BURROUGHS DAY IN PLYMOUTH A GREAT SUCCESS

One Hundred and Sixty-five Plymouthites and Guests Enjoy Dinner at Masonic Temple Last Week Thursday.

Village President Harry C. Robinson Welcomed the Guests and E. C. Hough Presided as Toastmaster.

The Plymouth Chamber of Commerce was host to the officials of the Burroughs Adding Machine Co. and representatives of the Detroit Edison Co., Detroit, Motorbus Co., Pere Marquette R. R. Co., Michigan Bell Telephone Co., and Michigan Federated Utilities, at a dinner tendered the visitors at the Masonic temple dining room last week Thursday, at 12:00 o'clock noon.

On May 12, 1925, the Plymouth business men were guests of the Burroughs Co. at a luncheon at their plant in Detroit, and the event of last week was a return compliment to our hosts of a year ago, and the pleasant acquaintances made at that time were renewed last Thursday, which had been officially proclaimed by the Chamber of Commerce as Burroughs Day. A committee from that organization with W. T. Pettigill as chairman, had the arrangements in charge.

One hundred and sixty-five men sat down to a splendid dinner, nicely served by the ladies of the Eastern Star. The tables were very pretty with the blue and white colors of the Chamber of Commerce, and the numerous bouquets of flowers. At each plate was a carnation, the gift of Carl Heide, and one of the famous Daisy pop guns, the gift of the Daisy Mfg. Co.

During the serving of the dinner, Violet McAfee's Variety Orchestra, Detroit, composed of four young ladies, furnished excellent music. The several ensemble and solo numbers were all exceptionally well rendered, and were heartily enjoyed.

After the eats had been disposed of, cigars were passed around, and the handiwork was called to order by Edward C. Hough, who presided as toastmaster in his usual pleasing manner.

The first speaker introduced by the toastmaster, was our genial mayor, Harry C. Robinson. Mr. Robinson, in a most happy manner welcomed the guests to Plymouth, and informed them that the latch-string of our village is always out, and they would always find a cordial welcome awaiting them here.

The first speaker introduced by the toastmaster, was our genial mayor, Harry C. Robinson. Mr. Robinson, in a most happy manner welcomed the guests to Plymouth, and informed them that the latch-string of our village is always out, and they would always find a cordial welcome awaiting them here.

Mr. Backus then gave an interesting talk on the history of the adding machine and the development of the Burroughs Co. from a small beginning up to the present time. The Detroit plant occupies a ground space of ten and three-quarters acres. Facilities are sufficient to produce 150,000 machines annually; the company itself manufacturing practically all parts entering into its products. The company has factories in Canada and England, and its sales force reaches to all parts of the world, the company marketing over 90 per cent of its products direct to the consumer through its many salesmen in the United States and Canada, working from its agencies and sub-agencies and representatives in all important foreign centers. Service agencies are maintained in all the important cities.

Mr. Backus paid a special tribute to our townsman, Allan Horton, who holds a position as designing engineer with the Burroughs Co. Mr. Horton has made some important inventions in connection with the Burroughs products, his latest being the new portable adding machine, which is just being

placed upon the market, the advertising campaign starting last week Thursday. This machine has many features which will commend it to the public, and will without a doubt meet a popular demand for a machine of this kind.

Mr. Backus spoke very interestingly of the wonderful progress that had been made in providing labor-saving machinery, rapid means of transportation and the many conveniences for comfortable living that we now enjoy that were not thought of in the days of our grandfathers.

The next speaker was E. E. Cain, assistant to the president and the general manager of the Pere Marquette Railway Co. Mr. Cain spoke briefly, touching upon the matter of a new depot for Plymouth, saying that the matter had been talked of for some time, but that it had not yet been determined where to locate it. But he thought we would get it in the course of time. Mr. Cain emphasized the fact that it was the desire of the Pere Marquette Co. to co-operate with the village in every way possible.

H. M. Thompson of the Detroit Edison Co., was then introduced. Mr. Thompson spoke of the friendly relations that had existed between the citizens of Plymouth and the Edison Co., since the purchase of the local municipal plant by that company several years ago. He touched on the great growth in street, residence and street lighting since the Edison Co. had taken over the business. He spoke of the desire of the company to render the best service possible, and the building of the new sub-station here to give still better service in supplying light and power for Plymouth.

Mr. Bedford of the Detroit Motorbus Co., was next introduced and spoke briefly. He said that it was the desire of his company to give Plymouth patrons of their buses the best possible service, and that every effort would be made to still better their service out of here.

Toy Crowe, local manager for the Michigan Bell Telephone Co., was the next speaker on the program. Mr. Crowe called attention to the great improvements his company was now making in Plymouth, and that when they were completed, Plymouth would have one of the best telephone exchanges in the country.

Harry K. Wrench, general manager of the Michigan Federated Utilities, Wayne County Division, successor to the Plymouth & Northville Gas Company, was the last speaker on the program. Mr. Wrench spoke of the improvements his company was making in the plant here, and the extensions they were making to furnish gas to nearby subdivisions and the Village of Wayne.

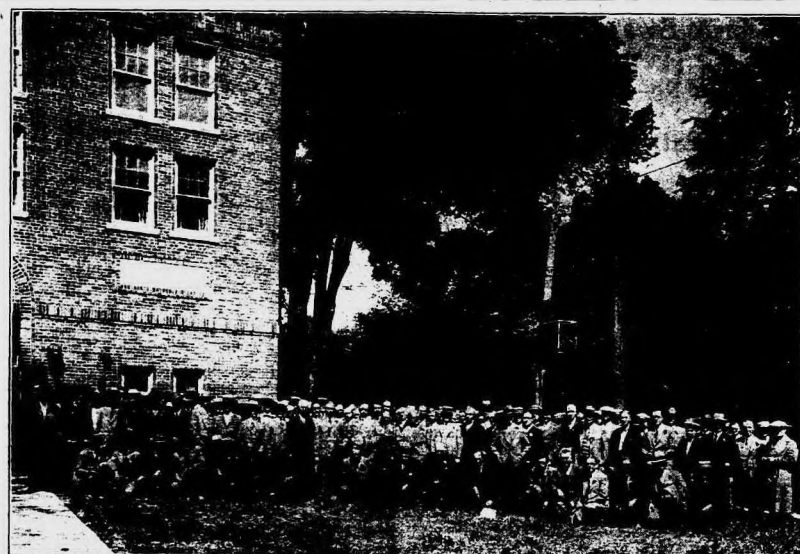

Wayne Vandyne then favored the company with a vocal solo, which was beautifully rendered. He responded to an encore.

The toastmaster then introduced Harry S. Lee, president of the Chamber of Commerce, who informed the guests that cars had been provided for and at the close of the program they would be taken for a ride through the village and to other points in the vicinity of Plymouth.

The program was brought to a close with the singing of Auld Lang Syne.

Returning from the auto ride, the visitors were loud in their praise of the hospitality that had been extended to them, and were delighted with their visit to Plymouth.

It was a most pleasant event for everybody, and it will do much to more firmly establish the friendly and neighborly feeling between the citizens of Plymouth, the Burroughs Co. and the other corporations which were represented here.

RURAL SCHOOLS GRADUATE 300

COMMENCEMENT EXERCISES AND FIELD MEET ARE HELD AT ELIZABETH PARK.

Five thousand persons attended the third annual commencement exercises and picnic of the Wayne county rural schools, Saturday, at Elizabeth Park, south of Trenton. Three hundred pupils of the rural schools of twenty townships received eighth grade diplomas, which were presented by Eber W. Yost, rural school commissioner of Wayne county.

Frank Cody, superintendent of the Detroit schools, was the principal speaker. He urged the graduates to attend high school. Fred C. Fischer, deputy county commissioner, also spoke.

Music was furnished by the band of the Roosevelt High school of Wyandotte. A field meet was held following the graduating exercises.

The results of the field meet follow: For boys of 80 pounds and less; 30-yard dash, won by Gerald Ziegler of the Wilcox school; second by Harry Dittmar of the Cady school; third, Stanley Traskowski of the Hough school. Standing broad jump, won by Howard Meixner of the Cady school; second, Curtis Neiman of the Hayti school.

For boys of 95 pounds and less; 50-yard dash, won by Harold Carlough of the Red school; second, Charles Dwyer of the Bartlett school. Running broad jump, won by Harold Carlough of the Red school; second, George Vincent of the Cady school.

Free for all boys; 90-yard dash, won by Glenn Smith of the Bartlett school; second, George Prieskorn of

GRAY-DOBOZY

Our Lady of Good Counsel Church was the scene of a very pretty wedding last week Saturday morning, June 5th, when Miss Mary Dobozy and Eaton Gray were united in marriage. Rev. Fr. Frank Lefevre officiated. The church was prettily decorated with ferns, pink and white carnations and bridal wreath, which rendered a June atmosphere, together with the strains of the "Bridal Chorus." The bride's gown of white crepe was offset by her tulle veil, the train of which was carried by a little girl, also dressed in white. The bridesmaid, Miss Bertha Dobozy, wore a becoming gown of pink, and carried Ophelia roses. The little flower girl's basket consisted of carnations.

Mrs. Gray is the daughter of Mr. and Mrs. Charles Dobozy of New Boston. Mr. Gray was attended by George Angel of New Boston. He is the son of Mr. and Mrs. Jon Gray.

ELECT NEW OFFICERS

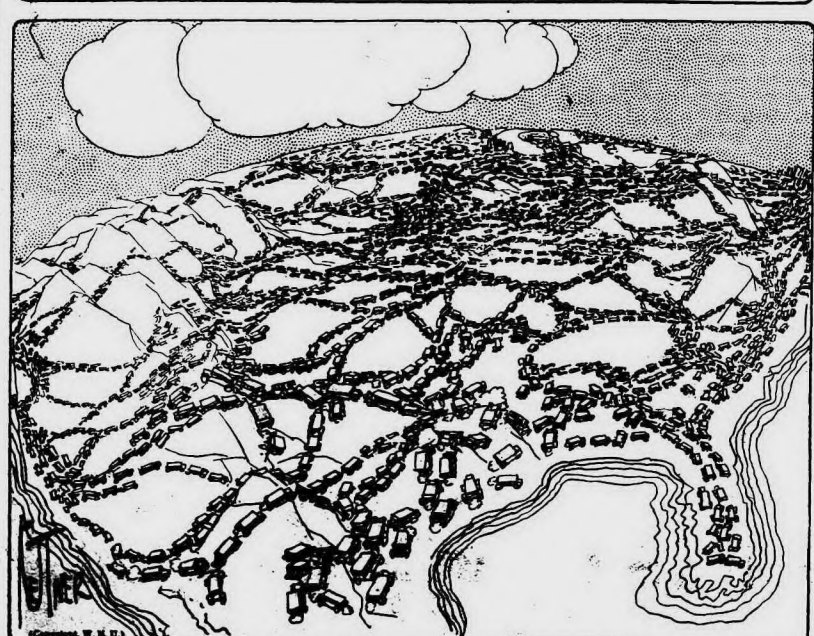

The annual meeting of the Missionary Societies of the Methodist church was held Wednesday at the home of Mrs. Levi Clemens. Twenty-eight members partook of a delicious cooperative luncheon at 1:00 o'clock, after which was held the business meeting and the annual election of officers. The societies are in a prosperous condition, about five hundred dollars having been raised and disbursed for missionary causes during the past year. The following officers were elected for the ensuing year:

President—Mrs. I. N. Dickerson
First Vice Pres.—Mrs. H. S. Doerr
Second Vice Pres.—Mrs. Wm. Thoma
Secretary—Mrs. George Card
Foreign Treas.—Mrs. F. Jenks
Home Treas.—Mrs. W. B. Lombard
Foreign Corresponding Secretary—Mrs. William Mewker
Home Corresponding Secretary—Mrs. L. Clemens
Foreign Mite Box Secretary—Mrs. H. A. Spieer
Home Mite Box Secretary—Mrs. Mabel Stuart

FIELD MEET AT YPSILANTI TODAY.

