THE MOLINE WIDE SPREAD SPREADER

THE BEST FOR MAN, TEAM, AND LAND

1. Makes wide, even spread—saves time and manure.
2. Narrow construction—easily driven through narrow door.
3. Manure thoroughly pulverized by second beater—plants receive quick benefit.
4. Spreads the manure out wide instead of leaving it in streaks.
5. Spreader drives over clean ground—no streaks left—more traction power.
6. Low down ideal for loading—ample clearance.
7. Light draft—due to roller bearings and short wheel base.
8. Strong and durable steel frame—no wood to rot, warp, or sag.
9. Narrow construction for convenience in narrow places.
10. Power for driving apron taken direct from axle.
11. Double ratchet feed permits great variation in speed—spreads any amount desired from one to twenty-four loads per acre.
12. One lever operates entire machine—trouble proof.
13. Endless apron—strong and durable.
14. Better driving mechanism drives beater only.
15. Automatic pulverizing rake—no attention from operator.
16. Wind shield—allows better work on windy days.
17. Tight bottom spreader for dairymen—prevents loss of liquid manure.

PLYMOUTH GETS FOUNDRY PLANT

THE H. S. LEE FOUNDRY & MACHINE CO., OF DETROIT, PURCHASE PLANT FORMERLY OWNED BY THE PLYMOUTH IMPROVEMENT ASSOCIATION.

THE NEW PLANT WILL GIVE EMPLOYMENT TO FROM FIFTY TO SEVENTY-FIVE MEN AT THE START.

Plymouth is to have another new factory in the H. S. Lee Foundry & Machine Co., of Detroit, which has decided to move its plant from that city to this village. The new company has bought the foundry plant formerly owned by the Plymouth Improvement Association, of Messrs. Mickey and McGraw. Mr. Lee, the head of the new company, is associated with the Saxon Motor Car Co., of Detroit. The company has contracts now for castings that will keep the present plant with its equipment, running to full capacity for a year. The new plant will give employment to from 75 men from the very start, and eventually will employ many more. It is the plan of the company to enlarge the plant at once, and land has been secured by the Plymouth Improvement Association, adjoining the present plant for this purpose. Arrangements have been negotiated with the Pere Marquette R. R. for a siding from the Toledo division of that road to the plant, which will greatly facilitate the handling of material, etc.

A meeting of the officers of the Plymouth Improvement Association was held last week Thursday evening, when officials of the new company were present, and asked that the local association make an effort to secure housing facilities for some of the men and their families, who will come to Plymouth with the new plant. The officers of the Improvement Association, not only promised to make every effort to get houses built, but appointed a committee to look up a building site, and the association will be the first one to build several houses in the campaign for more houses. The new enterprise looks like a good thing for Plymouth, and will be an important and valuable addition to our industrial life.

A NARROW ESCAPE

Rev. Frank M. Field had a narrow escape from serious injury Wednesday morning, when the auto which he was driving went over a nine-foot embankment near the bridge at the foot of the Peterchaun hill northwest of town. He was driving slowly or the results might have been far more serious. Crossing the bridge at the right hand side going east the car struck some trash that had washed down during the storm and was thrown part way over the embankment on the right side, the road being narrower than the bridge at this point, and in trying to regain the road the driver shot the car across the road and over the embankment on the left side. The car struck on its left side, smashing one wheel and doing other damage, but Rev. Field escaped without any serious injury.

ANOTHER NEW ENTERPRISE

Campbell & Co. of Ypsilanti, in the name of a new enterprise that will soon open for business in the town of Plymouth, Mich., have secured the site for a new factory. The new firm will have a large building, and will be engaged in the manufacture of various articles. The building will be located on the east side of the village, and will be a valuable addition to the industrial life of the community.

WILL ERECT NEW BUILDINGS

THE NATIONAL FOUNDRY AND MACHINE CO., HAVE LET CONTRACT FOR NEW BUILDINGS AT PLYMOUTH PLANT.

