### PLYMOUTH WINS OPENING GAME

**THE PLYMOUTH BUICKS OPENED THE BASE BALL SEASON HERE LAST SATURDAY WITH THE ROMEO BUICKS.**

IT IS ESTIMATED THAT BETWEEN TWO AND THREE THOUSAND PEOPLE SAW THE CONTEST.

The largest crowd that has ever attended a ball game in Plymouth, was that of last Saturday afternoon, when the newly organized Plymouth Buicks opened the season on the home grounds with the Romeo Buicks. It is estimated that between two and three thousand people saw the visitors defeated by the local team with the score 4 to 2, in one of the best ball games ever pulled off in Plymouth.

About 2:30 o'clock a parade was formed at Kellough Park, consisting of the Plymouth Buicks, and several hundreds of automobiles, with the line of march down Main street to the ball grounds on the Starkweather property.

At 3:30 o'clock, the base ball season in Plymouth was formally opened when F. D. Schrader pitched the first ball over the home plate, which was caught by F. A. Dibble. After these preliminaries the big game was called.

Harry German was in the box for the locals for the first four innings and pitched splendid ball. At the end of the fourth inning German was relieved by Hutchins, who pitched a wonderful game, allowing but one hit and striking out eight men in five innings.

The locals hit Okrie hard in the first inning and a total of three runs crossed the rubber in that inning, which cinched the game for the local team, together with another run in the third inning. After the third inning neither team scored. It was a pitchers' battle, but Plymouth held her lead until the finish in spite of the fact that the visitors played spectacular ball and contested every inch of the way. The score:

### FOUL TIPS

It was a real ball game. Detroit, Am. Assoc. Ypalcanti, Wayne, Northville and Zedford were well represented in the big crowd. Manager Stimble was the happiest man on the grounds.

It's a real ball team now, what they are after they have played a couple of games. Oh, boy! The Millers band made a big hit with the crowd with their splendid music. It was mighty fine of the band to give their services for the occasion.

The business places of the village are closed during the week. The business men wanted to show the town how strong they are back of them.

If the opening game is a sample of the kind of ball Manager Stimble

is going to give Plymouth this season, the new athletic grounds won't hold the crowds.

"Dank" Smith played a star game at first.

Why not arrange a game with the Detroit Tigers?

The parade was a mile long. The Romeo team was headed by the veteran ex-league catcher, Frank Bowerman. Frank was on the receiving end for the visitors, and he has lost none of his old-time cleverness as a catcher.

The weather was ideal.

It was the most auspicious opening game ever pulled off in Plymouth.

Plymouth is on the base ball map again.

Well, we'll say so.

### "THE WILD ROSE"

A DELIGHTFUL OPERETTA WILL BE GIVEN BY THE HIGH SCHOOL PUPILS UNDER THE DIRECTION OF MISS MERRIE JEWELL, AT THE HIGH SCHOOL AUDITORIUM ON WEDNESDAY EVENING, MAY 26.

"The Wild Rose," an operetta for ladies voices, in two acts, under the direction of Miss Merrie Jewell, will be given at the High School auditorium, Wednesday evening, May 26, at eight o'clock. Admission, twenty-five cents.

The theme of the play is very true to life. Rose McCloud, a popular young society belle, is bored by her artificial life. The endless round of festivities drive her to distraction. She has been successful in society theatricals and is desirous of obtaining the leading role in a play by Lady Grey, but to her surprise she comes and see the outcome and then you will know.

The following is the cast of characters:

Rose McCloud, society belle—Adelaide Gotea

Mary Forsythe, Rose's secretary, Winifred Willett.

Mrs. Fussy, Rose's housekeeper—Miss Writemup, Reporter—Mildred Gates

Miss Putemdown, Reporter—Doris Proctor

Debutantes—

Dora—Marguerite Hamilton

Molly—Evelyn Knapp

Polly—Dorris Burnett

Miss Talkalot, suffragette—Carol Pierce

Mrs. Doingood, charity worker—Hanna Strassen

Miss Snye Stevens—Beulah Ryder

Madame Leather-top—Clara Dingedy

Madame Smellswet—Velma Nelson

Bobbie, buttons—Dorothy Hinnau

Chorus Maids—

Dorothy Dibble, Corsette Hough, Florence Greenlaw, Ruth Shattuck, Fannie Grainger, Dorothy McClintock, Margaret Einger, Margaret Strong, Elsie Staman, Margaret Taylor, Norma Hake, Lillian Lundy.

