## WILL MAKE BRAKE TEST IN PLYMOUTH OCT. 5-10

Plymouth Will Take Part in Coming State-Wide Brake Test Campaign.

Arrangements are all completed to carry on the brake test campaign in Plymouth as a part of the state-wide program, which will be held from October 5th to 10th.

The local branch of the Detroit Automobile Club and the local police department are co-operating to carry on the campaign here, and it is to be hoped that every driver of a motor vehicle will help to make the test a complete success.

That part of Starkweather avenue between Spring and Farmer streets has been designated as the place where brakes will be tested. Competent mechanics from the several garages in the village will be on duty between the hours of 8 to 11 and 3 to 6 o'clock each day. There will be no charge for the inspection, but no repairing or adjusting will be done. The following set of rules governing the brake test campaign, as were used in the "Better Brakes Campaign" of the Syracuse Safety Council, have been adopted:

No advertising matter of any kind to be given out by anyone to motorists lined up to test brakes or at any other point within one-half mile of the test station.

No information should be given motorists whose cars fail to pass inspection, as where they may have the work done on their brakes.

No adjustment of any kind should be made on or near the testing grounds during the test.

Inspectors must use every possible precaution to avoid accidents. Ample space should be maintained between cars at all points in making the test.

Inspectors must not argue with the motorists whose cars fail to pass the test. They must always be polite, regardless of circumstances.

O. K. certificates are to be issued only when cars make a satisfactory stop with rear wheels inside the stop line.

Brakes must not be O. K.'d when:

- (a) Braking is all on one wheel.
- (b) Brake lining is worn out.
- (c) Both foot and hand brakes are used or required to make stop.
- (d) When Ford bands chatter and grab so badly as to be dangerous.
- (e) When cars are driven over test line at less than 20 miles per hour.

The inspectors must be careful not to be technical and must exercise their very best judgment in issuing O. K. or rejection certificates.

A record must be kept at each station for each shift showing the number of cars inspected, number O. K.'d, number needing adjustment, relining and second test.

The person in charge at each station is held strictly accountable for the enforcement of the above rules.

## U. S. MARINE BAND COMING TO DEARBORN

An opportunity seldom afforded people in the mid-west is to hear the United States Marine Band, better known as The President's Own Band. Through the efforts of the Dearborn Rotary and Exchange clubs, this wonderful band has been secured for two performances in Dearborn, on Wednesday, October 7th.

The proceeds from the two concerts are to go toward the relief of crippled children.

The band composed of more than half a hundred scarlet coated members, every one a citizen of the United States, is the most unique of all the great musical organizations of this country.

Organized in 1801, almost at the birth of the nation, the band has had in all eight leaders, with Capt. Wm. H. Sautelmann, the present conductor.

The band is rich in solo material, many of the men having national and international fame.

Until the fall of 1911 the band was rarely heard outside our national capital, but since then it has been making an annual tour. President Coolidge has granted permission for the present concert tour, and Dearborn is one of the cities to be visited.

Arrangements have been made for the band to appear here, October 7th. The concert will be held at the Dearborn High School, and is free and open to the public. Ample space will be provided for cars in the parking lot.

## ROTARIANS HEAR EDDIE GUEST LAST FRIDAY

The Plymouth Rotary Club and a number of invited guests had the pleasure of hearing Eddie Guest of Detroit, at their regular noon-day luncheon last Friday. After a most delicious chicken dinner, the speaker was introduced by Dr. B. E. Champe, chairman of the program committee. Eddie is always a prime favorite with Plymouth audiences, and for nearly an hour, which was altogether too short, he entertained his hearers with the recital of his own poems in his humorous and original style. It was a splendid program and thoroughly enjoyed by everyone present.

## OFFICERS' TEAM WON TWO BALL GAMES

Saturday, September 19th, the Detroit House of Correction Officers took one from Stark & Williams of Detroit, 18 to 7. Kuhn, the officers' slabbun, had the Detroiters at his mercy after the first inning, while S. & W. used Kier, Walker and Sexton, neither of whom were able to stem the officers' clubbing. Two errors for the officers and four for S. & W. marked the game and contributed to the run column to make it lopsided. Umpires—German and Hale.

Sunday, September 20, the Officers added another victory to their string, by defeating Pittman & Deans of Detroit, for the second time this season. This time the P. & D. boys took the short end of a 12 to 7 score, eleven of the Officers' twelve runs being donated to them by Students, the P. & D. hurler, in the first three frames. Smith replaced Students in the fourth, and allowed only one more run to the farmers' total. Roman, the Officers' southpaw hurler, scattered the visitors' eleven hits where they'd do the least harm, and his team mates, with but two errors to mar the play, mopped up the scattered offerings. Relha, for the Officers, hit for four out of five up, and Hunter and A. Jaska hit for three each. Roman marked the game with a clout for four bases. Umpires—Brightmoor and Walker.

Rev. D. D. Nagle, who has been pastor of the local Methodist church for the past four years, was appointed to the pastorate of the Strathmoor Methodist church by the Methodist Conference, held at Flint the past week. Rev. F. A. Lendrum of Bay City, was appointed to the pastorate of the Plymouth church.

## A BUSINESS CHANGE

William F. Brennan has sold his grocery and meat market on East Ann Arbor street, to E. L. Hills, who will continue the business. Mr. Hills has leased his interest in the S. H. Hills & Son dairy business, to his father, S. H. Hills. R. L. has a host of friends who will wish him an abundance of success in his new business enterprise.

## FAREWELL RECEPTION AT M. E. COMMUNITY HOUSE TONIGHT

A public farewell reception will be given for Rev. D. D. Nagle and wife, at the M. E. Community House on this Friday evening, September 25th, at 8:00 o'clock. The public is cordially invited.

## FOUND SKELETONS

Merten Smith, who is employed at Louis Stine's gravel pit on the Jess Tyler farm, southwest of the village, unearthed the bones of four skeletons, Tuesday afternoon, while scraping gravel into the loading hopper at the pit. Officer Fred Reiman and Justice of the Peace Dr. W. G. Jennings were called, and the Justice ordered the remains re-interred.

## SOME BIG PICTURES COMING TO LOCAL THEATRE

The management of the Penniman Allen theatre announces that they have booked some big pictures for the local theatre for the next few weeks, that will be of especial interest to the many patrons of this popular theatre. Among the attractions booked are the following:

- October 4 and 5—Thomas Meighan in "The Man Who Found Himself."
- October 7 and 8—Fred Thompson in "Hiding the Wind."
- October 10—Richard Talmadge in "Isle of Hope."
- October 11 and 12—Jack Holt in the Zane Grey story, "Wild Horse Mesa."
- October 14 and 15—Richard Barthelmess in "Shore Leave."

- October 28 and 29—Bebe Daniels in "Wild, Wild Susan."
- October 31—Pat O'Malley in "Proud Flesh."
- November 1 and 2—Anita Stewart in "Now, the Train Shall Meet."

## WILL COMMENCE COLLECTION OF GARBAGE

The Sanitary Service Co. will commence the collection of garbage and ashes beginning Thursday, October 1. The garbage question especially, has been a problem here for some time, and the opportunity that is now given our citizens to have the garbage from their homes and business places collected and carted away at a nominal sum, should receive hearty support and patronage. We call attention to the advertisement elsewhere in this paper.

William Sutherland is just completing a new house on Ross street in the Sunshine Acres subdivision.

## BIG AUTO RACES AT STATE FAIR GROUNDS

Detroit State Fair speedway, September 24th. The world's championship 150-mile auto race will be held on the five mile speedway there Sunday, October 4th. It will be the second annual race of such character and drivers are coming and have entered from all parts of the United States. The Michigan Speedway like last year will run the big race. Announcement of the race last week in the motor centers of the country, particularly through the automotive district, created a distinct sensation. Last year close to 25,000 people saw the race—witnessed fourteen of the fastest cars in America start away in regular Indianapolis 500-mile race formation on what proved to be a record breaking and thrilling battle of speed and brain and daring driving. Fifty-two cars were entered and took the qualifying trials. This year with the fine record of 1924 in the background the race looms as next in annual importance to the speed battle that is waged each year on the brick at Indianapolis. Speed of close to 100 miles an hour is predicted for the race. The State Fair track has been specially banked for the race. The turns are thrown up so that race cars can go into the turns at the highest possible speed. Representative of the contest board will be in charge of the race. This race automotive men know is one of the few really big auto battles in the country that are open to any driver where cash prizes and accessories are hung up. That is why many drivers were entered last year. The trials will be held Saturday afternoon, and the big race with its starters and all pit men and mechanics will be ready to start at 2:30 o'clock, Sunday afternoon, October 4th. Entries for the race close Thursday, October 1st, at midnight, with Chester M. Howell, manager of the race at the Fort Shelby Hotel, Detroit.

