### "COVERED WAGON" COMING TO LOCAL THEATRE

Manager H. R. Lush of the Penniman Allen theatre announces that "The Covered Wagon," the great Paramount picture will be shown at the local theatre during the week of the Plymouth Day celebration, which is to be held when the Plymouth road pavement is completed. This picture is the king of all screen productions—a thrilling, wondrous romance, with a supreme cast.

### SOME MORE INTERESTING RELICS.

Village Manager Sidney D. Stroff has added several more relics to his interesting collection of curios at the village hall. Charles F. Bennett recently brought to the hall a bass horn that was played in the Plymouth band, by the late Charles Roe, previous to the Civil War. The instrument is of the old rotary valve type, and is oddly different from the modern instrument of this kind used today. Other relics brought in by Mr. Bennett, were an old bugle fashioned from an old style cornet, and an old fashioned calf yoke. It would be a fine thing if a room could be arranged for at the village hall, for the display of old relics, that many people would be glad to give or loan for such an exhibit. It would not only be interesting to the future generation, but instructive as well.

### PLYMOUTH REPRESENTED AT FIREMEN'S CONVENTION.

LeRoy Jewell, accompanied by Mrs. Jewell and son, Durward, were in Saginaw several days last week, where Mr. Jewell was a delegate from the local fire department to the annual convention of the Michigan State Firemen's Association, which was held in that city last week Tuesday, Wednesday and Thursday. The convention this year marked the fiftieth anniversary of the organization of the state association. One of the outstanding features of the convention this year was the pageant portraying the progress of fighting fires. Old hand reels, hose carts, steam engines and the latest and most modern fire equipment passed in review and the men wore both modern and old time regalia. Chief Kuhn of Pontiac, was unanimously elected to the presidency of the association. The convention will be held in Grand Rapids in 1925.

### NORTH TERRITORIAL ROAD IN GOOD SHAPE.

The Wayne County Road Commission have placed the Penniman avenue road, now known outside the village limits as North Territorial road, in fine condition. A coating of dust layer has been spread on the road. Gravel is being placed upon the road this week, leveling up all low places. Motorists will find this highway a splendid road to take for Ann Arbor, as a fine gravel road runs from the Washtenaw-Wayne county line to Ann Arbor city. If you have not been over this road lately, take a spin over it some evening and see what an improvement has been made.

### DE GRACE-PENNINGTON

Carl De Grace and Mrs. Gycia V. Pennington, both of Ann Arbor, were married by Mrs. Phoebe Patterson, justice of the peace, last week Thursday evening. Mr. De Grace is employed in the construction of the new Wayne County Training School. They will make their home in Plymouth.

### STONE SCHOOL REUNION

The fourth annual reunion of the Stone school will be held at the home of Mr. and Mrs. Richard Skelton on Friday, August 8th. All who ever attended that school or who have taught there are invited to attend. A pot-luck dinner will be served at noon. Bring fork and cup, spoons and paper plates will be furnished. Please take this notice as a personal invitation and come with your family for a visit with old friends and schoolmates.  
David Wilson, President.  
Libbie Jones, Secretary.

### COUNTY TO SUBMIT TWO PROPOSITIONS

#### SEEK TO BOND FOR DIX AVE. BRIDGE AND HOME FOR EPILEPTICS.

Township Clerk Miss Lina Durfee is in receipt of a communication from the Wayne county clerk, which states that two county propositions are to be submitted to the electors at the special election to be held on the day of the fall primaries, September 9th. One proposition is for the bonding of the county for one million dollars, the funds to be expended in constructing a bridge across the River Rouge, at Dix avenue. The present bridge at Dix avenue is said to be an obstruction to navigation, and the U. S. War Department specifies that if the bridge is to be continued in use it must have a clear opening of 125 feet. A bridge of the bascule type is recommended by the War Department.

The other question to be voted on is a plan to bond the county for one million dollars, the funds to be expended in purchasing land and erecting additional buildings for the home of the epileptic and feeble minded, near Northville.

#### WILL ESTABLISH SUPPLY YARD HERE.

The Wayne County Road Commission will establish a supply yard on South Mill street in Plymouth. For the next year or so there will be considerable road building activity in the vicinity of Plymouth, and a great deal of material will be handled through the Plymouth yard. The yard here will be located along the Toledo division of the Pere Marquette, which will give ample unloading facilities for carload shipments. The location of a supply yard here will give employment to a few men, which all helps Plymouth in a general way.

#### A NEW MEAT MARKET WILL OPEN.

There is to be another meat market in town. Albert Stever will open a market in the Bennett store, east of the telephone office, on August 2nd. New furniture and fixtures will be installed, and everything will be strictly up-to-date. Mr. Stever has had much experience in the business and will undoubtedly supply his customers with the best in the market.

#### BLOCK-KENSLER

Miss Ferne Kensler, youngest daughter of Mrs. Barbara Kensler, and Edwin W. Block were married at the First Presbyterian church, at South Lyon, Saturday evening, July 19th. Rev. W. G. Evans officiating. The young couple have the best wishes of their many friends for a happy and prosperous wedded life.

#### MARKET GROWERS' EXCURSION

Annual excursion of the Detroit Market Growers Association takes place this year on Tuesday, August 5th. Boat leaves foot of Griswold street, Detroit, at 9:15 a. m., for Tashmoo Park, returning at 8:30 p. m. This is the one day in the year that the farmers and gardeners of Wayne and nearby counties forget all of their troubles and just have a good time. The game program at the Park is the most complete in the history of this organization, according to Harry Haas, chairman of that committee. All who attend the excursion can participate in the games and compete for all prizes. Fare for round trip, 80 cents; children 40 cents.

#### THE CHASE REUNION

The Chase family reunion was held last Sunday, at the farm home of W. A. Eckles, about thirty-five being present. Those from out of town were: Mr. and Mrs. A. L. Miller and daughter, Ruth, and the former's mother, Mrs. McGraw, of Milford; Mr. and Mrs. Arch Herick and daughter, Hazel, and Mr. and Mrs. Clarence Ebersole of Waterford; Mr. and Mrs. Julius Miller and children of Dearborn.

### ROTARY CLUB VISIT BOY SCOUTS AT SILVER LAKE

Sixteen members of the Plymouth Rotary Club drove out to Silver Lake, near South Lyon, last Friday afternoon, where they were guests of the Plymouth troop of Boy Scouts and Scoutmaster D. D. Nagle, who were camping at the lake for a week. The ladies of the Lutheran church served a delicious supper, which was one of the big features of the afternoon and evening. A ball game between the Scouts and the Rotarians was won by the Scouts. Other games were indulged in, and it is needless to say that the members of the Rotary Club enjoyed the fun fully as much as did the younger lads. It was a most pleasant occasion for all, and will long be remembered by the Scouts.

### AIR MAIL LETTERS CAN BE SENT FROM PLYMOUTH.

Mail may be deposited at the Plymouth postoffice for delivery via the air mail service. The letters are sent from Plymouth to Cleveland on trains, and from there dispatched by airplane.

The rates are—8 cents an ounce to Colorado, Iowa, Nebraska, South Dakota, Wyoming (except Rawlins and Rock Springs); New York City and all eastern states; 16 cents an ounce to California, Montana, Nevada, Oregon, Utah, Rawlins and Rock Springs, Wyoming, and trans-Pacific foreign points. Mark letters to be delivered by air mail as "air mail."

A number of letters have been received here in Plymouth by the "air mail" route.

### PRIMARY SCHOOL TAX QUOTA SETS RECORD.

Apportionment of state taxes to primary schools will be \$14 per child, the highest in the history of the state, O. B. Fuller, auditor-general, announced recently.

Primary schools will receive a total of \$15,087,500 in taxes for the 1,076,250 school children in the state, Fuller said.

