FIRST SECTION

VOLUME XLI. NUMBER 34

PLYMOUTH, MICHIGAN, FRIDAY, JULY 12, 1929.

\$1.50 PER YEAR

## FORMER OLYMPIC STAR EMPLOYED IN PLYMOUTH

We wonder how many people are aware of the fact that we have living here with us one of the world's fastest humans, Fred Alderman, former Michigan State College track star and a member of the United States Olympic team in 1928. He is not only a devout enthusiast in the sport from which he gained his fame, but

FRED ALDERMAN

is also a staunch advocate of this form of exercise as one of the best for building of physical endurance powers.

Alderman is employed by the Michigan Federated Utilities as cadet engineer, having been fitted for this work by his college course at Lansing. Since leaving college, he has become a member of the Illinois Athletic Club and his future appearances on the

(Continued on Page 5, Col. One)

## Salem Has New Baseball Nine

### SALEM ORGANIZES YOUNGEST AMATEUR TEAM IN THE STATE.

Salem can boast of having the youngest amateur baseball team in the state which has just been organized this summer.

Eight of the members are graduates of the class of 1929 from Plymouth high school and to finish out the total membership of the club, the manager has obtained other young players.

Yes, they play first class baseball, meeting some of the best Class B teams in the state. Be your own judge by watching them play.

They have a full schedule until October and you may watch for their bills. Heene's Field has been selected for their home diamond which is located four and one-half miles west of Plymouth on Penman avenue.

Sunday, July 14 they play the Northern Michigan Athletic Club of Detroit, on the home diamond.

Some of the teams Salem has played and either won or lost are: Walled Lake Merchants, won; Canton Center, won and lost one; Detroit Gray Sox, Negro Nine, lost; Scio, won.

## DETROIT MOTORISTS COLLIDE ON PLYMOUTH ROAD

Late last Saturday evening, a car driven by Lloyd Huston, with Mrs. Huston and daughter (formerly residents of Plymouth) as occupants, was bumped into by a Ford coupe travelling at high speed and containing four young people from Detroit. Mr. Huston sustained a deep cut on the upper lip, and the two young ladies in the Ford coupe were quite badly cut about the face and limbs. They were all brought to Dr. Peck's office for the necessary surgical treatment.

### HENRY DAVIS

Miss Florence B. Davis, daughter of Mr. and Mrs. Frank Davis, and James E. Henry, second son of Mr. and Mrs. William Henry, were united in marriage at the home of Rev. Oscar J. F. Seltz on June 29, at nine o'clock. The bride's sister, Miss Mary Davis was maid of honor, and William Davidson was best man.

Immediately following the ceremony the couple left on a trip through northern Michigan. They will make their home on Adams street.

## Death of LaVerne Birch

Death came to the home of Mrs. Edith Birch of South Main street, early Friday morning, July 5th, and took away her only daughter, LaVerne, after an illness of several months.

LaVerne was born August 2nd, 1912, and lived all her life in Plymouth, attending the schools here. She was a girl of kindly disposition and a favorite with those who knew her. Her father, Harrison Birch, died several years ago. The sympathy of the community is extended to the sorrowing mother who so lovingly cared for her daughter. In this industry she was helped greatly by Mrs. Sadie Fuller with whom the deceased, with her parents, had made her home for several years.

The funeral, which was largely attended, took place from the mother's home, Sunday afternoon at 3:00 p. m. Rev. Walter Nichol conducted the service. The many floral tributes bore mute testimony to the beauty of the young life and the esteem of a host of friends. Interment was at Riverside cemetery.

## BOY SCOUTS GO TO CAMP TUESDAY

Eight happy Boy Scouts left here Tuesday morning, for Upper Straights Lake, where a camp has been established under the sponsorship of the local Rotary Club. The camp will be maintained for a period of three weeks, and each week will see a different contingent of Scouts at the camp. Bill Rambo is in charge of the group at the camp this week. Joe Dillon of Detroit, has been engaged as cook.

Rotarian Art Blunk drove the boys out in the Blunk Bros. truck, and Rotarian Frank Rambo went along to see that the boys got the camp properly established and in running order. The committee from the Rotary Club who have the Scout activities in charge are: Dr. R. E. Cooper, chairman; Frank Rambo, Herald Hamill and W. T. Conner.

## Schrader Bros. Purchase New Ambulance

Schrader Bros. have just purchased a new Cadillac ambulance that is the last word in vehicles of this kind, in fact it is probably one of the finest in the country and verily a hospital on wheels. It is equipped with every convenience imaginable to care for the sick or injured while they are being conveyed to home or hospital.

The Schrader Bros. spare neither money nor efforts to give the people of Plymouth and vicinity the very best equipment that it is possible to buy, that they may render the best service in the most approved manner.

Plymouth is fortunate in having an establishment of this kind. The new ambulance will indeed be a splendid addition to the Schrader Bros. already up-to-date equipment.

## Kwanis Forestry Praised by Hoover

### PLANTING OF TEN THOUSAND ACRES OF TREES A GOOD EXAMPLE.

The reforestation work of Michigan Kiwanis Clubs sets a valuable example to other similar groups in conservation, says a letter from President Hoover to our Michigan Senator Arthur H. Vandenberg. The letter expressed the president's regret at his inability to attend the dedicatory ceremonies in Huron National Forest, Michigan, in August. "The contribution made by the Kiwanis Clubs to the cause of conservation in the planting of 10,000 acres of trees is valuable because this young forest will yield valuable products and will convert lands now barren into usefulness and beauty. The generous action of the Kiwanis Clubs points a way for other disinterested public spirited groups to help restore our millions of acres of denuded forest lands to productivity."

## MOVES CLEANING PLANT

Glenn Jewell has moved his dry cleaning establishment from the store now occupied by Irving Ulrich, to his new plant on the Plymouth and Northville road. He will have the same telephone number, and Mr. Ulrich will have an agency in his store.

## TAKE NOTICE

For the convenience of the public, the Mail has made arrangements to have copies of the Mail on sale at the Dodge Drug Store and the Beyer Pharmacy from this date on.

## C. of C. Directors Hear Prospective Secretaries Monday

Berg D. Moore, assistant membership secretary of the Indianapolis Chamber of Commerce, met with the board of directors of the local C. of C. last Monday evening. Mr. Moore, who is a candidate for the position of full time secretary of the local organization has had extensive training and experience in this line of work, and desires to affiliate with a smaller organization where he can gain a larger experience in every detail of the work. Wednesday evening, the board met and listened to the qualifications of another applicant, Mr. Reynolds of Royal Oak, who has had a wide experience in Chamber of Commerce work. The committee on appointment have not yet decided upon either application at the time of our going to press.

## Miss Marion Kiely Weds Bennett Wilcox

The St. Andrews church house, Saginaw was the scene of a lovely wedding performed on June 29 at 12:30 o'clock, when Miss Marion Kiely, daughter of Mr. and Mrs. J. F. Kiely of Saginaw, became the bride of Bennett Wilcox of Detroit, son of Mr. and Mrs. Clinton Wilcox of Plymouth.

The service which was read by Rev. Fr. Simons, was performed before an embankment of ferns, palms and spring flowers, and was witnessed by about fifty guests. Immediately preceding the ceremony, Miss Margaret Bennett of Ypsilanti sang, "At Dawning" and "O Believe Me If All Those Endearing Young Charms." Miss Gladys Schrader played the wedding march.

Miss Kiely was dressed in a model of coral pink chiffon and a hat of the same shade, and she carried a bouquet of pink roses and daisies. Her sister, Miss Dorothy Kiely, who acted as maid of honor, wore a gown of soft blue chiffon and hat of the same shade, and carried pink roses and delphinium.

Robert Randall of Detroit, was best man.

Following the ceremony, a wedding luncheon was served at the home of

(Continued on page 5, Col. Six)

## Rotary Club Appoints Committees

At the meeting of the Plymouth Rotary Club last Friday, the following committees were named for the ensuing year:

Alms and Objects Committee—Allan Horton, Harry Lush, Frank Lefevre, Ed. Hough, B. E. Champe, Walter Nichol.

Vocational Service—Ed. Hough, W. T. Conner, R. P. Woodworth.

Club Service—Harry Lush, Wm. Wood, J. W. Blickenstaff, Frank Rambo, J. M. Bennett, W. T. Pettungill.

Community Service—B. E. Champe, Paul Hayward, R. E. Cooper, S. W. Spicer, C. H. Bennett.

International Service—Frank Lefevre, Roy Streng, Ed. Plachta.

Program—Wm. Wood, Fred Sabom, Glenn Jewell.

Classification—J. W. Blickenstaff, Lynn Felton, Cass Hough.

Fellowship—Frank Rambo, H. Robinson, D. Sutherland, J. Patterson.

Public Relations—J. M. Bennett, Floyd Kehrl, A. Koenig, T. Moss, W. Tenbush.

Membership—W. T. Pettungill, F. D. Schrader, Harry Wrench.

## DETROIT MAN DIES IN CRASH

### EUGENE B. WILHELM, WELL KNOWN IN PLYMOUTH, MET WITH FATAL ACCIDENT.

Plymouth friends of Eugene B. Wilhelm, Detroit architect, were grieved to learn of his death which occurred as the result of injuries received in an automobile accident at midnight last Friday. Mr. Wilhelm, together with his wife and son, were returning to their home on Franklin road, when his automobile crashed into the side of a speeding freight train at the Twelve-Mile road crossing of the Pere Marquette railroad. All three were taken to the Detroit City hospital where Mr. Wilhelm died several hours later. Mrs. Wilhelm and son were unconscious for some time, but are now on the road to recovery.

No one saw the accident, but it is presumed that the driver was unable to see the train at the unlighted crossing. A similar accident at the same crossing cost the life of a Detroit man a few months ago.

Wilhelm's home was in Franklin. He was 43 years old. He was a member of the firm of architects who designed the Hotel Mayflower.

Several Plymouth friends attended the funeral services which were held Tuesday afternoon.

## NOTED REALTOR WILL VISIT HERE

### HARRY CULVER, PRESIDENT OF NATIONAL ASSOCIATION OF REAL ESTATE BOARDS WILL MAKE ADDRESS.

### MEETING AND LUNCHEON WILL BE HELD AT THE HOTEL MAYFLOWER, TUESDAY, JULY SIXTEENTH.

The Plymouth Real Estate board are planning on a big meeting Tuesday, July 16th, when Harry H. Culver, of Culver City and Los Angeles, president of the National Association of Real Estate Boards, will visit Plymouth and address the club. Members of the Kiwanis and Rotary clubs and business men as well as members of the Northville Exchange and Rotary clubs and real estate men have been invited to the meeting and luncheon which will take place at the Hotel Mayflower. Mr. Culver, who is visiting 624 cities in all parts of America during the present year, will land at the Northville airport in his Northville made monoplane at 11:00 o'clock.

The visit is part of a year-long speaking tour undertaken to bring in to the closest possible co-operation local and national action in the present notable movement within the business of real estate for mastery of the economic principles governing real estate use and establishment of sound standards of real estate practice. Direct contact between the local board and the national association is expected to aid in bringing together the viewpoints of various states and communities for unified advance in legislation of vital importance to real estate.

Of first importance in this program is the growing movement for a modernization of present state tax systems, most of them framed in a period when "intangible" assets, now so large a part of the national wealth, were practically unknown, and most of which therefore make no provision for the classification of property for tax purposes.

The national realtor president is emphasizing the need for complete union of strength between realtors and

(Continued on Page 8, Col. Four)

HARRY H. CULVER, Noted Realtor who will speak in Plymouth, seated at his desk in his Stinson-Detroit cabin monoplane.

## Local Kiwanians Hear Reports from Delegates

### TUESDAY'S PROGRAM FURNISHED BY LOCAL BUSINESS MEN.

An unusual attendance for this time of the year was given the Kiwanis Club at their weekly Tuesday noon luncheon of this week, to hear the reports from their official delegates to the recent international convention held at Milwaukee, Wis.

Robert J. Joffe and Roy E. Crowe, delegates sent from the local club, gave very interesting accounts of the "happenings and doings" which were not only humorous in nature but very interesting and instructive to those who have ever attended an international convention.

These delegates were unanimous in voicing this great convocation of Kiwanis Clubs was teeming with that fine and loyal spirit of fellowship which is so essential to the growth and success of service clubs.

Atlantic City and Miami were the two eastern and southern cities contending for the next international convention. Atlantic City won by a very close margin.

The Michigan District of Kiwanis International has chosen Lansing, Mich., for their state meeting which will be held during the forepart of the month of October.

## Church-Minehart

A very impressive and beautiful wedding took place Tuesday afternoon, June 25, on the lawn before the home of Mr. and Mrs. Louis Minehart, when their daughter, Helene Madeline, was united in marriage to Harry Paul Church, only son of Mr. and Mrs. J. Leo Church of Litchfield. The ceremony was solemnized by Rev. Walter Nichol, pastor of the First Presbyterian Church of Plymouth.

The bride was charming in white chiffon over satin and lace, wearing a veil of tulle held by a wreath of orange blossoms, and carried a shower bouquet of white rose buds and valley lilies.

She was attended by the Misses Rhea Halley of Ypsilanti, and Flora Winkler of Detroit. They wore dresses of pale green and orchid chiffon and lace, and carried tea roses. Little Shirley Munsell and Jean Minehart, nieces of the bride, acted as flower girls, and carried dainty baskets of pink roses.

The groom was attended by Floyd Whitney of Ann Arbor, and Dwight Ackley of Battle Creek.

At four o'clock, the bridal party assembled to speak their vows before a beautiful white trellis, richly decorated with roses and vines and lanked with ferns. A delightful wedding supper was served at 6:30 to about 75 relatives and friends, after which the happy couple departed on a two weeks' trip.

They were the recipients of many beautiful and useful gifts.

They are now at home at 702 South State Street, Ann Arbor, where Mr. Church is a student of architectural design, at the University.

The best wishes of a host of friends are extended the couple for a long and happy wedded life.

## WILL CELEBRATE 35TH ANNIVERSARY

Huston & Co. have taken a large space this week to announce the 35th anniversary of their business career in Plymouth. Ever since the establishment of this store thirty-five years ago, the business has had a steady growth. The store has kept progress with the village, and it is one of the best equipped hardware stores to be found in towns many times larger than Plymouth.

To properly celebrate the event, they are making some attractive offerings in reasonable merchandise that will be of interest to the readers of the Mail. Don't fail to read their ad.

## ANNUAL SCHOOL ELECTION BRINGS OUT LIGHT VOTE

### C. H. Bennett Elected Trustee to Succeed Himself.

### Proposition to Purchase Kuhn Property Carries.

## Brae Burn Golf Club Celebrates The Fourth

One hundred and ten members of the Brae Burn Golf Club entered the handicap tournament held by the club July Fourth. Henry Goepel finished in first place with 42-45-87, handicap 25, second place with 44-44, 88 gross, 16 handicap 72 net. Frank Johnston, with a handicap of 17 turned in a 45-46 for 91 gross and 74 net. H. B. Hall came next with a pair of 48s for 98 gross and 74 net. W. G. Dixon shot a 50 on the first nine and a 52 on the second for 102 gross and 76 net.

