ADVANTAGES OF CITY ARE TOLD

Members Of Rotary Club Hear Talk On Question Before Voters

SPEAKER SAYS IT ENDS DUPLICATION

Taxpayers Now Forced To Pay For Village And Township

A savings of something like 75 percent of the township tax that is now paid by the taxpayers of the village of Plymouth without the loss of any benefits, a gain of four additional members on the board of supervisors from Plymouth in addition to the one from the township, and complete elimination of the expense that the village is forced to carry as the result of a duplication in government matters carried on by both the township and village are some of the advantages of a city form of government members of the Plymouth Rotary club were told last Friday by Clarence Smazel of Ann Arbor. Mr. Smazel is business manager of the Michigan Municipal League.

The organization was originally formed by the city attorneys of various Michigan cities to work out a uniform system of ordinances as far as possible for most Michigan cities, but as its work progressed it saw a greater field and is now active in all affairs of benefits to cities and villages.

Mr. Smazel declared that in the case of Plymouth the greater cost to the taxpayers of the village in the duplication of governmental costs.

Taxpayers, he said, are called upon to pay for the township expense of assessing village property to pay for the board of review, the assessment roll, and duplication of certain expenses at two times for the fee for the collection of the county, state and school tax.

"If Plymouth had the city form of government you would have no township tax to pay and all of this work would be done by one set of officials instead of two," he said.

"You would cut your election expense by having your election at the time of the state election. The village carries one more tax than any other unit of government, and the tax is of no benefit to you. So the question is, why pay it when it is no necessary at all?"

"Elimination of township taxes would mean that the village property is not assessed as in the case of township property. The taxes would be assessed on the assessed value of the property, the same as in the case of a city."

"The village would be assessed on the assessed value of the property, the same as in the case of a city."

Local Company Places New Air Rifle And Toys On The Market

When the doors of the exhibition room of the McAlpine hotel in New York swing open Monday morning for the annual exhibition of the Toy Manufacturers Association of America, the Daisy Manufacturing company of Plymouth will have a display consisting of twenty different items, the biggest number ever before shown by the local manufacturing concern.

The display produced by the plant in Plymouth will be the New King pump gun, an air rifle that is built along the same line as the high powered pump action rifle. This rifle combines all the new features of air rifle construction. It is a repeater of 60 shots and its makers believe it will be one of the best sellers ever produced in the local factory.

Another one of the new products of the Daisy plant will be the Daisy Flying Top, an air pistol that spins a top more than 70 feet in the air.

This is a new toy that can be used indoors as well as outdoors all the year around. It will spin on the floor, in the air or on the ceiling and it cannot damage anything which it strikes. One of the outstanding features of this toy is the fact that it is perfectly safe in the hands of any child. Its retail price of only 25 cents is bound to make it a popular seller throughout the country.

Then there will be of course the ever popular line of Daisy air rifles, a toy that has brought joy to hundreds of thousands of youngsters throughout the world. This will be shown in all the various models that the Daisy produces.

The King Junior water pistol, a popular toy that has been designed to throw a fine stream of water a distance of 25 feet without the necessity of building into it a rubber bulb that easily gets out of order, is bound to attract interest at the great New York toy fair.

Flying top, pump guns, air rifles, water pistols and the King pump gun that will take the eye of any boy or girl will all constitute a part of the attractive and interesting exhibit of the Daisy Manufacturing company at the toy exhibition which starts Monday and will continue until February 28.

In this exhibit will be another interesting item, a copper shot that can be used in all air rifles. This shot does away with any possible danger of poisoning that might come from the lead shot that boys sometimes find so convenient to carry in their mouths. Demonstrations have been given by the company's salesmen at the toy show and they have shown that the copper shot is just as good as the lead shot.

Another item that will be shown is the Daisy Junior water pistol, a popular toy that has been designed to throw a fine stream of water a distance of 25 feet without the necessity of building into it a rubber bulb that easily gets out of order, is bound to attract interest at the great New York toy fair.

The exhibition will be held at the Waldorf Astoria hotel in New York city. It will be the largest toy show ever held in this city and it is expected to attract a large number of visitors from all over the world.

STATE POLICE WORK PICTURED

Captain Donald Leonard Gives Interesting Talk To Kiwanians

If any member of the Plymouth Kiwanis club had doubts as to the value of the Michigan state police force, these were entirely dispelled Tuesday noon as the result of a talk by Capt. Donald Leonard, one of the veteran members of the state police organization, before local Kiwanians.

Captain Leonard, who had been invited to address the local Kiwanis club by Manager Roy Crowe of the Michigan Bell Telephone Company, talked of crime and of the work of police officials in trying to combat it. Possibly not in some time has a more interesting discussion on any question been heard by the local organization.

Not only did the club have an opportunity to learn something of the work of the state police, but they had an opportunity to see in some detail a representative of the high type of young Michigan men who are selected for this important work.

Captain Leonard told of the tremendous increase in crime during recent years and of the difficulty police officers have in combating it. He declared that crooks had become so daring in their work that even high judiciary and other public officials were not immune to their operations.

One of the important reasons for present conditions he declared, was the unwillingness of a large number of foreigners who come to this country to abide by our ways and laws.

"Then too our form of government and the vastness of the area of our country is not conducive to efficient law enforcement. The attitude of some attorneys who have not stopped at just the point of defending the rights of their clients has had its effect," he said.

He pointed out that during recent months the right about face attitude taken by jurors. Not so long ago it was a common thing for crooks to be freed from jail by juries but now it is an exceedingly difficult thing for an accused of crime, where the evidence is at all substantial, to get free.

He gave numerous instances of the effectiveness of the state police force in the control of crime, and of the work given to the state police by farmers, Michigan has the distinction of being the first state in the union to be equipped with the radio to detect crime.

Capt. Leonard advocated the death penalty as an effective way of checking some of the murders that are now committed.

The story in brief follows: Time, how spring plows collect the snow, and the winter is over. WHAT IS YOUR IDEA?

Plymouth residents will be asked at the coming spring election to vote on the question of doing away with the village form of government and adopting the city form of government, thereby becoming a city instead of remaining a village. The action has been recommended to the voters because it is stated it will save many thousands of dollars in taxation each year, provide greater convenience for the residents of the community and make the local government a better one. Possibly there are some who do not agree with this claim and would like to express their views to the voters. The Plymouth Mail is anxious to present to its readers both sides of the question so that every one will be fully informed on the subject. The Mail will be very glad to publish any properly signed communication, either for or against the question. It is hoped by this public discussion that the voters will be fully enlightened on the issue before voting March 14.

