LUMBER FACTS

We are producing in this country only about as much lumber as was produced in 1890, and yet we have 35,000,000 more people to care for, to say nothing of over-seas needs. In that period the standing timber of the country has not only decreased from about three thousand billion feet to a little more than two thousand billion, but what remains is now much farther away from the center of gravity of consumption.

These lumber facts are going to be pretty well understood by the people, and the man who wants to build a frame house or a house of some other construction into which wood largely enters, will feel that considering that his house will last a generation or longer, he can hardly make a mistake by buying lumber now.

VILLAGE COMMISSION PASSES UPON 1924 BUDGET

The Budget With Additions Totaling \$6,500 Was Passed Upon at the Meeting Held Monday Evening

The village commission met in regular session, Monday evening. Aside from the routine business transacted the commission took up the matter of the budget for 1924.

Two petitions, one favoring the opening of Gravel avenue, between Main and Harvey streets, and one protesting its opening were presented, and laid upon the table.

The commission granted permission to the new People's State Bank of Plymouth to erect an electric sign over the sidewalk in front of their place of business.

The commission then took up the question of the budget for the coming year, and after careful consideration, adopted the budget as outlined in the Mail several weeks ago, with additions totaling \$6,500.

The additions suggested by the Chamber of Commerce were granted with the exception of the store house, which matter was laid aside after it was presented, to be taken up later, but eventually forgotten. If this matter can be taken up later and a building of this kind erected, we believe it would meet with the general approval of the taxpayers. Such a building is needed badly, not only from the viewpoint of economy, in providing a place to properly house the tools and machinery of the village, but the yard at the side and rear of the village hall is far from a beauty spot, with the litter that now covers it.

The additions made were as follows: \$1,000 to be raised and held as a fund to install a steam heating plant in the village hall, when the proper time comes.

\$750 for the purchase of additional road oil. This will make it possible to apply 10,000 gallons of oil in September, when in past years it has been found, that the first coating of oil is inadequate to allay the dust at that time.

\$1300 for the purchase of a combined road scraper and tractor, as suggested by H. C. Robinson at the public hearing.

\$2,000 for the construction of a sewer, where the creek which flows at the rear of the stores, crosses Ann Arbor street, and plans for the complete crocking of this creek in the near future.

\$450 was added to the fire fund for trailer, fire hose, etc.

\$1,000 to retire cemetery note at the bank.

The budget, with the additions added, makes a total to raise by taxation, not including the unappropriated balance, of \$49,124.

Enough more will be added to the contingent fund to raise the total to a 13 1/2 mill assessment. The budget as it now stands follows:

HAVE MOVED THEIR PLATING WORKS

Hondorp & Henderson have moved their plating equipment to their new building at the corner of Farmer and Elizabeth streets, where they are now ready for business. The new building is 20x40 feet in size and is most conveniently arranged for a business of this kind. They now have some additional equipment, which will enable them to do anything in the line of silver, nickel and gold plating in the very best manner possible. They are also prepared to refinish brass metal, oxide work, etc. Messrs. Hondorp and Henderson will be pleased to see their patrons and friends in their new location.

WILL GO OUT OF BUSINESS

C. A. Hearn, who has conducted a grocery and bakery business here for a number of years, has decided to quit the business, and on another page of this paper announces a going out of business sale. Mr. Hearn and Gilbert Todd will open a bakery and restaurant at Walled Lake about May 18th. Anson has made a host of friends during the time he has been in business here, and all regret that he has decided to leave the mercantile field here, but will wish him success and prosperity in his new location at Walled Lake. Mr. Hearn and family will continue to reside in Plymouth. We call attention to his advertisement in today's paper.

BARTLETT AND CANTON CENTER SEWING CLUBS MEET

The Sewing Clubs of Canton Center and Bartlett schools had their work of the year on exhibition at the April meeting of the Canton Community Club, held at the home of the president, Walter Postiff, last week Wednesday evening, April 30th.

Miss Grimm of the Dearborn high school, judged the work, which was exceedingly well done. The program was mostly given by the club girls, and was in charge of Bernice Finnegan. Club songs were sung, stories of club work read and several recitations given. Miss Woodworth, county home demonstration agent, presented the club members with achievement certificates, and J. Wagner, formerly county club leader of Wayne county, gave a very interesting talk on the work of the clubs. There were about 150 present.

If you know an item of news, send it to the Mail office.

BOY SCOUTS ENTERTAIN THE ROTARY CLUB

THE SCOUTS GAVE A SPLENDID DEMONSTRATION OF THEIR WORK TO THE MEMBERS OF THE ROTARY CLUB WEDNESDAY EVENING.

The members of the Plymouth Rotary Club were guests of the local troop of Boy Scouts, at their headquarters in the basement of the Methodist church, Wednesday evening. The troop, under the command of Scoutmaster D. D. Nagle, gave a number of demonstrations of first aid work, signalling, etc., that certainly were well done and very instructive and interesting to the guests of the evening. The boys are very proficient in all branches of the scout work, which reflects much credit upon themselves and their scoutmaster.

Remarks were made by Scoutmaster Nagle, Rotarians Sidney D. Strong, Dr. R. E. Cooper, Harry S. Lee, John S. Dayton, Carl Shear, F. D. Schrader and George A. Smith.

Following the demonstration, the scouts and their guests enjoyed a short time in singing songs, under the leadership of Rotarian Calvin Whipple. After this came a lunch of hot dogs, fried cakes and cocoa, which of course everyone enjoyed.

While waiting for the refreshment committee to get the lunch ready, a game of "soakum" was enjoyed. Several members of the Rotary Club got into this. Rotarians Harry Lee, Dr. Cooper, Frank Rambo, Cal Whipple, Carl Shear and Billy Wood demonstrated that they are some "sprinters," by the way they went around the room with a scout in close pursuit.

The Rotary Club is interested in the Boy Scouts, and especially in the local troop, and they are anxious to aid and encourage them in their work in every way possible. At the close of the meeting the members of the Rotary Club were given the Scout oath by Scout Tefft. It was a most pleasant evening for the members of the Rotary Club, who were present, and it was the hope of all that they might meet with the scouts again in the near future.

WINDSOR BEAVERS WIN FROM OFFICERS

The officers base ball team of the Detroit House of Correction farm were defeated by the Windsor Beavers, at the farm ball park last Sunday, by the close score of 12 to 10. Denniston, Jaska and Sweet were the battery for the officers. Marston and Burgen were at the points for Windsor. The Beavers got nine hits, while the Officers gathered 13.

