## FREE DANCE ON PENNIMAN AVE.

THE STAGE IS ALL SET FOR THE DANCE ON THE PENNIMAN AVENUE PAVEMENT, TOMORROW, SATURDAY EVENING, JUNE 19TH.

STONE'S FAMOUS ORCHESTRA AND SINGER OF DETROIT, WILL FURNISH THE MUSIC.

The stage is all set for the free dance on the Penniman avenue pavement, given under the auspices of the business men of the south side of the village, tomorrow, Saturday evening, June 19th. Everything has been arranged to entertain a big crowd of people. Stone's famous orchestra of seven pieces and a singer of Detroit, will furnish the music, which in itself is worth going miles to hear. The street will be roped off from the corner of Main street to the alley at the Mail office, with the orchestra located in the center. The people of Plymouth and the surrounding country for miles around are cordially invited to come and enjoy the dance and listen to the music.

## PLYMOUTH HAS A TOWN CLOCK

Plymouth has a town clock, which is something this village has long felt the need of. It is located on the new bank building, facing Main street. The clock, which was made by the Standard Electric Time Co., of Springfield, Mass., is one of the latest and most approved clocks of its kind built today, and an accurate and reliable time-piece, that will give many years of service. The clock operates four dials—the master clock, one in the director's room, one in the main office of the bank, and the town clock. It is operated by electricity, with a charging station in the basement, where the batteries are automatically charged from the Edison current.

The dial of the town clock is forty inches in diameter, made of glass, and is lighted by an electric light at night time. A deep toned bell strikes the hour and half hour. The master clock is located in the private office at the front of the bank. The mechanism is enclosed in a handsome mahogany case. Mercury pendulums are used, thereby eliminating any evaporation, and are absolutely accurate. A plate on the front of the case bears this inscription: "In memory of Lewis Cass Hoigh, one of the founders of this bank and its vice president at his death on January 11, 1902."

The clock, which is a gift of the L. C. Hoigh family not only provides a great convenience to the citizens of the community, but it will become a part of the community life itself, and the generosity of the donors will be appreciated more and more as the years go by.

## ANOTHER BAND CONCERT SATURDAY NIGHT

A large and appreciative crowd heard the Millard band give their second concert of the season in north village, last Saturday evening. Starkweather avenue and Liberty street were packed with auto. The band rendered an exceptionally fine program. Another concert will be given on Saturday evening, June 19, and the public is cordially invited to come and hear the music.

Rev. and Mrs. Frank M. Field attended the alumni reunion of the Mason High school, last Friday, and Rev. Field was toastmaster at the alumni banquet, Friday evening. The banquet was attended by about two hundred alumni. The program, every chair about 1919 being decorated and greetings were received from many men. It was the first alumni reunion of that school in thirty years. The graduates, remembering that the school was organized in 1879, and every class was represented.

## PLYMOUTH MAN HELD FOR MURDER OF WIFE

Domestic troubles culminated last Saturday afternoon in the murder of Mrs. Arthur Sprague of this village, in a cottage at Walled Lake. Her husband is held by the Oakland county authorities in connection with the affair. Sprague shot his wife twice after entering the cottage of Arthur Hood of this village, where she was employed as housekeeper. After killing the woman, Sprague turned the revolver upon himself, inflicting wounds in his jaw, from which he is recovering.

Sprague, according to details of the affair, walked from Northville to Walled Lake, carrying his coat on his arm. Beneath his coat he is said to have hidden the weapon with which the crime was committed. Arrived at the Hood cottage, he inquired for Mrs. Sprague. Entering the cottage, Sprague met his wife at the stairs leading to the upper floor. His weapon was jerked from beneath his cover and two shots rang out in quick succession. Mrs. Sprague fell down the steps, and in a dying condition crawled beneath a table to escape further attacks. She expired within a few minutes. Sprague then turned the revolver upon himself, shattering his jaw and dislodging five molars. He lost much blood and was found in a semi-conscious condition lying beside the body of his wife. He later revived, but was unable to give a coherent story of the affair. The Spragues have been married for thirteen years, and some time ago moved here from Northville, where they resided. Sprague was employed in one of the local factories.

## TWENTY-ONE BABIES BAPTIZED

In a number of ways, Children's Day at the Methodist church, last Sunday, was the most outstanding observance of the child festival ever held in that church. Twenty-one children, nearly all babies, were baptized by Rev. Frank M. Field, and twenty-five children who are four years old were promoted from the Cradle Roll Department to the Beginners' department of the Sunday school. A very attractive program certificate was given to each child promoted. After the promotion of twenty-five children who are four years old, the department still has ninety-nine little tots under four years of age.

The Children's Day offering, which is devoted to the assistance of worthy young people in getting a christian education, amounted to \$24. The program which had been prepared under the direction of Mrs. F. W. Hillman, Florence Newall and Gertrude Kinyon, was a most pleasing one and Mrs. T. H. Sedley and her committee had arranged beautiful decorations appropriate to the occasion.

### SOMETHING WRONG

We are acquainted with a few persons in Plymouth who are continually finding fault with everything. They find fault with people and conditions, with suggestions for improvements or with improvements already made. They usually cannot wait until someone with whom they are talking finishes a conversation until they begin criticizing. If there is any good in anybody they have never been able to detect it, outside their own little circle of so-called friends.

We do not expect to cure this situation by referring to it, for if we preached against it every week in the year until we were black in the face this class of people would not heed. They are apparently on earth to stay, for it seems that as soon as one falls by the wayside, another bobs up to take his or her place. More and more, however, people are coming to realize that the fault-finder is after all a community's greatest drawback. They are learning to look down upon them, as well as to ignore them, and maybe after all this will be the means of stamping them out. Maybe in the years to come it will be as unpopular as a pointed out and shunned as a fault-finder as it would be to have leprosy. And there lies possibly our greatest hope—that the world will some day learn to point them out and condemn them as they justly deserve to be.

### AN EDITOR'S REWARD

After running a small town newspaper for more than a third of a century, William C. Palmer of Jewell county, Kansas, looks back over the field with entire satisfaction, as indeed he should. Recently he retired from active management of the paper, and in doing so he took occasion to make these few remarks: "I have put over thirty-six years of my life into the newspaper. Some folks say a man is a fool to put so much into a little country paper, but I say they have been brief and happy years, and they have brought me a great reward; the reward of enjoying every one of them; the reward of happiness in my work; the reward of having a conviction that I was trying to serve a community and a people for whom I have a deep and most sincere affection."

When a man puts all there is in himself into any enterprise, he has his reward. It doesn't make any difference about the size of the business he is engaged in either. The storekeeper, the professional man, the man right here in Plymouth can find as rich a reward in things well done here at home as if he was head of a giant concern in some distant city. Mr. Palmer's reward for running the Jewell county weekly was just as great as that of Joseph Pulitzer in running the New York World. In fact, we believe that Mr. Palmer really had a greater satisfaction, and succeeded in just as large an extent, everything considered, as did Mr. Pulitzer.

### FREE CLINICS

The Wayne County Red Cross Nursing Service has arranged for regular free clinics in the Wayne school building for the summer as follows:

Infant Welfare—Mondays, 10:30. Children's Dentistry—Tuesdays and Fridays, 9 a. m.; 4 p. m.

Public Health, including tuberculosis and nutrition classes—Thursdays at 10:30 a. m.

This means expert advice in the various lines for everyone in the county. Medicines will not be given out, but patients needing further care will be referred back to their own physician; with diagnosis and suggestions. Nutrition classes for mothers and children will show the relation of food to health. This is especially for underweight children. Dental examinations are free, but a charge within the reach of all will be made for work done. Watch for further announcements.

## DEATH OF GEORGE CROFT

George Croft, aged about fifty-five years, who with his wife has resided at the home of Mrs. Oliver Wingard for the past six months, passed away early last Saturday morning, June 12th. Mr. Croft had been in failing health for several months, but on Wednesday preceding his death he suffered a stroke of paralysis, from which he never rallied. The remains were taken to Toledo, Saturday evening, and the funeral was held in that city Monday morning. He leaves besides his wife, a mother, two brothers and one sister. Mr. Croft had been in the employ of the Pere Marquette railroad for many years. Plymouth friends extend sympathy to the bereaved family.

