33 COMPLETE SCHOLASTIC ACTIVITIES IN LOCAL SCHOOL

Culmination of Twelve Years' Work Comes With Presentation of Diplomas Thursday Evening.

Prof. W. H. Pearce Addresses Class and George A. Smith, Head of Local Schools, Presents Diplomas.

Baccalaureate The commencement week activities of the Plymouth High school were ushered in with the Baccalaureate sermon, which took place at the High school auditorium, Sunday evening.

The auditorium was filled with relatives and friends of the class of '26. The stage was prettily decorated with flowers, and the class colors, yellow and white.

To the strains of a march, played by Miss Ruth Allison at the piano, the members of the graduating class were ushered to seats reserved for them at the front of the auditorium, by Frazer Carmichael, president of the Sophomore class, and Katherine Wilcox, president of the Junior class.

The invocation was given by Rev. Walter Nichol, pastor of the First Presbyterian church, and Rev. H. E. Bayles read the scripture lesson. A male quartette composed of Messrs. Calvin, Austin and Elmore Whipple and Harold Jolliffe sang a selection.

Dr. F. A. Lendrum then gave the sermon of the evening, his subject being, "The Voice of the Future." Dr. Lendrum brought a splendid message that could not but make a lasting impression upon the members of the class who are about to take their places in the world. The benediction was pronounced by Rev. Nichol.

Class Day The class day program given by the class of 1926, Tuesday evening, June 22nd, was especially good and unique in the fact of carrying out the idea of a broadcasting station throughout the exercises. The following program was creditably presented:

Professional—Orchestra. Station P. H. S. No. 26—Russell Robinson. Tales of the Past—Letha Rowland. State—Irah Eckles and Leona Joy. Our Program for Tomorrow Will Be—Blanche Freeman.

Broadcasting the Weather Reports—Kenneth Wilske. Special Program, Tuesday Night Only—Marion Beyer. Finale by the "Senior Company of '26." One special feature was the presentation by the class to the president of the Alumni Association a check for \$80.00, which is to serve for the beginning of an Alumni College Scholarship Fund. This will be recognized by members of the Alumni, students still in High school and members of the community as being a most worthy and noble gift, because many boys and girls, after graduating from High school, would welcome an opportunity to borrow a portion of the money which he must use in going to college.

The last gift presented for the class by Miss Beyer was the Holy Grail picture by Edwin A. Abbey. Mr. Smith, superintendent of schools, in accepting the picture for and in behalf of the High school, expressed the appreciation of the school to the class of 1926, and also to the previous classes which had left memorials at the time of graduation. These memorials include the ornamental lamps to the approach of the High school building, given by the class of 1921; the beautiful plate glass trophy case given by the class of 1922; the Holy Grail picture, "The Oath," given by the class of 1924; the Holy Grail picture, "The Deliverer," given by the class of 1925; also the above mentioned Holy Grail picture, "The Vision," given by the class of 1926. There are fifteen pictures in the Holy Grail series, the originals of which are in the public library at Boston, Mass. It is the desire of the High school to eventually possess all of the fifteen masterpieces for the adornment of the High school corridors, and it is with real appreciation on the part of the High school that they have thus far received so generous a presentation from the High school graduating classes.

Commencement The goal toward which the scholastic footsteps of thirty-three pupils in the class of 1926, Plymouth High school, have pointed for twelve years was attained on Thursday evening, when diplomas were presented to sixteen girls and seventeen boys.

A large crowd of admiring friends and proud parents witnessed the culminating event in the school life of the chief participants. The class took their places upon the platform, which was handsomely decorated with the class colors and beautiful flowers, as the High school orchestra played the processional.

The salutatory was splendidly given by Miss Elsie White and was as follows:

Salutatory I take great pleasure in presenting to the people of Plymouth the graduating class of 1926, consisting of thirty-three people, sixteen girls and seventeen boys. As salutatorian of the class, in behalf of the Seniors, I wish to thank the people of Plymouth, the Board of Education and the faculty of the school for making it possible for the class of 1926 to be graduated from Plymouth High school at this time. Through the co-operation of our fellow townpeople, we have been able to make our Junior-Senior banquet, our Junior and Senior plays, our Redwood Lyceum course and our Niagara Falls trip all successful. Now at the close of our four years of High school, we appreciate the fact that these same citizens are helping us make our graduation exercises worth while. In behalf of the class, I extend to you, the citizens of this community, our hearty thanks.

Among the happy things that we have enjoyed in Plymouth High school is the work and play which the department of physical education has afforded us. Physical education first started in Persia, Egypt, India and China. These countries had methods of body training even before the Greeks had them. The Greeks are the first people who established and maintained a national system of physical education based on high ideals and training.

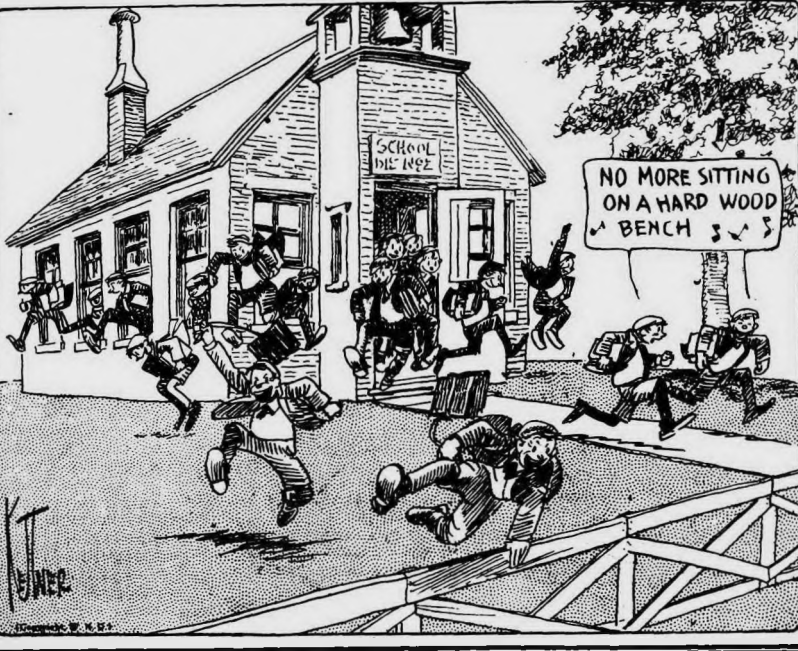

In the United States, we have two systems of physical education which are German and Swedish in origin. The German system is unscientific. It represented no study of man nor the essential logic and social needs of the individual. It was merely for the purpose of having better soldiers to uphold the German flag.

The Swedish form is scientific. It is founded on a knowledge of anatomy and physiology, and is claimed to be most correct. Like the German system, it came into existence because of military needs. This form of physical education is the best known in the United States. The last twenty-five years girls have been held down by corsets and other unpleasant wearing apparel. Now girls have perfect freedom in sports, and are even better athletes. Today we use the indirect method in place of the old formal way with the same benefits resulting. For example, we need to have exercises such as deep breathing; now we exercise the same muscles and derive enjoyment from doing it by running exercises in the form of games and track meets.

Today, in Michigan, a state health law demands that every town having a population of three thousand must have a system of physical education. In Plymouth High school all grades up to the fifth are in charge of the physical training teacher once a week; the grade teachers have charge of the exercising the other days of the week. Another phase of our health education is the school nurse who is here two or three times each week to examine the children. Once yearly a dentist makes an examination of every child in the grades. One Wednesday each month, the school sponsors a baby clinic, when babies are weighed, measured and examined. The children in the grades also have their Health Crusade work which means that each child in the grades has a chart to fill out, telling whether he has told the truth or not, whether he ate vegetables and drank milk, and whether he has kept many other rules of health. These charts are kept and sent home to the parents. When a child has kept these rules of health regularly for a certain length of time, he is awarded a picture. This, of course, encourages the child to be healthy.

In the High school there are about 200 girls and 180 boys in physical training classes. Of these over seventy participate in sports such as basketball, baseball, football, track and soccer. However, before going out for any of these sports, the student must take examinations at the beginning of

School's Out

each year, and to be a member of any athletic team he must have a written statement from the doctor saying that he is physically fit to participate. Physical education tends to do away with that type of individual that is known as the sissie. The sissie is scorned by everyone, and by compelling all students to take physical education, we are gradually making a good sportsman out of the sissie.

Physical education gives the person an all-round development. Let us take for example Thomas A. Edison, President Coolidge, Herbert Hoover and Henry Ford. They are all great men who have sound minds as well as sound bodies. Now let us take some of the great men of old, Milton, the great poet, who was blind and feeble; Robert Lewis Stevenson, who died of tuberculosis; Bobby Burns, who died from intemperance. These were great geniuses in spite of the ailments, but they could have been much more to the world if they had possessed both a sound mind and sound body.

