CITIZENS MAY VOTE ON BOND ISSUE

ENGINEER MAKES REPORT REGARDING THE NEEDS OF INSTALLING ADDITIONS FOR ADEQUATE WATER SUPPLY FOR PLYMOUTH.

WILL MEAN ELECTRIC PUMPS NEAR SPRINGS AND RESTORATION OF OLD RESERVOIR.

In the very near future the citizens of Plymouth may have an opportunity of voting on a bond issue to improve the present water system, which has become inadequate for our needs.

For some weeks past Prof. A. J. Decker of the engineering firm of Hoag & Decker of Ann Arbor, has been making a survey of our water system, and formulating plans whereby we can get a greater supply of water that will meet our needs.

REV. FRANK M. FIELD RETURNED TO PLYMOUTH BY DETROIT CONFERENCE AS PASTOR OF FIRST METHODIST CHURCH.

At a meeting of the Detroit Conference, held in Bay City last week, Rev. Frank M. Field was returned to Plymouth for the fifth year. For several days it was uncertain as to whether Rev. Field would be returned or not. He received an urgent invitation to return to the pastorate of the First Methodist Church of Bay City, and also an invitation from the Detroit Conference to return to Plymouth for one more year.

During the four years of Rev. Field's pastorate of the local church, it has made a wonderful growth in every department of its work, until today it is considered to be one of the most prosperous churches in this district, and the place it now occupies is largely due to the untiring efforts of its pastor. The members of the church and the citizens of Plymouth in general are much pleased that Rev. Field and his estimable family are to remain as residents of Plymouth for another year at least. Only one other pastor besides Mr. Field has ever been returned to Plymouth for the fifth year, and that was the Rev. W. G. Stephens.

At the recent conference the Plymouth church has been made the head of the Newburg circuit, comprising the churches at Newburg, Beech and Perrinville. The Newburg circuit will be served for the coming year by a pastor yet to be appointed, this matter being in the hands of the new district superintendent, Dr. A. B. Leonard.

PROMINENT CITIZEN DIES SUDDENLY

A. A. TAFFT EXPIRES SUDDENLY IN AN AUTOMOBILE WHILE RETURNING FROM DETROIT TO HIS HOME IN PLYMOUTH LATE TUESDAY AFTERNOON.

The citizens of Plymouth were greatly shocked Tuesday afternoon, to learn of the sudden death of one of its best known citizens, A. A. Taft, which occurred while he was returning from Detroit to his home in this village in an automobile, accompanied by his brother-in-law, D. E. Kellogg. Mr. Taft was taken ill during the afternoon, and a physician was called. Later in the afternoon he felt so much better that it was decided that he could be brought home in an automobile. Mr. Taft had been in poor health for some time, but felt unusually well on the morning he left for his place of business in the city, and his sudden demise was entirely unexpected by his many friends here.

Highly respected citizens. For many years the deceased was a prominent merchant of Plymouth, having begun his mercantile career as a clerk in the store of the late Calvin Crosby. Some years ago Mr. Taft disposed of his business here and associated himself with his brother-in-law, D. E. Kellogg, in the wholesale millinery business in Detroit, but still making his home in Plymouth.

Mr. Taft was a life-long resident of Plymouth. He was the son of the late Hiram and Elizabeth Taft, and was the last of a family of five children. He was 68 years of age. On March 22, 1882, he was married to Miss Ida Kellogg, who survives him. Mr. Taft was a member of Plymouth Rock Lodge, No. 47, F. & A. M.

The funeral services will be held from his late home on West Ann Arbor street, this Friday afternoon, at two o'clock, Rev. S. Conger Hathaway officiating. Interment in Riverside cemetery.

The family have the sympathy of the community in their sorrow.

About two months ago a gasoline driven centrifugal pump was installed 1000 feet east of the springs, and tests have been made of the effects of pumping, both with the pumps at the springs and the pumps in the village, separately and together. A flow test was also made of the capacity of the springs in the woods with the open spring shut off. The flow test indicated that the capacity of the springs in the woods was 666,000 gallons per 24 hours. This capacity is with the present pipe layout in the woods.

As the maximum quantity of water used in the village is estimated at 600,000 gallons per 24 hours, there seems to be little surplus under present conditions.

At a special meeting of the village commission, last week Thursday afternoon, Prof. Decker gave a verbal report of his findings. A few of the business men were invited by the commission to hear Prof. Decker's report, as it was impossible to call a public meeting on so short a notice as they had that Prof. Decker would be here that day. In the opinion of Prof. Decker, the situation of the village as regards its water supply is critical and dangerous. His recommendations to remedy the situation are as follows:

The sinking of a well about twenty feet in diameter and twenty feet in depth near the east of the village, with side walls raised sufficiently to enable the capacity to be increased from the original 900,000 gallons to one and one-third million gallons.

The present pipe line from the springs to the village is estimated to be of ample capacity with the aid of the pumps to supply three or four times as much water as is being delivered at the village at the present time.