### Opals Growing on Trees.

Opals grown on trees is one of the latest discoveries of science. Such "stones" are now on exhibition in the American Museum of Natural History, New York. These "opals" were grown in Humboldt county, Nevada, several thousand years ago, by the slow processes of nature. They were formed from trees which were evidently uprooted and buried in a swamp during some earthquake. The trees, many feet under water, became water-logged and then became petrified. The swamp water had become heavily charged with a solution of silica, which acted upon and changed the nature of the wood, while preserving its structure. In course of time the wood became "opal," and can scarcely be distinguished from the genuine article. —Leslie's Weekly.

### Seed Electrification.

There appears to be much interest in the electrification of seeds and the application of electricity to growing plants, says the Scientific American. A recent account of work along these lines tells of a new method of aiding plant growth. The seeds, ten or 20 sacks, are placed in tanks provided with iron electrodes at both ends; the electrolyte is a solution of sodium nitrate or some other fertilizer. Particularly with cereals—wheat, barley and oats—the yields of both grain and straw are said to be increased. Some 500 farmers have taken up the treatment of the seeds, which is followed by a very careful drying in a kiln a month or two before sowing.

### Get This Out and Take It With You.

A man often forgets the exact name of the article he wishes to purchase, and as a last resort takes something else instead. That is always disappointing and unsatisfactory. The safe way is to cut this out and take it with you, so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion. —Advt.

## SPARED FAIR SEX

Oldtime "Knights of the Road" Not Always Stern.

Even Notorious Freebooters Have Been Known to Succumb to Feminine Wiles—Captain Kidd Among the Number.

Highwaymen, if ancient ballads and traditions concerning famous "knights of the road" may be believed, have often been polite to ladies; but pirates, rarely. Nevertheless, the late Elizabeth Christophers Hobson, in her delightful "Recollections of a Happy Life," relates an instance of a polite pirate who not only spared one of her ancestresses from molestation but made her a valuable present. To be sure, the lady in the case, who was Mrs. John Lion Gardiner of Gardiner's Island, made the first polite advances, and the pirate, who was none other than the notorious Capt. Kidd himself, merely reciprocated in kind.

The owner of the island was absent when Kidd landed upon it, and Mr. Gardiner, terrified but keeping her wits about her, invited the formidable freebooter to dinner in the hope of placating him. He accepted, and she so wisely and wilyly fed or charmed him, or both, that he later sent to her two rich gifts, both of which are still preserved by her descendants: the "Kidd pitcher," now strengthened by a silver band bearing an inscription recording its history, and the "Kidd blanket," a piece of superb embroidery two yards long, in crimson, green and gold. When the pitcher was presented, it was full of rare East Indian sweetmeats; the blanket is sometimes called the "Kidd altar cloth," since it was presumably stolen from a South American or Mexican church in some piratical raid.

Among the most famous names in the reprehensible but picturesque roll of British highwaymen is that of Claude Duval, who, along with his French name, possessed a dash of French politeness, at least toward the fair and easily frightened sex. He is reputed on various occasions to have spared pretty ladies their rings or lockets, if they begged him wittingly enough, or had the art, which one notable belle of his era professed such a useful one to a woman, of "being able to weep movingly, and that without Streaking of Cheeks, or Redding of Nose, but see only that Grate Tears of Pure Crystall Slide softly from Lids to Chins, Like as Dew Drops upon a Rose." His most notable concession to feminine charm was not, however, a complete surrender; it was a bargain. The lovely lady with whom it was made was promised immunity for all her rich jewels, if she would but descend from the coach and forthwith dance a coranto on the beach, with the gallant and graceful Claude for her partner—a condition with which she readily complied.

A "knight of the road," of less note than Duval—indeed, quite a minor, modest figure in the annals of crime—nevertheless figured magnanimously in an old, broad-sheet ballad, in which he assisted, instead of despoiling, a lady in distress. She was, the story relates, the poor, but beautiful widow of a riotous young nobleman just killed in a duel. Although of gentle blood, she was beneath him in rank, and the match had been secret. When the coach was held up she was on her way to seek out her husband's parents and ask their forgiveness and protection for herself and her baby boy. All she had to prove her case was her wedding ring and her certificate of marriage, peened and signed in miniature and carried in a locket round her neck. When these two precious trinkets were demanded at the point of a pistol, she was in despair; but the robber, hearing her story, was moved to pity.

He gave her back her small gold ring. He put it her finger on. "Fear not, my lady, and your grace. Though hardy it was you."

He gave her back her golden locket. "Fear not, my lady, and your grace. Though hardy it was you."

## FOUGHT OVER CAPTAIN'S BODY

Superstitious Sailors Wanted Commander's Body—Others Would Carry Corpses to Port.

A weird tale of shipwreck, death at sea, and the fierce, rough-and-tumble battles of superstitions, half-dazed seafaring men was revealed when Attorney John R. Tyrrell died for probate in the superior court the will of Capt. Charles D. Olsen, master of the clipper ship James Ralph, Jr., the San Francisco Chronicle states.

Olsen died on the return from Liverpool with his ship in ballast. At one stage of the trip his ship was wrecked, and since it was not heard of for a long time was given up as lost. He got off the rocks, patched it up and continued the voyage. Then he became ill and died.

With him on the voyage were his wife, their eight-year-old daughter, and the child's nurse. After his death certain members of the crew insisted that he should be buried at sea. The captain was honored and respected by all his men, and the insistence of some of them on burial at sea was due to their firm belief that it was the fitting burial for a seafaring man, and that ill fortune would strike the vessel if this were not done.

Others of the crew, the majority, argued that the body should be borne to land, as Mrs. Olsen desired. When the arguments waxed hot the disputants resorted to fists, knives and clubs, until separated and quieted by the ship's officers. The body was then taken into the hold of the vessel and buried four feet deep in the ballast.

When the ship reached Panama the coffin was disinterred and hoisted toward the deck to be taken ashore and cremated. Superstition again caused trouble, and a sailor named Larson, the biggest man on the ship, leaped to the side of the coffin when it reached the deck and with a knife threatened to kill anyone who attempted to remove the body from the ship before it was safe in its home port of San Francisco, because of his belief that 11 inch would certainly come to the ship if it were moved.

By a ruse he was quieted and led away. The body was taken ashore.

### Facts of Evolution.

The monkey, the ape and the gorilla were all included with man in the line of evolution followed by Prof. Elliott Smith in a late British Royal Institution lecture. The domination of mammals over other primitive animals was given by the senses of vision, touch and hearing, and the gradual development of these senses and minor brain faculties could be traced from the Miocene period to the anthropoid apes and to man. The primitive structure of remote ancestors is better preserved in man than in any other mammal. His particular group of primates has never been compelled to turn aside from natural development, while others, like the gorilla and the gibbon, have acquired special characteristics of limb or agility to avoid extinction. Primitive man probably came into existence somewhere in the region of Asia between India and China. He was a wanderer, and had nothing to fix him in one spot until he became civilized and a regular tiller of the soil.

**Lansing**—Thirty thousand pounds of poison have been shipped by the Michigan farm bureau to Benzie county to fight the grasshopper pest. The insects are worse this year than in several years. Other counties, Leelanau, Kalamazoo, Mason, Manistee, Grand Traverse and Westford need aid. Scores of farmers already have crops ruined by the pest.

**Mt. Clemens**—The Sarnozde Manufacturing Corporation announces that its new manufacturing plant, to be constructed here, will be in operation in September. The first unit of the industry is to be constructed at once on the four-acre site given them by the Business Men's Association in the factory district. The plant will manufacture a newly patented type of automobile wire wheels.

