B. U. R. DISCONTINUES FREIGHT RAIL SERVICE

A TRUCK SERVICE HAS BEEN SUBSTITUTED BY RAILWAY COMPANY, WITH DAILY DOOR DELIVERY.

In accordance with an order of the District Court of the United States for eastern Michigan, rail service over that portion of the D. U. R. line extending from Wayne to Farmington via Plymouth and Northville and Farmington to Orchard Lake was discontinued at midnight last week Thursday.

Commencing last Friday less than carload freight service from Detroit will be taken over by the trucks of the Detroit United Railway Trucking Company, serving Redford, Farmington, Northville, Plymouth and intermediate points daily, except Sunday and holidays. Trucks will leave D. U. R. freight depot at Detroit at 7:00 a. m., arriving at Plymouth at 9:00 a. m.

General Traffic Manager Rodgers states that it is the intention to preserve the present scale of rates from Detroit, Toledo and other Michigan points, with the addition of a nominal sum for sidewalk delivery and pick up at Redford, Farmington, Northville and Plymouth.

NEIGHBORHOOD NEWS NOTES

Wayne is to be given free mail service starting within the next two months, according to a statement made recently by Postmaster J. B. Murphy.

Farmington now has an archery club which has purchased about three acres of land at Fourth Gate and Nine Mile roads for a shooting range.

Over four hundred Chinilla rabbits, many imported from South America, Australia, New Zealand, Belgium, France and England are housed on the new rabbit ranch north of Howell.

Oakland county fair opens August 17 at Milford. A large addition to the grand stand has been completed, city water mains are being extended to the grounds and preparations are being pushed for the annual fair.

Theodore Wood, who would have been 84 years old if life had existed four days longer, the son of Detroit's first brick manufacturer, died at the home of his son in Northville early last Thursday morning after an illness of several weeks.

J. W. Lathrop, who possesses more real estate holdings in Western Wayne and Oakland counties than probably any other individual, has announced that he will spend over \$200,000 on a recreation park in Novi township, about three miles north of Northville.

Because of the tremendous size of the new Pontiac plant of the Oakland Motor Car Company and because of the desire to spare the hundreds of visitors and dealers who daily wish to go through it the necessity of walking miles to follow all the manufacturing processes, a "sight-seeing" bus service has been placed in operation.

The Wayne county road commission has at last started to take the kink out of the Seven Mile road about two miles east of town. The fill is being made at present, and it will not be many weeks before the turn that was built especially for the purpose of wrecking automobiles will be a fairly straight road.—Northville Record.

As an example of the remarkable service that is now being offered by the air mail service, the Northville Chemical company a few days ago received a letter just 50 hours after it had been mailed in San Francisco, a trifle over two days and nights. The actual flying time from San Francisco to Detroit by air pilots is but 27 hours, the remainder of the time being required for handling of the letter in the postoffices and between Northville and Detroit.—Northville Record.

The commodious new T. B. hospital which the county has been building in Waterford township, was opened last Friday for public inspection, and was visited by a large number. Another public inspection was held Wednesday. The hospital, built at a cost of \$500,000, is said to be one of the most complete and modern of its kind in the United States. It has a 300-bed capacity, which can be increased if needed. The business manager of the new institution is Floyd E. Babcock.—Milford Times.

KIWANIS CLUB HEARS INTERESTING TALK

GEORGE H. FONG, OF DETROIT, SPOKE ON NATIONALISTS MOVEMENT IN CHINA.

Kiwanis members were treated to one of the most informative addresses of the year last Tuesday, when George H. Fong, of Detroit, spoke on the Nationalist movement in China.

Mr. Fong is an accomplished speaker, with a perfect flow of English, and for nearly an hour he depicted the tremendous difficulties that beset the Chinese in their efforts to establish a modern form of government.

He covered in detail the concession treaties that exist between China and many of the major powers other than the United States, and portrayed a sad state of affairs resulting from these concessions.

One point that he brought into high relief was the governmental perplexities in dealing with criminals that seek asylum within the foreign concessions. He stated that Chinese officials could not pursue a criminal within the bounds of the concessions regardless of where the crime had been committed. Neither could they punish a subject of a foreign country even for a major offense until they had secured the permission of the foreign consul.

Mr. Fong stated that the only hope of China lay within the Nationalist or Young China party. The councils of the party are dominated largely, he stated, by young Chinese who had been educated in the United States, and although they were tremendously handicapped by the concession evils, were gradually bringing order in his country.

Mr. Fong paid a splendid tribute to the United States when he stated that his countrymen looked to her as the one great unselfish nation, sufficiently disinterested from a mercenary standpoint, to lead the way out of their perplexities.

Mr. Fong invited his hearers to ask any questions regarding China, that came to their minds, and his answers indicated a versatility and knowledge of his subject that aroused the admiration of all.

The program was in charge of Roy Crowe and Alton J. Richwine. Among the guests present, was J. S. Devlin of the Detroit News, who accompanied Mr. Fong to Plymouth.

FORMER RESIDENT DIES AT NORTHVILLE

Thomas J. Thompson, former well known and highly respected resident of this township, died at his home in Northville on July 18, 1927, after a long illness. He was born at Wolviston, Durham Co., England, on March 14, 1847, the youngest son of John and Isabella Thompson.

At the age of twenty-two, he immigrated to Canada, three years later going to New York state. In 1882, he was united in marriage to Laura Sheber of Rochester, N. Y., and located near Flint, Michigan. The following year they moved to Ypsilanti, and five years later, to the farm west of Plymouth where they resided for more than twenty years.

The deceased had been a resident of Northville for the past sixteen years, more than ten of which he had been a partial or total invalid. Although a great sufferer, he bore his afflictions with great patience and fortitude, passing on to his eternal rest, blessed throughout his distress with the kind ministrations of a devoted wife and family. At an early age he united with the Christian church, and throughout his life upheld its principles by honest, upright living.

Funeral services were held Wednesday, July 20th, at 2:30 o'clock, at the M. E. church, Rev. Wm. Richards officiating. Interment in Riverside cemetery.

He leaves besides his wife and nine children, a host of friends to mourn their loss.

ROTARY CLUB HEARS DR. B. F. FARBER

The members of the Plymouth Rotary Club and a number of guests had the pleasure of hearing Dr. B. F. Farber of the Fourth Presbyterian church of New York City, at last Friday's luncheon hour. Dr. Farber's talk was on New York City, and his description of the great metropolis gave his hearers an entirely new viewpoint of life in New York City. His talk was very interesting and also very enlightening to the members of the club. Dr. Farber is always a welcome visitor and speaker at the local Rotary club meetings.

FORMER PLYMOUTH BOY IS HEALTH CHAMPION

Plymouth friends were pleased to learn that Kenneth Rucker, son of Mr. and Mrs. Amel Rucker of Wixom, and formerly of Plymouth township, had been chosen as the healthiest boy in southern Michigan at the State Fair meeting held recently.

Kenneth, who lives with his parents on a fruit and sheep farm near Wixom, was chosen from among thousands of boys from all over the lower peninsula, and will meet the health champion of the upper peninsula next fall, in competition for choice as "Michigan's healthiest."

Kenneth and Helen Norber, Oceana County, were pronounced perfect specimens at the meeting of "4-H Clubs" of the state. Kenneth is a senior at Milford High school, and is a leader in school athletics, and has won letters in baseball and foot ball. He has won two scholarships for M. S. C., as well as honors in sheep raising.

Kenneth is five feet, six and a half inches, and weighs 130 pounds.

500 AUTOS WERE TESTED HERE

AUTOMOBILE CLUB AND LOCAL POLICE JOIN FORCES IN MAKING TEST.

The brake test held under the auspices of the Detroit Automobile Club, assisted by the local police department, was held here Monday and Tuesday. H. O. Ronnads, director of the safety and traffic department of the Detroit Automobile Club, and also Miles Bristol of that department, were here Monday morning to see that the test got away properly.

Approximately 500 passenger and commercial cars were tested, the results showing that 24 per cent of the passenger cars were found to have faulty brakes while 21 per cent of the commercial cars were in the same condition. It was also found that a good percentage of the cars tested had only one head light, and a number where the tail light was not working.

The following local garages cooperated in the test by having a mechanic on the job to assist with the work: E. J. Allison, Strigis Motor Sales, Plymouth Motor Sales Co.

Raymond Bachelder, manager of the Plymouth Branch of the Detroit Automobile Club, is very much pleased with the results of the test just made here.

GREEN CHAPPEL

On Saturday evening, July 22nd, Mrs. Zada H. Chappel and Willard H. Geer were quietly married at the First Presbyterian church, Plymouth, Rev. Walter Nichol officiating. They were attended by Mr. and Mrs. Forest B. Smith. Both bride and groom are well known in this community, and a host of friends join in good wishes for them.

SIDNEY D. STRONG OPENS OFFICE HERE

Sidney D. Strong, registered civil engineer, has opened an office in the Pennington Allen building, and is prepared to do surveying and engineering work for those who desire his services. Mr. Strong is an associate member of the American Society of Civil Engineers, and has had a number of years of experience in this line of work, and is well qualified in his profession. Mr. Strong's many Plymouth friends wish him an abundance of success in his new work.

COUNTRY LIFE WEEK OPENING AT M. S. C.

MICHIGAN PLAYS HOST TO WORLD'S BIGGEST GATHERING OF RURAL ASSOCIATIONS.

A score of special associations and groups interested in rural life and its problems began gathering on the Michigan State College campus this week for the Country Life Week, July 27 to August 6.

