HANDY RACK HANDLES EVERYTHING ON FARM
Especially Useful in Carrying Crops to Market.
No Danger of Load of Produce Slipping After It Has Been Placed Inside of Boards—Big Saving Made in Hauling Seeds.

Several farmers here have a handy rack for handling almost everything on the farm. Especially are they meant for crops which are taken to the market or cellar in crates or boxes. The best and cheapest one I have seen is 14 feet long, 6 feet wide, with sideboards 14 inches high, writes H. E. Rogers of Ohio in Farm and Home. The floor is solid of matched lumber one inch thick. The two stringers which run lengthwise are 4 1/2 by 6 1/2 inches and 14 feet long. Around the outside there is a piece 2 by 2 which is used for holding the sideboards in place when they are wanted. Along the sides there are four holes in the floor next to the strips, which take one-half inch iron bolts fastened to the bottom of the sideboards. This makes everything hold solid and there is no danger of a load of produce slipping after it is inside the boards. The side and end boards are held together by a short rod bolted on the end boards with a ring in the end. Another bolt comes through the side board with a hook in the end of it. These two join and are easily turned up tight. On this rack, with no sides on, we hauled onions, and put on 78 bushel crates. This rack on a low wagon is hard to beat. There is hardly a place where either a rack or a box is used that this sort of rack will not do the business of both. When thrashing there is a rack with no holes to let your legs down through when you don't look where you step. In hauling needed grain, such as clover, a tight rack means a mighty big saving in the seeds that are bound to shell.

Convenient Wagon Rack.

SERIOUS NEW PEST OF WHEAT

Eelworm Has Done Much Damage in Virginia and Other States—Plant Only Clean Seed.

The eelworm is a serious new pest of wheat which has recently done much damage in Virginia, and to a lesser extent in West Virginia, Maryland and California. The disease may be recognized in the thrashed grain by the presence of hard, dark-colored galls, about one-half the size of a wheat kernel, which are easily overlooked or mistaken for bunt, cockle seed or bin-burnt wheat. Plant only clean seed wheat from fields which have not been infested. The loss in some Virginia fields amounted to as much as 40 per cent.

HORSERADISH IS GOOD CROP

Quite Profitable if Farmer Can Prepare Grated Article and Sell at Retail.

Horseradish is a profitable crop to grow if one can prepare the grated article and sell it to retail customers. In this way the entire profit remains with the grower. The preparing and bottling may be done during the winter when outside work is at a standstill.

Back Hurt!

When the kidneys do not properly do their work or purify the blood stream, waste products and poisonous acids remain in the system and cause backache, rheumatic pains, lumbago, sore muscles, swollen joints, stiffness, lame back and similar symptoms.

Foley Kidney Pills

regulate and restore the healthy, normal action of kidneys and bladder, bringing clean blood and better health, with freedom from aches and pains.

Dr. J. George Hedges, Birmingham, Ala., writes: "Last week, I was attacked with lumbago and suffered until I could hardly get up. I was advised to take Foley Kidney Pills for one week. After taking them for a few days the pain was gone and I have not had my lumbago since that time, although that was months ago. I recommend Foley Kidney Pills to all who have lumbago."

ATTENTION TO DISK HARROW
Implement Should Be Gone Over Carefully During Winter Months and Put in Order.
The disk harrow is a tillage tool found on nearly every farm. Its useful life is about 20 years, as shown by carefully compiled statistics. Thus it is a long-lived tool. There is very little about a disk to wear out. It has few moving parts and, if given good care, should cause little bother. Disks should be gone over carefully every season. During the winter months the boxes should be taken apart, carefully cleaned and, if badly worn, replaced. See to it that the oiling system works and that the bearings are getting oil. Keep the arbor bolt tight. This holds the disk firmly in place. If the disk is used much it should be sharpened at least once each season. This greatly increases the penetration and decreases the draft, as it will do more work with less set. It will also do better work; and because it does not need so much angle or set, there is less strain and wear on the boxes. While a dull disk will cut, it is like a dull ax, inefficient and expensive to work with.

BIG PICTURE COMES NEXT WEEK

"DOUG" HAS NOT OVERLOOKED A SINGLE TRICK TO MAKE "WHEN THE CLOUDS ROLL BY"

The management of the Penniman Allen theatre has had every assurance from the United States Artists Corporation that the next production made by Douglas Fairbanks, to be shown here Friday and Saturday, January 30 and 31, is the most elaborate, costly and stupendous picture he has ever turned out from his California studio.

When "Doug" began his picture, immediately after he had finished his first United Artists release, "His Majesty, the American," he called a conference of all of his associates at his studio in Hollywood, California, and told them his idea for the next story. Everyone was astonished. "Doug" was absolutely determined that he was going to do something daring and with that he insisted that everything from beginning to end had to be of the most elaborate order.