To promote our work in physical education, several things are necessary. Our class, the class of 1926, hopes that the following classes may have the use of a new gymnasium, that they will encourage and make better all the forms of physical education which we now have, and that the present possibilities will become realities. In the future we hope that Plymouth High school will have posture, health and corrective classes, that it will have weekly hygiene lectures, showing the need and benefit of physical education, that they will have more clowns like Toto, sponsored by the American Red Cross, to show the value of foods, that in the future Plymouth will again represent the school in basket ball and track; in fact we hope that every dream, every wish, every hope for a complete system of physical education may be realized for dear old Plymouth High school.

The next number on the program was a violin solo by Wilbert Petz, most artistically rendered.

Following this came the valedictory, given by Miss Julia Wilcox in a most excellent manner, and was as follows:

Valedictory The attitude of the individual shapes the attitude of the age. Whether it be in the social, economic or political field, the outlook of the average man becomes the spirit of the times. In Medieval days, the dullness and narrowness of the nobles, as well as the peasants' existence, resulted in the "Dark Ages." With the Renaissance, a new interest in life woke Europe from her long sleep, and led to the discovery of the New World. In every era it has been shown that the ideals of the individual form take the background of national ideals.

As individuals, we, too, are builders in this way. The hopes of today are the realization of tomorrow, and each one of us has a share in them. As someone has put it: "Isn't it strange That princes and kings, And clowns that cater In savant's rings, And common people Like you and me Are builders for eternity?" Builders for eternity! It is for us, placing the cornerstone of the future, to build our foundation firmly and well. The level of what humanity has come to regard as perfection is gradually rising. But it can rise only as great masses advance in understanding, and as there is gained a clearer and better realization of the vital questions which are waiting for earnest thinkers and workers—problems of world peace, child labor, conservation, race betterment. These are demanding ever increasing attention on the part of patriotic citizens.

Everyone has an opportunity to aid in carrying this work forward. Those best suited and most sincere will be able to accomplish more than those who are willing merely to fall in line and march with the procession. The efforts of each individual will determine the progress of the whole movement.

ment. As Dr. J. L. Miller says, "The civilization which exists only for itself and its own selfish extravagances will inevitably rust out."

There can be no progress without work—and this steady forward advance must go on unflinchingly through the years. The world's great men and women have been the world's greatest workers. Theodore Roosevelt, vibrant with energy, gave us a glorious example of his power. Jane Addams, spending her life that Chicago slums might have a little more happiness, a little more sunshine, brought joy, not only to Chicago, but to the whole world.

We are working to form the ideals of the present, although the value of our achievements can only be determined after a lapse of time. History cannot be truly interpreted in its making. The future only can judge the present, as the present has judged the past. The day-before-yesterday of civilization had standards differing from our own; yesterday had others; and today's will be seen, not through the vision of bygone years, but through the enlightened ideals of tomorrow. It is for us to strive toward making the world a little better because we have been in it.

Classmates: As we face the future, we know that life will give back to us all that we are willing to put into it. The years before us are a clear and to make the most of our opportunities, which will come to us on our way. Our journey through High school has been one of fellowship and good will, and although we are now parting, for each it is another beginning. As we go forth, we trust that we may not fall in the new and larger tasks which lie ahead of us.

Miss Ruth Forsythe then gave a vocal number, "Dawn," by Curran, which was beautifully rendered. The speaker of the evening, Prof. W. H. Pearce, head of the Department of Mathematics of Central Normal College, Mt. Pleasant, Mich., was then introduced by Supt. George A. Smith. The subject of Mr. Pearce's address was, "The Meaning of Education." It was a wonderful address, timely and helpful, and one that made a deep impression upon those who heard it.

George A. Smith, superintendent of schools, in a few appropriate remarks presented the diplomas to the thirty-three members of the class of 1926.

The exercises closed with the singing of the class song. The graduates of the class of 1926 are as follows: Hollys K. Westfall, Kenneth E. Wilske, Julia Grace Wilcox, Norman L. Hoffman, Irah I. Eckles, L. Ma M. Joy, Myrlan G. Lyke, Willie A. Stanek, Russell G. Robinson, Harry William Miller, Russell B. Miller, Carlotta J. Moore, Hawley T. Mills, Harley W. Salow, Marian A. Beyer, Ernest L. Henry, Grace C. Tillotson, Margaret I. Tillotson, Meryl Edward Kurze, Edward Malcolm Cutler, E. Genevieve Bird, Katherine S. Rengett, Stillman L. Worth Warner, Ida Mae Bennett, E. A. Ernestine Brown, Wilbert J. Petz, Lillian E. Schreyer, Letha Madeline Rowland, Zetta Antoinette Travis, Roger G. Payne, Maxwell A. Pierce, Blanche A. Freeman, Elsie B. White.

HIGH SCHOOL REUNION

All old residents, teachers and pupils of the High school are invited to attend a reunion at the school grounds, across of the Artley and Parkside roads, Saturday, June 26th. Come early, bring your picnic basket and sit down with the old schoolmates on the old school ground.

SCHOOL CHILDREN HELD PICNIC WEDNESDAY

BOYS AND GIRLS ENJOY A GREAT DAY AT ISLAND LAKE.

Wednesday, June 23rd will live long in the memory of the boys and girls of the Plymouth schools, for it was on this day that the long looked for school picnic was held at Island Lake.

The arrangements for transportation to the lake were left with each class, and there were plenty of cars and trucks to transport the crowd to and from the outing.

At the noon hour a basket picnic dinner was enjoyed as only hungry boys and girls can enjoy the cats that are provided on occasions of this kind.

DANIEL BENTLEY PASSES AWAY

Daniel Bentley, aged 84 years, a life-long resident of Plymouth, died Wednesday afternoon at one o'clock, at the University hospital, Ann Arbor, where he has been for the past week. Funeral services will be held from Schneider Bros. Funeral Home, this Friday afternoon, at two o'clock.

EPISCOPALIANS MEET AT HILLDALE FOR ANNUAL SUMMER CONFERENCE.

From all parts of Michigan, church workers and leaders of every age, but mostly in the twenties, will be flocking to Hilldale, for the opening of the annual summer conference of the Episcopal Diocese of Michigan, at Hilldale College, June 27th, which will last for two weeks.

Already famous throughout the state as the headquarters of one of the oldest and best colleges in the Middle West, the beautiful little city of Hilldale has become better known than ever by reason of the increasing numbers of pilgrims who at this time of the year turn their steps thither for the broad fellowship in inspiration and recreation, which the conference affords.

Among the leaders and subjects which are attracting the most widespread attention are: Dr. William C. Sturges, Ph. D., of New York, "The Sermon on the Mount"; Dr. Gertha Williams, head of the psychology department of the Detroit Teacher's College, "Children's Behaviour Problems"; Miss Hazel Hardacre, executive for younger girls, Detroit Y. W. C. A., "My Experience with Myself"; Mr. John M. Garrison, director of Young People's work, St. Paul's Cathedral, Detroit, "Boy and Girl Club Methods"; and "Young People's Work in a Parish"; Francis A. Mackey, organist and choir director of St. Paul's Cathedral, Detroit, "Organ Repertoire" and "Boy Choir Training."

PEOPLES STATE BANK WILL BECOME FIRST NATIONAL BANK

Beginning July 1st, the Peoples State Bank of Plymouth Will Be Operated Under the National Bank Charter.

WOMAN'S CLUB HELD ANNUAL PICNIC

The annual picnic of the Woman's Club was held last Friday, at the Cass Benton Riding and Hunt Club, with about eighty ladies present. After being served to a splendid luncheon, the following program was presented, in charge of Mrs. Floyd Hillman:

Piano solo, Liebestraum by Liszt—Miss Ruth Allison. Reading, Counting the Eggs—Miss Dorothy Hillman. Readings—Sunshine and Shadow, When a Feller Needs a Friend, Because, Old Dad Miller, by Orrin DeMaas—Mrs. Frank Burrows. Song and dance, The Fountain Dance—Miss Irene Humphries. Piano solo, Valse Arabesque by Theodore Lack—Miss Dorothy Hillman.

The new club books were distributed, and Mrs. Mary Hillmer talked a few minutes about the program for the next year. Everything looks as though the club will have a very interesting and cheerful year.

After this delightful program, Mrs. Hillman, with a few appropriate words, presented our retiring president, Mrs. Chappel, with a basket of flowers in appreciation of her work of the past year. Mrs. Chappel, at this time, presented the gavel to our new president, Mrs. R. F. Cooper.

FIRST COMMUNION

Sunday morning, June 20, at 9:35 o'clock, at High mass, seven little girls and ten little boys received First Holy Communion.

A very pretty and impressive procession took place from the rectory to the church. It was led by the altar boys in cassocks and surplices, followed by the Girl First Communicants after whom followed the older girls and choir members. Then came the Boy Communicants, followed by the older boys. The older girls sang their first mass.

The altar was beautifully decorated in white peonies and carnations. Breakfast was then served to the First Communicants.

June 20th was chosen by Fr. Lefevre because it was the opening day of the Eucharistic Congress held in Chicago.

FIREMEN ANSWER THREE CALLS

The fire department answered three calls, Saturday, Sunday and Monday. Saturday afternoon they were called to Joy street, where a grass fire had started.

