel canal to all nations and surrender her 14 submarine cables. She may have no military or naval air forces except 100 unarmed seaplanes until October 1 to detect mines, and may manufacture aviation material for six months.

**Agreement of Allies Stated.**  
It states that: Bearing in mind that on the request of the then imperial German government an armistice was granted on November 11, 1918, by the five allied and associated powers in order that a treaty of peace might be concluded with her, and whereas the allied and associated powers being equally desirous that the war in which they were successfully involved directly or indirectly and which originated in the declaration of war by Austria-Hungary on July 23, 1914, and against France on August 3, 1914, and in the invasion of Belgium, should be replaced by a firm, just and durable peace, the plenipotentiaries (having communicated their full powers found in good and due form) have agreed as follows:

From the coming into force of the present treaty the state of war will terminate. From the moment and subject to the provisions of this treaty of relations with Germany, and with each of the German states, will be resumed by the allied and associated powers.

**Section 1. League of Nations.**  
The covenant of the league of nations constitutes section 1 of the peace treaty, which places upon the league many specific duties in addition to its general duties.

### LIFT OFF CORNS!

Drop Freezone on a touchy corn, then lift that corn off with fingers

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic! No humbug! A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

**Discolored Callings.**  
It is frequently found that the callings immediately above incandescent mantles become blackened. If white-washed, it can be cleaned by being rubbed over with a mixture of starch and water of the consistency of cream. A soft flannel cloth should be used. When dry gently rub off the starch. The black stain will come with it.

### GREEN'S AUGUST FLOWER

has been a household remedy all over the civilized world for more than half a century for constipation, intestinal troubles, torpid liver and the generally depressed feeling that accompanies such disorders. ## Indigestion, Gas and Bloat From Acid-Stomach

An acid-stomach cannot digest food properly. Instead, the food sours and ferments and passing into the intestines, becomes a breeding place for countless millions of deadly germs—toxic poisons they are called. These poisons are absorbed into the system and cause untold misery. So, you see, it is just acid-stomach, nothing else, that makes so many people weak, listless and unlit; saps their strength and energy; robs them of their vigor and vitality. Biliousness, bad liver, nervousness, blotting, splitting headaches, rheumatism, lumbago, sciatica—these and many other still more serious ailments often are traced to the common source—an acid-stomach. Take EATONIC and get rid quickly of the pains of indigestion, heartburn, that horrible, lumpy, bloated feeling after eating; disgusting, belching, food-repeating; sour, gassy stomach. These stomach miseries are caused by what doctors call "Hyperacidity." It's just acid-stomach! And in addition to the pains and miseries it causes, ACID-STOMACH is the start-off of a long train of ailments that the most people never dreamed are in

When connected with the stomach. Pleasant-tasting EATONIC TABLETS that you eat like a bit of candy, quickly put an end to your stomach troubles. They act as an absorbent—literally wipe up the excess hurtful acid and make the stomach pure, sweet and strong. Help digestion so that you get all the power and energy from your food. You cannot be well without it!

If you are one of those who have "tried everything" but in spite of it still suffer all kinds of acid-stomach miseries—if you lack physical and mental strength and vigor—begin at once to take EATONIC. Get back your physical and mental punch and enjoy the good things of life. Like thousands of others you will say you never dreamed that such amazingly quick relief and such a remarkable improvement in your general health was possible.

Your druggist has EATONIC. We authorize him to guarantee it to give you instant relief or refund your money. Get a big box of EATONIC today. It costs but little and the results are wonderful!

## ATTENTION! Sick Women

To do your duty during these trying times your health should be your first consideration. These two women tell how they found health.

Hollan, Pa.—"I took Lydia E. Pinkham's Vegetable Compound for female troubles and a disappointment. I felt all run down and was very weak. I had been treated by a physician without results, so decided to give Lydia E. Pinkham's Vegetable Compound a trial, and felt better right away. I am keeping home since last April and doing all my housework, where before I was unable to do any work. Lydia E. Pinkham's Vegetable Compound is certainly the best medicine a woman can take when in such condition. I give you permission to publish this testimonial."—Mrs. E. R. Overman, R. No. 1, Hollan, Pa.

Lowell, Mich.—"I suffered from cramps and dragging down pains, was irregular and had female weakness and displacement. I began to take Lydia E. ## A Real Surprise

Women who see a modern Electric Washing Machine in action are surprised at the ease with which a large washing can be cleansed to a snowy whiteness.