The fund for primary schools is raised by taxes on railroads, telephone and telegraph lines, sleeping car companies and similar levies.

The primary school apportionment for 1923 was \$11.50 per child. The highest ever recorded prior to the year was \$12 for each child in the state. There being 1002 children of school age in Plymouth, this school district will receive \$14,028 primary school money this year.

Mr. and Mrs. Fred Humm and children of Detroit, spent Tuesday evening with Mr. and Mrs. Walter Perkins.

### THE POTATO RIVAL

If there's a single soul in Plymouth or for many thousand miles around who doesn't like potatoes in some form or another, let him now speak or forever hold his peace. The fact that the potato has so many friends makes an item in a southern paper of interest, the item being to the effect that attempts are being made to introduce into this country an oriental vegetable known as the "dasheen," a rival of the Irish potato. The south has to import the bulk of its potatoes from the north, and since the "dasheen" is said to grow profusely in southern soil, there are many who will welcome its appearance, and who will find a place for it in their garden. It will also be favorably received by other sections, since people are always anxious to greet a new kind of food. But when it comes to replacing the potato in the heart of American citizens—there's nothing doing.

### HENS AND AIRPLANES

The town of Petaluma, California, has for years claimed to be the world's egg basket, but according to reports that honor is in danger. There has been a great falling off in the millions of eggs shipped from Petaluma, and all on account of the aviators who constantly fly their machines over the town and surrounding community. When bidy looks up, as she often does, and sees a giant bird chugging above her nest and making a horrible noise—she quits her nest. Her owner loses two cents every time she quits, and the eminence of her home town is threatened. Plymouth poultry owners will sympathize with Petaluma citizens, because they know the ways of a hen and know their fright at anything that reminds them of an enemy in the air. They will also join in hoping that as the airplane develops into a commercial proposition it will also lose its noise, or that nature quickly gets busy among our chickens and teaches them that the airplane is harmless and not intended to cut down egg production.

### ENJOYING OUR TROUBLES

Most human beings seem just naturally to enjoy misery. We don't refer to those who really have had luck, but to everybody in general, lucky or unlucky, rich or poor. Everywhere we see somebody in trouble—even if we look in the mirror. We envy our neighbors, and that distresses us. We may be foolish in our love affairs, and our hearts ache. We worry about debts, the state of our health, or our jobs, about clothes, bobbed hair, politics or religion. And nothing worries us more than to have some other-wise well-meaning Plymouth citizen stop us on the street and tell us that one reason he doesn't show his advancing age any more plainly is that he has always made it a rule not to worry. It is hard to keep from calling that kind of a man a liar, because we know too well that the people who never have a worry are so few they could hold a convention in a sugar barrel and still not crowd each other.

### METHODIST NOTES

**Why A Store Should Be Well Lighted**

All people are attracted by bright, skillfully arranged lights. It has been shown by actual experiment that from 30 per cent to 50 per cent more people stop to inspect the display in a thoroughly well-lighted show window than are halted by the half-lighted and discouraging appearance of many store windows.

Other tests have demonstrated that business increases fast after an indifferently lighted interior has given place to one in which modern illumination methods are used. Buyers almost invariably will choose a brightly lighted store in preference to one in which good lighting is neglected.

Competition in trade is best met by high grade lighting. Talk with us on this subject.

**NEWBURG**

An ideal day and evening was had for the supper given in the hall, last Friday evening, and at which there was a good attendance from Beech, Ferrisville and Plymouth. After partaking of the good things the L. A. S. had prepared, they wended their way to the new parsonage, where they were heartily welcomed by the host and hostess, assisted by district superintendent, Dr. and Mrs. Leeson, of Ann Arbor. All were most cordially invited to inspect the house from garret to basement and they were delighted with the arrangement and convenience of this up-to-date home. Newburg charge, consisting of Newburg, Perrinsville and Beech, can well be proud of this fine home for their minister. At eight o'clock, the people were called to order in the church by the pastor, who in a few well chosen words thanked the people for providing such a comfortable home for them and others who will follow them, saying that all would find a welcome and the latch-string out even on wash day. A short, well rendered program was given, consisting of instrumental and vocal solos and readings. Rev. Havens then introduced Dr. Leeson, who in his usual gracious manner, congratulated the people on acquiring such a fine addition to their church property. He spoke feelingly of the beautiful home life of Methodist ministers, advising the young ladies present to tie up to Methodist ministers. He also commended Charles Donald Ryder for the efficient manner in which he had collected funds for the parsonage, calling on him for a report, which was very satisfactory. They then closed by Dr. Leeson pronouncing the benediction. The L. A. S. wish to thank all who so kindly assisted especially the Plymouth Mail for advertising.

The fourth quarterly conference will be held Monday afternoon, July 28th, at Perrinsville church. Dr. Leeson will preside. All interested in the church are invited to attend. It is hoped a good delegation from Beech and Newburg will be present.

The Sunday-school picnic will be held at Belle Isle, a week from this Saturday, August 2nd. Particulars will be given in next week's Mail.

The L. A. S. will hold their regular meeting next Wednesday afternoon, July 30, at the Plymouth tourist camp. A picnic supper will be served. Everyone most cordially invited to attend.

Ben Rhead attended the funeral of his youngest brother, Robert, at Eaton Rapids, last Friday.

Dwight Wagner and lady friend of Pinckney, were callers at the Smith homestead, Sunday afternoon.

Mr. and Mrs. Donald Ryder, accompanied by Mr. and Mrs. C. E. Rydner, motored to South Lyon, Sunday afternoon, calling on Mrs. Reuben Barnes, who for a woman eighty-eight years of age, is remarkable, keeping house by herself and making her own garden of vegetables and flowers.

Charles Duryee, Jr., has been enjoying a week's outing at the home of his cousin at Sarnia, Ont.

Henry Grimm, Jr., with the help of Amiel Darden, has completed the plans for his new house on what was formerly known as Swartsburg Corners. The Queen Esther Circle met with Miss Mildred Bennett, Tuesday. They had the usual pleasant time that they have at these meetings.

Hats that were from \$6.00 to \$8.00 for \$2.98. Hats that were \$5.00 for \$1.98. And a few pretty trimmed hats at \$1.00. Mrs. C. Dickerson, 122 North Harvey street, Plymouth.

**JURORS AND WITNESSES KNOW OF LAW'S DELAY**

**BROWN, CANDIDATE FOR PROSECUTOR, WOULD SPEED WORK IN THAT OFFICE.**

"Men and women who sacrifice their time to serve as jurors and witnesses, have the right to expect the speedy handling of criminal cases by the prosecutor's office," says Frederick B. Brown, Republican candidate for prosecutor.

"With a staff of able trial lawyers as assistants, I would fight the needless adjournments of court cases," promises Mr. Brown. "The pay of jurors is small and the great majority who consent to serve as such are called upon to forsake their business to attend court. It is small wonder that they later criticize the manner in which cases 'drag.'"

"When witnesses are called to court they have the right to expect the case in which they are concerned be tried immediately. Their remuneration is even smaller than that of the juror, and when they are 'excused' to return another day, time after time, they not only lose financially but lose patience as well."

"Furthermore, every delay occasioned by adjournments is costly to the county, for the machinery of the courts and other attendant law-enforcing departments must still continue to function. With these delays follow the inevitable clogging up of the machinery of the law by other cases that must await their turn to be heard. I would feel it my duty to earnestly fight such needless and costly adjournments. Such a program could be carried out by the simple method of the prosecutor's office being familiar with the facts in the cases beforehand. The defense is always prepared. That is why so many criminals escape justice."—Advertisement.

**\$1 does two big things for you**

If you'll open a savings account with us during the next few days, you'll receive a double benefit.

We're making a special inducement for the sake of adding a hundred new depositors to our list this month.

