Spring is Here—Your System Requires a Good Spring Tonic

This time of the year many people suffer from what is termed "Spring Fever," which in many cases is due to the stagnant condition of the blood because of the toxic poisons stored up within the body. You have a tired feeling and wonder why. It is because the various organs of the body are not doing their normal duties. Until nature takes hold, you should try the refreshing tonic powers of "Herb-Tone," a good Alternative and Blood Purifier—especially if you have had winter colds or influenza. Your blood has exhausted its strength—it is in no

condition to fight off other disease germs you might be exposed to. It is necessary to keep your system in first-class condition and to do this, you must have good pure blood. Most diseases are traced to the blood because it reaches all the organs and tissues of the body. For purifying the system, you should take "Herb-Tone," especially at this time, for it is a fine Blood and Skin Purifier, Tonic and Alternative. "Herb-Tone" stimulates nature to expel impurities thru the natural channels, cleansing and enriching the blood, thereby keeping the system in a healthy state.

CHRISTIAN SCIENCE LECTURE WELL ATTENDED

The lecture on Christian Science given by Miss Mary G. Ewing, of Chicago, member of the Board of Lectureship of The Mother Church, of Christ, Scientist, in Boston, Mass., at the Penniman Allen theatre, last Friday evening, was well attended. Miss Ewing was introduced by E. B. Bennett of the local church, under whose auspices the lecture was given. Miss Ewing is a most talented speaker, and held the closest attention of her hearers throughout her discourse. She said in part:

"The fundamental truth of Christian Science is the fact about causation, that good, Mind, Spirit, is the only active, operative intelligence, or creative energy. From this it follows logically and inevitably that the universe including man, the product of this intelligence, is spiritual. Once accept this basic teaching and you are compelled to admit its correlative,—the unreality, the impotence, the falsity and entire mortality of evil and matter. The creative power of Mind, or good,—the Fatherhood and Motherhood of God,—is the primal fact of existence; the relationship between the creator and His creation, between parent and child, is unchanging and indissoluble."

"Our false theories about life and its origin have led us to accept material beliefs about all things, and we have named our mistaken sense of substance, matter, and accepted as real and inevitable its phenomena. Having accepted a false premise, it is impossible to make any correct or reliable deduction, and so it is absolutely necessary to get back to the truth about life itself, in order to have any basis for right reasoning. The great mission of Christian Science is to teach us to think accurately, independently, spontaneously, and to reason honestly from the standpoint of understanding of true causation. This ability to think clearly and correctly, which is ours as a God-given capacity, enables us to understand the law of divine Principle and so to detect and uncover the falsity of the phenomena which are contrary to divine Principle; it also arms us with power to dispose of such phenomena in proportion to our understanding of their ephemeral and unreal character. Now disease is one of these phenomena which lays great claims upon our daily experience and holds the human race in bondage, and I know that I am right in saying that health will never be gained nor will it ever be maintained by any system that fails to eradicate disease. It is unquestionably true that the very foundation of all discordant human condition lies in a mistaken sense of the source of life itself. Jesus meant this when he said, 'It is the spirit that quickeneth: the flesh profiteth nothing,' and today, in the accurate and systematic teaching of our Christian Science textbook, we have the explanation of the rule Jesus laid down and the necessary guidance for its proper application to our every need."

"In a gathering such as this, one recognizes the impulse of that 'hunger and thirst after righteousness' which today urges the world of humanity to seek to understand the infinite Love, the divine intelligence which created and sustains the universe and man. Since God, good, is our Father and Mother, our true fatherland is the great kingdom of heaven, that land of promise which Moses so beautifully pictured to the children of Israel. This fair land, metaphysically understood, is the universe of Mind's creating,—the secret place of the Most High,—a present fact, not a future possibility, and Mrs. Eddy says that "of this kingdom there shall be no end," for Christ, God's idea, will eventually "rule all nations and peoples—impartially, absolutely, finally—with divine science." (Science and Health, p. 565.)"

SPRING ROUND-UP SATURDAY

THE FOURTH "ANNUAL SPRING ROUND-UP" OF BOYS' AND GIRLS' CLUBS WILL BE HELD AT PLYMOUTH HIGH SCHOOL, SATURDAY, APRIL 15.

The fourth "Annual Spring Round-Up" of Boys' and Girls' Clubs will be held Saturday, April 15th, at Plymouth High school, beginning at 10:30 a. m. The Round-Up is the Achievement Day for all club members. Every club member who has successfully completed his project receives a Certificate of Achievement from the Michigan Agricultural College and U. S. Department of Agriculture. During the season which is about to close three hundred boys and girls have been engaged in projects as Hot Lunch, Garment Making and Handicraft clubs.

To be a successful finisher each member completes the required amount of work, keeps an accurate record of his costs and receipts, writes a short narrative about his experience and finally exhibits his work. Previous to the Round-Up, local exhibits are held by each individual club. At this time the best articles are selected, and the club champion then exhibits them at the Round-Up, in competition with the winners of other clubs. This exhibit is then judged, and the "winner of winners" is declared the County Champion. County Champions attend the Annual Club Week, held at the Michigan Agricultural College in July. The County Champions will be announced at the Round-Up.

On Saturday each club will arrange its own exhibit, and have it in place by 10:30 a. m., so the judges can work. The remainder of the forenoon will be devoted to games and stunts under the direction of a competent leader. Lunch will be served at noon.

An interesting program will follow the luncheon. Community singing, including many club songs, will be led by E. A. Turner, State Club leader. Each club will then respond to roll call by giving a song, yell or stunt. The speakers will include Mr. Turner and Miss Barbara Van Heulen, assistant state club leader. At the close of the program the champions will be announced and certificates awarded to every member finishing his project.

Club members, parents and friends, remember the date—Saturday, April 15th.

INSTALL NEW GENERATOR

A new 7 1/2 h. p. generator has been installed at the Penniman Allen theatre, which provides direct current in place of alternating current as heretofore. This gives 100 per cent better light for the showing of pictures on the screen. The local theatre now has the very best equipment for the showing of pictures that money can buy.

Mr. and Mrs. J. W. McNally and daughter, Mrs. Harry Martin, of Simcoe, Ontario, were week-end guests of Mr. and Mrs. Robert Walker on Holbrook avenue.

With suggestive sweetness Mr. E. H. Herbel sang "Dear Heart," Miss Florence Matson at the piano, and Mr. Albert Herbel, violinist, accompanying. The subtle power of Lohengrin's Wedding March brought forth the bride and groom. Under a veritable shower of orange blossoms was the ceremony performed, Rev. McClelland officiating, a very pleasing ring service being used effectively.

The reception following was full of merriment and best wishes. During the evening, Mr. Herbel sang very expressively, two beautiful solos.

Mrs. Ross Sutton sang "Believe Me, if All Those Endearing Young Charms," exceptionally well.

Surprises were introduced when Moose friends gave the Moose yell with a vengeance, and a bunch of merry girls preceded the lucky charivari.

Mr. Van Voorhies has been interested in Citronelle for some time, owning property west of town, and exhibiting interest in the welfare of this section. Mr. and Mrs. Van Voorhies will leave for Prescott, Arizona tonight and the interest and very sincere wishes of many friends goes with them.

They had planned just a quiet little wedding with only a very few present but Mrs. Spratt, where the bride had been for some time, would not have it that way and threw open the Waverly to them. Both Mr. and Mrs. Van Voorhies appreciate the kind interest felt and shown, not only by Mrs. Spratt but by many others, and they leave here with the keenest regret of parting with good friends.

Methodist Matters

The Missionary Societies met at the home of Mrs. Huger on Main street, Wednesday afternoon. The annual opening of the Home Society Nite boxes was the order of the day.

Mrs. Fitzgerald led the discussion of the Study Book.

The annual meeting of the W. C. T. U. was held at this church Thursday afternoon.

Service Good Friday from 2:00 to 3:00 with an hour of consecration and worship. All who will, are asked to unite with us in making this a day of fasting and prayer.

Special Easter music by the quartette, both morning and evening, on Sunday, with other special selections in the evening, including an instrumental duet by Mr. and Mrs. Karl Hillmer.

An Easter sun-rise service will be held at 8:00 o'clock, Sunday morning.

Service Friday night at 7:30. Special music by E. Mosher of Ypsilanti, who will sing and play violin selections for us. A good song service, and a sermon by the pastor on, "The Worth of a Man."

A number are to be received into the membership of the church on Easter Sunday, both in preparatory and full relationship; also a number are to be baptized. If any have little children they desire to have christened, the pastor would be glad to do so, at the morning service.

We are asked to bring our Easter offering this year as representing a tithe or tenth of our income for Passion Week. This offering will go to help needy folks all over the world to know the uplifting and redeeming power of Jesus Christ.

Sermon topics on Easter: Morning, "Victory Through the Cross;" evening, "Crucified and Risen."

Mr. Mosher of Ypsilanti, is an exceptionally talented young man. You will want to hear him sing and play the violin at the service, Friday night at 7:30.

The Sunday-school meets at 10:00, Sunday morning, for the morning church service of worship, and as far as possible the scholars are asked to sit with their teachers or parents. The pastor will have a special five-minute sermon for the children.

FORMER PLYMOUTH CITIZEN WEDS IN SOUTH

We take the following article from the Citronelle Call, Citronelle, Alabama, relative to the marriage of Albert Van Voorhies, a former well known citizen of this village. Mr. Van Voorhies has a host of friends here who extend congratulations:

A quiet, impressive wedding was celebrated at the Waverly Wednesday evening at the hour of eight, in the marriage of Mr. Albert Van Voorhies of Plymouth, Mich., to Mrs. Elizabeth Jones of Prescott, Arizona. About sixty guests were present, adding their cheer to the beauty of the flowers, that were sent in such profusion and variety. Magnolia buds, Iris, Spirea, Pomegranate blossoms, Dogwood and roses of rare beauty vied with one another in grace and charm.

