## LUMBER FACTS

We are producing in this country only about as much lumber as was produced in 1890, and yet we have 35,000,000 more people to care for, to say nothing of over-seas needs. In that period the standing timber of the country has not only decreased from about three thousand billion feet to a little more than two thousand billion, but what remains is now much farther away from the center of gravity of consumption.

These lumber facts are going to be pretty well understood by the people, and the man who wants to build a frame house or a house of some other construction into which wood largely enters, will feel that considering that his house will last a generation or longer, he can hardly make a mistake by buying lumber now.

## A SAFETY DRIVERS' CLUB ORGANIZED IN PLYMOUTH

AT A MEETING CALLED BY THE CHAMBER OF COMMERCE, TUESDAY EVENING, OFFICERS WERE ELECTED AND NEARLY FIFTY ENROLL AS MEMBERS.

THE NEW CLUB WILL GIVE AN ENTERTAINMENT IN PENNINGTON ALLEN THEATRE, FRIDAY EVENING, MAY 23.

All over Wayne County the week of May 15th will be set aside as Safety First Week and clubs will be organized throughout the county that will be known as Safety Drivers' Clubs. This club is being organized in Plymouth under the auspices of the Chamber of Commerce. All drivers of cars and holders of driver's license will be eligible to join this club. The membership fee is \$1.00. The official name of the club will be The Plymouth Safety Drivers' Club. To show the needs of a Safety Drivers Club and the work that a club of this kind will carry on: Wayne County has had its proportionate share of the 13,000 killings in America caused by the use of automobiles. Of that number about 5,000 were little children. Safety educational work will save many lives right here in this community. The prevention of street accidents is a matter of personal protection for every individual in Wayne County.

Educational programs and entertainments will be held at different dates throughout the season with the object in view of bringing about more Safe and Sane Driving and to prevent accidents and save human life. Many accidents have been prevented by an educational campaign of this sort. All the services for the entertainments and band concerts that will be given throughout the season have been donated.

Leon Van Schoick, Supervisor of Safety in Wayne County, and Mr. Walsh are the official organizers of the Safety Drivers Club.

The committee appointed by the Chamber of Commerce is as follows: Harry S. Lee, C. G. Shear, E. C. Hough, Harry Lush, Dr. R. E. Cooper and S. D. Strong.

The entertainment to be given on May 23rd, at the Pennington Allen Theatre by the Plymouth Safety Drivers Club, promises to be one of the most interesting that it has been Plymouth's pleasure and privilege to witness. Two of Detroit's prominent judges as well as Detroit attorneys will be prominent characters in this performance. Heretofore the Pennington Allen theatre has not been available for entertainments of any kind, but in this movement for the preservation of human life, Manager H. R. Lush has made an exception of the hard and fast rule in allowing the theatre to be used by the Plymouth Safety Drivers' Club.

At the public meeting called by the Chamber of Commerce at the village hall, Tuesday evening, there was a fairly good attendance. H. S. Lee, chairman of the special committee appointed by the C. of C., presided over the meeting, and introduced Leon Van Schoick, supervisor of safety in Wayne county, who outlined the safety campaign which is being launched in the county.

The chairman next introduced J. H. Goldie, executive secretary of Detroit Safety Council and member of the Detroit Board of Commerce. Mr. Goldie is a most able speaker, and gave a very interesting talk. He said:

"I feel at home when I come to Plymouth, because this is where I lived at one time, and I have a brother who lives here.

"The safety work has grown to be a big movement. It is up to every individual to make this movement a success. This move began twenty years ago in some factories, then the movement spread to the railroads, and now the railroads are doing a fine piece of safety work. There are some of the larger railroad systems in the United States that have gone as long as two years without a single fatality either among passengers or employees. The traffic manager of the Michigan Central told me that the amount of crossing accidents was causing the railroad companies much

alarm. It was not only the loss of life that alarmed them but the damage to equipment. For instance, a big five-ton truck drove upon the track, at a place where the train could be seen coming for a long distance. The truck was demolished, and the train was derailed. The driver escaped, but the engineer and fireman were killed, and fifteen or sixteen of the passengers were seriously injured, besides the equipment seriously damaged.