He went so far as to insist in his story that an entire city such as may be found in the middle west section of the United States, be destroyed in providing one of the spectacular punches in the production. And the destruction was not to be an ordinary destruction. It had to be a flood. The proposition seemed almost impossible, but to "Doug" there has never been anything that he can't do when he wants to. And a flood it was. He spared no expense in reproducing this particular community, the smallest details having been carefully carried out so as to enable the presentation of the most genuine character of realism obtainable.

A location in the foothills of the Cascade Mountains, Northern California, about two square miles in area, furnished the site for the city. A hundred or more carpenters and laborers under the supervision of Robert Fairbanks, production manager, were utilized in the construction work which covered a period of one month in necessary preparation.

With the use of four massive electric pumps, more than one million gallons of water were drawn from the Sacramento River and stored in a specially constructed reservoir at the highest point of the new city. Numerous scenes were filmed in the city, the final one being the spectacular destruction of the little settlement by the flood. The huge gates of the reservoir were raised and the water, assisted by the steep grade of the mountain, rushed into the foothills carrying everything before it. Dwellings, churches, theatres, bridges and railroad lines were lifted from their foundations and all piled up in masses of debris.

Not in these scenes alone was "Doug" granted opportunities galore to do some wonderfully clever stunts, but all through the picture he does new tricks that will give many thrills to those who glory in his red-blooded manner of working. In a number of the scenes of the picture more than a thousand extras were used, which in itself will give an idea of the stupendous scope of the production.

A star like Fairbanks knows his own qualifications best. This story was conceived by "Doug" himself, and he put into it every conceivable thing he has dreamed of. With these things in mind a slight idea of the action he puts into this picture will be possible.

If you have anything you wish to sell, a liner in the Mail will bring quick results. It costs but little to try it.

STATE NEWS

Albion—Owen Cawsey was given 30 days in the county jail for drunkenness, after telling the court he drank a quantity of toilet water purchased in a local drug store.

Ludington—Thieves broke the back window of the K. L. Ashbacher clothing store in this city and stole goods worth more than \$1,000. Clothing was chosen from certain sizes.

Cadillac—Perry F. Powers, former auditor general, qualified as mayor of Cadillac, the first civic office he has ever held in his long public career. He was elected unanimously.

Ann Arbor—Funeral services for James O'Kane one of the four original letter carriers appointed here 33 years ago, were held. In all these years he had never lost a day because of sickness.

Pontiac—The County Road commission is circulating a petition in Orion asking improvement of Flint, Washington and Main streets and the territorial road to the east boundary of the village.

Kalamazoo—The fire department established a new record when it answered two calls from the plant of the Harrow Spring Co. within an hour. The last resulted in several hundred dollars damage in the office rooms.

Birmingham—H. H. Willingham, 28, 3628 Northlawn boulevard, Detroit, received a fractured skull when his automobile was struck by a D. U. R. car two miles south of Birmingham. He was taken to Providence hospital, Detroit.

Grand Rapids—Sheriff Peter Vierger is bemoaning the increased cost of foodstuffs which has boosted the average cost of the prisoners' meals to 10.21 cents. But he possesses a certain amount of pride in the records which show that the average prisoner gains 4 2/10 pounds while in jail.

Flint—A \$50,000 addition to the Genesee county jail, to make it escape proof, if possible, is planned by a special supervisors' committee, appointed to investigate jail conditions. John S. Chestnut, sheriff, appealed to the board for a new building after six deliveries, in which 28 prisoners escaped.

Lansing—Five of the 19 persons whose drivers' licenses should be suspended according to recommendations of Police Commissioner Inches, Detroit, have no licenses, records of the department of state show. Indications are that licenses have been "loaned" to them by others, Deputy Secretary Frank D. Fitzgerald says.

Kalamazoo—West street, one of the main streets in Kalamazoo, will be named Westnedge avenue in honor of Col. Joseph Westnedge, commander of the 126th Infantry. The regiment, composed of former Western Michigan National Guards; saw service at Chateau-Thierry, Argonne Forest, the Meuse and at Sedan. Col. Westnedge died at Nantes, France, Nov. 29, 1918.

Port Huron—C. Harold Willis of Detroit, of the Willis-Lee corporation, which is carrying on the construction enterprise at Marysville, is to have one of the speediest boats on the lakes. Contract for building the craft has been let to a Marine City shipbuilder and call for a boat capable of making better than 60 miles an hour. Its builders claim it will travel between Detroit and Marysville in 45 minutes.

