WANT ADS COST LITTLE, ACCOMPLISH MUCH

FOR SALE—Bungalow, five rooms and bath; full basement, hot air furnace, fireplace, large lot, garage; lots of shrubbery; very good location. Call and see it. Elm Heights, 1381 Sheridan avenue. 511f

MUNICIPAL NOTES

All those interested in having Tompkins creek covered where it is being dammed are requested to be present at the next commission meeting held at the village hall, on Monday, November 21st, at 7 o'clock p. m. County Drain Commissioner Dintzman, as well as Mr. Shoecraft and Mr. Drury, of the firm of H. H. Decker, Shoecraft & Drury, will be present.

The village commission has been invited by one of Northville's commissioners to inspect their pavement and pay a neighborly visit. I hope this visit will start Plymouth on the road towards a same paving program.

MRS. ANN HUTCHINSON DIES

Lydia Ann Hutchinson, daughter of the late Wm. Maynard and Mary E. Maynard of Stark, was born in Livonia township, Wayne County, August 7, 1873. She was married in 1890, to the late Fred Hutchinson.

OBITUARY

Miss Jennie Smith, daughter of Mr. and Mrs. Richard Smith, was born in Livonia township, May 9th, 1881, and passed away at her home in Rosedale Gardens, Sunday, October 23rd.

MONUMENT FOR BLUE LICKS BATTLEFIELD

To Mark Site of Great Fight With Indians.

Carlisle, Ky.—Announcement is made by the Blue Licks Battlefield Monument commission, of which L. B. Ross of this city is secretary-treasurer, that a 40-foot high obelisk will be erected at Blue Licks, this county, where on August 10, 1782, the bloody battle between Indians and whites known to the "Dark and Bloody Ground" which became Kentucky was fought.

SCHOOL NOTES

There was no school last Friday, and school was let out at three o'clock Thursday, so the teachers could get an early start for the teachers' institute.

Most of the classes have decided to accept the student council plan for semester tickets for all school events.

The Senior dance is to be held this Friday, November 4th.

The commercial department is to have another new typewriter this week.

The Commercial Club has initiated fourteen new members.

The general history class is studying the early Roman period.

Mrs. Whitple's English 11 class is studying James Fenimore Cooper.

The boys who are going out for basketball, are starting to practice during the physical training classes.

The H-Y Club has many new members this year.

The Juniors are practicing regularly for their play.

Avery Gates

Grade Notes

Mrs. Halladay, Miss Farland—The 5-B people are finishing South America map study. The 5-A just finished making some Halloween posters. The children have started a Health Crusade.

Mrs. Bloxson—The children enjoyed their Halloween party on Thursday. They planned the entire party alone.

Miss Hodge—We had a wonderful time at our party. We made false faces and Jack-o-lanterns. We had good things to eat.

Miss Fenner—The boys in our room gave the girls a Halloween treat, because they lost their spelling contest. The boys furnished very good "ears."

Miss Hallahan—Arloth Baker and Burrise Delyo of the G-A, attended the concert in Detroit, Tuesday afternoon. The G-A people are studying interest 92% of the room received 100% in spelling last week.

—Vera Woods, Margaret Cline

Camp Wetomachick

Camp Wetomachick met Tuesday, October 25th, and a Halloween party was given.

The girls of Camp Wetomachick have paid their annual dues of \$1.00 each, and are ready to send it to the Camp Fire Co. Older girls of camp fire are to be assigned a new member which they are ready to prepare for ceremonial meeting that will take place soon.

Jennie Scarpulla

PLYMOUTH-FARMINGTON FOOT-BALL GAME

FARMINGTON	PLYMOUTH

Catherman, Q. B.	Crumm
G. Rozenboom, L. H.	Beegle
Messell, R. H.	Ford
Oris, F. R.	C. Foster

Substitutions for Farmington: F. Drake for Middlewood; Holmes for Starkey; C. Drake for Messell. Substitutions for Plymouth: Hillmer for Kinyon; Straub for Carney; E. Foster for Beegle; Carney for Straub.

Referee—VanWinkle.
Head line-man—Fletcher.

Score by quarters:
Farmington 6 0 0 7—13
Plymouth 0 0 0 7—7

Plymouth high was defeated at Farmington last Thursday, October 27, after having played almost all of the game with victory in sight. Both teams were very evenly matched, and it is as most fans say, "Farmington simply had the lucky breaks." The first and last quarters were decidedly the most interesting.