**Lansing**—While the conditions of all small grains is from two to five per cent below normal for the United States, the lowest condition of any of them in Michigan is only one per cent below the 10-year average. This fact, together with the prospect for a good crop of fruit of all kinds, is the encouragement offered by the June crop report issued by the Michigan Co-operatives crop reporting service. D. crossed population in the rural districts is the chief cause for the average of spring crops being below normal, the report says.

## CHILDREN'S DAY AT THE PRESBYTERIAN CHURCH

Last Sunday morning, Children's day exercises were given in the First Presbyterian church, under the direction of Miss Ellen Gardiner. The church was handsomely decorated with peonies, roses and other cut flowers and presented a very attractive appearance. After the opening service, Rev. S. Conger Hathaway, pastor-elect, administered the rites of baptism to several children, and several names were added to the membership roll both by affiliation and by transfer. As usual the children were very interesting in their part of the program, rendering their music, songs and recitations in a pleasing manner, and reflecting great credit on the one who had the exercises in charge. Several little chicks were concealed among the flowers, and their little peep peep added a unique feature to the program. After the exercises an interesting talk was given the children by the pastor-elect.

Mrs. A. Hutchinson of Stark, visited her niece, Mrs. John Higgins and other relatives here Thursday.

Mrs. Ella Peck returned home Thursday from a week's visit with her son Dexter and family in Detroit.

#### "Cornell 32" Forms Charming Panel Designs

The 32-inch width is a Cornell feature that produces the most attractive panels for hallways, small rooms, ceilings and borders. It is favored by architects, carpenters and builders everywhere, in solving the present housing problem. For large work the 48-inch width is recommended.

Due to the Cornell's Triple-Sizing Process this board is protected against moisture, expansion and contraction and is guaranteed not to crack, warp, buckle or chip, if the directions for applying are followed. Because Cornell's ornamental finish panels have a Mill-Primed surface (both sides) it saves you the cost and labor of a priming or sizing coat.

## SENT DOWN WATER

Example of Golden Rule in Western Utah.

Farmers of the Sevier Valley Gladly Deprived Themselves of Precious Liquid to Save Crops of the Less Fortunate.

It had been the hottest and driest summer ever recorded on the Pahvant plains in western Utah. More water than ever before was needed for the Pahvant crops; but as the previous winter had been recorded as having an extremely light snowfall, the late summer flow of the Sevier river (pronounced "severe") from the snow-stores of the Wasatch mountains, was at a minimum.

Therefore in spite of rigid water economy there was an insufficient supply to mature the crops in that region. Early in the season it became apparent that if some good rains did not come at timely intervals there would be widespread devastation of the crops; and despite the earnest hopes of the people, the windows of the sky remained sealed so far as the rain was concerned, and the brassy skies drank up every speck of moisture everywhere, even draining the reservoir dry a month before the potatoes and beets were matured. The apples fell to the ground withered, and the alfalfa stubble could not send out the shoots for the third crop of hay, the drought was so thorough. After experts had been consulted with no good result, an official of the state farm bureau, with a few other citizens, made an inspiring ride in automobiles up through a small range of mountains into the Sevier valley, where the crops had not suffered greatly, owing to the fact that the farmers in this region held primary rights to the water of the river. The modern Paul Reveres, coming to the rescue of the unfortunate farmers farther down the stream, appealed to the irrigation company officials in this region, and requested the loan of the river for 24 hours.

They were assured in response that the Golden Rule reached not only across the Sevier valley, but on down to the Pahvant as well, and a vote taken was unanimous in favor of closing the Sevier valley head gates by midnight that very night and leaving them closed as requested.

The returning midnight riders reached Pahvant valley many hours before the water, which began to arrive late the next forenoon. The mammoth Sevier river, no longer full and turbulent at this time of the year, but flowing abundantly, nevertheless, went bounding joyfully down through the stony canyons, carrying good tidings of the genuine friendship of the Sevier valley farmers.

That afternoon every Pahvant farmer was in his fields guiding the precious water across the lands, where it kissed back into liveliness and hope the despondent crops; and all that night and the next day the men labored on in gratitude, until the water began to dwindle, and then finally ceased. But it was enough; 2,200 acres of crops worth hundreds of thousands of dollars, were saved and a community was made happy.—Christian Science Monitor.

#### An African Pompeii.

During the war archaeological excavations were continued at the Italian colony of Cyrenia on the North African coast, and now comes the news that what has been found already promises the uncovering of another ancient city as important as Pompeii. Once upon a time the spot was a Greek colony, with the civilization of Greece transplanted to the soil of Africa. The work has been carried on during the war under the supervision of Lucio Mariani, director of the archaeological services of the ministry of colonies, and the prediction is now made that the newly discovered city will eventually prove actually richer than Pompeii in its evidences of a past civilization. Here have been already found statues of the Graces, a Hermes, an Eros, an Alexander the Great, and most impressive of all, the Aphrodite of Cyrene, which is said by certain connoisseurs to be a fair rival in beauty of Venus of Milo and the Venus of Callias. The discoveries have extended over many years.

#### Possible.

"Is it possible for a man to get thoroughly drunk in this town if he is willing to pay the price?" asked an arid arrival.

"Well, yes; I reckon it's possible," replied the landlord of the Petun's tavern. "But it don't hardly seem probable. You see the bootlegger takes you upstairs and down cellar and round and round like the ragged rascal ran round the rugged rock in McGuffey's old Third Reader, and so on and so forth, and then charges you 50 cents for cataracting three drops of diluted Hekker on your tongue with an eye dropper. Mebby a body could get drunk that way if he was rich enough, but it does seem like an awful waste of time, money and patience."—Kansas City Star.

#### The Moneyed Class.

"Who is that poor shabby little girl the others won't play with?"  
"Oh, she's a college professor's daughter."  
"And who are the little girls who look down on her?"  
"Those! Oh, they are little snobs who fathers work by the day."

## DEATH OF A GOOD CITIZEN

AMBROSE ROWE, DIED AT THE HOME OF HIS DAUGHTER, MRS. A. A. GATES, LAST SUNDAY MORNING.

Ambrose Rowe, a highly esteemed citizen of Plymouth for the past twenty years, died at the home of his daughter, Mrs. Albert Gates, Sunday morning, June 13, 1920, after an illness of only one week.

Ambrose Rowe was born December 11, 1851, in Bainbridge, Pennsylvania, where his boyhood was spent. Although only a boy at the time of the Civil war he remembered vividly the fighting, which took place in the vicinity of his home, especially the battle of Gettysburg, where he saw the thousands of dead after the battle. When sixteen years old he heard the call of the west, and headed Horace Greeley's injunction, settling in the vicinity which afterwards became Denver, Colorado, and engaging in the mining business. Most of his active life was spent in Colorado, but twenty years ago he came to Michigan and had made his home with his daughter, Mrs. Albert Gates. Mr. Rowe was married at Milford, Pennsylvania, in 1873, to Sarah J. Kennedy, who died two years later, when their only child was about a year old. He never married again, and was greatly attached to his daughter, with whom he made his home in his later years. He spent last winter in Colorado, where most of his relatives reside, and was stricken with influenza in February, from which he never fully recovered. Besides the daughter, Mrs. Albert Gates, he leaves three brothers and four sisters, James H. Thomas Elmer, and William J. Rowe, and Mrs. S. H. Southard of Greeley Colo.; Mrs. A. L. Palmer and Mrs. Francis E. Grubb of Ault, Colo., and Mrs. C. Skinner of Claridon, Texas; also three grandchildren, Aubrey, Mildred and Lloyd Gates. Mr. Rowe was a member of Plymouth Rock Lodge, No. 47, F. & A. M., and also of the Knights of Pythias in Colorado. The funeral was held from Schradler Bros.' Funeral Home, Tuesday afternoon at three o'clock, Rev. F. M. Field officiating; interment in Riverside cemetery. The Masonic order conducted the services at the grave.