Grand Rapids—Claiming that the order will practically paralyze carload shipments from Grand Rapids and western Michigan, the Grand Rapids Association of Commerce has sent a protest to Congressman Carl E. Mapes against the order of A. T. Hart, of New York, regional director for railroads, that all empty box cars, except those for perishable freight or for less than carload merchandise, be forwarded to Chicago.

Iron Mountain—Joe Mirell, a pneumonia patient in St. George's hospital here, heard the doctor tell the nurse to give him a "shot" of vaccine. Joe didn't know what vaccine was, but the word shot conjured up visions of the hold gray dawn and rifles pointing at his breast. He decided to beat it, and when the nurse left the ward, hurriedly left the hospital, clad only in his pajamas. He gave the hospital attendants a good run before he was recaptured.

Bay City—In a report to be transmitted to the council, Frank A. Gauze, superintendent of schools, will point out that the cost of operating schools in 1919-20, is 41 per cent higher than in 1915. An expenditure of \$1,200 during the year for school gardens, resulted in the raising of \$10,000 worth of vegetables by the school children. Minimum salaries have been raised from \$350 to \$650 and maximum salaries from \$750 to \$1,200. He urges an additional increase.

Port Huron—War to the death on the soviet and its followers is the aim of a group of Sarnia and Port Huron citizens who are now forming an "anti-red" society on the Canadian side of the border. The plan calls for an association with a membership composed of prominent citizens and world war veterans. One of the principal objects is to urge upon the American and Dominion governments the early passage of a far reaching law directed against the immigration of foreigners with radical tendencies. Much interest has been aroused.

Ann Arbor—Senator George Springer and, of Salt Lake City, Utah, will be the speaker at the annual Washington's birthday exercise of the law school of the University of Michigan.

Flint—A woman enumerator has been removed by W. A. Neithardt, census supervisor in the Sixth district, when it was discovered that she was using the telephone to do her work, instead of calling in person.

Port Huron—Preliminary steps looking to the formation of a Community council in Port Huron were taken at a meeting attended by representatives of more than 40 religious, fraternal, civic and labor organizations.

Big Rapids—Twenty-five men joined the new national guard unit the first day of campaign. M. J. Charles L. McCormick of the 32nd division has promised to take the captaincy if a local company of 100 is organized.

Cadillac—The Goodfellow Club of the Cadillac Evening News already has raised \$1,300 to build a new home for Mrs. Dell Edwards, a widow with nine children, whose home-burned Christmas day, Christmas before last the other died.

Owosso—Charred bones of Mrs. W. Warner, 42 years old, and her mother-in-law, Mrs. Elizabeth Warner, were brought here for burial. They were brought from Farwell, where they were burned to death when their home was destroyed.

Lansing—Construction of a new city electric light and power plant to cost from \$500,000 and \$600,000, on a plan which eventually will mean the development of a \$2,000,000 city concern, will be recommended by the electric light and water board.

Ludington—Henry Kolk, who pleaded guilty in Circuit Court to charges of forgery, was placed on parole for two years by Judge Hall L. Cutler. Kolk forged two checks when, he said, he was driven to it to buy clothes and pay grocery bills for his family.

Coldwater—Three months before the new plant of the Homer Furnace Co. here was stipulated under contract to begin operations the new factory began business. The plant has been building since early last summer. It moved to Coldwater from Homer.

Coldwater—Mrs. Deborah Greenwood, 82 years old, died while sleeping in the house where she had lived more than half a century. She was born in England and was the last surviving member of a large family, in which she was the eldest child.

East Lansing—The farm mechanics department of the Michigan Agricultural college plans to conduct truck and tractor schools during February and March. They are expected to draw an even larger enrollment of farmer-students than in previous years.

Lansing—Authority has been given by the Michigan public utilities commission to the Niles Gas Light Co. for the issue of \$16,000 worth of bonds to be sold at not less than 80, under a \$400,000 mortgage to the Security Trust company of Detroit and Charles C. Patch.

Grand Rapids—A state-wide campaign to "investigate" Wayne county's real and personal property with a view of urging the state board of equalization to still further advance the portion of taxes which that county will pay was launched here by City Commissioner George E. Ellis.

Port Huron—With approximately 3,000 1920 automobile licenses issued Thomas Skupholm, in charge of the issuance of state tags here, believes that all but 200 or 300 motorists have been supplied. A special force at the Federal Commercial Savings bank has been active for the past fortnight to accommodate local automobile owners.

Adrian—Disension has broken out in the western half of Lenawee county over Col. Roy Vandercook's state constabulary. The board of supervisors unanimously adopted a resolution similar to one already passed in Emmett county, denouncing the state police, protesting against the expense of maintaining it and asking for its abolition by the legislature.