With suggestive sweetness Mr. E. H. Herbel sang "Dear Heart," Miss Florence Matson at the piano, and Mr. Albert Herbel, violinist, accompanying. The subtle power of Lohengrin's Wedding March brought forth the bride and groom. Under a veritable shower of orange blossoms was the ceremony performed, Rev. OBITUARY

Howard Henry Holcomb, son of Mr. and Mrs. Willard C. Holcomb, was born at Rose, Spink county, South Dakota, April 18, 1884, and died April 9, 1922 at his home on Holbrook avenue, after a short illness. He was married to Hattie L. Mezarah, December 20, 1905, at Pontiac, Mich. To this union were born six children, Arvilla preceding her father to the better land by three years. They spent the first part of their married life on a farm near White Lake. The last five years they have lived in Plymouth. He was employed part of the time at the round-house and part of the time at the foundry. He was a devoted husband and very much interested in his home. When not at work, he was always found at home, surrounded by his family, seldom spending his evenings away from home. He leaves to mourn their loss, besides his wife, Hattie, three sons, Henry, Harold and Lloyd, also two daughters, Edith and Winifred all at home; his mother, Mrs. C. Holcomb, who has made her home in Plymouth, and a host of neighbors and friends. His father died May 19, 1919, and his only sister, Laura, preceded him February 7, 1900.

The funeral services were held at the home, Thursday afternoon, at 2:00 o'clock, Rev. H. E. Sayles officiating. Interment at Clarkston.

WOMAN'S CLUB

A regular meeting of the Woman's Club was held in the kindergarten room at the school building, last Friday afternoon, April 7th. About thirty-five members were present, and the business meeting was in charge of the second vice president, Mrs. William T. Pettigill. Two new names were added to the membership roll. Famous American Wives was the response to roll call.

The program in charge of Division XI, with Mrs. E. R. Daggett, leader, was presented as follows:

Opening number two vocal selections, "Garden Song," Amy Finden, and "Sunrise and You," Arthur A. Penn, were pleasingly rendered by Miss Evangeline Foster, with Mrs. Gilbert Brown accompanying.

Reading—Club Story—Mrs. Daniel Murray.
Reading from Edgar Guest—Mrs. E. R. Daggett.

The closing number, vocal duets, "Boats of Mine," by Anna Stratton Miller, and "Starry Night," by John H. Densmore, sung by Mrs. William Bake and Mrs. Jack Chapman, were greatly enjoyed. On motion club adjourned.

The next regular meeting will be the annual meeting, April 21st, and all members are requested to attend. This (Friday) afternoon, April 14, Mrs. A. L. Moore of Pontiac, will give a travel talk in the Presbyterian church on, "Our Possessions—Hawaii and the Philippines, illustrated with stereopticon slides. Each member is requested to bring five guests.

NOTICE

The program that was to have been given by the pupils of the Red Brick school, Livonia, District No. 3, was postponed on account of the storm, March 31st. The same will be given April 14th, at the school house. Admission, adults, 25c; children, 10c. Proceeds to go toward paying for the piano.

Due to heavy losses and expenses and reduced premium income, nearly all Mutual Insurance Companies are under considerable strain at this time. Old Line Stock Companies are not seriously affected, but many light weight concerns, which have been unwisely managed have already succumbed, or have been compelled to call for 80 per cent to 100 per cent Special Assessments, and the prevailing opinion is that others of this class have trouble ahead.

Had One of the First Full-Fledged Banks in Europe.

SERVED AS BANKER TO KINGS

More Than 500 Years Ago Its Bank Had Such Modern Trimmings as a "Real Estate Department"—Unlike Rival Cities Genoaese Have Kept Much of Financial Ability Which Gave City Great Wealth and World Importance in Middle Ages.

A conference on European finances at Genoa suggests a revival of the city's home industry, remarks a bulletin issued by the National Geographic society on "Genoa la Surperba," as the Italians call their great commercial doorway, a port for 2,000 years.

"Genoa was one of the pioneers in European finance," says the bulletin. "It had one of the first full-fledged banks in the Banca di San Giorgio, the rival and for a long time the peer of the great bank of Venice. The Banca di San Giorgio, more than 500 years ago, had such modern trimmings as a 'real estate department' which took charge of conquered territories, administered them somewhat after the fashion of a modern trust company, and after putting them on a sound economic basis, ceded them back to the Genoese government. Later when Spain had its wonderful development of power and came near dominating the world, Genoa served as banker to its kings and as a sort of general manager and outfitter to its armies and navies.

Greatest Italian Port. "Unlike the people of some of its rival cities, the Genoese have managed to keep much of the financial and business ability which gave their city great wealth and world importance in the Middle Ages. Today its busy harbor with its forest of masts and funnels, testifies to its position as the greatest Italian port, the second port of the Mediterranean, and the fifth port on the mainland of Europe. Forty per cent of Italy's commerce is said to pass through the harbor of Genoa.

"The wealth that the business ability of the Genoese brought to their coffers has been recorded in stone in the city's many palaces, larger and more numerous than those of any other Italian city. From the harbor Genoa sweeps before the observer in a great semicircle, its buildings rising tier above tier on the slope of hills which extend almost from the water's edge. Beyond the closely built foreground the hillsides are studded with gleaming villas set in their terraced gardens. In the background, on the crest of the inclosing hills, are the ramparts that tell of the days when Genoa, supreme at sea, must protect her rear from hostile neighbors on land.

"Viewing some of the most nobly built streets, the visitor is ready to believe that Genoa had zoning laws and strict building regulations. Far back after block the cornice of one palace in a line with that of its neighbor, giving a consistency most pleasing to the eye. Spacious external marble stairs are features of many of the luxurious dwellings in other streets, due to the steep slopes on which the buildings were erected. In some of the ancient palaces scions of Genoa's famous old families still live, but many have been turned to public and semi-public uses and house municipal offices, museums and schools. The famous old Palazzo di San Giorgio, first residence, then home of the bank, now houses the harbor commission.

"Though in the very middle of the Italian Riviera, winter playground, Genoa is not itself a winter resort. But it is a convenient doorway and transition point for the numerous resorts both to the north and south. The very suburbs of Genoa, reached in a few minutes by electric trams from its squares, are well-known Riviera resorts. And the sojourner may find much in Genoa itself to interest him. Mole-like Tram Cars.

"It is a paradise for the walker and even for his less strenuous fellow sightseer. Roads and paths wind along the shoulders of the hills over the city and afford wonderful views of the palaces, the busy harbor, the blue sea, and far to the south, on clear days, the big island of Corsica, which little Genoa once owned. Carriages and motor-cars cannot negotiate all these vantage points, but tram cars popping in and out of countless tunnels, seem to burrow their way to many of them and funicular railways reach others.

"Genoa lays claim to having given the world some of its foremost citizens. Columbus has long been believed to have been a native of a little village near the city. A stately statue of the great discoverer occupies a square near the harbor from which he is said to have sailed to take up the life of a mariner. Amerigo Vesputchi, whose name has been given to the continents of the hemisphere that Columbus discovered, was also a Genoese. In late years Genoa produced Mazzini, Italian patriot, who devoted his life to making Italy free. And as a foster son through force, Genoa lays claim to still another celebrity; near the portrait of Columbus on the walls of the Municipal palace hangs a portrait of one of the world's premier travelers, Marco Polo. He was taken prisoner in one of the battles in which the Genoese fleet defeated that of Venice, and while in prison in Genoa dictated to a fellow prisoner the narrative of his famous travels."

Visit to Grave Cures. Persons who suffered from nervous disorders due to loss of their relatives during the war are said to have been cured by a visit to the graves of their lost ones in France. Rev. A. H. Lloyd of London, England, who conducts parties to graves of war dead, says he has seen many such cures take place.

Today's Reflections

Gardening would be as enjoyable as the other fellow contends it is if we could only find somebody to pull the weeds.

The average Plymouth woman's idea of a home is a place with a lot of closets.

Every time we meet a Plymouth man who wants to get even with

someone we wonder why he doesn't spend the same amount of time in trying to get ahead of him.

The Plymouth man who says he owes everything to his wife never settles up.

It has been our observation that the man with the open mind is all right so long as he doesn't let his mouth get that way.

From the number of accidents in

this country it looks like it would be better to put the shock absorbers on the pedestrians instead of the machines.

We've already had our visit from the groundhog and we suppose as soon as travel opens up we'll have the road-hog with us.

If the railroad men should refuse to pull the freight trains there will probably be enough miners out of jobs to get behind the darned cars and push them.

The theory nowadays is that every man is innocent—until he reaches the point where he hasn't money enough to pay a lawyer.

It has about gotten so that one-half of the world doesn't know how to jump when the other half autos.

You don't have to read a market report to find out that booze and gasoline thrive best in moonshine.

It is all right for a Plymouth man

to carry his wife's picture in his watch but he ought not have time for another woman's.

There are many safe places about an automobile to carry whiskey, but inside the driver isn't one of them.

Many a Plymouth man has lost his chances on a sure thing simply because he was afraid to take chances.

We're wondering who is going to win the prize this year by being first to report that the fruit crop is killed.

Working under the direction of the Boys' committee the Rotary club of Wayne are making a financial drive to provide a permanent camp site within a short distance of that village for the Boy Scouts.

REPORT OF COMMUNITY NURSE

Health education is now a part of our daily routine. The knowledge of the principles of right living, are known not only to a few, but are universally accepted. We realize that our health habits are not of consequence to us alone but affect others with whom we are associated.

Our schools are representative of a community, consequently school children, receptive and impressionable, form the best opening wedge through which we are able to present a health program.

Defects in children retard not only physical growth but mental development. We find septic tonsils, adenoids, defective vision, uncorrected for teeth, all tending to handicap a growing child and contributing to prevent his becoming a 100 per cent efficient citizen.

The newest venture in public health is the intensive work among the undernourished children. This does not necessarily mean insufficient food but rather too much of a certain kind or an improperly balanced diet.

In Plymouth we have been fortunate in having the enthusiastic assistance of Miss Rogers of the Farm Bureau who has presented the nutrition work which with the splendid co-operation of parents and teachers has been of great value.

Two classes have been formed which include the 10 per cent under and over weights of the 3, 4, 5, 6th grades. These children have been weighed regularly, and good health habits have been stressed.