The present elevated tank was declared to be a valuable part of the system. The installation of water meters was shown to be inevitable and the most logical thing to do.

Prof. Decker only made a rough sketch of the cost of the improvements as outlined above, but thought \$25,000 would cover the cost of the construction of the well at the springs and \$35,000 to rebuild the reservoir. These two improvements will of course call for the greatest outlay of money.

The commission and the other residents present discussed with Prof. Decker his report, and with President Services acting as chairman, a motion was made and carried, that it was the sense of these present that the village commission proceed as promptly as possible to lay before the voters of the village, at a special meeting, the question of levying a tax to cover the cost of the improvements as outlined by Prof. Decker in his report.

DEATH OF BONNIBEL CARR

Bonnibel Carr, aged seventeen years, daughter of Mr. and Mrs. John Carr of this place, passed away Monday morning, at the Northville hospital, where she was taken last Friday. She is survived by her parents, four brothers and two sisters, all of whom reside here. The funeral services were held from the Methodist church, Thursday morning at ten o'clock, Rev. F. M. Field, pastor of the Methodist church, of which she was a member, conducting the services. Interment was made in Riverside cemetery.

Mr. Carr and family have been residents of Plymouth for only a few months, having moved here from Ohio about a year ago. Plymouth friends deeply sympathetic with the bereaved family in their affliction.

THEODORE ROOSEVELT IN PLYMOUTH MONDAY

Theodore Roosevelt was in Plymouth for a few minutes Monday morning enroute to Flint, and spoke briefly from the rear platform of the 8:53 Saginaw train at the local station. Cass R. Benton of Northville, introduced the Colonel, and although it was a rainy morning, and little notice could be given of his arrival, there was a goodly number of Plymouth and Northville citizens at the station to greet the son of that great American, the late Theodore Roosevelt, ex-president of the United States.

SERVICES IN NEW EPISCOPAL CHURCH

The new St. John's Episcopal church, which has been erected on Union Street, is now ready for occupancy, and the first public service will be held on Sunday, October 3, at 2:30 p. m. The service will be held in the new church, and will be conducted by the Bishop of the Diocese and assisted by other clergymen. The church is a beautiful structure, and is well equipped for the service of the community.

GREETINGS! TO THE PEOPLE OF PLYMOUTH

Having been appointed to the pastorate of the Plymouth Methodist Church for the fifth year, I return with gratitude to Almighty God for His goodness, and with high hopes for the year before us.

It shall be my aim to serve all people in the community in the spirit of Him who "came not to be ministered unto, but to minister," to further the cause of Christ and humanity here, and in all things to honor the Lord Jesus Christ, whose servant I am.

I will speak more personally to all who will come, Sunday, October 3, at 10:00 a. m. and 7:30 p. m.

MOTOR CAR THEVES

The recovery by Chicago detectives of autos valued at \$50,000, and the location of other stolen cars worth as much more in a Michigan town, ought to be sufficient to make the Plymouth owner of an auto sit up and take notice. It gives, however, but a faint idea of the extent to which automobile thievery has developed in America.

Automobile manufacture, of course, is a colossal business, and everything connected with it is on a corresponding scale of magnitude. Yet the apparent growth of automobile stealing into an organized industry of vast proportions is calculated to excite astonishment. For thefts of horses representing a far smaller property loss than that suffered by Chicago motor car owners alone, vigilance committees were once organized and men hanged. And if automobile larceny can attain these dimensions in one locality, what is the possible sum total of it for the whole country?

So far the depredations of motor car thieves have been viewed as a local police problem. But the status of the automobile as a vehicle of interstate transit and the peculiar facilities it affords the thieves to dispose of a stolen car in a city far distant from the scene of the theft makes the question of the detection and punishment of automobile thieves a national one. No doubt it is incumbent on every owner to be his own vigilance committee. But certainly the extraordinary growth of the criminal industry justifies extraordinary measures and drastic penalties to curb it.

CUTTING FIRE LOSSES

It should be of special interest to the people of Plymouth and adjoining territory to know that Uncle Sam is just now congratulating himself and the country over the fact that the fiscal year just closed saw a great reduction in the number of forest fires in this country. For lumber prices here, as everywhere else, are based in a way upon the amount of timber standing, and every forest fire must naturally reduce the supply.

The government report shows that last year forest fires burned over 695,000 acres of national forests and caused a loss of \$485,000 to the gov-

ernment in timber, forage and young growth. In addition to the actual loss in timber and forage, the fires entailed extra expenditures by the government of \$714,000 for the employment of additional laborers to fight the fires, and for the purchase of additional equipment and supplies for the fighters.

There were 5,573 fires in the national forests, and all but 2,457 set by lightning, were caused by human agencies. Railroads caused 618; careless campers were responsible for 943. There were 237 incendiary fires for the most part in Oregon, California and Arkansas. The remainder of them were caused by carelessness on the part of the settlers and users of the national forests. Increased interest by visitors in the preservation of our forests is now greater than ever, and growing each year, so it is to be hoped that but a few years will have passed until the forest fire losses of this nation will be reduced to a minimum.

