FATHER AND SON

BANQUET NEXT TUESDAY

The Big Event Under the Auspices of the Hi-Y Club Will Be Held at High School Auditorium at 6:30 P. M.

A Splendid Program Has Been Prepared and the Event Promises to Be the Largest of Its Kind Ever Held Here.

Plans for the Father and Son Banquet have progressed steadily since last week's issue of the Plymouth Mail.

The banquet will be held next Tuesday, February 9th, at 6:30 p. m. Because of the demand for the number of tickets, the High school auditorium was selected as being not only the logical place for such a community event, but as the only one of sufficient size.

A chicken and biscuit supper is to be served by the Episcopal Guild, after which the following program will be given:

Invocation—Rev. H. E. Sayles Overture—High School Orchestra Solo, "Last of Mine"—J. Tracy Piano Solo—Miss Ruth Allison Cornet Solo—Charles Duryee Group Songs—Led by C. Whipple Toastmaster—Dr. Hoover

"A Father's View of His Son"—F. D. Schrader

"A Son's View of His Father"—Wilbur Murphy

Plymouth Quartet—C. Whipple, A. Whipple, H. Jolliffe, E. Jolliffe Address—L. M. McKnight Mr. McKnight, the speaker of the evening, is the associate director of the Detroit Institute of Technology.

He is an effective speaker for such an occasion as this, as is evidenced by the fact that, after speaking last year to five hundred fathers and sons at Romeo, they have chosen him for their speaker again this year.

The ticket sale has far exceeded expectations. Over two hundred tickets have already been sold or reserved, and as it will not be possible to seat more than four hundred, and as the number of plates to be served must be definitely known by Monday, each one should have his ticket by Saturday evening at the latest. Tickets are on sale at 75c each at the Chamber of Commerce, at the real estate office of Lott & Murphy, and by members of the committees of the several churches.

Don't forget the time, 6:30 p. m., next Tuesday, February 9th, and the place, the High school auditorium—or the tickets at 75c each.

PLYMOUTH BASKETEERS MEET YPSI TONIGHT

The local High school boys' basketball team will meet the teams from the Ypsilanti Normal High school at the local High school auditorium, this Friday evening, February 5th, at 7:30 o'clock.

BARBER-YERKES

A. V. Barber and Miss Alice Yerkes were married at the home of the bride's parents, Mr. and Mrs. Harmon Yerkes on Williams street, last Saturday evening, in the presence of the immediate families, Rev. Wm. Richards of Northville, performing the ceremony. The bride was a former teacher in the schools of Northville, and Cleveland, Ohio. The groom conducts a general trucking business in Plymouth. They have the best wishes of their friends for a happy wedded life.

PRIMARY ELECTION NEXT MONDAY

A village primary election will be held at the village hall, Monday, February 8th, for the purpose of selecting four candidates for the office of village commissioner for the annual village election, which occurs on March 8th, at which time two commissioners are to be elected. The following candidates' names will appear upon the ballot: Karl W. Hillmer, Arthur E. Blunk, Alton J. Richwine, John W. Henderson, George H. Robinson, Henry Hondorp and Theodore Chilson.

LADIES' ALTAR SODALITY ELECTS NEW OFFICERS

The Ladies' Altar Sodality of Our Lady of Good Counsel parish, held a meeting last Wednesday in the home of Mrs. Joseph Rousseau at Newburg. In the course of the meeting, the following officers were elected for the ensuing year: President, Mrs. Joseph Rousseau; vice president, Mrs. Peter Miller; secretary-treasurer, Mrs. H. H. Masket; entertainment, Mrs. LaZotte, Mrs. Harvey Fish and Mrs. Simpson. After the business was transacted, cards were played, and a dainty luncheon served. Honors were won by Miss Mary Mertens, Mrs. Bunn and Mrs. Miller. The next meeting will be held February 10 at the home of Mrs. Peter Miller on East Ann Arbor road.

NEWS FROM OUR NEIGHBORING TOWNS

Dr. J. E. Bennett of Eloise, is president of the new Inkster National Bank. The Northville Rotary and Exchange Clubs will sponsor a father and son banquet early this month.

The Oakland Hotel building, one of the landmarks of Milford, is to be torn down to make room for an oil filling station.

A Birmingham builder plans to construct 80 homes there during the next year, each home to be worth approximately \$11,000.

Fire that destroyed the lofts and buildings of training station No. 1, National Pigeon Carrier Club at Whitmore Lake, last week Wednesday night, burned to death 200 carrier pigeons.

The board of supervisors of Washtenaw county has become annoyed by the claims of farmers who have had sheep killed by dogs, and have passed a resolution offering a reward of \$25 on any dog found "wounding or killing sheep in that county."

The new seats have all been placed in Northville's new theatre and this week will witness the completion of the installation of the electric fixtures, which are very attractive. Carpenters are putting on the finishing touches here and there, and the attractiveness and spaciousness of the new building is daily becoming more and more noticeable. But few towns the size of Northville can boast of a more attractive or up-to-date playhouse.—Northville Record.

William Livranca, a prominent farmer of Livonia township, who recently sold his farm to Detroit parties, has purchased the handsome and commodious home of S. E. Lovell in Orchard Heights. Having always lived on a farm where they had enjoyed plenty of room, the Lovell home with its spacious grounds appealed to them, and they were not long in closing the deal. The Lovell home will have a swimming pool, tennis court and other amusements, and will be a most desirable residence. Livranca will become residents of Northville.—Northville Record.

LOCAL MAN TRACK PROSPECT AT M. S. C.

FRESHMAN SQUAD IS COMPOSED OF 35 CANDIDATES UNDER COACH MILES CASTEEL.

