HIGH SCHOOL TEAM BATTLE WITH WAYNE HIGH TODAY

Coatta's Men Hope to Add Another Victory With the Game Today, and Win the League Championship.

New Gridiron at Tourist Camp Will Be Dedicated This, Friday Afternoon at 3:15 O'clock.

Plymouth High school is looking forward to its big home game today, Friday, when Wayne High will send its football team here for the game which is to decide the championship of the Suburban League. The game will be played upon the new gridiron at the tourist camp on the village flats, which will be dedicated at 3:15 o'clock.

Both teams are about evenly matched, Plymouth having won every game with the single exception of the tie game with Redford, while Wayne has been defeated but once in the Suburban League series of games this season.

A large delegation of High school and townspeople is expected to accompany the Wayne team here today, and this will also be a fine opportunity for Plymouth people to turn out in large numbers to cheer on the team in its supreme effort to retain the championship, which they won in 1923.

Remember, fans, that in the final game of the championship series, one of the strongest teams of the league will be met. One does not appreciate the value of a crowded sideline in winning a game, but Wayne will be there in large numbers to give their team this side line aid. Plymouth's success depends in a large measure upon your support. Be there and help to "beat Wayne Hi." Admission—35c and 25c.

LYMAN JUDSON WINS COLLEGE ORATORY MEET

PLYMOUTH YOUNG MAN WILL REPRESENT ALBION AT STATE INTERCOLLEGIATE CONTEST AT KALAMAZOO NEXT MARCH; ROBERT DOCKERAY WILL SECURE SECOND RANK AND CLARENCE H. ELLIOTT THIRD.

Awarded first place by seven judges, Lyman Judson of Plymouth, Friday night won the Albion college oratorical contest in chapel hall with his oration, "Crucified Justice," and will as a result represent Albion in the state meet at Kalamazoo on the first Friday in March.

Seven men competed in the local contest Friday night. Robert Dockeray of Rockford, taking second place, and Clarence E. Elliott of Pontiac, winning third place. Prizes of \$25, \$15 and \$10 were awarded the three winners from funds endowed by Bishop Joseph F. Berry and Frank A. Vernor.

The men competing and their orations were: Dockeray, "Free or Slave," a treatment of the child labor problem; Rupert Cartright of Albion, "Asleep on Duty," commenting on the great number of non-voters in the United States; Dale Fillmore of Albion, "Whom God Hath Joined," attacking the growth of divorce cases in recent years; Lynn Glidden of Alba, "Vengeance is Mine," opposing capital punishment; Elliott, "Back to the Home," stressing the breaking up of the home as the root of many present day problems; and Judson, with his "Crucified Justice," an attack on the modern criminal court procedure, whereby through technicalities the defendant is freed and justice is thwarted. Hamilton, a Freshman, was the seventh contestant.

Judges, Friday night, were: Dr. John L. Seaton, Dean Robert Williams, Dr. Albert J. McCullough, Dr. Thomas M. Carter, William C. Harton, principal of the Albion High school, Miss Florence Swisher and Prof. Henry L. Ewbank.

The pep meeting for the Ypsilanti game today preceded the oratorical contest, and was in charge of Miss Lucy Glenn of Cincinnati. A cheer was given for Robert B. Stewart, business secretary of the college, whose favorable condition after a major operation at the Battle Creek sanatorium hospital, Friday afternoon was announced.

Judson, by winning Friday night, won the right to compete at Kalamazoo, where the men who will represent the state of Michigan in the inter-state contest will be chosen from eight orators from the member schools of the Michigan Oratorical League. Adrian, Albion, Alma, Hillsdale, Hope, Kalamazoo, Michigan State Normal and Olivet.

Prof. Ewbank is the secretary-treasurer of the Inter-State Oratorical League, composed of fourteen middle western states.—Albion, Mich., Recorder.

YOUNG LAD HAS LEG BROKEN

EUGENE D'ANGELO, EIGHT-YEAR-OLD LAD, STRUCK BY AUTO NEAR SCHOOL BUILDING FRIDAY NOON.

Another distressing auto accident occurred last Friday noon, near the High school building, when an automobile driven by Glen McLeod, struck little Eugene D'Angelo, the eight-year-old son of Philip D'Angelo, who attempted to run across the road in front of the approaching car, which according to statements of the driver and witnesses of the accident, was going slowly at the time, and the accident unavoidable.

McLeod picked up the injured lad and rushed him to the office of Dr. Peck, and later accompanied him and Mr. D'Angelo to the University hospital at Ann Arbor. The lad suffered a fracture of the left thigh in three places and a deep scalp wound on his head. At last reports he is getting along nicely.

Mrs. D. F. Murray has been elected as secretary of the Board of Education in place of E. V. Jolliffe, who resigned the office. Mr. Jolliffe still continues as a member of the board.

PLYMOUTH, A VILLAGE OF BEAUTIFUL HOMES

RESIDENCE OF DR. A. E. PATTERSON

A MOST COMMENDABLE ACTION

The action of the village and school authorities in the closing of Church street from Main street to the Methodist parsonage, between the hours of 11:00 a. m. and 12:45 p. m., the placing of Boy Scouts near the church to direct traffic, and a traffic officer near the village hall, is a most commendable precaution in avoiding a repetition of the regrettable accidents which have occurred recently, while school children were upon the streets. Instructions are also given the children in school regarding safeguarding themselves against accidents while crossing streets. Parents will also do well to co-operate with the school and village authorities in their efforts to protect the life and limb of the children from accidents upon thoroughfares.

WILL HAVE COMMUNITY CHRISTMAS TREE

PLYMOUTH ROTARY CLUB WILL PROVIDE A TREE, PROGRAM AND GIFTS.

The Plymouth Rotary Club will sponsor a Community Christmas tree this year, a custom that has become very popular with Rotary Clubs in many places, and one which the whole community enjoys as well. The following committees have been named by President George A. Smith to make the necessary arrangements:

Tree Committee—Sidney D. Strong, F. A. Dibble, Jesse Hake.

Program Committee—Dr. B. E. Champe, E. C. Hough, Harry C. Robinson.

Gift Committee—O. F. Beyer, W. T. Pettingill, Arthur Blunk.

BIG ATTRACTION AT LOCAL THEATRE

CLIFF NICHOLS AND HIS 12 KLEVER KIDDIES WILL BE AT PENNIMAN ALLEN THEATRE, NOVEMBER 26 AND 27.