Would you believe that you could throw soiled clothes into the cylinder and in twenty minutes take them out clean and white? All with no wear or rubbing whatever?

### Presbyterian Notes

A large congregation greeted Dr. Hatch in the union service at the Baptist church, last Sunday evening. Dr. Hatch delivered a most delightful and helpful message. It was a real treat, and we all shall not soon forget him and his helpful message. The prayer of the church people of Plymouth will follow Dr. Hatch in his new work in California, and all feel his success in his new work is already assured.

Special preparations are being made for the Children's Day program under the wise leadership of Harry Green. Mr. Green is especially gifted in planning and putting on programs of this character, and all can anticipate a splendid service on Children's Day. Provision will be made for the administering of the sacrament of baptism and all anticipating this ordinance should speak to the pastor before Children's Day.

### Do You Enjoy Life?

A man in good physical condition is almost certain to enjoy life, while the bilious and dyspeptic are despondent, do not enjoy their meals and feel miserable a good share of the time. This ill feeling is nearly always unnecessary. A few doses of Chamberlain's Tablets to tone up the stomach, improve the digestion and regulate the bowels is all that is needed. Try it.—Advt.

## SCHRADER BROS. FUNERAL HOME

THE Mail is always pleased to record the progress and enterprise of any Plymouth concern, and it is doubly pleased to do so, when favorable mention of that firm or enterprise is made by any of the newspapers or leading trade periodicals of the country. A staff representative of The American Funeral Director recently visited Plymouth for the purpose of getting a write-up of the Schrader Bros.' Funeral Home, which is a new idea in that profession. There is probably not another town of its size in the state that can lay claim to having one of these up-to-date institutions, which shows that Schrader Bros. are abreast of the times in everything pertaining to their business. We are pleased to quote the article in part:

If you are a funeral director in a small city, and if you feel that it does not matter what kind of an establishment you maintain, nor what kind of service you provide your patrons, listen to F. D. Schrader of Plymouth, Michigan, located in the same county with Detroit—Wayne:

"There is no reason in the world why the people in Detroit or any other community, large or small, should have a better funeral establishment or better service in connection with the laying away of their dead than the people in Plymouth.

Human nature and human sympathies are the same the world over, so that the poignant suffering in one community is not of necessity any keener than in any other. There is an inclination on the part of some funeral directors in some small com-

munities to 'get by' with the least possible effort in the conduct of a funeral, and with the smallest possible outlay of money on their funeral establishment. I suppose they feel that way for the reason that in most small towns there are few, if any, buildings that lay claim to any beauty or expensiveness. But Plymouth is a decided exception to any such rule. There is a remarkable civic pride here that makes it quite worth while for any business man to put his best foot forward in any effort he can devise to make his place of business attract attention.

"After having been in the funeral directing and furniture business together for several years, I came to the conclusion that I could not give taste in its furnishings, and will hold 100 people. Back of this room is a display room, where Mr. Schrader carries a large supply of caskets and necessary trimmings, etc. Again to the rear is an operating room much more complete than many such rooms we have seen in the larger cities. A garage holds a fine large motor hearse, an ambulance and one closed car. The office looks like the office for any high-grade business, Mr. Schrader having carefully avoided the use of the old regulation funeral window draperies that mark the location of a funeral place as far as they can be seen.

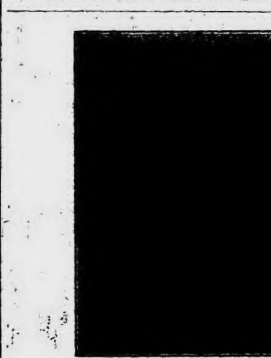

Mr. Schrader was asked if he had any collection problems, to which he replied: "I have no trouble" at all in my collections, and rarely lose a

fitting service in connection with my funerals unless I separated my two lines. That was five months ago. Then I remodeled this residence and brought this business over here. Now I can offer to care for my cases here in my operating room, and I do care for more than fifty per cent of them right here. And more than half of my funerals have been held here in this Funeral Home, since I opened this place. The idea has taken well. I believe it is true that, regardless of home associations and the dear memories that attach to an old home, many people are coming to feel that they prefer to keep out of the home all suggestions of death, and to avoid all associations that add grief to the sorrow that comes with death. So it is that the Funeral Home is acquiring popularity with various classes of people as the proper place in which to hold a funeral service.