School Cow Is Now Fifth Greatest Milk Producer in World - Officials Hope To Make Her World Champion in Near Future

Miss Ionia Aagie Pauline is a most popular miss these days around the grounds of the Wayne County Training school - popular because this champion cow of the Training school herd, has just been rated as the fifth cow in the world for milk production.

Dr. Robert Haskell, who has had much to do with the development of Holstein cattle among the various state institutions of Michigan and who started the prize-winning herd at the Wayne County Training school, has just been advised by the editor of the Holstein-Friesian World, who keeps all official records of Holstein milk production throughout the world that Miss Pauline now stands in fifth place among world Holstein record producers.

This animal as a junior four-year-old heifer produced in three hundred and sixty-five days 29,374 pounds of milk which made a new record not only for four-year-old heifers but for all heifers in the State under the full aged cow class.

BUSINESS OF DAISY MANUFACTURING PLANT THIS YEAR MUCH HIGHER THAN YEAR AGO

The Daisy Manufacturing Co. plant, commencing February 1st, is running with full force, and their production schedule for the first quarter of 1932 shows an increase of 25 per cent over the same period of 1931. An analysis of the year reveals that stock in jobbers and retailers hands on the first of the year was much lower than usual, and as this same condition prevails at the factory, it follows that all goods sold in 1932 will have to be made during the present year.

The Company will exhibit at the New York Toy Fair, which runs from February 8th to 20th, and anticipate having a considerable net profit from the show. They contemplate adding several new numbers within the next sixty days, and this should add materially to the volume of business done throughout the year. The outlook is distinctly brighter than it was thirty days ago.

PREPARE REPORT SHOWING SAVINGS IN TAXES PLYMOUTH CAN MAKE BY BECOMING A CITY

Only 21 Days Left To Get Auto License

There are only 21 days, including today, during which the public can buy 1932 license plates. According to Department of the State employees, the annual slogan, "Do your Xmas shopping early and avoid the rush" has a parallel in the present situation.

They state that they are in a position to render prompt service now, with little or no waiting, whereas they expect a heavy rush during the last few days. It is their recommendation, therefore, to everyone able to buy plates now to do so in order to avoid standing in line.

DAMAGE SUIT IS DISMISSED

Monroe Bert's Action Against P. M. Without Cause Says Judge

Suit for \$25,000 against the Pere Marquette Railroad as the result of the fatal accident in December 1927 when Mrs. Monroe Bert was killed at the Mill street crossing, was dismissed in circuit court Saturday by Judge Theodore Richter, who ruled there was no cause for action.

The case was heard before Judge Richter without a jury. Last Thursday in order to know every detail of just how the accident happened, Judge Richter, heard a Pere Marquette engine in Detroit and rode in the engine's cab to Plymouth, viewing carefully the scene of the accident. He was accompanied by attorneys representing Mr. Bert and the railroad company.

A greater part of last week was spent in taking testimony. It will be recalled that Mr. and Mrs. Bert, who were then residents of Plymouth, had started for Detroit and as they reached the Mill street crossing of the Pere Marquette tracks east of the Plymouth depot, their car was struck by a Pere Marquette train and carried almost to the depot. Mrs. Bert was instantly killed, but he escaped without injury.

He started suit against the Pere Marquette through Detroit attorneys, claiming that the accident was due to negligence on the part of the railroad company. The crossing was at that time protected by bells. He testified that he did not hear the bells ringing, but local witnesses produced by the company, stated that the bells were ringing and that they clearly heard them.

Judge Richter's disposal of the case followed a most careful personal examination of the scene of the accident. Mr. Bert was for a time employed in the Daisy plant but is now residing in Detroit.

WAR TROPHY WILL BE SCOUT HONOR PRIZE

Dr. Haskell Announces Gift From Charles Murphy

An historic shell from the battle fields of Alsace Lorraine comes to Plymouth to stimulate the desire for advancement on the part of the Scouts of Northville, Inc. presented to the Executive Committee of the Plymouth District, which the Plymouth troops are a part of, this shell which has been captured from a German machine gun crew and which is a trophy of the Battle of Verdun. It is a 75 millimeter high explosive shell and was the first shell fired by No. 2 Gun in the 1st Division, 1st Army, American Expeditionary Force, during the Battle of Verdun, France, in 1916.

The trophy will be given to the Scouts of Northville, Inc. by Dr. Charles Murphy, who is a First Lieutenant in the Division and Executive Officer of the Battery at the time the shell was captured. Dr. Murphy himself contributed the shell as a war trophy from his own and his own family's possession of it since.

This impressive trophy will be awarded by the Executive Committee to that troop which, under rules to be drawn up later, will secure the greatest credit for merit badges and other advancements at a given Court of Honor and to be held by that troop until, at some succeeding Court of Honor another troop wins it away.

The increasing interest that the grown-ups in Plymouth are showing in their Boy Scouts is bringing sure returns. At the last meeting of the Executive Committee of this district, Scout Executive W. J. Hovenor from the central office in Detroit showed the members of the committee that although the Plymouth District comprising troops N-1 in Northville, N-2 and N-3 at the Wayne County Training School, P-1, P-2 and P-3 in Plymouth, and R-1, R-2 and R-3 in Northville, N-1 in Northville represented only two percent of the total enrollment for the year 1931 of the Boy Scouts in the Detroit Council, which has practically 12,000 Scouts, up to November 1st last there have been awarded in this district during the year 1931 one hundred and forty merit badges which number constitutes 12.7% of all the merit badges awarded; star scouts total twenty-four or 11.5% of all star scouts in the area for the year; life scouts totaled five or 5.9% of the total for the year; and the whole district; eagle scouts totaled three or 6.25% of all eagle advancement in the area during the year; palms totaled six or 7.5% of all advancement in this rank in the area during the year.