The game had been started for hardly more than five minutes, when Oris of Farmington, intercepted an attempted pass from Crumm to Carney, and ran about seventy-eight yards for a touchdown. This quick and seemingly easy touchdown was of course very encouraging for Farmington, and more or less discouraging for Plymouth. However, Plymouth still had more than three quarters of the game in which to redeem the touchdown.

Plymouth did not have much success in hitting the line, and so during the second half the main method of offense became passing. During the last quarter, Plymouth realized that she must make a touchdown to win the game. This she was successful in doing, but it was offset by another for Farmington.

In the first minute of play of the last quarter, Captain Crumm succeeded in making a touchdown around Farmington's right end. A pass, Crumm to Partridge, gave Plymouth the extra point, making the score seven for Plymouth and six for Farmington.

However, Plymouth's touchdown was immediately offset by another touchdown for Farmington. Hanchett kick-

OBITUARY

One of Northville's respected residents, Mrs. Lucy Eckles, passed away at her residence on Randolph street, Sunday morning, October 23rd, after a long illness.

Lucy A. Hamilton was born in Northville, April 19, 1863. She resided in this village and vicinity nearly all her life. On January 1, 1881, she was united in marriage to James H. Cork, and soon after took up their residence where the present home now stands. Mr. Cork preceded her in death in 1912. On August 10, 1920, she was again married to A. M. Eckles, of Plymouth, where they resided up to the time of his death in October, 1923. Mrs. Eckles then returned to her former home in Northville and from there to her eternal home.

She leaves two brothers, Herman H. and Frank C. Hamilton of Novi, and one sister, Mrs. Charles E. Burgess of Kalamazoo. She was loved by all her neighbors and friends by her cheerful willingness to aid in sickness and distress, and she will be sadly missed by those who have received her kindly ministrations.

Funeral services were held on Tuesday, October 25th, at Schrader Bros. funeral home. Rev. William Richards officiating, and the mortal remains were placed in Rural Hill cemetery. —Northville Record.

CLEAR UP A LINGERING COUGH

A lingering irritable cough is not so good. It reveals a wrong condition. But that wrong condition will quickly yield to the peculiar healing qualities of Foley's Honey and Tar Compound, a true cough remedy of proven medicinal value. From 651 E. 46th St., Chicago: "A stubborn, lingering cough worried me, kept me awake, tired me out, but it quickly yielded to your good Foley's Honey and Tar Compound, as my druggist assured me it would. Always dependable. Sold everywhere in Plymouth."

AROUND ABOUT US

The proposed Hunter school site for Novi district failed to carry, lacking only one vote.

The L. R. Hunter farm of 480 acres, near South Lyon, has been sold at a price of \$200 per acre.

Dedbridge Lodge, Degree of Honor, of Wayne, had the pleasure of entertaining the district convention Thursday, October 20th.

The Meadowbrook Country Club, on Base Line road, gave its annual "Farmers' Frolic" on Saturday, October 20th, in the clubhouse.

As soon as the concrete curbing is poured, the Grand River paving west of Seven Mile road and on the north side of the street will be completed.

Work has been completed on the first unit of the hangar system to be erected at the Stinson-Northville airport. The new structure, an all-steel one, is 76x70 feet, and will house six planes.

James Clark, a prominent figure in church and community circles of Northville, passed away October 20th, at the age of 76 years. The burial took place in Riverside cemetery, Plymouth.

Mr. and Mrs. Edward Stinson, Wm. Marc and J. W. Whittaker, the latter of Detroit, left last week Wednesday in a Stinson monoplane, for a tour of southern cities in the interest of airports.—Northville Record.

The state conservation commission has indicated that before the opening of the next fishing season an order will be issued prohibiting fishing in the inland lakes during April, May and June.—South Lyon Herald.

The dancing pavilion at the Island Lake Hotel that has been so popular among the dancing public, since the opening of the hall the latter part of the summer season, has been in the hands of contractors the past three weeks and has been enlarged to nearly double its former capacity.