The ladies driving contest was won by Miss Betty Snyder. Miss Snyder's second ball was a low screamer down the middle of the fairway 225 yards. Mrs. Orloff was out of bounds with her first and second but attached second prize with a 190 yard drive on her third attempt.

W. C. Cotton clinched full claim on first place in the men's driving contest, with a 275 drive down the center. L. W. Rickett was close up with one on the 260 yard mark.

All of the permanent greens were open for play and many prominent golfers who have played and inspected Brae Burn claim it is one of the sportiest layouts in the district.

On July 7th, the club staged a Kicker's tournament and the formal opening of the club will be July 13th. Vice president, Hoyt Fracher, has planned a program of entertainment for the opening. A fine collection of prizes has been donated by the members for a Kicker's handicap on the 13th and 14th of July.

## LOCAL INDUSTRY OFFERS SHARES

The Michigan Federated Utilities is making a very liberal offer this month. The \$6.00 Cumulative Preferred Stock of the Central Public Service Corporation will increase in selling price from \$85.00 to \$97.00 per share on August 1st—but they are giving everyone an opportunity to buy at \$95.00 before this increase is effective.

It is the hope of the Central Public Service Corporation, which is the parent company of our Michigan Federated Utilities, that some day they may point with pride to the fact that every customer is a partner. Therefore, they are giving their customers and friends in this community an opportunity, through advance notice of the increase, to participate in this increase.

Central Public Service Corporation not only owns the Public Utility company in this city, but serves 352 communities throughout the United States with one or more classes of Public Utility service. They recently acquired a group of properties in the fast growing South such as Atlanta, Mobile, Montgomery and eleven other communities. We are informed that the earnings available for Preferred Stock dividend on their \$6 Cumulative Preferred Stock for the year ending April 30, 1929 before depreciation was more than three times the annual dividend requirements on the outstanding preferred stock. This shows that the stock of the Central Public Service Corporation is a good investment and one which many conservative investors will be glad to buy.

## Children Get Free State Fair Tickets

One hundred thousand coupons, each entitling a school child to free admittance on Tuesday, September 3, to the Michigan State Fair, to all major attractions and all exhibits, will be published during the summer in the State Fair's advertisements in Michigan state papers.

Four hundred thousand tickets, similar in purpose, have been distributed to public and parochial school children, newsboys and children in orphanages in the Detroit area, where acceptance of the invitation as guests of the Fair

Out of a total of 229 taxpayers who registered, only 142 went to the polls and voted at the annual school election which was held Monday. There were two candidates whose names appeared upon the ballot for trustee, Charles H. Bennett to succeed himself, and Dr. J. L. Olsaver. Mr. Bennett received a total of 90 votes while Dr. Olsaver received 52. The proposition for an appropriation of \$4,000 for the purchase of the Kuhn property which adjoins the school property on the west, was carried by a vote of 79 yes and 52 no.

The financial report which was to have been read in the high school auditorium at 8:00 o'clock, was deferred and the same will be published in the Mail in detail next week. We give below a summary of the receipts and expenditures for the past year:

Amount raised by taxation	\$108,736.33
Received from tuition	11,688.12
State money, primary and library	20,600.82
Smith-Hughes Agricultural	970.80
Retirement fund	715.85
Township for nurse	1,200.00
Miscellaneous	132.47
Total receipts	\$150,639.87
Total expenditures	133,611.30
Balance in bank	\$16,584.67

## PLYMOUTH MAN HEADS NEW ORGANIZATION

### ROY JEWELL ELECTED PRESIDENT OF NEW PLUMBERS' ORGANIZATION.

Representatives of plumbing and heating concerns of Plymouth, Northville, Farmington, South Lyon and Walled Lake have organized what is to be known as the Inter-County Association of Plumbing and Heating Dealers. The new organization is

ROY JEWELL  
President, Inter-County Association of Plumbing and Heating Dealers

affiliated with the Michigan State Association of Plumbing and Heating Dealers.

During the last session of the state legislature, a new law was enacted which provides a plumbing code for the entire state. The new law provides that plumbers operating their own business be required to take out a master plumbers' license, and also requires all assistants to take out licenses as well.

The officers of the local organization are as follows:  
President—Roy Jewell, Plymouth  
Vice-President—Henry Ray, Plymouth  
Secretary-Treasurer—A. J. Laing, Farmington.

These officers, together with Glenn Chaffee and Richard Kinney, form the board of directors.

The Village of Plymouth will soon enact an ordinance that will conform with the requirements laid down by the new state law.

More local news in Second Section.

## For That Vacation Outing

Don't forget those little necessities for your comfort—such as:

- |                       |                    |
|-----------------------|--------------------|
| Ungutline / For       | Sterno Stoves      |
| Metholatium / Sunburn | Cameras and Kodaks |
| Zonite Ointment       | Films              |
| Parke Davis Skin      | Water Jugs         |
| Protection Cream      | Bathing Caps       |
| Mosquitone            | Bathing Shoes      |
| Mosquito Creams       | Thermos Bottles    |
| Gauze Bandages        | Combs              |
| Adhesive Tape         |                    |

Take the tiny tots now with a Cine-Kodak. Tomorrow they will be grown up. They change so quickly. Let us demonstrate.

### The Week-End

## THE PLYMOUTH MAIL

Owner, F. W. SAMSEN  
 L. B. SAMSEN, Editor and Publisher

Entered at the postoffice at Plymouth as second class matter.

Subscription Price - - \$1.50 per year.

Friday, July 12, 1929.

### GETTING “AIR-MINDED.”

The merger of the Wright and Curtiss airplane companies into a gigantic \$70,000,000 corporation is evidence that aviation is well beyond the experimental stage, and that it is going to be recognized henceforth as still another means of transportation. Already airplane stock is at a high mark on the stock exchange, and many individuals desirous of investing their money are putting it in this kind of stock. If there is a single Plymouth citizen inclined that way, we haven't any words of warning for him, because we personally believe the larger airplane companies of the United States are a pretty good investment. But there are sure to be a lot of fake organizations in the field—we understand they are even now floating their offerings. We would advise precaution in selecting just what company's stock you are going to buy. Investigate the company before you invest your money. But don't condemn them as a whole because there are fakes in the business. Airplane transportation is going to be on a tremendous scale in less than ten years—and those who get in the right companies are going to make money.

### VACATION ADVICE.

We believe it was King Solomon who said: “He that despiseth little things shall perish by them.” What he meant was that the man who fails to watch the pennies will perish for want of that which pennies will buy. We asked a Plymouth man the other day the secret of his ability to keep his large family so nicely and still maintain a bank account. He replied: “I have always looked out for the pennies.” Just now when our boys are out of school and earning a few pennies in the vacation season is a good time to acquaint them with this man's secret and old King Solomon's wise words. A few words of advice on saving and thrift may put them on the road to success and comfort in their old age. You at least can't lose anything yourself by offering such advice.

### A COSTLY GRAFT.

Government reports show the Postoffice Department deep in the hole for the last fiscal year, yet no one is surprised. As long as it is burdened with inconsistent rulings; as long as it engages in the printing business, furnishing printed envelopes below the cost of material, it will continue to lose money. There's no more excuse for the government being in the job printing business than there is for it being in the shoe business. Yet it prints, at a huge loss to the taxpayers of this country, millions of envelopes that should be turned out by job printing offices—a fine graft for the concern that has the printing contract but a little rough on the public pocketbook. Don't be surprised to hear that this department

loses millions annually. The surprise is that we go right on electing men to congress who haven't the nerve to take this department out of the printing business and set it to doing what it was originally intended to do, and no more—to handle the United States mails.

### DO YOUR PART.

In conversation with a physician a few days ago we learned that next to the fly the mosquito has caused more deaths than almost any other insect. He declared mosquito control should be considered an investment, not an expense.

Mosquitoes do not generate disease, as does the fly, but can carry disease germs as readily and spread death as quickly. In fact, they are far more dangerous than flies in carrying malaria and typhoid. They can only breed in quiet or stagnant water, in such places as swamps, ponds, roadside pools, backyard puddles, rain barrels, gutters, tin can and old bottles full of water.

There is but one sure way to exterminate them, and that is to wipe out their breeding places. And there is no more fitting time to start on such a task than today. If Plymouth residents will join hands in eliminating all such places as may exist about their premises and will at the same time mow their weeds—and keep them mowed—we will have a community free from this dangerous pest and one blessed with good health throughout the entire summer. One single colony of mosquitoes can easily start an epidemic of disease. But if every citizen does his duty in the matter of eliminating breeding places we will not have even one mosquito family left. But to be effective the work must start now. Tomorrow may be just one day too late.

### A MECHANICAL BLESSING

We dare say few Plymouth citizens realize just how vital a part the motor truck plays in the agricultural life of this country. Motor trucks leave western North Carolina in the evening and the next morning they dump fresh strawberries in Washington City. About midnight big motor trucks leave Kalamazoo and at dawn Chicago housewives are buying fresh, crisp Michigan celery. From one-fifth to one-third of all the fruit sold in New York city makes the journey from farm and orchard to market by motor truck.

During 1928 more than 12,000,000 cattle, calves, hogs and sheep were carried to market by trucks. Today this type of foodstuff is being hauled 200 and 300 miles in one-half the time it could be transported by rail, and at much less expense. To the casual observer there may seem to be but few trucks on the highway. But it must be remembered that they operate at a good rate of speed, and thousands of them travel only at night. Everybody benefits. The producer gets his stuff to market quickly and more economically; to him this form of transportation means increased profits, and to the consumer it means food freshness at no higher cost than he would otherwise have to pay for stale stuff. The farmer is enabled to get his produce to market at any time of year—and everybody has to eat. Today the motor truck, a vehicle undreamed of twenty-five years ago, is proving one of the greatest blessings that has come to humanity in the history of the race.

**The new FORD is an unusually fast car and a comfortable car too!**

The new Ford has unusual speed—no doubt of that. We're conservative when we say “55 to 65 miles an hour.” It has actually exceeded that in many road tests. Come in and let us take you for a ride over any roads you name. You will find that the new Ford is not only a fast car, but a comfortable car at all speeds.

## Municipal Notes

BY THE MANAGER

The warm and rainy weather of the past few weeks has caused everything to grow, including weeds. Owners of vacant property are asked to see to it that weeds upon their lots are cut before the seeds ripen and become distributed far and wide. The month of July is the best time to accomplish this work, as most weeds are now either in blossom or in the seed-forming stage.

A considerable number of owners of dogs in the village have not had their dogs licensed for the current year. Attention of dog owners is called to

the fact that our licensing year begins June first, and that licenses purchased now are good until the first of June next year. Dogs found running at large without tags are being picked up and disposed of by the village.

The completion of the resurfacing of Penningman Ave. and Liberty St. with sheet asphalt effects a real improvement in the two business districts benefited. We are advised by engineers that the life of the new surfaces should be twenty years or more under any conditions likely to develop during that time.

## Larkin-Robinson Tour

Mr. and Mrs. J. M. Larkin and Mr. and Mrs. George H. Robinson, who, following the International Kiwanis Club convention in Milwaukee, have been touring Minnesota, Wisconsin and Northern Michigan, returned home Monday night.

During the past two weeks, they visited "The Dells" of the Wisconsin River, then Duluth and the Iron range, viewing the largest open iron mine in the world, owned by the U. S. Steel Corporation; also the cities of Virginia, Eveleth and Tilden—the city which was moved to make way for the iron mines.

They drove up the north shore of Lake Superior to Little Marais, then back into Wisconsin via Superior, to Ashland; then up into the "Copper Country" of Keweenaw Pt., where they visited Hancock, Houghton, Calumet, Eagle Harbor, Copper Harbor and Marquette, abandoned by the government in 1872, but now being restored.

Returning, they drove through L'Anse, where the Ford lumber mills are located, and through many miles of forest, bearing the signboards of the Ford Motor Co.; then to Ishpeming, Negaunee, Marquette, Manistique, and finally St. Ignace, where they crossed the Straits of Mackinac and called on friends at Harbor Springs, Harbor Point, Bay View and Petoskey. Then, after visiting Waukon Lake, Charlevoix and Traverse City, they drove to Interlochen, Hotel Pennington, home of the National High School Orchestra, of which Maynard Larkin is a member, where they were met by Mr. and Mrs. Charles Rathburn and Miss Corinne, and all spent two days attending Sunday divine service and two concerts, leaving Monday for home, a short stop being made at Alma, to call on Percy Deal at the office of the Michigan Federated Utilities, and home at night.

**NEWBURG**  
There was a very good attendance at church, and sixty-six in Sunday-school last Sunday. Plans were made for a Sunday-school picnic. Come next Sunday and hear more about it. Epworth League met at the home of Sarah Lillian Cutler, Tuesday evening, and the usual good time was enjoyed by all.

Mr. and Mrs. Donald Ryder entertained at dinner the Fourth, Herbert Smith and sister, Helen, of Toledo. Mr. and Mrs. Wm. Smith and Mrs. Emma Ryder.

Mr. and Mrs. Harold Thomas visited on their parents over the week-end.

Mrs. Peeler of Detroit, and Mrs. Jesse Thomas called on Mrs. Bert Gussolly last week Wednesday.

Miss Marion Taylor entertained company from Belleville, this week.

Donald Horton of Detroit, is spending the week with his grandparents.

Fifty relatives and friends attended the Bassett reunion on Mrs. Hattie Geer's flats the Fourth.

Mrs. C. E. Ryder returned home last week Wednesday, from a visit with Mrs. Mary Paddock of Highland Park. She was also the guest of Mrs. Edith Lapham and Mrs. Fred Ives in Detroit.

Elmore Carney spent the week-end at Black Lake, with several young friends from Plymouth.

Mr. and Mrs. Mark Joy and daughter, Lydia, spent Sunday at the home of Mr. and Mrs. Edgar Cochrane near Homer, Mich.

Mr. and Mrs. Clark Bassett of Indiana, attended the Bassett reunion on the Fourth.

Mrs. C. E. Ryder called on Mrs. Nat. Ryder and Mrs. Ammon Warner, Saturday evening.

Dwight Paddock is on the sick list. Rev. Johnson and family of Manchester, were calling on old friends here, Monday evening.

The school meeting was held Monday evening with about forty in attendance. C. Donald Ryder was the re-elected treasurer.

Mrs. Melvin Guthrie and daughter, Rosemary, returned from Ford hospital the Fourth of July.

**SAM PICKARD, Owner**  
FLOYD NICKERSON, Clerk

## WHITEBECK'S CORNERS

The Helping Hand Society met this month at the home of Mr. and Mrs. Ed. Pettibone on the Ford road, with a good number of ladies present, also several visitors. Among those were Mrs. Josephine Hix and son, Dr. Ralph Hix of Los Angeles, Calif. After the business meeting, it was decided to have a picnic the next month in some nearby park, and to hold their monthly meeting at the same time.

Mr. and Mrs. A. C. Procknow were guests July 4th, of the latter's uncle, Mr. Bowkers, in Toledo.

C. A. Parrish of Ypsilanti, called on his mother Monday.

Mr. and Mrs. Walter Dethloff and Mr. and Mrs. Henry Klatt were visitors Sunday, at Island Lake, guests of Mrs. Klatt's brother, Clarence Richards and family.

Mrs. Wm. Rengert is driving a new Pontiac car.

Mr. and Mrs. Justin Gale of Ypsilanti, spent several days visiting at the home of Mr. and Mrs. Rengert here.

