PLYMOUTH HAS NEW POSTMASTER

POSTMASTER H. W. BROWN TURNED OVER THE OFFICE TO HIS SUCCESSOR, M. G. HILL, TUESDAY MORNING.

H. W. Brown, who resigned as postmaster of the Plymouth office about a year ago, turned over the office to his successor, M. G. Hill, Tuesday morning. Mr. Brown has held the office for the past four years, and during that time has discharged his duties in a manner that has been very satisfactory to the patrons of the office. He has been a most obliging and courteous official, and he retires from the office with the best wishes of his many friends and acquaintances. He is undecided at present as to what he will do in the future.

The new postmaster, although he has only resided in Plymouth a few years, has made many friends during his residence here. He is a genial

gentleman, whom it is a pleasure to meet, and that he will make a splendid postmaster there is no doubt. Mr. Hill has had a varied and long business experience that especially fits him for the office of postmaster. During the three years that he has resided in Plymouth, he has held a responsible position with the Kinnball-Eisenberg Co., a wholesale plumbing and heating establishment of Detroit, and as a token of the high esteem in which he is held by his office associates, he was presented with a gold watch chain and knife, and a beautiful bouquet of carnations and roses at the termination of his services with the company to take up his new work here. We are pleased to give a brief biography of the new postmaster:

M. G. Hill was born at Decatur, Illinois, July 16, 1874. He received his education in the public schools of that city. After leaving the public school, he attended a business college for one year, and then entered the service of the Pacific Express Co., as a clerk in the Decatur office, and later became a messenger between Chicago, Decatur and St. Louis on the Wabash R. R. He entered the service of the Central Union Telephone Co. of Illinois in 1895, as collector for the local office in Decatur, and later became a switchboard inspector of the Illinois territory. In August 1898, he entered the office of the Decatur Gas and Electric Co., as a bookkeeper and bookkeeper, and taking a night course in bookkeeping and operating of these works, entered into the building, rebuilding and operating of gas companies for a Chicago concern operating in Indiana, Michigan, Minnesota and South Dakota. In 1900, he entered the retail plumbing shop of C. S. Mason in Leavenworth, Kansas, and in 1910 accepted a position as the wholesale plumbing house of Collins & Conway of Aberdeen, South Dakota, where he continued until the Crane Co. of Chicago, opened a branch office in Detroit, in July, 1911, where he acted as cashier and credit man until December 1913, when he entered the office, department of Gas and Electric works, and traveled the Michigan route out of Detroit, setting service records, until February 1917, when he started the wholesale plumbing and heating establishment of Kinnball-Eisenberg Co., 215-217 W. Main street, Detroit. It was a pleasure to Mr. Hill be-

came pleased with the beauty of Plymouth and decided to make his home here, and in August 1917, he purchased the property at the northwest corner of Ann Arbor and Harvey streets. Mr. Hill is a member of Ionic Lodge, No. 312, A. F. & A. M., and has a visiting membership in Palestine Lodge, No. 257, of Detroit. He is also a member of the Presbyterian church of this village.

WATER AND ICE DO MUCH DAMAGE

NEW FORD DAM AT PHOENIX WENT OUT LAST FRIDAY MORNING.

ANOTHER BREAK IN WATER MAIN SHUTS OFF THE WATER SUPPLY TO THE VILLAGE UNTIL TUESDAY NIGHT.

When the Ford dam at Phoenix burst about nine o'clock last Friday morning, Plymouth was for the second time this winter shut off from its water supply. The mild weather of the previous few days caused the ice to break up, and the new dam was not strong enough to withstand the immense pressure that was brought against it by the oncoming ice and water.

When the collapse of the dam, the center span of the D. U. R. bridge, which spans the river within a few yards of the dam gave away, and traffic over the line from Plymouth to Northville had to be discontinued.

When the dam went out the water main which brings the water from the springs to the village, and crosses the river at this point was burst, and day and night the water was turned on again about nine o'clock, Monday evening. During the time the water was shut off, the factories and schools and gas plant were closed down. The schools re-opened Tuesday afternoon, and the factories resumed operations, Wednesday.

We understand the Ford dam will be rebuilt.

Hundreds of people visited the site of the dam, Sunday.

The gas company were able to resume service Wednesday evening to Plymouth patrons.

A force of men from Detroit was sent out by Henry Ford to help repair the water mains.

The pipe line of the Plymouth & Northville Gas Co., which supplies Northville with gas, was put out of commission when the D. U. R. bridge collapsed.

The D. U. R. are repairing the damage to the broken span, and we understand they hope to have the bridge ready for traffic again in a few days.