As a special attraction for Thanksgiving week, Manager H. R. Lush of the Penniman Allen theatre, has booked a special feature for Wednesday and Thursday evenings, November 26 and 27, when Cliff Nichols and his original 12 Klever Kiddies, will appear at the local theatre in a thirty-minute sketch, in addition to the feature picture, Zane Grey's "Border Legion," a picture of unusual merit and interest.

The Twelve Klever Kiddies have made a tremendous hit in all the large theatres of the country. Their playlet will be a pleasant surprise, as each one is an artist of rare ability. It is by far the finest juvenile attraction that has ever been brought to Plymouth. The youngsters have been carefully trained, and present a review of an exceptionally clever nature. The costumes, scenery and electrical effects, are such as might well grace a far more expensive production. Everybody loves the kiddies, and everybody should see the 12 Klever Kiddies at the local theatre, next Wednesday and Thursday evenings, November 26 and 27. There will be two shows each night, and the regular admission prices will prevail.

"THE POTTER AND THE CLAY" TONIGHT

The third number of the Senior Class Entertainment Course takes place at the High school auditorium, tonight, Friday, November 21, when J. Smith Damon will give his entertainment, "The Potter and the Clay." Single admission, 50c.

Let Us Be Thankful

Time is turning back the pages of memory at this season, and once more we are brought into an atmosphere such as surrounded our Pilgrim fathers, when they saw the wisdom of returning to a Kindly Providence their manifold thanks for the blessings that had been showered upon them.

As they came through storm and stress, even so have many of our own people passed through trying times within the year now drawing to a close. But just as they were safely landed and the riches of the land laid out before them, for their benefit if they would labor and bring forth crops, even so we find ourselves surrounded by opportunities behind which are hidden rich blessings if we will but strive for them.

We speak for all America in general, and for the people of Plymouth in particular, when we assert that is living today none but who can lay some honest claim to happiness at some time during the year. And so long as there remains even one ray of happiness, there remains one thing to be thankful for. Sorrows have come to many of us, just as sorrows will come to others in the years ahead. But always they were tempered with sunshine, or with a promise that keeps us looking happily ahead. As a whole no nation has been more blessed, no people have lived their lives more unselfishly and, by reason of so living, more happily. We have been blessed as a nation and as a people. We have harvested well, and no dark shadow of disease or epidemic has hovered above our homes. We have grown stronger in our love of our friends and our neighbors, we have passed, each of us, another mile-stone of a road rich with experience.

The season of Thanksgiving is here, and each and every heart must upon reflection feel that surely there has been much within the year for which to be thankful. We have but to glimpse the dark picture of pioneer days, we have but to lend an ear to the cries which come from across the seas to assure us that as a people we have been blessed far beyond our own feeble ability to repay.

Mindful of the One who has made these blessings possible, let us be thankful not alone for that which has been bestowed upon us, but for the bright promise we face as we start again through the winter months. Let us be hopeful that the same hand that has blessed us through the year departing will guide us through the years to come; and that each year will find us meriting the blessings bestowed upon us, that each year will find us justifying the hope placed in us by our fellowmen.

WORK PROGRESSING AT WAYNE COUNTY TRAINING SCHOOL

Sixteen Buildings Are Now Enclosed and Eight More Are Well Under Way.

NOTED ENTERTAINERS ARE COMING

COLLINS AND HARLAN, AMERICA'S FAVORITE ENTERTAINERS WILL BE AT THE HIGH SCHOOL AUDITORIUM TUESDAY EVENING, NOV. 25.

Announcement is made that those amusing singers, Collins and Harlan, are scheduled for a concert in the High school auditorium, on Tuesday evening, November 25th, at 8:00 o'clock. They will be assisted by William J. Reed, flutist and saxophonist.

These splendid entertainers are brought to Plymouth by the Beyer Pharmacy, through the Thomas A. Edison Co.

What makes this concert of more than usual importance, are several numbers in which Collins and Harlan will compare their singing with his recreation by Mr. Edison's new phonograph.

Collins and Harlan have earned the reputation of being America's Favorite Entertainers, because of their astonishing repertoire of humorous song. Neither Arthur Collins nor Byron G. Harlan started out to enter their present career. Mr. Collins was going to be an actor. What if his ancestors were all Quakers? That was nothing compared with the longing he had actually to make his appearance behind the footlights.

So he left his home in Philadelphia and journeyed to New York—just as they all do. And then he became a successful opera singer, and got a real job with De Wolf Hopper in "Wang." Mr. Collins also appeared in "The Lion Tamer" with Francis Wilson.

It was after that, that he met with Byron G. Harlan, and the two decided to combine their talents.

Mr. Harlan is one of those famous people from Kansas. Nearly all the celebrities there are, came from Kansas once upon a time. But Mr. Harlan's family early emigrated to South Dakota, where his boyhood was passed. Unlike Mr. Collins, Byron Harlan never meant to be an actor at all. But he did have a beautiful voice, and so he decided to go to the great City and cultivate it. In this case the great city was Chicago. And there Mr. Harlan began his stage career with an engagement in an opera company. After that he appeared in "A Texas Steer." Having seen the inside workings of a theatre, and having also met Mr. Arthur Collins, Harlan decided he had had enough of being "just an actor." So he started a company of his own and became a producer himself.

There will be no admission. The public is most cordially invited.

The following program will be given:

"Dancing the Du Da Du Da Dae," descriptive, and "I'm a Twelve-O'clock Fellow in a Nine-O'clock Town," Von Tilzer—Mr. Harlan with Edison Records of his voice.

"Go 'Long Mule," Creamer-King, and "Any Rags?" Allen—Mr. Collins with Edison Records of his voice.

"Through the Air," Damm, and "Fancy Little Nancy," Baines—Mr. Reed with Edison Records of Piccolo and Saxophone Solos.

"Lucy Anna Lou," Edwards, and "Since Mother Bobbed Her Hair," Von Tilzer—Messrs. Collins and Harlan with Edison Records of their voices.

"The Preacher and the Bear," Arizona—Mr. Collins with Edison Record of his voice.

"Moonlight in Jungland," Dempsey-Schmid, and "Ham and Eggs," Fitzpatrick—Messrs. Collins and Harlan with Edison Records of their voices.