Pianist—Gladys Schrader

### A PLEASING RECITAL

The piano recital given last Friday evening in Pennington Allen theatre by the advanced pupils of Miss Gertrude Penney, assisted by Mrs. Hilda Snye Stevens, soprano, Mrs. Edna Smith, alto, and Miss Penney who took part, delighted their hearers with the rendition of the various numbers on the program, and each was heartily applauded. Much credit is due Miss Penney for the marked advancement made by these pupils since their last recital. Their splendid technique and graceful appearance at the piano added much to the success of the program.

During the evening several vocal selections were rendered by Mrs. Hilda Snye Stevens of Detroit. Mrs. Stevens has a splendid soprano voice and each selection was greatly appreciated and enjoyed. Old friends as well as new are always glad to welcome Mrs. Stevens back home and hear her sing again.

### DANCING PARTY

The Methodist Episcopal church will give a dancing party at the Pennington hall, Wednesday evening, May 26, 8 o'clock. Admission, 25c. Dancing starts at 9 o'clock.

### WILL GIVE FREE ENTERTAINMENTS

At a meeting of the business men of the south side of Plymouth, held Monday evening, it was decided to give a series of free entertainments on the streets every Saturday evening, during the summer months, commencing about the middle of June. The entertainments this season will be somewhat different from those of past years. It is planned to put on a varied program of entertainments. A committee was appointed to secure a list of attractions for a period of twelve weeks, and as soon as they have been booked, announcement will be made in the Mail.

### NEW VILLAGE MANAGER

THE VILLAGE COMMISSION ENGAGE SIDNEY STRONG OF SAULT STE. MARIE AS VILLAGE MANAGER.

The village commission have secured Sidney Strong of Sault Ste. Marie, as village manager, to fill the vacancy caused by the resignation of D. G. Brown several weeks ago. Mr. Strong has been city engineer and assistant city manager at Sault Ste. Marie for the past two years. He has had a great deal of practical experience in the handling of municipal affairs, and comes to Plymouth highly recommended. The members of the commission feel they were fortunate indeed in securing the services of so competent a man as Mr. Strong. The new manager will assume the duties of his new position on June 1st.

### A PLEASANT EVENT

About seventy-five people enjoyed the social evening at the Methodist church, last Friday evening, and heard the debate upon the question, "Resolved, That universal coffee pots should be installed in every American home." The affirmative team, consisting of F. L. Barrows, Mrs. Rose Field and Rev. F. M. Field, won a three to two decision from the five judges, R. W. Ross, Fred Bird, Mrs. Bird, Robert Jolliffe and Mrs. Sayles. The negative team, all members of the state championship team, Lillian Lundy, Grace Hawkins and Lyman Judson, did fine work, showing their thorough training in debating methods. Rev. Field in accepting the trophy cup, a coffee can with three tin handles, expressed the congratulations of the Epworth League to the Plymouth High school debating team, in whose honor the evening's party was given. Besides the debate which released barrels of fun, other games were played and ice cream and wafers were served.

### IT'S DOLLARS AND CENTS

Never in the history of the United States have home gardens been so necessary or so profitable as they will be this year. We make no exception to the years 1917 and 1918, when the country was dotted with "war gardens," put out by patriotic citizens who were each making a small contribution toward feeding the world.

The war is over, or at least supposed to be, but the need of home gardens has increased instead of decreased. The patriotic plea, however, no longer prevails. It is now a matter of dollars and cents—that and getting enough to eat. Because of the scarcity of farm labor of every character there is an alarming decrease this year in acreage devoted to food supplies. It is an impossibility to obtain sufficient help, even at the unusual high wage offered for that class of labor. The crop season is upon us, and instead of improving the situation has become worse. No farmer in his right mind is going to undertake to farm more acres than he can properly cultivate.

Therefore a decreased acreage. The price of all kinds of food stuff is high now and we shall be fortunate if it does not climb higher in the next few months. So it should not be necessary, in view of these circumstances, to urge everyone in Plymouth and community surrounding who possibly can to put out a garden. A few feet of space, if carefully utilized, can be made to produce several hundred dollars' worth of vegetables in a season—or at least enough if properly tended to supply the average family. And it should also be remembered that every dollar saved now is going to be a bigger dollar when things get back to normal in this land.

### FISHING

There's something strange in the attitude of fellows who have for years been known as "good fishermen." Other papers have noted it in their communities, and somehow we seem to feel the same condition prevails among several of our Plymouth fishing friends. But just what the matter is has been hard to tell. Fishermen confess there is a lack of enthusiasm, and they confess with a shy blush that they didn't intend to go fishing this year. Great, strong men timidly declare they are "afraid" to go fishing any more. And then we learn the truth—they're afraid of snakes.