First. It will put you in possession of a handsome savings bank, in either of the two designs illustrated below. One is a nickel plated box, which makes a good desk or mantel ornament. The other resembles a beautiful little leather-covered book, and is small enough to be carried in the vest pocket. Either one costs us nearly a dollar, but you have your choice without charge.

Second. It will start you with a savings book, with your one dollar recorded as the first deposit. This may be the beginning of your habit of saving; and if you keep it up you need never fear having to "go over the hill to the poorhouse."

Our supply of banks is limited, but we want you to have one. So come in soon and make the deposit that gives you the bank and starts you on the road to financial security.

**A LETTER FROM FRANCE**

Miss Katherine Schmid, for the past two years a teacher in Plymouth High school, has written to Plymouth friends the following interesting letter from Nancy, France. The letter is dated July 21st:

"We are really taking a few minutes to write some letters before going out to hear the organ in the cathedral. The bells are ringing a merry chorus even now."

"Yesterday we journeyed out to Domremy to visit the modest little house where Jeanne D'Arc was born and the little old church where she was baptised and used to pray. We had to walk from the station through two little villages before we reached Domremy—they were typical, too. All the cattle housed with the people, and narrow little streets running with water; the women washing fruit trees growing up the sides of the houses; men in wooden shoes. Then, far up a hill where Jeanne had the visions, a beautiful basilica is being built. You ring a bell and a priest comes to show you through. Never have I seen such a peaceful, beautiful valley and such picturesque hills in every direction."

"Tomorrow we go up to Strasbourg, and then to Berne and Lausanne in Switzerland. We keep moving every minute, so you can imagine how tired we are at night. We saw much of the ruins and battlefields when we stopped at Chateau Thierry and Belleau and Rheims and Verdun. It is most pitiful everywhere—they are still rebuilding."

"Paris was so interesting—we spent ten days when we had only planned on two or three, and we shall come back to it for at least two weeks more. There is so much to see—every spot seems steeped in history. We have much fun ordering food, and it is all very good. We love the little Patisseries, where we find such good little cakes. And we have even managed to have baths everywhere. If we were only traveling in one dress, it would be heavenly. Everywhere we see so many officers and soldiers, it makes one think that everything is not quite settled yet."

**KATHERINE SCHMID.**

**BAPTIST NOTES**

The Sunday-school is keeping up its numbers. Better than common for the summer months.

The annual Sunday-school picnic will be held next Saturday afternoon, at Phoenix park. Every member of the Sunday-school is expected to be there. Come to the church at 1:00 o'clock on Saturday, and autos will be provided for all. Bring your lunch basket, and have a good time.

The roses were in all their glory last Sunday, and made the church very attractive.

We were all very glad to see Miss Scott, the church clerk, back once more after her long absence on account of sickness. The church has missed her in church meetings and Sunday-school.

WHEN a lawyer's mind is wandering towards the cigar case, it's hard to keep it on his client's.

The suave, easy, self-possessed cross-examiner usually holds himself and witness in hand with a helpful little chew of BEECH-NUT—the favorite tobacco of thinker and worker.

Supreme Court justices, outdoor workers, expert craftsmen, athletes and business executives are never without it.

The biggest package of the best tobacco that ever flattered 10c.—a clean, pure chew for keen, sure brains.

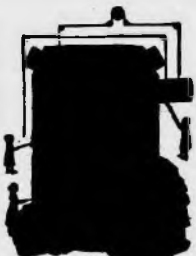

Not a stem or impurity in a million packages and over 250 million packages sold in a single year.

Increased overheads haven't raised the price or reduced the quality—Makes 10c. swell with pre-war pride.

### ANNUAL REPORT

#### SCHOOL DISTRICT NO. 1, FR. PLYMOUTH, MICH.

1923-1924

The annual meeting of the taxpayers of Plymouth School District, No. 1, Fractional, was held in the Kindergarten room of the school building on the evening of Monday, July 14th, 1924. The meeting was called to order by President J. W. Henderson. The minutes of the last annual meeting were read and approved.

At the request of President Henderson, the secretary read the financial report for the past school year. No corrections or changes being suggested, the report was declared approved. Regarding the budget for the coming school year, the secretary stated that the cash on hand and the estimated receipts from Primary and Smith-Hughes funds, also tuition, would amount to approximately \$24,126.97. The board estimates that in addition to this amount, it would be necessary to raise by taxation \$66,500, in order to meet all expenses for the coming year.

On motion of Mr. William Hoyt, seconded by Mr. Fred Schrader, these figures were approved. The terms of office of Mrs. Ada Murray and Mr. William Sutherland having expired, President Henderson called for nominations for a board member to succeed Mrs. Murray. Mr. L. E. Samsen and Mr. William Hoyt were named. Out of 44 votes cast Mrs. Murray received 44 and was declared elected to succeed herself. Mr. William Sutherland was nominated to succeed himself by Mr. Sidney Strong, and received a total of 41 out of 42 votes cast. He was declared elected.

Regarding the proposed expenditure of \$2,000, for the purchase of a plot of land adjoining the school property, and facing on Adams street, motion was made by Mr. Fred Schrader, seconded by Mr. William Hoyt that the same be purchased, and that we proceed to ballot on the matter. Motion carried, and of 44 votes cast 43 favored the purchase. Moved by Mrs. George Robinson, seconded by Mr. Fred Schrader, that the money required to purchase this land be included in the budget. Motion carried.

Following remarks by Superintendent George Smith, motion was made by Mr. E. H. Tighe, seconded by Mr. Walter Postiff, that the salary of Miss Anna Smith be increased from \$38.50 to \$50.00 per month. There being no further business the meeting adjourned.

E. V. JOLLIFFE, Secretary.

EVERED V. JOLLIFFE.

Subscribed and sworn to before me, a Notary Public in and for said county, this 19th day of July, 1924.

Notary Public, Wayne County, Mich. My commission expires Oct. 15, 1927.

### Made Quick Work of Transferring Live Rail

An unusual problem confronted an engineer for a northwestern railway system when he was required to move a large section of third or contact rail without interrupting traffic. The railway is a double-track line and the third rail for each track had not originally been laid between the tracks; but when some changes were made in the roadbed it became desirable to transfer about 2,000 feet of the contact rail across the track so that both sets of third rails would be side by side and between the tracks.

A gang of 17 men did the work. Each man was equipped with the ordinary large rubber gaskets used in dangerous electric work and wooden levers were employed for direct contact, a wooden tie nine feet in length being forced under the third rail every 15 feet. The men were placed at intervals of ten feet and with their combined strength thus concentrated on a given section gradually forced over the great length of metal. The rails were wired at the ends with flexible insulated cable, which maintained the circuit. The work of making the transfer took 30 minutes.

### How Metals Are Deposited

A person who was so fortunate as to find a complete mineral vein from which nothing had been cut off at the top by erosion, would discover mercury from top to bottom. The last metal he would strike would be tin, according to an arrangement of the primary downward changes in ore deposits reported to the American Association of Mining and Metallurgical Engineers by Dr. W. H. Emmons, head of the department of geology at the University of Minnesota.

Dr. Emmons bases his theory of the location of metals on their solubility in the hot water in which they originally gushed from the earth in solution, following faults in the rock to the surface. The least soluble metal, tin, would be deposited first and would be found at the bottom of the vein. Mercury, remaining longest in solution, would be found at the top.

### Boy Scouts Near 700,000

Latest registration figures of the Boy Scouts of America place the membership of the organization at 680,811. This figure comprises: 512,614 scouts (including 52,987 lone scouts), 18,108 scoutmasters, 18,007 assistant scoutmasters, 8,133 commissioners, 827 executives, 68,597 troop committees, 34,410 local councilmen, 345 range officers, 6,228 examining committee men and court of honor members, and 1,063 pioneer examiners.