The National Foundry and Machine Co., will make some extensive additions to their Plymouth plant. The company have let the contract to an Ohio concern for the erection of three new buildings to be constructed of steel and glass. One of the buildings which is to be 40x200 feet will be used for the cleaning and shipping department; another 40x86 feet will be used as a core room, while an extension of 55x250 feet will be made on the present main building of the plant, and used as the moulding room. New machinery has been purchased, including pneumatic hoists, electric trolley system throughout the plant, etc. When the new buildings are completed and all the machinery installed, the local plant will be one of the most modern and best equipped plants of its kind in the country, where it is expected that between 75 and 100 men will be given employment when the additional room and equipment is ready. The company have contracts for three quarters of a million dollars worth of castings. Work on the new buildings will be commenced just as soon as the material arrives on the ground, which will be very shortly. Mr. Gall, superintendent of the plant informed the representative of the Mail that one of the hardest problems that the company was up against was the lack of housing facilities in the village. The National Foundry and Machine Co. have been doing a fine business since they located in Plymouth, and the need for more room and equipment is a pretty good indication that they are a growing concern and a valuable industry for Plymouth.

BOLD DAYLIGHT ROBBERIES

TWO HOUSES ENTERED BY THIEVES AND VALUABLES STOLEN LAST WEEK WEDNESDAY AFTERNOON.

Early last week Wednesday afternoon thieves entered the home of Paul Wood, who resides near the National Foundry & Machine Co. plant, in the west part of town. The family were away from home at the time, and they gained entrance through a window at the rear of the house. One man climbed into the window, and then opened the back door for the other two. They proceeded to help themselves to something to eat and later departed carrying away a suit of Mr. Wood's clothes, a ring, a child's book containing five dollars, one \$50.00 note and \$20.00 in change, and other articles amounting all told to about one hundred dollars. These men were seen to enter the house, and Officer Springer's home was called, but they were unable to get him as he was attending the same time that day. The men then fled, and Officer Springer's home was called, but they were unable to get him as he was attending the same time that day.

STOLEN GOODS ARE RECOVERED

TWO COLORED MEN ARRESTED IN DETROIT FOR ROBBERY OF THE DIBBLE STORE LAST WEEK.

Two colored men, Calvin Tedford and Eugene Jones alias Morris, were arrested in Detroit, last Friday and Sunday, charged with the burglary of the A. H. Dibble & Son store, last week Thursday night. The men were brought to Plymouth by Deputy Sheriff Springer, Monday afternoon, and were arraigned before Justice Phebe Patterson. They pleaded guilty and their examination was set for next Monday afternoon at two o'clock.

On the morning after the robbery, the section men noticed a couple of negroes carrying new traveling bags and wearing new clothes, walking upon the railroad track near Elm. Their suspicions were aroused, and one of them asked the men where they got the new bags, and they replied that they got them in Toledo. These men were leading away from the section men, if they had seen any suspicious characters, was told of seeing the colored strangers early that morning. With the assistance of Detroit officers, he located one of the traveling bags filled with goods in a pawn shop in the city, where it had been left, the man saying he would come after it the next day. He came and was taken into custody by detectives, Morris and Snyder. He gave his name as Calvin Tedford, and upon being questioned by the officers they ascertained where his partner could be located, who it became had secured a job on one of the D. & C. boats, and was making a trip on the boat at the time. When the boat pulled in Sunday morning, Officer Springer and the detectives got their man, together with some of the stolen goods, which they found in his sleeping quarters. Officer Springer was able to identify his man from the fact that he was wearing some of the stolen clothing at the time. The man gave his name as Eugene Jones. About \$200 worth of goods was stolen from the Dibble store. Officer Springer is entitled to much credit for his good work in this case.