## OBSERVE FORTY-HOUR DEVOTIONS THIS WEEK

Our Lady of Good Counsel church has its forty-hour devotions, this week Friday, Saturday and Sunday. This devotion is an annual affair, and opens with high mass, Friday, at 7:30 a. m. The Reverend Leo Gaffney of Brightmoor will hold the services on Friday night, at 8:00 o'clock. On Saturday at 8:00 o'clock p. m., there is Holy Hour of Adoration, and on Sunday, the closing exercises will be conducted by Reverend W. G. Peek of Northfield, at 8:00 o'clock p. m. The neighboring clergy will assist Father Lefevre in these devotions. Friday is assigned to Ladies' Day of Adoration; Saturday, Children's Day, and Sunday, Men's Day. It is hoped that all members of the parish will make use of the extraordinary devotion, and be in attendance at the hour assigned them. Non-Catholics are welcomed and invited to attend these devotions in the evening at 8:00 o'clock.

Earl McCrum has opened the De Luxe Music Shop at 788 Penniman avenue. He makes a specialty of piano tuning and phonograph repairing. He also carries a stock of sheet music and records.

## PLYMOUTH MERCHANTS WIN FROM YPSILANTI

The Plymouth Merchants, subbing for the St. Louis Y. M. C. A. team, who failed to appear in time for the first game of a double bill at Burroughs' Field last Sunday, scored a shut-out over the Detroit Ring Casting Co. team. Britcher, on the mound for Plymouth, had the ball doing tricks the Ring Casters never had seen before, and let them down without the semblance of a hit. Besides holding the opposition hitless, Britcher had eight strike-outs to his credit, and in the third inning struck out Blue, Gracoles and Roley on nine pitched balls. The locals found Blue's offerings to their liking, and drove out twelve hits for a total of ten runs in the five innings of play.

In the second game with the Ypsilanti Foundry Co. team as opponents, the Merchants hammered Persons, who uses his port side flipper, and Slagenwhite, a right hander, for nineteen hits, which put them on the long end of a 17 to 1 score. Millross, pitching for the locals, held the Foundry boys to seven scattered hits, and but for an error in the first, would have scored a shut-out. Three double plays by the home boys were features of the game, two by Millross to Hobbins to Britcher, and the other Britcher to Strasen to Elber, showed the boys were on their toes all the time.

The Merchants will play Rough and Ready at Burroughs' Field, next Sunday.

The Commission, Monday night, authorized the execution of a contract with the A. R. Crow Company of Detroit, for the construction of our sewage disposal plant. The amount of this contract is \$18,358.00, and the additional cost of the filters, for which the village will buy the material, will be about \$14,000.00, which will bring the total cost of the plant well within the \$35,000.00 estimate of the consulting engineers. The work of this contract will start almost immediately, but will not be completed before next June. The plant will be erected east of the village flats between the cemetery and the River Rouge.

## MRS. LOUISA PACKARD PASSES AWAY

Louisa Hignall was born in Stuebene County, New York, November 10, 1840, and departed this life September 17, 1925, aged 84 years, 10 months and 7 days. She was the last of a family of six children.

She was married July 7, 1858, to Harvey C. Packard of Salem, who preceded her to the heavenly home eleven years ago. All her married life was spent on the farm to which she came as a bride. Into this home were born four children, Willie S., now of Detroit; Fred L. of Fargo, North Dakota; Donna Belle, whom death claimed November 8, 1904; and Tom L., of this place. She also leaves eight grandchildren and three great grandchildren, many nieces and nephews and a host of friends.

When a child of fourteen years, she gave her heart into the keeping of the loving Saviour, and through long years of her life, He was her constant companion and friend. Her life was one living example of perfect trust and confidence in the Heavenly Father's will. All things work together for good to those who love God, was her favorite quotation.

She was a life long member of the M. E. church. Her whole heart and soul were bound up in its interests. In the days of her strength, no task was too arduous if its doing would bring honor to the Master whom she served, with a devotion seldom surpassed. Her belief was founded on the Rock of Ages. Her faith was sublime. She was a great sufferer during her last illness, but bore it all with wonderful patience, thinking always of others, rather than herself.

Truly, like the virtuous woman of Bible fame, her children rise up and call her blessed.

Life's long struggle is over.

The Father has called her home, with loved ones she's staging in glory, Close to the great white throne.

The funeral services were held from the Schrader Bros. Funeral Home, Saturday afternoon, at two o'clock. Rev. D. D. Nagle officiating. Mrs. William Bate sang two beautiful solos. The interment took place in the family lot in the cemetery at Lapham's Corners.

Those from out of town, who were here to attend the funeral were: Mr. and Mrs. F. I. Packard of Fargo, North Dakota; Ivan F. Packard of Philadelphia, Pa.; Mr. and Mrs. W. S. Packard, Mr. and Mrs. Leo W. Smith, Mrs. M. W. Loogher, Mr. and Mrs. W. I. Savery and Miss Floodie Quackenbush of Detroit; Mr. and Mrs. Harvey Tyler of Port Huron; Mr. and Mrs. Herald Hamill and daughter, Jean, of Ann Arbor; E. J. Quackenbush of Highland Park; Mr. and Mrs. Wilbur Jarvis of Lansing, and Mr. and Mrs. J. H. Quackenbush and Mr. and Mrs. Earl Quackenbush of Detroit; also relatives from Worden, Salem and Train's Lake.

## MATINEE AT THEATRE SATURDAY, SEPTEMBER 26

#### CHANCE TO WIN FAME

Here is a chance for some bright boy or girl around Plymouth to become famous. For several years "Safety First" has been our great national automobile slogan. But now comes the National Safety Council of Chicago, asking for a new one to take its place. "Safety First" has merit, but something even stronger and more forceful is desired—something that will hit the auto driver right between the eyes, so as to speak—something that will make him think before he takes chances. Now, boys and girls, put on your thinking caps, study hard and see if you can't find a better slogan than "Safety First" or "Always Be Careful." You have as good a chance to win as anyone else, and it would certainly be gratifying to know that out of the thousands who will enter the contest, the winner hails from this community.

#### THEIR FALL DRIVE

If Plymouth business men will do a little looking around the local postoffice within the next few weeks they will observe a big lot of third-class mail coming into this section. That means that the mail order houses are at the height of their fall and winter campaign. From now until after the first of the year, they will be flooding the mails with catalogues and tempting "pay-nothing-down" offers. And there is but one good way to meet such competition—through the advertising columns of your home town paper. The home paper goes to the same people these catalogues go to, so why not give them a chance to read your message, too? Tell them how fully you can meet their wants, how you are right here to make good if they are not fully satisfied. Tell them your story, and you will sell them your goods. Mail order houses cannot exist without advertising, so then advertising must be the best thing to fight back with. Don't lose any more valuable time—drop around and let's talk it over now.

#### TIME TO BE CAREFUL

But for the fact that crops were well advanced and most of them had been harvested, America would have suffered a loss of millions of dollars from the excessive dry weather, which prevailed throughout the entire country during the latter part of August and the first two weeks in September. Even now a tremendous loss has been suffered, especially in the south, where not a drop of rain fell for fifty days, and but for the fact that there was an unusual yield of almost every crop, suffering both from a physical and financial standpoint would have been awful to contemplate.