### Awful

"I knowed already that things was going to h—l in a hand basket!" growled Gap Johnson of Rumpus Ridge. "But, at that, I had no idy they were as bad as they are." "Mercy sakes!" cried his wife. "What's happened?" "What's happened?" was fur on the Ridge, tuther day, fellers of unbroken virtue, as they say in stories, swore there wasn't but six dogs in this whole township."—Kansas City Star.

### PROBLEM PUT BEFORE BRITISH LEGAL MIND

#### Is Golf Club a Firearm, in the Law's Eyes?

British lawyers and law interpreters having decided that a cat traveling on a railway train in England is legally a dog, that a rabbit similarly journeying is also a dog and that a turkey en route on the cars is a snake, are now asked to exercise their intellects over the true definition of a golf ball, the New York Times states.

A breath-stopping, hair-raising question has arisen in the British courts: Is a golf club, legally speaking, a firearm, and is a golf ball a missile fired by that firearm?

The question has been referred to Mr. Wheatley, minister of health in the British Labor cabinet, some one having ascertained that in the mysterious processes of his majesty's government the task of pronouncing upon golf balls is the proper business of the health minister. Mr. Wheatley is probably the only person in London not fully appreciative of the humor of the situation.

It was this way: New golf links had been laid out in the parish of Cowley to meet the Oxford undergraduate demand for the game, for which there is no adequate provision in the university town. Those designing the course intended that players should drive from a certain green toward another green across a public footpath. At this point the parish of Cowley rose up in alarmed protest.

The proper authorities brought the matter to the attention of the ministry of health and remonstrated vigorously, pointing out the danger to public health of driving golf balls across a right of way. The ministry, to its relief, discovered that there existed no statute in the law books of England empowering a local authority to forbid the propulsion of golf balls across public paths, and so informed the embattled parish of Cowley.

But the parish of Cowley, not to be balked of justice in that lofty manner, undertook a little legal research of its own and learned that the firearms act made it unlawful for any person to "drive or propel any missile across a highway." And the Cowleyites accordingly invoked the firearms act in protection of their rights as Britons.

Nor were they satisfied with that onslaught on the new golf course. They went still further into the archives and dragged out from the dusty cobwebs an ancient ordinance, enacted about the time of Robin Hood, prohibiting Oxford undergraduates from "carrying bows and arrows."

Back to the minister of health the question comes again, and that much-bothered secretary must now decide whether or not a golf club is a weapon in the meaning of the firearms act, whether or not the sacred bow-and-arrow law will be violated by the Oxonian pill pounders and, incidentally, whether or not a footpath is a "highway."

And the Cowleyites say they don't care a copper ha-pence how uncomfortable these vexing problems make him.

### Arabs Like Horse Racing

Horse racing in Bagdad, which is organized by the British, is doing much to encourage horse breeding. Numbers of desert sheiks regularly race their horses in Bagdad and Basra. There is the keenest competition between British and Arab owners.

Over 1,000 Arab ponies have been exported by sea during the last year, says the New York World.

The desert motor service continues to run smoothly and the desert mail has almost superseded the air mail of the air force. Passages are booked months ahead. The number of private motor cars doing the journey is increasing. Officials and others returning to the continent for the hot weather are planning small convoys of private cars to run from Bagdad to Haifu, shipping the cars to Italy and continuing the journey across Europe.

### The Youthful Mind

Mrs. H. N. June, secretary of the Houston Art museum, who shepherds the school children through the exhibits, keeps a steadily growing collection of youthful comments.

All the children loved the Remingtons, lent from the Will Hogg collection. There was one bearing the name "The Punishment of the Transgressor," which depicted an Indian hanging head down over a cliff, suspended by a thong about his foot. He was a dark brown Indian, approximately the shade of certain folk from below the border that the boys were familiar with.

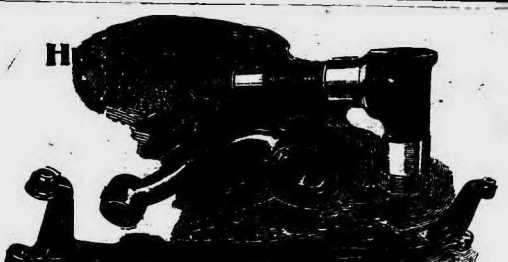

### Fish Eating Golf Greens

An unusual situation exists in Madison, according to George N. Mansfield, chief of the game warden service of the Indiana department of conservation, who recently received a letter from golf enthusiasts explaining their predicament and asking advice. The letter explained that the golf links of the Madison Country club lie along the Ohio river and the recent heavy rains have caused the river to rise and flood the links. Members of the club wish permission to seine on the greens, asserting that schools of buffalo fish are eating the grass and ruining certain parts of the course. Mansfield, of course, could not give them permission to seine, even under such unusual circumstances. —Indianapolis News.

### Cracked Cylinder

For the car owner who likes to do his own repair work here is an interesting way to repair a cracked cylinder: Drill a small hole at each end of the crack and tap it for a copper plug. Scrape the surfaces near the crack until the metal is bright. Cover the crack with soft copper filings and melt them in with a blow torch. Use a flux of rosin dissolved in alcohol.

### SOUTH SALEM

Mr. and Mrs. Floyd Rorabacher and son, Wayne, of Grand Rapids, are guests at Guy Rorabacher's. They motored through.

Mr. and Mrs. W. B. Rorabacher called on Mrs. Clifford McClumpha in Canton, Monday evening.

A good crowd attended the social at Theodore Sieloff's, given for St. John's Lutheran church, of Northfield, last Thursday evening. Over fifty dollars was taken in. Some of the guests driving from a distance included Mrs. Gottfried Bauer and son, George, and Mrs. Vivian Woodard of Plymouth; Mr. and Mrs. George Frye and daughter, Florence, of Ann Arbor; Helen and Louise Rorabacher, Ada Graves, Edith Gerwen and R. S. Townsend of Ypsilanti.

The aid society of Worden church meets Tuesday, July 29th, with Mrs. Frank Warren. Supper will be served.

Victor Sieloff was in Ypsilanti, Friday evening, and attended the concert at Recreation park.

A. C. Curtis of Ypsilanti, was an over night guest of his son, Leslie, Monday, and accompanied him to Detroit Tuesday morning.

Theodore Sieloff of Flint, was a week-end guest of his parents here.

Mr. and Mrs. John Boyer, Mr. and Mrs. Will Cole and daughters, Mr. and Mrs. James Lucas and Mr. and Mrs. T. Sieloff were among those at Whitmore Lake, Sunday. Mr. Lucas took a ride in the air plane.

Mrs. John Maegle and daughter, Eleanor, of Ypsilanti, were Sunday afternoon callers at the W. B. Rorabacher home.

Mr. and Mrs. Walter Gale and children, Leona, Laverne, Loretta, Edwin and Lawrence, of Superior, were Sunday afternoon callers at I. W. Hamilton's.

James Lucas is remodeling the barn on his place at Worden.

Mr. and Mrs. Richard Bilbie and sons, and Mr. and Mrs. F. D. Smith and daughter, Letha, were Sunday guests at Wm. Taylor's.

Mr. and Mrs. Carleton Lewis and children, and niece, Leona Lewis, went to Dearborn, Sunday. Leona remained, and her sister, Josephine, came home with Mr. and Mrs. Lewis.

Mabel Naylor of Whitmore Lake, is spending the week with her aunt, Mrs. Mabel Bilbie.

The Worden Sunday-school voted to purchase new singing books.

George Walker and daughter, Gertrude, were Sunday guests of Mr. and Mrs. Sam Dixon in Ypsilanti.

Mr. and Mrs. Arthur Milcer were in Ann Arbor last Wednesday evening, attending the wedding of Mr. Milcer's sister, Helen, to E. E. Kranick. Mr. Milcer acted as best man.