Donald Schille spent the week-end at the home of his grandmother Hannah of Garden City.

Mr. and Mrs. Wm. Rengert and daughter, Jewell, and Mr. and Mrs. Gale of Ypsilanti, were guests last week of the latter's son and family, Mr. and Mrs. Gerald Gale, at Owosso, Mich.

Mr. and Mrs. Arthur Procknow spent Friday evening at the home of Mr. and Mrs. Stewart, at Glendale.

## WAGENSCHUTZ REUNION

The second annual reunion of the Karl Wagenschutz family was held July 4th at the beautiful country home of Mr. and Mrs. George Krumm at Chelsea. Eight families were represented with a total of forty-seven people, three generations being present. After a delightful per-luck dinner, the program was opened by singing "America," followed by games and contests. Prizes were given to the winners. Officers were elected for the ensuing year as follows: President—Mrs. Carl Wagenschutz, of Plymouth; Secretary—Mrs. Charles Johnson, of Northville; Treasurer—Howard Wagenschutz, of Plymouth. The next reunion will be held at the home of Mr. and Mrs. Otto Wagenschutz, at Plymouth.

That Cincinnati man who got four million dollars for his wholesale vegetable business must have known his onions.

Judging from the news from the border persons planning to drive to Canada this summer would do well to go in armored cars.

**FORMER OLYMPIC STAR  
EMPLOYED IN PLYMOUTH**

(Continued from Page 1, Col. 1)

track will be under the colors of this organization.

Alderman declares that he knows of no other sport that develops the human body more than running, and he honestly believes that anybody who wants to keep in condition for any athletic competition or build up his physical resources can do no better than run regularly.

At the present, Alderman is not indulging in any special training, but he sprints whenever he gets a chance to do so. He does this, he explains, partly because he likes it and partly because it is one way to keep in training if you don't have time for a special routine. Alderman declares that those unfamiliar with the result to be derived from running, dismiss the sport, thinking that it merely develops the arm and leg muscles and do not realize the fact that if this sport is indulged in wisely, that it is beneficial to every part of the body.

This former college star, who never attained any widespread notice in Lansing High School, declared that the sport is one that every preparatory institution should foster to the fullest extent so that the necessary training be instilled in the aspirant enabling them to rise higher in college.

Many times, he declares, there are boys in high schools who are not destined to proficiency in major sports,

but who could make a reputation for themselves as runners and sprinters if given the proper opportunities. While track may not be the gallery attraction that football and baseball are he declares, that running is as great a sport as it is old in historic competition. The urge to excel is true in any branch of competition among athletics.

Alderman believes that simple, common sense training rules are all that are necessary to be followed by the track athlete. There must be no over-indulgence, and one must do nothing that scientific investigation has disclosed as being harmful to the human body. He places sleep at the head of a rigid training routine. As to the amount required, he estimated nine hours. Food should be plain, without embellishments or the added desserts.

Weight should not be considered as a handicap to the prospective track man, Alderman declared. Incidentally, he is able to prove this by his own weight, which is 135 pounds, and his height is five feet, nine inches.

Alderman's athletic progress in America is a matter of history, but it is interesting to recall that he won during his college days, 125 medals, four loving cups and three scholarship awards, besides ten watches. He never neglected his studies while engaged in track, and records show that his highest marks were obtained when he was training for some future event. He explained this by saying that "athletics are an incentive to all students to keep eligible." Alderman is wearing a Tau Beta Pi key as a mark

of high academic work. Alderman has run the century in 93.5 seconds two different times, but the record was not accepted by the A. A. U. The world's record was 93.5. The 60-yard dash he made in 6.25; world's mark, 6.15, only a fifth of a second below that of the former state star. His mark of 21 seconds flat was accepted by the A. A. U. The world's record is 20.5. Alderman's mark in the 440, was 48.3 seconds as compared to the world's record of 47.5.

Alderman made the 400 meter run in 48 seconds flat twice in the Olympic try-outs. The world's mark for this is 47.25 seconds. He made the time of 31.15 seconds for the 300-yard indoor event run on the cinder track of the University of Illinois, to tie the world's record.

Alderman did not set any marks during his high school year, although he broadjumped twenty feet nine and a half inches.

**IN MEMORIAM**

In loving memory of our dear mother, Mrs. Mary Blach, who departed this life three years ago, July 9, 1926. Deep in our hearts lies a picture of our loved one, gone to rest. In memory's frame we keep it. Because she was one of the best. Our lips cannot speak how we loved her.

Our hearts cannot tell what to say; God only knows how we miss her. As we battle along life's rough way, Ever loved and remembered by her son and daughter. 1p

**INTERESTING FACTS ON  
FUTURE OF AVIATION**

By R. U. McIntosh

"Since time is becoming more valuable every day, so will flying become valuable to the business man. In order to convey to my readers the importance of air travel, I will endeavor to make known in this article some of the many trips that we made."

"I was sent out on a mission for the Cessna Air Craft Company of Wichita, on a sales expedition. We left Wichita one early morning and the following morning we were in Bakersfield, California, a distance of approximately fifteen hundred miles. We flew to San Francisco the same day, and consummated a deal in which we sold a number of airplanes. Three days from the time we left the factory, we were headed south for Los Angeles. It was here that I took aboard my wife and son, and started to Florida. Before I go on with this trip, I must say that we appointed a distributor for the state of California in Los Angeles. We had been away from the factory five days, and had closed orders for approximately \$100,000 worth of business. Most traveling men in other lines of business would have spent the five days in traveling and their expense account of several hundred dollars.

"One bright early morning, my family and a co-pilot left Los Angeles and settled down at El Paso, Texas, early in the afternoon. There we stayed all night, went over to Mexico and had a very hot Mexican dinner. The following morning we left for Amarillo, a distance of 470 air miles. We had very favorable tail winds, and we clipped this 470 miles off in two hours and thirty minutes, a speed of approximately 180 miles an hour. The wind was so strong that we had difficulty in landing at Amarillo. We arrived so soon at the end of our destination that we had an argument to the effect that we had arrived at the wrong city. This trip had established a record for the distance between El Paso and Amarillo.

"We visited many small villages along our route, demonstrating our plane. We traveled with extreme care and arrived in Miami, Florida, one week from the time we left Los Angeles, allowing a three days' stop over at Wichita. I forgot to mention that we closed a deal in El Paso, establishing a distributor amounting to approximately \$80,000 in business. The go-getter of the future will use an airplane just the same as the salesman in the past used the automobile in preference to the horse and buggy. If you have traveled by air, you can appreciate what a bore some, tiresome

ride it is by the railroad. I made a trip to Cleveland the other day in fifty-five minutes by air, and took the greater part of the afternoon in coming back by train.

"If you will just stop and analyze, take into consideration the number of miles flown, passengers carried, is it not reasonable to understand why the airplane is beginning to be the safest form of travel? The accidents are caused principally from inexperienced pilots, unlicensed airplanes, drunk pilots, stunting, endurance hops, etc. But the transportation companies operating between designated points, operating day in and day out, throughout the year, carrying thousands of passengers, but there is not a word mentioned of their faithful performance. I will just make a guess that there must be over 100 air transportation companies in the United States, and it is very seldom do you hear of a serious accident. Just as sure as an airplane is mechanical, there will be accidents. Is it not true that any form of transportation has its share of accidents? I was told by a life insurance executive that they can arrive at a figure so close that they can advise railroads as to the number of passengers and workmen that will be killed on their line one year in advance; also that the airplane transportation companies show less casualties than any form of transportation.

"My mother has had a fear of air transportation and when I was in the air service she used to worry. I often made fun of her worry, and invited her many times to take a trip with me. While I was visiting the city of Visalia in California mother came to the airport and watched my ship take off with passengers on joy rides. We brought them safely to the ground so many times that she finally worked up the courage to take a trip. She insisted that the pilot drive the airplane very slow and very low. This we agreed to do in order to pacify her, but flying low and slow is as dangerous as driving your car in excess speed and losing control; the reverse from an airplane, speed is control. We climbed to 3,000 altitude, flew mother to the hills, over her home and back to the field after a forty minute flight. Mother is now a converted airplane enthusiast. I hope to have the pleasure of taking you on a long air tour over this beautiful state of Michigan."

The man who is too fat or too old to run away always seems to have the most trouble with his hat blowing off.

**MISS MARION KIELY  
WEDS BENNETT WILCOX**

(Continued from Page 1, Col. 3)

the bride's parents to fifty guests. Pink and blue flowers were used in the decorations.

Mr. and Mrs. Wilcox left afterwards on a motor trip, and on their return will make their home at 5405 Necker St., Fordson. The bride traveled in a blue ensemble, with matching accessories. She is a graduate of the University of Michigan, where she was a member of the Theta Phi Alpha sorority, and the bridegroom is a graduate of Hills-

dale College. Among the guests from out of the city, were: Mr. and Mrs. C. L. Wilcox, Mr. and Mrs. Kenneth Harrison, Mr. and Mrs. Ed. Bennett, Mr. and Mrs. William Wood, John Wilcox, William Conner, Misses Julia and Catherine Wilcox, Miss Dorothy Dible, Miss Gladys Schrader and Robert Randall of Plymouth; Mrs. George Minor of Port Huron; Mr. and Mrs. Harry Bennett and children, Lois and Harry of Ontario; Mrs. Clarence Day, Misses Helen and Dorothy Day, Mrs. William McGraw and Miss Lucile Walsh of Detroit; Margaret Bennett of Ypsilanti, and Mrs. Ray Wait of Battle Creek.

German service—2:30 p. m.  
Sunday-school—9:30 a. m.  
Young People's Bible Society—  
Tuesday, July 2nd, 8:00 p. m.

## Christian Science Notes

"God" was the subject of the Lesson-Sermon in all Christian Science churches on Sunday, July 7.  
Among the citations which comprised the Lesson-Sermon was the following from the Bible: "And Jesus answered him. The first of all the commandments is, Hear, O Israel: The Lord our God is one Lord" (Mark 12:29).  
The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If the term personality, as applied to God, means infinite personality, the God is infinite Person—in the sense of infinite personality, but not in the lower sense. An infinite Mind in a finite form is an absolute impossibility." (P. 116.)

## CATHOLIC NOTES

Sunday is Holy Name Sunday. All the men of the parish are expected to receive Holy Communion in a body.  
The summer schedule started with last Sunday. Both 8:00 and 10:00 masses are low masses, with a short instruction.  
Nether baseball team was victorious last Sunday, playing the Liberty A. C., the score being 5 to 4. Next Sunday, will find them playing C. F. Smith's at Newburg, at 8:00 p. m.  
Rev. A. Graeber was a guest at the rectory last week.  
The pastor was the guest of Rev. Robt. Newman of Hemlock, Mich., a few days this week.

## EPISCOPAL NOTES

There will be no services during the month of August. This was decided at the vestry meeting Tuesday night. In view of this fact, it is urged that our people make a special effort to support the services to be held on the three remaining Sundays of this month.  
You will enjoy the rest of the day's recreation more fully, if you have begun the Lord's day in worship!  
Notice: That the sessions of church-school will be discontinued beginning with this Sunday, and reopening on Sunday, September 8.

## Wants Burglars to Pay Rent for Tools

Butte, Mont.—Tired of having his place robbed of chisels and hammers. Al McLeod, Butte blacksmith, posted a prominent sign, "Burglar Tools for Rent," in his shop, hoping that prospective burglars will be thoughtful enough to pay him a small fee for the use of his tools in the future.  
McLeod's shop has been broken into numerous times. Hammers and cold chisels were the only articles taken. On one occasion the thieves returned the stolen articles the night after they gained access to his shop, but other prospective burglars were not so thoughtful.  
The "Burglar Tools for Rent" sign will be illuminated at night.

## Use of Term "Americans"

Canada, Mexico and Alaska form part of the continent of North America. The people of those countries might be called Americans, but as they already have names and the use of the name "Americans" is generally restricted to the people of the United States, this would be confusing. The people of Canada and Mexico are foreigners with regard to us, just as we are foreigners with regard to them.

## Not Character Index

This idea of reading a person's character by the facial expression cannot be depended upon. It is true that strong emotion shows in the face, but the cause of the emotion as an index of character is not so revealed.

## LOCAL NEWS

Mrs. Mamie McClumpha is entertaining her cousin from New York.  
Miss Janet Blickenstaff is visiting her aunt, Mrs. Dean Dodge, at Lake Odessa.  
Mrs. Marie Whitney spent Monday at Square Lake, with a party of friends.  
Mrs. J. W. Blickenstaff has returned from a visit with relatives at Lake Odessa.  
Mr. and Mrs. George Card and son, Leoland, are visiting relatives in Ontario, Canada.  
L. C. Maltby of Detroit, was a guest of his sister, Mrs. A. M. Wiledon and family, Sunday.  
Mr. and Mrs. Wm. Lavis are enjoying a two weeks' trip through northern Michigan.

Mrs. Clara Zanders and Mrs. L. A. Wiseley visited at the home of Frank Hauk, at Saline, Tuesday afternoon.  
Mr. and Mrs. Lawrence Nelson of Williston, North Dakota, are the guests for a few days of Mrs. Kate E. Allen.  
Born, to Mr. and Mrs. Warren Palmer, a son, Richard Fred, July 4th, at Beyer hospital. Mother and son doing fine.

Mr. and Mrs. Lewis Heldemann and Miss Jennie Mansfield of Caro, were Sunday callers at the home of Mrs. Ella Warner.  
A. M. Wiledon and daughters, Lucile and Bessie, are visiting at Lansing, Mason and Brighton, with relatives and friends this week.

Miss Dorothy Bentley is having an enjoyable time at the summer home of Mr. and Mrs. Coello Hamilton at Black Lake in northern Michigan.

Mrs. Ella Warner enjoyed the visits of her son, Arthur, daughter, Mrs. Cora McLaren and grandchildren, Mr. and Mrs. Harold McLaren, July 4th.  
Mrs. Sattie Ayers has been spending the week in Alpena, with Miss Mabel Spicer, who, in the employ of the Federated Utilities, is stationed there for the summer.

Mr. and Mrs. Howard Eckles and sons, Douglas and Lawrence, are spending the week at Williams Lake, with Mrs. Eckles' parents, Mr. and Mrs. Alex Michol.

Mr. and Mrs. J. F. Root were called to Adrian, Thursday, to attend the funeral of Mrs. Root's cousin, Mrs. Charles F. Morse. They will remain in Adrian for a few days.

Mrs. O. C. Dunham and son, Edward of Marion, Indiana, returned home Saturday, after spending the week with their uncle and aunt, Mr. and Mrs. Henry Steimetz.

Miss Mary Power of Detroit, has been visiting at the homes of her cousins, Mr. and Mrs. C. W. Root and Mr. and Mrs. J. F. Root, for a few days this week. This was a farewell visit before she embarked on a world tour of two or three years.

William Watkins, an old and respected citizen who has been making his home for several months with Mr. and Mrs. Charles Stacy, suffered an attack of cerebral hemorrhage, July 1st, and passed away last Sunday morning. The remains were taken to Ann Arbor, for burial.

