TAXPAYERS WILL VOTE ON SCHOOL BOND ISSUE

PROPOSITION NO. 1 CALLS FOR A BOND ISSUE OF \$95,000 WITHOUT GYMNASIUM. AND PROPOSITION NO. 2 WITH GYMNASIUM CALLS FOR \$15,000. A TOTAL OF \$110,000 IF BOTH ISSUES CARRY.

In Plymouth, District No. 1 is to vote for a new addition to the present school building on Monday, January 28th, between the hours of 8:00 p. m. and 10:00 p. m. at the High school auditorium.

All persons twenty-one years of age, who are citizens of the United States, have lived in this school district three months and own property (real or personal) assessed for school taxes in the district, are eligible to vote at above election. Where real estate is held jointly by man and wife, both can vote, provided they have the other qualifications.

The congestion at the school, where four rooms will be in half day sessions during the second semester, is such as to render the best quality of work impossible. As stated in The Mail last week by the Superintendent of schools, the present building is caring approximately for 260 more pupils than it was designed to accommodate. The auditorium in which physical training, required by law, is given, is needed for music, oratory, play production and class contests. In the Suburban League, of which P. H. S. is a member, all schools except Wayne and Plymouth, have standard gymnasiums. On Monday, January 14th, Wayne voted to bond for \$155,000 to build a high school with a gymnasium.

It has been said that the Plymouth school tax rate of \$9.34 per thousand valuation is high, but comparing it with Wayne, which is over \$15.00 per thousand, Northville \$16.00 and Farmington \$20.00, it appears that Plymouth's school tax last year was only between one-half and two-thirds the rate of neighboring towns. It has also been said that our total bond issue will be high, which is not a fact. The total bonds asked for at the special election, together with those now standing, will be 4.43 per cent. of the district's valuation. The law permits bonding to 15 per cent. of valuation. Wayne's bond issue of \$155,000 is more for their valuation than our total bond issue will be for our valuation. Plymouth's school has always been one of the leaders in education, and as shown above, it can continue without burdening its tax payers as heavily as other similar communities are forced to do. It is hoped that all will study the present school problem carefully and vote as you feel will be the best for relief of the present congestion and the future good and development of Plymouth.

The balloting will be done by two separate ballots, one for the addition of a school building with the gymnasium added, and one a building without the gymnasium, so that

voters may take their choice. The approximate cost of the gymnasium is \$15,000, without equipment, which the school already has. No additional teacher will be required for "athletic education."

It would have been much more convenient for many citizens, especially the ladies, had the voting begun at two o'clock instead of eight, and closed at nine.

WAYNE APPROVES SCHOOL BOND ISSUE

NEW BUILDING TO BE ERRECTED: LARGE ATHLETIC FIELD PLANNED.

Bonds for the erection of a new high school in Wayne will be sold the first Monday in February and ground will be broken for the structure as soon as plans are prepared and the weather permits.

The bond issue was approved by a vote in Wayne Monday, at which time an issue of \$155,000 was authorized. This sum will provide a modern building with 12 teaching rooms, a gymnasium and auditorium, and will also be used in the purchase of a new athletic field of 10 acres.

The new school will be built at Michigan avenue and Clark street, two blocks from the present building at Soth and Main streets. The old athletic field on which the new school will be located will be replaced by the 10-acre tract at the south end of the Wayne-Hylands subdivisions. This will cost \$4,200.

Overcrowded condition of the present building, which is insufficient to care for five grades that must be housed in temporary buildings, was given as the reason for the move.—Detroit Free Press.

Mrs. Fred Kline entertained company from Dearborn, Tuesday.

Several friends and neighbors of Mrs. Chris. DePorter helped her to celebrate her birthday, Wednesday afternoon. After a pleasant social time, a delicious lunch was served by the hostess. She was the recipient of many nice gifts.