The village of Birmingham will celebrate one entire week of thanksgiving during the month of November to acknowledge and exhibit the good fortune with which it and neighboring Oakland county towns have been blessed during the past year. The week will close with a union service on Sunday in the Kinsky theatre.—Brighton Argus.

November 1, 2 and 3 will witness the assembly at Battle Creek of about one thousand of Michigan's best leaders in Sunday-school work and other forms of religious education. The occasion is the Biennial, state-wide convention of the Michigan Council of Religious Education. This council represents officially eighteen denominations.—Brighton Argus.

Grand River road is to be widened to Farmington by the State as soon as additional highway money is available according to Governor Fred W. Green. In an interview with the Farmington Enterprise Monday, Governor Green said that the widening of Grand River to Farmington is among the first things on the state highway program.—Farmington Enterprise.

Making his one hundred fifty miles a day on a bicycle, Lowell Jepson has reached St. Peter, Minn., from Detroit, a distance of approximately eight hundred miles, to resume his work at Gustavus Adolphus College. Jepson is the captain of the tumbling squad at the college and a reserve end in foot ball. He made the bicycle trip to condition himself for the sport season.—South Lyon Herald.

The Pinckney Isaac Walton League secured last year funds from the resorts and fishermen in that vicinity to construct a fishpond near Half Moon lake, the land being donated by Elmer Glenn. A short time ago a shipment of 25,000 bluegills was received from the state fish hatchery and planted in the pond. They will be left there until they are large enough to take care of themselves, when they will be distributed among the nearby lakes.—Brighton Argus.

Eighty-seven years old—and he took his first ride in an aeroplane Tuesday afternoon. That was the delightful experience of Marvin Bogart, who lives over west of Novi. Tuesday morning Mr. and Mrs. Henry Ford sent their chauffeur over to Mr. Bogart's home inviting him to come to Dearborn and spend the day. During the afternoon he was taken for a ride in one of the giant Ford planes. They flew over the city of Detroit, reaching the altitude of 3200 feet. Mr. Bogart declares that it was a remarkable and pleasant experience.—Northville Record.

Negotiations by the Village Commission have just about been completed for the construction of a viaduct which will be built underneath Michigan avenue at Elizabeth street. The details of the tunnel have not been fully worked out but will be ready in order that preliminary work may be started before the paving reaches that point. The Wayne County Good Roads have offered their assistance by furnishing the gravel and other supplies while other companies whose aid may be needed have offered to cooperate. It is estimated that such a thing may be built with very little expense and the precautions involved for the safety of the school children, more than justifies such an expenditure.—Wayne Weekly.

A herd of twenty-two deer make their home along the Shiawassee river near Cohasset, in Livingston county, about eleven miles north of Howell. The herd has grown from four yearling fawns sent to the game warden of that district eight years ago. The three does and a buck had been abandoned by their mother and were shipped from the neighborhood of Ironton, through permit of the game department. When ready to shift for themselves they were turned loose in the lowlands adjoining the Shiawassee river, where they are living contentedly, seldom wandering beyond the boundaries of the township. Although alfalfa and hay have been placed out for them during severe weather in winter, they seem to prefer elm, maple and witch-hazel browse but are not adverse to nibbling on corn shocks left standing in isolated fields.

It is now up to Morrow in Mexico. Scientists have now decided that "excitement" is an emotion ranking along with love, anger, fear, hate and joy. For a demonstration watch do! these days as Christmas shopping gets under way.

Picked Up About Town

According to Dad Plymouth, the man who drops a penny in the slot has the right of weigh.

"Matrimonial bonds," declares Dad Plymouth, "are the only kind of bonds that pay best when two parties are keeping up the interest."

A friend told us recently of a friend who is so absent minded that when he heard himself knocking the ashes out of his pipe he said "Come in."

Dad Plymouth declares that the hardest work some fellows do is along about the first of the year when they change the license plates on their car.

"No man has ever had a real shock," asserts Dad Plymouth, "until he has stepped on a cat in the dark."

"There was a time," says Dad Plymouth, "when a bow-legged girl could keep a secret, but fashions in skirts has now robbed her of a chance to keep that one."

New Face Powder Makes a Big Hit

Wouldn't you, too, like a face powder that will keep shine away—stay on longer—spread smoothly—not clog the pores—and always be so pure and fine? It is made by a new French Process and is called MELLO-GLO. It is surely a wonderful Face Powder. Just try MELLO-GLO, Community Pharmacy. "We Serve You Right."