MISS FERN SMITH BECOMES A BRIDE

Miss Fern Smith, daughter of Mr. and Mrs. A. H. Smith last Thursday evening became the bride of Vern E. Pelley, son of Mr. and Mrs. Clarence E. Pelley, the wedding taking place at the St. Peter's Episcopal Lutheran church, the Rev. E. Hoenecke officiating. The young people were attended by Mr. and Mrs. Robert Warren, Jr. of New Haven. Only immediate friends and relatives were present. Mr. and Mrs. Pelley have the best wishes of many friends. They will for the present make their home with the groom's parents.

Make up your mind or it will be your undoing.

Public Mass Meeting Next Tuesday Evening

Every One Invited To Hear City Form Of Govt. Discussed

A public mass meeting to which every person interested in Plymouth and its future is invited, will be held Tuesday evening, February 9, in the high school auditorium. At that time the question of change-over from the village form of government to the city form will be thoroughly discussed, according to those who are making arrangements for the meeting.

Recently members of the village commission discovered that the petitions which were circulated over a year ago calling for a vote on the city form of government made it mandatory for the question to be submitted at the forthcoming village election.

It was then decided to secure just as much information as possible on the question and place it all before the voters. The village officials have secured an outside speaker who is thoroughly familiar with the question to be present at this meeting. Clarence Smazel of the Michigan League of Municipalities, who has made a study of this problem, will be present to outline its benefits and answer any questions that any one desired to ask.

It has been suggested that if you do not care to ask questions in the open at the meeting, you can submit your question on paper to village officials, who will see to it that the question is asked.

Members of the commission state that there will be a great saving of taxes if Plymouth adopts the city form of government, that Plymouth will have four representatives on the board of supervisors in addition to the one from Plymouth township and that the change will do away with a lot of duplicated expenses that the taxpayers of the village are now forced to pay.

These are some of the matters that will be discussed Tuesday evening and the officials state that they will make an effort to have every question that might be asked, answered if it is possible to do so. The meeting will begin at 8 o'clock. It is urged that every citizen in Plymouth be present and listen to first hand the benefits the form of government provides and ask about anything that is not clear about the subject and if there is another side to the question be heard that it will be heard by the speaker when it comes to the subject.

Organization Being Formed For Educational Purposes

Men having some aim for their country will be interested in a new organization proposed for the purpose of informing itself on every day political and governmental affairs.

Every citizen owes his country intelligent attention. It is often remarked that the people are indifferent to public affairs. This is all too true and more so in this country where the first step in the education of the citizen is to have him informed on every day political and governmental affairs.

The organization is proposed to be a club of men who will meet weekly to discuss the news of the day and to have a speaker on every Tuesday evening. The organization will be formed in the near future and will have its first meeting on Tuesday evening, February 9, at 8 o'clock in the high school auditorium.

SCHRADER BACK FROM MEETING

Fred Schrader has returned from Indianapolis, Indiana where he spent several days last week at a joint meeting of the boards of examiners of embalmers from Indiana, Illinois, Ohio, Kentucky and Tennessee. The meeting discussed a more uniform system of examination among the states as well as closer reciprocity among these neighboring states. Mr. Schrader states that the sessions were among the most interesting he has ever attended and that he was a member of the state board of examiners of embalming for many years.

TAXES

Michigan Tax payers have for months been hearing a lot of high-sounding talk about taxes and tax reforms. They have heard so much about it that they have come to a point where many of them are refusing to pay any tax at all. They have heard the talk about lower state taxes, but up to the present time they have not in any way benefitted by a reduction.

Officials of the state, municipal officials and county officials might just as well make up their minds now that they have got to cut down on the costs of running various political units or there will be no tax money forthcoming with which to pay the bill.

A short time ago when a New England official told a town meeting that his office costs could not be cut a penny, the town folk abolished the office rather than argue. That is an indication of the changing public mood.

It is not the intention or desire of the Plymouth Mail to take sides in any local political issue, but to the credit of the present village officials, they HAVE made a substantial reduction in the cost of running the affairs of the village and they have pointed a way to a greater reduction.

It has been pointed out by Felix M. McWhirter, chairman of the United States Chamber of Commerce committee on state and local taxation matters, that there are three trends in today's tax picture. They suggest that in municipal finance one era is ending and another beginning.

One is that free public spending is nearing the rope's end. Taxpayers once suggested, now they are demanding, less expenditure and lower taxes. Pressing for action, they are getting it. Fantastic notions that the people can carry tax burdens higher than are required by good government, limited to its proper activities, are giving way to realities.

The second trend is that the plain, sure remedy for confiscatory taxes—spending less money—is commencing to be applied, in most instances with admirable discrimination. Economy measures chronicled in the day's news with few exceptions are manifestly sound. Except for isolated failures to recognize that the primary functions must go on—as reflected in haste, ill-adviced "taxpayer" strikes—the trimming of public costs to meet a thinner purse is being accomplished through orderly, customary processes.

The third trend is the growing part played by business organizations in the pruning back of the tax free. In hundreds of communities, their committees are helping public officials to make needed adjustments wisely and to avoid costly catch-penny nostrums. Quite as important, they are building informed public opinion to support courageous action in public office. These associations, increasingly, are on the job.

Taxes are going to be reduced, that is sure, and it is due to the insistent demand of the taxpayers and not from the desire of public officials who hesitate so longingly to let go of the easy pay checks that has made life so rosy. The time is rapidly approaching now, when the taxpayer's dollar is going to bring in return a full dollar's worth—something it cannot be said to have always done in the past.

WAR

The first pages of newspapers these days look a whole lot like they did back in 1914 and 1915, in the days before America decided to enter into the World War. Everyone at that time had a fear of our country getting into the mess across the Atlantic. We were so fearful of it that Republicans elected Woodrow Wilson, a Democrat, for a second term as president on the declaration of his party that he had kept us out of the war. He had hardly started serving his second term before our country was plunged headlong into the European turmoil.

No one in this very day knows why. They said it was to make the world safe for Democracy, to do away with war. That couldn't have been the reason because at no time in all history has the world peace been so insecure as since the world conflict. It didn't do away with war because there is a war raging now in the Orient and European nations, as well as our own country, have spent more for army and navy development since the war than they ever did before.

It is the nature of the average American to be an optimist, but it requires a lot of stretching of the imagination in order to look with unconcern into the future. Our one prayer should be that the great financial interests that reap vast profits by the slaughter of the youth of a nation should not be permitted this time to lingo America into any war on the other side of the world.