WOMAN'S CLUB

"When the cat's away, the mice will play." Many of the present and past officers of the Woman's Club attended the political luncheon at the Statler hotel, Friday, and Mrs. Floyd Hillman and Mrs. W. T. Pettingill as officers pro tem. made possible the regular meeting. The usual business session being over, the program was begun by Division VII, with Mrs. R. E. Cooper, leader. Being music day, roll call was answered by the favorite song. The program was delightful, and handled in such a novel way. First came the story of the author's history and environment, then the story of the selections, then the interpretations, and five artists were much gratified to have the assistance of Misses Czarina Penney, B. A., Juanita Coe, Helen Fish, and Hanna Strasen, who made the day so worthwhile. Paderewski was given: (a) Oh The Torment—Mrs. Maxwell Moon, accompanied by Mrs. Gilbert Brown. (b) Minuet in G—Miss Coe. Rachmaninoff selections were: (a) Prelude in C Sharp Minor—Miss Strasen. (b) The Melody—Miss Penney. Gabslowitch themes were: (a) Melody; (b) Caprice—Miss Penney. Debussy was interpreted, (a) First Arabesque—Miss Fish; (b) Second Arabesque—Miss Penney. Grainger was introduced by Shepherd's Hey by Miss Penney.

The above men, all of whom are pianists, composers and orchestra leaders, were well described by Mrs. Cooper and Mrs. Hillman. Thus ended a perfect day.

EPISCOPAL NOTES

Last Sunday our service was held in the evening, and the rector preached a very helpful sermon from the text I. John 3-2, "Beloved now are the Sons of God."

In the morning the church school met, and there was a full attendance. This was fine considering the zero weather.

Last Thursday evening the annual parish meeting and supper was held at the home of Joseph Tracy. A very fine supper was served by the Guild, and there were about fifty present. After the supper, the annual meeting took place. The Rev. Frank Copeland, the rector, was chairman, and the Ven. J. G. Widdifield, archdeacon of Detroit, was also present. The rector, in opening the meeting spoke of his past experiences, and offered suggestion for the future of the parish. The different reports were handed in by the following: Ladies' Guild, by Mrs. Copeland; Church school, by Mrs. D. Murphy for the term of her superintendency, and Sidney D. Strong, for the present term; Brotherhood of St. Andrew, Daniel Murphy; the church secretary's report by Sidney D. Strong, and the church treasurer's report by Arthur J. E. Torre. All the reports were discussed and passed by vote. The appointment of the vestry then took place, and the results of the voting were as follows: A. J. Lapham, warden; Sidney D. Strong, secretary; Arthur J. E. Torre, treasurer; Joseph Tracy, vestryman, and Dr. W. G. Jennings, advisory. The delegates to the annual convention voted on were: Sidney D. Strong and Arthur J. E. Torre. To the House of Church Women: Mrs. Florence Webber and Mrs. Sidney D. Strong.

The Ladies' Guild will meet next Wednesday at two o'clock at the home of Mrs. Paul Ware, lower town. Service next Sunday will be in the morning at ten o'clock.

PRESBYTERIAN NOTES

Greetings to a new organization! The young ladies of the church, under the leadership of Mrs. Robert Pollock, have organized a chapter of the Westminster Guild, to be known as the Phi Delta Chapter. Officers have been chosen as follows: President, Rose Hillmer; vice-president, LaVerne Sly; secretary, Clara Hauk; corresponding secretary, Ellen Gardiner; treasurer, Rose Fulton; patroness, Mrs. Robert Pollock. Meetings are to be held every two weeks, the next one coming on February 4th. A pot-luck supper will be served at six-thirty. We wish this new organization prosperity and long life.

The special meetings are now well under way. Dr. Orr's sermon topics are as follows:

Tonight, "Burned Matches." Guests, young people.

Sunday (a. m.) "Turn Ye." Sunday (p. m.) "What Do You Think of God?" Guests, Masons.

Monday, "Way of Salvation." Guests, Knights of Phythias.

Tuesday, "First Things First." Guests, Macabees.

Wednesday, "Rebels, Slaves or Sons." Guests, Odd Fellows.

Thursday, "Types of Men." Guests, Chamber of Commerce.

Friday, "Our Decision." Guests, Woman's Club.

Those who have radios may hear a special message from one appointed by the evangelistic committee at 9:10 each night. Tune in when you get home from the service.

Miss Lucile Lincoln, of Detroit, will sing a solo on Odd Fellow night. Her many friends in Plymouth will be glad to hear her again.

SCHOOL NOTES

The high school notes were furnished by Mabel Blackmore, together with the write-up of the girls' game, while Ione Kelley furnished the grade notes and write-up of the boys' game.

BOYS' GAME

The hard fighting that Plymouth did here Friday, January 18, in a game with Adrian, did not show up in the final score of 25 to 9. Adrian is an A class school, and has, in the past, played most of its games with large teams, such as Ann Arbor and Jackson high schools. Each of Adrian's men was from 15 to 20 pounds heavier than ours. Plymouth's inability to make baskets from the large number of chances presented there was the cause of the high score in Adrian's favor.