IT TAKES ALL KINDS

Some few of the men we encounter in our daily life on the streets of Plymouth appear to be for everything that isn't. They have made only a partial success of life, and instead of blaming themselves, they blame the world and those about them. They spend their time fixing up the world instead of themselves, and each one thinks everybody is out of step but him. They race madly from one "ism" to another, looking always for the freedom which man can find only within himself.

Some men are for everything that is and against everything that isn't. They've got a pretty firm grip on the world's supply of goods, or are friendly with those who have that grip. They are members of the firm of Grab and Hang On, and their slogan is "Us for Ourselves."

Most men are not for everything that isn't, nor are they for everything that is. Some of them have and some of them have not. They realize that the world isn't what it ought to be, but they are not doing their best, beginning with themselves, to bring about a better adjustment. Being plain home folks themselves, most of them have old-fashioned faith that humanity is advancing and that, as sure as God lives the future will be better than the past or present.

We could use more of these kind of men, but we've got all and more than we need of the kind who are for everything that isn't.

The Hoisingtons very pleasantly entertained at a corn roast, Monday evening. Guests were present from Detroit, Redford, Newburg and Plymouth.

NEW PASTOR AT BAPTIST CHURCH

Rev. H. E. Sayles of Walled Lake, has accepted the pastorate of the Baptist church at Plymouth, and will occupy the pulpit next Sunday, October 3rd. It has been some time since the local church has had a resident pastor, and the members and congregation are looking forward to a renewed interest in all departments of the church life.

EDERT-BEYER

A pretty but quiet home wedding, was solemnized, last Tuesday afternoon, at 2:30 o'clock at the home of Mr. and Mrs. Fred Beyer on Pearl street, when their daughter, Hulda, was united in marriage to Walter Ebert, son of Mr. and Mrs. Charles Ebert of this place. The ceremony was performed by Rev. C. Strassler, pastor of the Lutheran church, in the presence of only the immediate families of the contracting parties. The bride was prettily gowned in brown charmeuse and georgette, and was unattended. After the ceremony, a dainty lunch was served, and later in the afternoon the happy couple left for a few days' visit at Buffalo and Niagara Falls. Mr. Ebert is in the employ of the Pere Marquette railroad, and on their return they will be at home at 308 Farmer street. They have the best wishes of Plymouth friends for a happy wedded life.

RED CROSS CONFERENCE IN DETROIT

Dr. Livingston Farrand of the National Red Cross, successor to Henry P. Davison, formerly Ch. Exec. Com., will address a conference of State Red Cross representatives at the Board of Commerce, Detroit, Monday, October 11.

The annual enlistment of new members and renewal of old, the Red Cross Roll Call, will be held in the county room Nov. 11 (Armistice Day) to Nov. 25 (Thanksgiving).

Dr. Farrand is well known as having been instrumental in establishing the International Red Cross and during the late war held a position of great responsibility in France. His account of his work in the war-torn countries will prove inspiring as well as instructive. There will be additional talks by other workers on the peace-time program of the Red Cross, the work of the public health nurses, recreation and the continuation of home service among disabled ex-service men and their families.

Mrs. Charles H. Bennett, chairman of the Plymouth branch of the Red Cross at Plymouth, has been invited to attend the conference.

NEIGHBORHOOD HAPPENINGS

ITEMS GATHERED HERE AND THERE THAT WILL BE OF INTEREST TO OUR READERS.

The Fowlerville fair takes place, October 6, 7 and 8.

The Milford fair will have a surplus of about \$1,000 after all expenses are paid.

George R. Dennis of Superior, and R. F. Brockaw of Salem, have been drawn as circuit court jurors for the October term of court in Washtenaw county.

Brighton's new factory, the Gove Motor Car Company, is a sure thing, and the citizens of that village are jubilant.

Sportsmen of Oakland county are planning to organize for the protection of game in that county. A meeting for that purpose is to be held October 6.

Brighton is to have a laundry. D. C. Cooper has purchased the Sawyer evaporator building and will make it over into a modern laundry establishment.

Bert Norris of Green Oak, claims the championship when it comes to growing cabbage and squash. He has a cabbage that measures 48 inches in diameter and weighs 19 pounds and a banana squash that is three feet long.—South Lyon Herald.

Travelers to and from Detroit have been making the trips straight down Grand River at times, but they find that the short detour south from the Huron River bridge

is preferable, as the Grand River road from there to New Hudson is broken up and very rough. The balance of the road, which has been closed to traffic for so long, is now in fine shape.—Brighton Argus.