SPEECHES

Michigan newspaper publishers, two or three weeks ago heard two addresses, one by a political official, and the other by a newspaper publisher, on taxation problems. One was filled with pretty oratorical phrases with pauses here and there for applause. The other was a cold, undramatic presentation of facts that confront the men and women who foot the tax bill. To the oratorical tax address, there was such applause as was due the official speaking. To the publisher's calm portrayal of our tax problem, with suggested remedies, there was a tremendous outburst of approval. It is seldom at a meeting of this kind where a similar subject is discussed by two different speakers that there could be such a difference in the reception of the subject matter. It simply demonstrated the fact that taxpayers of Michigan are interested in something more than adjectives and other expressions as to what might be done with a tremendously important problem.

FUNERAL SERVICES

In Old Russia

In Plymouth

THE pomp and splendor of the most important foreign funerals fail to equal in reverence, dignified convenience and modern comfort of motorized funerals such as we conduct for the people of
One reason for this is that our modern equipment has prepared us to serve the living as well as those who have passed on.
In every detail of our work, we show consideration for the comfort of the ones who remain. They are relieved from all unnecessary exposure to weather and traffic difficulties. We plan everything to spare their feelings as much as possible. The design of our funeral home, our May-Way, side serving hearse equipment and the planning of our service all reflect this solicitude for the welfare of the living.

CHARLES S. KINNISON

*WHY?

"Forgive me, Lord, for asking why—
But oh, why did she have to die—
Why was it, Lord, she had to go?
For oh, we loved her—loved her so!
Just in the flower of girlish charm,
With love and laughter at her arm—
With dreams of happy days ahead,
With him, whom she was soon to wed.

"And oh, how sweet and fair she seemed—
How sweet the days of which she dreamed!
But now, all this has turned to dust—
Yet, in Thee, still—oh, God, we trust!
And though for her we'll always yearn,
Still may we not rebellious turn.
But, though Thou called her home to Thee,
Thou canst not love her more than we!"

*For a sorrowing mother.

FEATURELAND

Things To Forget

Forget the slander you have heard,
Forget the hasty, unkind word,
Forget the quarrel and the cause,
Forget the whole affair, because
Forgetting is the only way.
Forget the storms of yesterday,
Forget the chap whose soul's face
Forgets to smile in any place.
Forget the trials you have had,
Forget the weather if it's bad,
Forget the knocker, he's a freak:
Forget him seven days a week,
Forget the gray streaks in your hair,
Forget the coffee when it's cold,
Forget the kicks; forget to scold,
Forget the plumber's awful charge,
Forget the leaman's bill so large,
Forget the coal man and his weights,
Forget the heat in summer days,
Forget to ever get the blues,
But don't forget to pay your dues.

Close To The Earth

Let the brown lark fly
That has wings to fly.
The ant, the beetle,
The mole, and I
Keep close to the earth
Where we like to lie.
For close to the earth a beetle
May trundle
Its treasure below in a claw-clipped
bundle:
And close to the earth an ant may
funnel
Earthwork in tunnels the length
of its tunnel;
And close to the earth the secret
mole
May fit to its body its cool, dark
hole:
And I, who have never a wish to
climb
The sky with a lit or a whistling
rhyme,
May stoop and listen and mark
the time
Of surer songs than a bird ever
sings—
Songs slow with the pulse at the
root of things.

Feeding Shade Trees

There are many so-called "tree foods" on the market according to scientists at the Bartlett Tree Research Laboratories. In contemplating any feeding program, however, they advise tree owners to bear in mind that a real tree food should have the following characteristics:
1. It should contain phosphorus, potash, and nitrogen.
2. These elements must be well-balanced in such proportions as to become gradually available throughout the growing season.
Unless expert technical assistance and advice is available the feeding of evergreens is liable to result in "scorching."

Be A Doer

Be A Doer

Virtue by itself is not enough, or anything like enough. Strength must be added to it, and the determination to use that strength. The good man who is ineffective is not able to make his goodness of much account to the people as a whole. No matter how much a man hears the words, small is the credit attached to him if he fails to be a doer also; and in serving the Lord he must remember that he needs avoid sloth in his business as well as cultivate fervency of spirit.

RADIO COLUMN

by H. W. Wilson

Isn't it strange how many car owners understand all about their cars and yet don't even know whether their radio has a ground or not? Why? Isn't your radio a pleasure and a luxury the same as your car? Then why not know enough about it so you can keep it in the same condition that you keep your car. No it isn't too deep. The things that every radio owner should know are very simple and extremely interesting. In this column each week, we will endeavor to point out the little things that may improve your reception considerably.

At least 90% of the radios used today are working far below their normal efficiency and most of the trouble is caused by some little fault in installation or neglect of some minor part that you could take care of yourself.

A good many manufacturers try to give the impression, in their advertising, that their product never will give trouble or that you will never be in need of service, but there never has been or never will be a radio that is perfect as far as service is concerned. Everyone has their little radio troubles and usually the set is blamed when it's really something else.

Service Leagues all over the country have been trying to stress this point to the public. You pay perfectly good American money for your radio and then leave it year in and year out without any attention. It was some time after the Electric Radio came out before manufacturers realized the importance of good service to keep their reputations good. I'm sorry to say that some of them should have gone out long ago. Thank goodness there are a few of them that realize what service really means but there will have to be more before radio ever reaches the high standard that it is bound to attain sooner or later.

By service, I don't mean that you should call a service man every time some minor thing happens but that you will find yourself more satisfied with your set if you understand a little more about it. That's what I want to do in these articles. Explain the little things in good understandable American language. A Question box will be available for your benefit and anything you don't quite understand, we will be glad to clear up for you. Address Radio Editor, The Plymouth Mail. Your comments and any suggestions you may have to offer will be appreciated.

Coming Attractions At Penniman-Allen

"FORBIDDEN"
Anything with a heart interest is tagged a love story, but "Forbidden," the new Barbara Stanwyck Columbia vehicle current at the Penniman Allen Theatre on Sunday and Monday, February 7 and 8, is a real love story powerfully presented. Love is its only motive. It starts on a Spring day when the heroine is moved by thoughts of love to squander her savings on a search for an adventure in Paris. Of course, she finds it, but her love proves to be no light thing that can be tossed aside when the home port is reached.

