

GEO. H. ROBINSON ELECTED PRESIDENT BY COMMISSION WEDNESDAY NIGHT

ELECTION IN PLYMOUTH CALLED OUT SMALL VOTE

Salvation Army Will Observe Birth of Founder April 9

MEETING WILL BE HELD IN BAPTIST CHURCH TUESDAY, APRIL 9.

The centenary of the birth of William Booth, founder of the Salvation Army, was born on the 10th of April, 1829, is an event that compels reflection.

One of the founder's talking subjects during one of his visits to America was "What I Have Done With My Life," and with an evangelist's proneness to the personal, he would finish with the interrogation, "What have you done with yours?" What he accomplished was obvious.

The Salvation Army certainly stirred the dry bones of religious life and activity in Great Britain, and there soon followed on the heels of his movement forward movements among the Nonconformists and a Church Army among the Episcopalians; in fact, when William Booth unfurled the flag of "The Blood-and-Fire" in Tokio, and speedily helped to pass a law freeing 40,000 white slaves from the Yohsiwara, the Buddhists started a rival army. Intuition is still the sincerest form of flattery.

In sociology William Booth was as daring as he was in religious innovations. He was moved to tears while passing over our western wheat fields to see hundreds of thousands of bushels of grain rotting away. He contrasted that economic failure with the starving millions he had left behind in his own fatherland and prayed the Almighty to spare his life long enough to bring the two facts together—the hungry and the waste food. In that hour of compassion—practical compassion—was born the Army's great social schemes, the comprehensiveness of which will be gathered from the following statistics: 4,287 officers and 154 social institutions.

We are not yet out of the morass. May the Salvation Army gain strength to its moral and spiritual muscles in the task before our present civilization in helping us to get rid of it!

Took Leading Part In Building Program

ASSETS OF ASSOCIATION HAVE GROWN FROM \$18,816.16 TO \$92,328.90 IN 1928.

The Plymouth Home Building Association again took a leading part in Plymouth 1928 home building program. Since its organization in October 1919, the association has been widening its activities in aiding citizens to purchase and erect new homes.

While 1928 did not show the amount of home building that some previous years have shown there were many new houses erected and others modernized, a large share of these being through the cooperation of the building and loan association.

The first loan by the association was granted for \$2,500.00 on March 8th, 1920. Since then more than a hundred loans have been negotiated, the number swelling with the assets of the association each year. At the present there is \$85,217.02 loaned on 45 buildings and the demand is constantly growing with the need for more homes in Plymouth where the supply has been short of the demand for several years.

Assets of the association have grown from \$18,816.16 in December 1920 to \$92,328.98 in December 1928, with prospects that they will closely approach the \$100,000.00 mark before January 1, 1930.

Present officers and directors of the association are: E. O. Huston, president; Edward Gayde, vice president; R. R. Parrott, secretary-treasurer; A. J. E. Torre, assistant secretary-treasurer. Board of Directors: E. O. Huston, Edward Gayde, W. J. Burrows, C. H. Bennett, W. Pettinill, C. Mather, Wm. Sutherland, C. Verkirck, and R. R. Parrott.

The Proposition to Light the Plymouth Road to Livonia Town Line Defeated.

Appropriations for the Various Funds Were Made at the Annual Meeting.

The annual township and biennial election Monday did not bring many voters to the polls. The disagreeable day and the fact that there was only one ticket in the field locally no doubt kept many away from the voting places. The total number of votes cast was 237 in precinct No. 1 and 84 in precinct No. 2.

At one o'clock the annual town meeting was held in the council chamber in the Village Hall, with Supervisor Rathburn presiding and Miss Lina Durfee as secretary.

The following appropriations for the various funds were made for the ensuing year:

General Fund	\$7,000.00
Poor Fund	3,000.00
Highway Fund	5,000.00
Library Fund	500.00
Public Nurse	1,200.00

The proposition for lighting the Plymouth road from the Village limits to the Livonia township line was defeated. The vote stood as follows:

First precinct—Yes 129; No 109.
Second precinct—Yes 34; No 49.
The total vote was 158 yes and 158 no.

The following is the vote on township, state and county ticket:

Township Ticket.	
Republican Ticket	
Supervisor—Chas. H. Rathburn	307
Township Clerk—Calvin Whipple	280
Township Treasurer—Lulu Quartel	305
Justice of the Peace—Oliver H. Loucks	305
Member Board of Review—John W. Henderson	301
Highway Commissioner—Melburn Partridge	300
Highway Overseer—Floyd Miller	302
Constables—	
George Springer	305
Fred Samble	304
Paul Groth	297
Charles Thumme	292

State and County Ticket.

Justices of the Supreme Court—	
Walter H. North (R)	281
Louis H. Ford (R)	283
John W. Anderson (D)	17
George W. Weadock (D)	18
Regents of the University—

Robert M. Toms	290

Representative in State Legislature.

To all vacancies, First District—	
Clarence J. Dacey	190
County Auditor—	
William H. Green, Jr.	286

NANKIN.

Election of Peter J. Snyder, Democrat, as supervisor over Ralph Raymo, Republican, was the only upset in the election in Nankin township Monday. Snyder polled 869 votes to 710 for Raymo. All other Republican nominees were elected. Albert R. Walker was elected clerk, with 1,019 votes to

(Continued on page 4; col. 4.)

Woman's Club Hear Economics Speaker

On March 22 in the Hotel Mayflower, the Woman's club members who were present enjoyed a very pleasant afternoon. After the regular business meeting Mrs. Bentley, as chairman of her division, introduced Miss Fregard, supervisor of the home economics department of the Michigan State college. Her personality was forceful and pleasing and her topic, "Better Homes," was delightfully handled. The music for the day, in charge of Mrs. Millard, was as anticipated, decidedly entertaining. It included two numbers, the first, a trio of Louis, Joseph and Helen Rilbar, played three Hungarian selections, "Magyar Hymnus," "The Beautiful Charming" and a Hungarian hymn. Miss Doris Duffell's two violin selections were "The Songs of Czard" and "A Norwegian Dance."

As gardening is so important in the minds of so many at this time of the year, it will be of especial interest to the members of the Woman's club to know that on Friday afternoon, April 12, Phillip Brimley, of Detroit, will be the speaker for the afternoon. As a courtesy to him and also as a pleasure to the ladies of the club, it is the desire of the club to have as many present as possible; so, ladies, remember and save Friday afternoon, April 12, for the club program.

"CUPID UP TO DATE" MUSICAL COMEDY TO BE PRESENTED

The Entertainment is Given Under the Auspices of the Woman's Guild of St. John's Episcopal Church.

Will Be Given at High School Auditorium Tuesday and Wednesday Evenings, April 9-10.

Rehearsals are being held every afternoon and evening for the musical comedy, "Cupid Up to Date," which is to be presented next Tuesday and Wednesday evenings, April 9 and 10, in the high school auditorium. The production is being sponsored by the Woman's Guild of St. John's Episcopal church and is under the personal direction of Miss Miriam Mower, of the Wayne P. Sewell company.

Local playgoers who saw "The Flapper Grandmother" and "Rose Time" are well acquainted with the quality of Sewell shows. The commitments are hard at work and every effort is being made to make "Cupid Up to Date" one of the most successful productions ever presented by the local talent. Each member of the cast and the groups is entering into his or her part with a great deal of enthusiasm.

The play offers plenty of variety in the way of drama, comedy, music and dancing, and the costumes are clever, unique and up to date. The story deals with the constant conflict between love and science or materialism.

Dan Cupid (Betty Housley) represents love, and his constant helpers are Father Time (Ernest Henry), and Common Sense (Catherine Nichols), Senator Bing (Mrs. John Birchall), and John Scientist (Elton Ashton) represent Materialism. Bully (Wilbur Murphy), and Domestic (Maena Bolton) are two young people who haven't quite become adjusted to married life, and if you want to see a real scrap, see the fight which starts over a collar button. Dolly Extreme (Dora Gallimore) is a modern girl of the extreme type. Will Steady (Russell Wallace), Dolly's sweet heart, is a likable dependable fellow. Cora and Dora Dumb, twins (Janet Blickenstaff and Winona Kenter) are typical flappers. Eddie and Freddie Freeverse, also twins (Charles Foster and Charles Beagle) are "jelly beans."

When the play opens everyone is restless and nervous, always looking for something new; turning their attentions to scientific discoveries, and completely forgetting about love. Cupid becomes disgusted with the situation and goes to Mars, much to the sorrow of Father Time and Common Sense, upon whom falls the burden of adjustment, with the field open to science. Father time sets the clock up a hundred years and gives Bing and Scientist their chance.

By a scientific invention of Bing's

(Continued on page 4; col. 4.)

Sub-district Contest To Be Held Here

The sub-district contest of the fourth sub-district of the first district will be held in the Plymouth High school auditorium.

This contest is to select a representative in declamation and oration to compete in the district at Northwestern High school, Detroit. The schools represented in the contest are Fontson, Dearborn, Belleville, Wayne, Northville and Plymouth. Plymouth's representatives in the contest are: In declamation, Harold Stevens, with the declamation, "A Plea for Cuba"; in oration, Alvin Van Bonn, with an oration on "World Peace."

Plymouth has always made a very creditable showing in the sub-district and district and both contestants are working hard to make this year no exception.

MUSCLE SHOALS.

Col. P. E. Hulp, who has lectured in all of the schools and nearly all the churches in Chicago of all denominations, is to give an illustrated lecture on "Muscle Shoals" in the church house of the Methodist Episcopal church Friday evening, April 12. Nearly everyone has heard the name, but few know what it is or where it is. Col. Hulp's lecture gives a graphic idea of the district and clears up many vague notions of the works.

Merchants Baseball Team Elects Officers

A meeting of the base ball players and fans held last Saturday evening was well attended and they elected the following officers: President, Jesse Hake; Secretary-treasurer, John Quartel; Manager, Earl Gray; Captain, Leonard (Bud) Millross.

The boys were sorry to receive the resignations of Arthur Eckles, Secretary-treasurer, and Chet Burley, as Manager, who have been untiring workers for the past two years. Business does not allow them to continue in these offices.

There are a number of promising new players showing up for practice, and anyone else who likes to play base ball is requested to come out to the ball park every Tuesday and Friday evenings and give the team opposition.

BANDITS HOLDUP CHICAGO BUS

THIRTY-ONE PASSENGERS LINED UP IN POURING RAIN; BUS DISABLED.

Six bandits held up a Detroit to Chicago passenger bus near Wayne last Sunday night, getting an average of about \$25.00 from each of the thirty-one passengers.

Two of the holdup-men rode in the bus from Detroit while the others followed in two cars. The driver, Wier Hughes, was forced to turn onto a dirt road when one of the men in the bus drew a gun. After the driver and the passengers were robbed the ignition key was taken from the bus and the cable torn from the generator. Pursuit was thus delayed until no trace of the bandits could be found.

The passengers, who had been lined up outside the machine in the rain, were thoroughly chilled and were delayed an hour and a half while repairs were made on the machine.

The cars following the bus supplied transportation for the bandits who had been in the bus.

The New President and Village Manager Make Several Appointments at Meeting Held Wednesday Evening.

Stage Set For First Annual Stunt Night

FIRST ANNUAL STUNT NIGHT TO BE HELD IN PLYMOUTH HIGH SCHOOL, FRIDAY EVENING, APRIL 5.

The four classes, nine to twelve, inclusive, are busy planning their competitive stunt, the audience to be given on the auditorium stage at 8:00 o'clock tonight.

In previous years the school has put on an all-school carnival which has always been enjoyed. The proceeds this year are to be divided among the four classes and the Student Council. Upon the vote of the public will determine the share which the members of the four classes receive, because they receive in proportion to the quality of stunt which they produce. This will be the most novel entertainment that the high school has ever sponsored and with the keen rivalry which exists among the classes in the preparing of their stunts, the public is sure of having one of the most entertaining evenings which the school has ever furnished.

Mrs. F. W. Samsen Passes Away

Mrs. F. W. Samsen, wife of the owner of the Mail, passed away Thursday morning at 8:30 o'clock at her home on Church street. Funeral services will be held from her late home Saturday afternoon at 2:30 o'clock.

Held Annual Meeting.

The annual meeting of the Wayne County League of Women Voters, held at the Hotel Statler Wednesday, March 27, was a most enjoyable occasion.

A large gathering of women representing the various leagues in the county was present. The morning was devoted to reports of the Wayne county league, election of officers and to a discussion of plans for beautifying parks and boulevards.

Following the luncheon held at 1 o'clock, each club gave its achievement record for the past year. Mrs. Phoebe Patterson, past president of the Plymouth league, received an ovation from the women present when she gave the record of her league's accomplishments in a few witty sentences.

Those present from Plymouth included Mrs. Charles O. Ball, president; Mrs. Phoebe Patterson, vice-president; Mrs. Clara Todd, Mrs. John Dayton, Miss Mary Conner, Miss Almada Wheeler, Mrs. Mary Hillmer, Miss Lina Durfee, Mrs. Frank Millard and Mrs. E. Drewyaur.

The April meeting of the Plymouth league will be held the evening of April 15. After the dinner, to which the husbands are invited, Miss Grace Brown will present her popular skit, "Behind the Scenes in Recorder's Court."

Boy Dies of Dog Bite.

George J. Innis, four-year-old son of George Innis, Jr., 3095 Ashland avenue, Detroit, died Saturday, March 30, in Herman Keifer hospital as the result of a bite of a rabid dog. Burial in Riverside cemetery. The boy was bitten by a strange dog Feb. 27 while playing near his home, and although he received the Pasteur treatment and had apparently fully recovered, he died after an illness of two days. People should stop and consider the fatal result of carelessly allowing a dog to run loose that had not been properly vaccinated or muzzled. The dog mentioned was not found and whether the dreaded disease was spread to other animals is unknown. The boy's father is a brother of Alfred Innis, of this place.

At an adjourned regular meeting of the village commission held Wednesday evening Commissioner George H. Robinson was elected by the members of the commission as president for the ensuing year.

Mr. Robinson has served as a member of the village commission and council at various times and has gained a wide knowledge of municipal affairs that will prove very valuable in serving the village in the capacity of village president. The commission could not have made a better choice. The commission voted to combine the offices of village treasurer and assessor under a provision of the charter. This action was taken as a matter of economy. President Robinson appointed George W. Riehwine as treasurer and assessor.

The village manager made the following appointments:

George W. Springer, chief of police

William A. Resideman, superintendent of public works.

Fred Wagonschutz, chief of the fire department.

The commission voted to pay the fire chief a nominal salary of \$120 per year, plus regular fees for attending fires, meetings, etc. Regular inspection of buildings in the fire limits and the control of fire hazards will constitute an important duty of the fire chief hereafter.

ROTARIANS HEAR INTERESTING AND INSTRUCTIVE TALK

E. H. DICKEY, OF MICHIGAN BELL TELEPHONE CO., EXPLAINS "TELEVISION AND TELEPHOTOGRAPHY" TO CLUB MEMBERS.

A most interesting and instructive program was given before the Plymouth Rotary club Friday by E. H. Dickey, of the Michigan Bell Telephone company, whose presence was procured from Grand Rapids through Manager R. E. Crowe, of the local telephone office.

Mr. Dickey opened his program with a talk of approximately twenty minutes on that most interesting subject, "Television and Telephotography."

(Continued on page 8, col. 4.)

Death of Aged Lady.

Mary E. Lund, aged 92 years, nine months and 16 days, passed away at her home on the Northville road Saturday, March 30. Funeral services were held from her late home Wednesday afternoon at 2 o'clock, Dr. E. A. Lendrum officiating. Interment was in Waterford cemetery.

Formal Opening of New Garage

THEATRE COURT SERVICE AND A. J. BAKER'S CENTRAL GARAGE ANNOUNCE OPENING SATURDAY, APRIL 6.