"When I first started safety work, I was interested only in the factory side of it, but I have gradually drifted into the safety work on streets. We are not saying that the driver is always to blame for the traffic accidents. We found that 76 per cent of the people killed in Detroit were pedestrians, and it was only possible to fix the blame upon the driver in two cases. Only five per cent of the people now driving cars are careless. The majority simply do not think while they are driving. It is not the fault of the police department that these accidents happen, for no matter how many officers you have on the job there will still be some accidents. The police department and the sheriff's office are doing a fine job in keeping down the accidents. We cannot keep down the accidents by just law enforcement, but we must educate the driver and likewise the pedestrian.

"It may be thought that there are not enough accidents in Wayne County to warrant the organizing of Safety Drivers' Clubs, but the records show that there were 675 killed in Wayne County last year. Of this, 166 were killed in Detroit besides 6,000 injured. The safety movement will never be a success unless everyone is behind it. Why? Because the amount of automobile traffic has increased 30 per cent since 1922. Two years of such increase will double the present automobile population. We are building new highways, widening our old ones, and facilitating much more traffic on our roads. We are attracting to our roads, tourists who would otherwise go on other roads throughout the state. So you have to take care of not only the traffic from the city on the county highways, but you must also protect yourself from the tourist who passes through your town.

"Mr. VanSchoick, who is supervisor of Safety in Wayne County, has taken on the work of organizing these Safety Drivers' Clubs. The members of these Safety Drivers' Clubs pledge themselves to drive safely, and also help others to drive safely. The one dollar dues means nothing, but if we can get everyone to cooperate and work for the purpose of reducing traffic accidents, we surely can make a showing. Some people say that accidents only happen in crowded places where the traffic is heavy. There is a map in the office of the Investigation Bureau of the Detroit Police Department, and on this map is a red tack wherever a person has been killed. The tacks are not numerous at one point, but are scattered all over the city, showing that there are just as many accidents in the well-to-do residential sections of the city as there are in the crowded sections. It is the same way in Wayne county, accidents happen in all the different parts of the county. There is not and there never could be enough law enforcement to totally stop all accidents, but we can do a great deal by educating.

"In Detroit, we have a card system that worked fairly good in Detroit. When a party saw some driver violating a traffic law, he would make a note of the number of the license, the kind of car it was, if possible, model, etc., and sent this card to the Supervisor of Safety in Detroit. The car owner was called before the supervisor, and given a good talking to on safety, likewise the second offense. These offenses were all kept on record, and if it ever came to pass that this driver was brought before the court on a charge of reckless driving and said that he had never been in any trouble of this nature before, as a majority of such cases do, the judge will be handed this card and he knows the nature of the case. We think that we can improve upon this card system a great deal. The system was not so good, because it was only that

some fellow was particularly peeved, and would take the pains to take down the number of the car. Sometimes people would report each other just for spite when there was no need of it. The way we propose to make this system perfect is to have some persons who can be trusted to take down these numbers and report violations of the law. That is what we intend to have the members of these Safe Drivers' Clubs do. Not only pledge themselves to drive safely, but to report violations of the law by others. We simply must not permit careless driving. You can never tell when one of these traffic accidents will strike in your own home. In one instance a man couldn't see where he could help along the safety work, but after he was in an accident and got well from a fractured skull, he was an enthusiastic booster for this work.

"Even in your own town, the number of cars is quite heavy, and in two years there will be twice as many. You will have to do something in order to make your streets safe. You can do this by organizing the club.

The new homicide law gives power to prosecute anyone killing negligently. When men come in and report themselves after they have taken the victim to the hospital, or when the time comes to notify the family that a person has been killed or injured, it makes it plain that some measure must be taken to prevent this killing of people, and mostly children. In Detroit, we are teaching people, and when a person goes to obtain an operator's license, he must attend a course on driving, laws, etc. Even in the schools, we are

## LLOYD GEORGE SAYS:

IN A SPEECH IN LONDON ON MARCH 4th:

"America is the country which got the most out of the war—not gold, but prohibition.

"I went to America with the usual European prejudice against prohibition, hearing it was demoralizing America and that there was more liquor there than ever.