Sunday morning about 11 o'clock, they were called to 537 South Main street, where a small blaze had started on the roof. Little or no damage resulted.

Monday morning about 2:30 o'clock, a burning garage at the home of George Tyo in the Sutherland subdivision, called the firemen from their beds. There were two cars in the garage. The one owned by Mr. Tyo was saved, but another car in the garage was destroyed along with the building.

WILL GIVE PIANO RECITAL

Miss Anna L. Youngs will give a general pupils' recital Monday evening, June 28th, at 8:00 o'clock, at the Methodist Community Home, assisted by Henry Hutton, violinist. The following pupils will take part: Jmie Nash, Coraline Rathburn, Helen Ribar, Arbutus Williams, Vaun Campbell, Ima Campbell, Joy McComb, Marian Gust, Virginia Woodworth, Delphine Jaynes, Helen Jaynes, Alice Gilbert, Mildred Gilbert, June Fredric, Madelon Shingleton, Annabel Withey, Phyllis Kabel, Helen Compton, Katherine Compton, Philip Doerr Robert Champe, Karl Edwards, Donald Bronson, Louis Miller, Joseph Ribar, Russell Egloff, Stevyn Heavath, Lester Daly and Herbert Sawyer. The public is invited.

ON THURSDAY, JULY 1ST, THE PEOPLES STATE BANK OF PLYMOUTH WILL BECOME THE FIRST NATIONAL BANK OF PLYMOUTH.

At this time the state charter, under which the bank has been operating since its organization, a little more than two years ago, will be succeeded by the National Bank charter. The Peoples State Bank has made a splendid growth since it opened its doors to the public, and its deposits now exceed the \$500,000 mark. The same courteous treatment and careful consideration of their patrons' interests, which has marked the policy of the old organization will prevail under the new charter.

The officers of the bank feel that in operating the bank under the National bank charter there are added advantages and benefits that will come from the bank's affiliation with the Federal Reserve. A full page advertisement in today's paper gives an outline of the facts relating to the change in the charter.

The officers and directors of the First National Bank will remain the same as those of the Peoples State Bank and are as follows:

President—J. B. Hubert. First Vice Pres.—J. L. Johnson. Second Vice Pres.—Frank Rambo. Cashier—E. A. Kehrl. Asst. Cashier—J. E. Taylor. Directors—John Patterson, J. L. Olsaver, J. B. Hubert, John M. Larkins, Charles L. Finlan, Frank Rambo, J. L. Johnson, George Robinson, Arthur Blank.

DOROTHY CALDWELL PASSES AWAY

The people of Plymouth and vicinity were saddened to learn of the death of Miss Dorothy Caldwell, whose serious illness was mentioned in last week's paper, which occurred last Monday evening at 10:00 o'clock, at Sheldon Memorial hospital, Albion. Miss Caldwell, who was 18 years of age, was a graduate of the Plymouth High school in the class of '25, and has been attending Albion College for the past school year. Besides her parents, she leaves a sister and two brothers. Funeral services were held from the Schneider Bros. Funeral Home, Thursday afternoon at 2:00 o'clock, interment in Grand Lawn cemetery, Bedford. The bereaved family have the deepest sympathy of the community in their great sorrow.

BURGLARS AT SCHOOL BUILDING

Last Friday night or early Saturday morning, thieves broke into the High school building and stole a sum of money from the vault in the superintendent's office. Entrance was gained at the rear of the building. The outer door of the vault is left unlocked, while the inner doors are locked. These doors were opened by prying open the lock with tools taken from the boiler room of the school building. Officers are working upon the case.

PURCHASE GREENHOUSES

The Sunshine Acres Greenhouses, which have been operated by Ross & Sutherland, have been purchased by C. R. Ross & Son, and are being moved to a new location, west of Plymouth on the Ann Arbor road. The new firm will specialize in bedding plants and ornamental shrubs in addition to the regular line of plants which have been sold at the former location. When the buildings are completed, it is expected that this will be a popular place with Plymouth people, as it is only a ten minute drive through the beautiful Plymouth Hills district.

WILL SHOW THE WHIPPET CAR SATURDAY AFTERNOON

The Sturges Motor Sales have taken a full page advertisement in today's paper to announce the first local showing of The Whippet, the new car just being placed upon the market by the Whippet-Overland, Inc., at their new garage at the corner of Mill and Amelia streets, on Saturday afternoon, June 26th, commencing at three o'clock. This new car is sure to attract wide attention, and without a doubt will meet with a popular demand. See it in this paper.

LARGELY "BUNK"

"What is so rare as a farm day in June?" asks the editor of a newspaper. Imagining, we suppose, as too many imagine that the farmer is leading a care-free life at this season of the year. If he had to battle cutworms and corn-borers, striped cucumber beetles, bean beetles, tobacco worms and cabbage worms along with raising another installment on the farm mortgage or paying off the semi-annual tax assessment he would soon forget that "rare day in June" stuff and sing a different song. In fact, if every fellow who writes about the care-free days of June could be forced to spend one week on a farm—any farm any place—something tells us that after the blisters healed up and his back stopped aching he would be found humming something more appropriate than "bunk" about June days in the country.

THEY'RE PILING UP

Taxes on autos continue to grow heavier each year despite the fact that today motorists of this country are paying on an average of \$16 a year taxes on their cars. It has become an easy matter for a state legislature to slap an extra tax of some kind on the auto, when the money can't be raised through other channels, and many members of the law-making body of our own state have grown rabid along this line. They still refuse to see the auto as a necessity instead of a luxury, and as a result Plymouth motorists, to protect their own pocket-books, are forced to ask a new question of the man running for a legislative job. It isn't so much now "are you wet or dry" as it is "where do you stand on auto taxes?" And since there are about 40,000,000 auto owners in the United States that question ought to make a candidate ponder a little.

BEATING THE BUSHES

Throughout the country, from now until the early frosts of November, political candidates will be beating the bushes and gunning for votes. Of course every single one of them will have an abundance of proof to offer that he is better qualified than any other candidate to fill the position sought; and naturally he will offer an endless argument to convince you that the party with which he is affiliated is the only "true party" in this country today.

There was a time when the average Plymouth voter took his politics far more seriously than he does now. When a candidate used to promise lower taxes in the event he was elected, the voter believed it. And when various other forms of relief were promised, such as better roads, cheaper farm machinery and higher prices for products, he went right in without doing very much thinking for himself and voted for the man who made the promise. Then, too, he often voted regardless of promises—voted for a man simply because he happened to belong to a certain party, or because his father before him had always voted that ticket.

But political promises do not count for as much with the average voter today as they once did, and when it comes to political parties, he is doing his own thinking and voting for the man, instead of the party, officer than he used to do. That is why the candidate finds it so much harder to interest the voter of today. And that is also why it takes a good deal more than bally-hooing and stump-speaking and fire-eating to wake up the voters to the point where they will get excited or feel that the country is headed for the dogs if a certain candidate doesn't win.

MUNICIPAL NOTES

BY THE MANAGER

The Board of Trustees of Riverside Cemetery at their meeting on June 18th, made some changes in the cemetery operation, as follows:

The fees for opening and closing graves were changed from \$10.00 for adult graves and \$5.00 for small graves to \$15.00 for graves where the caskets are more than three feet long, and \$5.00 for graves for smaller caskets.

The cost of concrete foundations for monuments and markers will be collected in advance hereafter, at the rate of 50c per cubic foot, with a minimum charge, however, of \$5.00.

Also, as soon as arrangements can be made, the cemetery gate will be closed and locked in the evening at 8:30 p. m. from May 1 to September 1, and at 7:30 p. m. for the rest of the year.

We have had quite a rest from fires. May 21st was the last one until Saturday afternoon. Since then we have had three. The two in town Saturday afternoon and Sunday morning did no damage, but the one Monday morning about 2:30 o'clock, burned up a garage and car at George Tye's in the Sutherland subdivision.

The firemen have started their periodic practices with the pumper, giving the machine a work-out once a month.

Several of our speedier friends about whom the editor commented last week, have been taken in for using Blank avenue for a speedway.

The Commission Monday night awarded a contract for 120 tons of 6-inch water pipe to the Crane Company. A contract for specials, gates and boxes and tapping sleeves went to the Michigan Valve & Foundry Co., and for 6,600 lbs. of lead to the James B. Clow Co.

A petition was granted for a storm sewer on York street, from the P. M. tracks to Liberty street.

To insure having a driver for the fire truck on Sundays during the summer months when so many people like to take auto trips, the Commission will pay for the services of an operator to be on the job each Sunday during July and August.

We are about to order some more street signs such as we have put in place the last two years. When this season's batch is erected, the built-up portion of Plymouth will be pretty well "signed-up."

The first of the red tape in connection with the special assessments for our sanitary sewers was unwound Monday evening. It will be some time before notices can be sent out.

An ordinance was started Monday evening to control the use of our village dump and village property generally. This will be published when it is polished up and given its final reading.

Callers at the Baptist parsonage last Sunday were: Clifford Sayles and Mrs. Belle Hartford of Detroit; Mrs. Otto Richter and daughter, Lenore, of Wixom; Mr. and Mrs. Martin Bolt-house also of Detroit.

