UNHAPPY MARRIAGES

QUESTION—When one has made an unhappy marriage and finds after long years, that there is no hope of peace or happiness for either party to the contract, should they live separately or continue in their unhappy union?

The pastor will answer this question in his sermon next Sunday evening. If you are interested in the practical problems of Christian experience, you are invited to consider his answer to the above question.

A MODERN DAIRY PLANT

DETROIT HOUSE OF CORRECTION FARM WILL OPEN THEIR NEW DAIRY PLANT FOR THE INSPECTION OF THE PUBLIC. WEDNESDAY, OCTOBER 1ST.

There has just been completed at the Detroit House of Correction Farm, one of the most complete and up-to-date dairy plants to be found anywhere in the country. Superintendent Edward Denniston, under whose supervision the new dairy barns and milk house have been erected and equipped, has an announcement elsewhere in this paper, extending a most cordial invitation to the public to inspect this model plant, at an opening to be held on Wednesday, October 1st, all day. Uniformed officers will be in attendance to show visitors around, and explain the operations of the various machines, which have been installed. One of the features of the opening will be the exhibition of 97 head of thoroughbred registered Holstein cattle, of which Capt. Denniston is justly proud.

The dairy barns are located a short distance east of the prison buildings, the several units being conveniently arranged and connected, so that the work can be carried on to the best possible advantage.

The main building is 280 feet long and 36 feet wide. Two long rows of stanchions extend the full length of this well lighted and ventilated building. The 108 stanchions are equipped with West Bend Equipment Co.'s modern stanchion equipment, with individual drinking bowls, which operate automatically. The animals stand on cork floors. Over each stanchion is a neatly painted sign, which gives the cow's register number, ear number and name. Provision has been made for the weighing daily of each cow's milk, and a complete record kept of the same. Rubber-tired trucks are used as litter carriers, and these are wheeled in the rear of the barn, where an overhead litter carrier conveys the contents a short distance to the concrete manure pits.

The east wing of the building contains the maternity pens, twelve in number, and each pen 12x14 feet in size. Modern equipment is used here, with individual drinking bowls, etc. Cork floors are used in the pens.

The west wing of the building contains the calf pens, ten in number, and two large bull pens. This building has all modern equipment.

Four silos are on the south side of the main barn, each one 16x40 feet in size. Ample space is provided between the four silos for removing the silage all under cover. A concrete walk connects the silos with the hay barn, which is 36x100 feet in size, and has a capacity for 500 tons of hay.

The dairy plant is in a separate building at the front of the dairy barn. This building will house the refrigerating plant and the ice making equipment. Here is installed the milk cooling system and the very latest machinery for pasteurizing, bottling, washing of bottles, sterilizing tanks and butter working machinery. Everything will be as sanitary and clean as it is possible to make it. This building also contains the boiler room, and a wash room provided with shower baths and steel lockers for the men who will be employed here.

Between the milk house and connecting with the main barn is a building which contains the various kinds of feeds. Here large bins, with copper bottoms and lined with steel, have a capacity of three carloads of feed. Room is also provided for an electrically operated feed grinder. A lavatory has also been provided for this building. All of the buildings are electrically lighted.

The whole plant will cost in the neighborhood of \$70,000, and it is a credit to the city of Detroit, the board of trustees of the Detroit House of Correction and to Supt. Denniston, who has taken an active interest and gave careful supervision in its construction.

The E. B. Arms Construction Co. of South Lyon, had the contract for the buildings.

PLYMOUTH GETS BIG CONVENTION

F. D. Schrader of this village, president of the Michigan State Funeral Directors and Embalmers Association attended a meeting of the executive board and manufacturers sales committee held at Lansing, last week Thursday.

One of the objects of the meeting was to decide upon the place for the holding of the 1925 convention of the association. Mr. Schrader backed by the village commission, school board and Plymouth Chamber of Commerce, extended an invitation to the association to hold the big convention in Plymouth. Other places, among them Lansing and Grand Rapids, wanted it, but Mr. Schrader convinced the meeting that the convention should be held in Plymouth, and as Fred generally gets what he goes after, he landed the plum for Plymouth.

The convention takes place June 23, 24 and 25, and it will bring about 1,000 people here from all parts of the state. It will do much to advertise Plymouth, as the biggest little town in the world. Of course, we haven't hotel facilities to care for that many visitors, as to sleeping facilities, but it is expected that the good people of Plymouth will open their homes and provide a room for one or more of the visitors.

Mr. Schrader is to be congratulated in his efforts in getting this convention for Plymouth, because it is the first time it has ever been held outside of the larger places of the state.

REV. NAGLE RETURNS TO LOCAL CHURCH

Rev. D. D. Nagle, who has been pastor of the Methodist Episcopal church of this village for the past three years, was again appointed to this charge by the Methodist conference, which has been in session at Saginaw, the past week. It was the wish of the Plymouth church that Rev. Nagle be returned here for another year, where his work has been highly satisfactory. During Mr. Nagle's pastorate here, the church membership has grown steadily, and every part of the church work is in a flourishing condition. It is largely through his efforts that the splendid community building now in course of construction has been made possible. As an appreciation of Rev. Nagle's work, the official board of the church voted before his going to conference, to increase his salary \$300 for the coming year.

Not only are the people of the church pleased with the return of Rev. Nagle and his estimable wife to Plymouth, but the people of Plymouth, outside of his own church, are also pleased to have them as residents of our village for another year, at least.

SERIOUS AUTO ACCIDENT

A most distressing accident occurred, last Monday noon, while little Ruth Hadley, nine-year-old daughter of Mr. and Mrs. Charles Hadley, was crossing Main street at the intersection of Dodge street, when she was accidentally hit by a passing automobile. The driver stopped his car and took the little girl to Dr. A. E. Patterson's office, where she received surgical attention, and it was found that her right leg was broken above the knee, and her head considerably bruised. She was later removed to Harper hospital, where she is getting along nicely. Although the driver of the car rendered every possible assistance, and went to Mr. Hadley's home, where the child was taken before her removal to the hospital, Mr. Hadley failed to get his name, and at the time of our going to press he had not yet learned his identity.