THOSE OLD GARDEN JOKES

Along about this season we read a good many jokes printed at the expense of the garden and flower seed package. Jokesmiths of the country would have us believe that the red beet printed on the front of the little envelope is no relation whatever to the beet inside. They would also have us believe—if we took their jokes seriously—that until the frost withers the plant, the gardener may not know what sort of a child the seedlets have been parents of. But the truth is, if there's a man in Plymouth who has ever planted seed from these envelopes and has been baffled with the result he is one in a million who have not. You can count on radishes coming from a package so labeled and even congressional seed, for years the brunt of thousands of jokes, generally bring forth what is promised on the printed side of the package. The fellow who plants a garden goes right on enjoying his string beans and sweet corn fresh from the back lot, while the man who writes jokes about him buys his grub at a restaurant—and nine times out of ten gets it out of a can.

Don't let the jokesmith discourage you. If you have a few feet of ground it ought to be working for you and saving you good money a little later on in the shape of reduced grocery bills. Don't stop to figure the cost in sweat or a lame back, unless you want to credit the garden with also furnishing you a lot of healthful outdoor exercise. There's but one way to look at a garden—and that is as the best investment a man can make next to owning the house alongside it. And even the men who make jokes about it have sense enough to know that.

MAKING A BIG WISH

Old-timers say we are over the frost-line, so anything in the way of crop reports, and especially fruit crops, is bound to be of interest. Residents of Plymouth will be glad to learn that government surveys, made by farm bureau agents and special crop reporters in every state in the union, indicate bountiful crops of cherries, peaches and berries. In eastern and northern apple-growing states it is too early to make definite forecasts. The same surveys show another large acreage planted to gardens, with early stuff already moving in some sections of the country. It isn't going to change things, either way we wish—old Mother Nature is going to have her way anyway—but while we're on the subject why not wish that this will be the biggest fruit and garden truck year in the history of the world. Might as well wish for a whole lot while we're wishing, hadn't we?

MADE YOUNG AGAIN

They had to call out the police on Broadway, in New York, a few days ago because so many people stopped to watch a man plowing up sod in a park that traffic was blocked and business reduced to a standstill. And so many of them asked the plowman questions that he had a difficult time in answering them and keeping his horses and plow moving. It was not because they hadn't seen a plow—though many of them never had. But the fact was that most of those New Yorkers, or at least those of them who are successful business men, had come from small towns like Plymouth and from off of farms, and they were so happy to again see the furrows being turned that they forgot all about business and stopped to live in memory once again. Funny thing, that the average successful men of our biggest cities came from the rural districts, and also just as peculiar that no matter how great his success anything that comes along to carry him in memory back to boyhood days on the farm or in the small town will always get his attention.

NOTICE

The attention of building contractors and those who are about to erect buildings or make building repairs in Plymouth is directed to the fact that the fire limits have been extended recently and that permits must be obtained for any building or repair work within these limits. Also some changes of construction are prohibited by the building ordinance. Stay safe and enquire before you start work. Permits cost nothing. The failure to obtain one may cost you a lot.

Sidney D. Strong,
Village Manager.

CLEAN, PAINT AND PLANT

Clean, Paint and Plant week which is being observed here this week under the auspices of the Plymouth Chamber of Commerce, has met with a good response by many of our citizens. The village wagons have carted away a large quantity of rubbish, and the old town is taking on a spick and span appearance. A week of this kind develops a community spirit, because it gets everybody working together, and not only are the results a great satisfaction to the citizens themselves, but a town that is clean and tidy is an inducement for people to come here and buy or build a home.

It is well to remember that fire losses are reduced through the removal of waste and rubbish. A vacant or unsightly lot can be beautiful by the planting of flowers. The Plymouth Chamber of Commerce will furnish old fashioned flower seeds free, by calling the secretary's office, phone 11. As was mentioned last week, prizes will be given for the best flower beds the coming summer, by the Chamber of Commerce.

Property values on buildings are enhanced when they are kept well painted, and then, too, they present a much better and cleaner appearance to the eye.

A campaign of this kind advertises our town. Remember to do your bit in helping to make Plymouth still more beautiful.

BABY CLINIC

The old order is surely changing—babies are going to school. But it is baby's mother who has to do the school work for him and bring him to school. Since a baby is the most important thing on earth, baby study is the most fascinating study in the world and the most heart-breaking when baby will not smile. Well babies smile, but require the best of thought and care. Are you giving your baby the right care? Bring him to the baby clinic in the kindergarten room; compare him with the other babies; let him meet Dr. M. J. Brady, a very experienced baby specialist of Detroit, and a special baby nurse, both of whom will show each baby individual attention, even giving him his own card for checking up once a month, and learn the very best ideas. Every baby up to five years of age is welcome, Wednesday at 2:00 o'clock, and every mother has a big treat of comfort in store for her.

The 1924 Gray Group

PROVEN economy and dependability, new beauty and increased comfort, complete and convenient equipment—these are the features which make the 1924 Gray Group the best in the light car field. The Gray Group is characterized by the same economy of fuel consumption which made automobile history in 1923 by winning for Gray the world's official economy record—33.8 miles to the gallon of gasoline on a coast to coast run. Power plant is the well known low-speed, low compression Gray engine, with its proven dependability and power. Eighteen years' experience in motor building is embodied in this engine. Gray motors are known and accepted as the finest the world over.

Bodies on the 1924 Gray Group are outstanding examples of fine coach work, together with a beauty of design never before attained in their class. They are better looking, better built, guaranteed bodies, by one of the largest manufacturers and designed by the leading body engineers in the industry. Construction is unusually rigid and durable with extra strainers under all quarters and panels. High-grade curled hair, overstuffed upholstery is used. Many conveniences are included as standard equipment which ordinarily are extras. For the first time the public is offered a line of cars of the highest quality in every respect—mechanics, design, comfort, durability, convenience and economy of operation—at a price within the reach of every car buyer.

Having carefully considered these facts we have decided to market and service the GRAY car which we will be in position to do in our new Sales and Service store to be announced later.

WILL RAISE ONE MILLION DOLLARS TO ERECT A WOMEN'S LEAGUE BUILDING IN ANN ARBOR.

Nine thousand alumnae of the University of Michigan will sit down simultaneously at dinners in various parts of the United States the evening of May 10 to mark the opening of a national campaign for One Million Dollars to erect a Women's League building on the Michigan campus.

The fund to be sought between May 10 and 31 will be used to build and endow a social center for the 3200 women students at the University of Michigan who now have as their only meeting place the Barbour gymnasium, erected in 1898 when there were but 500 women enrolled.

The opening dinners at which the alumnae will gather throughout the country will be linked together by radio. The address of the President of the University, Dr. Marion Leroy Burton, as well as the program to be given by the Michigan Glee Club, will be broadcast by Station WWJ from the Detroit dinner at the Hotel Statler, the hour between 7:30 and 8:30 o'clock Eastern Standard Time being Michigan's hour in the air all over the country. More than 1,000 Michigan alumnae, with men who will help to carry on the campaign, will attend the Detroit dinner. One of the speakers will be Miss Jean Hamilton, Dean of Women at the University, who is National Executive Chairman for the Campaign. Mrs. Zelnor Dowling, chairman of the Detroit Executive Committee will preside.

