A REAL SERVICE

The Plymouth Mail, as well as some eighty other newspapers in Michigan, has just concluded a series of articles written by Vernon W. Brown, publisher of the Ingham County News at Mason, dealing with Michigan's notorious expense sheet.

Mr. Brown has shown some quarter of a million weekly newspaper readers just exactly how their money is squandered by the state and how little good they get out of it. He has performed a real service for Michigan.

It is interesting to note the viewpoints of publishers in other sections of the state. Following are two editorials, one from strictly a rural community, the other from a newspaper published in a west Michigan industrial city.

Peter Rabid, in the Grand Rapids Chronicle gets off this little ditty:

The five day week
I think is best—
Two days to work
And five to rest.

He didn't say so, but he must have had the state political office jobs in mind when he had that brain storm.

Back in the 'teens one state institution according to figures compiled by Rep. V. J. Brown, of Mason, was run at a total cost for salaries of \$1,700 annually. Today salaries in this place amount to \$13,900 and there are fewer inmates in it now than then.

Not many months ago a young lady just out of college wanted a job in a state office. She learned she must apply for it through the supervisor from her township. Upon inquiry we learned the reason for this was, "We allow these jobs to be recommended by supervisors as a political favor."

A visit to the capitol induced us to offer a bet to a companion that if we went into every office we would find more clerks powdering their faces and fixing their hair than would be found doing any work for the state. We didn't get all around, but we smoked.

An up state lawyer once described a similar situation as a constipation of labor and a diarrhea of pay.

We'll bet our last dirty shirt that if the salaries of all offices paying \$3,000 or more were cut in half, and just one-half of the assistants fired that there would still be a large flock of good competent men (not politicians) ready to fill the jobs just as efficiently as is being done now.

The attempts to put pressure on the newspapers to ease them off their disclosures of politician manipulation, extravagance and unfulfilled promises in state government, have failed almost completely.

The series of articles by Vern J. Brown exposing the payroll situation has been attacked by hidebound partisans as damaging to the ruling party. Independent newspapers have pointed out that the public weal is vastly more important than the party welfare and that if over a period of years the politicians have built up a lucrative payroll, there never was a better time to reduce it.

Likewise an attack on the president of the Michigan Press Association accusing him of sending out partisan articles prejudicial to the state administration, fell flat. An investigation by the leading officials of the association unanimously exonerated him of political bias.

These are days for facts and not concealment of important information. Political partisanship, blind devotion to leadership, has been costly in the past but the public is not to be fooled any longer and the wiser politician is the one who has recognized that fact. The mystery of it all is that there are so few wise politicians.

Look at Washington, Lansing and all the other places where government is an avocation. There does not seem to be the slightest comprehension that the voters will refuse to be fooled any longer with the old oratory, promises and run-arounds but are set to demand lower costs in government. Even the roar of the payrollers might be drowned in the shrieks of the taxpayers. But the politicians must be keeping their ears stuffed with cotton.

LET'S HIT THE STREET WITH OUR HEADS UP

This is one year when every business opportunity should be improved. We cannot hope to keep up our volume while waiting for the orders to come in. We must go out and get them.

When business is slack, the large houses extend their territory to keep up their volume and you must expect more outside printing salesmen to make your territory this fall, than would do so in a normal year.

This simply means that if the local printer expects to get the business of his territory he must be on the job. He cannot afford to wait for it to come, for if he does, some of it will never find its way to the office. It will go to the outside firms, the fellows who make selling a business and know how to land orders.

The majority of business men in every town, a very majority of them in fact, want to leave all their business with the local printer if he gives service. That is the class of business you can ordinarily count on to pay your overhead. Your profit must come from the business you drag in by the heels; the outside man has just as good a chance at it as you have—the business you can get if you go after it, and the business you are liable not to get unless you make a try for it.

Any time you come to the conclusion that conditions are so bad you are due for a licking you are licked automatically. On the other hand if you decide to beat the game if there is a possible chance, you are mighty liable to do it. Let's hit the street with our heads up.—Republican, Langdon, North Dakota.

OUR DAY OF RESPONSIBILITY

(By Harry Chandler, Los Angeles Times, Past President American Newspaper Publishers Association)

Take away the newspaper—and this country of ours would become a scene of chaos.

Without daily assurance as the exact facts—so far as we are able to know and publish them—the public imagination would run riot. Ten days without the daily newspaper and the strong pressure of worry and fear would throw the people of this

"All God's Chillun Want Things!"

By HENRY T. EWALD
President, Campbell-Ewald Company, Detroit

Amid all the pessimism over business conditions, there is one hidden but powerful force at work which will carry America upward again as surely as the seasons unroll: the growing human wants and needs for products of all kinds.