The finals for the Suburban League track meet takes place at Ypsilanti today, Friday, June 11th, commencing at one o'clock. The boys in the following schools will take part in the various events scheduled: Roosevelt High, Ypsilanti, Dearborn, Wayne, Farmington, Northville and Plymouth. It is expected that a large delegation will accompany the local athletes.

VALUATIONS OF REAL AND PERSONAL PROPERTY INCREASED.

At the regular meeting of the Village commission held Monday evening, the commission passed favorably upon the tax roll as submitted by the village assessor. The rate will be fixed by the commission at fifteen mills, the same rate as that of last year. We give below the valuations of this year and those of last year:

Table with 2 columns: Valuation Type and Amount. Shows increases in Real Estate, Personal Property, and Total Roll.

The valuations for this year show an increase of about twenty-five per cent in residence property and about fifty per cent on business property. The valuations are based in accordance with present day valuations. The raise in valuations has been made to provide funds for the large amount of extra work and improvements which are being made in the village, due to its growth and expansion.

Mr. and Mrs. Harrison Munger and daughter, Martha, have taken a house for the summer on Perrinsville road. It is being extensively remodeled. Mr. Munger is the president of the Munger, Guthrie, Brand Lumber Co. of Detroit, the other members being Melvin C. Guthrie of Newburg, and H. Farewell Brand of Plymouth.

Miss Melissa Roe will present her pupils in a piano recital at the Presbyterian church, next Friday evening, June 18th, at 8:00 o'clock. The public is invited.

FLAG DAY
 Friday, June 11th, has been set aside as Flag Day, a custom young in years, but significant of all the glorious years of our national existence. Let us especially this year make a wonderful display of Old Glory—let every highway and byway witness it floating proudly in the breeze; let the office and the forum, the workshop and the home be draped with its colors, for wherever men congregate it should be seen as the symbol of independence that is so dear to our American inheritance.

READ IT FIRST
 Quit signing every petition that is passed around without first reading it. One thing that makes our government so costly is the fact that thousands of people sign petitions for referendums, recalls, bond issues, special elections and this, that and the other without first investigating to see what it is all about. And half the time the people who are passing petitions are doing so at the request of someone who is going to profit thereby. When a stranger offers you something to sign, or even when it is handed you by a resident of Plymouth, take time to read it carefully. Taking the petition-passer's word for what it is all about isn't always safe; there may be a "sleeper" in it somewhere that you won't learn about until too late to correct your mistake. Take time to inform yourself before placing your name on any document and you'll save both money and annoyance.

industrial and commercial life than any generation that has gone before. That certainly ought to be good news to fathers and mothers who have boys growing up to take their place in the ranks of that generation.

WATCH THE WATER
 We feel sure the average Plymouth motorist always keeps a close watch to see that his supply of oil and gasoline is adequate, and that his tires carry the proper amount of air. But how many of them, when they are driving through strange territory, especially on a long motor trip, pay as much attention to the water they drink as they do to keeping water in the radiator? Not all water is pure, especially some of that secured from roadside wells and springs. Some states are investigating water supplies along main motor highways and posting signs to notify motorists that the water from that special well or spring is pure. But only a few states do this. In others you can only find out by asking someone in the community, and if there doesn't happen to be anyone present you usually take it for granted the water is all right. Be careful from now on and take no unnecessary chances, since nothing causes serious illness more quickly than impure drinking water. If in doubt—leave it alone, for it is better to thirst until you are sure of what you are drinking than to take chances on an epidemic that might wipe out your entire family.

BASE BALL
 Sunday, June 6, the ball game between Newburg Tigers and Rough & Ready, was called off on account of rain. Next Sunday, June 13th, Newburg Tigers journey over to Tryon's field on Plymouth road to play against the Pere Marquette team, which promises to be a very good game on account of both teams being evenly matched.

CONTRACTS LET FOR PLYMOUTH GARDENS IMPROVEMENTS.
 Contracts for the construction of streets and sidewalks in Plymouth Gardens, the Macdonald and Tobin development near Phoenix park, were let Tuesday night to A. B. Moore of Plymouth.

According to the terms of the agreement all sidewalks, except those fronting the park and Five Mile road, are to be five feet in width and eight inches in thickness. The walks on the road frontage will be much wider to accommodate the needs of business.

Mr. Moore is adding new trucks to his equipment, and has begun hauling gravel to the tract. He expects to have the concrete mixing machinery on the job the first of the week.

The developers' plans for Plymouth Gardens calls for a very high class type of improvements, including curbed and gravelled streets, ornamental white way, wide cement walks, shade trees, sewer laterals, gas, water and electricity. Bids are now being received on other phases of the development work.

Yesterday, Mr. Rambo, who is assisting Mr. Crown in the sales work, stated that sales had exceeded all expectations, and he indicated that the first unit would be completely sold by the last of this month. He also stated that the prices of all unsold residential plots were to be increased \$100 the 20th of this month, and urged all who had made verbal reservations to close before that date and get the benefit of the increase.

COMING BACK STRONG
 We are glad to notice in a number of exchanges reaching our office that the old-time family reunion and picnic is coming back strong and we hope it spreads to this community until we have more of them this season than ever before. The auto enables members of the family now living at a distance to get to and from these reunions without loss of time and insures a fuller representation. Nothing serves to break the monotony and grind of everyday work like renewing family ties and talking over "old times" at these annual gatherings. So join in the movement this season, and plan for a family reunion, for one day of unalloyed enjoyment with your own flesh and blood, and a dinner in the world's finest dining-rooms—out-of-doors. And don't forget that we are anxious to have a report of it, for your neighbors will be interested in reading about it.

MUNICIPAL NOTES
 BY THE MANAGER

The South Main street pavement is in process of construction—that is, the old pavement is in process of destruction. The county "skull cracker" is cracking up the concrete so that a steam shovel can remove it. Autoists are warned to drive carefully along this stretch of street as the surface is left very rough.

Tuesday afternoon and evening the village received its water supply from the steel tank, while the new section of main on the Phoenix hill was cut into service. The work was done between four and nine o'clock.

The sanitary sewer on Ann Arbor street is complete—all the way from Mill street to Moreland avenue. Maple street from Fairground to Hamilton is all there is left on the Nolan contract.

Bloom & Dickinson have finished the sewer on Main street between the two parts of Amelia street. They are now working on Amelia street and on Harvey street north of Ann Arbor.

President Robinson is on his way to the Rotary convention at Denver, and during his absence President pro-tem Fisher will preside at commission meetings.

The budget for 1926 was finished Monday evening, and a public hearing advertised for June 22nd. Mr. Samsen has the figures of the budget in another place in this issue of the Mail.

A six-inch water main has been laid on Arthur street from near Williams street to Blanch street, and on Holbrook avenue south of the Plymouth road for a distance of two hundred and fifty feet south of the old main.

People visiting our picnic park will confer a favor on the village if they will report to us the names or automobile license numbers of people driving up and down the hills of the park. This practice comes under the head of destruction of property, for it ruins the grass, and we wish to deal harshly with those who work this stunt.

BETTER BOYS
 We believe every father and mother in Plymouth will be interested in a statement made by "Uncle Joe" Cannon a few days ago, and now going the rounds of the press. "Uncle Joe" for many years leader of the lower house of Congress, says the world is growing better because records of institutions for the correction of juveniles show a steady decrease in population. He has studied the reports from not only his own state, Illinois, but from many other states and finds that fewer boys are being sentenced to reformatories, industrial schools and houses of detention than at any time in recent years.

"Uncle Joe" argues that this reflects better home conditions and also a more general determination on the part of parents to see that their boys are not permitted to spend all of their time in idleness when they are not in school. He feels sure parents are coming to realize that it is their duty to encourage their boys in learning a trade, with the result that more and more of them are showing a desire, at an early age, to earn money.

"Uncle Joe" is optimistic, and sees a generation ahead far more skilled in

BAPTIST NOTES

The morning services, last Sunday, was in charge of one of our state men, Rev. J. H. Austin of Lansing, who gave a splendid address on "Real Values." On Saturday evening, he had a conference with the trustees and deacons, explaining the every member canvass and finance of the church in regard to missions.

The B. Y. P. U. meeting was in charge of the B. Y. P. U. from the Temple Baptist church of Detroit. Last Sunday evening, Silman Warner, president of the Plymouth society, introduced Miss Helps, who took charge of the meeting. Her theme was, "The Good Samaritan," and a splendid lesson was given. Mr. Pratt of the Temple B. Y. P. U., led the singing, and sang several songs at the young people's meeting, and also led in the evening service, which was also in charge of the Temple young people. A good chorus sang at the opening of the service. Ralph Jackson, president of the Temple B. Y. P. U., gave a splendid sermon from I Peter. He is only a young business man, but sure knows his Bible and its power to help people. There were about four carloads of the young people, and they have a standing invitation to come again.

The Children's Day exercises are planned for next Sunday evening. You will enjoy the program as they give it. Always encourage the boys and girls to come to Sunday-school. It's worthwhile.

The church is planning to take the every member canvass, Sunday afternoon, June 20th.

The Ladies' Aid Society met this week Wednesday with Mrs. Joseph Stanley.

We were glad to see Mrs. Sarah Bartlett and Harry back in the congregation again last Sunday. Mrs. Bartlett has been spending the winter with her daughter in Grand Rapids, while Harry Bartlett has been in Detroit.

We were glad to see Rev. Palmer Hartsough with us again on Sunday, coming from the Northern Baptist convention at Washington, D. C. His pastorate is in Ontario, Wisconsin.