Even with local showers reported in many sections, this nation is now in a parched state, and can suffer still greater loss through fires. Possibly not in years has the danger from this source been as great as it is right now. Not only are forests in such condition that they would burn like tinder, but fields and standing vegetation are equally as ready to burst into flame. We have in past seasons warned residents of Plymouth and community to be careful with matches while outdoors, but we do not believe the warning was ever needed as much as it is needed right now. Careless smokers and campers will cost this country even more than the loss occasioned by the drought before the fall season has passed. Let us, therefore, use greater precaution than we ever used before to see that our own community does not suffer from fires that can be prevented by a little common sense and care.

### TO STUDY CORN BORER CONDITIONS IN STATE

SPECIAL INSPECTION TRIP TO REACH SOUTHEAST MICHIGAN STATE AND NATIONAL AUTHORITIES IN PARTY.

Michigan sections infested with the European corn borer will be included in a special inspection trip sponsored jointly by the United States and Canadian departments of agriculture on September 29 and 30 and October 1, according to announcements made here this week by Prof. R. H. Pettit, head of the entomology department at the Michigan State College.

While corn borer infestations have been heavier in Ohio and Ontario than in Michigan, the situation in the southeastern section of the state is serious enough to demand close attention from all who are interested in Michigan's corn crop. A quarantine has been in force this summer in an effort to prevent the spread of the pests, which in some sections of Ontario are said to have resulted this year in virtual destruction of the crop.

Prominent government and state authorities will unite on the inspection trip in an effort to determine the exact situation and to make plans for future steps to control the corn borer.

#### OBITUARY

Berdna Norton was born in Stockbridge, Michigan, April 19, 1877, and departed this life September 16, 1925. She spent her early life in Stockbridge, and was united in marriage in 1892 to Frank Eckles. To this union were born ten children: Mrs. Steve Kendle, Clyde and Davis of Plymouth; Mrs. Will Jordon of Stark, John, Joe, William, Frank, Della and Marie, all of whom with the husband and eleven grandchildren survive. She also leaves to mourn their loss, two sisters, Mrs. Lulu Dye of Fenton and Mrs. John Mastie of Plymouth; and four brothers, Charles Force and Bert Norton of Stockbridge; Delvis Norton of Toledo, and Edwin Norton of Fenton.

Funeral services were held from the Schrader Bros. Funeral Home at Northville, and interment made in Riverside cemetery, Plymouth.

#### TO GIVE EXPERIENCE SOCIAL

The ladies of the Lyonia Community church are to give an experience social at the church, Wednesday evening, September 30th. A fine program is being prepared. The little bags that have been sent out for the purpose of painting the church are to be opened at this time.

#### IN MEMORIAM

In loving memory of our dear son and brother, Davis S. Wilson, whom God called from our home one year ago today, September 27, 1924. Just when his life was happiest, just when his hopes were best, God called him home from those he loved. To his eternal rest. We treasure the thoughts of days gone by, when we were all together; and though we are lonely without him here, only fondest memories will live forever. Sadly missed by his loving Parents, Sister and Brothers.

### URGE REPEAL OF THE EXCISE TAX

Automobile owners have a splendid opportunity to secure relief from the pressing burden of taxation, if they will act as a united cohort and urge action for the repeal of the war excise tax on their representatives in the 69th Congress, according to a statement issued today by Raymond Bachelder, secretary of the Plymouth Branch, Detroit Automobile Club.

Declaring that the repeal of the excise tax alone on automobiles and parts would average a yearly saving of approximately \$10.00 apiece on every automobile in the United States, Mr. Bachelder suggested that not only members of the club, but all local motorists should get in touch with their senators and congressmen, and urge that part of the \$350,000,000 surplus available for tax relief be applied to the repeal of the excise tax on automobile, parts and accessories.

"Last year," he said, "largely through the efforts of the American Automobile Association, Congress reduced the tax on accessories and parts from 5 per cent to 2½ per cent. This made a saving to the motorists of the country \$25,000,000, but it was only a drop in the bucket compared with the savings that will be made possible if the excise tax is wiped off the statute books.

"Later on the Detroit Automobile Club will circulate petitions so that an opportunity will be given not only to members of the club, but to all automobile owners to carry their protests to Congress against the continuation of the excise tax.

"This was a war measure and as such the motorists submitted and paid. Now seven years after the close of the war the millions of motorists using the automobile as a necessity in daily life are paying approximately \$150,000,000 in the form of a tax levy into the general fund of the United States Treasury to be applied to general government needs.

"The tax on every new automobile of the average value of \$225 is \$30.00. The manufacturer passes it on directly to the motorist. The latter is so advised in national advertisements, and if he doubts this, all he has to do is to look at his invoice.

"Many congressional leaders have indicated that they favor repeal—but there will be opposition from the taxpayers who have made the automobile their plighting. This opposition can be overcome only when and if the motorists make their wishes clearly known to their own representatives and demand to be relieved immediately from an economic wrong and a gross discrimination against a class which is already doing much more than its share in the upkeep of national, state and local government."

### COBRA SPITS DEATH FROM FIFTEEN FEET

Jungle Has Many Other Deadly Denizens.

To end a controversy over the death-dealing effect of a "spitting" cobra at a distance of 15 feet, C. Emerson Brown, superintendent of the Zoological gardens, is in possession of additional expert advice that upholds his contention.

"Publicity given the purchase of the deadly collection of snakes which were brought here from New York has aroused doubt in the minds of a number of persons who have informed me in writing and by telephone that they do not believe the snakes are so deadly," said Mr. Brown.

"One man wrote me he would not be afraid to face the pale of 'spitting' cobras at a distance of 15 feet, without any barriers between them. Of course, I do not believe he would, but he won't be given a chance, anyhow," added Mr. Brown.

Mr. Brown then offered a letter from Raymond Dittmars, curator of reptiles at the Bronx zoo, in New York, who is reputed to be the greatest authority on reptiles in this country. The letter reads:

"The black cobras that spit poison are the most dangerous of reptiles and can spit venom 15 feet with deadly precision and effect. At that distance, poison hurled 4 feet high on the glass of a case containing the species has clouded the glass.

"This condition prevailed here recently, when the cobras sent you and the ones here in the zoo were exhibited for the first time to visitors. The glass had to be washed so the snakes could be seen properly.

"Regarding the inquisitive gentleman who would face the cobras at a distance of 15 feet, he should equip himself with a bucket of penicillin and of potash solution to duck his head in to counteract the effect of the venom.

"Such an emphatic demonstration or lesson in natural history as he would stage might teach him something tangible about the ways of African cobras, if he survived."

The "spitting" cobra, like those in the zoo, are black, with red blotches on their underside, and the ones in the zoo are six feet long and about three inches in diameter. The snakes are in specially constructed cages.

Of the seven deadly cobras in the zoo, Mr. Brown says the green cobra of the Mamba species is the fastest snake in the world and strikes beyond its length in any direction with its head about five feet from the ground. The green snake is twelve feet long, has long fangs and is less than one inch in diameter. Mr. Brown added the green cobra strikes without giving a warning, and does not have to be "egged" to do it, either.—Philadelphia Record.

### Better Train Handling

Passenger engineers are studying the effect of "taking up slack" in a long train by riding in the rear of such a train under a plan devised for better handling effected by the Richmond, Fredericksburg & Potomac railroad, according to Railway Review. In this way the engineers are impressed by the fact that the handling of the train, which they thought personnel with due caution from their cab, was attended with serious discomfort to those in the rear cars. The plan has worked out satisfactorily, not only from the actual physical experience of the engineers' observations, but from the psychological factor which entered into the operation.

### Had an A.H.S.I.

"Want to join the Legion, boys?" asked a Legionnaire of a healthy young man of about his own age. "Can't; wasn't in the service." "Why weren't you?" the veteran demanded. "My intentions were good," was the rather reluctant explanation. "I went to a recruiting office where they put me in a room and told me to take off my clothes. A doctor walked up to me, looked at me kinda hard, an' then thumped me on the chest. I wasn't in the habit of letting strangers get rough with me, so I thumped his chest—an' I didn't get out of the hospital until the war was over."—American Legion Weekly.

### Nature Was Before Them

At Bronson, Minn., Charles Falk chose a rainy afternoon for butchering his fatted hog because the weather was not suitable for other work, and with the assistance of a neighbor the necessary preparations were made. When everything was ready the men proceeded to the pig-house to administer the stunning blow, but to their amazement found the porker dead near the door. It was found that lightning had killed the animal.