Mrs. Lloyd Fralic and son of Bay City, have been spending the past week with Mrs. Fralic's sister, Mrs. C. H. Buzzard of Adams street.

Mrs. F. C. Hough underwent a serious operation at St. Joseph's Mercy hospital at Ann Arbor, last Saturday. At the present writing, she is recovering nicely. Mrs. Carman Warner of Holbrook avenue, who suffered a broken arm in an auto accident at Lapeer several weeks ago, is in a hospital at Saginaw, receiving treatment.

SALVATION ARMY BAND HERE

One of the largest Saturday night crowds of the past summer was in town, last Saturday evening, to hear the Salvation Army band of Detroit, render one of its splendid concerts in Kellogg Park. The band is one of the best musical organizations in the state, and every number on their program was given a hearty encore by the big crowd present. The band does not make any charge for its services, but a free will collection was taken, which amounted to a goodly sum.

The Mail is in receipt of a letter from Sergeant William Knight, in which he thanks the people of Plymouth for their liberal contribution, and also to Blunk Bros. for their kindness in providing chairs, etc.

OLDENBURG-WOLFE

A pretty home wedding took place at the home of Mr. and Mrs. Frank Oldenburg on Blunk avenue, last Saturday evening, September 20th, when their son, John M. Oldenburg, and Miss Ida H. Wolfe, daughter of Mr. and Mrs. A. L. Wolfe of this place, were united in marriage by Rev. S. Conger Hathaway of the First Presbyterian church of Plymouth. The young couple were attended by Dr. and Mrs. Walter Squires of the bride. The house decorations were very pretty, blue and white being the color scheme used. A bountiful wedding supper followed the ceremony, of which twenty-five relatives and friends partook. The happy young couple were the recipients of many useful and pretty gifts. The bride and groom left Sunday for a wedding trip to Atlanta, Illinois, and on their return will make their home with the groom's parents for the coming winter. They have the best wishes of their many friends for a happy and prosperous wedded life.

MANY NEW SUBSCRIBERS BEING ADDED TO OUR LIST.

The subscription campaign being carried on by the Mail, with J. R. Potts as solicitor, is progressing beyond our expectations. Many new names are being placed upon our subscription list every day. We are glad to welcome these new subscribers to our already large and growing family of readers. When the campaign ends there are not going to be many homes in Plymouth and the surrounding country for a radius of six or seven miles, that do not get a copy of the Mail every week. This will mean much to our advertising patrons, who depend upon the Mail to carry their advertising messages into the homes of this community.

AROUND THE WORLD

Citizens of Plymouth will have to search around now for a new topic of conversation and something to furnish them a basis for argument, for our world-flyers are back home—American airmen have circled the globe.

Even though we may quickly lose sight of it, with other wonders springing up to occupy our attention, it's worth sitting down and studying over for a few moments. It's worth reflecting upon how fast this old world is running now, as compared with the days of our forefathers. For instance, there was not one inch of progress made in transportation from the time of Christ to the days of George Washington. In Christ's day they used beasts of burden to draw their loads—they had no dream of a railroad train or a steamboat. In Washington's day, but a little more than 100 years ago, they also used beasts of burden, and the steamboat and railroad train were unknown. In less than 100 years we have come into possession of the two, and in less than 50 years we have added to it both the automobile and the airplane. Today men can fly entirely around the world, cross every ocean and the highest mountains, and braving regions seldom before explored.

Think that over a moment, and then ask yourself this question: "If the human race has progressed that fast in less than 100 years, what will they do in 100 years from now?" We won't be here, of course, to see it, but it certainly staggers our imagination to try to picture what the boys and girls of our community are going to witness by the time they have added fifty years to their age. There is just one conclusion to arrive at, and that is that old Solomon was just about right when he said that there is nothing new under the sun.

THE BEST EVIDENCE

We recently had a letter from a gentleman in a distant part of the effect that he has relatives in this county who are urging him to dispose of his holdings where he is, and move to this neighborhood. "Send me a copy of the paper printed in your town," he writes, "for it will give me a good idea of what the place is like." And we wondered then if our citizens realize that nothing reflects upon the town, so far as the stranger is concerned, like the paper printed in that town. If it is a good paper, with lots of local news and merchants are liberally represented in its advertising columns, the stranger is quick to decide that it is a good, live, progressive town. We call your attention to this because you can help make the paper the mirror in which strangers see the town. Send in or have us every little item you think might interest someone in the neighborhood. Tell your merchant that you read your home town paper every week, and that you depend a good deal upon advertising as your guide in buying. That is the way you can help in giving the outside world evidence of the kind of town we live in.

NOISY MOTORISTS

Campaigns are under way in a number of sections of the country to reduce the noise accompanying auto driving, and really believe it would be a good idea to start one here for the benefit of a few of our Plymouth drivers who haven't yet learned that other people possess nerves. Horns are supposed to be for warning purposes only, and not to play with. It is the same with the cut-out. The average motorist, who drives carefully and sanely, can get along altogether without the horn or cut-out, though of course they should be on the car for emergencies. He drives with his car under control, and is ready to stop without a wild screeching of the horn, grinding of the brakes and sliding of the wheels. He warns decently and courteously when it is necessary to warn, and he knows exactly what the horn and the cut-out are for. But there are a few hundred thousand motorists in the country who seemingly do not know—and that is why it now seems necessary for many sections to voice their protest in the shape of a noise-eliminating campaign.