PRESBYTERIAN NOTES

Next Sunday morning, the church and Sunday-school services will be combined in an interesting Children's Day exercise. Parents who have children for baptism are asked to bring them to this service.

The women of Plymouth wish to honor the memory of those of their number who have died. They will do so in a memorial service at the Presbyterian church next Sunday evening. All are welcome.

The organ recital given by Miss Merz with the assistance of the vested choir of the church, and Mrs. T. W. Moller of Detroit, on Tuesday evening, proved a delightful occasion, and was well attended.

The Busy Women's Bible Class met on Tuesday, at Mrs. Fulton's home. An enjoyable social time was passed. At the business meeting, the sum of twenty-five dollars was voted from the class treasury to the fund for decorating the church.

Coldness Without Ice

An Electric Refrigerator [everybody is buying them nowadays] takes your meats, your vegetables, your milk—in fact, anything that might spoil—and keeps them cold and fresh as long as you like.

No ice to bother about, no work to do.

An Electric Refrigerator in the kitchen makes it the easiest thing in the world to have delicious frozen dishes, salads cool and crisp, dainty little cubes of clearest ice for cold drinks or melons or fruit-cups, or to serve your butter on.

You can buy an electric refrigerator on very easy terms. Come in and let us tell you more about its great convenience, and the economies it makes in your housekeeping.

FAITH IN PLYMOUTH

No business is so dependent upon public confidence as a bank. The very nature of its business as guardian of its customers' finances implies implicit faith on the part of those customers.

It is, therefore, imperative that those persons who direct the business of a bank measure up to this responsibility.

Our consistent growth is evidence of the confidence imposed in us by the citizens of Plymouth. And this confidence brings home to us a genuine appreciation of our responsibility and duty.

The Plymouth United Savings Bank pledges its services to Plymouth. We have faith in its future, and we shall endeavor to grow as our city grows.

ALUMNI REUNION

Come all ye loyal administrators! On the twenty-fifth of June, in the Plymouth High school, will be held the annual meeting of the Alumni Association. After the banquet, to be served by the Episcopal ladies, will follow the customary business meeting. Next a short enjoyable entertainment will take place.

This brief entertainment is planned to present atmosphere of forty years ago. Will it not be enjoyable to see the numerisms, costumes, and even the personalities of the graduation class forty years ago? Will not the class of forty years ago be delighted to be rejuvenated? Come, that class, and see how you looked on that thrilling yet embarrassing day. Refresh again the fond memories of your graduation.

This is one treat that the banquet holds for all alumni, but there is another, even more enjoyable and pleasing. After the exceedingly short entertainment a social hour has been planned. For this social hour a unique social mixer has been prepared. Come for your share of pleasure.

RESOLUTIONS

Whereas, Our Heavenly Father, in His superior wisdom, has removed from our midst, our Brother, Ammon Brown.

Therefore, be it resolved, that Plymouth Grange has sustained a great loss, and while we regret to part with one whose worth we appreciate, we realize that the hand of affliction rests most heavily upon the bereaved wife and family.

Resolved, that in the death of Brother Brown this Grange has lost a worthy member, the wife a devoted husband, and the community a worthy and useful member.

Resolved, that we extend our sincere sympathy to the family of our Brother in their bereavement, and that our charter be draped in mourning for a period of thirty days. Also that a copy of these resolutions be spread upon the records of our Grange, and one sent to the family and one to the Plymouth Mail.

AMMON WARNER,
MRS. LUCY A. SMITH,
L. A. WISELEY,
Committee.

KIELWASSER-DUNN
Miss Dorothy Dunn, daughter of Mr. and Mrs. Wesley Pump, and George W. Kielwasser were married by the Rev. Stalker at the Methodist parsonage in Ann Arbor, Monday evening. They were attended by Mr. and Mrs. Prekrets of that city. The bride is a graduate of the Plymouth High school of the class of '25. The young couple have the best wishes of many friends for a happy and prosperous wedded life.

DEATH OF MRS. SARAH MERRITT
Mrs. Sarah A. Merritt, 95 years of age, daughter of one of the earliest Ypsilanti pioneers, died at her farm home five miles south of Ypsilanti, Sunday, Mr. Merritt preceded her to the Great Beyond twenty-four years ago. To this union were born four children: Mrs. Nellie Davis and Mrs. Grace Cosgrove of Ypsilanti; Mrs. Sylvia Coe and Marion Merritt of South Ypsilanti. There are also seven grandchildren and twelve great grandchildren left to mourn their loss. Mrs. Oscar Matts of Plymouth, is a granddaughter, being the daughter of Marion Merritt. The funeral was held Tuesday afternoon. Interment at Stoney Creek cemetery.

WILL ENFORCE TRAFFIC LAWS
The traffic law enforcement campaign, which in the last few days has resulted in numerous speeders and drunk drivers in Detroit being given jail sentences by Judge Bartlett, is to be pushed in the county too. At a meeting of the Wayne County sheriff's highway patrol leaders, Joseph T. Blythe, director of the patrol, instructed the deputies to be less lenient with traffic offenders than they have been in the past. When the patrols started out Wednesday night, they were prepared to minimize warnings and instead escort offenders to justice offices in the county. Blythe pointed out that the long stretches of county highway between road intersections tempted many drivers to speed, and increased hazards that the campaign of Judge Bartlett and the Detroit police are attempting to curb in Detroit.

Sunday, June 13th, the Plymouth Merchants will cross bats with the Warren team at Burroughs Field. Game called at three o'clock.

NORTHVILLE TO CELEBRATE JULY 5TH.
The officers of the Northville Fair Association and the citizens of Northville have decided to hold a celebration on Monday, July 5th, to which the people of this section are cordially invited. There will be street sports and other entertainment during the morning hours, a race matinee and ball game during the afternoon, a band concert and a free street dance on the pavement at night. As Northville always entertains its guests royally all may be assured a good time.

TEMPLE THEATRE
Detroit, Michigan
Seth Vane, the little Welch prima donna, and the Skelley and Heit Revue, divide headline honors on the bill at R. F. Keith's Temple theatre, starting Sunday matinee, May 13th. Miss Vane has been abroad for two years, topping bills in the leading music halls of Europe. She returns to American vaudeville with a delightful repertoire of songs and is assisted by Leon Denque at the piano. Hugh Skelley and Emma Heit are stars of the Skelley and Heit Revue, and they are assisted by a company of clever girls. Others billed: Hughie Clark and Company in "Past and Present," with Tommy Monaco's Orchestra; Harry Holmes, a popular farceur in "The Pessimist"; Joe Weston and Grace Eline, musical comedy favorites in "Character Interpretations"; Edwin George, travesty comedian in "A Comedy of Errors"; Lottie Atherton in a unique dance offering, and the weekly screen subjects.

Mass Production Cuts Truck Costs

Sales of Graham Brothers Trucks have reached such enormous figures that buyers profit by unequaled low initial costs.

Note the price of the G-BOY, the new one-ton truck.

Only mass production, unapproached building and buying power, plus years of experience, could produce a truck so staunch and sturdy at so low a figure.

ODDFELLOW NOTES

The news for the Brothers who cannot attend the meetings, is again in print, and we hope they are enjoying these few items. If they are, we are more than paid for our trouble in getting them together.

Tuesday evening, June 8th, was second degree night, and captain Harry Hunter, who is one of our young members, deserves credit for the way he is getting his second degree team together. The degree was conferred in wonderful shape. As you know, Brothers, this degree is one that takes a lot of work, and the way in which it was conferred Tuesday evening showed that the Brothers are doing a lot of practicing.

The sick list for this week is about the same. We hope that the next week will see all the Brothers out and around again.

The memorial services for our departed Brothers were held last Sunday evening, in the Presbyterian church, and by the number that turned out, it was a wonderful success. There were about one hundred Oddfellows and forty-five Rebekahs present. We thank Rev. Nichols for the wonderful sermon he gave us, and for the special music that was rendered, especially by Brother Tracy.

The third degree will be the closing degree on the large class of candidates going through the work, and Brother Wagonchutz, our captain, has given all his officers to understand that he wants them at their best next Tuesday evening, as we expect a few visiting Brothers of rank to address the meeting at that time. We are going to have a pot-luck supper after the work is finished, so every brother bring his basket full.

The attendance is still on the upward trend, and it looks as if our building will have to be made larger. Come on, we have the ground to build on, Brothers.

The Tompkins Temple Association held their third annual stockholders meeting last Monday, June 7th, in the temple, and a large crowd took part in this meeting. After a lengthy meeting, the following Brothers were elected to the new board of directors: F. Rhead, R. Wheeler, H. Hunter, Ivan Gray, D. Blakesley, B. E. Giles and R. Todd. They are laying plans for a successful year.

LITTLE JOURNEYS IN PRINT

The weather being against the Brothers for outings and visiting, so our little Journeys were held up for better weather. However, a few ventured forth.

Brother Wm. Felt and family visited Mrs. Felt's brother, Henry Proctor, who is in Ford hospital, Detroit, suffering from the effects of a stroke. He is still in a serious condition.

Brother Jake Strenz and family spent the week-end at Base Lake. Jake says it won't be long until June 10th.

Brother Al Redman and family visited friends at Brighton last Sunday.

Brother Joe Gibbons whose familiar face was seen here for quite a long time, was here visiting the Brothers.

Brother Wm. Beyer is back from the west, after spending the winter there. Bill says he don't like the weather we are having. Just wait a while, Bill.

OBITUARY

Harvey Nelson was born in Salem, Michigan, May 26, 1852, and departed from this life June 1, 1926, having reached the age of seventy-four years and six days. He was the son of the late George and Mary Nelson, and was the last to depart from a family of four boys and two girls.

On January 1, 1874, he was united in marriage to Allie Rindell of Salem, who preceded him to her heavenly home four years ago. To this union five children were born, namely: Rosa May, who died at the age of 2½ years, Mrs. Lillie Smith of Salem, Mrs. Effie Howe, Floyd and Cordia of Plymouth.

The deceased spent the greater part of his life on the Nelson homestead in Salem, until nine years ago when he came to Plymouth to make his home with his son, Floyd, where he has been tenderly cared for during his last long illness.

He leaves to mourn their loss, his four children, three grandchildren and two great grandchildren.

Funeral services were held at his late home Thursday afternoon, Dr. F. A. Lendrum officiating. Burial in Riverside cemetery.

Mrs. Miller Gains Fifteen Pounds

"I was in an anemic and rundown condition. I had to force myself to eat. I took two bottles of Vinol and gained fifteen pounds. I feel stronger and have good appetite—Mrs. Frank Miller, Patterson, N. J.

Nervous, rundown women, suffering from worry and overwork, need Vinol. It enriches the blood, improves the digestion and rebuilds the whole system. Women love the taste of this pleasant Cod Liver and Ironic tonic without oil. Has stood the test of a quarter century.—Dodge Drug Store.