PLYMOUTH TOURIST CAMP
Plymouth High vs. Northville High

Northville High has not been beaten this season. Plymouth is going to try and do what no other teams have been able to do today. If you want to see a real game don't miss this one.

Admission 35c. Boost the Home Team

On his way to France the monarch became seasick. That worried him, for he could not understand why a king should be seasick like common folk.

One day he became concerned about his whereabouts after seeing nothing but water for a number of days. He sent for the captain of the boat, who assured him that they would sight land the next day. They did sight land the next day, and his majesty was so pleased that he ordered a special hymn of joy to be sung for Buddha.

His surprise at the captain's "prediction" coming true was so great that he decorated him with a Cambodia order, observing at the same time, with a touch of hauteur, that it was strange the captain knew where his ship was while his majesty did not.

King Sisowath was said to be the oldest monarch in the world, and to have been born in 1840. He succeeded to the throne of his brother, King Norodom, in 1904.

Ancient Roman Kitchen Found in Great Britain

Epsom, Surrey—Roman remains dating back to the time when the British Amazonian Queen Boudicca rose in revolt, have been brought to light near here.

Excavations on the site of the Roman villa in Ashstead wood, discovered by A. Lowther, two years ago, have shown that underneath and extending beyond the rear of the building are the walls of an earlier structure. From the manner in which it was built and the style of the material used it is considered that it was destroyed about 60 A. D., or the period of the rising of Boudicca. The latter building probably dates to the time of Hadrian, 130 D. D., and remained, to judge from the latest finds of pottery, until at least 250 A. D.

The latest discoveries include a kitchen with an oven tiled at the side and connected at the bottom full of charcoal, an enamel bronze brooch with the design of a dolphin on it, two blue glass beads, a silver coin of Hadrian, and a small head of a swan in bronze.

Berlin Eases Passport Rules for Americans

Berlin.—To facilitate the entry into Germany of those Americans traveling in Europe who make up their mind at the last moment to come to this country, the German passport department has tentatively instructed the principal frontier stations at Benthelm, Aix-la-Chapelle, Kehl and Basel, to allow all Americans equipped with a passport and against whom there are no formal objections, to pass the border into Germany, even without a regular German visa.

This measure, however, is merely an experiment to continue in effect until October 30 of this year, when the authorities will determine if a sufficient number of Americans have availed themselves of this prerogative to warrant the permanent adoption of such a regulation.

Germ's Spread Feared; Ex-Hospital to Burn

Edmonton, England.—A disused hospital in the populous downtown district here has been ordered burnt by the city health authorities, who fear that if the structure were razed in any other way germs might escape.

About twenty-five years ago a smallpox epidemic raged here and since then the hospital has been used as a storage place for lumber.

Health officers said that if the building was pulled down germs might escape through the wood joints.

GET OUT THE ALMANAC

Beautiful residences for rent on Main street. Five blocks from the Everglades. Apply at Real Estate office any time during low tide.

Also all lots or parts of lots and parcels of land abutting on the south side of Penniman avenue from Moreland avenue to Harvey street.

NASH New Price \$1335

Lightning pickup!

This Nash Special Six 4-Door Sedan has the **FASTEST** acceleration in its price-field.

When traffic starts, this big Nash 7-bearing motor puts you in the lead instantly.

DRIVE this Sedan and test out its great pickup—and its great **SPED** and **SMOOTHNESS**, too.

Along with its **EXTRA** power it has the smoothest, quietest type of motor ever engineered.

And in many other important ways this brilliantly exceptional car offers far more in both quality and value. The instrument board is a good example. Nash has finished it in walnut effect. And the door panelings and window moldings are similarly treated.

Cushions are form-fitting to give you greater comfort. Upholstery is fine mohair, tufted beautifully. There's a vanity case and smoking set, leather mounted.

Drive your car in when you come—we want to tell you about our special, **LIBERAL** terms on your car for this week.

THE NEW NASH IS A GREAT AUTOMOBILE

SAY FARMERS OUE FOR BETTER TIMES

LEADERS AT M. S. C. CONFERENCE BELIEVE DEFINITE UPWARD TREND HAS BEEN INITIATED.