### New Hot Springs

The hot springs in Yellowstone park and in the Canadian National park at Banff are very well known. But at least three others have recently been found farther north, in a region that is usually associated with cold rather than hot things.

During the survey for a railway line through the Yellowstone pass a natural hot spring was discovered near Myette peak, and the railway people immediately included in their literature descriptions for the benefit of tourists. Still farther north, at Port Essington, are springs whose waters give good out-of-door bathing at 109 degrees. These have been reserved by the Canadian government. The third hot-water reservoir is almost on the edge of the Pacific ocean, on the west coast of Vancouver island, with immense quantities of coal, tar, gas and oil underground, some of which, in the Mackenzie river district, has been on fire for years at a time, one need not be surprised if the boreals of the north should be found to hold a reserve stock of hot water which lets off from numerous faucets throughout the country.

### Says Trees Have Souls

That trees have souls and that American trees embody spirits different from those inhabiting trees in any other part of the world, is the opinion of Sergei Kononkov, greatest of Russian wood carvers, who has arrived in New York from Russia, says a dispatch to the Cincinnati Enquirer.

Kononkov says he found in Central park, since his arrival, tree that was to him the soul of a candle such as burned in the homes of thousands of Russians all over the world until last midnight in celebration of Russian Easter week. He described it as a little tree, with its leafy crown faring in the perfumed air of spring as a lamp in the incense-laden atmosphere of a cathedral.

Kononkov cannot understand why American sculptors do not express the spirits of their trees in wood carvings.

### Admonition in Will

Charles H. Baker of Mohegan Lake, N. Y., wrote an admonition to his children in his will just filed. "It is my wish," he wrote, "that my children shall be strong and sturdy and courageous; that my boys shall strive for honor, fame and reasonable competency rather than for great fortunes; that they have reverence for women; that my daughters have the ambition to be happy, helpful, true and loving wives and to take for husbands men of character, thrift and industry rather than of fortune or titles." His estate is valued at more than \$100,000.

## TRAFFIC IS COUNTED AND WEIGHED

There is no delaying traffic with this device in order to keep track of the amount of traffic and its weight. This automatic traffic counter has been erected on the main highway between Washington and Baltimore by the University of Maryland and the United States bureau of public roads. This platform rests upon two concrete walls and under one edge is a hose of water. The hose connects with the recording apparatus. The weight of both front and rear axles is recorded.

## BASE BALL NEWS

The House of Correction defeated the fast Chrysler Motor Co. of Detroit, last Sunday, the score being 6 to 5. This is the first game the Chrysler Motor has lost this season. Dixon for Chrysler was pitched a consistent ball till the eighth when the Officers started a rally, and pushed four men over the plate. H. Crossman was on the mound for the Officers pitching good ball till the ninth, when Chrysler tried to start a rally, but was checked in time to save the game.

## Porch Screens, Combination Doors

Screens Stored, Repaired and Painted

We make, paint, repair and store house screens.

Our screens are made as follows: All frames are made of the best quality lumber put together with mortise and tenon joints and pinned. All frames are given one coat of primer before wire is applied and covered with a 16-mesh galvanized wire, making them mosquito and bug proof.

All frames are made 1 1/8 inch thick where building permits. We take the measurements so there will be no mistakes.

We install them if you so desire, so it will not be necessary to hire another man to finish the work. We furnish all hardware, either japanned or brass.

In other words we take care of all of your screen troubles, so if you have old frames to re-cover or paint or want new ones made, it will pay you to get in touch with us at once, for an estimate before you order elsewhere.

### ELECTION AND REGISTRATION NOTICES

According to the following resolutions passed by the Village Commission July 15, 1924:

"RESOLVED, by the Commission of the Village of Plymouth, State of Michigan, that

WHEREAS, this Commission has heretofore declared the construction of a sanitary sewer from the westerly village limits, and extending thence easterly along West Ann Arbor Street to Main Street, to be a public necessity, and a necessary public improvement; and

WHEREAS, this Commission has heretofore determined to pay, out of the funds of the Village, a certain portion or part of the cost of said sanitary sewer; and

WHEREAS, from estimates made, it has been determined that the cost of that portion of said improvement to be paid by the said Village of Plymouth at large, will be in the amount of Three Thousand, Five Hundred (\$3,500.00) Dollars; and

WHEREAS, it is necessary for the Village of Plymouth to borrow the said sum of Three Thousand, Five Hundred (\$3,500.00) Dollars for the purpose of paying its part of the expense of said public improvement, and to issue its bonds therefor;

NOW, THEREFORE, BE IT RESOLVED, that a special election of the qualified electors of the Village of Plymouth be, and the same is hereby called for Wednesday, the 6th day of August, 1924, for the purpose of submitting to said voters the proposition of borrowing the sum of Three Thousand, Five Hundred (\$3,500.00) Dollars, and issuing the bonds of said Village therefor, for the purpose of paying that part of the expense of the construction of said sanitary sewer to be paid by the Village at large.

BE IT FURTHER RESOLVED, that said election shall be held at the voting place in the said Village of Plymouth, to wit, at the Village Hall in said Village, on Wednesday, the 6th day of August, 1924, and that the polls of said election shall be open from seven o'clock in the forenoon until eight o'clock in the afternoon of said day.

BE IT FURTHER RESOLVED, that the form of ballot shall be as follows:

"Shall the Village of Plymouth borrow the sum of Three Thousand, Five Hundred (\$3,500.00) Dollars, and issue its bonds therefor, for the purpose of paying that part of the expense of a sanitary sewer along West Ann Arbor Street, from the westerly village limits to the intersection of West Ann Arbor Street with Main Street, to be paid by the Village at large?"

YES ( )

"Shall the Village of Plymouth borrow the sum of Three Thousand, Five Hundred (\$3,500.00) Dollars, and issue its bonds therefor, for the purpose of paying that part of the expense of a sanitary sewer along West Ann Arbor Street, from the westerly village limits to the intersection of West Ann Arbor Street with Main Street, to be paid by the Village at large?"

NO ( )

BE IT FURTHER RESOLVED, that any elector desiring to authorize the Commission to borrow said sum and issue said bonds therefor, shall place a cross (x) within the bracket following the word "Yes" on said ballot, and any elector desiring to vote against the borrowing of said sum and the issuing of said bonds therefor, shall place a cross (x) within the bracket following the word "No" on said ballot.

BE IT FURTHER RESOLVED, that the Clerk of the said Village of Plymouth be and he hereby is authorized and directed to give notice of such special election to the qualified electors of said Village of Plymouth, called for the 6th day of August, 1924, by causing copies of these resolutions to be posted at the polling place for said election and in ten other of the most public places in said Village, at least fifteen (15) full days before the day set for said election and by causing a copy of said notice to be published in the Plymouth Mail, a newspaper printed and published in the said Village of Plymouth, at least twice, the first publication to be at least fifteen (15) full days prior to the date of such election.

**Today's Reflections**

The world must be in pretty good shape. No European nation has tried to borrow money from us for over two weeks.

Home, according to the idea of some Plymouth men, is a place where they can go when they want to have a quarrel.

The Plymouth woman who gossips enjoys hearing herself talk, but gets a lot of thrill when she's only "listening in."

A West Virginia candidate filed as his total campaign expenses, "10 cents for a bag of peanuts." Must have been trying to get away the G. O. P. elephant.

Some Plymouth women's idea of necessity is most anything they can get at a cut price.

Even at that, a man would rather be kept awake by a crying baby than by a scolding wife.

The trouble with a great many men is they are like steel—all right until they lose their temper.

Our idea of a model husband is the Plymouth man who is as nice to his wife in private as he is in public.

The reason life is quiet and peaceful in rural sections is because country doctors don't tell all they know.

A man charged with having four wives is fighting in an Ohio Court. A man with four wives ought to be able to put up a pretty good fight.