### Oil Does Not Freeze

A very precious oil, suitable for aviation, since it does not congeal even at a very high altitude, can be extracted from crickets, says consular advice to the Department of Commerce from Algiers.

Recently about 18 tons of crickets were sent to Holland from Algeria. Part of this quantity was utilized for feeding poultry, and from the remainder the oil for aviation purposes was extracted and has apparently given every satisfaction.

### Mining in Arizona

### FLAPPERS ARE OLD AS RACE'S HISTORY

Have Been Common in Every Race and Class.

There is nothing new under the moon. The flapper of today is one with Tyre and Nineveh. Away in the incredible years when the first foundation slab of the Sphinx was laid, the Egyptian flapper was interfering with the process of its future by furtive glances cast on impressionable members of the board of works of the pharaohs.

Cleopatra was a flapper. Shake-speare talks of her "hopping 40 paces down the public street." No one but a flapper could have adopted such a method of progression. Her freak of putting a valuable pearl in acid was sheer flapperishness.

Helen of Troy was a girl of many destructive impulses. She would have run at any cost. Hence the wooden horse and the fall of Troy.

At a little later period the skittish Venus was in the same capricious forum when she prevailed upon the "Pious Aeneas" to break his journey with her.

Horace in his songs invokes the name of Lalage and other maidens. It is safe to assume that two-thirds of them were little canaries who coyly responded to the lyrical advances of the Latin nightingale.

In the heroic days the Grecian flappers took much more exercise than their Roman sisters. They were the forerunners of the modern sports girl.

Here it may be well to indicate that flappers are not confined to any one class of communities, ancient or modern. They are just as frequent among the plebs as among the patricians.

There is not the faintest doubt that ill-fated Marie Antoinette, in her early years at the French court, was an enchanting flapper.

Another most unhappy woman, Mary Queen of Scots, was so full of espieglerie and fascination that John Knox, in Puritan Scotland, found her an easy victim to stern-browed persecution.

Louise de Valliere was not the obvious type, but she was a type of flapper none the less. She was quite a little bird who attracted the long devotion of a fastidious king in a few flights. Her friend, Mlle. de Montigny-Charente, afterwards Mme. de Montespon, was a bird of brighter methods, but both were of the order seductive that captures kings and clerks alike.

More hoydenish and daring than either of them was the gallant sister of Charles II, Inter Duchess d'Orleans. Charles's sister was as gay and larkish as the most up-to-date New York flapper. She loved to dress in the apparel of men, as girls of today adore appearing in mock-masculine garb at fancy dress dances.

Nell Gwyn was the very pink of flappers. Her smiles were as restorative as her oranges; and her kisses would have bucked up a regiment. Nell remained a flapper until the end. She never lost the arts of her griffling, impudent girlhood. Charles was a mighty good judge of the fair sex; and it is significant that he gave his best devotion to the queen and pride of flappers.—Book Notes.

#### Early Protestants

The name "Huguenots" was given to French followers of Calvin, Protestant leader of the Reformation. They suffered massacre at Vassy by the party of Guise in 1562. This act led to the civil wars, which continued until the Edict of Nantes in 1598, when civil and religious liberty was confirmed to them. The massacre of St. Bartholomew occurred August 24, 1572, during a truce in the wars. The power the Huguenots gained as a political party following the edict was of short duration, being destroyed in a few years by Louis XIII and his minister, Richelieu. Louis XIV, in 1685, revoked the Edict of Nantes, and as a result half a million Huguenots fled to England, Germany, the Netherlands, Switzerland and America.—Kansas City Star.

#### Found It Easy to Forgive

"You know the feeling, that flush of anger that comes over you when you're driving peacefully along a country road and suddenly hear a familiar sharp report," said the motorist. "You begin to curse and ask yourself why you didn't change that tire. Well, I was driving near the Oakland Hills Country and Golf club recently and all of a sudden 'Bang!' I got out to see which tire it was. They were all O. K. Then up comes a beklunkered chap and starts apologizing for something. 'Sorry,' says he, 'sort of missed my aim and drove my pill into your rear fender.' Sure enough there was a dent in the fender and the ball was a short distance away. I was only too glad to forgive him."—Detroit News.

#### To Aid Children

Knights of Youth, a new order whose purpose is the ethical training of school children, has been introduced in 12 public schools of New York city. Nearly 1,000 children are enlisted in the ranks of knighthood in one school. This order acclaims character as the knight's noblest quest, and it was formed to combat the increase in juvenile crime. It is sponsored by the National Child Welfare association.

# FIRST PRESBYTERIAN CHURCH

REV. S. CONGER HATHAWAY, A. M., PASTOR

### WATCH FOR RALLY DAY

Start the autumn by regular Sunday school attendance—you and your children. Presbyterian schools added 100,000 members last year. Let's do our part to increase the number in our school—beginning at once!

Next Sunday, September 27, is Rally Day

## PRESBYTERIAN NOTES

Elton Ashton, Edwin Schrader and Francis Hathaway attended the young people's Christian Endeavor conference held last Monday night in the Redeemer Presbyterian church of Detroit. Detroit Presbytery met Monday evening and Tuesday of this week in the Presbyterian church at Wyandotte. Elders Loomis and Stevens and the pastor attended the Tuesday sessions. Take a look at the church windows and see the fine new curtains the ladies have been hanging. You can see them best from the inside—on Sunday.

The men had a feast of melons, last Saturday night at the home of Elder Frank Hawk. During the class hour on Sunday, a rising vote of thanks was given him.

A. R. Nightengale of the Wesleyan Methodist church of Detroit, attended our service, last Sunday, and gave a few remarks in the men's class. Several other visitors were present.

Sunday will be Rally Day. The special offering for this goes to the Presbyterian Board of Christian Education, and will be forwarded to the treasurer, E. R. Sterrett, Witherspoon Building, Philadelphia, Pennsylvania. This board has charge of the following activities; summer conferences; missionary education, bible chairs in colleges; training schools for workers; college maintenance; education of ministers and missionaries; loans to students, university pastors; men's work, and general promotion of Christian education.

## BAPTIST NOTES

The important announcement for this week is the Sunday-school Rally, October 1st. Everyone make an effort to come and invite others.

The Wayne Association next week Tuesday and Wednesday at Rochester. The young people plan to be there on Tuesday evening at the banquet and evening program.

A number of the members of the Baptist church gathered at the home of Mrs. Sarah Bartlett, corner of Spring street and Holbrook avenue, last Tuesday evening, and had an enjoyable time. She expects to spend the school year with her daughter in Grand Rapids. Light refreshments were served. She will be missed by the church during her absence.

Rev. and Mrs. Sayles were in Wixom, last Sunday afternoon, where he officiated at the funeral of Edwin Mowry. The funeral was at the home. Mr. and Mrs. Sayles sang. Mr. Mowry has carried the mail on the rural route out of Wixom for twenty years, and was a leading member of the Baptist church of that place.

The quarterly meeting of the Baptist church is next Friday evening, one week away. Pot-luck supper served. All come and have a good time.

## ELM

Sunday-school service will be held in the school building, September 27th, at 11:00 o'clock.

Marvellus Clement and Miss Ethel Kuhn were married last week Monday evening, September 14th.

Mr. and Mrs. Lem Clement, with their daughters, Florence and Mabel, took a motor trip last week, to New York and Niagara Falls, returning last Friday.

Please telephone all news items to 7010-F11. Help boost Elm.

The first regular meeting of the Wayne County Council of Parent-Teacher associations, will be held Saturday, September 26th, in the Bedford High school building, being guests of the Bedford association, with an all day meeting, starting at ten o'clock.

The program for the day will be as follows:

10:00—Parliamentary class.  
11:00—Regular business meeting.  
12:00—Luncheon, 50c; served in building.  
1:00—Sectional meetings; pre-school work; rural work; grade work; High school work.

2:00—A big open meeting with a program for everyone interested in association work or not. Community singing. Two speakers—Clara Sanders of the Detroit Juvenile Court. Her subject will be "Causes of Delinquency." And Mr. Haynes, director of vocational education of Detroit, will speak on "Vocational Guidance."  
Musical numbers will complete the program.

