PLYMOUTH M. E. WINS FROM PONTIAC.

The M. E. Girls played their first game of basket ball, with Pontiac, at the church on Thursday evening of last week. The girls had had no practice together, and it kept them pretty busy trying to find their own players. The center had the tip-off, and with the help of the side center, the forwards soon had possession of the ball. The ball did not leave the forward court until a basket was made. The guards only let Pontiac make 12 points, so you can see they did their share of the work. There were very few fouls made, and considering the fact that Plymouth's team had not practiced together, the team work was fine. With a little more practice, they expect to be victorious in the rest of the games. One thing that is lacking is support. Come out and support your team. Show them that you want them to be victorious in their games. Don't be a back-sitter. Come.

Line-up: Right forward, Gretchen Smith; left forward, Gladys Weiser; center, Ione Bird; side center, Mous Bolton; right guard, Gladys Hake; left guard, Norma Brown; substitutes, Hazel Williams, Margaret Grifflin, Corinne Howell. Referee—From Pontiac. Score 33 to 12, Plymouth.

### A 13-MONTH YEAR

In New York City there is a movement to create a 13-month year, certain business men arguing that thirteen months of twenty-eight days each would better subserve their purposes. That may be all right for New York, but speaking for Plymouth we are satisfied to let the calendar stand as it has for ages. Isn't it hard enough to pay rent for twelve months in a year without adding still another month? Isn't every business calculation—and especially 30-day notes—based on a twelve-month year? If we would change the calendar it will take years to readjust matters to fit it. We would even have to recalculate our own ages, make over our whole insurance plan and, in fact, revolutionize all civilization. It would be too much of a job for the benefit we would get out of it, so speaking for our part of the world, we are satisfied to let well enough alone.

### SOME 1926 ADVICE

Sec. Hoover, in giving out a statement to the newspapers of the country on the outlook for business in 1926 is quoted as saying that "On the whole, both our own country and the rest of the world face a more favorable outlook at this time of the year than for a long time past. All signs indicate that if we will temper our optimism with a sprinkling of caution, we shall continue our high level of prosperity right on through the year 1926."

We feel sure that citizens of Plymouth and vicinity will get a good deal of satisfaction out of Sec. Hoover's statement, and we also feel sure they will abide by his warning. There can be no question but the United States, taken as a whole, is now in a more prosperous condition than it has been at any time since the World War. But if there is a tendency to stage a great spending orgy, as we did in 1919-20, if there is an inclination to scatter money freely simply because it is easier to get hold of, then we must expect serious results.

Factories are running almost to their fullest production; retail merchants in every section report a heavier trade than in any recent fall and winter, and agriculture is on a better basis, though our farmers are still facing debts accumulated a few years back. The farming outlook generally is good, as no slump is expected in the price of farm products and commodities. Summing it up, there is every reason to believe 1926 will be one of the most prosperous years in the history of the nation—but prosperity will vanish like a mist if we grow over-optimistic and start in to spend faster than we earn.

### HOME FIRES

If memory serves us right, we heard a good deal around Plymouth during the World War about "keeping the home fires burning." We may have forgotten all of the verses of the popular wartime song, but we need no slogans to remind us to keep our home fires burning when the thermometer is almost as low as our spirits when the coal bin becomes empty.

But what we need just now in addition to keeping the home fires burning is to watch those home fires with even greater care than we are accustomed to at other seasons of the year. As many fires are caused by over-heated furnaces and stoves during the winter months as are caused by all the fireworks set off on a dozen celebrations of the Fourth of July. Daily newspapers have chronicled some tremendous losses during the past few weeks in various parts of the country, and when the winter's monetary losses from fires are finally figured up it is going to run far up into the millions.

No matter how efficient a town's fire equipment is reputed to be, not every

house that catches fire can be saved. Some fires are more difficult to fight than others and regardless of how hard men may fight flames there are times when they are going to lose. Until the time arrives when everyone learns that fire insurance is the surest safeguard against loss—if that time ever does come—there is one thing to do. And that is to be constantly on guard, constantly vigilant to see that your own home is not subjected to a fire that could have been prevented.

