### The Tail Light of Opportunity

The royal chariot of opportunity has passed the man who listlessly waits for conditions to improve. Success claims those who hustle while they wait.

The man who does right, not the one who goes with the crowd when it is wrong, benefits himself and the race.

Progress comes through the exercise of self restraint, justice, mercy. It is the result of vision, faith and morality. Where are these virtues taught and urged but in the church?

Come to church next Sunday morning and hear about "The Effect of Every Vision." Stay through all services until evening and

THE STORY OF ANOTHER WISE MAN WILL BE TOLD

### PLYMOUTH HIGH DEBATERS WIN FROM NORTHVILLE

Plymouth High school debating team experienced their first debate of the season, last Friday evening in the High school auditorium, winning a two to one decision over the team from Northville High. The Plymouth debaters, Eva Griffith, Charles Chappell and Kenneth Bartlett, through strong argument and forceful delivery, won their case. Resolved, that the principle of the closed shop in American industry should receive the support of public opinion. That the Northville representatives, Max McCormey, Cleon Dye and Elizabeth VanValkenburg, were also in to win, was especially illustrated by the effective opposition on the part of Miss VanValkenburg in both constructive speech and rebuttal. The judges were Mr. Scarth Inglis of River Rouge High school; Prof. E. A. Lyman and Prof. F. R. Gurton of Ypsilanti Normal. Plymouth will meet Redford in the next debate to be held at Redford, Jan. 13th.

### WOMAN'S CLUB BAZAAR A GREAT SUCCESS

The Woman's Club bazaar given in the High school auditorium, last week Thursday afternoon and evening, was exceedingly well patronized, over three hundred dollars being taken in. The miscellaneous booth was filled with many hand-made articles. There were dozens of fancy and practical aprons on sale, and one of the finest displays of hand-made handkerchiefs ever seen in Plymouth. The household utility booth was of special interest to the housewife and the flower, basket, candy and baked goods booths received their share of the patronage, while the fish pond as usual, attracted the children. Coffee and doughnuts were served to many during the afternoon and evening. The club members feel greatly pleased over the success of the bazaar as the proceeds will go toward the building fund, which it is hoped may soon grow large enough to warrant the purchasing of a permanent club home.

### BISHOP WILLIAMS HERE

Last Wednesday evening at seven o'clock a class of eight boys and girls were confirmed in St. John's Episcopal mission of this place. The class was presented by Rev. Widdifield, archdeacon of Detroit, and the impressive service was read by Bishop Charles D. Williams, also of that city, after which Bishop Williams gave a short address to the class. At the conclusion of the confirmation services the congregation and clergymen went to the Presbyterian church, where a union service was held, the pastors of the various churches of the village taking part. The address of the evening was given by Bishop Charles D. Williams, who is an interesting and forceful speaker. The principal thought throughout his talk was that, "The foundation of civilization and the progress of the world today depends largely upon the christian church and the life of the individual christian." Music was furnished by the Presbyterian choir, assisted by Mrs. William Bask. The service was well attended.

### CANTON LADY PASSES AWAY

Mrs. Mary Gottschalk, wife of James Gottschalk, a well known and much respected Canton farmer, passed away at the Homeopathic Hospital, Ann Arbor, early Wednesday morning, having undergone an operation for appendicitis a few days previous. The funeral services will be held from her late residence, Sunday afternoon at two o'clock. Burial in Riverside cemetery. The family have the deep sympathy of many friends in their bereavement. An obituary will be given next week.

## OBITUARY

Nellie Ann Parrish was born in Canton, Wayne county, Michigan, November 18, 1875, and departed this life November 29, 1921, aged 46 years and 11 days. When about 17 years of age she became a Christian, and united with the Methodist church at Plymouth, Mich. On December 22, 1896, she was united in marriage to Justus J. Treat. To this union four children were born, one of whom died in infancy. She is survived by her husband, two sons and one daughter, her father and mother, five sisters and two brothers, and numerous other relatives and friends. Seven years ago the family moved to the farm in Bushnell township, which has been their home to the present time. Prior to the date of the affliction which came upon the deceased, May 20, 1916, she, with her husband and children, had an active interest in the cause of the Christ she loved so well. The Sunday immediately preceding her illness, five years ago, she taught a class in the little Sunday-school at Bushnell Baptist church. While her physical condition had prevented her attending any public services since then, her faith had never faltered. Her Christian fortitude and patience in suffering has been a constant testimony of her trust in Jesus, with whom she has often expressed her desire to be. May her loving simple trust guide us till we meet her where partings are no more. Rev. C. E. Ehle spoke words of comfort to the sorrowing relatives, after which the remains were laid to rest in Sheridan cemetery. Funeral services were conducted by D. Stebbins of Sheridan.

Financially speaking, the man who drives his automobile without Full Coverage insurance is skating on thin ice.

He's just trusting to luck that he won't have an accident. Luck is fickle.

Damage awards to accident victims run high.

There's too much to lose, too little to gain by driving uninsured.

One fair sized damage award would pay the premiums on a Peninsular Full Coverage Policy for a life time.

Taking Desperate Chances.  
It is true that many contract severe colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand the more serious diseases. Can you afford to take these chances when Chamberlain's Cough Remedy, famous for its cure of bad colds may be had for a trifle?—Advertisement.

**They want the phonograph that's First with the Hits**

TODAY'S popular young folks don't want to dance to the hackneyed tunes of last month. They want the newest—the latest—the best song hits. They want their music direct from Broadway. That's why they all insist upon the *New Edison*.