Everyone is cordially invited and urged to attend this important meeting, which will be helpful to the individual as well as the community. The influence of the Parent-Teacher Association should be felt in all schools.

**A Good Thing—Don't Miss It**  
Send your name and address plainly written, together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing CHAMBERLAIN'S COUGH REMEDY for coughs, colds, croup, bronchitis, "flu" and whooping coughs, and tickling throat; CHAMBERLAIN'S TABLETS for stomach troubles, indigestion, gas, pain, that crowd the heart; MILDEN and constipation; also CHAMBERLAIN'S BALM, needed in every family for burns, scalds, wounds, piles and skin afflictions; these valued family medicines for only 5 cents. ## THE NEWLY APPOINTED PASTOR

# Rev. F. A. Lendrum

FROM BAY CITY

Will be Present and Preach next Sunday at the Usual Hours of Services

## "HEAR YE HIM!"

The retiring Pastor, Rev. D. D. Nagle, desires to take this opportunity of thanking the good folks both of the Methodist Church, and the sister denominations, and of the community at large, for the fine spirit of cooperation which they have extended to him during his stay in Plymouth. And he asks that the same welcome and good fellowship, and the same loyalty, be granted to his successor, who is an exceptionally fine christian gentleman and brother, and minister of the gospel.

## NEWBURG

Church service at the usual hour, next Sunday at 11:00 a. m., with Sabbath-school afterwards. Everyone come and help our pastor to start the new conference year, and give him a hearty welcome.

Mrs. M. Eva Smith and Mrs. Charles Ryder were guests of Mr. and Mrs. Gay Casterline of Flint, over the weekend, attending the Saturday afternoon and Sunday sessions of the General M. E. Conference, seeing our pastor, Rev. Paul Havens, ordained on Sunday afternoon. They also called on their former pastor and wife, Rev. and Mrs. Frank M. Field.

Newburg people are glad to have Rev. Paul Havens, pastor of the Newburg church, returned for another year by the M. E. Conference.

Mr. and Mrs. Robert Holmes and son, Lawrence, and Miss Leona Joy and Mr. and Mrs. Henry Meilbeck attended the conference at Flint, Sunday.

Mr. and Mrs. Henry Grimm, Sr., son, Raymond, and daughter motored to Adrian, Sunday afternoon, where they called on Mr. and Mrs. Elger.

Miss Lawton, a former Newburg teacher, called on Mrs. Donald Ryder, Sunday.

Mr. and Mrs. L. Clemens attended the M. E. Conference at Flint, last Friday.

Miss Gladys Clemens left for East Lansing, last week Monday, to attend the M. S. C.

Miss Margaret Clemens is attending the U. of M., staying at the Martha Cook dormitory this year.

Mr. and Mrs. James McNabb, daughter, Joy, and Lydia Joy attended church service at Wayne, Sunday.

The electric poles are set along Plymouth road. People are wiring their houses preparatory for electric lights, which they have so anxiously waited for.

Mr. and Mrs. Clark Mackinder attended church service at the new Grace M. E. church on Plymouth road, hearing Mr. Raycraft preach his first sermon in the new church.

Mr. and Mrs. Frank Mackinder of Brighton, called on Mr. and Mrs. C. Mackinder, Sunday.

After a long vacation, the Parent-Teachers Association will resume their meetings, the first one to be on Tuesday evening, September 29th. A short program has been prepared by the teachers. We trust all who can possibly do so will turn out, as there is important work to be undertaken. Come and welcome our new teachers.

## Picked Up About Town

"Some people are so certain salvation is free," says Dad Plymouth, "that they often forget to put anything in the contribution box."

A painter may not be superstitious, but he certainly does believe in signs.

"Another trouble with life," asserts Dad Plymouth, "is that too many men are worrying about what the world owes them instead of what they owe the world."

A small boy's hands and a big girl's elbows always look as though there wasn't enough soap to go round.

According to Dad Plymouth, a public benefactor is the fellow who pulls out of a parking place just when you want to pull in.

One sin charity doesn't cover up is the sin of butting into other people's business.

"The best thing these days for a run-down feeling," says Dad Plymouth, "is to get away out in the woods where you don't have to dodge."

Dad Plymouth says if the fellows who contend the world is flat really want to see something flat, they ought to see Dad's pocketbook after the family gets back from a vacation.

### SCHOOL NOTES

Harry Rowland furnished the foot ball write-up; Letha Rowland, the High school notes, and Ruth Allison, those for the grades.

### THE FOOT BALL GAME

Plymouth played its first foot ball game with River Rouge, Friday, September 18th, on the home field back of the school. The game started with Plymouth receiving. They tried their limit of plays, and the ball went over. River Rouge passed—it was missed by their player and they tried again. One of the players caught it and made a touchdown. River Rouge tried for the extra point but failed, leaving the score at the end of the first quarter, 6 to 0, in favor of River Rouge.

At the beginning of the second quarter, the ball was on Plymouth's twenty-yard line. River Rouge was penalized twice in the next two plays, once for off side and once for clipping. Plymouth tried a pass, and it was caught by a River Rouge player, leaving the score at the end of the half the same.

Then River Rouge tried a pass. It was caught by a Plymouth player who made about twenty yards. Plymouth punted, and River Rouge carried it to Plymouth's twenty-yard line. That made the score at the end of the third quarter, the same.

At the beginning of the last quarter, River Rouge made another six points. River Rouge held Plymouth, and the ball went over. River Rouge made another touchdown and extra point. Plymouth received the ball, tried a play and dropped it. River Rouge recovered it. They tried several plays and then made another touchdown and extra point. River Rouge was penalized again for offside.

### HIGH SCHOOL NOTES

The various clubs, classes and organizations held their first meetings of the year this week. Girl Reserves meeting was held Tuesday, September 15, the fifth hour, which will be the regular period throughout the year. This meeting was for the purpose of electing officers. The following were chosen: President, Julia Wilcox; vice-president, Alice Hathaway; secretary, Elsie White; treasurer, Katherine Wilcox. They also appointed committees to remodel the constitution and reconsider the purpose, as they have a different purpose each year. In October the Girl Reserves expect to send delegates to a setting-up conference at Camp Centre, near Holly.

Boys' Hi-Y held an organizing meeting Tuesday, the fifth hour. Those elected were: President, Ernest Henry; vice-president, Ted Hickey; treasurer, Vernon Lyke; secretary, Robert Hubert. There was a Bible study committee chosen, of three members: Gaylord Sayles, chairman; Wilbur Murphy and Bob Toft, the other two members, for the purpose of taking up a course in Bible study the same as the Girl Reserves.

The Aggie club re-organized Wednesday, September 16th. The officers chosen, were: President, Harry Miller; vice-president, Zetta Travis; secretary, Barbara Horton; treasurer, Wilbur Murphy; executive board member, Letha Rowland.

The Sophomores elected their officers Thursday. President, Frazer Carmichael; vice-president, Sarah Daly; treasurer, Corinne Howell; secretary, Dorothy Hillman.

The library opened Monday. The tables have been rearranged and new chairs replace the old ones.

### GRADE NOTES

Miss Stadler reports that her 2B pupils seem unusually quick to get their lessons. They are beginning home geography.

Miss Holt's room is especially interested in keeping their hands and nails clean.

In Miss Harford's second grade, the children help their parents at night, and tell about it the next day in language class.

In the 4A and 5B, Mrs. Bird's room, the officers were elected for the True American Society: President, Clyde Felt; secretary, J. D. McLaren; treasurer, Jean Weeks. They carry on the meetings in true parliamentary form, and after each meeting they have an entertainment.

Rivalry in making scrap books for Hygiene, is the special delight of Miss Jaffke's fifth grade room.

Miss Hallahan's room began their spelling contest Monday. For each perfect lesson, she gives a star, and for fifty perfect lessons she gives a gold star. The one who has the most stars receives a present at the end of the semester.

Edward Roberts of Miss Hallahan's room, was bitten by a dog, the night of Wednesday, September 16. It has not been reported whether serious or not.