Hillsdale—For some time the painter of the courthouse had been unable to figure out why the hands of one face of the courthouse clock were failing to work right, when perhaps the other three faces were all right. The mystery has been solved. Hundreds of doves fed about the Stock mill and many of these use the hands for a perch. When enough doves get on the hands cannot move.

Grand Rapids—Great quantities of the best grains, meats and provisions in the Netherlands, where prices on all foods, clothes and necessities, are already exorbitant, are being purchased by agents from Germany and England and being shipped into those countries, says Fred Halsema, who has returned to Grand Rapids after six months' visit in the Netherlands. "Nearly all of the people in that country are clamoring to come to the United States," he says.

Detroit—Alleged to have posed as the son of Herbert H. Hoffman, president of the state board of pharmacy, and to have obtained an overcoat from a Port Huron merchant under that pretense, a young man giving the name of Henry F. Odium, Carletonville, Mich., was arrested by Detective Whitman, Odium is said to have left his old overcoat with the Port Huron merchant. In the pocket of the coat a note was found giving the address of a girl cashier in a Detroit drug store. Through the cashier, Odium was located by police.

UNLESS YOU ARE an expert automobile mechanic it is practically impossible for you to maintain your own car with any degree of real satisfaction. We KNOW that this is TRUE—for it has been proven to us that even a good mechanic is not able to do all classes of work necessary around a motor car.

It takes an ORGANIZATION of several men—each an expert in his particular line—to give real service.—We have just that kind of an organization.

You can always SAVE MONEY by SPENDING MONEY with us—for we will never let you spend a cent that isn't absolutely necessary—and the knowledge that we have of this business enables us to do your work at a much less expense than you could do it yourself.

Customers' Co-operation

The equipment of all public service enterprises in Europe, whether publicly or privately operated, disintegrated terribly during the Great War.

There were not funds sufficient to keep them up to standard.

As a result the service of public utilities was greatly impaired and much time and money will be required for their restoration.

In the meantime the public is inconvenienced.

America has been more fortunate. Her wire using companies have been excellently well maintained. This has been due to untiring effort and vigilance upon the part of operating officials and the public's willingness to pay liberal rates. The Telephone Company must continue to charge rates sufficient to maintain good service, since every element entering into that service costs more than it did six months ago, and costs are still advancing.

The successful telephone company must have the cordial co-operation of its patrons, particularly with respect to the payment of fair rates.

DELPHIAN CHAPTER MEETS

The Plymouth Delphian chapter held its semi-monthly meeting, Wednesday evening, January 14th. Preceding the literary program, Mrs. Patterson gave a very pleasing vocal and instrumental selection. The subjects discussed were: Platonists and His Sons, Reforms of Cithaenus, Greek Struggles with Persia, Athenian Supremacy, Pericles as a Statesman, Pericles as a Man and Aristides and Themistocles. Later Greek history will be the study for the next meeting. Roll call will be responded to with current events. The next regular meeting will be held at the High school building on Wednesday, January 28, at 7:00 p. m. All Delphians are cordially invited.

Baptist B's

Be sure and get in the song service, illustrated with beautiful pictures, next Sunday, "The Holy City" will be sung and illustrated by twelve views.

Boys' and girls' hour is getting more popular each week. We will have to take the big room soon and darken the windows for the illustrated service. Send the children along, we will do them good.

Baptists will hold a roll call and rally day, February 29th. Every member should plan to respond in person or by letter at that meeting. Every member will be sent a letter. If Uncle Sam fails to deliver it, come anyway.

Baptist benevolence budget will be made up for this year by a free will offering taken February 1. The amount to be raised is so ridiculously small, we will not state it here. Bring your offering and what is over and above what is needed for the budget will be used in a worthy cause.

DANCE, BUT NOT WRESTLE; REFORMERS WAR ON JAZZ

New York, Jan. 13.—Old-fashioned, keep-your-distance dances, are to displace the modern jazz steps, if the nation-wide reform movement undertaken by the American National Association of Masters of Dancing proves successful.

The dancing masters, it is announced here, count on the support of mothers, fathers, daughters, sons, dance hall proprietors, dancing teachers and hostesses—and if necessary, the police department—to exterminate the "half Nelson," "body hold," "shimmy lock" and other imported ballroom grips which are practiced by some dancers.

Cheap and vulgar music is also to come under the ban and, according to a circular just issued by the association, those in charge of community or public dances are urged to show their opposition to undesirable dances by distributing "You will please leave the hall" cards to those who persist in attending.

The women, it is charged, are often as much to blame as their partners and, in some cases, dance hall proprietors are advised to pick out ten or a dozen objectionable couples and, if the warning is disregarded, to oust them at once.