Pierre M. Kenyon, a local young man, is a candidate for the Freshman track team at Michigan State College. Shortly after the opening of school for the winter term on January 4, a call was issued for candidates by the freshman track coach, Miles Casteel. Since that time, the men have been working out in the gymnasium under the direction of Casteel and some of the freshmen are beginning to show already that they have been performers in the past on the indoor track.

Thirty-five men have answered to the call and are being put through their paces by the freshman coach. With this material to graduate into the ranks of the varsity next year, prospects are bright for the 1927 season.

The freshman team will take part in the class meets of which there are two, one on January 23 and the other on January 30, and in the Michigan State Indoor track carnival March 5.

WOMAN'S CLUB

The Woman's Club of Plymouth, met at the home of Mrs. Irving Blunk last Friday, January 29th. After the business meeting, there was a short but interesting contest to discover just who could write correctly "The Preamble to the Constitution of the United States." Mrs. George A. Smith carried off the honors.

The program was then in charge of Mrs. Irving Ulrich. The school orchestra played two numbers, Overture and Acacia Club March, which were enjoyed very much. Miss Forsythe, accompanied by Ruth Allison at the piano, sang in her delightful manner, "Pirate Dreams by Euter, and To a Hilltop by Cox.

Heredit and the Chances for Racial Betterment was ably handled by Mrs. George Wilcox.

The meeting for Friday, February 5th, will be held in the music room of the school building, instead of the home of Mrs. George Wilcox. A three-reel film has been procured from the Tuskegee Institute, showing the industrial and social progress of the colored race. A splendid musical program is being prepared. This is all made possible through the courtesy of Supt. G. A. Smith. Let us all cooperate by being present.

LOCAL BASKET BALL LEAGUE.

In the Local Basket Ball League at the M. E. Community House, the Scouts came back to life, and thanks to the basket shooting of Lyle, won over the Presbyterian No. 1 in an exciting overtime game. The Beavers and M. E. No. 1 each won their game, so are still tied for second position. Following are the standings:

Table with columns: W, L, Pct. Rows: Fresh No. 2, Beavers, M. E. No. 1, Presbyterian No. 1, Scouts.

MUNICIPAL NOTES

Remember the Primary! Next Monday.

The Commission transacted a large amount of business for the village, Monday night.

Mr. Rambo, who has very acceptably filled the office of commissioner for the past year, resigned his position, because he has taken up his residence on his farm, and is therefore no longer eligible to act for the village. The commission accepted the resignation with much regret.

More extensions to our water mains are necessary this year, and the commission will ask the voters in March to sanction a \$25,000 bond issue to take care of this work, and of the deficiency in the water department caused by the increased costs of operation, due to full time pumping and increased bond maintenance.

The commission also accepted a report from Hoad, Decker, Shoecraft & Drury, including an estimate of \$80,000 for extensions to the sanitary sewer system this year. The portion of this cost will be taken care of by a bond issue to be asked for at the March election.

The Michigan Bell Telephone Company asked for and received permission to do more conduit work in connection with the construction of their new central station here.

The assessor was instructed to spread the assessments for the Holbrook avenue storm sewer, Forest avenue storm sewer, Spring street storm sewer and the Sheridan avenue curb and gutter.

A street light was granted, to be placed behind the stores on the north side of Penniman avenue, if the property owners furnish a right of way for the pole and wiring.

A petition for sewer and water for the Nash subdivision will be investigated as to the building to be done in that section this season.

By the time these notes are written, the new steam plant at the hall will be practically complete. Everything will be in shape so that the primary election, Monday, will be held in the new library and commission room. Come and vote and see this fine new room.

Remember the Primary! Next Monday.

The organ recital given by Miss Marion Beyer, pupil of Miss Evelyn Thomas, at the Methodist church last week Tuesday evening, was well attended. Miss Beyer rendered several selections on the organ in a very artistic manner, which demonstrated extraordinary ability and reflects great credit upon her instructor. She was assisted by Miss Florence Padlock, vocal soloist, of Detroit.

Miss Jeanette Cole was home from Oberlin College last week-end.

MRS. CHAS. DETHLOFF PASSES AWAY

BLUNK BROS BIG SALE IN FULL SWING

Blunk Bros' big sale opened yesterday, and the large crowd that thronged the store from early morning until closing time, is ample evidence of the power of advertising. Eight thousand double page posters printed in two colors, by the Mail office job department, were distributed in the surrounding country, announcing the big sale. Reductions on the entire stock of merchandise prevail during the sale, and some exceptional bargains are offered to the public at this time. We call attention to their big ad in today's Mail.

EXPRESSES GRATITUDE

Chief-of-Police Springer has received the following letter from the mother of Stephen O'Brien, who was accidentally killed when hit by an auto on the Plymouth road, late last fall: Cornecarrow Laragh Castleblayney, Co. Monaghan, Ireland, 15th January, 1926. G. W. Springer, Esq., Chief of Police, Plymouth.

Dear Sir: We are more thankful to you than we can say here, for your kindness in answering our letter so soon, and for the information given us about poor Stephen's death and the state of his affairs at the time of his death. It was very consoling to get such a nice letter from you, and to find that you knew Stephen so well and so favorably.

We are deeply grateful to you and Father LeFevre, and to Stephen's fellow workers for their goodness and sympathy shown at Stephen's death and funeral. We owe you all very much—more than we can ever repay, for your kindness to him and for the decent funeral that was given him. You shall always have our good wishes and prayers for your welfare. Although his end was sad, if it was God's will we believe everything was done for him that could be done for him in the circumstances, and we trust that God in His mercy has been good to him.

Assuring you of our sincere gratitude and good wishes, I am, Dear Sir, Yours very gratefully, (Mrs.) Susan O'Brien.

A number of ladies attended the Ladies' Auxiliary meeting at the Lutheran church, Wednesday evening, at 7:30. A social afternoon was enjoyed, and much was served.