The Plymouth line-up was as follows: Stevens, L. F.; Palmer, J. F.; Kenyon, C.; Hickey, L. G.; Holmes, R. G. Substitutions—Doudt for Palmer; Cline for Hickey; Draper for Holmes; Anbrus for Cline.

Referee, Mr. Brown, Michigan State Normal College.

GRADE NOTES

The following children in the kindergarten were neither absent nor tardy last week: Margaret Barlow, Jessie Bartram, Kostantin Dudek, Bobbie Herter, Beulah Hillmer, Harold Jacobs, Kenneth Jewell, Eleanor Mertens, Velda Morgan, Beth Northrop, Helen Peim, Ione Perkins, Mary Roberts, Sterling Rorabacher, Gertrude Schryer, George Weltman, Leslie Molnar, Leora Ford, Donald Hines, Roland Rhead, Marvin Sackett, Mary Scurto, Ardyth Wesseling, Victor Wesseling and Robert Wingard.

Mrs. Charles Bichy, Miss Bichy, Mr. Blake and Conrad Olsen were visitors of the B first grade during the month of January.

The children of the B first grade are making winter posters.

Helen Wnuk returned to school Monday, after being ill for several days with chicken pox.

A visitor of the sixth grade last week, was Mrs. R. M. Hills of Northville.

HIGH SCHOOL NOTES

By a score of 51 to 8, the girls basket ball team defeated a group of girls from Ypsilanti, last Friday. Margaret Amrhein made all the points with the exception of seven, which were made by Elsie White and one by Ione Bird.

Our debating team did remarkably well against the Northville team of three girls, whom they defeated with a score of 3 to 0 last Saturday night here. Our team, consisting of James Hickey, Ira Kingsley and Julia Wilcox, who for the first time in the season had the affirmative side of the "Ship Subsidy Plan," put up a good fight against the Northville girls, who were also very good, but failed in the rebuttals. We had had a practice debate the Friday before, during the seventh and eighth periods. Plymouth, retaining the same side, will debate with Ferndale here, February seventh.

Juanita Coe, Gladys Hake, Dorothy Melow and Muriel Bovey were appointed on a committee to make arrangements for the Junior-Senior banquet, which usually comes during May.

The ice was fine, there was a large crowd, and everyone had a good time at the skating party which the Juniors gave to the Seniors last Tuesday night.

The Boys' Glee Club is very glad to have Alton Sayles back, after several weeks absence in Florida.

A violin solo was played by Helen Beyer, and solos were sung by William Bake and Eudora Birch in the seventh grade chorus last Monday.

In the Girls' Glee Club last Monday, Lila Patten played a piano solo, and Iris Palmer and Ione Kelley sang solo.

Trucks for handling the chairs in the auditorium, which have to be moved quite often, were made recently by the boys in the manual training classes.

Clair Travis in the high school manual training class, made the gavel used by the high school debating team.

Oh Henrys and Hershey bars were sold by the Seniors at the game Friday night.

Fifty seven cents was all that was made at the game Friday night. The team needs a bigger crowd next time.

The sewing class recently organized under Miss Miller, hold their meetings alternately at the school house and at the homes of the members. The first part of the evening the girls sew on anything they wish, while the remainder they have for a social hour and refreshments.

Wasting Light

You waste your current and lose light when you allow your lamps to accumulate dust. You will have more and better light if you keep them clean.

You also waste light when you use lamps that have become blackened from too long service. Lamps in this condition may give you no more than half the amount of light you ought to have. You pay for the wasted current, however.

You need not bear this loss. You are always welcome to new lamps (40, 60 and 100 watt sizes) in exchange for your blackened, or burnt-out lamps, without charge.

Bring them in our office and get new ones in exchange.

KING'S CORNERS

There was no school Tuesday afternoon or Wednesday, because of trouble with the furnace, and part of it had to be taken to Plymouth for repairs.

The Helping Hand Society will meet Wednesday, February 6th, at the home of Mr. and Mrs. Fred Schaufele, Sr., in Plymouth. Dinner at noon. All are welcome to attend these meetings.

In the item last week, we should have said that Mr. Croftin at Newcomb Corners also keeps a full line of groceries, meat and baked goods and other articles.