Good fishing places usually abound

with snakes. In the old days these snakes meant nothing to a fisherman, for he always carried an "antidote" along—or nearly always. Saturated with this great remedy for snake bites, men enjoyed going forth to fish, daring the snakes to do their worst. But that is all changed now. The snake remedy is no longer to be obtained. Prohibition has put it out of business. If a fellow wants fish bad enough to take a chance on being chewed up by snakes, he may sally forth as in the days gone by. The old-fashioned fisherman, who fished whether he got a bite or not, will tell you that since the country went dry, fishing isn't "the sport that it used to be."

### CIVICS CLASS WRITE ABOUT PLYMOUTH

We are pleased to publish this week two articles on Plymouth, written by two students of the fifth grade civics class.

#### How We Can Help the Town

Plymouth is thought of as a beautiful town, both by visitors and its citizens, but there are many ways in which it can be improved.

One way is by the co-operation of the officers and the townsman in introducing larger pipes for water conveyance, the lack of which has caused the people much trouble.

A second improvement could be made by having more street cleaners, but this might not be necessary if people were more careful about throwing paper on the street.

The people should encourage the building of new interurban and railroad stations, also more houses for people moving here. If the inhabitable buildings that are useless were disposed of or made livable by improvement, it would tend to beautify the streets and the near-by houses.

Plymouth needs more places for recreation to keep the young people away from the street corners and especially the older boys out of the pool rooms and bowling alleys.

Plymouth has fine parks, in one of which the bandstand is located. In summer there are band concerts, and as there are fewer seats than people, many are forced to stand or sit on the ground. If a few flower beds were added to the parks it would improve their appearance and make it more pleasing to the people to sit there.

It would be very convenient for people who have to wait for relatives of friends if there was a rest room in Plymouth. Many of the larger towns are building places for refreshments, after long journeys and tiresome waits.

Some of the larger towns are taking certain tracks of land for the purpose of parking automobiles, thereby leaving the streets free from traffic.

Notwithstanding the many improvements needed, we have occasion to feel proud of some of the buildings of the town especially the school house and the new bank building.

—Dorothy Hinnau.

#### Early History of Plymouth

Early in the fall of the year of 1824, five men started from Connecticut to come to Michigan. Four of them rode horseback and the other walked. These men traveled steadily through the country and passed Detroit, which was then just a trading post for the Indians.

Mr. William Starkweather, one of the five men and the one that walked all of the way, decided immediately that he was going to stay in Plymouth. As they came to where Ann Arbor and Main streets cross, Mr. Starkweather said to his companions, "Here is where I'm going to locate."

They camped there all winter and in the spring Mr. Starkweather and the other men went back to Connecticut to bring their families to Plymouth.

In the year of 1825 Mr. Starkweather returned to Plymouth with his wife and one child. They camped under an elm tree that stood where the Hillmer laundry now stands until they could build their cabin. The cabin was made of sapling poles stuck in the ground and then covered with bark for a roof.

Many times the family would be on their guard ready to fight the wolves if they came near, but it happened that they never came very close though their howling could be heard everywhere.

Once every year the Indians would go past the cabin on their way to Detroit to trade. As many as two hundred at a time would go together riding on their little ponies. They were always very friendly to the white settlers and wished to trade with them.

After that year many more families came to Plymouth and in 1827 it was incorporated as a village with Mr. Bethwell Noyes as its first president. The first school house was on Ann Arbor street. Starkweather avenue was named after the founder of Plymouth, because his home was there.

### NEWBURG

On account of an epidemic of measles and chicken-pox in the community, there were very few out to church and Sunday-school, last Sunday. The children will have to hurry up and get well, as Children's Day is only four weeks away.

The Newburg Patriots society will meet at the home of Mr. and Mrs. Titus Ruff, this week Friday. Dinner at noon. All those interested are cordially invited.

Mr. and Mrs. E. H. Balland had two little girls until last week Monday, May 10, when another came to complete the trio.

A large concourse of friends and neighbors gathered at Newburg church, Monday afternoon, to pay their last respects to the memory of Mrs. George Chilson, who passed away, last Friday night, May 14th.

A profusion of beautiful flowers attended to the love and esteem in which she was held. The Newburg L. A. S., of which she was a loved member, attended in a body. The consoling words by Rev. Field, also beautiful duets by the pastor and wife, made an impressive service.