PLANS BEING PERFECTED FOR ANNUAL FAIR.

Plans for the tenth annual Northville Wayne County Fair are well under way and everything points to another successful exhibition. The free attractions have been engaged and they are said to be of a very high order of merit. There will be four days of racing and a good program will be put on each day—Tuesday, Thursday, Friday and Saturday, Wednesday having been reserved for the saddle horse show. There will be the usual free attractions each afternoon and night, and space along the midway is fast being contracted for, as well as space in the main hall. It is expected that a new addition will be erected for the use of community and school exhibits, thus greatly increasing the space that can be devoted to the fruit exhibit which has outgrown the space available in former years.

Base ball teams are being engaged for the tournament and there will be a number of visiting bands present to enliven things and to entertain the crowds.

Friday has been designated children's day when all school children will be admitted free. Other features for the proper observance of the day may be announced later.

The dates chosen for the fair this year are September 21, 22, 23, 24 and 25.—Northville Record.

BAPTIST NOTES

Last Sunday, Rev. Sayles spoke to the young people, from the text found in Psalms 31:15. "My times are in thy hands," urging young people to put their life into the hands of God, to be directed, sustained and finally come off victor by His help and guidance.

The male quartette sang well in the morning service.

Two young ladies received the right hand of fellowship into the church on Sunday morning.

The flowers were especially beautiful last Sunday morning.

There were no evening services at this church, last Sunday evening, because of the sermon to the High school graduating class by Dr. Lendrum, which was worth listening to and enjoyed by all.

Communion service, next Sunday morning.

When your family's at the lake—Use long distance

The same advantages which have made Long Distance so essential in business are enjoyed in calling your family at the cottage. It is speedy; it brings an immediate answer; it avoids misunderstanding. The sound of the voices of the members of your family over the Long Distance Circuits is comforting.

Long Distance rates are remarkably low. And on "Anyone" calls, after 8:30 at night they are approximately half the day rate.

An "Anyone" call is a call on which you will talk with anyone who answers the telephone.

STATE CROPS IN GOOD CONDITION OVER PAST YEAR

FROST AFFECTS FRUIT TO SOME DEGREE BUT IMPROVEMENT IS NOTED.

Report of the conditions of crops in Michigan as evidenced in a report given out by Verne H. Church agricultural statistician for the state, and L. Whitney Watkins, state agricultural commissioner, that in nearly every instance the outlook for 1926 is much more favorable than prevailed a year ago.

Winter wheat is one of the few crops that is poorer. It is rated at 69 per cent. 6 per cent lower than in 1925. The prospective crop is 12,358,000 bushels, against 13,906,000 last year. Hay is 76 per cent, compared with 71 last year. Pastures are 12 per cent better than last year.

All fruits appear to have excellent prospects. While peaches in some localities were injured by frocking the outlook is for 82 per cent, or 1,166,000 bushels—nearly twice as many as in 1925 and the best prospect since 1916. Apples are estimated at 74 per cent, compared with 63 last year. A crop nearly one-fourth greater than in 1925 is indicated.

Pears show a condition of 88 per cent, compared with 44 a year ago. Plums promise 77 per cent of a crop compared with 50 per cent in 1925. The average condition of cherries is 72, compared with 53 a year ago. Peaches have reduced the grape crop to about 70 per cent of a full one. Vineyards were damaged from 10 to 15 per cent. A crop of 72 per cent is forecast for strawberries, compared with 37 a year ago.

ODDFELLOWS NOTES

Again we have the privilege of letting our brothers know through these columns, just what we are doing these hot evenings in our lodge room.

Our sick list is getting larger week by week, as reported by our visiting committee. Bro. Proctor, who is in Ford hospital, is above the danger line once again. Bros. Darnell, Ward and Minehart are able to be around again. Bro. Bentley is in Ann Arbor hospital, and little hope is held for his recovery. Bro. George Savory

and wife, who were in an automobile accident, last Saturday, are in a critical condition in Sessions hospital Northville, and we are all hoping for an early recovery. We are hoping for a more cheerful report from our visiting committee next week.

One of the committees appointed made a report in regard to conditions of our new temple, which was very interesting.

Our memorial committee on decoration of the graves of our departed brothers have still a little more work to finish, as our markers have arrived.

This week being an off week we finished up a class of candidates in both the second and third degrees. Bro. Hunter, who has charge of the second degree, is certainly deserving of a lot of credit for his ability as a degree captain, for his team is shaping up like champion winners in the state at the next exhibition at Grand Lodge.

Bro. Wagenschutz had his third degree team well in hand, and gave a real exhibition in conferring this degree on the finishing class of brothers.

The first examination of officers was held, and by the results we are going

to have a real bunch of officers for the coming term.

Next meeting night is again an open night, as we have a whole lot of unfinished business to clear up, as this is the end of the business year.

The Holbrook Lodge have had a committee working for some time on a proposition, and here is what they have secured. On Monday evening, June 28th, at 8:00 p. m., in the I. O. O. F. temple will be held a three-act comedy, which, by the way, is going to be worth-while seeing. Every brother is earnestly requested to come, as the admission is only 35c, and for a good cause. So everybody come.

The attendance is not growing, but is still holding its own, due perhaps to the hot weather, but come out, brothers, you can take your coats off.

LITTLE JOURNEYS IN PRINT

Our journeys this week were mostly fishing trips and a few good yarns are going around.

Bros. F. Sherman and A. Hartung visited Walled Lake last Sunday, and sent out the S. O. S. signal for a truck. What for?

Bro. Lester Cooper spent last Saturday night on Walled Lake, fishing. Some catch.

Bro. Burt Gill and wife spent last Monday in Ypsilanti, visiting Bro. Gill's mother.

Bro. Tom Ward and wife motored to Wolverine lake, last Sunday.

Bros. E. S. Wilson and R. Tanger journeyed to Detroit, last Sunday, and report a good ball game.

Bro. Roy Wheeler and family spent Sunday at Walled Lake, and again a good report was made about the size of the fish caught.

Bros. A. Hood and A. Williams spent last Wednesday and Thursday at Gladwin, Mich., getting their limit of bass, and report a lot left for the rest of the brothers.

Bro. A. Trinkaus and family entertained Bro. Robert Dunham and family of Pontiac, last Sunday.

Bro. Wesley Evans and wife and Bro. Charles Robinson and family motored to Belle Isle, last Sunday, and report a good time.

Bro. Fred Rhead is having quite a good time on Duck Lake, where he is building a summer cottage and between hours fishing. And some fish!

Bros. C. Warner, A. Rodman and W. Boehret have formed a club, which is called the Triangle Fishing and Hunting Club, and have leased a cottage on Big Crooked Lake for the summer. Their first fishing trip to the lake was last Saturday and Sunday, and luck was sure with them. Saturday evening the brothers caught twelve bullheads, which weighed 17½ pounds, and the limit of black bass for one of them.

Now if any of the brothers would like to join the club, for the membership is limited, get in touch with our secretary, for a good time is ahead for the members.

Bro. Tims Ruff and wife and Bros. Russell and Milton Densmore attended a reunion at Soudan Lake, last Sunday.

Bro. Roy Stanley and family visited friends in Ypsilanti, last Sunday, and while there helped rescue a party of balloonists, who landed in a tree, after flying from Chicago.

Bro. Percy Gotts is building a new home for himself at Canton Center. Good luck, Percy.

PERRINSVILLE

The Metropolitan Sextette of Detroit will give a concert of their colored spirituals and melodies, on Wednesday evening, June 30th, at 7:30, in the Perrinsville Gleason Hall. This group of colored singers has been with us at Newburg, and they are well worth hearing. You are missing a great treat if you are not there.

"Forest Acres," at I. O. O. F. Temple Monday evening, June 28th. Admission 35c.

Keep Out All the Weather—

COAT WITH RUBER-OLD ROOF COATINGS

YOU can keep out all the weather if you protect and preserve your roof with Ruberoid Roof-coatings.

These coatings when applied to smooth or slate-surfaced roofs penetrate right through to the felt basis. They fill up the pores and give your roof new life.

Ruberoid Roof Coatings are equally good for metal roofs. The heavy protective film will not check or crack in cold weather, blister or melt under the Sun's rays.

Ruberoid Roof Coatings, whether selected in black, red or green will assure weather protection for your roof for years. These coatings are really weather insurance in keeping out heat, snow, rain, cold and frost.

You can avoid costly repair bills by keeping your roofs in repair with Ruberoid Roof Coatings. Come in or phone us for prices and descriptive literature.

ROTH-LE DUC WEDDING A CHARMING AFFAIR

REV. FR. LEFEVRE SOLEMNIZES NUPTIALS AT OUR LADY OF GOOD COUNSEL CHURCH.

The wedding last Tuesday, of the organist, Miss Phyllis E. LeDuc, daughter of Mr. and Mrs. Wm. LeDuc, and George Wm. Roth of Detroit, took place at nine o'clock a. m., in the presence of a host of friends and relatives. The interior of the church was beautifully decorated in orange blossoms and pink and white peonies, huge bouquets of orange blossoms tied with tulle at the entrance of the family pews. Decorations were in charge of Miss Mary Mertens.