"NO ONE MAN"
The widely read and warmly discussed Rupert Hughes novel "No One Man," will be seen at the Penniman Allen Theatre, Wednesday and Thursday, February 10, and 11.

It is a new kind of story, done in the modern manner, relating the loves of a typical daughter of today, "Nora," who endeavors to solve the matrimonial problem. Settings, chiefly those of New York City and Palm Beach, are lavish.

WAYNE NOSES OUT ROCKS IN CLOSE GAME, 27 TO 21

The Wayne "Zetras" came zapping from Wayne to hand the Blue and White basketekers their third league defeat. The final score was 27-21. This is also the third year that the Blue and Gold teams have turned back the Rocks in defeat.

The first quarter saw the Rocks forge to an early lead with several baskets from the floor. The period ended with the home team one point to the good. In the second half the visitors broke through the Plymouth defense to score enough points to give them the lead 22-18 in the third quarter. From then on they held the lead though the Rocks tried many shots in an effort to score. The game ended with a 27-21 score.

Wayne led the scoring for the victors with four field goals. He was taken out in the fourth quarter for four personal fouls but had enough baskets to lead the scoring. Williams led the Plymouth scoring with two field goals and two free throws.

Plymouth failed to use any substitutes maintaining the same lineup throughout the game. Wayne used only one extra player.

FOUR C'S ASSEMBLY

The annual Four C's Campaign is on, and in general assembly Wednesday, January 27, the Four C's were stressed.

After Mr. Dykhouse had announced the Wayne game and the sale of the new Student Council tickets, Alice Chambers invited everyone to attend the Senior Prom. Then the Sophomore Dance which will be held Friday, February 5, was announced.

Zerapha Blank then introduced the Four C's program, explaining that the Four C's stand for clean living, clean athletics, clean speech and clean scholarship. The program was in the form of little plays which illustrated the different C's. The Senior Girls Reserve acted out clean living with Margaret Reisdorf and a quartet composed of Dorothy Miller, Christine and Elizabeth Nichol, and Estella Miller singing a song with appropriate words.

Clean athletics was sponsored by the H. V. Donald Brownson and Jimmie Stimpson gave two illustrations of clean basketball playing. Russell Stevens and Charles Hervey were seen after a tennis match; Steve Imdek and Vincent Hervey were the golfers.

Harlow Wagonschütz then led the assembly in the singing of the Fight Song. Then everybody yelled in response to Frank Leonard's cheer leading.

The Junior Girl Reserves gave a demonstration of poor speech, which included Elizabeth Rowland and Dewar Taylor. Ruth Micholin, Ruth Mourin, and Mary Mortell, it illustrated how slang expressions do not become our mothers and grandmothers nearly as well as we imagine they become ourselves.

The Torch club act illustrating clean scholarship was in two scenes, one a group of high school seniors, the other the same group of boys four years later as college seniors and the point of course was that cheating does not pay.

The assembly closed with the singing of "Follow the team."

FIRST ELIMINATION DEBATE POSTPONED

The first elimination debate, scheduled to take place Friday, February 12, has been postponed for two weeks until Feb. 19 because some school in the Michigan High School Debating League must hold a preliminary debate before the first elimination debate. The reason for the extra debate is that some schools want schools will be used in the elimination series; however, all eleven participating schools can not be used so the schools that lose the extra debate will be dropped for the elimination series, and those who win will fill in the required number for the first elimination debate. The Plymouth High school debate team has the necessary points to make for entry. Plymouth will meet Northville of Plymouth, Michigan, in the affirmative, and Northville in the negative. This debate will be held Friday, February 19 at 7:30 in the P. H. S. auditorium.

STARKWEATHER NOTES

Visitors to Miss Stuckey's room last week were Mrs. Walter Dehoff and Mrs. Russell Kirk.

The second grade pupils are giving the program at the meeting of the Parent-Teacher Association, Feb. 15. Miss Stuckey and her pupils cordially invite everyone to attend. They would like to have the P. T. A. banquet next month.

The five-B arithmetic class has a score of five on the progress chart. Home Flieger won the spelling Tuesday and Marion Kleneschmidt won Thursday. Miss of Australia and a few booklets about Asia made by Miss Hunt's pupils are on the bulletin board. In the 2000 class they wrote letters to their teacher telling what subject they enjoyed most this semester and why they enjoyed them. A few of these letters are on the bulletin board with the maps and booklets.

John Moore, Richard Inks, Charles Williams, Francis Hart, Anna Dely, Carol Howard, Elaine Gifford, Douglas Eckles, Marion Bulson, Ellen Nyström, Helen Orzgrove, Margarette Mattinson, Orland Lee, Catherine Kalesky, Mildred Lee, Jean Durbin, Anne Marjorie, Bobby West, Laura Brudling, Theodore Smith, Gordon May, Bobbey Meyer and Wallace Barton are on the sixth grade honor roll in reading for last week.

CENTRAL GRADE SCHOOL NOTES

The following children in Mrs. Carpenter's room can now count to fifty: Irene Noidspal, Richard Reamer, Robert Schlegel, Dorothy Woodbury, Paul Zimmerman, Betty Moore, George Rathbarn, Delphine Bogenschnittz and Carl Holm. Seventy-seven percent of the children in both groups were without cards for a week ending January twenty-eight.

Norma Jean Strantz from Laplan Corners School and Christiana Bannan have entered Mrs. Root's room making a membership of forty-three. During this semester group one has had two hundred and fifty printed and written words; group two, two hundred and twenty; and group three, one hundred and forty-four words. In language they are talking about their country and flag and are learning a poem about the flag. In hand work they made a check board border of flags, shields and one of the "Statue of Liberty." Bobby Johns and James Wellman are the only ones in the room who have not been absent or tardy this semester and they will receive a gift as a reward for perfect attendance.

The first A's in Miss Mitchell's room have finished their course of study in penmanship and are practicing with supplementary words. They have also learned all the words given in spelling. They were entertained by some stories from library readers read by Rosemary Ray, Ruth Brown, Richard Virgo, Max Spitz and Daniel Deming.

In Mrs. Albion's room (George Chute is absent with the measles and Beth Livingston is absent with the chicken pox. Group one has finished the "Child Library" book two and is starting "The Children's Own Reader." The pupils finished their "Let's Write" book last week. June Uiter, who has lost sight of her left eye, must stay out of school a year. They have finished their "Work and Play in Numberland." There were only twenty-five percent in this room without colds last week.