THOMPSON-MECKLENBURG

Miss Ruth Mecklenburg, daughter of Mr. and Mrs. August Mecklenburg, and Arvid B. Thompson were married in Detroit, last Saturday afternoon, January 30th. They will reside in the apartments in the Patterson block on Penniman avenue. They have the best wishes of a host of friends for a happy and prosperous wedded life.

WEAR INTERESTING TALK

The members of the Plymouth Rotary Club had the pleasure of hearing Captain Detective Charles C. Carmody, fingerprint expert of the Detroit police department, at the noonday luncheon of the club, last Friday. Captain Carmody gave a very interesting explanation of the fingerprint system, and also exhibited some interesting pictures. Several members of the club had their fingers "took." The members of the local police force were guests of the club for this occasion.

### DON'T OVERLOOK THEM

No matter what newspaper you pick up—read the ads. They are among the most interesting features in any paper—and the judicious buyer will find that they point the way to real economy. Men of wisdom no longer argue that advertising doesn't pay. They realize that if it didn't pay Henry Ford would not be expending \$6,000,000 a year to advertise flivvers; Wrigley would not be paying out \$3,500,000 every year to advertise chewing gum; Campbell would not be spending \$1,500,000 yearly to sell soups, and so on down the line, with at least fifty or a hundred other concerns spending as much as a million dollars each for advertising, every year. You bet advertising pays, or there wouldn't be so much of it done. And the best part of it is that it pays those who buy the same as it pays those who sell. So always read the ads—and always remember that you can profit most by buying from the men or the firms that advertise all the time.

### GOING FAST

We note a report sent out by the American Tree Association of Washington City that our forests are going about four and one-half times faster than they are being replenished. This is due to cutting for our needs and to destruction either by forest fires or insect pests. Coupled with this is the fact that the population of the country is constantly increasing. Some of our leading thinkers predict a population of 300,000,000 in a comparatively few years. With the population going up the forests are coming down, and that can only mean disaster in the years to come. The organization referred to above is publishing a little "Forestry Primer," containing much valuable information on this important subject—the conservation and replanting of forests—and we feel sure that every citizen of Plymouth who writes to the association at Washington for a free copy of it will be rewarded for the time and stamp spent in securing it.

### WHY NOT TRY THIS

We've often wondered why people wait until spring to do a lot of odd jobs around the house that could be done just as well now, while there is more time to devote to such things. If there is a little inside painting to do there is no reason why it can't be done, in a lot of instances, before spring arrives. Opening the windows an inch or so at top and bottom in chilly weather is not going to hurt anything, and the paint job will dry quickly with even that much fresh air. Locks and hardware patching on the inside of the house can be looked after now just as well as in the spring, when there is so much demanding attention. The Plymouth man or woman who accomplishes something now that ordinarily would be put over until spring will find themselves ahead of their neighbors when the regular spring season does arrive, and they will also find that a lot of energy has been saved by doing all the odd jobs possible in the winter months.

### USING UP THE CORN

Everybody seems to be worrying about what to do with the corn surplus in this country—that is, everybody except the farmer. He has put it into his cribs and granaries, and is in many if not in the majority of instances "sitting pretty," while waiting to see what the world is going to do about it. In many localities the corn surplus appears to be a real problem, though it is not considered a serious one around Plymouth.

The farmer knows that if the price will not go up there is a chance to get a fair profit out of it by feeding it to hogs. Of course he is paying a pretty good price for hogs, but the animals grow rapidly, and in the end pay a profit that also takes care of the cost of producing the corn. Many things

are working in the meantime to increase the price of corn. One big implement manufacturing concern is said to be offering to sell implements to the farmers at regular prices and take pay in corn at \$1 a bushel. If corn goes higher than that before next May, the implement men, of course, will get the benefit of the increase.

In many parts of the country the surplus is being worked up into corn oil, corn sugar and corn syrup. The people can help along the good work by buying these products, baking more corn bread and using corn products as breakfast food. It is a time for co-operation, time to aid the men who, in trying to feed the world, raised a more bountiful corn crop than they anticipated. Everyone who can help them dispose of this surplus before another crop is planted should do so for the good of the country at large.

## SCHOOL NOTES

### GIRLS' BASKET BALL GAME

(By Evelyn Schrader)

The girls' basket ball game, which was played at Farmington, was very exciting, and the crowd was in an uproar most of the time.

Although the Plymouth girls played very well and also hard, the score was against them at the end of the first half, and favored Farmington 19 to 10.

When the second and last half started, the Plymouth girls came back with greater vim than ever. The centers, who were Genevieve Bird and Ida Mae Bennett, surely showed their strength, because the ball only went down to Farmington's forward court a few times. When the ball did manage to get down to the forward court, the Plymouth guards, who were Marie Miller and Elsie White, kept the ball from getting into the forwards' hands, so it would be possible for them to make a basket. The Plymouth forwards, Winifred Draper and Dorothy Hillman, deserve credit for the way they played in the last half by making the baskets most every time the ball was in their hands.

The last quarter was more of a fight than a game, but all of the players came out without many injuries, and the game ended with the score in favor of Plymouth, 25 to 21.

### BOYS' BASKET BALL GAME

On January 29, Plymouth High journeyed to Farmington, where they played the strong Farmington High team, losing by the score of 22 to 14.

Plymouth was handicapped because of the low ceiling in the gymnasium, which made it impossible to make any long shots. Our team played a very strong defense throughout the game, and although they did not win, they deserve much credit. The game was quite well attended by home admirers.

Our thanks and appreciation are due Carl Helde for the pot of tulips that we have all admired on the library desk this week.

### GRADE NOTES

(By Marion Williams)

Mary Koenig and Virginia Lendrum passed into the second A grade.

Section I of second A grade, are starting to read the Child's Library Reader.

Harold Williams of the third grade, was neither absent or tardy during the last term.