FUNERAL SERVICES FOR REV. CARL STRASEN

The remains of Rev. Carl Strasen, whose death was mentioned in last week's paper, arrived here from McIntosh, South Dakota, last Saturday evening, and were taken to the home of his parents, Rev. and Mrs. Charles Strasen. Sunday afternoon a short service was conducted at the home for the family by Rev. Carl Eisfeldt of Northville, and at two o'clock the remains were conveyed to the Lutheran church, where they lay in state until the funeral hour at three o'clock. The German services were conducted by Rev. F. M. Kraus of Lansing, president of the Synod, while the English services were in charge of Rev. H. Haven of Detroit. Prof. R. Heldt of Detroit, sang two beautiful solos, and presided at the organ. The services at the grave were conducted by Rev. H. Richter of Detroit. The pallbearers were five class members of the deceased and O. J. Hoenecke, director of the Michigan Lutheran Seminary at Saginaw. The floral offerings were many and beautiful. Ten ministers were present at the services. The interment was made in Riverside.

Rev. Carl Strasen, son of Charles and Christine Strasen, was born April 13, 1897, at Wine Hill, Illinois, and there was received into the fold of Christ through holy baptism. He received his first education in the parochial schools at Chester and St. Peter, Illinois. After his confirmation at St. Peter, Illinois, he studied at Concordia, Missouri, one year; Saginaw, Michigan, three years; Watertown, Wisconsin, one year. His theological education he received at Springfield, Illinois, where he studied at Concordia Seminary, three years. He was vicar at Brunsville, Iowa, one year, and was ordained for the ministry here in Plymouth in St. Peter's Lutheran church by his father, August 21, 1921.

The 29th of August, 1921, he was united with Miss Margaret Hill of Virginia, Illinois, in holy matrimony here in Plymouth, and in September, 1921, they moved to Streeter, North Dakota, where both endured great trials and tribulations.

The deceased loved to do mission work, and was greatly gifted for such with his very kind and pleasant disposition. Being strong and healthy, he was over ambitious. About a year ago when he received a new charge at McIntosh, South Dakota, he suddenly became very ill and was taken to a hospital, where an operation for appendicitis was performed. From that time on his health was broken and he remained very nervous. Even a two months' visit here and in Virginia, Illinois, this summer, brought him very little relief. But he went back to build a mission chapel in McIntosh and even performed hard manual labor. Three years before the dedication of the chapel, he collapsed and had to be taken to a hospital, where he received treatment. His condition was such a one that the mission board gave him six months leave of absence to come to Plymouth to rest and regain his health. But the Lord had decreed differently. After he was home from the hospital four days, he suffered a relapse and sank quickly. Acute pleurisy set in and the heart became so weak that no stimulant would take effect, and he died at midnight, September 14th.

He attained the age of 27 years, 5 months and 1 day, and leaves his deeply wounded widow, two little girls, one of whom was born the day before the father died; his parents, two sisters, four brothers, and one brother-in-law, as also relatives from his wife's side and many other distant relatives and friends.

FORMER PLYMOUTH PASTOR GETS ADVANCEMENT.

The many Plymouth friends of the Rev. Frank M. Field, former pastor of the local Methodist church, will be pleased to learn that he has been appointed by the Detroit Annual Conference to be pastor of the Oak Park M. E. church at Flint. Rev. Field has been pastor at the Martha Holmes Memorial church at Detroit for the past several years, where he has been very successful.

Rev. Field organized the Oak Park church in 1909, and served as its pastor until 1913. Rev. Field saw the membership grow from nothing to 330 when he left. Now he goes back to this church by the unanimous invitation of its membership, which now numbers 1046, and the largest Sunday-school in the city of Flint.

Rev. Field's appointment to this church is a splendid advancement, and his many friends here rejoice with him in the honor thus conferred upon him.

THE THEATRE

"BREAD"

An unusual scene of great dramatic power is developed early in the course of action of "Bread," the Metro-Goldwyn picture which comes to the Penniman Allen theatre, Saturday, October 4th. This scene involves a woman's discovery of the theft of the household money by her husband, and the historic difficulties of this striking situation are met with an astonishing ease and power by Mae Busch in the role of the outraged wife.

Jeannette is forced to give up her position by the ill-founded jealousy of employer's wife. This catastrophe leads her to marry a spendthrift salesman by the name of Martin Devlin, and the marriage turns out badly. It is at this point that the discovery of the theft occurs. Jeannette leaves him and goes back into the business of earning her bread.

How she becomes an important member of the firm, how she is finally reunited with her regenerated husband—these incidents form the remaining substance of a matchless film.

Victor Schertzinger, who directed the photoplay, has enhanced every possible screen value of the widely discussed Charles D. Norris novel of the same name.

"MONSIEUR BEAUCHAIRE"

If the word "super-production" had not been so sadly abused and misused, we would be sorely tempted to apply it to Rudolph Valentino's latest Paramount picture, "Monsieur Beaucaire," which is due next Sunday, Monday and Tuesday, September 28, 29 and 30, at the Penniman Allen theatre. For if ever a picture deserved superlatives, it surely is this screen play, which Forrest Halsey adapted from Booth Tarkington's gloriously human story, and which reaches the silver sheet via the directorial guidance of Sidney Olcott.

And there isn't a man or woman, who will fail to sympathize and thrill with the merry, dashing Duke de Chartres with all his amours and all his fights! Verily, it is a role that only Valentino can play to perfection!

As for the supporting cast, it may well be set up as a standard of excellence, including as it does, Bebe Daniels, Lois Wilson, Doris Kenyon, Lowell Sherman, Ian Maclaren, John Davidson, Paulette Duval and many, many others famous on stage and screen.

Film fans, you who rave about the great pictures you have seen, see "Monsieur Beaucaire," and you will have something to brag about!

"THE SIDE SHOW OF LIFE"

Film fans will be more than interested in the announcement that the Herbert Brenon Paramount production of "The Side Show of Life" is coming to the Penniman Allen theatre, Wednesday and Thursday, October 1 and 2.