BASE BALL AT NORTHVILLE

Holly and Northville base ball teams will contest for a purse of \$200 on the Northville diamond, today, Friday, September 12. Northville will have the same line-up they had during the game with Howell Ray Smith, Orville Tousey and Carl Stimpson of this village, will play with Northville, and a large number of the local fans will witness the game, which will be called at 3:30.

BUSY WOMAN'S BIBLE CLASS ENTERTAINED

The annual meeting of the Busy Woman's Bible Class was held at the pleasant home of their teacher, Mrs. J. R. Rauch, on Penniman avenue, last Tuesday afternoon, September 9th. Thirty-three names are enrolled in class membership, and about twenty-five of this number were present at the meeting. After the regular order of business, the election of officers took place, which was as follows: Mrs. J. R. Rauch, who has been teacher of the class for the past four years, was re-elected to that office; President, Mrs. Louis Hillmer; vice president, Mrs. M. A. Patterson; secretary, Mrs. George Cramer; treasurer, Mrs. Melburn Partridge. A social hour followed the meeting and later in the afternoon the guests were invited into the dining room, where a delicious 'pot-luck' supper was served. Hooverizing was entirely forgotten in the making of this menu, as the tables were loaded with good things to eat. The house was prettily decorated with cut flowers for the occasion, and beautiful gladioli and asters, the gift of Mrs. Hulda Knapp, formed the table decoration. All present declared this meeting one of the most enjoyable of the year.

RIVER WILL CLEAN ITSELF.

From this summer onward the Mississippi river will keep its own mouth clean of mud and silt and sand, so that ships can pass in and out and 100 miles up the river to New Orleans. This has been achieved by merely narrowing the channel inside the jettes by means of timber breakwaters to 1,000 feet, with a mean depth of 35 feet, and then directing the main current of the Mississippi through this narrowed channel. Only one dredge will be required now for maintaining and receding, whereas three or four dredges were employed before to keep the channel clear. Now the current of the Mississippi scours its own bed.

SCHOOL NOTES

School attendance:	Sept. '18	Sept. '19
Kindergarten	42	22
Grades 1-6	308	351
High School	243	255

The third grade language class is dramatizing, "Grand Tusk and Little Nimble."

The fifth grade is drawing a map of South America.

The High school begins the year with a total enrollment of 240, a larger number than appeared at this time last year. The ninth grade, owing to the large number of non-resident pupils, is so large as to make necessary three sections of the required subjects.

A course in agriculture is one of the new features of the curriculum, which should attract the attention of the scientific farmer. The commercial course is crowded to the limit of our equipment. A course in civics or American citizenship is now required for graduation.

The library will be open each school day from 8:00 a. m. to 4:30 p. m., making it possible for pupils and parents to make use of the library before, during and after school. If this arrangement works satisfactorily, the library will not be open evenings. If this does not meet the needs of the public, the school will be glad to open the library one or two nights a week. New fiction is being ordered, and we trust that the public will feel free to make use of the school library.

Methodist Merit

The first meeting of the Ladies Aid Society for the new year will be held at the home of the president, Mrs. I. N. Dickerson, on Fairground avenue, next Wednesday, September 17. Some very pleasant features are being planned for the work of the year. For purposes of raising money for the society's pledge to the building fund, the members have been divided into three groups, each group to work only three months of the year. The monthly meetings of the entire membership will be held as previously and will be made socially enjoyable.

The women of the Friendly Bible Class entertained the men of the Brotherhood class Tuesday evening of this week with a melon feed and "weenie" roast at the home of Mr. and Mrs. Fred Lee in Livonia township. About fifty men and women went out to the Lee home in cars and had a royal good time.

A large number of people who expected to hear Egbert Isbell tell of his experiences in France at the church service last Sunday evening were disappointed, illness in the family making it impossible for him to be here at that time. However, this young soldier, in whom so many Plymouth people are interested, will be here next Sunday evening and will speak at 7:30. Egbert was connected with a field hospital service in France for more than a year and close to much of the hard fighting. He has a christian message that many in Plymouth ought to hear. We expect another large crowd will come out to hear him.