John L. Crandell, Attorney, Plymouth, Michigan MORTGAGE SALE

DEFAULT HAVING BEEN MADE in the conditions of a certain mortgage made by LLEWELLYN D. MOREHOUSE and CHRISTINA M. MOREHOUSE, husband and wife, of the City of Detroit, Wayne County, Michigan, to JOHN E. SELDERS and MILDRED G. SELDERS, of the Township of Canton, Wayne County, Michigan, which said mortgage is dated the 13th day of January, A. D. 1923, and recorded in the office of the Register of Deeds for said County on the 16th day of January, A. D. 1923, in Liber 1145 of Mortgages, on page 408 thereof, which said mortgage was duly assigned by said John E. Selders and Mildred G. Selders, husband and wife, on the 13th day of January, A. D. 1924, to JOSEPHINE GORTON, of the Village of Plymouth, Wayne County, Michigan, which said assignment was, on the 1st day of May, A. D. 1924, duly recorded in the office of said Register of Deeds in Liber 89 of Assignments, on page 119 thereof, and which said mortgage contains a power of sale, and on which said mortgage there is claimed to be due for principal the sum of FIVE HUNDRED FORTY SEVEN AND EIGHTY HUNDRETHS (\$547.80) dollars and interest thereon from the 15th day of January, A. D. 1923, to the 31st day of March, A. D. 1926, the sum of SIX AND NINETY-FOUR HUNDRETHS (\$6.94) dollars and Attorney's fees of TWENTY DOLLARS (\$20.00) as provided in said mortgage; and no proceedings at law having been instituted to recover the money secured by said mortgage, or any part thereof, and said mortgage having elected to declare the full amount thereof due, NOTICE is hereby given that, by virtue of the power of sale contained in said mortgage and the statute in such case made and provided, on TUESDAY, the 29th day of JUNE, A. D. 1926, at twelve (12:00) o'clock noon, eastern standard time, at the southerly or Congress Street entrance to the County Building in the City of Detroit, Wayne County, Michigan, (that being the place where the Circuit Court for the County of Wayne is held), the undersigned will sell at public auction to the highest bidder the premises described in said mortgage, or so much thereof as may be necessary to pay the amount due on said mortgage, with interest thereon at the rate of seven (7%) per centum, per annum, from the 31st day of March, A. D. 1926, and all legal costs, together with said attorney's fees, which said premises are described as follows:

The north eleven (11) acres of the northwest quarter of the southwest quarter (NW¼) of SW¼ of Section Ten (10) Town two (2) South, of Range eight (8) East, except one (1) acre from out the northwest corner thereof; said exception being a parcel sixteen (16) rods east and west and ten (10) rods north and south and described in a warranty deed conveying same to School District No. 3 of Town of Canton, recorded in Liber 202 of Deeds on page 206 thereof, Wayne County, Michigan Records, the parcel hereby mortgaged containing ten (10) acres.

DATED: This 26th day of March, A. D. 1926.

JOSEPHINE GORTON, of Plymouth, Michigan, Mortgagee.

GUM-DIPPING

the Extra Process for Extra Miles!

Breaks all Tire Records

The 500 Mile Speed Classic at Indianapolis has always been a Battle of Tires. In 1911, Firestone won with fabric tires at 74.59 miles per hour. In 1920, Firestone won with cord tires at 88.55 miles per hour. In 1925, Firestone won with Full-Size Gum-Dipped Balloons at the record breaking average speed of 101.13 miles per hour.

In 1926, Firestone again won with Full-Size Gum-Dipped Balloons. The ten cars to finish "in the money" were all Firestone-equipped. They went the distance without a single blowout and with but two tire failures—one due to a puncture and the other to a leaky valve.

This performance is even more remarkable when you consider the terrific speeds at which the cars traveled over this fifteen-year-old, rough brick track.

Experienced race drivers will not risk their lives or chances of victory on any other tires. And in the commercial field, large truck, motorbus and taxicab fleet operators, who keep careful cost records are among the big users of Firestone Gum-Dipped Tires.

The City Transportation Co., of Tacoma, Wash., writes: "One of our 12 buses on Firestone Gum-Dipped Tires has gone over 40,600 miles and still looks good for many miles of extra service. For all around tire safety and mileage, Firestone cannot be beat."

From Calumet Motor Coach Co., Hammond, Ind., the following: "We operate 40 buses all equipped with Gum-Dipped Tires. The very low cost per mile on which these tires operate is considerably less than that of any other make." Hayes Bus Lines, Columbia, S. C., says: "We operate 19 buses equipped with Firestone Gum-Dipped Tires. A number of these tires have run over 45,000 miles without ever having been removed from the rim."

The largest taxicab companies in the world standardize on Firestone Gum-Dipped Tires. W. R. Rothwell, taxicab operator, Detroit, Mich., writes: "I use my Firestone Gum-Dipped Tires have run 76,000 miles."

Hundreds of thousands of car owners voluntarily testify to the safety, comfort and economy of Full-Size Gum-Dipped Balloons. W. H. Peacock, Birmingham, Ala., testifies: "I have had Firestone Balloons for thirteen months and they have delivered in that time 24,469 miles." H. C. Staehle, Minneapolis, Minn., says: "My Firestone Balloons have gone 49,900 miles and are still in good condition."

These records of endurance, speed, safety and mileage could only have been made because of Firestone development of the Gum-Dipping process which insulates and saturates every fiber of every cord with rubber, reducing friction and heat and building greater strength and endurance in the cords—assuring you at all times—

HIGH SCHOOL NOTES

By Grace Lee
The very delightful dinner Messrs. Huntsinger and Dye served the teachers on the evening of Thursday, June 3rd, was highly appreciated by all of the participants. The tables were beautifully decorated with pink rose buds. The menu consisted of the following: Tomato bouillon, chicken, dressing, mashed potatoes, radishes, fruit salad, ice cream with crushed strawberries, cake, rolls and coffee. The thirty-four teachers who attended spoke very highly of the meal and program. Reverend Sayles gave them a wonderful talk on fellowship. Three points were emphasized: firstly, the teachers' influence upon the student. He showed this by a story of a boy in high school, who was constantly falling behind in his work until one of the teachers kept him after the others were dismissed, and talked to him. The show of interest from a teacher inspired him and changed his character wonderfully. Secondly, the value of friendships made in school, and thirdly, the gradual development of the student, which must be remembered, and patience must be administered, as teachers are dealing with futures as well as the present. Rev. Sayles' speech closed the program.

HIGH SCHOOL NOTES

They are trying very hard to act like ladies and gentlemen on the stairways. They improve every day.

In our speed test in arithmetic Friday, Steve Dudek won in addition, multiplication and division. Helen Goebel won in subtraction.

OPERETTA, "COLLEGE DAYS"

(By Marie Miller)

The operetta, "College Days," which was presented by the High School Glee Club, under the supervision of Miss Forsythe, Tuesday night, was very good, both interesting and entertaining, and was enjoyed by the large audience present.

The scenes took place on the campus of Brinkdale College. A base ball game furnishes the excitement for the opening. The Brinkdale College nine is playing Fairview, and the game has reached the last half of the ninth inning when the opera opens.

Davy Carson (Gaylord Sayles) wins the game for Brinkdale by knocking a home-run. When the excitement dies down he finds a few minutes alone with "Prexy's" daughter, (Helen Allison), whom he loves, and they come to an understanding.

But the villain of the piece loves Dot, too, so he, with a local pool room proprietor, plots to have Davy accused of framing to throw a final game, which is yet to be played, to the rival College Fairview.

In act two through villainous means, De Forest (Ted Hickey) really succeeds in driving Davy from college in disgrace.

Act three takes place three years later, allowing for the world war, in which Davy was a great hero, and De Forest, the villain, just before he "went west" told another Brinkdale man the truth.

Tubby (Willard Murphy), the man who received De Forest's dying confession, writes if to his sweetheart, Helen (Evelyn Schrader), who is a chum of Dot's. A telegram is sent stating that he will arrive next day, bringing Davy with him. Then "Prexy" (Robert Hubert) proclaims a holiday in their honor, and Dot begs Davy's forgiveness for her lack of faith and all ends well.

Much amusement was furnished by "Baldy" (Barbara Bako), who is enamored of "Prexy."

The chorus of girls and boys was very good and throughout the operetta they sang typical college songs. In the first act all the girls looked nice in white middie and skirts, with everyone carrying a purple Brinkdale pennant. In other acts they all wore ordinary afternoon clothes. Besides the chorus there was a group, who at various times gave some pretty dances. The various solos of the members of the main cast were very well sung.

Mr. Conna's singing and the dancing between acts by A. Rousseau and D. Gallimore were very entertaining.

THE P. T. A. CONVENTION HELD AT HOLLAND

Report of the P. T. A. Convention, by Mrs. G. N. Bentley, delegate from Elm association.

The ninth annual convention of the Michigan Branch of the National Congress of Parents and Teachers was held in Holland, Michigan, with 960 delegates attending from every part of the state. All were most cordially welcomed and entertained during a three day session, May 26, 27, 28.

Holland opened its doors and gave the freedom of the city to the hundreds of delegates gathered for the ninth annual convention of the Michigan branch of the National Parent-Teacher Congress, which opened May 26, for three days sessions. The registration of delegates was at the Woman's Literary Club House.

The first entertainment feature was a series of district dinners given soon after the arrival of the delegates. At the dinner at the Warm Friend Tavern, for the 5th and 7th districts, Mrs. Fred Johnson of Birmingham, and Mrs. H. Fisher Ames of Escanaba, were chairmen. At the dinner at Hope church, for the 2nd and 6th districts, Mrs. A. W. Norris of Saginaw, and Mrs. Byron Olds of Alpena, were chairmen. At the dinner for the 3rd and 5th districts at Third Reformed church, Mrs. Spencer D. Kelley of Lansing, and Mrs. C. L. Poor of Traverse City, were chairmen, and at the 4th district dinner at the W. L. C. the chairman was Mrs. Carl Gee of Whitehall.

Thursday morning at 7:45 there was a child study group conference breakfast at the Warm Friend Tavern to which all the delegates were invited. On Thursday noon a county council luncheon was held at the Masonic Temple, with Miss Ottilia Friesch of Saginaw serving as the chairman. A city council luncheon was held at the same time at the Junior high school, with Mrs. D. W. Stewart of Saginaw, chairman.

Thursday evening a dinner was given at the Warm Friend Tavern

complimentary to Mrs. Cora Wilson Stewart, Mr. William McAndrew, and other visitors attending the convention. The chairman was Mrs. J. B. Nicholson of Grand Rapids.