"Charmant Oiseau," (LaPerle du Bresil), David—Edison Record of a soprano solo by Miss Anna Case. Flute obligato by Mr. Reed.

"Below the Mason Dixon Line," Reed—Mr. Collins with Edison Record of his voice.

"Aunt Skinner's Chicken Dinner," Morse—Messrs. Collins and Harlan with Edison Record of their voices.

Through the courtesy of N. B. McLellan of the W. F. Woods Construction Co., of Detroit, a representative of the Mail had the pleasure of an inspection of the new buildings of the Wayne County Training School, the other day.

Great progress has been made in the past few weeks in the construction of the beautiful and substantial buildings forming the group, which is destined to be the most complete and modern institution of its kind in the United States. Sixteen buildings have now been enclosed and roofed, and are now in the hands of the steam fitters and the plumbers. The buildings which have been enclosed are the administrative building, hospital, assembly hall and auditorium, grammar school, boys' industrial school, girls' industrial school, laundry and nine cottages. Each one of these buildings is fire proof, and of brick and steel construction.

Eight more dormitories and the power house are well under way and Supt. McLellan expects to have them enclosed before cold weather puts a stop to outside work.

Grading around the buildings has been commenced, and already a number of the buildings are beginning to take on a finished look.

The steel work on the power house has all been completed. The smoke stack is now finished to a height of 135 feet. When completed, which will be in about two weeks, it will be 175 feet high, and will easily be discernible from Plymouth. In its construction, it will take 351 thousand brick and two carloads of stone.

The septic disposal tank has been completed. This most excellent piece of concrete work is 28x48 feet in size and 23 feet deep.

All of the material for the construction of the eight buildings now under construction is upon the ground, with the exception of the steel window frames, and these are expected within a few days.

We understand the typography of the grounds will not be changed to any degree. W. H. Maybury, who has charge of the entire building program for the county, has given much time and thought to the arrangement of the buildings, and it is the desire to follow the natural lay of the land, which forms a most unique and picturesque setting for the buildings, which are scattered about the spacious grounds.

When the construction of the buildings is completed, and the grounds have been beautified with trees and shrubbery, walks, and drives, it will be a mecca for visitors and sight-seers from all over the world.

MAKING MISTAKES

Every now and then some Plymouth citizen calls our attention to a mistake in our columns, and usually appears to show surprise that a newspaper, above all else, should make mistakes. They intimate that they are not surprised when a doctor, a lawyer or a merchant is guilty of a mistake, but that newspapers are not supposed to make them.

It should be remembered that there are usually from 50 to 600 separate items in a single issue of a newspaper. The facts in almost every item were secured "second hand." No two people see the same thing alike. Even when the newspaper man sees the thing he later writes about the chances are his version of it will differ from that of someone else who saw the same thing. When people tell him items of news he is getting it "second hand," and the chances for misstatement are increased. And yet, considering the number of items and the number of names carried in each issue you will have to admit that it is remarkable that the average newspaper makes so few mistakes.

The first principle of any good newspaper is to get the news. It tries to cover its territory thoroughly, fairly and impartially. But with so many things to do and so many minds to depend on, the wonder is not that it makes mistakes, but that it doesn't make more of them. So when you have to call the newspaper man's attention to one, do it as though you realized that he is only a human being and, therefore, just as apt to make mistakes as anybody else.

SEASON OF COLDS

We would urge upon our readers around Plymouth to heed the fact that we are now in the "bad cold" season, and not to look too lightly upon these common ailments. Health authorities in Los Angeles are still battling a terrible epidemic of pneumonia that started some weeks ago, and in which the death rate is declared to have been 25 out of the 30 people who came in contact with the first victim. It is a violent form of the disease, but is declared to have originated from an ordinary cold. There are a thousand cures, and as many remedies suggested that do not cure, and everyone has his or her own favorite brand. But regardless of what you take for a cold, or what method you use in treating one, be sure that you give the first symptoms the attention deserved—don't let a cold go, or figure that you can "wear it out." This particularly applies to the children of the family. They should have attention at the outset, instead of being allowed to attend school and run about the neighborhood while suffering from an ailment that can be cured, usually, overnight if properly attended to. We want to go through the winter with a community 100 per cent healthy—and watching closely after coughs and colds is one good way to do it.

CABBAGE HEADS

If you happen to be inquisitive, you may want to figure out how many cabbage heads there are in the 30,000 car loads shipped to market this year. Anyway, you may be interested to know that cabbage has become one of our three most important vegetables. Potatoes are first, and tomatoes are second. Nearly half the cabbage crop comes from the south, and the earliest in the market always commands the best price. Kraut is made from the big-headed northern type, and has ceased to be a strictly German dish; everybody eats kraut now, and physicians say it is full of health-giving vitamins. They argue the cabbage eater is nearly always a healthy person, and

that cabbage adds to vigor. So we guess we'll have to commence rating this vegetable as among the very best brands of "fodder" the human race can cultivate.

CHRISTMAS JOY

The key that unlocks the door of affection and esteem is the Christmas gift. Not the gorgeous bauble carelessly purchased by some rich person, but the little sensible, useful, thoughtful gift given by the millions of us—the simple present made by you and me along with which goes our hearts warmed by the spirit of Christmas joy.

This year hundreds of people in our city have been looking forward with pleasant anticipation to the day when they can show their affection and love, for throughout the past year they have been carrying their passbook to the Christmas Club window in the Plymouth United Savings Bank and making deposits which have steadily increased and which will furnish the ready cash so necessary at Christmas time.

These fortunate ones can look upon the past year with satisfaction, for they planned and carried out successfully the acquiring of Christmas money. It is pleasant to realize that it was done with a little sacrifice each week and in an unselfish spirit.

Foot ball game today. Don't miss it.

SAFEGUARDING THE CHILDREN

There have been several automobile accidents to children near the school house lately. The drivers were not all at fault, but we don't want any more, whether drivers or the children are responsible. Therefore the village and the school are co-operating in an experiment to safeguard the children, while they are passing to and from school at noon.