Six nephews bore the deceased to her last resting place in Livonia Center cemetery, where she awaits the resurrection of the just. The family have the sympathy of a host of friends in taking away of their loved one.

Congratulations are in order for Mr. and Mrs. Edward Houk. They are the proud parents of a baby boy, born last Friday, May 14.

Miss Wheeler of Plymouth, is caring for Mrs. Houk.

People are getting aroused over the numerous thefts committed in this vicinity. Last week about fifteen gallons of coal oil was taken from a tank owned by Mr. Grimm, water being substituted in place of oil. People are pretty well convinced who the guilty parties are.

Gwendolyn, daughter of Mr. and Mrs. I. Gussolly, was taken to the Homeopathic hospital, last Friday night. Saturday afternoon at four o'clock Dr. Myers, specialist, pronounced it a bad case of diphtheria.

She was removed to the contagious hospital, and has been in a serious condition. At present time she is somewhat improved.

Pretty good editorial in last week's Plymouth Mail. It's surely true that the editor or the one who writes up the neighborhood items gets very little thanks. Everything is taken for granted.

Those who attended the funeral of Mrs. George Chilson were: Mr. and Mrs. B. Z. Millard, Mr. and Mrs. Arthur Millard, Mr. and Mrs. Oren Millard, Mr. and Mrs. Elmer Chilson, Mr. and Mrs. William McDowell, Mrs. Emma McEachran, Mrs. Mollie Guntley, Mr. and Mrs. Frank Martin, Mrs. Ella Martin, Mr. and Mrs. Willard Brown, all of Detroit; Mr. and Mrs. Elza Simmons, Mrs. Angeline Simmons, Miss Carrie Simmons, Mrs. Mark Seeley, Mrs. Waite Whipple of Northville; Mr. and Mrs. Warren Brown of Milford; Mr. and Mrs. Wayne Chilson of Novi, besides many others from Plymouth.

Mr. and Mrs. C. D. Gordon and Mr. and Mrs. C. M. Barry of Detroit, spent Saturday and Sunday with Miss Matheson and brother.

Andrew Komorah spent over Sunday as the guest of Clarence Clemens.

#### About Rheumatism

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size 60 cents.—Adv't.

### PERRINSVILLE

A crowd of young people of the Perrinsville Sunday-school gathered for a social, Friday evening, at William Love's. A nice time was enjoyed by all. The superintendent wishes to thank all for the help rendered.

Mothers' day over, our Sunday-school is turning its thoughts to Children's day.

Mr. and Mrs. Love spent Saturday at Carleton.

Work is being finished on the Nankin mill, owned by Henry Ford, and it is expected that work will start in a few days.

Mr. and Mrs. Samuel Bills of Inkster, called at George Baehr's, Friday evening.

Mr. and Mrs. John Kubik entertained company from Detroit, Sunday.

The L. A. S. held a very pleasant meeting, Wednesday, at Mrs. Carl Theurer's.

Mrs. George Chilson of Newburg, passed away, Saturday. She was a former resident of this neighborhood, and the bereaved family have the sympathy of all friends in their hour of trial and sorrow.

The barn dance at Ed. Holmes, Saturday night, was largely attended.

Cooper school closed Friday, followed by a picnic, Saturday.

A large class of seventh and eighth graders took the exams at Plymouth, last week Thursday and Friday. There was also a large class from the brick school.

Ed. Holmes will give another of his popular barn dances, Saturday evening, May 22. Stone's orchestra will furnish the music.

### PIKE'S PEAK

Mr. and Mrs. Herbert Bakewell and son visited at William Rider's at Wallaceville, Sunday afternoon.

Miss Prudy Simons of Wayne, spent Sunday with Mrs. Sarah Dean, Virgil Newman and family of Redford, visited at George Hix's, Sunday.

Robert McKee made a business trip to Detroit, Saturday.

Raymond Bakewell of Detroit, spent Sunday with his parents, at Mr. William Snyder and son of North Wayne, visited Mrs. George Hix, Wednesday.

Henry Ford is having the machinery placed in the Nankin mill, getting ready to make various parts of his products.

Charles Wright entertained company from Plymouth, Sunday.

### Baptist Notes

Rev. Arnold Kehrl preached at the Baptist church, Sunday evening. Brother Kehrl has just finished a series of meetings at Sanford.

The amount being subscribed for the Forward Movement among Baptists is still growing. Our apportionment was \$1800 for four years, and we have now pledged nearly \$2000.

