PLYMOUTH TEMPORARILY WITHOUT WATER SUPPLY

Plymouth has been the driest place in Michigan since Tuesday afternoon, when our water supply was entirely shut off. While workmen of the county road commission were blasting out the road to lower the grade to the approach of the new bridge at Phoenix, the water main that brings Plymouth's water supply from the spring near Northville to this village, was bursted by the force of the charges. It was at first thought that by operating the booster pumps the water could be carried by the break for a short time at least, but it was soon found that this could not be done, and early Wednesday morning workmen began repairing the break, and finished the work about 8 o'clock the same evening, but for some reason the water has failed to come through the mains, and at the time this item was put in type, Plymouth was still without water.

The factories and schools have been closed down since Wednesday morning, and business in the village has been seriously crippled. To make things still worse, the gas plant had to shut down for lack of water, and many people are without means of cooking. The village authorities are making every effort to locate the trouble in the main, and Thursday afternoon had an engineer from Ann Arbor go over the line to the spring, and upon suggestions from him two forces of men worked all night last night.

GRANGE ELECTS NEW OFFICERS

Friday, January 2nd, Plymouth Grange installed the following officers for the ensuing year:
W. M.—Allen Wisely
W. W.—Frank Becker
Lecturer—Alma Spicer
Steward—James Gates
A. S.—Albert Powell
Chaplain—Lucy A. Smith
Treasurer—John Root
Secretary—Emma Gates
F. K.—Emma Gates
C. F.—Ira M. Merritt
P. N.—Nannie Williams
F.—Violet Campbell
L. A. S.—Chloe Powell
Press Correspondent—Lynn M. Matts
The next regular meeting will be Thursday, January 15.

MOVING PICTURES IN CHURCH

Beginning next week, every Wednesday evening will be "Joy Night" at the Methodist church, with carefully selected moving pictures as the principal means of entertainment. This is not a money-making scheme, and it is expected that a sincere offering each time will merely take care of the film rental with perhaps a small surplus to be used for the enlarging of the equipment.

The subject of these "Joy nights," said Rev. Frank M. Field while discussing the project, "is simply to give the folks of our congregation and their friends an opportunity to get together at the church once a week just to enjoy themselves. A believer in the gospel, but human, I am sure that these folks shall play right as well as they can, and if we can help folks to have these occasional wholesome and uplifting, we are doing a real service for the Kingdom of God."

In selecting pictures Mr. Field will have the assistance of a number of lay members of the church, so that a most interesting and varied program will be presented. The pictures will be shown in a church parlor, and the service will be held at 8:00 p. m. on Wednesday evenings.

NOTICE TO READERS

Owing to the fact that the break in the water mains caused the gas company to close down their plant for lack of water, Wednesday and Thursday, we were unable to operate the linotype, which sets our type, on account of having no gas. We therefore must ask the indulgence of our readers for the lack of news matter in the Mail this week. Many items of news, correspondence, etc., has been left out because we were simply unable to get it set.

A BRILLIANT SOCIAL EVENT

The anniversary ball given in the Penniman Allen Auditorium, New Years evening, was one of the most brilliant social events of the season. The hall was beautifully decorated in Yule-tide colors. Panels of evergreen festooned with ropes of red adorned the side walls, and suspended in the center of each were wreaths of holly and evergreen. Attractive red shades adorned the electric lights, and the railing of the orchestra gallery was bedecked with evergreens with numerous tiny blue and red electric bulbs peeping from beneath the branches. Many handsome evening gowns graced the occasion, which added greatly to the beauty of the scene. One hundred and eighty-seven couples were in attendance, besides many spectators. Stone's famous orchestra of Detroit, discoursed excellent music. Dancing was indulged in until 12:30.

BASE BALL MEETING

There will be a meeting of base ball fans at the village hall, next Tuesday evening, January 13th, at 7:30 o'clock, for the purpose of making the preliminary arrangements for the organization of a ball team in Plymouth for the coming season. There is no reason why Plymouth cannot support a good ball team, and if the plans of those who are backing the movement are fully realized, and there is every reason to believe they will be, Plymouth will be represented by a winning ball team next season. Come out to the meeting, next Tuesday evening, and help boost.

PUBLIC DEMONSTRATION

Miss Edna V. Smith, Household Management Specialist from the Agricultural College, will give a demonstration on Labor Saving Devices and Methods, at the Plymouth High school at 2:00 p. m. on Friday, January 16th. Every woman who is interested in housework is invited to attend this meeting. Since shorter hours is the demand of the day, let us see if we can get them without striking.