Edison is always ten days to three months ahead with the popular music. The "Edison Runch on Broadway" gets every new song, musical comedy and dance-hit the moment it breaks. Mr. Edison's own marvelous new process of manufacturing makes them into technically perfect RE-CREATIONS in the fastest possible time.

Tests of direct comparison have proved that the New Edison RE-CREATES these hits with Broadway's true pep and flavor,—because there is no difference between the original music and the RE-CREATED music.

delivered to your Christmas tree for \$ (Fill in your own first payment)

### MOST SPLENDID OF AGES

Surely, in the New Era of the Last  
Few Years, Life is Really  
Worth the While.

Do you ever stop to tell yourself  
what a good time this is to be alive?  
For is it not a new era; has not life  
become life indeed in these last few  
years? The generation which has  
reached middle age or middle age and  
a half used to boast of its new world,  
meaning thereby a world which had  
made automobiles and airplanes and  
fast printing presses and telephones  
and had in turn been made by these.  
It was a mistaken boast, asserts the  
Villager. Machinery creates things,  
not life; the new heaven and earth  
which we bought in electric supply  
shops was merely the old, disguised  
for the moment under a cluster of  
new furniture. It takes new life to  
make a new world. Who today can  
be deaf and blind to the evidences  
that life is once again at the spring?  
Movements are afoot stirring literally  
half of earth's population to new of-  
fices and to vast new dreams. Con-  
trust the age of machinery with the  
age of women and say which involves  
deeper-reaching changes in civiliza-  
tion? Put the age of physics beside  
an age in which the half of the world  
that is Asia is rubbing its eyes and  
getting to its feet, and say which is  
going to make deeper impress on the  
spirits and ways of thought of man-  
kind? For that matter, think of the  
world in which there was an American  
lady with problems of liquor and  
trade, of trusts and taxes, and then  
think of a world in which there is  
an American, immense, untired, stand-  
ing on thine before a world univer-  
sity? Which ever way you look you  
must ask yourself: What will come out  
of it? And who can cast the horo-  
scope? Who can, indeed, and is not  
this of itself a happy omen? Is it  
not good to be done with an age in  
which men were sure of everything,  
in which the future was made as definite  
as the past, in which events went  
by calculations, statistics, charts,  
diagrams, curves? What can you pre-  
dict now by the charts and curves?  
Where are now your prophets which  
prophesied? No broker knows any  
longer how to "read the tape"; no  
banker can tell you just what turn  
finance is going to take; no professor  
can demonstrate how the close knit-  
ting together of the nations must  
unlike war certainly impossible; no  
preacher is saying when religion is  
going to dominate the world in the  
next 500 years; no politician is prom-  
ising what form of government will  
be in the ascendant when he is a  
little while gone. Where cocksureness  
ends faith begins. Yes, it is a good  
time to be alive!

### CLOSE TO DEATH

Trespasser on Holy Ground in  
Great Danger.

Adventurer Saved Only by Sheik Who  
Had Taken a Fancy to the  
Supposed Bedouin.

Two hundred and forty miles from  
Mecca, the place of pilgrimage of be-  
lievers in the Mohammedan faith, is  
a town of nearly equal religious rever-  
ence—Medina, writes Temple Man-  
ning in the Cleveland Plain Dealer.  
Here rests the body of Mohammed in  
a marble-paved mosque, whose entire  
surface is covered with costly pray-  
ing rugs. It was to Medina, where it  
is death for a "Nazarveni," or Chris-  
tian, to be found, that I foolishly tried  
to make my way.

I thought that I might be able to pass  
for a Mohammedan where so many  
different nationalities meet in a com-  
mon babel of speech. Other Euro-  
peans had been successful, and al-  
though their number can be counted on  
the fingers of your two hands, I hoped  
to add my name to theirs.

With the help of an European I  
dressed my skin, donned Arab costume,  
and spent many long days in prac-  
ticing Mohammedan customs so I might  
pass as one of the elect. When my  
teacher pronounced me perfect in all  
my lessons I joined a caravan and  
set out with 600 pilgrims to cross the  
desert.

Encamped near the village of Gubun,  
close by a slave caravan, whose  
hopeless marauding we could hear  
wailing in the night, the picketed  
camels and glowing campfires of our  
company, a Bedouin sheik, who had  
taken a liking to me, was sitting be-  
side my fire. Quite suddenly he  
glanced up and spoke rapidly to his  
men, who left us alone, and then he  
turned to me. Without warning he  
tossed a small tobacco pouch toward  
me and called: "Catch it!"

Let anyone do that to you. If you  
are a man you will bring your legs  
together, if you are sitting down, so  
you can catch the missile in your lap.  
Now, it must be remembered that,  
after the fashion of a Bedouin, I wore  
a long, flowing robe. To all purposes  
it was a dress, and women and  
Bedouins make their laps, not by  
bringing their legs together, but by  
spreading them out. As I have said,  
I brought my legs sharply together.  
I did not know what a mistake I had  
made until later.

The sheik never said a word to me  
then. He rose from my fire and passed  
out into the night. Early the next  
morning, before dawn had broken, the  
sheik and two men came quietly to  
my little camp. His two men woke  
me from sound sleep and told me that  
I was to go back the way I had come  
with them. In other words, I was not  
to be permitted to go to Medina. I  
protested, and my captors threatened  
me; then the sheik came and spoke to  
me.