Mr. Schrader and His Ambulance

"I do my best to fight any of any dollar. I say nothing at the time arrangements are made about the pay. In due time it comes in to me. I know everybody around here for many miles, so that my success in collections might not be a safe rule for everybody to go by. I treat all my patrons and my friends in and out of business on the square, and I expect the same sort of treatment, and it is known that I expect it. I assume every man and woman honorable in business dealings, and I do not find it hard to collect what is coming to me."

It was easy to discover while in Plymouth that Mr. Schrader is one of the leading business men in that pretty little place of some 2,400 people. He stands "acc high" as well in social and church circles, and is a most substantial citizen, doing a large business because he does a business that is satisfactory to his community, and "one into which he puts his best efforts and honesty."

### A Labor-Saving, Time-Saving Stove

A Stove that keeps Pace with the Spirit of the times.

## Detroit Vapor Oil Stove

In thousands of farm homes Detroit Vapor Stoves are cooking and baking the food for the hungry farm hands and making the housewife's part in speeding up the farm work much easier and pleasanter. Their thorough, rapid cooking and baking, together with their sturdy gas-stove construction and simplicity offer a big saving in time and labor. Detroit Vapor Stoves "work like gas." The kettles go on as soon as the match is struck.

As quick as gas and cheaper than either gas, coal or wood.

There's a Detroit Vapor Stove to fit every kitchen and every purse.

## Detroit Vapor Oil Stove

Detroit Vapor Stoves have no wicks or wick substitutes. Durable, 8 1/2 pound iron burners mix the oil with air so that a gas is burned instead of a liquid. Double walled ovens and flues distribute the heat and use it twice.

Come in and see one of these great stoves today.

FACTS ABOUT LEGAL TENDER

Pennies in Law Which Seem to Show That Money Can Sometimes Not Be Money.

In a Philadelphia police court a number of years ago there came up an interesting question that related to a nickel.

The coin in question had been offered to a street car conductor by a tough citizen, who, inspired by an alcoholic sense of humor, inserted it in the toe of his boot and professed it thus.

A row ensued, which wound up in court, where the conductor was vindicated, the judge declaring that he was under no obligation to accept money offered in such fashion.

What constitutes a lawful "tender" of money is a question that occupies many pages in the law books, an exchange remarks.

A man has been known to offer a bucketful of pennies in payment of a debt to a creditor with whom he had a quarrel; and in most instances the creditor has felt obliged to accept the coin.

But there was no such obligation, for pennies under the law of the United States are not legal tender in amounts above 25 cents. If you owe me a dollar and offer me 100 pennies it is no payment unless I choose to accept them.

How about nickels? Exactly the same. They are not legal tender in amounts over 25 cents.

Silver dimes, quarters and half dollars are legal tender up to \$10. Above that sum they may be refused and the creditor may justly claim that no lawful proffer of money has been made to him.

NO MACHINERY FOR ANCHORS

Indispensable Shipping Adjuncts Are Still Constructed by Manual Labor Exclusively.

Strange though it may seem, anchors are made by men and not by machines. At one time Germany seemed anxious to capture our anchor industry. High wages were offered to tempt our smiths to go to Hamburg and Lubek to shape the anchors for the great Hamburg-American liners then on the stocks.

The ancient anchor shape was, and is, good enough for light shipping, but the mud-hooks of the present day mammoths must have a more extensive grip on the sea floor. They are vast pieces of metal work, in weight running up to many hundredweights.

Anchor smithing is about the only shipbuilding trade in which machinery has failed to displace men. The blindest of black squads are the anchor smiths; their work is continually among white hot metal, among fumes, smoke, glare, and dust.

The hammers regularly welded by them are the heaviest known in any industry.—London Tit-Bits.

Couldn't Go Without Pipe. "Force of habit is a wonderful thing," said a Lewiston girl. "Now, my father smokes a pipe. Smokes a great deal, and then when he is going away or anything his pipe is his first consideration. Some time ago there was a fire in the neighborhood in the middle of the night."

"Father was out of bed with the first stroke of the alarm and rushed downstairs. Mother and I were a little longer getting there. When we got downstairs we found father with a raincoat on over his night shirt, leaning as far out of the back door as he could, gazing wild-eyed at the blaze down the street."