"You will soon see," the circular reads, "that you have raised the standard of your establishment and that the loss will be more than made up by double the number of persons who have respect for you and your dances."

"Dance music should be bright and cheerful, properly accented and the phrases well divided," the circular adds. "Cheap, vulgar music of the extreme jazz type invites cheap, vulgar, meaningless dancing. It is useless to expect refined dancing when the music lacks all refinement for after all, what is dancing but an interpretation of music?"

The association has adopted the following tempos, it being impossible, the masters say, to regulate fast dancing:

Waltz.....48 measures to minute
Two-step.....54 measures to minute
One-step.....66 measures to minute
Fox trot.....40 measures to minute

"Dancers should assume a light, graceful position," say the masters. "There should be no jerky, halting steps, for these cause undesirable variations. Partners should not dance with cheeks close or touching, nor should the clasp be tight. 'Neck holds' are positively unpardonable. The gentleman's arm should encircle his partner's waist, his hand resting lightly just above the waist line. The lady's left arm should not encircle her partner's shoulders or neck.

"Steps or movements that can not be controlled should not be taught by dancing teachers. Short side steps, first right, then left, when done continuously, are not conducive to refined dancing and should not be permitted. 'Shimmy' dancing, a chief feature of the upper part of the body while taking short steps or standing still, should not be tolerated.

"The proper dancing step should be the same as a natural walking one, except in exhibition dancing, which properly belongs to the stage not the ballroom. Exceptionally long or short steps are not in good form.

Dancing should be from the waist down, not from the waist up. Copying of the extremes used on the modern stage is in bad taste. Remember that the majority of dancers desire to dance according to the best accepted standards, that is without the slightest trace of offense to dignity or decorum."—Detroit News, January 13.

FARMERS TO HAVE AN ORGANIZATION

PROSPECTS ARE GOOD THAT MEMBERSHIP WILL REACH SIX HUNDRED THOUSAND.

That the farmers of Michigan are going to have an organization of their own is evident from the membership that is rolling up in the Michigan state farm areas. Eighteen thousand farmers in eight counties are now back of it with \$100,000. Prospects are that 600,000 farmers will be back of the organization within a year. Such an organization will be a powerful institution in Michigan public affairs.

The great object of the organization as announced in its platform is to promote agriculture, by cooperating with agricultural institutions, not alone for production, but for more economical production and distribution of all farm products.

It aims to assist the farmer in getting better marketing and transportation facilities and help solve the distributing problems. It stands for a better understanding between the producer and the consumers of food.

It desires that it should be possible for the farmer to pay a wage that will enable him to get competent help and still retain a reasonable profit for himself.

It believes that a farmer has a right to cost of land, cost of upkeep, cost of labor and other legitimate expenses. Not a pound of produce should leave an American farm that does not bring the cost of economic production and a reasonable profit.

It must meet organized labor and capital across the council table with brains, and the strongest agricultural organization that the world has ever known, or the farmers of the country will be forced into peasantry.

Individual business corporations are spending millions annually in promoting their interests before the general public. The future defendant in an investment on the part of the farmers of the future, in such an organization that will promote his interests. Such investments do not promise fabulous returns of quick wealth, but they do pay interest and dividends sufficient to satisfy wise investors.

The farmers believe that "justice and a square deal" can only be obtained through organized co-operative effort and a united stand for their rights. No doubt the farmers in Washtenaw county appreciate the advantage of such an important farmers' organization, and will be willing to give their money and efforts by joining an organization that will represent agriculture as it should be represented.

SCHOOL NOTES

The domestic science class served dinner in the lunch room, Tuesday noon.

Report cards in the High school will be out next Wednesday. Parents should be sure that they see these and realize just where their children stand as far as progress in their studies is concerned.

Mr. Millard, principal of the Northville High school, visited Plymouth Tuesday morning.

Mr. Fisher, assistant county commissioner of schools, made a business call, Monday afternoon.

Be sure that you hear the debate between Plymouth and Birmingham, Tuesday night, at the school house. Plymouth has won one debate, and we are hoping to come out at the top of the series, but the team needs the support of the students and townspeople. An admission of 10c will be charged to cover the cost of traveling expenses of the judges.

The entertainment, Monday night, given for the benefit of the play ground was one of real merit, and thoroughly enjoyed by all present. Through the kindness of the ladies in the p. y., and the assistance of Misses Foster and Penney, Messrs. Calvin and Austin Whipple, and Millard's orchestra, the play ground debt was decreased \$200. Our school very thankful for the assistance given in helping us to remove the debt from our valuable play-ground.

The Junior Red Cross members of the second grade are: Esther Field, Ruth Thornberry and Clarice Hamilton.