He told me, more in laughter than  
anger, that he had found me out, and  
he told me how he had made the  
discovery. If he had permitted me to  
go further, my life would probably  
have been forfeited by my ignorance.  
As it was, I went back along the desert,  
having failed because I did not know  
how to play "catch" with a dress on.

**Flying Gas Cloud.**  
A cloud of glowing gas has been  
discovered flying through space at a  
speed of 1,125 miles per second.

Readers may be relieved to know  
that it is traveling away from us,  
but even if it were coming our way  
there would be nothing to fear, as  
many thousands, perhaps millions, of  
years must elapse before it could reach  
us.

How it manages to remain intact  
while traveling at such a dizzy speed  
is a mystery. Equally mysterious is  
the manner in which it was able to get  
up such a speed.

The most probable explanations are  
that it has been shot from some  
gigantic sun belonging to a universe  
of stars far beyond those we can see,  
or that it is a gradual accumulation of  
gas or gasses which ultimately will  
be formed into stars such as we see  
around us at night.

**Sports in Argentina.**  
Argentina is becoming one of the  
sporting countries of the world, says  
the New York Evening Post. Soccer  
football is a favorite there, as are  
tennis, field hockey, boxing and fenc-  
ing. The fashionable rowing center  
called Tigre, about twenty miles from  
Buenos Aires, resembles New London  
or Henley. First class cricket is  
played, and golf is improving. Near-  
ly all the great estancias have their  
polo teams and many thrilling meets  
are held. The Argentine polo team,  
"Wild Horse Ranch," followers of the  
game will remember, created a sensa-  
tion in England some time ago.

feels the slightest attachment for a

### A LETTER FROM CALIFORNIA

MRS. C. E. RYDER WRITES INTERESTING LETTER TO THE MAIL.

Alhambra, California, November 30, 1921.  
Editor Plymouth Mail.

Dear Sir: We are having a delightful time at the pleasant home of Mr. and Mrs. Charles Armstrong, sitting on the porch amid sunshine and roses. Cannot help but sympathize with you poor mortals back east, who are plowing through snow and mud on the cross roads. California prides itself on its good roads and fine school buildings, and well they may, for they surely are fine.

We have taken some wonderful trips during our five weeks' stay in Alhambra, which by the way is a very pretty city, with a population of 19,000, lying at the foot of the Sierra Nevada range, with Mt. Low, which has an incline railway going to the top, and Mt. Wilson, which is nine miles to the summit, in sight. We walked up the trail about a quarter of a mile, but I was too much of a tenderfoot to go farther. On a clear day one can see Old Baldy, a snow-capped peak from here, over 60 miles away. Alhambra is called the Gateway of the San Gabriel Valley.

A great deal of building is going on at the present time. Some fine orange groves right in the city have been sold recently, and beautiful bungalows are taking the place of them.

Pasadena is only three miles from here, and is the home of millionaires. Los Angeles is nine miles distant. Any direction one is a mind to travel, you pass through palm trees, the tall eucalyptus trees or pepper trees, and then the orange groves with fruit, which will soon be picked and shipped for the Christmas market.

The first sight of the ocean was at Long Beach, 90 miles away, where we called on Mr. Scovill, who by the aid of his wheel chair is able to go to the beach every day. It is a grand sight to watch the breakers come in and see hundreds in surf bathing. It's a lively place there, with wonderful hotels and long pier, which we went out on. Saw some battleships and could hear the cannons boom at its gun practice.

We spent from Friday until Sunday at Hermosa Beach. People go there mostly for the fine fishing. There are hundreds out on the long pier with their fishing tackle. Saw one man get four star fish—quite large ones. They are curious looking things. While there we went to Redonda, and looked for moonstones along the beach. Also went in the hot salt water plunge. After lunch we took a long ride along the beach, passing through Clifton by the Sea, where you get a wonderful view of the ocean and mountains. Then on to San Pedro and out to Point Firmin. There we had a splendid view of the warships and five hydroplanes resting on the water. The picture presented was one long to be remembered.

Two weeks ago, Mr. and Mrs. Armstrong, Mr. Ryder and myself went to Venice, about 30 miles from here, to visit Mr. and Mrs. Riggs. They

have a very pleasant place there. Mr. Riggs is feeling fine. After lunch they went with us to the beach, which is indeed a lively place—all kinds of amusements, and one of the largest dancing pavilions in the country. One gets a grand view of the mountains there.

On the way there we drove down into Beverly Glenn, right between the mountains, which is a most romantic spot. Could see Mary Pickford's home way up on the hills. We passed by the place in the Glenn, where Kennedy was murdered and which has caused such a sensation here. Also drove through the grounds of the Soldiers Home. It is an immense place capable of sheltering thousands of soldiers. We saw a good many old veterans in the grounds. It is an ideal spot for them to pass the remainder of their days.

One day we took a trip twelve miles from here up in the foot-hills to see Mr. and Mrs. Arthur Smith. They were both well. They had just been picking lemons for market. They picked 1200 boxes of peaches this season. They think there is no place like California.

On the way home, we came by the way of Glendale, which is beautifully situated by the side of the mountains, and called on Mrs. Charles Shattuck; also went to Dr. Collier's home at Eagle Rock. He was not at home, so were disappointed in not seeing him.

We attended services at the Old San Gabriel Mission, which is a five minutes ride from here, Sunday morning. It was founded in 1771, and is a wonderful quaint old place. A great many Mexicans attend service there.

