UNION SERVICES IN THIS CHURCH AT 10 A. M.

THE PASTOR WILL PREACH—SERMON THEME:

"THE DIVINE URGE"

This will conclude the summer union services. There will be no evening services on account of the Chautauqua program.

Sabbath-School Will Be Held Following the Morning Service

Next Wednesday evening, August 25, at 7:30, the pastor will begin a series of discussions on "The Voice of God in Nature and in Men." The first topic will be, "God's Voice In the Trees." I Chronicles 16:23-34; No's. 24: 5, 6.

A HEARTY WELCOME TO ALL

FATAL ACCIDENT IN P. M. YARDS

YARDMASTER FRANK S. LOSEE DIES FROM INJURIES RECEIVED IN LOCAL RAILROAD YARDS LAST FRIDAY.

Frank S. Losee, yardmaster of the Pere Marquette yards in this city, was fatally injured Thursday afternoon of last week, when he was struck by a section of a locomotive. He was immediately rushed to the Lincoln hospital in Detroit. His wife reached the hospital soon after his arrival, and remained with him until the end. He never regained consciousness and passed away at 3:00 a. m., August 13. The funeral was held at the home of his brother-in-law, J. F. Brown, in Plymouth, Sunday, August 15th, at 2:00 p. m. The services were conducted by Rev. C. S. G. Boone of Kirkwood, Missouri, who was formerly his pastor at Saginaw. Miss Nellie Huger of Plymouth, sang, Harry Strickland, Tom Towers and William Hickey of Saginaw, and Edward Drews, Stephen Boyd and Mr. Trickett of Plymouth, acted as pall bearers. The floral offerings were beautiful, among them being a large wreath from the P. M. employees of Saginaw, and one from the P. M. employees of Plymouth; also two pieces from the First Baptist church of Saginaw, besides many from relatives and friends. Burial was in Riverside cemetery at Plymouth. He leaves his wife, one daughter, Mrs. H. W. Hovey of Wabash, Ind., three brothers and a host of friends to mourn his loss. He was formerly assistant yardmaster at Saginaw, and was only recently transferred to the Plymouth yards.

PATCHIN SCHOOL REUNION

A PLEASANT GATHERING OF FORMER PUPILS WAS HELD ON SCHOOL GROUNDS LAST SATURDAY.

The reunion and picnic of the Patchin school in Nankin township, took place last Saturday. Although the weather was not all that could have been desired for an event of this kind, yet there was a greatly number gathered on the old school grounds to renew school-day acquaintances and enjoy the program provided for their entertainment. At the noon hour a basket picnic dinner was served. After the dinner hour, Fred Gensy made a few remarks of welcome, and then followed a fine program of recitations and music. One of the pleasing features of the occasion was an exhibit of old relics, some of which were more than 100 years old. Visitors were present from St. Johns, Caro, Detroit, Ypsilanti, LaPier, Plymouth, Wayne and other places. The event was a most pleasant one for all present.

PLYMOUTH WINS TWO GAMES

The Plymouth Buicks defeated the All Star Midget team of Detroit, on the home grounds, last week Thursday afternoon, shutting the visitors out with a 6 to 0 score. German was in the box for Plymouth, and pitched a splendid game.

Last Sunday the Buicks went to Holly and defeated the strong team of that town by a score of 14 to 4. Holly had won the district before they had met the Plymouth team.

THE BIG LIVONIA PICNIC

THE SECOND ANNUAL HOME COMING AND PICNIC OF LIVONIA TOWNSHIP TAKES PLACE, THURSDAY, AUGUST 26TH.