The following second grade pupils were neither absent nor tardy during the month of January: Edward Henry, Lavina Holmes, Esther Field, Velda Larkins, Ruth Soth and Leslie Caughey.

The second grade children are making some very attractive "A. B. C." books in drawing.

The following articles held her recent department by members of the farm carpentry class. Milking stool, sack holder, potato crate, wagon-jack, Ford jacks, rabbit traps, step ladders, wheel barrow and farm gate.

Plymouth girls defeated Farmington in a close game. The basket ball game between Plymouth and Farmington girls, last Friday night, proved to be an interesting and close game, despite the fact that the Plymouth forwards playing, were not regular forwards of the team. Everyone of the team played a good game, the Plymouth centers usually securing the tip-off. The guards, Marguerite Moore, Farmington, and Mildred Hood, Plymouth, did fine work. Mildred Gates, although not accustomed to playing forward, held her own well, thus making possible the throwing of more baskets by Ernestine Roe, who certainly did her part. With Edith Pierce in the center, Farmington did not have much chance at the ball, although they played a hard game.

Farmington—Trena Catherman, R. F. (1 field basket); Loretta Waak, L. F.; Gladys Sihman, J. C.; Edna Kresger, R. C.; Marguerite Moore, R. C.; Isabel Pauline, L. G.; Dorothy Wixon, R. F. Sub.; Jeanette Hambleton, R. C.; Vivian Hazelton, R. F. Plymouth—Ernestine Roe, F. F. (4 field baskets, 2 free throws); Mildred Gates, L. F.; Hanna Strassen, J. C.; Edith Pierce, R. C.; Mildred Hood, R. G.; Florence Greenlaw, L. G.; Ila Roe, Sub.; Merle Roe, R. C.

Score—End of first half 4 to 4; end of game 16 to 8. The game started out to be a real contest, but ended at the close of the first half by Farmington forfeiting. Score 2 to 0.

Plymouth announces a base ball meeting in the interests of a team for that village, this week, in an effort to start the ball rolling for a strong team. This is along the line suggested last fall, when it was stated an effort would be made to organize a small league for the season of 1920. Wayne had a good team last year, and an effort, similar to Plymouth's should be made at once so that our home boys can get into the game the same time as other towns. What have you to suggest?—Wayne Weekly.

Railroad Jack, the man who answers questions "while you wait" is putting in his spare time studying about the Fordson tractor, which he expects to use in a trip of 10,000 miles across the continent and back, starting from Ann Arbor next May. Jack says he will prove that his reputation as a memory expert in regard to names and dates in history so will be obliged to divide honors with matters that relate to the tractor when it comes to telling offhand more about the machine than any other person who ever studied it with the idea of becoming an expert operator.—Wayne Weekly.

Monday morning a large force of men came over from Dearborn and were put to work at the new Ford plant in this village. While some of the men were engaged in putting in the water from the village mains, others were set to the task of preparing the ground for the erection of the building, which is to house the power plant, and if the weather conditions permit, work on the new building will be pushed rapidly forward. The parties who purchased the old buildings located on the land acquired by Messrs. Ford have been asked to remove them without delay, indicating that improvements in a big way are now contemplated. When spring opens the Ford plant will be a busy place.—Northville Record.

UNIVERSAL TRACTOR

It Solves The Farm Help Problem

Harvesting is quickly over with a Moline-Universal Tractor, Model D, one man with an 8-foot grain binder harvesting 25 acres a day, or with a corn binder, 10 acres a day. The Moline-Universal attaches direct to the binder, and forms a single, compact unit with it that is controlled by the operator from the seat of the binder, where he must sit in order to do good work. The outfit is as easily handled as with horses, stopping, backing, going into corners and turning with ease. With the Moline-Universal one man does cleaner, faster, and better work than other tractors do with two men. For threshing, the Moline-Universal develops 18-horsepower, enough to pull a 24-inch grain separator or a 16-inch ensilage cutter. This belt power is also available for any other work, such as running a corn sheller, feed grinder, wood saw, clover huller, water pump or electric lighting plant. Harvesting and belt work, however, are not the only things the Moline-Universal Tractor can do. With it one man plows 9 acres a day, discs 27 to 38 acres, harrows 76 acres, plants 20 to 40 acres, cultivates 14 to 20 acres, mows 25 acres, rakes 25 to 40 acres, and loads 12 acres of hay. The high clearance of the Moline-Universal, 85 1/2 inches, makes it perfectly adapted for cultivating, one man cultivating two rows at a time at all stages of the crop. The tractor is light, yet it has power to pull two 14-inch plows at considerably more than average speed, all its weight being tractor weight. The Moline-Universal tractor will work every day in the year. It does not plow and prepare your seed bed, and then rest while your horses do the planting, cultivating and harvesting. That is why the Moline-Universal really replaces horses, and by enabling one man to do four and five times as much work as before, and solve the farm help problem. The construction of the Moline-Universal is the most advanced on the market. Perfected four-cylinder overhead-valve motor, electric starting and lighting system, and complete enclosure of all working parts are only a few of the leading features. Examine this machine for yourself at our place of business.