"That is not true—not in the least. There are some men who get it, but I believe it is mostly bad liquor. Some have already been poisoned and others are getting frightened for fear that their turn will be next.

"That generation will disappear. The vast majority are not drinking. The worst form of repeal that is threatened is a return to light wines and beer, but they will never have prohibition again.

"The only unemployed in America are the jailors. The children of America never saw such times as they are having now."

### DEATH OF GUSTAV KAISER

The deceased, Carl Gustav Kaiser, was born June 14, 1859 in Wuerttemberg, Germany; the son of Fred and Mary Kaiser. In the Lutheran church of that country he was baptised into this faith, and in the parochial school he received his education. The deceased often mentioned his good religious training, being able to find consolation in verses of the Bible and hymns which he had memorized in his youth.

In the year 1882, Mr. Kaiser came to this country and to Plymouth. In the year 1885, in February, he was united in marriage with Miss Caroline Boehm. This union was blessed with five children, William Kaiser, Fred Kaiser, Julius Kaiser, Mrs. Catherine Pickell and Mrs. Caroline Rhead.

Mr. Kaiser, for many years, was in poor health, and about two years ago a severe ailment befell him. He suffered severely, but never would complain or even let others notice his suffering. He had hopes of getting well again until the last, and always spoke of going to work soon.

Sunday morning about 5:30, when Mrs. Kaiser awoke, she found that he had passed away. The end must have been very peaceful, without a struggle, or Mrs. Kaiser would have noticed his passing away. He attained an age of 64 years, 10 months and 28 days, and leaves to mourn their loss, his wife and five children. Funeral services were held from the home at 2:30 o'clock, and from the Schrader Bros. Funeral Home at 3:00 o'clock Tuesday afternoon, the Rev. Charles Strasen officiating. Interment in Riverside cemetery.

At the noon-day luncheon of the Plymouth Rotary Club held last Friday, Messrs. VanSchoick and Walsh of the sheriff's office, who are in charge of the Safety First campaign in Wayne county, outside of the city of Detroit, were present and gave talks regarding the coming campaign and the organization of Safety Drivers Clubs. Their talks were very interesting and the members of the club will lend their help to make the roads of Wayne county safe.

### PRESBYTERIAN NOTES

Attend the men's class next Sunday—if you can squeeze in.

The Busy Woman's Bible Class met at the manse last Tuesday. There was a pot-luck dinner, business session and social hour. Three members from Florida told fish stories, and—well the prize has not yet been awarded.

The Woman's Auxiliary held its monthly meeting Wednesday, at the church.

The topic for next Wednesday night is, "The Builder of the Church." Matthew. 16:18.

Next Sunday night at a union service in the High school auditorium, Edward Rawden and R. N. Holsapple will give a dramatic debate on the question, "Can the Law be Enforced?" Mr. Holsapple is superintendent and Mr. Rawden is assistant counsel of the Michigan Anti-Saloon League. This debate answers all the arguments of the wets against prohibition, points out the responsibility of the public official for the enforcement of the law, and the responsibility of the private citizen and the need of his backing up the public official in order to secure proper law enforcement. It will be worth hearing.

Dr. John Orr, of Howell, is one of the commissioners to General Assembly from Detroit Presbytery.

### SCHOOL NOTES

#### HIGH SCHOOL NOTES

(Furnished by Marion Bennett)

Walter Postiff gave a very interesting talk at the Aggie Club, Wednesday noon.

The soils class had a field trip, Tuesday for the purpose of studying soils and soil conditions.

In a very easy ball game last Friday, Plymouth won over Farmington, at Farmington, by a score of 11 to 0. Trimble, pitching for Plymouth team, allowed Farmington but two hits, while Plymouth's team made fourteen. This game places Plymouth in second place in league standing, with only one defeat, and that being by Redford. However, we are hoping to give Redford team a set back when they come to Plymouth.

The result of the base ball game at Ypsilanti, last Saturday, was a decided reverse from the Farmington game the day before. Rowland pitched five innings for Plymouth, but was relieved because of a sore arm by Trimble. Ypsilanti was able to make but three hits during the game, but Plymouth only made two. This and poor playing at times was the cause for defeat.