Dinners will be held wherever there are five or more Michigan women and it is expected more than 100 of these functions will take place simultaneously. Large groups will gather at dinners in Ann Arbor, Bay City, Battle Creek, Lansing, Jackson, Kalamazoo, Port Huron, Saginaw, Grand Rapids, New York, Chicago, Buffalo, Washington, D. C., Boston, Philadelphia, Pittsburgh, Cincinnati, Toledo, Cleveland, Minneapolis, Kansas City, Mo., St. Louis, Indianapolis, Denver, Portland, Ore., and Los Angeles.

President Burton will announce over the radio the results of the campaign for the Million Dollar Fund which now is being carried on by the undergraduate women. The campaign on the campus will end the evening before the opening date of the national alumnae campaign, the goal of the students being a fifty dollar life subscription for every woman in the University.

Nation-wide solicitation for the fund will start the morning after the opening dinner and the organization which will carry forward the campaign now is almost complete.

SCHOOL NOTES

HIGH SCHOOL NOTES

There was a girls' track meet between the senior, junior, sophomore and freshman classes Thursday, May 8th, which covered the following events: High jump, standing broad jump, 50-yard dash, shot put, base ball throw, 200-yard relay.

Plymouth played her first second team game with Wayne, Tuesday, May 6th. The first team boys go to Farmington, Friday, May 9th.

A track meet between Monroe, Ypsilanti and Plymouth boys will be held on the Normal field, Saturday morning, May 10th, at ten o'clock.

First place was won by the senior boys, second by the juniors and third by the freshmen in the track meet on the home ground, Thursday, May 1st.

The Aggie Club will hold their annual flower sale, Saturday, May 10th, to raise funds to finance it. There will be booths distributed about the business section of town, so the members will look forward to the patronage of the public.

Junior class members are working hard in preparing for the annual junior and senior banquet, to be held Friday, May 16th.

Everett Cummins has been appointed to fill the vacancy in the junior class committee, and Russell Partridge the Aggie Club secretaryship left by Irene Brown.

The botany class are beginning the study of mosses, ferns and flowering plants by means of frequent field trips.

In the advanced cooking class, students are selecting their own problems in pastry, cooking and conducting various kinds of experiments to note their results. "How to Make Bread," is one of the problems the 8th grade cooking class is learning to solve.

Flower and vegetable gardens were planted by five girl scout members Monday afternoon. A few more girls are expected to join in the work.

A very interesting and profitable evening was enjoyed by the Physics class, at Eloise, Wednesday, April 30th. Much of their time was taken up by electrical experiments and a full discussion of electricity by Mr. Keenen, who has charge of the records at Eloise hospital, and who experiments in electricity as a side line. Some interesting experiments were the passing of 100,000 volts of electricity through three and four people and lighting bulbs which were attached on the other side of the people. Rays of a white light were directed, and each member had the opportunity of looking through an X-ray at different parts of the body. Shocks were received by people who sat on a stool charged. Alta Hamill was awarded the honor of being the only one of the class brave enough to go through all the experiments.

Plymouth defeated Dearborn for the first time. Due to the fine pitching of Doyle Rowland and Dee Trimble and the hitting of the rest of the team, we were able to defeat Dearborn, Friday, May 2, with a score of 12 to 5, in base ball, and at present our team stands a good chance in scoring the championship. They are beginning to look like a real base ball team, and so far, hold second place in the League, with Redford first. Our game with South Lyon Wednesday, May 7th, was a practice game.

COUNTY SCHOOL PICNIC AND 8TH GRADE COMMENCEMENT, ELIZABETH PARK, JUNE 7TH.

This year somewhat of a departure will be made from the usual plan of 8th grade commencement. County 8th grade graduates will receive their diplomas at the annual school picnic to be held at Elizabeth Park, Trenton, on June 7th.

The original date for the picnic was earlier, but in order to have the 8th grade exercises at the same time it is found necessary to change the date.

This will be an all day event. Every school in the county is invited, and will be expected. Pupils, teachers and parents are all urged to come. Fill your baskets and be on hand by ten o'clock, when a program of sports and games will be given. Following the picnic dinner at noon, the commencement program will begin. Dr. M. S. Pittman, Director of Rural Education at the Ypsilanti Normal College, will deliver the address.

Teachers are urged to make some definite plan to have their school present with as many parents as will come. Even though your school closes before June 7th, arrangements can be made early and the plan carried out on the day of the picnic, by meeting again at the schoolhouse and starting together. If possible, have the cars decorated and in some way by means of a banner or large display card, show what school you are from.

Teachers will be notified as soon after the county 8th grade examination, as is possible, just who are to receive the diplomas and should notify all of the successful applicants to be sure to be present when the diplomas are presented.

Remember the date and place—**JUNE 7th—ELIZABETH PARK ALL DAY.**

GRANGE NOTES
Friday evening, May 2, Plymouth Grange was delightfully entertained by the Belleville Grange lecturer, whose program of readings and vocal and instrumental selections was all that could be desired. The dialogue added spice and was well received. Mr. Fisher, assistant county school commissioner, whose daughter rendered a fine violin solo, closed the program with a short talk, taking for his subject, "The Three Talents, Natural, Inherited and Acquired," leaving with us good and helpful thoughts. We then retired to the dining room for refreshments.
It was voted to hold a special meeting Friday evening, May 30th, with a memorial program. Let us try and attend.

FUNERAL OF LITTLE CHILD
Funeral services for Alva Lee, two years and seven months old son of Rollie W. Lee of Livonia township, who fell into some scalding water while playing a week ago Thursday, was held from the Schrader Bros. Funeral Home, Tuesday afternoon. Rev. D. D. Nagle conducted the service.

OBITUARY
James Arthur, Coffman was born in the state of New York, December 24, 1840. He came to Ypsilanti Mich. in the year 1857, and in 1864 was married to Martha Jane Albright of Stony Creek, Washtenaw county. There were born to them five children, three of whom are living: Mrs. Louis Root of this place, with whom he has lived for several years; William A. Coffman of Romeo, and Mrs. Alvin Williams of Lansing. After residing around Ypsilanti and Plymouth for several years, the family moved to Morris, this state, where his wife died in 1906. Mr. Coffman passed away April 30, 1924, and his children and grandchildren took his remains to Morris, and laid them beside his wife.

Hupmobile
Crankshaft: Drop forged steel, double heat treated. Unusually heavy construction, carefully counterbalanced. Bored for pressure lubrication. Three large bronze backed, babbit lined bearings, all bored at one time to insure perfect alignment, and hand fitted. A lighter crankshaft, not counterbalanced or bored, and plain die-cast babbit bearings would be much less expensive.