On another page of this paper will be found the announcement of the opening of the Theatre Court Service, located in the rear of the Penniman-Allen theatre, and the re-opening of the New Central Garage, A. J. Baker, proprietor, which will take place on Saturday, April 6.

The new garage, which has just been completed by the owner, Walter Bronson, is 50x81 feet in size, of brick and steel construction, and is modern in every respect. Mr. Bronson has had installed all the latest devices for the servicing of cars, such as a 250-pound high-pressure car-washing system, a modern U. S. 3,500-pound all-electric grease system and one of the latest battery chargers, also tester and tire equipment.

Mr. Baker is making some opening specials that will prove attractive to the auto owners of this community. A most cordial invitation is extended to the public to call and inspect the new garage on Saturday, April 6.

WHY THE DELAY?

Why is it that the annual renovation of our homes, a campaign we are accustomed to allude to as "house-cleaning time," often means such an upheaval that the whole family is in a state of irritation until it is over? No matter how much care is exerted to get it over and done with there's always the same scramble, year after year, to get things cleaned up and back in their place.

It is our belief that the trouble arises from the fact that most people put off spring cleaning too long—they don't go at it early enough. How- ever backward the season, it always seems to get ahead of us. Waiting for the weather to change, fearing to begin today because another cool spell might come tomorrow, almost always results in delays that make the job harder when finally it is started. How much better it would be to take time by the forelock and begin before the weather changes. Then you are not only ready to match the world outside with an equally fresh interior, but you'll have more leisure time in which to enjoy the outdoors.

No matter how clean any Plymouth woman may keep her house and premises, there is always something to be done in the way of cleaning and brightening up at this season. Paint and paper and whitewash do not stay bright forever; they must be renewed over so often. Winter brings trash and rubbish to yards and alleys, no matter where one lives. But nothing is to be gained by using the weather as a house-cleaning schedule. Spring is already officially here by the calendar. That means it's time to do spring cleaning, and it also means that those who get at the job without delay will be rewarded by having more leisure time just when they need it most.

TREES COME FIRST.

Anything pertaining to radio is of interest nowadays, so announcement by experts that they have discovered that trees are a menace to good reception is worth looking into. While radio is now a year-round proposition, practically every owner of a set we have talked to in Plymouth agrees that results are far more satisfactory in the winter than during the hot days of summer. But we haven't heard anyone express the belief that this is largely due to the leafing out of trees. There is a hint from the experts, too, that to get 100 per cent radio results it may be necessary to do away with trees in the immediate vicinity of the house in which the radio set is located. That's enough to start an argument. We all want radio; we all recognize it as a wonderful thing and pretty much of a blessing. But we don't believe the average man wants it badly enough to get rid of his trees or to ask his neighbors to do so.

THE HORSE HANGS ON.

The auto put the horse down, but it didn't put it out, as more than one Plymouth citizen had predicted. The horse still serves the milk man and the bread man and truckers in the larger cities still find them handy. Though the tractor has thinned their ranks on the farm the latest reports from the Department of Agriculture shows an increasing demand for good horses.

The number of farm horses reached its peak during 1918 and 1919. There has been a sharp decline since. Last year, for instance, the figures did not exceed those of 1890. The price of horses in 1925 dropped, in comparison with the average prices of other commodities, to the lowest level since 1908.

Now things are looking up again for

WAR AGAINST INSECTS.

Scientists tell us that in the U. S. alone the annual loss through destructive insects is not less than two billions dollars, exclusive of the economic loss which is suffered from insects which transmit diseases to human beings, such as malaria and fever. It is quite likely that this enormous sum also represents an equivalent loss in nearly every large nation of the world. That being true, the world can well afford to stop fighting among human beings over supposed insults and devote hundreds of millions of dollars annually to the interest of scientific warfare against the forces which are eating into the health, strength and wealth of every nation. Our own government is spending vast sums yearly in its fight on insects. Let us hope that the battle continues. Any amount of money that may be spent toward wiping out an enemy that destroys two billion dollars' worth of products a year is well spent.

NOW FOR THE HOB.

It won't be long now until the hobo will answer the call of his mate, and rural residents can be prepared to lose heavily in farm produce and poultry. The hobo army is greasing up its dilapidated flivvers preparatory to "bumming" money enough to buy a few gallons of gasoline and start the summer hehira, roaming over the countryside and living off of somebody else's toll. They don't ride freight trains any more to amount to anything. The "picking" is much easier if they can get hold of an old rattle-trap auto. Besides, they can practice their nefarious work, steal what they want, and get into another county much more quickly and with less chance of detection. There'll be the usual number of them in this territory from now on, so our advice to our rural friends around Plymouth is to make it hot for the first few that show up. Maybe in that way word will get passed around that this is good territory for flivver hoboes to steer clear of.

WHITBECK'S CORNERS

Mr. and Mrs. J. A. Gale and Mr. and Mrs. Orlo Gale and family, of Ypsilanti, spent Easter at the Wm. Rongert home.

Mr. Lock's people who were on the sick list the past week are better at this writing.

School began Monday after the Easter vacation.

Mrs. Otto Kaiser was the guest of her mother Monday in Robinson's subdivision.

The Helping Hand society met Wednesday at the home of Mrs. White on Ford Road.

Mrs. Parrish received word last week that her grandson, E. R. Hix, and family are in Drumright, Okla.

Beautiful Women Use Mello-Glo

Beauties who guard their complexions use MELLO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process, MELLO-GLO Face Powder stays on longer.

Community Pharmacy. "We Serve You Right."

Waterford

The Get-Together club, which was to have met with Mr. and Mrs. Ed. Walton on April 4th, will be postponed until April 11th on account of the funerals of two of our members, Mrs. Ida Stevens and Mrs. Mary E. Loud.

Mr. and Mrs. Albert Ebersole were Easter Sunday dinner guests of Mr. and Mrs. Clarence Ebersole.

Mrs. Mary E. Loud passed away Saturday evening after a few days' illness. She was buried Wednesday afternoon in Waterford cemetery.

Mr. and Mrs. Herbert Moe and family entertained Mr. Moe's brother, Henry Smith and family, of Wolf Lake, Harold 2nd, Floyd Stillwell and Glenn Gerrard.

Mr. and Mrs. James Wilson and children, of Fordson, spent last Monday with the latter's parents, Elmer Perkins and family.

Mrs. Lucie Perkins and son of Pontiac, spent Sunday with her sister, Mrs. Charles Steinhelb.

Miss Laneta Moe has been ill for the past few days.

Today's Reflections

Some Plymouth people like to quarrel. But they ought to pick their opponents from among people who feel the same way about it.

The way they're shooting up things in Mexico they must be under the impression that they're living in Chicago.

If the apes could chatter in one language they would probably agree that man did plenty of descending while he was at it.

Maybe the reason older citizens of Plymouth used to call tomatoes "love apples" is because they soon got rotten.

Motorists killed 20,000 pedestrians last year. Pedestrians didn't kill a single motorist. It looks to be too one-sided.

Chemists say they have discovered a way to make crops grow faster. That's the trouble—they grow so fast now the farmers can't sell them.

They've changed another old phrase and now "The hand that once rocked the cradle now guides a steering wheel."

Auction Sale

The New Basement

Among the radical changes in homes wrought during the past few years, the improvement of the basement is noteworthy. That part of the home gradually has become a light, airy and warm room, instead of the damp, murky place of other years. It has become livable, instead of merely tolerable.

Another convenient improvement for your basement would be an extension telephone. When the telephone rings upstairs, and you are in the basement, it would be much easier to take the call without climbing the stairs!

An Extension Telephone Costs Only a Few Cents a Day

READ THE ADS IN THIS WEEK'S MAIL

NEWBURG

There was a large crowd in attendance at the impressive Easter services conducted by our pastor, William Johnson, with Mrs. Johnson at the piano. Many beautiful flowers, Easter lilies and plants, with the electric cross lighted, made the church very attractive. A beautiful solo, "Christ is Risen," by the pastor's little daughter, Wilma, added to the service. Four little children were baptized. Esther Marie Harwood, John Owen Kregor, Robert Lewis Clement. Mr. and Mrs. Loewe were received into church membership. Betty Jane Quinn, Lewis Gilbert, Gerald Cook, Evaline McMillen, Marion Luttmoser, Wilma Johnson and Arthur Generie were graduated from the primary department. The superintendent of the department gave them each a testament.

Next Sunday will be the finishing up of the most successful Sunday school contest that has ever been held in Newburg church. Melvin Guthrie, with the three captains, have been untiring in their efforts to make the contest a success.

Mrs. Abbott, a returned missionary, will speak in the church next Sunday evening. Everyone most cordially invited to attend.

The young people of the community gave a shower on Mrs. Floyd Schmidt (nee Margaret Bassett) at

the home of Viola Luttmoser Tuesday evening. A very delightful time was spent. The bride was the recipient of many nice gifts. Herbert Blake returned to Saginaw last Sunday evening after spending a week with his mother, Mrs. Edith Blake, at the Ryder home.

Mrs. C. E. Ryder called on Mrs. Harmon Kingsley at Wayne Tuesday, finding her improving.

Mrs. Bertha Joy's division of the L. A. S. will give a self-serve supper at the L. A. S. hall Wednesday evening, April 10. An entertainment will be given in connection with this. All invited.

Mr. and Mrs. Clyde Smith took Easter dinner with Mr. and Mrs. Wm. Clark in Highland Park.

Mr. and Mrs. Arthur LeVan, daughters Esther, Ruth and Betty June, and Vera Woods spent Tuesday evening at Mr. and Mrs. C. E. Ryder's. Mr. and Mrs. LeVan just returned from a trip to Florida and are on their way to their home in Osceola.

Mr. and Mrs. Gansolly had for Easter dinner guests Mr. and Mrs. Ed. Hoisington, Mr. and Mrs. Vivian Keith and Mrs. Mary Wight, of Detroit; and George and Hattie Hoisington, of Plymouth.

Bert Padlock is employing his time in making some very nice trellises and bird houses.

Mrs. James Norris, of Strathmoor, is spending the week at the parental home.

Mr. and Mrs. Donald Ryder attended a convention and banquet given by the Peoria Life Insurance company at the Book-Cadillac last week Wednesday.

Mr. and Mrs. Leonard Thomas and family were Sunday visitors at the home of Jesse Thomas.

"The New Minister" Comes to Newburg.

Don't forget to come and see "The New Minister" at the Newburg L. A. S. hall Friday evening, April 12.

"The New Minister" comes to Newburg because his little girl, Gladys, is ill.

Ann—Miss Merel Babel. Ellen—Viola Hargrave. Cora—Maud Hairron. Nellie—Mrs. Holmes.

Betta—Hazel Lomas. Helina—Mrs. Montgomery. Maybeth—Helen Carr.

Mrs. Peters, Ann's mother—Mrs. Thomas.

Dolly Ann, daughter—Mary Bennett. Price, 25c and 15c.

Come and see who the New Minister is.

NEWBURG SCHOOL NOTES.
By Irene Zielasko.

Grammar Room.
Geraldine Schmidt is the champion of this school in the spelling contest. She won on the word "commissioner." She will receive an atlas from the Detroit News.

We had three visitors at our school last Friday: Mrs. Minehart, primary teacher of the Livonia Center school; Mrs. Watson, primary teacher in the George H. Fisher school, and Miss Dorothy Wilkinson, student at the Ypsilanti State Normal college.

Our school enjoyed a half holiday Good Friday.

Every club member is working hard to complete their work for the exhibit Friday. We are very proud of the work the boys and girls have done. We hope many parents will be with us Friday for our Achievement day, which will be Friday, April 5, at 2 p. m.

The eighth grade is studying a poem called "Work," by Henry Van Dyke.

Intermediate Room.
Miss Greshlover, our student teacher, is with us this week.

The Newburg school baseball team played Livonia Center Thursday. Our team won with a score of 11-12.

Our room is studying the songs of our native birds.

Primary Room.
We have a new butterfly in the early elementary room. Her name is Rose Fodoshik.

Many a Plymouth man who stands in church on Sunday and sings "Heaven is My Home" still wants a doctor in a hurry when a pain hits him.

A statesman is a politician who has been elected so many times that he no longer has any opposition.

IN MEMORIAM

In memory of our loving son, Harry Staman, who departed this life four years ago, April 5, 1925:

Asleep in Jesus; peaceful rest, Whose waking is supremely blest; No fear, no woe shall dim that hour That manifest the Saviour's power.

No one heard the footsteps of the angels drawing near, Who took from earth to heaven The one we loved so dear; The pearly gates were open, A gentle voice said come, And with farewell unspoken He calmly entered home.

Sadly missed by his parents, sister and brother.

IN MEMORIAM

In loving memory of our mother, Mrs. Charles Wolf, Sr., who died seven years ago today, April 9, 1922.

In our hearts your memory lingers Sweet, tender, kind and true; There is not a day that passes by, That we do not think of you.

Sadly missed by her children and grandchildren.

IN APPRECIATION

The industrial show, "Spirit of Old-time Minstrels," given at the Penniman Allen theatre by the Royal Arch Masons, No. 176, of Redford, is one of the finest shows presented in our local theatre, clean and snappy. A well-dressed chorus and handled very cleverly by their introducer, Edward Edson, with old and new songs, well rendered, and some of the funniest end men you ever saw. We hope that we will have an opportunity in having them with us again. The Redford chapter should be proud of their show. H. D. Thompson, as we understand, staged and directed the show.

The show was very colorful, with a beautiful opening under the direction of Mr. Thompson. After their showing at Northville the minstrels will close their show until next fall, and we hope Mr. Thompson will bring his show out our way at that time. Penniman Allen Theatre.

A CARD—Mr. Edson, chairman of entertainment committee of Redford Royal Arch Chapter No. 176 of Redford, wishes to thank the management of the Penniman Allen Theatre for the privilege of showing "Spirits of Old Time Minstrels" in their theatre and for the wonderful cooperation which they rendered in helping put the show over. Mr. H. D. Thompson also wishes to thank the management and the courtesy of Mr. Mathewson, coach of the Plymouth High school, for the loan of the base ball team in uniforms also many thanks to the kiddies of Plymouth who took their part so well in the show and a thousand thanks for the management for their untiring efforts in advertising and in setting the stage as it means a lot to any show or show house to have the proper stage setting.

Chairman of Entertainment Committee, Redford Royal Arch Chapter No. 176, Redford, Mich.

First Artificial Ice

The Italians in the sixteenth century, were the first to manufacture artificial ice for mercantile purposes.

Student Farms Bring Profit to Indian Boys

Chillico, Okla.—Individual student farms, once considered a foolish experiment, have solved the problem of training youthful Indian farmers.

Nearly forty Indian boys now cultivate separate tracts, ranging from sixty-three to seventy-five acres a piece, at the Chillico Indian Agricultural school. Four thousand acres are under student cultivation.

Lawrence E. Correll, superintendent aroused interest by telling the Indians the ground held "buried treasures." Each boy assigned a tract of ground averages \$300 profit annually—one quarter of what he produces.

Younger boys are allowed to cultivate smaller tracts. The school either buys the grain for its own use or sells it at the market.

The Chillico school's venture has been adopted as a model by Indian schools throughout the country.

6-Year-Old Royal Heir Drives Tiny Motor Car

Belgrade, Yugo-Slavia.—Crown Prince Peter of Yugo-Slavia, who has received a miniature automobile as a present for his sixth birthday, is learning to drive his car, under the close supervision of his royal mother, Queen Marie.

Prince Peter sits behind the wheel of the car and rides full speed through the palace grounds, King Alexander looking on, sometimes with anxiety, as the boy and his mother whirl around sharp corners.

Every morning the crown prince, in a uniform of a private in the Yugo-Slav army, goes through regular army drill, learns how to carry a miniature gun, how to salute and march.