The Washtenaw good roads commission has purchased from the partnership, formerly known as the Ann Arbor Construction company, their lease and equipment in what has been known as the Kappeler gravel pit on the Pontiac road north of Ann Arbor. This is a great asset to the good roads, as it assures them with a supply of gravel for all townships within reach of the Ann Arbor Railroad company's tracks. It is particularly beneficial to the townships in the southern part of the county, who are without gravel supply except such as may be shipped in.—Ypsilanti Record.

Today's Reflections

Plymouth women love a bargain, but it will be hard to get them to support a cheap politician.

Personally, we are looking forward to a good many Christmas presents, but a wrist watch is not one of them.

Revenge is sweet, but no Plymouth man wants it as a substitute for sugar in his coffee.

In olden days a Plymouth girl could teach school and earn pin money, but that was before the advance in the price of pins.

The former's Kaiser's doctor has quit his job. Even a doctor can't live forever on a reputation.

If we'd give the Bolshevik what he needs instead of what he wants, his breed would soon face extermination.

We ought to also remember that the prodigal son didn't get the fatted

calfe because he had spent all his money, but because he had come to his senses.

Our idea of a favorite son worth having is one who isn't afraid to go to work in event he doesn't land the office.

The coal problem seems to have resolved itself into which we will split up for fuel, the arm chair or the piano.

The man who is always hunting for something for nothing will generally accept advice instead of going to a lawyer and paying for it.

It has been our observation that most Plymouth men are better acquainted with faith and hope than they are with charity.

The pessimist always looks as though he was afraid it would cost him a few cents to look pleasant.

Sometimes, after a Plymouth man has been married in church, it's almost impossible to get him back there.

One thing about high prices, you don't hear of as many hats being bet on the election.

England is going to reduce the price of coal \$1.25 a ton. That looks like one foreign idea that would be worth importing.

Prohibition's claim that it would close up every jail in the country begins to look like a campaign promise.

The Mail would be glad to print school notes from the district schools. Send them in.

Juanita S., a bay mare owned by M. H. Sloan of Northville, won the 2:15 pace in three straight heats at the Adrian fair last week.

STATE NEWS

Lansing—Lansing city council defeated an ordinance to establish a counting board for regular and primary elections.

Holland—Mrs. Hein Van Lente, 76, the last person to be married by Dr. A. C. Van Raalte, founder of this city, is dead. She was married 56 years ago.

Mason—Evert Clark, who left Mason for Pittsburgh, has struck gas in a well in the outskirts of Pittsburgh with an initial flow of 7,000,000 cubic feet.

Gladstone—Miss Lorette Martin, 18, was seriously injured internally when a gasoline velocipede, carrying her and five others, threw them into a ditch.

Petoskey—Six cents as damages was awarded Miss Emily B. Bloss, of Cincinnati, in a false imprisonment action against Sheriff Charles E. Miller.

Pontiac—Six of the 14 men and women nominated as candidates for the first commission under the new city charter have declined to accept nomination.

Standish—Crawford County teachers institute will be held at Grayling, Oct. 22. Assistant State Superintendent G. N. Ottwell, of Lansing, will be conductor.

Albion—Women of Albion are circulating a petition asking the city council to place before the electors a proposition to bond the city for a \$100,000 hospital.

Ontonagon—Forest fires are raging in the vicinity of Green and Cranberry rivers, a few miles west of Ontonagon. Reports say that the situation is serious.

Pot Huron—Commissioner E. T. Blackery, of the St. Clair county rural school board, announced that the prevention day will be observed in the country schools Oct. 9.

Albion—Improvements in the local gas plant to cost \$12,000 are being held up by a delay in the delivery of parts ordered three months ago, much impairing the service here.

Cheboygan—James Owens, 13, son of William E. Owens, Grand farmer, was instantly killed when a bicycle skidded and he fell under the wheels of a load of lumber driven by his father.

Huy City—Miss Ethel Hendee, for the past two years general secretary of the Y. W. C. A. here, has resigned to accept a position as general secretary of the Y. W. C. A. in the Bronx, New York.

Standish—Recount of votes, cast in the primaries for Republican state representative, resulted in the declaration of Rep. Ramsey as nominated over Charles S. Wilcox by a few votes.

Cadillac—Wexford County has collected \$5,590.44 from a bonding company which went surety for the treasurer of Wexford township. This is the amount the treasurer had on deposit in the Bank of Mesick when the bank failed.

Pontiac—A writ of habeas corpus has been filed here to secure Gus Laron, a prisoner in Jackson prison, as a witness at the new trial of Robert Garner, former road commissioner once convicted of a serious offense against a young girl.

Kalamazoo—The 25th Michigan Infantry, which defeated Gen. John Morgan's Cavalry Brigade at Tubbs Bend, will hold its twenty-fifth annual reunion in this city, Oct. 7-8. Meetings will be presided over by Charles Clement, of Colon.

Grand Rapids—To protect claims, said to be \$700,000, creditors of Biar Crohon, planned to take over and operate his tannery and other properties but found the real estate and tannery were transferred to Edward A. Atlas Leather Co. of Detroit, said to have claims of \$300,000.