That the various meetings will make up the largest and most representative gathering of its kind ever held is the opinion of country life authorities who have studied the advance program. Practically every group which is at all active in a study of country life problems will be represented.

An international touch will be given the conference by the presence of many delegates from European countries, attending the meetings of the International Country Life Association. These distinguished visitors will take part in the discussion at many of the other group meetings.

A conference of college students interested in rural life will bring delegates from sixteen different colleges and universities in one of the interesting new groups. Master Farmers from mid-western states will make up another new section, bringing intensely practical farm viewpoints to the general discussion.

The American Country Life Association, the American Farm Economics Association, the World Agricultural Society, the Michigan Farm Woman's Institute, a citizenship conference, a national Catholic Rural Life conference, and many other important sessions are included in the program.

Michigan farmers and their families have been given a special invitation to attend the various Country Life meetings. Copies of the detailed program are being mailed out from the office of President Kenyon L. Butterfield, of M. S. C., general chairman for the conference.

Dr. LeRoy Brown of St. Paul, Minn., and Mr. and Mrs. Frank King and son, Donald of Ypsilanti, were dinner guests at Robert Gibson's of South Center street, Northville, Tuesday. They were returning from St. Paul, where Mr. and Mrs. King drove to attend the funeral of Dr. Brown's second daughter, Maria. Dr. Brown returned with them for a short visit, with Michigan relatives.

HOME ECONOMICS DEMONSTRATION AUGUST 8 AND 9

Miss Ina Lindman from the educational department of Ball Brothers Company and Miss Mary Barber, representing the Home Economics department of the Kellogg Company, will be in Wayne County, August 8th and 9th, for canning demonstrations, also food selection and the demonstration of a meal.

The meetings will be held in the High schools of Flat Rock on August 8th, and of Plymouth on August 9th, at 2:00 o'clock both days.

Miss Lindman gives a poultry cutting, drawing and canning demonstration, followed by the canning of a vegetable. Miss Barber will give some work on food selection and the demonstration of a meal.

Both of these women are highly trained and have won the reputation of being "top-notchers" in their fields of work. Miss Lindman is a graduate of Teachers' College, Columbia University, and was supervisor of Commercial and Home Canning Kitchens in Pennsylvania and New York during the world war, and for several years was connected with the United States Department of Agriculture—Home Economics Extension Service. Miss Lindman is now director of the educational department, Ball Brothers Company, Muncie, Indiana.

Miss Lindman holds the unusual record of having given more than a thousand canning demonstrations in cooperation with the United States Department of Agriculture during the past six years.

Miss Lindman's specialty and most spectacular demonstration is poultry canning. She demonstrates the easy, sanitary, bloodless method of cutting up chicken for canning; also how to pack the chicken in the jar, so that it will win a blue ribbon. Then the chicken is ready for processing.

Miss Barber has taught at Columbia University and has had a wide experience in the field of Home Economics previous to her present position as director of the home economics department of the Kellogg Company at Battle Creek.

Keep these dates in mind, remind your friends and don't fail to attend one of these meetings. They are open to the public, so fill your cars and come to Flat Rock or Plymouth.

LOIS M. CORBETT, Home Demonstration Agent.

HAVE FAMILY REUNION

Mr. and Mrs. Milo Corwin entertained members of the latter's family at a reunion Sunday. It also took the form of a shower in honor of Mrs. Helen Braggender of Wyandotte. Guests present were Mr. and Mrs. Henry Franklin, Novi; Mr. and Mrs. Merle Franklin, Salem; Mr. and Mrs. Burrel Hamilton, Detroit; Mr. and Mrs. Chaney Franklin, Northville; Mr. and Mrs. Carl Wagenschutz, Plymouth; Mr. and Mrs. Roy Franklin and Mr. and Mrs. Clarence High, Ann Arbor, and George Krum, Chelsea.

BLUNK BROS. STORE OBSERVING 5TH ANNIVERSARY

THE EVENT IS BEING CELEBRATED WITH BIG SALE WHICH OPENS TODAY.

To properly celebrate the fifth anniversary of the establishment of their store, the Blunk Bros. are announcing a big sale, which opens today, Friday, July 29th. The Blunk Bros. have taken three pages of the Mail this week, to tell about the wonderful bargains they are offering in all lines of merchandise for this extraordinary selling event. This is the first time that any firm in Plymouth has ever taken so much space in the Mail in a single issue. Thousands of double page bills have been distributed for miles around Plymouth, which with the Mail will, without a doubt, bring hundreds of people to Plymouth during this sale, to take advantage of the money saving values which are being offered.

During the five years that the Blunk Bros. have been in business, they have increased their stock in every line, until today they have a department store that would be a credit to a town many times larger than Plymouth.

A BIT OF PLYMOUTH HISTORY

While searching records at the Burton Historical Collection in Detroit, K. H. Starkweather, of this village, quite accidentally came upon a few lines of interesting description of the Plymouth of 1836. This was just eleven years after the arrival of the first family here. The man who took the trouble to thus write down his impressions of the beginnings of Plymouth as a village was a transient by the name of A. D. P. VanBuren.

Mr. VanBuren was enroute from Detroit to Kalamazoo, or to where he intended to settle. After describing the course from Detroit to Plymouth as "the worst road that mortal ever traveled over," he waxed almost poetic in his description of our village. He arrived in Plymouth just before dusk, put up at the Fralick tavern, and the next day continued on. The description follows:

"The last parting rays of the sun were touching the tree tops as we came in sight of Plymouth. We do not know why, but we imagined, as we caught the first views of this picturesque little village, that we had seen it before. Could it have been that some slip of a village from the east had strayed away from home—gone gipsying, and wandering off in the wild woods, had settled here? There was a beautiful open green lawn in its center. The 'decent church' stood on its western border, a tavern on the eastern side. We heard the ring of the blacksmith's anvil, and in the distance the 'clack of the mill.' The little quiet hamlet had such a rustic woodland air, and withal looked so pretty, that we were decidedly pleased with it. The more so because it was our Mecca of rest at the close of a weary, toilsome journey over bad roads.

"At the Fralick tavern we met a great many emigrants, and after supper our party had the pleasure of relating our trials and experiences, and talking about our prospects and plans for the future, and listening to others. Acquaintance-making among emigrants was rapid. We soon knew each other's past histories and future plans. Settling here in Michigan was the subject, and, with one touch of its potent influence, it made us all akin."

DETROIT MAN HIT BY AUTO

Last Sunday afternoon an accident occurred near the home of Jesse Jewell on the Ann Arbor road, in which one man was seriously injured. A Mr. Hendrickson of Detroit, had stepped around the car in which he was riding, right into the path of an oncoming car, and was seriously injured about the head, when he was thrown to the pavement. He was brought to the office of Dr. A. E. Patterson, where his injuries received attention, and he was later taken to Detroit in Schrader Bros. ambulance.

DEATH OF FREDERICK GULDNER

Frederick Guldner died at his home, corner of Adams and Farmer streets, last Sunday, aged 69 years. Mr. Guldner had been ill for some time. Funeral services were held from the Livonia Lutheran church, Tuesday afternoon, at 2:00 o'clock, Rev. Alfred Maas officiating. Interment in Livonia Center cemetery.

CIVIL WAR VET IS DEAD AT 80

FORMER UNION SOLDIER EXPIRES IN HOME OF DAUGHTER.

A veteran of the Civil war, Walter I. Kinsler, 80 years old, died suddenly Sunday in the home of his daughter, Mrs. Frederick A. Kellner, 11065 Roselawn avenue, Detroit.

Mr. Kinsler was born at Ypsilanti 80 years ago, and enlisted in the Union forces at the beginning of the Civil war from Plymouth, Mich. He served throughout the war with the engineers. At the close of the war he was married and moved to Plymouth, where he followed his trade, that of a blacksmith, until he moved to Detroit 17 years ago.

Funeral services were held Tuesday afternoon at 2:30 o'clock, from the daughter's residence. Burial was in Riverside cemetery here. General O. M. Poe Post, G. A. R., of which the former soldier was a member, had charge of the services.

Surviving are two daughters, Mrs. Harry L. Lewis of Ann Arbor, and Mrs. Kellner, and a sister, Mrs. Mary Evans of Detroit.

FORMER RESIDENT PASSES AWAY IN DETROIT

Mrs. Clara G. Tousey-Anthistle passed away very suddenly at her home, 5745 Lincoln avenue, Detroit, Mich., on Wednesday, July 20th.

She was a daughter of the late William A. and Jane Burnett, formerly of Stark, Mich., and was born near Wayne, Wayne county, Mich., June 9, 1872. At the age of seventeen she became a member of the Woodward Ave. Baptist church of Detroit, and was very closely affiliated with its work for a number of years. December 1, 1888, she was united in marriage to Frank J. Tousey of Salem, Mich. Three children were born to this union, Orville B. Tousey of Pontiac, and Mrs. Janet Miller of Wayne. One child died in infancy.

She had a millinery business in this village for several years, but finally made her home in Detroit, where she has lived up to the time of her death, since leaving Plymouth some years ago, with the exception of a few months which she spent in California. She had been in poor health for some time, but recently had been feeling much improved, when without any warning, on Monday, July 18th, she was stricken with apoplexy, and the end came two days later, without regaining consciousness with the exception of a short time after the first stroke. She had five strokes in all.

Her second marriage was to Ernest F. Anthistle of Detroit, Dec. 28, 1925. They spent the winter in California, in the interest of her health, and all was done for her that a loving husband and children could do, but the Lord said come to a higher plane.