## PERRINSVILLE

Little Bethel Snider has the whooping cough.  
Frank Kubik spent Saturday and Sunday with Clinton Baehr.  
Mr. and Mrs. Carl Hjerpe called at George Baehr's Monday evening.  
At the school meeting Monday night, Mr. Walenger took John Snider's place as director.  
Church at Perrinsville at 9:30 in the morning; Sunday-school following. Everybody welcome.  
The Ladies' Aid is planning to spend the day with Mr. and Mrs. Will Wolfrom at Walled Lake, Wednesday.  
Mr. and Mrs. Fillmore Myers and family of Birmingham, spent Sunday evening with Mr. and Mrs. George Baehr.  
The Fourth was very quiet this year, only a few fire crackers heard at Northville. The fire works were well attended.  
The old-fashioned Plymouth man who had so much trouble paying off the mortgage on his home now has a son who is having just as hard a time paying off the mortgage on his car.

## Health Chief Urges Planes for Funerals

San Francisco.—Airplane funerals were advocated here recently by Dr. William C. Hassler, city health officer, as a means of solving the avowed problem of shrinking space for burial grounds. He said San Francisco's available acreage will be exhausted in another 25 years and predicted that the last resort is the Sierra ranges or the ocean.  
Either can be reached readily by airplane, he said, in a few hours from any part of California.

# Methodist Episcopal Church

Dr. F. A. Lendrum, Pastor

10:00 a. m.—Mr. Ralph Johnson of Ann Arbor will preach.

11:30 a. m.—Church school.

No evening service.

**Local News**

Mrs. Harry Wiseman spent last week Wednesday in Detroit.

Dr. Homer Hix of Alhambra, Calif. is visiting George H. Robinson and family on Maple avenue.

Mrs. Maxwell Moon and children, Mary, Katherine and John, have gone to their cottage at Walled Lake for the summer.

Mrs. Arthur Metcalf, of Ashtabula, Ohio, returned home Thursday, after spending two weeks with Mr. and Mrs. Austin Whipple and Edson O. Huston.

Alden Briggs of Brookline, Mass. and Allan S. Merchant of Providence, Rhode Island, have returned after a week's visit with Dr. Luther Peck and family.

Mr. and Mrs. Harry Bennett, of Walkerville, Ontario, Canada, were guests of Mr. and Mrs. Clinton Wilcox at their home on Penniman avenue last week-end.

Mr. and Mrs. Floyd Eckles of Detroit, and little daughter, the latter who has been ill, are spending a few days at the home of Mr. Eckles' parents, Mr. and Mrs. W. A. Eckles.

Edward Hacker and Lewis Webber, of Lansing, president and executive secretary of the Michigan State Association of real estate boards, was the guest of the local board at a noonday luncheon Thursday.

Earl Mastick, local Dodge dealer, has made an automobile trip that for distance and the time consumed in making the trip we believe will stand as a record. Mr. Mastick, accompanied by his wife and little daughter, Betty and his mother, Mrs. M. A. Mastick and niece Gladys Mary Mastick, of Milford, left here Monday at 3:45 o'clock and made the round trip to Niagara Falls, a distance of 612 miles and arrived home at 1:00 a. m. Tuesday morning. They spent three hours at the Falls.

Cy Monk, of Dundee, spent the Fourth with Allan Giles.

C. H. Bennett was in Grand Rapids and Chicago several days this week on business.

Mrs. Czar Penney and Miss Czarina Penney are enjoying a fortnight stay at Silver Lake.

Miss Florence Grainger, of Wayne, spent a few days last week with her sister, Miss Gertrude Grainger.

Miss Grace Carr, of Alpena, is spending a few weeks with her uncle and aunt, Mr. and Mrs. J. E. Wilson.

Merrell Draper spent the Fourth at Portage Lake, near Pinckney, with Otis Stephens and family, of Ypsilanti.

Mr. and Mrs. D. E. Hornbeck and son Stanley, of Indianapolis, were the guests of Dr. and Mrs. Carl January last week-end.

E. C. Demaux of Memphis, Tenn. and Mr. and Mrs. Mark Woodruff of Lansing, were week-end guests of Mr. and Mrs. C. H. Bennett.

Mr. and Mrs. David Birch, daughter Marian and son Bobbie, are visiting relatives at West Lorne, Dutton and London, Ontario, this week.

Mr. and Mrs. Will Shaw and daughter, Erma, of Clarenceville spent the Fourth at the home of Mr. and Mrs. E. Ratnour.

Mr. and Mrs. Harry Vosburgh, of Fenton spent last week Wednesday evening with the latter's parents, Mr. and Mrs. C. V. Chambers.

Miss Dorothy Hillman and Miss Katherine VanAken were the guests for a few days at the home of Katherine's sister, Miss Harriet VanAken, of Detroit.

Mr. and Mrs. Fred Herr, son Norman and Miss Rosetta Buckler, were entertained over Sunday at the summer home of Mr. and Mrs. J. Rattenbury at Island Lake.

Mr. and Mrs. A. M. Johnson and daughter, Marie, were guests for a few days at the home of Mr. and Mrs. Lee Baldwin, of Breckenridge, near Saginaw.

Mr. and Mrs. Merle Rorabacher and children Velda and Gerald Gene, were Wednesday night and July Fourth guests of Mr. and Mrs. Ford Becker, at Pittsford.

Mr. and Mrs. George Miller, of East Plymouth and Mr. and Mrs. C. V. Chambers and little granddaughter, Barbara Jean Holmes, of Detroit, spent Sunday at Ore and Whitmore Lakes.

Mrs. C. E. Arnold of St. Petersburg, Florida, is spending the summer with her sister, Miss Melissa Roe, and brothers, Russell and Otto Roe. Mrs. Arnold visited friends in Massachusetts before coming to Plymouth.

Mr. and Mrs. Charles Garlett returned to their home on Penniman avenue Saturday after spending the two weeks of their wedding trip at Bigwin Inn, Montreal, and other Canadian points.

Mr. and Mrs. Russell Travis, Mr. and Mrs. Clark Waterman, Mr. and Mrs. Henry Holcomb, Mr. and Mrs. Ray Covell and Mr. and Mrs. Douglas Tracy attended the show at Redford and then returned to the home of Mrs. Covell at Phoenix, and partook of a delicious lunch, on July Fourth.

One can never tell what the condition of the coal business is likely to be just before Winter, so play safe and order your coal now in the Summer months. You can take advantage of sure delivery and the low Summer prices.

LOCALS

Miss Zella Boyd is visiting friends and relatives in Traverse City. Miss Janet McLeod spent the Fourth with her sister, Mrs. Spencer Heaney, at Farmington. Mrs. Fred Beyer has gone to Detroit to visit her son and granddaughter for two weeks. Mr. and Mrs. Aaron Rosenburg are spending a week with relatives in Bellaire, Michigan. Mr. and Mrs. J. R. Almond of Cleveland, spent several days with Mr. and Mrs. Goodwin Crumble. The Misses Margaret and Marion Gust and Leola Sackett spent a week camping at Straits Lake. Miss Velda Stevens of Detroit, is visiting this week at the home of her aunt, Mrs. Maude Bennett.

Mr. and Mrs. Charles Barnes and Mr. and Mrs. George Griffin have gone by motor, to Niagara Falls. Mr. and Mrs. John Hattenbury are spending three or four days in Canada, visiting friends and relatives. Mrs. Claudia Housley, daughter, Betty, and Mrs. Russell Dettling have gone on a motor trip through the east. Mr. and Mrs. W. B. Hubbell and daughter, Barbara, are visiting for two weeks with relatives in Louisville, Kentucky. Mr. and Mrs. Archie Collins, Miss Minnie Proctor and Fred Davis and family are on a week's fishing trip at Island Lake. The L. A. S. of Livonia, will hold their annual picnic at Cass Benton Park, Wednesday, July 17th. Everyone welcome. Mr. and Mrs. Robert Bowerman and the latter's mother, Mrs. Newman, of

Detroit, were Plymouth visitors last week Saturday. Mr. and Mrs. A. B. Schroeder and Mr. and Mrs. R. W. Kehrl and daughter, Irma, of Salem, visited at the home of A. G. Kehrl, Sunday. Miss Marion Beyer and friend, Wm. Mason, returned to Plymouth Tuesday morning, after visiting the latter's parents in the northern part of the state for several weeks. The regular employees of the Post-office were guests at a dinner given July 10, by Mr. and Mrs. Wm. Henry to celebrate the marriage of their son, James Henry, to Florence Davis. Mrs. O. F. Beyer, son, Bobbie, and daughter, Elizabeth, and Miss Amelia Gayde left Sunday morning on a two-weeks' trip visiting friends in Buffalo, N. Y., and Washington, D. C. There was a large attendance at the Ladies' Aid and the pot-luck supper

at the home of Mr. and Mrs. W. Ash. Everyone enjoyed themselves afterwards watching the ball game. Rev. E. Hoencke, Louis Reber and Oliver Goldsmith were in Adrian, attending the Michigan district conference of the Lutheran church, which was being held there this week. Mrs. A. E. Patterson is expected home from Harper hospital, Saturday, where she underwent an operation recently. Her friends will be glad to know that she is getting along nicely. Dr. F. A. Lendrum and wife, and his sister, Miss Ida Lendrum, and a niece, Miss Virginia Lendrum of Wilkes-Barre, Pa., are making a three weeks' motor trip to points in Colorado. A delightful afternoon was enjoyed by several ladies at the home of Mrs. Wm. Amrhein. The occasion was her birthday, and a lovely lunch was served by the hostess and her daughter, Mrs. Ed. Taylor. Mr. and Mrs. Frank Taylor attended the golden wedding of Mr. and Mrs. Charles Loud at Flint, July 3rd. There was old time music, dancing, and a bountiful dinner served on their big lawn, to which sixty-nine sat down. Dr. Myron W. Hughes of Detroit, osteopathic physician and surgeon, has located in Plymouth, and has opened offices in the Mary Conner building at 824 Penniman avenue. His announcement will be found on another page of the Mail today. Mr. and Mrs. W. G. Kleinschmidt and children, Kenneth, Marlon and Marvin, returned home Sunday night from a little trip, attending the golden wedding of Mr. and Mrs. Charles Loud, then continuing to Vassar, Saginaw, Alma and Ithaca, where they visited relatives. The Plymouth Super-Service which was recently sold to Wm. Elkington of Northville, has again reverted to the original owner, H. M. Dworman, on account of the illness of the former. Mr. Dworman will continue to give the same splendid service that has always characterized this place in the past.

#### GOING TO CAMP CUSTER?

Any Plymouth young men who desire to take the O. M. T. C. military training should get in communication at once with Lieut. Allan K. Harrison at 832 Penniman avenue. An article fully explaining this matter appears in section two of this paper.

#### NOTED REALTOR WILL VISIT HERE

(Continued from Page 1, Col. 4)

property owners looking toward a simplification of the laws governing real estate transfer, the more equitable taxation for real estate and establishment of fundamental facts upon which to base stable real estate use.

Mr. Culver's circuit of visits to member boards is being made by airplane under what is believed to be the most compact schedule of meetings ever to be arranged by a business group. In the circuit, which has been grouped into five tours, criss-crossing the country from east to west coasts a number of times and dipping into Canada and Mexico, he expects, through group meetings, to confer with practically every one of the association's 633 member boards.

The itinerary has been carefully scheduled so as to utilize air transportation to the fullest in making time savings. The undertaking as a matter of fact, is expected to make airplane history and business history, since it will be a longer sustained tour than has heretofore been made for a like purpose by any individual. It is the first time, so far as known, when a business association executive has used air transportation on such a scale to make possible a complete personal contact between its executive head and its local organizations.

In order to conserve time and make his schedule as efficient as possible, Mr. Culver has established his office in the Stinson-Detroit six-passenger cabin monoplane, which he has purchased for the year's undertaking.

The plane is equipped with a J6 Wright whirlwind 220 horsepower engine. Its speed average is from 125 to 150 miles an hour. Mr. Culver, during the six months preceding his taking office as president of the association, made four continental air flights in his own private airplane, which likewise carried office equipment.

Lieutenant James B. Dickson, who will be Mr. Culver's pilot on the five tours, was formerly an army aviator. He received his training at Kelly and Langley Fields.

Tickets will be for sale by members of the Real Estate Board at \$1.00 each.

#### PROBATE NOTICE

No. 151820  
STATE OF MICHIGAN, County of Wayne, ss.  
At a session of the Probate Court for said County of Wayne, held at the Court Room in the City of Detroit, on the fourteenth day of June in the year one thousand nine hundred and twenty-nine.

## Looking Into Real Estate

The ancient Romans had traffic laws. The gold chariots that rumbled over the Roman pavements back in 45 B. C. had all the modern regulations except the stop-and-go lights, says the National Association of Real Estate Boards in its weekly story on subjects having to do with the land.

Moreover, then as now, some people got a break under those laws that prohibited "driving" during the first ten hours of the day. This did not apply to the Vestal Virgins and priests when they had to journey to public religious ceremonies.

The Association quotes in this connection the eminent Dr. John Henry Wigmore, professor of law at Northwestern University, Chicago, who in his recently published three volume book "A Panorama of the World's Legal Systems" includes a translation of a Roman City code dated B. C. 45.

Here are the traffic rules that are a part of this code:

"In the roads which are or shall be within the city of Rome, or within the limit of continuous habitation, no person, after the first day of January next following, shall be allowed in the daytime, after sunrise or before the tenth hour of the day, to lead or drive any heavy wagon; except where it shall be requisite, for the purpose of building the sacred temples of the immortal gods or executing some public work, to draw or convey material into the city, or where, in pursuance of a contract for the demolition of buildings from such places, and in cases and for objects for which

it shall be lawful for specified persons and for specified causes to lead or drive such wagons.

#### Some Were Exempt.

"On all days when the Vestal Virgins, the director of religious ceremonies and the priests, shall be required to ride in wagons in the city by reason of the public religious ceremonies of the Roman people, or when wagons shall be required for a triumphal procession on the day fixed for such triumph, or for games, which shall be publicly celebrated within the city of Rome, or within one mile of the city, or for the procession at the circus sports, for all such causes and on all such days it shall be lawful for wagons to be led or driven in the city in the daytime, anything to this law to the contrary notwithstanding."

"It shall be lawful for wagons, brought into the city by night, drawn by oxen or horses, if returning empty or conveying away refuse, to be in the city of Rome or within one mile of the city after sunrise in the first ten hours of the day, anything to this law to the contrary notwithstanding."

This same city code also provided for the assessment of property owners for the building and maintenance of roads on which their property abutted. The assessments were fixed "according to the length and breadth of the road in front of their property." The code further provided that "if any person so assessed shall, within the next thirty days after he or his agent is notified of the assessment, fail to pay the money ... then such per-

son shall be bound to pay in addition half the sum to the party (the contractor) to whom he shall be liable."

#### Maintaining the Footpaths.

The code also provides for the paving of footpaths by property owners and says: "Any person, before whose tenement a footpath shall be situated, shall be required to keep such footpath fitly paved along its whole length where it abuts on the said tenement, with stones whole and closely compacted to the satisfaction of the aedile (public official) to whom by this law the charge of the roads in that part shall appertain."

The early Romans were good Realtors. The earliest recorded civil judgment now extant dates from B. C. 117. It is on a bronze tablet found near Genoa and represents a formal judgment of arbitration between two local tribes contending over the boundaries of their lands. The record describes the boundaries in language quite comparable with the best technical style of New England conveyancers in our own day.