About noon Friday, the center part of the dam owned by the Plymouth Milling Co., went out. The Whcor Bros. are as yet undecided as to whether they will rebuild the dam or install electric power.

Manager Brown, President Burrows and the men employed in laying the pipe line, are credited to much credit for their efforts in restoring the water to the village as quickly as they did. It was hard work and a number of the men worked night and day.

Fred Beyer, who is the engineer at the Pere Marquette pump house on the River-Rouge, had a narrow escape from drowning, last Friday morning, when the breaking of the dam on the river above, Mr. Beyer was in the pump house when the water came rushing down, and it was only by clinging to a wire fence that he was able to reach higher land and safety.

If you advertise your section in the Mail, you'll get a crowd.

REPUBLICANS NAME TOWNSHIP TICKET

ONLY TWENTY-SIX VOTES WERE CAST AT THE CAUCUS HELD LAST SATURDAY AFTERNOON.

The Republican caucus held at the village hall, last Saturday afternoon, was not largely attended, the largest number of votes cast being only twenty-six. P. B. Whitbeck was chairman and J. S. Dayton, secretary of the caucus. F. B. Park and O. H. Loomis were appointed tellers. The following ticket was placed in nomination, with the exception of highway commissioner, which was later filled by the township committee:

Supervisor—N. I. Moore
Clerk—Miss Lina Durfee
Treasurer—W. T. Rattenbury
Justice of Peace (full term)—Thodore F. Chilton
Highway Commissioner—Charles F. Roberts
Highway Overseer—Horatio A. Spencer
Member Board of Review—James O. Eddy
Drain Assessor—Leroy Jewell
Constables—George W. Springer, Charles F. Millard, William Henry, Clarence Peiley.

The chairman named the following township committee for the ensuing year: N. I. Moore, W. T. Rattenbury, Dr. S. E. Campbell.

ST. PATRICK'S PARTY GREAT SUCCESS

One of the prettiest dancing parties of the season was given in the Penniman Allen auditorium, last Wednesday evening, March 17th. The spacious hall was handsomely decorated with green and white, with St. Patrick's emblems. On the side wall huge shamrock leaves adorned the white panels, pretty green shades covered the electric lights, and under each side light was placed a green flag. Festoons of green and white paper added to the beauty of the decorations, and suspended from the center of the room was a large white blanket with green trimmings. During the evening this was opened and balloons and confetti showered upon the dancers. The favors were fanciful green and white paper caps. Numbers were given to the dancers, and a drawing held, the holders of the lucky numbers receiving a box of cigars to the gentleman and a fancy dressed doll to the lady.

The hall was crowded, both with dancers and spectators, and Stone's famous orchestra of Detroit, with two singers, furnished excellent music, which was greatly enjoyed by both dancers and spectators, and not the least of which was the rendering of the "Rosary." Mrs. Kate E. Allen, who gave the party is to be congratulated both on the beauty of the decorations and the success of the whole function.

Remedy for H. C. L. Too Simple

The trouble is that we all look to congress to pass some law which will reduce prices.

The real remedy is simpler, but less popular. We must produce more goods by working harder.

PIERCE-KEHRL MEETINGS AROUSE INTEREST
MANY ATTENDING AT METHODIST CHURCH NIGHTLY.
With Rev. Ralph M. Pierce, pastor of the Oak Park Methodist Episcopal church of Flint, in the pulpit, and Arnold H. Kehrl of the Kadey Evangelistic party in charge of the music as song leader and soloist, Rev. F. M. Field is being assisted by a strong team in the local meetings of the Million Convert campaign.
Rev. Pierce is a young man of strong personality and of keen mind, recognized as one of the leading preachers among the younger men of his conference, and his hearers are always delighted and profited by his messages. People of Plymouth who fail to hear this cultured minister during his two weeks' stay, will be missing a real privilege.

REV. R. M. PIERCE

Those in charge were very fortunate in being able to secure Mr. Kehrl as song leader and soloist, as he is engaged for the entire season with the Kadey Evangelistic party. At the conclusion of their campaign in Owosso, last Sunday, he was able to come to Plymouth, his home town, because of another meeting being cancelled by a severe epidemic. Mr. Kehrl is a very pleasing singer, and his solos are much enjoyed. He also leads the chorus choir, and has full charge of all the music for the meetings.

The attendance at the meetings this week has been most encouraging, the numbers and interest increasing from night to night. The special themes for the meetings next week are to be found in the Methodist church display advertisement in this issue.