She leaves to mourn their loss, her husband, E. F. Anthistle, one son, Orville B. Tousey, one daughter, Mrs. Wm. D. Miller; three grandchildren, Dorothea and Gerald Tousey, and William D. Miller, Jr.; one sister, Stella McMahon of Grand Rapids, and one brother, James Burnett of Lyons; also six nephews and three nieces and many more distant relatives and a host of friends.

One brother, Adna Burnett, of this place, preceded her in death five years ago.

The funeral was held from her late home, and the remains were laid to rest, Saturday, July 23rd, in Riverside cemetery, Plymouth, Rev. MacKenzie of Detroit, officiating.

CLEMENT-LOMAS

Last Thursday evening at 8 o'clock a very pretty home wedding was solemnized when Mr. Wm. Lomas gave his daughter, Zedie, in marriage to Melvin Clement. The service was read by Rev. F. I. Walker.

The bride was gowned in pink crepe de chine and carried bridal roses. Miss Gladys Horton acted as bridesmaid, wearing a gown of blue silk, carrying pink roses.

The groom was attended by Norman Maseley as best man.

The house was prettily decorated in pink and white. The refreshments consisted of ice cream and cake.

The following guests from away were Mr. and Mrs. John Horton and family, Mr. and Mrs. Fred Bird and daughter, Norma; Mrs. Lomon, Mr. and Mrs. Arthur Egg and daughter, Mildred, all of Detroit; Mrs. Dorothea Clement, and two daughters, Violet and Helen.

The bride and groom gave the best wishes of their many friends for a long and happy wedded life.

Entered at the postoffice at Plymouth as second class matter.

Subscription Price - \$1.50 per year

OLD FRIEND PASSING

Passing the postoffice recently a friend halted me to ask if we had noticed one thing which he believes has escaped the attention of practically every resident. He wanted to know if we have observed the decrease in pipe smoking in Plymouth as compared with former years. And coming to think of it, you don't see as many pipes smoked now as you used to, do you? Whether cigarettes and cigars are putting the old pipe out of business or whether fewer local people smoke now than formerly is hard to say. But even the old corn-cob standby of former years is no longer seen in such great number in public. Then too, the cigarette, once considered fit only for kids and "dudes," is now being smoked by men of all ages. Some of these may have discarded the pipe for the familiar little roll-in-hand. At any rate it offers a study, this apparent passing of still another old friend.

A TALKING NATION

If there is any doubt in the mind of Plymouth citizens that we are a talkative nation they have only to get a little bulletin recently issued by the government covering telephone progress in this country. At the beginning of the present year there were 2,800,000 telephones in farm homes in the U. S. That means that 44 out of every 100 farms are equipped with telephones. It means that there are more rural telephones in this country today than there are total phones in France, Germany and Russia combined. That certainly proves we are a talkative nation, and it is also pretty substantial proof that the rural sections are no longer "behind the times" or out of touch with the outside world. With his daily mail by rural delivery, his telephone, his radio and his home-town paper the farmer is just about as well posted and up-to-date as his brothers in the towns and cities. And if there is anything in the world worth hearing about he hears it as quickly as anyone else.

THE CORN CROP

We are far enough along now to get a pretty good idea of about how the nation's corn crop is going to turn out, and since the entire country is vitally interested in this crop, and much of its prosperity depends upon it, nothing could be of greater interest.

According to government forecasts this year's production of corn will be the lowest since the disastrous drought of 1901, when the yield fell to 1,600,000,000 bushels. The government estimates the yield this year at 2,274,424,000 bushels, a little below the lean years of 1924 and 1913. In 1901 hot

winds served to play havoc with the yield; this year the reduction is attributed to the cold, wet spring which prevailed in practically every one of the corn-growing states of the nation.

While better prices will serve to offset the crop shortage to a certain extent, it must be remembered that thousands of farmers raise corn to feed to hogs, and feeding high-priced corn to hogs that haven't increased in price proportionately is a money-losing venture. Those who have talked to around Plymouth, and who are in position to know, state that they do not expect to see corn go much below the dollar a bushel mark for some time to come. But even at this price those who grow it solely for hog-fattening purposes will have a hard time keeping on the right side of the ledger. However, it may serve the good purpose of demonstrating that even a short crop is better than over-production, and future plantings may be carried on along more conservative lines.

ANYHOW PROGRESS.

It is pleasant to learn that this nation spends more on public schools than on any other government function—not excepting the cost of keeping ready for war. Our public schools cost two thousand million dollars a year, about one-fourth the total amount spent for public purposes.

Two billions a year seems a great deal, but it is not much really. Public education, on which the future depends, absolutely costs less than twenty dollars per capita. And, by the way, it costs less than half the money spent on cigarettes.

That last is an encouraging fact. It proves that when the people want a thing they get it, somehow or other. Just now, they want the best cigarettes. Some day they will decide that they want the best possible public education. Then they will spend ten billions and more a year for it instead of two billions.

PREDICTION MADE THAT FORD PLANTS WILL START RECORD PRODUCTION SOON.

It is being predicted that every Ford plant will be in capacity operation by September 1st. There is not the slightest doubt but what the Ford company will start record production in the near future. Everything indicates that the auto manufacturer is all set to produce a motor car that will keep his plants going day and night. Local Ford plants are already taking on an air of greater activity.

AUCTION SALE

The cement block house and two-car garage on the Newburg school grounds, formerly known as the Jesse Thomas place, will be sold at auction, at 5:00 p. m., August 8th, 1927. WM. LOMAS, CHAS. D. RYDER, G. A. BAKEWELL.

THE THEATRE

"CALIFORNIA"

Seldom does the motion picturegoer see upon the screen a historical romance as vivid and as colorful as "California." Tim McCoy's latest historical Western picture filmed by Metro-Goldwyn-Mayer, which comes to the Penniman Allen theatre, Sunday and Monday, July 31 and August 1.

The picture is based on a story from the pen of Peter B. Kyne, which was written especially as a starring vehicle for McCoy. Perhaps that is the reason that the star so admirably fits the role of Captain Gillespie, U. S. M. C.

Kyne chose as his historical era the period when California was being conquered by the Americans—the time when the proud old Spanish families were losing their grip on what is now one of the most famous States of the Union.

It was an era of romance and battle, an era suitable for a picture of love and action, against a background of fact. The story is a charming one and makes the blood run faster.

The star's previous military experience helps suit him to the role of the President's messenger and the hardest fighting marine in the service of his country.

Dorothy Sebastian is seen in the role of the Spanish senorita who, despite her wishes, falls in love with one of the invaders, a man who arrests her own father. She loves him and shoots him at the same time—for of such stuff are senoritas made.

The cast is an especially strong one from the point of character acting and it includes players who portray the roles of many great historical figures, including: Captain Fremont, President Polk, General Kearney, Kit Carson and Pio Pico, the Californian who rebelled against American rule.

"California" was directed by W. S. VanDyke and is a picture that you cannot afford to miss if you are interested in either history or romance.

CATHOLIC NOTES

Sunday is the last Sunday of July. How about your July offering. Mrs. Laura McGorey is still confined to the Sessions hospital in Northville. Helen Donovan is slowly gaining at Providence hospital, Detroit. Edward McQuillan is still at the University hospital in Ann Arbor. Rev. Father Lefevre spent a few days this week with an old classmate at Sturgis, Mich. Rev. Joseph J. Pfeiffer of Manchester, called at the rectory the past week. The singing at the last mass Sunday was exceptionally well rendered and enjoyed by all. Nethem boys won their ball game last Sunday against the strong College Park nine, by a score of 2 to 0. Next Sunday, Nethem boys play the Plymouth Merchants at Burroughs Field, at 3:00 o'clock. This promises to be a real game. Come out and cheer for the boys.

PRESBYTERIAN NOTES

A very large congregation assembled to hear Rev. Dr. Farber of New York, last Sunday. The sermon on "The Reality of Religion" was excellent and many of Dr. Farber's former friends had a coveted opportunity of a word with him. Rev. Nichol will be on vacation during August; but there will be church service and Sabbath school each Sunday. The Woman's Auxiliary is having the church kitchen redecorated.

Barber Shop Near-Tragedy
A young woman tripped into a Holden (Mo.) barber shop to have her hair trimmed. She hung her coat and hat on a rack and after she had been served and sought her purse, she announced that her pocket had been picked of \$1.80. A young man awaiting his turn was the only one near the coat. He was accused of the theft, but vehemently denied it. When he was threatened with arrest he turned over \$1.80 under protest. A half hour later the girl telephoned she had found the money in her dresser.—Indianapolis News.

To Show Prehistoric Life
Life as it existed on the earth in remote geologic ages is to be vividly pictured on the walls of the Field Museum of Natural History in Chicago, in a series of twenty-eight great mural paintings, supplemented by sculptured groups of restorations of such animals as the extinct three-toed horse, the mastodon and the dinosaurs. The commission for the work has been given to Charles K. Knight, leading artist in the depicting of prehistoric landscapes and animals, and he will be assisted by a corps of scientists and by other artists. Six years will be required to bring the entire scheme to completion.

Bright Cadet
Admiral Sims' recent criticism of Annapolis led a young sea captain to say: "Admiral Sims is a credit to Annapolis anyhow. He was one of the brightest of our cadets. A question was once put to him in his student days: "Suppose you wiped out the enemy's fleet, seized his chief harbor and were then besieged therein; suppose you were surrounded by the enemy and threatened with starvation—how would you get food?" "From the enemy," said Cadet Sims."