The boys in Mr. Richwine's class enjoyed a basket ball game in the church basement last week. Boys director, Frederick Thomas, directed the game.

Worshippers last Sunday were delighted to hear again the splendid quartet directed by Miss Adah Leach. The other members of the quartet are Miss Evangeline Foster, Austin

Whipple and Evered. The quartet for the evening service is also a feature of the music directed by Miss Leach.

It was announced last Sunday that the change in time for the Sunday evening service will not take place until Sunday, September 23, the first Sunday after conference, after which the hour will be 7 o'clock.

Next Sunday is the last of the conference year, the annual conference session convening at Owosso next Tuesday. The pastor will take to conference one of the best reports of his ministry, and one of which the local church can well feel proud. The finances of the church have been taken care of in a prompt business-like way, all bills having been paid and a \$175 left in the treasury at the close of each month. More than \$1,000 has been given for missions and benevolences, most of which has been paid in since June. The membership shows a little increase, although more certificates of transfer to other churches have been granted than have been received. About \$1500 has been paid in on the building fund during the year for the reduction of the mortgage on the church building.

The quarterly communion service will be held this morning Sunday morning. The last morning service of the year. A Love Feast service for christian conference and testimony will be held at 8:30, with the sacrament of the Lord's Supper at 10 o'clock. In connection with this service and also the evening service an opportunity for joining the church will be given. Those who have been preparatory members will be received into full membership.

"UNPARDONABLE SIN" RECORD SCREEN EFFORT

Picture Version of Major Rupert Hughes' Story Has Created Tremendous Furore.

Surpassing in importance any previous moving picture event in the history of Plymouth will be the showing of "The Unpardonable Sin," Harry Garson's extraordinary epic photoplay, starring Blanche Sweet, under the personal direction of Marshall Neilan, at the Penniman Allen theatre, Saturday, September 20th. "The Unpardonable Sin" is one of the most pretentious screen plays that has ever been attempted and has been completed after months of painstaking effort and with the expenditure of more real money than has been enlisted in the past five years. It is a brand-new production, and is now having its initial runs in the important theatres in the East. Those who are familiar with the important books which have been published during the past couple of years will identify the big Garson picture as an adaptation from the powerful story by the same name, written by Major Rupert Hughes, which first appeared in serial form in the Red Book and was later published in book form to achieve a reputation as a "best seller" which has been surpassed by few novels offered the reading public. The story has been spoken of as one of the most powerful tales of love and adventure which has ever been written and reviews of the picture made by important critics throughout the country pay high tribute to Director Marshall Neilan when they say that here is one of the rare instances when the photoplay version is even more powerful and gripping than the original narrative.

When they see "The Unpardonable Sin" moving picture devotees will be particularly interested in the work of the star, for the reason that in Miss Blanche Sweet it brings back to the screen a favorite who had thoroughly established herself before retiring for a long and much-needed rest. Miss Sweet won her spurs in some of the biggest and best pictures ever produced by David Wark Griffith, who has since given to the public such big things as "The Birth of a Nation," "Intolerance" and "Hearts of the World." Marshall Neilan, who directed her in the new picture, is conceded to rank equally high with Mr. Griffith, and it is not strange then that Miss Sweet's performance in "The Unpardonable Sin" seems to indicate that her absence from the screen for some time has improved rather than impaired her powers as a dramatic actress.

In support of Miss Sweet, Mr. Garson has assembled a cast of unusual strength, prominent among whom are Matt Moore and Wallace Beery. Although theatres throughout the state have charged an admission of 50c for this great screen production, there will be only a slight raise in prices when the picture is shown at the Penniman Allen theatre, the management having set the prices at 10c for children and 30c for adults.