The picture is an adaptation of William J. Locke's justly famous novel, "The Mountebank," and Ernest Torrence, featured with Anna Q. Nilsson in the production, has the principal role.

Having a reputation for truth, we cannot truthfully say that when William J. Locke wrote his famous novel, "The Mountebank," from which the screen play was adapted, he had Torrence in mind for the title role, but it's dollars to doughnuts that he could not have written a part more suited to Torrence's talent and temperament if he had!

The story of the clown who joins the army as a private during the war, rises to the rank of brigadier-general, and finds himself at demobilization in love with a titled English woman, but after all, just a clown—can you just picture Torrence in such a role? Every bit of the comedy and pathos that has made so many thousands of people laugh and cry over the book has been put on the screen with all the mastery of Herbert Brenon. Better see this one!

M. A. C. OPENS FOR SIXTY-SEVENTH YEAR

INCREASED ENROLLMENT, NEW BUILDINGS AND NEW PRESIDENT FEATURE REGISTRATION AT STATE COLLEGE.

The Michigan Agricultural College opened its doors to the young men and women of the state on Wednesday, Sept. 24, for the 67th consecutive year since the college's founding in 1857.

Early enrollment which indicated one of the largest freshmen classes, as well as total attendance, in the history of the college featured the registration on Monday and Tuesday. Agriculture, Engineering and Home Economics continued to prove the most popular courses for entering students, although the new Liberal Arts and Applied Science divisions drew many registrations.

Dr. Kenyon L. Butterfield, newly installed M. A. C. president, welcomed the student body of its arrival, addressing a convocation in the gymnasium, Wednesday morning.

Rapid progress on the college's big building program proved the outstanding feature for the returning students. The new library has been finished during the summer and is ready for use by the student body; the college Union Building is rapidly nearing completion; work is under way on the new horticultural greenhouses and building, while a revised landscape plan is being worked out on the campus.

Today's Reflections

We would like to live long enough to see a so-called people's friend who isn't after a political office.

Say what you will, but the backbone of this country is made up of men who eat with their coats off, except when there's company.

We suppose the people of Kalamazoo, Mich., think Kashimoto, Japan, is an awfully funny name for a town.

Some Plymouth parents never know where their children are at night, and others just think they do.

There are said to be twenty-four political parties in Germany now. Over here we have but two—the ins and the outs.

One thing that a young married man should remember is that his wife's mother could also make good pies.

When the average Plymouth man was little he cried for the moon, but since he has grown up it's the earth that he wants.

A farmer gets up at 4:00 a. m., and hurries through his work so he'll have time at 9:00 p. m. to sit down and read an article on how he could make more money if he farmed in a different way.

The congressmen who have said that they could not live on their present salaries are not the ones who are running for re-election.

A Kansas farmer wants an aviator arrested for flying over his farm. Next thing they'll be having them pinched for spitting on the sidewalk.

One thing that is holding the country back is the fact that a single blackhead on the nose worries a woman more than a table full of dirty dishes.

It may not make any difference, but for our part we can't say much for the Plymouth girl who powders her nose, paints her cheeks and then lets her neck go dirty.

Solomon was a mighty wise man. He managed to become the richest man on earth without congress investigating him.

What did George Washington know about temptation anyway? Nobody every asked him how many miles he got out of a gallon of gasoline.

Our idea of a real church member is the Plymouth citizen who drops at least one-tenth of his gasoline bill in the plate each Sunday.

DEMONSTRATION OF FIRE ENGINE A SUCCESS

Last Saturday afternoon, through the courtesy of the American-La-France Fire Engine Company of Elmira, New York, Plymouth had an opportunity to see what a real fire engine could do with Plymouth water. The machine was a type 75, 750 gallon per minute pump, equipped with a 40-gallon chemical tank, and hose for the regular amount of 2 1/2-inch fire hose. The engine, which drives both the pump and the automatic, was a six-cylinder, 105 horsepower, slow speed motor with 5 1/4-inch bore and 6-inch stroke.

Tests were made at three places on Main street near Penniman avenue, on Penniman avenue at Auburn avenue, and at Liberty street and Starkweather avenue. First, the hose streams showed the ordinary Plymouth pressure from the hydrants alone, and then when the pump was started, the greater force, range and volume of the hose streams was shown with varying pressures at the pump. The pumper was also taken to the headrace of the Ford (Wilcox) plant, and there demonstrated what it could do when drafting water.

In general, as to the results of the tests when pumping from our water mains, it may be said that they were rather astonishing to those not used to the work of these machines, and very satisfactory. The water pressure at the hydrant, when the pump was not running, varied from 18 to 25 pounds per square inch, and that at the nozzles varied from less than 10 to 18 pounds per square inch. With single lines of hose supplied from the pump, the pump pressure was adjusted to a range of from 90 to 240 pounds per square inch with a corresponding nozzle pressure of from 70 to 185 pounds per square inch. The volume of water from a single hydrant stream was not much over 100 gallons per minute, and from a single pump stream varied from 250 to 550 gallons per minute. The water pressure on the gage at the Village hall showed a pressure of 33 pounds per square inch during the time of the test, with a maximum drop of 6 pounds per square inch while the pumper was in operation. The pressure immediately rose to normal after each run, showing that the water in the main was not being exhausted.

At the Ford plant, where, through the courtesy of the superintendent, the headrace was available to draw from, 700 gallons per minute were forced through two lines joined into a single nozzle 1 1/2 inches in diameter. The pump pressure was 120 pounds, and the pressure at the nozzle, 70 pounds.

Through three lines with 1-inch nozzles, 830 gallons per minute were pumped, the pump and nozzle pressures being 110 pounds and 98 pounds. Altogether, the tests were very satisfactory in showing that a pumper of this nature could be used under local conditions with complete success. During the tests the booster pumps were not run, neither was water drawn from the steel tank used.