Two things to watch when ordering your house paint
Make sure, for one thing, how long it will stay on—for another, how pleasing it will look. Experience with all makes and qualities of paints qualifies us to be of real assistance. We'll see to it that you get paint that will last. We'll help you in deciding on a pleasing color effect. And because we want you to be thoroughly satisfied, we will recommend that you make your choice from our complete line of **ACME QUALITY Paint-Varnish**. Before you buy any paint, come in and see us. We are here to serve you. **GAYDE BROS.** North Village Plymouth

This coupon and 25c entitle the undersigned to one 55c can of Acme Quality Enamel-Kote, any color, and a special 25c Paint Brush.

MICHIGAN BELL TELEPHONE CO.

Long Distance Telephone Service Gives Durant "the personal touch"

DURANT MOTOR COMPANY
LANSING, MICHIGAN
Mr. F. A. Lendrum, Manager
Lansing Bell Telephone Company
Lansing, Michigan
Dear Mr. Lendrum:
When "Bill" Lindbergh landed in Paris, about the first thing he wanted to do was to talk with his father over long distance.
But because he did not know he had landed, he could not hear his voice.
The other day we talked with a dealer at Burlington, Iowa who said he had used the long distance simply to hear us say something again.
In other words, he wanted to get the personal touch. That is what we find the long distance does for us.
It reduces distance to nothing, and gives us an opportunity to talk with our dealers... just as though they were at the plant.
We depend upon it in our sales more very nearly as much as our boys do our right arm.

Very truly yours,
F. A. Lendrum
Manager

It reduces distance to nothing, and gives us an opportunity to talk with our dealers... just as though they were at the plant.

OLD RECORDS THAT TELL OF AIRPLANE

Revelations in Ancient Irish Manuscript.

Some of the most thrilling results while have been brought to light in the deciphering of ancient manuscripts in the various libraries of Europe, Great Britain, and Ireland are those which contain romantic stories which indicate a foreshadowing of discoveries which we look upon as altogether the result of material development pertaining to the present era, says a writer in the Christian Science Monitor.

One of the most curious of these is the tale of the appearance of an airplane, the account of which was written between the years 944 and 936 A. D. in the reign of an Irish king named Congalach. The authenticity of the date of the manuscript is beyond question, and the description is as follows:

Congalach reigned in Meath, and was evidently given to farming pursuits, for the story goes on to tell of his one day attending a fair at a place now called Telltown, on the Meath blackwater, midway between the towns of Navan and Kells. While he was inspecting horses, for which that county is famous, a sound in the sky caused him, and all the people, to look up, and they beheld a large ship floating far above them.

It appeared to be fully equipped with a numerous, and evidently intelligent crew. After a time, in which the people in the fair gazed in silent wonder at the phenomenon, the huge vessel gradually flouted toward some clouds into which it entered, and the awe-struck crowds saw it no more. This same story is told with slight variations by the Norse documents, named Kongs Skuggja.

Yet another tale is told in one of these Irish legends, in which the writer prophesies that a time would come when carriages without horses would run through the streets of Jerusalem.

These stories are, of course, mere legends of imagination but it is interesting to find them noted in documents of undoubted antiquity, and in local as well as in ancient runes and sagas; also that such shadows of the actualities of the Twentieth century should have emanated from the thoughts of people in the Tenth.

It would be interesting to understand the mental capacities, and the outlook of the persons who inspired such tales; and who thought them of sufficient importance to have them recorded on vellum.

Reject Mail Delivery

Most American communities begin sarily to try to prove to Uncle Sam that they are grown up and should have their mail brought to their doors. But in California is a community that does not want its mail delivered. In Carmel-by-the-Sea the property owners recently voted no to mail delivery. The fact is that the town is an artist community and the residents enjoy the primitive way of going after their mail. Another consideration is that the government requires sidewalks to be laid as the first step to free delivery and the residents do not want to lay sidewalks.

Passed Over Riches

California and the Klondike are richest in gold rush lore, but northern Minnesota, too, has a place in the annals of man's search for the precious yellow metal. In 1865 more than 2,000 prospectors fought their way over snow-covered ground, through a country without a roadway, lashing their dog teams in a frantic race to stake claims and dig for gold, chasing a phantom that eluded them and ignoring in their frenzied search the precious ore that, in years to come, was to make the range the richest iron country in the world.

This gold rush to the Lake Vermillion district is the first of many romantic events in the story of man's attempt to wrest the district's treasures from the earth.

Long before fur traders had brought stories to the little settlement of Duluth of the existence of valuable metals. But the Indians made no attempt at exploration, content with displaying to the traders and the missionaries samples of gold-threaded quartz. Hundreds of years before, according to legend, four Indians, sitting about a campfire on the shores of Lake Superior, heated stones only to have them melt into masses of copper. Exultant over their discovery, they were examining it, when a voice, apparently from the lake, thundered:

"I am the Father of the Waters. You are robbing me. Depart!"

The legend is that the four Indians were stricken with such fright that death came within a few hours.—Minneapolis Journal.

Radio Ears

The world is developing a finer sense of hearing as the result of listening to the radio, according to Charles M. Adams, in Radio News. Not only is audition more sensitive in the majority of mankind since the popularity of the receiving set, but Mr. Adams considers it probable that human imagination is growing more facile, being able to conceive the atmosphere of a church on hearing a service broadcast, or picturing a play on "reception of its lines."

The Sinner

During a recent speed-law enforcement wave a motor officer stopped an autolite. He was met by the inquiry, "What are you holding me up for? I wasn't speeding."

"I know it," was the reply.

"And I am not drunk—have not been drinking."

"I know that, too, but you haven't your dimmers on."

"That's funny; I certainly put on everything Mary laid out for me."—Los Angeles Times.

MUNICIPAL NOTES
BY THE MANAGER

August 10th is the last day to pay village taxes without penalty. A penalty of 2% will be added after that date.

All noxious weeds in the Village of Plymouth must be cut. This is to prevent typhoid fever and a breeding place for mosquitoes. If these weeds, etc., are not taken care of, the village will cut them and charge the cost to the owners' tax bills.

The stop and go signal lights at Starkweather and Main and Starkweather and Liberty have been removed, and caution lights put in their places. Main street is a through street going east at Starkweather, but not going west. All traffic going west on Main street must come to a complete stop at Starkweather before continuing west or turning into Starkweather. All traffic going south on Starkweather must come to a complete stop before entering Main street. Starkweather is a through and stop street at all cross streets, except going east on Main street.

Main street is a stop street at all cross streets except where stop and go signals are located. At these points, stop and go signals must be observed. These laws will be strictly enforced.

The D. U. R. is now removing the track at the old waiting room. The track on Mill street from Main street north, will also be taken up immediately.

The village men are starting to put the water and sewer connections in to the sidewalk line, on Penniman avenue from Harvey to Moreland.

B. F. KEITH'S TEMPLE THEATRE
Detroit, Michigan

Seymour Simons presents Detroit's own Gerald Marks and his Hotel Tuller orchestra, as the headliner on the bill at B. F. Keith's Temple Theatre, starting next Sunday afternoon. This will be the first vaudeville appearance of the orchestra, and a good program augmented by singing, dancing and novelties has been arranged for the full stage appearance. Mr. Marks and his orchestra have brought distinction to Detroit, having been made exclusive Columbia artists, the only organization thus favored in Michigan. Others billed: Jessie Maker and William Redford and a company of five, in "High Lights," a revusical comedietta; Grace Doro, assisted by "Ten Fingers and a Baby Grand;" Master Jay Ward, vaudeville's favorite juvenile star with Ward and Dooley; Jarvis, Harrison and Company with Sonny Jarvis in "Elevated Love;" Reed and Le Vere in "Two Gentlemen from Nowhere;" other Keith-Albee vaudeville, and the new screen program.

We would appreciate it if you would phone or send news items to the Mail office. We are always glad to get them.

LOCAL NEWS

Be sure you read the ads in today's paper. It will pay you.

Dr. B. F. Farber of New York City, has been visiting friends here this week.

Mrs. Charles Olds is visiting her daughter, Mrs. Earl Stevens in Detroit.

Mrs. Earl Ryder spent the week-end with her mother, Mrs. G. B. Crumble, at Royal Oak.

Mrs. R. A. Kirkpatrick and children have returned home from a visit at Hagerstown, Maryland.

Mrs. Goodwin Crumble is visiting Miss Helen Wells at her home near South Bend, Indiana.

Mrs. Bessie Smith of Detroit, is spending a couple of weeks with her mother, Mrs. Charles Holloway.

The dental office of Dr. J. L. Olsaver will be closed until August 15th, while the doctor is away on his vacation.

Work on the new Starkweather school building is progressing nicely. The plastering is now well under way.

F. L. Becker, real estate dealer, has sold five acres in Hillsdale county, to Mrs. Elizabeth Stringer of Northville.

Frank Barrows is at Ludington, for a week's vacation. His family have been there for the past several weeks.

Mrs. Nellie Bennett returned home the latter part of last week, after an extended stay at Daytona Beach, Florida.

Mr. and Mrs. Fred Wagner of New York City, were guests of the latter's sister, Mrs. Carl Heide, over the week-end.

Mr. and Mrs. Lloyd Fillmore and son, Wellman, left Thursday morning for Bay City, to attend the Rawleigh Retailers Convention.

