PLYMOUTH HIGH WINS AT NORTHVILLE

PLYMOUTH HIGH FOOT BALL TEAM DEFEATS NORTHVILLE HIGH AT NORTHVILLE WAYNE COUNTY FAIR LAST FRIDAY 32 TO 0.

After four weeks of hard training which was inflicted upon the Plymouth boys by the new coach, last Friday was the day for the initial game, which was played at the Northville fair against Northville High school. At one o'clock the whistle blew for the game to start. Everyone was ready to fight, and Plymouth kicked the ball far into the opposite territory. After a little playing, Maynard Doudt succeeded in running around right end and made a touchdown.

The second quarter was the leading quarter, Plymouth making two touchdowns, one by Doudt and the other by Seger, with Doudt kicking the ball directly over the goal. The Northville line could not hold the repeated charges hurled against its team, and Doudt scored another touchdown for Plymouth.

The fifth touchdown made by Plymouth was accompanied by the most excitement, because the Northville boys nearly on the goal line for a few downs, but Harold Stevens scored the last touchdown, also the kick was good. The next kick off was followed by many cheers, and Plymouth was about to go over the line for another touchdown, when the whistle blew for the closing of the game, leaving the score 32 to 0 in favor of Plymouth.

The winning of the first game has made us feel very proud, and we are not afraid to start in with Royal Oak, October 7th, here.

The line-up was as follows:
T. Strasen, C.
N. Schoof, R. G.
H. Norgrove, R. T.

WOULD REVIVE SINGING SCHOOL

As one whose memory reaches back over a period of more than fifty years, I was much interested in an article written by Marjorie Elaine Porter in the Magazine Section of the Detroit News of October 2nd, entitled, "The Revival of the Old Singing School."

Within the past few years we have been amazed and delighted at the quality of the instrumental music furnished by so many of our young people, practically all of whom received the first rudiments of music in the public school. It may be that vocal music is also taught in our schools, but if it is there is very little of it heard outside of those walls.

There is little doubt in my mind that many good voices are lost because of a lack of training. Not necessarily intensive training, but such training as could be had in the old fashioned singing school.

The great need of more singers is felt constantly, especially by our churches, whose choirs largely are made up of persons who learned to sing years ago, and if one or more of their number finds it necessary to be absent there is seldom anyone to take their place, and as we look over the situation as it is today, we cannot help but wonder if the country church at least will not have to resort to canned music in ten or fifteen years from now.

I wish that Plymouth could have a revival of the old singing school. Of course, with the more modern methods of teaching and with the long winter evenings coming on, I am sure that our young people would find such a course to be of great pleasure as well as profit.

Much more might be said on this subject, but I will close with the query, who will start something?

FIRE PREVENTION

This is fire prevention week throughout the entire United States, and residents of Plymouth should not let it pass without seeing to it that chimneys, smokestacks, etc., are in proper shape for the fall and winter. It takes but a moment to clear up the chimney and see that it contains no dangerous cracks or holes. Only a little time is required to straighten up the accumulation of waste material that has been allowed to gather during the summer months. And an hour spent in cleaning up this week may mean a saving of several hundred dollars, possibly loss of life, a little later on. See that the stove pipe hasn't rusted so thin inside as to become dangerous, and while you are at it, don't forget the heating apparatus in church and school. Ask the school trustees if they have seen to it that everything is safe for the winter at the building over which they preside. And keep in mind that an ounce of fire prevention is worth a pound of fire extinguishment.

THIS MAN KNOWS

The views expressed by farm people under present conditions are more often encouraging than not. There are, of course, those who are completely discouraged, who have lost faith, but from what we have heard there are exceptions. The large number seem to view the future with confidence, as does the former Plymouth resident, who says in a letter received at this office a few days ago:

"I just want you to remind your readers that those of us who live in the country still find many things to be thankful for. We have our homes, our families, plenty to eat and wear, and we run our own business in our own way. Furthermore, we are engaged on a business that commands the respect of the rest of the world more and more as the years go by. This business of producing food is not such a bad one if we size it up correctly. For myself, I think it is the best one, and the more I see of the way people live and work in the big cities, the surer I am that I am right."