## Moline Wide Spread Spreader

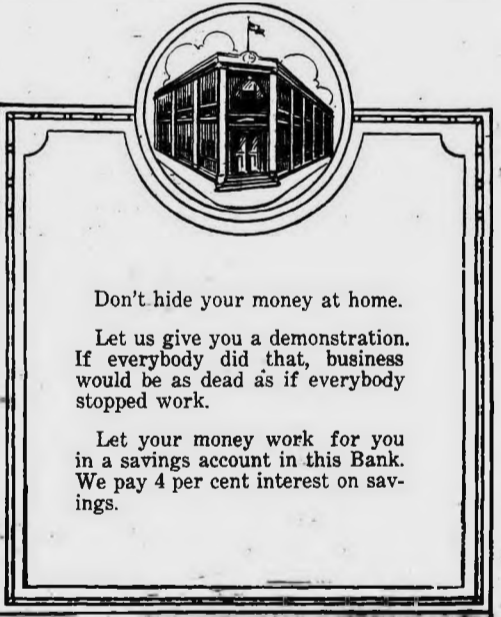

The Moline is a practical, low down, endless apron wide spreader. It is low enough for easy loading, just high enough for clearance, runs easy and lasts long. Moline Spreaders have given perfect satisfaction in all parts of the country with all kinds of manure.

Very little draft is added in operating the spiral beater, as it runs on roller bearings and does not have a retarding device of any kind to hold the manure, but acts on the manure when it is in motion and revolves in the same direction it is moving.

The even distribution and wide spread is a very great advantage when top dressing small grain or grass land.

### A LECTURE ON CHRISTIAN SCIENCE

BY PAUL STARK SEELEY, C. S. B., MEMBER OF THE BOARD OF LECTURESHIP OF THE MOTHER CHURCH, THE FIRST CHURCH OF CHRIST, SCIENTIST, IN BOSTON, MASS.

The lecture on Christian Science given at the Pennington Allen theatre by Paul Stark Seeley, C. S. B., of Portland, Oregon member of the Board of Lectureship of the Mother Church, the First Church of Christ, Scientist, in Boston, Mass., last Monday evening, was well attended. Mr. Seeley's lecture in part is given below:

Mary Baker Eddy, the Discoverer and Founder of Christian Science, was the child of Puritan parents. She grew to womanhood among the hills and vales of New Hampshire, the Granite State,—possessing a rare personal charm, culture, and affection for the best things of life. She had ever shown an unusual love for the Bible teachings and early in life accepted implicitly its wonderful promises of health. With the years of womanhood came sorrow, separation from dear ones and prolonged illness. From every trial she turned the more resolutely in search of that certain law of healing which she believed a correct understanding of God would bring. In this search the theories of allopathy, or regular medicine, were explored in vain, then homoeopathy, a step away from mere drugs toward a more mental form of healing, and afterwards hydropathy.

Mrs. Eddy recognized after years of investigation and experiment that this certain law of healing was not to be found in any of the accepted systems, and she then turned away from the material and human to the spiritual and divine. It was in 1866 that Mrs. Eddy overcame a serious injury through reliance on spiritual, as wholly apart from material, law and became convinced of the promise availability of this law for suffering humanity. For three years thereafter she studied the Scriptures most diligently and from them derived a fuller understanding of this spiritual law of life and its applicability to every need of men. The results of these and the preceding years of consecrated study and research were given to the world in 1875 through the Christian Science textbook, "Science and Health with Key to the Scriptures," which has become, next to the Bible on which it is founded, the most widely read book in the Christian world.

Clara Barton, founder of the American Red Cross, wrote of Mrs. Eddy with profound admiration. "Love," she says, "permeates all the teachings of this great woman—so great, I believe, that at this perspective we can scarcely realize how great and looking into her life history we see nothing but self-sacrifice and selflessness. Mrs. Eddy should have the respect, admiration and love of the whole nation, for she is its greatest woman."

**CAUSE AND EFFECT**  
A great statesman has recently said that the work of uniting the nations in the bonds of brotherhood is an effort to enthroned the conscience of the world. What is this conscience of the world that we are so desirous of enthroning as our lawgiver? Is it not the collective or common consciousness of right, of justice, law, and love? It is this universal conscience, the common consciousness of right and good, discerned as yet but dimly, yet discerned and obeyed in an ever increasing measure, which in its full unfoldment is "God with us," the Mind of absolute good. It is the house of the Lord and, in thought of the prophet, all the nations of the earth are mentally flowing into it. Job

discerned its incorporeal and unimpaired sense of God and spoke of God as being in one Mind. Christ Jesus spoke of this parent intelligence as Father and Spirit. John regarding the kindness, mercy, and protection of the Father Mind spoke of Him as Love. "God is Love; and he that dwelleth in [thinks in ideas of] love dwelleth in God, and God in him" (1 John 4:16).