He has just been promoted corporal, which indicates that Peter is a good soldier.

Clock Correct 368 Years

Hamburg, Germany.—The village clock of Curslack stopped after running continuously since 1561. It has shown the correct time for 368 years.

Historic Oak at Rome to Be Protected by City

Rome.—The famous oak of the Janiculum hill overlooking Rome, under which the great poet Tasso dreamed and nursed, and St. Philip Neri played with the children of the neighborhood, is about to be enclosed and protected by the park service of the municipality.

Stricken by lightning a short time ago, little remains of the tree so intimately associated with Italian literary and religious tradition.

Sounds Practical

"Child Injured by Washing Machine."—News headline. We did not know that device was designed to wash kids, but the idea sounds attractive, especially if there's an attachment to it to launder ears.—New Orleans Times-Picayune.

AUCTION!

JAMES FINNELL, AUCTIONEER

GRANGE NOTES

The Lily club will be held at the Grange hall next Tuesday evening, April 9.

ST. PETER'S EVANGELICAL LUTHERAN CHURCH NOTES.

Over two hundred people attended the Easter services and holy communion at St. Peter's Evangelical Lutheran church last Sunday. The church was prettily decorated for the occasion with Easter lilies and potted plants. Prof. A. Sauer, of the Lutheran seminary at Saginaw, conducted the services. A goodly number partook of communion. A large sum was lifted for synodical purposes at this service.

A CARD—We wish to thank the neighbors and friends for their kindness extended to us during our recent bereavement and those who sent flowers; also Calvin Whipple for singing and Mr. Nichols for his kind words.

Mr. and Mrs. Nathan Stevens, Asa Stevens, Eva Stevens, Florence Stevens, Silas Sly.

Reserved seats for "Cupid Up to Date" will be on sale at Dodge's drug store after Saturday, April 6.

Statement of Ownership, Management, Etc., Of The Plymouth Mail, published weekly at Plymouth, Michigan, for April 1, 1929, required by the Act of Congress of August 24, 1912, Publisher, L. B. Samsen, Plymouth, Mich. Editor, L. B. Samsen, Plymouth, Mich. Business Manager, L. B. Samsen, Plymouth, Mich. Owner, F. W. Samsen, Plymouth, Mich. Known bondholders, mortgagees and other security holders, owning or holding one per cent or more of the total amount of bonds, mortgages or other securities—None. Signed L. B. Samsen, Publisher. Sworn to and subscribed before me this 4th day of April, 1929. (SEAL) R. A. Fisher, Notary Public, Wayne County, Michigan. (My commission expires April 12, 1930.)

'CUPID UP-TO-DATE' MUSICAL COMEDY TO BE PRESENTED

(Continued from page One.)

they are all changed to the most ridiculous characters imaginable; but finally John Scientist returns from a trip to Mars with some star dust which stimulates memory and carries them back a hundred years. They realize then that they have had an ugly dream of purely scientific nature, and that they are all ready for Cupid again.

The ever-generous Cupid is willing to return as soon as he sees that they are ready to receive him. He returns and gives each his gift of love, and happiness follows for everyone.

Those taking part in the choruses are as follows:

Charleston Babies—Marie Atgove, Laura Ewing, Barbara Moulton, Beverly Smith, Phyllis Samsen.

Modern Chickens—Marion Hadley, Jean Strong, Hazel Rathburn, Camilla Ashton, Kathryn Hill, Dorothy Hubner, Madeline Shingleton, Mary Haskell.

Bedtime Story Kiddies—Carol Campbell, Anna Louise Kuhn, Doris Buzzard, Betty Barlow, Eleanor Cline, Betty Ann Mastick.

Clock Girls—Ruth Michella, Mary Lorenz, Esther Egge, Christine Nichol, Ruth Meurin, Elizabeth Nichol.

Four Little Cats—Barbara Hubbell, Betty Griffith, Barbara Nutting, Lois Schiffe.

Monkeys—Same as Clocks. Star Girls—Claire Schontz, Dawn Jacobs, Carmen Ellis, Betty Simpson, Joan Cassidy.

ELECTION IN PLYMOUTH CALLED OUT SMALL VOTE

(Continued from page One.)

400 cast for Allen H. Blake, Maurice C. Bird was chosen treasurer, 857 votes against 688 for John B. Murphy. David Parr was selected as highway commissioner, with 898 votes, while his opponent, Nelson Butler, got 622.

Willis R. Harrison pulled 1,014 votes for justice, with Martin J. Wannamaker getting 188. Harry Jones defeated William Daly for the board of review. Constables elected are: Herman Janner, Charles Gandy, Charles Linderman and Milo Butler. Their Democratic opponents were Louis Mott, Thomas Silkwood, Fred Bullerstick and Arthur Schmar.

NORTHVILLE.

The following officers were elected in Northville township: Willard A. Ealy, supervisor; Elmer E. Smith, clerk; Mrs. Jennie Cousins, treasurer; Carl Ealy and Joseph Blake, justices, and Lewis Calko, highway commissioner. All were unopposed.

SALEM.

The Republican ticket was the only one in the field in Salem township. The following officers were elected: Supervisor, H. Archibson; clerk, I. Johnson; treasurer, G. Burnham; highway commissioner, G. Whitaker; justice of the peace, K. Rich; board of review, F. Smith; constables, W. Smith, F. Buern, J. Merritt, A. Bur-

Albert Nacker, Justice; Herman Johnson and Donald Ryder, members of board of review. One hundred and ninety-nine votes were cast.

LIVONIA.

The following, all unopposed, were elected on the Republican ticket Monday as Livonia township officers: Jesse Ziegler, supervisor; John Harlan, clerk; Arthur Trapp, highway commissioner; H. Ziegler, treasurer;

CANTON.

The Republican ticket in Canton township was unopposed and the following candidates were elected:

with 61 votes each: Supervisor, Allen Wisley; clerk, Hurd McClumpha; treasurer, Perry Campbell; Justice of peace, George Simmons; highway commissioner, Clyde Truesdell; board of review, John Blackmore; constables, Louis Buehler, Charles Finnegan, Joseph Eastin, Charles Curtis, Jr.

Here's everything in Shirts. Fine white broadcloths, neat figures and stripes, bright color-blended patterns, soft, solid tones. Soft collars attached, starched collars to match. You won't find choicer selections anywhere—nor better values.

MORTGAGE SALE. Default having been made in the conditions of a certain mortgage made by HARLEY BOND and LILLIAN BOND, husband and wife, to GUSTAVE MANSKA and NELLIE A. MANSKA, his wife, of the City of Detroit, Michigan, dated the 23rd day of September, A. D. 1926, and recorded in the office of the Register of Deeds for the county of Wayne and State of Michigan, on the 24th day of September, A. D. 1926 in Liber 1814 of mortgages on page 49, on which mortgage there is claimed the sum of \$10,000.00, the undersigned will, at the West entrance on the steps of the County Building in the City of Detroit, that being the place where the Circuit Court for the county of Wayne is held, sell at public auction, the highest bidder, the premises described in said mortgage, or so much thereof as may be necessary to pay the amount so claimed due on said mortgage, with six per cent interest, and all legal costs, together with said attorney's fee, to wit: Lot Number Twenty (20) Harvey subdivision of Lots Thirty-two (32) Thirty-three and south half of lot Thirty-one (31) of Secord's subdivision of the west half of fraction section Two (2) Town Two (2) Range Eleven (11) East of Detroit, Michigan, and known as 369 Woodrow avenue, Detroit, Michigan. GUSTAVE MANSKA, NELLIE MANSKA. Charles F. Burbanck Attorney for Mortgagee Business Address: Crooked, Mich.

SALEM

A large congregation was present at the Federated church on Easter to listen to the annual Easter exercises, presented by the Sunday school of that church.

The Ladies' Aid society of the Federated church will give a mothers' and daughters' banquet at the church Friday evening, May 10.

Mrs. Parker and two daughters, of Owosso, were Friday callers of Mrs. Sarah Stanbro.

Mr. and Mrs. Claude Sellers and family, of Flint, spent Sunday at the Henry Whittaker home and remained on account of the illness of one of their children, who had to be taken to a hospital for an operation.

Mr. and Mrs. J. Dickie and Mr. and Mrs. M. Rowick and son, of South Lyon, and Dorothy and Ruth Foreman, of Detroit, were Sunday dinner guests of Mr. and Mrs. G. C. Foreman.

Perry Austin, accompanied by Mr. and Mrs. R. B. McKnight, of Walled Lake, spent Thursday with Mr. and Mrs. Bert Stanbro.

The Misses Ruth and Dorothy Foreman, of Detroit, were week-end guests of their parents.

Mr. and Mrs. Charles Stanbro were Sunday dinner guests of Mr. and Mrs. E. Geraghty and family.

Mr. and Mrs. Clifford Crockett, of Howell, were Sunday visitors of Mr. and Mrs. H. Whittaker.

B. E. Stanbro was in Pontiac on business Tuesday.

Mrs. Sarah Stanbro spent Easter with her son, L. W., and family at Green Lake.

Mrs. Ivah Brokaw, Mrs. Edith Haynor and Mrs. James Dickie, of South Lyon, and Mrs. G. C. Foreman were Ann Arbor shoppers Thursday.

The new village ordinance against unlicensed dogs running at large is now being enforced, and stray dogs found upon our streets are being picked up. Complaints against stray dogs will receive prompt attention.

Numerous complaints are being received that many motorists, among them citizens of Plymouth, are apparently paying no regard whatever to our traffic regulations while driving upon village streets. All must agree that our streets must be kept safe at all times for both motor and pedestrian travel, and that to accomplish this end reasonable traffic regulations must be put into effect. Obviously these regulations must apply to every motorist and not only to a certain few. Our traffic rules have been limited to the few reasonable regulations that every reasonable motorist recognizes as essential to the safety of the public, and no other course is open but to enforce them if we are to keep our streets safe for everyone. Our police department is giving this matter serious attention, and hopes to reduce violations to a minimum. May we not count upon 100 per cent co-operation from the motoring public?

LOCAL NEWS

Prof. Sauer and wife, of Saginaw, visited Mr. and Mrs. A. Kehl Friday.

Mrs. Belle Courtright, of Ferndale, spent the week-end with her niece, Mrs. William T. Pettinill.

The L. A. S. of Livonia will meet at the home of Mrs. Abel Hayball on Wednesday, April 10. Everyone welcome.

Mrs. Charles O. Ball and son, Charles, Jr., drove to Chicago last week and spent a few days with relatives. Edward DePorter accompanied them and visited William Brinkerhaus, a former Plymouth boy.

Mrs. Ethel Butler, Mrs. Jay Mackey and two children, of Detroit, and Mrs. M. J. King, of Canton, Ohio, spent Wednesday with Mrs. Leon Huston.

The Ladies' Aid of the Lutheran church held their meeting in the church basement Wednesday afternoon. At 6 o'clock all the families and visitors sat down to a pot-luck supper. A splendid collection was taken up for the church.

Mrs. Frederick Bolmer, of 347 North Harvey street, are receiving congratulations over the birth of a son, William Eugene, Monday, April 1.

Bishop Nicholson Will Preach Here Sunday

Bishop Nicholson will preach in the Methodist Episcopal church Sunday morning, April 7th, at the regular morning service. It is hoped that there will be a large congregation to hear him.

MAY REACH MOON, THINKS CURTISS

Aviator Sees Planes Making Trips Some Day.

Miami, Fla.—Glen Curtiss, famous aviator, father of commercial aviation and builder of the airplane products which bear his name, said that man will some day reach both the moon and the planet Venus. During an interview, he was asked: "What are the probabilities of interplanetary communication? Do you believe man will ever reach the moon and possibly the planet Venus?"

"I think the time will come when man will fly from this earth to the moon," Mr. Curtiss replied. "It is not impossible. Anything man thinks of can eventually be made to come true."

"The weird stories we read recently concerning plans to fly to the moon are no harder to imagine than Jules Verne's exploits were when he wrote them more than three decades ago. And a good percentage of his predictions have come true. Around 40,000 feet is about as high as man has gone."

"The vehicle to carry a man to the moon will have to be extremely strong. It must carry enough oxygen and food to last him the entire journey. The biggest part of the feat will be navigation and it will take another Lindbergh to stay on the course to reach the objective."

Mr. Curtiss has made Miami his permanent home, having established a factory, two airplane bases and a flying school here.

All Living Plants Have Nerves, Says Scientist

London.—A theory that trees resemble human beings insofar as they are attracted and repulsed by the presence of human beings is put forward by Herbert G. Longford.

"It has been reserved to scientists of the present generation," he says, "to conceive and produce instruments of marvelous delicacy, proving by the production of visible record that all living plants have nerves which respond to electric shock, to heat and to cold—as do ours—and a throbbing pulse which varies naturally—as does our own—during times of wakefulness and sleep."

"Still further it can be proved by demonstration that their reactions to chloroform and other anesthetics are identical with the phenomena exhibited by the animal world."

T. B. Campaign Starts Here Sunday

During April tuberculosis and medical associations throughout the United States led by the National Tuberculosis association will conduct an intensive publicity campaign to emphasize the importance of the early diagnosis of tuberculosis. In Plymouth the campaign officially opens April 7.

Ward Maranley, president of the Tuberculosis and Health Society of Detroit and Wayne County, in announcing the opening of the Detroit campaign states:

"For some reason or other many people seem to be under the impression that tuberculosis has been conquered and that there is no need to worry further about it. This is far from the truth. Between the ages of 15 and 40 more people still die from the disease than from any other cause. In Detroit over half of all of the deaths from tuberculosis occur between the ages of 12 and 29. This makes it one of the great social problems of the day because this is the age of marrying, having children and building careers. Furthermore, tuberculosis is not decreasing in Detroit. In 1928 the tuberculosis rate was higher than the rate of 1927, going up from 90 deaths per hundred thousand population to 94 deaths. Last year over 1,400 people died in Detroit and vicinity from tuberculosis. Any disease which takes off that number of people in one year in the prime of life is an important problem. It is for this reason that the Tuberculosis society is so aggressively pushing the campaign to prevent the disease."

The Wayne County Medical society, of which Dr. E. G. Martin is president, is co-operating with the Tuberculosis and Health society in conducting this campaign in Wayne county. Dr. William J. Stapleton, Jr., chairman of the public education committee of that society, together with officials of the Tuberculosis society are directing it. Other local organizations which are backing the drive are the Department of Health, Detroit Council of Churches, Catholic churches, Detroit and Highland Park Federation of Women's clubs, Wayne county school commission, the Mercantile, Retail Merchants' Credit association, Detroit Employers' association, life insurance companies and others.

Already fifty large signboards have been utilized to call attention to the campaign. Literature featuring it will be distributed in factories, churches, stores and like places. Posters are being placed throughout the city. Talks will be given emphasizing the importance of the campaign.

The National Tuberculosis association, which is the national director of the movement, states that the aim of the campaign is twofold, first, to focus the attention of the public at large upon the danger signs of early tuberculosis and to urge them to go to their doctor for an examination; second, to stimulate renewed interest on the part of the medical profession in the recognition of early signs of tuberculosis.

Among the lectures arranged for is a talk before the high school assembly Tuesday, April 16, at 12:45. There will be given also a short talk before the Central Parent-Teachers' association Monday evening, April 13, at 7:30 o'clock.

Soiled Piano Keys

If it is only superficial dirt on piano keys, a damp cloth will remove the substance, or a cloth dipped in milk. Do not have the cloth so wet that any liquid runs between the keys. After cleansing, allow the piano to remain open so that the sunlight may keep the keys white. Dust regularly.

Reserved seats for "Cupid Up to Date" will be on sale at Dodge's drug store after Saturday, April 6.

AUCTION!