Muskegon—The first national exhibit of domestic foxes ever attempted in the United States, will be held here Nov. 24, 25 and 26. Any fox owner may exhibit. Entries must be in by Nov. 10. This will be the first time breeders of domestic foxes ever have had an opportunity to gain a national rating for their foxes.

Monroe—Petitions are in circulation asking submission to the people of a proposition to amend the city charter, giving each of the six precincts representation on the commission and to have the clerk and treasurer elected by the people instead of being appointed. Monroe now has a mayor and two commissioners.

Grand Rapids—Nicholas Schmidt, before returning to Germany on a visit, obtained citizenship papers here that he might not be prevented from returning to the United States. He said his brother, who neglected to become naturalized while here, is now restrained from leaving Germany.

COMMISSIONER'S NOTICE

In the matter of the estate of Minnie Blankenburg, deceased. Reduction In Prices of Ford Products

The war is over and war prices must go. Effective at once, Ford Cars, Trucks and Tractors will be sold f. o. b. Detroit, at the following prices:

Touring, regular	\$440
Touring, with starter	\$510
Runabout, regular	\$395
Runabout, with starter	\$465
Chassis	\$360
Coupe, with starter and demountable rims	\$745
Sedan, with starter and demountable rims	\$795
Truck, with pneumatic tires	\$545
Tractor	\$790

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for one hundred forty-six thousand sixty-five cars and tractors. The company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country.

Henry Ford says, "The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values, for the best interests of all it is time a real practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards."

We are at your command with regular Ford efficiency in service and eagerness to fill your orders.

BAUER-BURGESS

The home of Mr. and Mrs. Frank Burgess was the scene of a very simple, but pretty wedding, Wednesday evening, September 28th, when about 80 friends and relatives gathered to witness the marriage ceremony of their only daughter, Ethel Viola, and Paul Bauer of Plymouth. At about 7:30 o'clock to the strains of the wedding march, "Here Comes the Bride," rendered by Miss Olga Werner of Detroit, the bride and groom, preceded by the bridesmaids, Miss Francis Bauer, sister of the groom, Vivian Burgess and Agnes Wagner and Arthur Burgess, brother of the bride, Charles Keracher and George Bauer, brother of the groom. Helen Durow of Detroit, as flower girl, and Master Malcolm Woodward as ring bearer, descended the stairs and took their places beneath an arch of asters and ferns, when after the singing "O Promise Me," by Miss Regina Prochnow of Ann Arbor, and a very impressive talk, Rev. Maas of St. John's Lutheran church of Northfield, pronounced the words that make them man and wife.

FRAIN'S LAKE

John Harwood entertained friends from Detroit, Sunday, at a dinner at Fred Fishbeck's, Sunday. Mrs. Ed. Lyke entertained her brother and family from Macon, Saturday and Sunday. Glen Freeman returned from Bay City, Monday, where he attended the boys' conference. Mrs. Nellie Bush of Dixboro, spent Tuesday with Mrs. Theresa Lyke. Ed. Lyke, wife and son, Lloyd were in Detroit, Monday, on business. The W. F. M. S. will be entertained next Tuesday at the home of Mrs. Elwin Pooler. Ivan Galpin and Bruce Aiken had some thrilling experience, last Saturday night, when one of their dairy cows failed to come up with the herd. Ivan and Bruce started out to find the missing animal. As time went on and they did not return, the family became anxious and sent out to find the missing hunters, who were soon located in the top of a tall tree and a Jersey cow guarding them. Ivan says of all the cows that he has judged this one scores the highest point. Mrs. John Quackenbush, Mrs. Clara Clements and Mrs. Beegie Quackenbush were callers at Ed. Lyke's, Tuesday. Wallace Hewett and wife are spending a short time with their parents, Mr. and Mrs. Fred Tackman.

SONGS THAT ARE IMMORTAL

Greatest Minds of All the Ages Bestowed Their Labors on the Poems of Homer. The Iliad and Odyssey were probably sung by Homer about a century and a half after the destruction of the town of Troy following the ten years of war that was waged in the cause of Menelaus, king of Lacedaemon, whose consort had been carried away by the son of the Trojan monarch. The two poems are as old as David's psalms. Originally the Iliad would appear not to have been a single connected poem, but to have attained at a later period its present complete state. About one hundred years after Homer, Lycurgus, the lawgiver of Lacedaemon, brought these poems into Greece, and two centuries and a half later Pindar is supposed to have given them their perfect form. His son Hipparchus introduced the custom of reciting rhapsodies at the Panathenais, or festival of the tutelary goddess. A more complete edition of the Homeric poems, from which the modern ones are taken, was prepared for Alexander the Great by Aristotle, which the former used to keep under his pillow in a golden case. Also Aratus, the astronomer, Aristarchus of Samos, and Aristophanes, librarian at Alexandria, bestowed their labor on these immortal songs. Because of the fine moral sentiment, Homer became the pattern of Thucydides, the favorite author of the greatest and noblest men, and one of the best teachers of the wisdom of human life.—Detroit News.