HUNTING SEASON OPENS

September 16th opens the hunting season in Michigan, when you can shoot ducks—if you have procured a "gun license." The season for duck closes December 31st.

In the lower peninsula partridge may be shot from November 1st to 31st, five in one day being the limit; woodcock from October 1st to November 25th, six in one day; rabbits may be shot in unlimited numbers from November 1st to March 1st. The gun license fee is \$1.00 for Michigan residents; \$1.00 for anyone out of the state wishing to hunt in Michigan.

GUN CLUB HOLD WEEKLY SHOOT

Organized at last! Seventeen members for a starter. A trophy to shoot for—this is open to members only. No is it too late. You can get up any time before the shoot begins next week. The fee for membership is three dollars.

We had with us this week, Mr. Howard Hall, an old acquaintance of many Plymouth people, and an organizer of no mean ability. It is due to Mr. Hall's advice and help that we are on our feet at last as a real organization. There are seventeen members at present as follows: Woodie Murray, president; Mat Powell, vice president; H. W. Passage, secretary and treasurer; Roy Wheeler, assistant secretary; George Messers, George Cook, Howard Hall, F. M. Woodard, John Patterson, Frank E. Hills, Merle Murray, Frank Murray, Fred Rhoad, Albert Hall, George Stanley, Frank Whitbeck, Charles Rathburn.

This does not mean that you must be a member to take part in the shoot, but you must be a member to shoot for the trophy. This week's shoot shows mighty fine scores. Note the fine score made by Fred Rhoad, a new man at the business. He if it be old timers had some real opposition right here at home. F. M. Woodard, F. E. Hills and Roy Wheeler are shooting around the 90 per cent mark. Hold her, boys! She can't throw all of you!

Scores are as follows:

Name	Possible Score	Score
M. Powell	100	87
W. Murray	75	68
F. Woodard	75	68
F. Hills	50	45
R. Wheeler	50	43

RATIO MAKES FOR HARMONY
Peculiar Arrangement of Chinese Musical Instruments Said to Be Work of Chinese Emperor.

The characteristic musical instrument of the Chinese is a series of bamboo tubes, the longest of which measure about nine inches, and of which the remainder diminish in length at a regular ratio, each being just two-thirds the length of the one before. This arrangement was devised by the Chinese, they say, by the Emperor Huang-Ti on the following principle: Between heaven and earth there is perfect harmony. Now, the number three is the emblem of heaven and two of earth. If then two pipes or tubes be made in the proportion of three to two, they will harmonize in tone as perfectly as earth and heaven. So the base tube of the instrument was made nine inches long and the second two-thirds that length, or six inches. Of course, the third has to be two-thirds the length of the second, or four inches; and so on. The result was that the note of the second tube was what we call an interval of a fifth above that of the first, that of the third a fifth above the second, and so on through the whole range.

KIDNEYS WEAKENING? BETTER LOOK OUT!

Kidney and bladder troubles don't disappear of themselves. They grow upon you, slowly but steadily, undermining your health with deadly certainty, until you fall a victim to incurable disease.

Proof that Some Women do Avoid Operations

Mrs. Etta Dorion, of Ogdensburg, Wis., says: "I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles have entirely cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

PEAR ANGLLO-IRISH TUNNEL

Land Connection Between the Two Countries, Though Costly, Would Be Highly Beneficial.

Although a good many might be inclined to think that England would be happier if Ireland were farther off, plans are moving to bring the two islands nearer together by the building of an Anglo-Irish tunnel. It is proposed to vary the tunnel from some point on the coast of Galloway to the nearest point in Antrim or Down on the coast of Ireland, at a cost of construction estimated somewhere between \$7,000,000 and \$16,000,000. The practical gains are expected to result in better transportation facilities for Irish cattle and perishable goods, especially fish, to British markets, to say nothing of the fact that such a tunnel would shorten the time between England and the United States by at least 48 hours. Thousands and thousands of years ago, say the geologists, it was easy enough to go back and forth between England and Ireland, which were then separated only by a deep valley; and the proposed tunnel, within its limits, would re-establish the old geographical connection.