A new room for the fourth A and fifth B classes, has been started in the former music room.

The following pupils of Mrs. Bird's room were neither absent nor tardy during the first semester: April Baker, Melvin Blunk, Russell Mico, Vera Wood.

The Wednesday Bridge Club met with Mrs. John J. McLaren, on West Ann Arbor street, this week.

Friends here will regret to learn of the death of Allan Herdman, aged 20 years, son of Mr. and Mrs. John Herdman of Ann Arbor, which occurred Friday, January 29th. The funeral was held Tuesday afternoon. Mrs. Ida Taft and D. E. Kellogg of this village attended the services. The young man's father is a former Plymouth boy, and his many friends here will sympathize with him in the loss of his son.

**"PARTICULAR PERSON" CALLS**—These are calls in which you tell the operator you wish to speak to a particular person. "Particular Person" calls cost more and take longer than "Anyone" calls because more time and expense are required to locate the person wanted.

On a "Particular Person" call, if you do not talk with your party, through no fault of the Telephone Company, a "Report" charge applies, providing you are given information concerning the person called.

**APPOINTMENT CALLS and Messenger Service**—You can arrange an appointment to talk at a definite time by telling the operator. You can have a messenger bring your party to the telephone by requesting "Messenger Service." Both of these calls cost more than "Anyone" or "Particular Person" calls.

### Today's Reflections

If your children develop dishonesty you can't convince your neighbors that they didn't come by it honestly.

If the groundhog is a friend of mankind, how many Plymouth men can hold up their hands and testify that he ever helped them to cut down their coal bills?

It won't be long now until most of us will be figuring how to save enough out of our incomes to pay our income tax.

How about a special corner in Hades for the fellows who neglect to look after the brake linings.

Sometimes you can tell where a Plymouth man gets his opinions by listening to his wife.

If press agents told the truth, almost all of this country's income taxes would be paid by movie stars.

In some parts of the country the chief outdoor sport this winter has been how much a snow shovel will hold.

We might also suggest to little Plymouth boys that Mr. Rockefeller didn't get all of his filing stations by lying in bed until 9 o'clock in the morning.

Most every girl likes to see a man smoke a pipe until after she is married to a pipe smoker and has to help him remember where he laid it.

What has become of the old-fashioned Plymouth man who used to worry over how to keep the fly-specks off of his celluloid collar?

It used to be a Ford was where you crossed. Now several of them get together and form a place where you can't cross.

Maybe one reason why Opportunity doesn't call oftener on the modern girl is because old Op hasn't time to wait for her to finish powdering her nose.

Telephone your items to the Mail office. We want them every week.

### Picked Up About Town

"It has about gotten so in this country," says Dad Plymouth, "that if you are able to speak in three minutes after you take a drink of it, they call it pretty good whiskey."

The only reason why some men work is they're too dignified to beg and too nervous to steal.

Dad Plymouth says that maybe the reason they call it "alimony" is because it comes after a broken-down alibi.

To some men the loveliest spot on earth is the little spot commonly called an ace.

According to Dad, Plymouth, we could help the corn growers of this country some if we would all take to smoking cob pipes.

Prayers and people are a good deal alike. If the latter don't work neither will the former.

"A Christian nation," says Dad Plymouth, "appears to be one in which a prize-fighter makes more money than a preacher."

"My idea of making a little bit go a long way," says Dad Plymouth, "is feeding hay to a giraffe."

A school for politicians would be all right, but where would you go to find the right kind of teachers.

Our idea of a "horrible example" is the Plymouth man who runs in debt, trying to keep up with his neighbors.

A checking account offers you two things. First, a convenient and business-like way of paying bills and obligations. Second, the ability to get your money just when you need it. In other words, Ready Money.

**INSTALLMENT SELLER WINS REALTORS' AID**

**MODIFICATION OF DEPRECIATION PROVISION IN U. S. TAX BILL SOUGHT.**

Clarification of the provisions of the federal revenue bill for 1926 so as adequately to safeguard the taxpayer in the matter of deferred payment sales or installment sales of real estate is asked in a letter addressed to Senator Reed Smoot, of Utah, chairman of the senate committee on finance, by the National Association of Real Estate Boards through its general counsel, Nathan William MacChesney.

The letter also protests against the present wording of the tax bill in regard to the taking of depreciation upon real estate investments in estimating tax on capital gain. It commends the announced intention of Senator Smoot to urge the abolition of the federal estate tax, and suggests that a fair division of the tax field would be the relegation of the taxation of estates and inheritance to the several states, and the corresponding retirement of the states from the generation of incomes, leaving this source of revenue to the federal government alone.

**Of Great Importance**

The question of the method of income tax payment upon proceeds of installment sales is one of increasing importance not only to the real estate business, but in every avenue of mercantile transaction, General MacChesney points out.

In the case in installment sales of real estate it was the practice at one time to make returns upon the basis that capital should be repaid prior to any return of income for taxation, the theory being that in which when real estate is sold on deferred payments no profit is realized until the original cost of capital has been returned.

The regulations issued by the treasury department for the administration of the revenue act of 1924, provided another method by which when real property was sold on deferred payments not on an installment plan, "if the obligations have no fair market value," the seller could reimburse himself, not for all of his capital investment, but for the capital investment of the particular piece of land sold before making any return of the profit. For example, in the sale of subdivisions, he might reimburse himself for that portion of the capital investment represented by the individual lot sold. The department, the letter states, has practically nullified this provision by what amounts to a refusal to accept such returns.

More recently, therefore, it has been the common practice to make a return of income based upon the proportion of the total sales price, which the anticipated profit bore to the investment. Out of each payment the seller credited a certain proportion to his capital account and returned a certain proportion to the government for taxable income for the year in which received.