Friday morning at 7:45 a breakfast was given at the Warm Friend Tavern by the board of managers in honor of Mrs. B. F. Langworthy of Winnetka, of the national association. Miss Clara Wheeler of Grand Rapids, and Mrs. W. C. Peterson of Detroit, were chairmen. A publicity luncheon was given Friday noon at the Warm Friend Tavern, with Mrs. B. J. Vincent of Saginaw, as chairman. The speakers were Edmund W. Booth, editor of the Gr. Rapids Press, and Arnold Mulder, editor of the Holland Sentinel.

On the first evening of the convention a general reception for the delegates was held in the high school gymnasium which put the visitors in a happy mood for the convention.

But probably the most pleasant of all the entertainment features of the convention was a boat ride provided through the courtesy of J. A. Johnson of the Goodrich Transit Co. Many of the delegates coming from the interior seldom have an opportunity to get a ride on Lake Michigan and the excursion on the big steamer was full of thrills for them. The day was ideal for a boat ride and hundreds of delegates took advantage of the opportunity.

THE THEATRE

"LET'S GET MARRIED"

Have you any imaginative powers? If so, start concentrating. We're going to take a little imaginary journey.

Most likely, you've never been to Blackwell's Island. It's a little drop of land placed in the East River, right near New York City. Here we are on the Queensboro bridge; and now we're drawing up to a sign, which reads, "Welfare Island." Don't let the name confuse you. Behind that bit of painting, there's another name—"Blackwell's"—and this is our destination.

Down in the elevator and on to the island itself. Look around. Everything is spotlessly clean. Many Florida developments would make it look awfully small. It's only about one hundred and twenty acres in area. But here, on this diminutive stretch of land are located those city institutions which could not possibly be maintained in the heart of New York. Such things as sanitariums and hospitals are part and parcel of it. And last but not least—Blackwell's Island is the proud possessor of a large prison.

The jail, to say the least, is forbidding in stature. It's the kind one looks at from the bridge, which towers above, and gives vent to a slight shudder. Why? Because, though they are unseen, one knows that steel bars are keeping a lot of men captive.

Richard Dix, popular Paramount star, knows all about the inner workings of Blackwell's Island now. In his latest farce comedy, "Let's Get Married," which comes to the Penniman Allen theatre, next Saturday, June 12th, he is sent "up the river." And many of the scenes actually show him in jail. But it must be admitted that Richard succeeds in getting out. Lois Wilson is seen as the warden's daughter. Gregory La Cava directed for Paramount.

"THE UNTAMED LADY"

If "The Untamed Lady," coming to the Penniman Allen theatre Sunday and Monday, June 13 and 14, had nothing more to recommend it than the fact that Gloria Swanson stars in it, it would still be well worth seeing, for Gloria can always be depended upon for a capital performance.

However, the glamorous Miss Swanson is amply supported in this instance by a story worthy of her talents—one,

in fact, especially written for her by Fannie Hurst, noted American author—by a surrounding cast of capable and experienced players, including Lawrence Gray, Joseph Smiley, Thomas Holding and Charles Graham, and by the directorial assistance of Frank Tuttle.

The plot, which James Creelman adapted for screen purposes, centers around Gloria, in the role of a wealthy society heiress with an ungovernable temper. Of course, any one endowed by nature with more than the average share of good looks and who, in addition, is the proud possessor of twenty million dollars, has a perfect right to be independent, but Gloria does go to extremes in doing as she gosh-darn pleases.

Cheering for Yale, while sitting in the Princeton stand, during a Yale-Princeton football game; attending a smart social function in a bathing suit; interrupting a famous musician at an exclusive musicale—these are some of her exploits that cause her friends much anguish of spirit. Incidentally, they are responsible for her punctured romances, since love and temper do not mix.

Along comes Larry Gray, fiance No. 4, and then the fun begins in earnest! Larry gets the idea into his head that it is up to him to tame her, and he almost breaks his neck before he realizes that Gloria doesn't take kindly to his cave-man stuff. However, love finds a way in the end, and everything turns out happily.

Of more than ordinary interest are the yacht scenes, showing Gloria shoveling coal in the boiler room at the height of a raging storm. An exciting horseback chase, in which Gray takes a dangerous fall, is another of the striking highlights in the picture.

"HANDS ACROSS THE BORDER"

Once more Fred Thomson thunders across the screen with his message of gaiety and thrills; and once more Silver King, his magnificent horse, makes new myriads of friends and fans for them both. The latest production starring the famous F. B. O. luminary, "Hands Across the Border," comes to the Penniman Allen theatre, Wednesday, June 16th, and it proves the high water mark of Thomson's pictures, according to the critics who have seen it at special showings in Hollywood and New York. The story, by Frank M. Clifton, affords Mr. Thomson a splendid opportunity for characterization, and it is as full of laughs, as a can of sardines. The typical Thomson tempo

of late seems to be a cross between the unrestrained hilarity of Jazz and the romantic note of an Irving Berlin ballad at its best; and that is a hard combination to beat! David Kirkland, who has made such strides in his handling of the last three Thomson pictures, has again covered himself with glory in directing the production, and the cast, which includes Tyrone Power, Ross Flowers, William Courtwright, Clarence Geldert and Tom Santschi is perfectly chosen.

Picked Up About Town

"Judging by the way they like to keep money in circulation," says Dad Plymouth, "there are mighty few misers among the growing generation."

Maybe there would be less fighting in Poland if they had two base ball leagues and a pennant race to attract their attention.

Dad Plymouth says when the average man's wife insists on his going to the market with him, he knows it is not his company she wants as much as it is someone to carry the market basket.

What makes life so hard is that the fellow with the small salary always has big bills.

"If every woman was as keen about keeping sweet as she is about keeping young," declares Dad Plymouth, "divorce lawyers would starve to death."

A fat woman starves herself for three days and loses three ounces, and then to celebrate the event eats a dish of ice cream and gains three pounds.

"Why is it," asks Dad Plymouth, "that beauty and work never are close companions?"

Dad Plymouth says that maybe the reason why women cry at weddings is because they're married themselves.

It doesn't take an ad in a matrimonial paper for some Plymouth girls to let everybody know they want a husband.

There wouldn't be so many divorces if women were as unselfish about other things as they are about giving their husbands a piece of their minds.

TO HOLD FARM DAY

AT M. S. C. JULY 30

PLAN NEW FEATURES FOR ANNUAL SUMMER CONFERENCE—EIGHT THOUSAND GATHERED LAST YEAR.

The annual summer Farmers Day at Michigan State College will be held on Friday, July 30, this year, and plans are being completed at East Lansing for the entertainment of one of the largest agricultural meetings in the history of the state.

Since the start of the Farmers Day meetings in 1918, this combined summer conference and picnic has grown so rapidly that it has become the outstanding meeting of its kind in the state. In 1925, in spite of a steady rain which fell most of the day, actual count at the gates showed more than 8,000 farmers and their families checked in for the day.

With good weather, it is predicted at the College that this figure will be surpassed on July 30.

Most of the old features of the Farmers Day program are to be retained this year, with the addition of new entertainment stunts. Inspecting of the extensive college experimental plots and field, visits to the livestock herds and orchards, and informal conference with agricultural specialists will occupy the morning. A big general meeting, with one or two nationally known speakers and a band concert, will be held in the afternoon.

Details of the entertainment side of the program will be announced later, according to Dean R. S. Shaw, chairman of the Farmers Day Committee.

AMERICAN YOUTH CANDIDATE.

Miss Helen F. Dodge of Pennsylvania, holder of a Carnegie medal for heroism, has been nominated as a candidate for the American Youth Award established by the directors of the Sesqui-Centennial International Exposition, which is to be held in Philadelphia from June 1 to December 1 in celebration of 150 years of American Independence. Miss Dodge, the daughter of George H. Dodge of 5944 Walton avenue, Philadelphia, jumped into the Toms River at Ocean Gate, N. J., fully dressed, and, while having use of only one arm, saved the life of a drowning girl.

Two Big Cities That

Have Much in Common

According to a bulletin of the National Geographic society, New York and Amsterdam have much in common. Each is the largest and most populous city in its respective country. Neither is the political capital of the country, but each is the undisputed commercial dictator and the keypoint of military defense. Each is a seaport, although here the analogy does not follow as closely. Rotterdam's commerce exceeds that of Amsterdam. Amsterdam, however, has the headquarters of all the large shipping companies, just as has New York. Amsterdam is also an important industrial center, with shipbuilding plants, refineries, machine shops, many small factories, diamond polishing mills, etc.

The city of Amsterdam lies in the southwest corner of the great inland body of water known as the Zuider zee, at the influx of the Amstel and Y rivers. Like Venice it is built on a number of islands, but with much more regularity than the queen of the Adriatic. Roughly, the city plan looks like the profile of a half-wheel, with numerous water spokes and inner rims in regular succession. These rims or successive encircling canals indicate zones of expansion in the past, and, flanked with avenues of elms and tall narrow brick houses with the gables turned toward the street, give a handsome and picturesque effect to the residential section. Amsterdam might be said to be the first setting of newly every diamond. Its diamond polishing and cutting mills have been famous since the sixteenth century, when the art was introduced by Portuguese Jews after the sack of Antwerp. At the present time there are nearly 100 mills, employing several thousand persons. Most of the raw diamonds come from South Africa, although Brazil and the Far-East are other sources of supply.

"Caterpillar" on Water

A river towboat, composed of two hulls placed side by side, pontoon style, and carrying between them a power plant operated by an endless chain with paddles attached, is the queer contraption that is offered to solve the problem of inland river navigation on shallow streams, says the Quincy (Ill.) Whig-Journal.

The affair is really a caterpillar tractor boat which crawls through the water or skims along the surface of it. There will be no fouled propellers nor broken paddle wheels caused by interference in low water.

That a boat can crawl through the water with considerable power probably is just as sound a mechanical principle as it is for a caterpillar tractor to make its way across any sort of obstacle.

Bachrach says: "All my swimmers wear Jantzens"

NORMAN Ross, Johnnie Weissmuller, Sybil Bauer and many other champion swimmers owe their training to William Bachrach, veteran coach of the Illinois Athletic Club and famous mentor of the winning American Olympic team.

Wrote Bachrach to a friend: "I have never found a suit to compare with the Jantzen—and I guess I never will. Carl Jantzen saw a vision of swimming as a great national sport and created a suit that has made this possible. All my swimmers wear Jantzens for beach and all round wear."

497 of America's leading physical instructors rank swimming first in health and fun. Of these, 478 say the suit Jantzen originated is the most practical for swimming.

Wear a Jantzen to look your best and be free for all the fun of swimming. See our new stock of men's, women's and children's. For perfect fit just state your weight.

Men's Jantzens, \$20.00 to \$30.00. Ladies' Jantzens, \$20.00 to \$30.00. Children's Jantzens, \$10.00 to \$20.00.