TOO MUCH WASTE

According to the Waste Trade Journal, rag-pickers salvage over two billion dollars worth of stuff that has been thrown away every year in this country. This salvage includes 300,000 tons of brass and 200,000 tons of tires, inner tubes and other junk rubber. Fifty thousand people are kept busy gathering up what we throw away, and that means that each one picks up an average of \$40,000 worth of stuff that we have liberately wasted.

There is an old saying that, "Europe can live on what America throws away," and we believe that in a large measure it is true. We are a wasteful nation as a whole, and while Plymouth citizens are no worse than others in this respect, they are at the same time no better. We waste too much right here at home—and right here at home, is the place to begin correcting our deficiencies.

Follow the procession of "Tail Lights" on the Ann Arbor road tonight, and you will end up at the Pre-Halloween Social. Those not in costume will be fined if found.—Advertisement.

THE THEATRE

"The Child Thou Gavest Me," a thrilling story of domestic tragedy in high life, will be the feature at the Penniman Allen theatre, Saturday evening, October 8. It was produced by John M. Stahl for Associated First National, and is the most pretentious work of that gifted director. While it is characterized as an all-star attraction, little Richard ("Itchie") Headrick, who scored such a hit in "Playthings of Destiny" and "The Woman in His House," runs away with the honors. To the credit of the director, let it be said that he gives the little actor plenty of opportunity to do so. The story opens with a wedding and the discovery by the bridegroom that his wife of an hour has a son. He dedicates his life to finding the father, swearing to kill him, and as a part of his plan invites his wife's former sweetheart to his home and watches them surreptitiously. Finally he is convinced that his best friend is the one he is seeking—and his revolver barks. But he quickly learns his error and discovers that the man is—Never has a picture contained such a surprising and wholly unanticipated climax.

Do fathers of pretty daughters instinctively take a dislike to handsome young men? Generally it works out that way in real life, doesn't it? It's the case in "What's Your Hurry?" Wallace Reid's latest picture, which will be the attraction at the Penniman Allen Theatre on Tuesday evening, October 11th. According to the story, Wallie is in love with Virginia, daughter of old Pat MacMurrin, millionaire manufacturer of the Pakro truck. Wallie is, as you know, handsome as a picture, a racing driver. Pat is against him on both counts. It is not until the star carries the Pakro truck triumphantly to the rescue when an irrigation dam is broken and threatens disaster that MacMurrin is ready to welcome him as a son-in-law.

Constance Talmadge gives some very interesting lessons in love to two doting old bachelors and a young westerner in her latest First National starring vehicle, which is very appropriately entitled, "Lessons in Love." The two elderly gentlemen are very anxious to see her married to a chap she has never seen. Constance disguises herself as a housemaid to foil both together with the young fellow in question. Kenneth Harlan plays the male lead in "Lessons in Love," which is coming to the Penniman Allen theatre on Thursday evening, October 13th.

To Gain a Good Reputation
The way to gain a good reputation is to endeavor to be what you appear. That is precisely the manner in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard of excellence claimed for it. People have found that it can be depended upon for the relief and cure of these ailments, and that it is pleasant and safe to take.—Advertisement.

SCHOOL NOTES

Reporters for this week are Wilma Briggs and Doris Burnett.

The Girl Scouts held their first meeting after summer vacation with Miss Shanks as their scout mistress. The ninth and tenth girls' physical training is well under way, having their teams organized. The tenth grade has two teams and the ninth grade four, with a total attendance of 50. They are playing German ball.

In the eighth grade physical training, Grace Miller's team in lawn ball has won all the games so far, but Marian Beyer's team is gaining every time.