### ONE MORE LAW NEEDED

This state, like every other, is overburdened with laws, but it needs one more. It needs one making it a misdemeanor, punishable by a heavy fine, to erect any sign, poster or billboard, which obstructs the view of any road or grade-crossing. Too many accidents are occurring as a result of signs being placed along our highways so they obstruct vision. Auto production is growing heavier every year, and since roads are not being made any wider to take care of the additional traffic, then something must be done to keep those roads so every driver will have at all times a clear and unobstructed view. The state of Tennessee has sent out wrecking crews to tear away every billboard along every highway. It is an example that could be followed with profit by this and every other state, and a move that we will sooner or later have to adopt if we hope to reduce motoring hazards and keep down the death toll caused by auto accidents.

## SCHOOL NOTES

### GRADE NOTES

By Julia Learned

Two members of the kindergarten have moved away. Doris Reinholz has moved to Detroit, and Ralph Naylor to Elm.

At recess last Thursday, the girls in the 1-B had a doll party. Thirteen dolls were brought to school. The following day, the boys brought their toys. The dolls and toys were Christmas presents. The purpose of having the parties was so that every member of the class could enjoy the toys.

Ruth Lee is the only student in Mrs. Root's room who has been neither absent nor tardy this semester.

The 2-B children in Miss Stader's room have completed three reading books, and have started the Natural Method Readers.

The Second grade had a spell-down. Helen Dely spelled down all the students.

Miss Holt's room has been changed into a city. The name of the city is Lansing, and each row is a street which has a name. Street cleaners are appointed to keep each street clean. In this way the city is kept very clean.

The 2-B boys and girls in Miss Harford's room are studying Eskimos. They are making little Eskimo booklets. Each child has a health chart and tries to drink milk each day.

Mrs. Esther Kittle visited the Third grade, last Monday.

The 5-B students are making maps of Europe.

Ralph Meeker has been very ill at Harper hospital, with pneumonia.

Wanita Parks, Carmen Ellis and Donald Melow have been absent from school because of illness.

Miss Doneen's 5-A and 6-B children are having a spelling contest.

A CARD—We desire to express our sincere thanks and appreciation to the friends and neighbors for their many acts of kindness during our recent bereavement. Especially do we wish to thank those who sent the beautiful floral offerings and those who furnished automobiles.

## NEWBURG

There were 84 in Sunday-school last Sunday. Mrs. Greer's class of fourteen boys won the banner.

A large crowd was out in the evening, to listen to Captain Denniston of the House of Correction, who gave a very interesting talk on "Prison Life." Something that the boys and girls will never forget. He said we are all careless about obeying the laws of our United States. A large chorus choir rendered some fine music. Miss Lilly Denham of Ann Arbor, sang a lovely solo. She is always a welcome number on any program.

George Smith, superintendent of Plymouth High school, will be the speaker next Sunday evening at 7:30. Everyone urged to attend these evening meetings.

The L. A. S. held a very pleasant meeting last week Wednesday, at the homes of Mesdames Janet and Hattie Geer. Forty-six partook of a fine dinner at noon. Mrs. Ella Mackinder was appointed chairman of the apron and fancy work, with Mrs. M. Eva Smith assistant. Mrs. Lydia McNabb reported that a play entitled, "The Deacon's Second Wife," is under way to be given in the near future. The next meeting will be at the home of Mrs. Watson.

Our school district has purchased the house and lot of Mr. and Mrs. Jesse Thomas, and a lot belonging to Zack Woodworth, for a playground, which will be a great addition to the school grounds.

The Epworth League play has been indefinitely postponed.

Mesdames Wm. and Clyde Smith, Mrs. Wm. Lomas and daughter, Zadie, were on a shopping expedition in Detroit, last Friday.

Burt Paddock and sons, Charles and Dwight, took Sunday dinner at C. B. Ryder's.

Mrs. E. J. Cutler of Nankin Mills, was taken to Highland Park hospital, last Friday morning, where she underwent a critical operation. Last reports state she is doing nicely. She has the sympathy of her many friends.

Miss Gladys Horton had the misfortune to be scratched on the arm by a pet cat, at the home of her aunt in Detroit last week, where she had been to be with her mother as much as possible. Blood poison set in, resulting in a very painful arm. However, we are thankful to say she is better at this writing.

### CHURCH SUPPER

EXAMINE the credentials of any car you think of buying. Be sure there is stability behind the car. Be certain that it will not some day join the ranks of the million and more unmarketable "orphan" cars whose builders have quit.

Buick motor cars are backed by vast resources of men, equipment, investment and success. The Buick factory is a mile and a half long. The Buick engineering staff is the largest in the service of any motor car manufacturer. The Buick sales and service organization numbers 4,000, with millions invested in showrooms and Authorized Service Stations all over America.