It is hoped that all motorists, all parents and all children will work together to make this plan a success. From 11:00 o'clock to 12:45 o'clock at noon time, Church street from Main street to the Methodist parsonage will be closed to traffic. One or more Boy Scouts will be stationed near the parsonage to divert traffic down the drive through the park to Main street. A traffic officer with a stop and go signal will be stationed on Main street near the village hall, at the foot of that drive, in order to manage things there. Possibly a Scout may be used here, also, to assist children across the street. In the school, the children will be taught to observe the traffic rules, and to understand that this plan is all for their protection and safety. Let's all A, B, C!

THE THEATRE

"SINNERS IN HEAVEN"

The title of the new Paramount picture, "Sinners in Heaven," which is coming to the Penniman Allen Theatre, Saturday, November 22nd, has a distinctly paradoxical sound. It is safe to assume that the picture satisfactorily explains and justifies the title.

To those, however, who have read the story by Olive Ardren from which the picture was adapted by James Creelman and produced by Alan Crosland, the title has an especial significance and it is certain that they will approve its retention in the screen play.

"Sinners in Heaven" tells the story of a man and a girl who are through fate wrecked on a tropical island off the coast of Africa. Try to imagine what would happen if you found yourself stranded in some remote corner of the earth, apparently a million miles from any sign of civilization, and your only companion was a person whom you cordially disliked. This is the situation that confronts Barbara Stockley, the heroine, and you can readily understand the dynamic possibilities for rich drama when we tell you that the girl eventually falls in love with the man and marries him, there, in the heart of the African desert. How the marriage is performed and what happens after that, we will let you discover for yourself.

With a combination of such box office favorites as Bebe Daniels and Richard Dix who portrays the two leading roles, surrounded by such likeable and well known players as Florence Billings, Effie Shannon, Betty Hilburn and Marcia Harris, the only fair thing to do is designate it as an all-star cast.

Make a note of the play date if you want to be amongst those present when "Sinners in Heaven" comes to town!

"THE NAVIGATOR"

Can you imagine Buster Keaton trying to run a 450-foot ocean liner all by himself? Can you see the trouble he gets into with such objects as sextants, folding bunks, fog horns, anchors, diving suits, mizzenmasts and all the various paraphernalia of sea travel?

It's all in his latest Metro-Goldwyn comedy, "The Navigator," which is coming to the Penniman Allen theatre, Sunday and Monday, November 23 and 24. This production is said to be funnier than anything Keaton has ever done before.

Kathryn McGuire is his leading lady, and others in the cast include Frederick Vroom, Noble Johnson, Clarence Burton, H. M. Clugston. The story was written by Jean Havez, Clyde Bruckman and Joseph Mitchell. Donald Crisp and Keaton himself directed. "The Navigator" is presented by Joseph M. Schenck.

"THE BORDER LEGION"

"The Border Legion," with Antonio Moreno and Helene Chadwick featured in the leading roles, comes to the Penniman Allen Theatre Wednesday and Thursday, November 26 and 27.

The picture is an adaptation of the popular novel of the same name by Zané Grey. It deals with the activities of a band of ruthless outlaws, which spread death and destruction in the gold towns of the early '70s. The production was filmed in isolated and beautiful locations selected by the author.

It tells of the love affair of a young cowboy and the daughter of a cattle owner. There's a lovers' quarrel and the boy stalks off to join the Border Legion. The girl repents and goes after him. She is captured by the leader of the Legion and carried off to his cabin and made a prisoner.

How the cowboy beats the bandits at their own game and saves the girl, makes one of the most entertaining pictures shown in Plymouth in some time.

Rockliffe Fellows has the role of Kells, leader of the Legion. Gibson Gowland is his lieutenant, and Charles Ogle is the ranchman-victim of the band's maraudings.

Other big names in the strong supporting cast include James Corey, Edward Gribbon and Luke Cosgrave. George Hull adapted the story to the screen and William Howard directed the production as his first for Paramount.

CHICAGO PIKE TO BE

PAVED ACROSS ENTIRE
COUNTY NEXT YEAR

33 MILES OF ROAD TO BE SUR-
FACED THROUGH TO HILLS-
DALE LINE, LANSING STATES.

PRISON CAMP NEAR BRIDGE-
WATER TO BE MOVED WEST
OF CLINTON THIS FALL.

The completion of the improvement of the Chicago Pike across Lenawee county is to be made one of the major construction undertakings of the state highway department this winter and the new road from Detroit to Elkhart is expected to be completed during 1925. According to Lansing dispatches today, the state administrative board Tuesday voted to transfer gangs of prison camp highway laborers to this county within a short time and these state laborers will be added to the forces now on the job to bring about its early completion. One camp probably will be established at a point west of Clinton and a second will be located east of Clinton, between that village and Saline.

Two prison camps are to be established along the route, probably this fall. During the winter the gravel track will be laid, stocks of gravel will be stored and preparations for starting work early in the spring will be completed. The construction will be concrete and the mileage to be surfaced will be around 33 miles. With the completion of this stretch the only gap in an otherwise solidly paved road across the southern part of the state from Detroit to the state line at Elkhart will be across Hillsdale county, which is said to be an excellent gravel road.

The plan is to move a prison camp now located near Bridge-water to a point between Clinton and the west county line of Lenawee and to transfer the prison camp near Monroe to a point east of Saline. The first camp will work on the stretch of about 20 miles across the northern end of Lenawee county, the second on a stretch of about 89 miles northeast to Ypsilanti and a short stretch of three or four miles around Ypsilanti to connect with the present so-called Ecorse road into Detroit. The preliminary work on the projects, such as grading and filling, have been virtually completed most of the distance and it is anticipated that the paving will be pushed rapidly next year. The Ecorse road or what probably will be designated all the way into Detroit as M-23, is now completed in Wayne county. The paving of the gap around Ypsilanti will provide a highway into Detroit which can be easily reached from Ann Arbor as well as being the through route for points on M-23, which passes through scarcely any cities or villages of any size.

No estimate of the number of men to be placed on the M-23 project was named. During the winter the number will probably be comparatively small with more added when work opens in the spring. The project is the first placed on next year's program calling for the definite continuance of prison labor on a large scale.

The board has also decided to rush to completion the paving of Detroit-Ann Arbor road, by way of the Plymouth cut-off. This route will follow the present road by way of Plymouth except that it will go onto new location which will detour the highway away from Plymouth entirely and provide a road almost free from cities and villages between Ann Arbor and Detroit and will also shorten the distance somewhat.—Adrian Daily Telegram.