**Regulations Unauthorized**

Recently the board of tax appeals held that there was no authority for articles 44-45 of treasury department regulations 65 which permitted such

returns. The question of whether such returns may legally be permitted under subsequent acts has never been decided. It is assumed that under the later laws the department will continue to permit returns to be made upon this basis.

The association holds that since there seems to be some question as to whether the proposed revenue act would allow the making of returns for any basis in the year except July, article 45 of the language should be made such as to give the taxpayer the effective right to make both the installment and deferred payment sales returns as there provided.

Change in the provisions of the proposed revenue bill in regard to the reckoning of depreciation in income tax returns on real estate investments is asked so that the provision shall be based on allowed and not on allowable depreciation.

The provision at present appearing in the bill, which would apparently compute the taxpayer either to take an allowable depreciation or have that depreciation charged against him at the time of resale, is held by the association to be unfair.—Detroit Free Press.

**WINTER SPURS REALTY TRADE**

**DECEMBER MOST ACTIVE MONTH OF PAST YEAR WITH BUT ONE EXCEPTION.**

The Real estate market nationally during the month of December registered a higher degree of activity than for any month of the past year except July, according to the index of market activity compiled by the National Association of Real Estate Boards. The index for the month, based on the total number of real estate transfers and conveyances recorded in 41 typical cities, reached 170, a jump of 11 points over the index for November, and by far the highest during the 10 years covered by the association's records.

Making the necessary allowance for the normal growth in volume of transfers due to population growth, the index shows a decidedly active market condition.

**8 Per Cent Gain**

The pronounced activity shown in the real estate market for December parallels the December record for continuing high activity in building construction and corroborates the findings of the semi-annual survey of the real estate market recently issued by the association from reports made by 198 member boards.

The total number of transfers and conveyances recorded during the year 1925 in the 41 cities covered by the index reports was 1,825,000, as against less than 1,700,000 during the preceding years. This is a gain of 8 per cent in the volume of real estate movement.

The index figures for the 12 months just passed show that while at no time during 1925 was there the phenomenal business activity in real estate which marked the record year preceding, the general tone of the year was one of very steady strength.

The index which uses the average total number of transfers and conveyances recorded during any given month for the month, registered the activity of the successive months of 1925 as follows:

**Record by Months**

January, 171; February, 173; March, 168; April, 176; May, 168; June, 164; July, 178; August, 151; September, 167; October, 167; November, 165; December, 170.

For 1924 the index record was as follows: January, 182; February, 183; March, 160; April, 169; May, 150; June, 147; July, 151; August, 146; September, 140; October, 152; November, 144; December, 145.—Detroit Free Press.

Russell A. Wingard states that he has sold one of his homes on Davis street before it is done. The other house on Liberty street is ready for plaster, and he expects to have it done by the first of March.

**TREND OF POPULATION TOWARD SMALLER TOWNS.**

For years we have witnessed in this country the phenomenon of pronounced population shifts from the rural districts to the cities. While this movement still may be in progress, the development of semi-rural environment has been carried to the place where the big cities of the first magnitude are now growing seemingly no more rapidly than are the small cities and large towns, and we even may be on the threshold of a reaction from the traditional prourban migration.

From the most complete, and reliable source of building information available in this country, it is found that during the first nine months of the current year, the 25 leading cities of the country, in point of housing con-

struction, enjoyed a building gain of about 17 per cent over the same period of 1924.

From the same authority it is learned that 344 cities and towns, exclusive of the 25 metropolises, showed a combined increase of substantially the same percentage. Included in this list of 344 centers were some places with only a few thousand population.

While these figures are not conclusive, they are enough to the point to arouse the interest of the student of current economic conditions and to justify the hope that the small town is beginning to come into its own.

Some time ago, Russell A. Wingard, realtor, sold a house to the late Mrs. Briggs, and he again sold the same house for the heirs last week. He says that when he does sell a house for anyone and he thinks it is a bargain, he stands ready to sell it again with a little profit for the holder.

**THIRTY ACRES**

A money maker, having a reputation of producing the best crops in the neighborhood; a good orchard of about eighty trees bearing, besides several young trees. Good fences. Only one mile from school. Fair barn, granary, hen house and six-room dwelling. As the owner has other interests that requires his attention, this little farm has been priced at \$4800.00, and can be handled on very reasonable terms.

**SEVEN ACRE MARKET**

This is really not a farm, it is a road-side market, with store and gas station combined, and it is located at one of the best corners on the Canton Center road. There is a new modern eight-room home, with bath, furnace, electric lights and automatic water system; there is also a barn 24x30, exceptionally well built and equipped with electric lights. This is a very attractive proposition for someone who desires to grow fruit, vegetables and poultry that can be marketed at the door.

**TWO FAMILY DWELLING**

Within one block of car line, equipped with electric lights and city water, that can be bought at a price that will enable the purchaser to live in one apartment and pay for the property from the rent of the other. It's a good investment.

#### Modern War Methods

##### Unknown to Druses

Notwithstanding their incredible courage, the Druses are inefficient soldiers, not so much tactically as strategically. Their war against France was in no way prepared for, and so they could not benefit by their victory.

It was a criminal folly of Sultan Pasha, and a treachery to his small, courageous people, to assume the fight under such circumstances, without any sort of preparation. I realized this first when Sultan Pasha asked me to stay a few days longer in the Djebel Druz to examine the seriously wounded and to attend them.

There was not a single physician among the whole people, nor any medical instruments to be had, no bandages, not even any medical material to treat a first-aid case. The army was no better equipped in any other direction. They had, for instance, neither hand grenades nor guns; and, having captured a number of machine guns (not only light guns, as the French communicate stated; I myself saw a 105 mm. operative field gun not far from Sueda) they did not have a single officer who knew how to use them.