One reason why we never believe the fisherman who tells us about the

big one that got away, is because he never gives us any of the little ones that didn't.

We met one Plymouth citizen yesterday, who says he only believes half he hears, and even at that generally hears the wrong half.

A man is usually considered ignorant because he doesn't happen to know the same things you happen to know.

When a Plymouth girl says she'd rather walk home from church with one boy than ride home in a fine auto with another—that's love.

What hope have we from a system in which Wall street gets our lambs and congress gets our goats?

The Democrats appear to have learned one thing at their convention, and that is that New York City is a poor place to hold one.

**EPISCOPAL NOTES**

Next Sunday will be the last Sunday before the rector goes on vacation for the month of August.

Rev. Copeland especially wishes that members will endeavor to be present next Sunday morning, and a welcome is extended to friends and visitors also. The service will be at ten o'clock as usual.

The church school picnic will take place next Tuesday at two o'clock in the tourist park. There will be games, sports and prizes, finishing with a supper in the park. Besides the children, all the parents and members are asked to join us on that day. Don't forget the day—Tuesday at two o'clock, Tourist Camp park.

We were pleased to welcome friends and visitors at our service, last Sunday morning, and although the morning was warm, there was a good congregation.

Everyone be present next Sunday.

**MARKET GARDENERS TO HAVE FIELD DAY**

MEETING CALLED AT M. A. C., AUGUST 20, TO INSPECT EXPERIMENTS AND DISCUSS VEGETABLE GROWERS' PROBLEMS

A market gardeners' field day, the first of its kind ever held in the state, has been called at the Michigan Agricultural College for August 20th.

Material of interest to all vegetable growers in the state is being planned for the day's program. A general afternoon meeting, inspection of extensive experimental plots in the gardens of the college horticultural department, a basket picnic lunch at noon, and other features are listed.

The experimental work to be studied will include tests on extra early varieties of tomatoes and on newer strains of extra early sweet corn. A number of plant breeding experiments, which have a direct bearing on the problems of the trucker, as well as tests on truck crop fertilization, will be shown. Plans for the "first annual" market gardeners' day are being made by Prof. George Starr of the M. A. C. horticultural staff, who is also one of the best known practical truck gardeners in the state.

**Helps Children Over Hot Weather**  
Summer complaint makes little headway with children whose careful mothers use Chamberlain's Colic and Diarrhoea Remedy for stomach and bowel complaint, severe and sudden intestinal cramps and weakening diarrhoea. It acts almost instantly, and given in a little sweetened water is easy to take. Good for grown persons, too.—Advertisement.

**VISITED POTATO FIELDS IN DETROIT AREA**

The growers of early potatoes in the Detroit Area had a chance to see what good northern grown seed and thorough spraying will do in the way of producing a crop of potatoes on the farm of James McKenney at Belleville, Thursday forenoon, and on the farms of L. Clemens and George Schmidt, near Plymouth, in the afternoon. Both men have planted good seed and both are using high pressure sprayers capable of producing 200 to 250 pounds pressure per square inch. Three nozzles are arranged to spray each row and 4 rows are sprayed at a time. Flea beetles are pretty scarce in these fields and the fields look good enough so you think you are in Northern Michigan, Maine or Minnesota. Old fashioned homemade Bordeaux with a proper amount of calcium arsenate is getting the results. The last two money growers probably won't get about gone and what potato bugs succeed in hatching are going to have a surprise waiting for them for calcium arsenate like arsenate of lead sticks to the vines when once applied.

There is no use talking early or mid-season potato production in Michigan unless you say good seed and proper spraying are the keys to success. On the farm of L. Clemens was found a good demonstration of what a good fertilizer will do and just how it makes the plants look. Most of our used lighter soils need potash and the evidence of its lack is right there.

The growers in Wayne County are awake to the fact that there is good money going out of the state for about 1,000 cars of potatoes that are received here at a time of year when Michigan growers can put that same 1,000 cars of potatoes on the market and put the money in their own pockets. New Jersey, Maryland and Virginia growers get good certified seed and spray just the best they can, and when Michigan growers are willing to do the same and find out just all about it, they can be quite successful mid-season potato growers, too.

The Irish Cobbler makes a good potato for any other season, too—the quality is fine and when properly grown and matured many people prefer them to any other potato. They are excellent keepers.

**AROUND ABOUT US**

Edsel Ford has purchased 640 1/2 acres of land in White Lake and Highland townships.

A. M. Bird of Milford, expects to harvest 10,000 quarts of currants from his patch this year.

The J. O. F. of Wayne will hold their annual homecoming celebration in that village on August 8 and 9.

Miss Florence V. Essery has been appointed Washenaw county school commissioner, to fill the vacancy caused by the death of her father, Evan Essery, who held the position for 17 years.

The city of Detroit has purchased 80 acres of land near Brighton, which includes the greater portion of the big Euler lake, for a recreation camp, where boys and girls can be given a few weeks outing during the summer months at a nominal expense.

Elizabeth, second daughter of Mr. and Mrs. C. I. Gittins, sustained a complete fracture of her right arm just above the elbow, while playing in the barn at the G. F. Hill farm. She had gone out to spend Thursday with the Tripp family, and the children were playing on the hay, when Elizabeth fell from the mow to the floor, with the above result.—Milford Times.

Stanbro & Smith of the Corner Hardware have all the reason in the world, at the present time, to call themselves the "champion nimrods" in this locality. While fishing at Sandy-bottom and Crooked lakes on July 13th, they landed a "catch" well worth while and consisted of—four grass pike weighing, respectively, 13 pounds, five pounds, four pounds, and 2 1/2 pounds and two bass weighing two and one-half pounds and two pounds apiece. The thirteen-pound pike measured 37 1/2 inches in length. It attracted much attention in the store window the first of the week, where it had been placed on display. We understand, T. L. Smith of the firm landed the prize fish at Crooked lake. "Thirteen" is apparently not an unlucky number for these anglers.—South Lyon Herald.

Brightmoor, one of the most rapidly growing communities in the state, is also rapidly assuming the appearance of a full-fledged municipality. Saturday night, the new municipal playground was opened with appropriate ceremonies. Sheriff George A. Walters, of Wayne county, and Judge Guy A. Miller, of the circuit court, were the speakers. During the last two years, 8,201 people have moved into Brightmoor, according to B. E. Taylor, developer of this Grand River avenue district enterprise. "Brightmoor's population today is more than 8,501 people," he declared Saturday. "Two years ago it was 300." Coincident with this population growth the number of local stores has increased from 5 to 125; the number of homes from 154, to 2,628.—Detroit Free Press.

**THE THEATRE**

**"THE MORAL SINNER"**

Side-stepping death by inches. That was Dorothy Dalton's thrilling experience during the filming of certain scenes for her new Paramount picture, "The Moral Sinner," which will be shown at the Pennington Allen theatre, Saturday, July 26th.

In a sequence of this production, a gripping crook drama, adapted from the stage success, "Leah Klechma," Miss Dalton, in the title role of a clever girl apache of the Paris underworld, makes a hair-raising escape from the police by fleeing with stolen jewels over the roofs of the city. This was some stunt for the popular star to perform, for said roofs are not all that they appear in the finished picture—they are but a maze of more or less rickety framework.

During production, Miss Dalton had scarcely scaled the roof of the second house when a loud crash reached her ears. She did not turn around but kept right on going. The roof in back had given away, but as the damaged part of the set was out of the camera's eye as it followed the star in her flight, the scene did not register on the film.

Needless to say, Miss Dalton called for an intermission until she had sufficiently recovered from her fright. A fall would have meant serious injury and perhaps death. So there is one near tragedy in "The Moral Sinner" that audiences will never even suspect.