Quality-Proof
That Shows Exactly How Finely The Hupmobile Is Manufactured
The inside of a motor car is what determines the worth of your investment. Because that is so, the Hupmobile presents in a new way quality-proof to the buyer before he pays his money. Quality-proof pertains to Hupmobile parts. It is made up of the parts which you can't see in the completed car. It is on display in our salesrooms all the time. It establishes in the surest, most positive way in the world, that Hupmobile quality is unique and superior for a car of its class. It shows you clearly that parts cannot be more finely made, or of finer materials, no matter what the cost. It shows you these things, even though you may not be an expert in motor car manufacture. Come and see Hupmobile quality with your own eyes before you sign an order for any car.

Vail Medal Awards in Michigan

Michigan Bell Telephone people, who were awarded the Vail bronze emblem for unusual acts of service during 1923. They are: Upper left, Arthur J. Warriner, Iron Mountain; right, Mrs. Anna J. Hatton, Niagara, Wis.; lower left, Winfield S. Dean, Jackson; right, Mrs. Lottie Cole, Marshall.

PHONE WORKERS IN HALL OF FAME

MICHIGAN BELL TELEPHONE CO. EMPLOYEES LAUDED FOR HEROIC ACTS

FOUR AWARDED VAIL MEDALS

Unusual Acts in Line of Duty and Public Service Win Praise For Ten Others

Heroes of civil life, those who act without thought of self, for the benefit of others, usually are allowed to go their prosaic way, praise unawing. But four persons, employees of the Michigan Bell Telephone Company, are due to receive recognition for unusual services to humanity during 1923. They have been selected as worthy of the Vail Memorial medal in bronze, given for specific acts of unusual service.

Ten other members of the Michigan Bell Telephone Company force have been named by the award committee for meritorious mention. They will receive letters of commendation from the vice president and general manager of the company, George M. Welch.

Four Awarded Vail Medal

The four employees of the Michigan Bell Telephone Company to receive the medals are: Mrs. Anna J. Hatton, operating agent, Niagara, Wis.; Arthur Warriner, exchange repairman, Iron Mountain, Mich.; Mrs. Lottie Cole, night operator, Marshall, Mich.; Winfield S. Dean, repairman, Jackson, Mich.

The ten named for honorable mention are: Miss E. Schram, supervisor, Pontiac; B. A. McMahon, exchange repairman, Pontiac; Don Young, switchboardman, Pontiac; L. R. Stimpson, cableman, Petoskey; O. A. Judd, testman, Petoskey; Claude Pickett, repairman, Petoskey; Charles McEachern, repairman, Bay City; Samuel E. Hayes, supervising foreman, cable trouble department, Detroit; A. E. Lewis, transmission inspector, Lansing; and Joseph Allen, line installer, Jackson.

The date for presentation of the medals has not been announced.

Shortly after the death of Theodore N. Vail, former president of the American Telephone and Telegraph Company and known as the "builder of the telephone," Mrs. Vail established the Vail Memorial medal fund to perpetuate the ideals her husband had established of service to the public. Each year a divisional committee selects those, who during the year have emulated the ideals of the late Mr. Vail by unusual acts of devotion to duty, regardless of self.

Town Saved From Fire

Mrs. Hatton is in charge of the exchange operated by the Michigan Bell Telephone Company at Niagara, Wisconsin. One morning, shortly after four o'clock, a flickering reflection on a metal piece on the switchboard attracted her attention. She discovered it came from a flame spreading up the side of a building across the street.

A high wind was blowing and sending flaming sparks rocketing through the air, endangering the entire town. Mrs. Hatton at once realized the danger. Working at highest speed, she warned the members of the fire department, notified proprietors and managers of nearby stores and called all other residents she could reach by telephone, asking their aid in fighting the blaze.

While she was giving the alarm, her own home in which the exchange is located caught fire, but she did not stop her work at the switchboard until the entire town had been aroused.

Then she started to save her home, using snow to extinguish the flames. In recognition of her efforts Mrs. Hatton was made a paid member of the Niagara fire department and was accorded other honors.

Quick Thinking Saves Lives

Quick thinking and equally quick acting enabled Arthur Warriner to save two lives during the year. Single-handed, he removed a heavy pole that had fallen on Eloy R. Nelson, near Vulcan, Mich., and through his knowledge of first aid, revived Nelson, who was badly injured. Later he saved O. L. Eaton, telephone installer, as the latter was about to be crushed between two freight cars near the Ford body plant at Iron Mountain.

Mrs. Cole, shortly before two o'clock one morning, answered a signal on her switchboard from the office of G. E. Lamb & Son, lumber dealers at Marshall. She obtained no reply, but heard noises that aroused her suspicions. She notified the police, who investigated and found the place had been burglarized. Concussion caused by explosives used in blowing open the safe, had knocked the telephone to the floor, the receiver falling from the hook and causing the signal to flash before Mrs. Cole.

Winfield Dean, like other telephone company employees, had been thoroughly instructed in first-aid work. This knowledge enabled him to save the life of Hangel, the 17-months old child of Mr. and Mrs. Michael Cristo, of Jackson. The baby had fallen into a stream and was not recovered for fully five minutes. Ineffectual efforts were being made to revive it when Dean arrived. Assisted by Joseph Allen, line installer he had the child breathing when a physician arrived 30 minutes later. Jackson officials and the press credited Dean with saving the baby's life, while Allen received commendation for his share in the work.

Service in Spite of Danger

In zero weather and working in danger from falling poles and high voltage wires, L. R. Stimpson, O. A. Judd and Claude Pickett fought flames atop telephone poles and saved the telephone plant, while preventing injury from falling equipment to people in the street below, during a disastrous fire in Petoskey. Similar work during a fire in Pontiac earned recognition for V. A. McMahon, Don Young and Miss Schram. Miss Schram gave the alarm and summoned the others to fight the fire, their efforts preventing the interruption of inter-city toll service.

Charles McEachern found a crowd helplessly viewing an automobile that had been crushed under the wheels of a train at a grade crossing in Bay City. No effort had been made to save H. P. Woolworth who was pinned under the wreckage. McEachern had the mass of steel and wood removed from the victim, without further injuring him, and gave first aid until a physician arrived.

Similar work brought commendation to S. E. Hayes and A. E. Lewis, who rescued three adults and three children who were trapped under a wrecked and burning automobile near Mason, Michigan.

HOW TO RECALL THE OPERATOR

If, after putting in a telephone call, it is necessary to recall the operator, she should be signalled by moving the receiver hook up and down the entire length of the slot—slowly.

A great many people, when anxious to get a quick response, jiggle the hook, not realizing that when they do so, the signal barely flickers, or does not show at all. When the hook is moved up and down slowly, the signal lamp will glow and go out at regular intervals, thus attracting the operator's attention, but unless the signal lamps are given a chance to function properly there can be no response.

THE UNIVERSAL CAR

A Welcome Member of the Family

A MOTOR car is never more appreciated than in the springtime. Its convenience and enjoyment are shared by all the family—and by speeding up the day's work, it provides more time for recreation.