And Buick leads in public preference, the indispensable factor in motor car success. For eight consecutive years, the public has invested more money in Buicks than in the cars of any other member of the National Automobile Chamber of Commerce.

Not one of the million "orphans" on the roads today was built by Buick. None ever will be!

**FORMULATION OF A BILL OF RIGHTS FOR MOTORISTS.**

If motoring progress, and particularly the use of the automobile, is to keep pace with car registration and the demand for individual transportation, it is imperative that steps be taken during 1926 to enact a Bill of Rights for the motorists.

This declaration was the main feature of a New Year greeting addressed to the motorists of the United States recently by Thomas H. Henry, President of the American Automobile Association, who pledged all the resources of the national motoring body and its 759 affiliated motor clubs to enunciate and make good such a Bill of Rights for the users of the highways.

Mr. Henry pointed out that the experience of the year 1925 had clearly proven that car registration had outstripped present-day regulatory practice, while motoring progress is hindered by countless restrictions and discriminations.

"Our car registration is increasing at the rate of millions a year," said Mr. Henry, "but we are still very far from attaining anything like automobile freedom of commerce. In order to secure this freedom of commerce and the utmost use of the automobile, it is essential that there be a clearer definition and understanding of the rights of the motorists. Their Bill of Rights must be predicated on national acceptance of certain fundamental principles:

"First, we do not need 3,000 laws to be introduced into legislation, as was the case last year, for the regulation of the automobile. What we need above all is simplification and uniformity, not only in motor vehicle laws, but in traffic regulation as well.

"Second, the year 1925 clearly demonstrated that our present system of motor vehicle taxation is not only unscientific and inequitable, but also highly discriminatory. The motor vehicle has become so important as an agency of commerce and transportation that it is high time that we get away from the present haphazard methods of taxing it, whereby every agency is digging into the motorists' pockets and all types of gold diggers grafting into the game.

"Third, respect for the rights of the motorists on the highways must be established. The roadside squire and the speed cop must go! There is no place in American practice for a fee system of arrests!

"Fourth, we must get away completely from the tendency to give everybody but the motorist the benefit of the doubt in connection with highway accidents. We must protect him from the thousands of flimsy and annoying suits that are constantly piling up on the dockets of every court in the land.

"Fifth, an effort must be made to get away from the too common practice of lashing wholesale arrests on technical violations of antiquated 'speed limits'.

These considerations, Mr. Henry said, are only a few of the ideas that would underlie the Bill of Rights that the A. A. A. intends to formulate. He pointed out that the great progress made in organizing the motorists in the past will be a telling factor in protecting their rights as time goes on.

During the last twelve months, he said, 20,000 individual motorists affiliated the A. A. A. emblem to their cars and 139 new motor clubs were formed under A. A. A. auspices, many of these clubs being in territory where the motorists had been practically unorganized and suffering heavy disabilities in consequence.

**BASKET BALL LEAGUE**

In the local basket ball league at the M. E. Community hall, second place seems to be the most popular, as just half of the league teams are tied for it. The Boosters are having a little opposition in the cellar position, and are in danger of losing it if the Baptists lose another game. The Presbyterian No. 2, which looks more like the Presbyterian No. 1 and Presbyterian No. 2 combined, are going strong in the lead. The standings are:

Team	Won	Lost	Pct.
Presbyterian No. 2	5	1	.833
Scouts	3	3	.500
M. E. No. 1	3	3	.500
Presbyterian No. 1	3	3	.500
Baptists	2	4	.333

**TEMPLE THEATRE**  
Detroit, Michigan

Benny Rubin, the popular screen comedian and "Spanish Dreams," a peppy Hispano-American dance revue, share headline honors on the bill at B. F. Keith's Temple Theatre, starting Sunday afternoon. Benny Rubin presents a roaring farce called "How It Happened," with May Usher and a company of Broadway farceurs including Gene Doyle, Harry Lang, George Usher and Cecil Arndt. "Spanish Dreams" is an elaborate Hispano-American dancing and band number featuring Mlle. Nita, Alberto Galo, Warren Jackson, Argentine's foremost dancers and Hurtado Brother's World Mambo orchestra. Others billed: Joe Mendi, the \$100,000 eighteen months old baby chimpanzee possessing the intelligence of a five-year-old child; Ann Suter, the girl with the Southern personality; Nell McKay, Scotland's favorite comedian; the Four Cleverly girls, "Queens of Clubs;" Bease and Qupee, dynamic roller skaters; Charley Chase in "Charley My Boy," a Hal Roach Comedy and the weekly screen subjects.