FARM CROPS FOR 1924

The growing season of 1924 terminated for the greater part of the state on October 21-23, when the first general killing frost occurred. Notwithstanding the backwardness of the season and slowness in maturing, all main crops except corn, clover seed and sugar beets are above the average in yield per acre, according to the November crop report issued by L. Whitney Watkins, Commissioner of Agriculture, and Verne H. Church, U. S. Agricultural Statistician for Michigan. Fruit growers suffered more generally than grain farmers this year as apples, peaches and pears were only partial crops.

Corn: Crop correspondents report an average corn yield of 27 bushels per acre, or a total crop of 45,981,000 bushels, as compared with a yield of 34.5 bushels per acre and a total production of 58,167,000 bushels last year. The ten year average yield for Michigan is 33.2 bushels per acre. 42 per cent of the crop this year is reported to be of merchantable quality as compared with 78 per cent last year. Only about 50 per cent of the crop is being husked, approximately 35 per cent has been put into silos, and 15 per cent is being hogged down.

The National crop aggregates 2,477,538,000 bushels, more than one-half billion bushels less than was produced last year. It is estimated that 63.2 per cent is of merchantable quality. The amount of old corn remaining on farms is reported at 101,984,000 bushels.

Buckwheat: The average yield of buckwheat is 15.5 bushels per acre, as compared with 14.2 last year and 13.6 the ten-year average. The total crop for the state amounts to 368,000 bushels, and has an average quality of 90 per cent or one per cent better than the ten-year normal. Yields varied considerably as fields did not ripen evenly in all cases.

For the country as a whole, the buckwheat crop amounts to 15,520,000 bushels, or 1,600,000 larger than the 1923 crop.

Potatoes: Although Michigan growers planted about 12 per cent less average than the average of the last ten years, the production indicated from their reports amounts to 38,227,000 bushels. This crop has only been exceeded twice, in 1909 and 1914. The large production is due to the high yield of 127 bushels per acre. This is the highest yield since 1869 when the average was only one-sixth of that for the current year. The quality is rated at 91 per cent, being four per cent above the average and good in nearly all sections. It is estimated that 61 per cent of the crop will be shipped out of the counties where grown.

A marked increase in other states, as reported since the harvesting of the crop became well advanced, gives a total of 454,119,000 bushels. This is the largest crop on record although less than a million bushels over the bumper crop of 1922.

Beans: A special inquiry during the month brought forth the information that 84 per cent of the total acreage of beans in Michigan this year was planted to small whites, 4 per cent to large whites, 10 per cent to red kidneys, and 2 per cent to soys, limas and others.

Clover Seed: While some good individual yields are reported, much of the crop averages light. The acreage is estimated at 85,000 as compared with 105,000 last year and 150,000 two years ago. The indicated yield is 1.2 bushels per acre, giving a total production of 102,000 bushels as against 147,000 in 1923, and 240,000 in 1922. The quality is rated at 86 per cent.

The total crop of the United States is estimated at 817,000 bushels, being generally light throughout the country. Last year's crop was 1,233,000, and that of 1922, 1,887,000 bushels.

Test weights of grains: The average weight per measured bushel of winter wheat this year is found to be 59.5 pounds; spring wheat, 58.0 pounds; oats, 33.8 pounds, and barley, 48.4 pounds, all being decidedly above the average.

Sugar Beets: The condition of the sugar beet crop on November 1 was 83 per cent as compared with 90 per cent one year ago. The beets are averaging smaller in size than usual but possess a good sugar content.

Fruits: The harvesting of the apple crop has been completed and is estimated at 7,333,000 bushels, or 44 per cent of a full crop. The commercial portion is placed at 1,222,000 bushels. The quality is rated at 67 per cent, 12 per cent below last year and 10 per cent below the ten-year average. The total apple crop of the country aggregates 177,238,000 bushels, of which 27,188,000 barrels constitute the commercial portion. The quality is 74.7 per cent. Last year's commercial crop was 34,403,000 barrels.

The pear crop represents 67 per cent of a full crop for Michigan, a somewhat greater production than indicated earlier in the season. The quality is rated at 86 per cent, or two per cent below the average. For the United States, the production totals 17,925,000 bushels which is slightly greater than that of last year.

Michigan's grape crop proved to be 75 per cent of a full one, and had a quality of 74 per cent. Frost damaged a portion in commercial districts, because of the lateness in maturing. In northern districts, very few grapes ripened before the frost. The Nation's crop is reported at 1,771,896,000 pounds with a quality of 89.8 per cent.

Farm Labor: The supply on November 1, was 86 per cent of normal and the demand, 80 per cent of normal; or a ratio of supply to demand of 108 per cent. Good weather prevailed throughout October and lessened the need for farm labor to some extent.

Almost any town can support from three to five citizens who wear three dollar hats on thirty-cent heads.

As many men and women as can go from Plymouth are asked to notify Miss Carrie Partridge, phone 713, at once, so the Northville ladies will know how many to prepare for. This is important. Do not fail to do your part.

The bazaar was a great success in every way. I guess the ladies are still counting their profits, as they have not handed in the total figures. It will be known in time. And such a hungry and happy crowd!

The executive committee of Christian Endeavor is planning a social, the date of which will be announced later.

Be Modern When You Build!

The truly modern, up-to-date house has walls of some good wall board, such as Sheetrock. Then the builder knows that he has walls that won't crack, and that will resist heat and cold, deaden sound, and stand up and give years of useful, practical, troubleless service.

When you build, make sure that your home is truly modern—including the walls.

Buick Continues its Leadership

For the seventh consecutive year Buick has first choice of space at the National Automobile Shows. This signal honor is awarded annually by the National Automobile Chamber of Commerce to the manufacturer-member having the largest volume of business for the preceding twelve months.

In winning and in maintaining this enviable position year after year, Buick has demonstrated conclusively that the true value of any automobile is reflected in the consistency with which the public buys it.

Since the introduction of the 1925 Buick models, public patronage has increased to an even greater degree.

A tribute to the Buick engineering skill and manufacturing ability that have provided newer and better Buick cars without departing in any way from the fundamentals of power, economy and dependability for which all Buicks have been famous.