The Pocket Testament League enrollments, and a new interest in the reading and carrying of the bible, is one of the features of the campaign, some having called it a "bible revival." Nearly one hundred and fifty dollars worth of new testaments have been placed in the pockets of Plymouth people during the past week and many more would have been placed if the supply had not run out. A new supply has just arrived. People who never took any interest in the bible are now reading a portion of the scriptures every day, and carrying a new testament with them wherever they go.

"FI-FI OF THE TOY SHOP"
"Fi-Fi of the Toy Shop," a pleasing musical fantasy, is to be presented under the auspices of the first division of the Methodist Ladies' Aid on the evening of April 23, in the auditorium of the High School.
"Fi-Fi" is more than the average extravaganza and requires a large cast, elaborate costuming and much scenic equipment with special lighting effects.
The presentation is somewhat on the order of "The Bluebird" and "Peter Pan." It represents a dream of the toymaker's daughter, who goes to sleep in her father's shop and dreams that all the toys became animated and a night of revelry follows. The plot is clever, interspersed with music and pretty spectacular features. The cast will include about one hundred fifty people, representing toy soldiers, jumping jacks, live letter blocks, sprites, fairies, dolls, clowns and other interesting creatures in toyland and fairyland. Rehearsals will begin soon after the first of April.
Now comes England asking us to recognize Russia. Even her closest friend would have a hard time recognizing her after what she has been through.

This announcement is made by Grant M. Hudson, state director.

Traverse City—Rev. H. Ford, pastor of the First Baptist church, declaring the public has been lied long enough and that the time has arrived to call a halt on the popular clamor for higher wages, refused an increase in salary. He says that under no circumstances will he accept and recommends that the money be used for repairs to the church building.

Grand Rapids—The Michigan Retail Dry Goods' association, at the final business session of its semi-annual convention here, adopted resolutions for affiliation "with a movement being launched in this state to form a temporary federation of the various retail associations operated for the purpose of protecting the public against the enactment of adverse legislation."

Watson—Andy Thompson and John Bloom, are dead after drinking moonshine whiskey said to have contained wood alcohol. The men were lumberjacks and their death followed a drunken orgy which was participated in by a number of men in the camp after two men appeared with a quantity of moonshine liquor which they sold for \$10 a quart and then disappeared.

Lansing—Since the railroads reverted to private ownership the Michigan public utilities commission has received a number of inquiries concerning the legal rate of fare in this state. The legislature a year ago, set a rate for passenger fare of two and one-half cents per mile, but the railroads continue to charge three cents. The government in turning the roads back to private ownership that no state regulations should interfere with present operating conditions for a period of six months.

Detroit—Dewey Claus, alias Jack Dutton, wearing an Army uniform and overseas cap, was locked up as a disorderly person. Ten minutes later an officer passing his cell found Dewey attired in a light gray suit. Examination showed he was wearing three suits. He explained in court, the uniform, he said, he wore to save the suit, which he had bought a fortnight ago. His story of long Army service was investigated, and because it failed to cohere any better than his account of his peculiar habits, Dewey got a 60-day sentence.

Maybe You are Not Using the Right Kind of Oil

To paraphrase a familiar saying of that shrewd old horse trader David Harum, "there's as much oil in some oil as others, if not more."

If your motor's not working right, getting hot too quick or smoking too much, chances are you are using the wrong kind of oil.

All oils are not "medium" because they are marked "medium," or "light" because the label says they are "light."

We make it our business to see that the oils that go to our customers run true to their labels. Expert advice free when desired.

SAMSON - TRACTOR

MODEL M

Horsepower, heavy draft horsepower, both for the drawbar and belt, that's what you, Mr. Farmer, want, but at the right price in first cost and upkeep cost as well. This is what the designers, engineers, and producers had in mind when they developed the Samson Model M.

You want a tractor that will take the place of and perform the duty of a barn-fall of horses without costing you a fortune or a big part of your crop to buy and maintain. That's exactly the kind of a tractor you get in the Samson Model M.

The Samson Model M is the last word in modern tractor construction. It is not like the average I-beam and channel-steel frame tractor, that weighs so much it takes a large per cent of its own power for self propulsion—it is a close-coupled power unit all by itself from radiator to rear wheels. Every working part is enclosed and protected against dust, mud and rain.

It has no lost motion for it is built and lubricated throughout like a \$3,000 automobile, insuring great efficiency, ease of operation, maximum length of life and service—because of correct designing, engineering and quantity production.

The even distribution of weight, compact design and low center of gravity give to the Samson great stability, making it hug the ground and preventing all danger of rearing up and tipping over.

NEW LINE OF SAMSON TRUCKS

Combining ideas of great utility and economy in two models of motor trucks for city, town and country use—and at prices within the reach of everybody.