The Japs are great on gardening. Everything is under the highest state of cultivation. It has only rained once since we have been here. All orange, lemon and olive groves, as well as English walnut groves, are irrigated.

Thanksgiving Day we started out early in the morning, and went east to San Bernardino, over sixty miles away. Some of the way was through desert land; mountains in sight all the way. From there to Redlands, where we called on a fellow traveler. Then back by the way of Riverside, where we had dinner and visited the wonderful Mission Inn, with its many curios, from all over the world, with an auditorium and wonderful pipe organ, which we had the pleasure of listening to. On Mt. Robadoux, near Riverside, is erected a large cross that is discernible miles away, and at Easter time hundreds of people from all directions go to the sunrise service held at the top.

We arrived home at 4:30, after a ride of 150 miles. Words fail to describe the beauties of this country. We are planning on a trip to Catalina Island and Santiago soon, and if this does not weary you, may come again.

MRS. CHARLES RYDER.

When You Are Constipated. To insure a healthy action of the bowels and correct disorder of the liver, take two of Chamberlain's Tablets immediately after supper. They will not only cause a gentle movement of the bowels, without unpleasant effects, but banish that dull, stupid feeling, that often accompanies constipation.—Advertisement.

### WHAT EVERY WOMAN WANTS TO KNOW

(By Home Economics Dept., Michigan Agricultural College)

Is Your Child Well Nourished? Malnutrition in childhood is one of the most serious causes of physical weakness in later life. If the child is undernourished, he cannot withstand childhood's infectious diseases. The well nourished child may not escape the disease, but he can at least escape disastrous after effects.

Many mothers fail to realize that their children are really ill, as a result of poor nutrition. They think the child is merely nervous, irritable and obviously "underweight." They often describe his condition as run-down; no appetite; frail; delicate; thin; skinny; sensitive; easily upset; growing too fast; or merely "not himself."

When these conditions exist, a child's condition is really serious. The delicate child must be made robust. Malnutrition makes the child susceptible to tuberculosis and retards mental development.

If your child does not eat well, sleep well, study well and feel well, it is time to make a serious study of his diet. Improper nutrition may be to blame.

Milk, as a regular part of a child's diet, insures proper nourishment. Next week we will discuss milk, as a vital food for children.

A CARD—Mrs. O. T. Richards and family wish to extend their sincere thanks to the many relatives and friends for the kindness and sympathy shown them in their late bereavement, and for the consoling words by Rev. D. D. Nagle; also for the beautiful singing and floral offerings.

A precious one from us is gone. A voice we loved is stilled; A place is vacant in our home, Which never can be filled.

Jesus, while our hearts are bleeding,

O'er the spoil that death has won; We would at this solemn meeting, Calmly say, "Thy will be done."

Mrs. O. T. Richards, Mr. and Mrs. A. Tate, Mr. and Mrs. Cortland Richards, Mr. and Mrs. G. Bodora, Harry and Leroy.

### W. C. T. U.

The Woman's Christian Temperance Union met Thursday, December 8th, at the home of Mrs. Wyman Bartlett. The attendance was large, there being, besides the members, a number of guests present. The Christmas program was short, owing to the fact that a number, who were expected to take part, were unable to be present. However, the readings by Miss McGill, Mrs. White and Miss Nettie Pelham, were humorous and were enjoyed by those present.

The next meeting will occur, January 12, 1922, at the home of Mrs. John Rattenbury on Ann Arbor street.

## TOURING YELLOWSTONE PARK

Returning from my early fishing trip with the two nice trout, a young doctor at Lake Camp asked if I had caught them with a silver hook, and wanted to buy one himself. Just to convince him I did not buy them, I gave both to him. He was very much pleased and presume he was hailed as an expert trout fisherman by his friends later. Succeeded in getting a warm breakfast, regardless of the late hour, packed our turkey, and embarked at 10 a. m. for the trip from Lake to Grand Canyon camps. This is a distance of twenty-three miles and considerable mountainous roads, and takes two and one-quarter hours.

After passing Lake Granger station and the junction road leading out Cody entrance, we made a fifteen-minute stop at Mud volcano—"Dragon's Mouth." This is an uncanny spectacle—a cave in the side of a huge rock, somewhat resembling the mouth of a dragon. Out of this mouth with much rumbling and commotion, beches black mud in profusion, which is caught in a huge saucer-like cavity in the rock below the mouth. As this saucer does not seem to fill, it must have some hidden connection with the mouth.

We next pass a level meadow with a little brook looping the loop all over it. This is called the Northern Pacific Trade Mark. Look at the N. P. trade mark on their folders, and you will appreciate the beauty and novelty of this little valley.

We next come to Artist Point, where the first good view of Grand Canyon of the Yellowstone is had. It is a wonderful scenic view. At the bottom of its sharp sloping sides, runs the Yellowstone River. Just above are the Upper and Lower falls, the latter being 308 feet high. The gorge is 1,800 feet deep and 2,000 feet across. Gorgeous colored rock in abundance; eagles nests on high pinnacles; deer trails run part way down in places to grass plots around springs in the sides—all very beautiful, but I must admit we were disappointed. We had seen the Grand Canyon in Arizona, which is thirteen miles across and one mile deep, and has small side canyons as large as this park canyon. If you ever take the Santa Fe Railway west, you will never regret the one mile trip, and the extra few dollars it takes to stop off at Williams and take the side trip up to Grand Canyon. It is the deepest hole in God's green earth, and fully as highly colored—thirteen strata, all different rock. The father of them all. It takes from 8 a. m. to 4 p. m. to make a trip 7 1/2 miles from the rim down to Colorado River on a burro, while we climbed down Uncle Tom's trail to Yellowstone River in three-quarters of an hour.