Our P. T. A. has purchased a new victrola for our school and we certainly have enjoyed it. We have learned several health exercises and a march.

Our Kiwanis patrons, Messrs. Ed. Sweet and S. A. Ward of Ypsilanti, gave us a beautiful Christmas gift. It was the picture, "The Harp of the Winds."

Several have been absent from school this week on account of illness.

The Fourth and Fifth grade language classes are making booklets containing stories and pictures of animal pets.

The second and third grades have been having written compositions in language this week. Several very good stories have been written.

### THE THEATRE

#### "LOVERS IN QUARANTINE"

Speaking of all-star casts—Bebe Daniels has a real Broadway cast of players appearing in her support in her latest starring picture for Paramount, "Lovers in Quarantine," coming to the Pennington Allen theatre, Saturday, January 16th.

Bebe's reputation as a comedienne will go up several notches as the result of her fine work in this one, an adaptation by Townsend Martin and Luther Reed of the stage hit, "Quarantine," by F. Tennyson Jesse which was one of the outstanding comedy successes last season (1925).

Harrison Ford is featured in the leading man's role. Ford is a young explorer who believes himself in love with Bebe's flirtatious sister but winds up by marrying Bebe.

Alfred Lunt, who had the title role in Molnar's "The Guardsman" and who recently completed one of the principal roles in D. W. Griffith's "Sally of the Sawdust," is prominent in the cast. Others are Eden Gray of "The Firebrand," Edna May Oliver, who scored a hit in a comedy role in "The Lucky Devil," starring Richard Dix; Ivan Simpson and Marie Shotwell.

The picture is laid against a background of Long Island estates and Bermuda, several of the scenes being taken on the boat that transported the players to the island.

Frank Tuttle, who made "Miss Bluebeard," "A Kiss in the Dark," "The Manicure Girl" and "The Lucky Devil," directed.

The story is one of a Bebe, as Diana Gordon, a peppy little society miss who is secretly in love with her elder sister's beau, played by Ford. The sister and Ford plan to elope. Diana thinks that Ford really loves her and so decides to take her sister's place. She usurps her stateroom on the boat. It is not until they are three days out to sea that Ford discovers her.

Then there is the dickens to pay. Laughs and more laughs are the order of things until the final fade-out.

#### "WINDS OF CHANCE"

Presenting an accurate, virile and colorful romance of Alaska and its pioneer days, Frank Lloyd's "Winds of Chance" will come to the Pennington Allen theatre, Sunday and Monday, January 17 and 18.

"Winds of Chance" is one of the few pictures with the power to sweep one virtually off his feet. Moving along at a startling pace, this latest First National epic combines the elements of scenic beauty and spirited action without slackening its pace, and there are so many celebrities in the cast that the reviewer feels that he has been entertained by a club composed of stars only.

More than any picture it has been our pleasure to see in several years, "Winds of Chance" deserves the distinction of being an all-star production. It is. And all of the stars in it share about as equally as it is possible for so real a drama to divide the honors. Anna Q. Nilsson, Viola Dana, Ben Lyon and Victor McLaglen are the principal quartet in the picture, but there is very little to choose between their parts and those of Hobart Bosworth, Dorothy Sebastian, Claude Gillingwater, Charles Crockett, Philo McCollough, Fred Kohler and John T. Murray, all of whom support to a degree the four principal characters, but also share individual moments of histrionic triumph which are vitally essential to the plot's success.

Dyea, Chilkoot, Summit, Sheep Camp, Linderman, Dawson City, all of the famous points of interest along the old gold trail to the Klondike are graphically introduced, and Alaska is for the first time truthfully pictured on the screen.

"Winds of Chance" is justifiably one of the screen hits of the year and worth going a good way to see.

#### "IRISH LUCK"

Taking Tom Donahue at the corner of Fifth Avenue and Fifth-ninth street on an afternoon in the Springtime you would never suspect that this prosaic figure in blue, this burly, broad-shouldered traffic cop was destined for romance and thrilling adventure in a distant land. Tom didn't dream of such a thing himself. Traffic cops haven't time for dreams—at Fifth Avenue and Fifty-ninth street.

But along came a daily newspaper and started a voting contest for the most popular policeman in New York City. When the votes were all counted Tom found himself snowed under by an avalanche of popularity ballots, and that wasn't all. First prize carried with it a trip abroad and a \$1,000 purse.