To the strains of the beautiful Lohegrin Wedding March, the groom and his attendant entered through the chapel and met the bride, who came down the aisle on her father's arm, and was given away at the foot of the altar.

The bride made a charming picture in her bridal gown of white charmeuse satin embroidered in crystal and pearls. A pretty head piece of pearl and orange blossoms secured the long tulle veil which formed the train. Her flowers were a shower of white roses and valley lilies, with streamers of tulle baby ribbon.

The maid of honor, Miss Mable Speir, cousin of the bride, was delightful in a frock of peach blow satin, with slippers and hose to match. A picture hat and a bouquet of roses and valley lilies completed the costume.

The bridegroom was attended by his brother, Norman Roth. The ushers were C. L. Finlan assisted by J. Herter.

The music was in charge of Mrs. A. LeVeque, organist of St. Theresa's church, Detroit. Concone's Mass in F was sung by the choir. At the offertory, "Rosewig's Ave Maria, and after the mass, DeKoven's Oh Promise Me were beautifully rendered by Mrs. J. F. Rousseau.

After the church ceremony, a wedding breakfast was served to about sixty relatives and friends, at the home of the bride's parents, Mr. and Mrs. Wm. LeDuc, the house being beautifully decorated with pink and white peonies, orange blossoms and roses.

The happy pair were the recipients of many and costly gifts, the bridegroom's gift to his bride being a beautiful pearl necklace, double strand, with crown shaped pendant set with diamonds.

The bride's mother was charming in a gown of ashes of roses tulle. Mrs. Roth, mother of the groom, wore blue and white crepe de chine.

A reception was held in the afternoon, after which the bride and groom left for a trip through the east. They will be at home about September first. All join in wishing the newlyweds a long and happy wedded life.

Those from out of town were: Mrs. C. Roth, Miss Cecil Wortman, Mrs. E. Potvin, Mr. and Mrs. R. Cobb, Mrs. Wm. Brennan, Theodore Herbert, grandfather of the bride, and Mr. and Mrs. Wortman, grandparents of the groom, all of Detroit; Mr. and Mrs. A. Herbert and Mrs. Max Hoffman of Saginaw; Mr. and Mrs. W. J. Speir and Miss Ruth Speir of Ecorse; Mr. and Mrs. Plon, Mr. and Mrs. Alec Law and Mrs. A. LeDuc of River Rouge.

TEMPLE THEATRE

Detroit, Mich.
Henry Santry, Detroit's own baritone, with his symphonic orchestra, headlines the bill at B. F. Keith's Temple Theatre, starting Sunday matinee, June 27th. Santry offers a jubilee of song and syncope embracing everything from opera to jazz. Other acts are: Edith Clifford, popular singing comedienne in new song hits, with Miss Marion Carr at the piano; Harry and Anna Seymour will offer bits of mirth and melody; Raymond Bond, well known character actor, with Miss Helen Sullivan, in his latest homespun comedy, "Remnants"; Henry Santry and Anna Seymour in "A Little Comedy Surprise"; Brems, Fitz and Murphy Brothers in their latest comedy routine; Snell and Vernon in an artistic diversion; Hurt and Le Roy in a fast dancing flash, and the weekly screen subjects.

Both in appearance and in service, concrete is the aristocrat of pavements

What Concrete Pavement Did for Cass City

Until about three years ago the main thoroughfare in Cass City, Michigan, had nothing but a gravelled surface. Heavy traffic made upkeep costly. No wonder local authorities and taxpayers became disgusted.

In 1923 they decided to put an end to this sorry state of affairs. Profiting from the experience of other Michigan cities, they decided to pave with portland cement concrete.

Cass City has taken on a new air of prosperity. Store fronts have been repaired and painted. Farmers come to town more frequently to trade. Tourists stop to spend their money. Business is a lot brisker—since the coming of concrete.

Anyone in and around Cass City will tell you what a wise investment this has been.

Concrete streets will bring new prosperity to any city, and at the same time put an end to costly street maintenance.

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy.

ANOTHER STEP FORWARD for Plymouth

THE Peoples State Bank of Plymouth will become **THE FIRST NATIONAL BANK** of Plymouth on July 1st. On that day a new National Bank charter will supercede the state charter under which this institution has been operating.

In this change is an important advance in banking service for the people of Plymouth and the surrounding territory—a sign of progress which has been our aim since organization.

Two years ago the Peoples State Bank was organized, dedicated to the rendering of helpful, friendly banking service along the most advanced lines. July 1st, when the transfer of charters becomes operative, will put this rapidly growing bank in the most favorable position not only for firm adherence to its policy of real helpfulness to Plymouth—but for broadening that service along the most comprehensive lines. Then the full benefits of membership in the Federal Reserve System, with its strict supervision and safeguards, will be available to this community.

There is a real appreciation of the trust and confidence of the people of this community, which have been responsible for the growth of this bank in a trifle more than two years when deposits alone exceed the \$550,000.00 mark. Our change in name will mark no change in our earnest desire always to show that personal interest in our customers, which shall make their affiliation with this bank a most beneficial one to them.

Becoming a member of the Federal Reserve System, with the many advantages it will permit us to present to our customers and other friends of Plymouth, has been chosen as a means of showing that in this institution Plymouth has a bank that keeps step with the needs of the community—and in addition has the vision, the resources and the courage to look ahead and plan ahead, so that the needs of the future are anticipated.

How The Federal Reserve System Benefits BUSINESS INDUSTRY, the FARMERS and the PUBLIC as a WHOLE

In the Federal Reserve System of the United States are the results of the greatest and most beneficial piece of financial legislation enacted by any nation. For thirteen years—or since 1913—the Federal Reserve Act has been a law. Today, wherever banking is known, the term “National Bank” stands as a synonym for strength, stability, efficiency and helpfulness. Gone is the fear of financial panics,—the unrest of years before the Act was passed has been banished for all time.

Linked into the great Federal Reserve System are banks all over the country, whose resources amount to about two-thirds of the total resources of all banks. Thus there is gathered into one organization a tremendous strength of capital and reserve—which has a bearing upon the progress of every community.

Through the Federal Reserve System National banks are enabled to meet the varying requirements of commercial and agricultural enterprises without delay, and to guard against panics.

Members of the Federal Reserve share in the rediscounting privilege, by which the resources of this nation-wide system, embracing the strongest banks in the country, can be drawn upon whenever increasing business or emergencies demand more money than is available locally. This does not mean that reckless lending will be countenanced—but it does mean that credit can be maintained and expansions financed, when they are along firmly grounded lines.

Involved in the securing of a National charter are strict requirements along the lines of examination, capital, officers and other factors. To have passed all these is a cause of gratification for the officers, the staff, the directors and stockholders of the Peoples State Bank.

Safety is a prize requirement which is tested from every angle—including that of Management. Before a National charter is issued the Federal Reserve Board must be convinced that the institution is strong in capital and knowledge of officers, and that it is equipped to safeguard the funds of the community which may be entrusted to it.

The First National Bank of Plymouth will continue along the lines laid down for the Peoples State Bank when this Bank started in business, with the added advantages and benefits which come from this new affiliation with the Federal Reserve.

To those who now are customers, we renew our pledge of helpful service, marked with that strength of resources, keen interest and ability to advise which together enable us to assist individuals and businesses to greater success.

New customers will be new friends—each offering a new opportunity to the staff and officers of this institution to give service which shall help them on toward the goal of financial independence.

HOW WE DO WIRING

When we are given the con-
tract to do electric wiring we are
on the job at the time when
the work should be done to ob-
tain the best results. That time
is when the frame work is up;
when we can place our tubing,
boxes for connections and lat-
erals and run our wires to the
best advantage and with absolute
care. Let us do your wiring if
you want it done right.

GARCHOW-BENNETT

Miss Eva L. Bennett of Plymouth, eldest daughter of Mr. and Mrs. Arthur Bennett, and Roy Garchow of Livonia, were married last week Thursday afternoon, June 17th, at the German Lutheran parsonage at Wayne, by Rev. Peters. They were attended by Miss Mildred Bennett, sister of the bride, and Thomas Garchow, brother of the groom.

The bride was prettily gowned in yellow beaded georgette, and carried a shower bouquet of pink roses. The bridesmaid was dressed in pink georgette, carrying a bouquet of pink and white peonies.

The home of the bride's grandmother, Mrs. Louisa Bennett, was tastily decorated in pink and white peonies, where, after the ceremony, the bride and groom were greeted by the immediate families and friends, who were served a wedding supper, the menu being carried out in pink and white. The bride and groom left for a week-end trip to the upper part of the state.