## GRANGE NOTES

The Lenawee County Pomona Grange will hold a special meeting at Morenci, Monday, June 21, for the purpose of entertaining the High Priest of Demeter, Charles M. **ELECTION NOTICE**

Notice is hereby given to the qualified electors of the village of Plymouth, County of Wayne, State of Michigan, that a special election will be held in the Plymouth village hall, within said village, on Wednesday, June 30th, 1920, for the purpose of submitting a proposed amendment to the franchise of the Plymouth & Northville Gas Company, according to the following resolution adopted by the Commission of the Village of Plymouth, at their regular meeting of June 7th, 1920:

WHEREAS, the Village of Plymouth did heretofore on to-wit, Sept. 3, 1913, by an ordinance, grant to Clarence A. Fox and Andrew L. Moore a franchise authorizing the manufacturing, erection, distribution, operation and installation of gas works, storage distributing tanks, mains, pipes and conduits in the Village of Plymouth, Wayne County, Michigan;

AND WHEREAS, certain prices were fixed in said franchise and the franchisee has failed to furnish gas to customers;

AND WHEREAS, it appears that, in view of the great fluctuation in the cost of production and distribution of gas, it was an unwise provision in said franchise to fix the rate to be charged for a long period in the future;

AND WHEREAS, it is the judgment of this Commission that to properly protect the interests of the said Gas Company on the one hand and the people of the Village of Plymouth on the other in providing a price fair to the producer and consumer, thus securing steady and satisfactory service, revisions and readjustments of prices should be made during reasonable short intervals of time to meet changing conditions;

RESOLVED, that a special election in said Village be and it is hereby appointed to be held on Wednesday, the 30th day of June, A. D. 1920, for the purpose of voting upon a proposed amendment, in the form of a Section, to be added to the said franchise so granted to Clarence A. Fox and Andrew L. Moore, the proposed added Section to be as follows:

Sec. 3 A. "The price to be charged for gas furnished under the terms of this ordinance shall be revised and readjusted at the expiration of each three year period during the life of this franchise, the first revision and readjustment to be made for the three year period beginning July 1, 1920. Such revision may be made by mutual consent between the Plymouth & Northville Gas Company, its successors or assigns, and the said Commission of the Village of Plymouth. In case said parties are unable to arrive at an agreement as to such price, the matter of adjusting the same shall be submitted by the said parties to the Public Utilities Commission or any other State Board having like jurisdiction at the time such submission is made. If at any time in the future there be no State Board or Commission having the functions of the present Public Utilities Commission, then, in case of disagreement between the said Village Commission and the said Gas Company as to price, the matter shall be left to arbitration, one arbitrator to be selected by the said Village Commission, one by the said Gas Company, and the third to be chosen by such two arbitrators. The price fixed by mutual consent of the parties, by the Public Utilities Commission, or by arbitration, as the case may be, shall be binding upon the parties hereto."

RESOLVED FURTHER, that the form of ballot to be used at said election shall be substantially as follows:

"Do you approve an amendment to the franchise granted by the Village of Plymouth to Clarence A. Fox and Andrew L. Moore, dated Sept. 3, 1913, authorizing the grantees to manufacture and sell gas within said Village, by adding to said franchise the following Section:

Sec. 3 A. The price that may be charged for gas furnished under the terms of this ordinance shall be revised and readjusted at the expiration of each three year period during the life of this franchise, the first revision and readjustment to be made for the three year period beginning July 1, 1920. Such revision may be made by mutual consent between the Plymouth & Northville Gas Company, its successors or assigns, and the said Commission of the Village of Plymouth. In case said parties are unable to arrive at an agreement as to such price, the matter of adjusting the same shall be submitted by the said parties to the Public Utilities Commission or any other State Board having like jurisdiction at the time such submission is made. If at any time in the future there be no State Board or Commission having the functions of the present Public Utilities Commission, then, in case of disagreement between the said Village Commission and the said Gas Company as to price, the matter shall be left to arbitration, one arbitrator to be selected by the said Village Commission, one by the said Gas Company, and the third to be chosen by such two arbitrators. The price fixed by mutual consent of the parties, by the Public Utilities Commission, or by arbitration, as the case may be, shall be binding upon the parties hereto?"

**PERE MARQUETTE PROGRAM**  
The Pere Marquette Railway Company is getting ready to spend \$21,000,000 in new equipment, shops and freight handling facilities during the next twelve months, according to President Alfred. The improvements, however, are contingent upon the railroads of the country being allowed to increase freight rates. "There is hardly any question but that the railroads will be allowed to increase their earning power," said President Alfred. "The public realizes as it never has before that the prosperity of the railroads controls the prosperity of the country. I find sentiment favorable everywhere to increased freight rates if through them increased facilities for shipping can be obtained."

Company, and the third to be chosen by such two arbitrators. The price fixed by mutual consent of the parties, by the Public Utilities Commission or by arbitration, as the case may be, shall be binding upon the parties hereto?"

The polls of said election will be open at 7:00 o'clock a. m. and remain open until 5:00 o'clock p. m., Central Standard time, on the day of said election.

Dated, Plymouth, Mich., June 8, 1920.  
SIDNEY D. STRONG, Village Clerk.

**Registration Notice**  
Notice is hereby given that the Board of Registration for the Village of Plymouth, Wayne County, State of Michigan, will meet at the village hall, in the village of Plymouth, on Saturday, June 19th, 1920, from 9:00 a. m. to 8:30 o'clock p. m., Central Standard time, for the purpose of completing the registration of the electors of said Village.

Dated, Plymouth, Mich., June 8, 1920.  
SIDNEY D. STRONG, Village Clerk.

**PERE MARQUETTE PROGRAM**  
The Pere Marquette Railway Company is getting ready to spend \$21,000,000 in new equipment, shops and freight handling facilities during the next twelve months, according to President Alfred. The improvements, however, are contingent upon the railroads of the country being allowed to increase freight rates. "There is hardly any question but that the railroads will be allowed to increase their earning power," said President Alfred. "The public realizes as it never has before that the prosperity of the railroads controls the prosperity of the country. I find sentiment favorable everywhere to increased freight rates if through them increased facilities for shipping can be obtained."

The bulk of the \$21,000,000, or approximately \$14,000,000 will go into new equipment, such as 55 steel passenger cars, 20 modern passenger engines, several hundred freight cars and freight engines of various types. The remainder, \$7,000,000, will be expended on property improvements including a new car shop at Grand Rapids, complete engine terminals at Saginaw and Plymouth, and a huge new yard at New Buffalo.

President Alfred stated that the Pere Marquette was short 2,000 freight cars. "It is true we have more cars in Michigan than are owned by the railroads operating in this state, but it is also true that no

other state in the union is producing manufactured goods on the enormous scale that Michigan is," said Mr. Alfred. "We are unable to handle all the business that is being offered by the motor car and accessory plants, the sugar mills, furniture factories and the like."

The Pere Marquette program calls for a gradual replacing of its badly worn wooden passenger cars with modern steel cars. The road received no passenger cars for 2 1/2 years, during the period of federal administration of the railroads. President Alfred declares the Pere Marquette operations are back on a normal basis after the disruption caused by the strike of yardmen and that traffic is 10 per cent heavier than it was at this time a year ago.—Michigan Investor.

**NEIGHBORHOOD NEWS**

Northville's chautauqua will take place July 28 to August 1.

The village of Milford has voted favorably on a bond issue of \$7,500 for sewers.

Dr. L. S. Brooke of Mason, has been called to the pastorate of the Milford Presbyterian church.

W. M. McKinley of Detroit, has purchased the Hawkins hotel at Ypsilanti.

Silver Lake in Green Oak township, is reported as enjoying a great boom. It is also reported that a store is to be opened there soon.—South Lyon Herald.

Pontiac merchants will close their places of business on Wednesday afternoons during the summer, beginning July 1. They tried out the plan with great success last summer.

The Grand River Washed Sand and Gravel Co., a new company at Brighton, will commence business about August 1st. The plant will have a capacity of 30 or 40 cars of high grade gravel per day when in full operation.

The Boys' and Girls' Club work, which was so successful in Washnetaw county, last season, is extending its activities this year, and promises to be one of the features of Farm Bureau work in that county. Fifty-three head of pure bred cattle have just been received, and will be distributed among the boys and girls of the county.