From Artist Point, we follow the rim to Inspiration Point and on to Grand Canyon Camp, which is located across the river near Lower Falls. After dinner a large hiking party, with a guide, made a trip along the rim and down Uncle Tom's trail to a point near the foot of Lower Falls. All hand baggage was taken away from the company and checked above, as they needed both hands and then some. Ladies were requested to rent khaki pantslets. Most of them wore them the entire park tour. Part of the way was by steps cut in rock and hanging to iron pipes fastened in the rocky sides. One old lady, who boasted she had climbed the highest mountains in Switzerland and Italy, persisted in going down, and with a long skirt on. She had to have assistance, however, to get back. Many were frightened out and only went part way.

The trip continued along the rim to Artist's Point, returning by road past a large cave where bears go in to hibernate for the winter. We didn't care to explore this cave, fearing it might then be occupied by some of the thousands of animals which inhabit this region. All in all, Grand Canyon Camp is a great favorite among tourists. I forgot to mention that at Lake camp there are hundreds of tame woodchucks living under the camps, and all the kiddies have great sport coaxing the ground hog to them on their hind feet to eat crackers out of their hands.

The same evening camp-fire entertainment as at previous camps at 8:00 p. m. One fellow created considerable merriment when called on for a solo to represent Montana. He sang:

I'm a wild Montana flower,  
Growing wilder every hour;  
Nobody cares to cultivate me,  
For I'm as wild as I can be.  
Puts hand to top of head and swings around on heel.  
Second verse:  
I'm a dry Montana flower,  
Growing dryer every hour;  
Nobody cares to cultivate me,  
For I'm as dry as dry can be.  
The employees of the camp gave a burlesque exhibition of a party loading a bus. The young married couple forgot their baggage. One woman forgot her glasses. Another couldn't find her husband, etc., which was all very comically acted out, and kept the crowd laughing half an hour.

Another hiking party next morning to the top of the falls, and other points of interest. At 1:15 p. m., we load up for our final trip to Mammoth Hot Springs via Dunraven Pass. By paying a little extra one can take the bus that goes over the top of Mount Washburn. We stopped and got out and snowballed each other just to see how it would seem to snowball in the middle of July. Mount Washburn is 10,100 feet high. The climb is long, but the views constantly unfolding as the tourist rises are unrivaled, and the time taken in the slow climb is put to good advantage by the sight-seer.

Beyond Mount Washburn the road enters an open country with numberless opportunities to view the surrounding region. There were several small groves of poplar and birch trees that had most of the bark off up six feet, caused by the elk's horns which had sought some shelter among the trees in the storms.

We made a fifteen-minute stop at Tower Falls, 132 feet high. Pass under "Overhanging Cliff." Pass the "Needle." This is a long slender spire that stands at the river's edge, and mounts 300 feet high.

We made only a short stop at Roosevelt Camp, which is a rest camp, located in a wild forest—good fishing.

We passed a beaver dam three or four rods long, with their dwelling,

which was built up like a muskrat house, except that it was fifteen or twenty feet across. Made a five-minute stop at Abscon Falls. Arrived at Mammoth Camp at 5:00 p. m., a 32-mile ride in four hours. After supper the busses were waiting to take us back to Gardner, and at Gardner the train was waiting and we were soon on our way east for the Twin Cities, Chicago, and Home, Sweet Home.

Don't forget Postland World's Fair in 1925, and the vast amount of greatest scenery in the world to be seen enroute on a properly planned trip.

The End. F. W. HAMILL.

## Episcopal Notes

Last Friday evening, the Rev. J. G. Widdfield, archdeacon of Detroit, paid his first visit to Plymouth. A baptism service was held at 7:30, after which some lantern slides, views of the new Episcopal Cathedral at Washington, were shown. A description of the views was given by Archdeacon Widdfield, assisted by Franklin L. Gibson. This great cathedral will be one of the finest in the world, at the capital of a nation whose population is drawn from all parts of the world, whose congress is representative of all parts of the country, where thousands of visitors gather every year—a great church, free for all people, a house of God for services of national intercession and national thanksgiving.

We had a large congregation at St. John's, Sunday morning. Franklin L. Gibson gave a fine address. At the end of his discourse, he spoke very earnestly to those who were about to be confirmed, reminding them again of the responsibility they were taking upon themselves, at the same time giving them much helpful advice and encouragement in keeping their promise.

The vestry of St. John's certainly appreciate the kindness of the Presbyterian society in offering their auditorium for our use on the occasion of the Bishop of Michigan's visit. Bishop Williams appreciates this, too. He has often expressed the wish to speak and meet with the people of Plymouth of all denominations, and we are glad that this is now made possible by the present offer, our own little mission being far too small for such a gathering.

The Rev. Harry Robinson of Detroit, will be with us next Sunday morning, and will administer the first communion to the newly confirmed. It will also be a general communion service, so we hope there will be a full congregation. The Rev. Robinson will give an address, and we will be pleased to welcome friends and visitors.

Sunday-school, don't forget the supper and Christmas tree on Thursday evening, Dec. 22nd.

## What Kind of a Battery Would You Sell?

Would it be a cheap battery that the manufacturers wouldn't stand back of?