#### MAN THE EXPRESSION OF MIND

But we only know Mind as we know the ideas which express it and the highest of these is man. The world is coming to honor and to recognize the mental man, that state of consciousness which most clearly express the idea of the true Mind or God. Mrs. Eddy was given an illuminating definition of man in Science and Health (p. 475) where she says "He is the compound, idea of God, including all right ideas." Consider if you will why it is that the world has recently so honored a small group of forward looking statesmen,—the peace delegates at Paris. It is not because of anything physical, their weight, their features, or the color of their hair. The material is wholly subordinated. What men honor in them is the mental man, the individual state of consciousness which expresses right ideas. In the proportion that they have voiced what is right they have struck a responsive chord in the minds of men everywhere, for their brothers are perceiving, though yet darkly, the truer sense of manhood and honoring it. This is in its full unfoldment the spiritual man, the expression of God, best exemplified by Christ Jesus. Man, then, seen as the creature of Mind, is recognized to be simply an individual state of right-mindedness always thinking in accord with God, the true Mind. He is "the compound idea of God, including all right ideas" (Science and Health, p. 475).

#### MORTAL CONCEPT OF MAN RE-FUTED BY THE BIBLE

Isaiah sought to turn the thought of his people away from this erroneous mortal concept of man with the admonition, "Cease ye from man, whose breath is in his nostrils: for wherein is he to be accounted of?" (Isaiah 2:22). In other words, stop thinking of the mortal, material sense of man as the true man, for there is absolutely no way to account for him as a creature of God. In Romans 9:8 Paul makes the perfectly explicit statement, "They which are the children of the flesh, these are not the children of God," and elsewhere he speaks of the imperative necessity to "put off" the old man, which is corrupt and . . . put on the new man, which after God is created in righteousness" (Ephesians 4:22-24).

Christian Science not only presents the true concept of man but shows that it is attainable in some considerable measure right here and right now. It shows that in each and every one of us, and there is no exception, no, not one, there is a natural ability and competency to mentally work our way out of the wilderness to material beliefs, out of the net of material selfishness into our natural unity and agreement with ever present good, Mind, the consciousness which is God, our real life and being. The process is wholly mental, as Paul indicated when he said, "Be ye transformed by the renewing of your mind" Romans 12:2).

#### APPLYING CHRISTIAN SCIENCE

Well, then, how does one begin to apply the teachings of Christian Science? First of all he begins mentally to resist evil. He follows the Scriptural advice to resist the devil, which his study of Christian Science has taught him is but the counterfeit evil mind which tries to operate through evil thoughts projected into his consciousness, or through the physical senses. He learns to become a sentry at the door of thought and to reject every thought or suggestion which is not good, is not an expression of God, the one real Life, for he has taken his mental stand for what God has made him to be and he is determined

to assert and prove his mental and living unity with the Mind and Life which is God, knowing that it is natural and right for him to do so and that God has endowed him with the ability to do it.

#### HEALING

The real meaning of the word heal is to make whole, to restore to original integrity. Christian Science alone among the healing agencies of the present day accepts this word at its full meaning. Christian Science not only heals the mental or physical disorder but sets in motion those processes of thought which result inevitably in the restoration of man to his original integrity as the individual expression of God. Only forty years ago the first Christian Science church was organized in Boston. Since then nearly eighteen hundred organizations have been formed throughout the world. A publishing society employing more than seven hundred people is supplying the ever increasing demand for literature explaining the teachings of Christian Science. Christian Science is offering the world today a volume of testimony as to the efficacy of its healing work unexcelled in the history of therapeutic systems. From business men, educators, law yers, judges, physicians, ministers, and men and women of all trades and classes it is offering evidence of health and happiness restored to the individual. These testimonies may be heard in the Wednesday evening meetings of the church or read in The Christian Science Journal, the Christian Science Sentinel, or the Herald which is published in French and German.

#### PRAYER

It has already been pointed out that the practice of Christian Science involves mental activity, an effort to think in accord with God, the good Mind. This right mental activity is true prayer and is the one by which individual man can cast off the shades of hell and abide in heaven. The Bible admonition, "Pray without ceasing," is then seen to mean to think rightly always. It is the right mental activity based on a true concept of God and man. This is a true prayer, a vital, living thinking activity.