SCHOOL NOTES

Wayne High school plays at Plymouth, Friday, October 8th. Tickets for the foot ball season are now on sale for 75c. Single admission, 25c. The next two games to be played at Plymouth will be with Northville, Oct. 15th, and Farmington, Oct. 27th. The fifth grade is studying "The Corn Song," by Whittier. The physical training classes were started this week in the first six grades. The nature of the work this fall will be games out on the playground, followed by physical exercises in the open air. Mrs. L. H. Galpin visited the first grade, Tuesday afternoon. Mrs. David Taylor visited the first grade, Tuesday morning. The foot ball grounds in the rear of the school building were initiated last Friday, when Dearborn High school played Plymouth High. Three misplays by Plymouth paved the way for Dearborn's lone touchdown. After that Plymouth traced, and the two teams fought without a score, until the last four minutes, when Dearborn kicked a field goal, making a final score of 9-0 in favor of Dearborn. The Plymouth team for this year looks like a much stronger one than the team of last year, when Dearborn scored three touchdowns in the first game.

MAKE THE MOST OF TODAY

All That Has Gone Before is Past and the Future is Clouded With Uncertainty. Today is what you have. It is also what you are. And again, Today is what you do. And if you haven't anything, and aren't anybody, and do nothing—why, then, for you there is no Today. For Today is music. Today is art. Today is literature. Today is joy. Today is work. Today is play. Today is life. Yesterday is no problem—for it is past. Tomorrow is no problem—for it isn't here. Today is supremacy. Today is the world. Today is—Opportunity! Crowd in upon it then. Today—take hold upon its faintest chance. Spread your smiles—Today. Be game—Today. Be glad and great—Today. Today is the day—your day. Today is Time and Change doing its job. Are you a vital part of the play? Today you may start out all anew. Today you may put to use what you learned a day ago. The center of your entire life may revolve about—Today. But, above all things, do not fear Today. And let all worry slide. All things that do not count—let them go, too. Work and help and love—Today. For this Today will never dawn again!—George Matthew Adams in Good Housekeeping.

Snake's Menace Mere Bluff.

A really accomplished reptile recently arrived in London in the shape of the American "hog-nosed snake." When approached by man, it acts in a most disturbing way, flattening part of its body and inflating an awe-some hood like a cobra. If ever anything said: "I am death," it is the hog-nosed snake receiving a caller. As you get nearer, its rage and menace increase, but, one more step, and there is an anti-climax. The hood collapses, the snake "flaps" to the ground, turns on its back and appears perfectly lifeless. Str it with a stick, and it remains as limp as a piece of garden hose, but turn your back and it will crawl away. The two specimens now in the Zoological gardens, Regent's park, have gone through their "act" so often that they are too bored to repeat it for the present. The point of the joke is that the hog-nosed snake is perfectly harmless.

Cleaning Watches With Bread.

Perhaps the most novel use to which bread is put may be seen in some of the great watch factories, where more than forty loaves of fresh bread are sometimes used each day. From earliest times in the history of watchmaking it has been the custom to reduce fresh bread to the form of dough. This dough is used for removing oil and chips that naturally adhere in course of manufacture to pieces as small as the parts of a watch. There are many parts of a watch that are so small as to be barely visible to the naked eye. The oil is absorbed by this dough, and the chips stick to it, and there is an other known substance which can be used as a wiper without leaving some of its particles attached to the thing wiped.

Enormous Sharks.

Sharks grow to a tremendous size. Rondelet's shark, for instance, which is an inhabitant of tropical seas, attains a length of 40 feet. The great basking shark is even longer. A young fish of this species, brought to England and set up, is 17 feet in length. Full grown, this shark may measure 50 feet and rival the whales in girth and weight. Saw-fish have been killed 30 feet in length and it is not for a moment to be supposed that we have secured the largest. The fact is that the natural history of the sea is still very largely a sealed book, and that surprises are still in store for future generations.

Constipation

The beginning of almost every disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed, and when this is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.—Advt.

FEET SORE?

MINTOL applied at night will make your feet feel like your younger in the morning and take the sting out of corns.

PLACING CROWN ON PAGODA

Solemn Ceremony at Mandalay That Attracted Crowds of the Devout Followers of Buddha.

A curious festival was held long ago in Mandalay, the chief town of Burma. A new pagoda dedicated to the Buddhist religion was to be completed by the placing of a huge crown on the top of its summit, more than 300 feet above the ground.

To witness the ceremony came Buddhists from Indo-China, from the Himalayas, from Laos and Chan and Siam. Warriors from Katschin, Sorcerers from Mot and people from other places made a medley of languages like that at Babel.

On a street corner would be seen a barber pulling a customer's tooth. On another corner a Mohammedan bird dealer sold caged paroquets to Buddhists who piously set them free. At very modern booths one could buy ice cream, soda or tea. Mandalay was a gorgeous spectacle, and the new pagoda was the center of it.