Or a high-priced battery that made no attempt at economy?

Or a sound, well built battery that sells at a fair price and that gives the most miles of uninterrupted service per dollar, as does the Willard Threaded Rubber Battery?

Experience has proved our wisdom in choosing the Willard Battery with Threaded Rubber Insulation.

Come in—and we'll tell you how it will save money for you.

### Today's Reflections

We are heartily in favor of a bob-tailed navy if it will curtail expenses.

The wisest man in Plymouth can't tell when a woman laughs whether she really means it or if she is just trying to show off a dimple.

Some men are born great and a good many achieve greatness. But the average man doesn't bother his head about it.

Give the average Plymouth woman half a chance and she'll start right in to boast of her ailments.

The man who finishes last in a political race has an empty purse he can save as a souvenir.

Life to the turkey possibly appears pretty much like just one darned holiday after another.

Maybe the reason Christmas comes slowly to Plymouth children is because they don't have to pay rent.

Crookedness never pays in the long run. Look how they put the cork-screw out of business.

The ear is a wonderful organ, but how many Plymouth people can distinguish between celery eating and stepping on a basket.

We see a story in an exchange where a woman used a telephone for the first time in 80 years. She must be on a party line.

Marshall Foch gave Babe Ruth a brick. If everyone was as thoughtful, Babe could soon have a house of his own.

And the merriest Christmas is going to be the one spent by those

Plymouth people who do their buying before everything has been paved over.

Maybe the reason the mule kicks is because its owner won't buy a tractor.

Still a lot of fellows don't understand that two autos can't occupy the same place when going in opposite directions.

A Philadelphia preacher says editors don't always print what they think. Maybe that's the reason some editors are still alive.

An auto is a necessity to some people simply because their neighbors have one.

Looking at some of the autos passing through here, isn't it strange what people will hang license tags on?

Plymouth men can tell you that quarreling with one's wife is not costly. Making up is the expensive part of it.

Sometimes when we get hold of a Christmas cigar, we understand why the factories that make rope run all the year round.

During the deer hunting season, it's a bad idea for a calf to try to look like a deer.

Cotton stockings will be cheaper next year, but that isn't telling the average Plymouth girl anything she cares to hear.

There are said to be over fifteen million telephone numbers in the country, and just look what a hard time you have getting even one of them.

## Why Not a FORD for Christmas?

### A Car for the Whole Family

One fact is certain, when you buy a Ford, the universal car, for a Christmas Gift, you are bound to please not only yourself, but the entire family.

For the large family we would recommend the five-passenger Sedan, in which you can take the family any time of year in solid comfort.

For a family of two or a young man or lady, the Ford Coupe makes the ideal gift. The closed car has become the favorite for winter driving because of its snug comfort and easy riding qualities. However, it is just as comfortable in summer weather, because of its well arranged ventilation.

The touring cars and roadsters, while in another class, also make acceptable gifts because they have become a business necessity, especially to the farmer.

You will not go wrong if you buy any one of the Ford cars as a family or individual gift.

We are going to make this a Ford Christmas. Your family will be better pleased. Just think of spending \$5.00 here and \$10.00 there and \$20.00 somewhere else, and only one or two in the family getting any benefit, whereas you buy a Ford with electric starter, demountable rims, Timpken roller bearings and over-size tires, with reasonable care will last you six years.

2190 days cost approximately 2c per day, and at the end of 6 years have a high exchange value. In fact no article on the market has the exchange of a Ford car after years of use.

Buy a Ford car, and your family will have 365 Christmases instead of one.

We are in a position to sell you a Ford car on most liberal terms—one-third down and balance in 12 months.

Give us your order today, and we will deliver your car Christmas morning.

### ANNOUNCE DATES FOR BIG RURAL CONGRESS

FAMOUS SPEAKERS LISTED FOR ANNUAL M. A. C. FARMERS WEEK, JAN. 30 TO FEB. 3.

Farmers Week at the Michigan Agricultural College will be held from Jan. 30 until Feb. 3 this year, according to announcement just made at the College. An annual event for years, Farmers Week has grown to be by far the biggest winter gathering of rural workers held in Michigan. More than 5,000 people registered during the week last year.

Agricultural and economic leaders of international fame are listed among the speakers already named on the tentative program for the general meetings. In addition to President M. L. Burton of the University of Michigan, and President-Elect David Friday of M. A. C., Sir Auckland Geddes, British Ambassador to the United States; Henry Wallace, U. S. Secretary of Agriculture; Senator Arthur Capper, of Kansas, and Congressman Patrick Kelly and J. C. Ketchum, of Michigan, are included among those who have been invited to speak and are expected to be present.

A dozen of the leading agricultural organizations of the state will hold their annual meetings at the College during Farmers Week, adding to the crowd and the importance of the congress. The States Farm Bureau, the Michigan Crop Improvement Association, the Michigan Potato Producers Association, the Michigan Horticultural Society, and the Michigan Muck Producers Association are among those that have already set their meetings during Farmers Week.