At the girls' interclass track meet, which was held Monday night after school, the juniors received first place; freshmen, second, and sophomore's, third.

#### GRADE NOTES

Mabel Blackmore

Billy Kirkpatrick from Saginaw, entered the fourth A grade this week.

A track meet was held between the fifth and sixth grade girls, last Friday, the sixth grade winning in all the events.

A Cecropia moth, which had just come out from its cocoon, was brought to the sixth grade, last Friday by Louis Strouk. This moth is very common and may be found around maple trees. It is very large, sometimes growing as large as six inches across. As a rule, it does not come out so early, but this one had been kept in the house.

The sixth grade English class is now diagnosing simple sentences.

The grades will have their annual exhibit from two until about five o'clock Friday, and papers of the different classes for the past year have been saved and will be put on exhibit.

The local lodge Knights of Pythias have offered two beautiful medals, one gold and one silver, to be won in competition in the 10th, 11th and 12th grades for the best essay on "American Citizenship, Its Aims, Ideals and Responsibilities." The essays will be finished this week, and the winners announced later. The medals are now on display in the bank window.

## Today's Reflections

Once upon a time people judged a Plymouth man by the company he kept. Now they judge him by the auto he keeps.

There's this consolation—there can only be as many tax plans as there are members of congress.

Maybe you never noticed it, but Plymouth husbands who are experienced, always reach for their pocket-books when their wives call them "old dear."

Another good way to get peace is to ask all the people to pay the war tax before the first shot is fired.

They say there are fewer germs on paper money than there used to be. That's because the germs, like human beings, have a harder time holding on to it.

**Hupmobile**

Hupmobile steering knuckle and arm are drop-forged steel, doubleheat-treated, and unusually heavy for safety. The Brinell mark indicates the proper hardness for service and safety.

**Profit to the Buyer**  
It Is Bound Up in the Finer Quality of Hupmobile Parts

Hupmobile could not use materials less fine—and still be Hupmobile.

For the very heart and soul of Hupmobile success is the way it stands up—year after year—at astonishing low cost.

Let it try to cheapen any of its finely built parts and it would at once lose that superiority. So in the end, it would not profit the buyer.

The motor car question, as we see it, comes down to this:

The buyer can pay the Hupmobile price, safe in the assurance that a higher price cannot bring him anything higher than the Hupmobile in honest quality.

Or, he can pay less and content himself with less than Hupmobile quality and satisfaction.

It will cost you nothing but the time you put in, to come in and see Hupmobile quality with your own eyes, as shown by our Parts Display.

Some people have the idea that it costs a lot of money to have running water in the country, with faucets in the kitchen, bathroom, barn and outdoors. That isn't so!

Considering what it means in the way of convenience, comfort, health, time and labor-saving, there isn't anything else that costs so little and gives such satisfying returns.

And once your installation is made, you are through with expense. The operating cost is practically nothing. The V-K Water Supply System, the water-works that furnishes the water, operates on an average cost of only one cent a day. That's all.

## AROUND ABOUT

A soldier's monument will be unveiled in Oak Grove cemetery in Milford on Memorial Day. It will be dedicated to the memory of the soldiers and sailors who fought to save the Union in the Civil War.

Redford Masons dedicated their handsome new temple with appropriate ceremonies Wednesday, May 14th. The new temple is one of the finest in the state. The Redford Lodge was organized in 1863 with a membership of 11. In 1923 the lodge had a membership of 400.

Ross Hicks has made a record this year in raising lambs which we believe would be hard to beat. He has raised more than one hundred lambs this year without losing a single one and only one out of the whole lot had to be raised by hand. An exchange had an item recently of a man who raised 35 without a loss, but Ross has him beaten a mile.—Brighton Argus.

The Citizens' Mutual Auto Insurance Company gave a banquet recently for their salesmen, and 185 from all over the lower peninsula of Michigan were in attendance. It was shown that the company wrote 1,850 more policies during the first three months of 1923. C. L. Finlan & Son are the local agents for this company.