The second annual home coming and picnic of Livonia township will take place, Thursday, August 26th, at Spring Lake Farm, four miles east of Plymouth, on the Plymouth road, one mile east of Newburg. Great preparations are being made by citizens of the township to make this a memorable event in the annals of the township. The home coming and picnic last year was a great success, the attendance being in the thousands. It is expected the entertainment next Thursday will surpass that of last year, the sports beginning at 10 o'clock in the forenoon with a ball game. From then on there will be something doing all day and evening. At 7 p. m. addresses will be given by H. F. C. Martindale and P. W. Vachies. Another ball game in the afternoon is scheduled between the Detroit Police Department and the Farmington team. Dancing afternoon and evening. Stone's ten-piece orchestra and singer will furnish the music for the day. High-class people will also undoubtedly attend in large numbers. See program elsewhere in this paper.

COLLEGE STUDENTS HONORED

Four young people who will be attending school in distant colleges next year, preparing for special christian work, were honored guests at a social gathering on the social rooms of the Methodist church, last Friday evening. Misses May Hill and Lorena Terry will be at the National Training school in Kansas City; Miss Nellie Huger at a Training school in Chicago, and Howard Burden, who will continue his studies at Albion college. The evening gathering was a handkerchief shower in their honor, and many pretty and useful gifts showed the high regard of their friends for them. The Epworth League and the Missionary societies joined in the event, the refreshments being furnished by the latter organization. A pleasant evening of games and charades was enjoyed.

CHILDREN ENJOY PARTY

About fifty boys and girls of the primary department of the Methodist Sunday-school were entertained at an automobile party, Thursday afternoon of last week. Eight automobiles left the church at two o'clock, filled with happy youngsters carrying flags. After an hour's ride by the way of Northville, the children were returned to the church and the remainder of the afternoon was spent in playing games in the park, until refreshments of ice cream and cookies were served. A happy time was enjoyed by the little folks, and the committee wish to thank those who so kindly furnished cars and made the treat possible for them.

SALVATION ARMY BAND COMING

THIS GREAT MUSICAL ORGANIZATION WILL GIVE A FREE CONCERT HERE SATURDAY EVENING, AUGUST 28.

Arrangements have been made to bring the Salvation Army band of Detroit, to Plymouth, on Saturday evening, August 28th. This band, which is composed of fifty musicians is one of the greatest musical organizations in the country, and their concerts are worth going miles to hear. Many Plymouth people went to Ypsilanti to hear them give one of their programs recently. The concert will be given on Penniman avenue, and arrangements will be made to seat as many people as possible. The concert will commence at eight o'clock and conclude at 11 o'clock. Keep this great musical event in mind, and come to Plymouth, Saturday evening, August 28th.

THE BRIGGS SCHOOL REUNION

FORMER PUPILS AND TEACHERS GATHERED AT THE BRIGGS SCHOOL FOR PICNIC AND REUNION LAST SATURDAY.

Although the morning of August 14th seemed to usher in anything but a pleasant picnic day, clouds were lifted late in the day over a gathering of more than 150 people, some of whom had journeyed back to the old school grounds for the first time in many years. The meeting of old friends was a joyous one, especially for those who were schoolmates as many as forty years ago.

At 1:30 a beautiful lunch was served in real picnic style, supplemented by ice cream cones later.

The occasion was made happier by music rendered by Patterson's orchestra and by Mrs. Bake of Plymouth, who sang two solos; also by Elmer and Austin Whipple in two duets.

Mrs. Williams of Plymouth, a former pupil of the school, remarked in an interesting manner about her early school days. Charles Eckles of Genesee county, and Claude Henderson of Mt. Vernon, Washington, also spoke briefly of school days.

Others were present from Pontiac, Milford, Detroit, Grass Lake and Ovid.

Officers for the ensuing year were elected as follows: Charles Ely of Farmington, president, and E. F. Alexander of Plymouth, secretary.

After a picture of the gathering was taken, friends parted with the thoughts of another happy meeting one year hence.

THEY'RE GOING BACK

Farmers coming into Plymouth on business tell us the boys are actually going back to the farm, that the much talked of "back to the farm" movement has set in. And the labor bureau of the United States shows that the rural labor shortage is now but 15 per cent against 26 per cent a few months ago.