Agricultural leaders in close touch with farm conditions corroborated each other at the annual extension conference held recently at the Michigan State college in the statement that

rural economic conditions are on a definite upward trend. Michigan farmers are in the van in this forward movement, according to the statement of Dean R. S. Shaw, because these farmers have not confined their efforts to the production of any one crop. Both crop and livestock prices show improvement. Dean Shaw believes that a comparison of the 1926 bank failures in the United States last year with the single failure that occurred in Michigan is proof of the soundness of economic conditions in Michigan. Prices for horses, cattle, sheep and hogs show every indication of im-

provement, according to a statement made at the local conference by Dr. C. E. Ladd, director of extension work in New York. Dr. Ladd believes that livestock prices move in cycles up and down, and that the present upward movement will continue for some time. The New York economist also predicted that there will be a great increase in urban population in cities between Buffalo and Chicago within the next decade, and that Michigan farmers will be called upon to supply the milk for these greater cities.

Pedestrians these days are going ahead by leaps and bounds.

OKEH SAYS COOLIDGE. AN EGG FOR BABE RUTH. CHILDREN AND SUNSHINE.

President Coolidge, surveying national conditions, finds them excellent. As regards business and prosperity, Secretary Mellon says there is capital in abundance, for all new ventures worth while, crops are good and automobiles are expected to set new sales records.

Secretary Hoover reports that our exports are increasing. This year is ahead of the same period last year and our imports have one pleasant feature. We are not paying England the high prices for rubber that we paid last year. You may reply to questions about the business outlook, as follows: Nothing the matter, if business does not become afraid of its own prosperity.

At Omaha, Babe Ruth received, as token of his greatness, an egg laid by Lady Norfolk, champion hen of the world.

It was the 170th egg laid or hatched by that hen in 170 days. Ruth remarked: "A hen's egg by the river's brim, a simple hen's egg was to him, and nothing more," and went on with his batting. It would surprise the bird of America to know that such a hen as Lady Norfolk is more important to the country than all its baseball players.

The American Public Health Association, gathered at Cleveland, is told that today's greatest cause of death is heart disease. And repeated infections, such as "common colds," to which so little attention is paid, cause heart disease. The trouble starts often in childhood, with childhood's diseases, all of which might be avoided. This should interest parents of the dark ages type who think "the children might as well have measles and such little things first as last and get them over with."

Toronto University proves that sunshine will cure rickets, of which many children die. A German wrote more than 100 years ago, "God may forgive you for not giving to children bread that costs money. But He will not forgive you for depriving them of fresh air that costs nothing." To prove that sunshine cures rickets does not mean much, when millions of city children can not have the sunshine.

Power companies worth twenty-three billions dollars don't want the government to harness the Colorado River. That might mean competition in the power business.

Twenty-three billions is less than \$230 per inhabitant of the United States, less than the price of a small automobile. "Twenty-three billions" sounds big, but 115,000,000 human beings, all interested in Colorado River development, possess power also. The Colorado will be developed and power gentlemen will be glad when it happens. Learned bankers fought the Federal Reserve law, dreading interference with pleasant profits. It has saved them from black panic half a dozen times.

There are now 20,991,333 automobiles under license and being driven in the United States, according to a Washington report. And it is correct. We counted them in a traffic jam at five-corners Sunday afternoon.

BOXING MATCH AT DEARBORN

Joe Burke, Michigan heavyweight champion, has been matched to box an eight-round match with Jack Bartkoviak, Fordson's fighting cop, in the Calvin theatre, Dearborn, on November 7th. This show will be the first of a series of monthly bouts held by the K. of C. Athletic club of Dearborn, and all proceeds will go to the building fund of the society. Burke has fought Tommy Gibbons, Luis Firpo and Young Stribbilla, while Bartkoviak has knocked out his last six men, Rem Williams, Detroit, and Jack Kennedy, St. Paul, will meet in the semi-final. Kennedy has recently beaten Al Brown.

There will be three four-round bouts. In these will come together George Gregor, of Detroit, and Jackie Horner, of Altoona, Pa. Clyde K. O. Haskies and Charley Seebrook, both colored lightweights, and Tommy Doyle against Johnny Horn, Harry Tutbill, well-known referee, will officiate over all bouts, and ladies are invited.