Some satisfactory gains have been made. The following report may be of interest. Out of three days' work week spent in Plymouth township, 575 children have been weighed, measured, and examined for defects, and reference slips sent out to parents.

We found 310 children with large and septic tonsils, 374 with defective teeth, 31 with eyes that tested below normal, 17 with defective lungs, a large percentage underweight and 5 per cent were 10 per cent underweight.

The serving of milk in the school has been a splendid venture and peaks for itself in the better health of a great many children and improved school work.

Calls have been made on children who are out of school on account of sickness on the recommendation of the teacher.

Three hundred and eight school calls have been made besides those made on families who are referred to me as cases where it is needed for social advancement.

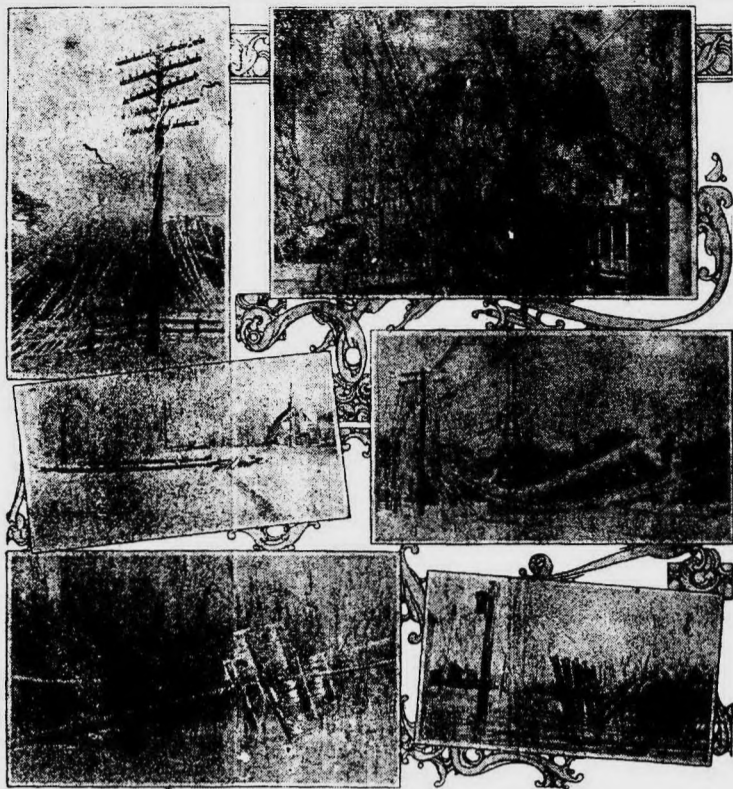

Where sickness is found in the home, nursing instructions have been given or in cases where there is need of nursing care, my services have gladly been offered.

Respectfully submitted,
M. ELLIS.

The Road to Happiness

When a Giant Cut the Wires

The two late spring sleet storms that swept across the southern peninsula of Michigan and caused many millions of dollars of damage, suspension of rail service and completely wrecked the wire systems, were the worst the state ever suffered. Total loss to business cannot be estimated, of course. Loss to the wire system is estimated at one and a half million dollars.

Miles of telephone poles were crushed to the ground and whole exchange plants at many towns were put out of business. Many of the smaller companies were unable to resume business because of their losses. Rural service through a great portion of the state was completely wrecked. The blow was the most severe any wire system of the middle west ever has sustained.

Thousands of men were sent out into the storm zone to re-establish the lines of communication, working day and night to put up the poles and wires, but were enabled to establish only temporary lines after days of work, so widespread was the damage. Permanent reconstruction is going ahead rapidly, however, both on long distance lines and in the exchange plants. The Michigan State Telephone company ordered additional equipment, poles by the trainload and miles of wire to make repairs. Its linemen braved zero weather and untold hardships.

It is estimated, closely, that the two storms cost the company 13,000 poles and 12,000 circuit miles of wire, which will be replaced from the depreciated reserve.

SCHOOL NOTES

Reporters for this week are W. Willett and Iva Bassett.

Last Friday morning, Mr. Pierce, Alumni secretary of Albion college, gave one of the most interesting talks ever given before the assembly. His subject was, "Be Prepared," and was an appeal for boys and girls to finish their education in High school and to enter college. Mr. Pierce has the happy faculty of interesting his hearers from the seventh to the twelfth grades, and giving them a something very worth while to think about.

On Tuesday, April 18th, Dr. David Friday, the new president of M. A. C., will address the upper classes.

Watch for the carnival to be given April 21st, in the High school, for the benefit of the Athletic association and the play-ground fund. We've secured a real old-fashioned hardy, sturdy, and expect to have no trouble in supplying the monkeys that should go with it. There will be a picture show; a pantomime to make your hair stand on end, minstrel, dancing and something to eat. We have bought from a very reliable firm a consignment of Excelsior climbing ladders, which we can sell at 25c each, and also extra size gladioli bulbs, fancy mixed stock, at 25c a dozen. Geraniums will also be on sale at prices that you cannot afford to miss, as well as young pansy plants.

Those who wish 1922 Plytheams must get in their order early, since we expect to print only enough to fill our orders. We run out of copies last year before all who wanted them could be supplied. Telephone Ruth Shattuck, Kenneth Bartlett, or the High school principal.

The debating team goes to Mt. Clemens tonight to debate the classical shop question.

Alta Hamill won second place in the sub-district declamation contest. There were six contestants. Howell winning first in both declamation and oratory.

The following pupils in the A first and B second grades were neither absent nor tardy during the month of March: Melvin Blunk, Raymond Ford, Winifred Holcomb, J. D. McLain, Russell Muhl, Helen Compton, Marion Gust, Phila Ferguson, Richard Nash, George Todd and Alvin Wagenschutz.

The daffodils in the window boxes on the first floor are in blossom, and give the rooms a spring-like appearance.

Mrs. C. Hamilton and Mrs. Frank Sears were visitors in the A first grade before vacation.

The boys and girls agriculture clubs of Wayne county are going to hold an exhibition in the school all day Saturday. Mr. Turner, state manager, and also other speakers will be present that day. Lunch will be served at noon by the Aggie Club.

The Aggie Club held their regular meeting last week, and added several names to their membership list, which has reached its standard of thirty-seven members.

English 9 classes have finished their study of letter writing, and will begin to read Scott's "Ivanhoe," this week.

The physics class is working on a radio set, given by Russell Winzard, to be installed in the physics laboratory when finished.

A special program is being prepared by the Aggie Club, to be given when the eighth graders come to take their county examinations.

The horticulture class took charge of clearing up the damage done in the park by the ice storm of two weeks ago.

The cup that was won by the Agriculture stock judging teams at Lansing, is now on exhibition at the school.

Through the courtesy of the officials of the Daisy Manufacturing Company, the commercial geography class, escorted by the teacher, Miss Levan, visited the factory. Mr. Rauch and Mr. Burrows accompanied the class through the factory, showing the latest, as well as the first guns manufactured. The class was

shown many interesting sights in the line of machinery and production work. The class found it very instructive, and were requested to report on their trip the following day.

The three having the highest speed in second year typewriting are Margaret Strong, 43; Daniel Patterson, 37; Fay Herrick, 33 in the first year type, they are Dorothy Waterman, 29; Ruth Mecklenberg, 28; Elbert Seger, 27.

Milton Orr was absent from the first grade last week, on account of illness.

Warren Westfall hasn't been absent so tardy the whole year.

Maxwell Todd, Warren Westfall and Marion Tefft are ahead in the third grade spelling contest.

The grade pupils have started out door work in physical training.

The girls and boys' classes in physical education were given an exhibition, Wednesday, April 19.

Donald Sutherland has been elected captain of the 1922-23 basket ball team.

There will be a base ball game at Northville, April 19th.

ORATORICAL CONTEST

The Oratorical Contest held at the High school auditorium Friday, April 7, brought forth some exceptionally good orations which were forcefully delivered and also six well delivered declamations.

In orations, Winfield Line of Howell, High School with the oration, "The Moses of the Twentieth Century," won first place and will represent this sub-district in the District Contest this year. Elizabeth VanValkenburgh of Northville High School with the oration, "American Democracy," won second place and becomes alternate in orations for this sub-district.

In declamations, Eleanor O'Keefe of Howell High School with the declamation, "The Sale of a Seat in the United States Senate," won first place and will represent this sub-district in the District Contest. Alta Hamill of Plymouth High School with the declamation, "The Race Problem," won second place and becomes alternate from this sub-district.

The contest was an exceptionally good one, meriting the large and attentive audience which impartially greeted each speaker.

IN MEMORIAM

In memory of Ada Beyer, April 11th. Three years have passed and none since we last heard your gentle voice and pressed your sweet lips.

We have struggled down life's high-way alone, battling with trials and hardships while thou art no more. Even though you are gone, you are not forgotten.

Oh! how sweet to live, but Oh! 'tis sweet to die.

Thy Saviors wish to fulfill.

'Tis sweet to live, O, how sweet, but sweeter still to die.

When we know 'tis God's will.

The heavens alone record our tears, and fame shall never know our story.

Our hearts have shed many a tear for our dear wife and mother, who has been departed from us for three years.

WILLIAM AND LEONA,
Husband and Daughter.

NEVER before has the amazing Knight sleeve-valve motor been available in so fine a car at so low a price. Europe uses the Knight motor in her most famous and expensive cars. Now Willys engineering, Willys quantity production, put it in the reach of all in a car equally famous, but far less costly.

The Motor

The Willys-Knight motor is the highest development of the Knight sliding sleeve-valve principle. It gets more power out of less gas than any other motor of its size and weight. It is free from valve trouble, free from carbon trouble, smooth, quiet, flexible. Scientific tests and driver experience show that it grows more powerful with use. And its life-limit has never yet been ascertained.

The Car

The Willys-Knight Car is especially designed to match the motor in long life and distinction. Graceful, refined, dignified, its sturdy steel chassis beats off jolts and jars and holds the body permanently free from rattles and squeaks. Vigilant springs translate the roll of the road into undulating ease. It is fleet, comfortable, responsible—and a sound investment.