The pupils in Mrs. Wilcox's room had a "Theodyssey" reading test and McCall spelling test last week.

The third grade under Miss Wetherhead, decorated the bulletin board last week. They made a Lincoln border for their blackboard. The Third B's are making health booklets called "Healthful Day."

Mrs. Maple visited Miss Dixon's room last Tuesday. Virginia Brocklehurst received the highest score in the last reading test. Twenty-six pupils received A's in their writing lesson last Tuesday.

In Miss Field's room, Virginia Stringer and Margaret Erdelyi received perfect scores on the last self-testing drill. Mary Roberts won in a spelling test last week.

In the fourth grade, Isabel Nafin had the highest score in a spelling test which was given to Miss Hall's room last week. In the fifth grade Billy McAllister and Glen Kaiser had the highest scores. In Mrs. Holliday's room Doris Buzard had the highest score on the standard spelling test and Barbara Osaver the highest score on the reading test.

In Miss Fenner's room the pupils have been coloring Health posters. In the fifth grade Betty Mastick won the first prize. Lucille Chanfle the second, Clarence Heller the third, and Mike Spitz the fourth. In the sixth grade Richard Gilles won the first prize; Junior Oakes the second; Robert DeVroe the third; and Leona Mantz the fourth. Mary Katherine Moon's spelling team is ahead by thirteen points. Lawrence Smith received the high-

ROCK RESERVES DEFEATED BY WAYNE, 8-11

Although the Plymouth five had many shots they could not seem to get the range of the basket. Most of the boys of the Wayne quintet were much taller and one or two of them were so small the Plymouth fellows could not keep track of them. Plymouth's passing was pretty good but Wayne's proved to be a little bit better and faster. Champ was high point man for Plymouth, making four points and Cron was high point man for Wayne making six points.

The starting lineups were as follows:

Plymouth: Champe, F. Glover, F. Drown, F. Filth, F. Green, C. Barker, C. McLaren, G. McClellan, G. Ercans, G. Referee, Chaffee, Ypsi.

Wayne: Helen Strantz and Elizabeth Reame entered the Six-B this week under Mrs. Arkison. Wray Bailey's and Donna Anderson's names were added to the Perfect Teeth chart. Suzanne Libkicher is absent because of illness. Mary Holdsworth had the highest score in reading in the Six-A and Ruth Pennell the highest score in the Six-B.

JUNIORS FORGE INTO CLOSE LEAD

Although one half of the class basketball season is over, the fight for first place is still undecided in both leagues. In the Senior League the junior and senior teams were undefeated, but in the noon game last Thursday the sophomore quintet came through and inflicted a heavy defeat on the juniors. That night the opposite senior team defeated their classmates who were leading the league. The juniors are leading now because they have won more games than the seniors. The sophomore, freshman and other senior and junior teams are close behind. The league standings are affected very much by each game. Now standings are posted on the bulletin board from time to time. Only the eighth graders have gone undefeated. The sophomores are steadily climbing and are dangerous contenders for any team. The freshmen started like a flash by defeating a senior and sophomore team during the last few games, the freshman luck turned against them and they lost games by very small margins. Both junior and senior teams are fighting hard and every game is very fast and interesting. The annual rivalry between the two classes is at its highest point and undoubtedly the struggle between them will affect the league standings immensely.

This year the effort of constant practice is beginning to show. When class basketball leagues were first formed four years ago, the freshmen and sophomores were not considered a chance of winning, but this year the sophomores and freshmen are showing real basketball. It is very probable that several of these fellows now playing for their classes will play on the varsity or reserve team next year. Shippson has been the high point man in the senior league. Stevens and Harold Williams are playing good basketball. The seventh and eighth grades are developing real basketball. Kinsey and Esch are carrying for their league by being far ahead of everyone in scoring. The passing and team play is improving daily.

Box scores for the teams during the past week follow:

STUDENT COUNCIL IN PLYMOUTH HIGH

The Student Council more than any other organization in school needs the utmost cooperation of every student in order to carry on its activities. The debate and all athletic contests are sponsored by the Student Council. All athletic equipment is bought by that organization. In order to do this there must be means of raising money. Receipts of all the games and debates go to the Student Council, but often the expenses are more than the amount brought in. This year an additional burden was taken by the Council when the new bleachers were bought. It will be a great improvement to our athletic contests. A means was worked out in which the student could buy Association tickets and in this way help pay the expense of the Student Council and also help support the teams from the sidelines. The sum of fifty cents a semester is small as compared with other schools, so the students should have enough school spirit to buy them without any hesitancy. If all the students in Junior and senior high school buy their student council tickets this semester, the student council will be able to buy all new baseball suits and there is a possibility of getting new track suits which Plymouth High needs badly. Also the Student Council must pay for golf green fees and tennis expenses. The honor banquet will require a good deal of financing. Everyone should show real school spirit and buy their Student Council Association ticket as soon as possible.

TONIGHT WE'RE CELEBRATING

When! Exams are over—and forget your worry and anxiety of the past few weeks dancing to the music of that favorite band, Ypsi Collegians. You say you're coming? All right, we'll see you at eight o'clock in the school auditorium.

TWO GRADUATES IN CLASS OF '98 AND THEIR PROGRAM

"More beyond" was indeed an appropriate motto of the Plymouth High school 1898 graduating class. In comparing the class consisting of but two members thirty-four years ago with the graduating class of this year, we find the number "beyond" to be ninety-one. A commencement program, announcing the graduating exercises Friday evening, June 17, 1932, at the Opera House, was sent to school through the courtesy of Mrs. Melburn Partridge. The border of the card on which the program is printed is highly decorated with raised representations of leafy designs recalling the old embossed work of bygone days. The two people in the graduating class were Norman C. Miller and Willard Pooler. The music at the commencement exercises was under the direction of Miss Edna Dunning, musical director, and Mrs. Carrie Peck-Reamer, pianist. The program announced two orations, "International Arbitration" by Norman C. Miller and "Liberty and Independence" by Willard Pooler. It is interesting to give particular attention to the names of the instructors. The list on the back of the card is as follows: "E. H. Hough and Edwin Whipple.

PLAY DETROIT COUNTRY DAY—TONIGHT, THERE

Tonight the Rocks journey to Det. Country Day school to engage this school in a non-league affair. This will be the return game for a two game series. The home team won the first in a closely fought battle. This makes the second year these teams have engaged in athletic contests.