MANY THANKS

The Mail acknowledges with thanks the receipt of a nice box of oranges from Mr. and Mrs. H. C. Hager of Phoenix, Arizona. Mr. Hager stated that they were having delightful weather here, the thermometer registering 80 degrees above zero on Christmas day. Some different from Michigan weather, we'll say.

TAX NOTICE

J. E. Kober, Plymouth Township Treasurer, will be at the village hall, Plymouth, on the following dates for the collection of taxes:
Friday, Jan. 9, 9:00 to 11:00 a. m.; 1:00 to 3:00 p. m.
Saturday, Jan. 10, 9:00 to 11:00 a. m.; 1:00 to 3:00 p. m.
Sunday, Jan. 11, 9:00 to 11:00 a. m.; 1:00 to 3:00 p. m.

GENSUS STARTED LAST FRIDAY

PLYMOUTH IS MUCH INTERESTED AS IT IS EXPECTED THAT THE GENSUS WILL SHOW A BIG GAIN IN POPULATION OVER THE LAST COUNT.

The fourteenth decennial census of the United States started last Friday, January 2, 1920, and it is expected that it will be completed within thirty days in the village. Anna Walters will have charge of the census in Plymouth village.

A proclamation issued by President Woodrow Wilson in regard to the census states that the sole purpose of the census is to secure general statistical information regarding the population and resources of the country, and the replies are required from individuals only to permit the compilation of such general statistics. For the protection of the rights and interests of the persons furnishing information, every employee of the census bureau is prohibited under heavy penalty from disclosing any information which may come to his knowledge.

A paragraph in the proclamation calls attention to the fact that "it is the duty of every person to answer the questions on the census schedule, which apply to him and the family to which he belongs, and the farm occupied by him or his family and that any person refusing to do so is subject to penalty."

There has been much speculation regarding the growth of Plymouth during the past few years, and it is expected that the census which started last Friday, will soon give the figures as compared with those of ten years ago, when the count was 1,675.

WILL REORGANIZE FIRE DEPARTMENT

The village commission met in regular session, Monday evening. Among the more important items of business transacted was that of taking up the matter of re-organizing the fire department. Now that we have the auto fire truck, there is not the need of so many men as was necessary with the old fire apparatus. It is planned to re-organize the department with twelve first call men, and eight men on the reserve list or second call men. The clerk was instructed to have the village attorney prepare the proper ordinance to this effect. The clerk was also instructed to have a building and fire ordinance drafted in accordance with the outline recently submitted by the village manager.

Miss Elizabeth Conner, who has been visiting her parents, Mr. and Mrs. William T. Conner, during the holiday vacation, left Tuesday for the Sargent school at Cambridge, Mass.

Dinner will be served at six o'clock and continue until all are served. A fee of 25 cents will be charged per person for the dinner. All members of the Order are invited to attend.

IT'S OUR OPPORTUNITY

Just how much Plymouth is to grow and prosper during 1920, depends largely upon the people of Plymouth themselves. Opportunity seems to be knocking at our door, and if Plymouth does not step aside, or hesitate in meeting it half way, some big changes are certain to result during the next year. Plymouth has some needs that must be met if we are to realize the hopes of the new year. One of the most important needs that confronts the village at the present time is the matter of an improved water supply. The village commission are laying plans now to bring this matter to the attention of the voters at the coming election in March. We have outgrown our present water system, and it is imperative that an additional water line be built to the spring, from which our water supply is derived, that will practically double our present capacity.
Another important need in Plymouth is more houses that there will be plenty of room for those who are certain to be looking for homes here during the coming year.
There is also a need in Plymouth for several new business blocks, and indications are that some of these will be built during the coming year.
Judging from the past, when a far insufficient number of houses have been constructed here, each year, Plymouth needs an awakening to the needs of the community, and there is no better time for such an awakening, as at the beginning of the new year, when there are twelve months ahead for development.

TOGETHER**

Why not invest some of your spare change in lots? Perhaps you will say the H. C. of L. takes everything you get in the shape of money. But does it? If something forces you to economize, we think you will discover that you could have been saving a lot, enough, perhaps to have paid for a house and lot on Easy street.

Stop and think about it. We believe you will realize that you can save a little each week without denying yourself of a necessary thing. Then why not make a beginning; put all your spare change in Plymouth real estate, selected in the locality you favor. You can buy now at subdivision prices. A small payment down, a little each month, will bring assurance of future prosperity.