During the nice weather, the first and second grades are enjoying story days on the play ground. On Monday after the first they played the story play of "Jack Frost"; also they have played, "Autumn Leaves."

The first meeting of the Board of Control was held September 28. The new president, Olivia Williams, presided. The new officers were: Marian Kiely, treasurer; Miss G. Hall, secretary, and Mr. Smith, auditor.

Membership tickets and foot ball tickets are now being sold at the High school.

Junior chorus started this week with an enrollment of fifty-five. We anticipate some very good work from them.

Seventh grade chorus started Monday with an enrollment of fifty-eight.

Seventh grade drawing has an enrollment of twenty. They expect some very good work this year.

The orchestra did not start until this week, due to the number of conflicts in classes.

Ruth Shattuck has left school for a two weeks' trip to Washington.

Miss Anna Smith is a great success in her new work, advising the children's reading in the library.

Winona Kentner and Melvin Holtz have not missed any words in spelling since school began.

Queenie Marvin visited the fourth and fifth grades, Thursday.

Helen Wnuk re-entered school in the fourth and fifth grades, after two weeks' absence.

Mrs. Charles Humphries visited the first grade, Monday.

Virginia Kincaid returned to school after several days' absence.

Mrs. Doerr visited the first grade, Friday.

The following have not been absent or tardy since school began: Melvin Blunk, Roberta Chappel, Margaret Cline, Philip Doerr, Raymond Ford, Irene Kobak, J. D. McLaren, Russell Mico, Ralph Minehart, Leo Parks, Wilhelmea Rucker, Howard Schryer, Howard Stribbing, Marion Taylor, Eleanor Thoma, Jean Weeks, Vern Woods, Gladys Zitsch.

Boys' Poultry Club of Plymouth High school received first and special premiums at the Northville fair.

Some new lockers have arrived for use of the students in gym work.

Royal Oak will play Plymouth here, Friday. Everybody out!

Boys' Glee club started Monday, the eighth hour, and the Girls' Glee club began Tuesday.

The report cards will be out Wednesday noon, October 12. Parents are urged to consider these reports carefully, and to talk over with the teachers matters which may tend to improve these reports.

Through the courtesy of the Northville Wayne County Fair association, two judging contests were held last Friday morning for teams from the agricultural courses of Plymouth, Monroe and Ypsilanti. The corn-judging contest, held in the agriculture department, under the direction of County Agent Gregg, was open to students beginning this fall in the second year's work. Three groups of corn entries were judged, and when the total scores of the teams were determined, Monroe was found to have won first place with 616 points, while Plymouth and Ypsilanti were tied with 583 each. The Plymouth team consisted of Donald Beyer, Ruth Wilkin and Lawrence Holmes.

In the stock judging contest, the contestants were required to judge rings of horses, cattle, swine and sheep, under the direction of Superintendent Northrop of the cattle department. The average score of each contestant was determined, and the team totals obtained, and the results showed the Plymouth team, consisting of Lawrence Miller, Duane Sayles and Carl Ash, in first place, with a total score of 227 points, Monroe coming second with 217, and Ypsilanti third with 209.

This is the first time Plymouth students have had an opportunity to compete with any outside teams in either stock or grain judging, and they are to be congratulated upon their fine showing. These contests have aroused a greater interest in this work, and it is hoped that they may be repeated on a larger scale next year. A plan is being drafted, whereby it is hoped all the schools in southeastern Michigan, which have vocational agricultural courses may be brought together in 1922.

The schools which competed desire to express their appreciation of the kindness and courtesy of the Northville fair officials, who offered these contests in the interests of better agriculture and better educational facilities; and particularly to thank Mr. Ross, county club leader, who judged the contests; Secretary Ponsford and Superintendents Gregg, Northrop and Clark, without whose personal efforts the contests could not have been held.

Professor H. G. Wilbur will be at the school building, Monday evening at 7:30 for the purpose of organizing a class to do extension work from the State Normal College. In addition to the teachers from Northville, Farmington and Plymouth, all the rural teachers who are interested in extension work are requested to be present.