L. W. LOVEWELL, AUCTIONEER

Everything Sold Absolutely Without Reserve

Don't Let Your Eyes Deceive You

Because you see a fine looking furniture store doesn't mean that the prices are high. So many people seem to think that furniture is over-priced. As a matter of fact, furniture never was so good looking, so well made, and so moderately priced as it is today.

We, who have been furniture merchants for many years, make this statement without reservation. We guarantee this to be an absolute fact. We would be glad to have you come in and see the new Spring creations.

Your Home Should Come First.

There will be services at 10:30 a. m. Sunday at the village hall. You are welcome.
Sunday school at 11:30.

SALVATION ARMY.

292 Main St.

On Tuesday, April 9, we shall have with us Col. Martin, from Chicago, who will give us a talk about William Booth, the founder of the Salvation Army.

Col. Martin is a very brilliant speaker; at one time he had charge of our work in Germany, Sweden, also in New Foundland, his last active appointment being principal of the Army Training college in Chicago.

The colonel also was at the side of our beloved founder at his death and was personally acquainted with him, having a charge at international headquarters.

The meeting on April 9 will be held in the Baptist church on Mill street, which has been so kindly loaned for the occasion by their committee. Let everybody come and bring a friend. Come early, as we expect to pack the building. The Army bands from Highland Park and Ann Arbor will provide the music. There will also be other prominent Salvationists present.

Other meetings are as follows:

At our own hall, 292 Main street, Saturday, April 6.

Captain Stolkner and Mack avenue branch, Detroit, with band, Sunday, April 7.

Ensign Peterson and helpers, Tuesday, April 9, 2 p. m.

Col. Martin at Baptist church Thursday, April 11, 8 p. m.

Mrs. Col. Norris and women workers.

Don't forget our meetings on Sundays:

11:00 a. m.—Holiness.

1:30 p. m.—Sunday school.

3:00 p. m.—Praise meeting.

8:00 p. m.—Salvation meeting.

Come and bring a friend. We are having nice crowds. If you come you'll come again.

Captain and Mrs. F. Wm. Wright.

Officers in Charge.

PRESBYTERIAN NOTES.

Communion service Sunday morning. Every member should be present.

There will be reception of new members Sunday morning and the class received last week will take their first communion.

The session meets at 9:30 a. m. Sunday in the session room.

The Busy Women's class will meet at the manse on Tuesday, April 9. A cooperative dinner will be served at noon and a program and business meeting will follow.

The April circle of the Ladies' Auxiliary will hold a fried cake sale at Stever's meat market on Saturday, April 6. Telephone your order to Mrs. Starkweather, phone 81, or to Mrs. Melburn Partridge, phone 493.

The Woman's Auxiliary will hold the April meeting in the church parlors on Wednesday, April 10, at 2:30 p. m. This will be another of those interesting and inspiring meetings, and there will be opportunity for a pleasant get-acquainted social hour.

The annual church budget canvass is under way. If everyone will take just a reasonable share success is assured.

CATHOLIC NOTES

The Easter services were very well attended, and it was a great satisfaction to see so many people at mass. The services were very impressive. The altar boys, with their new red sashes, added a great dignity to the solemnity of the occasion, and the choir's rendition of the Easter hymns filled one and all with the real true spirit of the day. The pastor wishes on this occasion to thank all publicly for their generous offering and the fine co-operative spirit manifested during the Lenten period, and especially during Holy week. Continue the noble work and the crown of glory will be obtained. Life with God is life worthwhile.

The boys are arranging definite plans for the baseball team of 1929.

Tickets on the "hope chest" are to be returned next week. Kindly take note the returns will be used for the church. If you have no book, remember you can get one for the mere asking.

The little children are preparing a program to be given Tuesday night of next week. A real treat is in store for all. Do not miss this. All are welcome.

The Rev. J. Kraumer, of Center Line, Mich., pastor of St. Clements church for 39 years and priest 43 years, was called to his reward last week.

Work has been started upon the summer chapel at Walled Lake. The Rev. J. Schuller is its pastor.

The month of April is always welcome, as it brings with it the pastoral feast of the parish, April 26.

The parish grounds are again being cleaned up, so as to be a real beauty spot, as in the past.

Do not forget your "hope chest" tickets.

BAPTIST NOTES

The Baptist Ladies' Aid society will hold their regular monthly meeting at the home of Mrs. Riley Wednesday afternoon, April 10.

The Baptist church has offered the use of its auditorium to the Salvation Army for Tuesday evening, April 9. We are very glad to co-operate with our local army in this way, and in their behalf we extend a cordial invitation to the public to attend this meeting.

The annual business meeting will be held Wednesday evening, April 24. The special features apart from the regular business meeting will include an outside speaker as guest and a home-coming supper, to which every member is urged to be present.

METHODIST NOTES

"Except the Lord build the house they labor in vain that build it."

We are to have the pleasure of hearing our Bishop Nicholson preach next Sunday morning. It is expected a large number will avail themselves of this opportunity to hear this forceful spiritual speaker, who is the head of the Detroit area of the Methodist Episcopal church.

The regular monthly meeting of the missionary societies will be held at the home of Mrs. H. S. Doerr, 447 South Harvey street, next Wednesday, April 10. The co-operative luncheon will be served at 12:30 o'clock, followed by the business meeting. This is to be the annual mid-box opening. Please bring both the home and the foreign mid boxes. A cordial invitation is extended to all who are interested in missions.

Next Sunday, being the first Sunday of the month, will be Religious Education day in the Sunday school, and Mrs. A. Troth's class of girls will give a demonstration entitled "Miss Mary's Dream."

An event of interest at the church next Friday evening, April 12, will be a talk on Muscle Shoals by a representative from Washington, D. C. This is a topic in which we are all interested and it is a good opportunity to get first hand information. There is no admission fee and no collection will be taken. It is under the direction of the L. A. S. and the general public is cordially invited to attend.

The Easter day services were a fitting climax to the week of services. The pulpit was lovely with palms, potted plants and cut flowers. The singing and music was delightful and the gospel message inspiring. Following the sermon a large class was received into church membership.

The pageant put on in the evening by the Sunday school was well done and much credit is due Ruth Sob for its success.

EPISCOPAL NOTES

Sunday's service offers a final opportunity to those who have not yet made their Easter communion and wish to do so during the octave. The church requires its members to make their communions at this great feast of the Resurrection, if they would be counted as "members in good standing."

The Woman's Guild will meet on Tuesday afternoon next week, owing to the fact that the play which the guild is sponsoring will be presented Tuesday and Wednesday. All members are urged to attend this meeting.

Have you bought your ticket for the musical play, "Cupid Up to Date," to be given at the high school auditorium next Tuesday and Wednesday evenings? This is a big undertaking and deserves the support of all our members and friends. You will enjoy it, too.

Local News

The Sutherland Greenhouses, Inc. have a fine new delivery truck.

Mr. and Mrs. John Challis, of South Lyon, were Plymouth visitors Tuesday.

Mrs. Blake Fisher, of Maplecroft, is confined to her home on account of illness.

Mr. and Mrs. Douglas Tracy spent last week-end with Mrs. J. E. Burrell in Detroit.

Alton Matevia spent a few days last week with his brother, Glenn Matevia, in Detroit.

John L. Craudell of this place has opened law offices at suite 800-16 Riker building, Pontiac.

Glenn Matevia, of Detroit, spent last week Friday with his mother, Mrs. Frank Westfall.

The financial statement of Plymouth's two banking institutions appear in today's issue of Mail.

Mr. and Mrs. Lloyd Fillmore and son, Wellman, were Sunday guests of Mr. and Mrs. Charles Hefner in Detroit.

Mrs. James Norris, of Detroit, and Mrs. Clark Mackinder, of Newburg, called on Mrs. C. V. Chambers Tuesday afternoon.

The heavy wind of last Monday blew out three large plate glass windows in the Sutherland Greenhouses on Ann Arbor road.

Several of the local Rotarians went over to Manchester, Tuesday evening to witness a charter presentation to a new club organized in that village.

The Knights of Pythias won the first series of Euchre games from the I. O. O. F. by eighteen points, played at the Odd Fellow temple Tuesday evening. The next series will be played at the K. of P. hall, Thursday, April 11.

Born, to Mr. and Mrs. I. O. Hill, 233 Amelia street, a son, Terrance, March 28.

Mr. and Mrs. Ray Baker, of Clyde, spent the week-end with Mr. and Mrs. W. H. Scott.

The infant welfare clinic will be held at the high school Wednesday, April 10, at 2 o'clock.

Mrs. John Buchanan, of Dutton, Ont., is visiting at the home of her brother, Dr. A. E. Patterson.

Miss Ruth Wilkins of the Chicago Training School is spending Easter vacation with her parents, Mr. and Mrs. Byron Wilkins.

Mrs. Mary Patterson, who has been visiting at the home of her daughter in Rochester, Mich., for the past month, has returned home.

Mr. and Mrs. Frank Westfall visited at the home of the latter's brother, Grover Place, near Ann Arbor, the first part of this week.

Mr. and Mrs. Harry Kellogg and daughter, Ethelen, of Grand Rapids, were guests of Mr. and Mrs. Frank Westfall last week-end.

Mr. and Mrs. Dustin Thomas and little daughter, Kathryn Jane, of Detroit, were Sunday guests of Mr. and Mrs. George Miller, of East Plymouth.

Mr. and Mrs. Harry Kellogg and daughter, of Grand Rapids, and Mr. and Mrs. Frank Westfall called on Mrs. Westfall's son, Glenn Matevia, in Detroit last Saturday.

A number of Plymouth Christian Scientists attended a lecture held in the Pease Auditorium at Ypsilanti last Sunday evening. The speaker was John W. Dooley, C. S. B., of London, England.

Although the weather was rather depressing Easter Sunday, it failed to dampen the joyous music which characterized special services in the Plymouth churches. Spring flowers used for decorations contrasted sharply with the weather, as did also the sermons, which emphasized the resurrection.

Twenty-five friends from Detroit and Plymouth surprised Mrs. Peter A. Miller, of East Ann Arbor Trail, with a birthday and welcome home party on Tuesday, April 2. Cards and luncheon was played after a delicious luncheon. Mr. and Mrs. Miller arrived home on Thursday after a four months' sojourn in Florida.

A series of talks on modern religious problems will be given on Sunday mornings at St. John's Episcopal church. The topics are: "Matter and Spirit," "Christianity and Other Religions," "Time and Eternity," "Sin and Justice" and "The Solitude of the Soul." In the evenings the sermons will deal with the ten commandments in their relation to present-day conduct.

An automobile accident occurred at the forks of the Plymouth and Ann Arbor roads about 2 o'clock last Sunday morning, when an automobile driven by William Parks, of Detroit, and accompanied by Raymond Koch, of the same city, skidded and went into the ditch. Parks sustained a bruised leg, while Koch suffered a severe injury to his head. Dr. H. B. Brisbois attended to their injuries.

LOCAL NEWS

Reserved seats for "Cupid Up to Date" will be on sale at Dodge's drug store after Saturday, April 6.

Mrs. Charles Holloway, who has been in Detroit for the past two weeks, visiting her children, has returned home.

Mr. and Mrs. Charipar, of Arthur avenue, gave a farewell party Saturday, March 30, in honor of M. Gerard Vignal and M. Robert Tin Bois, who are returning to Paris, France, in a few days after spending nearly a year in Detroit. A luncheon was served and a good time was enjoyed by all.

About fifteen Ypsilanti Kiwanians came to Plymouth last Tuesday to put on a program for the local club at their regular noon-day meeting at the Hotel Mayflower. Professor Gerald Sanders, professor of literature at the Michigan State Normal college, was the speaker. His talk on the beauties of poetry was unique and greatly enjoyed by those who heard him.

A Communication.

Plymouth, March 28, 1929.

Editor Plymouth Mail:

Dear Sir—Let me take this opportunity of expressing my appreciation to the management of the Penniman Allen theatre for the presentation of "The Old-time Minstrels" and the popular Head Family band, whose playing, especially the trombone feature, was a treat for everyone. In passing through Northville I've often heard the Northville Community School band play, and have wondered how a band at that time, being only a year old, could cater for that town by giving a concert every Saturday night, besides fulfilling numerous other engagements in Wayne county; but after hearing this fine family of Heads, who, I understand, are the pillars of this band, it's no longer a puzzle to me. May they again come into our midst.

Yours sincerely,
OTTO BEHERENT,
Newburg Road.

Reserved seats for "Cupid Up to Date" will be on sale at Dodge's drug store after Saturday, April 6.

American Engineer to Rebuild Nanking

New York.—An American consulting engineer called for China on the liner Rema to build a seaport and rebuild a city. It is E. P. Goodrich, who engineered the Bush terminal here and the Port Newark project, and who has been commissioned by the Nationalist government to build one of the largest ports at Canton and rebuild the new capital city of Nanking. Each project will require an expenditure of from \$10,000,000 to \$20,000,000.

ROTARIANS HEAR INTERESTING AND INSTRUCTIVE TALK

(Continued from page One.)

and this was followed by moving pictures entitled "Pictures by Wire" and "Voices Across the Sea." The pictures were not only entertaining but were highly educational, as the process of sending photographs by wire was shown from beginning to end, and the mechanism involved and the routings the voice takes when conveying a message across the Atlantic ocean were revealed in a most clear and understandable manner.

In his talk Mr. Dickey placed before the Rotarians in a very non-technical and thoroughly understandable manner all of the salient points in the more or less mystifying art of seeing by wire.

Explaining first that all of the different elements that make up the earth consist of atoms, small particles too small to be seen even with a microscope, he added that atoms unite to form molecules of material. They are composed, he said, of two kinds of particles, electrons and protons. The former have been found to be particles of negative electricity and the latter are particles of positive electricity. Atoms differ in the total number of electrons and protons which they contain just as they differ in their internal arrangement. By explaining the effect exposure to light has upon these atoms, Mr. Dickey was able to make clear the creation of what he was pleased to call the electrical eye of television. In other words, the element that permits or enables one to see by wire. The speaker said the electrical eye is the light sensitive device which converts the energy of light rays into electrical energy of moving electrons in wires. That is, it actuates an electric current that corresponds to the different degrees of light and shade which makes up a picture. This current transmitted over wires or by radio can change the varying electrical current back to varying degrees of light and produces to the distant observer the scene or picture.

In a television system there must be a light active receiver, the speaker said. That is, a complimentary that will re-create the light which the electric eye sees. It must give forth light in response to an electric current, and the light must correspond in brightness and dimness exactly to the current flowing from the electrical eye, and the response to the electric current must be instantaneous. In great detail Mr. Dickey followed down through the television process with a minuteness that made up a nightly interesting story. He pointed out that the principal elements of the television system are the electric eye with battery connected, which views the object, the wires or radio which convey the feeble varying currents started by the electric eye, and the neon tube which glows proportionately to the current coming over the wire from the eye. In actual practice, he said, the feeble current started by the electric eye are amplified by vacuum tubes to about the strength of the current starting from a telephone receiver. The operation of the amplifier is instantaneous, and so the neon tube glows brilliantly or dimly as the electric eye sees light and shadow. In short, the speaker made it clear that at the present time all there is to television is light and shadow and the possibility of transmitting these elements over wires by means of mechanisms.

Television, the speaker said, is only in the experimental stage now and anticipated that by the time it arrives at a commercial stage its process may be entirely different than the outline he had given.

Telephotography, Mr. Dickey said, is much on the same principal as television, in that pictures are transmitted by wire through the ability to transmit light and shades by wire. Mr. Dickey also showed on the screen pictures of trans-oceanic telephone service between this country and Great Britain that were very interesting indeed.

Boy Reverses Theory and Betters Potatoes

Burlington, Vt.—Because he did an unusual thing Maurice A. Holbrook, sixteen-year-old 4-B club boy, protected his potatoes from blight last year while those of his neighbors suffered.