It is all a mental process. Every individual must sooner or later, here or hereafter, learn to pray aright for only in this way does he learn to live aright. When one really discerns what true prayer is, his prejudices give way and he perceives it to be the highest joy and privilege of man, for it is the asserting in thought and life of his natural unity with God.

#### THE BIBLE AND SCIENCE AND HEALTH

The Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the Christian Scientist, are the two books of life. From them he learns the truth that is science, religion, and medicine. Who can hope to solve the problem of life while disregarding the teachings and laws set forth by those who have most clearly perceived the primal facts of being, including the great Way-shower who overthrew the claims of incurable disease and of death with the understanding of spiritual law. Merely to believe that Christ Jesus once lived on earth gets one no nearer heaven than to believe in the personal existence of Christopher Columbus. It is the understanding of teachings and his methods that saves. The Bible states, Science and Health amplifies and clarifies, the teachings of spiritual law.

Ann Arbor's population increased 4,699 in the last 10 years, making a total of 19,516.

#### For a Weak Stomach

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—Adv.

**Lansing**—Several wool collecting agencies have been established in Jackson County by the farm bureau. Farmers have until July 15 to deliver their product. The wool will be graded and pooled at the bureau's warehouse. It is expected that the grading system will raise the standard of wool produced in Michigan.

**Lansing**—The board of state auditors has raised the mileage allowance for use of automobiles by state employees from 7 cents to 9 cents a mile, because of the high cost of everything. Employees are to be restricted to use of their machines to towns which cannot be reached by rail to prevent abuse of the mileage allowance.

**Grand Rapids**—Judge John S. McDonald ruled that a county drain commissioner may not reject at his pleasure the bid of any contractor for the construction of a drain, and consequently set aside a contract granted to the Woolman Construction company of Sandusky, by Drain Commissioner Robert E. Eastman for construction of the \$25,000 Pratt Lake drain. The court took this action because Paterson refused to accept the lower bid of Charles H. Montague, of Otsego. The decision means that the lowest bid must be accepted.

WILLIAM DUNCAN

It is only natural that William Duncan should be the hero of hundreds of thrilling escapes and strenuous rescues in Vitagraph's famous series. His physique and early training particularly fitted him for just such a career. He completed his education at the University of Pennsylvania, where he took a prominent part in college field games and athletics. He became athletic instructor and coached the country at the head of his own dramatic company before becoming a serial star and director.

# SALVATION LASSIES WIN CHILDREN TO A NEW GOSPEL

Crippled limbs bear mute witness to infantile paralysis ravages among New Jersey children to whom the Salvation Army is giving the "milk treatment."

A new gospel is being preached by Salvation Lassies in at least two cities in the United States.

It is a "gospel of clean milk"—and lots of it. School children in Union Hill, N. J., which is just across the Hudson River from New York, and Covington, Ky., are actually benefiting from the modern gospel.

Union Hill Salvationists were the first to start the milk crusade, and there 60 quarts of the beautiful fluid are dispensed free each day. In this town the ravages of infantile paralysis about two years ago were especially severe, as is shown by the number of crippled poor children who benefit from the Army's treatment.

In Covington the crusade is educational as well as charitable in nature, and the lassies preach the clean milk gospel with all their usual fervor.

Charitable and relief work for America's destitute and sick children has long constituted a big part of the Salvation Army's activities. Through milk stations, fresh air farms, seashore homes, nurseries, orphanages, hospitals and with food, clothing, medicines and the like the Salvationists aided almost half a million children in the United States last year. This child-saving work is one of the organization's many non-self-supporting activities which is financed by the overseas Home Service Appeal. This year's appeal is scheduled for May 10 to 20.

# 1910 OUR 1920

# TENTH ANNIVERSARY

Saturday, May 22nd to Saturday, May 29th

In April, nineteen hundred ten, we took over the T. J. Perkins Co. Dry Goods Store, which had been operating in Northville for them about twelve years, as a first-class and up-to-date establishment. We have never deviated from our original and continuous policy of offering to the public at all times, only the very best merchandise obtainable, and at the lowest possible retail price.

A very satisfactory business has been built up, slowly and solidly along these lines until today the buying public has come to look upon our store as a trading place where dependable merchandise can be procured and where service to the customers is a big consideration. During our forty seasons of business in Northville we have learned quite well the tastes and wants of our customers and are now at the beginning of our forty-first season of selling, in a position to handle every dollar's worth of business the buyers of this vicinity may choose to leave with us.

It is a very gratifying incident that whenever we advertise a sale or mention a special price on any line to get immediate response from the trade. It conveys to us the assurance that our customers believe that Ponsford's bargains are genuine.