New Shoes for Women

There has been a revolution in women's footwear. There are new models, of course, but the big change is in the materials used in the uppers. In colors, too, there is noticed a great change. All of our new stock is on our shelves ready for your inspection. You will be sure to find something out of the ordinary, and a good fit in the bargain.

The Right Clothing For Men

It's a very easy matter for a man to get a misfit, or a suit of clothes that will not wear well or hold its shape. But it is just as easy to get clothes that do fit and will wear well and hold their shape. We want to be your clothier and prove to you that our suits and coats for men afford a distinction that is out of the ordinary at prices that are no higher.

Proposed Agricultural Buildings---Michigan State Fair

FARMERS GET NEW BUILDING FOR THEIR 1926 EXHIBITS

Magnificent Agricultural Structure Provided by State Will be Ready When Fair Opens.

When the big crowds pour into the State Fair Grounds during the week of September 5 to 11, and seek the Agricultural Exhibits, they will find them housed in a splendid new building adjacent to the Coliseum, at the very center of the grounds.

The farmers of Michigan will rejoice to know that the state government has given particular thought to their interests and, in line with demonstrated efficiency, has worked out a financial plan with the committees of the State Fair Board, by which winter rentals will pay for the building within about two years.

The new building, which is now under construction and will be ready in ample time for use this fall, will be 250 feet long and 140 feet wide. Plans for the new structure were developed by the Agriculture Committee of the State Fair Board under the chairmanship of Prof. J. F. Cox, of Michigan State College, and approved at Lansing. The plans make it the most magnificent building in America for the exhibition of agricultural products, and the board of managers feels confident that it will be a matter of genuine satisfaction to the farmers of the Wolverine State to be able to show their products in the most favorable conditions, and by a plan of finance that will in no way burden the taxpayers.

Michigan State College, and approved at Lansing. The plans make it the most magnificent building in America for the exhibition of agricultural products, and the board of managers feels confident that it will be a matter of genuine satisfaction to the farmers of the Wolverine State to be able to show their products in the most favorable conditions, and by a plan of finance that will in no way burden the taxpayers.

For Exclusive Exhibition of Crops, Fruits and Flowers
The agricultural committee of the State Fair Board is authority for the statement that the new structure will be used exclusively for agricultural, horticultural and floricultural exhibits of an educational nature, and that no space will be allotted for any commercial purposes whatsoever. This sounds the knell of the noisy, "circus" hawking and ballyhooing which resulted from commercialism within the agricultural space in past years. These new arrangements mean a dignifying of the agricultural section and the placing of its exhibits on the highest plane of educational and agricultural value.

Another feature that should please Michigan farmers is the fact that

they will be protected from the competition of exhibitors who do not grow products they show.

Ample Space for Farm Organizations and State Agricultural Industries
Prof. Cox says of the new building that "it will give an opportunity for the suitable portrayal of Michigan's highly organized and wonderfully diversified agriculture. In addition to the competitive displays of crops, fruit and flowers, ample space will be offered for the use of the Farm Bureau, Granges, Cleaners, Farmers Clubs and other farm organizations, and for the exhibition of the products of canning companies, sugar manufacturers, seed interests, millers, hay dealers and other organized state industries directly dependent upon agriculture."

All prospects indicate that the 1926 State Fair is to transcend in beauty, importance, entertainment and in intrinsic value, all prior fairs in Michigan. With the new agricultural building as the center, the farmers of Michigan are expected to fall force, and not only to exhibit their products, but also as visitors to the whole fair and the unexcelled facilities and attractions.

Formal Lines Best for Small Gardens

After the furor of informal gardening following the deadly formality of carpet bedding, gardening seems to have settled down into an amicable and attractive combination of the two. Beds of formal design with formal or informal planting suits the fancy, with an informal border of shrubbery, small trees and tall-growing perennials within formal lines as a boundary give the finest effect. The main reason for this is that the formal garden is meaningful and formal design is not. It is not desirable to try to give the effect of the wildwood or stretch of prairie in a 50-foot lot, because it can't be done. It is so formally enclosed by fences and divided so distinctly by a walk that formality is its keynote. The garden may be laid out either in beds or straight lines or in beds of circular design. The circular design gives a surprising appearance of spaciousness to a small lot, but it is difficult to maintain the outlines of the beds without permanent edging after it is laid out.

Flinding the center of the lot and driving a stake from which to draw circles to outline the beds is a simple matter. They can be cut with a turf edger, a hoe with a blade in the same plane as the handle and not at right angles as in the usual tool. The central circle is surrounded in a design of this sort with beds which are segments of circles, paths cutting the circles at right angles. The center may be left an open grass plot, a circular bed, a pool, a sun dial, or a bird bath.

Proper Building of Chimney Big Factor

The matter of flashings is one that needs careful attention when a person is building a house in which he hopes to be comfortable and free from petty troubles. A most important place for proper flashing is about the chimneys. On a stucco home the chimneys usually are finished in stucco to harmonize with the rest of the house, but are of masonry construction, lined to conform with the rules of fire safety.

The stucco should be applied only after the chimney has been carefully covered with metal lath. Such a chimney always should have a cap of stone, cast concrete or other masonry which will overhang the metal lath and stucco and provide protection against water seeping in at the joint. Usually this is accomplished by providing the underside of the chimney cap well away from the stucco, so that the water will be carried to the vertical and unbroken portions of the chimney where it can do no damage.

Paint as Fire Protection

All property owners find roofing a serious problem. A roof can make or mar the character of a house, and because of its position, it must take punishment from all the elements: the sun, blisters, the wind and frost pull and twist its substance, rain and melting snow soak it with moisture. A roof needs protection. Paint and stain are the only insurance that can be bought which will protect the roof against the destructive action of the weather.

Paint is very durable, and in recent years has established itself firmly in popular favor as a roof finish. Moreover, paint has the added advantage of being fire retardant. When shingles curl at the corners, become fuzzy or take on a coat of moss, they afford lodgment for any burning embers that may fall upon them. Shingles coated with a specially made fire-retardant paint will not "cup" nor develop "fuzzy" and the paint will resist a great deal of heat.

Too Little Individuality

Dream homes too often take substance as "rubber-stamp homes." Lionel Robertson, authority on interior decoration, declared at the "Open Your Home" exposition at Chicago. "Home builders invariably ape standard designs. The result is that our streets throughout the country are lined with houses as alike as though they had been turned out of the same mold. People often undergo severe sacrifices and save for many years in order to be able to buy or build their homes, and yet they buy rubber-stamp houses that in no way represent their dream homes or express their individuality," he added. Architectural design, Robertson said, should reflect the owner's character and tastes as do one's clothes.

Home Gives Social Prestige

The advantages of owning the house in which you live are many. In the first place, a home can be built for what is paid in rent. The home owner is looked upon in his community as a stable, substantial citizen. He has business opportunities that the renter does not have, while his family are accepted socially in many circles that are denied to those who live in rented houses.

Good Workmanship First

Dollars and dollars' worth of good interior trim and good wallboard are devalued in finishing every year by unworthy workmanship and materials.

ENJOY SOCIETY OF THE "YOUNGER SET"

Parents in S in Make "Chums" of Children.

Statistics show that the birth rate in Madrid has declined in the past 12 months. Whether this means that the traditionally large family is more than slender purses can stand while the cost of living is at its present high level, or whether it is merely a passing phase, remains to be seen.

It is seldom that cases of cruelty to children come to light, and indeed there appears to be no need for a society such as exists in other countries whose duty it would be to take up such cases and bring them to the notice of the police. Corporal punishment is seldom administered either by parents or by teachers; indeed, anybody witnessing the infliction of physical punishment on a child would not hesitate to interfere and, whatever may have been the fault, a plea that he should be let off would be forthcoming.

The Spanish mother, even of the upper class, can seldom be persuaded to separate from the young folk, and astonishment is often expressed in Spain when foreign visitors are found to have left their children at home. When boys are sent away to school, care is often taken that they should be within easy reach, and the argument that children brought up away from the watchful eye and care of the parents are probably better fitted in later life to grapple with its many problems is one that does not often carry much weight with the typical Spanish mother.

Spanish parents are always at their best with the smaller children, whose nurses, companions and playmates they are, fully identifying themselves with their smallest interests.

The greatest day of the year for the children is "El Dia de los Reyes"—"The Day of the Three Kings From the East." Probably no people in the world devote itself collectively and so wholeheartedly to a purpose from which no gain is expected, but that of the privilege of bestowing. The big stores are so filled with people until twelve o'clock at night that it is difficult to move about in them.

Shows Aboriginal Life

An Indian garden and villages will soon be erected in the Bronx, New York, as a part of the Museum of the American Indian, Hays foundation, whose main building is in Manhattan. Ground for the new unit, the gift of Archer M. Huntington, has been broken, and the first part to be built will be storage rooms for ethnological and archeological specimens. When the whole building is completed the open patio in the center will be occupied by a botanical garden in which the plants used by the North American Indians both as foodstuffs and as medicines will be raised. It is also planned to erect full-size models of Indian habitations in order that students and visitors may get a comprehensive idea of aboriginal life.

Masts for Historic Ship

Masts and rigging spars on the historic frigate Constitution, which is being rebuilt at the navy yard at Boston, are to be of Douglas fir grown in the Pacific Northwest. The United States navy accepted an offer of the West Coast Lumbermen's association to give the Constitution's masts and spars from a new forest which was seeded half a century after the frigate fought her last engagement in 1812. A part of the fir will come from Bainbridge Island, Puget sound, named in honor of Commodore William Bainbridge who commanded the Constitution in all of her important engagements except that with the British frigate Guerriere.

Bolting Chinese Morale

The present year will see a great number of Chinese soldiers facing each other on either active or future battlefields, and efforts were made to cheer up the morale of those men at the holiday season, says the North China Star. The Kummichun gave ten cents to each soldier and five cents to each coolie, while those at the front received a double present. Wounded officers from \$5 to \$10, according to rank, while seriously wounded soldiers received \$1 and others 50 cents. All troops not at the front had a holiday on Friday and Saturday, which was not allowed those at the front.

Russell Painting Found

W. P. Connelly of Wulfrid, Mont., recently found on the walls of an old cabin in the Snowy mountains an original painting by Charles M. Russell, the cowboy artist, whose work now brings high prices. The painting, on cardboard, was tacked to the logs and later had been covered with tar paper. It is plainly signed. Russell formerly worked in that section as a puncher, it is said. It is presumed he either dashed off the sketch to amuse himself or gave it to a friend.—Los Angeles Times.

Generates Much Power

As much electricity as is required for a city the size of Boston is generated by the United States steamship Saratoga, an electrically propelled airplane carrier. This ship can attain a speed of nearly forty miles an hour by means of its 180,000 horsepower electric motors which drive four huge propellers. The electric energy is derived from four 32,500 kilowatt steam turbine generators.