A liner ad in the Mail has helped many people to dispose of used articles.

Interesting Farm Items

A one-crop system of farming ultimately leads to disaster, whereas diversification and crop rotation lead to well-organized and profitable farming.

At least 100,000,000 laying pullets have to be raised in the United States each year to replace that number of yearling and older hens.

Soil productivity can be best maintained when intertilled, small grain and leguminous or grass crops are grown in the order named and in recurring succession on the same land.

Frozen silage must be thawed before using, after which it should be fed immediately, before decomposition sets in. No harm will result from feeding such silage, nor is the nutritive value known to be changed in any way.

The use of airplanes, power boats, sail boats and other floating devices for the purpose of concentrating, milking or stirring up migratory waterfowl to improve shooting conditions has been prohibited by a federal regulation.

There have been a few more farm hands this year than there have been jobs for them. Farm wages are now 75 per cent higher than they were before the war, but they are still below relative industrial wages. The increased supply of farm hands this year is attributed to lower volume of industrial employment.

As an interesting variation in agriculture the propagation of game birds for profit is suggested by the biological survey of the U. S. department of agriculture. The demand exceeds the supply and profits may be reaped from the sale of adult birds to breeders of both young and adult birds for restocking of preserves, and of eggs for distribution to both farmers and shooting clubs. Pheasants, quail, mallard ducks and Canada geese are varieties that have been raised successfully in the United States, and the biological survey has available detailed advice for those who intend to go into the business.

January 1, 1928, falls on a Sunday. The next time our present New Year's day comes on Sunday will be in 1933. So if the 13-month calendar is to go into effect in the earliest possible way, beginning the week exactly as at present, something must be done about it fairly soon or we shall wait another five years. The idea of the 13-month calendar, which is strongly favored by the U. S. weather bureau, is that there will be 13 months of exactly 28 days each, necessitating an extra month, probably set in between June and July. There will be one day left over, and it is proposed to call this "Year Day" and make it a universal holiday between December 28th and January 1st. All in favor say aye!

The department of agriculture has kept a record of average monthly farm prices of eggs from 1910 to 1924 and finds that the price is lowest in the month of April, remains fairly steady until July, and then begins to increase until December, although through January the price still remains at a fairly good figure. From August to January, therefore, is the season of highest prices, and if egg production is good during that period profits in egg production are increased greatly. Unfortunately, however, on most farms and on many commercial plants, it is during the fall and early winter months that the old hens are in the process of molting and pullers have not yet commenced to lay. Thousands of farmers lose large sums of money simply because they do not hatch their pullets early enough so they will begin laying in time for the high prices during the fall and winter months. They fail to realize that pullets are almost the only source of eggs at that time of the year, because hens are sure to moult, and they may take from 30 to 90 days to go through the complete molt.

O-PER

Perspiration Odors are Inexcusable

PERSPIRATION and other body odors are so elusive. We detect them instantly in others—but often haven't the slightest idea that we give offense ourselves.

BROMIDROSIS—Do you have it? You are no exception to a host of others who have it and do not know it. The term means odor of perspiration which is variable in amount with different individuals. One per cent of the perspiration is solid matter, which, plus warmth, plus moisture, where perspiration is confined as in the arm pits, causes decomposition with odor. Prevent this decomposition and you prevent odors. Odor of perspiration does not mean filth or uncleanness.

A Detroit store lady has lost two positions during this year on account of **BROMIDROSIS**; she procured samples from us at the Michigan State Fair recently and assures us she is free from odors and is having no difficulty to hold her position. This lady is one of many who are enjoying the products.

Few are aware of odors which are being given off their person and it falls to some kind friend to tell them. The use of **O-PER** eliminates the necessity of embarrassment.

USES OF O-PER DEODORANT—Controls all body odors with our guarantee squarely behind the statement.

FEET—No case of **BROMIDROSIS** of the feet is too bad to be promptly and effectively controlled, with the chafing between the toes.

SANITARY NAPKINS—Absolutely and positively the only agent ideally satisfactory in conjunction with local application.

CHAFING—Controls and prevents in baby and adult. Every mother who has used **O-PER** is loud in its praises. A leading Detroit chemist recently procured six boxes for his wife and baby.

AFTER SHAVING—A most agreeable application.