When better automobiles are built, Buick will build them

ELM

The Parent-Teachers Association held its regular meeting at the school house, Tuesday evening. Miss Edna Burger and Richard Smith rendered piano solos. Mr. Smith, superintendent of Plymouth schools, gave a very interesting and helpful talk on school problems and their solution, giving the P. T. A. several suggestions where they might assist with the general school work, in providing material and apparatus to make our children more fit to fill their places in the world, stating this generation would need more strength to compete with the automobile age than we did with the ox and horse age. He also encouraged the intelligence test in all schools to try to determine what a child was best fitted for, and to find out as far as possible what a child wished to do in a business way, thereby cutting down the overwhelming percentage of men and women who are misfits. He stated statistics showed that at present Detroit showed 252 per cent turnover, where it should be only 20 per cent, and that every turnover cost from \$50 to \$200, and that we as consumers must pay for it. So it behooves every one of us to give this our careful consideration and co-operate with the schools in solving this problem.

There will be Sunday-school in the school house, next Sunday, at 11:00 o'clock. Last Sunday many of the children were given bibles and testaments for learning the ten commandments. The Sunday-school is planning a social and entertainment, to be held, Friday, December 5th, in the school house.

Friends of Jamie Wilson regret to hear that she is confined to her bed again from complications arising from her operation.

Mr. and Mrs. Frank Wolfram were among the thirty guests invited to celebrate the fiftieth birthday of Mrs. Wolfram's sister, Mrs. Fred Schimelpfeng, of Detroit.

Several beautiful plants from the flower show, recently held in convention hall in Detroit, were presented to Mrs. Barrows, matron of the Booth home.

Mrs. Dent, attendant at Booth Home, has returned from a two months' vacation at her home in Syracuse, New York.

The Elm team played the Newburg team at soccer foot ball on Saturday, and beat them 60 to 12. Keep it up boys, you're doing fine.

Miss Nils McCormick, attendant at the home for the last two years,

has returned to her home in Davison, Mich., to make preparations for her wedding, to take place this winter.

The Booth school is making extensive preparations for their Thanksgiving festival.

Mrs. Pearl Wilson gave an attractive farewell dinner at her home on the Elm road, Sunday, complimenting her sister, Mrs. George Hawkins of Detroit, who with her son leave soon for Florida for the winter.

Miss Beatrice Douglas entertained her mother, Mrs. Robert Douglas, Miss Cleo Maher, Mrs. Dan McKinney and Mrs. William Grammel, Saturday. The party motored to Ann Arbor to spend the day.

Dale Wilson of Elm, is again captain of the Plymouth High foot ball team, this year.

Mrs. George Michelin entertained the ladies of the St. John's Guild of Plymouth, Wednesday afternoon. The afternoon was spent with the regular business. Mrs. Michelin served refreshments.

The St. John's Guild will give a chop suey supper and card party on Tuesday, December 9th, at the Penniman Allen auditorium. Everyone in this community is invited.

Several of our hunters in the north already have their deer. Charles McKinney, Dan McKinney, "Bud" Shaffer, Roy Clement and Bert McKinney returned home Wednesday evening from Sidnaw, all proud possessors of deer. Bud and Roy claim the prizes, capturing 211-pound and 206-pound bucks.

Help boost your community, and phone in any notices to Redford 7021-R4.

PERRINSVILLE

The Ladies Aid society was entertained by Mrs. William Love, Wednesday, November 12th, that date being also her thirty-fourth wedding anniversary. Four ladies from the Baptist Aid society were also present. The next meeting in December will be with Mrs. Mary Woods.

Rev. Havens held a church meeting at John Beyers', Wednesday evening, when new trustees and stewards were elected. It was decided to put a basement under the church, which will be a great help and convenience.

Miss Mabel Johansen of Detroit, visited Charlotte Baehr, Saturday and Sunday.

Mrs. Hattie Stephenson of Wayne, spent last week with Mrs. Grace Hanchett. She also attended the Ladies' Aid and the church meeting.

Mrs. Mattie Bridge, who had been a sufferer for a long time, passed away, Monday evening, November 10th. Funeral was held at the home last week Thursday, and interment was made in Maple Grove cemetery. She leaves to mourn their loss, her husband, two sons and three daughters and seven grandchildren.

Dear Mother, we know you are resting. But oh, how our hearts ache today; But God has promised a meeting, If only His word we obey.

But we know your sufferings are over, And your smiles will shine over there; So we wait for that blessed meeting over there.

NEWBURG SCHOOL BENEFIT

The "Rag Carpet Social," held at the L. A. S. hall last week Friday evening, under the auspices of the Parent-Teacher association, for the school benefit, was certainly a success socially and financially, netting about \$52.00. We wish to thank the L. A. S. for the use of the hall; also Miss Youngs for her kind assistance. Ed. Taylor did excellent work as the auctioneer, and his services are much appreciated by all, especially the P. T. A. The community responded beautifully with gifts for the fish pond, candy and lunches. With such co-operation, much can be accomplished. The program was appreciated, and consisted of the following: Vocal selections—Miss Gladys Horton, with Miss Leona Joy at the piano. Recitations by little Alice Bakewell and the little sisters, Nellie and Margaret Osten, were well rendered and greatly appreciated, as was also "Radio," delivered by Melvin Perkins.

The "Negro Debate," especially created a great deal of mirth, with Harmon Gates, president. Debators—A. Bakewell, Jack Taylor, Wm. Lomas, Howard Cochran. Judges—Tom Stonehouse, Harold Cochran, John Thompson.

The prominent notice given by the Plymouth Mail helped greatly in the success of this affair, and is much appreciated by the P. T. A.

DAD has always wanted an open car. He likes freedom. He wants speed—and flexibility. He loves to open 'er up on a smooth country road and feel the wind whiz past his face.

But Mother . . . she wants comfort and protection—she's thinking of that rainy day when the youngsters have to go to school.

And here at last is a new-type car to meet this old-time family problem. It's a glorious—joyous—free, airy open car when you want it.

Then when it storms it may be changed to a comfortable, weather-tight enclosed car with complete protection from wind and rain.

Thirty seconds is all it takes—simply lower the roller side enclosures, without even leaving your seat. You've never seen anything like it before.

The Duplex body is framed and

shaped in steel. Upper and lower sections are integral. Thus its construction is substantial and its beauty lasting.

It banishes once and for all the trouble of attaching the old-type curtains—makeshift at best.

No more hurried efforts hunting for the right curtain while the storm beats in.