Plymouth, Mich., Feb. 20, 1922. At the conclusion of the regular meeting on the evening of February 20, all of the commission members waiving written notice, a special meeting of the commission was immediately called to consider resolutions concerning the Starkweather avenue pavement and sanitary sewer, which resolutions were received too late to be acted upon at the regular meeting.

Present—Commissioners Burrows, Daggett, Henderson, Murray, Robinson. Absent—None.

The following resolution was offered by Commissioner Robinson, who moved its adoption. Supported by Commissioner Daggett.

Resolved, by the commission of the Village of Plymouth, State of Michigan—

That it is a public necessity that a public sanitary sewer with necessary laterals be constructed along Starkweather avenue from a point beginning at the intersection of said Starkweather avenue with Main street and running thence northerly along said Starkweather avenue to Division street, and also from the north side

of the Pere Marquette tracks north to a point 45 degrees north of Pearl street.

RESOLVED FURTHER, that one-third of the expense of said public improvement shall be assessed against the village at large, and two-thirds thereof be assessed against the private property particularly benefitted by said public improvement.

RESOLVED, FURTHER, that said sewer and laterals be constructed in accordance with the maps, plans, specifications, drawings and profiles, new prepared, and that said maps, plans, specifications, drawings and profiles, together with the estimates of the cost of said improvement be deposited in the office of the village manager, subject to public inspection.

RESOLVED FURTHER, that the special assessment district to be assessed for said public improvement shall include the following described property, to-wit: All those lots and parts of lots fronting on said Starkweather avenue from the intersection thereof with Main street, and extending thence northerly to 45 degrees north of Pearl street.

BE IT FURTHER RESOLVED, that the village commission of the said village of Plymouth, meet at the village hall at said village on Monday, the 6th day of March, A. D. 1922, at 7 o'clock p. m., for the purpose of hearing objections and suggestions in relation to said public improvement, and that the village clerk be instructed to cause notice of said meeting to be published in the Plymouth Mail for two weeks in succession as required by the charter of said village.

Carried.

Ayes—Commissioners Burrows, Daggett, Henderson, Robinson, Murray. Nays—None.

The following resolution was presented by Commissioner Murray, who moved its adoption. Supported by Commissioner Daggett.

RESOLVED, by the Commission of the Village of Plymouth, State of Michigan—

That it is a public necessity that Starkweather avenue in said village be paved from the intersection thereof with Main street to the northerly village limits of said village.

RESOLVED FURTHER, that outside of that portion of the expense to be defrayed by the County of Wayne, the cost of said improvement shall be paid as follows: The Village of Plymouth shall pay for the expense of all street intersections, and one-third of the remainder of the expense, and two-thirds of said remainder shall be assessed against private property benefitted by said improvement.

RESOLVED FURTHER, that said pavement shall be constructed in accordance with the maps, plans, specifications, drawings and profiles as now prepared, and that said maps, plans, specifications, drawings and profiles, together with the estimates of the cost of said improvement be deposited in the office of the village manager subject to public inspection.

RESOLVED FURTHER, that the special assessment district to be assessed for said public improvement shall include the following, to-wit: All lots or parts of lots fronting on that portion of Starkweather avenue to be covered by said proposed improvements.

BE IT FURTHER RESOLVED, that the commission of said Village of Plymouth meet at the village hall in said Village of Plymouth, on Monday, the 6th day of March, A. D. 1922, at 7 o'clock p. m., for the purpose of hearing objections and suggestions in relation to said public improvements, and that the village clerk be instructed to cause notice of such meeting to be published in the Plymouth Mail for two weeks in succession as required by the charter of said village.

Carried.

Ayes—Commissioners Burrows, Daggett, Henderson, Robinson, Murray. Nays—None.

Moved and supported that the commission adjourn. Carried.

W. J. Burrows, President. Sidney D. Strong, Clerk.

Plymouth, Mich., Feb. 28, 1922. A special meeting of the Commission of the Village of Plymouth, Wayne County, State of Michigan, held in the village hall in said village on the 28th day of February, 1922, at seven o'clock p. m., called to order by President Wm. J. Burrows.

Present—Commissioners Burrows, Daggett, Henderson, Robinson, Murray. Absent—None.

The following resolution was introduced by Commissioner Henderson, who moved its adoption. Seconded by Commissioner Murray.

WHEREAS, the Village of Plymouth, State of Michigan, has heretofore issued its water works bonds in the amount of thirty thousand (\$30,000.00) dollars dated March 15, 1892, all of which will mature in March 15, 1922; and

WHEREAS, it is the intention of the commission to pay ten thousand (\$10,000.00) Dollars of said bonds in cash at maturity out of the funds in the treasury of this village; and

WHEREAS, said bonds are valid and legal obligations of the said village of Plymouth, and

WHEREAS, it is in the opinion of this commission not only necessary, but advantageous to extend the term of payment on the balance of said bonds after the payment of said ten thousand (\$10,000.00) dollars, amounting to twenty thousand (\$20,000.00) dollars.

NOW THEREFORE BE IT RESOLVED, that new bonds of the said village of Plymouth be issued in place of the said twenty thousand (\$20,000.00) dollars of bonds maturing on March 15, 1922, in such a manner as merely to change, but not increase the indebtedness of said village of Plymouth.

AND BE IT FURTHER RESOLVED, by the commission, that the said village of Plymouth issue its refunding bonds in the sum of twenty thousand (\$20,000.00) dollars, said bonds to be in the denomination of one thousand (\$1,000.00) dollars, numbered from (1) to twenty (20) consecutively and inclusively, to bear date of March 15, 1922, and to become due and payable as follows:

One of said bonds to mature March 15, 1923, and one of said bonds to mature on the 15th day of March of each succeeding year to and including March 15, 1942, with interest thereon until paid at the rate of five and one-quarter (5 1/4) per cent per annum, payable semi-annually on the 15th day of March and September of each and every year from the date thereof; the principal and interest of said bonds to be pay-

able at the People's State Bank of Detroit, Michigan, said interest to be evidenced by coupons to be signed by the original or lithographed or printed signature of the treasurer of said Village of Plymouth.

AND BE IT FURTHER RESOLVED, that the president and clerk of said Village of Plymouth be, and they are hereby authorized and directed to sign and countersign respectively, and execute said bonds in conformity with the above specifications and attach thereto the corporate seal of said Village of Plymouth.

AND BE IT FURTHER RESOLVED, that the president and clerk are hereby authorized and directed, upon surrender and cancellation of the original thirty thousand (\$30,000.00) dollars above described water works bonds dated March 15th, 1892, to deliver said twenty thousand (\$20,000.00) dollars of refunding bonds above described to the purchasers thereof, upon receipt from said purchasers of not less than par value thereof, with accrued interest, if any. The said president and clerk are further directed, upon receipt of the original bonds above referred to, to cancel and destroy the same.

AND BE IT FURTHER RESOLVED, that the bonds and coupons hereby authorized be in substantially the following form, to-wit:

REFUNDING WATER WORKS BONDS

No. 1,000.00

KNOW ALL MEN BY THESE PRESENTS, that the Village of Plymouth, County of Wayne, State of Michigan, hereby acknowledges itself justly indebted, and for value received promises to pay to the bearer hereof, the sum of one thousand (\$1,000.00) dollars, lawful money of the United States of America, on March 15th, 19—, with interest thereon until paid, at the rate of five and one-quarter (5 1/4) per cent per annum, payable semi-annually on the fifteenth day of March and September of each and every year from the date hereof, at the People's State Bank of Detroit, Michigan, upon presentation and surrender of the proper interest coupons hereunto attached as they severally become due, and for the prompt payment of the principal and interest of this bond and of the services of which it forms a part, the full faith, credit and resources of said Village of Plymouth are hereby irrevocably pledged.

This bond is one of the series of twenty (20) bonds of like date and tenor, except as to the date of maturity, issued under and in pursuance of and in conformity with the provisions of the laws of the State of Michigan and the charter of the said Village of Plymouth, and was authorized by a resolution of the commission of the Village of Plymouth duly passed at a special meeting thereof, held on the 28th day of February A. D. 1922.

Said series of twenty (20) bonds, of which this is one, has been issued for the purpose of refunding twenty thousand (\$20,000.00) dollars water works bonds of said village, dated March 15th, 1892. The principal and interest of this bond and of the series of which it forms a part, are payable out of the interest and sinking fund of said Village of Plymouth, and said series of bonds are hereby declared to be tax exempt under and in pursuance of Act. No. 88 of Public Acts of 1909.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the issuance of said series of bonds, of which this is one, in order to make them valid and binding obligations of the said Village of Plymouth, have happened and have been done and performed in the regular and due form and time as required by law, and that the total indebtedness of said village, including the series of which this is one, does not exceed the constitutional or statutory limitation.

IN WITNESS WHEREOF, the president and clerk of said Village of Plymouth, County of Wayne, State of Michigan, have by order and direction of the commission of said Village of Plymouth, officially hereunto subscribed the corporate name of said Village of Plymouth affixed the corporate seal thereof, and executed this bond on the 15th day of March A. D. 1922.

GOWN CREATOR SHATTERS ANCIENT PARIS TRADITION

Tries to Beat Hard Times by Inviting Press Men to Fashion Show.

That little world of its own in Paris which has to do exclusively with the creation of women's clothing has been thrown into a high state of excitement through the recent "radical" departure of one of its leading members in inviting newspaper men to view his spring and summer dresses.

In doing so the dressmaker smashed a tradition as old as the Paris dressmaking business itself, which has always boasted of the fact that it needed no newspaper to assist it to greatness.

The representatives of the press have been rigorously barred heretofore and many of the big establishments whose names are well known to American women have gone so far as to demand a special passport with a picture from all those who entered their establishments. Those few special fashion writers who have obtained admission were made to believe they had been highly honored.

Jean Patou, a young Frenchman with American ideas, decided recently that his associates were wrong. He therefore arranged a special party, invited all the best-known newspapermen in Paris—foreign and French—and revealed to them the secrets of his art. Anyone was free to carry away a careful description of the gowns displayed.