By the vote that was recently cast at Brighton it is in evidence that the citizens of that town want paved streets. A special election was held for the purpose of bonding the village for the sum of \$70,000 for pavements and storm sewers. There were 319 voters cast and 310 voted with ballots "yes," while only four voted against the amendment and six against the paving question.

The Michigan Bell Telephone Company now occupies its new \$150,000 plant at Ann Arbor. The main building is of Italian architecture of pleasing design. To the rear of the main building is the garage and warehouse building, one story high, with storage space for ten cars and supplies for each of the ten stations in that district. Employees in the new headquarters number 147, which includes 114 in the traffic or local department and 33 in the long distance operating departments, 26 in the plant department, and seven in the commercial offices.

A new system of maps which has been adopted by the state highway department as a means of spreading information relative to road conditions, was demonstrated to the state administrative recently. The maps will show the types of surface and the condition of every trunk line and most of the county highways. They are to be mounted on standards made at Jackson prison and will be distributed in hotels and other places of information throughout the state. A rental of \$5.00 a year will be charged by the state for the service, the maps to be brought up to date and distributed twice a month. It is said that Michigan is the first to adopt this plan which is designed to furnish tourists entirely reliable information.—Ex.

### Will Relieve Mother's Fears.

A panic of fear seizes mother when sudden and severe cramps, agonizing intestinal pains, black nausea and weakening diarrhoea prostrate some one of the family. Keep Chamberlain's Colic and Diarrhoea Remedy in the home, and such emergencies need cause neither fear nor alarm. Eases pain almost instantly.—Advertisement.

## NEWBURG

The church was prettily decorated Sunday with cut flowers and plants in flower boxes. Paul Havens sang a fine tribute to motherhood. Special music by the choir and the solo by Mrs. Havens, added much to the service. There were 51 in Sunday-school.

Plans are being made to observe Memorial Sunday with appropriate services.

Don't forget the Epworth League from 7 to 8 Sunday evening. Junior League Wednesday at 4:30 p. m. in the chapel. Prayer meeting Thursday evening at 7 o'clock.

William Smith spent the latter part of last week and the first of this visiting his sister, Mrs. Elizabeth Brown, near St. John's.

Mrs. Bessie Dunning and daughter, Margaret, called at the home of Mr. Ryder homestead Sunday evening. Mrs. Ella Wight of Wayne, was the guest of her sister, Mrs. M. Eva Smith, Sunday.

Jesse Jovic has sold his lots in Newburg to the Federal Roads. Tom Stonehouse has also sold the lot on which he moved the old school house. This school house will have to be moved again. The road will take off a corner of the school yard, which is even now small enough.

Mrs. C. E. Ryder received a card from J. B. Oliver, a former pastor, who has spent the winter in California. He is well and happy, and expects to leave San Francisco the 21st, and be home for his birthday.

Mrs. C. E. Ryder and daughter, Mrs. Fay Grimm, called on Mrs. Floyd Bassett last Sunday afternoon, at Pike's Peak. Mr. Bassett took them through the Ford plant, which was formerly the old Nankin mill. Everything is beautifully kept both outside and in. Electric lights, water and sewerage system, all being installed in all the homes at the Peak, through the courtesy of Henry Ford. He is also repairing the old Day Dean homestead across from the mill, everything to be like it was when built over a half century ago. Mrs. Ryder and Mrs. Grimm also called on Mrs. Ann Fawell.

The M. E. parsonage begins to look pretty fine. Any contributions toward the building fund will be thankfully received.

The play, "Deacon Dubbs," held last Friday, for the school benefit, was a great success, netting \$61.00. It surely is gratifying to know that we have such talent in our community, and with the co-operation shown, wonders can be accomplished. The stage, although a little too low, was a picture, well worth the price of admission. Mere words would not express our appreciation to Tom Stonehouse for the beautiful scenery painted by him, as a background. Two entire days were required for the work. It was a marvel and a most pleasing surprise to all who attended. With people in our midst with such public spirit as shown by this gift, we will surely accomplish much in the future. We wish to thank the Kenyon orchestra for their services. Their music, as well as that of Miss Schaur at the piano, was much appreciated by all. All characters of the play did their parts exceptionally well, and deserve much credit for their untiring efforts. The special numbers were a drawing card of themselves, and as always much appreciated. Space will not permit mention of names again, however, we have been asked to repeat the play in the Plymouth high school auditorium, on Monday evening, May 26th, at 8:00 o'clock sharp. It does seem a pity that we have no room in our school large enough to stage a play of this kind. However, let us hope and work hard, and perhaps an auditorium of our own may not seem so impossible, where there is a "will" to do.