No more exposure, through holes torn in them, while trying to obtain, for the emergency, the protection given by a closed car.

To the man unwilling to sacrifice the thrill of open car motoring—to the woman who wants closed car protection right at her finger tips—this car offers a wonderful new adventure—it marks a new era in fine car possession.

In justice to yourself—see the new Duplex now. Only Studebaker makes it.

Don't Burn Blackened Lamps

Our customers are reminded that Edison Service includes free lamp renewals.

The approach of the long winter evenings suggests the wisdom of exchanging lamps that have become blackened through long use, or that are burnt out, for new ones.

Remember, a blackened lamp consumes practically as much current as a new lamp, and may give only half as much light.

IT'S a fact! You can get the highest grade motor oil for only a few cents more than you waste on oil that doesn't stand up. FOOT BALL NOTES

South Lyon vs. Plymouth Second Team

On Wednesday of last week, Plymouth's second team played South Lyon at Plymouth, losing by a score of 7 to 0. They played a good game, but early in the contest, Hickey was injured. Plymouth was outweighed 20 pounds. No player did outstanding work though all did well. Some first team reserves went in to get a workout during part of the contest.

Starting line-up: F. Howell, l. e.; L. Sietoff, l. t.; W. Murphy, l. g.; E. Cummins, c.; C. Tillotson, r. e.; B. Becker, r. t.; L. Wisley, r. e.; E. Cummins, q.; C. Gill, r. h.; T. Hickey, l. h.; H. Miller, f. b. Substitutes, Taylor for Gill, Doudt for Hickey, Rodman for Becker, Hiery for Tillotson.

Plymouth vs. Richmond at Richmond, Last Saturday.

By the largest score that it has been defeated by this year, Plymouth lost the State Championship game. This contest was featured by the work of two men on the Richmond team who will probably make the all state.

Starting line-up—Sump, l. e.; Wilson, t.; Hiery, g.; Kenyon, h.; Beaman, c.; Kurze, r. e.; Hubert, t.; Perkins, g.; Bob Taylor, h.; Holmes, f. b. Substitutions: Ambrus for Hiery, Becker for Ambrus, Ambrus for Holmes.

Today's Reflections

The old-fashioned Plymouth boy, who used to consider it smart to build a rabbit trap, now has a grandson who thinks nothing of building a radio set.

Nature evens things up, after all. What if a cat had to carry insurance on all nine of its lives?

Nothing can equal the sneer a bald-headed man has for the Willie-boy with his hair hanging down in his eyes.

Sometimes we see a Plymouth girl so pretty we feel like walking right up and telling her how good looking she is, and then we think how unbecoming we would be with a black eye.

They say that President Coolidge never smiles. Wonder if he has ever seen a pair of those bell-bottomed pants?

The fireless cooker may be all right, but it's not as comfortable as the old kitchen stove when you back up to it on a cold day.

After a Plymouth man has been married about twenty years, he'd like a dollar for every time his wife has said, "I wish I had something decent to wear like other women."

The New.... Come in and See it Today Buick Coach

Now on Display in Our Salesroom

Today Buick presents the Coach. On and after today, "coach" ideas will be revised, for the type of coach that Buick presents, changes the standard that previously have governed coach construction.

Here, finally, is a car of the coach type that is a real closed car, one in which closed car quality, comfort, equipment and durability have not been sacrificed to price.

This Buick Coach, embodying these new principles of coach design, is available on either of the two dependable Buick chassis. There is a Master Six Coach and a Standard Six Coach—the quality is identical.

The chassis are the same Buick chassis that furnish such outstanding performance to the other models of Buick; with the famous Buick Valve-in-Head Engines; with Buick 4-Wheel Brakes; with all driving parts sealed in iron and steel housings to keep dirt and water out and lubrication in; with Buick Torque Tube Drive; and with Buick Cantilever Springs to provide the utmost riding comfort.

BUICK NOW LEADS IN COACH DESIGN

Besides being built on the Buick chassis, Buick Coaches show these further advantages over the ordinary coach type.

THE BODY IS BUILT BY FISHER

The new Buicks present the same smart, sweeping contours as other Buick closed cars. They are moulded to shape from heavy gauge material, with no box-like corners or unsightly joints.

THE FINISH IS DUCO

The Master Six Coach in Duco Cobalt Blue with upper-structure in black; the Standard Six Coach in Duco Brewster Green with upper-structure in black—a finish identical with that of the most costly cars.

TWO WIDE DOORS

Permit people to enter or leave the rear seat from either side without front seat occupants needing to get out of the car. There are deep cushions on the backs of the seats, as well as on the seats, and plenty of leg room. The rear seat holds three grown people in comfort.

THE NEW FISHER V. V. ONE-PIECE VENTILATING WINDSHIELD

Both Buick Coaches have this new feature of closed car convenience and comfort. This windshield is held tightly in padded grooves and opens or closes with a turn of one hand.

BUICK COACHES ARE FITTED WITH REFINEMENTS

Heretofore found only on costly enclosed cars. Here is interior hardware of the most attractive pattern; windows that are opened and closed by the latest, most modern window-lifting appliances; a foot rest for rear seat occupants; an automatic windshield wiper; a rear-view mirror; a dome light; and a silk roll curtain for the rear window.

AND BUICK 4-WHEEL BRAKES FOR SAFETY

These are the first coaches to be offered with modern brake equipment.

SET UP NEW RECORD FOR EGG PRODUCTION

LEGHORNS IN M. A. C. CONTEST PASS HIGH FIGURES OF FORMER YEARS—VAN BUREN COUNTY PEN WINS.

Establishing a new record for ten-bird pens east of the Rocky Mountains, White Leghorns owned by W. C. Eckard, of Paw Paw, Van Buren County, won first place in the second International Egg Laying Contest, which closed last week at the Michigan Agricultural College. Mr. Eckard's ten birds produced 2,622 eggs during the 52 weeks of the test, an average of 262.2 eggs per bird.

The best previous mark for a ten-bird pen, in the section east of the Rockies, was 2,531, made at Storrs, Connecticut, in a similar egg laying contest. Second place in the M. A. C. contest went to L. F. Heasley, of Dorr, Michigan, whose ten Leghorns totaled 2,350. Eckard's second pen was only fourteen eggs behind the second place winner.