A Ford Touring Car provides every motor car essential at the lowest price for which a five passenger car has ever sold—a price only made possible by complete manufacture, in tremendous volume, in the largest and most economically operated plants in the automobile industry.

Efficiency of manufacture is accurately reflected in the quality and price of the Ford Touring Car.

A WORLD-FAMOUS SIX AT \$1045!

Scientifically balanced, holds the road at all speeds. All-steel body. One-piece windshield. Luxurious, genuine leather cushions, 10 inches deep. Cool lights. Standard non-skid cord tires.

We'll lend you a car

to compare with other cars at near its price

THIS is an offer to anyone who is considering the purchase of a car in the \$1000 field.

We invite you to take out a Studebaker Light-Six model for the sake of comparing it with other cars at near its price. This without obligation to buy.

Every maker advances claims for his car. Some are fair, some superlative; some are borne out by facts, others not.

You've been told this car, that car or another is "just as good" as this famous Studebaker model. Now find out for yourself. That's the only way to buy lasting satisfaction.

When you try this Studebaker Light-Six, you will find an engine of remarkable power

and flexibility—an L-head engine designed and built by Studebaker; noted for its quiet and smooth operation; free from vibration because its crankshaft and connecting rods are machined on all surfaces, an exclusive Studebaker feature on cars at this price.

You will find surprising ease of handling, unusual comfort, roominess, obvious refinements and all the visible signs of a quality car. You will find low price its only contrasting feature.

Remember, Studebaker is the world's largest quality car builder and thus is in position to give you the utmost for the least.

Buy no car at \$500 or more without making this test. Don't buy blindfolded.

TODAY'S REFLECTIONS

It's hard for the average Plymouth man to get it into his head that the hairpin his wife uses to pick her teeth and to run into the cake to see if it is done, isn't the same hairpin she uses to clean her nails and punch bedbugs out of cracks.

Plymouth women are only as old as they feel, and how they feel depends a good deal on what the neighbors say about them.

You may think you are smart, but where do men throw their hats when they get ready to run for vice president?

A CARD—Richard S. Smith wishes to thank relatives and many friends, who so kindly assisted him to celebrate his fifty-first birthday on May 1st, and for the kind remembrances.

BLIND INVENTOR LIGHTS THE WAY

J. Banks Nicholson, Washington's blind inventor, has just perfected automobile headlights to greatly reduce traffic smashups and loss of life. He made his models by the touch system and has just put a machine on the street to demonstrate that a blind man cannot only reconcile himself to perpetual darkness, but can shed the light of his high beneficence on others. The invention consists of two headlights which turn automatically in the direction taken by the car, much after the fashion of the human eye. The lights are so tilted that they blind neither the pedestrian nor the autoist. Attached to the headlights are rear green lights, which are said to be more satisfactory than tail lights. Mr. Nicholson is shown in the photograph.

NEWBURG

There was a goodly attendance at church last Sunday, an inspiring sermon by the pastor, and a beautiful solo rendered by Pierre Kenyon of Plymouth, accompanied on the piano by his sister.
 Next Sunday will be Mothers' Day. Special music and sermon appropriate for the occasion. All are requested to wear a white flower for the departed, and a red one for the living. Please bring flowers or plants.
 A fine interest is being kept up in the Sunday-school and Epworth League. The Junior League held at four o'clock Wednesday afternoons is well attended, also the Thursday evening prayer service, and talk on Japan. Everyone cordially invited to attend these services.
 The May meeting of the Newburg Patriotic Society has been indefinitely postponed.
 Mr. and Mrs. Wm. Smith and Mr. and Mrs. Clyde Smith called on Mrs. Glenn Smith in Plymouth, last Friday. Mrs. Smith, who returned home from the hospital on Thursday was found to be rapidly improving.
 The participants in the Sunday-school contest held for the past few months, were nicely entertained Tuesday evening, by a short program at the church. The program consisted of a duet by Misses Anna and Ada Youngs; Bible verses pertaining to the wisdom of man (this was in honor of the men winning this contest), by Mrs. Smith's women's class; solo by Rev. Fitch of Dearborn, accompanied on the piano by Mrs. Fitch; recitation by little Elizabeth Stevens; Mother Goose rhymes acted by Mrs. Clyde Smith's class; solo by Miss Gladys Horton. Rev. Havens then introduced the speaker, Rev. Frank L. Fitch, who gave a splendid address on Christian Education, after which they adjourned to the L. A. S. hall where a social hour was spent. Refreshments of ice cream and cake were served to about eighty, old and young.
 The annual meeting of Newburg Cemetery Society will be held at the L. A. S. hall, next Tuesday evening, May 13th, at 7:30. Everyone interested in keeping up the cemetery should be present.
 Don't forget the play given by the school, this Friday evening, at Gleason hall.
 Mr. and Mrs. Charles Ryder and son, Leigh, called on Mr. and Mrs. Frank Ryder in Salem, Sunday afternoon.
 Mr. and Mrs. Robert Holmes motored to Pontiac, Sunday afternoon.

PRESBYTERIAN NOTES

Ten young people from the Northville Christian Endeavor society, gave us a pleasant surprise, last Sunday night, when they filed in with a cordial greeting, and an invitation to return their visit. Let's go!
 Our General Assembly meets on the twenty-second of this month at Grand Rapids.
 A new class for young men is being formed in our church, and promises to become the banner class of the school. A very capable teacher is in charge.
 The Busy Woman's Bible Class will hold its regular monthly meeting next Tuesday at the manse. There will be a pot-luck dinner and the usual program.
 See that mother is honored next Sunday and bring her to church with you if she is able to attend. You have but one and will never have another.

PERRINSVILLE

The L. A. S. play was a decided success, and everyone enjoyed it. Many thanks to Mr. and Mrs. Havens and Miss Lawton making it so. It netted the society fifty dollars.
 Don't forget the L. A. S. meets with Mrs. John Shokkie Wednesday, May 14th. All welcome.
 Mr. and Mrs. Ed. Wolf and daughter, Elizabeth of Detroit, visited Mr. and Mrs. George Esch Saturday, and attended the play in the evening.
 Farmers are busy getting the ground ready for early crops.
 Mr. and Mrs. Alfred Springer and little daughter of Detroit, spent Saturday and Sunday with Mr. and Mrs. Wm. Love.

MICHIGAN STATE FAIR BOYS' SCHOOL.

The Michigan State Fair Boys' School will be conducted along lines similar to those of past years during the State Fair in Detroit, August 29th to September 7th.

The school will be composed of one boy from each county in the state, who will be entitled to this honor by having received the highest standing on the eighth grade county examination and passing an acceptable examination in agriculture.

Each boy representing his county will have all expenses paid to the Fair and will be comfortably quartered in the grounds for a week.

The winner in Wayne County will be selected by a committee of which County School Commissioner, E. W. Yost is chairman.