When You Have Your Auction Sale

To give your sale the desired publicity and to insure yourself that you will realize on the sale, you must use the modern way of advertising, namely, the Mail.

Hundreds of successful sales can be traced to Mail publicity. On cold days, rainy days and on days that the worst weather rages, Uncle Sam carries the Mail into the country home. On these days the auction bill flutters helplessly in the wind or is torn to pieces by the gale. The Mail is read by the man you wish to reach when he has the greatest leisure, that is, when he is sitting around the table after supper. The auction bill on the other hand is glanced at as the farmer or buyer is hurrying past. Nine chances out of ten he won't even see it. Then, too, the Mail reaches almost every farmer for miles around. That's the biggest argument.

The power of the newspaper over the hand bill has been so greatly demonstrated on every occasion that further arguments in its favor are not necessary to the thinking man. Advertise your sale in the Mail.

Bring In Your Sale List, We Will Do the Rest.

A LETTER FROM SUNNY CALIFORNIA

MRS. E. L. RIGGS WRITES AN INTERESTING LETTER FROM THE LAND OF SUNSHINE AND FLOWERS.

Venice, California, Jan. 13, 1920.
Dear Plymouth Mail:
Thinking perhaps your readers would be interested in hearing from Sunny California, I will tell you about our winter here. We left home Dec. 15th, and arrived in Los Angeles, the 20th, ten hours late, which brought us in at 7:00 in the morning. We came right down to Venice, fourteen miles from Los Angeles, as they told us sea level was the best place for Mr. Riggs. I had the conductor wire ahead to Chicago for a wheel chair to meet the train, also at Los Angeles. Right the first night there we went to bed and laid down and slept for the first time in three months, as he had sat in a Morris chair every night and slept for the past three months. The next morning he got out on the walk on the ocean front and walked a mile, and it surprised me so, I have not gotten over it yet. So, to make a long story short, he is ever so much better.

On New Year's day we went over to Pasadena to attend the rose carnival, which was grand and beyond description. The first Sunday here was at Arroyo Viejo, where we saw their daughter, Emma and husband from Alhambra, spent the afternoon with us. The next Sunday, Mr. and Mrs. W. F. Markham and Mr. and Mrs. Ben Sprague came over from Hollywood, to see us. We have been in Long Beach, Glendale, where we saw Charles Shattuck and family. We have had a number of fine automobile trips, the most beautiful one being up through the Topanaca canyon. They say it is the most beautiful trip in southern California, and I think it must be true as it is great beyond description. The weather is fine here, sun shines all day, and we have had only one rainy day since we arrived.

A few days ago we were surprised to meet on the ocean front, Mr. and Mrs. Charles Rogers and Mrs. Thornton, formerly of Northville, and the next day we went to Ocean Park on the pier, where we were watching Charlie Chaplin and company make a motion picture, whom should we meet, but Mr. and Mrs. Will Ambler from Northville. The temperature is about 80 here most of the time. We are living at the Hotel Waldorf, and take our meals out, and there are a number of good places to eat quite near the hotel. This hotel is the only one in the world with bungalows on the roof. There are six of them with four rooms and bath in each one, and all rents at seventy-five dollars a month. This hotel is run by very fine people, and on Christmas eve, they had for the guests of the hotel, a very pretty Christmas tree in the lobby, with oranges, apples, chocolate creams and cigars and cigarettes, and everyone helped themselves. We have steam heat, electric lights, hot and cold water and telephone in our room, and every room looks out on the ocean.

Venice is a Coney Island type of resort, patterned after Venice of the old world, and has canals and architectural features of Venice. Ocean Park and Santa Monica are all along the ocean front, connected by a cement walk thirty feet wide and four miles long. There is a little tram car that runs along the walk between the three places. Electric cars run into Los Angeles every twenty minutes. There are two free hand concerts here every day, one at 2:30 and one at 7:30 in the evening, given by Francesco Ferrullo's famous Venetian band. These are open air concerts with an open air auditorium about a block from the hotel. Mr. and Mrs. Robert Walker and Mrs. Charles Allen are living a few blocks from us in furnished apartments. Mr. Walker is quite a bit better since coming here. We see them almost every day. My mother has a furnished apartment with a friend of hers about eight blocks from us. Every hotel and apartment house is full with signs in the windows, no vacancies. All cottages and bungalows are rented and everything seems to be on the boom here. We can hardly realize that it is so cold back in Michigan. We intend to stay here until about the middle of April, then go down to San Diego for a few days, then home via western Pacific, through New Orleans, then up to Louisville, Kentucky, for a few days, where Mr. Riggs has a brother. As it is getting late, I will say good-night. Any of the friends who would like to write us a letter, can address to Hotel Waldorf, Venice, California.