So it is we find Thomas Meighan in his new Paramount starring picture, "Irish Luck," which comes to the Pennington Allen theatre, Wednesday and Thursday, January 20 and 21. The story is an adaptation by Tom Geraghty of Norman Venner's Saturday Evening Post serial, "An Imperfect Imposter." Victor Heerman, who made "The Confidence Man" and "Old Home Week," directed.

Lois Wilson plays opposite the star in a featured role. Cecil Humphreys, Claude King, Charles McDonald and Mary Foy are also in the cast.

Determined to do this story right, Paramount sent a large producing company to Ireland to film "Irish Luck" "on the spot." This is the first big picture ever to be made on the old sod. Big scenes include shots on the S. S. Leviathan in mid-ocean, modern

### BRIGGS SCHOOL NOTES

By George Greenlee

Miss Martha Mae Hunter, state nutrition specialist, came with Lois M. Corbett to visit our school, last Friday. She talked about health, and showed us pictures showing what coffee does to our health. Miss Corbett drilled us in interesting health exercises, using her victrola.

The following are absent on account of sickness: Charles Greenlee, Jr., Evelyn Rutenbar, Edward Bauman.

Mrs. Watson's machine was stuck in a snow drift Tuesday morning, and she was late for school.

Our good English poster was one of the best ones at the same meeting, Saturday, January 9th, at Beech.

## "How Long Should A Wife Live?"

There's humor of a grim sort in the query put before an electrical convention awhile ago. "How long should a wife live?"—a lot of seriousness, too.

Another way of putting the question: Is the hard and tiring work of the home done by hand or electricity?

Electrical appliances, reasonable in price, easy of payment, and costing little to operate, are taking the toll out of home work and undoubtedly adding years to the life of the housewife.

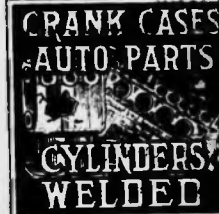

You can inspect them at our office. Come in today.

## MICHIGAN REALTORS PLANNING BUSY YEAR

PROGRAM OF VITAL INTEREST  
TO EVERY PROPERTY OWNER,  
FINDS SUPPORT HERE.

Ten years of progress and expansion by the Michigan Real Estate Association have developed a program affecting every property owner of this state, which will be enlarged and continued in 1926 under direction of Guy S. Greene of Detroit, state president, and John A. Doelle of Lansing, executive secretary. Outstanding real estate men of Plymouth have had a part in this program and the New Year starts with every assurance that this valuable support is to be continued.

"So much has been added to our association activity since its start in 1915 that it is difficult to say whether the things we are doing for ourselves or the things we are doing for the public, is most noteworthy," says Mr. Doelle.

### Here Is State Program

"Here is a brief review of the things we have strived for in 1925 and which will be continued in the New Year:

"1. We assume a leading responsibility for success or defeat of legislative matters favorable or unfavorable to the interests of real estate.

"2. We are a directing force in an effort to relieve real property from further increases in an already excessive tax burden.

"3. We are a leading factor in encouraging the proper up-building of our home cities.

"4. We are a champion of home-ownership—appreciative of all the values it reflects.

"5. We are a leading body in our urge for greater agricultural, industrial, horticultural and recreational development.

"6. We are attracting to Michigan enormous sums for investment in building and industry."

### Results Win Recognition

The fact that results already obtained by the Michigan Real Estate Association in its constructive program have won state-wide favor and recognition, is seen in the success of the sustaining membership campaign in which a quota of 154 such members in 16 cities has just been exceeded by at least 24.

The Michigan campaign was directed by the state finance committee composed of Edward G. Hacker, Lansing, chairman; Harry F. Menard, Detroit; James A. Doran, Grand Rapids; D. T. Stone, Flint, and Oscar Monrad of Jackson. Plymouth's quota was one

member, and the campaign here was in charge of William B. Petz.

Support of the association's work has come through these sustaining memberships, subscribed largely by banks, trust companies, building and loan associations, contract companies, manufacturers and extensive property owners.

### Magazine Will Grow

Included on the program of Executive Secretary Doelle for 1925 is expansion of "The Michigan Property Owner," official publication of the state association. This magazine is published monthly and offers a careful review and accurate forecast of legislative and business activities affecting all property and business in the state. Because the activities of the Michigan association have been broadened to the point where they affect more than a score of enterprises, it is pointed out that the field to be covered this year by the association's publication will likewise prove invaluable to persons interested in many lines of activity.