A lawn social will be planned for later in the summer.

There are five pupils trying for the eighth grade and seven for the ninth. Examinations are being held in Plymouth Thursday and Friday of this week.

There will be services next Sunday, May 18th. So we extend a cordial invitation to all to be present Sunday morning, and give our pastor and family a hearty welcome on their return.

Elmer Segar passed away very suddenly Thursday evening, May 15th. He was taken very ill at his home, and then went to one of his neighbors, but as he rapidly grew worse, he decided to seek medical assistance. So, Mr. Youngs was taking him to Northville, but he died before reaching the doctor's. He was taken to the undertaker's, and friends notified of his sudden death. ### THEATRE

#### "THE FOOL'S AWAKENING"

The production of a new book by J. Locke is a real event in literary history of England and America. His novels are a by-word in English-speaking families, and readers of fiction look forward to them with keen anticipation.

A few of his stories have been put on the screen with the greatest success, and now one of his most romantic and fascinating novels has been picturized. This is "The Tale of Triona," which the Metro Pictures Corporation has produced under the name of "The Fool's Awakening." This picture will come to the Penniman Allen theatre, Saturday, May 17th.

"The Fool's Awakening" boasts a splendid cast, including such favorites as Harrison Ford, Enid Bennett, Mary Alden, Alec Francis, Lionel Belmore, Arline Pretty, Harry Northrup, D. R. O. Hatswell and others, who are said to approximate very closely the characters as drawn by the English writer.

The picture has been directed by Harold Shaw, which assures authenticity in the matter of the scenes of its locale—England and Russia. Mr. Shaw is familiar with every foot of ground mentioned in Mr. Locke's story, having lived abroad for many years, and also having recently made a picture of that part of Russia in which some of the action takes place.

"WHY MEN LEAVE HOME." When a man criticizes as "vulgar" a wedding anniversary gift he had given her that very day, it's time for the wife to wake up.

So thought Mrs. John Emerson, and the suspicions aroused in her mind led eventually to the divorce court. But that climax jolted John so hard that he also woke up, and they lived happily ever afterward.

The foregoing is one of the countless humorous episodes in "Why Men Leave Home," a First National picture produced by John M. Stahl, which is to be the feature at the Penniman Allen theatre Sunday and Monday, May 18 and 19. Personally directed by Mr. Stahl from Avery Hopwood's successful farce, the picture has been characterized as a gem of humor.

John Emerson did not know when he got up that memorable morning that it was the first anniversary of his wedding, until his wife presented him with a gift. So after he got down to the office he called up his jeweler and ordered him to send a gift to his wife, telling him to make the choice himself. The jeweler selected a pair of gaudy earrings. When John got home he thought the new bracelet on his wife's wrist was HIS present, so he praised it and slammed the earrings. Then the trouble started.

Lewis E. Stone plays the part of Emerson in the production, with Helene Chadwick cast as his wife.

OBITUARY William Kobbeman, a resident of Plymouth for the past twelve years, passed to his eternal reward on Tuesday night, May 6th, at the home of his sister, Mrs. E. Burch.

The funeral services took place last Friday morning from Our Lady of Good Counsel church, with interment in Riverside cemetery. Despite the inclement weather, a large crowd turned out to pay their last respects to "Bill," for as such he was known to all. To mourn their loss are his brother, Henry, and his sisters, Anna, Catherine, Gertrude and Clara.