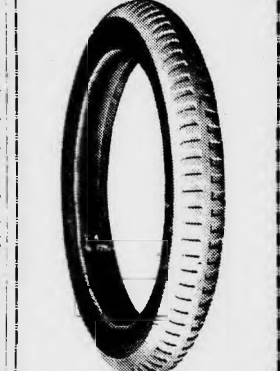

Mrs. S. J. Pollock entertained the Sunday-school class of Mrs. E. M. Calkins, and friends, at dinner Tuesday evening, in honor of Miss Christie Pollock. A most enjoyable program of music was given by Miss Huger of Plymouth, and Miss Sarah Pollock. The honored guest was presented with a beautiful vase and best wishes. Miss Huger was the only out-of-town guest.—South Lyon Herald.

Mrs. DeWitt Cooper of Genoa, brought to town one day last week, a freak in the shape of a chicken. It had two distinct bodies and one head. There were four legs, four wings and two tails. The hen mother evidently decided that she wouldn't be burdened with such a monstrosity and ended the infant's life with a peck on the head. Dr. Mellus embalmed the freak in—no not alcohol—some other sort of preservative.—Brighton Argus.

Washtenaw county farmers will market a quarter million pounds of wool through the county and state farm bureaus this season. Half the wool produced on Washtenaw county farms will be marketed by the farmers themselves through the farm bureau organization. Wool is being assembled at Dexter, Chelsea, Manchester and Saline, and shipped to the state warehouses at Lansing. Already wool is arriving so fast that the capacity of the present warehouses will be taxed and new accommodations are being arranged for. At present there are 145 assembling points in 47 different counties in the state.

In our store, you can hear the phonograph that substituted for Anna Case—and astonished all New York in the audacious "Dark-Scene" Test.

and then the LIGHTS went OUT

Read below what the New York newspapers said of the test. Remember—the marvelous instrument used in New York City was an exact duplicate of the original Official Laboratory Model, which cost Mr. Edison three million dollars in research work. We, too, have an exact duplicate of the famous three million dollar original. We guarantee that it is capable of sustaining all the astonishing tests made on March 10th, at Carnegie Hall, New York City.

Come in and hear this guaranteed Official Laboratory Model. Experience its marvelous realism for yourself. We give Mr. Edison's unique Realism Test.

**The NEW EDISON** "The Phonograph with a Soul!"

"A portion of the demonstration was even carried on without the lights, so that no one could see whether Miss Case's lips moved or not. It was all genuinely instructive, and the twin-ship between Miss Case's singing, and the reproduction thereof, proved so close as to be often indistinguishable."—New York Globe.

"When you see and hear Miss Case sing, you can scarcely believe that an art so essentially individual and personal as hers could ever be reproduced mechanically, yet the New Edison has succeeded to the point where the voice in the fluffy pink draperies and the voice in the mahogany box seemed one and the same."—New York Evening Mail.

"When the lights were lowered, it was impossible to tell when it was Anna Case, and when it was only her voice that was singing."—New York Evening Sun.

The "dark scene" test was positively sensational in its proof of the realism of the New Edison.

Anna Case, the world-famed soprano, stood beside a dignified Chippendale cabinet. She started to sing. Her voice enthralled the audience with its colorful brilliance. Suddenly the lights went out. Densest black swallowed stage, phonograph and singer.

But Miss Case's voice went smoothly on. It rose to the very heights of its superb artistry. Then, the lights flashed on! The audience gasped with astonishment. Case was gone! Her voice had been coming from the New Edison.

Under cover of the darkness, Miss Case had stolen from the platform, leaving the New Edison to continue her song alone. The audience never knew she had gone, till the lights went up.

The exact duplicate of this instrument is here in our store,—waiting to prove its perfect realism to you.

When you come in, ask about our Budget Plan. It makes the dollar go farther—the New Edison comes easier.

**Booze Is Not a Good Cure**  
From the Ames, Iowa, Intelligencer  
When a man comes to you all doubled up with pain and declares he will die in your presence unless you procure him a drink of whiskey, send him to a doctor or else give him a dose of Chamberlain's Colic and Diarrhoea Remedy. There is a mistaken notion among a whole lot of people that booze is the best remedy for colic and stomach ache.—Advt.

### Today's Reflections

No Plymouth man wants a wife he thinks knows as much as he does.  
President Deschanel of France, recently fell off a train, and a lot of would-be presidents ever here are falling off the band wagon.  
There will always be room for improvement in this country as long as a man would rather stand around and talk politics than go to work.  
The Plymouth girl who declares that her face is her fortune should also remember that poverty is not a crime.  
These days instead of referring to "wine and women" we speak of "home brew and suffragettes."  
Some men are like a sausage—smooth of skin and full of hog.  
Some Plymouth men are so optimistic they can pick their teeth every time they see a restaurant scene in a moving picture show.  
The king of Greece says he would rather give up his throne than his wife. And if she's the right kind of wife you can't blame him.  
It's a mistake to think a girl wears a wrist watch so she can tell when a young man has held her hand long enough.  
The average Plymouth man is willing for his wife to train the children, but he insists upon training the dog.  
An eastern clothing manufacturer has been fined \$55,000 for profiteering. It would be a good thing if this kind of stuff was contagious.  
Another good way for a Plymouth man to get out of working in the garden would be to hire some fellow to steal the tools.  
It now looks like the yarns of the woolen men are not going to save them.  
So long as a quart of whiskey costs about twenty dollars, there isn't much need in worrying over the drink evil in this country.  
Any Plymouth girl can tell you that the powder puff removes more tear stains than sympathy ever could.  
The world is never going to be as good as it should be until people take to reading their paper to see how few mistakes they can find in it, instead of how many they can dig up.

## What Is Telephone Service

It is because the telephone is so intimately yours—because the daily benefits from this service are so far-reaching and vital, that we are coming to you with a message.

This is in line with our wish to give the people of Michigan the very best and most extensive telephone service that could possibly be desired. And to do this we must have your friendly and complete co-operation.

In order to give that co-operation you naturally need and are justified in asking an intelligent understanding of the telephone business.

It is our purpose, therefore, in this and succeeding announcements, to tell you, among other things, exactly what the Michigan State Telephone Company is, what the giving of service involves, and to discuss with you present conditions and plans for the future.

The conduct of any public service corporation carries its share of unending problems—problems that are as vital to the public which it serves as to the company itself.  
These problems cannot and in fairness should not be solved by the corporation alone. The public is too vitally interested and where public interest is so intimately involved, the public's judgment must have every consideration.  
It is our purpose, therefore, to make these announcements as though we were all in council, where all have free opportunity of discussion.  
Among the problems that will undoubtedly come before us are matters of service—why it is that there are sometimes apparent delays in getting a number, why you sometimes get the wrong number, etc.  
The problem of telephone extensions also is a very vital one. Everyone should know why it is impossible under present conditions to install apparatus promptly for every new subscriber.  
And we will want to discuss with you very frankly the rate problem, and tell the real crisis that confronts us in the face of constantly increasing costs of labor and material.

But it is neither our desire nor our intention to limit the discussion to published statements of our own.  
We invite you to ask us by letter about these points that we may overlook or may not have made sufficiently clear.  
To care for these answers promptly, we have established a special service to provide you with the necessary facts.  
Where a large number of questions on any one subject indicate a general interest in that point, we will publish the questions and answers in these columns.  
We will likewise be pleased to have you visit any of our exchanges and see for yourself some of the things telephone service involves, and how we endeavor to meet the demands placed upon us.  
It will be our purpose to speak frankly, to acquaint you with every phase of the "telephone problem," and to maintain this open-minded attitude permanently.  
We believe that this will result in a relationship that will make our mutual ideal of good telephone service for Michigan a practical reality.