Here are listed a few of the accomplishments of the Michigan Real Estate Association since its organization:

Led the fight by which the proposal that inheritance tax rates be doubled was defeated.

Secured authorization for introduction of a real estate course at the University of Michigan.

Organized Flying Squadron which toured the state in 1922 portraying the opportunities and beauties of Michigan.

Drafted and carried to success legislation increasing exemptions of widows and children in determination of inheritance taxes, and lowering rates applied to real estate.

Urged constitutional amendment permitting excess condemnation which will come before the voters in November, 1926.

Brought about passage of the real estate license law.

Sponsored legislation permitting cities to zone.

Assisted in drafting of state building code; supported port district legislation; aided in passage of legislation permitting counties to make and sell abstracts; sponsored legislation designed to permit creation of metropolitan districts; favored measure designed to expedite condemnation proceedings; supported bill providing more strict regulation of sub-division plats.

## THE TORRENS SYSTEM CUTS TRANSFER COST

(Continued from a former issue.)

The examining attorney must go over the abstract thoroughly and construe from a legal standpoint every instrument, conveyance, or claim of any kind shown thereon. He then renders an opinion, which is, in substance, that the title is good, or that he finds certain objections which he considers defects in the title. If these defects are serious and cannot be corrected, the owner has a bad and not a good title, and prudent people will not buy his property.

A wide-awake little chap, when asked by his teacher to give a definition of the word "dust," quickly answered: "Dust is mud with the water all squeezed out." In the same way, the Torrens system squeezes title troubles out of all real estate transactions.

Under this system transfers can be made in a few minutes at a cost of \$3.00.

The Torrens system is of benefit to the poor man who needs to save his money, to the business man whose time is money, and to all men who wish to save both time and money.

It is estimated that under the old system the average cost of transferring a parcel of real estate, including abstract continuation and attorney's fees for examination, is \$25.00, and that in the state of Illinois the total cost of abstracts and their examinations is upwards of \$10,000,000 each year, nearly all of which could be saved were it not for "blind custom" and selfish interests, which profit by the

more cumbersome and expensive system.

If a \$200.00 lot is sold, resold, mortgaged and remortgaged five times in five years (which has frequently happened), the original cost of the lot under the old system is actually consumed by attorney fees and abstract continuations. Think of it! Five different attorneys going over the same grounds again and again, and none having the last word.

T. G. Stonehouse has sold 80 acres of land, and has purchased 7 1/2 acres.

FORD EXPANSION DURING 1925

The expansion program carried out by the Ford Motor Company during 1925 not only indicates the healthy condition of the company, but also reflects in a general way an optimistic business outlook for the year 1926.

Industrial buildings the company has added 2,300,000 square feet of floor space during the year. This is an increase of more than 10% and gives it a total of 22,700,000 square feet, or slightly more than 520 acres under roof in plants throughout the world exclusive of the Ford Motor Company in Canada, Ltd., in which to carry on its program of mass production.

The largest expansions, as might be expected, came in the Detroit area in which are located the company's great manufacturing units.

At the River Rouge Plant, probably the greatest industrial center in the world, the large motor building was opened early in the year and operations begun which removed a number of departments from Highland Park. Several large buildings were equipped and installed and operations started. One of these, known as the pressed steel building and used for the manufacture of pressed steel parts, fenders, etc., has a floor area of 375,000 square feet. Another building approximately the same size, completed during the year is devoted to the manufacture of springs, axles and steel forgings.

The most notable of the River Rouge buildings, however, is the new steel mill and open hearth furnace building with a total floor area of 644,000 square feet, all of one story construction. While the mill will not be in full operation until early in the spring, rolling has been under way for several weeks.

At Dearborn the new Engineering Laboratory was completed early in the year and already work has begun on an extensive addition to this building, increasing the floor space 60,000 square feet. Additional alterations also have been made to the power house and heating plant.

While only minor building extension and changes were made at the Highland Park Plant of the company, the removal of a number of departments to River Rouge permitted extensions of several departments and the introduction of new manufacturing activities.

At the Lincoln division plant of the company a new three-story addition will be completed early in the new year.

Smaller manufacturing plants which went into operation during the last year include a hydro-electric plant at Waterford, Mich., and additions were made at Pequaming, Mich., and at Iron Mountain, Mich., where the new wood distillation plant went into full operation.