THE GROTTO

More than 1,000 persons will take part in the production of "America," the fifth renewal of Shadokium Grotto's annual outdoor spectacle and circus, which will be held June 19 to 30, at the Michigan State Fair Grounds, Detroit, Mich.

This vast number of men and women is required to give a realistic presentation of the stirring scenes of revolutionary days which form an important part of the program. "America" commemorates the 150th anniversary of the founding of our Nation. Fireworks displays on a setting 600 feet in length will bring to the eyes of the spectators the Boston Tea Party, Paul Revere on his midnight ride, and other scenes leading up to a smashing climax, the surrender of Cornwallis.

A pageant will tell the story of the growth of America, with hundreds of persons from many different countries streaming into the great melting pot of the world. Infantry and cavalrymen will be seen in action.

While the general committee in charge of the spectacle is emphasizing the patriotic and educational value of "America," the thrilling entertainment features which have attracted hundreds of thousands at other "Awakenings" are not pushed into the background.

Thus far, 30 big circus acts have been booked. They include trained elephants, acrobats, equestrians, auto polo contests, and a ballet.

Here is the circus program in part: Robinson's Military Elephants, The Riding Hodgens and the Costello Family Riders, comprising lady riders, clowns, and dancing horses; the Flying Floyds and the Flying Codonas, acrobats; Cliff and George Curran, who perform on poles 85 feet in height; Capt. Mike Cahill and George Costello; The Belcher Brothers, equestrians; Nine Lias Troupe, a European importation; Erans and Perez, who balance a dancing battleship; Bobbers Arabian Whirlwinds, auto polo, and the Florida Ballet.

Today's Reflections

The season is here when the Plymouth man who can't afford to travel enjoys it more than the man who can.

We've also noticed that in our rounds that no man is a hero in his old home town.

Mothers' Day comes on Sunday, but if Father ever has one it will come on Friday along with the other poor fish.

The great nations may be burying their hatchets, but they're marking the spot so they can dig them up in a hurry when they need them.

It's a little too early to start wishing, but as far as Plymouth is concerned we hope next spring won't let the overcoat and the straw hat travel so close together.

They say that not all the shocks in Russia come from earthquakes. Some come from getting a square meal.

A few years ago it was hard to get a broadcasting station, and now it's hard to keep from getting a dozen at a time.

Why is it that whenever we start to save up for a rainy day, the sun always comes out and stays out?

In the matter of advice, most men believe that it is better to give than to receive.

Another thing we dare any Plymouth man to explain is why a Ford

runabout always darts around like it was anxious to bite a piece out of a five-ton truck.

The first thing to do when going to a restaurant is to forget the time when you could get a square meal for a quarter.

We've noticed that about every two weeks a girl of sixteen meets the only fellow she ever did love.

We suppose the time will never come when the average Plymouth woman won't get mad if she has to stop reading to thread a needle for her husband.

The bell is the low-brow of the insect race, but there's no record to be had of them ever starting to death.

"We Like Its Economy" Say Thousands Of Owners

The truth is that the operating cost of a Pontiac Six is lower than that of smaller and less powerful cars—or the difference is so slight as to not be worthy of consideration.

There are thousands of Pontiac Six owners who would gladly bear slightly higher operating costs to enjoy the satisfying

performance of the car's six-cylinder engine and its countless other superiorities in beauty, roominess, and riding comfort.

But the fact that they enjoy all these qualities at no additional operating or maintenance cost, is simply another reason underlying the dramatic success the Pontiac Six is scoring the nation over.

Over 3,000 cities and towns have streets paved with portland cement concrete

Horse-and-Buggy Pavements Won't Do

Property owners in many towns and cities whose streets swarm with motor traffic are still wasting their money on horse-and-buggy "pavements" of bygone days.

These rough, bumpy streets are directly responsible for broken springs, cut tires, greater depreciation of cars, physical discomfort, loss of time, and many accidents involving loss of life or limb.

And the heavy expense of trying to keep worn-out, dangerous, horse-and-buggy streets in repair, added to their original cost, amounts to more than enough to pay for true, even, non-skid concrete pavement that has the maintenance built in.

So in the long run you are paying for concrete streets. Why not get them?

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy.

Groomes Bathing Beach, Whitmore Lake, is now open for the summer season.

Plans are under way for the erection of a 32-family apartment house in Dearborn.

The Northville High school graduating class of 1926, has a membership of thirty-one.

Ground will be broken next fall for a new library building at Ypsilanti Normal, to cost \$250,000.

It is expected that 400 pupils will be enrolled in the summer school at Redford, beginning June 28th.

The Grand Lodge of Masons of Michigan has granted a charter for a new Masonic lodge at Brighton.

The members of the First Methodist Episcopal church of Dearborn are now occupying their new church edifice.

The South Lyon Board of Commerce is planning on a Home-Coming or Gala Day celebration. The date will be sometime in August.

The business men and citizens of Farmington are putting on an advertising campaign through Detroit papers to boost Farmington.

A board of Commerce has been organized at Rockwood, and one of the first things to be undertaken by that body is the incorporation of that village as a city.

Detroit parties have bought lands in Holly and Fenton townships, which they will flood by building a dam at Swartz Creek. They expect to have a lake frontage for about 1500 lots.

The General Motors Corporation will build a \$3,000,000 plant at Pontiac for the manufacture of automobiles. It will be completed by January 1st next, and will have a daily capacity of 1,000 cars.

A movement sponsored by the members of the Village Commission and nearly all the clubs of Wayne, as well as the business men and citizens in general, has been launched to acquire the Rouge flats in that village for a public park.

Walled Lake is the first village in this county to try out the experiment of a Community Council, a plan suggested by Dr. Butterfield and functioning in various places in the state. Representatives of each of eighteen local organizations comprise the Council, whose stated purpose is to promote harmonious co-operation between

the various organizations, increase their mutual acquaintance, make them more useful in assisting each other and facilitate the accomplishment of the organization. The experiment at Walled Lake will be watched with interest by other Oakland county communities.—Milford Times.

Monroe will be the site of a big airplane plant, covering 240 acres, with a total of 50,000 square feet of floor space, according to the Stockford Realty Company of that city. The site chosen is immediately west of the city, between the River Raisin and the Adrian branch track of the New York Central railroad.

PERRINSVILLE

No church last Sunday on account of the rain.

Mr. and Mrs. Priebe spent Saturday evening with Mr. and Mrs. Albert Telt.

William Johnson called last Sunday on his daughter, Mrs. Mattie Fisher, who is in the hospital.

A goodly number from this vicinity have called on Grandma Decker, who is in Grace hospital for cataract on her eye. She is doing fine, and her sight is restored at the age of 95.

Charles Noll and Miss Charlotte Baehr were quietly married in Detroit, June 2nd. They left for New York for a two weeks' visit with Mr. Noll's people.

The social at Alex Murdock's was not largely attended. It looks as if no one likes pie, but the Holmes' and Rev. and Mrs. Havens.

Quite a number from around here attended the school picnic at Elizabeth Park, Saturday. There were many very prettily decorated trucks from different schools.

Miss Fern Shepard closed a very successful term of school, last Wednesday.

OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Plymouth, Mich., May 24, 1926. An adjourned regular meeting of the Commission in the Commission room of the village hall, Monday evening, May 24th, 1926, at 7:00 p. m.

President pro-tem Fisher in the chair. Present—Commissioners Fisher, Henderson, Hondorp and Pierce. Absent—President Robinson.

At the request of the health officer, Dr. Cooper, the Commission declared that they would stand back of the health officer in imposing the full quarantine time as set by the state board of health, in cases of small pox, diphtheria and scarlet fever. And they also directed that this resolution should be held to be in effect, beginning Tuesday, May 18th.

A petition was received from property holders on the south side of Wing street, requesting that the commission build a crosswalk across the alley on the south side of Wing street between Main street and Deer street, and that the commission also order a sidewalk built along the south side of Wing street from this alley to Malu street. On motion this petition was granted.

Another petition was received from property holders on Ann street, requesting cross walks on the east side of Ann street, across Blanch street and across Farmer street. On motion this petition was granted.

The following resolution was offered by Commissioner Pierce who moved its adoption, seconded by Commissioner Hondorp:

BE IT RESOLVED, that the resolution now in effect prohibiting the making of any further water taps on the village water mains outside the village limits be rescinded as to its effect on territory which by petition to the Board of County Supervisors is applying for annexation to this village.

BE IT FURTHER RESOLVED that in such territory applying for annexation, temporary permits for the use of water may be granted pending the decision by vote on such annexation; such permits to be revoked if the annexation fails to carry.

Carried. On motion the manager was authorized to buy four hundred (400) feet of sewer rods.

The Commission then adjourned. H. J. Fisher, President pro-tem, Sidney D. Strong, Village Clerk

VAST BUILDING PROGRAM DONE

Lutheran Missouri Synod Dedicates New Seminary; Dr. Dau Heads First Lutheran University.

On Sunday, June 13th, in connection with the 33rd international convention of the Evangelical Lutheran Synod of Missouri, Ohio and Other States, a group of twenty-five buildings for the theological seminary of that Synod, which were built at a cost of \$3,000,000, will be dedicated. The exercises will be attended by thousands of Lutherans from all parts of the country, from Canada and South America. Con-

PROF. F. PIEPER, D.D.
President, Concordia Seminary

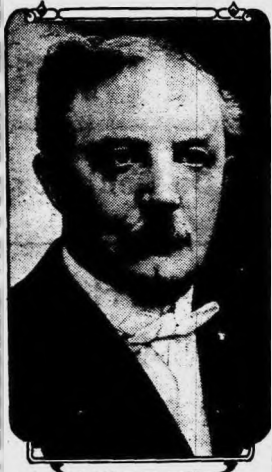

cordia Seminary is the leading theological institution of its kind in point of students, having almost 400 men in attendance training for the ministry.

The completion of the new Concordia Seminary is part of an extensive educational program inaugurated in the last two years by the Lutheran church, for which the sum of five million dollars was subscribed in a general campaign.

Dr. Fr. Pieper, the president of the Seminary, has been in the service of his church for more than fifty years. Dr. W. H. T. Dau, who has been on the faculty for many years, accepted the presidency of Valparaiso University at Valparaiso, Indiana. The present faculty is composed of eleven professors and the Synod is being asked to create additional professorships.