Mr. and Mrs. Emory Holmes and children of Detroit, and Mrs. C. V. Chambers of this place, called on Mr. and Mrs. E. Rühlig at Dexter, last Sunday.

H. A. Spicer, Mr. and Mrs. S. W. Spicer and daughter, Betty, were guests of Mr. and Mrs. Frank Spicer at their cottage at Middle Straights Lake, last Sunday.

Dr. B. E. Champe and H. R. Lush took part in the big golf tournament being held at the Washtenaw Country Club this week. There were 192 players entered in the tournament.

Mrs. Wm. Sutherland, Mrs. Henry Sage, Mrs. Albert Gayde, Mrs. Charles Livrance, Mrs. O. F. Beyer and son, Bobbie, and Miss Amelia Gayde spent a few days this week at the Sutherland cottage at Base Lake.

Strategy Saved Town

Wishing to extend the training grounds of a camp near the village of Villeneuve, in the Vosges, the French military authorities decided to wipe out the little town by gunfire. Their scheme has, however, been thwarted by the parish priest, who determined to do what he could to save the village from destruction. He searched through volumes of the laws of France, and found that his church could not be closed down so long as there were two attendants at daily mass. Since then the church has been thronged every day with villagers, who thus render the authorities powerless to carry out the destruction.

ANNOUNCEMENT!

NEWBURG

There will be no church service for the next two Sundays, as Rev. and Mrs. Walker will be away on their vacation.

A delightful picnic given by the Sunday-school was participated in by those who attended last Saturday, at the tourist camp, Plymouth. The tables were loaded with good things to eat, besides everyone had all the ice cream they could eat. Games, tug-of-war, quip pitching and ball playing afforded all a good time.

Mrs. Alice Seull was the guest of her cousin, Mrs. C. E. Ryder, Sunday night and Monday.

Mr. and Mrs. Melvin Clement spent the week-end with Mr. and Mrs. Arthur Repp in Detroit.

Mr. and Mrs. M. L. Horton visited their son, Don, in Detroit last week.

Mr. and Mrs. James McNabb and daughter, Joy, left this week for a month's outing at Hubbard Lake, in the northern part of the state.

Mr. and Mrs. I. Walker of Bruin, Pa., and Mrs. Mary Guthrie and Samuel Guthrie of Detroit, spent over Sunday with Mr. and Mrs. Melvin Guthrie.

Misses Anna and Ada Youngs and brother, Newton, motored to Klugston, last Saturday, to spend over Sunday with their aunt, Kate Youngs.

In last week's paper, in referring to the old veterans of the Civil War, Mr. Weed's name should have appeared with the others, making five. If there are any others, will someone please give their names. There are so few left of these old boys.

The infant son of Mr. and Mrs. Thomas Wilson, Thomas, Jr., passed away Sunday evening. A short service was held at the home Monday afternoon, by Rev. F. I. Walker, and interment took place in Riverside cemetery. The family have the sympathy of their friends in the loss of their little one.

We are glad to note that Ruth Cochrane is nicely convalescing at Providence hospital.

Mrs. Neal Leonard and family are enjoying a week's outing in Floyd Bassett's cottage at Island Lake.

Raymond Ryder, Jr., of LaGrange, Illinois, arrived last week to spend his vacation at the home of his grandparents, Mr. and Mrs. C. E. Ryder, on Plymouth road.

Mr. and Mrs. Lewis Brown and three daughters, Gladys, Glens and Neva, motored from St. John's, to the Smith homestead, Tuesday, bringing Wm. Smith home, who has spent the past week with them.

George Chilton had the misfortune, while walking across the room, to fall

and break his hip, Monday evening. His friends extend sympathy.

Mr. and Mrs. James W. Bishop of Detroit, took dinner with Mr. and Mrs. McNabb, Monday evening.

Fifteen ladies of Detroit Excelsior W. C. T. U., and Rev. and Mrs. Walker enjoyed a picnic dinner at the McNabb home on Friday last.

"BROADWAY" ENTERS SIXTEENTH WEEK AT GARRICK THEATRE, DETROIT.

"Broadway," the Jett Harris production by Philip Dunning and George Abbott, which has held the dramatic field to itself in Detroit for many moons, will enter upon its sixteenth week at the Garrick theatre next Sunday night. No play of recent years has won such unanimous approval in Detroit, or, in fact, in New York or London, where other companies are playing this night club classic.

The management is curious to find out its best customer for the play. Many persons have seen "Broadway" five and six times and there are probably some who have watched even more performances. Strange to say, the "repeaters" seem to get as much enjoyment out of their later visits as they do on their initial visit.

The company engaged for Detroit, soon to go to Chicago, where the play has not yet been seen, is exceptionally capable. It is headed by Wallace Ford as the egotistical "hooper" who has been described by Police Commissioner Rutledge as the "best stage detective ever seen." Marshal Bradford, as the cold-blooded bootlegger, "Steve." Grace Huff, as the veteran cantalupo; Gustave Rolland as the cabaret proprietor, Harriet E. MacGibbon as the much sought "Billie," and numerous other well-known artists, all perfectly cast, down to the least important of the Chicago gunmen.

Eighteen members of the homicide squad of the Detroit police department, under the leadership of Lieutenant William M. Johnson, president of the Lieutenants' association, viewed "Broadway" at the Garrick theatre in a body last Thursday evening, as a mark of honor to Joseph King, who plays the role of Dan McCorn, homicide squad detective in the play. Mr. King was recently made an honorary member of the department after being introduced around police headquarters by Commissioner Rutledge as the world's greatest stage detective.

The Judge's Joke

THE AVERAGE MAN IS PROOF ENOUGH THAT A WOMAN CAN TAKE A JOKE—

Weight Handicap

One of the aspirants for a pitcher's berth on the college ball team had recently arrived from the country. He was told to warm up a bit by throwing a ball around.

"Well, how're they coming?" the captain of the nine asked him a little later.

"Hotten, Samph's wrong with my arm, boss. I ain't getting the speed I ought."

"Great Scott, man! That isn't a baseball you're throwing. That's the 16 pound shot."

It's Fact

He—It feels like rain.
She—What feels like rain?
He—Water!

Sounds Reasonable

Collegiate—I beg your pardon, Miss, but would you care to take a ride?
Co-ed—Sir, I'll have you know I'm a lady.

Collegiate—I know that. If I wanted a man, I'd go home and get my father!

Messenger Service

Householder—So you are out of work, eh? Well, you are just in time. I've a pile of wood I wanted chopped, and I was just going to send for a man to do it.

Tramp—Okeh with me, sir. Tell me where he lives and I'll fetch him.

A liner ad in the Mail has helped many people to dispose of used articles.

A CARD—We desire to express in this way, our most sincere appreciation of the many acts of kindness shown us during the loss of our daughter and sister, by our relatives and neighbors, and to Rev. Ehms for his comforting words, Mr. Schrader for his kindness, the expressions of sympathy in flowers, the singer and player, and to those who furnished autos and helped us in any way.
Mrs. Augusta Mielbeck and Family.

Not Worth The Risk

The risk is greater than the saving and not worth while when the home, eyesight or maybe life itself is endangered by "home cleaning" of apparel or fabrics to save a few cents.

Let us do your dry cleaning—first because ours are the most modern methods—therefore best; second, because we can do it so much better because we are equipped to do such work; and third, because we can give you prompt service at very lowest prices—and really much more cheaply than you can do it at home. Phone us (234) and give us a trial.

A FAMILY GATHERING

A family gathering was held at the home of Robert Gibson, on South Center street, Northville, Sunday, July 24th. A picnic dinner was served on the lawn under the trees, and was thoroughly enjoyed by all. Those present were: Dr. LeRoy Brown of St. Paul, Minn.; Mrs. Mary A. Sayles and Mrs. Lucy A. Smith of Plymouth; Mr. and Mrs. Frank King and son, Donald, Miss May Miller and Mr. and Mrs. Elam Moyer and sons, Ralph and Howard of Ypsilanti; Mr. and Mrs. Allan Brown and son, Alvin, Mr. and Mrs. Clarence Peck and son, Kenneth, the Misses Mary and Ann Brown and Mr. Glass of Royal Oak; Mr. and Mrs. Dan Murray and daughter, Elizabeth of Plymouth; Mrs. Emma Hoyt of Owosso; Mr. and Mrs. Edward R. Gibson of Chicago, Ill.; Mrs. Catherine S. Gibson, Mr. and Mrs. Ralph Gibson and family and Mr. and Mrs. Robert Gibson of Northville.

GRANGE NOTES

The regular meeting of the Plymouth Grange will be held at the hall on Thursday evening, August 4th.

LOCAL NEWS

Mrs. Ettie Smith of Salem, spent last Tuesday at the home of her brother, Minot S. Weed.

Mrs. Cella E. Hurd of Flint, is visiting her niece, Mrs. Winifred Coleman of Ann Arbor street.

Mrs. Dortha Dietrick, 659 Ann Arbor street, is spending two weeks with her parents at Cadillac, Mich.

Miss Margaret Corcoran and William Winton of Detroit, were Sunday guests of Mr. and Mrs. J. L. Campbell.

Coralyn Rathburn of East Plymouth, is the guest of Mr. and Mrs. Ford Becker at Pittsford, this week.

Mrs. T. P. Sherman and Miss Margaret Miller were guests of Mr. and Mrs. Fred Bogart, at Ann Arbor, last Friday.

There will be a regular meeting of the Order of the Eastern Star, Tuesday evening, August 2nd, at the Masonic temple.