It is due to the fact that there has been a sort of slowing down in the industries. In several sections the mills and factories have been gradually reducing their forces, and as they had drawn their labor from the farms, the laborers naturally returned to the farms. One great tire manufacturing concern that not long ago had agents going through the country inducing boys to give up

their work on the farm and go to the city, has lately discharged 12,000 employees and practically all of them have returned to their homes.

But the main thing that has sent the boys back to the farm is the increased wages. That is the thing, in fact, that must always regulate farm labor—the wage. When farmhands were paid twenty-five or thirty dollars a month, a fellow finds that at the end of the year he has more money than he would have in the city, and he is going to seek a job on the farm. It is simply a process which keeps everything properly balanced, and it can be but a short time now until the factories will have reduced their forces to normal and the farmer will have his greatest problem solved—how to get the farm labor he needs and must have.

WHEN DEATH COMES

If you would see the difference between living in a town the size of Plymouth and in a large city, be near when death comes. As terrible as

the going away of a loved one proves at any time, in any place or under any conditions, there seems to be a different sort of sympathy abounding in the smaller town, a different kind of an atmosphere in which to mourn.

The big city has its multitude of troubles. The struggle for existence is more strenuous and men and women have not the time, or they do not take the time, to cultivate acquaintances and friendships as deep-rooted as we find in the smaller towns and in the rural communities. As a result, when death comes in the big city there is no pause in the daily grind of that big city. True, there are as good and as kindly folk in the big city as may be found elsewhere, but they haven't had time, or they haven't taken the time, to let their neighbors find it out. So a few loving friends gather a funeral attended by considerable formality is held and the body carried to its resting place by pall-bearers scarcely known to the mourners, and in many instances by paid pall-bearers. And if it happens to be that death comes at such a time as to make a Sunday funeral bedding, even that must be foregone, for most of our larger cities forbid burials on Sunday.

In the small town when a loved one passes there is outstretched from all sides the hand of fellowship, of help, of genuine love and sincere sorrow. There is no cold formality, there is instead an atmosphere of love which brings the whole community into closer touch. Death is an awful thing at any time or place. But it is robbed of much of its terror, of much of its pain when it occurs outside the big city.

CHAUTAQUA WEEK IN PLYMOUTH

THE REDPATH CHAUTAUQUA OPENED A SIX DAYS' CHAUTAUQUA HERE THURSDAY.

THE BIG TENT IS LOCATED IN THE PARK BACK OF THE PRESBYTERIAN CHURCH.

The Plymouth Redpath Chautauqua opened Thursday afternoon at 2:30, and the evening program at 7:30. The program Thursday afternoon was given by the Premier Singers and players. They gave a grand concert, consisting of both vocal and instrumental music. Thursday evening the Premier Singers gave a musical prelude of thirty minutes, after which Dr. George L. Parker of Boston, Mass., gave a lecture on "Russia and the Bolsheviks." Dr. Parker has lived in Russia for more than three years. During that time he was pastor of the Federated British-American church in Petrograd, Russia. He gave some interesting information concerning this great country and timely subject.

The program for the remainder of the week will be found in the printed programs left in your home. If you do not have a program you may secure one from the limited number at the tent.

The fifth day's program, which is omitted from the printed program, is as follows: The Artists Trio is the organization that will furnish a full afternoon's program and prelude at night. This company is composed of Miss Berger, contralto; Miss Massman, accompanist, and Mr. Hamp, tenor. Mr. Hamp is a tenor of very unusual ability and Miss Berger is a most excellent contralto. Miss Massman is a teacher in one of the best known Chicago musical colleges, and the program given by the three will be enjoyed by all.

After the prelude, Monday night, Madison M. Mahany will lecture on "Mexico and South America." He has lived in both of these countries for the past twelve years, and acted as a commercial agent for the United States Bureau of Foreign and Domestic Commerce in connection with the South American trade investigation.