Mr. Parrish called on the Rhead brothers recently, and found J. J. in poor health.

Miss Josie Mijal and two brothers, Louis and Stanley spent Tuesday evening at the home of Mr. and Mrs. Charles Parrish.

The cold weather the first of the week has kept a good many of the children out of school, some of them having so far to go.

C. F. Jubenville is on the sick list this week.

IN MEMORIAM

In loving memory of our dear father, Charles E. Maynard, who passed away one year ago, January 27, 1923.

All is sad within our memory. Lonely are our hearts today.

For our father we loved dearly, Is forever called away.

We miss his voice and footsteps. We see his vacant chair; We think of him in silence; No one shall see us weep, But many silent tears are shed, While others are asleep.

His Daughter,
Mrs. John Higgins and Husband.

Helps Those Hard Coughs

The danger of "flu" is its tendency to develop pleurisy and pneumonia. Stop your cold before it reaches this danger point, and for the cough and painful wheezy breathing, take Chamberlain's Cough Remedy. Fine also for bronchial coughs, tightness in chest and troublesome night coughs.—Advertisement.

SURE CURE FOR INSOMNIA

East and West Position Declared to Be the Natural Way to Sleep.

Occasional bad nights, sleeplessness till dawn, spells of persistent insomnia—these, in their varying degrees, are health-wreckers.

There are, of course, medical remedies and methods of treatment—some successful, others not. It would seem that it has been given to an old country body to hit on an idea which, if at first it causes a smile, may really be the solution of the can't-sleep problem. The writer, staying in a tourist village, confessed at breakfast that, despite a feather bed and lavender-scented sheets, he had not slept well, and never did so unless he was thoroughly tired.

"Ah," the old lady replied, "well turn 'em round tonight, and you'll sleep like a top."

I smiled when I found at bedtime that she had rearranged my bed so that the bed was in a different position. But I slept profoundly, although I was not physically tired.

Said the old dame when I told her of my good night's rest: "Ah, you're an east-and-west, sir—that's what you be! 'Tisn't every one that is, but most are. I put your bed east and west, so that the sun was behind you when you lay down, and facing you when you woke up."

"I make bold to say, sir, that's the natural way to lie, because the sun is sent to wake us up, and not the newfangled alarm clocks! Folks, like gypsies, who sleep out of doors, always lie east and west, and the sun, as you might say, kisses 'em awake. That's natural, that is, and you'll find animals do the same. Lie the natural way and you'll get natural sleep. I've recommended it to a many, and it's never failed."

Nor failed it in my case! For a month I've slept sweetly.

So many suffer from bad nights that the old lady's remedy is worth trying. Her "natural" argument is certainly sound, and it may be that the earth's motion acts as a sleep-bringer if the sleeper lays himself down east-and-west.—London Answers.

"Human Horsepower" Measured.

A machine to determine the horsepower of human beings has been perfected in New York and is said to be in successful operation there. The machine, known as the bicycle meter, is simply constructed and combines an ordinary bicycle arrangement and a hand wheel. Operation of these devices brings into play every set of muscles ordinarily employed by men and women while at work.

In making the test the operator keeps the bicycle device or the hand wheel preceding at a predetermined rate per minute. A weight brake is slowly applied until the subject begins to feel fatigue. The weight registers on a scale beam graduated in terms of horsepower instead of avoirdupois.

It appears that the man of average development registers 19 horsepower; the average woman registers 15 horsepower, but of course these are figured on the accepted theoretical foot-pound values.

Today's Reflections

A scientist says Eve arrived before Adam. If that is so, why has woman been late ever since?

You can't get much happiness out of a bum liver, but quite a few around Plymouth seem to get much joy out of a bum liver.

The commandments are our oldest law. And what we need is a little more respect for age.

A fellow doesn't get much past 40 until they could cut winter out altogether as far as he is concerned.

The average Plymouth child's idea of good parents are those who give them everything but a scolding or a spanking.

A Chicago doctor says neither love, politics nor religion is a cause of insanity. And thus another illusion is dispelled.

It is funny that tonsils never bothered much until doctors began to need the price of a new set of tires.

We heard a Plymouth boy say yesterday that nice girls don't kiss. He explained that they sometimes allow themselves to be kissed.

Nothing is impossible. Over in London they are making moving pictures almost as bad as some of ours.

Honduras has a new president. A man who holds office a whole week down there is called an old-timer.