The Ladies of the Lutheran church will hold their business meeting immediately following the services next Sunday morning.

Dr. and Mrs. J. L. Olshaver and children left Thursday morning, for a motor trip to Ludington and other Michigan points.

Mrs. Harry Vosbarg and little daughters were the guests of Mr. and Mrs. Glenn Chafy, at Walled Lake, a few days last week.

Mr. and Mrs. Merle Rorabacher and baby, Velda, and Catherine Dunn spent last week-end with Mr. and Mrs. Ford Becker, at Pittsford.

The Rev. Thomas Marriot of Grace Church, Detroit, will have charge of the service at St. John's Episcopal church Sunday morning.

Mr. and Mrs. Henry P. Lezotte have been entertaining for the past two weeks, the former's aunt, Mrs. Mary Diamond of South Rockwood, Mich.

Mr. and Mrs. J. C. Stewart of Chicago, arrived here Saturday evening for a week-end visit with the latter's brother and wife, Mr. and Mrs. Clyde H. Arnold.

Robert Tefft of the Tefft Radio Shoppe was in Detroit, Tuesday and Wednesday, to attend the Atwater Kent and Radio Dealers convention, at the Hotel Statler.

Mr. and Mrs. R. A. Durfee and son, Howard, and Mrs. Belle Driver of Ann Arbor, and Mr. and Mrs. Henry Steinmetz have just returned from a week's outing at Whitmore Lake.

Leroy Reiman, who has been visiting his parents, Mr. and Mrs. Fred Reiman for several weeks, left Thursday morning, for his home in Phoenix, Arizona. He motored through.

Mr. and Mrs. John Staman, son, William, and daughter, Miss Elsie, returned home last week Thursday, from a motor trip to Washington, D. C., and points in New York state.

RESOLUTIONS

Resolutions adopted by Plymouth Rebekah Lodge No. 182, I. O. O. F.

Whereas, in His divine wisdom it has pleased our Heavenly Father to remove from our midst our beloved Brother, Frank Proctor, be it

Resolved, that Plymouth Rebekah Lodge No. 182, I. O. O. F., has lost a member, one for whom we mourn, who was in every way worthy of our respect and regard. We extend to the bereaved son, brothers and sisters, our deepest sympathy, and out of the darkness and sorrow, may God's richest blessings shine as a comfort to those who remain to mourn his decease.

Therefore, be it resolved, that a copy of these resolutions be sent to the family of the deceased; that they be published in the Plymouth Mail, and that they be placed upon the minutes of this lodge, and our charter be draped for sixty days.

Someone has gone from this strange world of ours.

Someone is resting from sorrow and sin.

No more to gather its thorns with its flowers.

Happy where earth's conflicts enter not in.

Signed in behalf of the lodge, MILDRED COLLINS, IDA SCHILLING, MARIE HARTUNG.

BOARD OF REVIEW

Notice is hereby given that the Board of Review of the Village of Plymouth will meet at the Village Hall, on Saturday, August 6th, 1927, from 8:30 o'clock a. m. until 5:00 o'clock p. m., for the purpose of reviewing the special sanitary sewer assessment rolls of 1927. Anyone interested may be heard on their assessment.

ARTHUR V. JONES, Assessor. 362c

PUBLIC HEARING.

At a regular meeting of the Commission on July 7, it was decided to have a public hearing on the 29th of July at 7:00 p. m. at the Village Hall, Plymouth, Michigan, to consider the re-opening of the eighteen-foot alley extending north from Burroughs Avenue and in the rear of lots twenty-four (24) to thirty-six (36), inclusive, and alongside of lots twenty-five (25), thirty-three (33) and outlot A of Maplecroft Subdivision.

All interested parties are requested to be present.

BASE BALL NEWS

PLYMOUTH MERCHANTS WIN OVER REDMEN LODGE, 9 TO 5.

The second time this season, the Merchants have taken the Redmen into camp. The score of the first game earlier in the season, was 19 to 0. Last Sunday, the Redmen were on the "war path" and with a lot of outside players came back to play what started out to be a good ball game, but in the third, Wilks, the visiting pitcher, lost control, and before they could get another man warmed up the Plymouth boys had scored six runs, which proved enough to win the game.

Our pitcher, Quinn, allowed eight hits for twelve bases, and they were well scattered, while our boys collected in only seven hits for twelve bases. But our hits were bunched at the right time.

Wood played third base for Plymouth, while Giles played shortstop, in the absence of Millross, who is suffering from a very bad hand which was hurt in last Sunday's game. Mr. Wood was right there with the bat, collecting in three hits, two doubles and a triple. Giles and VanBonn got doubles, while Trimble, the one man we can always rely on, had another perfect day as far as getting on base is concerned. He walked three times, and got on twice on errors.

Next Sunday, July 31st, the Merchants cross bats with the Nethem Club, who have been going strong of late, and both teams will be composed of home boys, and a good game is expected, as they both have played bang-up ball.

Last Sunday's game by innings: Redmen— 0 1 0 0 2 0 2 0—5 8 3 Plymouth— 0 0 6 0 0 0 3 *—9 7 4 Batteries for Redmen—Wilks, Lefty and Beebe; for Merchants—Quinn Williams and Strasen. Losing pitcher, Wilks. Umpire, Gray. Time, two hours, forty-five minutes.

NETHEM 3, COLLEGE PARK 0

College Park of Detroit, journeyed out Sunday, with a loaded team in order to revenge themselves from the last game, a shut out, pitched by Doyle Rowland. But the fates said no, and Manager J. VanBonn placed Hy Gale upon the rubber with the strong determination to win, and victory was a shut-out again; the first for Hy Gale, but the second against College Park, the score being 3 to 0.

A well played game was witnessed by the spectators, and each received his money's worth. Each player knew the game, and played it well, but Nethem managed to outplay the College boys through the accurate pitching of Hy Gale. At no time was he in danger, and at all times did he manifest excellent control. The weaker end of the team proved to be the stronger end in this game, and brought home victory to their teammates.

The College Park boys are noted as a high class ball team in Detroit, and play a good game, but the rural arm of Gale proved too much for these lads, and without a murmur did they concede the game to him.

Next Sunday the big game of the season will be played at Burroughs field, Plymouth Merchants vs. Nethem, Plymouth vs. Plymouth. Each is determined to win, each has a good ball team, and a real old fashioned ball game is assured to all. A post series of three games would be a desirable event between these teams. Let the best Plymouth team win. Come out next Sunday, and help support the locals against the locals.

Nine stalwart College Park boys fanned the air to Hy Gale's mighty arm, whilst but five hits were secured from him. Trost, the College Park pitcher, fanned four men, and allowed eight hits.

R H E College Park— 0 0 0 0 0 0 0—0 5 0 Nethem— 0 0 0 1 0 1 1—3 8 0 Batteries—College Park: Trost and Baker; Nethem: Hy Gale and Joe Schomberger.

Next Sunday Nethem against Plymouth Merchants at Burroughs Field, at 3:00 o'clock.

DE-HO-CO TAKES TWELFTH; INTER-COUNTY LEAGUE STRENGTHENED.

Sunday, July 24, at De-Ho-Co Park, the De-Ho-Co club defeated Redford Merchants, 21 to 12, in a game marked by errors, wild pitches and an orgy of hits.

Shields, the Redford submarine hurler had everything but control, and during his stay on the mound the De-Ho-Coes felt as though they were in the front line trenches. A total of sixteen hits were confiscated from Shields and Lowery, who replaced him in the sixth inning.

Constance pitched for De-Ho-Co, allowing the Redfords twelve hits, striking out seven, and giving five free passes.

German and Hammond for De-Ho-Co and Shields for Redford contributed better runs each, and Martin, Hammond, Shields and LaForest each pegged over three base hits.

Last Sunday's games in the Inter-county League were the last in the first half, and De-Ho-Co winning all but one game, takes the half season stakes.

In the reorganization for the second half, the weaker teams have been allowed to strengthen their line-ups, and the franchises of Wayne and Wyandotte have been bought by Fordson and Brightmoor, two clubs that should give a good account of themselves and furnish some real opposition to De-Ho-Co, Municipal and Fire Department Clubs.

Next Sunday, July 31st, De-Ho-Co meets Municipal Club at De-Ho-Co Park, and a lively fight is expected as the Minnies are determined the local club will not get a good lead in the second half of Inter-county's contests. Sunday, grandstand seats are 35c, and bleacher seats, 25c.

Saturday, July 30th, De-Ho-Co club will play Timkin Axle, on De-Ho-Co grounds. Fans are assured of a real battle in this game, as Timkin is considered one of Detroit's finest. Saturday, general admission and all seats are 25c.

De-Ho-Co vs. Redford at De-Ho-Co Park, Plymouth, Sunday, July 24th, 1927:

Today's Reflections

The electric chair has something to do with checking criminals, but the proper place to start is the high chair. We agree with the Plymouth man who argues that it's time to take the cow-catchers off of railroad locomotives and substitute automobile nets.

Some men know how to make money, but the wisest ones are those who know how to keep part of it after they've made it.

Good intentions are like fainting women—both need carrying out.

Any Plymouth man who wants to make next winter a short one can do so by signing a note that will come due in the spring.

The reason the divorce courts are kept so busy is because so many girls think it is more important to marry wisely than well.

The honeymoon usually develops a flat tire along about the time the groom discovers the bride isn't going to work any overtime at the job of trying to please him.

The average Plymouth father has to be pretty dog-gone sick before he will take castor oil, and yet he'll want to kill the children because they don't take it cheerfully when mother wants them to.