### DON'T TRUST THE SOCK

There are still many people around Plymouth who still put their money away in an old sock or the sugar bowl, and refuse to trust it to Uncle Sam or a good, solid banking institution. We read recently where a man lost his straw hat, and with \$75 he had stored away inside the hat-band. Another man gave a bootblack a pair of shoes to shine—and, when too late, remembered he had stuffed \$2,000 in the toes of the shoes for safe-keeping. And every day we read of money stolen from its hiding place under rug or mattress—the first place a burglar looks for valuables. But some people simply can't bring themselves to realize that nothing in all world is as safe and secure as Liberty bonds and war saving stamps, and that bank failures are almost unheard of in this country any more. We're sorry for these kind of people—the kind who are afraid to trust their fellowmen. We're sorry for anyone who loses sleep—and the man who can't trust his money into the keeping of others usually loses more or less sleep for fear someone will walk away with the sugar bowl or the sock.

Do your Christmas shopping in Plymouth. You can surely do better than anywhere else. Read the ads.

Ezek. 5:5-8. "Thus saith the Lord God; this is Jerusalem: I have set it in the midst of the nations and countries that are round about her. And she (Jerusalem) hath changed my judgment into wickedness more than the nations and my statutes more than the countries that are round about her; therefore thus saith the Lord God: Behold, I, even I, am against thee, and will execute judgments in the midst of thee in the sight of the nations." The typical fulfillment of all this long ago passed into history. The antitype is our quest of today. For was there ever a type without its antitype? And if verses 10-17

are the fulfillment of today, is there not cause for sober reflection? What system is the Jerusalem of today? Come and see. 502 South Mill street Sunday at 2:00 p. m.

### NEIGHBORHOOD NOTES

ITEMS GATHERED HERE AND THERE THAT WILL BE OF INTEREST TO OUR READERS.

Northville has organized a "town" basket ball team.

Rochester, Michigan, has just organized a Board of Commerce

C. R. Ely of Northville, will establish an artificial ice plant in that village.

Ypsilanti will have an automobile show, February 1 to 4. This will be the first auto show in the state for the new year.

Wayne has the honor of being the smallest town in the world that has a Rotary club. The new organization was formed last week Tuesday with twenty-four members.

Builders have promised the new \$50,000 children's permanent hospital for tuberculosis at Northville to the health department, for Christmas, and equipment will be installed soon thereafter, which means that 100 children may be admitted as patients March 1, 1922. Dr. Henry F. Vaughan, health commissioner, announces.

A giant golden eagle measuring seven feet from tip to tip was recently killed near Brighton. Its head was said to be as large as a man's head, and its feet and talons were larger than a man's hand. It is believed to be the only one ever known to have been found east of the Mississippi, as it is altogether a western bird.

The Kitchen Appliance Corporation of Pontiac, with stock issue of \$500,000 approved by the Michigan Securities Commission, will start the manufacture of a dishwashing machine in 90 days. The machine is electrically operated and in addition to washing and wiping dishes, it cleans pots and pans and vegetables, soaks cutlery, sharpens knives, beats eggs or cream and cleans bottles.

Through the efforts of James N. VanDyne, high priest of Union Chapter, R. A. M., of this village, a chapter of DeMolay, an organization for boys between the ages of 16 and 21, and which is sponsored by Knights Templar or Royal Arch Masons, will be formed in Northville. A preliminary meeting was held at the Masonic hall last evening for the purpose of deciding upon a name for the new chapter and a general consideration of the plan of organization. Boys between the ages mentioned will be admitted to membership providing they possess good moral character and are esteemed worthy by their fellows. The jurisdiction of the new chapter will comprise the same territory as that now claimed by Union Chapter, which will mean that boys in Northville, Plymouth, Farmington, Bedford and South Lyon will be admitted to membership. The organization has been in existence about two years and at the present time there are about three or four chapters in Michigan, and by taking prompt action Northville will be among the first—in fact will be the first small town to have a chapter. The ritualistic work teaches many

lessons which will prove of great value to the boys and it is hoped to have a large membership.—Northville Record.

### SCHOOL NOTES

Those having the highest speed in first year typewriting are: Ruth Mechenburg, 39 words a minute; Iris Palmer, 18 words a minute; Dorothy Waterman, 17 words a minute; and in the second year typewriting they are: Doniel Patterson, 41 words a minute; Winifred Willett, 38 words a minute; Dorothy Hinnau, 28 words a minute.

The class in English literature are studying the drama and Shakespeare's "Macbeth."

Bleachers for placing in the auditorium have arrived. There will be room to assure 250 seats in the end of the room, and everyone can see the basket ball games seated, instead of only the front row as heretofore.

The inter-class basket ball games ended Monday night for the girls, the Juniors winning the class championship. They won from all the other classes; the Freshmen came next, winning from all but the Juniors; the Sophomores winning from the Seniors, and the Seniors came last. They had hard luck with their players, being defeated in all games. The boys' games resulted in a triple tie, which will be played off after these notes go to press:

|            | Won | Lost |
|------------|-----|------|
| Seniors    | 2   | 1    |
| Juniors    | 2   | 1    |
| Sophomores | 2   | 1    |
| Freshmen   | 0   | 3    |

A group of Belleville High school students visited school, Tuesday, each pupil visiting writing classes of grades in which he was enrolled. Chaperoned by Mr. Hedding were: Wilmina Hedding, Sidney Miller, Fred Gilstark and Dale Garlie.

### PRESBYTERIAN PARAGRAPHS

The every member visitation is still going on. Have you been "seen" yet?

Miss Mabie Root and Miss Olive Merz visited the Caritas home last Sunday. Monday S. C. Hathaway, Lily and Lucille Van der Velde, Winifred Draper, Francis and Alice Hathaway went out to arrange a "Bat Ball" game. Two teams were formed with Gladys Butler and Blanche Goldman as captains. An hour of spirited fun was enjoyed with the score in Gladys' favor.