The fourth grade in Miss Orr's room has written stories for the room library. In the 4B, the best was written by Ruth McConnell, second by Coraline Rathburn. In the 4A, first by Emerson Robinson, second by Ralph Minchart.

### Foolishness of Fear Set Forth by Writer

"I'm afraid — I'm afraid — I'm afraid!" A million times a day we say it—"I'm afraid!" And then we wonder why we have so little Success and so little Happiness!

If you spend your whole life looking for Safety, then you'll get Safety, perhaps, and you'll find out how little it amounts to.

Safety isn't Success and it isn't Happiness. Safety is a negative thing. It isn't worth a bean by itself. It's not getting hurt—that's all. Yet millions of people waste their whole lives trying to be safe.

The world of business is filled with fears. It is filled with people who are hiding—dodging—running for dear life.

In business life, as well as on the battlefield, men have shellshock and spasms of fear—blind, mad, unreasoning fear.

Most business men have these spasms of fear in times of depression. Then they cancel orders and sack employees, and stop advertising and dig themselves in.

Generally it is not what does happen that frightens men, but what might happen. Most men squelch before they are hurt.

The truth is that no man can escape either criticism or risk. You can never be blameless and you can never be safe, so why worry about it.

Face your fears. Walk toward them. And you'll be surprised to see how small and weak they are.

Do what you're afraid to do. Be brave enough to buy in a slump. And you'll have to hire a taxi to take your profits home.

If you are in trouble, always ask: "What is the worst that can happen?" You'll usually find that the worst is not so terrible.

Courage! It is the rarest and most precious of all our real possessions. It is not taught in schools nor in churches. Every man must learn it for himself.

Danger is a tonic. It is a necessity of the inner life. You can never learn to be a good loser until you lose.

So here are unanswerable reasons why you should adopt this tip as one of the rules of your life—get rid of fear. No one can hurt you if you are true to yourself.—Herbert N. Casson in Forbes Magazine.

### The Adult

We adults forget. Food and drink and sleep are the realities to us. To us there is a yesterday; there will be a tomorrow. I try to go back into the dim and vasty past, but I do not find myself there. I am an adult. I have discovered philosophies that never burdened the sweet consciousness of childhood.

I have discovered obstacles intervening between me and my God. The road to Paradise is no longer short and straight and shining; it winds among the shadows and may not lead to Paradise after all.

Complexities have entered into this gentle relationship between life and myself that had no existence in the days of babyhood. A hundred hands, atavistic and primitive, pull me in a hundred different directions; mocking voices, stilled in childhood, hurl repeated questions in my puzzled ears.

Along that road to babyhood I do not find the child I was; I find only my present self. Knowledge of things I may have gained, but only a great bewilderment as to life itself.—Arthur Somers Roche, in Heart's International-Cosmopolitan.

### Air Mails and Ireland

Every proposal for the inauguration of an air mail service is welcome, if for no other reason than because it turns thought away from the use of airplanes for war purposes.

Hence the announcement that it is hoped to start such a service between Belfast, Ireland, and England in March next is especially gratifying because it may also tend to cement the two peoples more closely together. It is said that already two airplanes have been purchased and that a third has been ordered. With these it is intended to carry on an all-the-year-round service.

This will enable letters posted in Belfast in the evening to be delivered in London by the first mail in the morning, and vice versa.—Montreal Herald.

### Tax to Support Science

Commerce and industry will be required to contribute to the financial support of a scientific research in France, if a measure passed by the chamber of deputies is also approved by the senate. The bill provides for a tax of five centimes on each 100 francs paid in salaries by industrial and commercial concerns. The sum which the tax would raise for French scientific laboratories is estimated at 14,000,000 francs a year. This is about \$700,000, according to the present rate of exchange.

### Corrects Receding Chins

Receding chins are now being fixed by New York surgeons. By means of a special plate, it is possible to throw the lower jaw forward, so that the molar teeth meet in their proper position. This plate has the effect of making the patient bite forward, with the result, in most cases, that the receding chin eventually becomes normal.

# Firestone

will ALWAYS give Most Miles per Dollar

No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar.

Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords.

Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped

Cords the most economical tires ever offered motorists.

The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength.

Prove Firestone's many superiorities for yourself. If you have never had the safety, comfort and economy of these

serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.

**Complete Disarmament Hard to Bring About**

There is nothing new under the sun; and even anti-weapon laws have been tried before—in 1882, for instance. A greedy and witless king of France, Charles VI, attempted to reimpose on the people of Paris what would now be called a sales tax. The people of Paris arose in their might—armed, as it happened, with mallets. The inscription was quickly put down by the disciplined forces; but, to prevent further troubles of the kind, a rigorous disarmament law was passed and very strictly enforced. Paris was regarded as the pivot of the kingdom; it must not be split by internal fighting; and obviously—to the feeble mind of Charles VI—fighting would be absolutely prevented by the removal of the inhabitants' weapons.

Time passed, about 30 years. A generation of Parisians arose which knew not weapons. Then under circumstances it is not necessary to detail, a certain duke of Burgundy wished to have command of the city. It was politically impossible for him to take it by force of arms; but it was possible, as it would be nowadays, for him to engineer the election of a friend of his to the captaincy of the city. Had all the inhabitants been armed, this move would have been without effect; a captain can only command; and to order the whole body of the citizenry to fight against its own interests would be useless.

But, under the circumstances, the count de St. Pol's course was clear. One class of citizens had of necessity been exempted from the disarmament process—the butchers. The butchers had knives, axes and bludgeons galore—just as after modern disarmament plumbers would still have lots of lead pipe, and miners plenty of dynamite. And one class of citizens can usually be induced to betray the other classes for its own benefit.

So the duke of Burgundy controlled Paris, much against the desire of the Parisians at large, by means of a Parisian militia.

The powerful, but unarmed, university; and the indignant, but weaponless, population, protested violently. But it has not been recorded anywhere that their protests ever did them any good.—F. R. Buckley in Adventure Magazine.

**Appeals to Old and Young**

Florida has two new assets to add to its bid for popularity. First, the California earthquake. Second, a pirate ship, remarks Grove Patterson in the Columbus Dispatch.

An old pirate ship was discovered twelve feet underground in Sarasota, Fla. It stirs the blood of youth, if you have any. Do childish adventures of the mind still play about pirate ships? They used to. A boy who never wanted to be a pirate probably never wanted to do anything. It is as inevitable to want to sail on a pirate ship as it is to want to be conductor on a train. If they find any more pirate ships in Florida we'll all get the fever.

**Lamps Without Filaments**

Through the invention of an electric light bulb that requires no filament, Conrad Schlickerling of Newark, N. J., claims that municipal lighting bills may be cut in half. A 500-watt lamp of the new type, he says, will burn twice as long as filament lamps and consume less than half the current now required. The inventor also has made lamps of two-watt size for use on signs, and auto lamps of two candle-power and higher, without filaments, says Popular Science Monthly. Still another of his inventions is a vacuum tube filament or grid, designed especially for alternating current rectification in radio B-battery eliminators.

**Wool Grown in a Hurry**

An invention which makes sheep's wool grow faster was described by Professor Barker of Leeds university at the international conference of sheep breeders at Chester.

He said a Japanese doctor had placed on the market a fluid which, when injected in the veins of a sheep, say, every two days, promotes rapid growth of wool.

"So rapid is the growth said to be," Professor Barker continued, "that two months' injection produces twelve months' growth at the ordinary rate. Thus two or three shearings each year are possible."—Tit-Bits.

**Woman Fertile Inventor**

Among the funny interesting things on show at the Exhibition of Inventions held recently in London, few attracted more attention than an apparatus designed by a woman inventor, Miss Verena Holmes. It is a device enabling an important operation in the treatment of consumption to be carried out in the home, and is regarded as a great boon by the medical profession. Miss Holmes, who is a qualified engineer, has a number of other inventions to her credit. One of the most promising is a new type of diving apparatus.

**New Salvador Railway**

A contract has been signed and approved by the President and the national assembly of Salvador for the construction of a branch railway line, 16 kilometers (10 miles) in length, from Ahuchapan (in the department of the same name) to the Guatemala frontier, north of El Naranjo. Construction is to be completed before April 24, 1930. It is intended ultimately to connect the line now in the course of construction between Santa Ana and Ahuchapan with Guatemala City.—Commerz Reporters.