A woman can have four pairs of scissors on her lap while she is sewing, but that won't keep her from biting the thread.

One-half of the world doesn't know how the other half lives, but they ought to know since we've all been touched.

Why is it that every married woman feels that she earns every cent of her husband's salary?

Don't brag about your ancestors. The fact that a dog has a pedigree doesn't keep him from getting cans tied to his tail.

A look at the family towel occasionally would indicate that about every boy in Plymouth is a member of the "Black Hand" society.

OAKLAND ANNOUNCES NEW "ALL-AMERICAN" SIX

WEALTH OF ADVANCED ENGINEERING FEATURES OFFERED IN NEW 117 INCH WHEELBASE CAR AT NEW LOW PRICES.

ENTIRELY NEW IN DESIGN—NEW ENGINE, NEW CHASSIS, NEW BODIES, NEW COLORS.

Entirely new in design—larger, more powerful, more roomy—with a wheelbase of 117 inches, new engine, new chassis, new Fisher bodies, new Duco colors and a host of advanced engineering features—the Oakland All-American Six is being presented throughout the nation this week.

This brilliant, flashing car of sleek greyhound lines is distinctly new, designed from the ground up by the skilled Oakland engineering staff for American standards of reliability, appearance, comfort and performance. Because the line is so thoroughly American in character, designed by American engineers, tested on General Motors' great American proving ground and built by American workmen using American precision production methods, it has been called the "All-American Six."

Despite the larger size of the cars, the advanced engineering design and the more luxurious finish, they are offered at new low prices.

The size and low-slung appearance of these cars may be gleaned from the fact that they have an overall length of 175 inches between bumpers, a road clearance of 8 3/4 inches and a height of but 70 inches from the ground to the top of the roof. Although the entire car has been lowered, no head room has been sacrificed in the spacious interior.

The low lines of the car are emphasized by a high, narrow radiator, sweeping crown fenders, lower running boards, oblong windows, a double row of heading, and especially by larger tires on smaller wheels. Artillery wheels of 19-inch diameter are combined with 29 by 5.50 inch balloon tires. The spokes of the wheels are of larger diameter than used heretofore.

Among the more important, new mechanical features are a gasoline pump to supersede the long familiar vacuum tank—a new system of crankcase ventilation to reduce oil changes to a minimum and triple sealed oil protection by gasoline, air and oil filters.

A new and softer acting clutch, a new and smoother transmission, a four bearing crankshaft, a 15 plate battery and new oiling system are among the noted features of the car. Chrome plating, which is non-rusting, preserves the bright finish on the nickel plated radiator shell and rims of head, and cowllamps and on the door handles of the sport models.

The new engine has a displacement of 212 cubic inches and is of the six cylinder L-head type, cast en bloc with the crankcase and cylinder block integral. It has a 3 1/2 inch bore and 4 1/4 inch stroke and develops 60 brake horsepower at 2,800 r. p. m.

Seven Body Types.

The new Oakland All-American Six body types present new grace of lines and new richness in character which are further enhanced by smart upholstery and exquisite interior trimmings and appointments. The complete line includes the Two-Door Sedan, Four-Door Sedan, Landau Sedan, Landau Coupe, Sport Phaeton, Sport Roadster and Four-Passenger Cabriolet.

Several new features of style are introduced in the new bodies—low-to-the-road appearance; graceful sloping, full crowned fenders; wide range of vision gained by narrower windshield pillars; narrower, deeper radiator; ornamental radiator cap with eagle rampant, head light and cowllamp light colors matched with body colors and colored garnish rails. One of the most beautiful features of the interior decoration is the instrument board. It has a tri-clustered instrument panel decorated with bas-relief engraving, silver-platinum finished. The center assembly consists of speedometer, gasoline gauge, oil pressure gauge and ammeter, glass covered and indirectly lighted. On the left the assembly consists of a combination lighting, ignition and backing-up light control switch. On the right, the assembly consists of the combination choke and throttle units, all engraved in oak leaf motif and finished to match the body hardware. The instrument assemblies have silver platinum dial and are also engraved with the oak leaf design.

The upholstery in the Landau Coupe, the Sedan, the Four-door Sedan and the Landau Sedan is of genuine mohair in shades to harmonize with body colorings.

The Sport Coupe and Sport Roadster are upholstered in Spanish leather, and the Sport Phaeton in Spanish leather with pillow type upholstery. A feature adding to the comfort of the cars is an arm rest in the rear compartment of the Sport Roadster, Sport Cabriolet and Landau Sedan. The standard equipment on all cars includes besides the eagle ornamental radiator cap and instrument panel, a 17-inch walnut finished steering wheel, rubber floor covering in the driver's compartment, limousine rug in the rear of closed bodies, rear view mirror, new type tire carrier, rim for spare tire and automatic windshield cleaner.

For open cars a folding top with boot and door opening curtains are supplied. A number of special body features are found in various cars. A door on the right side of the rear deck for golf clubs is standard on the Landau Coupe, the Sport Roadster and the Cabriolet. The one-piece clear vision windshield on the Sport Roadster and Sport Phaeton may be tilted for ventilation or the entire windshield folded forward to a horizontal position. The door-opening curtains are of single pyralin panel, the door handles are chrome plated with inlaid imitation pearl design. A distinctive beading design and color panel on the top of the doors distinguishes these sport cars. The Sport Roadster and the Sport Cabriolet each have a rumble seat. Two spare tires may be carried with the Sport Roadster, one on either side. Both the Sport Phaeton and the Sport Roadster are equipped with a trunk rack.

In the Sedan, Four-door Sedan and Landau Sedan are found a new feature—smoking case and light with dome lights. The Four-Door Sedan and the Landau Sedan have hinges in the rear doors, robe hooks and foot rest.

ment board. The Landau Sedan, Sport Roadster and Sport Phaeton have chrome plated front bumpers and rear fender guards.

The new Oakland "All American" Six chassis is constructed on a long, deep frame rigidly braced by five heavy steel cross members and further reinforced by the rear part of the engine which forms a sixth frame support. Oakland's rubber silencing design—on engine supports and through the drive, eliminates transmission of chassis noises.

Springs are mounted parallel to the frame. Front springs bear of carbon steel and rear springs of special alloy steel. The new rear axle ratio is 4.45 to 1.

The engine, transmission and clutch are all mounted as a unit power plant. The crank case extends 2 1/2 inches below center line of crankshaft, and is heavily ribbed, giving exceptional strength and stiffness.

A prominent feature of the engine is the specially designed removable cylinder head, a new creation from the General Motors Research Department. In addition to being correctly proportioned for strength and lightness, each combustion chamber had a uniquely designed "step shaped" profile so as to break up unvaporized fuel and give a uniform burning of the gas. The employment of four curves in the sides of the combustion chamber effectively eliminates detonation.

The four-bearing crankshaft is drop forged and counter balanced and weighs 78 1/2 pounds. Counter weights are forged to the shaft. Costly bronze backed rabbit faced inter-changeable bearings are used on the crankshaft. This bearing construction was introduced by Oakland four years ago. The connecting rods are drop forged from steel. Pistons are of semi-steel and four inches in length.

The Oakland "All American" Six fuel system has been designed and built for reliability. The vacuum tank has been replaced by a fuel pump, positive in action which means that the car will never lack for fuel on the hills. Combined with this fuel pump is a gasoline filter. A new 13-gallon tank has capacity for fuel for a long journey.

Positive engine lubrication is insured by the use of force feed to the main and camshaft bearings and to the connecting rods through the drilled crankshaft and by spray to cylinder walls. The oil pan has 159 square inches of screen area. An oil filter is standard equipment.

The crankcase ventilation is a combination of air pressure and suction. The outlet is so shaped and located that the motion of the car keeps a draught blowing past it, creating a suction which draws the fumes out. An A. C. air cleaner is standard.

A belt driven water pump circulates 720 gallons of water an hour at a speed of 25 miles an hour. The radiator, which is 31 5-16 inches high, has a capacity of 14 quarts, while a thermostat built into the cylinder head controls the temperature of the cooling water.

The headlights are of the tilt-ray type with double filament bulbs, foot controlled by a switch on the floor board. Full automatic spark control gives the proper timing of the spark for all speeds.

The clutch is of the dry, single plate, self adjusting type, balanced by six coiled springs. The transmission counter shaft gear is forged from one blit of chrome-vanadium steel and runs on bronze bearings.

A careful examination of the new All American Six leads one to believe that Oakland is offering a "big package for the money." This is true, because instead of higher prices, new low prices, ranging from \$1045 to \$1285, are now announced.

WHEAT FARMERS: HERE IS NEWS— 49 BUSHELS Where 38 Grew Before

Denver, Indiana
October 29, 1926

The American Agricultural
Chemical Company,
Detroit, Mich.

Sirs:

My wheat crop this year surpassed all others in my community. I used 250 lbs. of "AA QUALITY" Fertilizer per acre. It yielded 49 bushels per acre testing 63 lbs. per bushel.

I have used many brands of fertilizer in past years. "AA QUALITY" Fertilizer is in a better mechanical condition, sows more evenly and produces a far better yield.

Yours very truly,

(Signed) LEE LONG

An exception? Not at all. 1739 such cases have been reported to us. In this instance, the increased yield meant an added profit of \$11.86 per acre. To say nothing of higher quality and consequent better price for the entire crop. Proof that it pays to select fertilizer on its crop-producing record.