A Remarkable Record
Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost half a century, and has constantly grown in favor, and popularity as its good qualities became better known. It is the standard and main reliance for these diseases in thousands of homes. The fact that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children.—Advertisement.

GRANGE NOTES

The subject up before the Grange, this week Friday evening, October 7th, will be a questionnaire on progressive lines that will be brought up before the State Grange in December. Let us take an active part on these questions. The possibility of a juvenile Grange will also be brought up at this meeting.

The Grange degree team gave a very pleasant surprise on Miss Mabel Root and Mrs. Lily Root at the home of the latter on Friday afternoon, Sept. 23, in honor of their birthdays. The degree team, feeling they could

better serve the Grange if organized, they proceeded to elect officers as follows: Mrs. Arthur Blunk, president; Mrs. Oscar Matts, vice president; Mrs. Molly Roddeman, secretary; Mrs. Emma Gates, treasurer. They will be known as the Lily Club, having for its object to be self-sustaining and help in a systematic way socially and otherwise. The first regular meeting was held Tuesday evening, Sept. 27, at the home of Miss Chloe Powell, the occasion being her birthday. They were delightfully entertained with progressive cards. Mr. and Mrs. James Gates carried off the highest honors; F. L. Becker and Mrs. Lily M. Root receiving the consolation prizes. Refreshments were served and a good time was enjoyed.

The label on the paper tells when your subscription expires.

How Better Than Pills?
The question has been asked—In what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pills? Our answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. Then, they not only move the bowels, but improve the appetite and strengthen the digestion.—Advertisement.

Your Voice is Yours

There is a peculiar quality in each human voice that is so individual that the very personality of the speaker is given out.

How often do your friends say to you, "Oh, I knew you by your voice?"

For this reason long-distance telephone conversations have an emphatic value aside from the convenience of an immediate reply to questions and the opportunity for discussion.

Send your own voice over the Long Distance wire in all important transactions and it is as if you had been present yourself. This is the satisfying way—the modern way to transact your affairs.

The following information about different classifications of Long Distance calls will aid you in using the telephone most economically and efficiently.

1. If you will talk to any person answering the telephone, the toll charge will be about one-fifth less than as if you had asked for a particular person at that address.
2. Such service between 8:30 P. M. and Midnight costs only about one-half the day rates and between Midnight and 4:30 A. M. it costs only about one-fourth the day rates.
3. Particular person calls are those in which you ask to talk with a particular person in another city. On this class of calls a report charge is made if the person asked for cannot be communicated with through no fault of the Telephone Company. This charge is not made if the connection is established. The report charge amounts to about one-fifth of the particular person rate.
4. Charges can be reversed only on particular person calls.

Call the Long Distance Operator. She Will Connect You.

**Red Cross Trains
147 Blind Vets
In Useful Work**

Training designed to fit them for the battle of life was taken by 147 blind ex-service men at the Red Cross Institute for the Blind, near Baltimore, Md., during the fiscal year 1920-1921, according to the report of the Institute for that period.

Of this number, 19 have gone on to other institutions, in almost every case to institutions where those having sight are receiving advanced education. The blind ex-service men who have entered such institutions are provided with special text-books in Braille, reading which they were taught at the Red Cross Institute.

Twelve men have passed from the Institute to successfully carry on some occupation or business for which they were fitted by special training. A few have withdrawn from the Institute because of poor physical condition, 14 are receiving further training on the job and 87 are still in training.

**RED CROSS RESCUED
600,000 FROM DEATH.**

Spent \$1,200,000 for Relief of Famine Sufferers in China Last Year.

To help overcome conditions of acute distress in five famine stricken provinces of Northern China, where millions of persons were affected by an unprecedented shortage of food, the American Red Cross during the last fiscal year spent more than \$1,200,000, \$1,000,000 of which was contributed directly by National Headquarters and the remainder by various groups interested in the welfare of China.