Patou's move has caused great discussion in the Paris fashion world and there is much speculation as to whether it will force other dressmakers to open their doors to the press. Many well-known houses which have felt the pinch of recent hard times are wondering whether they are wrong.

The same design of disc clutch that was used in the powerful war tanks is likewise used in the Buick Four.

The Buick clutch under the most gruelling conditions, has proved itself absolutely positive, dependable, and easy to operate—a clutch that demonstrated the same certainty and safety for unforeseen emergency that it did for ordinary service.

This thoroughly trustworthy unit is a development of 20 years of consistent effort. It is typically representative of the standards governing the construction of the Buick Four throughout.

AN INTERESTING LETTER

(Continued from last week)

We noticed quite a difference in the weather in the state of Colorado. The air was mild like spring, and farmers were plowing and sowing grain. Saw great flocks of sheep with lambs grazing on the hillsides. This would be an ideal trip in warm weather.

On the eastern slope of the Great Divide is the beautiful city of Buena Vista. In the background are the towering peaks, Mounts Princeton, Yale and Harvard, Passing Leadville, the world's most noted mining camp at the highest altitude of any incorporated city in the world. This is the land of gold and silver. Late in the afternoon we reached Pueblo, and the effects of last year's flood could be plainly seen.

We arrived in Denver at 10:30 in the evening. Mrs. Kramer and son, Tom, met us at the station, taking us to their home on Sheridan boulevard. The climate seems to agree with them. The children had neither worn rubbers or overcoats since their arrival there a year ago this spring. The sun shone brightly all the time we were there. They had a new Studebaker car and could have shown us a great many places of interest, only we were too ill to do much sightseeing. However, we did take in some of the parks. From Cheesman Park, one could see Pike's Peak, sixty-five miles away. Denver is noted for its beautiful buildings, the capitol, the U. S. mint, the new \$2,000,000 Union station. The population of Denver is 256,369.

Monday, February 13th, we again started on our journey east. This time we were back on the Santa Fe, the same railroad that we went west on, with the splendid Harvey eating houses along the way. In order to

go to Denver we went 150 miles out of our way; could have changed at Pueblo, going to Kansas City. There were a great many curious rock formations, reminding one of the lines of the poet, "Rocked ribbed and ancient as the sun."

Tuesday morning, we arrived in Kansas City, having time for breakfast before changing cars for Chicago. The depot at Kansas City was one of the finest we saw on our trip. Crossed the Missouri river and went along by the Mississippi for a good many miles. Crossed the river at Fort Madison. It is anything but beautiful—not much like our own Detroit river.

At 9:30, we were very glad to get in Chicago, and be met by our son, Raymond and wife, as we were nearly all in from our trip. I remained at the home of my son in LaGrange, about fifteen miles from Chicago, under the doctor's care. Mr. Ryder, after a week's stay, returned home, and the next day called the doctor. At this writing, the second day of April, he is still unable to sit up. So ended an otherwise delightful trip.

MRS. CHARLES E. RYDER.

Preventive Medicine

The tendency of medical science is toward preventive measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows a cold or attack of the grip. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears, so as to get rid of it with the least possible delay. It is fully to risk an attack of pneumonia when this remedy may be obtained for a trifle.—Advertisement.

SHOWS DECLINE IN LIVING COST

Labor Department Reports 13 Per Cent Drop in Year.

STILL FAR ABOVE 1913 PRICES

Gradual Decline Is Continuing Except in Direction of Housing, Rents Still Holding the High Peak—Through-out Country General Cost of Living Is 74 Per Cent Above the Average Level of 1913—High Peak Registered in June, 1920.

The general level of living costs is 13 per cent below what it was a year ago, official reports of the department of labor show.

Keeping one's self fed, clothed and sheltered, plus provision for a necessary amount of recreation, costs but 87 cents where it cost \$1 a year ago. It is getting easier to live. Throughout every section of the United States the gradual decline of prices of almost all necessities has been going on steadily for many months. There is nothing in sight in the general economic situation to indicate that the low level has yet been reached. A continued decline is recorded month by month as the price statistics flow into the offices of the labor department, where the statisticians preside over and keep watch of the price index lines.

During the last twelve months the change in price levels of the major necessities has occurred as follows:

Food	-15%
Clothing	-20%
Fuel and Light	-7%
Furniture	-23%
Housing	+6%

Rents Still High.

A plus instead of a minus sign before the percentage of change in the cost of housing shows that this is the only major necessity which has failed to follow the general downward trend of prices. In this connection, however, the reports of the labor department are admitted to be not a true reflection of the actual conditions. This is because the department received reports on rents only on the basis of the receipts of the first or original landlords. No consideration is given to the receipts of persons who sublet to other tenants the apartments and houses which they furnished, but which they now no longer occupy.

Rents charged in subleases are known to have experienced a deep decline. But the labor department has no record of the subleasing system. Many persons who formerly received from \$100 to \$150 a month for apartments which they had sublet are now getting but half that sum in many cities.

In one or two cities rents and building prices have fallen into the proportions that obtained before the great war, according to reports to the Federal Reserve board. Boston is one such city. This, although not yet reflected to a great extent in the rentals received by the original landlords or owners, nevertheless indicates that soon the original rent level will begin a decline as well as the level of rents received under subleases.

The problem of high rents is beginning to solve itself as building operations increase throughout the country, officials say.

COLLEGE BOYS EARN OWN WAY

Half of University Students in U. S. Self-Supporting.

CUBAN TELLS HOW HE DID IT

Yale Survey Gives Fair Indication of Conditions as They Prevail in Most American Universities—52 Per Cent Earning Their Way, at Least in Part—Waiting on Table for Books Is Favorite Way of Helping Out—Odd Jobs Pay for Books.

Young man, do you want to go to college? Say Yale, or Harvard, or Columbia, or Cornell, or Northwestern, or any of the big American colleges? "Yes," you say, "that would be fine. But I haven't the money."

You don't need the money! Make the money as you go along. Half the college students in America are earning their way through college, at least in part, government experts have found.

A trip to Yale shows you how they do it.

A questionnaire was sent out by the bureau of appointments of Yale to determine how many students were paying their own way by working.

Half Working Way.

President Angell of Yale says that half of the students of the college answered, and of these 52 per cent were working their way through.

One of them is Antonio Fresnada. He is a Cuban, and he started under a great handicap.

Fresnada is now in his junior year. He says it is a cinch for a young man to work his way through college.

"My freshman year was the hardest," says Fresnada. "The only thing I knew was manual labor."

"I waited on table for my board, took care of a furnace and shoveled snow from the sidewalks for my room. I sold Sunday papers, acted as agent for a laundry and at various other jobs made enough to pay for books and clothes."

"Vacations I worked as section hand on the railroad and carried bricks."

"But I stuck to it—while other fellows were becoming athletic heroes and taking part in social affairs."

"It is easier now. Tutoring and typewriting furnish me with enough to get by on."

"I pay \$3 a week for my room. My board costs me \$11 a week, tuition \$3.50, books and papers \$2, clothing \$4, laundry \$1.50, incidentals \$3. This totals \$33, and I find no difficulty in earning it."

"The experience has been valuable to me. It has taught me that if I believe in a thing, I can do it."

Many Self-Supporting.

Yale is not an exclusive school for the sons of rich men. It counts its self-supporting students by the hundreds.

However, exceptional qualities are demanded of the student who works his way through. The leisure time exempt from classes and studies, that more fortunate students spend in seeking pleasure, the self-supporting man must spend in earning his way.

A bureau of appointments whose chief aim is the aid of needy students is maintained.

The bureau works in two ways—by granting beneficiary college scholarships and acting as a clearing-house for work.

Where the bureau, after careful investigation of the applicant, deems that a youth's character and secondary school record have been of sufficient promise, an allowance of \$120 of the total tuition fee of \$150 for the first term may be made. The allowance for the second term of the school year and for succeeding terms depends on the student's academic standing.

For the first two years these allowances are made with the understanding that no obligation of repayment is incurred.

After the first two years, noninterest-bearing notes are taken for the remainder of tuition, payment on which is due five years after graduation.

DECLINE IN FOOD PRICES

The figures for the decline in prices cited above are percentages of decrease. The change in the actual prices of given commodities also is recorded, in part, in the labor department files. Sirloin steak, for instance a year ago cost on the average 40 1/2 cents a pound, according to the records which cover prices charged in more than sixty cities. The same steak, or pound of it, today averages but 35.3 cents retail. This is a decline of nearly 12 per cent in a year.

A year ago a pound of flour cost 6.7 cents when an average was taken for all the principal cities of the country. The same flour now costs an average of 4.9 cents.

Changes in the actual prices of some principal foods, as averaged by the labor department, are shown in the following table:

Article	Price Year Ago	Price Today
Rib roast, pound	31.1c	26.7c
Fresh milk, quart	16.3	13.6
Butter, pound	61.0	45.3
Fresh eggs, dozen	79.1	49.9
Bread, pound	10.8	8.8
Rice, pound	11.0	9.3
Potatoes, pound	3.0	3.3
Sugar, pound	6.7	6.2
Coffee, pound	38.5	35.7
Oranges, dozen	40.9	46.2

The peak of high prices which swept over the country as a result of the great war was registered in practically all necessities at the same time, in June, 1920. With the exception of rents all the major necessities show a decline from that period. The record for rent averages show a steady increase up to the present.

Throughout the country the general cost of living is still 74 per cent above the average level of 1913.

Food prices are 50 per cent higher than in 1913, clothing 84 per cent, housing 61 per cent, fuel and light 81 per cent and furniture 118 per cent.

A Farmer Cured of Rheumatism

"A man living on a farm near here came in a short time ago completely loblued up with rheumatism. I handed him a bottle of Chamberlain's Liniment and told him to use it freely," says C. P. Ryder, Patten Mills, N. Y. "A few days later he walked into the store as straight as a string, and handed me a dollar, saying give me another bottle of Chamberlain's Liniment; I want it in the house all the time for it cured me."—Advertisement.

HUSBAND TO WASHTUBS

Court Sentences Him to Wash Wife There Until He Gets a Job.