MRS. E. L. RIGGS.

OBITUARY

William Lawrence was born June 3, 1832, and died at his home in Elm, Mich., at 1:30 o'clock Jan. 12, 1920. He was a veteran of the civil war. He was married to Didianna Isham, Aug. 14, 1852. To them six children were born, two dying in infancy and one boy, Wesley, at the age of 22 years. Three are living, Romanus of Plymouth, and Grace and Wilbur of Northville. Mrs. Didianna Lawrence passed away April 4, 1883. September 20, 1893, he married Phoebe Clement, whom he leaves to mourn her loss, besides four children, two daughters, Hazel and Mrs. John Austin of Waukegan, and two sons, Sergeant George Lawrence of Jackson, Tenn., and Lyndon at home. Mr. Lawrence married for nearly six years with Bright's disease, being confined to his bed six weeks before his death. The funeral was held Thursday afternoon, January 15, at one o'clock, and interment was in Wallaceville cemetery.

FARMERS TO MEET BIG MEN AT M. A. C.

LOWDEN, GEMMELER AND OTHERS ON FARM WEEK PROGRAM.

Headed by Gov. Frank O. Lowden of Illinois, with his discussion of "The Economic Relationship Between Food Products and the Government," the program for farmers' week at M. A. C., Feb. 2-3, as announced by M. A. C. H. Berridge, director, embraces nearly every aspect of the new agricultural movement.

Afternoons and evenings will be given over to the important speakers, with sessions held in the new gymnasium. At other periods, sectional meetings will be held. Alfred Vivian, dean of Ohio State University, will give his illustrated lectures, "Farmer's Tour Around the World," every evening. Cecil Roberts, British poet and war correspondent, will speak Monday evening. Tuesday, E. C. Taylor, chief of the Bureau of Farm Management at Washington, will make an address. G. C. Croelman, president of Ontario Agricultural College, will follow. In the evening Kenyon L. Butterfield, president of Massachusetts Agricultural College, writer and authority on agricultural problems, will be the attraction.

The Wednesday program includes Miss Henrietta Calvin of the United States Bureau of Education. Dr. G. W. Gussens, president of the Armour Institute of Technology, Chicago, and in the evening a rural play, "Just Plain Jones," under the direction of the M. A. C. English department.

Dr. C. V. McCollum, A. J. Kiernan, chief of tuberculosis eradication, Bureau of Animal Industry, Washington, and Gov. Lowden will speak Thursday. Friday will be "farm bureau" day. The first general session of the Michigan Farm Bureau will be held in connection. H. J. Howard, president of the National Farm Bureau and former Con. A. F. Leyer will speak. Motion pictures will be shown at 6:30 each evening. Community singing and rural Y. M. C. A. demonstrations will be features of the afternoon.

A CARD—We wish to thank the kind friends, and especially Rev. Field, Mrs. Bake and my brothers for the kindness and sympathy shown in our late bereavement, also for the many flowers.
Mrs. William Lawrence and Children.

The powerful worm drive of the Ford Model T One Ton Truck, we believe is the most dependable method in the transmission of power, as coupled with its tremendous strength is the positive reliability of motion. The worm drive is the essential equipment of the highest priced motor trucks and its advantages over chain drive and direct transmission, comprise power, stability and durability. After three years of hard practical service, we have yet to hear of any kind of trouble with the Ford One Ton Truck. On the farm, in the city, anywhere and everywhere, the motor truck is an essential part of the aggressive business man cannot deny himself, if he would get the most out of his business. Come in and let us show the many strong merits of this most excellent motor truck. It is a "Ford," and that is a certain guarantee of efficiency and economy. Price without body, \$550 and \$590 f. o. b., Detroit. We will build any kind of a body you want and assure you of a fair price, likewise the assurance of a satisfactory and reliable "after service." We advise placing your order without delay because the factory is not running on normal conditions. Won't be for some time. Mrs. Anna Walters, who is taking the census in the village, has completed the count in this end of the village, and is now working in the north end of town. Mrs. Walters says that the work would move much faster if people would look up their naturalization dates or papers, also their ages. Mrs. Walters also requests people not to shut the door in the book agent's face this month, because it might be the enumerator.