100 BUSHELS SHELLED CORN PER ACRE.

Can you do it? Some Michigan farmers formed a Corn Growing Contest club last year, and the highest yield reported was 83 bushels, while the lowest yield was 53 bushels per acre. The important feature of the contest was that each man knew in the fall just how much it cost him to produce a bushel of corn, how much profit per acre he made. Incidentally the three showing the greatest profit per acre received prizes. First prize, a wheel spring-tooth harrow donated by the John Deere Plow Company through their Lansing branch; \$25 donated by the Elevator Exchange of the Michigan State Farm Bureau; third, a half-bushel of Grimm alfalfa donated by the seed department of the Michigan State Farm Bureau.

This year there is to be another corn club formed. It will be interesting to know just who makes the most profit per acre out of their corn this year; how much manure or commercial fertilizer he uses; how many times he cultivates; what kind of seed corn he uses (it's a safe bet he will know his corn will germinate at least 95 per cent); did he spring or fall-plow, etc.?

Each contestant keeps an accurate account of seed and fertilizer used, and labor spent on the crop up to harvesting, and gives this report to the secretary when crop yield is computed.

If you would like to get into this contest get in touch with your County Agent or the Farm Crops Department of the Michigan Agricultural College, East Lansing, Michigan. Closing date of entry will be July 1st.

PICK OF MICHIGAN'S BEST HERDS TO GO UNDER HAMMER AT M. A. C.—JERSEY CATTLE CLUB IN CHARGE.

Selected animals from Michigan's leading Jersey cattle herds will go over the auction block in the Michigan Agricultural College livestock pavilion on Wednesday, May 14th, in the first state Jersey cattle sale ever held.

The sale is being managed by the Michigan Jersey Cattle Club. Fifty picked females, two of them imported animals, will be sold. These have been selected from the best herds in the state, according to H. E. Dennison, field man for the Jersey club.

Among the prominent breeders who have consigned cows to the sale are: B. H. Hull & Son, Brampton, Ontario; A. H. Goss, Ann Arbor; H. F. Probert, Jackson; John Barron, Fennville; Corwin Silver Fox Farm, Hart; Joseph Forney, Saginaw; C. E. George, Union City, and Alvin Balden, Capac.

A special feature of the sale will be the giving away of three outstanding bulls to the men who guess the nearest the average sale price for the animals sold.

The Easier Is the Better Way. Don't poison yourself with calomel every Saturday night, but get a package of Chamberlain's Tablets. Take one or two on going to bed, and the morning will find you feeling good. Gentle and persuasive, they never gripe nor sicken. Only 25 cents.—Advertisement.

THE THEATRE

"DON'T DOUBT YOUR HUSBAND"

"All quarrels can be avoided if your husband will do just as you say."

"Jealousy and suspicion don't get you anywhere, but they keep you going."

"It's queer more men aren't doctors—they've such a good excuse to get out at night."

These are titles taken from the newest Viola Dana picture, "Don't Doubt Your Husband," a Metro production which is coming to the Penniman Allen theatre on Saturday, May 10th. They give an idea of the story by Sada Cowan and Howard Higgin that is said to make the merriest photoplay of Miss Dana's career.

Miss Dana appears as a smart young suburban wife who bumps along the road of matrimony with jealous outbreaks marking each bump. When she notices that her husband, played by Alan Forrest, is more interested in the ankles of a beautiful interior decorator (Winifred Bryson) than in the decorations, she decides to trail him. As luck has it, the husband, driving the other woman home, gets into a smash-up and sprains his ankle, and is taken to her home. The wife arrives there in a frenzy of anger.

It's a real matrimonial smash this time, but everything gets mended in a series of incidents that are said to sparkle with the sunshine of good humor, smart satire and dramatic situations.

"LILIES OF THE FIELD"

Austere mansion walls which reflect age. Portraits of aristocratic ancestors looking down upon antique furniture and rich rugs. The gleam of marble and the lustre of polished mahogany.

This is the atmosphere in which John Francis Dillon directed "Lilies of the Field," at the First National Studio, the picture coming to the Penniman Allen theatre, Sunday and Monday, May 11 and 12.

The story touches on wealth and poverty, and contrasts sharply the gold and dross of life. Through its reels move sons of wealth immaculately attired in the black and white of full dress; daughters of the poor, shabbily dressed, dazzling lilies of the field, making a hasty appearance, only to sink silently away.

Corinne Griffith and Conway Tearle are featured in the drama, which is a picturization of William Hurlbert's play. Others in the cast are Sylvia Breamer, Myrtle Stedman, Phyllis Haver, Charlie Murray, Edith Ransom, Crawford Kent, Charles Gerrard, Alma Bennett and Dorothy Brock.

Dillon, who made the season's photoplay hit, "Flaming Youth," in the new drama has proved that beneath starched bosoms as well as flanneled there throb the same fundamental human emotions.

"EYES OF THE FOREST"

Deep in the big timber country of California, Tom Mix, a company of actors and a mechanical force lived for two months during the making of "Eyes of the Forest," which comes to the Penniman Allen theatre Wednesday, May 14th. According to Sylvan Breamer, of this William Fox production, the sacrifice, if such it was, was worth the effort. Having pioneered in almost every field of daring, Mix will now make his bow as a full-fledged aviator.

Once before, in "Sky High," Mix defied fate and drove one of the big flying machines below the rim of the Grand Canyon crater, a hitherto unattempted feat.

In his latest picture, Mix will be seen as a forest ranger, an officer in the military service whose duty it is to guard the forests from fire and lumber thieves. The girl in the case is Pauline Stark, whose work in "A Connecticut Yankee at King Arthur's Court" won her film renown. Mix encounters her in a lonely forest shack, with her uncle, a back woods doctor. He learns she is wanted on a charge of killing her step-father. A band of lumber thieves is involved and the complications of the plot, evolved by Shannon Fife, make the picture one tingling with action and suspense throughout.

Mix can usually be depended upon to pull an original stunt. In this picture he leaps from a racing horse, his own Tony, to an airplane, clutching the axle bar of the wheels below the wings and rising thousands of feet in the air. William Wellman directed the picture. In the cast are Sid Jordan, Ed Wollock, Tom Lingham, J. P. Lockney and Buster Gardner.

CITY AND TOWN OFFICIALS ASKED TO NAME REPRESENTATIVES ON GENERAL BODY.

Mayors, village presidents, village and city managers and other chief executives of communities throughout southeastern Michigan and other parts of the state that may be interested in the proposed plan of metropolitan districts, have received an invitation from the Detroit Board of Commerce asking them to name each an official representative to a general committee which will draw up legislation and take other steps to bring such districts into being. The meeting has been set for Tuesday noon, May 20th.