BRACKENBURY-LANCASTER

A pretty wedding was solemnized at the Methodist parsonage, Saturday, at two o'clock, when Miss Lillian Lancaster of this place, became the bride of James A. Brackenburg. The ceremony was performed by Dr. F. A. Lendrum, and the couple was attended by Miss Beryl Brackenburg of Ypsilanti, sister of the groom, and Russell Emery of Plymouth. The bride was becomingly attired in pink georgette, and carried a bouquet of white rosebuds and maiden-hair fern. Miss Brackenburg wore a peach cordon crepe, and carried a bouquet of pink and white carnations and roses. Mr. Brackenburg is a much respected young man, employed by the Corbett Electric Company, and he and Mrs. Brackenburg will make their home in the residence formerly owned by James Honey in Phoenix Park.

FEGAN-YUCHAS

At 9:00 o'clock Saturday morning, June 19th, Miss Sadie Yuchas and Edward Fegan were united in marriage in Our Lady of Good Counsel church. Rev. Frank C. Lefevre officiated.

The bride was lovely in a gown of white georgette, studded with brilliants. A wreath of orange blossoms about her head offset her veil, which was carried by the bride's little sister, Miss Mary Yuchas, the bride's sister, was bridesmaid. She was gowned in pink georgette, and carried a bouquet similar to the bride's. Matthew Yuchas, brother of the bride, assisted Mr. Fegan.

Mrs. Fegan is the daughter of Mr. and Mrs. August Yuchas of Plymouth. Mr. Fegan is the son of Mr. and Mrs. John Fegan of Detroit. They will reside in Detroit.

HAS TAKEN OVER SERVICE DEPARTMENT

Floyd W. Hillman has taken over the service and repair department of his garage at the corner of South Main street and Maple avenue, and will conduct the same in the future, along with the sale of Paige and Jewett cars for which he has the agency.

Mr. Hillman has been very fortunate in securing the services of Robert E. Clark, an expert of twenty years experience in the motor vehicle industry. Mr. Clark, who resides at Wayne at present, will soon move his family here. He was employed for seven years as assistant to chief inspector at the Continental Motor plant; one and one-half years in the engineering and research department of the Paige plant; and for some time in the consulting engineering department of the T. N. T. Engineering Co. of Newark, N. J. For the past year he has been in the Paige Sales and Service at Detroit.

Mr. Hillman will not only do service work for the Paige and Jewett cars, but repair and service work on all makes of cars will be given careful attention at all times, and the work will be guaranteed first-class in every respect.

FORD MOTOR CO. CUTS PRICES ON ALL MODELS

Reductions on all models, ranging from \$40 to \$50, were announced last Saturday by the Ford Motor Co. Starter and balloon tires will be included in the standard equipment on all T models. The truck chassis will be equipped with starter and front balloon tires.

Walk-Over Relief and Princess Pat STYLE SHOES IN COMFORT SHAPES

Shoes of gay, girlish style with sedate and sober comfort

FEET know no age or rule of style. Your feet grew as you grew—into the fullness of maturity. Yet you want the style usually built into shoes for girls.

Now you may have that youthful style, with comfort. These two shoes are styled the same as Walk-Over shoes for girls. Yet these two shoes are different. They are made on special lasts to fit the older foot.

Princess Pat is made comfortable by a combination of wide tread, narrow heel, snug arch and straight inside line. Relief, a companion shoe, is extra-wide across the tread, narrower-than-usual in the heel. Here at the Walk-Over store is the gay, girlish style you want, with a magic comfort that Walk-Over builds into style shoes with special shapes to fit the older foot.

OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Plymouth, Mich., June 7, 1926.

A regular meeting of the Commission, held in the Commission room of the Village Hall, Monday evening, June 7th, at 7:00 p. m.

President pro-tem Fisher in the chair.

Present—Commissioners Fisher, Henderson, Hordorp and Pierce.

Absent—President Robinson.

The minutes of the regular meeting of May 17th, and the adjourned regular meeting of May 24th were approved as read.

Several bids have been received for sidewalk work, and that of Black & Sessions being the lowest, the Commission directed that such sidewalk work as the Village had should be let to this firm for eighteen cents (18c) per square foot for five-inch walks and twenty-two cents (22c) per square foot for seven-inch crosswalks.

The Commission then by motion authorized the payment to Blum & Dickinson of eighty per cent of their bill for six-inch lateral connections to the sanitary sewer on Mill street, and also the payment to Black & Sessions of eighty per cent of their costs for labor in laying water main on Arthur street and on the Plymouth-Northville road.

The Village Assessor then reported that the County Treasurer had returned the amount of fifty-six and 51-100 (\$56.51) dollars delinquent taxes to be reassessed at large. The Commission authorized this amount to be reassessed at large and also directed the Assessor to spread upon the roll such delinquent general and special assessment taxes as should be reported to him by the treasurer.

The police report for the month of May was then received and on motion ordered filed.

The following preamble and resolutions were offered by Commissioner Henderson who moved their adoption, seconded by Commissioner Hordorp:

WHEREAS, this Commission on February 19, 1926, declared that the purchase of property for the opening of Gravel avenue from its present eastern end through to Main street and the grading of this street to be an expedient and necessary public improvement.

AND WHEREAS, the agreed purchase price of fifteen thousand (\$15,000) dollars, together with five hundred (\$500) dollars for the grading, was accepted by this Commission as the estimate of the probable cost of this improvement.

AND WHEREAS, this Commission has rescinded its previous action concerning the assessment for the cost of this improvement.

BE IT RESOLVED, that not to exceed 25% of the 1925 assessed valuation be levied against the several parcels of land included in the special assessment district and the rest of this cost be raised by general tax.

AND BE IT FURTHER RESOLVED, that the following area be, and it hereby is designated as a special assessment district for this purpose.

All those lots or parcels of land abutting on each side of Gravel avenue between Main street and Harvey street and also that lot abutting on Main street south of and adjacent to the lot at the southwesterly corner of Main street and Gravel avenue abutting on Gravel avenue.

BE IT FURTHER RESOLVED, that the assessor shall prepare an assessment roll assessing property included in said assessment district, according to the benefits accruing to said property from such street.

That upon such assessment roll being prepared, proceedings for the review thereof be taken as required by the Village Charter, and upon same being reviewed in accordance with such Charter said roll shall be reported back to the Commission for confirmation.

Carried.

The High Cost Of Excess Weight

Excess weight in motor trucks is expensive. It increases the purchase price and it costs as much to carry as an equal weight of pay load. Its cost is even greater, because it must be carried all the time.

Graham Brothers trucks have a larger proportion of pay load to chassis weight than is usually available in their respective capacities. Careful buyers are giving this due recognition, as their marked preference for Graham Brothers trucks indicates.

Built by the largest exclusive truck makers in the world—powered by Dodge Brothers dependable engine—these trucks are capable of an exceptional amount of profitable work over a long period of life.

Are you driving a second choice CAR?

Leadership today belongs to Buick because so many people make it their first choice among all motor cars.

They have discovered that other cars, priced the same as Buick, are not even close to Buick in value.

Volume production enables Buick to give you a lot better car for a very moderate price.

Do not be misled into driving a second-choice car. Compare the new car offered you to Buick, before you let go of your money!

AS MONTHS AND MILES ROLL BY YOU'RE GLAD YOU DRIVE AN OLDSMOBILE

There is special significance in the fact that the preference for Oldsmobile, which has risen month by month, now mounts by leaps and bounds. It reveals an insistent demand for certain qualities in a car that fit it eminently for the open road:

Dependability... unwavering performance mile after mile, day in and day out.
Comfort... relaxation, pure enjoyment of every trip.
And handling ease!

The utter reliability of Oldsmobile, the undimmed spirit of its performance throughout the steadiest grind, the restful comfort in which you ride, impress you more and more with its superiority. And as months and miles roll by, you're glad you drive an Oldsmobile.

Today's Reflections

A man never generates more enthusiasm than when he is trying to sell something he has no use for.

The Plymouth man who never washes his car and can't afford to carry a spare tire always seems to get the most out of motoring.

What every newspaper man knows is that one who declines to be interviewed practically never is worth interviewing.

When a fellow has nothing else to spend at this season of the year, he can spend his vacation at home.

Any Plymouth man who goes hunting for temptation can always find it willing to meet him more than half way.

Looking at pictures of the 1926 bathing suits we're willing to admit that beauty is only skin deep.

A preacher who is paid for preaching doesn't do it all the time, but in every community are men and women who are not paid for it who are preaching all the time.

Before a man buys a horse he inquires as to its disposition. But he isn't so particular when he's picking out a wife.

The average Plymouth man can't afford to spend a long vacation at the seashore—and neither can a lot of those who do.

The June bride will have just as much cooking and other housework to do as any other kind of bride, but a lot of them haven't found it out yet.

It isn't what her daughter knows that worries a mother as much as it is where she learned it.

When a barber talks all the time it's apt to be a sign that his razor is as dull as his conversation.

A lot of people are now figuring on going to heaven. Let's fix up Plymouth so the shock when they get there won't be too much for them.

Wonder why they don't refer to a newspaper as "she" because it is made up.

Women used to wear such tight skirts they couldn't cross their legs. Now they wear such short ones they don't dare to.

Where is the average Plymouth man who expected to see the day when people turned up their noses at dried apples and salt pork?