In the midst of a light steady rain, which promotes blight, he went into the field and dusted the plants with bordeaux.

"People told me it would wash right off, but did it!" the young experimenter remarks. "The next week showed the results. Potatoes were dying right and left, but mine were not touched. Now, when I sell a bushel of potatoes I can say, 'Mister, these spuds won't rot!'"

Finds He's Been Hiding From \$350,000 Bequest

Oakland, Cal.—After staying in seclusion for five weeks, E. H. Kuhl, Oakland house painter, discovered he had been hiding from a \$350,000 fortune left by his mother, who died in Oklahoma.

Kuhl said he had been a witness in a federal court trial and that "somebody" had threatened "to get him." Five weeks ago, he explained, he was informed that a "mysterious man" was looking for him and immediately thought this "somebody" and the "mysterious man" were the same persons and went into hiding. The mystery man, he found, was an attorney seeking to inform him of his inheritance.

CITY TAKES HIGH RANK FOR ARCHITECTURAL MERIT OF ITS LATEST SKY-SCRAPERS

W. C. T. U.

The annual meeting of the Woman's Christian Temperance Union was held Thursday, March 28, in the Plymouth M. E. church. There was a good attendance and, in addition to the members and guests of this place, there were several ladies from Detroit, among them being Mrs. Jennie Spencer, president of the North Woodward Union, and also the other officers of the same union.

The following officers were elected: Mrs. E. R. Dargott, President; Mrs. Ernest Venley, Corresponding Secretary; Mrs. L. Clemens, Recording Secretary; Mrs. Clara Patterson Todd, Treasurer.

There was a short program consisting of two piano solos by Miss Dora Gallimore, and two songs by the little grand-daughter of the president, Mrs. Phoebe Patterson gave a partial history of the organization and progress of the Plymouth W. C. T. U. This was given from memory, as the earlier record books of the Plymouth Union have disappeared. Bits of information were also added to this history by Mrs. Viola Marylees and the Misses Cora and Nettie Pelham. Altogether the talk was very interesting.

An initiatory service for the officers was conducted by Mrs. Jennie Spencer of Detroit.

A fine cooperative supper was served by the committee and all voted the occasion most enjoyable.

The next meeting will be at the home of Miss Hattie Hoisington, Thursday, April 25.

Stark School Notes.

Sea Skipper Sews for Baby Daughter

Tampa, Fla.—The secret hobby of the rugged commander of the Scottsburg, largest cargo ship of the United States shipping board, is a secret no more. Capt. W. H. Stone sews fluff caps and other clothes for his baby daughter, who lives in Portland, Maine.

"I get a lot of pleasure out of sewing," Captain Stone says. "I had a predilection for it, just as I was destined for the sea. When I was a small chap my grandmother gathered all the children around her and gave sewing lessons. I suppose I was her most apt pupil."

During the World war Captain Stone commanded an army transport plying between France and England. In 1927 the captain rescued fourteen men from the sinking French schooner Doree in the Bay of Biscay.

University Institutes

Traffic-Control Course
Pittsburgh, Pa.—A course in traffic control engineering has been added at the University of Pittsburgh.

Under the direction of the school of engineering, classes in traffic control will be held each evening in the downtown branch of Pitt, where engineers, city officials and others interested may study.

The course was established to meet a demand from municipal and highway officials. It will be conducted by Prof. L. W. McIntyre, a vice president of the National Highway Traffic association.

2,138 Draw Salary for Resting in France

Paris.—There are 2,138 government employees in France who have nothing to do but draw their salaries, and the government cannot discharge them.

This situation has existed for a year and a half, Pierre Forget, minister of public works, told the senate, hoping a full airing would bring some action. These workless individuals, he explained, were in the liberated regions department, heritage to the war, and the work that remains to be done occupies only a small staff.

British Colony Boasts Popular Tax Collector

London.—The tax collector is one of the most popular officials employed by the British government in Papua, New Guinea. Sir Herbert Murray, lieutenant-governor of Papua, speaking here at a meeting of the Anti-Slavery and Aborigines Protection society, said that the tax collector in Papua had no trouble, for people ran after him, forcing money upon him. They did not resent taxes, he said, and paid them willingly, knowing that the proceeds would be applied for their benefit.

CONSTRUCTION GROWTH HAS BEEN PHENOMENAL YET STANDARDS OF BEAUTY HAVE BEEN MAINTAINED.

In connection with the establishment of a national reputation for being the fastest growing city in the United States, Detroit has not neglected to take into account the necessity for making the products of that growth, its buildings, both beautiful and indicative of the modern trend in architecture. The Detroit Convention and Tourist bureau pointed out today.

Unlike most cities whose growth has been phenomenal, Detroit has not suffered to any large extent from architectural "growing pains," largely through the efforts of a few beauty-loving builders and a large group of competent architects who have not allowed their eagerness for quantity construction to overshadow a genuine regard for art and the part that their buildings must play in making Detroit beautiful. Through the hectic periods of growth that have assailed the city for years, they have remained true to an ideal, a faith in the future of their city, and have planned accordingly.

Detroit Ranks High.

No longer is Detroit just a "big middle-western town" on the banks of a river, no longer is it regarded by eastern states residents as an outpost of civilization, an overgrown army fort. It has finally taken its place as a truly metropolitan community deserving the attention that the title of "Fourth City" should foster. And with that recognition of Detroit's bigness and metropolitan character there is a growing regard on the part of other cities for the aesthetic qualities the beauty that Detroit buildings show, the additions to the world's knowledge of architecture that have been made here.

To the architects of Detroit has fallen the task of solving effectively the housing needs of a community that has grown with all the speed of a mining camp; of furnishing dwellings for a great and varied mass of people, with incomes and tastes that are as difficult to satisfy as the wants of a temperamental diva; of building gigantic monuments to commerce to house armies of office workers; to construct department stores, factories of all descriptions, sport coliseums, hotels, theatres, markets and sheds; and with it all, to beautify the city.

Noted Architects Come Here.

It is Detroit's "beauty despite industry" that has attracted some of the most noted architects of the country during the past few years, it being generally conceded that great opportunities await art here.

Internationally, Detroit is held up as a fine example of American city architecture, and its imposing waterfront is becoming nearly as well known as the often photographed, widely exploited and greatly advertised New York scene. European critics, for long opposed to American art in building, are being forced to concede points to architects here, and are even beginning to favor the instilling of a little Americana into their own building ideas. They have always admitted that the laurels for efficient and slightly factory architecture belong to this city, for the strides Detroit builders have made in the construction of automobile factories that are not only adapted to the uses of manufacturers but are matters of civic pride as well.

The Detroit Convention bureau is engaged in preparing an annual brochure called "Detroit the Beautiful," which has in the past excited favorable comment all over the country. In gathering the material for the 1929 edition of the booklet, the bureau has, therefore, been able to study closely the beauty points of the city that are unnoticed by the ordinary resident who is prone to take civic development as a matter of course. The booklet will show, for the edification of visitors and citizens of other cities, the hundreds of beautiful spots here, with great stress laid upon the fine enduring art typified by Detroit's buildings.—Detroit Free Press.

House a Home First

A house should be first of all a home, and only secondarily a work of art, for the more nearly it fulfills the first function the greater chance it has to fulfill the second.

Early Move for Freedom

The first popular written constitution was framed at Hartford, Conn., on January 14, 1630. The towns represented were Hartford, Wethersfield and Windsor. The document provided for equal representation from all the towns.

**SEA DISASTERS
STIR INTEREST**

**Problem of Greater Safety
on the Ocean One for
Naval Architects.**

Washington. — The world of merchant shipping is attracting attention again. Congress has shown interest in the plans of the United States shipping board to sell the Atlantic fleet to private interests and a number of disasters have focused notice on the shipping business.

It seems quite likely that the winter's toll of ships is not a closed chapter for the late winter and early spring constitute a period of tempestuous weather in the north Atlantic. Then follows the iceberg season. The United States coast guard, in co-operation with other maritime nations, maintains an iceberg patrol, throughout the season during which the great ice islands come floating down on the bosom of the Labrador current to cross the ship lanes and menace navigation. Notices of the whereabouts of such bergs are radioed but fog is an enemy which renders the ship paths far from safe.

Solve Safety Problems.
Much has been done, perhaps all that can be done, so far as radio utilization is concerned. Technical experts are more and more turning their attention to the ships themselves. The Vestris mystery is not a forgotten chapter, by any means. It is true that there was difficulty in locating that ship because of wrong radio bearings, but also there was something the matter with the vessel to cause her distress in the first place.

It is thought that the next important step toward safety at sea must be taken by naval architects and have to do with the construction of the vessels themselves. The highest skill already has been expended on ship construction, but still something occasionally goes wrong.

It is a little difficult for the layman to gain a full comprehension of the stresses which a ship must stand in a seaway. The forces of wind and wave are beyond ordinary reckoning. As ships have become larger in size new problems arise which ancient mariners had no cause to consider. The United States shipping board has a fund from which it makes advances to shipbuilders desiring to increase the American merchant marine. The board, therefore, has a special interest in the design of these vessels and their safety and seaworthiness.

Building at Low Ebb.
American shipbuilding now is at low ebb, according to the Department of Commerce. Merchant ships under construction in American yards now constitute only 2 per cent of current world shipbuilding. This is the last country on the list of maritime nations in new construction. England, of course, stands first and Germany second. These are our two principal competitors in the foreign trade. Then come Holland, France, Japan, Sweden, Russia, Italy and Denmark in the order named. So it is expected that demand will soon bring about a spurt in American shipbuilding. Government officials as well as private owners are anxious that the new ships constructed be safe.

The havoc wrought by wind at sea is great even on steam liners. Wind pressure is a tremendous force. But the waves which toss a vessel about, twist and strain her plates and exert tremendous pressure upon her basic structure are the arch enemies.

A small vessel, while more readily capsized or swamped by heavy seas, is not subject to the same strain as a large liner. The longer the ship, the greater the strain placed upon her.

Let us take the Atlantic, which is the busiest of the oceans in which American ships ply. In such a storm as may be expected at this season, the crests of the waves are some 300 yards apart. The waves average about forty feet high or as high as a three or four story house. A small ship glides up and down these swells with comparative ease if she is well constructed, not overloaded and properly handled. Her pitch will be such as to cause discomfort to landlubbers because she will climb hills of water comparable to a 10 per cent grade on land. Now take a larger ship, say one 500 or 600 feet in length. Her nose will be on the crest while her stern is in the trough. Therefore the steepness of the climb is much less, only about 5 per cent on an average. Proceeding to the big liner, she is long enough to bridge the trough, her bow on one crest and her stern on the other.

Hogging and Sagging.
It is the great liner which feels the most intense strain. It will be seen that a ship becomes a bridge from crest to crest. Bow and stern have plenty of water around them acting as supports, but there is very little water beneath the middle of the ship, not enough to float her. So, then, there is a terrific downward pressure amidships. The ship must be constructed, for this reason, as strongly as a bridge over a stream to counteract this sagging.

Again, as the liner proceeds her middle is upborne by one of the huge crests, while bow and stern are unsupported, in some cases being entirely out of water. Then the pressure is upward in the middle, with downward pressure at either end. This is called hogging. Either pressure will break a ship's back. Therefore, such a ship must be built like a land bridge across

**PRIZES WILL BE AWARDED
WINNERS AT EACH STOP ON
SPECIAL TRAIN ROUTE.**

East Lansing.—Grading contests for both boys and men will be held on the potato improvement special train which will run over the Ann Arbor lines from Ann Arbor to Frankfort April 8 to 12, according to an announcement by members of the crops department at Michigan State college.

Grading is one of the essential factors in determining the quality of potatoes shipped from Michigan. Mr. Moore says, and he states that grading contests conducted in other sections of the state have drawn large numbers of contestants. Prizes will be awarded at each of the 15 stops to those who best grade field run stock into U. S. No. 1 and No. 2 samples.

Present plans for the make-up of the train include two exhibit cars. An electrically-driven potato grader will be shown. The grader sorts the potatoes for size and the operator can pick out the ill-shaped and damaged tubers as they pass over the machine. Methods for treating seed potatoes to prevent scab, black scurf and black leg will also be shown in this car. Corrosive sublimate solution will be used in this demonstration. Samples of potatoes affected by these seed-borne diseases will be on exhibit in the car.

Ways of making Bordeaux mixture for use in the control of leaf hoppers and blight will also be shown in the train. The latest types of spray and dusting machinery will also be on display.

**Policeman No Bother
to This Ohio Bandit**

Cleveland, Ohio.—"So the robber held up the policeman and the drug store with the officer's own gun and escaped with \$175 in cash."

Thus ends the fourth chapter in the somewhat turbulent history of the Marsnal Drug company during these last 23 days. Three times in a month the drug store had been robbed by the same man. They detailed Patrolman Leo Honsa to do special duty at the store.

Secretly and Honsa entered the place on his first night on duty when the familiar robber entered. He walked up to the policeman and, while Honsa was not looking, grabbed the gun from his holster.

**Floating Mines Menace
British Coastal Ships**

London.—Mines planted during the great war remain a menace to shipping in certain areas around the British coast.

The admiralty has issued a warning to mariners against trawling where unexploded mines are known to have been sunk. It is stated that off Land's end, the south Devon coast, the Straits of Dover, the Norfolk, Yorkshire and Northumbrian coasts, the Orkneys and the Heligoland Bight, it is probable some of the mines lying on the bottom may still be dangerous.

The only thing worse than having a traffic cop raise his hand at you is to have a bandit make you raise both of them.

Many a girl around Plymouth has listened to honeyed words only to find out later that she has been stung.

One advantage the flyver has over the airplane is that when the flyver's engine stops so does the flyver.

Wouldn't it have been funny to have heard old Ananias tell how much he got on his car in a trade-in?

a stream designed to carry a heavy load, but also must be built like a bridge upside down to resist a heavy upward pressure.

Many Ships Vanish.

There are many records of complete disappearances of ships at sea. The most notable case affecting Americans has to do with the utter disappearance of the Cyclops, the great naval collier, which was in touch with the world by radio one hour and utterly gone without a trace the next. No wreckage was ever found. She had not been blown up by a German torpedo. Most naval architects believe that her back was broken by one of these stresses and she sank to the bottom instantly. Several tankers, ships of a type especially susceptible to sagging and hogging strains, have disappeared in the same manner.

Disposition of cargo is another matter which is receiving special attention. Badly disposed cargo will increase these dangerous strains and government inspectors, as well as the marine insurance companies are becoming more insistent concerning this branch of shipping.

Depth of seas makes a great difference in the length of waves. A very deep sea permits tremendous swells to form. Unless they break into combbers they are not so dangerous. A ship merely has to climb one long hill and descend another. In the deep Pacific the crest of waves are half a mile high. No ship ever constructed can bridge these swells. A ship which would be seaworthy in one part of the world might not fare so well in another ocean. All these matters are receiving careful technical study and it is hoped that each year will see greater safety at sea.

Chevrolet Six

Smooth Six-Cylinder Performance

The Chevrolet Six delivers its power easily, freely and without annoying vibration or body rumble—assuring at every speed the quiet, luxurious comfort that everyone expects of a fine automobile.

Better Than 20 Miles to the gallon

Due to finer carburetion and improved manifold, this marvelous six-cylinder performance is delivered with fuel-economy of better than 20 miles to the gallon of gasoline—with extremely low oil consumption.

Distinctive Bodies by Fisher

Longer, lower and roomier... and offering such fine car features as Fisher VV windshield, adjustable driver's seat, and Terner hardware—the new Fisher enclosed bodies give the Chevrolet Six an outstanding measure of distinction.