They attacked tanks and captured five of them—the writer saw three burned French tanks on the road between Es Sijn and Mesraa—but they attacked them without arms. They thrust themselves against the vehicles, caught them with their naked hands, overturned them, and put them to ashes. . . . I was shown one of their leaders who threw away his flint, and sword in hand, attacked the French infantry at the front of his men.

Thus is war conducted in the Djebel Druz.—Wolfgang von Weisl in the Atlantic Monthly.

#### Water Power in Sweden

A Swedish waterfall now runs the trolleys in Copenhagen, the capital of Denmark, thanks to the completion recently of the most powerful electric cable ever laid under water. Replacing a smaller cable that had been in use since 1914, it is capable of transmitting 50,000 volts and thereby adds "white coal" on a large scale to the list of Swedish articles of export. Besides the Copenhagen trolleys, the electricity transmitted under water also runs factory machinery and gives light to the city and the surrounding countryside. Crossing the sound, or strait, that separates Sweden and Denmark at its narrowest point, the new cable leaves Sweden at Helsingborg and enters Denmark at Elsinore within sight of the hamlet castle Kronborg. In length it is about three and a half miles, and its weight is more than 200 tons. It was made in six sections, and the "elievee"-covered joints, completed as the cable was being laid, are of a new type. To hold the cable ship steady, six anchors were used. The cost of the new cable is about \$500,000, defrayed jointly by the Swedish power company and Danish municipalities. The power comes from the River Lagan, in southwestern Sweden.

#### Cheap at Half Price

Sadie was the less attractive of two sisters. But her lack of looks had not detracted from her ability to win a husband, as she was happily married while her more attractive sister was still single. Because of the favoritism shown the married sister, the "bachelor girl" was continually "peevish." One day her mother urged her to "stop sulking and get some sense and marry a dry-goods merchant as Sadie had done."

"Married, married, that's all I hear any more. Why, I wouldn't marry a guy like Sadie's husband with a half-dead business in a dying town for six like him," the unmarried sister exploded.

"Why, he's a nice man," her mother replied. "And whenever she wants a new dress, she can get it wholesale."

#### Hookworm in Holy Land

The present methods of agriculture are blameworthy for the introduction of hookworm into the Holy land. Dr. A. Felix, of the Rothschild hospital in Palestine, who found that about one out of every twelve workmen in the orange groves is affected by the disease, attributes it to the increased use of irrigation in the land. "It is very difficult to trace the source of the infection," said Doctor Felix, "but Egypt, where the hookworm disease is known to exist, is the most likely source because of the large number of Egyptian soldiers who worked here during the war."

#### War on Insect Pests

In furtherance of improved agricultural conditions, an entomologist on the Hawaiian board of agriculture has obtained from south China parasites to be used in warring against the aridoretus beetle, a destructive garden pest. Parasites imported into the territory in the last quarter of a century are credited with practical elimination of insect plagues attacking cane, pineapple and general crops. The gain in volume of Hawaii's crops in the last 15 years is attributed largely to freedom from destructive pests.

#### Improved Type of Glass

A new kind of glass, called polipox, that will not splinter when broken, is made in Austria by condensation process, like bakelite and other synthetic resins, by the action of formaldehyde on a simple organic chemical, urea. The new resin is perfectly transparent, elastic, magnifying when made into a lens, has considerable strength and a fair degree of hardness.

The ladder of life is full of splinters, but we never realize it until we begin to slide down.  
 Moral: Keep climbing.

Here's another egg story:  
 A lady who lives near Plymouth, told me the other day, that her hens laid such large eggs that it took only eight to make a dozen.

Be it ever so humble, there's no place like home.  
 Start that home this spring—if it's only a garage home. Stop paying rent, and be your own boss. Let us help you. We have the lumber and can give you financial assistance. Call us for appointment.

We know a man in Plymouth, who is already making plans for his garden.

We've believed a lot of these radio stories. But Floyd Shafer tells us that he got a male quartet the other night, and with his set he was able to tune out all but the tenor. Can you beat that one.

'Bout time for some more AMAL-GAM, isn't it? We have it.

Rev. Paul R. Havens preached a fine sermon, Sunday last, taking the lesson story of Jesus washing the disciples feet. Misses Anna and Ada Youngs rendered a duet, "A Clean Heart," by Fred H. Byshe. They are always a welcome addition to the service. Eighty-two were in Sunday-school, and the collection was \$6.00. The children are all looking forward to the Valentine party.

There was a good attendance at the services in the evening to hear L. A. Koepfgen on "Narcotics." Very few realize the terrible menace this is to our country. He stated that half the crimes committed by our young men are done by addicts. He had a number of articles with him to show how dope peddlers get their victims; also a pipe worth \$1,000 that was taken in a raid on an opium den. It surely was a very instructive and interesting talk.

Next Sunday evening, Prof. Pray of the State Normal, will give the address. A great deal of credit is due our pastor in securing the fine speakers for the evening meetings. The chorus choir and special music, duet by Mrs.

Havens and Charles Leonard were well worth hearing.

Quite a number from the neighborhood gave our pastor and wife a surprise, Friday evening, the occasion being their fifth wedding anniversary. A pleasant evening was spent, and a nice remembrance was left for them when the company dispersed, wishing them many more happy anniversaries.

As there was a lack of snow, the young people's sleighride did not materialize. Nevertheless, they had a jolly time at the L. A. S. hall.

byterian church, Detroit, was the officiating clergyman, using the impressive double ring service. An elaborate wedding breakfast was served at noon. In the evening a reception was held at the home of the groom's aunt, Miss Elizabeth Matheson, 4059 Savel Place, Detroit. The young couple will reside in Detroit. **THE THEATRE**

**"EXCHANGE OF WIVES"**

If you can imagine all the complications that would result from a trial "exchange of wives," you have a faint idea of the amusing incidents in the picture that comes to the Pennington Allen theatre, Saturday, February 6.