The other big features of Chautauqua week will be announced in detail from the platform.

THE RIGHT MAN FOR THE PLACE

Six and one-half years' experience in the prosecuting attorney's office has fitted Paul W. Voorhies for prosecutor of Wayne county, declares the Voorhies-for-Prosecutor Club. Telling of his civic activities and professional standing, it says:

"Mr. Voorhies goes before the people of Wayne county with the pledge to enforce the law, and with the disposition and ability to carry out his word. He will co-operate with the police department and the courts in their determined campaign to drive crime from the city and county. Mr. Voorhies is a criminal and civil attorney of unusual ability. He spent six and one-half years as assistant prosecutor and chief assistant prosecutor, under the administration of Hugh Shepherd, Allan H. Fraser and the late Charles E. Jasmowski. His experience has covered every branch of the work of that office. No angle of the work can be new to him.

"He has battled against the ablest lawyers of Detroit; he has tried and convicted the cleverest criminals, and he has furnished opinions of vital importance to every department of the county government.

"His candidacy is of particular timeliness at a period when the new Municipal court, which is making handiwork unpopular, is being established. He helped draft the law which created this court, and he fought for its success before the legislature and the people. If he is elected he may be relied upon to work in unison and complete harmony with the judges of the new court and with the police. His own statement is:

"If the voters choose me as their Community Attorney, I shall enforce the law—a prosecutor's prime duty.

"I shall co-operate with the police department and the city and county courts to stamp out violence and crime.

"I am under no pledge or promise, and if I enter this office, it shall be with entire freedom to execute its duties in the interests of all the people."

Mr. Voorhies was born in Plymouth, Wayne county, forty-four years ago, graduated from the University of Michigan, was chosen as school trustee and village attorney for his native town, and served as assistant prosecuting attorney and chief assistant prosecutor for six and a half years. For the past two and a half years he has been engaged in private practice.

Mr. Voorhies is married, and has two children. In this plain American home we find at all times the fine devotion and purity of private life, which forms the to-be-expected background for such a distinctly creditable business, professional and public career as has been his.

**STATE FAIR PLANS
FUR ANIMAL SHOW**

FARMERS TO BE SHOWN POSSIBILITIES OF UTILIZING WASTE GROUND AND FATTENING THEIR POCKETBOOKS.

**EXPERTS TO GIVE ADVICE
AND EXHIBIT ANIMALS**

G. W. Dickinson, secretary-manager of the Michigan State Fair, in line with his policy of offering to the people of Michigan in the great exposition they own at Detroit as many things of real constructive benefit to the state and its citizens as possible, this year has arranged to have presented at the fair Sept. 9-12 an exhibit of fur bearing animals. Efforts will be made to show the farmers of the state just how they can benefit by raising fur bearing animals and experts will be present to secure and give advice.

"Nearly every farm," said Mr. Dickinson, "has some waste land which can be put to practical use by raising fur animals and which can be made to pay a big profit. Obtaining furs by domesticating the animals also does away with the expense that is attached to catching them in traps where they must die slowly and in agony. Fred C. Fenwick, vice-president of the National Fur Breeders' Association, is to have charge of the exhibit and will be there all the time to assist those who might be interested in raising fur bearing animals when they learn of the possibilities offered."

The exhibit will contain these animals: 10 pairs of black and silver fox, two pairs of red fox, two pairs of cross fox, one pair of blue fox, one pair of white fox, one colony of 12 skunks, one colony of 12 coons, one colony of beaver, one colony of 12 muskrats, one colony of mink, two pairs of weasels, one pair of martens, one pair of ermine, one pair of sable, one pair of wolves, one pair of badgers, two pair of woodchucks, two pair of grey squirrels, one pair of black squirrels, two pairs of fox squirrels, one pair of cub bears and two pair of deer.