DEATH OF FORMER NEWBURG CITIZEN

Albert L. Brown, eldest son of the late Chauncey C. Brown of Newburg, passed away Sunday afternoon, Jan. 4, 1920, at Milford, Mich., at the age of 72 years. He settled in Ogemaw county in 1879, when that country was a wilderness. He leaves to mourn their loss, three brothers, E. W. Brown, Farwell, W. C. Brown, Milford; J. F. Brown, Plymouth, and one sister, Mrs. F. S. Loosee of Saginaw; one son, Walter Brown of Byron, and one daughter, Mrs. Cora Telling of Decatur, Illinois. Funeral services were held at Milford, Wednesday, January 7, 1920.

WHEN SUN BEGINS TO COOL

Humanity in Its Maturity Will in All Probability Be Able to Conserve Heat.

We can calculate the evolution of the temperature of the earth in the future. The sun will grow smaller and cooler. Thus in 160,000 years, when the radius of the sun has diminished by only one-hundredth part, our temperature will be not more than 26 degrees C. (78.8 degrees F.) at the equator. It will have fallen to 0 degrees C. (32 degrees F.) at the latitude 46 degrees, and at Paris it will be below zero (centigrade).
Finally, in 850,000 years, when the radius of the sun has lost only five one-hundredths of its diameter and merely 500 degrees C. of its temperature, the temperature of the equator will have fallen to zero centigrade and the entire earth will be frozen. Biologic evolution, which ascends into the past for a million years, may descend into the future for an equal period of time.
Moreover, the energy of the sun, whence proceeds our terrestrial energy, will be then diminished by only one-tenth. Mankind will doubtless by that time have long been capable of capturing this energy directly, or transforming it as the chlorophyll of plants so admirably does, of making it serve perhaps for several million years longer to sustain his life and the development of his thought.

MADE FRIENDS FOR COLONIES

Benjamin Franklin's Successful Diplomacy in France Meant Much to Young Country.

The first diplomat to represent the United States at a foreign court was Benjamin Franklin, who acted in Paris as official "agent" of the infant republic in France. The crossing of the Atlantic in the sloop Reprisal had occupied over a month, and Doctor Franklin had had many thrilling escapes from pursuing British vessels. Franklin was given a cordial reception in France, although his refusal to wear a sword or wig when presented at court shocked the fashionables. The greatest writers and philosophers of that golden age in France delighted to honor Doctor Franklin, and even the venerable Voltaire paid tribute to the genius of the American. Franklin remained in France nine years. At first he was merely the agent of "the American rebels," and had no official diplomatic standing, but even in this capacity he had sufficient influence to bring about the treaty of alliance between France and the Colonies, which had so profound a moral effect on the Revolutionary struggle. He raised a large amount of money in France, and after the signing of the treaty became the first American minister to that country.

WHERE FOSSIL BONES AROUND

Corner of Nebraska Long Famous for Its Skeletons of Quaternary Prehistoric Animals.

Where do the museums of the country get their strange and curious skeletons of prehistoric animals? If a skeleton is a "dinosaur" or a "mopopus," one may be quite sure that it came from the farm of James Henry Cook in the northwest corner of Nebraska; and the chances are almost equally good if the specimen happens to be a saber-toothed cat or a many-toed horse, or almost any of those queer animals, that belong to the early Miocene period, says R. P. Crawford, in an article in Popular Science Magazine. Most ranchmen and farmers are quite content to raise the ordinary sort of stock, but here is a ranch that is most widely known because of its output of prehistoric animals. For more than a decade paleontologists from the great universities and museums of this country have made regular trips to these fossil quarries.
The Cook farm and ranch, located close to the Wyoming line, comprise some 15,000 acres. On the eastern edge of the ranch the Niobrara river has laid here two hills, from both of which scores of bones of fossil skeletons have been quarried. In the summer it is no uncommon occurrence for representatives of half a dozen eastern institutions to pitch camp near these hills and spend several months digging out the fossil bones which, when worked over in the museum, form the queer-looking skeletons.

WHERE THE ROMANS BUILT

Site of Old City of Ciria, Italy, Described as Place of Mournful Grandeur.

The site on which the city of Ciria stands rises sharply from the south to the north. It is a terrible height. Looking up from the little footpath running round the gorge at a distance of a few hundred yards from the bottom, the great rock looms up like a most tragic fate. The mournful grandeur of the place is in keeping with the character of Masinissa and other stern and savage chieftains and the uncompromising times in which they lived.
The gorge of the Rummel is narrow, rarely more than some hundred yards across, and straight. Fragments of Roman ruins still cling to its precipitous sides wherever lodgment can be found. Along the north side the water has burrowed deep down through a series of caverns until it reaches the Kasba. The Romans took advantage of the natural arch thus formed at the angle of the two sides, using the arch as its foundation to erect a magnificent bridge, known here, as were the bridges at Toledo, the Calceus Herculis near Biskra, and elsewhere, as "El Kantara," the Bridge. Its ruins still remain.—Cyril Fletcher Grant, in "Twixt Sand and Sea."