**NEWBURG**

Children's Day exercises will be held at two o'clock next Sabbath afternoon in Newburg church. A good program is being arranged by Mrs. Henry Grimm, Jr., and Miss Gladys Smith. A pantomime, "The College Ball," with reading by Miss Gladys Smith will be given; also songs, drills and recitations. Anyone desiring to have their babies or anyone-baptized, there will be opportunity at this time. Everyone most cordially invited.

The L. A. S. held a very pleasant meeting at the hall, last Friday. A service was held in memory of four members who have passed away during the past two years—Mrs. Mary Armstrong, Miss Benjie Farley, Mrs. George Chilson and Mrs. Showers. The president called on different ones to speak in memory of the departed sisters. The names of all the deceased members was also read. Next Sunday as many as can do so will take flowers to the cemetery and place on their graves. The L. A. S. have decided to hold their meetings on the second Wednesday in the month, instead of Friday as has always been the custom. For various reasons it was thought best to adopt this plan.

The W. C. T. U. will be entertained by the Newburg ladies next Thursday afternoon, at Newburg hall.

George Chilson and son, Clare, have purchased Wm. Lomas' house and lot in Newburg.

Clarence and Margaret Clemens and Beulah Ryder went to Bob-Lo, Saturday, with the Plymouth High school.

Clara Grimm, Iva Bassett and Jack Taylor had a fine time at Walled Lake, with the eighth and ninth grades of the Plymouth school.

Mr. and Mrs. Harmon Smith and son, Vaughn, also Mr. and Mrs. Holden of Wixom, called at the Ryder homestead, Sunday afternoon.

Some of our Newburg people are talking of motoring through to California.

Mrs. Adeline Berger with the six school children and parents, had a picnic on the flats, last Thursday afternoon. Ice cream and cake were served. All report a grand time.

Miss Mattie Lawton of Wyandotte, has been hired to teach the school for the coming year.

Edgar Stevens and family have moved to Waterford. Best wishes of many friends go with them.

The Horton and Lomas families returned home, Monday, after a ten days' trip to Harbor Springs. They report corn and everything looking better there than here.

The army worm is getting in its destructive work on apple trees, even attacking the trees in the woods.

The fine rain of Tuesday night helped everything but strawberries. Mr. Clemens is the heaviest loser around here, having two acres of them.

A 9 1/4 pound boy arrived at the home of Mr. and Mrs. James Bassett, Monday. Mother and child doing well.

Little Doris Strebbling had a birthday party, Monday afternoon. Ten little friends were present and she received several gifts. Ice cream and cake were served.

John Taylor passed away very suddenly Wednesday afternoon at his home here. The funeral will be held at Newburg church, Saturday afternoon at 2:00 o'clock.

**KING'S CORNERS**

Mr. and Mrs. John Kaiser of North Detroit, is visiting their daughter, Mrs. Jay Sprague and also their sons, L. E. and Charles Kaiser.

Mrs. Samuel Earhannaack and Mrs. J. Frank Parrish of King's Corners, were called to Detroit, Sunday, by the severe illness of their grandmother, Mrs. Gerach, at the home of her son, Joseph Gerach, at that place.

Dr. Patterson was called to see little Wesley Kaiser, last Sunday. He is much better at this writing.

The market gardeners are discouraged over the loss of their early

cabage crop. Large pieces of many diseased plants are entirely destroyed by an insect working at the roots of the plant.

Mr. and Mrs. Fred Staschke spent Sunday at Walled Lake.

Mr. and Mrs. Clarence Hix spent Sunday with the former's parents, Mr. and Mrs. George Hix, at this place.

**FRAIN'S LAKE**

Edward Lyke, who has been seriously ill with liver trouble, is gaining slowly.

Clifford Fishback came home from Trenton, Friday, ill with symptoms of typhoid. He was immediately taken to Ann Arbor hospital, where he is under the care of Dr. George.

Mrs. Charles Freeman was called Sunday, to attend the funeral of her cousin, Miss Eva Kelley, nurse, of Ypsilanti. During the war she served in France, and had since been in poor health.

Johnnie Skully is visiting friends in Detroit.

Mrs. Maybelle Sherwood entertained her brother and family from Plymouth through the week-end.

Mrs. Theda Lyke entertained her aunt, Mrs. Seelye, from New York City, several days last week.

Willard Geer spent the week-end with friends near Pontiac.

Dr. Truit, district superintendent, gave a fine talk Sunday, to the young people of Dixboro. Fifty new members were added to the church membership.

C. E. Lyke and wife and Elijah Gale and son, Andrew, were callers at Ed. Lyke's, Tuesday evening.

Mrs. Theresa Lyke is on the sick list.

A CARD—We wish to thank our many friends and neighbors for their kindness during the sickness and after the death of our dear father; also the Masonic order for their kind attentions, and for the beautiful flowers and the automobiles.

Mr. and Mrs. A. A. Gates and Family.

**WILL GO TO PORTLAND WITH SHRINE BAND**

C. H. Goyer was selected by the members of the Shrine Band of Detroit, to accompany them and the Arab Patrol to Portland, Ore., where they will attend the Imperial Council meeting in that city, June 21st to 24th, inclusive.

On the trip to Portland, the schedule calls for three hour stops in the following cities, where parades and receptions will be held: Missoula, Miles City and Butte, Montana.

While in that city they will have as their headquarters the Multnomah Amateur Athletic Club. The club is equipped with shower baths and swimming pool, which will be at their disposal.

The Detroit Shrine band will consist of seventy selected musicians and special music has been arranged for this occasion. The program just received shows that they are scheduled for a public concert in Portland on Tuesday afternoon, June 22nd.

Returning from Portland the Shrines can select the route they desire, and some will go to Seattle, Wash., first, and then take the C. P. Ry. Steamship to Vancouver, B. C., and from Vancouver to Winnipeg and St. Paul by C. P. Ry.; St. Paul to Chicago via C. M. & St. Paul Ry.; Chicago to Detroit via M. C. Ry.

The trip will take about two weeks.

**CHAUTAQUA IN AUGUST**

Word has been received from the Redpath Chautauqua office that Plymouth's chautauqua assembly will be held about the last week in August, the opening date being about August 23rd. The program provides for five big days, with programs both afternoon and evening, the big headliner attraction being the Red Grenadiers Band and Male Chorus, which will appear on the fourth day.

**BAND CONCERT AT YPSILANTI SUNDAY**

Hundreds of motorists will head their cars for Ypsilanti, next Sunday afternoon. Arrangements have been made with the Detroit Salvation Army band to give a band concert in Prospect park at two o'clock. It will be a rare opportunity to hear this famous band, which is composed of some fifty players, and which is easily one of the greatest bands in the country today. The band will spend the day at Ypsilanti, playing morning and evening in the First Methodist church.

**CHURCH NEWS**

**Lutheran**  
Rev. Charles Strasen, Pastor  
Sunday-school with both classes at the regular time. Let there be a good attendance. The morning service will be in German. Text, St. Luke 15:1-10. Theme, "A Good Christian Must Be a Missionary." The evening services, which begin at 8:00 o'clock, will be in English. Text, St. Luke 11:28. Theme, "Must One Attend the Services Regularly?" There will be no bible lectures during the summer months; the pastor having several classes to instruct and prepare for confirmation. Any one wishing to attend these instructions, to learn the Lutheran doctrine, the doctrine of the bible, is welcome, even though he does not want to be confirmed. This Friday at 8:00 o'clock is the first meeting of the class.

First Church of Christ, Scientist, corner Main and Dodge streets, Sunday morning service, 10:30 o'clock. Subject, "Is the Universe, Including Man, Evolved by Atomic Force?" Wednesday evening testimony service, 7:30. Reading room in rear of church open daily from 2 to 4 p. m., except Sundays and holidays. Every one welcome. A lending library of Christian Science literature is maintained.

**Bible Students**  
Have we noted the number of times the word angel occurs in Rev. 14, their different meanings, and what a difficult chapter this is to understand? Monday, June 21, or as soon thereafter as possible, a book in magazine form for 20c, will be brought to your door, which explains all of Rev. 14 and the cause of present conditions, and foretells the blessings of the people in the near future. II. Peter. 3:13; Rev. 21:1; Isa. 65:17; Isa. 66:22; Num. 14:21; Hab. 2:14; Joel 2:28; Dan. 2:44; Hagai 2:7; Rev. 11:15.