One thing a leap-year girl doesn't have to contend with, and that's a hunter's license.

But where do the candidates throw their hats when they're running for the vice-presidency?

Washing dishes softens the hands, but any Plymouth woman can tell you that too much of it softens the heart.

A flapper is a girl who powders her clothes and says to herself, "Clothes, I'm going down town; if you want to come along, hang on."

When you feel lonesome among strangers start talking about your rheumatism, and you'll soon have the conversation started.

Auto drivers around Plymouth would do well to remember that the railroad engine not only has the right-of-way at a crossing, but it can prove it.

The Mexicans are fighting again. Maybe they call this their New Year's revolution.

More auto accidents are caused by defective brakes than by defective brakes.

NEWBURG

There are six autos in the Sunday-school race to San Francisco. Regular attendance of any class counts 20; visitors 10; a new member after two weeks counts 100; one staying out takes off 20; class having the largest collection, 10. All invited to come and get in the contest.

The officers and teachers are invited to meet at the home of the Sunday-school superintendent, Mrs. Donald Ryder, this Saturday evening.

There were forty in attendance at the Epworth League meeting Sunday evening. Mrs. Haven led the meeting. Miss Iva Bassett and Mildred Bennett will lead next Sunday evening. Everybody most cordially invited.

The losing side in this contest has to banquet the winning side. The Army is still ahead.

Mr. and Mrs. Philip Shepard of Detroit, were Sunday visitors at the home of Mr. and Mrs. Henry Grimm, Jr.

Thomas Davy, Jr., had a narrow escape last week Wednesday, when the machine he was driving on Plymouth road just east of the LeVan road, skidded, turning turtle. Fortunately it landed over the ditch, giving him a chance to get out without being injured.

A son was born to Mr. and Mrs. Keserick last Wednesday, Jan. 16.

Another little daughter has arrived to take up its abode at the home of Mr. and Mrs. Floyd Bassett, Monday, January 21.

Mrs. Edgar Stevens and daughter, Elizabeth, spent last Thursday with Mrs. Albert Stevens in Plymouth.

Mrs. Charles Ryder spent from Wednesday until Saturday, with Mrs. Mary Paddock in Detroit, last week, calling on Mr. and Mrs. Harry Armstrong and family Friday evening.

Zero weather has made fine skating. The young people are surely it. Ice houses are being filled also.

New Spring hats in all the pretty new shades in silk, satin and straw combinations. Will be glad to show them to you. Mrs. Dickerson, 122 N. Harvey street.

THE THEATRE

"JEALOUS HUSBANDS"

Maurice Tourneur, the noted director, is a firm believer in Shakespeare's "The Play's the Thing," but he believes that the Bard of Avon should have added: "—and so is the cast."

Tourneur is noted for the diligence with which he seeks big stories for transference to the screen; but he devotes just as much thought and energy to selecting the right cast of players to enact the story, for without it he believes that the best story ever written will fall flat.

His genius in choosing a cast is shown in "Jealous Husbands," a First National picture produced by M. C. Levee, which is coming to the Penniman Allen theatre, Saturday, January 26. All in all, it is one of the most balanced companies ever assembled in a studio.

Earle Williams and Jane Novak, both of whom have seen their names in electric lights above cinema palaces, have the leading adult roles. Masters of their art, they give finished performances that leave nothing to be desired.

Ben Alexander, the Penrod of "Penrod and Sam," through which he became internationally known, has another of the important roles and is highly effective in the role of Spud.

Then there are Bull Montana, George Siegman, Emily Fitzroy, Don Marion and J. Gunnis Davis. And the story in which they appear is just as good as the cast.

"THE SONG OF LOVE"

Norma Talmadge has introduced another Hollywood novelty which it is predicted will cause an even greater furor among both feminine and masculine patrons of the theatre than the Sheiks.

She has brought the Ouled Nailer dancing girl to Hollywood. Of course, Norma's is an idealized version of this strange creature of the Sahara, who in real life is very, very good, but dances very intriguingly. The Ouled Nailer dancer, say members of Norma's entourage, will appeal both to women and to men.

Like the sheik who seized what he wanted in cavalier fashion, Norma's Ouled Nailer girl fights savagely to obtain the man she covets. And she gets him.

"The Song of Love," which is a

drama of the Algerian Sahara, will be shown at the Penniman Allen theatre on Sunday and Monday, January 27 and 28.