To commemorate our ten years in business we have taken some time in collecting Ten Special Bargains, one for each year of business, and while our stock just permeates with high-class merchandise and at the very lowest selling price, times and conditions considered, the Ten Specials as here mentioned, are worthy of your most serious consideration.

# "What's behind Us —Living singer or NEW EDISON?"

Don't you want to try this fascinating test of the New Edison's realism,—which caused distinguished psychologists to ask in amazement: "What's behind us, living singer or New Edison?"

Come in and hear Mr. Edison's Realism Test. See what sensations you'll get,—and determine for yourself whether listening to the New Edison produces the same emotions as listening to the living singer.

The three distinguished men of art and science in the picture are Dr. W. V. Bingham, Director of the Department of Applied Psychology, Carnegie Institute of Technology; Prof. C. H. Farnsworth, Director of the Department of Music, Teachers' College, Columbia University, and Wilson Follett, Esq., noted author and music critic. They tried the Realism Test at the Edison Shop, New York. They found that it brought into play their whole capacity to feel and to enjoy. They got sensations that were vivid and unique.

## The REALISM TEST

proved in this vital demonstration, before scientists of international repute, that it is an ideal way for you to judge the New Edison.

It tells you precisely how effective is the New Edison's realism,—and what this realism means in terms of your own musical enjoyment.

Please feel free to come in at any time, and make this unique experiment for yourself.

*THE BUDGET PLAN regulates your "pleasure" expenditures so that you can buy your New Edison without squeezing your income. Ask about it.*

#### SCHOOL NOTES

Mrs. H. R. Thorberry visited the second grade, Thursday afternoon.  
Mrs. Learned visited the kindergarten on Friday of last week.  
The luncheon Friday noon completed the series of luncheons given for the girls' mothers.  
Mr. Thomas, principal of Detroit normal school, and Mr. Fisher, assistant county commissioner, visited the senior class last Tuesday.  
Helen Waterman, Margaret Taylor, Hanna Strasen, Doris Proctor and Beatie Hicks spelled down Mabel Mecklenburg's team four times out of five last Friday.

#### TOWNSHIP BOARD GET OPINION

Desiring to know more positively whether the action taken at the annual township meeting in regard to raising money by taxation for the maintenance of a community nurse was in accordance with statutes of the state, the township board sent copies of resolutions, presented and minutes of meeting to the attorney general's department at Lansing for an opinion, which is given in the following letter:

May 14, 1920.  
Miss Lina Durfee,  
Township Clerk,  
Plymouth, Michigan.  
Dear Madam:  
Answering your letters of recent date with reference to a question of your township employing a community nurse, we have given the matter consideration and advise you as follows:  
We have been unable to find any specific authority in the statutes authorizing a township to employ nurses other than those employed in connection with handling contagious diseases where a quarantine is being enforced. It is a rule laid down by the court that a township is only authorized to spend money raised by taxes for such purposes as are expressly authorized by law. In this instance it would scarcely seem as if the employing of this community nurse is based in any way upon the necessity of quarantine for contagious diseases.  
We are therefore inclined to the opinion that the action taken at your township meeting was beyond the authority of the township and should not be carried out.  
Yours very truly,  
A. P. DOUGHERTY,  
Deputy Attorney General

#### Today's Reflections

It seems strange, but some Plymouth people get hotter as a result of cool treatment than they do if you roast them.

In this day and age Shakespeare wouldn't be in it with the man who can write a home-brew recipe.

Some Plymouth girls feel they've lost their grip when they can no longer twist a man around their little finger.

We'll still contend that the wisest man in Plymouth is the one who knows the present day dollar is worth 50c when you spend it and 100c when you save it.

If we hadn't heard it was the astronomers, we would believe it was a sugar profiteer trying to get up to Mars.

Financial matters are getting pretty tight, yet no day passes but a Plymouth man can borrow trouble if he wants to.

And you can bet your last cent that the doctor who is always willing to prescribe whisky is willing to take his own medicine.

We want to impress again upon every ambitious Plymouth man that one certain way of beating the game is to raise something besides prices and Cain.

The declaration of several hundred fellows that they are not presidential candidates doesn't mean they've given up hope of being nominated.

Some Plymouth men are fair enough to admit there're two sides to an argument—their side and the wrong side.

As a Plymouth man said yesterday, the worst feature about 35c sugar is it makes it so hard to get gooseberry pie.

#### OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Suggestions for a Camping Trip  
Buy a Bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamships, and at such times and places it is most likely to be needed. The safe way is to have it with you. Adv.