**Fair's Baby Show
Makes Her Queen**

This little lady was a queen for a day last year and thousands of Michigan people bowed down in homage before her. She was one of the first prize winners at the Michigan State Fair baby show. Eileen's home is at Birmingham, Mich. She is expected to be entered in the baby show again this year.

The State Fair baby show draws the interest of all Michigan each year. Hundreds of babies have been enter-

EILEEN LANE PINE

ed already this year and the entries do not close until Sept. 1. Besides the chance of their babies winning the honor of being declared the best baby in Michigan, parents have the opportunity of obtaining free at the show a complete physical examination for their children. Dr. E. P. Mills who will be in charge of the judging this year will issue to each mother a card showing in detail the exact physical condition of her child.

**TROTTERS AND PACERS
TO GO AT STATE FAIR**

Trotters and pacers are to return into their own at the Michigan State Fair, Sept. 9-12. Two days, Sept. 9 and 11, have been set aside for horse racing. It is believed the best horses on the Michigan short track circuit will be entered.

Shows will be held on the half-mile track in front of the grand stand and the grandstand will be open to the public from 10 a. m. to 10 p. m. on Sept. 9-12.

More than a month before the day set for the opening of the Michigan State Fair this year, Sept. 9, all of the concession space had been taken.

Elite blooded horses of the Gross Pointe Hunt club are being groomed now for the big show at the Michigan State Fair, Sept. 9-12.

BEAVERS DO MUCH MISCHIEF

Property Owners in the Adirondacks Are Uneasy Over the Situation They Have Created.

Because the limited intelligence of the beaver goes no further than its own immediate purpose, owners of property in the Adirondacks are wishing that the beaver was less industrious and seriously wondering what is to be done to stop the increasing number of these willing workers from decreasing the value and beauty of this famous region. The forest rangers of the conservation commission, says a writer in the Albany Journal, last summer estimated the undesirable results that had followed the building of nearly 600 beaver dams, and found that an area of about 8,681 acres had been flooded, and something like \$61,000 worth of good merchantable standing timber was being destroyed. Considering that the number of beavers, now estimated at about 18,000 is believed to be increasing about 3,000 a year, the damage bids fair to become a serious problem. Not only do they destroy valuable timber, but they are steadily changing the character of the Adirondack scenery along the water courses and altering the shore line of the lakes; yet the region without any beavers at all would not be the Adirondacks as nature made it and as those who now go there to enjoy its beauty like to find it. Time was when the beavers seemed likely to vanish, and the state took them under its protection; now the danger seems to be that they are so well protected that they will eventually "come back" in numbers out of proportion to the normal population of beavers when the Adirondacks were subject to the conditions of life in a wild country.

NUMBERS IN EAST AND WEST

Differences of Opinion as to Whether Odd or Even Figures Are Lucky or Unlucky.

We are pleased to term thirteen an unlucky number, observes London Annumers, but in Japan the unlucky number is four, and in Burma even numbers are all considered less lucky than odd ones.

Our lucky numbers, or what are generally considered so by superstitious folk, are three and seven. If you ask the reason you are told that God is Three in One, and that God made holy the seventh day.

As for seven, this number is supposed to be lucky either by itself or in its multiples. As an old writer says, a boy sheds his teeth at 7 years old; at 14 he becomes a youth; at 21 a man; while he reaches his grand climacteric at nine times 7--that is 63.

The figure three is extraordinarily prominent in the Bible. Noah had three sons, and Job three friends. There were three patriarchs. Daniel's three companions were thrown into the fiery furnace, and he himself was three days in the lions' den.

Had Lots of Pluck.

George Thibault, proprietor of the summer hotel at Outlet, a village a few miles from Picton, Ont., was driving his car towards home recently when he chanced to meet a herd of cattle. The owner of the auto slowed down to allow the animals to pass without undue excitement. All went well till he met the leader of this large bovine family, a splendid young roan bull. The latter resented the presence of the mechanical contrivance bearing down through the herd on low gear. Lowering his massive head, he charged, resulting in only a few bruises to himself, but a twisted axle, a badly bent fender and a smashed headlight to the unfortunate motor. As Mr. Thibault inspected the damage he remarked emphatically: "I certainly admired his pluck, but he showed poor judgment."