Judge George R. Healy of Huntington, W. Va., established a precedent when he sentenced James Alexander, defendant in Domestic Relations court, to duty at his wife's washtubs.

Alexander was arrested by Sheriff Williams on complaint of Hattie Alexander, his wife, that he failed to support her and that instead of being a help he was dependent upon her earnings from washing clothes.

When arraigned, Alexander pleaded lack of employment. After hearing the evidence of the wife, Judge Healy ordered that the "court, after hearing all the evidence, is of the opinion that the defendant is guilty as charged. He is ordered released from custody of the sheriff and directed to return home and assist his wife with her washing until such time as he can find employment elsewhere that will enable him to properly support his family."

NEWBURG

There will be special Easter services and music, next Sunday. Everyone is invited to bring flowers in memory of some dear one. Services at 11:00 o'clock a. m., followed by Sunday-school. Epworth League at 7:00 p. m. Everyone urged to attend these services.

The L. A. S. met at their hall, last Saturday afternoon, ten members being present. The same officers were re-elected for another year. They decided to hold their meetings on the second Wednesday in the month, instead of Saturday. The next one will be held at the home of Mrs. C. Mackinder.

The young people have over \$30 raised for the radio for the church. Mrs. Jenny Dean of Detroit, and Miss Hattie Hoisington of Plymouth, called at the Ryder homestead, last week Thursday.

Robert Holmes and family have moved to the Robinson farm on Plymouth road, recently occupied by Mr. Elliott, who has moved to Detroit.

Mrs. Florence Paddock and daughter, Florence, of Detroit, visited Mrs. C. E. Ryder, last Friday. Miss Beulah Ryder returned home with them for a few days.

Mr. and Mrs. W. R. LeVan and Mrs. Emily LeVan have moved back to the farm after spending the winter in Plymouth.

W. R. LeVan, Mrs. Emily LeVan and Mrs. C. E. Ryder called on Mr. and Mrs. Charles Dunning in Redford, last Sunday afternoon.

Mr. and Mrs. Harmon Kingsley of Wayne, called on Mr. and Mrs. C. E. Ryder, Sunday afternoon.

All telephones are out of commission, therefore the news is rather scarce.

Mrs. M. Eva Smith is enjoying lectures from Detroit and Ann Arbor, also fine music, over the radio in her home.

PRESBYTERIAN PARAGRAPHS

Detroit Presbytery will hold its annual meeting in the Sevel Presbyterian church of Detroit, next Monday and Tuesday. Robert Gardner is commissioner from Plymouth. O. H. Loomis is alternate.

Lilies for Easter—A Meditation

Lily, of the shaded nook, Though from blackest soil you climb, Still, your alchemy sublime, And your power of queenly carriage, Woods into a happy marriage. Sordid soil and saintly look. Grace and beauty you combine, Like that flower of Palestine, Which, the Master, by design, Pressed into His sacred book. Dainty fabric of delight, Delicate and spotless white, Backed by broad fresh leaves of green, Surely, you are Nature's queen— Lily, of the shaded nook. S. Conger Hathaway, Plymouth, 1922.

LIFE IS A DANCE TO MAE MURRAY

"I just took, naturally to dancing. Why, as a matter of fact, I was one of the most persistent in running along side the organ grinder to get what fun I could out of his music. And, whenever I hear music, I want to dance." Mae Murray, star of "Peacock Alley," the Tiffany production for Metro, presented by Robert Z. Leonard, showing at the Wuerth Theatre, Ypsilanti, next Monday, Tuesday and Wednesday, thus told of the beginning of her dancing career.

"The fact that I am in pictures has never halted my dancing enthusiasm," she says, "and now that I have a picture like 'Peacock Alley' that gives me an opportunity to play the Parisian dancer, Cleo, I feel that I was born for the role."

"I'm glad I was not born in the days when dancing was considered wicked, for I cannot imagine living without dancing. To me life is a dance, a rhythmic vibration to the melodies of a beautiful universe."

In "Peacock Alley," Miss Murray plays the butterfly type of dancer, a girl of the Paris cabarets, who marries an American business man. The picture was directed by Robert Z. Leonard. The photography is by Oliver T. Marsh, the art settings by Charles Caldwell and the subtitles by Frederic and Fanny Hatton.

OBITUARY

Mary Matilda Walker was born in Salem, Washtenaw county, Michigan, January 1 1855 and died April 5, 1922, at the age of 67 years, three months and five days at the home of her niece in Salem. She was united in marriage in 1878, to Robert C. Bruen. To this union were born three children: Mrs. Winifred E. Shultz, who resides at Manitau Beach; Leon R. Bruen, who died in 1907, and Claude H. Bruen, also of Manitau Beach. Most of her married life was spent in Rollin township, with the exception of a few years in South Dakota. Since the death of her husband in April, 1918, she has made her home with relatives. She has been in poor health for several years. She was a kind and loving mother, and leaves to mourn their loss, besides the son and daughter, three grandchildren; one sister, Mrs. George Macomber of Plymouth; three brothers, George, Arthur and Ira Walker, all of Salem, Mich., and a host of relatives and friends.

The funeral was held from Schrader Bros. Funeral Home, Sunday afternoon at two o'clock, Rev. Horace E. Sayles officiating. Interment at Maple Grove cemetery, Hudson, Mich.

THUNDERSTORMS MADE AT WILL

This Modern Jove Hurls His Own Thunderbolts.

ALL EXCEPT THE CLOUDS

Dr. C. P. Steinmetz Succeeds in Producing and Controlling an Indoor Thunderstorm With All Characteristics of its Natural Brother—Spits Block of Wood and Demolishes Tree—Hopes to Aid Development of Lightning Arresters.

Schenectady, N. Y., has a modern jove who sits on his throne in a laboratory of the General Electric company and hurls thunderbolts at will. He is Dr. Charles P. Steinmetz, electric wizard, who announced he has succeeded in producing and controlling an indoor thunderstorm with all the characteristics of its natural brother except the thunder clouds.

At a demonstration of his lightning generator a few days ago the familiar forked tongues flashed through the laboratory with a deafening crash, splintered a large block of wood, hurling

Dr. Charles P. Steinmetz.

the fragments 25 feet, and ripped a miniature tree from top to base. The bolt carried the energy of 1,000,000 horse power—about one five-hundredths of the energy of a natural lightning bolt. Dr. Steinmetz estimates—and tested for the one hundred-thousandth part of a second.

Dr. Steinmetz hopes his apparatus will contribute largely to the development of lightning arresters, as it provides close range of the phenomenon that Benjamin Franklin began to investigate years ago with his kite, string and key.

Too Short to Work. His experiments have convinced him, however, that there is little likelihood of man's realizing his dream of harnessing thunderbolts and making them work. Despite their tremendous energy, he says, their life is so short that, harnessed, they would be worth only a few cents apiece.

"In our lightning generator," he said, "we get a discharge of 10,000 amperes at over 100,000 volts—that is, power of over 1,000,000 horse power—lasting for a hundred-thousandth part of a second. This gives us the explosive tearing and shattering effect of real lightning, so that, for instance a piece of small tree exposed to the discharge is mechanically torn to pieces. A piece of wire struck by the flash vanishes in dust."

High Voltage Condenser. Dr. Steinmetz's generator consists essentially of a high voltage condenser in the form of 200 glass plates. These are arranged in two rows, in groups of fifty, and are capable of holding 120,000 volts of electricity.

One end of the double row of condensers corresponds to the thundercloud in the sky, in which an electrical current is gradually stored up and increased by the conglomeration of the raindrops, as Dr. Steinmetz has shown. The other end of the condenser plates corresponds to the earth.

When the tension of the stored electrical energy becomes greater than the generator will hold the discharge takes place. The lightning flash is seen, the thunder rolls—represented by a loud snapping sound—and the bolt strikes.

TO SHELVE MORE SHIPS

Orders issued to Put Hundred More Vessels Out of Commission.

Fifty additional destroyers and almost three score auxiliary naval craft have been ordered put out of commission to save fuel, according to an announcement by Secretary of the Navy Denby. The destroyers are in addition to the 100 ordered out of commission some time ago, and will leave the navy with 76 destroyers in full commission.

Two gunboats, the Albany and the New Orleans, now on Asiatic duty, also will be placed out of commission and sold so soon as they can be brought home. They will be replaced abroad by the gunboats Sacramento and Asheville.

Make Two-Cent Motor Fuel. Fuel for motors, manufactured at a cost of 2 cents a gallon, is to be tested by a syndicate of Chicago and Detroit men. The new oil will be sold at a price considerably less than that of gasoline, the manufacturers announce.

GERMANY LOST 199 U-BOATS

Paid Dearly for Submarine Activities Against Allies.

Germany paid an enormous price for the submarine warfare she waged during the World war, according to figures from the war archives of the German admiralty, recently made public. Out of a total of 1,014 casualties among naval officers, excluding marines and coast artillery, 518 perished in submarines; 496 more were slain in aircraft battles and only four out of every ten naval officer casualties met death in their element for which they were originally trained.

The exact number of submarines lost during the war, before the fleet surrendered to the allies, was, according to official figures, exactly 199. The commanders of 140 of these vessels perished with their ships, as indicated by the ominous dagger sign before their names in the official lists.

The virtual certainty of death for all engaging in submarine warfare hindered toward the end the activities and enterprise of German submarines and made it increasingly difficult to get crews to man those floating coffins. The Zeppelins made but a little better record, as 23 out of 29 rigid dirigibles were lost during the war, proving veritable death traps for their commanders and the entire crews.

WILD CAT INVASION SERIOUS

Animals Too Cunning to Be Caught in Steel Traps.

Wildcats have invaded the poultry districts of Whidby Island, Wash., in such numbers as to endanger the industry.

Ranchers have resorted to the unusual method of trapping the chicken eating pests by baiting large halibut hooks with meat and hanging them from branches of trees near the ranches. The wildcats leap for the meat, either becoming hooked in the mouth or by one foot.

They are too cunning to step in the common open-jaw steel trap, so this expedient has proved the one method by which hundreds have been caught. The pets are sold to Seattle fur buyers who ship them east under the guise of lynx cats.