And there exists a Roman ordinance dated B. C. 105, giving specifications for a contract to build a gateway in a wall abutting on a highway in the town of Puteolis, and in this contract are revealed all the expedients of long experience and careful draftsmanship which we moderns are accustomed to expect in such transactions. The specifications are so complete that archaeologists have been able to restore the entire structure in detailed design.

**Hats of the Presidents**  
More than one President's hat has been identified with his personality, and records show that only one Chief Executive—William Henry Harrison—was a hatless man. Some contend his death from pneumonia was due to this exposure.

**Health Hint**  
An infant's room should be aired regularly, even during the winter months. If it is done gradually, at first for only ten minutes and then increased, even rainy weather will do no harm. Such airing actually hardens a baby against colds.

**WILLOUGHBY BROS.**  
Walk-Over Boot Shop

**PROBATE NOTICE**  
No. 151821

### FARMERS DAY SET EARLY IN AUGUST

STATE COLLEGE WILL BE HOST TO THOUSANDS OF MICHIGAN FAMILIES.

Friday, August 2, has been selected as the date for the annual Summer Farmers Day at Michigan State College and the College staff will be host to the thousands of Michigan folks who annually accept this occasion to check up on the new experimental work on the College farm and to listen to the speeches and music arranged by the program committee.

College departments will have men at the plots to explain to the visitors the experiments which are being carried out this year. Inspection of the experimental work is scheduled to begin at 8:00 a. m.

Demonstrations, which will be given during the forenoon, include horse-breaking, the use of the rotary hoe for cultivating, and the use of chemicals as quick grass eradicators.

The new dairy barn will be dedicated and a special program for dairy men will be given. A banquet for dairy enthusiasts will be held in the new barn Friday evening.

The speaking and musical program is scheduled for the afternoon. A choir singing contest is a part of the day's program.

Arrangements have been made for a play hour for children and the home economics department has completed a list of events of special interest to women so every member of the family will have a part in this year's Summer Farmers Day, August 2.

### 11,500,000 Wed in India Under Age of Fifteen

London.—The extent of child marriage in India was shown recently by official figures which reveal that there are 8,500,000 wives and 3,000,000 husbands under fifteen years of age.

The figures are contained in a new statistical abstract for India, which the secretary of state for India has just distributed to the members of parliament.

According to these statistics, there are 110,854 husbands and 218,463 wives under five years of age, while 575,476 husbands and 2,018,687 wives are between the ages of five and ten. The total jumps still higher between the ages of ten and fifteen, with 2,334,093 husbands and 8,330,287 wives. Between fifteen and twenty there are about 4,000,000 husbands and 9,000,000 wives.

The figures also show that about 400,000 Indian girls are widows before the age of fifteen. Of these, 15,139 are baby widows under five years of age, 102,293 between five and ten, and 279,124 between ten and fifteen.

**To Show Auto Speed**  
Boston, Mass.—Automobiles in Massachusetts would be equipped with varicolored lights to show the speed at which the machine was traveling under the bill being considered by the state legislature.

### Kill Apple Maggots With Special Spray

ARSENATE OF LEAD RECOMMENDED FOR USE ON LATE FALL AND WINTER APPLES.

The appearance of the apple maggot in several localities in Michigan makes it necessary for the grower who wishes to produce first class late fall and winter apples to apply a special spray to control this insect.

The apple maggot is the larvae of a fly and it differs from the codling moth larvae so that it can be identified by a careful observer. The apple maggot is white, is smaller than the codling moth larvae, and has no head. The maggot feeds throughout the flesh of the apple.

Successful control is dependent upon proper timing for the application of the protective sprays. The first spray must be applied after the emergence of the adult flies and before they have had a chance to lay their eggs, and a second spray is applied two weeks later.

The spray recommended by entomologists at Michigan State College is one pound of arsenate of lead to 50 gallons of water. This extra spray should be applied only in districts where the apple maggot is present. County agricultural agents can inform growers if the insect is found in their localities.

The spray is recommended for use only on late fall and winter apples. Notices of the proper time to spray will be sent to each section of the state as the fly appears.

### TO BUILD GARAGES FOR FOREST FIRE EQUIPMENT

To increase the efficiency of the state's battle against forest fires, a combined garage and headquarters building will be established in each of the fifteen fire districts during this summer.

Previously the district wardens have been handicapped by lack of a centrally located operating base and facilities for overhauling equipment during the winter. The experimental garage built last year on one of the fire districts, proved so successful that the other districts will be furnished with similar equipment as rapidly as sites can be acquired.

The buildings will be frame structures with concrete floors. There will be space for three trucks, an office for the district warden, and a work shop. The upper floor is to be utilized for storage and as sleeping quarters. Little outside labor will be used in the construction, the majority of the work being done by the field force during wet weather.

### Made for Beautiful Women

Beauties who guard their complexions use MELLO-GLO Face Powder only. Famous for purity—its coloring matter is approved by the Government. The skin never looks pasty or flaky. It spreads more smoothly and produces a youthful bloom. Made by a new French process, MELLO-GLO Face Powder stays on longer. Community Pharmacy, "We Serve You Right."

**MODERN ROADS HISTORY LINKS**

**Many Follow Routes of Highways Made Famous in Ancient Times.**

Washington.—Many motorists who speed along the Old Post road out of Boston today are unaware that Paul Revere galloped along that same route on his famous ride.

Nor do travelers on the Corniche road in the French Riviera always realize they are skimming over a sector of the Via Aurelia, a Roman "speedway" which Emperor Aurelius began more than two centuries before Christ was born.

"Speedway" is entirely correct as an appellation for those Roman roads, a National Geographic society bulletin points out. We have the word of Pliny, an early geographer, for it. Once a Roman emperor traveled 200 miles in 24 hours, in three relays of chariots. He sped at eight miles an hour. Pliny describes that record as "a wonderful thing and an instance of incredible celerity."

English Roads Once Roman Highways. "Many present-day roads are tell-tales of ancient history for they follow the routes of historic highways," continues the bulletin. "This is especially true of highways of modern Europe and even of the United States. Watling street and Stane street and Peddlars Way are survivors of the military roads with which Rome once adorned Britain.

"Nobody knows who built the first road but remains have been found of a highway laid out by Cheops, builder of the Great Pyramid in Egypt. Babylon had three great highways and the first levying of tolls in the history of highways took place on one of these Babylonian routes. The Carthaginians were the most scientific road builders of ancient times, but the details of their construction have been lost.

"All roads lead to Rome," was not a metaphor, but a fact during the supremacy of the Roman empire. Roads led to the imperial city from Dacla, present-day Transylvania, on east, and Germany on the west. Another road branched from the very tip of what now is Spain. By the Roman laws the roads were free for the use of the public. They could belong to one person or group of persons and the emperors were charged with their maintenance. Soldiers, convicts and slaves kept them in repair. In some places service on the roads eliminated the payment of taxes. The Romans were proud of the emperors who built highways. They honored them with triumphal arches and medals and named the highways after them, such as the Via Appia and the Via Aurelia.

The Via Appia was the Roman "Lincoln highway." Over it St. Paul the Apostle traveled, untroubled by toll collectors. It was begun by Caesar Appianus Claudius in 312 B. C., and when completed reached to Brindisi on the Adriatic coast. Modern traffic takes a new path, but the Via Appia still runs its course from Rome across the Alban hills.

"The Romans had no road maps. They published itineraries listing the stations along the road with the distances between each station. Their nearest approaches to road maps were drawings of the stations with topographic features of the surrounding country.

"When the Roman empire declined, road building did likewise. Charlemagne, emperor of the Franks, began a program of road construction, but after his death the development passed into a lethargy which was hardly disturbed during the Middle Ages.

"A quaint law was passed in England in the Middle Ages relative to the muddy and rutted highways of the day. According to the law bushes and trees were felled for 200 feet on either side of a road to prevent the gentle inhabitants of the countryside from rushing out and attacking travelers! The first toll for the maintenance of English roads was passed by Edward III in the Fourteenth century.

The Incas of Peru had the most extensive highway system in the New World. Their "Queen of Roads," which connected Quito and Cuzco, was five times as long as the completed Via Appia. They were shrewder engineers than the Romans. The latter built their roads in straight lines, conquering all difficulties in their path. The Incas curved and graded their highways to avoid ascents and forests.

"The father of modern road building is Napoleon. He systematized the industry and appointed a body of engineers to supervise the construction of French roads. Other European countries and the United States were quick to perceive the value of improved highways.

"Turkey, long closed to Western ways, is planning an asphalt-surfaced highway from Constantinople to Angora. Every day news announcements bring in tidings of new roads being built in lesser known parts of the world. Automobiles demand an ever widening touring radius, and modern travelers no longer fear the mythological creatures which medieval people believed inhabited the unknown parts of the earth."

**To Use Beaver To Attract Game**

That the beaver may assist in attracting to the small streams of the state many forms of waterfowl, especially the black duck, has been suggested by H. D. Ruhl of the game division.

Ruhl points out that ducks feed on aquatic vegetation growing in comparatively warm water. The beaver because of their dam-building tendencies slow the current and often cause the water to spread into sizable pools or ponds. Under these conditions, by offering more surface to heating agencies, soil, air and sunlight, the temperature of the water becomes high enough to support the existence of algae and other aquatic plant life in greater abundance.

**SALT SUPPLY GOOD FOR 30,000,000 YEARS**

There need be no alarm over any immediate salt shortage, at least for the next 30,000,000 years, so says R. A. Smith, geologist of the state conservation department, who has been doing some figuring on the Michigan salt situation.

Fourteen years ago, in 1915, C. W. Cook, University of Michigan, predicted from the information then known that the state's salt supply would probably manage to hold out for 25,000,000 years. More recent investigations raised the limit by a mere 5,000,000 years, and the state geologist says, "We can now safely defy any man to tell how long it will last. From the latest data, there is little doubt that if the removal continues at the present rate, 16,000,000 barrels annually, the deposits of salt-bearing rock will not be exhausted for perhaps fifty million years, and we probably won't be worried about salt at that time. When Mr. Cook was conducting his investigations he believed the three deposits along eastern and western margins of the state to be the main fields. Drillings in the past few years, however, have proven those beds to be only the edges of a gigantic field extending deep beneath the entire state. Nearly 95 per cent of the world's supply of bromine, used in many chemicals, also comes from the central part of the state. It is pumped to the surface in the form of natural brine, and later the liquid is evaporated. From bromine comes 85 per cent of the calcium chloride supply, and during the world war Michigan supplied 90 per cent of the deadly bromine gas."

**NO MERCHANTABLE TIMBER BURNED IN 1929 FIRE SEASON**  
No merchantable timber was burnt during the first three months of the fire hazard season this year, reports the forest fire prevention division of the conservation department. While 800 blazes burnt 13,000 acres of land, only slight damage was done. Grass fires accounted for 9,750 acres of the total, the balance being in second growth forest.

**CHANCERY NOTICE**  
No. 171412  
STATE OF MICHIGAN  
IN THE CIRCUIT COURT FOR THE COUNTY OF WAYNE  
IN CHANCERY

GEORGE A. SMITH and BERNICE E. CHAMPE, Plaintiffs.  
HORACE BLACKMER and his unknown heirs, devisees, legatees and assigns, KATHERINE ALLEN and all of the unknown heirs, devisees, legatees and assigns of EBENEZER J. PENNIMAN, Defendants.

At a session of the said Court held in the Wayne County Building in the City of Detroit, Michigan, on this 3rd day of June A. D. 1929.

PRESENT: The Honorable Circuit Judge, Adolph F. Marschner.

On reading and filing the bill of complaint of the plaintiffs herein and the affidavit for an order of publication and it appearing from said bill of complaint and said affidavit for order of publication that the heirs at law, devisees, legatees and assigns of Horace Blackmer are unknown and that the plaintiffs herein are without any means of ascertaining the identity of said heirs or their whereabouts.

It further appears that the bill of complaint in this cause has been filed for the purpose of clearing the title and removing certain clouds from the title to the following described property:

All that part of the east 1/4 of the northeast 1/4 of Section 28 which lies north of the Sutton Road, except a strip 4 rods wide off of the west side thereof and the cemetery out of the southeast corner thereof, which said cemetery is 10 rods from east to west and 12 rods from north to south, containing 29 acres more or less. Also that part or parcel of land commencing in the middle of Sutton Road and at the southeast corner of lands now owned by George S. Durfee, thence running north one degree and 15 minutes west and along the east line of the said Durfee's land to the north line of said section 28, thence easterly on the south line of section 21, 3.35 chains; thence north 0 degrees and 40 minutes west and along the east line of the said George S. Durfee's land to the south line of the Pere Marquette Railroad company's land; thence easterly along the south line of the Pere Marquette Railroad Company's land to the lands allotted to Fred W. Durfee from the Estate of Rueben S. Durfee, deceased; thence south parallel with the east line of the said George S. Durfee's land to the south line of section 21, thence west on the said south line of section 21, 2.01 chains to a stake; thence south 2 degrees and 5 minutes east to the middle of the Sutton Road, thence west along the middle of the Sutton road to the place of beginning, and containing 23.29 acres of land more or less. Also that part and parcel of land commencing at the southeast corner of said section 21, running thence northerly to the east line of said section 21 to the south line of the Pere Marquette Railroad Company's land; thence westerly along the south line of the said Pere Marquette Railroad lands, 24.42 chains to lands owned by Emma E. Mills; thence south 40 minutes east and along the east line of the said Emma E. Mills land 22.97 chains to the south line of said section 21; thence west on said south line 2.01 chains to a stake; thence south 2 degrees and 5 minutes east to the middle of the Sutton Road; thence easterly along the middle of the said Sutton Road, 6.63 chains; thence north 2 degrees and 15 minutes west and parallel to the east line of the west 1/2 of the northeast quarter of section 28 to the south line of section 21; thence easterly along the south line of said section 21, 14.95 chains to the place of beginning of said section 21, one of the newspapers printed, published and circulated in the County of Wayne.

IT IS THEREFORE ORDERED that the defendants and each of them appear and answer the bill of complaint filed in this cause and that the Guardian Ad Litem appointed by this Court appear for and in behalf of any heirs possessing a disability and make answer to this cause within three months from the date of this order or said bill of complaint will be taken as confessed.

IT IS FURTHER ORDERED that this order of publication be published as required by law, in the Plymouth Mail, one of the newspapers printed, published and circulated in the County of Wayne.

IT IS FURTHER ORDERED that a copy of the said order be deposited in the Register and mail addressed to the defendants herein at their last known addresses.

ADOLPH F. MARSCHNER, Circuit Judge.

A. BLESSING, Clerk.

### The White or "Cork" Pine

White Pine is a name which deserves its place in the history of Michigan for it was that tree, the splendid old cork pine of the north, to which much of our present prosperity can be traced. Like the cork-lined log driver, and the tales of the wild white-water days, the white pine unfortunately also belongs to the past. Here and there along the road, having somehow escaped the footsteps of progress, stands a grizzled old veteran with branches twisted sharply about from the prevailing winds, stagheaded, gnarled, but still fighting—fighting against time and changing conditions.