The demonstration given by the fire engine here last Saturday leaves no room for doubt but what it will do the work that it is intended to do, and there is no question but what it is just the kind of an outfit that Plymouth needs and needs badly. The fire is heartily in favor of the immediate purchase of one of these trucks, and we are of the opinion that there are hundreds of citizens in Plymouth who feel the same way about it. One good sized fire would pay for such a machine.

Plymouth has reached the point where we need more efficient fire-fighting equipment, and the sooner we get it the better. We do not favor the sale of the present fire truck, as we believe that it is only going to be a question of a short time when we are going to need another truck, and this would answer the purpose for a while at least. We believe the commission should give this matter their earliest consideration.

Utterly Worn Out

Many a woman is always tired, nervous, and completely fagged out; for no other reason than because her home lacks modern plumbing.

Modern plumbing in laundry, kitchen and bathroom, saves much time and labor. The white, shining surface of modern fixtures needs only a damp cloth rubbed over it, to keep it perfectly clean and inviting. Laundry tubs make wash-day "smile" day instead of "drudgery" day, as it is when old-fashioned methods are in use.

Any home can have modern plumbing. A five-foot square space is all that's needed for a complete bathroom. Come to our store, write or phone, and we will gladly show you how economically you can have modern plumbing in your home. It represents a paying investment in health and comfort.

PERRINSVILLE

Everyone is glad to welcome Rev. and Mrs. Havens back to this church. Sunday-school at 1:30; church services at 2:30. Everybody welcome. Grandma Decker has moved from this place to two and one-half miles north of Beech.

Theodore Cousins of this place, and Ella Erwin of Canada, were quietly married at Newburg, last Wednesday night, by Rev. Havens. This was the first wedding in the new parsonage. All join in wishing them a long and happy married life.
Mr. and Mrs. John Kubik called on Grandma Decker at Beech, Monday evening.

Albert Tait is not improving in health as rapidly as his friends would like to see him.
Mrs. Alma Bridges spent Monday with her parents, Mr. and Mrs. George Baehr.

Clinton Baehr had his bicycle stolen from the Cooper schoolhouse.
Mrs. James Cousins visited in Detroit, last week.

PRESBYTERIAN NOTES

The Christian Endeavor Society held a business meeting and supper at the church, last Tuesday evening. The following officers were elected for the ensuing year: President, Francis Hathaway; vice president, Alice Hathaway; secretary, Elton Ashton; treasurer, Perrin Hawk. Paul Hummel presided at the opening of the business meeting and conducted the election of officers. Afterward, chairmen of the committees were chosen as follows: Prayer meeting, Henrietta Hondorp; social, Elizabeth Burrows; lookout, Ruth Waterman; music, Winnifred Draper; flower, Paul Hummel. Arrangements were made to give a reception to the school teachers, Wednesday, October 1st, and the following special committees were appointed to cooperate with the social committee: Program, Alice Hathaway; decoration, Allen Giles; refreshments, Valdeie Caughey.

Rally day supplies have not yet arrived, and so the day will be postponed to not later than the second Sunday of October.

OBITUARY

Frances Davis, daughter of James and Polly Davis, was born at Vernon, Shiawassee county, September 6, 1847, and departed this life, September 17, 1924, at the home of her daughter, Mrs. D. D. Packard, Plymouth. She gave her heart to God when very young, and made it the one object in life to follow in the footsteps of the Master. In 1881, she was united in marriage to Gideon Durfee of Plymouth, who preceded her to the higher life, February 25, 1910. Three children were born to this union, Frank D., of Schenectady, New York; Alfred Stark, who passed away January 9, 1920, and Florence D. Packard of Plymouth. She leaves to mourn their loss, her children, seven grandchildren, one brother, John H. Davis of Vernon; several nieces and a host of friends. Her memory will live long in the hearts of those who knew her best. After Mr. Durfee's death in 1910, she moved to Wayne, and two weeks ago on account of feebleness and ill health, she was taken to the home of her daughter, where she passed away. The funeral was conducted by Rev. William Muffitt of Adrian, last Friday afternoon, and the remains were laid to rest in the family lot at Newburg.

CROTONVILLE WINS FIRST OF SERIES

Crotonville defeated Ford's Highland Park team in a fast eleven-inning game by a score of 2 to 1, last Sunday. It was a pitcher's battle, with J. Piszarek having the edge, striking out seven men and allowing three hits. Both pitchers received fine support. The feature of the game was the running catches by Goim and Welsh.

The Crotonville team will play the second game of the series, Sunday, at Crotonville park, Warren and Plymouth car line. Game called at 3:00 p. m.

Following is the score:

**9 U. MEN TOUR
LATIN AMERICA**

**TRIP MADE TO FURTHER AMITY
BETWEEN SCHOOLS OF TWO
CONTINENTS.**

(From the Detroit Free Press.)
Ann Arbor, September thirteenth.—Spending one's summer in study and in promoting a closer understanding between the Latin republics and the United States rather than at pleasure resorts while the time away is the way nine University of Michigan students have used their vacation.

Under the guidance of two instructors in Spanish at the university these nine men have been taking part in an expedition, the first of its kind, and one which marks a step forward in Pan-American relations. **To Build Friendship.**

The expedition was originated under the theory that social contact between young blood of the two western continents will build up stronger ties of friendship for the future. Economic conditions of the various republics have been under study by the students in collaboration with staffs and students of South American universities. It is hoped that this will go far toward binding the great institutions of learning on the two continents closer together.

Guillermo D. Herrera, son of the Colombian ambassador to the United States, and Carlos Garcia-Prada, of a prominent Colombian family, are in charge of the tour. The students on the trip include Frederick Colby, Detroit; Cass S. Hough, Plymouth; Alfred Connable, Jr., Kalamazoo; Myron J. and Myron L. Sherwood, Marquette; Francis L. Tilden, Douglas Flood and Norman Vissering, Kenilworth, Ill.; and Robert Kohler, New York City.