COAST TO COAST IN FIFTY DAYS BY AUTOMOBILE

Season and Route. Must Be Chosen With Care.

ROADS ARE PLAINLY MARKED

Record for Trip is Five Days, But Anything Under Fifty Robs Tourists of Joy of Scenery—Early Summer is Best Time and Best Policy is to Stick Firmly to One Trail—Be Sure Car is in Perfect Order Before Starting Long Trip.

An automobile tourist can go from the Atlantic to the Pacific coast without using a map and without consulting a guide book. All that the driver has to do is follow a blazed trail. Nothing is more significant of the automobile than the roadways which have been marked out across the country for making it easy for travelers to go from town to town, across state after state, and into all the places of the country.

A thousand towns claim to be the gateways into various regions, and many places have regional features which justify them in their pretensions. A glance at any roadway map of the United States reveals many curious and influential features. Thus, between the Canadian and Mexican borders there are only seven crossings feasible under present conditions, a distance of about 1,200 miles; and from the Missouri river to the Pacific coast there are only nine or ten practicable routes from the north to the south, and of these hardly more than five are connected with Canadian routes, says the New York World.

These are main, marked and feasible routes. Yet at times some of these highways are apt to be subject to delays and difficulties which baffle or greatly deter the passerby. When the great cloudburst assails the eastern slopes of Colorado's Rockies tourists caught in the canyons in the mountains and out on the prairies were subjected to experiences none of them will forget.

Premier Trip in World.

Thousands of people have in mind the transcontinental automobile trip. This is the premier automobile journey of the world. Not only is the journey entirely feasible, but it is coming to be a regular jaunt of countless tourists who have the time to spare. People of Iowa, Missouri, Kansas, Nebraska and Oklahoma are only 12 or 15 days leisurely automobile run from the Pacific coast, but New York and eastern states are twice as far, and if the journey from coast to coast is reckoned in terms of difficulties, it is more than three times as hard to go from, say, Colorado Springs to Los Angeles as from New York City to Colorado Springs.

The conditions which a tourist used to New England and eastern state roads confronts when he has crossed the Mississippi are astonishing. The work which states in the West have put upon their roads is enormous when one considers the population. There are about five miles of narrow paved roadway east from Reno, Nev., and then hundreds of miles of almost unworked desert and mountain trails across Nevada, where, at Ely, in the eastern part, are about 19 miles of pavement as far as McGill, and then more hundreds of miles to Salt Lake City, where good roads appear from Springfield, out of Spanish Fork canon up to Ogden.

And this is on the route of the Lincoln highway, probably the best all-around roadway from coast to coast, although in spring and autumn the Santa Fe route is perhaps better on the average under the tires—but the desert suns are merciless in July and August and part of June and September, at least.

Ignorance.

The astonishing thing about the United States is the ignorance of people about the actual conditions which confront the tourist, no matter in what direction he goes away from home.

The average automobile tourist actually has no idea whatever of the distance he must traverse to go from one place to another, no least notion of what he undertakes when he starts for Denver or Los Angeles or San Francisco. Unfortunately, wanderers of the country are misled by the efforts of some people to belittle what, for example, Utah or Idaho or New Mexico have to display. The war of automobile trails bids fair to hide the genuine glories of the vast national domain.

The automobile speed record from coast to coast is approximately five days. Judging from this enormously difficult accomplishment tourists figure on a jaunt from New York to San Francisco in 20 days or so. This time demands nearly 200 miles a day of travel. The fact of the matter is, any one undertaking to drive from the Atlantic to the Pacific in 30 days has Crown the scenery of the journey away for the questionable privilege of watching the rats and chucks.

It takes a strong man to hold a wheel from New York to San Francisco in 30 days steadily with 150 miles a day average; if there are any delays for broken springs and other troubles due to reckless driving over

A Farmer Cured of Rheumatism "A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Liniment and told him to use it freely," says C. P. Rayder, Patten Mills, N. Y. "A few days later he walked into the store as straight as a string, and handed me a dollar, saying give me another bottle of Chamberlain's Liniment; I want it in the house all the time for it cured me."—Advertisement.

bad roads, day runs must be increased. There is no way of avoiding deserts, mountain ranges, poor roads or the great open spaces. The Santa Fe route follows the railroad closely, and here the houses or towns are seldom more than 20 or 30 miles apart along the highway. A train must stop when signaled by any one in the New Mexican, Arizonan or Californian deserts. Water must be carried by every tourist who values his life. Every summer on the desert trails ignorance leads many to deadly peril from thirst.

Choice of Trails.

The transcontinental trails are, counting from the north, south, the Wonderland, Yellowstone, Lincoln highway, Midland, National Old trails and Southern highway. The Oregon trail, from Oregon down to Salt Lake City, Pike's Peak, Ocean to ocean and other trails are found along the highways and it is probable that all the blazed trails in the country number hundreds.

When the automobile made touring popular the Yellowstone highway, from Chicago to the National Park, was extended to Spokane. Across the vast prairies, through the mountains, over the deserts and through the vacant spaces, splashes of yellow paint on stones and on fence posts, on anything that would show and hold the paint, marked that trail. Stencils gave the black-and-yellow rival of the Yellowstone trail its distinction. The Buffalo Blood trail, dark red blazes, led across the old Sioux Indian prairies and little local trail rivalries stirred the northwestern villages with grim determination to be on the trail lines.

As a matter of fact, the season for the journey is most important in picking a route.

The spring itinerary would be from eastern states via Chicago, Clinton, Ia., and then as the weather permits, into Western Nebraska and southward through the dry sage and alkali of eastern Colorado, and down into the national old trails after passing the Kansas wet belt on the north. "But the Raton pass route is apt to be cold, and it may be dangerous if one is caught on this backbone of the Rockies by a blizzard, even in May."

Early Summer Best Time.

The earliest transcontinental to make is probably in the early summer, after the spring rains. The route would be the Lincoln highway straight through. The Lincoln highway is as good as the Santa Fe route, so far as actual road conditions are concerned. There are places along it where houses are 50 miles apart, where the water is bitter alkali, where the road is bad. But a start in middle May, a leisurely trip to the Rockies, of 20 or 30 days, and then 20 days via Cheyenne, Green River, Salt Lake City, Ely, Nevada, and Reno, Nev.; Carson City or Lake Tahoe, Placerville and over the beautiful California roads to San Francisco, camping most of the way, if not all of the way, includes the wonder of miles, mountains, deserts, wilderness and the farm land empire of the country. The same trip may well be undertaken in August, but care must be taken not to run into early autumn snows of the Sierras beyond Reno. Better turn south beyond Ely, into Bakersfield, Cal., rather than take the chance of being snowed back by the Sierras.

One should not be bound too closely by schedules or trails.

Fellow-tourists coming from one's proposed region give the latest and most reliable news.

Avoid Hit or Miss.

Generally speaking, it is better to work into one of the main trails and stick to it than to travel hit or miss. No one should undertake a transcontinental trip without having his car put into first-class order, tires in good condition and with a proper outfit for campaigning, emergency repairs and raiment for dust and heat and cold nights. It is, of course, feasible to make the whole journey, stopping at hotels, cafes and at other accommodating places, but in an emergency camping outfit will be needed, and food for all hands in case of breakdown 20 miles out in a desert or wilderness, should be provided.

East of the Mississippi it is feasible to travel at 15 or 20 miles an hour, but every driver takes chances who speeds faster on strange roads.

But the way is blazed, and the watchful driver can follow any of the transcontinental trails from coast to coast by watching the painted signs. A good spotlight will enable him to travel night or day, and if judgment is used a car can be driven across at a total cost of from \$75 to \$150 a week, much expenses. Automobiles do it far much less.

GHOST THROTTLES ANOTHER

Said to Be Hungry and Did Not Fall to Shotgun Squad.

When the hungry ghost that has been heard about the home of Mrs. Catherine Mikakowitz at Waukegan, Ill., followed a shotgun squad that had stayed up all night looking for it, Lieut. Arnold Noland, an overseas veteran, offered his services in running down the disturber.

With his army pistol he entered the haseament and seated himself near a table, where he placed the pistol. According to Noland, he heard the ghost all right. The stairs creaked. There was a moan and the door opened. A voice said, "Ah, now I have you," and a hand seized his throat.

The lieutenant reached for the pistol, but it was gone. The grip on his throat relaxed. He turned on the lights. The ghost had departed. And the mystery remains unsolved.

TAKES HOLD AND HELPS

Colds that "hang on" should be gotten rid of, for no one can stand the strain of aching cough, disturbed sleep and irritation of throat and lungs. Marie H. Wiser, Freeport, Ill., writes: "I had more or less of a cough for years and I have taken quite a number of medicines. None of them takes hold and helps like Foley's Honey and Tar." This old, reliable cough cure promptly helps coughs, colds, croup and whooping cough. Contains no opiates. Children like it. Sold Everywhere in Plymouth.

NEIGHBORHOOD NOTES

ITEMS GATHERED HERE AND THERE THAT WILL BE OF INTEREST TO OUR READERS.

Work has been started on Dearborn's new memorial hall.

Two new factories are to be started at Howell. They will manufacture brass valves and automobile tools and accessories.

The Woman's Club of Royal Oak will promote a celebration of the 100th anniversary of the settlement of that township on July 6, 1922.

F. F. Bennett, formerly of Plymouth, was elected vice president of the Ypsilanti Hotel Company, which will build a new \$200,000 hotel in that city.

The Saxon Motor Car Company are moving their plant from Detroit to Ypsilanti. It is expected that 200 men will be given employment.

Isaac D. Wright of Plymouth, was elected Commander of Northville Commandery No. 39, at the annual meeting held last week Tuesday. Warren B. Lombard, also of Plymouth, was elected as warder.

The Gordon, Pagel Company of Detroit, one of the largest baking companies of that city will become owners of the Northville Condensery plant on April 15th. Fred M. Warner of Farmington and T. G. Richardson of Northville, have conducted the business successfully for more than 20 years. The new owners will continue to operate the plant.