PROM—NEXT WEEK

Only seven more days remain until the biggest date of the year occurs, the Senior Prom. According to reports the decorations and the music will be the best seen at any prom given in Plymouth High School. Many Kyle's orchestra will furnish the music and if you don't believe they're good, listen to them on some station in the N. B. C. network.

A COMMUNICATION

To the Editor of the Mail:

In your issue of December 18, 1931, under the caption "Diphtheria in Garden City" it is said: "Two cases of diphtheria and one of scarlet fever have been reported in Garden City by Dr. James E. Caron, health commissioner. Every precaution has been taken to guard against the spread of both diseases. Dr. Caron was called attention to the fact that the diphtheria cases probably would not have occurred had all children taken advantage of the free toxin-antitoxin treatments offered through the schools this summer. I regret to say that you have been misinformed, for example, in 'The Journal of the American Medical Association,' April 2, 1927, page 1068, Drs. W. E. Gatewood and C. W. Baldwin say that:

"A multiplicity of untoward sequels have been observed in patients treated with immune serum."

"The Journal of the American Association," Dec. 6, 1919, reports forty severe reactions and five deaths, in Dallas, Texas, from toxin-antitoxin. Damages ranging from \$4000 to \$10000 were awarded to each case.

"The Journal of the American Medical Association," Mar. 9, 1929, page 841, says that a "barrenness preparation" and should not be given to school children in a large mass way."

"The Journal of the American Medical Association," November 23, 1929, page 1652, it is said:

"The injection of horse serum into a sensitized person always involves a measure of some toxicity. It is constantly claimed that children are rendered immune from diphtheria by toxin-antitoxin. Medical literature shows to the contrary. Schwartz and Janney say in the 'American Journal of Diseases of Children,' March, 1930 that toxin-antitoxin "has two distinct disadvantages. The first is its variable protective value—about 25 per cent of the patients remaining insufficiently immunized after three doses of toxin-antitoxin; the second is the danger of serum sensitization following its use. "And it is added that the fear of sensitization is commonly prevalent."

They quote the Gary, Indiana, schools as having "30 per cent of the patients remaining susceptible to diphtheria." At Whitefish Bay, Wisconsin "33.7 per cent remained susceptible to diphtheria." The Cook Co. Hospital, Chicago, during an epidemic, found that 67.2 per cent of the immunized nurses gave a positive reaction to the Schick test, and out of 29 cases of diphtheria among the nurses 9 had toxin-antitoxin.

In an editorial in "The Journal of the American Association," June 6, 1931, it is said:

"Every one who deals extensively with immune serums realizes that their practical use is attended with certain menaces. Anaphylactic shock occasionally occurs. The most common symptom is a skin eruption, which is usually urticarial but may vary considerably in type. Edema may appear in various parts of the body, notably the face. Multiple joint pains, albuminuria, leukocytosis and general malaise are sometimes encountered.

"The possibility of these occurrences may indicate why the use of therapeutic serums awaken hesitancy in a physician faced with the possibility of discomfort, harm and even death in a patient despite all care to avert any untoward effects."

"The Journal of the American Medical Association," April 18, 1931, Dr. Ernest E. Irons, Chicago, in giving the result of a questionnaire, says:

"Excluding hearsay reports, we obtained records of 140 instances of harmful results, including a number of cases in which death was considered to have been caused by the use of vaccine subsequently injected. Seventeen cases of asthma were reported to have followed courses of bacterial vaccines, administered to patients who previously were not known to have suffered from asthma."

Boards of Health throughout the country are asserting that through the use of toxin-antitoxin diphtheria is being stamped out; that it can be and will be completely eliminated. The date for its elimination was announced a few years ago as the year 1930; the time has now been extended to 1935.

The October 16, 1931, "United States Public Health Reports" show an increase in diphtheria in 31 states, and the October 30, 1931, number says that there were in the South Central States "four times the number reported for the same period in 1930. In other regions the increases ranged from 36 per cent to 64 per cent." The November 27, 1931, number says: "The number of cases of diphtheria, 9,846, was the highest on record for the corresponding period in the four years since 1927, when 8,842 cases were reported for this period.

As a matter of fact, diphtheria, like other zymotic diseases, comes in cycles. We have recently reached the low level in some states, and now the rise is coming.

"Owing to the danger of toxin-antitoxin, there is a tendency now for its abandonment for toxoid.

In the United States "Public Health Reports" of December 18, 1931, it is said:

"It is of the utmost importance to realize that the administration of a foreign serum by any hypodermic injection method is not entirely free from danger."—Sue M. Farrell, President.

Rosedale Gardens

At Last

The Winter came, and to prove it first out on the York Avenue Lake was Bill Burken and on the Pembroke, west side, Lake was Veronica Mari and Margaret Leslie.

There was no need to spread the news around as all the skaters had looked in vain, every morn till at last their looking was rewarded, for as Suttice was the warmest morning of the month, so was Sunday the coldest morn not only of the month, but the coldest of this here so called winter.

Sir Ed Schmitz

of it gas emporium fame, sed his fahrenheit tube recorded 8° below zero at 6:30 ante meridian. Though the rest of us Gaudinists got up before breakfast on Sunday, we all did not look out till later when our tubes registered 8° below zero at eight o'clock, which was cold enough, in fact just forty-two degrees colder than the previous morn at about the same time. Supt. Al says it was 4° above at the Sump well at 8:30 a. m.

P. T. A.

had its regular monthly meet on Whenside last, and as the card party (the annual affair) was also then it was too late for this week's news, so our dear you will hear more about it next issue.

Volunteers

for the war have been more or less violent at R Emporium's medical tournaments lately, some times busting up a good game. The outstanding features seem to be that Calvin Roberts, R Librarian, twist giving out some excellent

New Books

brought in last week, has been saying goodbye to everyone, as he expects to be the first one to go from these parts, then there is another gang who wear stars and anchors and other metal things, like false teeth fortiniance, who have banded themselves together

Cherry Hill

The Golden Jubilee and Homecoming of the Cherry Hill church will be held Saturday evening, February 6th. Dinner will be served at 6 p. m. There will be no charge but a silver offering. Then will follow an interesting program of reminiscences by former pastors and members.