Ice Cut With a Gas-Driven Saw.

For the purpose of cutting ice expeditiously during the last winter, there was devised a saw of an automobile type power plant and a circular saw at the end of an adjustable arm so that the saw can be raised and lowered to the desired degree. The saw is pushed along on steel runners, the operator behind furnishing the motive power. A double lever arrangement just over the handle bars serves to control the raising and lowering of the saw. The portable saw in question cuts the ice into 20-foot squares. These squares are guided through the water to a gang of four circular saws, which cut the squares into the regulation sized cakes.

The Airplane in Politics.

Mr. Holman, the former New South Wales premier, rejoices in the huge electorate known euphemistically as Cootamundra. On the eve of a very warmly contested election, Mr. Holman recognized that Cootamundra had 18 large centers, each of which required a personal canvass in order to insure the return of its present representative. He announced, therefore, that he would use an airplane to cover the electorate. Not to be outdone, his labor opponent at once made plans to use propaganda by airplane over Mr. Holman's route.

Insulating Material.

A new heat-insulating material composed of a mixture of a special clay and cork has been discovered by a Norwegian engineer. The clay and cork mixture is burned and the result is the formation of a very light substance that is said to be eminently suitable for all heat-insulating purposes.

A Traveling Man's Experience.

You will remember the following by W. H. Ireland, a traveling salesman of Louisville, Ky.: "In the summer of 1883 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He did not substitute. I took the first dose of it according to directions and went to sleep. An hour later the pain ceased and I was called by my wife and took the train for my next stopping place. A well-known doctor at the station told me to take the medicine again. I did so and was cured. I have since used Chamberlain's Colic, Cholera and Diarrhoea Remedy in many cases and have never failed. It is a wonderful medicine. I have since used Chamberlain's Colic, Cholera and Diarrhoea Remedy in many cases and have never failed. It is a wonderful medicine. I have since used Chamberlain's Colic, Cholera and Diarrhoea Remedy in many cases and have never failed. It is a wonderful medicine."

**FIREWORKS TO CELEBRATE
SIEGE OF DARDANELLES**

Even surpassing the "Battle of Chateau Thierry" of last year G. W. Dickinson, secretary-manager of the Michigan State Fair this year has arranged to have presented at the fair Sept. 9-12 the "Siege of the Dardanelles in fire works."

Each night during the 16 days of the fair there will be a complete program on the race track before the grand stand which will include some of the biggest of the big circus acts, winding up with the "Siege of the Dardanelles."

Charles H. Duffield, of the Theatre-Duffield Company, masters of pyrotechnics, asserts that the "Siege of the Dardanelles" is the most graphic scenic display his company ever has presented. Warcraft of every description will gather in a big scenic setting representing the historical events and will show how the great bombardment was conducted. Turkish and German ships will be cut and give battle to the Allied fleet and with the rolling sea, depicted by flames the great blasting ships will battle each other until the Turks and Germans are sent reeling back behind the ramparts of low hills and Turkish fortifications.

Today's Reflections

Maybe sugar is dropping in price because most everybody now has a supply of it on hand.

Many a Plymouth father would like to know why a child is always so affectionate just when its hands are covered with candy.

One thing to be thankful for in the vacation season is about over and we won't get many more post cards bearing the words: "Wish you were here."

Being in the newspaper game, Cox and Harding should put their pleas under the "Situation Wanted" heading.

Plymouth business men should remember that a short answer turneth away customers.

No need in trying to buy coal before it goes higher, for it goes higher while you're on the way to the dealer.

Another good way to enjoy a summer vacation is to stay at home and forget all about it.

"How can we cure our present ills?" a Plymouth man asked yesterday. That's easy. Go to work.