Distinctive Cries Among Animals.

If a complete list could be made of the distinctive names by which the noises produced by birds and beasts are called, it would be found that there are few duplicates. This may be judged even by the most common. The horse neighs, the sheep bleats, the cow lows, the pig grunts and squeals, the turkey gobbles, the hen cackles, the cock crows, the goose hisses, the duck quacks, the cat mews, the dog barks, the wolf howls, the lion roars, the bull bellows, the sparrow chirps, the pigeon coos, the frog croaks, the rook caws, the monkey chatters, the elephant trumpets, the camel grunts, the stag calls, the rabbit screams—only when wounded—the donkey brays, the bee hums, the fly buzzes, the grasshopper chirrups, the swallow twitters, the chick peeps, the hound bays and the owl hoots.

Be Master of Yourself.

To be able to keep cool when all the world goes mad shows mental grasp and genuine bigness. This grows with the years. It becomes a part of the nature. Newly dubbed aristocrats and the victims of sudden wealth usually betray their plebeian origin by their cultivated show of authority. Where the blood tells it rises with might to occasions, but seldom allows itself to get ruffled without occasion. And what a spectacle one can make of himself by getting all stewed about nothing or losing his temper on some little thing that approximates the zero mark. The really big character is slow to anger and irritates little dubs by his superior calm control. At the same time the exhibition of mastery challenges the secret admiration of all.

PENNIMAN ALLEN THEATRE

**PROGRAM
Saturday, January 10th**

A BIG DOUBLE BILL
Morris Tourneur's "THE WHITE HEATHER," starring Mabel Ballin and H. E. Herbert. An astounding climax to an astounding motion picture. The sublime, but forbidden love that prompted a man to risk his life in a desperate undersea battle for a woman, will rest in your memory always. The sheer beauty of the scenes actually photographed on the ocean's floor will leave you gasping in amazement. "The White Heather" is nothing short of a miracle. Counsel! By special arrangement the undersea scenes in "The White Heather" were produced by the use of the Williamson Submarine Tube and patented inventions, the only means by which such undersea scenes are made possible.

But let's be serious. This incident changed the whole course of the girl's life. Took her from a cabaret to a waterless desert. How? The story is too long. Come to see. You never take a chance with Enid Bennett.
Seventh Episode of the great serial—"SMASHING BARRIERS."
ROLIN COMEDY.

Thursday, January 15th

Fatty Arbuckle in "LOVE" and Alice Joyce in "THE CAMBRIC MASK." Alice Joyce has the support of seven widely known Vitagraph favorites in "The Cambric Mask," the Alice Joyce picture, which will be seen in this theatre. They are Herbert Pattee, Maurice Costello, Roy Applegate, Bernard Siegel, Jules Cowles, Martin Faust and Florence Deshon. Miss Joyce has one of the most remarkable roles of her screen career in this swift-moving romance adapted from the novel of the same name written by Robert W. Chambers. She is seen as a spy in a band of White Riders bent on killing the man she loves, and by joining their ranks she succeeds after a wild night ride and hand-to-hand battle in rescuing him.

Walter Schaufele and family of Plymouth, spent Thanksgiving at George Bix's. Mrs. Ben Schoultz of Wayne, died last week Friday evening, at her home after being in poor health for nearly a year. Mrs. Schoultz's youngest son, Joe, was buried the day of the evening that his mother died. Her oldest son and his wife died last winter of the influenza within a few hours of each other. The deceased leaves a husband and one daughter to mourn their loss. The family have the sympathy of their many friends here. Joseph Sanger purchased two thoroughbred Jersey cattle at a sale near Ann Arbor, Wednesday. Mr. and Mrs. William Reynolds of Detroit, visited at G. W. Dean's, Thursday. Mr. and Mrs. Charles Wright entertained company from Plymouth, Thanksgiving day. The wind storm last Saturday done considerable damage to orchards and out buildings through these parts. Joe Niemycheck is moving several large houses in Redford this week. Henry Klat has built a new basement under his house which makes a fine improvement to his place.