The superior points and special features of these trucks put them in a class by themselves—entirely apart from every other truck on the market. The special features are worthy of the most rigid and closest investigation from truck buyers of every class.

The new Samson Trucks have the very rare combination of wide utility and great economy in first cost and upkeep. Our astonishing low prices are simply the result of tremendous quantity production of correct models.

A LETTER FROM CALIFORNIA

Balboa-by-the-Sea, California. March 10, 1920. Mr. Samsen, Editor of Plymouth Mail Dear Sir: Enclosed you will please find check for \$1.50 for my subscription to your paper. Though far distant, it brings its weekly message and greetings from the homeland, a message that means so much to me and mine. I am constrained to send you the following poem, knowing it will find a sympathetic chord: "How dear to our hearts is the steady subscriber, Who pays in advance at the birth of each year: Who lets through the money and does it quite gladly: And casts round the office a halo of cheer. He never says, "Stop it, I cannot afford it; I have more papers now than I can read." But always says, "Send it, our family all like it. In fact we think it a help and a need." How welcome his check, when it reaches our sanctum, How it makes our pulse throb, how it makes our hearts dance; We outwardly thank him, we inwardly bless his name. The steady subscriber who pays in advance. At present we are located at Balboa-by-the-Sea, where we have purchased a bungalow on Ocean Front, and you are invited to swim in our front dooryard. Am mailing a booklet under separate cover that describes many of the beauties and attractions of this little city nestling at the foot of the mountains, "twixt bay and ocean." On page 10, our bungalow is shown in the picture and designated by X. Here we have the surf as well as still water bathing and inland water playground for canoeing, rowing, sailing, yachting and motor boat racing. Located as it is just across from the Palisades and caves, coves and aligree rocks of Corona del Mar, one has a wonderful view, including the graceful outlines of Catalina Island, on the north the Sierra Madres form the sky-line, and to the northwest the Palos Verdes hills at San Pedro and the Santa Monica mountains are visible. Just behind us, about an hour's ride are the streams and camping grounds of the canyon fairylands along the southwest slope of the Santa Anna mountains. It is just before reaching this district, that one drives through the intensively cultivated orange and walnut sections, as the drive from here to Los Angeles is past one continuous orange grove. By the time this reaches you, no doubt, Michigan also will be reveling in the glories of spring, and what is more wonderful than that eastern season. Wishing you all prosperity, I remain Very sincerely, W. W. BENNETT.

The Fifth, Sixth, Seventh and Eighth grades are having adding tests every Friday afternoon. The Seventh and Eighth grades are having oral and written review in arithmetic. The Best Laxative "My sedentary habits have necessitated the use of an occasional laxative. I have tried many, but found nothing better than Chamberlain's Tablets," writes George F. Daniels, Hardwick, Vt. Mr. Daniels is proprietor of the Hardwick Inn, one of the model hotels of New England.—Advt.

W. C. T. U. Members who failed to attend the meeting held at Mrs. D. A. Jelliffe's, March 11th, missed a rare treat in failing to hear Mrs. Field's talk on "Child Training," also two beautiful songs by Miss Nellie Hager, with harp accompaniment. Plans were discussed for the annual meeting, April 24th, and it was voted to invite our state corresponding secretary, Mrs. Norma Mudge to attend this meeting. An appropriation will doubtless be made at that time towards our quota on the Jubilee fund and we want every member present. Do not forget—April 2. Our next meeting will be held in the kindergarten room at the High school building. Mrs. Draper and Mrs. Wyman Bartlett have promised us a good program with the children. A good attendance is hoped for. Supt. of the Press

Telephone Conversations —if unnecessarily prolonged are unfair. When several subscribers are on a party line each is entitled to equal service. It would be neither fair nor practicable to assign certain periods of the day to each user. Each should have access to the line on equal terms. Exact fairness is possible only through the co-operation of the subscribers themselves. A telephone line should seldom, if ever, be held longer than five minutes on a local call. Prolonged conversations, particularly on party lines, may cause serious delay to others who wish to use the telephone for emergency calls. Michigan State Telephone Co.

Bible Students
Rev. 9:13, or the sounding of trumpet 6, brings us down to more modern times, indeed. What great religious movement was launched in 1846? Did Daniel's 2300 days end there? Does the day, month and year in bible symbology (verse 15) give us the exact date of this movement? "And I heard a voice: What was the message (voice) of 1823 or 1844, bringing about the religious movement of 1846? If the "horse with a lion head, fire, smoke," etc., was a picture (verses 16 and 17), and now years in the past, why should we longer fear? This picture will be freely discussed March 21. Welcome. Gust.