"When he heard us enter he brought his head in long enough to exclaim, 'Great Gosh, Alice, the Jones' house is all afire and I can't find my pipe!'" —Kennebec Journal.

Wetting the Block. In many villages in Berkshire and Hampshire, England, the ancient custom of "wetting the block" is still kept up. The Crispins of these two counties used to meet together on the evening of the first Monday in March, and celebrate the fact that they had ceased working by candle-light.

There was sometimes a supper, provided by the employer, on these occasions; there was always a little to drink. After the meal was ended, the block candlestick was placed in the middle of the room, the shop candle was lighted, and when all glasses were filled, the oldest hand poured the contents of his glass over the candle to extinguish it.

Handy Employee.

The lady manager of the business concern put an ad in the paper for an experienced fireman to work in the office.

"Why do you need an experienced fireman for the office work?" asked the efficiency expert, who was on the job.

"Well, you see," she responded sweetly, "I just haven't the heart to discharge anybody, and I thought you would employ an experienced man to do it."

You can save money by getting the ad.

The Thirtieth anniversary of the Epworth League was fittingly recognized in a special service, last Sunday evening. Miss Beryl Hahn had charge of the meeting and several other young people helped carry out a program on the theme of christian life service.

Twelve choice young men and women took the Live Service Covenant, looking towards some line of special christian life-work.

The Standard Bearers had a pot-luck supper and inspirational meeting at the church on Tuesday evening, eighteen girls being present. They received their new badges, which are very neat and attractive symbols of the christian cause which they are interested in.

The monthly meeting of the official board occurred at the church, last Monday evening. Teams were chosen for the Centenary financial campaign, and plans discussed in connection with increasing equipment in connection with Open House nights, which have proven so great an attraction.

On Wednesday of last week a delightful inspirational and social affair in connection with the missionary work of the church took place in the church dining room.

After their regular meeting, which was unusually well attended, the Woman's Missionary society entertained the young women of the Sorosis Bible Class, serving supper to about thirty-five people.

Special guests from out of town included representatives from the district organization from Birmingham and Detroit, Mrs. Adelaide Hudd, formerly of Plymouth, and Mrs. Barrows of Plymouth, and an instructor in one of the mission schools in Tennessee.

All the visitors gave inspirational talks in connection with the organizing of the young women into a Queen Esther Circle.

The promised entertainment by the losing side in the recent Epworth League contest will be furnished at the Methodist church tonight (Friday) at 7:30. A fine program of songs, music and stunts has been provided.

LINCOLN CHAUTAUQUA HERE IN AUGUST

Word was received this week by the local committee that the Lincoln Chautauqua management had tentatively assigned August 22 to 27 as the dates for the Chautauqua in Plymouth. This is considered the very best time of the year for this community, and is very satisfactory to the local committee.

This announcement is not final, but the chances are that the local Chautauqua will be about the last week in August. Over four hundred tickets were signed for this year.

COMPLIMENTS LOCAL AGENT

The following item appeared in The Bulletin, a monthly paper published by the Guarantee Fund Life Association, a life insurance company of Lincoln, Nebraska, relating to William A. Todd, local agent for this company:

"W. A. Todd of Michigan, is a new member of the Michigan agency, and starts with \$34,000 for his first month's work. State Agent Bishop told us Todd looked like a winner, and the result of his first month's work confirms his statement."

GRATE FIRE TEACHES LESSON

Pictures in the Flames Bound to Impress Observer of Any Kindness of Mind.

The wood fire in the open grate. The quiet hour of a wintry evening. Who does not revel in the combination? The pictures in the flames. The musings as the fire crackles, the only sound in the stillness.

Accidents in Peoria. In other lands and times, warlike fire. It was the symbol of purity, purification. Poets have found the fire on the hearth an inspiration. Painters have seen pictures in the glowing coals. We see them, too, in the flames of the evening time.

But the wood fire in the open grate is more than a symbol of purity, more than a creative comfort, more than a sign of personal prosperity, more than a setting for drama pictures. It's a symbol of culture. It's a picture of civilization. It's an incubator to heaven.

The flames are never still, they never cease to burn. It's a picture of life, a picture of hope, a picture of faith. It's a picture of love, a picture of peace, a picture of joy.

The flames are never still, they never cease to burn. It's a picture of life, a picture of hope, a picture of faith. It's a picture of love, a picture of peace, a picture of joy.