The state of Michigan has acquired forty acres on the east shore of Island Lake, near Brighton, for a state park under the control of the Department of Conservation. The state leases the tract for a term of years with the option of buying. The park is in Green Oak township on the east shore of the lake between the old ice houses and the Pere Marquette railroad. It is partly wooded and has a lake frontage of 2200 feet. A state highway will be built from Grand River and the park provided with conveniences for tourists.

William E. Heeney, who has been engaged in the undertaking business for the past six years, has sold his business to his brother, Spencer J. Heeney, a licensed funeral director and embalmer, who has been his assistant for several months. While The Enterprise regrets the removal of William Heeney, who goes to Marquette where he has purchased a business, we welcome Spencer Heeney to our community and wish him success. He has a good appearance and is known to many around here as his home is at Northville.—Farmington Enterprise.

Episcopal Notes

Tonight, "Good Friday," there will be service in the church at 7:30, with the Rev. C. H. McCurdy will give an address on, "The Supreme Sacrifice." The Rev. McCurdy comes from Birmingham, where he is in charge of a large parish, and we want to welcome Plymouth people at this service to hear Mr. McCurdy's address. The hymns at this service will be: 140, O Jesus Thou art Standing; 109, There is a Green Hill; 133, Must Jesus Bear the Cross Alone?; 146, My Faith Looks Up to Thee; 116, O Lamb of God.

Next Sunday, Easter Day, there will be morning service at 10:30. This will be a special service; the church-school will be dispensed with on this day, and will take the part of the church service. Franklin Gibson will preach from the text, "I am the Resurrection and the Life; he that believeth in me though he were

dead, yet shall he live." St. John 11:25. Daniel Murphy will also give a short talk on, "The Cross." William Murphy will sing the solo, and some of the little ones will offer up their Easter praises. Special hymns for Sunday: 86, Praise Him; 120, How Sweet the Name of Jesus; 114, He Leadeth Me; 99, Break Thou the Bread of Life, Dear Lord; 77, The Morning Light is Breaking.

All the children and members are asked to bring in their lenten mite boxes, next Sunday morning, as these are to be presented at the altar as an Easter offering from St. John's, Plymouth, for the work of the Foreign Missionary society, and will be forwarded by the treasurer to the society in New York.

The offertory next Sunday morning will be given to the missioner in charge as an Easter offering and as a mark of appreciation and thanks for the fine work he is doing here in Plymouth. Mr. Gibson has not yet been with us a year, and the progress and usefulness our little church has attained is apparent. The regular Sunday morning congregations have more than doubled in these few months of his stewardship, and we realize that God's blessing has been with the work here in Plymouth.

Rather than purchase flowers, we ask for donations and loans of flowers for the decoration of the church on Easter Sunday. Those who would like to donate cut flowers or to loan pot flowers are asked to have them at the church on Saturday afternoon, not later than four o'clock, when the ladies will arrange them.

We regret to record the illness of the aged mother of one of our oldest members of the mission, Mrs. David Oliver, and we sympathize with Mrs. Winfield Burch and sisters, who have so lovingly and patiently taken care of their aged mother for some time past. In our church service, Sunday morning, the stricken one and her daughter were remembered, and God's blessing was asked.

High scores—F. Campbell, 183; H. Gebhardt, 182; H. Lush, 181; W. B. Petz, 190; H. Thornberry, 192; C. Rathburn, 200.

The Fish are champions of the League. The old saying holds true, "If you only try, you'll succeed." Well, congratulations are in order, boys, whenever you meet a Fish.

Sorry to say, but the best team did not win the race. The Rattlers were the strongest team to finish, and are tied for second place. When you win 14 out of the last 15 games, you sure are going some.

The Bums sure went all to pieces. They lost five of their last six games. By winning four of six, they would have been champs, instead of now tied for second.

The Bums and Rattlers roll off the tie next Tuesday evening, somebody must be in third place. The Rattlers from past performances are favorites.

Attention, bowlers! A meeting called for next Tuesday, April 18, at 7:30 sharp. A lot of business to transact, so be on the job.

BASE BALL

The Newburg Athletic Club base ball team will hold practice every Friday night from 6 to 8 p. m., after which a meeting will be held. WALRUS HUNTERS SAW AN OLD RUSSIAN SHIP

She Was Supposed to Have Been Sunk But Was Floating in the Sea.

A historic Russian side-wheel steamer, the Polotski, built seventy years ago, is the latest addition to the phantom fleet reported by Bering Sea Eskimos, as seen this winter in the vast areas of ice that surround the Polar regions.

A gigantic movement of the ice field southward in January brought it near to Northern Alaska for many years and members of several tribes walrus hunting were started one night to see the old steamer riding in the ice pack. An investigation disclosed the identity of the old-time ship. That night the ice pack moved beyond the horizon.

The Polotski was caught in ice floes at St. Michael in December, 1915, and disappeared the following spring during a great storm. It was believed she had been ground to kindling and sunk. The ship was built in 1856; the hull and ribs of Alaska yellow cedar and spruce. Her huller was of copper and copper nails and bolts were used on the framework. When finished she was placed in service to carry ice and coal to San Francisco during the golden period.

Many deserted ice-bound ships are seen year after year in the mists of the Bering sea floating hither and yon at the mercy of wind and tide.

SEEDS FOR BRITISH TREES

Gathered in the Northwest and Shipped to Scotland.

The first shipment of Northwest forest seeds for the immediate reforestation of Great Britain has left Seattle for the old country.

It consists of 1,500 pounds of Doug. fir seeds and the same quantity of Sitka spruce seeds. The seeds go to the forest nursery at Wylie, Scotland.

The work of collecting the seeds and selecting only the choicest has been going on all winter. A wide range of woods was covered by seed harvesters while many worked in Southeastern Alaska for the seeds of beautiful Sitka spruce.

The best seeds were those found in squirrel caches, but only a few cones were taken from each cache because of the danger of destroying the real American forester. Many of the seeds buried by squirrels grow up into trees.

Latest Thing—A Sneezing Closet.

Sneezing is a warning of a cold. At Wellesley college, says the Popular Science Monthly, there is a little white, zinc-lined room that is guaranteed to make one sneezeless and snuffless, provided one sneezes it in time.

When the twitching nose is first felt a trip to the "coryza closet" is made. Here the fumes of formaldehyde and eucalyptus oil are inhaled. The tight-fitting door prevents the escape of the fumes and if the patient remains in the place a few seconds, there need be no fear of the cold getting beyond the first stages.

COMMISSIONER'S NOTICE

In the matter of the estate of Katherine Springer, deceased. We, the undersigned, having been appointed by the Probate Court for the County of Wayne, State of Michigan, Commissioners to receive, examine and adjust all claims and demands of all persons against said deceased, do hereby give notice that we will meet at the office of E. N. Passage, Plymouth, Mich., in said County, on Saturday, the 10th day of June, A. D. 1922, and on Friday, the 11th day of August, A. D. 1922, at 2 o'clock p. m. of each of said days, for the purpose of examining and allowing said claims, and that four months from the 11th day of April, A. D. 1922, were allowed by said court for creditors to present their claims to us for examination and allowance.

Dated, April 11, 1922.

CHARLES BREMS,
ALBERT GAYDE,
Commissioners.

OBITUARY

Caroline Friedericke Wilhelmine Wolff, nee Schwartz, was born in Pinnaw, Province of Mecklenburg, Germany of the parents, August Schwartz and Caroline Ballschmidt, on the 29th of September, 1854. A month later she was baptized into the christian faith. At the home of her birth she was instructed and confirmed in the Lutheran faith. On the 31st of October, 1879, she was united in marriage with Charles Wolff. This union was blessed with seven children, two sons and five daughters. In the year 1885, the deceased came with her family to the United States, settling at Redford, Michigan. Between Redford and Beech nine years of her life were spent. In 1894, the family moved to a farm in Livonia township, which Mr. Wolff had purchased, where for twenty-three years the family resided. In 1917, Mr. and Mrs. Wolff retired from the farm, moving to Plymouth, and taking up their residence on Spring street. The deceased enjoyed comparatively good health. In January of this year, she underwent an operation in Harper hospital, from which she quickly recovered, and again enjoyed good health. On Friday, March 24, she was taken ill with the "flu," followed by apoplexy, confining her to her bed, from which she was not again to rise in this life. She departed this life at the age of 67 years, 6 months and 11 days, on Palm Sunday morning, April 9, 1922. She leaves to mourn their loss, her widowed husband, Charles Wolff, Sr.; two sons, William of Plymouth, and Charles, Jr., of Livonia; five daughters, Mrs. Anna Melow and Mrs. Harold LaFave of Plymouth; Mrs. Harry Peck, Mrs. Charles Ash and Mrs. Louis Salow of Livonia; one sister, Augusta Luecht of Chicago; one brother, William Schwartz of Charles City, Iowa; as well as nineteen grandchildren and a host of relatives and friends. For more than a quarter of a century, the deceased was an active member of St. Paul's Lutheran church at Livonia Center. With word and deed she confessed that Saviour, in whom she believed and trusted in time and eternity. She has gone to her reward. "There remaineth therefore a rest to the people of God. For he that is entered into his rest, he also hath ceased from his own works, as God did from his. Let us labor therefore to enter into that rest." Hebrews 4:9-11. Interment took place Wednesday afternoon, April 12, at Riverside cemetery, Rev. Oscar J. Peters, pastor of the Livonia Center Lutheran church, officiating.

Out of town friends and relatives at the funeral of Mrs. Charles Wolff were: Mrs. E. Guetschow, Mr. Enterly, Mrs. Morley P. Harding, Mr. and Mrs. C. Hauserr, Mr. and Mrs. F. Woehler, Florence and F. Woehler, Sr., of Detroit; Mrs. Ernest Luecht of Chicago; Mrs. George Ehms of Monroe.

—Jesson, Dr. and Mrs. George E. Sheffield of Detroit, and Howard Tyler and Miss Mae Wolgast of Highland Park, were Sunday visitors at Albert Stever's.

H. S. Lee of the H. S. Lee Foundry & Machine Co., has sold his residence in Detroit, and is looking for a modern home to rent in Plymouth. He may be communicated with at the foundry.