Suggesting quiet forest aisles, calling up romantic memories of a half-forgotten past, the white pine is well worth knowing and it is easily recognizable from its general appearance as well as its peculiar characteristics. In youth the tree is tolerant, that is, it thrives on moderately shaded sites, but as it approaches maturity it becomes less tolerant until finally it demands a generous amount of sunlight. Grown under ideal conditions on a moist, well-drained loamy soil, with enough sunlight filtering through the overgrowth to attract it straight to the sky, the white pine is a tall, erect, symmetrical tree. On being fully exposed to the elements for many years to the persistent summer and winter winds, it becomes deformed and misshapen from its constant struggle. Growing vertically from the trunk, the branches like giant fans arrange themselves in flat horizontal tiers with three to seven branches composing a whorl. Normally the branching starts many feet above the ground, the lower limbs having been shed from the tree's method of self-pruning.

Silhouetted against the sky, the mass of light green foliage presents a fine lacey, tassel-like appearance, which, when once recognized, will alone identify the white pine. Upon closer examination it will be found that the needles are straight, flexible, soft-textured, and are roughly triangular in cross section, always growing in pairs. Cones of the white pine are distinct in that they are long stemmed. Before ripening they are green in color, slender, cylindrical, without barbs, and up to six inches in length. After ripening, the cone scales open outward to permit the winged seeds attached to their lower surface to escape. The color is then a burnt brown.

The bark on younger trees tends to be quite smooth and dark gray in color while that of the more mature becomes ridged, somewhat corky, and slightly lighter in color.

Two of the remaining stands of virgin white pine in the lower peninsula are at the Hartwick pines state park, six miles northeast of Grayling, and at the Interlochen state park on Duck and Green lakes. Aside from the swamp, hardwood, and sand regions, the white pine (*Pinus strobus*), ranged throughout the state, though sparsely south of the Grand-Saginaw valley. Its entire range is bounded by Newfoundland, Manitoba, Iowa, and northern Georgia.

During 1928, 24,042 people visited the pines at Interlochen, according to the conservation department. No figures are available for the Hartwick pine park area, formerly known as the Hansen pines and recently established as a state park. In addition to previous plantings, the forestry division last year planted 2817 acres of thrifty young white pine seedlings on nine of the state forests.

### FISHERMEN USE 20,000,000 FEET OF FISHING NETS

The records of the fish division of the conservation department show that if all the nets used by Michigan commercial fishermen operating on the Great Lakes were placed end on end they would reach from Pittsburgh to Paris. All told there are nearly 20,000,000 feet of nets, 3663 miles, which help to make the state one of the leading producers of fresh water fish.

During 1927, 32,503,673 pounds of fish valued at better than three million dollars or an average of slightly over nine cents a pound, were taken by commercial fishermen of the state. Lake Michigan is easily foremost in supplying fish, ranging from the million dollar catch of lake trout down to the humble sucker and mullet, while Saginaw Bay falls into second place by a good margin. Whitefish rank next to lake trout in value and amount taken.

Licensed fishing crafts number 1,082 with a valuation of \$845,000, of which Lake Michigan vessels represent almost one half. Gas boats are the most popular, but the old reliable rowboat crowds out the steam engine for runner-up. Sailing vessels have become thoroughly relegated to the past, there being only seven licensed sailboats.

**Ideal Medicine Man**  
"My idea of a good doctor," says Grandma Gravel in Farm and Fireside, "is one who takes pains and gives none."

**Two Classes of Fools**  
There is only one fool greater than the pessimist, and that is the optimist who thinks everything is bound to come right whatever we do.—Rev. Murray Page.

**Thousands of Hymns**  
A dictionary of hymnology says that the total number of Christian hymns in the 200 or more languages and dialects in which they have been written or translated is not less than 400,000.

of light green foliage presents a fine lacey, tassel-like appearance, which, when once recognized, will alone identify the white pine. Upon closer examination it will be found that the needles are straight, flexible, soft-textured, and are roughly triangular in cross section, always growing in pairs. Cones of the white pine are distinct in that they are long stemmed. Before ripening they are green in color, slender, cylindrical, without barbs, and up to six inches in length. After ripening, the cone scales open outward to permit the winged seeds attached to their lower surface to escape. The color is then a burnt brown.

### Kaiser's Sister Offers \$50,000 for Divorce

Paris.—Attorneys for Alexander Zoubkoff, youthful husband of Princess Victoria, sister of the former German kaiser, asserted here that Zoubkoff had been offered \$50,000 to agree to divorce the princess.

Zoubkoff, the lawyer, said, believes the offer originated within the family of the former kaiser, but he said a Berlin attorney had produced a letter over the signature of the princess which accepted the divorce and offered Zoubkoff a settlement if he agreed.

Zoubkoff, who is still in exile in Luxembourg, created a sensation in 1927 when he married the princess against the protests of her family. The young adventurer, who has been banished from France and other countries for his wild escapades since his marriage, is in his early twenties, and the princess is sixty-three years old.

### Lake Constance Gives Mirage as Spectacle

Lindau.—Dwellers on the northern shore of Lake Constance have enjoyed a unique spectacle in the form of a mirage. Suddenly a clear picture of Immenstadt, with the Herzberg palace, appeared in the heavens and remained visible for some time.

### Jobs on Thieves

Hamilton, Ont.—After carrying a safe two miles from the store of William Bridgwood, here, thieves found the safe door opened with a mere twist of the handle and that it was empty.

### Students Will Tour 8,000 Miles in Bus

Worcester, Mass.—An 8,000 mile trip to California and back will be part of the regular summer school session at Clark and verry this year. About thirty students will attend the portable school, which will be in charge of Professor Burt Hudgins of the College of the City of Detroit. The journey will be made in a motor coach. During the daily trips of 150 to 250 miles, the professor in charge will direct the observation and interpretation of the natural regions through which the students travel.

### A GOOD LOOKOUT.

In the early days of forest fire fighting in Michigan before the forest fire prevention division of the conservation department had inaugurated the present system of steel fire towers with their highly efficient methods of locating fires and the complimentary ground forces, it was the custom to employ farmers to spend part of their time watching for fires in their neighborhood.

An amusing incident is related about a new "lookout man" who was absent from his post when the district fire warden paid a visit of inspection. Apparently the new lookout was elsewhere, very much elsewhere. After a thorough search the warden located him on his farm calmly plowing his back forty.

"What are you doing down here?" demanded the warden.

"Plowin'," was the placid reply.

"Don't you know that you should be on the tower watching for fires?"

"Sure, I always am," the man answered in an aggrieved tone. "When ever there's a fire I always climb up on the tower and watch it 'till it's out!"

"The crying need in America now is not horse-power as much as it is horse-sense," asserts our friend Dad Plymouth.

He was  
**SURETY**  
for his friend

A veteran of the Civil War, who had freely given his service to his country, signed the bond of the Tax Collector in a Connecticut town. Then came the shortage in accounts, and the old soldier took his medicine, using every cent he had to pay the loss. In the Old Soldiers' Home—penniless and broken—he is learning the wisdom of the proverb of Solomon, "If thou be surety for thy friend, thou art ensnared with the words of thy mouth."  
Corporate Suretyship avoids such tragedies.  
The bonds issued through this office are backed by the largest surety companies in the country.

## Electric Cooking Is Sootless

**A**N ELECTRIC RANGE supplies pure heat, without smoke or flame. With an electric range, cooking utensils are free from soot, and kitchen walls and curtains are easily kept clean. The dirt and discomfort of cooking with fuel is now unnecessary. *Electric cooking* saves labor because of its modern cleanliness.

You can enjoy electric cooking in your kitchen now. Convenient time payments and a liberal allowance for your present cooking equipment make it unusually easy for you to own a modern electric range. Come in and inspect the many attractive models.

**THE DETROIT EDISON COMPANY**

## REDUCING THE FIRE HAZARD

In the early days of insurance the general plan for making rates was that the public made the conditions and the insurance companies made the rates to suit. Responsibility of insurance companies included only collection of premiums, payment of losses and maintenance of solvency.

The idea that the public is entitled to service along with the purely mechanical conduct of business, has been a development of recent years in the insurance business as well as in all other lines.

The National Board of Fire Underwriters, the service organization of the stock fire insurance companies of the United States, serves both parties to the fire insurance contract. For the companies, the property owners and municipalities, it collects and distributes information on a great variety of subjects.

The cost of insurance is part of the overhead expense of every business. Fire insurance companies are alert to reduce the burning ratio, which is the prime factor in that cost. Committees of the National Board devote their time to that endeavor.

For example, the committee on adjustments is now engaged in coordinating the practices of adjusters and eliminating sources of waste in connection with losses.

The committee on construction of buildings strives to make property safe in itself while the committee on fire prevention and engineering standards is in touch with fire departments and water boards of every city of any size in the United States, working for standardization and improvement of fire fighting facilities.

The committee on incendiaries and arson is endeavoring, with a considerable degree of success, to rid the country of "firebugs."

The committee on laws keeps constantly in touch with the introduction of statutes affecting insurance and its cost to the public.

These are just a few of the more important services which the National Board of Fire Underwriters performs for the public and the insurance companies.

## MICHIGAN WEEKLY INDUSTRIAL REVIEW

The following record of industrial activity lists items showing investment of capital, employment of labor and business activities and opportunities in this vicinity:

Garden City will hold an election soon to vote on \$175,000 water bond issue.

Ann Arbor—Women's League building dedicated.

Dearborn—Several new stores opened here and additional store buildings under construction.

Dearborn—\$500,000 addition to plant of the Stout Metal Airplane Co. will increase floor space 155 per cent and enable factory to build one airplane a day.

Dearborn is seeking a site for municipal hospital buildings.

Ann Arbor—Two-story restaurant building to be built this summer will cost from \$30,000 to \$45,000.

Lansing—New bridge will be built over Rouge River on west river road at a cost of \$40,000.

Dearborn—First Evangelical church to be redecorated. F. W. Woolworth Company will erect building here to house store.

Pontiac—Orion road being reinforced with metal bars.

Rochester—Construction of apartment house nearing completion.

## UNIQUE VACATION PLANS AN- NOUNCED BY CHRYSLER MOTORS

Officials of Chrysler Motors have announced an important innovation in the control of production as affected by the establishment of uniform vacation periods for all employees during the coming summer.

All employees in the manufacturing and shipping departments of the De Sota and Plymouth plants of the Chrysler Corporation are taking their vacations during the two weeks from July first to July fifteenth. Similar arrangements have been made to allow all employees in those departments at the Dodge Brothers plant to take simultaneous vacations from August first to August fifteenth.

**First American Mint**  
The first Colonial mint building was located in 1787 on Washington street, Boston, with Joshua Witherle, a copper smith, as mintmaster.

**First Gymnastic Apparatus**  
Gymnastic apparatus originated in the imitation of tools and appliances used in exercise in the outdoor world.

**Official Pig Driver Out**  
Offices that have been in existence for 800 years are being abolished by Ashburton, England, in cutting down the salary list. By purchase the city council has acquired the rights of the lord of the manor, and abolished the fees paid to the official pig driver, town clerk, etc. under a new system.

## LOCAL NEWS

Mr. and Mrs. W. B. Roe and son, Elton, are making a two weeks tour of Colorado.

Theodore Johnson and Elmore Carney spent the week-end at Black Lake, visiting relatives.

Miss Dorothy Hillman spent the Fourth with her cousin Mrs. Silas Gagnon in Traverse City.

Clare Lyke, Leo Carly, John Carly and Fred Hicks returned from a weeks' vacation at Ridgeway, Pa.

Mr. and Mrs. H. B. Bennett, of Riverdale, Canada, were the guests for a few days of Mr. and Mrs. Clinton Wilcox.

Mrs. Jane Frazer Smith, of Port Huron, was the guest for a few days at the home of her daughter, Mrs. Charles Carmichael.

Mrs. Daniel Murphy and sons Daniel and Wilbur, have returned from a visit to Canada, Niagara Falls, Pennsylvania and Ohio.

Mr. and Mrs. William Wood and Mr. and Mrs. E. K. Bennett are enjoying a two or three weeks' stay at Bigwin Inn, Canada.

Mr. and Mrs. H. Hondorp, daughter Henrietta and E. Dobbs, were the week-end guests at the summer home of Mr. and Mrs. J. Rattenbury at Island Lake.

## SAFETY DRIVE IS ON IN MICHIGAN

Michigan State Police are again assisting the statewide safety drive, staged annually by the Michigan Safety Council.

From the first day of the campaign test stations were set up near state police posts and cars were inspected as to the condition of brakes, windshield wipers, horns, lights and steering apparatus.

An officer makes the preliminary inspections, and if all equipment is in proper condition for safe driving the car operator is directed to drive ahead some hundred feet, at an accelerating speed. At a point ahead, marked by a white chalk line, a second officer calls "Brakes," and the distance required to bring the car to a complete stop is marked by chalk lines.

A third officer makes a tabulation, and if conditions of the car throughout are safe, a sticker for the windshield is issued, showing the car to be approved.

Throughout the state, these state police testing crews have set up stations. City police are operating similar stations in the city. County officers are conducting tests.

The matter of testing is purely voluntary at present, but later in the campaign the tests will be mandatory on drivers of cars not equipped with one of the safety stickers.

## "IN 3 BOTTLES OF KON- JOLA I FOUND HEALTH"

LADY RELATES SPLENDID EXPERIENCE WITH THIS NEW AND DIFFERENT MEDICINE.

MRS. B. MARTIN

"My entire family unites with me in giving to Konjola the most enthusiastic endorsement possible," said Mrs. B. Martin, 328 Bagley Street, Saginaw, Michigan. "I had indigestion, kidney trouble, headache and my nerves were a tangled wreck. My appetite was not good and had pains throughout my body."

"When I had taken three bottles of Konjola I knew that at last my long search for health had been rewarded. When I had finished the sixth bottle I was a well woman in every way. My indigestion is gone. My nerves are calm, and I haven't an ache or a pain. No wonder Konjola has a million friends."

Konjola is sold in Plymouth at Community drug store and by all the best druggists in all towns throughout this entire section.

**800,000**  
New CHEVROLET Sixes  
on the road since Jan. 1st!

Today's Chevrolet is scoring a huge nationwide success because it represents one of the most sensational achievements in automotive history—a Six in the price range of the four.

The Chevrolet six-cylinder engine delivers its power freely, quietly, and easily throughout the entire speed range—delightfully free from annoying vibration and rumble. Combined with this remarkable six-cylinder smoothness are equally remarkable speed, power and acceleration—and an economy of better than twenty miles to the gallon.

In addition to such sensational performance the Chevrolet Six offers the outstanding advantages of Bodies by Fisher. And no car ever provided a more impressive array of modern convenience features—adjustable driver's seat and VV one-piece windshield in closed models, easy action clutch and gear-shift, ball bearing steering, and instrument panel complete even to theft-proof Electrolock and electric motor temperature indicator!

# A RECORD!

250,000 USERS AND NOT A DOLLAR SPENT

## FOR REPAIRS

If you want a refrigerator on which you can depend—one that operates without oiling, without need of costly repairs, the General Electric Refrigerator will be your choice. Such service is not merely promised—it is guaranteed. Among the 250,000 users of General Electric Refrigerators, not one has ever spent a dollar for repairs or service.