James Rennie has the leading man's role in the picture, which was adapted to the screen by J. Clarkson Miller. Others in the supporting cast include Alphonz Ethier, Frederick Lewis, W. I. Percival, Paul McAllister and Florence Fair. Ralph Ince directed.

**"TIGER LOVE"**

Is it forbidden! This, according to Estelle Taylor is the national anthem of Spanish maidens. Miss Taylor arrived at this decision after much research to prepare herself for her role in George Melford's "Tiger Love," which she is featured with Antonio Moreno.

"From childhood," says the Paramount actress, "The Spanish girl is almost a nonentity in aristocratic homes. Buys come first. "She cannot enter into commercial work, and her love affairs are conducted by her parents. If a young man wishes to marry her he tells his parents, and they consult with the girl's father and mother. When both approve the match and a contract is signed, the engagement is announced. Then the girl can be visited by her sweetheart if properly chaperoned."

As Marcheta, daughter of an aristocratic family, Miss Taylor is seen in "Tiger Love" as a senorita who is abducted on her wedding day by the Wildcat, a notorious bandit. In his mountain stronghold he wins her love and just as they are to be married Spanish soldiers surround the Wildcat's cave. A hundred rifles are trained on his heart. How the Wildcat is extricated from his perilous plight and is reunited with his Spanish belle constitutes a charming romance, sharply punctuated with keen action.

Playing in support of the featured players in "Tiger Love," coming to the Pennington Allen theatre, Sunday, July 27th, are Manuel Camero, G. Raymond Nye, Edgar Norton, David Torrence, Snitz Edwards and Monti Collins. The picture is an adaptation by Howard Hawks of the opera, "The Wildcat," by Manuel Penella.

**"THE BREAKING POINT"**

"Gossip, universally condemned, is in reality the greatest police force in the world," says Herbert Brenon, Paramount producer.

"Many a criminal has been brought to justice through the power of gossip," says Mr. Brenon, whose latest production, "The Breaking Point," which comes to the Pennington Allen theatre on Wednesday, July 30th, contains a case illustrating his contention.

"Frequently we hear people inveighing against gossip but we seldom pause to realize that it does a great deal of good also. The fear of what people will say often prevents an offense against good manners and many crimes have been discovered through the persistent circulation of gossip."

In "The Breaking Point," which features Nita Naldi, Patsy Ruth Miller, Matt Moore and George Fawcett, interest in a ten year old crime is renewed and the criminal eventually brought to justice through the gossip of a neighbor who happens, in this case, to be Julia Faye. "The Breaking Point" was adapted to the screen by Julie Herne and Edith Bingham from Mary Roberts Rinehart's novel.

Cyril Ring, Theodor von Eltz, Charles A. Stevenson and many others just as prominent, appear in the strong supporting cast.

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the ten money winners in the Indianapolis race were Firestone shod. Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track, making many rounds at over 100 miles per hour. Never before were tires put to such gruelling service, when it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Attaching the unsound and uneconomic character of the British Rubber Restriction Act limiting the exportation of rubber from the Far East, Firestone was the one large tire manufacturer to take up the cause for the car owner. Soon after the agitation was started for America to produce rubber under its own control, the cost of crude rubber was reduced and tire prices brought back to normal.

## FARM DAY TO BE LADIES DAY TOO

EXPECT THE FAMILY TO COME ALONG WITH DAD FOR M. A. C. CONFERENCE, AUGUST 1.

In the expectation that "the family" will come along with Dad for the annual Farmers' Day at M. A. C. on August 1st, plans are being made to provide special headquarters and entertainment for women visitors. As a result, Farmers' Day will be Ladies' Day, too, at the college this year.

Making their headquarters in the new M. A. C. home economics building, the ladies will find much of interest in their own particular field, and in addition they will join the men in inspection trips over the college grounds in the morning. The big afternoon meeting under the campus trees is, of course, planned for all the Farm Day visitors.

The livestock parade or "style review," the band concert, the talks by national agricultural authorities, and the specially prepared exhibits are expected to be of as much interest to the women as to the men. During the afternoon, tea will be served in the parlors of the home economics building, the faculty of the college home economics department serving as hostesses for the social gathering.

### "ROME UNDER NERO"

The bloody reign of the last of the Caesars is to be shown in a wonderfully realistically thrilling manner and with historical accuracy at the Grotto Stadium in Detroit, Aug. 2nd to 17th, inclusive, under the auspices of the Shadokium Grotto, and produced in its entirety by the World Amusement Service Association.

One is transported back to the days of bloody tyrants and Roman orgies. It is the kind of a super-pyrotechnic dramatic spectacle that will still the artistic sneer at any kind of a production, and the undertaking is truly unbelievably astonishing in its massive expansiveness, and tells a story with a careful fidelity to historical accuracy that grips and holds.

There are moments of terrifying suspense, reminding of the days when Richard Mansfield gripped the imagination and sent the heart racing with fear.

The burning of Rome sweeps the emotions with the same fervor that Nero plucks his lyre during the holocaust. The flames are to be seen eating their way, and hundreds upon hundreds of terror-stricken Romans rush pell-mell to safety, while the wicked emperor may be seen upon Maecenas' tower on the Esquiline height, clad in the habit of the stage, gazing down upon the lurid inferno underneath, reveling at the sight of the beauty of the flames chanting in wild glee the song of Ilium's capture.

In the evening stood a mighty city in the morning it was gone. Then there is a storming of the tyrant's citadel by the angry populace. It is mob fury at its worst. Buildings are torn down, statues toppled over with havoc and destruction, the like of which has never been seen before.

A real Roman chariot race with twenty straining equine contenders, in a blood-quicken drive to a sensational finish for the soul of a christian girl, is skillfully worked up to a feverish climax.

In the arena one will also see the combating Roman gladiators and a true reproduction of the Roman circus echoing the spirit of a Roman holiday, all arranged for the amusement of the most wicked emperor since the time of Christ.

Try a liner in the Mail if you have anything to buy or sell. It costs but little.

## Casa Grande Ruins Are Centuries Old

The Casa Grande reservation, one of the twenty-nine national monuments established by Presidential proclamation, consists of 480 acres of land in south central Arizona at an altitude of 1,422 feet and is a typical spot of desert scenery, being level ground on the floor of the Gila valley, covered with a growth of mesquite, creosote and salt bush.

The Casa Grande, or "Great House," is a dismantled group of solid adobe walls of a building which was at one time four stories in height. The standing walls are six feet thick at their base. The first recorded European to visit this section was Father Eusebio Francisco Kino, builder of the Tumacacori mission, who passed here in 1694 and wrote a description of the ruins, which had been standing for more than two centuries. There are many ruins of other prehistoric dwellings.

The history of the rise and fall of the civilization which built and inhabited the Casa Grande is only conjectural. When these people came into the valley they undoubtedly were nomads, but the opportunities for a settled life devoted to agricultural pursuits must have appealed to them, as their first step was the construction of an irrigation system, the remains of which are still visible. Then came the problem of housing and finally the need of defensive construction for protection from enemies. The multi-story house, of which the Casa Grande is the highest development, was probably evolved as a defensive measure. As a watch tower it must have proved a good investment, for from its top a guard could cover the country for a radius of ten miles, which was a great advantage, for if the enemy could be sighted at this distance he, being on foot (the horse was not yet on the American continent at this time), would need nearly two hours to get to the village which gave time to get runners out into the fields and gather forces for the defense.

It is probable that raiding Apaches became too strong for the valley dwellers, and year after year they lost a larger percentage of their crops and a large number of warriors, until at last they decided to abandon the country. This began possibly 700 or 800 years ago.

## New Birds Discovered by Indiana Youngsters

New species of birds are being discovered almost every day in Indiana. If descriptions given by children at the public library are to be accepted, says the Indianapolis News.

On a bulletin board outside the children's room is a poster bearing the picture of a tree. There are 35 different birds on its branches, and beside it a list of names and dates. This was devised to interest the children in bird study.