**St. John's Episcopal Mission**  
Sunday, June 20.—Public worship at 2:30 p. m. prompt. Evening prayer and sermon. Lawrence E. Midworth of St. John's, Wayne, will have charge of the service, assisted by the Rev. H. Midworth.

If you know of an item phone or send it to the Mail office.

**PLYMOUTH MAN TO MANAGE FARM BUREAU**

George A. Raviler of this village, who has been connected with the organization work in the markets department of the M. A. C. for some time past, has resigned to accept the more lucrative position of manager of the Lapeer County Farm Bureau. It is the purpose and desire of the Farm Bureau officials to establish closer business relations between the local farmers' co-operative organizations and the Farm Bureau and it is with a view to working out this problem that Mr. Raviler has been induced to undertake the work, and Lapeer county chosen as the county in which the experiment is to be made, and if successful will be followed out by the Farm Bureaus in all the counties where they are organized.

In selecting Mr. Raviler for this important work, the Farm Bureau has made no mistake, as he is a splendid organizer, an enthusiastic and indefatigable worker in the agricultural problems, and that he will make good there is not a doubt. Mr. Raviler will take up his new work at Lapeer, July 1st. He will not move his family there for the present, but expects to do so a little later.

**AN INTERESTING RELIC**

W. P. Holmes brought to this office an interesting relic of Civil war days, in the shape of a campaign button worn during Lincoln's first campaign for president, in 1860. On one side of the button is a picture of Abraham Lincoln and on the other side a picture of Hannibal Hamlin, candidate for vice president, together with the date, 1860. A silk cord is attached to the button, which was worn around the neck of the wearer. The button was worn by the late Marceus Holmes, father of the present owner of the button, who was an ardent supporter of Lincoln.

Received, that a copy of the petitions be sent to the farmers who deceased, that they be published in the Plymouth Mail, and that they be placed upon the minutes of the Lodge, and the charter be drafted for a period of sixty days.

Dear sister, the grass is green and deep.

Where thou art laid asleep;

Whisked by soft winds and washed by gentle showers.

Thou hast thy crown of flowers.

Take now thy rest.

EVA WILLET,  
MINNIE MEDDAUGH,  
Committee.

**NOTICE TO WATER TAKERS**

Plymouth, Mich., June 9, 1920.

To The People of the Village of Plymouth:

The Village Commission at their meeting, Monday evening, June 7, decided that, in view of the condition of the village water supply, some restrictions were necessary to conserve the water for domestic use and for essential uses in manufacturing plants. Therefore, beginning with Monday, June 14, sprinkling laws or gardens by hose or watering cans will be restricted to one-half hour per day. The choice of the half hour is left to the convenience of the user. It is hoped that no further restrictions will be necessary, but if the required beneficial results are not reached in a week or so, sprinkling privileges are liable to be cut out entirely. The co-operation of every villager is counted on to help out in this matter.

# CLOTHING SALE

Involving Our Entire Stock of Clothes for Men and Boys at Sharply

## Reduced Prices

Conditions call for straight talk and quick action. Now for the plain facts. This sale is inaugurated for one purpose—and only one—to reduce our stock to normal. For, please note—

Months ago, endeavoring, in behalf of our customers, to anticipate price advances, we bought greater stocks of spring and summer clothing than ever before in the history of this business. Much of it, due to the railroad strike and tie-up, labor troubles, etc., has just recently been delivered.

Meanwhile, an almost unprecedented cold, late spring, knocked our calculations for record-breaking May business into the proverbial "cocked hat."

—AND HERE'S THE RESULTING CONDITION WE FACE:—

- (1) We've too much fine clothing in our stock for this time of year.
- (2) A business does not exist, much less earn even the modest profit to which it is justly entitled, by having a stock of goods "in the shelves"—no matter how fine in quality, or how low in price. They must be kept moving.

And so there was but one thing to do—and we've done it.

We've "taken the bull by the horns," and Saturday morning, at 7:30, we begin a stock-reducing sale that embraces—

**Our Entire Stock of Men's and Boys' Spring Clothes At 20 Per Cent Discount**

**ON OUR REGULAR FAIR PRICES**

BOYS' CLOTHES		MEN'S CLOTHES	
\$12.50 Values, Sale Price	\$10.00	\$35.00 Values, Sale Price	\$28.00
\$15.00 Values, Sale Price	\$12.00	\$40.00 Values, Sale Price	\$32.00
\$16.50 Values, Sale Price	\$13.20	\$45.00 Values, Sale Price	\$36.00
\$20.00 Values, Sale Price	\$16.00	\$47.50 Values, Sale Price	\$38.00
		\$50.00 Values, Sale Price	\$40.00
		\$55.00 Values, Sale Price	\$44.00

The original price tickets remain on every suit and topcoat in our entire stock; reductions made at time of sale.

**A WORD ABOUT YOUR OPPORTUNITY**

First reminding you that nothing in the present clothing situation justifies any expectation of appreciable lowering of clothing prices for Fall—we want to emphasize that the reductions in this sale are made from prices representing the closest margins of profit on which this business has ever been operated. Forward-looking men will anticipate their clothing needs. "A word to the wise," y'know.

**PLYMOUTH TIES WITH ROMEO**  
**THE GAME AT NORTEVILLE**  
 LAST WEEK THURSDAY HAD TO BE CALLED ON ACCOUNT OF DARKNESS WITH THE SCORE 2 AND 2.  
 The ball game between the Plymouth Buicks and the Romeo Buicks at Northville, last week Thursday afternoon, was a battle royal, and the game had to be called in the eighth inning, with the score 2 and 2.  
 German and Hutchins were on the mound for the locals, and both pitched good ball. In the sixth inning, Romeo had three on bases with no one out, and Hutchins retired the side with three strike-outs. Another feature of the game was the splendid work of Catcher Hammerschmidt for the locals. Schaub distinguished himself with a perfect throw of a long fly from deep center to the plate, getting the runner by ten feet. Freddie Hautz's pretty two-bagger in the third inning drove in the run which afterwards proved to be the tally that tied the game. There was a large attendance of local fans at the game. The score:

 Cadillac—Mrs. E. B. Jennings, 85 years old, died of burns suffered when she fainted and pulled a scalding pot of coffee on her.  
 Otsego—Henry Schwell, attempted to start a fire with gasoline. He was so severely burned in the resulting explosion that his death followed.  
 Port Huron—The 1920 population of Port Huron was 25,940 an increase of 7,781 or 37.5 per cent according to figures announced by the census bureau.  
 Big Rapids—This city may be stationed in the proposed aerial route between Grand Rapids and Petoskey, an extension of the Fort Wayne-Grand Rapids route.  
 Albion—Mlle. Lydie Exbrayat, who has been a student in Albion for two years, part of the time at the expense of the French government, has returned to France.  
 Detroit—H. Gordon Powers, Michigan Central railroad car inspector, was instantly killed when a car under which he was working, moved and crushed his skull.  
 Grand Rapids—A bonus of \$50 has been presented each of the 16 local members of the original Polish volunteers who have just returned home from service in Poland.  
 Pontiac—Henry Schopf, 6-year-old son of William Schoof, of Davis Macomb county, was killed when he fell from a wagon driven by his grandfather, the wheels crushing the lad's head.  
 Houghton—St. Clair Wilson, county game warden, has called the attention of the board of supervisors to the wolf menace. He said that 400 sheep have been killed in Duncan Township this spring.  
 Climax—Herbert Benwire was struck and killed by a Grand Trunk freight engine near this village. He stepped off one track, to let a train pass, without noticing the train coming from the opposite direction.  
 Saginaw—One hundred and twenty-five members of Elf Hurin phrine, of Saginaw, making up the drill and drum and bugle corps and official division and dobles left in special train for the Imperial conclave at Portland, Ore.  
 Holland—Rev. Samuel M. Swamer, Cairo, Egypt, delivered the bootstraps sermon to Hope college graduates. He was member of the class of 1887. Six of the graduates will become missionaries, and 10 are to enter the ministry.  
 Detroit—Playing hide and seek in the yard of the Detroit Edison Co., at Waterman avenue and South street, Peter Lobkoxick, 14 years old, was instantly killed when a pile of poles fell on him. Three companions narrowly escaped injury.  
 Lansing—Rates for gas furnished by the Lansing Fuel and Gas company are increased 20 cents per 1,000 feet to large industrial users of the city and 15 cents to domestic consumers in an order of the Michigan public utilities commission.  
 Lansing—The state of Michigan will receive \$78,887.72 from the estate of Thomas A. E. Brasse, of Battle, Sussex county, England. This amount is 25 per cent on stock in the Michigan Land & Iron company valued at \$315,534.86, and will go into the primary school fund.  
 Muskegon—John Rapp, 55, a resident of this city for many years, was electrocuted while working for the National Construction company when he reached out from a window and took hold of a high tension cable bearing 5,200 volts of electricity. He was instantly killed.  
 Detroit—In order to provide fresh air, good food healthful recreation for children from the congested parts of the city who have developed tuberculosis or are threatened with the disease, the common council has authorized the expenditure of \$3,000 by the health board for a summer camp at Northville.  
 Kalamazoo—Potatoes are selling on the Kalamazoo market at higher prices than apples or oranges. The best quality apples and oranges are being disposed of at from 7 to 10 and 12 cents each. One of the largest stores is exhibiting 12 potatoes, weighing slightly over 15 pounds, and worth at the present market price, \$1.50 or from 10 to 15 cents each.  
 Standish—While his father was rescuing two other children who had fallen into the Rifle river, near the Hodgeman dam, Frederick Sube, seven years of age, was drowned. The children fell into the stream while playing. Sube heard their frantic cries, and grasping a cane brought two of the children to safety, while his son was carried down stream and lost. The body was recovered after two hours of dragging.  
 Muskegon—Camp Roosevelt, the national boys' training camp, will open July 4, and the War Department has named 15 Army officers to teach the student soldiers. Capt. F. L. Beale, head of the Junior E. O. T. C. of the Chicago schools, will be in charge. Indications are that 5,000 boys will attend the camp this year. The Camp Roosevelt High School, which was started into last season, is one of the big features. More than 200 boys received credits at this summer school last year. Campaign will be staged during next few weeks for students.

Commencement

COMMENCEMENT

The commencement exercises were held on Wednesday evening and the High school auditorium was again filled with relatives and friends of the graduating class of 1920.

Problems of Today. We, the class of 1920, wish to extend to you, our parents, friends and teachers, a true and warm welcome.

Of all the problems of today, perhaps the one in which there is the most interest shown is in the High Cost of Living.

The opinion of people differs as to the cause of high prices. Perhaps it is rather a combination of causes which has made such high prices possible.

First, there is the probable food shortage caused by lack of labor on the farms. The men and boys are lured away to the cities to work in factories, where it is possible to get double the wages they are able to obtain on the farm by less work.

The foreign countries, where so many are starving, are also calling to America for food. If production is below normal, it will mean deprivation for the European people as well as ourselves.

When the overall clubs were formed big business men began wearing them and the price immediately went up. Why? It was not because overalls cost more, but the retailers knew that these men would buy them even if they did cost \$2 or \$3 more per pair.

The valedictory was given by Miss Florence Greenlaw in a most able manner, and was as follows: -The Country's Need of Us There has never been a time when the world has so needed professionally trained men as now, or when certain professions were calling so insistently upon High school graduates to fill their ranks.

Let us see what the need actually is. Five out of the eight boys in our class are rural pupils. The boys in town are lured away from school by the necessity of the factories and their desire to make money.

strongly lured away by the desire for the factory, he knows that if he does not go to school he will be obliged to help his father on the farm until he becomes independent of parental control.

One of the great needs of the country is teachers. In this profession a girl may find happiness in knowing that she is doing her duty to the world by helping others. This need is especially great in the rural schools.

The teaching profession is much more stable than positions in the industrial and financial world. A financial depression or an industrial upheaval results in the immediate retirement of many people engaged in business.

Not one of us but has been inspired by some teacher to do worthwhile deeds. This same opportunity is at hand today. Are these young men and women ready to grasp it and to lead these young people to the unfinished work which they who fought so nobly begun?

A bigger work, a more needed service, a surer title to the gratitude of the future cannot be found than in teaching—even though one's name and service be forgotten.

There is a campaign in progress for obtaining students for the ministry. In the Methodist denomination there is a need of 15,000 student ministers for the pulpits and missionary work in the next five years.

All these professions contribute to the happiness of the world. No one gets any happiness out of a selfish life—a life lived only for money, but if he can make a comfortable living and at the same time feel that he is necessary to public welfare, he then feels that he moves in a large sphere; he feels that he touches life in regenerative ways and gains inspiration for living that brightens what is otherwise perhaps only dreary routine.

Members of the class of 1920, this night marks the culmination of the goal we set for ourselves in 1916. For four years we have worked hard by side that we might stand here together tonight, and we are very glad that there are so many of us to receive the honor of graduation.

The world expects that the graduate shall not be content with commonness or grope along in mediocrity; that he shall regard his education as a sacred trust, not to be used wholly and solely for his own selfish ends; that he shall bring to the world a message of broader manhood, a larger aim and higher ideals.

The commencement address was given by Prof. C. T. Grawn of Detroit, first superintendent of schools of Plymouth, 1881-1884, and also for many years president of Mt. Pleasant State Normal school.

The annual alumni reception was held at the High school auditorium, Thursday evening. There was a program and election of officers. Light refreshments were served.

The sixth grade held a picnic on the Miller farm last evening, last Wednesday. Miss White chartered the class.

PLYMOUTH HIGH WINS FIELD MEET

PLYMOUTH ATHLETES BRING HOME TROPHY FROM THE FIELD MEET OF FOUR SQUARE LEAGUE AT WAYNE, LAST FRIDAY.

Last Friday proved to be a red letter day for Plymouth at the track meet of the Four Square League at Wayne. From the 100-yard dash, which started the meet to the relay, which completed it, there was not an event in which Plymouth did not secure a place.

Miller of Plymouth, was the high individual point winner, winning 27 1/2 points; Drager of Wayne was second, winning 13 points; Stevens of Plymouth, winning 10 points; Walker, 9 points; McHale, 7 1/2; Freydl, 7 1/2; Wisely, 4 1/2; Clemens, 4; Harris, 2; Williams, 2; Roe, 1 1/2.

The events in order are as follows: 100-Yard Dash—Miller of Plymouth, 1st; Wayne, 2nd; McHale of Plymouth, 3rd; Northville, 4th. High Jump—Miller of Plymouth,

1st; Wisely of Plymouth, tied Dearborn for 2nd; Wayne, 4th. Half Mile Run—Stevens of Plymouth, 1st; Farmington, 2nd; Williams of Plymouth, 3rd; Freydl of Plymouth, 4th.

120-Yard Dash—Wayne, 1st; Walker of Plymouth, 2nd; Harris of Plymouth, 3rd; Farmington, 4th. 440-Yard Dash—Freydl of Plymouth, 1st; Walker of Plymouth, 2nd; Clemens of Plymouth, 3rd; Wayne, 4th.

Shot Put—Farmington, 1st and 2nd; Miller of Plymouth, and Farmington tied for 3rd.

Relay—Won by Plymouth team, consisting of Roe, Freydl, McHale and Miller.

The cup won as a trophy, on exhibition at the school, becomes a permanent possession of the High school as a result of this meet. The sentiment of the League is in favor of holding next year's track meet at Plymouth, and it is expected that this will be done if the next athletic field is in shape for it at that time.

The seventh grade of the Plymouth High school held a picnic at Walled Lake, Wednesday. Miss Jewell accompanied them.