TO TEACH LACE MAKING.

One of the prominent figures in the domestic lace industry is planning to establish a factory in which the best lace-making methods will be taught. The instructors, it is understood, will be brought from the famous lace centers abroad. One of the difficulties in the way of the domestic lace manufacturers has been the lack of finishers. While this has been overcome to a certain extent, it has not ceased altogether to give trouble to the manufacturers who are trying to produce meritable goods in this country. According to dealers who are well acquainted with both the foreign and the domestic product the latter has made considerable progress, and with an opportunity to incorporate successful foreign methods it was said that domestic goods may easily attain leadership.

HAD ENLARGED EGO.

"So he was in the war, was he?" asked the man at the next table in the restaurant.

"He was," replied the boy in khaki.

"What did he do?"

"He was a cook in my regiment."

"I suppose he got a medal all right?"

"No, he didn't. We offered him one if he'd quit, but he was too much on his job."

For a Weak Stomach

The great relief afforded by Chamberlain's Tablets in a multitude of cases has been the great reason for their popularity for a weak stomach and indigestion. In many cases this relief has been secured in a few days and the patients have been permanently restored to health.

Chamberlain's Tablets

Chamberlain's Tablets are the most reliable remedy for all cases of indigestion, constipation, and all other ailments of the stomach and bowels. They are sold everywhere.

Presbyterian Notes

Rev. and Mrs. Bicknell and Junior went to Flint, Monday. They report a wonderful day and that the crops up that way look fine in spite of dry weather. The party enjoyed a chicken dinner at the Fenton House, as guests of Mr. Foster.

Mrs. Bicknell and Mrs. C. H. Bennett attended the Twentieth Century luncheon at the Bloomfield Golf Club, last Tuesday. Miss Pauline Peck, Mr. Bennett and Rev. Bicknell motored over and met them at the Detroit Automobile Club, where the whole party dined as guests of Mr. and Mrs. Bennett. It was a most delightful outing.

Last Monday evening, the board of trustees met and held a most important meeting. The business affairs of the church were gone over and important questions discussed. The affairs of the church are in splendid condition, and the board has been very active and zealous in the management of the business of the church. All bills were paid and the treasurer reported that the New Era income was being paid up splendidly. The pastor was deeply gratified and happily surprised when the board announced to him their decision to raise his salary \$400.00. The pressure of the H. C. L. makes this addition to the pastor's salary a most welcome gift.

Mr. and Mrs. Bicknell are very grateful for the very generous gifts of fruit and vegetables that the kind-hearted people are ever bringing in and leaving upon their door-step. This generosity on the part of the good friends has helped very materially in supplying the needs for the winter larder.

The Sunday-school executive committee met last Monday evening, and discussed the plans and problems of the Sunday-school. The plans of the committee call for an intensive organization of the Sunday-school on a progressive basis, and the endorsement of a thorough-going educational plan for the study of the bible and a better and larger curriculum. The staff of teachers will be augmented, and the slogan for all will be, "Trained to Serve." A High school class and a training for service class will be organized, and an up-to-date system of record will be installed by the new secretary, Mr. Hill. A Sunday-school orchestra will be organized, and the whole work of the school placed on an up-to-date and thoroughly efficient plan. At the next annual meeting of the congregation, the Sunday-school will be placed on the regular budget of the church, and the whole financial end of the church more thoroughly systematized. The new interest manifested in the work evinces a zeal and spirit that will certainly guarantee a splendid year's work for the kingdom.

The September Bulletin will be in the pews every Sunday, and all are asked to note the new order of service, and join heartily in the service and worship of the day. Preparation is the theme of the month. Make it your motto.