Through the wide relief operations thus made possible it is estimated that more than 600,000 famine sufferers were saved from starvation.

To the end that similar prompt relief measures by the organization may always be possible the Red Cross is asking continued support by the American people by universal renewal of membership at the Annual Red Cross Roll call, November 11 to 24.

The method of relief employed by the American Red Cross in its operations in China was particularly effective, for in addition to saving hundreds of thousands of lives it provided China with more than 900 miles of permanent roads that are sorely needed to prevent a recurrence of famine. At one time the Red Cross employed 74,000 Chinese workmen, paying them in food for themselves and dependents, this food being brought in from Manchuria and elsewhere.

**Red Cross Plans
\$6,000,000 Effort
To Save Children**

Medical care and clothing for thousands of children in Central and Eastern Europe are outlined as the activities of the American Red Cross in Europe for the current year, says a statement on the eve of the Annual Roll Call of the organization. These activities, supplemental to the feeding operations of the European Relief Council of which Herbert Hoover is chairman, are designed to provide the most adequate and balanced relief within the resources of private philanthropy.

Through the establishment of child welfare stations in the centers of population of those countries where adequate medical care is not now obtainable, the American Red Cross plans to provide the medical assistance needed to restore these children to a normally healthy life. The sum of \$6,000,000 has been made available for this work.

Keep The Egg Basket Full!

The feed elements that make whites of eggs are entirely different from those that make yolks. When hens aren't fed both the white and yolk making elements, they can't keep the egg basket full. The usual method of feeding mostly grain makes yolks but not enough whites to complete the eggs.

Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, barley and kafir corn make (above bodily maintenance) an average of 24 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce, (above bodily maintenance) as follows:

	Yolks	Whites
Purina Hen Chow	247.49	142.11
Purina Chicken Chowder	182.05	282.55
Combined Ration	429.54	424.66

These Purina chows not only make a practically equal number of whites and yolks but more of both than ordinary chows.

Note that Purina Chicken Chowder contains the necessary white-forming elements to balance up the yolk-making grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the eggs and they are laid. Thus we can absolutely guarantee

more eggs or money back

on Purina Chicken Chowder if fed with Purina Hen Chow as directed. You take no risk.

This community was well represented at the Northville fair, last week, and it was conceded to be the best fair ever.

Our highway commissioner is improving some bad places in the roads, to insure us of mail delivery. Our memory dates back not many years in the past, when the mail was delivered with horses, through long stretches of bad roads, but old Dobbin was on his job and delivered the goods regardless of weather. Not that we want the auto replaced with horses, but it behooves us to stop and think of the possibilities of the past, compared with the present.

NEIGHBORHOOD NOTES

Today's Reflections

Summer hasn't gone yet. There are still a few swats to be seen here and there.

It has been our observation that no bank account ever blew up from over-inflation.

There is nothing that can influence a Plymouth man to take a present home to his wife as strongly as a guilty conscience.

As a rule nobody does as much talking as the fellow who is always complaining that women talk too much.

The trouble with most of the things we get in this world is they last too long or not long enough.

Somehow a Plymouth woman never seems to enjoy a good cry, unless she has two or three reasons for starting one.

Nothing tests a man's patience like having to ride ten miles on a flat tire with a quarrelsome wife.

And if old Mother Hubbard dressed in style the cupboard would not be the only thing about the house that was bare.

A lot of Plymouth women make both ends meet by using a piece of the shirt tail to patch the neckband.

Catching a crook is much like teaching tricks to a mule. You have first got to know more than the mule.

In one respect moonshine is just like the old article—it won't mix with gasoline.

Teach the growing Plymouth boy to be honest—but also give him to understand that business is business.

Another nice thing about farming is you can fill a barrel with cider, and let nature take its course.

Any Plymouth man suffering from loss of memory should run for office. He'll learn his past life then.

Still another attractive thing about farming is you can always knock off on Saturday afternoon without having to ask the boss.