There is no product on the world's market which has such a wide range of usefulness—absolutely free from irritating qualities as evidenced by its wonderful adaptability to use on the skin of a new born babe and thereafter.

The writer of this copy asks that you take nothing for granted; that you believe not a word until you have verified every statement by a practical application of the product. We mean that the success of this product shall rest on its merits instead of the kind of advertising which they say will make a fortune from the sale of rain water.

Procure your **O-PER** at your local drug stores.

If your druggist does not have O-Per mail this coupon

GEO. CHADWICK WELL KNOWN YPSI BUSINESS MAN PASSES SUDDENLY

MANAGER OF GRINNELL BROS. MUSIC STORE VICTIM OF HEART ATTACK.

George W. Chadwick, 54, well known resident of Ypsilanti, passed away at his home in that city on Grove, on Tuesday, October 25th, following a sudden attack of heart trouble. He had been ailing, however, for the past two years.

The funeral was held on Thursday from the late home, with interment in Highland cemetery.

He was born at Sault Ste Marie, and while a young man moved to Northville, where he lived until 20 years ago, when he went to Ypsilanti, where he had since resided. He was manager of the Grinnell Brothers store of Ypsilanti, at the time of his death.

He is survived by three children by his first wife, Mrs. Eliza Grabow, Lansing: Kimball Chadwick, Battle Creek; and Walter Chadwick, Ypsilanti; three children by his second wife, who survives, and a brother, William Chadwick, Zanesville, Ohio. Mr. Chadwick was well known in Plymouth, where he had many friends who will regret to learn of his death.

MAKE LIFE WORTH LIVING

Don't go around feeling tired, lacking in energy and strength, because your kidney action is irregular or below normal. Use Foley Pills, a diuretic stimulant to the kidneys, and feel again the urge of an active, ache-free body, the return of health and vitality. "Your Foley Pills diuretic are the only thing I ever got to do me any good," writes Samuel Brenner, Alexandria, Ind. Men and women everywhere use and recommend them. Sold everywhere in Plymouth.

BUILDING OCCUPIED BY TELEPHONE CO. AT FARMINGTON, DAMAGED BY FIRE.

Fire in the hallway of the building occupied by the Telephone office at Farmington, presented a critical situation for Miss Barbara Emston, night operator, Sunday morning, October 30. Miss Emston heard someone come up the stairs about midnight. The usual pay station call was not received, and some concern was felt as to what the visitor was up to. A considerable period of time, and during which she did not hear the party leave the building, followed, and she finally decided to investigate. On stepping into the hall she found the stairway leading to the street on fire. When she endeavored to return to the operating room, she found that the spring lock had cut off retreat and a possibility of turning in a fire alarm. In this trying situation Miss Emston had to find a way out.

An air shaft running from the basement of the building to the roof provides ventilation for the hallway, and an interior room of the exchange quarters. Miss Emston raised a window opening into the air shaft and found that fortunately the window of the exchange quarters was not locked and could be opened from the air shaft. She then crawled from one window ledge to the other and called the fire department, who soon had the fire under control. The fire department removed Miss Emston from the smoke filled operating room with a ladder from the street side of the office. The occupants of the second floor, Dr. Weaver and the Telephone Company, suffered some damage from smoke and water. A hole was burned in the ceiling of the barber shop on the first floor of the building.

Fortunately the water used by the department did little damage to the electrical equipment of the telephone exchange, and there was no interruption in the service.

PERRINSVILLE

The Aid Ladies met at Mrs. Emma Steinhauer's Monday evening, and tied two quilts for the bazaar. They also met at Mrs. Christner's Wednesday, and quilted a quilt.

Mr. and Mrs. Guy White of Fort road, have installed a radio.

Mr. and Mrs. George Baehr attended a banquet at Hawthorne clubhouse, Tuesday evening.

There will be another old time dance at Hawthorne, November 12. Everybody welcome.

Peter Kubic has been on the sick list.

Rev. Johnson preached a good all-around sermon on life, from youth to old age. We hope to see more out to church next Sunday.

The Aid Society will meet with Mrs. Belle Baehr, November 9. Everybody welcome to lunch.

Don't forget the bazaar and supper at Gleaner hall, Friday night.

Mr. Riggs, father of Mrs. Raymond Hanchett, passed away at Elsie hospital, Sunday night.