It is titled "Exchange of Wives," and is Hobart Henley's fifth contribution to the Metro-Goldwyn-Mayer line-up. It is based on the famous stage play by Cosmo Hamilton.

"Exchange of Wives" is one of the finest, most consistently funny comedies seen in Plymouth this season. It tells the story of two neighboring couples, the Rathburns and the

Morans, whose lives become decidedly tangled and messed up, when Mr. Rathburn imagines himself in love with Mrs. Moran, and Mr. Moran's heart turns handsprings whenever he sees Mrs. Rathburn.

Hobart Henley has directed the picture with a nice understanding of the petty differences of married life, permeating his story with the satire of each situation, yet playing each scene with the utmost seriousness, making it all the more funny.

The adaptation and continuity of "Exchange of Wives" have made the picture not only a faithful but a highly intelligent translation of the original. They are the work of those master craftsmen Frederic and Fanny Hatton. Needless to say, they have caught the spirit of the piece, and have appreciably heightened its entertainment value.

"Exchange of Wives" is a picture you really can't afford to miss. And you will have only yourself to blame if you do.

**"THE KEEPER OF THE BEES"**

Keeper of the Bees," Gene Stratton Porter's latest novel, which will be shown at the Pennington Allen theatre, on Sunday and Monday, February 7 and 8. And as if that were not enough to attract the innumerable Gene Stratton Porter fans, Gene Stratton Monroe, the little granddaughter of the famous author, is cast in the part of the "Little Scout," the part which Mrs. Porter wrote her into when she began the novel. This delightful eleven-year-old overshadows a finely balanced cast of talented players: perhaps because it is generally known that she was the original "Little Scout," and perhaps because she is so utterly herself. In any case she would shine; and in this particular instance it is doubtful if a character was ever played more naturally before the camera. J. Leo Meehan, who directed Mrs. Porter's previous F. B. O. success, "The Girl of the Lumberlost," has handled the production in masterly fashion, and it is certain to make thousands of new admirers for the great author whose untimely death robbed America of one of the most illustrious of its writers.

### BAPTIST NOTES

The pastor's sermon Sunday morning from Heb. 12:28. "For Our Lord is a Consuming Fire."

The Sunday-school attendance is keeping up well this winter. Only five teachers were absent last Sunday.

Miss Willie Hancock led the meeting of the B. Y. P. U. last Sunday. Miss Madelyn Shackleton will lead next Sunday. Will you try to be on time and give the meeting a boost?

Chair practice at parsonage on Saturday evening. The church appointed Walter Postiff and Roland Allenbaugh to meet with the committee on public playground, at the Chamber of Commerce, this week Thursday.

Quite a large list of names were handed in on Sunday, subscriptions for the Michigan Baptist. See the pastor or phone him about it.

The annual meeting of the Ladies' Aid Society met at the church parlors last week Wednesday, January 27th. The officers elected are: President, Mrs. George Wilkie; first vice president, Mrs. H. E. Sayles; second vice president, Mrs. Joseph Stanley; secretary, Mrs. Lucy Smith; assistant secretary, Mrs. John Shackleton; treasurer, Mrs. Hugh Daly.

The Ladies' Aid Society has repaired their furnace pipe, and have a new water pipe in the kitchen, also a new white enamel sink. They have met many of the church expenses during the past year. The amount of money raised by socials, suppers, bazaars, etc., was about the same as last year—a little over \$500. After election of officers and reports of committees, the church and friends sat down to a most bountiful supper. A short program was given after supper, in charge of Mr. Hamill; a solo by Miss Thelma Smith, and a reading by Mrs. Noel. Little songs were sung. Everyone joined in a closing song, and the pastor dismissed with prayer.

### EPISCOPAL NOTES

The little mission church of St. John's was comfortably filled again last Sunday morning, and Rev. Charles Wesley preached an excellent sermon from the text 1 Cor. 9:24. "Know ye not that they which run in a race run all, but one receiveth the prize?"

During his address, Rev. Wesley gave a special charge to the men of which there was a large representative number present. During the service, a solo was sung by Joseph Tracy, entitled "I'm a Pilgrim," accompanied by Miss M. A. Pearson, organist, and his rendering of the solo was much appreciated by the congregation present.

Before the Sunday-school sessions, Rev. Charles Wesley spoke to the members of the school, and held their attention for fifteen minutes or so. The men's club is holding a special meeting this week, at the home of Alfred Innis, at Phoenix, and we believe some special plans will be put forward and discussed relating, we understand, to church extension.

A meeting is to be held this week at the home of Mrs. George D. Michelin, with the object of forming a choir; all those who are interested in the choral part of our services are asked to communicate with Mrs. George D. Michelin, Sidney D. Stroug or to any members.

An omission was made in our notice of last week when announcing the names of the officers of the Ladies' Guild, the name of Mrs. Sidney Strong as vice president, was accidentally omitted.

Last Tuesday evening a social evening was held for the members of the congregation and the Sunday-school. The Grange hall was hired for the evening, and there were about 65 or 70 present. A very pleasant evening was spent with different kinds of games and music, and we were all pleased to see an old friend and former missionary, Rev. Harry Midworth, among us again, who came over with Rev. and Mrs. Charles Wesley.

The church-school of St. John's mission enjoyed a very pleasant "get-together" at the Grange hall, Tuesday evening. Many of the children and their parents sat down to a pot-luck supper with Rev. and Mrs. Charles Wesley and Mr. Midworth, who used to be a missionary here. Afterwards a program of games was put on for the entertainment of the younger people.

The "Men of St. John's" connected with St. John's Episcopal mission, met Wednesday evening with Alfred Innis, on the Plymouth-Northville road. As usual the men enjoyed this opportunity to talk over the affairs of the church.

### METHODIST NOTES

The "Young Peoples' service" last Sunday evening, was very well attended and much enjoyed.