Some twenty-seven Sunday-school workers sat down to the bountifully supplied pot-luck supper, last Wednesday night. After the supper, Rev. Bicknell addressed the workers on "The New Educational Policy" for our Sunday-school. He outlined the shortcomings and limitations of the old Sunday-school method and pointed out how, though it had been good and serviceful in its time, it was now outgrown and new methods were necessary. He outlined the plan for an intensive system of religious education, and challenged the teachers and workers to loyal and whole-hearted co-operation with the plans. The work will be developed through the fall, and it is hoped that by the first of the year the full plan will be in operation. Teachers' meeting will be held monthly to discuss plans and problems.

Today's Reflections

Ask any small boy in Plymouth, and he will tell you that it is almost impossible to judge a slipper by its size.

What do you make out of it when you pick up a daily paper and find on one page hundreds of people advertising for jobs, and on another page notice that thousands are going on strike?

Fortunate is the Plymouth girl who loses her temper, and then never finds it again.

The food investigators needn't be surprised if the people get impatient. Hungry people are always that way.

Another sign of being "well-to-do" is to hear a Plymouth man refer to his "other pair of pants."

For once in history all Americans are agreed on one thing. They are agreed that the other fellow is responsible for high prices.

Maybe the reason there is such an eagerness on the part of some fellows to invade Mexico is because it is possible to get a drink down there.

It seems to be more difficult for some Plymouth men to collect their wits than their bills.

Congress can't repeal the law of gravitation, and where there are cider apples falling there's bound to be some cider.

It is getting around to the point where the average man will have to decide whether to buy a new automobile or spend the money for a Thanksgiving turkey.

No Plymouth man is optimistic enough to believe we will ever return to the good old days when a girl was contented to receive her candy in a sack, instead of a box tied with broad ribbon.

With the price of a hair cut being raised all over the country, the bald-headed man has, for the first time in his life, a laugh on the other fellow.

It cost \$35,000,000 to make the United States dry. Looks like the Prohibitionists spent money like a drunken sailor.

And if everyone in Plymouth kept his troubles to himself, there would be no trouble to speak of.

Looking at the railroad trains and considering the amount of travel, one would never suspect that some people are having a hard time making both ends meet.

Wise is the Plymouth man who has laid in his winter coal and paid his subscription to his home paper for a year in advance.

A Car Overload is A Tire Overload

MOST cars, particularly Fords, are overloaded. To give real service under such conditions, tires must have doubly strong side walls, built of the best fabric. They should be at least their full rated size—not skimped to save cost.

Horse-Shoe Tires for Ford rear wheels are really 3-5/8" in diameter—more than 10% over-size. This increased air space adds wonderfully to the life of the tire. Many of the tires used locally have run nearly twice the 5,000 miles guaranteed.

Notice that you seldom see a car with only one Horse-Shoe Tire on it. Ask the owner why. Then let us tell you more about this record-making tire.

THE UNIVERSAL CAR

There are more than 3,000,000 Ford Cars in daily operation in America. This is a little better than half of all the motor cars in use in the country. There is a very potent and profitable reason in this why you should buy Ford cars for your business and for your personal use. It is a demonstrated fact that Ford cars have, in every line of human desire so far as motor cars are concerned, best satisfied their owners with the service given. They must be safe; they must be comfortable; they must be always reliable; they must be convenient and they must be economical; or they wouldn't be so tremendously popular with all classes of people. The big Ford factory has not yet reached normal production, but the war is over, and it is getting back as fast as possible. We are getting a few cars in right along, and we will do the best possible to give you early delivery.

Runabout, \$500; Touring Car, \$525; Coupe, \$750; Sedan, \$875; Truck Chassis, \$550. These prices are f. o. b. Detroit.

Leave your order with the following dealer and be assured of two things: First, the earliest delivery; second, an after service that has the strongest and most commendable endorsement of the Ford Motor Company as being reliable, satisfactory and economical service.