William Kobbeman was born in Mendota, Illinois, September 3, 1867, and came to Plymouth from Payne, Ohio, in 1912. Until a year and a half ago, he enjoyed wonderful health, and was blessed with a constitution second to none; truly it can be said of him that his path was a path of roses, but unfortunately he met with an accident in the autumn of 1922, falling from the roof of his house; thus did he impair his health and slowly but surely, was his path of roses changed to a path of thorns. Several operations were performed to save his life, but to no avail; suffer he must, and suffer he did. His suffering was a source of edification to all, as he resigned himself so patiently to the will of Him, who placed the thorns in his path. True "Bill" is gone, but his memory will remain with us for a long, long time, on account of his many qualities, his readiness at all times to serve his fellowmen.

Mr. and Mrs. E. Birch and family have the sympathy of all Plymouth friends.

A CARD—We desire to thank the neighbors and friends for their many acts of kindness during our recent bereavement; especially do we wish to thank those who sent the beautiful flowers and to those who furnished the automobiles.

Mr. and Mrs. Elmer Birch, Sisters and Brother.

EPISCOPAL NOTES The service last Sunday was held in the evening. This being Mothers' Day, the rector, Rev. Frank Copeland, delivered a very fine address on "Mother," taking his text from Jeremiah 31:3, "Yes, I have loved thee with an everlasting love."

On account of the stormy morning, there were quite a few away from the Sunday-school. We want a full attendance in all classes next Sunday morning.

This week the annual convention of the Episcopal church will take place, when representatives from all parts of Michigan will assemble in Detroit. The laymen and delegates will meet in St. Paul's Cathedral, and the delegates of the House of Church Women will meet in the First Congregational Church, Detroit. Those appointed for Plymouth are Sidney D. Strong, with Arthur J. Torre, alternate; and Mrs. Florence Webber, with Mrs. S. D. Strong, alternate, representing the House of Church Women.

Next Wednesday afternoon, the Ladies' Guild will entertain the members of the Ladies' Guild of St. John's, Wayne. The meeting will take place at the home of Mrs. George Wilcox on Penniman avenue, and every member is asked to be present.

Next Sunday the service will be in the morning, with address by the Rev. Frank Copeland. The rector extends a welcome to all to attend the service at 10:00 o'clock.

Sunday-school will be at the usual hour, 11:15. We welcome new comers to our Sunday-school.

## ORGANIZED SAFETY CLUB

(Continued from first page.)  
 teaching safety, every child knows the little rule of first looking to the left and then to the right when crossing the street. The result of this teaching of the children was that we cut down the rate of fatalities of children in the vicinity of the schools, but when these children get home, their parents do not impress upon their minds the necessity of safety, and that is what we are trying to do. And so by use of these clubs we are trying to get some real honest to God Safety work."

Following Mr. Goldie's talk, the meeting proceeded to the election of officers for a Safety Drivers' Club, and the following were elected:

President—H. S. Lee  
 Vice-President—Carl Shear  
 Secretary—Wm. Wood  
 Treasurer—George A. Smith

Nearly fifty took out memberships Tuesday evening, the club will have a membership of several hundred in the near future. This is a movement that every driver of a motor vehicle should be interested in, and become a member of the club.

Another meeting of the club will be held at the village hall next Tuesday evening at 7:30 o'clock. Everybody is invited. Get back of this movement to make the roads of Wayne county safe.

The slogan is S. O. S.—Safety or Sorrow.

What would you do to save a human life?

# TODAY—

Ride in this world-famous Six  
 —the outstanding car in the \$1000 field

POWER, luxurious roominess, low upkeep and long life at low price! . . . a world-famous Six, the outstanding sensation of motordom today at \$1045.

Now ride in it. Feel the thrill of its powerful six-cylinder L-head motor. Note that it embodies features found only in the most expensive cars. Consider that it is a product of a \$90,000,000 company with 72 years of fine vehicle making to its credit.

Compare it with competitive cars at near its price; then with cars that sell for several hundred dollars more. Compare it for

beauty, comfort, roominess, upholstery, for obvious refinements.

Compare it, too, for ease of handling, flexibility, power, quietness and lack of vibration. Don't take anyone's word that this car or that car at its price is "just as good." Find out for yourself.

Studebaker will place a Light-Six at your disposal for this purpose any time you name.

Being the world's largest producer of quality automobiles, Studebaker is thus in a position to give the utmost for the least.

Buy no car at \$500 or more without making this test. Don't buy blindfolded.