The General Electric Refrigerator keeps food always safely below the 50 degree danger point. In operation it is quiet, automatic, economic. Its hermetically sealed mechanism is dust-proof, permanently oiled and placed up on top. Its all-steel cabinet is warp-proof. It has an easily accessible temperature control for governing the speed of freezing ice cubes or frozen desserts.

See the new all-steel models at our display rooms and let us tell you of an easy payment plan. Prices are low, starting with \$215 at the factory.

### GAS SMUGGLING IS NEW PROBLEM

#### Nebraska May Have to Guard Her Borders.

Lincoln, Neb.—For the first time in history, Nebraska will be faced shortly with a "custom" problem, a problem which may make necessary the guarding or patrolling of two of her boundary lines, that dividing the state from Kansas on the south and the Missouri river separating Nebraska from Iowa on the east.

The reason is that the lucrative practice of smuggling gasoline across from Kansas and Iowa has begun with the four cent gasoline tax law, according to Dr. T. W. Bass, collector of the gas tax here.

While the Nebraska gasoline tax was two cents a gallon, Doctor Bass said, there was no smuggling trouble, because the rate was either the same, or higher in the bordering states. But when the Nebraska tax went up to four cents and the tax in Iowa and Kansas was boosted to only three, it made possible a smuggler's profit of a clear cent a gallon for hauling the petrol across the state lines. In South Dakota, Wyoming and Colorado, Doctor Bass said, the tax is four cents, so that there is no trouble on the borders.

"But we have already received several reports of smuggling on the Kansas line, and also across the river from Iowa," Doctor Bass said. "It seems likely that the problem will have to be met by putting a man or men in the field to patrol the borders and to intercept the smugglers."

"There is a good profit in it for them. We hear that they are hauling gasoline in from Kansas, failing to report the purchase in that state, and selling it here at four cents a gallon above the normal retail price. They pay no tax in Kansas and get the benefit of the tax here, they cheat both states and make a handsome profit."

#### Finds Home-Made Fluid for Treating Anemia

Boston.—A liver extract that will be effective in treating pernicious anemia can be made at home with very little effort, Dr. William B. Castle and Morris A. Bowie of Harvard University Medical school have reported to the American Medical association.

This will prove a great boon to sufferers from this disease who are unable to afford the high price of the commercial liver extracts or of the more palatable calves' liver. Eating half a pound of beef liver a day soon becomes a tiresome ordeal, yet this has been the only chance for life and health for many of the poor who suffer from pernicious anemia.

The domestic extract is as effective as the commercial ones and may be made in the ordinary kitchen by any reasonably intelligent person, the Harvard scientists declared. Only the usual domestic utensils are needed. The cost of the beef liver is practically the only cost. The extract is palatable and may be drunk hot or cold, with or without salt. It is said to taste something like beef broth.

The process of making it consists in general of grinding the liver, soaking it in cold water, straining, heating and restraining. The ordinary meat grinder, strainer, enamel pots, glass jars and jelly bags found in most kitchens are the only utensils required. The success of the procedure depends on the care and exactness with which the directions for the various steps in the process are followed. Doctor Castle and Mr. Bowie gave these in detail in their report.

#### Regular Air Service to Stockholm Planned

Portland, Maine.—With authority to develop and maintain a regular air service between the United States, Canadian, and European airports, linking this city with Stockholm, Sweden, the Great Atlantic Airways has been organized here. The route would be via Belle Isle strait, Julianhaab, Greenland; Agmamsalik, Greenland; Reykjavik, Iceland; Thorsbaven in the Faroe Islands, and Oslo, Norway. Incorporation papers have been filed with the state department in Augusta.

#### 80-Year-Old Britisher Boosts Snuff for Colds

London.—Snuff taking is the proper cure for colds and influenza, according to an eighty-year-old member of the National Liberal club. He claims he has never had a vestige of a cold or influenza in his life, and he has been taking snuff since he was a boy.

#### Barber Bars Women; Hamper Men's Trade

Columbus, Ohio.—J. S. Van Heyde, a barber here for the last half century, refuses to allow women to enter his shop. He says that women are prone to procrastinate making up their minds what they want and how they want it done, and that men haven't time to wait. But Van Heyde continued: "Then, too, men want to tell a story or two, smoke a cigar or cigarette, and engage in conversation they wouldn't be able to if women were in the shop."

#### Canada Claims Lead

The Dominion experimental farm system of the department of agriculture stretches across Canada from the Atlantic to the Pacific and is the most comprehensive system of its kind to be found in the world.—Canadian Bureau of Natural Resources.

F. D. Schrader attended the furniture market at Grand Rapids several days this week.

Mrs. June Carrothers and Mrs. Annabelle Houghby of Ferndale, were guests of L. B. Samsen last Sunday.

F. W. Samsen visited his son and family at Willoughby, Ohio, over the week-end and the first of the week.

Mr. and Mrs. Sutton Jones and Mr. and Mrs. N. J. King of Canton, Ohio, called on Mr. and Mrs. Leon Huston, Saturday.

Mr. and Mrs. Clinton Gottschalk and two children, returned Monday evening from a trip through northern Michigan.

Mrs. Sarah Schock of Blunk avenue, who has been suffering with blood poisoning and other complications, is slowly improving.

Mrs. Ruth E. Huston Whipple and her aunt, Mrs. Arthur Metcalf, were luncheon guests of Mrs. C. W. Gill in Ann Arbor Saturday.

Mr. and Mrs. George Groner of Northville, and Mrs. Jennie Ayers of Silverwood, Mich., spent Sunday with Mrs. Sarah Schock and family.

Mr. and Mrs. C. C. Fillmore, of Petersburg and granddaughter Althea Thompson, of Detroit, were Sunday guests of Mr. and Mrs. Lloyd Fillmore.

Mrs. R. J. Lorenz, who has been undergoing treatment at Providence hospital, Detroit, for the past week, was able to be brought home Tuesday, and is convalescing.

The Rotary Club enjoyed some tricks of magic performed by Jack Baumer of Northville, at their regular luncheon hour last Friday noon. Mr. Baumer is a very clever magician, and his bag of tricks was thoroughly enjoyed by the Rotarians present. He was introduced by Rotarian Arthur Blunk.

### RURAL WOMEN MEET AT M. S. C.

COMPLETE PROGRAM ARRANGED FOR FEMINE VISITORS ON FARMERS DAY, AUGUST 2.

The newest quirks for lightening household tasks, methods for selecting fabrics that will wear as they are supposed to do, good music, and just plain entertainment have been provided by the program makers who have charge of the women's section of the annual Summer Farmers Day to be held at Michigan State College, Friday, August 2.

Several years ago one of the agricultural divisions of the College invited a group of farmers to inspect the experimental work which was being done by that department. The idea was so popular that other departments held similar meetings later.

It then became necessary to combine the exhibits put on by the departments into an all College function. The women who accompanied their husbands to these meetings asked that a program be arranged for them, and this has been done for the past few years.

One of the features this year will be the awarding of medals to the second group of Master Farm Homemakers to be chosen in Michigan. A banquet for women will also be held Friday evening.

#### Picked Up About Town

Some fellows are careful about driving when someone is crossing the street ahead of them. They don't want to get their fenders dented.

"You can't fool me about truck farming," said the pretty young city visitor to the country—"I know that trucks come from a factory."

Dad Plymouth says that if ignorance is bliss he knows a lot of people who ought to be supremely happy.

"One nice thing about a concert by the old-fashioned town band," asserts Dad Plymouth "is that you didn't have to stop and listen to some announcer jabbering over a lot of radio station letters."

Any gentleman who can change a tire in the presence of women and children with the thermometer at 90 degrees and remain a gentleman is a gentleman indeed.

You can't expect much reverence for the courts in a land where everyone knows whether the accused is innocent or guilty but nobody knows what the jury will do.

**DETROIT INDUSTRY SHOWS  
REMARKABLE INCREASE IN  
FIRST HALF OF YEAR**

**400 AGENCIES BACK  
MOVE TO SAVE EYES**

**Progress Made in Prevention  
of Blindness.**

New York City.—The last year has seen the most widespread campaign for the prevention of blindness in the history of America. It is announced by Lewis H. Carris, managing director of the National Society for the Prevention of Blindness, in making public the society's fourteenth annual report.

The movement for the prevention of blindness now has behind it not only the organizations built up for this particular purpose, but also, the report shows, the medical profession, the field of education, organized labor, the safety movement, the profession of social work, federal, state and local governmental officers, and many groups of public-spirited private citizens.

Four hundred agencies are co-operating with the Society for the Prevention of Blindness.

"Men and women in every walk of life are now participating in the campaign to save the eyes of the nation," Mr. Carris said.

**Two New Projects.**

"During 1928 the National society undertook two new projects involving joint efforts. With the League of Red Cross societies, the National society undertook a study of international aspects of prevention of blindness, the report of which will be published in 1929 in English and in French by the League of Red Cross societies. The second project is an extensive co-operative educational campaign with the American Federation of Labor to reach 5,000,000 families of working men and women. In addition, it has continued its past co-operative relationships with scores of local and national agencies, realizing that the gospel of prevention of blindness must actually permeate the atmosphere in order that the responsibility of the citizen, the parent, the teacher, the doctor, the nurse, the illuminating engineer, the safety engineer, the worker, and the employer, all take their responsibility to prevent blindness and save sight."

Steady progress continues toward the society's goal of complete elimination of ophthalmia neonatorum, usually called "babies' sore eyes," as a cause of blindness, the report points out. The use of prophylactic drops in the eyes of babies at birth is now required in most states, and free supplies of the solution are furnished to midwives, nurses and doctors in 35 states. Entire eradication of this source of blindness—once the most prolific of all causes—is said to be scientifically possible.

**Use "Game" for Kids.**

By means of a special "game" for preschool age children, the society is able to test, with some accuracy, the vision of children too young to read the letters on the charts used for adults, the report mentions.

Two classes for school children with seriously defective vision, started 13 years ago, have grown into 318 "sight-saving" classes throughout the country in a specialized field of education today, the report says. Through the use of large type books, movable desks, ideal lighting, and special teaching methods, children with little vision are not only given the same sort of education that children with full vision receive, but they are taught how to conserve their remaining sight. The society estimates that approximately 5,000 such classes are needed in the United States.

Through a questionnaire addressed to industrial plants, the National society together with the National Safety Council endeavored to ascertain for the first time the instances in which eyes have been saved in industry through the use of mechanical safety devices," the report says. "The experience of 583 industrial plants employing more than 578,000 men and women, during the years 1926 and 1927, indicates that in the two-year period 2,757 men and women were saved from serious injury or total blindness in both eyes, and 4,654 were saved from serious injury or total blindness in one eye. Detailed information regarding this study will be available later. During the year 1928 almost 900,000 pieces of literature were circulated by the society."

**Doctor on Job at 90;**

**Likes Modern Styles**

Newcastle, Ind.—This is the world's "grandest age," according to Dr. Edward W. Goodwin, ninety. Henry Cunniff's oldest physician. He adds: "The costumes today are the most sensible a woman ever wore, from every viewpoint." Doctor Goodwin is still engaged in his profession and drives an automobile in making calls.

**Fifth of Air Pilots**

**Live in California**

San Francisco.—California had 1,039 aircraft pilots licensed to fly by the federal government, or nearly one-fifth of all licensed pilots in the United States on April 1, according to an analysis of department of commerce records, announced by Pacific Flyer coast aeronautical journal.

**Importance of Nonsense**

London.—Nonsense is an exceedingly important element in life and people lacking in nonsense are not quite right, according to J. Dover Wilson, professor of English in London university.

**GAIN OF 90% OVER SAME PERIOD  
IN 1928 IS REGISTERED BY  
MOTOR PRODUCTION.**

During the six months ended June 30, Detroit industry made remarkable gains in many phases of activity. Compared with the same six months of the previous year a notable increase is apparent, according to statistics compiled by the industrial department of the Board of Commerce.

While there was a decrease of 14 per cent in the value of building permits during the first half, as compared with the first six months of 1928, the value of permits for the construction of factories and shops increased by 200 per cent. More than 8,000 families were provided for in new housing during the first half, the figures show. This, however, is a decrease of 20 per cent from the corresponding period.

**Auto Is Barometer.**

One of the business factors in Wayne county, which is taken in many quarters as a reliable guide to prosperity, is the delivery of new cars and trucks. During the first six months of this year those deliveries totalled more than \$6,000 (with June estimated), an increase of 90 per cent over a year ago.

Postal receipts at Detroit were \$6,003,399 during the first six months—an increase of 8 per cent over the corresponding months of 1928.

Bank clearings were in excess of \$5,977,000,000, indicating a rise of 24 per cent as compared with the same period of the previous year. Debits to individual accounts stood at more than \$7,262,000,000, or an increase of 21 per cent.

The average of factory employment during the initial half of this year was 22 per cent in excess of the average for the first six months of last year. Automobile production during the first half of the current year was 42 per cent in excess of the same period of 1928. Output figures for the United States show 3,150,000 cars and trucks for the first half.

**Freight Loadings Rise.**

Freight cars loaded and unloaded in Detroit during the first half were in excess of 800,000, with the totals for June estimated. This figure represents an increase of 15 per cent over the first half of 1928. Consumption of power gained 27 per cent over the corresponding months of the last calendar year.

Passengers carried by the Detroit Street Railway in the first half of this year were 11 per cent in excess of those carried during the first six months of the previous year.—Detroit Free Press.

**INCOME TAXES  
GAIN IN STATE**

**\$12,000,000 MICHIGAN INCREASE  
IN YEAR; STILL HOLDS  
FOURTH PLACE IN  
U. S.**

Although Michigan paid \$12,000,000 more in federal income taxes during the fiscal year ending June 30, 1929, than in the fiscal year preceding, the repeal of the auto excise levy caused a drop of nearly three times that amount in the Wolverine state's miscellaneous internal revenue contribution and put California slightly ahead of Michigan in aggregate total payments, whereas Michigan had a large margin over California in the year before.

In income taxes paid, Michigan retained fourth place, but dropped to tenth in miscellaneous payments, and in the aggregate rating moved down one rung to sixth among the leaders. Detailed figures of the United States treasury department show that the Michigan grand total of internal revenue collections in the fiscal year just ended was \$151,423,929, composed of \$140,485,006 in income taxes and \$10,938,923 under the miscellaneous classification. For the previous 12 months the total was \$173,977,000, made up of \$128,483,000 in the income category and \$45,494,000 in the miscellaneous.

The only states which paid more federal income tax than Michigan in the 1929 fiscal year were New York, Illinois and Pennsylvania. Illinois and Pennsylvania changed positions in this column as compared with the fiscal year of 1928. States next following Michigan in income taxes in the recent fiscal year were California, Ohio and Massachusetts.

Total internal revenue collections of the United States during the fiscal year of 1929 were \$2,937,660,313, or \$147,124,775 more than during the fiscal year of 1928. The \$2,331,109,536 income tax payments represented \$106,596,724 above the payments for the previous year, and the miscellaneous revenue total of \$606,550,486 revealed only the slight decline of \$8,411,948 with the auto excise removed.

# Chiropractic

is the greatest healing science in the world today. Take Chiropractic adjustments first (not last) and you will save time, wealth and health—you will eventually, why not now.

Below you will find a report that covers a part of the 99,976 cases that received Chiropractic adjustments from 412 Chiropractors in 110 specific conditions. Each week until the 110 specific conditions are covered you will find them given here.

THIS REPORT was compiled in 1924 before the introduction of the NEUROCALOMETER. Since May 11, 1924, when the NEUROCALOMETER was introduced, the percentage of RESULTS have increased above this report.

Disease	Cases Handled	Cases showing Complete Recovery	Percentage of Recoveries
Tonsillitis	585	588	91.4%
Torticollis	2534	2438	96.2%
Tuberculosis, Grandular	125	90	72.0%
Tuberculosis, Pulmonary	691	421	60.9%
Tumors	307	174	56.7%
Typhoid Fever	169	161	95.4%
Uleers, Gastric	288	234	79.1%

CHIROPRACTIC ADDS LIFE TO YEARS AND YEARS TO LIFE

## LAST WEEK FOR C. M. T. C. RECRUITS

NEED 250 YOUNG MEN TO FILL  
QUOTA. ALL EXPENSES PAID  
BY GOVERNMENT.

Michigan must enroll more than 200 young men in the next week if it is to get its quota for the Citizens' Military Training Camps. On July 1, 1,496 young men applied for training in the C. M. T. C. and Michigan's quota for 1929 is 1,750, so that only 85.48 per cent of the quota was completed on July 1.

Phelps Newberry, civilian aid to Secretary of War James W. Good, urges every one of the 83 county chairmen in Michigan to get their committees together and make one last intensive campaign to enroll those young men who have not applied for the training. Mr. Newberry also urges young men who are planning on attending one of the training camps to get their applications in at once. Many young men are waiting until the last minute before making application for one of the camps, and Mr. Newberry desires to have all of these put in their applications at once.

Mr. Newberry also announces that the Western State Teachers College, at Kalamazoo, has donated a scholarship carrying full tuition for one year to the young man excelling at Camp Custer. This makes six colleges in Michigan that have donated scholarships as rewards for excellence at the two training camps in Michigan, Fort Brady and Camp Custer. The other colleges to donate scholarships in addition to the Western State Teachers College are: Kalamazoo College, Kalamazoo; Olivet College, Olivet; Michigan College of Mines and Technology, Houghton; Alma College, Alma; and the Detroit Institute of Technology, Detroit.

There are a number of counties in Michigan who have enrolled more than double their quotas, and there are six counties in the state that have not enrolled a single young man. Bay county is the champion county in the state. With a quota of 40 this county has enrolled 113 young men. Wayne county with a quota of 470 has enrolled 512, and other counties in the state have gone above their quotas.

This year's camp promises to be the best ever held in Michigan. Young men from this state will attend training camps at Camp Custer, Fort Brady, Fort Sheridan, Ill., near Chicago; and Camp McCoy, near Sparta, Wis. Many valuable trophies and medals have been donated to the winners of the various athletic events, which will be a feature of all the training camps.

The government pays all the necessary expenses of the training camps, including good substantial food, railroad fare from home to camp and back home again at the rate of five cents per mile, uniforms, shoes, bed linen, good regular army and Reserve officers as instructors, medical and dental care if necessary, and coaches who are experienced in the various athletic exercises. Applications will be furnished when applied for by Phelps Newberry, civilian aid, 443 Book Tower, Detroit. The Chief of Staff, 85th, Division, 438 Book Tower, Detroit, and the Commanding officer, Fort Brady, Mich. Young men intending to participate in this year's camps must get their applications filled out at once and sent in to the 85th, Division headquarters, 438 Book Tower, Detroit.

Wall street hears that Harry Sinclair is out of jail. That may be. But what's worrying Harry is that he isn't out of jail.

The Plymouth man who has dabbled in stocks doubtless wonders why they don't call them Wall street breakers instead of brokers.

## Island Lake Park Has Large Attendance

If the state park attendance records set during the month of June hold true for the remainder of the summer, 1929 will have established a new peak for out-door recreation in Michigan.

The Grand Haven, Island Lake, and Bay City state parks continue to be the most popular of these recreational areas. This year the Bloomer state park located twenty miles north of Detroit is a close contender for popularity. A week ago Sunday more than 15,000 cars, an attendance of 50,000 checked in the Island Lake park.

The increased usage of the state parks is not confined to the lower peninsula, as those of the northern part of the state also show marked boost in their attendance this season, notably the parks located at Marquette and Fort Wilkins.

The state map issued a short while ago by the parks division of the conservation department portrays many of the reasons for Michigan's growing tourist and resort business. In addition to the main travelled highways, this four-color map shows the location of 61 state parks, 17 state fish hatcheries, 12 state forests, the national forests, 8 game refuges, 110 fire towers, county roads, steamship and ferry lines, cities and towns. A complete list of state parks with their conveniences, equipment, and privileges appear on the reverse side of the map as well as a seasonal schedule of the state ferries between Mackinaw City and St. Ignace. Accounts of Michigan fish and fisheries, game refuges and public hunting grounds, fish and fish laws, forests, natural resources, and historical places are interspersed with many sepia-tone views of Michigan scenery.

## FORD BREAKS A RECORD IN JUNE AUTO OUTPUT

With the announcement that Ford Motor Company's world output reached a new high record last Wednesday when 9,100 units of the Model A car and truck were produced, comes the information that the month of June will break another record with a total of 215,000, which is a new monthly record for the automobile industry. These records represent domestic, Canadian and foreign production.

The former high daily record of the Ford Motor Company was 8,710 in October, 1925, when the Model T was being manufactured. It was that same month that set a record of 204,000 units in the industry. This was the number of Model T units produced in October, 1925.

## Facts About The Telephone

Toronto leads all Canadian cities in telephone development.

The city of London now has 138 telephone exchanges as compared with 120 a year ago.

In 1880, there were 2100 Bell telephones in service in Canada. Now there are more than 725,000.

Several islands off the coast of Maine are being connected with the mainland by telephone cables this summer.

The Telephone Pioneers of America will hold their sixteenth convention in the city of Minneapolis on October 17, 18 and 19.

To study sound production in connection with motion pictures, the Bell Telephone Laboratories are planning the construction of a special research studio.

Enough telephone wire to girdle the earth 12 times has been added to the Bell telephone lines in the Canadian provinces of Ontario and Quebec during 1928.

Four hundred carloads of apples were sold the other day as a result of a transatlantic telephone call made from London to a Yakima (Wash.) fruit broker.

The opening of an aerial telephone line between Roumania and Hungary provides the first telephone service between those countries since the World War.

Approximately 235,000,000 calls were completed from Indiana Bell Telephone Company telephones during 1928, an increase of more than 16,000,000 calls over 1927. More than 8,000,000 of the total calls made last year were long distance.

On January 1, 1909, there were 296,951 Bell telephones in the territory of the New England Telephone and Telegraph Company, comprising the states of Maine, New Hampshire, Vermont, Massachusetts and Rhode Island. Twenty years later, on January 1, 1929, the number had increased to 1,300,000, a gain of 100 per cent.

"What this country needs," asserts Dad Plymouth, "is a school to teach people how to pay for all the things that they can buy for only a dollar down."

## Economy plus Elegance

Buffer Heel and Toe

# DE-HO-CO CONTINUES WINNING STREAK; TO PLAY LEGION

WON SUNDAY'S ENCOUNTER; ALSO TWO ON FOURTH.

The Michigan boys of Dexter, visited De-Ho-Co Park Sunday, and met with the same treatment that has been accorded all visitors recently. Superior pitching by Rowland, and timely hitting by Giles and Martin, put the Dexter boys on the losing end of a 7 to 3 score.

With the exception of the fourth inning the game was closely contested, neither team having any apparent advantage. However, the fourth was De-Ho-Co's big inning, and in this frame they ran up four hits, including a double by Smith and a home run by Giles, to count four runs and furnish the margin by which they won. Clowns, Kelloggs, Both Fall on Fourth

On the Fourth, the boys from De-Ho-Co engaged in two encounters and won both of them. In the morning they played in Northville, having as their opponents the Detroit Clowns, and in the afternoon returned to De-Ho-Co Park to take on the fast-going Kelloggs of Battle Creek.

The game with the Clowns was somewhat in the nature of a rout. De-Ho-Co winning 14 to 0, in seven innings. Rowland was the star, letting the Clowns down with five scattered hits.

The afternoon engagement with Kelloggs was quite a different story though, and the representatives of De-Ho-Co had to display all their baseball wares in order to emerge on the winning end of a 10 to 9 score. Kelloggs Gather Seventeen Salties

There is an old saying that it takes base hits to win ball games, so with this in mind the boys from the Creek started out to get them. They got seventeen of them during the nine innings, but "old man saying" failed them, and they ended up with only nine runs, a few short of the winning number. While all this was going on, the Farmers were not idle, and they done a little heavy hitting on their own account. They pounded out ten

salties, and these coupled with the five errors that Kelloggs' boys so considerably injected into the game at critical stages, gave them ten runs and the ball game.

Priest started the hurling for De-Ho-Co but the Battle Creek team took such a decided liking to his efforts that Manager Prough deemed it wise to remove him, and sent Hartner to his rescue. Hartner's path was not paved with roses, but when the going was tough, he lightened up and consequently was able to hold on to his slender lead. In the ninth, it looked like his efforts were going to be all in vain, because in this frame Kelloggs filled the bases in a last-minute effort to win, but Hartner was equal to the task and struck out Fenner to end the game.

### Benefit Game Sunday

The American Legion team of Battle Creek will visit De-Ho-Co Park next Sunday, and another good game is in prospect. The Legion team is one of the strongest in Michigan, and as their cause is a worthy one, fans will do well to be on hand for this encounter. The money raised by the Legionaires through their baseball activities, is used to further their philanthropic work in their home town.

## Fine Limestone Is Best for Michigan

SMALL PARTICLES QUICKLY BECOME AVAILABLE FOR USE OF PLANTS.

The rapidity with which limestone becomes available for the use of plants on Michigan soils depends upon the fineness of the material which is applied to correct soil acidity, according to soils specialists at Michigan State College.

If immediate results are desired from the application of lime, 85 per cent of the stone applied should be fine enough to pass through a ten mesh screen. A screen of this size has 100 holes to the square inch and is slightly coarser than ordinary window screen.

Three grades of limestone are commonly sold in Michigan. The first is known as pulverized stone and this grade has given good results in the College experimental work. The second grade is somewhat coarser but is satisfactory. The third grade does not contain enough fine material so that an ordinary application will give good results.

If only the coarse grade can be obtained by the farmer, larger amounts of the stone must be applied to obtain enough fine particles to give an immediate effect.

Trials made by Michigan State College indicate that limestone which gives satisfactory results in neighboring states is not always successful in Michigan. Some of the soils in this state are low in organic matter and the large sized particles of limestone seem to break down slower than they do in soils which have a large organic matter content.

### Strange Dispensation

Why doth Fate, that often bestows thousands of souls on a conqueror or tyrant, to be the sport of his passions, so often deny the tenderest and most feeling hearts one kindred one on which to lavish their affections? Why is it that Love must so often sign in vain for an object, and Hate never?—Richter.

## WILL HUNT AFRICAN GAME IN MOTOR CAR

Night Pictures of Wild Life Are Sought.

New York.—Mr. and Mrs. Prentiss Gray of Larchmont and Wilfred W. Brown, ornithologist of the Academy of Natural Science of Philadelphia, have left for Africa on an automotive expedition sponsored by the academy to obtain night photographs of jungle wild life and specimens of rare African animals for the habitat collection of the museum. They will go directly to Mombasa, East Africa, where the seven months' campaign in the jungle will begin.

Throughout the several thousand miles of the journey Mrs. Gray will drive a three-quarter ton truck, equipped with a special axle for rough roads and with four rear wheels, all of them carrying power from the engine. Balloon tires of much greater thickness than usual will be used, with tubes covered by the tough skin of the eland, an African antelope.

The car is so arranged that Mr. Gray can stand in it and operate two still cameras and two moving picture cameras mounted on the roof and reached through a trap door. It is equipped with an extra axle for rough roads and with four rear wheels, all of them carrying power from the engine. Balloon tires of much greater thickness than usual will be used, with tubes covered by the tough skin of the eland, an African antelope.

### Dog to Accompany Them.

Upon arrival at Mombasa the party will be met by Philip Percival, who has organized a group of fifty porters, gun carriers, and native huntsmen. Percival, one of the most famous white guides of Nairobi, who led the George Eastman and other large expeditions through the African wilds, has purchased all the food and living equipment for the Gray expedition, and with Rags, a favorite Alrehalie of the Grays, will accompany them throughout the trip.

Among the specimens in which the museum is particularly interested are a variety of rare deer from eastern Angola and Rhodesia. They include Selous' Sitatunga, the Lchewi water buck, Lichtenstein's hartbeest, and the Nakong or Speke's bushbuck. The little known giant sable, an antelope noted for its huge antlers, is the prize most desired by the explorers.

The overland trip, in which Mrs. Gray will drive most of the way, will take them from Mombasa up through Nairobi, then to southern Tanganyika, across Lake Tanganyika to Elizabethville and Kivu, in the Belgian Congo, thence to Angola in Portuguese West Africa.

### Will Retrace Steps.

Returning, the party plans to retrace its steps across the Belgian Congo to the head waters of the Nile and make its way down that river to Khartoum and Cairo, or will embark on a steamer at Lobetta bay on the coast of Portuguese West Africa for London and New York.

During and after the World war Mr. Gray was assistant director of the commission for relief of Belgium and assistant director of marine transportation of the food administration under Herbert Hoover. Mrs. Gray was also active in war relief. She received the medal of Queen Elizabeth from King Albert of Belgium for her activities in relieving the suffering of Belgian women and children.

In 1917 Mr. Gray was the last American to leave Brussels. He remained for a month after Brand Whitlock, American minister, had left the city, to turn over affairs of Belgian relief to the Dutch and Spanish ministers. Mrs. Gray and her daughter, Barbara, remained with him.

### Aerial Paymaster Aids

Morale of U. S. Marines is the rule in Nicaragua where United States marines are scattered through virtually inaccessible territory.

The expeditionary forces recently have completed the payment of more than \$1,500,000 to marines stationed in outlying districts. In many instances the payroll for the local contingent is dropped from the plane.

This is the only way to make certain the marines will be paid promptly. While they do not need much money in outlying districts, the fact that it comes regularly helps materially in maintaining morale and military efficiency.

### Eastern Flyers to Have

Largest Aerial Beacon

Lynn, Mass.—Airmen cruising through eastern Massachusetts skies at night will be guided henceforth by the biggest aerial beacon in the country. The new 7,000,000 candle-power revolving aeronautical light is located at the plant of the General Electric company, 89 feet above the ground. Its ten flashes per minute are visible for miles.

### Many Unique Stamps on

Exhibition at Paris Show

Havre, France.—Sixty-five million francs worth of postage stamps, many of them unique in the world, are being shown in the world's stamp fair, now in progress here and fostered by the French government through the under-secretary of state for posts. Among the American exhibitors is Alfred Lichtenstein, of New York, who is showing a collection of stamps worth \$150,000.

### Now You Know

Subscriber wants to know the meaning of "etoin" frequently seen in the paper. Etain means about the same as shrdin, which is a variation of cmfwyp.—Arkansas Gazette.

### Lesson of Life

The material good reverses its benefits the more newly we grasp it. All life is a lesson that we live but to enjoy in the spirit.—George Meredith.