KING'S CORNERS

The Helping Hand society will meet at the home of Mrs. Hattie McIntyre at Wayne for dinner. A severe rain and wind storm passed over this place, Saturday, doing considerable damage. Trees were uprooted, outbuildings and everything movable carried away or destroyed. A large tree (an old landmark) on the old King place was uprooted, car and telephone service were badly crippled, and people had difficulty in getting to their homes, many having to walk. However, no loss of life was reported. Mr. and Mrs. D. McCracken entertained the latter's three sisters from Flint, Detroit, and Hanover, Ont., over Sunday. We are sorry to hear that our old neighbor John Haltiner, formerly of this place, but now of River Rouge, is suffering severely with carbuncles on his neck. Mr. and Mrs. Fred Steinfeld and little daughter Evelyn, spent Thanksgiving with friends in Plymouth. Mr. and Mrs. Myers' little daughter, Margaret, is quite ill, and under the doctor's care. Mrs. Myers has recovered from her recent illness. George Hix's new garage blew down in the recent storm. Word has been received of the safe arrival of Mr. and Mrs. Charles Parrish at Sheridan, Mich. They will spend some time with their daughter, Mrs. Treat, at that place. Mr. and Mrs. C. F. Suberville and daughter, Mildred, Mr. and Mrs. Lloyd Jackson and son, Kenneth, spent Thanksgiving with the former's daughter, Mrs. Albert Roodier, of Southfield.

FREE CHURCH

On Thanksgiving Day, Miss Sophia Switzer of this place and Dr. Snow of Lealie, were united in marriage. A very pretty wedding was held at the Switzer home. The young couple will live at Lealie where Dr. Snow has purchased the practice of an old physician, who has recently died. We wish them happiness. Again the wedding bells are heard as another of our young ladies is soon to wed, and will be by the time you read this. More next week. Leo Clark of Ypsilanti, late Thanksgiving dinner with Mr. and Mrs. Carl Rengert. Misses Edith and Marie Brown and Walford, were home for Thanksgiving. Simon Brown came home from Northville Saturday to spend a few days. Mr. and Mrs. John Forshee partook of Thanksgiving dinner with Marion and Ellen Jackson. Mr. and Mrs. Will Rengert of Plymouth, visited at the Rengert home Sunday. Miss Alice and Joseph Jackson, spent Wednesday evening with Mrs. Wright. Mrs. Frank Hesse entertained at dinner Sunday, Mr. and Mrs. John Forshee and Clyde Brown. Mr. and Mrs. Frank Hesse and Ronald spent Thanksgiving at the

Villerot home near Redford. Thirty guests were present, children and grandchildren. Mr. and Mrs. Becker of Detroit, spent Thanksgiving at the Jackson home. Mr. and Mrs. Will Grammel Sunday with the Douglass family at Redford. The wind storm Saturday evening played havoc in the neighborhood, taking down wind mills, barn doors, unroofing buildings, scattering fences and cow stalls, making work for everybody. Frank Smith of Plymouth and Miss Lois Strong of Ypsilanti, were married last Saturday. We wish them much joy. M. C. Willetts of Reading, and Mr. and Mrs. Frank Boyle of Salem, were Thanksgiving guests of Mr. and Mrs. Ed Quackenbush and family. Mr. and Mrs. Ed Quackenbush were at Frank Boyle's Monday assisting with the barn roof the wind took off Saturday. Mr. and Mrs. Lloyd Jarvis entertained Thanksgiving quite a party of relatives from Ann Arbor and Salem. Hazel Quackenbush, Emil Bucko and Charles Root of the Miller school have not been absent nor tardy during the month of November. Subscribe for the Mail.

Is Plymouth Real Estate A Good Thing to Invest In?

Think it over; investigate and we know you will decide that it is.

There never has been a Starkweather Estate Lot that has not shown an increase in value within a very short time after the purchase. Many lots have been resold at large profit, because they were where people like lots—in the midst of good things—directly in the path of PLYMOUTH'S CERTAIN GROWTH.

We had hoped to sell the Starkweather home, together with a nice string of lots, not having done so, we reserve the house and a few adjoining lots, any and all of the rest are for sale on easy terms to any respectable citizen. Many of the lots now offered were surveyed several months ago. We have paid for the survey, but for some reason or another, the plat has not up to this time been submitted to the Village Commission for its approval and acceptance. However, the plat and survey has been approved by the Lansing office. Lots are all staked and we will be glad to show them to you at any time. There will be about twenty-five of these choice and very desirable lots. Buy yourself a Christmas present that will in all likelihood be worth much more Christmas 1920.