The party left New York shortly after the close of school in June, going through the Panama canal to Callao. From this point they have visited Lima, Mollendo, Lake Titicaca, the ancient Inca capital, Cuzco, La Paz, Valparaiso, Santiago, Valdivia, Buenos Aires, Montevideo, Santos, the greatest coffee port in the world, Sao Paulo, Rio de Janeiro, Trinidad and the Barbados.

Oldest Seat of Learning
At Lima, the capital of Peru, the students received a most hearty welcome, according to word received here. Government officials and students of the San Marcos university especially did everything in their power to make the visitors feel at home. San Marcos was es-

tablished in 1551, and is the oldest seat of learning in the two Americas. A special assembly was held at San Marcos in honor of the University of Michigan, and messages of good will carried by the Michigan students from President M. L. Burton were read.
South American students play an important part in the political life of the country, the visitors write. Their schools have nothing to compare to the activities which abound in the universities of the northern continent and the energy of the student is devoted to politics and soap-box oratory.

**SAYS OPENING OF ROAD WILL
BOOM BUSINESS**

"Opening of a newly-paved 15-mile concrete highway connecting Grand River avenue and Detroit with Plymouth brings to a large territory the most important improvement since 1906, when a gravel road was laid on the same route," says E. S. Frischkorn, president of the Frischkorn Real Estate Co. "With our property, Grand Dale, located at the intersection of Division road and Plymouth road, two paved and important arteries, we are at an intersection that will become one of the most thriving centers in the northwest section."—Detroit Sunday News.

CANNING PLANT A BUSY PLACE

The canning plant at the Detroit House of Correction Farm is a busy place these days. A representative of the Mail was shown through the plant the other day by Supt. Edward Denniston. Much new machinery has been installed recently, which gives the plant every facility to turn out a large production of canned goods of splendid quality and flavor. Just at present the plant is working on tomatoes, of which the farm has an acreage of 18 acres. During the season the plant puts up strawberries, gooseberries, string beans, beets, sauer kraut, carrots, sweet corn and tomatoes. The big storehouse is beginning to fill up with the various products in cans, all neatly labeled. Twenty-five women prisoners are employed in the canning plant this season, and they are doing the work that it took several times that number of men to do heretofore.
An official from the state pure food department recently inspected the plant, and gave it the high mark of 92 per cent on its general condition, which shows the high standard of cleanliness which is observed in its operation.

**Have you seen this new car?
—It is a closed-open car!**

A WEEK ago the new Studebaker Special Six DUPLEX-PHAETON was first announced.

Today, countless thousands of people are talking about this entirely new type of car.

One moment it is a closed car—in five seconds it can be transformed into a delightful, airy, open car. But it is always the closed car in deep soft cushions, beautiful fittings and finish and luxurious riding comforts.

When you see it and ride in it you will know why it has made so profound a sensation—you will realize then that it gives you more than the finest open car can ever give you, plus the comfort and protection of the closed car.

And all at the price of an open car!
And this is the new DUPLEX BODY on the famous Special Six Chassis.

Hundreds of thousands of owners all over this country and abroad have given the Studebaker Special Six a name for value, dependability and performance second to no other automobile.

The new Studebaker Special Six retains all the qualities which make great reputation—to these have been added every real improvement which science and owner-service could suggest.

Even aside from the sensational new DUPLEX BODY—the Studebaker Special Six has no superior in value in any car yet built. It was the conscientious intention of Studebaker in planning and designing the new Special Six to make it just such a leader—to that end every resource of the great Studebaker organization has been concentrated.

Even if we had the space we could not begin to tell you of the very many new and unusual features which indicate its superiority.

Certainly no words could do justice to its distinctive beauty.

In appearance it is unlike any other American car—yet its long, low, broad, sweeping lines are conservative, crisply stylish and in beautifully good taste.

Think of the new Studebaker Special Six Duplex-Phaeton as the ultimate in value and performance in a five-passenger car—think of it as a car matchless in practical convenience and desirability.

But to appreciate the sparkling beauty of its totally new lines you must see it. To know its perfection of operation and performance you must ride in it and drive it.

If you have not seen this NEW type car—come today!

**VALUE POINTS—
New Special Six:**

The New Duplex-Phaeton Body—it solves the closed-open car problem.

Genuine Balloon Tires—20 x 6.20 inches.

New Satin-Lacquer Finish.

Spanish chrome tanned leather upholstery.

New idea in ease of operation and control.

Vibrationless Engine; forced-oiling system with new idea in oil supply.

Four-Wheel Hydraulic Brakes optional—totally unlike any other system on American cars. Automatic braking pressure.

W. C. T. U.

The Woman's Christian Temperance Union held a most delightful meeting, Thursday, September 18, at the home of Mrs. D. E. Murray, with Mrs. C. F. Smith as hostess. As had been planned, this was a "Smith" meeting, being entirely in charge of the Smiths.

A short business meeting was held, and a number of delegates were chosen for the District Convention which occurs in Detroit, September 30th. Just before the "Smith" program, Mrs. C. H. Bennett brought greetings from the Woman's Christian Temperance Union of Havana, and gave a very enjoyable little talk about some of her experiences in that city.

The Smiths surely deserve great credit for their excellent program. Mrs. G. A. Smith read a very interesting paper on "The Various Activities of the W. C. T. U.," Mrs. Eva Smith and Miss Anna Smith gave selections from the poems of Edgar Guest which were heartily applauded; Mrs. Wm. Smith and Mrs. C. F. Smith also gave enjoyable readings. After the program, the chairman, Mrs. Wm. Smith, and her committee served refreshments, and a social hour was enjoyed.

Thursday, October 23, the Plymouth W. C. T. U. will entertain the Northville Union at the home of Mesdames Patterson and Todd.