On Sunday, February 7th, there will be a special anniversary service at 11:30 to be followed by a basket lunch.

A good time is looked forward to. Everybody is welcome.

The church board met at the home of Mr. and Mrs. Walter Wilkie, Monday night, Rev. W. P.

FARMINGTON MILLS

CHEVROLET ANNOUNCES

A NEW LINE OF SIX-CYLINDER TRUCKS

NEW CHASSIS · NEW BODIES

NEW LOW PRICES

	\$785		\$755
	\$820		\$750
	\$810		\$705

in chassis—new in bodies—new in vital part that has to do with economical hauling—yet selling at prices even lower than the extremely low prices of last year. That, briefly, is the story of the new line of six-cylinder trucks now introduced by Chevrolet. These trucks are available as complete units—in three wheelbase lengths—1 1/2-ton and 1-ton capacities and 28 body types. The price reductions range from \$10 to as high as \$65 and make Chevrolet's first cost one of the lowest in the market. Outstanding features: New

to be the last ones to go to this war.

Notwithstanding these facts as they are Admirals Taylor and Leigh have set sail without Calvin Roberts and have not even sent apologies for so doing.

Sod Schaffer, Laverne Hanchett and a few other able bodied seamen on the Rosedale Lakes, had hoped to go to Manchuria, where they could skate till the Camels came home (no cows there).

Be such as it may, they claim some very excellent beans come from China and Manchuria, but we would much prefer good old Michigan beans, not only grown, not only cooked, but also eaten right here where mother is, China or no China, Solah!

Valentines

seem to keep little fingers and minds busy about the School House as it seems everyone will most likely get some sort of one from conversations in kiddie-land. Anyhow, be sure and mail your valentine early, as no provision has been made by the postal authorities to handle excess mail even if they do need more business. We have not found out who sent the first (in our to us last year) at long you (whoever you are) do not find out who sent you the broken but the either with poetry to match.

WILL STAGE BOXING CONTEST FOR CHARITY

Many From Here Expect To Attend Event Over In Northville

Many Plymouth boxing fans are planning to attend the big charity boxing exhibition to be staged in Northville next Tuesday evening, February 9 to raise money for the Northville welfare fund.

The event will take place on the second floor of the building occupied by Zimmerman's garage. The contest will begin at 8:30 o'clock.

The show will consist of 28 rounds of boxing, headed by Don McLeod, of Northville, who takes on a stiff puncher from Trenton, namely, Griff Walker. These boys fought an eight round affair, at Dearborn, some two months ago. Don winning the decision by a close margin. This should be a great return match.

In the semi-finals Jack Horton of Detroit, will fight eight rounds against Tiger McClellan of Dearborn. Jack has the distinction of winning his last fourteen fights with knockouts, and is recognized as the coming middleweight champion of Michigan.

A special event has been arranged between Morris Sherman, welterweight champion of Michigan, and Ray Hanlon of Hazel Park. Sherman is considered one of the finest boxers of his time, and it may be stated that he is contributing his purse to the welfare.

The programme further consists of four, fast, four round bouts. The main preliminary between Red Carson and Carl Denny, of Detroit, at 120 pounds.

Second preliminary, between Pop Eyo McCaulley and Douglas Yates at 125 pounds.

Third preliminary, between Mike McFarlane and Henry Gowatch, at 130 pounds. Gowatch being ex-audience champion of America.

The show will be opened by Young Kelley of Northville, who recently won a bout in Plymouth, by a knockout, vs. Red Hall of Maine.

This programme, which is worth at least three times the amount asked, may be had for one dollar, the proceeds to go to the Northville Welfare.

Any extra contributions, on purchasing a ticket, will be accepted by the committee.

Love is one sentiment that is all right when everything else is all wrong.

A scientific boxer may be either a pugilist or an undertaker.

Mr. and Mrs. Roy Badelt of Wayne called on Mr. and Mrs. Paul Badelt twice last week.

Callers at the Paul Wauschek home during the week were: Mr. and Mrs. Henry Rohloff, of Inkster, Charles Losey, of Salem, and Mrs. Henry Kubic, of Merriman Road.

Margaret Kubic and Henry Sell were Detroit Shoppers and callers Saturday.

Sunday, William Boyer, visited his mother, who is quite ill at the home of her daughter, Mrs. Walter Boyer in Plymouth.

Mrs. Edward Pettibone of Ford Road will entertain the Ladies Aid Wednesday, February 10, for dinner. Everyone welcome.

CHILD CARE AND TRAINING TO BE DISCUSSED HERE

Mrs. Hilda Stevens Weds James Sessions

The marriage of James E. Sessions and Mrs. Hilda Stevens was solemnized at a very pretty house wedding in the home of the bride's parents, Mr. and Mrs. Charles W. Olds, 771 Mill street, north, on Tuesday evening, February 2, in the presence of a fine company of relatives and friends. The bride was attended by the groom's sister, Miss Ruth E. Sessions of Northville, while Miss Ina Brown, also of Northville supported the groom. The wedding march was played by Miss Evelyn Starkweather, prominently at eight o'clock the bride, charmingly in a gown of cream silk lace trimmed with turquoise blue velvet with a corsage of Parma violets and cream tea roses, entered the room on the arm of her father. The marriage service was read by Rev. Walter Nichol of First Presbyterian Church, Plymouth. The beautifully decorated rooms, the pretty dresses of the ladies and the happy faces of the contracting parties and the guests made this a most delightful event.

After the ceremony the company repaired to the Louise Mulford Hostess House where the wedding supper was served. A color scheme of pink and green was carried out at the tables, on which were pink candles and bowls of pink roses. The climax of the meal was a great wedding cake, a triumph of skill and art.

The couple left for a brief honeymoon amid the good wishes of their friends. The bride's going away dress was of greenorgette. A host of friends and acquaintances unite in wishing them well. They will reside in Plymouth.

BRIGGS SCHOOL NOTES

Miss Jameson and Miss Reid visited school last week. Lora Dault visited school, too.

We are going to have a Valentine party.

The first grade to the third grade are reading out of their Laidlaw Readers. They have their Laidlaw work books and like them very much.

Edith Turner has come back to school after her long illness.

Miss Reid has given us our weight and temperature chart.

The seventh grade just had their test of Europe.

We have some health posters on the bulletin board.