"AA QUALITY" Fertilizers assure a higher grade of wheat with the same seed, the same acreage, the same labor. Result, lower production cost for every bushel and a greater margin of profit for you. "AA QUALITY" Fertilizers pay you several times their cost in increased yield and quality.

NEW '28 BUICK MODELS SHOWN

HIGH COMPRESSION ENGINE AND
FASTER GEAR RATIOS ADD
NEW SPEED, POWER.

The new Buicks for 1928 are on display this week. There are sixteen body types in all, mounted on last year's wheelbases of 115, 120 and 128 inches. To achieve new and more stylish body lines, the new models utilize a double drop frame. Instead of sacrificing head room, wheel size and road clearance. The bodies are longer, wider and have more room than ever.

Twelve of the new Buicks are closed cars, and the remainder of luxury type open cars. On the 115-inch wheelbase are the five-passenger two-door sedan, the two-passenger business coupe, four-passenger country club coupe, five-passenger four-door sedan, five-passenger town brougham, four-passenger de luxe sport roadster and five-passenger de luxe sport touring car.

On the 120-inch wheelbase are the five-passenger sedan, the five-passenger de luxe sedan, and the four-passenger coupe, and on the 128-inch wheelbase, the seven-passenger sedan, the five-passenger brougham, the four-passenger country club coupe, the five-passenger sport roadster and the five-passenger sport touring car.

The double-drop frame, on the models of Series 115, had a drop of two inches. Side channel depth here has been increased from 6 to 6½ inches, and the lower flange of the side channel is 1½ inches wider, with a curve which gives greater rigidity. The front cross member is of sturdy construction, and there are new reinforcements between the top and bottom flanges of the side channel, at the motor cross member and near the fulcrum of the rear springs.

On the models of Series 120 and Series 128, there is a three-inch drop in the side channels, with corresponding reinforcement of the frames.

Improvements in the camshaft combustion chamber and exhaust system of the six-cylinder engine result in an increase in torque. At 800 revolutions per minute, the 3¼ by 4½ inch engine of Series 115 develops 145 foot pounds, as compared with 137 last year and at 1200 revolutions it develops 146 as compared with 141 last year. The 3¼ by 4¾ inch engine of Series 120 and 128 develops 186 foot pounds at 800 revolutions, as compared with 175 last year, and 1800 foot pounds at 1,200, as compared with 178½ last year. Translated into driving terms, this means that the new cars possess greater flexibility and get away as well as straight pulling power and hill ability.

To improve the performance of several of the heavier models, gear ratios in the rear axles were increased this year. Changes of 4 per cent. or from 4.9-to-1 to 5.1-to-1, were made in three models of Series 115. Two models of Series 120 were increased 7½ per cent. or from 4.54-to-1 to 4.9-to-1, and two models of Series 128 were increased 3½ per cent. or from 4.73-to-1 to 4.9-to-1. These changes bring the heavier sedan models up to the same standard of performance as the lighter cars, and are combined with increased engine power.

The changes in the engine include a new spherical type cylinder head, designed after study of compression problems. The engineers have succeeded in producing a higher compression engine, without placing owners in the plight of the rare car driver, whose small displacement engine will operate satisfactorily only on special and more costly fuel. The new engines will operate on any commercial grade of gasoline, either anti-knock or ordinary.

The new cylinder head is of the non-detonating type, which means that a higher percentage of the fuel is transformed into useful power, the tendency to knock being greatly lessened with any fuel. In conjunction with head improvements, the engineers have improved the camshaft, securing new coordination of valve action, greater area of valve opening, and quieter operation. Provision is made in the head for better cooling of valves, which seat more tightly and so conserve power.

To reduce valve noise new valve mechanism has been developed. The camshaft was specially designed to insure quiet, and the push rods were increased in diameter and shortened. Valve stems were shortened, and valve springs were re-designed to eliminate any tendency toward shimmy at certain speeds.

Proper cooling is insured by increased radiator capacity. The radiator of Series 115 models presents the same frontal area as does that of Series 120 and Series 128.

The standard gearshift has been adopted in the new cars with the former gearshift optional for present owners who desire it.

A centralized system of chassis lubrication is employed which reduces greasing effort. Hydraulic shock absorbers of the Lovejoy type are standard.

STATE IS SET FOR SUMMER FARM DAY

NUMBER OF VISITORS EXPECTED
TO TOTAL SEVERAL THOUSAND
FOR ANNUAL CONFERENCE AT
M. S. C.

Michigan farmers and their families, to the number of several thousand, will gather at Michigan State College Thursday, August 4th, for the annual summer Farmers Day. This meeting has come to be the largest annual gathering of its kind in the state, more than 8,000 attending last year.

The program will combine entertainment and educational features with the state championship plowing contest, the horseshow pitching and milk can throwing contests, and the usual inspection of the college experiment station and farms, showing the results of the latest experiments with livestock and crops, during the morning; the picnic dinner and band concert at noon; and a brilliant list of speakers for the afternoon.

Michigan's best rural choirs will compete in the annual singing contest, and the Grange baseball tournament finals will be played off during the day.

The leading Farmers Day speaker this year will be C. W. Pursley, of Brookings, South Dakota, president of the South Dakota State College and former assistant U. S. Secretary of Agriculture.

Particular interest will be added by the presence of hundreds of delegates to the Country Life Week conference, July 31 to August 6, from all parts of the United States and from many foreign countries.

Dad is urged to bring mother and the children, as the program has been planned in such a way as to furnish something of interest for every member of the family.

This Week

HOW MUCH MONEY?
MAN'S A POOR FISH.
CANCER AND THE 3RD EYE.

If you have \$81.16 in your pocket you have twice as much cash as the average. The Treasury tells us that money circulating July 1 amounted to "only" four billion eight hundred and thirty-four millions, one hundred millions less than last year, \$40.68 for each inhabitant.

The real wealth is credit. Four men in the United States, Rockefeller, Ford, Andrew Mellon and George F. Baker, could, with ease, borrow more money than all the cash that is in circulation.

Bobby Jones, golf wizard from Atlanta, Ga., defending his open golf championship title, made the first round of eighteen holes in 68 strokes, five under "par."

The secret in golf is control of head and nerves. In the air flying, or on the grass, playing golf, young Americans seem able to do that.

A well-meaning politician suggests a law admitting children to all baseball parks for twenty-five cents per child. A better law would supply city baseball parks in which children could play baseball. That is what they need, not the right to sit on a bench, paying twenty-five cents to watch somebody else play.

If young and old men of this generation played MORE, and watched LESS, it would be better for them.

British scientists are moving pictures in war against cancer. The camera records cancer growths, slowly, for two days. Then the film is speeded up, nine hundred and sixty times, and scientists see cancer cells actually growing. That's important.

Man can outrun a horse in time. An Irishman, afterward elected Mayor of Long Island City, ran more than 600 miles in six days. But, in water, man is literally "a poor fish." a most inferior fish.

Edward Keating finished first last week over a 24-mile fresh water course in 18 hours 47 minutes. In that time a shark could swim half way across the Atlantic.

Otto Koennecke, German flier, prepares for his trip from Berlin to San Francisco, with interesting care. Every part of his motor was being X-rayed yesterday in search of defects in the metal. Old statues show goddesses with three eyes, one in the forehead. Science has given to men a real third eye, the X-ray, that looks through solid metal, and we hardly appreciate it.

The Relief of Women

The Electrical Range gives immense relief to women in their most anxious and exhausting domestic task.

It makes cooking more of a pleasure than a toil. No fire or smoke or fumes; no grime on kitchen walls; no standing over a hot fire; no worry at all—the cooking process is automatic; it allows you to forget the kitchen until meal time.

Come in and let us tell you many interesting things about the Electric Range

THE DETROIT EDISON COMPANY

Mail Liners Always Pay Big Dividends

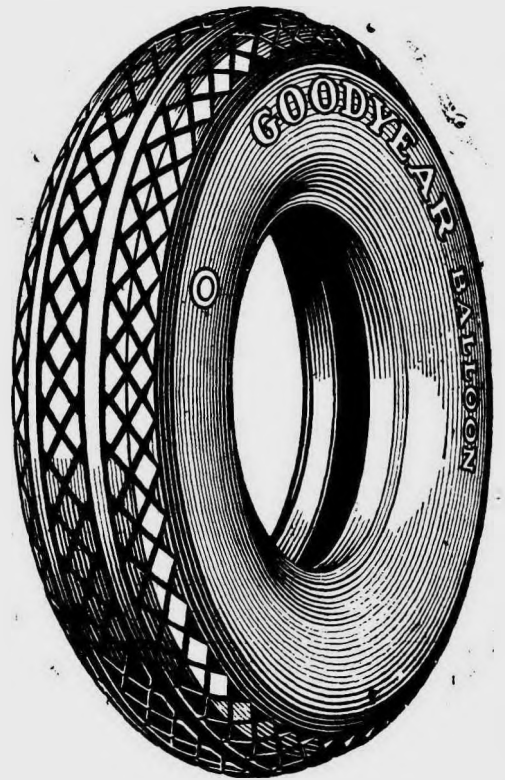

Two "BIG VALUE" Days GOODYEAR TIRES

FRIDAY and SATURDAY

Goodyear Tires are always BIG VALUE. But here are genuine Goodyears—fresh, new stocks—at SPECIAL PRICES which make them the BIGGEST and BEST values we have ever offered to car owners. Here is a SAFE AND SANE TIRE EQUIPMENT AT A GENUINE SAVING.