BAPTIST NOTES

A brief report of the Wayne Association was given last Sunday, by several of the delegates who attended the meeting at Northville. The whole meeting was full of earnest addresses and discussions, and a good spirit prevailed in every service. The young people's evening was given to different rally songs and yells. The First Baptist church of Pontiac had the largest number of delegates, 33; Plymouth B. Y. P. U., 15. The fall rally for B. Y. P. U. will be held with the First Baptist church at Pontiac, Tuesday, November 4th. The next association meeting is to be held at Waterford, in the First Baptist church. In electing officers for the coming year, Rev. H. E. Sayles of Plymouth, was chosen moderator, and George Sutton of Pontiac was chosen secretary and treasurer.

Last Sunday, we were glad to see our M. E. friends in both services, morning and evening.

The Sunday-school reading by Miss Scott last Sunday, "How Persia Received The Bible Translated Into Their Language," was most instructive and helpful, and revealed the consecration of our missionaries on foreign fields.

The primary department, under the care of Mrs. H. H. Daly, is very large this fall. They meet in the church parlor in the basement of the church. They are planning on a new organ soon.

The young people members of the Baptist church who are away in school, are: Duane Sayles and Elbert Seger, Kalamazoo; Fannie Grainger and Alton Sayles, Ypsilanti; Alta Hamill, Ann Arbor, and Olivias Williams, Detroit.

A CARD—We wish to express our sincere thanks to relatives and friends for their sympathy and beautiful floral offerings during our bereavement. Special thanks to Rev. Sayles for his consoling words, and to the little girl who sang so beautifully. Mr. and Mrs. L. S. Cool and Family.

SCHOOL NOTES

The foot ball write-up was furnished by Frank Millard, the grade notes by Juanita Coe, and the High school material by Dorothy Caldwell.

HIGH SCHOOL NOTES

At their last meeting the members of the High Y club elected the following officers:

President—Pierre Kenyon
 Vice President—Forrest Hubert
 Secretary—Merle Kurze
 Treasurer—Wilbur Murphy

To the seven active members remaining from last year, there have been added, R. Reiman, D. Rowland and D. Wilson. In order to earn money for activities during the year, the club had a concession stand Plymouth day, where they sold candy, popcorn and other things, clearing about \$50. Three well known Plymouth men, Supt. Smith, Manager Strong and Mr. Hubert, president of Plymouth's new bank, have consented to act as an advisory board. The purpose of the club is to create, extend and maintain high standards of christian character.

The advanced cooking class boasts of twenty-five members, all of whom have been canning tomatoes, which will be used in lunches next winter.

The Freshman class announces the election of the following officers:

President—Archie Krumm
 Vice President—Harold Norris
 Secretary—Harold Hubert
 Treasurer—Lawrence Rattenbury

Fear of initiation has been keeping the freshmen on the jump to evade the soph, juniors and seniors. Nevertheless most of them have been caught and put to work on the foot ball field picking up stones.

"The Intimate Strangers" has been selected as the senior class play, with the following cast:

Ames—Forrest Hubert
 Miss Stuart—Gladys Hake
 Florence—Florence Cline
 Johnnie White—Everett Cummins
 Aunt Ellen—Dorothy Melow
 Station Master—Ira Kingsley
 Henry—Louis Sieloff
 Mattie—Mary Parrott

Friday night a group of seniors, accompanied by their patron, Mr. Holcomb, and their patronesses, Miss Gladys Allen, Miss Knowles and Miss Duffy, attended a play, "Stop Thief," at the Majestic theatre, in Detroit. The seniors are thinking of presenting it some time during the first semester.

GRADE NOTES

The pupils of the first grade are learning the lessons of cleanliness early in life. Each week they have a desk cleaning, which leaves their room neat and tidy.

Autumn leaves have blown into the kindergarten room in the form of a song, "Autumn Leaves." The afternoon class is absorbed in making scrap books.

Mysterious boxes with holes in them may be found on Mrs. Root's desk. These contain caterpillars which the first graders are watching spin their cocoons. They were also

hosts and hostesses to their visitors, Miss E. Clough, who was a former Plymouth teacher, Mrs. R. Kirk and Mr. G. M. Jewell.

The second grade and their teacher, Miss Slader, are grateful to Mrs. Bichy for their beautiful flower boxes.

The black-boards of the second grade room are beautifully decorated with paper leaves which the pupils have made. They are also writing stories from pictures.

The 4 B will undoubtedly have several pupils for the animal husbandry class when they enter high school. At present they are studying the breeds of cows used in dairying.

The Sailor Song is being studied with lusty enthusiasm in the 5th and 6th grades.

Knowledge is being stored up by 3rd graders, in the form of quotations which they are learning.

Miss McClumpha has been very kind to her pupils in sharing her picture of the Good Shepherd with them. The 4th graders are learning to use the compound microscope in the study of soils.

The spelling ability of the fifth grade was pitted against that of the sixth in a spell down Friday.

The 2nd and 3rd graders entertain their dolls each Friday. Last week they had twelve visitors.

PLYMOUTH WINS FIRST GAME

In the first game of the season, Plymouth outplayed and outgeneral-ed River Rouge, Friday, September 19, winning by the score of 19 to 0.

At kicking, Kenyon outpunted the River Rouge kicker, and in straight foot ball Plymouth was the stronger. The first touchdown of the game resulted from a play by Millard through center. It was gained after a number of line smashes in the second quarter, and then Kenyon missed a goal for point on a drop kick.

In the third quarter Wilson blocked a punt, and Holmes recovered and ran 20 yards for a touchdown. In the same quarter Holmes went over the line for the last touchdown, making the score 19 to 0.

The Plymouth team seems to be as strong as last year's squad, and although a few men are lost to the team, we hope to have another championship. The line is as strong as last year's, and the backfield with three last year's men in it ought to prove a good one.