No records were broken by individuals in the contest this year, according to C. F. Ferguson, M. A. C. specialist in direct charge of the contest. Of the 1,000 birds entered in the 100 pens competing, high honors were divided at 285 eggs for the year by a Leghorn owned by Mr. Eckard and another entered by Mr. Heasley.

White Leghorns took the first five places in the entire contest, a pen of Rhode Island Reds, entered by the Milan Hatchery, of Milan, placing sixth in the contest, or first among heavy breeds. Others whose pens finished in the first ten included: Chas. Hefferan, Newaygo, Mich.; H. A. Keister, Bangor, Mich.; O. S. Thompson, Allen, Mich.; Circle "W" Farm, Gates Mills, Ohio; Northland Farm, Grand Rapids, and Geo. B. Ferris, Grand Rapids.

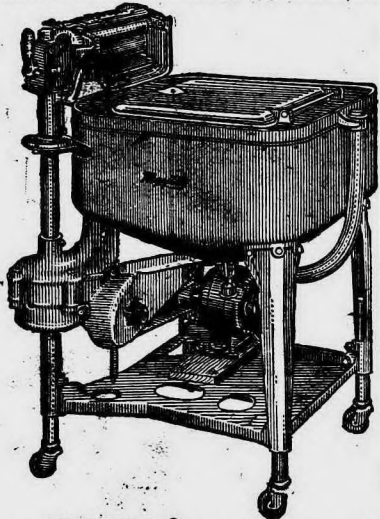

The grand total of production for the 1,000 birds was 263,965 eggs, or an average of 169 eggs per bird for all breeds. This is an increase of 3.5 eggs per hen over the contest held a year ago at M. A. C.

A "check artist" victimized Ypsilanti merchants for over \$100 last week.

The union schools of Redford now employ 100 teachers. There are about 4,000 pupils.

J. H. Steer, a former Plymouth resident, and editor of the Mail, is spending the winter in St. Petersburg, Florida.

The new school building to be erected at Redford, will be named the S. D. Holcomb Elementary School, in honor of Dr. S. D. Holcomb.

South Lyon's new factory, the Forged Seamless Tube Company, has all the machinery installed and is about ready to start operations.

Redford Township has 35 miles of pavement, which the Record claims is more miles of paving than in any other township in the county.

An Oxford gardener has been exhibiting a stalk of cabbage on which four heads had grown weighing 21 pounds. One head developed early and was picked off, after which the plant produced the other four.

The village council of Northville have instructed the village attorney to prepare an ordinance regulating the speed of Pere Marquette trains through that village, the limit of speed being placed at fifteen miles an hour.

Ann Arbor has a citizen that is entitled to a medal for long distance walking. It is claimed that he walks 25 miles every night, covering 175,500 miles each year, and that he has been doing this for the last 20 years, which would mean that he has traveled during this time, 3,510,000 miles. The name of the gentleman is Mr. Gerstner, city night watchman. We claim this is some record.

Forest fires did considerable damage near Fowlerville recently when about 300 acres of land were burned over. All buildings, crops and implements on one farm were likewise reduced to ashes. Several other woodland fires have been reported in this locality during the past few weeks. Although the origin of several is not known, it is pointed out that the butt of a cigarette carelessly thrown aside by hunters may start a destructive fire.

John Tanner of Brighton is the owner of an old coach that he brought from New York City in 1871 and subsequently used it in his

livery business. It was a classy vehicle of those days and is still in a good state of preservation, with its running gear solid as ever and its rich upholstery intact. It made its last public appearance in a homecoming parade in 1909, and has again been brought to public notice because Henry Ford paid Brighton a visit last week for the express purpose of seeing it, possibly with the expectation of adding it to his unique collection of vehicles that the automobile supplanted.—Milford Times.

D. U. R. TO RUN TRANSFER LINE

Elliott G. Stevenson, president of the Detroit United Railway, announced Saturday that the D. U. R. plans to put into operation the system by which interurban passengers will be transported on single-deck buses between the city limits and the main terminal station at Jefferson avenue and Bates street about December 1st. Mr. Stevenson said that 50 such buses will be placed in service. He added that after the buses begin to operate, most of the D. U. R. interurban cars will not enter the city at all, but will stop at the limits, where branch terminal stations will be built. The congestion of traffic on the city streets, which greatly delays the progress of interurban cars between the Jefferson avenue terminal and the limits, was given as the reason for the proposed change.

One sub-terminal and transfer station, located at Gratiot avenue and the Detroit Terminal Railway, is near completion and will be first used, and two other such sub-stations are planned, Mr. Stevenson said.

"Incoming passengers will leave the interurban cars at the sub-terminals and board the buses for the ride through the city," Mr. Stevenson explained. "They will be provided with transfers acceptable as fare on the buses."

"Outbound passengers will be carried from the interurban station on Jefferson avenue on the buses to the city limits, where they will board the interurban cars at the sub-terminals. Only interurban car passengers will be permitted to use the buses."

"After the bus system is put into operation, the only interurban cars that will enter the city and proceed to the downtown terminal will be a few parlor cars."

Mr. Stevenson said the 50 buses to be put into service December 1st are being built by the Yellow Coach Co., of Chicago.—Detroit News.

Officers took up the trail immediately, but up to that evening, the robbers had not been apprehended. They were last reported to have been seen on the Plymouth road headed toward Plymouth.

A representative of the Mail made a visit to the local greenhouses, last week, and saw the wonderful displays of chrysanthemums, which the local concerns have grown this season. At the Heide greenhouse there was a fine display of "mums" in all colors. Mr. Heide is now erecting another addition to his plant, which will give him more much needed room. At the Ross & Sutherland greenhouse there was also a large and beautiful display of the "mums" in all colors. The local growers have been busy the past few weeks marketing the "mums."

While hunting with a party of friends from Lyons, Mich., in the Huron Mountains in Baraga County, F. W. Hillman of Plymouth had the misfortune to accidentally shoot his friend and companion, Victor Upton of Lyons, last Monday, when he mistook him for a deer. The injured man was taken to the hospital at Hancock. SIMPLICITY SINCERITY, SOLIDITY

are the three characteristics of a slab of stone like this shown in the illustration; simplicity of nature, sincerity of convictions, solidity of principles and character. Although such a monument may seem crude and unfinished, it is really a touching tribute of esteem. We make and erect all kinds, plain or elaborate.