Twenty-five Bibles have been ordered for use in the Sunday school and Christian Endeavor societies.

On the Thursday evening before Christmas Sunday, a supper will be given the members of the Sunday-school.

The Juniors are having a picture framed to hang on the wall of the prayer meeting room.

Those taking part in the Christmas pageant are asked to be at the church next Sunday afternoon.

The following classes in the Sunday-school are organized: "The Busy Woman's Bible Class," "The Men's Bible Class," "The Daisy Class," "The Help a Bit Class," "The Ready Service Class" and—who's next?

### LOCAL NEWS

Mr. and Mrs. Ora Renwick, of near Wixom, were guests of the latter's aunt, Mrs. E. R. Potts, last Saturday.

The local store windows have taken on their holiday dressing, reminding us that Christmas is just around the corner. Our merchants are showing a splendid stock of holiday goods, and there will be no need of leaving Plymouth for anything you may need. Look over the many advertisements in today's paper, and you will have no difficulty in solving the question of where or what to buy. A careful perusal of the ads in the Mail will save you money on your Christmas purchases.

### ELM

O. T. Richards, an old and respected citizen of this place, whose death was mentioned in last week's issue, and the way in which he was called to meet it, caused a great deal of sorrow to everyone who knew him. Mr. Richards had lived in this locality for about forty years, and has made a great many friends. The funeral services were held from his late home, Tuesday afternoon, December 6th, at 2 p. m., Rev. D. D. Nagle officiating. Interment was made in Riverside cemetery, Plymouth. He leaves besides his widow, five children, six grandchildren, two sisters and two brothers, besides a host of friends to mourn their loss.

### WOMEN CAN JOIN THE CHRISTMAS CLUB

The new Christmas Club now opened at the Plymouth United Savings Bank is ready to accept membership therein from every woman in our community.

Women are by nature savers, rather than spenders, and many have expressed their gratitude to the Plymouth United Savings Bank for offering them an opportunity to systematically save their money.

The 5c Club and 10c Club are very popular. Just think of starting a bank account with 5c per week, the least deposit being only \$2.50 and have \$63.75 at Christmas time. Start with 10c and increasing the payment 10c per week, you have \$127.50 at Christmas time.

Mothers who desire to teach their children thrift and systematic saving, can put their children into the Christmas Club either with 1c or 2c. The one-cent Club amounts to \$12.50 in 50 weeks and the 2-cent Club amounts to \$25.00.

Men and boys are also invited to join the Christmas Club.

Another plan, termed the "flat sum" or "even amount" plan is also open to membership. In this flat sum club, you deposit a certain specified sum, each week—either 25c, 50c, \$1.00, \$2.00, \$5.00, \$10.00 or \$20.00 or even more. At the end of 50 weeks, these clubs amount to from \$12.50 to \$1,000.00.

The main idea of the Christmas Club is that you determine to deposit a certain specified amount regularly every week. This regularity of depositing money is what makes the bank account climb higher and higher, faster than one realizes.

Next Christmas all or part of this Christmas Club money can be drawn out for Xmas needs, or a part of it or all can be left on deposit in the bank to accumulate for future needs.

This is a most excellent plan for saving money, to educate the boy or girl, or to buy or furnish a new home. Won't it be splendid some day to have a nice little bungalow built from the small change which would be tossed away unless the Plymouth United Savings Bank offered an opportunity for systematic savings?

### LOCAL NEWS

Charity Concert tonight at Penniman Allen theatre.

Mrs. A. T. Stewart of Northville, spent the week-end with Mrs. Winfield Scott.

Mr. and Mrs. Charles Barnes were given a pleasant surprise at their home on South Main street, last Saturday evening. About fifty guests were present, and cards was the entertainment. A fine lunch was served. Friends were present from Detroit, Northville, Redford and Plymouth.

The members of the Shoveloffski family were pleasantly entertained at the home of Mrs. Clyde Alexander, last week Wednesday afternoon. Dainty refreshments were served, and the remainder of the afternoon was spent in practicing for their next appearance in public. The afternoon was very enjoyable, and all declared Mrs. Alexander a splendid hostess.

A small house belonging to James Buscario in the south part of town, burned to the ground early Saturday evening. Mr. Buscario and his sister, Jennie, reside in the house, and at the time of the fire were attending the picture show. They lost all of their household goods and clothing. The origin of the fire is unknown. A small insurance covers the loss.

Water is now going over the new Ford dam which was just recently finished on the property formerly known as the Wilcox mill. The new dam, which is built of concrete, forms a half circle and is 85 feet wide. It is a fine piece of masonry, and looks as if it would stand a great amount of pressure. The roadway in front of the old mill has been widened considerably, and makes a splendid improvement. Mr. Ford has certainly made a great change in his new property, and without a doubt will continue to make further improvements until the Plymouth power plant will be one of the best on the Rouge.

### USE OF 1922 LICENSE LANDS DRIVER IN COURT

Owosso, Mich., Dec. 8.—George Siaggett of Saginaw, paid costs in justice court here, Wednesday, for driving his car with a 1922 license.

He was also compelled to buy a 1921 license for use the balance of the year. Siaggett had been told by Saginaw police that he could use the new license for the balance of the year, but Sheriff J. W. Sproule was informed over the telephone by Charles J. Deland, secretary of state, that no police officer nor sheriff had any authority to give such permission.—Detroit Free Press.