Dad Plymouth says the value of a setting hen depends largely on whether or not she can be moved to a new location without disturbing production.

THE THEATRE

"THAT'S MY BABY"

Douglas MacLean will be seen at the Penniman Allen theatre, Saturday, June 26th, in the role of chief merry-maker as the hero of a brand new Paramount farce-comedy with the popular title of "That's My Baby."

Picturegoers who love to exercise their subtle muscles will have plenty of opportunity to do so while watching MacLean trying to woo a girl though handicapped with a strange baby, who persists in calling him "Daddy."

Speed is the keynote of "That's My Baby." There isn't a dull moment in the entire production; in fact, the complications pile up so thick and fast that the laughs come in bunches. Besides the baby, who sticks to him like glue despite all his heroic and screamingly funny efforts to get rid of it, MacLean has many other trials to contend with. As luck would have it, the girl's father is an old business rival of his. In trying to win him over, MacLean only succeeds in antagonizing him all the more.

The fun reaches a high pitch of hilarity when MacLean presents the old man with a headache powder which proves to be a poison! The life-and-death chase that follows brings the picture to hysterical climax that mingles laughs and thrills at a rate of speed guaranteed to leave the audience breathless.

William Beaudine directed "That's My Baby" from the scenario by Joseph Franklin Poland. The story is an original, especially created for MacLean by George J. Cronie and Wade Boteler. Margaret Morris has the principal feminine role.

"THE NEW KLONDIKE"

FLORIDA—with its bathing girls and auction sales has made its screen debut and been brought to you via the silver screen. It's all in Tom Meighan's latest Paramount picture, "The New Klondike," which comes to the Penniman Allen theatre, Sunday and Monday, June 27 and 28.

From what one is able to gather, this modern southern state would seem to be in quite a flurry of excitement. People sident on the sidewalks and fight on the identical pavements—all in the search and hunt for gold. It is a repetition of the "old Klondike" in a new setting, with brains being used instead of bullets.

The star is seen as Tom Kelly, a base ball pitcher who is bound for Florida and the training camp. On the way, he meets Lila Lee who is going to visit her grandmother, and get rid of some property.

Arrived at camp, Tom is surprised to find that Cooley, his manager, has had him discharged. There is only one reason. Cooley is jealous of Tom's superior knowledge of base ball, and because of his being so close to Colonel Dwyer, the team's owner.

Dependent, and not knowing what to do, Tom accidentally becomes involved in a real estate deal. Soon he has made more money than he thought existed in the whole world. He drives up to the ball field and orders the team off by flashing a deed which shows him to be the rightful owner.

The men are jealous and induce Tom to admit them as partners. He agrees to do this and soon has them all on the road to wealth. As a result, the team forgets about hits and bunts, and thinks in terms of leases and sales. Then Tom is let in on a false deal, and just as the money has come in—now it all disappears. He is broke—with only a piece of worthless swamp land for his pain and effort.

What happens then, and how he succeeds in pulling through, go to make up the remainder of an interesting picture. Ring Lardner wrote the tale, which is full of Lardner's characteristic touches. It is Lewis Milestone's first film for Paramount. Tom Geraghty prepared the scenario.

"THE AMERICAN VENUS"

Paramount's magnificent screen entertainment, "The American Venus," which immortalizes the charms of America's most beautiful girls, is something more than a de luxe motion picture. It comes to the Penniman Allen theatre, Wednesday, June 30th.

It is an eye-dazzling spectacle, a gorgeous extravaganza, a glorified and glorifying film masterpiece, in which lavish and amazing scenic effects, luxurious settings and rich and wonderful costumes are used to cover the bright and lively plot with a harmony of color, grace, beauty and novelty.

The story, by Townsend Merrin, built around a nation-wide search for the loveliest, shapeliest and most graceful girl in America, is chock-full of comedy, romance, melodrama and thrills. Bonned up with the beauty quest is a refreshing love story between one of the contestants and an enterprising young publicity man.

Never before has so much youth and beauty and talent been assembled in a screen production. The featured roles are brilliantly handled by Esther Ralston, Lawrence Gray, Ford Sterling and Fay Lanphier, who was crowned "Miss America" at the 1925 bathing beauty contest at Atlantic City. And the supporting cast includes Ernest Torrence, Douglas Fairbanks, Jr., many noted stage celebrities, seven of the leading entries in the Atlantic City beauty pa-

geant and twenty of the loveliest mannequins in the country.

Under the deft and intelligent direction of Frank Tuttle, the picture maintains a delicate balance between its purely visual features, such as the elaborate fashion show and the artistic tableaux, which were filmed in color, and its heart-appealing action.

**DEHOCO FARM VS. 7TH PRECINCT
D. P. DEPT.**

The 7th precinct Police Department base ball team of Detroit, after beating the Dehoco Club last year, and this season has a 19 to 4 victory over the Firemen, who earlier in the season annihilated the Dehoco Club, came out here last Saturday so chuck full of confidence that they were going to pick our boys in the ragged raucer class, and were willing to wager their uniforms and equipment over the results, went back to their boats disappointed. One or two good lickings and a heart to heart talk to the boys by the manager has convinced them that they can play ball, and the game they put up that day was worth lots to see. Only one inning did they have us down, that was the first, when they scored twice on two singles and a triple. Our boys scored one in the first on a base on balls and two hits, and in the second came back with two on one hit, one base on balls and one error. After that they were not headed. Rowland pitched a good game, striking out eight men, allowing but seven hits and two bases on balls. He was well supported, only two errors being made by the boys—one by Hunter, a passed ball and a low throw by Martin.

DEHOCO CLUB VS. GRAHAM BROS.

The Graham Bros. of Detroit can be depended upon to put a good ball team in the field at any time. They trimmed the Dehoco Club June 3, by a score of 4 to 2. And Sunday gave the boys a fight that was worth seeing. The score of 4 to 1 in favor of the Dehoco Club Sunday, shows that both games had been battles right up to the last. Constan pitched a good game, allowing them but four hits, while the Dehoco Club gathered seven off Murdock. In the second, on one hit, a sacrifice, and a fielder's choice, the Graham's sent Murdock over the plate for their first and last run. The Farm boys in their half of the second frame on two hits, a sacrifice and a fielder's choice, scored two. This was enough to win, but the Farm boys scored one circuit in each of the fifth and eighth innings. The game ended 4 to 1 in favor of the Dehoco Club.

A LETTER FROM MAYOR ROBINSON.

Denver Colorado, June 18, 26.
L. B. Samsen,
Plymouth, Mich.
Dear Friend:
We are having a fine time, weather perfect and everyone well.
J. T. Hilton and wife and Mrs. Don Hilton called on us this morning. They live here, moved from Plymouth about 20 years ago. William Van Vleet came up from Trinidad this morning at 9:00 o'clock and took me in tow. Saw race track and his stable of horses, which are very fine and lots of speed. This afternoon we go to see races and exhibition of saddle horses, ladies, gentlemen and children taking part.
Yesterday went up on Lookout Mountain, saw Col. Cody's grave and some wonderful scenery. The day before saw city of Boulder and a typical mining town, Nederland, 8327 feet high. There was a dam there 185 feet high, and when the water reached the place where it was to be used, had a pressure of 800 pounds to square inch. It would supply Plymouth in a dry season. I guess this will do for this time.
Yours,
Harry C. Robinson.

The following business houses of Plymouth believe their employes are entitled to a half holiday commencing **JUNE 30th** and continuing during the months of

JULY and AUGUST

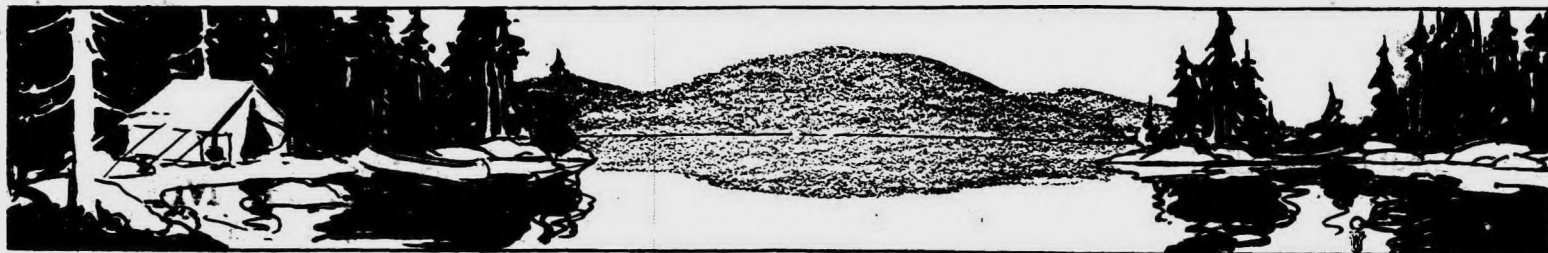

WILL CLOSE ON EVERY

Wednesday, at 12:00 O'clock Noon

We sincerely ask the co-operation of our patrons in this movement of closing our stores for a half holiday each week. We know you will appreciate the better service our employes will render because of the consideration shown them, and by remembering our closing time and making whatever adjustments may be necessary in your purchases, we are sure the arrangement will work to our mutual advantage.