It is hoped to have a bill prepared for the submission to the next legislature, providing for a constitutional amendment, which when adopted, will make possible the creation of metropolitan districts in the form of sanitary districts, transportation districts, water districts, or other areas in which communities face a common problem which can only be met economically and efficiently by such co-operation as is not now possible under existing state laws.

Village Manager Strong attended the meeting held last week.

TEAKETTLES HAVE LOST OUT

In our grandparents' time, the teakettle was perhaps the most important of kitchen utensils. It was kept busy heating water for every household need.

But the day of the teakettle is past. Every modern home should be equipped with hot water service equal to every need, at all times. The convenience, comfort, time and labor saving, is worth far more than the cost of having it. There is inexpensive equipment to exactly suit every household.

Let us plan for satisfactory, economical hot water service in your home.

PLYMOUTH BOY WRITES OF MINNESOTA SCHOOL.

Charles Chappel, who is in the Government Forestry Service, and staying in Ely, Minnesota, a city of 5,000, until the inland lakes and streams thaw, writes of his visit to the schools:

"I had a most wonderful treat today. I visited Ely's schools and actually they are the most beautiful buildings I ever have been in. They have four schools on one site, and are completing their fifth, which is to be a new normal building. They have a 40-acre site and a regular campus, with every modern convenience and every possible comfort known. Their gymnasium is a wonderful steel structure about 150x200, and off to the side is a shower room with forty showers in it. The building they are now putting up costs three million dollars.

"We then went into the machine shop, where everything is modern, and here, if the townspeople have anything wrong with their cars, they take them and let the students repair them. And then came the wonderful chemical and physical laboratories, with everything possible in the line of apparatus. I am ashamed to say it, but it is a lot better than the labs at college.

"Then, too, the students assume a different attitude towards attendance and study than I ever saw before. They have had only five students in the past six or seven years that have not gone clear through and graduated, and they seem to just love their work. I think it is simply because they make everything as homelike and practical as possible. That does not tire the student, and yet it urges him to do all he can. He subconsciously looks ahead and thinks he is doing everything for himself and on his own hook. Also the whole town is back of everything the school does—a wonderful co-operation.

"In the new building they are putting in a suite of rooms to represent a modern home, consisting of six rooms. It is all completely furnished to the minutest detail. The girls take care of it, keep it clean, and at the same time learn the housewife's duties. Then these rooms can be used by the club women for meetings and serve various other purposes. The reason Ely can afford such schools is because the mines corporation assumes ninety per cent of the yearly taxes, while the townspeople pay ten per cent.

"Well, I have spent nearly all my letter in telling you about this school business, but it did me so much good I just had to get it off my mind."

Today's Reflections

Girls used to marry for wealth. Now some of them are satisfied with an auto.

"A husband is one who says he made a bad investment," and lets it go at that, but thinks his wife's loss is due to "a woman's lack of judgment."

Spring fabrics interest the women folks around Plymouth, but Dad will continue to prepare for summer by merely taking off his vest.

The departments at Washington

all need more money, which is exactly what the taxpayers need.

Judging from reports, Congress is getting everything into the Congressional Record but a recipe for making raspberry jam.

Plymouth men can thank nature for one thing—she fixed it so the fishing season comes around about the time the women start cleaning house.

One advantage of daylight saving is that it enables everyone to say that he has saved something during the year.

The real "safety first" disciple is

the Plymouth man who wears suspenders as well as a belt and also carries a few nails in his pocket.

The difference between other Union and the Hand-Holders' Union is that the members of the latter organization get sore unless they are permitted to work overtime every night.

What has become of the old-fashioned Plymouth boy who used to tiptoe down the church aisle on Sunday morning in a pair of loud-squeaking shoes?

Some Plymouth people are never happy unless there is something wrong with them.

Man's Conquest of Time

The progress of mankind, from the earliest recorded ages, has been marked, by a ceaseless struggle against the limitations of time and space. Civilization is mutual interchange of thought and the product of thought. This interchange demands transportation, hence the development of civilization has paralleled the improvements in transportation.

A useful lifetime should not be measured in hours lived, but in deeds done. Doubling man's productive capacity offers the same net result as doubling his period of usefulness or doubling the number of producers.

More than any other single factor of civilization, the automobile has multiplied the producing power of man, by decimating time and distance, and by providing a broad and flexible means for the transportation of men and their products.

The amazing growth of the automobile industry could not have been, had not the automobile more than justified itself as an economizer of manpower, a stimulator of production and a creator of wealth.

epitomizes the progress of the industry to date along the line of maximum economy consistent with modern requirements as to engineering efficiency and satisfactory quality. The wonderful increase in our sales proves that Chevrolet is leading in the evolution of individual transportation which measures and records the progress of civilization.

Living Longer
 The difficulty nowadays of getting competent domestic help, the expense and the worry of servants, are causing many women to do their own home work.
 There is danger in this condition—danger of premature aging, of loss of health and strength, of shortened life. The obvious and only remedy is the use of electricity for doing the heavier household tasks.
 Washing (both clothes and dishes), ironing, sweeping, dusting, can be done by electricity in one-third of the usual time and at a cost of but two or three cents an hour.
 Call at our office and let us explain how easily and cheaply your housework can be done.

AROUND ABOUT US
 Brightmoor is to have a new bank—the Brightmoor State Savings Bank.

Organization of Redford's theatre project has been completed, and officers and directors selected. The company is capitalized at \$150,000.

Burglars broke into the Miles general store at New Hudson recently and merchandise to the value of from \$1,500 to \$2,000 disappeared.

The dedication of Redford's handsome new Masonic temple will take place Wednesday, May 14th. Grand Lodge officers will have charge of the ceremonies.

It is expected that actual work of laying cement on M-16 will begin before May 15 with at least four paving machines at work on the stretch from New Hudson to Howell.

Mr. Grennan, president of the Greenman's Cake Co. of Detroit, who recently purchased the Louis Case farm at Waterford, is making extensive improvements on the place, enlarging and remodeling the house and barns, etc. He will have a polo field on the farm and already has a fine herd of polo ponies on the premises.

Northville Record.

What is said to be the largest barn in Wayne county, burned to the ground early Wednesday morning. The barn, destroyed was on Mrs. M. Bench's farm, corner of Plymouth road and the Livonia and Redford town line. Mrs. William Bartlett, who with her husband has a lease of the Bench farm, was the first to discover the fire at about midnight. She sounded an alarm, and called the Redford fire department, which responded but did not arrive at the farm in time to extinguish the flames. Other than the barn, three horses, five cattle, a hay loader and a milking machine were burned. The contents is covered by insurance, but the amount of insurance on the building could not be learned. Two tile silos at one end of the barn are still standing. The barn was 180 feet long and 35 feet wide, having a tile basement with frame upper structure, costing about \$10,000.00 when it was built 10 years ago. Mrs. Bench resides in Detroit.