**Keep a Bottle Ready**

No fear of a result! Change of diet, water, or climate, however these may be, is not a cure for these ailments. The only sure cure is the use of the "Bottle Ready" medicine. It is a powerful purgative, and will clear the system, and give you a new lease of life.—Advertisement.

**FIRE INSPECTION TO BE MADE HERE NOVEMBER 5TH.**

Monday, Nov. 5th, about fifty fire insurance experts will arrive in Plymouth and make an inspection of business places, public buildings and industrial plants, inspecting the buildings inside and out. The purpose is to secure co-operation from the owners and occupants and stores and homes to get rid of whatever fire hazards may exist.

This is not a move to secure fire insurance. Nor has it anything to do with a raise or lowering of rates. It is part of a countrywide plan, sponsored by Chambers of Commerce, to reduce the fire risk to a minimum. Every week in the United States three hundred people, the majority of them women and children, are burned to death. Millions on millions of dollars in property are destroyed.

Investigation has proved that upwards of ninety per cent of all fires are either due to carelessness or could have been prevented by simple preventive measures. Throughout the nation organizations similar to the Fire Prevention Association are striving to reduce the danger of fire. Their first object is to save lives. Their second to save property. They are all insurance men, representing many different companies, but the business element is forgotten when they represent the association.

On an average there are a trifle under 1,500 fires in the United States every day—more than a fire for every minute. And carelessness is the cause of between 75 and 90 per cent of them all.

It is interesting to know that the United States, with approximately one-tenth of the civilized world, uses more matches than the other nine-tenths. This, without a doubt, explains to a considerable extent why our fire losses are the heaviest of any nation, with the possible exception of Canada.

During the first six months of 1924 there were over one hundred school-house fires in the U. S., where the damage exceeded \$10,000; in fact, it averaged \$62,000. This means that 3.5 per cent of our entire fire waste occurred in buildings housing our children, a large portion of the year.

Fire prevention is not a science; it is sense. There is no mystery about it; no difficult rules or restrictions. If there are no fires, there are no

fires—that is all there is to it. Fires are guttons and need food. If the food is taken away the fires starve.

Dirt, debris, junk, cobwebs, dust, old papers, rags, oily waste, etc., are all in the bill of fare for the Red Demon. If these are taken from the menu, there is but a blank page left.

Eighty-five per cent of all fires (and this is a very conservative estimate) can be prevented by eliminating the unnecessary fire causes.

Then why not remove them? No one, unless he is an arsonist, wants a fire; and material burned is gone forever.

If 85 per cent or more of all fires can be prevented, why not prevent them and save over \$500,000,000 per annum?

Slovenliness, breeds carelessness, and carelessness breeds fire. Why then be slovenly? Carelessness is the most costly habit we have, and there is no sense or reason for it.

As a result, hundreds of precious lives and millions in property are lost, and the cure for these awful ills lies in preventing fires.

Think it over!

## THE THEATRE

### "NIGHT LIFE OF NEW YORK"

It has been many a long week since a cast such as is seen in the new Allan Dwan-Paramount production, "Night Life of New York," has been gathered together for any one picture. Rod La Roque, Dorothy Gish, Ernest Torrence and George Hachathorne are featured in the leading roles.

—and that's not all either. Helen Lee Worthing, former "Follies" beauty, Arthur Housman and Riley Hatch are prominent in support.

"Night Life of New York," which comes to the Penniman Allen theatre, Saturday, September 26th, is an original screen story by Edgar Selwyn, noted playwright and producer.

Rod La Roque scored a tremendous hit in "The Ten Commandments," and has since appeared in several Cecil B. DeMille productions. Ernest Torrence, of "Covered Wagon" fame, has been winning new laurels in such epics of the West as "North of 36," and in the totally different role of the Scotch shopkeeper in "The Dressmaker from Paris." Dorothy Gish is famed for her work in D. W. Griffith's pictures, and is one of the most popular feminine players in London. George Hachathorne is a well known player of juvenile characters who was seen recently in the leading role of "Capital Punishment," and also in support of Norma Talmadge in "The Lady." Arthur Housman is also favorably known for his playing of juvenile "heavies," and Miss Worthing, who was outstanding in "The Swan," is worth going miles to see as a typical Broadway gold digger.

The adaptation of Edgar Selwyn's story was made by Paul Schofield, who adapted Thomas Meighan's "Coming Through," and "Bebe Daniel's picture "The Crowded Hour." Allan Dwan has given "Night Life of New York," a production which brings real life to the white light taxi-dollars before the eyes of picture patrons.

"Night Life of New York" was taken entirely in New York.

### "BLACK CYCLONE"

"Black Cyclone," the Hal Rouch feature, coming to the Penniman Allen theatre, Sunday and Monday, September 27 and 28, is the story of Rex, a wild horse—a flashing black of great power—an ebony streak in the sun-light. He was born in the Wild Lands, self-raised and self-taught, for a rattlesnake bite had deprived him of his mother while he was still of tender age. He sought protection in a herd, but its leader, the ferocious Killer, drove him out. He had no place in his herd for an outcast—a weakling—a baby stallion. But there came a day when this untamed weakling was a magnificent, powerful creature who defeated the Killer, who had never before known anything but victory!

Rex, who made his film debut in 1924 in "The King of Wild Horses," is an even more magnetic, magnificent creature in "Black Cyclone," a story which shows his wooing of Lady, a beautiful dappled grey mare, and his great love for and protection of her; and of his friendship for a man who saved his life from the treacherous quicksands.

But three people are required to tell the story of the humans in "Black Cyclone," and they are Guinn Williams, Kathleen Collins and Christian J. Frank. Among the animals are Rex and Lady; the Killer, one of the craziest spotted horses ever seen, and the Pest, a burro, that is quite the funniest little animal in existence. For atmosphere are hundreds of wild horses, a wolf pack, a honey-hunting bear, and a man-hunting cougar.

Thousands of acres of Nevada's beautiful plains and hills supply the background for "Black Cyclone," which is hailed as the year's greatest sensation—both as to dramatic value and photography. Its story, as in the case of "The King of Wild Horses," is by Hal Rouch, and the direction by Fred Wood Jackman.

### "THE MYSTERIOUS STRANGER"

A new type of production for Richard Talmadge, which contains all the elements which have made this remarkable young star so popular, and yet which has more logic and interest than is customary with pictures, which feature stunts, appears next Wednesday, September 30th, at the Penniman Allen theatre, when "The Mysterious Stranger," is shown for the first time in this locality. If advice from Hollywood are any criterion, this production caused something of a furore when pre-viewed before the experts of the film capital. It is an adaptation by James Bell Smith, who has taken such parts of Dr. Samuel Johnson's famous old story, "The History of Rasselas, Prince of Abyssinia," and has used them to splendid advantage on the screen. There is much in the work of the one-time dictator of English letters that makes superb screen material, as "The Mysterious Stranger" proves conclusively; and the only surprising thing is that little if any of it has ever been used before. Director Jack Nelson has developed the really extraordinary comedy sequences with fine skill, and the attempt of Dick to break into the insane asylum, under the impression that the wall

surrounds the house in which he so long lived away from the world, is one of the funniest bits that could have been conceived. An excellent cast is seen in support.

### With the Flag Above and Glory Beckoning

We printed the other day some remarks on the last journey of the battleship Oregon to a quiet harbor in which the ship will be kept on exhibition, in comparison with the historic journey which it made around the Horn to join Sampson's fleet as war with Spain loomed on the horizon. The latter journey attracted no notice. The whole nation, hearts aflutter, stood by as the earlier one progressed.

A contributor to the New York Sun, one who was evidently one of the crew in the Oregon's historic race, tells of an incident which ought to be preserved.