We as sincerely ask that inasmuch as all business places are not co-operating in this movement with the exception of some lines, which must necessarily remain open, that consideration of this fact be made. The movement has been started entirely as of benefit to the entire community, and your co-operation and understanding are necessary for its success.

REALTORS ASK NEW TREASURY REGULATIONS ON INCOME TAX LAW; CALL FOR CLARIFICATION ON DEFERRED-PAYMENT SALES OF HOMES.

Request that the Treasury Department incorporate in the regulations to be promulgated for the administration of the Federal income tax law, the fullest possible provision for the sale of real estate on a deferred payment basis and necessary specific provisions to cover syndicate agreements in real estate development was made by the National Association of Real Estate Boards in resolutions passed at its annual convention just concluded at Tulsa, Oklahoma.

The Association asks that if necessary the Federal income tax law be so amended by Congress as to permit a regulation in regard to syndicate agreements for real estate development and pledges itself to use every effort to co-operate with the Treasury Department and with Congress to secure additional legislation which shall properly safeguard and protect the important part of the real estate business of the country which is carried on through a deferred payment plan.

"The sale of real estate on a deferred payment basis is a well recognized and sound plan, and the only one by which a majority of the people may purchase homes" the resolution points out.

The Federal income tax law and the regulations under it have not adequately provided for the return for taxation of deferred payment sales of real property when such sales are not on an installment basis, the Association holds.

In regard to the syndicate form of existing capital for real estate investment, the Association asks that the provisions be so fixed as to meet the actualities of business practice. In the nature of the organization of syndicate undertakings it is impossible to determine whether or not there is to be any profit accruing until such time as the original capital paid in shall have been returned to the participants in the enterprise. The Association asks that the taxpayer be permitted to make return in such cases on the basis that no taxable gain shall have accrued until the initial outlay has been recaptured.

The association heartily endorsed the Uniform Mortgage Act in its tentative form as drafted by a committee of the National Conference of Commissioners on Uniform State Laws, and urged its official endorsement in its present form by the National Conference and by the American Bar Association.

Expressing its sympathy with the movement to give the farmer, on a sound economic basis, a reward for his

energy comparable to his effort, and on a parity with the price he has to pay for the products which he consumes, and expressing the opinion of the members of the Association that the agricultural possibilities of the United States have been only partially developed, the Association called for support for any effort to make a more extensive and intensive use of our land resources and to promote a desire on the part of American citizens to follow agricultural pursuits.

Calling attention to the remarkable work of the United States Department of Commerce toward the elimination of waste in all forms of industry, particularly the successful efforts of the Department in the field of building construction, the Association pledged its co-operation in future work toward similar objectives.

Further resolutions approve an immediate development of inland waterways throughout the United States where such waterways are of real commercial value, affirming that the giving of Federal aid for waterways construction affords at this time the greatest opportunity to promote the physical welfare of the country.

COUNTY SETS NEW MARK IN MORTGAGES

Demand for mortgage money in Wayne County during May was the greatest of any month since the first of 1926, and established a new high mark for any May in the history of Detroit, according to A. J. Maynard, vice-president of the American State Bank of Detroit.

"A total of 3,740 mortgages were recorded during the month, involving loans aggregating \$18,942,000," said Mr. Maynard. "This compares with 3,386 mortgages recorded in April, this year, for \$18,038,000 and 3,813 mortgages in May, 1925, for \$18,206,000. These figures are without consideration of trust mortgages, for which there has been a strong demand since the first of the year.

"Based upon figures for the first five months of the year, mortgage loans for the first half of 1926 will total approximately \$100,000,000. A total of 15,792 mortgages were recorded during the last five months, involving loans amounting to \$81,578,000. This compares with 15,762 mortgages recorded during the same period of 1925, with loans aggregating \$84,210,000.

"The slight decrease in money lent since the first of the year, as compared with 1925 is accounted for by the unfavorable construction weather, which has prevailed and which has retarded building activities to some extent, and

by the growing popularity of trust mortgages as the financing medium for the larger building projects.

"The supply of mortgage money here continues ample to meet the demand, a fact which promises a continuation of record construction activities."—De-News.

AMERICA'S FIRST EUROPEAN-TYPE LIGHT CAR

Whippet Brakes,
Four-Wheel Type

The brake equipment of the Overland Whippet, the new European type light car which will be shown by Sturgis Motor Sales, shows many features of design which have hitherto been associated only with the braking equipment of the higher priced cars.

The size of the brake drums is sufficient to attract attention. These drums are 11 inches in diameter, much larger than those used on any other car of anywhere near equivalent size and larger than the brake equipment on many light sizes.

One of the reasons for the use of such large drums is found in the speed capacity of the car which will travel 58 miles an hour with apparent ease. This rate of speed demands efficient brakes in cases of emergency.

Another reason is found in the quick acceleration power of the car which will step up to 30 miles an hour from a speed of 5 miles an hour in about 13 seconds.

Braking tests have shown an ability to stop the car in twice its own length, from a driving speed of 25 miles an hour.

The four-wheel brakes are mechanically operated and are of the type which has been adopted by better than 90% of all European makes of automobiles. This particular type of mechanical brake has been approved by engineers as offering a greater safety than any other type which can be used.

Engineers claim for the brakes on the Whippet that they grow better and more serviceable with use, a condition almost directly contrary to the case with other types of brakes and one which means a great deal to the feeling of security afforded the driver.

Whippet Shows Unusual Room

A remarkable feature about the Overland Whippet, the new European type light car which is now being built in large volume by Willys-Overland, Inc., is the amount of room in the body.

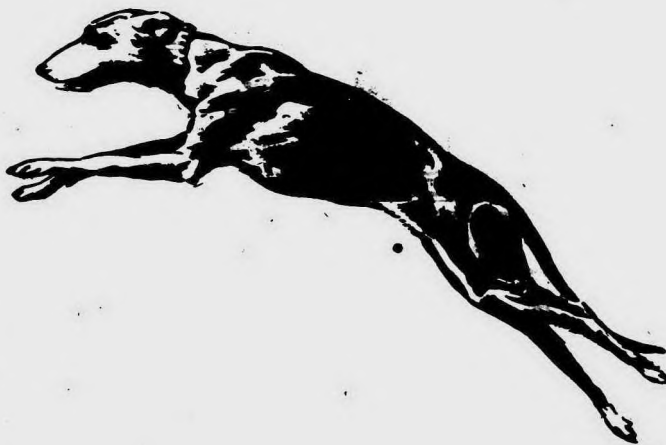

First glance at the sedan body type would not leave the feeling that there was as much room in this car as is found when you step into it.

The head room is the equivalent of that of any one of our regulation light sizes, the leg room in the rear compartment is 4 inches longer than that in the average light car and the room between the driver's seat and the control pedals in the front compartment is great enough to permit a six-foot man to drive with perfect comfort, yet it is not too long for comfort for persons of average, or below average height.

The seats are the regulation width for a five-passenger sedan body, and the tilting of the seats and the height of the back cushions give real ease to the occupants.

The streamline body effect has allowed the designers to develop ample room for all kinds of passengers and to afford comfortable space for the carrying of a few bags or packages as well without crowding. This is a distinct achievement in the economical use of space in a light car.

WORLD'S ONLY FIVE RING CIRCUS COMING

RUMOR NOW CONFIRMED. BIGGEST CIRCUS, RINGLING BROS. AND BARNUM & BAILEY HEAD-ED THIS WAY.

Yoo-hoo! Skinny! Lookit, lookit! World's first and only five-ring circus coming this way! A hundred double-length railroad cars loaded with the ten thousand wonders of the Ringling Brothers and Barnum & Bailey Combined Shows that will give performances at Detroit, July 9th and 10th.

Never has there been more than three rings in the past. Now the famous brother showmen have fixed it so folks at the ends of the tent can see just as much as those who sit near the middle. Imagine five big circus rings in a row with stages set in between. That means that five companies of performing horses, twenty-four in a group, are presented at one time. The same is true of the elephant actors—five

herds all performing stunts at one time.

Big acts are the rule in the great new circus of 1926. Aside from the five troupes of liberty horses, two hundred others, each ridden by an expert in costume execute drills and splendid maneuvers on the mammoth hippodrome track. Thirty additional ones are of the high-school type, while a score of superb thoroughbreds leap hurdles and barriers of record height. The number of trained horses alone carried for this season's program reaches the astounding total of three hundred and fifty.

The equines but share honors in the twenty-two displays. In addition to them are the eight hundred aerialists, bareback champions, gymnasts and high-wire artists. These embrace the world's foremost men and women stars, including a host of recently imported foreign features. Some of these number families of nine, eleven and fifteen in an act. A hundred of the world's funniest clowns enliven the more than two hours of circus program. The tournament is the most dazzling yet devised. The menagerie has been increased to more than a thousand rare animals. The tent which houses them

is almost as large as the big-top of other seasons. The 1926 main tent seats over 15,000 people.