Line-up: Plymouth—Wilson, captain, l. t.; Sump, l. e.; Heiny, l. g.; Reiman, c.; Hubert, r. g.; Mills, r. t.; Kurze, r. e.; Holmes, f.; Kenyon, l. h.; Taylor, r. h.; Millard, q. River Rouge—Smolak, captain l. t.; Buck-holy, l. e.; Woods, l. g.; Michales, c.; Green, r. g.; Hawkins, r. t.; Mayville, r. e.; Heuer, f.; Westcott, l. h.; Duff, r. h.; Richards, q.

Yes—Appearances ARE deceitful. A suit that is 2 years old can make you look 10 years older!

We know a man of 58 who looks like 35 and we know a man of 40 who looks like 60.

The first wouldn't think of going without two new Michael's-Stern suits a season. The last wears old clothes as a matter of course and of course old age finds an easy victim to creep up on.

R., has been let, and it is expected that the work will be completed this fall. Work on the new factory building will be commenced next spring.

A very pleasant neighborhood gathering called at the home of Mrs. M. E. Hodges, September 18th, to celebrate her birthday. Mrs. H. E. Sayles sang and requested two selections. A fine buffet lunch was served, and many beautiful presents were given in memory of the day. Mrs. L. E. Severance of Lansing, added greatly to the enjoyment.

We call the attention of our readers to the half page announcement of the Penniman Allen theatre, regarding the showing here on Sunday, Monday and Tuesday, September 22nd, 23rd and 24th, of Rudolph Valentino's latest picture, "Monter Beaucaire," which is having a phenomenal run in all the largest cities. Plymouth theatre goers are fortunate in having so early an opportunity of seeing this great picture right here at home. See ad.

Gayde Bros. are making some extensive improvements in their store in north village. An addition has been built at the rear of the building, and the back wall of the old store room will be removed, thus giving them much additional floor space and shelving room. The present stairway to the basement and upper floor will be changed and other improvements made. A new American wash, the agent for these furnaces, Passage & Smith, building contractors, have the job of remodeling the store building. When the work is all done, Gayde Bros. will have a very fine store.

Watches that last a lifetime!

ANY other kind of watch is not worth the buying, for watches have a heritage value—they should be passed on down to successive generations. When Sonny Boy hears the first tick of his first watch, it is an important event in his life.

But then there must be cheaper watches for him—watches which will stand the wear and tear of childhood—and finally the watch that will remain with him during all his life.

We have both kinds and all kinds—particularly those delicate watches for women, which must combine perfect utility with beauty.

By the way—we have just received a complete new W. W. W. line of pearls and rings. Pearls—yes, this concern is now putting out a wonderful guaranteed pearl in a special jewel case. You will want to see it.

And the W. W. W. White, green and yellow gold wedding and engagement rings—they are worth a visit alone.

LOCAL NEWS

The brick work on the new Masonic temple is about complete.

Mrs. J. J. Olney of Bedford, visited her cousin, Mrs. Minnie Noyes, Tuesday.

Mr. and Mrs. Fred Humm and son, Richard, of Detroit, spent Monday with Mr. and Mrs. Walter Perkins.

Mr. and Mrs. Henry Englehart of Toledo, were guests of Mr. and Mrs. George Griffin, over the week-end.

Mr. and Mrs. Mott Wilcox of Howell, and Mrs. John Steinmetz of Lake Odessa, were week-end guests at Henry Steinmetz.

Mr. and Mrs. Howard Blackwood of Charlevoix, are visiting the former's grandmother, Mrs. M. S. Miller, of Penniman avenue.

Mr. and Mrs. P. Betzoldt and son, Harold, and Mrs. A. Betzoldt of Detroit, spent Sunday with Mr. and Mrs. William Petz and family.

The Plymouth High school football team played at Northville yesterday with the high school team of that place, but we go to press too early to give any particulars.

Mr. and Mrs. Robert Holmes and family and father of Newburg, and Mr. and Mrs. George Arthur visited at the home of the latter's sister, Mrs. Walter Redfield, at Flint, Sunday.

A. F. Bertram and Lewis B. Arscott are visiting Mr. and Mrs. W. B. Petz, after spending the summer at Rogers City. Lewis Arscott has again taken up his studies at the U. of M.

Rev. W. B. Charles will speak at the Baptist church next Sunday evening. He comes direct to us from the mission field of the Philippine Islands, having been a missionary some years.

Mr. and Mrs. John Adams entertained last Sunday at dinner: Claude Bennett and son Louis, of Seattle, Wash.; Mr. and Mrs. Ben Swick of New Boston, and Mrs. L. H. Bennett of this place.

Mrs. Arthur Alder of Mill street, was taken to the University hospital at Ann Arbor, last Friday, where she underwent a serious operation. Mr. Alder and three daughters and Mrs. W. C. School visited her Monday and found her getting along nicely.

The Mail goes to press too early to give any of the details of the parade, or the number of autos in line, that made the annual pilgrimage to the Northville Wayne County Fair yesterday afternoon. From every indication it looks as if the number of autos would be as large, if not larger than in former years. It seems that about everybody is going. A thirty-piece band has been engaged for the occasion. Business places will all close for the afternoon. The big parade is under the auspices of the Plymouth Chamber of Commerce, with F. D. Schradler as chairman.

Walter Mosteller, aged 18 years, was in Justice Phoebe Patterson's court, Monday, charged with violating the motor vehicle law. He pleaded guilty, and was given a fine of \$50 and costs, which he paid. Several times recently cars have been taken from their parking places upon the street, to be returned later to a point nearby. Last Saturday night, local officers were on the watch, and young Mosteller was taken into custody on Harvey street, where according to the officers, he was about to drive away a car. The officers say the young man admitted driving away cars for a joy ride on several occasions recently, returning the car later. Chief Springer and his officers are determined to put a stop to such practices.