The new plant at the Twin Cities was completed early in the year and assembly and manufacturing operations started.

Formerly of domestic assembly plants the company during 1925 completed branches at Norfolk, Mass., and Louisville and began the assembly of cars, these plants increasing production capacity more than 700 cars and trucks a day.

Two new assembly plants are contemplated for the coming year. Construction work began on a plant at Somerville, Mass., which will have a floor space of 380,850 square feet. Site for another plant has been purchased at Chester, Pa., which will comprise four separate buildings. The total floor area of these units will be 396,000 square feet and they will be completed early in the coming year.

Extensive developments have taken place during the year in foreign countries. In South America extensions were made at the Ford plants at Buenos Aires and Sao Paulo increasing assembly capacity to 200 cars daily. A new branch was established at Pernambuco, Brazil.

Another expansion came with the establishment of a branch in Mexico City, Mexico.

In Europe new plants were acquired in Antwerp, Belgium, and at Paris, France, where building operations are practically completed. Each of these new plants will have an operating capacity of 150 cars daily.

Another important European development during the year, which was only recently completed, was the establishment of a Ford company at Berlin, Germany.

The company also extended its activities in the Orient during the year, opening an assembly plant at Yokohama, Japan.

A notable development in the activities of the Ford Motor Company during the year was its entrance into the manufacture of airplanes. The first step in air activities came with the establishment of a line between Detroit and Chicago. This was followed by the opening of another air transport line between Detroit and Cleveland. Subsequently, the company acquired the Stout Metal Airplane Company and began manufacture of all-metal commercial airplanes at the Ford Airport, Dearborn, Mich. Expansion in this division of the company is seen in contracts which have just been let for an additional engine and the two having a total capacity for six planes and covering over an acre of ground.

During the year the company put two ships into coastwise and European service and a big ocean freighter, the East Indian, which has been reconditioned, will go into service early in January. In addition to these the company acquired a number of tug boats for towing the fleet of coastwise ships purchased from the government for scrapping.

At its Highland Park Plant the company during the year completed the largest electric locomotive in the world for the use on the electrified Detroit & Ironport railroad.

Power development during the year was also a big feature. Two large turbine generators were erected in the River Rouge power house and the total increase for the year 1925 alone up to 170,000 horse power.

When you hear of a Plymouth car getting stuck by a hole in the road, you can be it, any time you see fellows who "hain't" no newspapers.

Section 38. (a) No bumper or other appliance shall extend beyond the maximum width of the vehicle proper.

Section 39. No motor vehicle shall tow more than one other motor vehicle, nor more than two trailers, and the connection shall not be made by means of a chain, cable or other device, but shall be fastened to the tow line so as to make it plainly discernible. Each vehicle shall separately display thereon the lights required on vehicles of the class to which it belongs.

Section 40. (a) No truck or tractor with trailers shall exceed 60 feet in length. Provided, however, a greater length may be permitted when the load consists of poles, structural iron, secondary or other articles which, from their nature, cannot be shortened.

Section 41. Whenever any vehicle is loaded with material projecting three feet or more from the end of such vehicle, a red cloth shall be fastened at the end of such projecting material and at night time a red light.

Section 42. Not more than three persons shall occupy the front or driver's seat of a motor vehicle, and no person, adult or minor, shall be seated in the lap of the driver nor shall the driver be seated in the lap of a person when the motor vehicle is in motion.

Section 43. All ordinances or sections of ordinances in conflict herewith are hereby repealed.

Section 44. This ordinance shall take effect on the 15th day of January, A. D. 1926.

Made and passed by the Commission of the Village of Plymouth, County of Wayne, State of Michigan, at a meeting thereof, held on the 21st day of December, A. D. 1925.

HARRY C. ROBINSON, SIDNEY D. STRONG.

Section 26. No vehicle shall be locked in such a manner as to prevent it from being towed or moved.

Section 27. No vehicle shall stop on any crosswalk in any such manner as to obstruct free passage upon all parts of such crosswalk.

Section 28. When practicable, merchandise and freight shall be discharged and loaded from the side of the vehicle nearest the curb. When such handling is impracticable because of the size of, or weight of the packages of merchandise or freight, the vehicle may back to the curb, but it shall not be so handled as to interfere with the operation of street cars or other vehicles.

Section 29. When a horse-drawn vehicle is backed to the curb in pursuance of Section 28, the horses shall be turned in the direction in which the traffic is proceeding with their heads at right angle to the vehicle.