They've struck an oil well in Mexico that flows 60,000 barrels daily. Even that won't make things run any smoother in Mexico.

If Plymouth man never has anybody to tell him what he'd do if in his place, then he is indeed friendless.

Why is it that a candy store is always on the ground floor and a dentist's office is usually upstairs?

Don't fool yourself into believing that there is a good-looking woman in the world who doesn't know it.

A Plymouth chicken always comes home to roost unless it remains away to roost.

Bring on your subscription for another year—we've got our speech of acceptance ready.

Nowadays the real "harvest" moon is the one in moonshine.

What has become of the old-fashioned Plymouth family that used to reach the conclusion every once in a while that it ought to economize?

STATE NEWS

Iron Mountain—One of the world's largest paper mills is to be built here by the Kimberly-Clark Co.

Hilledale—Guy Fox, principal of Hilledale high school, has accepted a position as principal at Leadville, Colo.

When Better Automobiles Are Built, Buick Will Build Them

THIS big seven passenger Buick Model K-49 is the ideal family car of the Buick series. Its large roomy tonneau and luxurious seats are filled with comfort.

Its finish and design combine both beauty and refinement, readily attracting the attention of those who take pride in ownership.

The Buick Valve-in-Head motor furnishes surplus power, assuring the usual Buick economical service and endurance.

These qualities of construction have increased this car's popularity to such a degree that purchasers who delay in placing their orders experience difficulty in securing desired delivery.

For
Prosecuting Attorney

PAUL W. VOORHIES

REPUBLICAN PRIMARIES,
AUGUST 31

The Detroit News Says:

By inducing Paul W. Voorhies to become a candidate for the nomination for prosecuting attorney, the people of Detroit have accomplished a distinct forward step in the movement to make Detroit a safe place to live in, of which the new municipal court is the point of focus.

In this instance it is emphatically true that the office has sought the man. The people of Detroit could hardly do a better thing for themselves and for the cause of good order and obedience to the law than to elect Mr. Voorhies. He is decidedly the right man for the place.—Editorial, June 28, 1920.

The Detroit Free Press Says:

"In the opinion of the Free Press the candidacy of Paul W. Voorhies for the position of prosecuting attorney gives the voters of Wayne County an opportunity they cannot afford to overlook. Mr. Voorhies has had extensive experience as assistant and as chief assistant in the office he now aspires to conduct; and his record for conscientiousness and efficiency is exceptional. When all of Mr. Voorhies' qualifications are taken into consideration, he seems to us to be decidedly the man Wayne County needs on the job. The voters may cast their ballots for him confident that they are performing their duty by the community"—Editorial, July 30, 1920.

JAFFA GATE IN JERUSALEM

Passageway Through Which General Allenby Entered Is the Real Article, Writer Says.

Jerusalem has seven gates and a transportation problem hampered at present, as of old, along purely Eastern lines. There are donkeys, horses, camels—even carriages and the ubiquitous filver and all that traffic concentrates naturally at the gates, just as, to increase its force, water used to be made to flow through a small opening in the old-fashioned tide mills at home. As for telephones, who that can shout from roof to roof and down the echoing street should trouble himself to whisper into a funnel?

My windows are well placed, for I can watch the crowd thronging in and out of the Jaffa gate, writes William D. McCracken in Asia. This is the widest opening the city has, since William II of Prussia had it enlarged to permit his spectacular entry—a symbolical pageant that he staged to represent his taking possession of the holy city by agreement with the sultan in Constantinople. But wide is the gate which leadeth unto destruction. The real Jaffa gate is a narrow one at the side of the wide passageway; and this was the one used by Gen. Allenby when he entered Jerusalem after its capture, modestly, on foot, carrying the cane that the British officer affects as his only scepter of power. This gate is now closed with heavy iron bars and will not be reopened until the exact political status of Jerusalem has been determined.

MAYOR NOT LIGHTLY CHOSEN

Chief Executive of City of London Is Called Upon to Fulfill Many Requirements.