Joseph Schildkraut, idol of feminine theatregoers of two continents, heads the supporting cast, which also includes Arthur Edmund Carewe, the "Svengali" of "Tribby," Maude Wayne, Hector V. Sarno, Laurence Wheat, Mario Carillo, James Cooley, Albert Prisco and Earl Schenck.

"The Song of Love" is a First National attraction, produced by Joseph M. Schenck.

"THE LIGHT THAT FAILED"

There were two endings to this picture story. When Rudyard Kipling wrote "The Light That Failed," it proved unpopular because of its tragic conclusion. Thereupon Mr. Kipling wrote a second ending which gave the story what is known as a happy ending. The author could not give the hero back his sight but could and did restore his sweetheart.

In the version of "The Light That Failed" which comes to the Penniman Allen theatre next Wednesday, January 30, the happy ending was used. With the consent of the author, the story was brought down to a period just prior to the commencement of the Great War in 1914. It is packed with drama and thrills.

OBITUARY

Carl Smith, an old and respected resident of Livonia township, died at the home of his daughter, Mrs. Herman Johnson, on the Farmington road, Monday, January 7th, at the age of 89 years and one week. Mr. Smith had lived in this town for over forty years, except a few years which were spent with his son in Detroit, and a son in the west.

He leaves to mourn their loss, two daughters and three sons: Mrs. Herman Johnson of this place, Mrs. George Joslin of Redford, Otto Smith of Detroit, William Smith of Seattle, Washington, and Hugh Smith of Oregon. He leaves several grandchildren and one great grandchild, little Helen Lee of Redford. His cheerful smiling face will be missed by a host of friends and neighbors.

William Smith came from Seattle to attend the funeral, and will remain for several weeks.

FRAIN'S LAKE

Frank Sears and family, who live on the Galpin farm, will soon move to Wyoming, where Mr. Sears has accepted a very desirable position. They have many relatives there.

George Lyke and wife attended a party near Northville, Friday night. Parker's orchestra from Geddes, furnished the music.

Mrs. Sarah Spence of Belleville, has returned to her home after spending several weeks with her daughter, Mrs. Ed. Lyke.

Mrs. Minnie Judson received word from Dr. Bert Ruthruff, who is confined in a hospital in Ann Arbor, that he is critically ill, with little hope for his recovery. Dr. Ruthruff was visiting his mother in Ann Arbor, when he was taken ill with poisoning in his leg, which had to be amputated just above the knee. His wife and son are with him.

Mr. and Mrs. Bruce Aiken of Ypsilanti, spent Wednesday evening at the home of Earl Quackenbush.

Poster Quackenbush and Buddie Leslie have been on the sick list.

Parties from M. A. C. were at Floyd Parker's Friday, culling their chickens.

Mrs. Charles Freeman was called to Ypsilanti Saturday, to attend the funeral of her aunt, Mrs. Anna Moore.

The Free Church Ladies' Aid will have their regular meeting Saturday at the home of Mr. and Mrs. Elijah Strang. Everybody welcome.

Albert Staebler and family spent Sunday in Canton Center.

Albert Staebler makes trips to Detroit tri-weekly, taking electric treatments.

Mrs. Bessie Geer and Willard Geer spent Tuesday in Ann Arbor. Willard Geer has patented a new bean thresher. Does fine work.

METHODIST NOTES

We were sorry to have to postpone the Men's Social Gathering scheduled for last Wednesday evening. Watch for a later announcement.

The Men's Brotherhood has re-organized with a new set of officers, and we are sure to have some fine events this winter for the men.

Our prayers and interests are with our Presbyterian friends this week, in their special efforts for winning souls for the Master's kingdom. May their's be a rich harvest.

Four or five of the Sunday-school classes are scheduled now for the use of the church basement for recreational purposes. Any other organizations so desiring, may arrange a time for its use by conferring with the pastor.

Have you arranged with the pastor about your Advocate subscription?

"The Parable of the Priceless Possession," Sunday at 10:00. "The Master of Life," at 7:30.

The Epworth League plans to begin its mid-winter mission study next Sunday, using the book, "The Youth of America." All members of the League should be present at the League service next Sunday at 6:30.

BAPTIST NOTES

We held our first meeting in the basement on Sunday, and everything was all O. K. The Sunday-school hour made us pretty close together but each class was well cared for.