Construction work has begun on the Washtenaw road between Ann Arbor and Ypsilanti, to complete the mile and a half of pavement left over the winter. This road is now closed to traffic, and has been switched to the Packard road, which at the present writing is in good condition. It is expected to have the paving on the Washtenaw road completed by the middle of June.

Eighty new amendments to the constitution have already been offered in congress. It won't be long until we will be referring to our constitution as our amendments.

WAYNE COUNTY MAN WILL BE DELEGATE.
 Burton L. Hart of Adrian and Walter Lambert of Wyandotte, were indorsed as delegates to the Republican national convention by the Second District Republicans in session in Adrian Wednesday, April 30th, Kennedy L. Potter of Jackson, and M. W. Springer of Ann Arbor, were named as alternates, and Thornton Dixon, of Monroe, was designated as the delegates choice for presidential elector.

Voting was by acclamation without contest and was unanimous in each case.

About 100 accredited party members from the five counties of the Congressional area were present.

George A. Rathburn of Tecumseh, presided as temporary chairman.

At noon the entire gathering became the guests at a noon-day luncheon given by Rep. Earl C. Michener, who wrote that he could not be present personally on account of pressing business in Washington.

Cinderella lived happily ever after—but oftentimes the woman who is after complete shoe satisfaction finds herself with a "Grim Fairy Tale."

There is no mystery or mythology about the shoe business. A poor shoe at a poor price is still a poor shoe—no matter how good a story-teller the salesman is.

How to Fry Steak Deliciously Tender and Juicy

Heat dry clean skillet until piping hot. Wipe meat fat around inside skillet. Place in steak. After one minute turn. Let sear for another moment then fry slowly till done as desired. Place on hot platter, season, spread with butter and serve. The

NESCO PERFECT OIL COOK STOVE

is ideal for steak frying, also for frying fritters, potato chips, doughnuts, breaded sea foods, or waffles. The high, clean, blue, gas flame rising through the grates directly against the utensils, is intense. This solidly-built stove also quickly turns out an ovenful of baking, or heats a wash-boiler of clothes.

THE HOLLAND FURNACE

Heats Every Room Uniformly Quality Before Price

The Holland Recirculating system removes the cold (heavy) air off the floors, out of the rooms, and replaces it with warm (light air), clean, healthful, circulating air.

The warmed air with the Holland System moves faster, thereby saving fuel, and heats every room uniformly, even in the coldest weather, ask any Holland user.

Phone or write me and I will gladly call and explain without obligation—I sell, install and service all jobs personally. I have made a life-long study of residence heating. What is your Problem?

COUNTY SEVENTH AND EIGHTH GRADE EXAMINATIONS

The seventh and eighth grade examinations for Wayne county, this year will be held Thursday and Friday, May 15th and 16th, in the High school buildings at Dearborn, Wayne, Plymouth, Northville, Redford, Belleville, Flat Rock and Wyandotte, beginning at 8:30 o'clock of each day. Pupils will be required to furnish pencils and legal cap paper and should be instructed by each teacher how to fold the paper properly when the subject is finished. The following is the program of the examination:

Thursday, May 15, Seventh Grade. A. M.—Orthography and spelling, penmanship, reading. P. M.—Physiology, geography.
Friday, May 16th—Eighth grade. A. M.—Arithmetic, grammar. P. M.—History, civics, agriculture.
An average standing of 75 per cent and not less than 60 per cent in any subject is required.

LOCAL NEWS

C. R. Ross has purchased a lot in Sunshine Acres of William Sutherland.

Miss Lucille MacDonald of Almont, is spending several days with her sister, Mrs. R. L. Mills.

Miss Marion Beyer, who underwent an operation at Harper hospital, last week, is able to be out again.

The Ladies' Aid of Livonia will hold their next meeting with Mrs. Leo Fendt, Wednesday, May 14th.

J. F. Tefft of Saginaw, was a guest Wednesday at the home of his brother, L. I. Tefft of Penniman avenue.

Mrs. George VanVleet attended the funeral of her granddaughter's husband, Wm. Kelley, in Detroit, last week Thursday.

Mr. and Mrs. Ed. Viegler and son, Gladstone of Detroit, and Miss Thakle Frank of Jackson, visited their aunt, Mrs. Peter Gayde, Tuesday.

The annual Masonic dance occurs at the Penniman Allen auditorium, this Friday evening. Irving Unger's orchestra of Detroit, will furnish the music.

Milton Knapp, formerly chief clerk at the Pere Marquette round house here, has been transferred to Detroit, as chief clerk to train master, S. J. Boyle.

The Plymouth Auto Supply Co. has a large ad in today's paper, in which they announce that they have taken the agency for the Gray automobiles. Be sure and read it.

Mr. and Mrs. E. D. Holmes and small daughter, Kathryn, of Detroit, and Mrs. C. V. Chambers of this place, spent Sunday with the former's parents, Mr. and Mrs. Ed. Holmes, at Ferrisville.

Several attended the thimble party given by Mrs. William Petz and Mrs. William Blunk in the Lutheran church basement, Wednesday afternoon. The ladies spent the afternoon sewing, and a lovely lunch was served.

Russell Thompson of Petersburg, who has been staying with his brother-in-law and wife, Mr. and Mrs. Lloyd Fillmore, has accepted a position with Eckles & Goldsmith, and expects to move his family here the last of the week.

DEATH OF WM. KOBEBMAN

William Kobebman died at the home of Elmer Birch just south of the village, Tuesday evening, after an illness of a year or more. Mr. Kobebman had many friends in Plymouth and vicinity, where he was highly esteemed by all. The funeral services will take place from Our Lady of Good Counsel Catholic church, this Friday morning at 9:00 o'clock. A more extended notice will appear next week.

SIMMONS—AVEY

Guy A. Simmons of Farmington, and Mrs. Isabel Avey of Northville, were united in marriage by Rev. W. Crossland at the Methodist parsonage in Pontiac, on Saturday May 3rd. They have the best wishes of many friends.

C. OF C. NOTES

Everybody is most cordially invited to come out to the meetings of the C. of C., which are held every Tuesday evening.

There was another good meeting of the Chamber of Commerce, last Tuesday evening.

A committee was appointed for the purpose of making arrangements to place flower boxes about the village, and also to have a flower bed in one of the parks, to be known as the Chamber of Commerce flower-bed.

In order that the flower boxes for the street be of the same design and shape, they will be 24 inches long at the top, 18 inches long at the bottom. This permits the end boards to extend an inch higher than the side boards. This gives a box larger at the top than at the bottom and offers a pleasing design.

The official flowers, which have been chosen by the Chamber of Commerce are larkspur and shaft daisy.

Through the efforts of the Chamber of Commerce the Western Union Telegraph Co.'s office in this village will now be open from 8:00 a. m. to 5:00 p. m.

FISH SUPPER

The Ladies Aid of the Lutheran church will serve a fish supper, Friday evening, May 16th, in the church basement. Price—50c; children, 25c.