Other Buildings Erected

Previous to the dedication of the new seminary buildings, additional buildings to the eleven other academies, colleges, preparatory schools and teachers' seminaries have been dedicated in Fort Wayne, Ind.; Milwaukee, Wis.; St. Paul, Minn.; Concordia, Mo.; Bronzville, N. Y.; Winfield, Kan.; Conover, N. C.; Oakland, Calif.; Portland, Ore.; Edmonton, Alta. Can.; and Porto Alegre, Brazil. The latest college is to be established in Austin, Texas. During the spring

of this year Valparaiso University, Valparaiso, Ind., was acquired by a private association within the Missouri Synod, of which Dr. Dau, of St. Louis, has assumed the presidency. Besides these colleges the Missouri Synod maintains a practical theological seminary in Springfield, Ill., two teachers' seminaries, one in River Forest, Ill., and another in Seward, Nebraska. It is because of these higher educational institutions that the Missouri Synod maintains its solidarity, not speaking of its 1,360 parish schools for the training of its children by trained teachers.

STEEL RAILS HAVE HIT ROMANCE HARD

Recalling Halcyon Days of the Missouri.

For a score of years many thousand of hardy men had dared the dangers of the plains and round-the-Cape voyaging to reach the Pacific and find gold. Many thousands responded to the Pike's peak discoveries and filled the canyons and gulches of what is now Colorado. Settlements were well established from Canada to Mexico on the Pacific coast. Nevada was invaded by gold-hunters. All this was before the rich placer diggings in Montana, far more easily accessible, were discovered.

The miners in the Northwest worked from the coast east. Idaho was exploited before Alder Gulch blazed into fame. The Civil war smothered all commerce on the lower Missouri. Up to 1864 only six steamboats arrived at lonely Fort Benton. Seventy such craft arrived during 1864-67. During the latter year there were from thirty to forty steamboats plying between Fort Benton and the mouth of the Yellowstone. On May 29, 1868, the Deer Lodge left Benton and on her way down met thirty-three boats bound up river. In this year twelve cents a pound was the general freight rate. Cabin passengers paid \$300 fare. The captain received \$200 a month. His clerk \$150. Mate and engineer each drew down \$125. And the pilot named his own figure and often received the astounding salary of \$1,200 a month. Those were the halcyon days on the Missouri, but let no one think steamboat travel was fast and safe. Perils began in the lower river. The Sam Galy was boarded by Illinois guerrilla band under the high wooded bank near Sibley, Mo. Some negroes and paroled Union soldiers were taken ashore and shot. All aboard were robbed. In the upper river the Indians fired on the boats. The pilot-house was protected by iron plates and the boats anchored in midstream. No gold rush contained exactly the same elements of danger as that to the Montana fields, and there is enough of romance, adventure and violence to fill innumerable volumes. The commercial glory of the river was doomed when the railroads reached Ogden—Union Pacific, 1869—and Bismarck—Northern Pacific, 1872—and Montana itself—the Utah Northern, 1880—and then the death-blow in 1887 when the Great Northern reached Helena.—Faunce Rochester in Adventure Magazine.

Known by Their Hair

A certain very supple and undulating dancer made a first appearance recently on the stage of a music hall in the heart of a capital. In response to the applause which greeted the number the dancer returned to bow to the audience and, removing an elaborate wig, revealed the fact that he was a danseur and not a danseuse. Thereupon a woman seated in a stage box exclaimed: "How silly to show us that she has bobbed her hair!" From which little incident we received the suggestion that men should let their hair grow if they wish to be recognized as of the masculine sex.—From Le Figaro Hebdomadaire, Paris. (Translated for the Kansas City Star.)

Aviators Need Horses

Sweden's military aviators, who in the reorganization of the national defense have replaced the once famous Swedish cavalry as an independent arm, still ask for the use of horses as part of their equipment. In a letter to the war minister, their chief, Col. Carl Amundson, points out that while other branches of the service got physical exercise during the discharge of their routine duties, the air pilots must have special training to keep their nerves and muscles in top-notch condition and that for this purpose horseback riding has been found unsurpassed.

Policy Has Worked Well

Several years ago the California state division of motor vehicles adopted a policy of refunding motorists excess fees sent in for licenses where such excess amounted to 11 cents or more. Sums under that amount were turned into the road fund. Similarly, if the motorist was short 11 cents or more, the division demanded that he make it up without bothering the absent-minded motorist. A check recently made revealed that the "shorts" have so far exceeded the "shorts" that the state is more than \$800 to the good.

Freezes Flames!

A fire extinguisher has been invented for use in petrol storehouses, oil tankers and other structures containing inflammable substances. Directed upon a blaze, these devices actually freeze the flames to death. It is claimed. A very cold and dense carbon dioxide gas is released so that all oxygen is blocked and the fire, with no oxygen to feed on, dies out. This, no matter how combustible the material burning may be. During the test even a burning oil can was extinguished.

Back to Barley Bread

Distillers are using less barley in Scotland, and the farmers face the problem of disposing of their crops. Why not return to barley scones and barley bread, an agreeable change from wheat loaf? This would relieve John Barleycorn of part of his burden, suggests the Christian Science Monitor.

PARKWAY PLAN WINS APPROVAL

STEPS TAKEN BY COMMISSION TOWARD BEAUTIFICATION OF RIVER ROUGE DRIVE.

The approval Friday by the City Plan Commission of a proposed drive and parkway on either side of the River Rouge in the area known as Rouge Park, near Redford, marks the first step toward the realization of the so-called Metropolitan Park Plan, provided by the commission in 1924.

The action prevents the inclusion in any subdivision of land immediately bordering the river in this area and practically insures the eventual taking over of such land by the city. It also provides for the building of roads along either bank of the river.

The members of the commission took the stand that, as the course of the river is through low ground, it would be unfit for platting in any case, while it is ideally fitted for park purposes.

The Metropolitan Park Plan was prepared as a suggestion of a course to be followed by adjoining townships and counties in developing a comprehensive park and boulevard district. It provides for a network of parks and driveways surrounding Detroit, stretching from Mr. Clemens on the east to beyond Pontiac northward and south to Sturgeon Bay.

The park areas follow water courses and land so situated as to be undesirable for subdividing.

FARMINGTON DECIDES ON PUBLICITY DRIVE

REALTY DEALERS FORM ORGANIZATION FOR ADVERTISING.

An agreement on the advisability of advertising and publicity campaign to acquaint Detroiters with the advantages of living in Farmington was reached at a meeting last week Tuesday in the Farmington town hall. A preliminary organization was formed by real estate men from Detroit and representative citizens of Farmington, who named DeVeve Fleming, Farmington real estate dealer, temporary chairman, and Edward N. Decker of Detroit, secretary.

Arrangements were made to hold a public meeting Tuesday night at the town hall, to complete organization plans. Everyone interested in the project to advertise Farmington has been invited to attend and discuss the plans.

Gordon A. MacDonald of Detroit, a specialist in association matters, spoke, declaring the time was ripe for Farmington to advertise.

Among those present at the meeting were: Edward E. Beals of the Great Lakes Land Corporation; Isaac Bond, the Rev. E. L. Dunlavy and Louis Turnbull, realtor.—Detroit News.

NEW CO-OP APARTMENT READY FOR INSPECTION

Opening for public inspection of the first unit of the new co-operative apartment in Friedberg's Highland Park subdivision was announced Saturday for next Sunday. The property stands adjacent to Woodward avenue, almost directly across from the offices of the Ford plant. It was built and is owned by a syndicate comprising the Wayne County Development Company, real estate operators, and Spencer, White & Prentiss, building contractors. The latter firm is owner of three successful co-operative apartment buildings in New York City.

Owing to the fact that the new structure in Highland Park is the first co-operative apartment building in the United States built for the benefit of people of moderate means, it has attracted considerable interest among builders and apartment house operators. Among those consulted by the syndicate in connection with the project were F. G. Swayne of Chicago, chairman of the Co-operative Apartment House division of the National Association of Real Estate Boards, and Alfred Decker, who built the famous apartment structure at 999 Lake Shore Drive, Chicago. Both these men are widely known experts on co-operative apartment house construction and operation.

Among the unusual features of the present building are steel sash and plate glass windows throughout, iceless refrigeration, hardwood floors, sound-proof walls, complete laundry with artificial dryers, 1,800 square feet of floor space in finished rooms for children's play-room and nursery, and high grade hand-wrought hardware and electrical fixtures.—The Detroit Times.

KNOLL IS DIVIDED INTO HOME SITES

PHOENIX PARK ONE OF THE BEAUTY SPOTS.

Detroiters who have enjoyed the rustic beauty of Phoenix Park and lake on the Five Mile road, near Plymouth, will be interested in the announcement by W. M. Crown that the knoll overlooking both park and lake is now being subdivided into home sites.

Among the many beauty spots in Wayne county this park has become one of the most popular since the completion of the paving of Five Mile road, and each Sunday thousands of visitors throng the paths among the trees and along the shores of the lake.

"Plymouth Gardens has been opened sooner than the owners had intended," said Mr. Crown, "and it is due entirely to a public demand that the property is on the market now."

"Many Plymouth investors and home builders have requested the owners to release residential plots fronting the lake for immediate building, but it has been felt advisable to work out the complete improvement plan first."

"Landscaping features have now been completed by T. Glenn Phillips, city planner, and it is our intention to go forward rapidly with the improvements, which will be of the highest class and will conform exactly to the superior natural beauty that prevails there."—Detroit News.

SOMETHING TANGIBLE

That is what Real Estate is. It is wealth itself. It is not subject to the fluctuations of the stock market, and does not fear the rise and fall of currency. It represents a very large proportion of our entire national wealth. It is subject to very slow depreciation as far as the buildings are concerned, and to a certain increase in value as far as the land is concerned. There are today in New England and the South frame buildings in use that were built over 200 years ago. The owner of a home is assured of shelter, a prime need for which many families pay 25 per cent of the monthly income. Many old couples have found the support of their old age in the rental of one or two houses. In case of need, improved real estate is one of the readiest means in the world of raising money with many years for repayment at a moderate interest rate. The above are only a few of many reasons that could be given why everyone should OWN A PIECE OF REAL ESTATE.

Clean-Up Committees

The Kansas City Real Estate board has appointed five committees to take charge of an improvement campaign, each committee to be appointed to a definite section of the downtown retail district. It is planned to eliminate unsightly conditions on vacant property, to clean up vacant store-rooms, to banish overhead signs and to remove the sidewalk display of merchandise.

The campaign follows an appeal for greater orderliness and beauty in the business sections of American cities made at the annual convention of the National Association of Real Estate boards in Detroit in June of last year by H. B. Ennis of Kansas City, former president of the association.

Iris Ideal Flower

The United States Department of Agriculture advocates the Iris for home flower gardens, as it is resistant to diseases and insects, and because some kind of Iris can be found to suit almost any soil and climate in this country.

Who Knows When?

If you keep much money in the house, hidden away or on your person, sooner or later "thieves may break through and steal."

Your loss is almost as certain, often more so, if you gamble hard-earned money on wild schemes proclaiming profits that are both quick and large.

But a "building and loan" account is notably safe.