Sir William Treloar, in his recently published book, "A Lord Mayor's Diary," points out that the chief magistrate of the city of London is chosen in quite a different manner from that adopted by any other municipality in the kingdom, remarks London Answers.

Instead of being elected by the members of the corporation, or council, who may, and often do, for political party reasons, choose someone who has never done suit or services to the town, London's lord mayor can be chosen only from those who have served an apprenticeship of some years to the corporation.

He must first be elected an alderman by the ratepayers of his ward, and accepted and sworn in by the court of aldermen; then he must have served the office of sheriff, to which position he has to be elected by the liverymen, and afterward approved by the sovereign.

Then, and not till then, is he eligible to ask the liverymen to elect him as lord mayor; the court of aldermen afterward again having the power to refuse him, the approval of the sovereign being also again necessary before he can take office.

THE U. S. NAVY
Passing Through the Canal.

The U. S. S. Wyoming and the U. S. S. New Mexico are shown here passing through the Pedro Miguel locks of the Panama Canal.

The electric engines along the side of the locks are called "mules" in deference to their four legged predecessors—they have just hauled the battleship through the locks. If you are interested in mathematics you might figure out how many old style mules it would take to do the job.

The Wyoming at the left, is moving out to the lower level, and as soon as the water in the other lock is let out to the correct level the New Mexico will move ahead.

This picture was taken from a U. S. Navy flying boat, during the recent trip of the Pacific Fleet to the West Coast. They were royally received at all of the ports along the trip.

U. S. NAVY
The Happy Life.

Not worried very much about the High Cost of Living, are they? And why should they be? Jack gets the same amount of meat, sugar or potatoes at present day prices as when they cost only one-third as much.

And the Canteens on board sell him candy, cigars, tooth powder, shaving soap, and all his other needs at cost, plus only ten per cent profit. This profit goes into an athletic and entertainment fund, furnishing him with movie films, athletic equipment, and other play time necessities, for nothing.

It's a hard life; that's the reason the fellows in the picture look so worried.

U. S. NAVY
Carpentry School.

There's no telling what will happen when a novice carpenter is set loose on a nice pine board.

The Navy's trade schools teach everything from boiler making to watch making. Carpentering is one of the most popular of the trades, and it is one of the most profitable with which to return to civil life.

A three or four years enlistment will give a man time to become a master carpenter, providing always that he is serious and really applies himself to his work.

Five or six years from now some of the above men will be earning good money building houses. Others will be in the service at advanced pay and still improving their knowledge of the trade.

U. S. NAVY
Jack's Reading Room.

The men's quarters on our new battleships are more luxuriant than the Admiral's quarters of fifty years ago. This is a corner in the reading room of the U. S. S. New Mexico. A big library and complete file of current magazines, as well as newspapers from all the large cities, help to take care of any stormy hours when Jack may not prefer to be on deck.

A good title for this picture would be, "Why boys leave home," and the best part of it is that they come back real men.

The Samson Model "M" tractor is just what you need for all belt-power work. It will operate the buzz saw, irrigating pump, rock crusher, corn-sheller and all other such machines.

SAMSON

Model "M" Tractor

is a tractor that does not need a big pocketbook to buy and maintain. Powerful at drawing bar or belt, enables you to plow at the right time, thus securing you bumper crops at your next harvest. Some manufacturers charge extra for belt-pulley. We furnish it free. With the Samson you have ample power for the separator, silo-filler, large feed grinder or any work you may care to do.

Automatic Governor

is furnished regular equipment, is absolutely necessary for the successful operation of a tractor. When the tractor encounters hard soil in plowing or the power required on belt work is variable the governor automatically opens the throttle to take care of the difference in the power.

Simplicity of Control

The Model M is built along simple, practical lines. Samson fenders are regular equipment; platform and seat allow more comfort for the operator. Any man, woman or boy can operate the Samson. You do not have to be an engineer.