Every pagoda has at its summit a thl, or cap, the placing of which is often a herculean task. The one now to be raised weighed several hundred pounds and consisted of a gilded ball and crown and a great spindle above it.

To get it to the top an inclined plane of bamboo scaffolding like a huge toboggan slide had been built, and was decorated with silk flags and umbrellas. Up the inclined plane the heavy cap was slowly pulled. Six days were required for the ascent and a seventh to fasten it in place.

WORK OF SPONGE GATHERERS

Divers Go to Great Depths to Collect Them From the Rocks to Which They Are Fixed.

Sponges are of many qualities, but the most highly prized is that of Syria, with a cuplike shape and a yellowish pale color, which is found in a number of varieties.

The large sponge fisheries are situated along the seaboards of Greece, Syria and of certain parts of the Adriatic, as well as along the Tripoli and Tunisian seaboards. The fishing of sponges is effected by divers who are let down from a boat to depths of 10, 20 and sometimes 25 meters, and pull the sponges from the rocks to which they are fixed. Some sponge fishermen use a long trident, but this system is fortunately falling into disuse, since it spoils the sponges. In better-equipped fishing grounds the gathering of sponges is effected by divers provided with diving bells or dressed in cork jackets.

Upon being gathered the sponges are squeezed, beaten and washed in order to rid them of their black coating and soft substance which gives them a very characteristic chlorine odor. When they begin to whiten they are subjected to a frequently renewed solution of sulphuric acid.

Why Go to College?

I know a young Yale graduate in Philadelphia who is now convinced that a college education is a bar to wealth. "Girard" writes in the Philadelphia Press.

He is a clever electrician and got a job after leaving Yale which paid him \$30 a week. In his new place he came in contact with an uneducated foreman who tried to persuade the college lad to "turn a day laborer and join the union."

He was assured that in a fortnight he could get \$80 a week.

The young son of Eli stuck to his electrical job and when wiring a building in Philadelphia a boss painter told him he could get double the \$30 a week he was then getting if he took up the paint brush.

Do you wonder that this youth who holds his Yale sheepskin is puzzled in figuring out just how a college education pays him?

Wary of the Thought of War.

The imperial war museum at the Crystal palace in London has been almost entirely deserted. There is a lot to be seen under the great glass roof, but few persons are sufficiently interested to make a visit. The long avenues of armaments are seldom visited. Among 200 or 300 visitors on one day there were only two private soldiers. Their opinion was: "It is mournful, gloomy and uninspiring."

A Daily Mail representative who made a tour of the exhibition found that the majority of the people regarded the display in the same light as the soldiers. A war widow and her sixteen-year-old daughter, with the knowledge of how "father died," shed tears in front of the Warspite exhibits and then walked slowly out of the building. It was a pathetic incident that moved other visitors. But it was only one of its kind.

Big Saving in Heating Power.

With a first cost for heating plant of about \$2,000, the Husqvarna factories in Sweden have been making an annual saving of 400 tons of coke for several years by utilizing surplus power. A hydraulic station supplied electric power, and, as water-storage facilities are lacking, the electric generators continue to run at night, the current produced being turned into account for heating the 44,000 gallons of water in a large subterranean tank. During the daytime the hot water is circulated in the heating system of the establishment. The shops thus get sufficient heat for their 12-hour day except during the very coldest weather, and then the original coal-burning plant is called upon for auxiliary service.

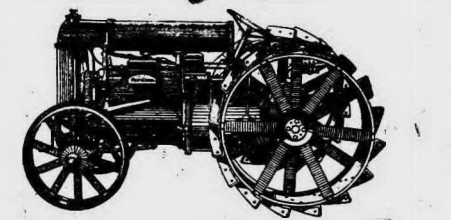

CUT THIS OUT

Special Notice: Dr. Frederick Jacobson says that phosphates are just as essential to any woman who tires easily, is nervous or irritable, wears out or looks haggard and pale, to make a strong, robust, vigorous, healthy body, as they are to make corns, blisters or any objectionable plant grow strong and healthy. The lack of phosphates is the cause of all such conditions and the administration of Dr. Jacobson's Phosphate Tablets will increase the strength and endurance 500 per cent in a few weeks' time in many instances. Fordson

TRADE MARK

Winter or bad weather does not hinder the Fordson's usefulness. There is always some job—draw-bar or belt—that the Fordson will do more quickly, more efficiently and with a small consumption of fuel. Besides it solves the labor problem.

Day or night—twenty-four hours a day if you choose—you can utilize the Fordson. Like the machines in the factories, the Fordson furnishes power that is always ready for use—a power that means a saving in labor and time. And for that reason, the Fordson is a money-maker.

Back of the Fordson is the Fordson service organization—Fordson repairmen and stocks of extra parts—are always convenient and insure your continuous use of your tractor.