When a warship goes into action, as it was feared the Oregon would be compelled to do with the Cervera squadron lying in wait, it is customary to clear the vessel of lifeboats and rafts, as splinters from them are as dangerous as shot and shell of the enemy. If the Spaniards had appeared the Oregon would have had thus to strip itself and a shot below the waterline would then have sent the entire personnel of the ship to Davy Jones' locker. The contingency caused considerable discussion on the ship. Finally one of the officers put the matter up to Captain Clark. He said:

"Captain, if we get into a fight with the Spanish fleet after casting all our boats and rafts adrift, and we get one good shot below the waterline, what is going to become of us?"

"Well," said Captain Clark, "a \$5,000,000 coffin will be good enough for me."

That ended all discussion along that line. Every man felt that if the Oregon was a good enough coffin for Captain Clark it was good enough for him—if so it must be they would fight to the limit and go down with the colors flying to a glorious death for their country.—New Orleans States.

### Trouble for Norfolk Duke

These are hard times, even for the duke of Norfolk, who is one of the wealthiest noblemen in the world today. As the present duke is only sixteen years of age, his mother manages family affairs. She decided to close Arundel castle until her son was of age, leaving only caretakers at the ducal seat. In the meantime the duchess and young duke will live in Italy, where the rate of exchange will permit the family coffers to be replenished by the time the duke reaches his majority. However, as he owns most of London between the Strand and the Thames river Norfolk will be able to struggle along in spite of taxes.—Le Figaro.

### Has Sun a Companion?

What may be a genuine companion to the sun has been discovered in the constellation of Taurus, the Bull, according to a study by Dr. W. J. Layton, of the Harvard College observatory. The star, which is known as 46 Tauri, and just barely visible to the unaided eye, has been observed at the Lick observatory in California, and the Dominion Astrophysical observatory at Victoria, B. C. It is approaching the sun at a speed of about half a kilometer per second, which is a very slow velocity, astronomically speaking. As its motion across the sky is also relatively slight, it is believed to be moving through space with the sun.

### Advocates Mutual Creed

A mutual creed for all denominations was advocated at Cardiff, Wales, by one of the leading speakers at the twelfth quadrennial council of Reformed churches. He urged the council to recommend adoption of "a common statement of faith for the Reformed churches, more distinct than the Reformed creeds, but one which would absorb the best of the Westminster confession and other similar creeds." He welcomed the efforts under way to unite all the Christian religions and urged that his hearers should lend all possible aid to this object without sacrificing their church.—Family Herald.

### May Revive Old Court

An Oxford (England) undergraduate is to be tried in the ordinary courts of justice on a charge of manslaughter arising out of a motor accident. The frequency of motor smashups in which undergraduates are concerned and the gravity of their attendant consequences has led a famous law don to suggest that the court of the lord high steward should try and punish the offenders.

This university court has been in existence since 1404, although it has not tried a case since a century before the days of Blackstone.

### Practicing Law at 92

Northern Ireland has still in active practice a lawyer who has reached the age of ninety-two. He is George Hill Smith, who was born in 1833 but did not go to the bar till at the age of forty-four. He practiced in Dublin and on the northeast circuit and on the setting up of a separate Ulster judiciary confined himself to Belfast where he acts as one of the crown counsel.

### Ornate Telegraph Pole

Because the old telegraph pole in front of the city hall at Aberdeen, Wash., was ugly and not in keeping with the city hall architecture, Councilman James Empey succeeded in getting the railway and light company of his town to remove it and replace it with a new one of becoming design, brightly painted. The pole will carry a brass plate giving the distinction of its choice to the councilman.

### HONORING STATE MEN IN NEW HORT. BUILDING

BRONZE TABLETS TO BE ERECTED AT M. S. C. IN HONOR OF LEADING FIGURES IN MICHIGAN HORTICULTURE.

Michigan's leading figures in the horticultural industry are to be given place in a special "hall of fame" in the new horticultural building at Michigan State College. Bronze tablets, suitably placed, will carry the names of these pioneers in one of the state's most important professions.

The new horticultural building, which is being opened formally this fall, is regarded as the most modern and completely equipped structure of its kind in the country. Every facility for experimental and instructional work is provided in the main building and the adjoining greenhouses.

Honoring leading horticulturalists by setting their names out before the students who use the building is expected to help in developing a distinctly horticultural atmosphere for the work of the division, according to Prof. V. R. Gardner, head of the M. S. C. horticultural department.

Among Michigan men whose names will appear on the state list are: Charles William Garfield, Grand Rapids; Roland Merrill, Benton Harbor; Levi Rawson Taft, Lansing; Eugene Davis, Grand Rapids; Theodatus Timothy Lyon, South Haven; Theodore Austin Farrand, Eaton Rapids; Robert Darwin Graham, Grand Rapids; Elmer Denison Smith, Adrian; Jonathan Gunnery Randall, Traverse City; Charles Jay Monroe, South Haven; John Briemeyer, Detroit.

### Today's Reflections

A woman's idea of one man's getting even with another is to steal his umbrella and then pray for rain.

About the biggest fib a Plymouth woman can tell is when she says she does not care what the neighbors say or think about her.

What has become of the original flapper, who rubbed red callon on her cheeks to get a ruddy complexion?

A Boston doctor says a long sea voyage will build up rundown nerves. Tell it to a millionaire.

Some Plymouth girls look as though they had fallen into a flour barrel, though few of them ever get that close to the kitchen.

No matter how onery a man may be there are times when his wife thinks he's a wonder.

South Carolina has asked the war department for explosives to jolt rain out of the air, but why not wait for the Florida boom to do the job?

Don't put off until tomorrow what can possibly be done today. For tomorrow it may be against the law.

The question of the ownership of the north pole isn't worrying the man who is trying to acquire ownership of a house and lot.

They ought to pay more attention to spelling in our school. Too many people don't seem to know what "Stop" and "Go" mean.

Maybe the reason some Plymouth people don't use their own advice is because they give it all away to other people.

Still another good way to keep a stiff upper lip is not to exercise it too much.

If everybody in Plymouth attended to his own business as well as a farmer's dog when it comes to town, it would be a better world.

Fish lies are now being crowded out to make room for the tallest cornstalk story.

We've done a lot of observing around Plymouth, and we have reached the

## MUNICIPAL NOTES

The Village Treasurer says that if you haven't yet paid your 1925 village taxes, and still want to pay them in Plymouth, you must get busy before October 1st. On that date, the treasurer's books must be closed to allow him to get them ready to send to Detroit.

Our warehouse is about ready for its roof. We are surely getting a fine job of brickwork. Our neighbors won't be ashamed of its looks.

The work of building the foundation of the extension of the fire truck room at the hall is well along.

Some of the younger pupils of the school are learning valuable lessons in avoiding traffic accidents through small traffic "stop and go" signs that the teachers have made. The traffic officer on duty during the noon hour near the school appreciates this extra training given the children.

## HAS TAKEN RADIO AGENCY

P. A. Nash has taken the agency for the Stewart-Warner radio instruments, and has an ad on another page of the Mail today.

Each of the line of Stewart-Warner Radio instruments is licensed under U. S. Navy patents. The famous Navy circuit is used in every model. This five-tube circuit has been perfected to a remarkable degree in Stewart-Warner Radio Instruments. Furthermore, due to highly advanced manufacturing processes, each is ruggedly constructed and mechanically strong.

Every Stewart-Warner instrument is correctly designed from an engineering standpoint, and represents the most efficient kind of radio reception. Only the finest materials are used throughout.

The purchaser has a wide range of choice, from a small instrument, very moderately priced, a standard model (both used with the Stewart-Warner Reproducer), a Console Table with built-in reproducer, for use with the two popular priced models, and three Console Model Instruments with built-in reproducer and cases for all necessary accessories.

## NATIONAL DAIRY SHOW DRAWS MICHIGAN MEN

LOCAL FARMERS PLAN AUTO TRIP TO INDIANA FOR BIG EXPOSITION.

The National Dairy Show, leading exposition of the year for dairy men of the country, is attracting unusual interest from Michigan farmers this year, because of the fact that the show is to be held in a neighboring state, Indiana.

Many Michigan dairymen are planning to drive to Indianapolis between October 10 and 17 for the show, it is said, by dairy specialists at the Michigan State College.

The state will not only be represented by cattle exhibits at the exposition, but will also have delegations of boys' and girls' club and college judging teams in the judging competitions.