If you have anything to buy or sell, advertise it in the Mail. It will cost but a small sum. Try it.

Let Us Overhaul Your Car...

It pays to give your car an occasional overhauling. It is an important point in the care of your car. We can do this work for you in a workmanlike manner and most satisfactorily.

A trial will satisfy you that we can place your car in first-class condition. Prices most reasonable.

October 22 has been designated as home coming day at the University of Michigan. An especial effort will be made to have the alumni of the University return for that day. The Ohio State football game will form the center of attraction, and the enlarged stadium will be dedicated at this time. President Burton will address the alumni and all fraternities and sororities will keep open house all day. The annual meeting of the University club will be held that week, closing Saturday morning, October 22nd.

The Board of Commerce office has received word in response to a request made some time ago, that the county road commissioners will build a three mile extension of the road to Frain's Lake. George McCalla, commissioner, stated that this road, which has been desired by Ypsilanti people, would be an extension of the Center Superior road passing by Ed. Lyke's farm and connecting with the road passing east and west through Salem township. People in that neighborhood have expressed themselves for some time as being favorable to a road connecting up with Ypsilanti. The Farm Bureau office here is doing a good business with the farmers of that vicinity. The decision of the commission is therefore a popular one, not only in Ypsilanti, but also in the section served by the proposed road. Mr. McCalla stated that the survey would be made at once and following this that the contract would be let. In his opinion the road should be completed early in the new year.—Daily Ypsilantian Press.

WAYNE'S APPORTIONMENT OF GRAIN GIFTS

Announcement of the county quotas by which Michigan farmers will contribute the state's share of 100,000 bushels of grain in the national gift of 5,000,000 bushels to keep hundreds of thousands of children of Armenia and neighboring lands of Asia Minor from starving to death this winter, is made by the emergency grain board of the Michigan committee of Near East Relief, through its executive committee.

Following the plan used in compiling the United States census, the board has divided the 83 counties of the state into nine agricultural districts. The quotas for the southeast district, which includes Wayne county, are: Washtenaw, \$3,764; Genesee, \$3,702; Lapeer, \$2,730; Lenawee, \$5,521; Livingston, \$2,145; Macomb, \$3,816; Monroe, \$3,788; Oakland, \$5,880; St. Clair, \$3,262; Wayne, \$6,376; total for the district, \$40,894. In this district there are 38,248 farms, and 53,030 acres were this year planted to corn and wheat. The quota for the ten counties comprising the district is 28,447.

PRESBYTERIAN PARAGRAPHS

Goblins and wizards and witches in weird and fantastic costumes will make the premises of Louis Root on the Ann Arbor road, look like a rendezvous of the Ku Klux Klan, tonight (Friday, October 7), when the Pre-Hallowe'en social gets underway. Reciting exciting experiences entitled, "How I Earned My Dollar for the Piano Fund," bobbing for apples, collecting fines from the ones who fail to come in costume, recognizing and greeting disguised friends, will be a part of the fun that will make up the fun(d). Meet at the church at seven. Going over the hills in an automobile to such a social will be as jolly as riding on "The Jack Rabbit" at a state fair. A small charge for refreshments will be made, but you will get your money's worth. All the young folks will be there, and who wants to confess age by staying home?

RED CROSS GIVES ANNUAL BUDGET

\$19,361,657 Allotted for Current Program of Relief and Service.

MILLIONS FOR VETERAN AID

Medical Aid for European Children Will Cost \$6,000,000 This Year.

Washington.—Expenditures totaling \$19,361,657 for carrying through its program of relief and services in the United States and overseas are outlined in the budget of the American Red Cross for the current fiscal year. This total is more than \$5,000,000 lower than the expenditure during the last fiscal year, when the disbursements reached \$24,492,741. It is announced at National Headquarters in a statement calling attention to the necessity of continued support of the organization by response to the Annual Roll Call, November 11 to 24. If the vital work of the society is to be effectively carried on.