The B. Y. P. U. had a good attendance Sunday evening, and a good meeting. They will hold a box social next Wednesday evening, in the church basement. Everyone is invited.

The pastor will be away at the Burkley church in Detroit union for two weeks, helping the pastor in special meetings.

The work of decorating upstairs has been started, and we hope for new and bright walls and ceilings. The ladies are selecting the new carpet this week, to cover the floor. We hope to have everything in place by February 1st.

The Cost of a Car

is no measure of its value

These are the things to consider

THE cost of a car depends in large part on volume and efficiency. It is no criterion of value.

Studebaker builds 150,000 fine cars yearly. All of them are Sixes. The main costs are divided by that enormous output. Thus at prices of \$975 and up we offer the utmost in quality. We offer maximum values.

Don't judge these cars by prices. Under other conditions they might cost twice as much, yet offer less than these.

Some major costs

Quality cars require costly facilities. Studebaker has \$50,000,000 invested in modern plants and equipment. \$8,000,000 in drop forge plants alone. \$10,000,000 in body plants, to carry out the Studebaker standards.

There are 12,500 up-to-date machines employed to build these cars. Some are enormously expensive.

Few outputs justify such facilities. Then parts must be bought outside, and profits paid to others.

Studebaker engineering costs \$500,000 per year. That to us is \$3.33 per car.

Our Department of Research and Experiment employs 125 skilled men. It makes 500,000 tests per year to maintain our standards.

Our Bureau of Methods and Standards fixes the requirements for every part and detail. 12,000 inspections are necessary for each car to insure against flaws and mistakes. We employ 1,000 men to make them.

Cars like the Studebakers cannot be built without such facilities, such research, such care. Yet enormous output alone makes them possible at Studebaker prices.

The best we know

Studebakers represent the best we know. And with our army of en-

gineers, with our wealth of experience, we probably know what is best.

We use 35 formulas for steels. Each is best suited to certain parts, as proved by years of tests.

On some steels we pay the makers a bonus of 15% to get them exactly right. There is no room to excel us there.

We machine the entire surface of each crank shaft, as was done on Liberty Airplane Motors. That extra cost is heavy. But thus we get

ations, including 15 coats of paint and varnish.

Open cars have real leather cushions. They cost, over imitation leather, about \$25 per car.

No closed cars could be more luxurious. That lining of Chase Mohair is made from the soft fleece of Angora goats. A velvet lining would save about two-thirds that cost—up to \$100 per car.

Note how every detail denotes infinite care. That, as you know, is expensive.

Note the completeness of our larger models. The nickel-plated bumpers, extra disc wheels with cord tires, a steel trunk, a courtesy light. These are rare extras, even on the costliest cars.

Nothing is stinted

Compare part by part with any rival car. Studebaker will show you some scores of advantages.

Then consider Studebaker history. For 72 years this name has stood for quality. When people rode in carriages, Studebaker built the best. Now those same traditions are applied to motor cars alone.

Consider Studebaker records. Mark how these cars in service have multiplied demand, until people last year paid \$200,000,000 for Studebaker cars.

Consider their service records. One Studebaker car, built in 1918, has run 475,000 miles. It is still in active service. It lately made a mid-winter trip from Los Angeles to New York. That means 80 years of average service, of 6,000 miles per year.

What more can you dream of in a motor car than the Studebaker offer?

Just Go and See

Studebaker is today the leader in the fine-car field.

Studebaker builds more quality cars than any other concern in the world.

Buyers of fine cars last year spent over \$200,000,000 for Studebaker models.

The demand for Studebakers has almost trebled in three years—as people found them out.

Then go see them. Compare them with any car you will. Don't spend \$1,000 or over without knowing what Studebaker offers. You owe that to yourself.

that perfect balance, that absence of vibration.

We use more Timken bearings than any other car which costs under \$5,600. They cost considerably more than ball bearings.

These facts apply to all Studebakers, of all styles and sizes. The materials used in all chassis are alike.

Beauty—Luxury—Finish

The Studebaker coach work has been famous for decades. No one can excel it.

The finish is produced by 26 oper-

Another Reason Why—

The Buick Third Member

Buick cars drive through a third member, not the springs. The springs only support the body and assure easy riding. A Buick rear spring accidentally broken cannot misalign the axle and prevent driving the car. The Buick axle remains in fixed position. Consequently the adjustment of Buick four-wheel brakes is not affected by the deflection of the springs.