Every Modern Driving Convenience

The new Chevrolet Six is equipped with full ball bearing steering mechanism... quiet, non-locking 4-wheel brakes... theft-proof Electrolock... automatic stop and tail light... rear vision mirror... and foot-controlled adjustable beam headlights.

A Six in the Price Range of the Four

Many people do not realize that this marvelous new six-cylinder Chevrolet is actually offered in the price range of the four. Compare total delivered prices as well as factory prices when determining automobile values. You will find Chevrolet delivered prices include the lowest handling and financing charges available.

In The Theatre

"NAUGHTY BABY."

A regular cocktail of laughter is "Naughty Baby," which will be shown at the Pennington Allen theatre Sunday and Monday, April 7 and 8.

With Alice White as the principal ingredient in the cocktail, this lively story moves along with a laugh a minute, due to the able direction of Mervyn LeRoy, who was responsible for "Harold Teen," the sensational success in which Miss White also appeared.

Jack Mulhall is featured with Miss White, who has the role of a chick girl at the Ritz Hotel, and who is herself more ritzy than the establishment. Alice has no idea of staying poor long, and when Jack comes into view with the intention of gilding the Great White Way with a broad brush she has a great yearning to help in his noble work. Jack plays the role of the heir to millions who is trying to spend a good part of it in advance.

Alice is a regular four-timer, and works three of her lumbe neighborhood admirers, one an Italian, the other Jewish and the third Irish, for everything she needs to catch Mulhall. The roles of these "three musketeers" are admirably taken by Geo. Stone, Benny Rubin and Andy Devine. One works in a modiste shop and borrows gowns, the other in a pawnshop where he can borrow jewels while the other works in a garage and can furnish cars.

Needless to say, with this layout Alice is ritzy—and how! The story works out delightfully and is as good entertainment as the Pennington Allen theatre has had in many a moon. Thelma Todd, Doris Dawson, Fred Kelsey, Rosie Dione and others constitute a notable cast. Tom Geraghty wrote the script.

"ADORATION."

The Russian revolution and the night of aristocrats and members of royalty after the event form the basis of the intriguing plot of "Adoration." Billie Dove's new First National picture which comes to the Pennington Allen Theatre, Wednesday and Thursday, April 10 and 11. It will prove delightful entertainment and the cast is one of the best seen in a film here for some time.

Miss Dove is beautiful and alluring as well as a pathetic figure as the Princess Elena, who is torn from her beloved husband (Antonio Moreno), by the tide of the revolution. The actual theme of the story, which is by Lajos Biro, noted Hungarian dramatist, is jealous for the prince believing his lovely wife to be unfaithful, through a mistake wherein her maid is involved, refuses to believe her protestations when they meet under different circumstances in Paris.

In the end all is resolved satisfactorily, but not until many tears and a near-tragedy have complicated the problem.

Frank Lloyd, director, and Ned Marlin, producer of "Adoration," deserve much credit for a splendidly handled and admirably conceived picture, with settings that are striking both from a standpoint of magnificence and picturesqueness. Much of the tale is laid in Paris where contrasting scenes of richness and squalor are presented.

Lucey Doralne, former UFA star, appears as the maid, Moreno as the prince, is as always, excellent. Nicholas Soussanin is a convincing heavy and Nicholas Bela is a somewhat humorous and very human valet. Emil Chautard, former director, is fine as the Russian general and Winifred Bryson appears to advantage, as does Lucien Prival, as baroness and baron respectively.

The ensemble is wholly satisfactory. While of an exotic character, there is enough human interest to hold, and the characters are all well portrayed.

"MAKING THE GRADE."

If you happen to be one who appreciates a good laugh be sure to see "Making the Grade," which appears at the Pennington Allen theatre, Saturday, April 13.

George Ade is responsible for the story, and the director, Alfred E. Green, seems to have grasped the real Ade spirit and transplanted it to the screen. The film is refreshing. It is based on a theme that is not new—in fact, we might say that at moments one is reminded of the idea behind "The Taming of the Shrew" except that in the present case it is a young lady who does the taming.

Lois Moran, as the little tearoom girl with whom the snobbish young millionaire falls in love, proves herself a very subtle artist. Edmond Lowe plays the part of the snob and he gives the characterization just the restraint necessary to put it across.

The picture gets right down to laughs from the beginning. Situations follow in rapid order and finally culminate in bringing the high and mighty young snob from his superior world in the clouds down to solid earth. The transformation is accomplished thru many amusing situations which Green has developed with fine finesse.

Others in a well balanced supporting cast include Rolfe Sedan, Lucien Littlefield, Albert Hart, Gino Conti, and Lia Tora.

If you feel the need of laughs, see "Making the Grade." Comedy—"Parlor Pests."

\$82,000,000 FUND TO EXTEND LONG DISTANCE LINES

Bell System's Parent Company Announces Big Increase in Building Program

Nearly \$82,000,000 is to be spent by the American Telephone and Telegraph Company during 1929 on new Long Distance telephone facilities in the United States, an increase of 67 per cent over 1928.

During 1928 the public's use of Long Distance telephone service increased more than 13 per cent over 1927, and on account of the lower rates on long haul calls now in effect, still greater use of these facilities is expected.

About \$42,000,000 of the \$82,000,000 will be spent to extend and supplement the existing Long Distance cable system. Nearly 2,500 miles of such cable, practically storm-proof, will be constructed this year, most of which will be used jointly by the American Telephone and Telegraph Company and associated companies. In addition, the Associated Bell Companies will construct about 1,000 miles of Long Distance cable. Cable construction projects of the year will include the construction of relief cables on more than 30 per cent of the New York-Chicago route via Pittsburgh and Cleveland, affording additional facilities between the Eastern Seaboard and the Mid-West. A similar supplementary cable will be provided between Hartford, Conn., and Wilmington, Del., on the route which joins Boston and Washington, while other cables will be added on existing routes in various sections.

The cable line built southward from New York to Greensboro, N. C., will be continued this year as far as Greenville, S. C. The cable line stretching west from Chicago towards Omaha will be extended from Davenport, Ia., to Ewart of the same state, while new cable lines will be constructed between Springfield, Mass., with Albany, N. Y., and Harrisburg, Pa., with Baltimore.

The Long Lines construction program includes supplying a million loading coils and about 24,000 telephone repeaters to be used in connection with new and existing cable lines, the stringing of 74,000 miles of new aerial wire through less populated areas, and new pole lines, calling for an expenditure of \$10,000,000; the installation of 58 carrier current telephone systems and 24 carrier current telegraph systems which enable several messages to travel simultaneously over one set of wires; aerial wire construction on each of the three transcontinental telephone lines, with the addition of several new circuits; the building of a tie line connecting the central and northern transcontinental routes from Salt Lake City to Helena, Mont., via Pocatello, Idaho, and Butte; special telephone circuits for transmitting radio broadcasting programs from studios to distant stations; land and buildings to house the equipment needed to operate and maintain such facilities; the construction of three additional short wave transoceanic telephone systems to supplement the present telephone facilities to Europe, needed because of the increased volume of overseas telephone calls, and finally, one additional short wave system to be used for telephone service with South America via Buenos Aires.

Austrian Diggers Find

Gold Buried Long Ago

Vienna, Austria.—Gold believed buried 16 centuries ago by Roman legionnaires has been found in a field at Haffnerbach, near Vienna, during boring tests for water.

At a depth of 24 feet the diggers found rich deposits of gold dust mixed with clay and earth, several ounces of pure metal being obtained from every few handfuls of earth.

Mining experts believe Roman legionnaires originally took the gold from a near-by river and hid it in its present location for safekeeping during an attack from a migratory tribe. It is assumed the Romans intended to send their treasure to Rome to be minted, but probably suffered defeat and were forced to abandon their wealth.

Natives Hard Up

New York.—Native-born Americans are more in need of charity than any alien group, according to figures in the annual report of the charity organization society. Thirty-seven per cent of those aided by the society last year were born in the United States.

Takes Ores From Mud

as Did Ancient Greeks

Miami, Okla.—A machine designed by W. A. Batchart of Joplin, Mo., is reclaiming millions of dollars in ore that formerly went into the waste piles. Twenty-five centuries ago Hero dotus referred to the recovery of gold from the mud by means of feathers daubed with pitch.

Today oil and various chemical reagents are used to recover valuable zinc and lead ore from slimes, or mineralized mud, and from waste piles of tailings that at one time were considered virtually valueless.

Gigantic Warehouse

The largest warehouse in the world is in Liverpool, England. It could hold the total population of the city.

Reliable Used Cars

Cars Right—Prices Right—Terms Right

We offer a wide selection of good used cars—in almost every price range.

With every car goes its true history. We will not sell a late 1923 model as a 1926.

We will not sell "cheap bargains" at "markdown" prices.

Our used cars are sold at their true appraisal value without exaggeration of their merits.

The cars are right. The prices are right. The terms of payment are liberal.

It will pay you to buy from us. Our reputation as Buick dealers is your assurance of honest value.

WITH THE GIRL RESERVES.

Several girls wished to join the Senior Girl Reserves and also the Ninth Grade club and the two clubs combined and held their initiation ceremonial together. This was held Tuesday evening, March 19, in the auditorium.

CHARLES PADDOCK, OLYMPIC TRACK CHAMPION.

Charles Paddock, popularly known as the "world's fastest human," will speak in assembly April 10. When the students see and hear Mr. Paddock they will have met with one of the most outstanding personalities of the sport world.

OBSERVATIONS IN STUDY HALL.

One boy busily cleaning his fingernails with a knife—behind the shelter of a propped-up book. One girl is really studying. Another one keeps dropping paper, pencils, handkerchiefs and books on the floor or seat as an excuse to stop working.

SEA CAPTAIN IS HELD AS CHIEF ALIEN SMUGGLER

Hundreds of Foreigners Paid From \$400 to \$1,000 to Enter United States.

Jacksonville, Fla. — Hundreds of aliens have paid from \$100 to \$1,000 each into the coffers of a huge smuggling ring which immigration authorities here assert they have uncovered.

U. S. Hunts for a Place That Never Had Flu

Washington—Wanted: A locality that has not been touched by the influenza epidemic, where absolutely no cases of flu have occurred.

A serious difficulty encountered in previous influenza research has been the impossibility of securing absolute control conditions. Only where there are persons who have not had or been exposed to influenza is it possible to judge accurately the results of experiments on transmission of the disease, immunity, etc.

Woman Police Judge Sits for Tenth Year

Boulder, Colo.—A woman's wisdom and sense of fairness balances the scales of justice in Boulder's police court.

After a decade on the bench, Judge Linda M. Lee counts among her friends the persons who have stood before her charged with violation of city ordinances.

CENTRAL GRADE NOTES.

Mrs. Blossom's second grade has been very busy working on penmanship drills for the past two weeks.

The children have been making Easter decorations for the room by coloring Easter lilies and chickens.

The children have also made pictures of Dutch girls holding baskets with tulips.

They are studying about the blue bird and bob white.

The following pupils from Mrs. Root's first grade were neither absent nor tardy during the month of March: Phyllis Samsen, Virginia Shaw and Elverna Schrader.

Norene Blum is now reading in one of the supplementary primers.

Group three is cutting out phrases and matching them in other sentences to check on their ability to read phrases correctly.

In hand work the children have colored Easter posters of little girls with rabbits and colored eggs in a nest. They have also colored Easter cards of chickens and bunnies to give to their fathers and mothers for Easter.

The children hope to have an Easter egg hunt on the Monday after Easter.

Dorothy Bailey of Miss Weatherhead's has been absent from school because of illness.

The second grade sent twenty-seven penmanship papers to Chicago.

Philip Rodman is back from Florida. Paul Toms is a new pupil in Miss Dixon's room.

Mrs. Greer visited this room recently. Miss Farrand's fourth grade, John Erford Nash had the highest rating in spelling.

A NEW ORGANIZATION.

Mrs. Stevens' 8B English class has formed a Junior Speaking club.

The purpose of the club is to teach the pupils to improve their speech and to conduct a meeting. Each week a new president, secretary and program committee are appointed.

The president, Alfred Gates, called the first meeting in order March 21. The roll call and minutes of the last meeting were read by the secretary.

The program was arranged by Bernice Delvo and Esther Edge. The topics, previously assigned, were two minute reports given by the members of the class.

The next meeting is in charge of President Ardath Baker. Secretary Helen Dudek and the program committee, Dewar Taylor and Herbert Burley.

Margaret Stoneburner, Secretary.

STARKWEATHER NOTES.

Phyllis Stewart and Helen Dely, respectively, still hold the highest spelling test scores in Miss Johnson's room.

They are all intensely interested in the study of birds. The Flicker seems to be the favorite.

DETROIT SCHOOL MEN'S SUPPER.

Messrs. Emens, Smith, Dykhouse, Cobb, Matherson, Carr, Lindquist and Beauchamp motored to the beautiful Fordson High school Tuesday evening, March 19, where they attended the Detroit School Men's Supper.

Those attending found out how well equipped and up to date it was during the inspection of the building. After the inspection dinner was served in the school cafeteria to six hundred men teachers from Detroit and surrounding schools.

SENIOR GIRL RESERVES.

Easter baskets which were sent to the children at the Howell sanitarium were made by the Senior Girl Reserves on Wednesday, March 12.

Questions involving problems so as to enable the authorities of the University of Chicago to establish a definite religious course there were filed out on Friday.

Girl, 15, Writes Book on Boarding School

Chattanooga, Tenn.—Fifteen-year-old Curran Barnes of this city is to make her literary debut shortly with "School Girl," a fictional composite of life at a boarding school.

The book is not a study of conditions at one school. Curran is a student at fashionable Ward-Belmont, Nashville.

"School Girl" does not mince words and it may not please the elders. Curran's answer is that all her life she wanted to write a book and she has chosen the subject she knows most about.

The young author is the daughter of Mrs. George Pullen Jackson. She has decided what she is going to do with the money from the book—"Buy about the most expensive sport model roadster on the market."

Mental Exercise

Brains were made to think with Exercise them and not altogether the arms and legs. There is no mental term to correspond with "athletics"—Exchange.

Girl Jaywalker Slaps N. Y. Policeman's Face

New York.—Crowds in Times square saw a policeman get his face slapped when he attempted to prevent a young woman from jaywalking in violation of Police Commissioner Whelan's the atypical district traffic rules.

Patrolman John Brennan ran after the woman when she started across Broadway at Forty-sixth street. When she refused to go back he grasped her arm and she gave him a resounding slap on the face.

At a police station she said she was Margaret Frey, twenty-nine years old, a companion to a Mrs. Cook of 240 Riverside drive. Ball was arranged.

3,000 Pupils Rise With Sun to Save Daylight

Denton, Texas.—An experiment in "daylight saving" education will be tried this summer at North Texas State Teachers college.

More than 3,000 students will get up with the sun five mornings a week to attend classes beginning at six o'clock. Afternoons will be devoted to study and evenings to recreation.

Floodlights will light up the athletic field for night sports. Movies will be shown in an open-air theater.

The "daylight-saving" program was devised to accommodate what is expected to be the school's largest enrollment.

Perrinsville

About twenty-five friends gathered at the home of Mr. and Mrs. Luter-moser and gave Mr. and Mrs. Bud Smith, nee Margaret Bassett, a miscellaneous shower. The evening was spent in games. Everyone had a lovely time wishing the young couple a long and happy life. They departed for their homes at a late hour.

Mr. and Mrs. Belmon and family have moved over on Merriman road.

Mr. Walenger had the misfortune to have the high wind blow down his front porch Monday.

Friends and relatives came to help William Johnson celebrate his birthday, March 24th. There were visitors from Detroit, Stark, Plymouth and

Wayne. After partaking of a bountiful dinner, they all returned to their respective homes wishing him many more happy birthdays.

Mr. and Mrs. George Baehr spent Wednesday with Mr. and Mrs. George Edwards at Eloise.