Don't delay ordering your Fordson. Only so many are allotted this territory and orders are filled in rotation. Let us have your order now; we will give it prompt attention.

BUICK

TRUE to the Buick tradition of twenty years, the one feature Buick engineers have particularly sought to develop in the new Nineteen Twenty One Buick Series is high utility value.

You will find, in fact, when you investigate these new models, that Buick capacity for hard, fast, sure transportation is even greater than ever before. The high-powered, sure-working Buick Valve-in-Head Motor is a feature of each of the new models.

Added to their great service value are a beauty of contour and appointment and a comfort of movement and seating arrangement that appeal to the most particular.

Buick primarily, however, is a car of action. Built for business—built to stand up—is a well known Buick feature. Business men will find the new five passenger touring car a happy selection.

Back of it, reinforcing its high serviceability, in assuring the uninterrupted use of your investment is Authorized Buick Service rendered by a nation-wide organization.

COUNTY FAVORS CITY ROAD PLAN

AUDITORS APPROVE DESIGNS OF COMMISSION FOR 106 AND 86-FOOT HIGHWAYS.

Wayne county, through the board of county auditors, has adopted the city plan commission's design for seven new 106-foot highways and numerous 86-foot streets proposed to relieve the heavily overburdened traffic routes in and near Detroit.

Plans for the proposed new thoroughfares are already being dedicated and accepted.

Plans for the new highways are expected to be brought before officials of Oakland and Macomb counties shortly. Gratiot and Warren townships already have given their sanction to the project, which also is favored by members of the state highway commission.

Going from the western part of the county to the east, the new 106-foot radial arteries are:

1. Dearborn-Northville road, commencing at Michigan avenue and Jefferson street in Dearborn and running due north to Warren and Griffin roads, then swinging north-west through Livonia township to Northville.
2. Fordson-Redford road, approximately 700 feet west of the Pere Marquette railroad and paralleling it to Oak Station, thence continuing northwest into Redford at Forest and Grand streets.
3. Greenfield-Southfield road, starting at Twelfth street and Wyoming road and running northwesterly into Oakland county to Southfield, where it is to connect with an existing road to be widened to 106 feet. (This will be a direct road to Pontiac via Orchard Lake.)
4. Woodward western relief road, running from the intersection of Greenlawn and Pembroke road north practically parallel to Wood-

ward about a mile and a half west of Woodward.

Hamtramck-Rochester road, starting at the intersection of Ryan and State Fair roads and running northwest to Rochester, almost parallel to Woodward, but about three miles to the east.

8. Northern Mt. Clemens road, starting at the intersection of the Nine-mile road and Dequindre and running northeast through Warren township to Mt. Clemens.

7. Southern Mt. Clemens road, paralleling the Grand Trunk Railroad 700 feet to the east into Mt. Clemens. This road is designed chiefly as an industrial highway for heavy trucks.

Two Linking Roads.

Linking up these radial arteries will be two east and west thoroughfares, allowing traffic bound from Pontiac and Flint to Wayne, Ann Arbor and Toledo to avoid coming into Detroit. From Wayne, the southern one, 106 feet wide, will run northwest through Perrinville to Beach Station, into Redford and Royal Oak.

Farther north another east and west road, an 86-foot street, will run from Wayne to Plymouth, Farmington, Southfield and Birmingham, where access to roads to Pontiac and beyond will be afforded.

All Wayne County.

In addition to the main 106-foot thoroughfares the city's plan is to build streets 86 feet wide a mile apart over all of Wayne county. These roads will run by the compass, exactly north and south, east and west. The commission has also made similar plans for roads in Oakland and Macomb counties, continuing those laid out by it for Wayne.

The commission has drawn the plans, it was explained, in the belief that it is only a question of time before Greater Detroit will occupy practically all of Wayne county, and that traffic conditions will be much more complex in the greatly increased population Detroit is expected to have within its confines.

An Agreeable Surprise

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mills, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.—Adv't.

RE-REGISTRATION

Re-registration of all voters of Plymouth township, beginning Sept. 1, and ending the third Saturday preceding the November Election, is required by law. Personal application must be made to the Township Clerk, Mrs. Lina Durfee, 1222 Pennington avenue. E. N. Passage has been appointed deputy registrar, and will receive names at his office on Starkweather avenue.

At the village hall, Saturday, Oct. 9th, also Saturday, Oct. 16th, last day of registration.

THE UNITED GUN CLUB

The United Gun Club met last Sunday for the regular shoot, and showed some very good scores. In the regular fifty target event, Merle Murray and H. Passage tied up on 49 each, Murray losing to Passage in the miss and out shoot-off.

The bad wind made shooting rather difficult for the most, but F. Hills, W. Murray and C. Merritt made the forty mark or better.

This club holds a registered shoot, Friday and Saturday, beginning at 3:00 p. m. on Friday and at 9:00 a. m. on Saturday. Everybody is invited. The practice events also showed very good scores.

Scores for the fifty target are:
