

## PUBLIC SCHOOLS OPEN TUESDAY, SEPTEMBER 2ND

Vacation period, which is rapidly drawing to a close, has acted as a time in which the Board of Education could have the necessary repairs made and the school buildings thoroughly cleaned, exterior woodwork at Starkweather and Central High School and some of the interior rooms painted. The supplies for the year including books, which are supplied to the pupils at cost, have arrived and are awaiting September second.

The corps of teachers is not materially changed from last year and those having care of the buildings are the same as last year.

During the summer vacation, the teachers and pupils have been scattered from the Atlantic to the Pacific and from Canada to the Gulf. Each of those who has traveled will, in turn, bring back an enlarged life as a result of their summer experiences. Those who have spent their time at home or at nearby lakes should be in the best of physical condition as a result of the summer out of doors, and with the physical property of the school renewed and a period of recreation over, the association of pupils and teachers should mean an exceptionally good quality of work during the coming year.

To any who may be hesitating in regard to the advisability of attending school because of our economic situation, they should realize that in a period of economic stress is the time when competition for positions is keenest and it is those who are the best prepared and have the best attitude toward industry and life in general who receive and retain positions permanently.

Realizing the keenness of the future competition for positions, the Board of Education is doing everything in its power to have the boys and girls who pass through our local high school, face the world with the best possible physical, intellectual and social training within the limits of our public school to give.

When September second arrives, pulses will throb anew in Plymouth because school will be in session.

## Local Chapter Will Unveil Two Tablets, Aug. 27

The Sarah Ann Cochran Chapter of the Daughters of the American Revolution, of Plymouth, are planning to unveil two tablets commemorating the service of two Revolutionary soldiers buried in this locality. The following program will be given at four o'clock at Newburg cemetery on the Ann Arbor Trail on Wednesday, August 27. Anyone interested, especially members of other patriotic societies, are cordially invited to attend.

Bugle call, "Attention"—Joseph Ribbar

Prayer and salute to the flag, led by the Chapter chaplain—Mrs. Hattie Baker

Opening remarks—Mrs. D. T. Randall, regent

Sketch of David Dean—Mrs. Charles Dubar

Unveiling tablet to David Dean—Master Robert Champe, member of C. A. K. of Logansport, Indiana.

Sketch of Solomon Kingsley—Miss Athalia Hough

Unveiling tablet to Solomon Kingsley—Master Robert Hough Cowan

Presentation of tablets to Michigan State Organization of the D. A. R.—Mrs. D. T. Randall

Acceptance of tablets for State—Mrs. James H. McDonald, state vice-regent

Song, "America,"—Led by Mrs. Ruth Shattuck Garrett

Bugle, "Taps"—Joseph Ribbar

## Will Speak In Kellogg Park

Frank Day Smith, candidate for circuit court commissioner of Wayne county, will speak in Kellogg Park, Saturday evening, August 23rd.

Mr. Smith was appointed by President Hoover, while Secretary of Commerce, to a membership in the National Committee, to draft Uniform State Laws for the building industry.

He is the author of a treatise on the "Law of Mechanical Liens" which publication has been of great benefit to the bench and bar of this state.

He sponsored and secured the adoption of a clause in the uniform mechanics lien act, restricting the owner's liability to the contract price.

He voted in Washington for labor priority claims on all building construction and to simplify the procedure rendering recovery speedy and inexpensive.

## CHENOT TALKS TO LOCAL ROTARIANS

HON. JAMES E. CHENOT  
Prosecuting Attorney of Wayne County

Last Friday noon at its regular weekly meeting the Plymouth Rotary Club had the pleasure of hearing a very interesting address by Hon. James E. Chenot, Prosecuting Attorney of Wayne County, upon the general subject of crime and the enforcement of the law in Wayne County. In particular the address dealt with the explanation of causes leading up to the series of gang murders which has commanded the attention of the law enforcement authorities of Wayne County the past three months and which culminated in the murder of Jerry Buckley, popular radio announcer, the night of July 22nd, last.

Mr. Chenot pointed out that the series of gang killings had its origin in the passage of the new Canadian law last spring which prohibits the exportation of intoxicating liquors to the United States. It was stated that rum runners, who up to that time carried on a profitable business of loading beer and spirituous liquors at Canadian docks and smuggling them into the United States, found their source of supply cut off by the strict enforcement of the Canadian law. Finding themselves thus deprived of their customary large income, and not being inclined to engage in honest pursuits for a living, the former rum runners decided to "muscle in" upon the business and profits of other racketeers in the City of Detroit who were engaged in such pursuits as the manufacturing and sale of moonshine whiskey and alcohol, and alley brewing. Mr. Chenot declared that before the passage of the Canadian law, the Detroit River runners and the manufacturers of beer, whiskey and alcohol in Detroit were upon friendly terms, as their business interests apparently did not conflict. The "muscling in" tactics of the rum runners were however, immediately resented by the Detroit racketeers, and it was this which led directly to the murder of two Detroit racketeers in a fish market early in the summer. Other gang killings followed in short order until by the middle of July the total number of such killings numbered over a dozen. These, it was pointed out, following as retaliatory measures following the first double killing at the fish market, the murder of Buckley was stated, had no direct connection with the other killings, but was the crime which stirred the citizens of Detroit and vicinity to the seriousness of the gang situation in Detroit.

Mr. Chenot pointed out the difficulties which have been faced by the law enforcement authorities of Wayne County in attempting to solve the recent series of crimes, but expressed the greatest confidence that present developments would lead to a number of successful prosecutions and the eventual elimination of the gang as an important factor in the crime situation in Wayne County.

Mr. Chenot has built up a very satisfactory record of achievement in the Prosecutors' office, both as Chief Assistant Prosecutor and as Prosecuting Attorney, and this fall will be a candidate for one of the Circuit Judgeships to be filled at the November election.

Chief of Police George W. Springer of this place, has been honored with an appointment by the executive committee of the Sheriff's and Police Officers Association of America, as a vice-president and member of the advisory board of that organization. This is one of the greatest law-enforcement organizations in the country, and the appointment of Chief Springer as vice-president and member of the advisory board is not only an honor to him, but the village of Plymouth as well.

## Chief Springer Is Honored

Chief of Police George W. Springer of this place, has been honored with an appointment by the executive committee of the Sheriff's and Police Officers Association of America, as a vice-president and member of the advisory board of that organization. This is one of the greatest law-enforcement organizations in the country, and the appointment of Chief Springer as vice-president and member of the advisory board is not only an honor to him, but the village of Plymouth as well.

## Notice Regarding Sprinkling

Water consumers are hereby requested, until further notice, to refrain from the use of water for lawn sprinkling purposes during the night hours from 8:30 p. m. to 6:00 a. m. This restriction becomes absolutely necessary because of the increasing demands being made for water due to the present prolonged spell of hot, dry weather, and as a means of maintaining a supply of water for fire protection purposes. Water has recently been used faster than our pumps can supply it to our distribution system, with the result that our reservoir is now almost empty. Consumers will also please continue to shut off services when the fire siren sounds, until further notice. For the immediate future a short blast of the siren will be sounded when a fire has been put out so that consumers will know that the water may again be used.

Your courtesy and co-operation relative to the above will greatly relieve the present water situation and will be appreciated.

A. J. KOENIG, Village Manager.

Every member of the Plymouth Chamber of Commerce and others concerned with affairs of civic interest should read Secretary Moore's report to the Board of Directors at their meeting last Monday, August 18th.

## Will Dedicate County Airport September 4

Last Monday the Wayne County Airport was designated a port of entry for Customs and Immigration by the United States Treasury Department, stated Road Commissioner Edward N. Hines. This was a necessary step before the air mail carriers could start to use the port.

Mr. Wadsworth, who is assistant to the Postmaster General, in charge of air mail, has set today as the date the mails in the Detroit district will start using the Wayne County Airport as a base.

Moving the activities of the air mail to this airport means the United States Weather Bureau will also locate there, said Mr. Hines. Mr. Wenger, who is in charge of this department is arranging a weather reporting bureau for aviation which will be composed of five men and will render a twenty-four hour service.

The military hangar, which was built to accommodate such military organizations as might want to use this field, has been completed and will receive its first occupant when the National Guard moves in about August 24th.

The formal opening and dedication of the airport will follow on Thursday, September 4th, 1930.

## Dry Weather Beneficial To Road Work

While the hot dry weather may be very detrimental to our farming interests, it has been ideal for our construction work and July was our peak month of achievement, stated Road Commissioner Edward N. Hines.

Every concrete mixer was worked to capacity with the final result of pouring 328,727 yards of concrete roads. This yardage represents 8 1/2 miles of new concrete road built and 10 1/2 miles of old concrete roads widened.

Since the first of September, 1929, at which time our year begins, we have built 1,103,001 square yards of concrete roads, representing 26 1/2 miles of new road and 42 miles of old concrete roadways widened.

Good progress was also made in our other activities such as bridge building and the construction of grade separations, stated Mr. Hines. We are especially proud of the rapid progress made on the grade separation at Warren Road with the Detroit Terminal Railroad. Eighty-nine days after work was started, the railroad was using the tracks on the new viaduct.

Our right-of-way department also seemed imbued with the spirit of July and during the past week we have added 17,110 feet of wider right of way in accordance with our Master Plan standards.

This wider width of right of way was acquired on Base Line, Fort and Michigan 204-foot superhighways; the 150-foot wide Outer Drive; and on Peabody, Miller, Ford and Dixie roads and Airport Drive with their Master Plan widths of 120 feet.

This wider width of right of way has been acquired by dedication, exchange of back property for frontage, by purchase or by condemnation.

The 20-foot concrete road on the north side of Base Line Road has been completed from Livernors Road to John R. and will be opened to traffic in a few days, stated Mr. Hines.

## McKinney Reunion

The fifth annual McKinney family reunion was held August 10, 1930, at the Wildcat grove near Canton Center road. Daniel McKinney being host for the day. The table for set for about one hundred and forty, and a bountiful dinner was served at one o'clock, after which the business meeting was called to order by Daniel McKinney, president. A short program consisting of music, recitations, dancing and speech making, was followed by the election of officers which resulted as follows: Daniel McKinney, president; Samuel McKinney, vice-president; Thomas Sherwood, secretary; C. A. Schaffer, treasurer.

After the business meeting, all retired to a playground nearby where games for the young and old were participated in with much enjoyment to all. Then all returned to the dance hall where old and modern dances were enjoyed to the strains of Schaffer's orchestra.

Mr. and Mrs. Charles Rathbun, Sr., and family, and Mr. and Mrs. Ed. Schaffer, old acquaintances of the family, were afternoon visitors, as was Judge Eugene Sharp of Detroit.

After thanking the host for a good time, all departed for their various homes, to meet at the home of Mr. and Mrs. William McKinney in 1931.

## Moyer Reunion

The sixth annual Moyer reunion was held Sunday at the home of Mary Moyer Haber at Whitmore Lake, with an attendance of 100. A pot-luck dinner was served at noon, after which a short business meeting was held. Floyd Rorabacher was elected president, and Mrs. Floyd Rorabacher was elected secretary for the ensuing year. A short program was given by the children.

The afternoon was spent in numerous games for both children and adults. The oldest member attending was Percy Moyer, and the youngest was Shirley Ann Beckman. Relatives were in attendance from Ann Arbor, Whitmore Lake, Northville, Plymouth, Novi, Saginaw, Wyandotte, Adrian, Milan and Detroit.

**PRIZE BABY**

Dewayne Manfred Becker won the prize as the prettiest baby boy (six months to one year) at the Northville Fair. He is the son of Mr. and Mrs. Manfred Becker of this place.

## WATER SITUATION MUCH IMPROVED

Though for nearly two months past Plymouth and vicinity have not had a real hard rain, and the effects of the protracted drought are everywhere apparent, the Village of Plymouth has been fortunate in having had an abundance of water available for all domestic and industrial requirements, while many nearby cities and villages have had to seriously curb the uses of water in order to conserve the supply.

While Plymouth has had plenty of water at the source the past summer, during the latter part of July and the first part of August the demand for water in the village was considerably greater, some days from 150,000 to 500,000 gallons, than the capacity of our pumps to deliver water to the village distribution system. The result was to seriously drain down the reservoir supply in our 1,900,000 gallon reservoir. The reservoir, which ordinarily is kept filled to a depth of from ten to twelve feet, had been drawn down to a depth of only two feet and one inch on August ninth.

It was about this time that the village requested consumers to refrain from night sprinkling, as a means of restoring our reserve supply of water in the reservoir. The cooperation received was very satisfactory, so much so that within ten days the water in the reservoir had again reached a depth of over ten feet. The cooperation of our citizens which has made possible the restoration of our reserve supply of water is deserving of the highest appreciation of the community.

Though water conditions have again reached a satisfactory status in the village, the restriction against night sprinkling is being continued for the present because of the continued dry weather and as a precaution against the possible depletion of our serve supply of water.

## Newburg School Annual Home-Coming Soon

The annual home-coming of the Newburg school will be held Saturday afternoon, August 30. Everyone invited to come and make the fourth home-coming the best.

The following prizes will be given: Plymouth United Savings Bank, \$5.00, horse shoe pitching (2 prizes), Harold Jolliffe—Necktie set, boys' doge throw.

Daddy Drug Co.—Men's toilet set, men's 100-yard dash.

Community Pharmacy—Zanadu toilet set, balloon kicking for ladies.

Bunt Bros.—Ladies' silk hose, kick the ball.

Dea Rider—Penny scramble.

Wadsworth Bazaar—Two rubber balls, Boys' race, 7 to 9.

Plymouth Department Store—Bath towel, Necktie contest.

Plymouth Purity Market—Fat women's race.

Plymouth Motor Sales—Flash light, Stepping stone race, men.

Mayflower Drug Co.—Eastman Kodak box, 100-yard dash, ladies.

Mayflower Art Shop—Picture, Novelty race, ladies.

Huston Hardware—Indoor ball, young men ball throwing.

John Rattenbury—1 lb. coffee, Ladies' ball pounding contest.

Palace of Sweets—1 box Cherries, obstacle race, girls.

Wm. Pettinling—1 box candy, paper bag throwing, ladies.

Jesse Hake—Boy Scout knife, race for Boy Scouts.

Leonard & Co.—2 brushes, Slamese twins race, ladies.

T. J. Levandowski—2 pairs silk Sox, Three-legged race, boys.

Conner Hardware Co.—Air gun, cracknel eating contest, boys 12 to 15.

Went & Roe—Ball bat—Boys' race, 100 yard dash.

Eckles Coal & Supply Co.—\$2.00, oldest person there.

## Two Improvements Now Completed

Last fall and this spring saw the construction and completion of two long sought and much needed civic improvements in the Village of Plymouth.

We refer to the Eastlawn and Robinson Subdivision Tile Drains built under the direction of Harry I. Dingsman, Wayne County Drain Commissioner.

Eastlawn Tile Drain's 5,485 feet of vitrified tile sewer pipe furnishes sanitary and storm water relief for property bordering on and surrounding Ann Arbor Road, Eastlawn Drive, Parkview Drive, Meol Drive, General Drive and the Plymouth Riverside Park, established a long desired relief for home owners and manufacturers in the district provided for. For instance prior to the operation of the drain the National Window Shade Co. was forced to keep a pump in their factory working twenty-four hours a day to keep water out of their boiler room.

Robinson Subdivision tile drain offers sanitary relief for home owners in the district of the Robinson Subdivision at the northeast corner of Ann Arbor Trail and Whitbeck Roads.

In accordance with Commissioner Dingsman's policy of employing local facilities whenever possible, both Eastlawn and Robinson drains were designed by Herald F. Hamill, registered civil engineer of Plymouth. Vitrified sewer pipe, brick and most of the other materials needed were supplied by the Beckles Coal and Supply Co. Before being used, all materials were subjected to exhaustive laboratory tests as to strength and quality.

Due to bad soil conditions encountered in both districts, special expert alertness was required to obtain for the interested property holders a durable and satisfactory grade of work. To this end Commissioner Harry I. Dingsman assigned as inspectors on the job several of the most expert of his staff of inspectors and together with Mr. Hamill they kept watchful eyes on the material used and progress and quality of the work during every moment of the period of construction.

## Kiwanis Members Hear District Music Chairman

The Kiwanis Club had a very enjoyable meeting Tuesday. The program was in charge of Rev. Oscar Seitz, Walter Fenton, Kiwanis District music chairman of Mr. Clemens, was present and gave an interesting talk and led the singing. Miss Tansy Bell and Fred Shock of Mr. Clemens, were the accompanists.

## Michigan Farmers Using Electricity For Power

One of the most important uses for electricity on any farm is the pumping of water. An electric motor on a pump jack or a pressure system will supply running water whenever desired. The cost of pumping water with electricity is very cheap. An average 100 acre Michigan farm with running water in the house consumes 100,000 gallons of water a year, about \$8.00 a year or fifty cents a month is the cost of current to pump that amount of water.

Feed mills designed for electric operation grind grain at an energy cost of about 3 cents per bag. Three cents worth of current a day will milk two cows night and morning. One dollar and fifty cents worth of electric power will fill a 12x40-foot silo. These are but a few examples of the low operating costs of electricity. Michigan farmers are taking advantage of these conditions and are increasing their current consumption on a profitable basis.

To grind grain cheaply, to fill silos satisfactorily and to accomplish the best results of other electric operations, it is necessary that the farm buildings be properly wired and that the right kind of equipment and proper size of motors be used.

A modern electric kitchen will be displayed in connection with the Farm Electrification Demonstration at Michigan State College held on the following farms: W. E. Gault, Belle ville, on Monday, August 25, and Charles Foss, Romulus on Tuesday, August 26, according to Emma D. Bord, Home Demonstration Agent, and Ralph Carr, County Agricultural Agent. Two trucks will display house hold and power uses of electricity on the farms.

The kitchen is equipped with an electric range, refrigerator, ironing machine, washing machine, ventilating fan and other appliances successfully used in many Michigan farm homes. The kitchen is conveniently arranged, attractively decorated and demonstrates the best uses of electricity in the modern home.

Any person wishing to get information

## Meredith-Schroder

Miss Marian Schroder, daughter of Mr. and Mrs. Albert Schroder of the Six-Mile road, was married to Herbert Meredith, son of Mr. and Mrs. E. P. H. Meredith of Detroit, at St. Peter's Lutheran church, Wednesday morning, at 9:30 o'clock. Rev. E. Hoenecke, the pastor, performing the ceremony. The church was decorated with ferns, palms and huge baskets of gladioli.

The bride wore a gown of ivory satin made in Princess style, with long train. Her veil of Venetian lace made in cap style and trimmed with orange blossoms, was purchased on her recent trip to Europe. Her bouquet was of white lilies.

Miss Gladys Schroder, sister of the bride, was maid of honor. She wore orchid organdie. Mrs. Charles Trowbridge, sister of the groom, wearing Nile green organdie, and Miss Margaret Murdoch and Miss Harriett Schroder, wearing pale yellow organdie, were bridesmaids. All the girl attendants wore wreaths of pink, length and they all wore shoes and lace bits of matching shade and black jockeys bonnets faced in taffeta in corresponding colors. They wore nose-gays of variegated colors.

The bride's mother wore a gown of figured chiffon of black, peach and flesh brown, with the crown of Talisman roses, with the groom's mother wore a pouf de blue chiffon gown, with a corsage of Talisman roses.

Charles Trowbridge of Royal Oak, served his brother-in-law as best man. Thomas Fitzgibbon, John Schroder and Louis Wierzer were the ushers.

The flower girl was Miss Marian Hamann, who was very daintily dressed in blue point d'esprit over peach crepe.

The bride entered on the arm of her father, to the strains of Lobengrin, played by Miss Marion Beyer. During the ceremony, Miss Beyer played "O Promise Me" and "I Love You Truly."

The party left the altar while Miss Beyer played Mendelssohn's Wedding March.

The ceremony was followed by a reception and wedding breakfast at the home of the bride's parents.

The happy couple left immediately for a two weeks' motor trip through the east. For her going away gown, the bride wore an ensemble of wood violet sat crepe with beige accessories.

## Passage Reunion

The fourth annual passage reunion was held Saturday, August 16, at Jewell & Blach's hall, fifty-four members attending. At 5:30 all were seated at well filled tables, after which a business meeting was held. Officers elected were—President, Frank C. Passaro of Detroit; vice-president, Luther Passage of Plymouth; secretary-treasurer, Sarah J. Passage of Plymouth; historian, Harry W. Passage, Highland Park.

Two cousins from Batavia, N. Y., were present; others from Jackson, Greenville, Freeport, Rochester and Detroit.

The next reunion will be held the third Saturday in August, 1931.

Sarah J. Passage, secy.

Mr. and Mrs. Wm. Bangert and daughter, Jewell, attended the Ward-Crittenden reunion held at Warsaw on Michigan avenue last Sunday. About sixty were present, and all thoroughly enjoyed the day.

## C. OF C. MEMBERS URGED TO SUPPORT LARRY JOHNSON

EX-LEGISLATOR JOHNSON HAS FINE RECORD.

THIS SATURDAY, AUGUST 23RD, YOUR LAST CHANCE TO REGISTER.

At a regular meeting of the board of directors of the Plymouth Chapter of Commerce held Monday evening, August 18th, the directors present made the recommendation that the Plymouth Chapter of Commerce support J. L. (Larry) Johnson in his campaign for reelection to the House of Representatives. They made this recommendation in view of Larry's fine record in past terms of office, because of his wide acquaintance in influential circles and because it should be a matter of pride and direct business interest to Plymouth to have a local man represent this district.

Mr. Johnson served this district with credit to himself and his constituents during the 1925-26 and 1927-28 terms. During the 1927-28 term of office, Larry was honored by being appointed to the House and Means Committee consisting of four members. Service on this committee is the most important appointment which can be had. This committee has the highly important and responsible duty of handling the financial appropriations for all state institutions, such as colleges, hospitals, prisons, etc.

Larry has a host of friends and acquaintances in his former terms of office—men who wield influence throughout the state. In fact, Larry's experience and contacts with the affairs of state administration and the men who administer the affairs of state goes back 25 years when he was appointed a messenger boy in the House of Representatives by the late Cassius R. Benton.

Among others, Larry used to deliver messages to the man who is the present Speaker of the House. Several United States Congressmen now in office were in the state legislature when Larry was chief messenger.

The Fifth Michigan District which Larry has represented so well in the past, due to a recent reapportionment, has been extended to include Wayne and Dearborn, thus adding approximately twenty-one thousand votes. This means that Larry's many friends in Plymouth and Northville, and surrounding area must make a determined effort, so that a display of strong support will create respect and confidence in the minds of the voters throughout the entire district.

Register at Once.

If you have not registered for the September 9th primary, do so immediately. According to the applicable township clerk, he will register all voters up to ten o'clock Saturday evening, August 23rd, (at Blank Bros.) your last opportunity to register.

Your Duty is to Vote.

Your first duty is to register—then vote on the day of the primary, September 9th. Let us give Larry the recognition he is entitled to and send him back to the House of Representatives for the 1931-32 term.

## Patchin Reunion Well Attended

The 24th reunion of the Patchin school, held last Saturday, was attended by about fifty people. On account of the rain tables were spread in the basement and loaded with goodies. The call was made by Walter Norris on his bugle, and all gathered to do justice to a fine picnic dinner.

After a period of visiting, the president, Fred Geney, called the Reunion Association to order in the upper school room and welcomed them in his usual pleasing manner.

A musical selection was given by Roland Ribhead on the violin, accompanied by Miss Evelyn Stambler. The business of the association was then taken care of. Officers were re-elected and a collection was taken. The secretary, Mrs. Raymo, reported that the cost of a bronze tablet was beyond the reach of the association, but the memorial committee had been busy and the result of their efforts would appear later in the program.

Two songs, "Tramp, Tramp, Tramp" and "Michigan, My Michigan," were sung, led by Arthur Warner with Miss Joy McNabb at the piano.

Mrs. Wm. Glympe read a paper in which she paid tribute to the veterans of the Civil War, naming the twenty-seven men who enlisted from this school district. Only two of these are living, Minot Wood and John W. Stewart, both of Plymouth.

James Norris followed, with "Remembrance of the Spanish-American War," telling of many changes which followed the Civil War and of conditions which led up to the war with Spain. He gave a brief description of his own schoolmates who took part in this war. Walter H. Newman, who is now on the Detroit police force, and Herman Gust who is in a veterans' hospital in California.

In "Echoes of the World War," Bertha Warner spoke briefly of those days of suspense and sorrow which are still so fresh in our memories that we need only to hear some of those stirring songs, "Keep the Home Fires Burning" or "Over There," to bring back the echoes of the time when the boys were "somewhere in France." The following names are those of the World War March.

(Continued on page Six; Column Two)

## Boggiano-Hamilton

Miss Margaret Hamilton, who has been a popular clerk at the Mayflower Drug Co. store for some time, was married to August Boggiano of Detroit, at Bowling Green, Ohio, Saturday, August 16th. The bridal couple were attended by Miss Margaret Lorenz of Detroit, and John Wobn of this place. The bride wore a dress of navy blue chiffon and carried a bouquet of roses. Miss Lorenz wore a dress of blue crepe.

Following the ceremony the bride and groom entertained a few friends at a dinner at the Hotel Secor, Toledo, Sunday evening the bride's mother, Mrs. Mary Hamilton, entertained a party of sixteen at a dinner at her home on Ann Arbor street. The wedding cake was the gift of Miss Mary Murray.

For the present the young couple will make their home in Plymouth, but later will go to Detroit where the groom has a responsible position.

Ernest Lane of Columbus, Ohio, and a former Plymouth boy was calling on old friends here last Saturday. Jack, as he is familiarly known to his Plymouth friends, has a responsible position with the state highway department of Ohio.

## ENTERTAINED AT MEADOW-BROOK COUNTRY CLUB

Miss Athale Hough entertained twenty-two ladies at the Meadowbrook Country Club at a bridge luncheon, Wednesday, honoring Mrs. P. E. Gallagher of Vero Beach, Fla., and Mrs. John Michener of Ann Arbor. The table decorations were pink roses and orchid leis.

FRIDAY, AUGUST 22, 1930

## THE BUSINESS OUTLOOK

Everybody around Plymouth is looking hopefully to the arrival of fall, since there seems to be a sort of general understanding that fall will find conditions picking up considerably all over the country. This opinion that the beginning of the end of the depression that started with the Wall Street crash is even now in sight is nation-wide. Such men as Ford, Edison, Firestone, Alfred Sloan of General Motors and Roger Babson, financial wizard, all share that belief and are freely predicting that the worst will be over with the passing of August.

"People are merely afraid to buy; that's all that's the matter," says Ford. "There is no danger from over-production so long as people are buying what they want and need. There is bound to be employment, too, for men will have to work to make the things that people are buying." Edison and Firestone are of the same opinion. They feel that with the arrival of September, when crop money commences to move in all parts of the country, fall and winter buying will start. That would help industry, too, since merchants can't sell goods if the factories and mills are not turning them out. No one anticipates a tremendous boom, or such free-spending as followed the war. But there is a widespread opinion that sensible buying is going to return at a very early date, and that the business depression of the past several months will gradually be swept away and the skies cleared pretty generally of financial and industrial clouds.

### TIMELY ADVICE

Papers from neighboring counties are chronicling numerous destructive fires that have been traced direct to motorists, and that would not have occurred had the motorist used his head to think with. Weeds and grass along the highways are as dry as tinder at this season and have been for months past. Flipping a match or a cigarette stub from an auto is almost as dangerous as lighting a pipe in a powder magazine. There is no way of telling what is going to follow in its wake. A tiny grass fire may destroy fences, forests and even homes and barns before it can be placed under control. No motorist would deliberately set his fellowman's property on fire. Yet that is exactly what he does if he deliberately tosses a lighted match out of a car. The property will burn just the same, whether he intended to set fire to it or not, and the loss will be just as heavy. Use your head, Mr. Motorist. Don't be careless in serious matters like this. Be sure the match or cigarette stub is completely extinguished before they leave your hand.

### TREES IN THE ROAD

Sentiment regarding trees is pretty strong, but it shouldn't warrant their being left in the road. If they possess historic interest, the highways should be made to pass around them, but if they are admired for beauty alone, then progress demands that they be felled wherever they are found to be a menace to human safety. It is a fine and noble sentiment to spare a beautiful tree, and we wish more people around Plymouth possessed that sentiment. Everybody loves trees. They are the noblest and most permanent of all natural creations. They give delight to the eye, shade and rest to the wayfarer and beauty to the community. But today the tree that stands in line of a modern highway constitutes a menace to human life. Driving an auto is different from driving a horse. We must now sacrifice many trees that could have been saved back when roads did not have to be built in straight lines and without sharp turns. It is well to consider this when there is occasion to criticize the road-builders for cutting down a tree.

### FARM PROBLEM SOLVED

It seems that at last the farm problem has been solved. But the U. S. Dept. of Agriculture has solved it—not the Farm Board, or the farm produce schedule makers. The Department says that each common, or more-or-less despised toad, is worth \$20 a year to the farmer as a killer of insects. On the average farm of 120 acres there are, to be conservative, 1000 toads. So if each toad is worth \$20 to the farmer the toads on the average farm are worth \$20,000 a year. And any farmer who, with broad acres, heavy mortgages, hard-to-meet interest payments, complains that he is land-poor should console himself. He is really too rich. The solution every farmer around Plymouth has been seeking for years seems to have been provided by the Dept. of Agriculture. It lies in the simple advice to "Raise more toads."

### BACK SEAT DRIVERS

The back seat driver, who is usually a woman, has come in for a lot of criticism for her unsolicited help in the operation of the family automobile. Her critics have claimed that she causes more accidents by her wordy interference than she prevents. In fact, "kidding" the back seat driver has long been a popular pastime with a lot of male motorists around Plymouth. The charge has withstood assault because no one had any figures to prove that it was wrong.

But now comes Leon Whitesell, state railroad commissioner of California, with a newspaper interview in which he says that 60 percent of all accidents occurring at grade-crossings befall automobiles having but one occupant. "The logical conclusion to draw from this," he says, "is that in moments of danger four eyes are better than two." And that seems to be a pretty sound conclusion.

Just as two heads are better than one in most cases, so two minds and four eyes are better at grade-crossings and traffic than two eyes and the single mind. There are so many things to be guarded against, so much to see and so much to avoid, and so much done in properly operating a car, that the right sort of help should not be resented, even when it comes from the back seat. Good drivers do not spurn suggestions. It is largely the driver who thinks he "knows it all" that objects to having someone point out a danger in the path ahead. Maybe if tempers were a little smoother, driving would be too. For a smooth temper isn't easily disturbed by suggestions, even if those suggestions come from a member of the fair sex riding in the back seat of an automobile.

## CHAMBER of COMMERCE NOTES

### SECRETARY'S REPORT FOR MEETING OF BOARD OF DIRECTORS, MONDAY, AUGUST 18TH.

1. Our last board meeting was held just before Plymouth's first Home Complete Exposition. It is not necessary to make a formal report regarding this event. It was extremely well attended, the exhibits were very attractive and interesting, and it did much to stimulate buying spirit, which was passive as we entered this summer. From the standpoint of community publicity, an event of this character and magnitude is of unquestioned merit. Especially in view of the fact that it was the first time an event of this description has been tried by the business men of Plymouth, I do not believe that it is claiming too much to contend that it was an outstanding success. It is logical to assume that a BBB exposition could be made superior in every respect.

An outsider largely judges the spirit of a community by the spirit of its business men, people like to trade where there is life and action, and I do not know of a better way to hold the business we have or to gradually build up and hold new business and thus add to Plymouth's trading area than by cooperative events which attract widespread favorable attention to the various lines of business represented in Plymouth.

2. (Secretary Moore here referred to a very important activity which we deemed advisable not to make public at this time.)

3. I believe that most of you are familiar with the fact that we have had two large Chamber of Commerce Plymouth signs constructed to be erected at the two forks leading to Plymouth from U. S. 12, and the method employed to finance their construction. Hundreds of motorists undoubtedly pass daily either not knowing that our attractive village lies to their right or left, or that it is possible to drive through Plymouth on their way to Detroit to points west without going out of their way. If a certain percentage of this traffic passes thru Plymouth, it will mean additional dollars spent in Plymouth, it will draw that much more attention to our community hotel, and inasmuch as the attractive appearance of our village sells Plymouth as a desirable place to live, it will mean favorable publicity for our community at large. I am glad to report that these signs are ready to be erected, and they are very attractive.

4. Another Dollar Day sales event has just been completed through our Better Business Committee. Contrary to popular opinion, dollar day sales are the most popular cooperative sales events from the standpoint of merchants and buying public alike. It is all very simple. We all like bargains, and we will buy, and if we are satisfied, we will continue to buy because we all like to trade with merchants who give us real bargains from time to time, and real values all of the time. A real Dollar or Bargain Day sale is one of the best ways to win and hold the confidence of the public, and to advertise Plymouth as a fine place to trade and thus build up our trading area. As far as I have been able to check in the brief time allowed, our August Dollar Day sale was satisfactory both to merchants and customers.

5. You will recall that some weeks ago the Wayne County Road Commission in reply to a request from our chamber of commerce erected a new standard with lights at the corner of Ann Arbor and Main, and changed the location and added lights to their standard at the corner of Starkweather and Main. Complaints were received that the road directions on the standard at Ann Arbor and Main were confusing. These have been changed. About the same time, my attention was called to the fact that road directions were needed at the corner of Mill and Main, the first and last point respectively passed by motorists entering and leaving Plymouth on their way to and from Detroit. A request from this office for a standard at that corner brought a prompt reply from the Wayne County Road Commission, and one is now being erected.

6. As you know, the period since our last board meeting has been very busy from the standpoint of industrial activity. We have had a few inquiries, but I do not look for any action more staple. I am keeping in close touch with Mr. Harry Magee of the Detroit Ring Casting Co., Mr. Kirk of the Peninsular Metal Products Co., and Mr. Moffett of the Pere Marquette. On trips to Detroit, 7-17 and 7-29, I talked to Magee and Kirk, and saw Moffett 7-17 and 8-4. On my trip 7-17, I also saw a Mr. Frank Atkinson, a Detroit patent attorney financially interested in a proposition which may

pan out to local advantage, and Mr. Lovett, secretary of the Michigan Manufacturer's Association. Mr. Lovett is quite a political power in the state, and I thought it advisable to bring Plymouth to his attention in a personal way. Something might break at any time in connection with the local plant owned by the Peninsular people. If it does, there will be many ways that our chamber of commerce can be of assistance.

7. As you know, I have spent considerable time trying to put over a Plymouth edition of the Michigan Manufacturers and Financial Record. You are familiar with the terms of their proposition. I do not believe that it is advisable for me to devote any more time to this matter for the present, although it might pay to take it up again later. I cannot say that I am greatly disappointed because I have had some doubt as to how much good a special edition would do in a year when there is very little industrial expansion, and furthermore because they approached us so late in the year. This publication's offer could probably be revived when conditions are more favorable.

8. As far as our transportation facilities in Detroit are concerned, summer weather, the political situation in Detroit, and slow business have made any progress impossible. I saw Mr. Hees, secretary, Sheldon Sons in Detroit recently, and agree with him that it would be profitless to take any steps until cooler weather and the approaching period when it is unpleasant to drive private cars makes the committing public more receptive and willing to back up any move to better transportation. I made a courtesy call on Mr. Bedford, operating manager of the Detroit Motor Bus Co., recently. He has promised me figures on their Plymouth line, but I have not pressed him for the foregoing reasons.

9. For the same reasons, I do not believe that much has been done to extend the service of the rackless trolleys. A chamber of commerce committee headed by George Robinson attended the dedication of this service.

10. Mr. John N. Van der Vries, district manager of the U. S. Chamber of Commerce, visited us recently, and those of you who heard him I am sure agree with me that it was unfortunate that more were unable to be present. I hope that it may be possible to have him return at some later date for a joint meeting of our service clubs under the auspices of our chamber of commerce.

11. I have spent a lot of my time on membership work since our last meeting. Before I discuss our present membership status with you, I want to make the suggestion that at odd times during the next few weeks I approach as many members of the chamber of commerce and others interested in civic affairs as possible for suggestions for fall and winter chamber of commerce activities. It would provide an opportunity for them to voice their opinion as to what should and could be done, and I have reason to believe that I would pick up some practical worthwhile ideas. For example, I want your opinion now on a few suggestions recently submitted by interested members.

Probably many failures in jelly making occur because of too much sugar. The old rule used to be equal amounts of sugar and fruit juice, but it has been found better in most cases to reduce this somewhat. Usually two-thirds as much sugar as juice, measure for measure, is right.

Women students at the University of Paris may obtain room and board for \$15 a month.

**LIVONIA REGISTRATION NOTICE!**  
To the qualified electors of the Township of Livonia,  
COUNTY OF WAYNE, STATE OF MICHIGAN

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned Township Clerk, will, upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Township not already registered who may apply to me personally for such registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special, or official primary election and the day of such election.

The last day for General Registration does not apply to persons who vote under the Absent Voters' Law. (See Registration by Absent.)

JOHN HARIAN,  
Township Clerk,  
19424 Farmington Road. 38122

ELIMINATION SERIES START NEXT MONDAY

ROBINSON SUB, TODD'S, ROCKS, AND MASON'S ARE COMPETING TEAMS; GAMES CALLED AT 6:00 P. M. SHARP.

The Plymouth Playground baseball league will play the first game of the elimination series next Monday evening at six o'clock on the High School diamond in the rear of the High School building.

To start the elimination series, four teams of the highest number of games won were picked. These teams are the Robinson Sub, Masonic, Rocks and Todd's.

Horse racing is in full swing again at the Northville-Wayne County Fair at Northville this week.

Todds Defeat Methodists

Last Friday night's game between Todd's and Methodists, decided which team was going to play in the finals, when Todd's beat the Methodists by the score of 11 to 6, winning the game in the ninth inning.

Some Good Advice

Bob Zuppa, Illinois coach, has written a new book on foot ball coaching. This volume is literally filled with good advice.

Peckinpough Sticks

President Alva Bradley of the Cleveland Indians denies the rumor that Manager Roger Peckinpough is to be deposed, saying that he and General Manager Billy Evans are well pleased with Peckinpough's handling of the team.

Nethem Holds Burger Scoreless

W. Horvath hit the creamery boys down with three singles and got eleven on strikes to turn his best performance of his career. In the second inning, he got Bryant, W. Fowler and Rovsy on strikes, and in the ninth inning he got Winkler, Byberg and Rogers, the latter two with Gee on second base as a result of John Schomberger's error and a stolen base.

Nethem pickup up another run in each the seventh and eighth innings. The local boys made but one error, and Schultz got the only put-out in the outfield for Nethem. H. Rebitzke and R. Levandowski got six of the Nethem's eleven hits and scored three of the six runs for a day's work.

Today's Reflections

Things have got so that the United States seems to be a small body of land completely surrounded by filling stations.

The hardest job of the average Plymouth motorist nowadays is that of keeping the wolf from the garage door.

The good old days were those when a Plymouth girl would now and then be late for a party because the cobbler didn't finish half-soleing her shoes until about 6:30 o'clock.

Now that golf has become so common that anybody with 25c can play it it will probably cease altogether to be fashionable.

Twice every year the average Plymouth man feels like he ought to economize—right after his vacation and right after Christmas.

Nowadays there is an electrical device to do anything you want done except pay the electricity bill.

Any old-timer around Plymouth can tell you that there were few complaints about hard-times back in the days when a man, didn't consider it a disgrace to go around with a patch on his pants.

WJR FAVORITES

"Cecel and Sally"

Letter writing is becoming a popular indoor sport with the housewives of this section as a result of a prize contest being staged over Radio Station WJR, Detroit. Contestants are asked to relate their kitchen experiences, and announcements of rules and winners are being made during the Grennan Cake Bakers' "Cecel and Sally" broadcasts at 6:45 each evening. One hundred and ten prizes are awarded every week to the best letter writers in the contest.

They are talking of "harnessing the sun" and making it do all the work. How we'd like to sit back on a hot day and watch the sun changing a tire for us.

"Practice may make perfect in some things" asserts Dad Plymouth, "but fifty years of practice won't qualify a man to tell a good cantaloupe from a poor one."

Michigan Happenings

Carmen Pearson of Flint was at work in his garage when he was attracted by a sound like that of the clucking of a hen. He turned about and saw a lizard, about two feet long, with a 10-inch tail, making rapidly for him. Pearson fled to the opposite end of the garage and seized a rake. He struck at the reptile which was caught in the rake, breaking off about four inches of the tail. The lizard then crawled into a hole under the corner of the garage and Pearson ran into the house and got a .22 caliber rifle. He returned and shot the reptile.

Trying to "beat the light" at the intersection of Michigan avenue and Washington street, Ypsilanti, cost John Kubick, Detroit, \$53 besides the damage to his own car. Kubick was arrested on a charge of reckless driving and was fined \$25 in Municipal Court. He also was required to pay damages of \$11 to Mrs. C. R. Williams and \$17 to Christ Bilakos, both of Ypsilanti for damage done to their cars when he crashed into them while attempting to get across the intersection before the amber light changed.

Four brothers of the Anderson family, born near Petrolia, Ont., met at Port Huron a short time ago for the first time in 45 years. The brothers are John of Bay City, the eldest, Andrew of Port Huron, second eldest, Hammond H. of Chatham, Ont., who returned recently from a nine year residence in the Trinidad Islands, and James G. of Palo Alto, Cal., who, with his wife and daughter, visited here. They had not met since they left home at an early age, after the death of their parents.

Bankers have warned businessmen that a number of forged Detroit Edison company pay checks are in circulation at Pontiac. The forgeries are not copies of the check form used by the company but a number of them have been successfully passed. The number of worthless checks issued in the city increased sharply for a few weeks, presumably because of the shutdown of automobile factories for a vacation period, with a resulting shortage of funds for many workers.

The Motor Wheel corporation of Detroit, must pay Roscoe C. Hoffman, 40 years old, \$206,747.75 for infringing his patent on disc automobile wheels. This sum represents a royalty of 15 cents on each of 1,267,905 wheels manufactured between January 1, 1922, and November 14, 1928, or a total of \$190,185.75. Together with interest of \$16,562.00 this will bring the total amount to be received by Hoffman to \$206,747.75.

The crying of a baby probably saved the lives of Mr. and Mrs. C. R. Fayling, living three and one-half miles southeast of Ottawa Lake, near Adrian. The child's cries awakened Mrs. Fayling who found the house in flames. The members of the family were forced to flee in their night clothing. The house with contents of furnishings and clothing was destroyed.

To guard against a shortage of water such as compelled restriction of its use this summer, a driller has been engaged by the town of Rochester, and new wells will be sunk this year. Villagers have been permitted to use water only one hour a day to water lawns and gardens, as the result of an alarming decrease in the reservoirs.

Like the man who held 13 spades and bid one no trump, Samuel S. Hargraves of Lansing, is lucky and unlucky at the same time. Hargraves made a hole in one—but it was the wrong hole. Playing with E. A. Tansley, at the Crystal Lake course, Hargraves teed off No. 3 but it was a slice and rolled directly into the cup on No. 1 green.

Gangsters have been blamed by the police for the theft of dynamite, caps and fuses from Bichler's quarry at Groos, near Escanaba. Charges that a gang planned to rob a number of banks caused authorities to believe that the explosives may have been taken to blow open safes.

A deaf mute accused by Detroit police of having been involved in five accidents in the three weeks he has owned an automobile, and of taking his hands from his steering wheel in order to converse with passengers while he drives, was found guilty of reckless driving.

Vera Brown, a Detroit newspaper reporter, and one of the few women in Michigan holding an airplane pilot's license, was injured when she made a forced landing from 2,000 feet on the surface of Lake St. Clair.

Jesse Miller, 40 years old, who four times previously had attempted to end his life, committed suicide in the county jail at Jackson, where he had been confined since August 5. He strangled himself with his belt, which he looped around his neck and tied to a beam.

Norman Harold Fowler, 2 years old, was killed when he ran behind an automobile driven by his mother, Mrs. E. C. Fowler, of Hillsdale, which she was backing out of a driveway.

The only thing as rare now as a kid carrying a slate to school is a working girl going to work who doesn't look like she was all dressed up for an afternoon party.

That Frenchman who plans to pedal a water-bicycle from Paris to New York will be all right if he doesn't have to get off to fix a puncture.

A super-saladman is one who can sell a 1930 wife a sewing machine, and a genius is a husband who can get her to run it.

DAIRY FACTS

ALFALFA ADDS TO DAIRY PRODUCTS

Supplemented With Silage, It Gives Best Results.

(By JAMES W. LINN, Extension Dairyman, Kansas State Agricultural College.)

Alfalfa is a money saver when it comes to feeding dairy cows for a profit.

Whenever alfalfa and silage are the roughage used by a dairy cow the grain ration that will give the best results includes four parts of corn chop, two parts of oats chop, and one part of cottonseed meal. In place of the corn chop a feeder may use barley, kafir, or milo seed. In the place of oats one may substitute bran, and linseed meal may take the place of cottonseed whenever any of these products are cheaper than the ones given in the ration.

In the four-two-one ration as recommended one-seventh of the grain mixture is the high protein concentrate, cottonseed meal.

If there is an alfalfa in the dairy cow's ration, to get one that is approximately as good as the four-two-one ration where alfalfa is used, a dairyman would need equal parts of corn chop, oats, bran, linseed, and cottonseed meal.

In other words two-fifths of this grain mixture will be the high protein concentrate. In addition linseed oil has been added which is usually higher in price than cottonseed meal because alfalfa is left out of the ration and there is need of something to counteract some of the effects of cotton seed meal when fed without alfalfa.

Grain Ration for Milk

Cows on Dry Pastures

Corn, oats, and bran will be good enough as a grain feed for the milk cows when the pastures dry up and the flies get bad this summer and fall. Two parts ground corn, one part oats, and one part bran, by weight, mixed and fed at the rate of one pound of grain to five pounds of milk produced, will do a lot to keep up the milk flow during the next few weeks.

Experiments at Ohio State university showed that adding linseed oil meal and gluten feed to the mixture mentioned above did increase the milk and butterfat production, but the extra feed cost more than the extra milk and butterfat was worth. Linseed oil meal is a good addition to the grain later in the fall and winter when the green grass is all gone.

Feeding Roughage to

Medium Producing Cows

Cows are generally given all the roughage they will eat up clean. To go with liberal feeding of alfalfa hay a mixture of equal parts ground barley and oats will be all right for low to medium producing cows. For Holsteins milking 25 pounds daily or Guernseys or Jerseys 20 pounds, this mix will be low in protein and lacking in variety.

To these feed in addition to regular grain mixture, a pound of linseed or cottonseed meal daily increasing with the milk yield so cows milking 40 pounds get two of the high protein feeds. The general rule for amount to feed is one pound to each three of milk.

Rheumatism Is

Put To An End By New Konjola

CHICAGO LADY IS ENTHUSIASTIC OVER WHAT NEW AND DIFFERENT MEDICINE DID FOR HER.

MRS. MARIE BASMAN

Surely one could do no wiser thing than to profit by such experiences as Mrs. Marie Basman, 740 North Lawrence avenue, Chicago, had with Konjola. She says:

"I was troubled for two years with rheumatism in my hip. I could hardly get out of bed in the mornings. I tried a number of medicines and treatments but nothing helped me. Then I started with Konjola. That was six months ago and I took six bottles. Since then I have not had an ache nor pain. If I do, I surely will take Konjola again. Some of my friends are now using Konjola and getting fine results."

Konjola is a medicine for the aged and the infant; for all the family. A complete treatment of from six to eight bottles will bring relief from even the most stubborn cases of stomach, liver, kidney and bowel disorders, and rheumatism, neuritis and nervousness.

Konjola is sold in Plymouth at the Community Pharmacy and by all the best druggists in all towns throughout this entire section.

A cold in the head can often be relieved by adding a few drops of eucalyptus to a jug of hot water and inhaling the fumes.

According to Dad Plymouth one of the saddest sights in the world is to see a horse sitting on a fiver radiator.

CHERRY HILL

The Ladies Aid Society met with Mrs. Gordon Gill Friday afternoon. A large number from this place attended the wedding of Miss Bernice Finnigan, which was solemnized at the Methodist church in Plymouth, Thursday of last week. Wesley Robinson, who, with his mother, Mrs. G. C. Robinson, is spending the summer here, was stricken with an attack of diabetes, and was taken to St. Joseph's Mercy Hospital Wednesday. At this writing he is out of danger. Mr. and Mrs. Wm. West have been enjoying a week at Lake Lotus near Pontiac. Mr. and Mrs. Louis Thomas of Highland Park, spent Sunday with Mr. and Mrs. A. Dunstan. Mr. and Mrs. Walter Wilkie and family visited at Dearborn, Sunday. George Dunstan, Stanley and Joe West spent Sunday at Lotus Lake. Mrs. C. W. Spraw and family of Detroit, called on Mrs. Jennie Houk, Sunday. Mr. Smyth of Milan, preached at this church Sunday.

Whether you have one guest or many this summer, little things make all the difference in their attitude. Remember bedside lamps for those who can't sleep without reading, a box of note paper and pen, a few good books and magazines, a little fresh fruit in a pretty bowl. None of these cost much.

Mash, whip and season potatoes well. Then beat into them well beaten eggs. Drop from a spoon on to a well greased baking sheet, and just before serving brown in oven.

To give people pleasure in the articles they must perform use, is the one great office of decoration. Today one may buy the most charming colorings for kitchen utensils and dainty beautiful china in not beyond the purse of the modest housewife.

BANANA DESSERTS

The banana is one of our most popular and well liked fruits. One we can always find in our markets and it deserves a chapter all for itself.

Banana Bavarois.—Scald one cupful of milk in a double boiler. Stir in two teaspoonfuls of gelatin previously soaked in two tablespoonfuls of cold water. Add one cupful of sugar and when cold it commences to set stir in one cupful of banana pulp and one cupful of whipped cream. Pour into a mold and place on ice to set. Serve with: Mousseine Sauce.—Bring one cupful of milk to a boil, add one-half cupful of sugar, one teaspoonful of flavoring, mix well, set aside to cool, then add one-half cupful of whipped cream.

Banana and Coconut Dessert.—Cut four bananas into four pieces, place in a buttered pan and sprinkle with three teaspoonfuls of lemon juice. Beat an egg white until stiff, add three tablespoonfuls of powdered sugar. Add one-half cupful of shredded coconut, put a tablespoonful of this meringue on each section of banana. Bake until brown. Serve with whipped cream.

Banana Bread Pudding.—Take three slices of bread or three rolls, break into small pieces. Four over this two cupfuls of milk, one-half cupful of sugar, four bananas sliced, stir in lightly two beaten egg whites and bake for half an hour. Serve hot with a sauce using the two egg yolks beaten well, one-fourth of a cupful of sugar and a cupful of boiling milk; stir and flavor, then serve hot. A little lemon juice and rind may be used for the flavoring.

Banana Fluff.—Cut one-half pound of fresh marshmallows into small pieces. Whip one cupful of heavy cream, add one teaspoonful of vanilla, one-half cupful of sugar, a bit of salt, stir in the marshmallows, one cupful of broken nutmeats (less may be used), and one cupful of banana pulp finely mashed. Serve with crushed strawberries, or over ice cream of any flavor.

Neelie Maxwell

To sure your camp fire is extinguished before you leave it. Keep the woods green and protect the game by preventing forest fires.

Stork Must Have Been Busy in Atlanta

So many babies—a record number—have come into the world recently at the Grady hospital in Atlanta, Ga., that this over-size crib was devised to accommodate some of them. As may be seen, it holds twelve of the little ones if they are packed in like sardines.

A. & P. SALES IN JULY

The Great Atlantic & Pacific Tea Company reports greater sales for July, 1930, than for any other July in the history of the company; the increase in dollar sales being 3.26% over sales for the corresponding period a year ago, and the increase in physical volume being 14.33%.

Dollar sales for the five weeks in July, 1930, were \$96,723,670, compared with \$93,071,398 for the five weeks in July 1929, an increase of \$3,652,272. Tonnage sales, showing actual amount of goods sold, were 488,682 tons, in July of this year, compared with 427,431 tons in the same period last year, an increase of 61.25%.

The percentage of increase in tonnage sales is greater than the percentage of increase in dollar sales, because of the decline in food prices since a year ago, and is a reflection of the higher purchasing power of the retail food dollar.

"Retail prices must parallel as nearly as possible the decline of prices in primary markets, and the present high level of wages should be maintained if business is soon to recover from the depression of the last few months," the Company said in a statement issued today. "Lower prices raise the purchasing power of wages, and stimulate trade by bringing more commodities within buying reach of a larger number of consumers."

Average weekly sales for the five week period in 1930 were \$19,344,734, compared with \$18,734,280 in 1929, an increase of \$610,454. Average weekly tonnage for the 1930 period was 97,736, and 85,486 for the corresponding period of 1929, an increase of 12.25%.

Dairy Facts

Testing will show which cows should stay. A good coat of whitewash in the barn will help considerably.

Cows freshening in early fall will be dry in July and August, the busy season.

Safety bull pens will prevent the bull from learning his tremendous strength.

At the time a calf must be weaned one usually has to use his fingers to give the calf the idea of drinking from a pail.

Corn silage with the corn left in it produces cheaper gains than corn stover silage, according to the results of Illinois tests.

Many dairymen fail to note the drying pastures when the dry, hot weather arrives. Then the cows suffer. It is nearly impossible to build up their condition and production later if they have been neglected for even a week.

If the supply of skim milk is limited, various substitutes can be employed after the calf is thirty days old.

NEWS: Mail or phone it to No. 6.

Towns to Avoid

And the joke of the road is the small town that erects a "Welcome" sign and follows it up with another announcing a speed limit of "twelve miles per hour." That is no welcome to the tourist. And there are other injunctions concerning cutouts and the like. Most towns admonish the motorist to protect its children but the town fights every effort to protect those children by routing the highway outside the city limits.—Lincoln State Journal.

Improve Home Grounds

Old lawns should be gone over carefully. Unsightly depressions which cannot be removed by rolling can be eliminated by lifting the sod, filling with good soil, and replacing the sod. Where this is impracticable, fine loam can be spread over the lawn to a depth of three inches. The existing grass will force its way through the new soil.

Value of Face Brick

Many old houses have sturdy frames, despite the shabby and old appearance of the exterior. Given a veneer of face brick, these houses will put on an appearance of new and will give service that compares well with an entirely new home, for the brick exterior provides protection against the elements and takes on added beauty with the years.

Why The Office of CIRCUIT COURT COMMISSIONER is of primary importance to you

There are numerous courts, criminal, civil, probate, federal, none of which have little personal interest to the law-abiding citizen. There is one court, however, that concerns us all, particularly the citizen who owns or contemplates owning his home—that of Circuit Court Commissioner, with jurisdiction over land contracts, mortgage foreclosures, liens, rent cases, etc.

This court, dealing as it does with the sacred subject of the fire-side home, should have sitting on its bench, the most qualified men that the community has to offer.

Frank Day Smith of Detroit

Attorney And Councillor At Law

Will deliver an address at Kellogg Park next Saturday evening at 8 o'clock, presenting some very interesting facts in connection with his candidacy for the office referred to.

Mr. Smith was appointed by President Hoover, while secretary of commerce, to a membership in the National Committee to draft uniform state laws for the building industry.

He is the author of a treatise on "Laws of Mechanic's Liens," which publication has been of great benefit to the bench and bar of the state.

Other speakers will be present and an interesting and educational evening may well be expected.

Saturday Night, 8 O'clock, At Kellogg Park

**NEWBURG**

Rev. Frank Purdy took for his scripture reading, the first chapter of Ruth, last Sunday. Mrs. Gladys Horton Kreger sang a beautiful solo, entitled "Alone With God." Miss Joy McNabb accompanied on the piano.

The many friends of Mr. and Mrs. Donald Ryder are happy to hear of the birth of a little daughter, Doris Marie, born Friday, August 16, at Dr. Atchinson's hospital in Northville.

Mrs. E. Ryder accompanied by her daughter, Beulah, and son, David, and grandson, Raymond, visited Mrs. Mary Paddock and daughter, Mrs. Gene Konkle, in Highland Park, last week Wednesday. Mrs. Paddock returned home with Mrs. Ryder.

Miss Sarah Lillian Cutler has returned from Chicago, where she has been taking a course in art at the Art Institute.

Alfred Cutler, young son of Mr. and Mrs. Cutler, underwent an operation at Ford hospital, Monday.

Mr. and Mrs. Melvin C. Guberte were hosts to a group of young people from Detroit, Saturday afternoon and evening, at their pleasant home on Newburg road.

Mrs. Emma Ryder and guest, Mrs. Mary Paddock, visited Mrs. Sarah Wheelock, last Thursday.

Mrs. Clara Burnett of Detroit, spent over Sunday with her sister, Mrs. Clark Mackinder.

Misses Joy McNabb and Alice spent a couple of days at the cottage at Island Lake where the other Newburg girls were camping last week.

Mr. and Mrs. Wm. Smith, Mrs. Mary Paddock, Mrs. E. Ryder and Mrs. Clyde Smith called on Mr. and Mrs. Bert Hodge last Friday evening. In spite of the hot dry weather, they have succeeded in raising some beautiful gladioli.

Mr. and Mrs. Mark Joy and daughter, and Mr. and Mrs. Sylvester Osterlander of Wayne, and mother spent Sunday with friends in Owosso. Miss Lydia remained for the week.

Mrs. Mark Joy, also Altha and Ethel Woodworth of Detroit, were dinner guests of Mrs. Robert Chappel of Plymouth, Tuesday.

Yvonne Frazee, who has been spending several weeks with her grandmother, Mrs. Ann Eliza Farwell, returned to her home in Detroit, Wednesday.

Bear in mind the date of the Newburg school home-coming, Saturday, August 30. See the notice on the front page of the Mail in regard to the sports and prizes. Mrs. James McNabb has charge of the program. The L. A. S. has charge of the stand.

Little fluted paper cups can be placed in muffin pans and used to hold drop cakes during baking.

The wedding cake is an ancient Roman custom.

Prevent Fires! You may have to fight one.

**Newburg Home-Coming August 30**

NEWBURG SCHOOL BUILDING where the annual home-coming of that school will be held Saturday afternoon, August 30th.

**Patchin Reunion Well Attended**

(Continued from page One)

veterans who fought their early battles in this school yard: Joe Freshman, Arthur Genrich, Henry Golin, Clarence Hix, William Kruger, Leon Merriman, John L. O'Connor, Lee Sackett, Henry Schmiede, Russell Warner and Herbert Warner.

At this time Mrs. Ralph Raymo, in a few appropriate words, presented to the school a framed memorial containing the names of the veterans of the several wars who had been pupils of this school. She also expressed the hope that there would never be any more boys of this school called to go to war.

Two more old songs were sung, and then the president called upon Mr. Stewart, who was the only veteran present, to tell of some of his experiences. Mr. Stewart told of his difficulties in trying to enlist at the age of sixteen. He finally succeeded, and

served until he was disabled. He was sent home, but re-enlisted and served till he was taken prisoner where he suffered many hardships.

A poem, "A Pilgrimage to Arlington," was read by Mrs. Billa. A motion was made to send a note of sympathy to Herman Gust. The program closed with the singing of "America."

The reunion was declared to be a success. A refreshment stand in the yard was patronized by many after the rain. The maple trees planted in the "sixties" grow more beautiful year by year.

Among those who attended the Patchin School reunion from a distance, were: Mr. and Mrs. John Corwin, Mr. and Mrs. Nelson Corwin and Mrs. George Grainger of Grayling; from Detroit, were Miss Jessie Southby and Miss Carrie Ahleson, former teachers; Mrs. Lillian Prest, James Norris and family, Mrs. Cora McLaren and Arthur Warner and family; Mrs. Lydia King and niece came from Ypsilanti. Wayne, Plymouth and Newburg were well represented. Mr. and Mrs. Raymond Brown of Greenville, were late arrivals.

A vegetable garden that grows rapidly usually forecasts well-flavored vegetables, says a Cornell agricultural expert.

The great pyramid of Cheops, built 2,500 years before Christ, contains some 2,300,000 blocks of stone, averaging in weight more than two tons each.

Locust swarms in Egypt are being fought with some of the devices of chemical warfare developed in the World war.

Out of 599 American corporations with a rating of \$1,000,000 or more, over 50 per cent carry on research as a company activity.

The trend of farming in Oklahoma is toward larger and fewer farms, a survey by the Oklahoma A. and M. college has revealed.

Ninety-eight per cent of the silver fox pelts put on the fur market today are from ranch-bred foxes, says a government report.

Eight Duluth Icelanders went to Iceland to help celebrate the one hundredth anniversary of the founding of the first Republican government there.

**"Blighted" Areas Due to Imperfect City Planning**

The causes and cure of "blighted" urban areas were reviewed at the Toronto meeting of the National Association of Real Estate Boards by Harland Bartholomew of St. Louis, noted city planning engineer.

He said the symptoms of such a condition are frequent vacancies in property and a general appearance of decay, with little prospect of a renewed market for the district. The cause he attributed to uncontrolled large scale growth. Skillful city planning, he said, is both the cure and the prevention.

"Much is said and written today upon the subject of decentralization of cities," Mr. Bartholomew said.

"As the access to the downtown districts becomes increasingly difficult, new growth will undoubtedly take place in outlying areas, but before we advocate and encourage too extensive decentralization of our cities we need to know very much more about them. Our blight districts are largely the result of opening up new areas of unlimited size."

**Remodeling Offers No Problem to the Wise**

Many old houses over the country, built long simple lines and kept in good condition, are excellent for remodeling. There is hardly a city or town where there are not fine old places waiting for some architect with taste to make them into modern attractive homes.

The owner is most fortunate who recognizes the right kind of old house before he buys it for alteration purposes and who knows what to do with it after he has bought it. There are two important factors in remodeling. First, to get a house with possibilities; second, to rearrange the exterior and interior with the necessary plumbing, heating and lighting in an effective way without excessive cost or unnecessary tearing down or destroying.

These results are not hard to accomplish after a little study and every owner who contemplates remodeling should give consideration to the problem before he buys a place, not after.

Natives of La Paz, near Lake Titicaca, which is 12,000 feet above the sea, die quickly of tuberculosis if they venture to live down in the sea-level towns.

The average Plymouth man wins an argument with his wife about as often as a diver wins one with a fast express train.

Perfect table manners are all right, but they're a big handicap to the enjoyment of fried chicken and corn on the cob.

Maybe the reason some Plymouth citizens are good at breaking a promise is because it's so easy to make another one.

IT'S WISE TO CHOOSE A SIX

# Announcing a new production record

**2,000,000 Chevrolet Sixes now on the road**

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles—nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

—the smoothness, silence and flexibility of a modern six-cylinder engine—the comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil, tire and upkeep economy is unsurpassed. And

The Coach, 1930, f. o. b. Flint factory

any model can be bought for a small down payment and easy monthly terms! Come in today. Learn for yourself why two million buyers have agreed—"it's wise to choose a Six."

**Some Distinguishing Features**

50-horsepower six-cylinder motor . . . 48-pound crankshaft . . . full-length frame . . . four semi-elliptic springs . . . fully-enclosed four-wheel brakes . . . four Lovejoy hydraulic shock absorbers . . . dash gasoline gauge . . . ### WEST POINT WINS SUNDAY'S GAME; TO PLAY HAGGERTY TEAM TODAY

Highland Park dropped their third game to West Point Park last Sunday by a score of 7 to 2.

Goers who went the route for West Point held the Highland Parkers to two hits for the nine innings. West Point collected nine hits off Brooks and two off Johnston who replaced Brooks in the ninth.

West Point are not playing their best ball as there were four errors marked against them in the game while there were none for Highland Park. The hits were all singles except one double by Hammerschmidt in the fourth inning. Hobbins was credited with two stolen bases and Wolf from with one. Goers struck out two batters. Brooks struck out five and Johnston one. Miross was unable to play in the game and his place was taken by Treadway while Quinn played left field instead of Knoch who did not enter the game until the ninth.

Today, August 22, West Point Park meets the Haggerty A. C. team at the Northville Fair. The winners of this game will play the winner of yesterday's game tomorrow afternoon.

Sunday, August 24 West Point will play a double header with Dearborn at Dearborn. The Dearborn diamond is on the Miller Road about two blocks off Ford Road. This game may decide the championship as both teams are tied for first place.

West Pointers need more practice—so all players come out and get yours. Help reduce those errors and improve the team.

In 14 years Jim Londo, wrestling champion of the N. B. A., has made \$800,000. He came to America in 1916 and worked in a fruit store and on a railroad construction gang as a water boy.

Hollis Thurston, one of the Dodger pitching sensations of mid-summer, was drafted by that club from San Francisco.

Bill McKechnie was let out as manager of the Cards because he lacked color, but the Braves this year are one of the most colorful teams in the league.

West Point Park 3 1 0 1 0 1 1 = 7  
Highland Park 0 1 0 1 0 0 0 = 2

Two base hits—Hammerschmidt. Hits—off Goers, 2 in 9 innings; off Brooks, 9 in 7 innings; off Johnston 2 in 1 inning. Struck out—by Goers 2, Brooks 5, Johnston 1. Stolen Bases—Hobbins, R. Wolfrom. Bases on balls—off Goers 0, Brooks 4, Johnston 1. Umpire—Hull. Score—L. A. Mansfield.

The second annual St. Louis National Horse Show will take place Oct. 11 to 19 inclusive, at the spacious Arena, St. Louis' new \$2,000,000 structure.

The first of August found the Dodgers handicapped by injuries to Vance and Phelps, hit by batted balls; Jumbo Elliot with an abscess on his chest and Adolfo Luque sick.

Never shoot at an electric power line. An insulator damaged by a bullet menaces life and property; causes fires and interrupts service upon which hundreds of thousands depend.

### USES WATER SKIS

A new idea for life-guards at crowded beaches—Lewis Winston, star tackle of the Duke University football team, with his new Australian water-skis, which he uses at the Cavalier Beach club near Virginia Beach, Va. The new system enables him to move faster while "running" out to save a person in trouble.

The Dempsey-Sharkey fight in New York is the only non-title ring battle that drew more than \$1,000,000 at the gate. The paid attendance exceeded the mark by \$83,529.

The Chicago team led the National league in attendance during the seasons of 1926, 1927, 1928 and 1929, depriving New York of that honor, which it had held for years.

Harvard university will play eight football games this fall, October 4 to November 22. Michigan will be the attraction in the Cambridge stadium, Saturday, November 1.

Have you read the want ads today?

### COL. JAKE RUPPERT FOR TIGHT HURLING

#### Yankee Owner Would Like to See Tariff Taken Off.

Col. Jake Ruppert, owner of the New York Yankees, would like to see the tariff on pitching taken off. The colonel favors tighter pitching, and to get that tighter pitching he would remove some of the restrictions that now restrain the pitcher.

"I should like to see the spitball restored, and what was known as the emery ball, too, in so far as its scruffing from the contact with concrete is concerned," says Colonel Ruppert. "I do not think players should be permitted to use sandpaper in their gloves or belt to rough a new ball.

Col. Jake Ruppert.

But balls should not be thrown out on every pretext. There is too much run making now.

"Take the restrictions off pitching and we will have real pitchers again. And with real pitching restored the home run will come back into its old-time prestige. I think most of the fans consider it too common today."

Like the bridge player who was dealt 13 hearts but didn't get the bid, a golfer shot a hole-in-one and it didn't count.

Barry Scobee of Fort Davis, Texas, was the unfortunate one. He had been playing around and when he reached the eighth hole he made such a poor tee shot that he teed up another ball and tried it again.

For a time Scobee thought he had lost the ball, but after a search he found it resting nicely in the cup.

The hitting of Alex Metzler since he migrated from the White Sox to St. Louis by the waiver route gives rise to the belief that the Browns grabbed off a big bargain.

Macdonald Smith would have won the two open tournaments this year with a bit more luck. Not another entry made as few bad shots as Smith. He stayed on the line. He had all the distance he needed and he coupled distance with accuracy. His strokes were lost on the greens.

As long as he lives Macdonald Smith will have in his mind pictures of putts hanging on the lips of Interlachen cups and pictures of putts rimming Interlachen tins. Always up and rarely in was his fate. Probably no golfer in history ever had so many putts of two inches or less in tournament rounds as Macdonald Smith had at Interlachen.

Dispelling the popular notion that kings of swat must be big, beefy and broad-shouldered men, Connie Mack, veteran baseball manager, writing in the current issue of Boys' Life, claims that "the smaller, lighter man may have the better eye or the quicker co-ordination, and where he may not have the shoulders to pole out home runs, he will have the speed to beat out short hits and bunts. I do not think that it takes a broad-shouldered giant like Babe Ruth to make a good batter. There are lots of light men in the leagues today who have high batting averages." Batting ability, according to Mack, consists of combining "the snap of the wrist along with the use of the forearm into a smooth, free swing in which one should get shoulders, hips, and most of the body into the clout. The result is a good, strong, heavy hit that is as likely to be a home run as it is to be a single."

Dutch Ruether, former major league lefthander, who is pitching for Seattle in the Pacific Coast league, defeated San Francisco 4 to 8 in 12 innings the other day and was fined \$25. The fine, imposed by Manager Ernie Johnson, however, was not for winning the game but for falling to cover first base in the ninth inning when a convention of players was held about the ball after it bounded from the pitcher's glove.

J. C. Griffiths, who has maintained a breeding nursery at Griffwood farm near Baltimore, and a small racing stable which included such good horses a few years ago as Single Foot and Canter, will sell his holdings and retire.

Plans are being made to dispose of Center and 36 head of mares and yearlings early next fall. Harry Bites is his trainer and farm manager.

There are now two world's champion heavyweights. Refusing to recognize Max Schmeling as world's champion, the British boxing board announced that it would recognize Young Scrimbling as the titleholder as the result of his victory over Phil Scott.

"Chuck" Klein of the slugging but errant Phillies is the first major league player to bang up 100 hits in the 1930 campaign.

Klein got three hits for his 100 in a losing double-header with Pittsburgh, while Terry, of the Giants, fell short by one when he got only one blow in a winning game against St. Louis.

Hodapp of Cleveland has the most hits in the American league, yet neither he nor Klein lead their leagues in hitting.

Use the same care with fire in the woods as you would at home.

### Sport Notes

About time to dig up last year's paragraphs on Jimmy Foss extra-base hits.

Tony Lazzeri, Yankee star, this year has played all infield posts except first base.

Fred Fitzsimmons of the Giants is rated the best fielding pitcher in the National league.

When it comes to American style tennis, the French seem to be among the leading practitioners.

Stuart Clarke, an infield sensation with the Pirates in the spring, has been sent to Dallas on option.

George Beall, former White Sox first baseman, is now a Chicago fireman and plays with the firemen's team.

Walter Brown, right-hander, of the Tulsa club of the Western, has been purchased outright by the Yankees.

Twenty-six wagon loads of rocks were removed from the Peoria ball park and the players like the improvement.

After a certain time a congressional investigation seems like nothing so much as a Red Sox ball team in August.

Talk of beating swords into plowshares—why, some of the Army parade grounds, we hear, are now putting courses.

Miniature putting is all right, but what we want is a game where you sock the ball every time and walk only six feet.

Ed Rousch, hold-out Giant outfielder, is reported to have entered negotiations with Manager John McGraw for reinstatement.

Alexandria and Lake Charles dropped out of the Cotton States league for the last half of the season, leaving six clubs.

Bill Werber, the \$10,000 college rookie of the Yankees, has been turned over to Albany for experience. He is a shortstop.

"Frack" Owens, recruit of the Seattle team, has hands large enough to perform a feat few can do—hold seven balls in one hand.

Tom Bridges, sensational young right handed pitcher of the Evansville Three-I league club, has been recalled by the Detroit Tigers.

From 1923 to 1930 Babe Ruth was not put out of a ball game. His latest exit at the orders of Brick Owens came when he was warming the bench.

Every horse that has carried the dark blue and pink colors of Johnny Moran during the past 40 years has been a gift to him from various turfmen.

Professional golfers in the United States do a business in teaching and merchandising that reaches an estimated total of about \$12,000,000 annually.

EXQUISITE  
hardly describes the beauty of coloring and delicate odor of our flowers. Women rave over the fragrance and the charm of our flowers, and why not? Are they not nature's finest handiwork? Order your flowers from us.

Presenting  
**the outstanding value in a RADIO-PHONOGRAPH combination**

Here is one of the most unusual values in radio today—the splendid Queen Anne radio-phonograph, illustrated above, for \$198, less tubes. This handsome period model of the new General Motors Radio provides the best that modern science can contribute to radio reception and phonographic reproduction—and, in addition, offers cabinetwork unrivaled in the whole radio field for genuine attractiveness and distinction.

This fine instrument is equipped with the Tone Selector—a remarkable new feature of the General Motors Radio which enables you to emphasize bass or treble at will. With the Tone Selector you can actually "tune" radio reception and phonographic reproduction to please your ear!

The Queen Anne radio-phonograph is one of five distinctive period models of the new General Motors Radio, ranging in price from \$136 to \$270, less tubes. Any model may be purchased on the liberal GMAC plan of a small initial payment and convenient installments.

# 8 plies under the Tread

### Here is EXTRA SAFETY!

FOR the high powered, high speed cars of today, with needed quick starts and stops, you should have this extra protection. Just look at the inside of this Firestone Anchor Super Heavy Duty Tire. There are eight plies of cords under the all Non-Skid, Center Traction Tread. It is a big—tough—strong tire—a construction that insures against punctures and blowouts.

#### Come In and See for Yourself!

We have cut up various brands of tires, so that you can see the inside construction. Come in and make these comparisons, section for section, and you will readily see the superiority of Firestone.

We sell and service the complete line of Firestone Tires, Tubes, Batteries, Rims, Brake Lining and Accessories, and actually give you greater values.

The Firestone Anchor Super Heavy Duty Balloon has double cord breaker—8 plies under the tread. Some other makes have no breaker at all and some a single breaker made with old-fashioned, square woven fabric that Firestone discarded when they developed the balloon tire.

**DOUBLE GUARANTEE:** Every tire Firestone makes bears the name "FIRESTONE", and every tire we sell carries the Firestone Unlimited Quality and Satisfaction. We guarantee that you will get all the miles out of your tires that have been built in by Firestone.

**We Mount Your Tires FREE • Drive In Today!**

### SAFETY . . . Everyone Should Have PRICES . . . Everyone Can Afford to Pay

WE HAVE JOINED with Firestone's Co-operative Plan to give you lower prices and plus values by reducing operating costs, and with volume business on a small margin of profit we are able to make you these substantial savings.

Chas. Strassman, Pastor.  
Regular services at the Village Hall at 10:30. Lake 19-41-49; "Seek Peace With God."  
Sunday-school at 11:30.

## PRESBYTERIAN NOTES.

The Mission Study class will hold a picnic at Riverside Park, Plymouth, on Tuesday, August 26th, at 6:30 p. m. o'clock. Picnic supper and picnic fun.

The Presbytery of Detroit will hold an all day meeting in the First Presbyterian church of Plymouth, on Monday, September 15th.

## CATHOLIC NOTES

Sunday is children's day for Holy Communion. Let all be found in their places. Confessions are heard every Saturday night.

Some of the children have not been seen all summer. The parents are urged to bring the children to church and to mass every Sunday. Duty and obligation admit of no vacation.

Netchem baseball team won its game last Sunday against the Burger Creamery, 6-0. Come out next Sunday to Newburg, and watch the boys play.

The Passionist Monastery was blessed last Wednesday morning. Mass for the public will be offered up each Sunday morning and confessions will be heard on Saturdays. The Fathers there can understand the foreign languages—Polish, Slavic, etc. A Passionist missionary has been engaged to conduct our forty-hour devotion in September.

## EPISCOPAL NOTES

The attendance at our church services during the summer months has been very encouraging.

In a few weeks September will be here again. Everyone should make an effort to get back into more regular habits of church going then. The church school will be reopened on Sunday, September 7. The Guild and other activities will be resumed.

With the cooperation of every member we can accomplish great things. Plan to attend church next Sunday! It is "The Lord's Day"—keep it in worship, for at least one hour!

## Shingles Grow in Favor

The picturesque of wood shingles for walls and roofs appeals strongly to home builders who prefer the quaintness of the simpler colonial homes. Shingled roofs may be developed in soft colors that mellow with time. A pleasing effect may be had with a blend of two or more colors.

The roof is seen before any other part of the house; therefore, he sure you have chosen the most pleasing color scheme for it. This is next in importance to the kind and quality of roofing selected.

## Highways and Cities

Trunk highways around cities, rather than through them, are seen as a solution of traffic congestion. More distributing routes, instead of excessive widening of existing roads, are prescribed by D. R. Lamson, engineer of the American Road Builders' association, after a national survey of traffic conditions. "Population centers are the nuclei of congestion. Traffic in large cities is making transportation by horse-drawn trucks cheaper than by motor vehicles."

## Tress Aid Brick Designs

Wooded settings are always desirable with the brick house. There is something especially attractive about the play of light and shadow on a brick facade, particularly when the sunlight comes stealing through the foliage, glinting here and there upon an unusually colorful brick.

## New Brunswick Legend

New Brunswick, largest of Canada's maritime provinces, was first settled by the French and its history is filled with romance. New Brunswick was part of Evangeline's land and in the early days of strife sheltered Evangeline's friends in its forests. From the Indians of the province come interesting legends of the country and of their hero, Gluskap. Once upon a time the beaver was a huge beast and threatened man's existence. Then came Gluskap in his canoe, which was an island, and hunted the wicked beaver and shattered the dams which he had built to flood the country. So they made him chief of all the tribes.

## An Interruption

A ludicrous incident occurred during a party between high officers of the British and Turkish armies, says Captain Mackenzie in "Gallipoli Memories." The discussion—it concerned a trace of eight hours for the Turks to bury their dead—took place in a tent on the beach at Anzax. Suddenly the flap of the tent was lifted at the back and a New Zealander or Australian batsman put his head through to call out in a voice of indignation contempt:  
"Heh! Have any of you blighters plinched my kettle?"

## Do not use hot water on varnished floor-boards.

Use a cloth wrung out in lukewarm water. Each section should be rubbed with a dry cloth as it is washed.

## The sweeter some couples talk while the company is there the more bitter the argument is apt to be after they are alone.

## DEFIES THE DROUGHT

Here, beside a young lady who is 5 feet 4 1/2 inches tall, is a stalk of corn grown on the farm of Ernest Otterback near Woodsboro, Md. It was not the tallest in the ten-acre field, and the fact that the yield will be fairly good shows that the crop on this particular field at least defied the prevalent drought. The stalk was exhibited in a store in Thurmont, Md.

## Mailed by Sign

Pat, the Irishman, had agreed to accompany his wife on a shopping expedition.

"There's a good pair of boots," said the latter, as they stood looking in the window of a boot and shoe shop. "I'll get those for little Jamesy."

Pat looked at the articles indicated and a murmur of surprise left his lips as he saw the price and the notice, "Last Seven Days" displayed on a card above them.

"But, surely, Martha," he said, "you don't want to buy those things."

"Why not, Pat?" asked his wife wonderingly.

"Begorra!" gasped her husband, "but you want them to last longer than a week."—London Answers.

## OFFICIAL PROCEEDINGS OF THE VILLAGE COMMISSION

Plymouth, Michigan, July 21, 1930.

A regular meeting of the Village Commission held in the Commission Chamber at the Village Hall, July 21, 1930 at 7:00 p. m.

Present: President Robinson, Commissioners Hoyer, Kehrl, Mimmack and Wiedman.

Absent: None.

The minutes of the regular meeting held July 7th, were approved as read.

The need for a three car garage building proposed to be erected at the Village yard at the corner of Amelia and Blanche streets for vehicle storage purposes was presented by the Manager. A quotation of \$143.70 for the required materials for such a structure was likewise presented. It was moved by Comm. Hoyer supported by Comm. Kehrl that the Manager be directed to advertise for bids covering the construction of such a garage building, including the materials, to be presented at the next regular meeting on August 4th. Carried unanimously.

Mr. Melvin Alzire and Mr. Arno Thompson appeared before the Commission to request permission, on behalf of the Ex-Service Men's Club, for the holding of a band concert in Kellogg Park the evening of Tuesday, August 10th. The Commission was requested to see that necessary lights be furnished for the occasion. It was moved by Comm. Hoyer supported by Comm. Kehrl that the requested permission be granted and that the Manager be directed to have the necessary wiring and lights installed. Carried.

Comm. Kehrl, upon his request, was excused from the meeting.

A petition was presented requesting the removal of the Manager by the Commission. The petition was examined by the Village Attorney to determine whether the petition met the requirements of the Charter. The Attorney ruled that the petition did not meet such requirements. It was then moved by Comm. Wiedman supported by Comm. Hoyer that the petition be denied because of its insufficiency under the ruling of the Village Attorney, and Clerk was directed to notify the circulator of the petition relative to the action of the Commission and the ruling of the Attorney. Carried by the following vote:

Ag'd. Commissioners Hoyer and Wiedman.

Nays: Commissioner Mimmack. President Robinson declined to vote.

The following bills were approved by the Auditing Committee:

Detroit Edison Co.	\$ 19.19
First National Bank	3,547.40
Wm. B. Peitz	54.45
Geo. W. Richwine, Treas.	19.00
Strong & Hamill	139.75
Wingard Ins. Agency	302.40
Reeher, Peck & Lewis	6.65
Builders Iron Foundry	.78
Pacific Flush Tank Co.	53.60
Standard Oil Co.	33.20
Victor Rubber Stamp Co.	47.87

Total \$4,218.99

The following checks written since the last meeting were also approved:

Geo. W. Richwine, Treas.	\$5,020.00
Frank S. Shattuck	500.00
Pere Marquette Ry.	63.95
Wayne Roller Works	814.00
Administration Payroll	466.78
Cemetery Payroll	147.50
Police Payroll	291.92
Pere Marquette Ry.	144.00
Geo. W. Richwine, Treas.	10.00
Fire Payroll	178.10
Labor Payroll	883.10
Bert Brandel	9.98

Total \$8,019.92

Upon motion by Comm. Wiedman supported by Comm. Hoyer bills and checks were passed as approved by the Auditing Committee.

Upon motion by Comm. Hoyer supported by Comm. Mimmack the Commission adjourned.

GEO. H. ROBINSON,  
A. J. KOENIG,  
Clerk.

It has gotten so that a vacation is about half anticipation and the other half changing tires.

Relief From Curse of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the large, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose. Stop suffering from constipation. Chew a Rexall Orderlie at night. Next day bright. Get 24 for 25c today at the nearest Rexall Drug Store. Bayer Pharmacy.

Walter Sieloff

Pennington Allen Theatre Plymouth, Michigan MOTION PICTURE

"SHADOW OF THE LAW"

If you were caught in the toils of the law, were hauled before a judge, tried for a crime you didn't commit, convicted of murder, and sentenced to prison for life, you would know the real thrilling drama of William Powell's newest starring picture, "Shadow of the Law," which will show at the Pennington-Allen Theatre on Sunday, August 24.

But the drama of this story only begins with prison. The most breath-taking action begins with Powell's escape from the penitentiary; his fight to prove his innocence; a seemingly hopeless search for the woman in whose hands lies the proof of his story; his love-affair with a daughter of wealth, and his final happiness.

William Powell has never had such a powerful and thoroughly sympathetic character to portray on the screen. The young engineer of this story is a believable character caught in a net of circumstances which might happen to any one. Even "Street of Chance," Powell's first starring picture, lacked the dramatic force of "Shadow of the Law."

A great cast supports Powell. Natalie Moorhead, the blond beauty seen opposite the star in "The Benson Murder Case," is one of the two women who bring powerful forces to play in his life. Marion Shilling, young, beautiful American stage actress, is the other. Regis Toomey is in the cast, and a group of well-known and effective character actors add vitality to the story.

"Shadow of the Law" was inspired by the novel, "The Quarry," by John A. Morosa. Max March, one of Broadway's best-known playwrights,

wrote the story. Louis Gasnier directed, and he believes "Shadow of the Law" is the best story he has had to work with in years.

"THE PAINTED ANGEL"

Billie Dove, the popular screen star, comes to the Pennington Allen Theatre Saturday, August 30, in her latest picture, "The Painted Angel," a story of the cabarets along "Heart-break Lane"—the Great White Way.

Miss Dove portrays a cabaret hostess in this fast-moving and peppy dialogue picture, and she sings and dances for the first time on the screen. A splendid cast is seen in support of the star. Edmund Love, one of the finest actors in Hollywood, is her leading man, playing the part of a violinist who loses the use of one arm in defending the life of the cabaret girl.

J. Farrell MacDonald, the beloved character actor, has a comely role as the heroine's father. Cissy Fitzgerald, returned comedienne, is seen as the mother. Others in the cast are George MacFarlane, Nellie Bly Baker, Will Stanton, Shep Camp, Douglas Gerrard, Peter Ilizgus and Norman Selby.

"The Painted Angel" was directed by Millard Webb, and is a rapid-fire story of the night clubs of New York. The dancing ensembles are novel and unique, and the songs, written especially for the picture, are tuneful. "The Painted Angel" offers a role distinctive and new to Miss Dove, and gives her a chance to demonstrate her remarkable versatility as an actress.

It is a First National and Vitaphone picture and is 100 per cent dialogue.

IS HEALTH YOUR GOAL? THEN GIVE NATURE A CHANCE

(Concluded from Sports Page)

The most cosmopolitan bunch of boys in the whole country. There are sons of Congressmen and Senators from every state in the Union; sons of Navy and Army officers, and sons of diplomats from every country on the face of the globe. Central High is a public school, so we get boys from all stations of life—and the aim is the great common denominator. There they are all just "boys," and there I have found some of the poorest physical specimens to be representatives of the richest families, while some of the finest types were sons of relatively poor folk.

My greatest joy is taking an under-nourished, spindly youngster and trying to develop him into a normal being. I remember one such boy a few years ago. When he first came out for track he looked hopeless. He wanted to be a jumper. I suggested some light work and a carefully balanced diet weighed with cellulose content. This gave Nature a chance, and in his last year, this "weaking" jumped 6 feet 1 inch, and looked like a different boy.

Nature has provided all the foods needed for building sturdy bodies and

abounding health. Take cereals for example. All boys eat some kind of a cereal for breakfast. This is just what they need, as long as that cereal has the needed bulk to supply the body with a "vegetable effect." I know that one of the most popular cereals with my boys is whole rice. I can easily understand this, for it is extremely palatable, and the smooth bulk it furnishes never injures the stomach as do some of the other cereals with a rougher fibre content.

I have found that youngsters are even more serious and willing to follow suggestions than many more mature and seasoned athletes. They like to be put on their own. It gives them a feeling of responsibility, and makes them conscious that you have faith in their judgment.

I sat down the other night and made out a list of boys who have gained sufficient distinction under me to go to colleges and universities on full scholarships. I could remember nearly 450, including among others, "Bill" Jones, Bernie Wefers, Charlie Sykes, Arthur Duffy, Paul Cox, John Holden, Paul Maxgoff, Maxey Long and Calvin Millans, the latter being the first 15-year-old boy to high jump 6 feet 1 inch in competition.

That's quite a list, and just goes to prove that Nature is the best trainer of all—if you only will get her to work with you.

Rosedale Gardens

By J. W. WALKER

Another roadside sign we noticed on Farmington road, where the farmers have tried to farm but the things have failed to grow, owing to the drought, "Puppies and crickets for fishin'," which same if they sell enough of they won't have to ask for Presdt. Hoover's "Drought Relief." We have also been wondering what kinda fishes one fishes for with puppies, maybe catfish, who knows?

Stopping by the "Home Folks" gas and oil dispensary the other day, we were thinking of the wind storm that blew off many of Duryee's apples. "Quite a blow the other day, Mr. D." "Yes," replies he, and then sez he, he sez, "Chuck sure can blow about his playin' now." We know what it is to be a proud father, so just sez "Yeah—great boy, that, of course you are justly proud of him."

We were admiring a sign on U. S. 12—"Spring 200 ft. Chickens"—but couldn't make the ole bus spring, when long comes a fella guy who musta tried it cause he passed us, and did his springing in the ditch on the other side of the road to avoid hitting another car coming where he was so suddenly going from. Note: Sometimes we believe in signs, sometimes not.

Some of our "new" trees are looking rather sickly, on account of the lack of enough moisture, or something, and Supt. Honcke is having some of the men trench around them so the ground will hold what little rain and red wagon water they may get. A passerby was asking Stuart "what he was digging for." "Money," replies S. "How long do you expect you will have to dig to get it?" asks he. "Next Friday—pay day," answers our tree surgeon.

Mr. and Mrs. Paul Harsha, Paul and Hugh, have returned from vacationing up in the Charlevoix country. They report a good time, forest fire and acres of evidence of the dry spell.

Some of the girls and boys are having nice little moonlight excursions about the development these few past cooler evenings, running in the vitamin "B" dept., in case of shower for a pop sizzle or cone if rain showers come up. Perry Gray our fluid lactic salesman had a narrow escape from serious injury last Thursday morn at about pashtsix to seven of the clock when his delivery truck overturned on him and gave him a bath in his wares whilst being held down by the vehicle. It all happened on McKinley Rd., just north of our beloved U. S. 12. He was rescued by several passersby.

Little Everette was visiting his cousin Gardentites last Sunday, this being the first time he had been abroad and in a "single" house in his half past three years of age. When the folks had visited awhile, they were shown about the house. Everette was very quiet and really "in good boy" for a time, then upon being complimented on his behavior he told his auntie, "I was just thinkin what the people upstairs would say when they find out we have been looking in their apartment."

Satdee eve R emporium was crowded to the sidewalks, everyone eulogizing the merits, or something, of the

particular size and variety of the mosquitoes that infested his-abouts, and suggesting remedies thereat and thereon for sale hardy. One Gardentite claimed a particular brand of the pestiferous insect had a stinger "that" long. It was ans. by a certain well known Buttermilker with "That weren't no mosquito, that was the ole boy himself with his progs, and he only comes when— Well, I doubt your bootlegger, that's all."

A group of Boy Scouts were hiking along real leisure like when a couple rough necks driving a big shiny car tried to root them off the road, but without apparent success. "Hey, you kids," sez one r. n., sez he, Bluh Blaney don't you — kids get outa-there-way?— You act as ef yuh owned this blankety road." "The way you talk," replied one cub, "would give the impression you owned that flivver." "No polite ans. was appropriate, if not polite."

Grandpa Murphy and Aunt Mildred have been visiting Patsy and Sister Kinatun.

The youngster "Rosedale Gardens," will have his fifth birthday this Sunday. Now the ole maddis will have to start counting fingers on the other hand. Wonder how everything will be in another five years.

Mr. and Mrs. Edwin T. Canliffe have purchased the Coopers' home at 9625 Melrose Avenue. They will be moving in immediately.

Unbelievable, But His Rabbits Did It

Raisin Brook Packing Co., Dundee, Michigan.

Gentlemen:

Received my checks, \$67.50 and \$18.75 in payment for the last bunch of Breeding Does and Meat Rabbits you picked up at my place on March 13th. Since I started raising rabbits you have paid me a total of \$300.21 on the following dates:

Table with 2 columns: Date and Amount. Rows include 1929 (Aug. 4, Meat Rabbits \$21.00; Oct. 17, Meat Rabbits 38.96) and 1930 (Jan. 6, Breeding Does 40.50; Feb. 6, Meat Rabbits 31.60; Jan. 8, Meat Rabbits 37.90; Feb. 13, Meat Rabbits 30.00; Feb. 13, Breeding Does 13.50; Mar. 13, Breeding Does 67.50; Mar. 13, Meat Rabbits 18.75). Total \$300.21.

As you know I started with 7 Does and one Buck and in addition to cash received from them, have increased my herd to 60 Breeding Does and have on hand a total of over 350 rabbits. This is almost unbelievable but thanks to your schooling and service department it is true.

I have found by experience that you do as much or more than you claim for your breeders and any one who follows your instructions can make plenty of money raising rabbits for you. I will raise over 3,000 rabbits for you this year which will pay me a net profit of over \$4,000.

Needless to say I am more than pleased with my first year's profits and I surely thank you for your continued interest in my success.

Yours very truly, O. F. STANTZ, West Unity, Ohio.

The rabbit meat wave is here. Now is the time to get into a business for yourself. Use your own money, spare time, back yard, vacant lot, garage or shed. We contract to buy all Raisin Brook Rabbits live weight for next five years at profitable prices. You can start as large or as small as you like. We have helped thousands of ambitious men and women double, triple and quadruple their earnings. Write for full information.

Advertisement for Fuller Products and Service, T. W. Norris, 15433 Fishers Ave., Detroit, Michigan 1822.

We have ordered flowers for the "hit and run" driver who flies by here in an open car of expensive model, license plates all oiled and dusted. He hit an ancient and honorable model T sedan the last Whensdee aftn, and turned it and countryside folks over three times. The T was almost demolished, the occupants badly shaken up, though not injured, and the family groceries (including watermelon) scattered all over the acre between Bill Cord's bobber shoppe and Samuel McKinney's abode.

We have mounted a rock salt gun for the boys who lust, of odd time, in knocking apples and other fruit from pharmacy has also laid in an extra stock of Admiral Perry Guit for the effects of same.

We noticed, last Thursday, several tractors with grass and weed cutters going east and west on the U. S. 12. Inquiry developed the statement they "were at working cutting weeds on Plymouth Rd." Inspecting the road we found the only things that had grown thereon since it was paved were, namely, and to wit—a white line thru the center, and some tar and gravel filling in the cracks. This gives us an idea, and we are going to see the road comr, or maybe Mr. Coolidge, and perhaps we may land a job at snow plowing from now till frost—why not?

We rec'd a post card from Rain the other eve at twilight. Like all

souvenir cards, the picture was looking nicer like than the real thing, and Thursday morn everything looked same as it did Whensdee morn at sunrise. The Elliotts were Sunday visitors in the vicinity. All Buttermilkers remember Oswald of Cecil fame. Senior Loyd B. and B. are up in fish territory. Now what we mean is there will be some fish stories at the Buttermilk club the coming season, and we don't mean maybe.

A number of Gardentites went fishin' over the week-end. And it was a "weak" end too—both ends of the line. All the fish that was brought back was a ham sandwich that had some-bow fallen and tyranical legislation and was not discovered until Fido found it Monday a. meridian.

ATTENTION Just unloaded another car load markers. Can save you 1 if you come and see them. 3 Do this. Milford Granite Works

### Morning Glory Frock Is Pleasing and Practical

A bright sleeveless frock in printed percale makes a cheery start for a morning of odd jobs about the garden or in the house. And when you can slip it over your head and forget buttons that drop off or an elusive separate belt, such a dress is not only pleasing but practical. This Morning Glory frock is just that type—a slip-over with a binding that simulates a surplice opening and at the same time gives a tall slenderizing effect.—Woman's Home Companion.

### White Much Favored for Milady's Summer Clothes

Summer clothes are nothing short of thrilling. They are so young and gay and spontaneous by night that one is captivated by them, notes a fashion correspondent in the Kansas City Star.

The active sports woman swings her club or racket in workmanlike togs. The spectator cares not a rap for anything but effect and joins in the chorus with tones at once harmonious and feminine.

The really elegant are sponsoring white, which is, of course, the most luxurious of all, but which makes amends by its good behavior in the sun. One is even agog over white bathing costumes, for it is not so long ago that they were taboo on many, and by no means the most conservative, beaches. One sees white swimming suits and white beach costumes aplenty these days, sometimes bright color serving as a foil. This is equally true for evening. It is important to remember that at one of the smartest Parisian openings white evening clothes scored, especially those accented by jade jewelry or by jade shoes or gloves.

Just as black has been introduced with color rather than in solo, white is offered as a companion to such shades as strike an effective contrast, turquoise and jade being outstanding. Almost everything one wears seems preferred in two rather than one color—white shoes trimmed with tan being an excellent example of this trend. These are not only advocated for active sports, but for all occasions for which women might be expected to wear white shoes. The anticipated vogue for white stockings is slow in getting under way; women seemingly preferring to wear suntan and nude shades in mesh or in plain lusterless stockings.

Black linen shoes, white and colored lined sandals and blue kid shoes to complete blue costumes are important footnotes. Gloves are in general usage, slip-on types making the smartest gesture. Although white claims and deserves position, one must not underrate the importance or effectiveness of the entire pastel range. Pastels are at home in harmonious groups and also with white.

### An Easy Way to Clean Those White Kid Gloves

Keeping white gloves clean amounts to quite a little sum of pin-money, if they are always immaculate, and the work is done by a cleansing establishment. It really can cost but a small fraction of the amount, if done at home in an expert way.

The necessary equipment, says a writer in the Kansas City Star, is a bottle of some preferred cleansing fluid, a large lambwool powder puff and some French chalk. If the gloves are marked with perspiration, a very little liquid-white shoe cleansing fluid may be used. Put the gloves on, one at a time, so that one hand is free to work over the gloved hand. Pour a little of the cleansing fluid onto the large lambwool puff. Rub the glove with the dampened puff until the dirt is gone. The pressure of the puff on the glove surface brings the fluid to the surface and it does not evaporate as it would if it were not held by the wool.

Next dip the puff into a saucer of French chalk. The slight moisture of the puff will make the chalk adhere well. Rub the chalked puff over the glove, renewing the chalk on it whenever it brushes off while it cleanses the glove and gives it that fine finish gloves have when they come from an expert cleanser's.

**Charta's Highlights**  
The Magna Charta's most important articles are those which provide that no freeman shall be taken or imprisoned or proceeded against except by the lawful judgment of his peers or in accordance with the law of the land, and that no scutage or aid shall be imposed in the kingdom (except certain feudal dues from tenants of the crown) unless by the common council of the kingdom. The remaining and greater part of the charter is directed against abuses of the king's power as feudal superior.

## The KITCHEN CABINET

(© 1930, Western Newspaper Union.)

"When friends are at your hearth-side met Sweet courtesy has done its most If you have made each guest forget That he himself is not the host."

### ICE BOX DAINTIES

For those who have the electric refrigeration the following recipes will be helpful and suggestive:

**Refrigerator Dessert.**—Allow four thin crisp cookies, plain or chocolate, for each serving. Take one-half pint of heavy cream whipped for a serving of six. Flavor and sweeten the cream, then spread a cookie, top it with another and more cream until four are used, finish the top with a bit of cream and a cherry. Let stand four hours in the ice box. Serve on chilled plates.

**Frozen Peanut Butter.**—Cream two cream cheese with a fork, add one-half cupful each of chopped green pepper, celery and pimientos; one-third cupful of peanut butter, one-half teaspoonful each of paprika and salt. One tablespoonful of lemon juice and one-fourth of a cupful of mayonnaise. Mix well then fold in one-fourth cupful of heavy cream. Put into the freezing tray and freeze until firm. Serve on lettuce with a rose of mayonnaise.

**Cocoa Charlotte Russe.**—Dilute four tablespoonfuls of cocoa with one-fourth cupful of boiling water, cool, add two cupfuls of heavy cream whipped until stiff, fold in the stiffly beaten whites of three eggs, one-fourth teaspoonful of salt, one tablespoonful of orange or any flavored fruit juice, one teaspoonful of vanilla. Line a mold with lady fingers, trim to fit mold, fill with the cream mixture, cover and chill three hours. Unmold on a serving dish and serve with chilled whipped cream.

**Apricot Parfait.**—Drain the juice from a can of apricots, add one-fourth cupful of sugar and boil ten minutes. Pour the sirup over stiffly beaten whites of two eggs and cool. Press drained apricots through a coarse sieve and chill for twenty minutes. Whip two-thirds of a cupful of whipping cream and add the apricot pulp, mixing lightly but thoroughly, then combine with the chilled sirup and egg mixture, again mixing well. Serve in sherbet glasses.

## The DAIRY

### IT PAYS TO FEED COWS IN SUMMER

### Big Mistake to Overlook Grain in Dairy Ration.

New York dairymen who do not feed grain to their milk cows in summer while they are on pasture are overlooking a sure method of increasing their net income, says F. E. Morrison, head of the animal husbandry department at Cornell university. It is surprising, he says, that many men who take much trouble in providing their cows with excellent rations during the barn feeding period of the year, depend blindly on Dame Nature in summer.

Pasture alone was satisfactory for cows in early days, when even the best of them yielded an amount of milk we would now consider too low for profit. By skillful selection and breeding, the modern high-yielding dairy cow has been developed, with a capacity for producing milk so great that any ordinary pasture will not furnish her enough feed both for milk production and for body maintenance.

The proper feeding of milk cows on pasture is much simpler than during the winter, and, says Professor Morrison, doubtless this is the reason why so many farmers, busy with their crops, fail to give their herd the necessary attention in summer. Often the cows are merely turned to pasture after milking at night and morning, with no further thought as to the supply of feed actually available for them. It is no wonder that when pasturage becomes scanty in midsummer, the cows run down in flesh and fall off decidedly in milk yield. Even if fed liberally when barn-feeding starts in the fall, quite commonly they cannot then be brought back to normal and usual production.

It is especially important to feed grain liberally when pastures become short and parched. This is important any year, and of particular importance this summer, when every far-sighted dairymen desires to do his share in providing sufficient milk in the New York milk shed during the shortage period next November.

Under typical pasture conditions in the state, he says, experience shows that it is best to feed a grain mixture containing about 18 per cent protein, at the rate of one pound of grain to three pounds of Jersey and Guernsey milk, and one pound of grain to four pounds of Holstein, Ayrshire, or Shorthorn milk.

### Increase Profitable Butterfat Production

The following are essentials in profitable butterfat production, according to H. H. Kildee, formerly of the dairy husbandry division of the University of Minnesota, University farm, St. Paul.

Proper shelter in a warm, light, well ventilated barn. The leeward side of a barbed wire fence is an expensive shelter for milk cows.

A knowledge of the herd through the use of milk scales and the Babcock test.

Corn silage and clover or alfalfa hay as nutritious, palatable feeds.

A grain ration in proportion to milk and butterfat produced.

Fall calving as a means of increasing production as well as price at a time when more labor is available.

A husel of grain fed before calving rather than two fed afterward. Prepare the cows for the milking period.

Water of moderate temperature. Ice water is not conducive to greatest milk production.

A milking machine in case of labor shortage.

Co-operation with the neighbors in organizing cow-testing associations and purchasing feeds in carload lots.

### Grinding Roughage for Cows Saves All Waste

Three members of the Bedford (Pa.) dairy herd improvement association are grinding roughage. Tester Willard Straw reports, "This practice does away with practically all waste," says he. Soy bean hay run through a feed-mill, plus a commercial dairy feed used in connection with silage and home-grown grains, enabled Carl Armstrong's herd (Kendall county, Illinois) to place second in the testing association, with an average of 747 pounds of milk in a month.

George Smith (also of Kendall county), the following month, secured an average of 706 pounds by feeding a 34 per cent commercial dairy feed along with ground oats and ground barley, clover hay and silage.

### Ask Blood Test

Many states require the blood test on breeding cattle entering them, about fifteen in all. North Carolina was the first. Now we find in this list Georgia, Alabama, Arkansas, Mississippi, Oklahoma, Indiana, Iowa, Ohio, Texas and West Virginia. Ohio is practically surrounded by states requiring a blood test on shipments of breeding animals. Minnesota, New Jersey, Pennsylvania, South Dakota and Oregon prohibit entrance of animals positive to the blood test.

"The way things are speeded up in this country," declares Dad Plymout, "it won't be long until a man can take a two weeks' vacation in four days."

**Black Hills Traditions**  
The Black Hills of South Dakota are rich in tradition. It is the land where Sioux, Cheyenne, Crow, Arapahoe, Pawnee and Mandan Indians fought savagely for possession of a great hunting ground which they named Paha-Sapa, or the Mountains that are Black. Here are the medicinal springs, mini-pahuta, which were believed to be the gift of the Great Spirit. These, too, were prized possessions which the Sioux eventually won and held until they relinquished them to the United States government by treaty in 1874.

### ALLEN'S OPPONENT

George McGill, prominent Whiteha attorney, who won the Democratic nomination for the U. S. senatorship in the Kansas primary. He will oppose Senator Henry J. Allen, also of Whiteha, in the race for the senate in November.

### Large Map Of Wayne County

The largest map of Detroit and Wayne County, ever produced, is now installed in the office of Harry I. Dingeman, county drain commissioner, where it has been for the past few days an object of attraction to realty men and others interested in land values.

Measuring all over 16 by approximately 30 feet, the scale of the map is five inches to the mile. It includes all of Ranges 8 to Range 13, and Townships 1, south, to 5, south, embracing parts of Canada and adjoining counties in Michigan.

The map rests lengthwise along the wall between supports and is lithographed from up-to-date plates by a Detroit concern on linen, which is mounted on a special type of double roller mounting. The map proper occupies the central 15 feet, with upper and lower blank spaces for charts and data its users wish to add.

The double roller mounting not only acts as a protector of the map, when not in use, but it also enables anyone to bring any part of it to the level of his eyes for close examination. The large scale permits addition of many subdivision dates and similar data heretofore impractical in small maps.

"All whose financial interests are allied to land values and property locations in Detroit and Wayne County, will find a particular interest in the advent of this latest giant wall map of Wayne County," Harry I. Dingeman pointed out. "Wall maps, like dictionaries, are prosaic necessities, the laborious and expensive compilation of which few who use them ever stop to consider. However, not infrequently urgent needs cause one and all alike to seek prompt and reliable information from these very maps so unappreciated most of the time."

During his current term in office as Drain Commissioner, Harry I. Dingeman has established a record in the fact that he has supervised the largest single drainage project ever built under the jurisdiction of a County Drain Commissioner. A complete system of main trunk sewers for the city of Wyandotte involving the building of over 19 miles of 10 feet 6-inch to 3 foot diameter monolithic concrete and brick tunnels at a cost of over \$2,500,000. He has also directed the installation of nearly 50 miles of brick, reinforced concrete and vitrified lateral sewers in the townships of Dearborn, Ecorse, Grosse Ile, Plymouth, Redford and Taylor.

Careful and thorough inspection and testing of workmanship and materials has been insisted upon by Commissioner Harry I. Dingeman for every project constructed under his jurisdiction. To this end he has maintained a staff of alert competent, qualified construction inspectors and established an absolute rule that every material used on each and every job be subjected to laboratory and field tests as to quality, strength and durability.

Harry I. Dingeman is a life long resident of Wayne County. He is a graduate of the University of Detroit. Shortly after graduation he attended the First Officers training camp at Fort Sheridan, Illinois, while there he was transferred to aviation. After training he was commissioned lieutenant at Ellington Field, Houston, Texas. Going to France, he had five months active flying duty with the 16th Aero Squadron carrying observers over the battle lines.

Returning to Detroit after the Armistice, he entered the employ of the Detroit Creamery where he was district superintendent for five years. He spent two years as sales manager for the Frank R. Walsh Realty Company and two years as executive secretary of the Wayne County Council American Legion.

His work as drain commissioner has been marked for the capable, courteous, economical and efficient way he has served the public.

**Paint as Protection**  
Moisture, the root of all trouble with lumber and metals, is the enemy of every property owner. In sections of the country where the temperature varies with the seasons, excess moisture in the air is inevitable. For this reason, building materials must be protected from the weathering it causes, and paint, in this connection is the ideal preservative. It seals the pores of the wood and forms a protective coating over metals, thus preventing the entrance of moisture, and the progress of weathering and rusting. Used on concrete and stucco, paint prevents surface cracks, dampness, and subsequent crumbling and flaking off.

The Ladies Aid of the Lutheran church will hold an ice cream social on Wm. Gayle's lawn on Mill Street, Wednesday evening, August 27th.

**SPIRITUALIST MEETING**  
Friday evening, August 22, at 146 Liberty St. By Rev. Violet Louis, of Detroit. All are welcome. 1p

The Ladies Aid of the Lutheran church will hold an ice cream social on Wm. Gayle's lawn on Mill Street, Wednesday evening, August 27th.

### Michigan Farmers Using Electricity For Power

(Continued from page One)

tion and instruction by actually using one of these pieces of equipment may be so by informing Ralph Carr or Emma Dufford of Dearborn one day in advance of the demonstration.

Miss Evelyn Turner, Home Economics Specialist, will be in charge of the kitchen and will assist any person wishing to use any piece of equipment in the kitchen.

H. J. Gallagher, Agricultural Engineer, will conduct demonstrations on power uses on the farm.

The afternoon demonstration begins at three o'clock and the evening meetings at eight o'clock. The afternoon program will be entirely devoted to demonstrations. Demonstrations and discussions will be given in the evening.

### Language and Custom

Custom is the most certain mistress of language, as the public stamp makes the current money. But we must not be too frequent with the mint, every day coming, nor fetch words from the extreme and utmost ages; since the chief virtue of a style is perspicuity, and nothing so vicious in it as to need an interpreter. Words borrowed of antiquity do lend a kind of majesty to style, and are not without their delight sometimes; for they have the authority of years, and out of their intermission do win them selves a kind of gracile newness. But the eldest of the present, and newest of the past language, is the best. For what was the ancient language, which some men so dote upon, but the ancient custom?—Ben Jonson, in "The Dignity of Speech."

### Matter of Remodeling

Louise Bargett, home builder editor of the Chicago Tribune, predicts 1930 will be the greatest rehabilitation year in the history of the country. "We see remodeling made simpler and more profitable for the home owner every passing season; that is, remodeling when a house has successfully passed two tests. For usually a home must be worthy of being remodeled, and also not require more than one-third of its interior to be torn out. There are exceptions to this general rule, as to most rules, but on the whole, it is a fairly safe one to go by. Indeed, it is most remodeling campaigns, as little as possible is torn out of the old place, but this is added to it instead."