Mr. Johnson was calling in this vicinity Wednesday.

Mrs. Edith Herr and family, of Detroit, spent Good Friday afternoon with Mrs. Bell Baehr.

Mr. and Mrs. Erland Bridge and family, of Berkley, visited Mr. and Mrs. George Baehr, of Perrinsville, Saturday.

The Mesdames Klatt, Rouch, Voss and McQueenen spent Friday with Mrs. Walenger.

FROM YE EDITOR'S SHEARS

IMPURE FOODS NOW OFF MARKET

Adulteration Curbed by Laws of Nation and State, Say Officials.

Washington.—Flagrant adulteration in many food products was widely prevalent before the enactment of federal and state food control laws, said officials of the food, drug and insecticide administration of the United States Department of Agriculture when their attention was called to a reprinted press report on the subject that had been originally published 50 years ago.

Instances of adulteration cited in the press report include the molting of chicory and of clay into the form of coffee berries colored and flavored to represent coffee; white stone ground into a fine powder and used to adulterate soda, sugar and flour; "terra alba" or white earth, for use in confectionery and cream of tartar, confectionery coloring material containing lead, mercury, arsenic and copper; cayenne pepper adulterated with red lead; mustard with chromate of lead; curry powder with red lead; vinegar with sulphuric acid, arsenic and corrosive sublimate; milk adulterated with water and artificial milk made synthetically which did not contain one drop of the genuine article.

Analyses Confirm Adulteration. It cannot now be determined, say the officials, to what extent these and other forms of adulteration mentioned in the old account prevailed throughout the food industry 50 years ago, but official analyses made prior to and since the enactment of the food and drugs act in 1906 confirm some, if not all, of the forms of adulteration reported as being prevalent in 1879.

Imitation coffee berries made synthetically without a trace of real coffee are among the official samples collected before the enactment of the food and drugs act, but still retained by the food, drug and insecticide administration as an exhibit of what the cupidity of some few manufacturers would lead them to do when not restrained by the fear of the penalties imposed by food control laws. Artificially colored ground sawdust used to adulterate cayenne pepper is also among the exhibits illustrating the deplorable condition in the food trades in bygone days.

Fortunately for the consumers and the vast number of honest manufacturers who put out good products most of these forms of adulteration no longer are practiced, though some may occasionally occur in isolated instances, says the food officials. The marked improvement in the quality, wholesomeness and truthful labeling of food products that has been brought about in the meantime, they say, is due principally to the enactment and enforcement of federal and state pure food laws, and to the increasing realization on the part of manufacturers that it is good business to put out only sound, wholesome products truthfully labeled.

Decide to Be Good.

The exposure of adulteration prevalent 20 years ago, when the food law was passed, made sensational news stories. The spectacular contests between food officials and manufacturers who refused to clean up their factories to abandon profitable practices also resulted in widespread publicity.

As these sensational features became less frequent, and the food industries corrected their products and practices to comply with food control laws as clarified by court decisions and extensive scientific investigations, there has been a marked decrease in the news value of food control operations.

That constant vigilance by food officials is still necessary is evidenced by the fact that hundreds of seizures and prosecutions are made every year under the food and drugs act. The adulteration found today affects the pocketbook more often than the health, consisting principally of the substitution of a cheap substance for some normal ingredient that costs more. Only occasionally is the public health jeopardized by adulteration.

As the result of effective enforcement of federal and state food laws during the last 20 years, the food products sold on the market today are freer from adulteration and misbranding than ever before.

Tired of Life

New York.—Leaving a note saying he was "tired of being useless," Clark F. Hahn, twenty-eight years old, shot himself in the anteroom of a night club.

Read the Classified Section today.

The new Stinson plant at the Detroit-Wayne industrial airport at Wayne is now in operation. 200 men are employed, but this number will be increased to 300 as quickly as possible.

The Village commission of Birmingham have appropriated \$2,000 for the replanting of trees in that village.

Superintendent William H. Gordon, of the Northville schools, has signed a contract to remain another year as head of the schools of that village.

George Goodell, Northville's oldest veteran of the Civil war, was downtown last Friday for the first time since the ice came late in December. Mr. Goodell was the first soldier to enlist from Novi township. He entered the army when 18 years of age and served until the close, being discharged from the old Harper hospital in Detroit, where he was a patient May 30, 1867. He was one of the northern soldiers who spent a year and three months in Andersonville prison. "We lived on rotten corn meal, and how under the sun we ever survived that food is more than I can understand," he says. But that was not all. When Mr. Goodell was captured and taken to Andersonville, he had been wounded and during all the time he was in prison the only care his injury received was that given by himself and some of his comrades within the walls.—Northville Record.

Novi's new business block is expected to be finished about April 15th.

Paris Guards Go Home After 57-Year Detail

Paris.—A detachment of republican guards, sent to help police headquarters fifty-seven years ago, has returned to its barracks.

President Jules Grevy, long dead, ordered the squad of mounted guards, the show troops of Paris charged with patrolling the Elysee palace, to aid the police in 1871 and the squad has been there ever since. All the original members are dead.

They were succeeded by several generations of recruits and when they left, after a farewell ceremony, there were none who ever had heard why they were there.

Spirits Fail Gabriel; Goes to Jail for 5 Years

Manila.—Alleged possession of supernatural powers on the part of Gabriel Valentin caused the mother-in-law of the dean of the college of liberal arts, University of the Philippines, to give Valentin \$8,000 with which to buy land that he said would produce gold after he had performed incantations. By court decision, Valentin will now have five years, five months and eleven days in which to find out if supernatural means can get him out from behind prison bars.

Find Highest Waterfall in Marquesas Islands

Marquesas Islands.—The highest waterfall in the world has been discovered on the French island of Nukuhiva, one of the largest of the Marquesas.

It is estimated that the water tumbles from a height of 1,160 feet. Ordinarily the width is about ten feet, but this is enormously increased during the rainy season. The fall is three miles from the sea.

GAS MADE HER CROSS, CAN'T EAT OR SLEEP

"When I ate I would bloat up with gas. I couldn't sleep, was cross and nervous. Adlerika has given me real relief."—Mrs. M. Meyer.

Adlerika relieves stomach gas and sourness in TEN minutes. Acting on BOTH upper and lower bowel, it removes old waste matter you never thought was in your system. Let Adlerika give your stomach and bowels a REAL cleansing and see how much better you feel. It will surprise you! Bayer Pharmacy and Dodge Drug Co.

Facts About Telephones

The first house-to-house telephone connections from Bandung, Java, to Holland have been effected recently.

The first transatlantic telephone call from Atlanta to Vienna in Austria resulted in the sale of 300 bales of cotton.

The New York Times' equipment for taking classified advertisements by telephone includes 36 positions on the switchboard.

The Anglo-Italian telephone service hitherto limited to communication with Milan has now been extended to Turin and Genoa.

The Anglo-Italian telephone service formerly available in Italy to Milan only has now been extended to Turin via the Milan-Zurich-Paris-London circuit.

A report recently issued by the Government of Ontario, Canada, shows that there are 541,043 telephones in the province, or over 17 per cent of the population.

The 600,000th telephone in the London area was recently installed. This area now includes more than one-third of all the telephones in Great Britain and Northern Ireland which, according to the latest estimate, number about 1,780,000.

Although lumber is not one of the chief raw materials used in the manufacture of telephone apparatus, the Western Electric Company's Hawthorne works in Chicago uses annually more than 20 million board feet—enough to build more than 2,700 5-room bungalows.

When the Cascade tunnel of the Great Northern Railway was opened a total of 64,300 miles of telephone wire was used in the National Broad-casting Company's hookup.

The average Plymouth citizen can remember the time when a newspaper reader went farther than the first paragraph of a murder story.

People soon learn that when a girl runs her fingers through a fellow's hair it's time to propose or go home.

All of us are anxious to have world peace, but some of us can't see any reason for fighting over it.

If the styles continue as they are now, we are not in any danger of petticoat government.

Dad Plymouth says there's a vast difference between a fellow who plays a saxophone and a musician.

URGED TO WAR ON INSECT KINGDOM

Scientist Declares Titanic Struggle Impends.

Atlantic City.—The future will see a "titanic" struggle for existence waged between man and insects, members of the New Jersey Mosquito Extermination association were told by Dr. L. O. Howard, chief entomologist of the United States Department of Agriculture.

"Insects now consume each year the equivalent of the labor of a million men," Doctor Howard said. "They have a great advantage over human beings both anatomically and physiologically. Man's superior intelligence is all that has enabled him to even begin to check the advance of insects. A serious struggle is ahead."

"Rapidity of motion, and frequency of multiplication, quick adaptation to conditions, powers of concealment and long period of helpless infancy, are some of the advantages that insects have over men."

As a means of preparing for the battle with insects, Doctor Howard suggests that colleges and universities devote more attention to entomology as a step in the mobilization of a trained army of insect fighters.

The importance of oiling small bodies of water and emptying casks and tin cans containing water was emphasized as a means of holding mosquitoes in check.

Noted Artist Spends Last Days in Seclusion

Gros-Sur-Loup, France.—Half paralyzed and almost blind, one of the acclaimed composers of the world, Frederic Delius, is spending the remaining days of his life in this tiny hamlet about 50 miles from Paris.

The man who imagined the music for "Kounga" and "Margot le Rouge" no longer writes music; his greatest effort is to shelter himself from the world. Each day his devoted wife reads him the French, German and English newspapers. Then, if the weather is good, to give him the benefit of the fresh air for an hour, or so, he is pushed in a wheel chair to the river that flows at the foot of his garden.

Even the touch of his beloved piano is denied him, for his hands tremble so that they cannot find the keys. The recognition that has come to him of recent years is too late, for Delius cannot hear the plaudits that are accorded his compositions.

Boys Open Beauty Shop for Household Pets

Wapakoneta, Ohio.—There no longer is any excuse for bedraggled dogs in Wapakoneta since Penton Hamilton and Charles Fleming, Jr., both thirteen, opened a dog beauty parlor. The boys are the operators.

Their parlor is in the basement of young Hamilton's home, and has been equipped with appliances to remove dirt, burrs and curl and comb long and short hair.

The youthful proprietors distributed circulars throughout the town announcing they were prepared to wash black-and-tan dogs for 20 cents, white ones for 35, mixed colors for "two bits" and curly haired dogs for 10 cents extra. They guaranteed to remove burrs, gum, or such other substances that might mar the beauty of their clients, and promise "kind treatment, no soap in the eyes, and face washed separately."

World War Hero Dog Still Wire-Fence Shy

Ware, Mass.—Behind the be-whiskered, quizzical face of Captain, veteran war dog, lurk memories of ravaged battlefields that ten years of peace have apparently left untouched.

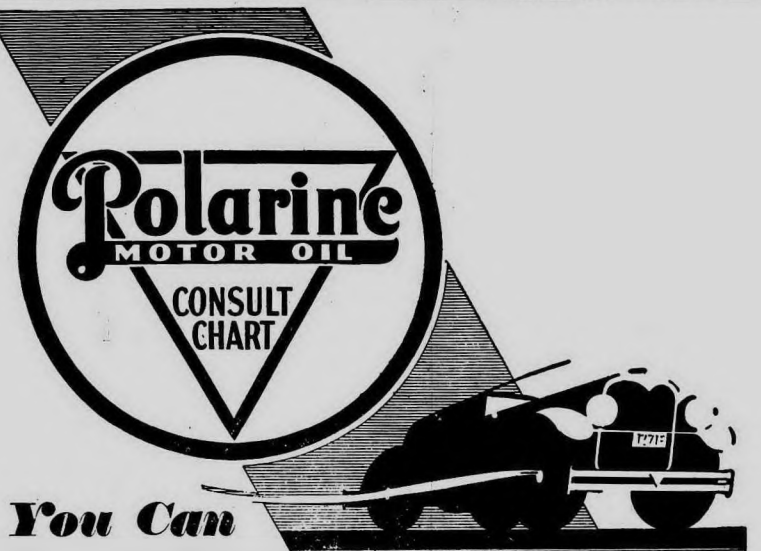

Cap, as his owner, Dennis P. Shea, state game warden, calls him, is a wire-haired griffon and a native of France. Cap is more than thirteen years old.

He escorts members of his family to store or church or theater—but does not enter them home. All this Cap has learned, but he has never learned to forget the war. The horror of barbed wire and gas masks is still upon him.

Although barbed wire is used heretofore only to confine dairy cattle, Cap refuses to go near a wire fence. He still associates them with sudden death.

Canada now has over 1,300,000 telephones in operation, the Province of Ontario leading with over half a million. The Bell Telephone Company of Canada operates both in Ontario and Quebec, but there is a total of about 600 separate and distinct telephone systems in Ontario. The Province of Saskatchewan, however, has over 1,200 separate systems.

OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Plymouth, Michigan, March 18, 1929.
A regular meeting of the Village Commission held in the Commission Chamber of the Village Hall, March 18, 1929 at 7:30 P. M.
Present: President Henderson, Commissioners Fisher, Nutting, Pierce and Shear.
Absent: None.

The minutes of the regular meeting held March 4th of the special meeting held March 12th were read and approved.

It was moved by Comm. Nutting, supported by Comm. Pierce, that the Village Manager together with the Village Attorney be directed to draw up a tentative building code for presentation to the consideration of the Commission in the near future. Carried.

It was moved by Comm. Nutting, supported by Comm. Shear, that the Manager and Attorney draw up an electrical code for presentation to the Commission in the near future. Carried.

It was moved by Comm. Fisher, supported by Comm. Nutting, that the Manager and Attorney draw up a sanitary code for presentation to the Commission at an early date. Carried.

The Manager called the attention of the Commission to the fact that Lots 142, 143, 144, and 145 of Nash subdivision were erroneously assessed for a storm sewer lateral for which they had already paid, and he recommended that their storm sewer assessment be adjusted to rectify the error. It was moved by Comm. Fisher, supported by Comm. Shear, that the recommendation of the Manager be accepted and the storm sewer assessments be ordered adjusted as recommended. Carried.

The Manager also reported the fact that the north half of the parcel of land at the southeast corner of Wing and Kellogg streets and lot 45 of Kellogg Addition at the southwest corner of Wing and Kellogg Streets had through error been included in the assessment district for the Kellogg street water main installed during 1928; said lots being served with water from a main on Wing Street. It was moved by Comm. Nutting, supported by Comm. Pierce, that the parcels of land in question be eliminated from the Kellogg street water main roll. Carried.

The following bills were approved by the Auditing Committee:

Upon motion by Comm. Shear, supported by Comm. Pierce, bills and checks were passed as approved by the Auditing Committee.

Upon motion by Comm. Fisher, supported by Comm. Pierce, the Commission adjourned.

J. W. HENDERSON, President.
A. J. KOENIG, Clerk.
Plymouth, Michigan
March 25, 1929.

A special meeting of the Village Commission held in the Commission Chamber of the Village Hall, March 25, 1929 at 7:00.
Present: President Henderson, Commissioners Nutting, Fisher, Shear and Pierce.
Absent: None.

The minutes of the regular meeting of March 18th were approved as read.

A petition was presented signed by the owners of the four parcels of property lying immediately north of the Village Hall property, and requesting that an existing eight inch sanitary sewer main be extended across the rear of their property so as to provide them with sanitary sewer services as soon as possible. It was moved by Comm. Pierce, supported by Comm. Shear, that the petition be accepted and approved, and that the Manager be directed to have the main installed by the Department of Public Works of the Village; and that the Village assume the usual one-third of the cost, the balance to be assessed against the property benefited. Carried unanimously.

The following bills were approved by the Auditing Committee:
Corbett Electric Co. \$ 72.11
Gregory Mayer & Thom Co. 22.75
Mayflower Hotel 7.50
A. E. Patterson 300.00
Total \$402.36

The following checks written since the last meeting were also approved:
Election Board \$30.00
Mrs. John Quarrel 6.00
Total \$36.00

Upon motion by Comm. Shear, supported by Comm. Pierce, bills and checks were passed as approved by the Auditing Committee.

Upon motion by Comm. Fisher, supported by Comm. Pierce, the Commission adjourned sine die.

J. W. HENDERSON, President.
A. J. KOENIG, Clerk.
Plymouth, Michigan
March 25, 1929.

A regular meeting of the new Village Commission held in the Commission Chamber at the Village Hall, March 25, 1929 at 7:30 P. M.

Present: Commissioners Nutting and Shear; Commissioners-elect Wiedman and Kehrl.
Absent: Commissioner-elect Robinson.

Commissioners-elect Wiedman and Kehrl subscribed to the required oath

Boys Improve Value of Idle Home Lands

East Lansing—Michigan boys have reversed the old advice to go west and grow up with the country and are improving idle home land by planting trees whose beauty and value will increase as their own age increases, according to a statement by members of the forestry department at Michigan State college.

MEMBERS OF MICHIGAN RANGER STATIONS WILL PLANT TREES ON UNPRODUCTIVE ACRES.

Three forestry ranger stations established in Washtenaw county last week are the forerunners of many such stations whose members will be the boys and girls of several Michigan counties. Organization plans for these stations have been completed in Kent, Van Buren, Antrim and Cheboygan counties.

Members of the stations agree to plant 1,000 trees on an idle acre of ground which is not adapted to the production of other farm crops. Evergreens, spruce or pine, are the trees usually planted because they grow better than hardwoods on unfertile soils, are easier to plant, and produce more board feet of lumber per acre.

Mixed plantings of pine and spruce are popular, as a part of the spruce can be harvested in 10 years for Christmas trees. The removal of the spruce thins the stand of trees and gives a comparatively quick money return on the forestry project. Spruce which is allowed to stand may be cut for pulp wood in 30 years.

Four years of training in forestry practices are open to the members of the ranger stations. Specialists from the forestry department of Michigan State college will assist in training the station members.

U. S. Autoists Need No Passports in Mexico

Laredo, Texas.—In order to encourage American automobile tourists to visit Mexico, the government has issued an order which does away with the passport requirement. In its place all that is now necessary is for the visitor to obtain a credential from a chamber of commerce anywhere in the United States certifying as to his identity and good character. This certificate will be recognized by immigration and custom officials at all border gateways and the tourist admitted expeditiously. The new highway between Laredo and Monterey is now being placed in excellent condition in expectation of heavy tourist traffic during the coming summer. Even tourist camps, similar to those that are found in the United States, are being built at points along the highway.

Fangless Snake Able to Grow New Teeth

Mont Alto, Pa.—Loss or injury of its fangs does not render a rattlesnake harmless, because it can quickly grow a new set, according to T. H. Evans and H. A. Foreman, students at the Pennsylvania State Forest school, who have devoted considerable time to studies of the private life of this fearsome reptile.

Oysters Grow on Trees and Crabs Eat Fruit

Port-of-Spain, Trinidad.—This is probably the only place in the world where oysters grow on trees and crabs eat from the highest branches of the fruit trees. Nature has played many pranks in Trinidad, where there are also a lake of pitch, rivers of tar and fishes clad in armor.

Anger Is Blamed on Early Diseases

New York.—Two results of disease, a tendency to get angry easily and an inclination toward fear, were analyzed before the American Association for the Advancement of Science.

Happy Lady Tells How Just Six Bottles of Konjola Brought New and Glorious Health.

"What a joyous privilege it is to read and hear the many endorsements of Konjola, the new and different compound that has become the most talked-of medicine in America. Konjola, with its 32 ingredients, 22 of which are the juices of roots and herbs, contains no alcohol, no nerve-deadening drugs, no heart-depressing chemicals, yet it cleanses and soothes, and paves the way for the return of health.

Consider, for a minute, the fine experience that Mrs. Mary Perez, 200 Chene street, Detroit, had with this master medicine:

"I was run down and worn out by years of indigestion and kidney trouble. My back ached and every duty was drudgery. No food agreed with me. I tried simply everything recommended, but nothing touched the spot until I put Konjola to the test. At once I started to get better, and day by day my digestion improved. In six weeks I was perfectly well again, feeling better than in years. I am sleeping like a child and eating anything I like. Konjola as a medicine is in a class by itself."

Konjola is sold in Plymouth at Community drug store and by all the best druggists in all towns throughout this entire section.

Relic Sleuths Use Microscope in Work.

Ithaca, N. Y.—Detectives who use chemicals, X-rays, vacuum tubes and ultra-violet light apparently are necessary in these days of synthesis, but here at Cornell university a technique has been developed that affords some strong talking points in favor of the old-fashioned principle of using the eyes aided by a glass.

UNEARTH TRICKS OF COIN FRAUDS

The detective work here is done mostly on rare coins and antiques to discover whether they are genuine. The owners have come to the department of chemistry expecting some such chemical formula as "x equals y" as proof of age. They often are told by Dr. E. H. Chamot, professor of chemical microscopy:

"Let us look at it first. Perhaps we can save time and the possibility of marring this treasure."

He puts the object under a microscope. Now, under the glass nothing appears natural, and a long training in the technique is necessary before the microscope detective may read the evidence before his eyes.

A coin known as a gold stater from Lampsacus came here for analysis. The microscope showed that it had not been cast. A chemical test proved that the gold was of a fineness consistent with ancient origin. But suspicion persisted.

As it was desirable not to mar the coin, the microscope was employed to get a tiny piece of the "dark gold" from the coin without leaving a trace of cutting. Analysis proved that the apparent aging was an artificial coating of gum, starch and color matter.

Picked Up About Town

"If Edison gets so he can broadcast cake, as he predicts, it will be just my luck that night," says Dad Plymouth, "to get hold of a station that is broadcasting carrots and tripe."

Cave men use to knock girls senseless, but in this day and time that isn't necessary.

According to Dad Plymouth if we could only see ourselves as others see us we'd never speak to them again.

There are 134 airports in the United States, and any number of other places where an aviator can drop in.

"Don't feed your cows newspapers," says Dad Plymouth, "that won't make them give print butter."

According to Dad Plymouth, the people who borrow trouble can always be depended upon to bring it back.

Dad Plymouth says he can remember when about the worst thing that could happen to a boy was to step on a rusty nail.

"KONJOLA IS JUST WHAT I ALWAYS NEEDED."

Happy Lady Tells How Just Six Bottles of Konjola Brought New and Glorious Health.

MRS. MARY PEREZ.

"What a joyous privilege it is to read and hear the many endorsements of Konjola, the new and different compound that has become the most talked-of medicine in America. They Are Here!
Designs that Express
Tomorrows Vogue in Wall Paper
To Make The Home Attractive Start With The Walls
The thoroughly modern home of today is resplendent in well chosen color. The cold, drabness of painted walls won't do. But the creators of wall paper have not only produced bright, gayly colored designs but also semi-subdued patterns . . . in fact, color combinations that meet the requirements of every decorative scheme.
We have the ROUGH PLASTER PAPERS, which have all the merits of HAND FINISHED PLASTER WALLS. Easy to hang, and can be removed when change is desired.
We carry a full line of papers, ranging from three cents up, to suit the purse of anyone. Come in and see them.
We carry tools for hanging wall paper, at a moderate cost. Brushes, knives, rollers and dry paste.

MANY QUIRKS IN MARRIAGE LAWS

Survey Shows But 24 States Require Ceremony—Age Limits Vary.

New York.—Forty-eight states and the District of Columbia have laws regulating marriage. The wide divergences among these laws, their excellencies and deficiencies and modern trends in state control over marriage are shown in an exhaustive study made by Geoffrey May of the Russell Sage foundation's staff.

This statement calls attention, first of all, to the fact that, while all states specify how marriage ceremonies shall be performed, only twenty-four require a ceremony in order to make a marriage valid. In the remaining states a mere private agreement between a man and woman, without witness or recorded promise, constitutes a marriage if no "impediment" exists. Among the states in which these common-law marriages are still valid are such large and populous states as New York, Pennsylvania and Ohio.

Low Age Limits.

For age requirements marked variations were discovered. If their parents consent girls of twelve may still be legally married in the states of Colorado, Florida, Idaho, Louisiana, Maine, Maryland, Mississippi, New Jersey, Rhode Island, Tennessee and Virginia. The remaining states have a higher minimum age, usually fourteen or sixteen, though in twelve states where the minimum age is sixteen or higher certain specified judges may authorize a marriage if circumstances make such action desirable.

A minimum age of eighteen obtains in New Hampshire, two years higher than in any other state in the country. The consent of parent or guardian is required in most states whenever either party to the marriage is a legal minor.

A general tendency to raise the minimum marriageable age is indicated by recent legislation for this purpose in California, Kentucky, Minnesota, Missouri, New Hampshire, New Mexico, New York, Pennsylvania and Vermont.

The statement points out that hasty marriages with their attendant evils are still possible in most of the states. The decision to marry, issuance of a license, and the actual ceremony may all take place within a few hours. In twelve states, however, a period (usually five days) must elapse after the license is applied for before the ceremony may take place, and in nine of these the license is not issued until this period has elapsed.

Such a law, which receives high praise in the statement, is now in force in all the New England states and in California, Delaware, Georgia, Michigan, New Jersey and Wisconsin. This is one of the most active of present tendencies in marriage legislation. Four of the states mentioned have only recently added this provision to their marriage laws and in 1927, the latest important legislative year, bills for advance notice were introduced into fourteen additional states.

Licenses Easy to Get.

In many states candidates, if qualified, may obtain their marriage license from any issuer to whom they choose to apply. This is held to be a very unfortunate provision. But in Maine, Massachusetts and Rhode Island licenses must be obtained in the city or town in the state where the prospective bride and bridegroom reside. If they live in two different places they must obtain two licenses.

Eighteen other states have adopted this principle, but go only halfway, requiring applicants to obtain their license in the city or county where one of them, usually the girl candidate, resides.

Because no state can forbid its residents to cross the state line, evasions of a state's laws are possible, the statement points out, through marriages performed in some other state. Eighteen states have passed laws forbidding marriages contracted thus for evasive purposes, but such laws have proved very difficult of enforcement.

Divorce laws and marriage laws cross currents in the provisions which forbid a marriage too soon after divorce, or before divorce decrees have been made final, or when the prospective bride or bridegroom has been divorced because guilty of adultery. Such provisions are stated to be in force at present in all states except in Arkansas, Connecticut, the District of Columbia, Illinois, Kentucky, Maine, Maryland, Missouri, Montana, Nevada, New Hampshire, North Carolina, Ohio, South Carolina and Tennessee.

Turkish Women Pass Men Learning ABC's

Constantinople.—Turkish women are outclassing men in the race to learn the new Latinized ABC's which President Kemal has ordered all his citizens between the ages of sixteen and forty to acquaint themselves with before June. In the 2,197 ABC schools which the government has opened in this city alone since January 1 the number of woman students has risen to 48,433 against 30,442 men pupils.

Spanish Term

In southwestern United States the Spanish term "hacienda" is used for a productive establishment in the country for farming or stock raising. It is a landed estate, one especially on which the owner resides.

No Longer Has a Point

An old saying that has about gone out of use: "You can't do that any more than you can fly."

OIL AND MINERALS MAKE INDIANS RICH

Once Worthless Land Now Yields Fortunes.

Oklahoma City, Okla.—The Osage and Quapaw Indian tribes enjoy untold riches because the white man put them on land he did not want.

When the reservations were marked off, nobody dreamed that some day the hills given to the Osages would be dotted with oil derricks and the prairie set aside for the Quapaws would yield zinc and lead as well as hay.

Today the Osages are the richest people on earth, the 2,229 "head-rights" or estates in the tribe exceeding \$100,000 each in value. Unlike the Quapaws, the Osages held their wealth in common.

The lead and zinc holdings of the Quapaws bring more than \$1,500,000 in royalties to 63 restricted members of the tribe, but marriage and inheritance have served to distribute the money generally among the other members.

Once Penniless, Now Rich.

Mrs. Anna Beaver Bear Hallam, restricted owner of land on which is located the Anna Beaver mine, owned by Harry Payne Whitney of New York, gets some of the largest royalty payments. For several months her income from the metals piled up at the rate of \$30,000 a month. Four years ago she was almost penniless.

The Quapaws were a nomadic tribe when they were placed on their present reservation in 1887. The land was valued at a dime an acre by white men.

Under the treaty by which the tribe was given the reservation, the government, "in view of their wretched and impoverished condition" agreed to move the Quapaws to their new home and to furnish them live stock, farm implements, firearms and other equipment.

Nothing except hay was produced on the tribe's new land. White men leased it paying the Indians a pittance. The town of Quapaw sprang up and became the greatest hay shipping point in the world for a time. The Indians cared nothing for the hay, the land or much of anything else. They wanted to fish and hunt and be left alone.

Finds Zinc Ore.

In 1905 zinc ore was found while a water well was being drilled on the land of Felix Dardene, a Quapaw Indian. The driller knew the metal in the cuttings from his drill denoted a rich stake, but he lacked the business sense to take advantage of the opportunity to win a great fortune.

He quit work and drove to Baxter Springs, Kan., where he spread the news. A bystander in one of the crowds the driller drew slipped away and visited Dardene, leasing all his land and much surrounding it. He made a fortune.

It has meant something to be an Osage Indian with a large family born prior to 1907, when the tribal allotment of lands was made. Each Osage was given more than 700 acres that year. A man with a wife and five children had control of 5,000 acres of land and received \$21,000 quarterly until the eldest child became of age. Distinction of having the largest Osage family was held by Clement de Noya. He controlled eleven head-rights, including his own, his wife's and those of their nine children. This family has received as much as \$40,000 in one quarterly payment.

"Daily Dozen" Precepts Called 2,000 Years Old

San Francisco.—Modern health precepts are 2,000 years old, according to Dr. Ohed S. Johnson, University of California extension division lecturer in Chinese culture. In a recent study of Chinese alchemy, Doctor Johnson discovered that Taoist philosophers believed immortality might be attained through mental and physical exercises, including proper breathing and gymnastics.

He quotes one writer as saying that "to learn the proper use of the breath, one should inhale a deep breath through the nose, stop up the nose and mentally count one's heartbeats." This Taoist philosopher held that breath should be retained until the count reached 120, and after practice, until 1,000 was counted.

Town Is Asked to Pay \$5 Note 58 Years Old

Washington.—A financial obligation incurred by the city of Alexandria 58 years ago has been called to the attention of the city council in a letter from the comptroller of currency.

The obligation is represented in a note for \$5 issue by the Corporation of Alexandria on October 1, 1861. It was all a surprise to the council, and when it developed that there was no provision for the redemption of the note or any official record of its existence, Councilman Timberman came to the rescue and redeemed the note. He explained that he wanted it as a souvenir.

Members of the council expressed curiosity as to where the note has been hiding all these years and also as to how it came into the hands of the comptroller's office.

Claims He's 153 Years Old

Cairo, Egypt.—An old Arab in Fayum is either the oldest man in the world or the greatest romanticist. He claims to have been born in 1776, and he is as old as the American Declaration of Independence.

Today's Duty First

Be not anxious about tomorrow. Do today's duty, fight today's temptations, and do not weaken nor distract yourself by looking forward to things which you cannot see, and could not understand if you saw them.—Charles Kingsley.

Makes the Desert

All sunshine makes the desert.—Arab Saying.

2 POINTS... Safety and Good Earnings

When you invest your savings, safety is the most important point of all. All the funds of our association are backed by first mortgage loans, principally on homes—the finest security there is.

Since we specialize in one field of finance only, we operate at very low expense and are able to give you the largest possible return on your investment.