Outstanding among the items of the domestic budget is the appropriation of \$3,600,256 for work in behalf of the disabled ex-service man and his family. This appropriation represents the amount allotted to this work from National Headquarters only and does not take into consideration the millions being spent in chapters for relief of the World War veteran. It is in the chapter that the greater amount is spent in meeting this obligation of the Red Cross, the announcement continues, as manifested by figures of the fiscal year 1920-1921 when the total was approximately \$9,000,000, of which \$2,692,064 represented the disbursement of National Headquarters while the remainder was the chapters' contribution to this field of Red Cross service.

Veteran Work for Disabled
Chief among the sub-divisions of the appropriation for work with veterans is that which concerns itself with assistance to disabled men and women in government hospitals. This item of \$1,700,000, an increase of more than \$500,000 over the appropriation for the same work in last year's budget, will provide those personal services for the disabled and their families which are indispensable to supplement those provided by the government. The director of the Veterans' Bureau has recently expressed his desire that the Red Cross should continue and extend these "humanizing services."

Other items of the appropriation for veterans' relief are proportionately increased. An additional appropriation of \$100,000 has been made for Red Cross work in connection with regular Army and Navy hospitals and with the regular Army and Navy.

For disaster relief, the Red Cross has set aside for the current twelve months an appropriation of \$543,976, virtually doubling the appropriation for the same purpose for the fiscal year 1920-1921.

More than \$2,000,000 is provided for service and assistance to the 3,600 Red Cross chapters by the national organization.

Helping Destitute Children
Other items of the domestic budget include \$498,546 for miscellaneous activities, including contributions restricted for special purposes and \$768,600 for management. Each of these items represents large reductions over similar appropriations of the previous year.

From a fund of \$10,000,000, \$5,000,000 of which was contributed through the European Relief Council campaign and \$3,000,000 allotted by the Red Cross for child welfare work in Europe, there remains \$3,765,108 still available, of which it is estimated that \$6,000,000 will be required for this work during the current year.

For Red Cross participation in the joint effort to relieve famine conditions in Russia, for final work in the China famine, for Junior Red Cross and other overseas activities including the closing of the old general relief program in Europe \$4,978,000 is made available.

In announcing the national budget, the Red Cross makes it clear that the figures do not include chapter expenditures or place any cash estimate on the invaluable service of volunteers in chapters.

Odors in Apartments.

There are times in the city dwelling, especially in an apartment, when just before the arrival of guests the hostess is conscious of a deadly odor stealing over the scene.

Instead of relying on the incense burner which must be carried from room to room in such an emergency and which often sends out only a fleeting fragrance, it is a good plan to keep on hand a little oil of cinnamon. Fill a shallow vessel with water and place it on the stove. When it boils put in a teaspoonful of the cinnamon oil. A spicy odor will soon fill the rooms. The water should simmer slowly, but not boil violently, after the oil is added. It is said that oil of lavender and other fragrant oils will give the same result. It is rather amusing to keep one's method of perfuming the home a secret, as this will add to the individuality of one's setting.

Birth of Photography.

Photography was cradled in obscurity. Centuries ago Lacoek, in Wiltshire, was a thriving town, famous for its tapestries. Today it has a far greater claim to fame, yet few people outside the county have ever heard of it.

It was at Lacoek that William Fox Talbot produced the first photograph. The event preceded the announcement of the discovery of the daguerreotype by four years, and five years later—in 1838—Fox Talbot startled the scientific world by exhibiting a series of photogenic drawings, as he called his photographs, at the Royal Institute.

Fox Talbot's village resting place is marked only by a plain stone—a monument which has been the subject of very few photographs.—London Mail.

Lucky Kid.

Bud was brought to the barbers every week to have his hedded hair trimmed. This always was a terrible ordeal for him. One day he was called into his mother's room to see the new baby. He was making a mental note of the fact that his head was bald, he said enviously: "Gee, my baby sister won't have to go to a barber."