Section 30. No person shall hitch or climb onto any moving vehicle either with or without the consent of its operator. Provided, that this section shall not apply to the coupling of trailers or proper towing of other vehicles.

A new storm vestibule has been placed at the main entrance to the church house, which eliminates much of the unpleasantness in time of storm. At the Christmas supper given by Mr. Holcomb's class last week, there were twelve college students and four college graduates. A very fine showing for a class numbering about thirty members.

The Booster Class will have their class reunion and birthday supper this Friday evening.

At the request of the Men's Class, Dr. Lendrum will preach next Sunday morning on "Christ: Prophet or Redeemer." There will also be reception of members, and in the evening there will be the report from three delegates who attended the Student Conference, held at Evanston, Ill., during the holidays.

Mr. and Mrs. Freund and sons have returned home after spending the holidays with the former's parents in Indiana.

An old time dancing party, with an old time orchestra will be given at the Masonic temple on Friday evening, January 22.

Mr. and Mrs. Hitt and family have moved here from Ohio. They are occupying the C. W. Scott house on Forest avenue.

The Junior Bridge Club was entertained by Miss Dorothea Livrance at the home of her aunt, Mrs. Albert Gayde, Thursday, January 7th.

Mrs. George McLaren of Wayne has been quite ill, but her many Plymouth friends will be glad to know she is improving at this writing.

There will be a dancing party at the Penniman Allen auditorium, Friday evening, January 15th. Patterson's orchestra will furnish the music.

The L. A. S. of Livonia will hold their next meeting with Mrs. Charles Lute. All the Sunshine boxes to be opened at this meeting, Wednesday, January 20th.

Mr. and Mrs. Ben Smith of Clarenceville, and Mr. and Mrs. Marlin Simmons of Newburg, were entertained at the home of Mr. and Mrs. E. J. Simmons, Sunday.

Mr. and Mrs. John Pyatt and son, John, of Beechville, Canada, returned to their home Saturday, after two weeks' visit with Mrs. Pyatt's brother, Fred Clue and family.

The management of the Penniman Allen theatre announce a matinee on Saturday, January 23, for school children, when Jackie Coogan in "Old Clothes" will be the attraction.

Mr. and Mrs. Stanley Simmons of New Orleans, Louisiana, who had been visiting his parents, Mr. and Mrs. E. J. Simmons, during the holidays, returned to their home the first of the week. Mr. and Mrs. Harry Simmons of Reading, Ohio, were also guests at the parental home during the holidays.

An automobile accident occurred on the Plymouth road, just east of the intersection of that road and the new Federal road to Newburg, about four o'clock last Saturday afternoon, when a Dodge sedan skidded and went into the ditch and turned over several times. Two men, whose names we are unable to ascertain, were in the car, and were badly hurt.

The Plymouth High school basket ball teams went to Northville last Friday evening, and all three teams met defeat at the hands of Northville High teams. The boys' first team lost by the narrow margin of one, the score being Plymouth 18 and Northville 19. The girls' team was defeated by a score of 27 to 15, and the second boys team was defeated by a score of 18 to 9. A large crowd of Plymouthites accompanied the teams to our neighboring village.

## MUNICIPAL NOTES

A representative of the American-LaFrance Fire Engine Company, Mr. Harry Bruce, has been here making the periodic inspection of our new pumper. It was found in good order.

A small blaze at the Plymouth Steel Tubing Works, Monday night, called the fire department out for a short time. The damage was small.

There is not much to be said about the sewer contract. The progress has been negligible. The disposal plant contract is quite in contrast. The contractor himself is on the job most of the time, and things move as they should.

To show the sort of service we are getting here in Plymouth from the Detroit Motor Bus Co., an incident which happened Monday night might be cited. The bus people knew that quite a number of Plymouth people were at the Paderewski concert at the Arcadia. The bus leaving Detroit at 10:30 p. m., after having been misdirected to the Arena Gardens, came back fifteen blocks down Cass avenue to pick up the Plymouth crowd, thus saving them over an hour's wait for next bus. This service was appreciated.

There are so many automobiles either owned by the village or driven by officials or those in the employ of the village, or driven by those doing work at the hall, which have a right to the parking space on the hall grounds, that we must make a ruling that all other cars must park in the street. It isn't that we wouldn't like to accommodate our friends, but room is limited.

taken for all magazines and newspapers at best prices. Woodworth Agency, 145 East Ann Arbor, near corner Mill and Ann Arbor, Mich.—Admission 8c