Each child, seeing a new bird, identifies it in the books in the children's room, and has the honor of having the picture of his bird put on the tree and his name with it.

One little girl came in with the announcement that she had seen a beautiful gold and silver bird. She searched through the book and produced as its likeness a picture, below which was written: "The golden pheasant—native of China."

A boy reported that he had seen a mocking bird, because "my friend Andy was with me, and when I called to him the bird sat there and said, 'Andy, Andy, Andy,' after me."

### Foretelling Earthquakes

An eminent student of earth vibration claims to have perfected a most delicate apparatus, whereby earthquakes are announced at least 15 minutes before they occur. He also claims to be able with very slight possibility of error to locate beforehand the centers of telluric phenomena (that is—effects within the earth), their intensity and the situation of their most intense manifestation.

This scientist's telluric prophecies for last March, which were deposited with a notary some time in advance of the expected disturbances, were completely and accurately confirmed by subsequent events. He declares telluric phenomena in their electro-magnetic manifestations unmistakably influence before the seismic movement begins.

### Cedar From East Africa

East Africa has replaced the United States as a source of supply of cedar for the Nuremberg pencil industry.

This German industry, which centers here, has fully recovered from the after-effects of the war, and in trade circles it is reported the manufacturers have enough foreign orders on hand to keep the plants in full operation for many months.

Both the cedar and graphite for pencils are imported, the main graphite supply being found in Siberia. Previous to 1914, the cedar was imported principally from America and the West Indies, but the war upset the old channel of trade, and new fields in East Africa have been developed.

### Saved Her Donkey

The pet donkey of a woman of Stevenage, England, fell into a disused well, and its front legs caught over the edge. The owner saw the animal in its precarious position and went to its aid. She held the animal until she was exhausted and had to release her hold. The donkey then fell forty feet to the bottom of the well. For several hours the donkey was immersed except for the head, and when pulled out, was revived by whisky and oil.

Off for the Summer Vacation  
First in the summer vacation kit put a bottle of Chamberlain's Colic and Diarrhoea Remedy. Invaluable for sudden and severe pains in stomach and bowels, cramps, diarrhoea. A great emergency medicine. Costs but little, but when needed worth fifty times its cost for a single dose.

## BATHROOMS YIELD TWOFOLD BENEFITS

Two important advantages result when a modern bathroom is installed in a home.

First: The bathroom provides opportunity for the healthful practice of daily bathing. "A bath-a-day keeps you fit every way."

Second: A modern bathroom increases the property value, far more than the cost of having it installed. Houses that have modern bathrooms rent and sell for more.

A complete modern bathroom with its built-in or attached shower, medicine cabinet, bath stool and small fixtures (towel racks, tumbler holders), is a convenience worth many times its cost. In truth, it proves to be the room, of all, most comfortable.

Ask us to show you plans for complete modern bathing facilities in your home. Let the whole household enjoy the healthful practice of daily bathing. Modern fixtures—a complete bathroom—can be purchased for less than the cheapest automobile.

Write, phone or call for particulars.

### THE WATER SITUATION

With the dry weather of the past few days there has come a shortage in the village water supply. So serious was the situation Wednesday morning that it was deemed advisable by the village manager to send out men from house to house to notify the water users that they must desist from using water for sprinkling purposes until further notice. Late Tuesday evening, there was no water available through the water mains, neither was there any water in the big tank in the village or the reservoir at Waterford. Although the pumps at the well were working, there was so little water coming into the well that pumping was of little use, causing air pockets to form in the pipe line, and the pumps were shut down until morning, when they were started again, and with the accumulation of water in the well during the night, the water pressure steadily rose until at 11 o'clock it registered 28 pounds, or nearly normal. There is a probability that the prison farm at the sanatorium at Northville, getting their water supply from this locality may have decreased Plymouth's water supply to some extent.

Engineer Decker of Ann Arbor, was called over Wednesday morning, and together with Manager Strong went over the situation at the springs and well. There seems to be a shortage of water at various places throughout the state.

It would seem to us that the question of our water supply is one that demands the most careful consideration and immediate attention of our village authorities. If there is a shortage of water at the source of supply, it will be necessary to take some steps to overcome this deficiency, which means much to the future progress and safety of our village.

### BURIED ON HER FORTY-FIFTH WEDDING ANNIVERSARY.

Mary C. Criger passed away at her home, 509 South Alhambra street, Alhambra, California, July 1st, after a lingering illness. Mrs. Criger was born and reared near Detroit, Mich., and is survived by her husband, George E. Criger, and three sons, Frank L., of Detroit; George B., of Los Angeles, and Floyd of Alhambra, California; also her mother, Mrs. Harriet Green and seven grandchildren.

Funeral services were held Thursday, July 3rd, at one o'clock, at the John A. Hunt Funeral Home, the Rev. O. D. Wood officiating. The pallbearers were members of Alhambra lodge, No. 217, I. O. O. F. Burial took place at Grandview cemetery, and was on the forty-fifth anniversary of the deceased's marriage to Mr. Criger. Mrs. Criger was well known in Plymouth.

### LOCAL NEWS

Bert Giddings, real estate dealer, reports the sale of the Borch property on Adams street to N. W. Daggett, and nine acres of land owned by Frank Learned on Bradner road to John Hoebauch of Redford.

The auction sale of household goods, conducted by Harry C. Robinson, auctioneer, at the Penniman Allen auditorium, last Tuesday afternoon, was largely attended and a most successful sale. It was an ideal place for holding a sale of this kind, as there was ample opportunity for the display of the various articles for sale, of which there was an unusually large number.

The Dunn Steel Products Co., who recently purchased the building formerly occupied by the Millard Co., are now manufacturing clevis pins for automobiles. They have made some changes in the interior of the building to meet the requirements of their work. More machinery will soon be installed, which will give them greater production capacity. A number of men are now given employment, and as the business gets under way more men will be added to the pay roll. This factory is a most welcome addition to Plymouth's industrial enterprises.

### GRANGE NOTES

The Lily Club meeting at J. F. Root's, Tuesday evening, July 15th, had a very small attendance, due mainly to the busy season. The president, vice-president and secretary being absent, the business meeting was necessarily dispensed with. The consensus of opinion was to take their lunch for a basket picnic dinner, and spend the day at the lake, the second Sunday in August, which will be the 10th, in place of the regular monthly meeting. The prizes were awarded Mrs. J. C. Root and Albert Powell as firsts, and Mrs. Thomas Gardner and Walter Smith, seconds.

Bear in mind the next Grange meeting occurs Friday evening, August 8th.

It gives us much concern to learn that Ammon Brown fell from a cherry tree last week, fracturing a shoulder. He is bearing up bravely, and getting along as well as could be expected.

### CHERRY HILL

L. C. Kelly made a business trip to Canada, Saturday.

Mr. and Mrs. Charles Stevens entertained company from Pontiac, over the week-end.

Mr. and Mrs. Lloyd Bordine spent Monday in Detroit.

Mr. and Mrs. Ray Galloway attended a wedding in Northville, Saturday evening.

Mr. and Mrs. Albert Steinman and family of Toledo, Ohio, and Mr. and Mrs. Elmer Sears of Milan, spent Sunday with Miss Hattie Cerwin.

Douglas Burrell entertained a cousin from Lansing, last week.

Mr. and Mrs. Guy Pierce and family of Ferndale, spent the week-end with Mr. and Mrs. L. C. Kelly.

Mrs. Allen Bordine of Detroit, spent the forepart of the week with Mr. and Mrs. Lloyd Bordine.

Miss Deborah Wharton is spending the week in Detroit.

The Poultry Club met with Miss Alice Burrell Monday evening.

The Canton Community Club will meet at West's hall, next Wednesday evening, July 30th.