James Thoburn Lendrum spent the weekend with his parents at the parsonage.

The Scouts and the Boosters meet at 7:00 o'clock, next Monday evening. The Baptists and the Presbyterian No. 1 at 8:00 o'clock, and the Methodist No. 1 and the Presbyterian No. 2 at 9:00 o'clock. It is said that the Boosters are having the most fun out of the series.

Miss Ida Vie Lendrum and little Virginia Lendrum of Wilkes-Barre, Pennsylvania, are visitors at the parsonage.

Willis Dorchester returned this week from Warren, Indiana, accompanied by Mr. and Mrs. Jesse McIlwain and daughter, Helen.

The Woman's Missionary Society will meet next Wednesday with Mrs. I. N. Dickerson, 355 Fairground avenue. In addition to the program, this will be the occasion for the opening of the mite boxes of the W. F. M. S.

Plymouth automobiles will be running around next year, with license plates with black figures on an orange background. Something over 1,200,000 plates are now being turned out by the Jackson prison with new machinery that reduces the cost—but not to plate users. All 1927 Michigan plates will be of uniform size.

Seven hundred people attended the chicken supper and dance given by the Rebekahs and Odd Fellows at the new I. O. O. F. Temple last Friday evening. The crowd was so large that the cats were completely sold out, and the committee in charge then sent those who could not be fed to the Plymouth Cafe in the temple building, where they were taken care of. The supper and dance were much enjoyed by all. Livingston's orchestra furnished splendid music for the dancers.

Mrs. Eleanor Chambers, wife of Lew Chambers, of the local Ford plant, was very pleasantly surprised last week Thursday evening, when a party of twenty-five friends suddenly popped in at the Chambers residence, 883 Sutherland avenue, to assist in the celebration of Mrs. Chamber's birthday. Progressive Pedro was soon the order of the evening. After the all too quickly speeding hours, dainty refreshments were served. Before departure of the company, the assembled guests incidentally took occasion to congratulate Mr. and Mrs. Chambers on their thirteen years of successful married life, at the same time wishing them thirteen more, and with plenty of additional years thrown in on top of that. After all had testified to a most enjoyable evening, and assuring the principal that the event would long remain a pleasant memory, adieus were expressed and the guests departed for their several homes.

## FREE DOG AND PONY SHOW SATURDAY

LOCAL BUSINESS MEN ARRANGE FOR DOG AND PONY SHOW FOR SATURDAY VISITORS

Plymouth business men have completed arrangements to provide a very much worthwhile free entertainment in the business district here, Saturday afternoon at 2:00 o'clock for the pleasure of local people and the visitors from the surrounding local districts. There will be no charge of any sort.

The entertainment will be furnished by Van's Dog and Pony Show, which has played in the neighboring towns, where the attraction made a decided hit.

According to the plans, the show will be given on an elevated platform so that the spectators can see the entertainment from the back rows of the crowd, and everything points to a show worth going miles to see. Everyone is invited to be the guest of the Plymouth business men at the show.

### GREAT REVIVAL MEETINGS

Last week we had an article in this paper, asking everybody to come and bring their friends to hear Dr. L. D. Lamkin, the noted evangelist, now holding meetings at the Livonia Community church. Surely many did come and brought their friends with them. On Sunday evening the church was filled to capacity.

Dr. Lamkin is a very powerful speaker, preaching directly from the word of God, appealing only to sound judgment. As this goes to print, there has been seventy-two conversions.

Dr. Lamkin only expected to stay two weeks, but on account of the great interest shown, it was decided to continue the meetings until February 7th.

There will be meetings every night this week. Sunday will be the last day of the great Revival meetings. Let everybody feel this a great opportunity to hear Dr. Lamkin, as he is a man you are not often privileged to hear in a small town of this size. It is hoped the house will be crowded as it was last Sunday. The Burch family orchestra will be present; also the male quartet.

Basket ball tonight, Plymouth vs. Ypsil High, at High school auditorium.

### Dust to Drive Motors

The use of dust as a positive motor fuel to replace gasoline is being investigated by the bureau of chemistry of the Department of Agriculture. A device which corresponds roughly to a one-cylinder combustion engine is used and small quantities of carbonaceous dust, such as powdered sugar, cornstarch, cocoa, pulverized wood and even finely ground spices or coal dust, are combined in the mechanism, thoroughly mixed with air, and exploded with an electric spark.

### Canary Honored in Death

While carrying out repairs to a wall of a Brighton (England) house workmen came across the grave of a canary. A brick had been removed and a coffin with glass panels inserted. The canary was reclining on a bed of cotton wool, the inscription on the coffin being: "Died January 4, 1889."

### WE STILL CLAIM THE 7-UP CHAMPIONSHIP.

In the recent 7-up contest in Livonia, Herman Johnson and Jesse Ziegler still claim themselves the champion players. They deny that they ever lost the championship to William Garchow and Heon Ziegler, on January 21, that being Mr. Johnson's birthday, and several of the neighbors dropped in to remind him of the occasion. He did not get very interested in the 7-up game, because he was busy entertaining and serving refreshments to the guests.

In the first place, William and Heon never have won in a game of 7-up against Herman and Jesse, and on this occasion what was believed to be just a little pastime at a birthday party, they won a game or two, and now want to claim the championship, which we claim is very unfair. In our minds, William and Heon are not qualified to play in a championship game, for lack of experience. At this time, we still claim the championship, and are ready to take on all comers.

Signed,  
Jesse Ziegler,  
Herman Johnson.

## Coal Pile?

It's a good idea to bear in mind that there's going to be a long hard pull on the coal pile between now and actual spring weather.

Old February and windy March both have a habit of dishing out some mighty unpleasant weather. And having to scrape the bottom of the coal-bin doesn't add anything but more discomfort.