We have had a three-year slump in consumer buying—and therefore a three-year rise in potential demand—because there is no real "saturation point" in human desire. It runs strongly today all through life, from the small boy calling for a radio set to world leaders seeking a solution to politico-economic problems which affect the buying power of millions. "All God's chillun want things!"

The volume of pent-up demand may be measured by the following record of consumer purchases in four typical industries during 1931 compared, not with 1929, but with the more normal year of 1926:

- 1. America's investment in food products during 1931 was one-and-a-half billion dollars less than in 1926.
2. In men's and boys' clothing, expenditures were less than half those of five years ago.
3. In residential building, last year's record was less than a third that of 1926.
4. And in the automobile industry, always looked upon as an index of consumer buying, orders were less by a million and a quarter cars than the record of 1926.

"Down—down—down" has run the gloomy song of consumer purchases during these past few years. But meanwhile "up—up—up" has run the cheerful song of potential demand. With more than forty-three millions of our people still gainfully employed—with our gross income greater than that of all Europe combined—with "Our Poor Little Rich Country" still rich in many ways even today—there need be little doubt as to what will eventually happen. Now "The Depression," if you will—later "The Debuq" of pent-up buying unobscured.

Business organizations, large and small, will participate in the rewards in direct proportion to their courage, preparedness and sustained selling and advertising effort.

Make no mistake about it, the volume and the kind of advertising which individual businesses do or fail to do today will have an inevitable effect upon the fortunes of those businesses both now and later. Advertising can and will win results for good products in the present market and still greater results in the future. The vital need is for good advertising—definitely geared to the mood and moods of today—well planned, well directed, well sustained, that it may create a strong identity and an indelible preference for the particular product. America has only begun to live, to aspire, to achieve. The business contest may not seem overly exciting at the moment, but the facts show that "all God's chillun want things."

Who will rule our various industries when this pent-up demand breaks—old champions or new?

"The time has come the Walrus said, to talk of many things—of shoes—of ships—of sailing wax—of cabbages and kings."

country into mob hysteria—feeding upon rumors, alarms, terrified by bugbears and illusions.

We have become the watchmen of the night and of a troubled day.

If the American newspaper has occupied a position of high responsibility before, its weight of responsibility has been doubled during this trying period.

This period of depression has wrought a great change in the mood of the American public. In the years immediately following the World War it seemed as though our quondam sense of care and responsibility had been recklessly tossed away. Nobody seemed to care about anything—or to think about anything except having a good time, of making money and spending it.

The collapse of an inflated era of spending has suddenly sobered them. It isn't jokes and cocktails that they want now. It is bread and butter—and facts.

This changed mood opens for the newspaper publishers of America a new day of increased opportunities and responsibilities.

A frightened public looks to us for the truth. We have become a sheet anchor in the storm.

It has been suggested to me many times that the members of the publishers association take a united stand on this or that public policy. I feel that in doing so we would surrender the greatest strength of the American newspaper. Each newspaper should stand in a position of responsible stewardship to its own people acting on its own convictions and answering to its own conscience.

No one knows what the immediate events of the future may bring forth. It is enough to know that out of this period of suffering much good must inevitably come. If we were nursing vital and dangerous errors in our commercial and industrial system—and if we were started on a dangerous and ruinous path we can well give thanks that the crash has happened now—rather than later when its correction would involve more peril.

Every publisher who may read these words believes and knows in his heart that in every fundamental element our country is on a firm foundation. There is nothing the matter with the U. S. At heart it is strong and firm. It will ride out the storm, but during the period of the hurricane it is up to us—the newspaper publishers—to stand with resolution at the wheel.

These are the times when the conduct of a daily newspaper ceases to be a commercial enterprise. It becomes a stewardship that often involves great self-sacrifice and great courage.

As I believe in the U. S. so I believe in the honesty and good faith and unselfishness of the newspapers of the U. S. And I believe in their consecration to this trust and in their ability to keep the beacon lighted during a period of very rough weather.

The public offers us faith and trust. We will return them honesty of effort.

A Prayer

We would behold the vision of the most high God. It is only as we rise by faith, by prayer, and by contemplation that evil loses its power. By the majesty of Thy truth, by the attraction of Thy beauty, by the charm of Thy love, and by virtue of the ideals of the Teacher of Nazareth will the embellishments of human life be realized. Deliver us from any false standards and let us see the light in Thy light. Almighty God, breathe into our hearts that power that shall redeem us from any mental confusion. Lift us up into that sphere in which we shall be in unison with Thy purpose. O fill us all with a divine impulse that shall strike any overhanging cloud through and through with light-bearing devotion and sacrifice to our country's needs. In the name of Jesus.

'Keep A Goin'

A man we knew had rounded out more than ninety years when a little bit of a windfall came to him. The first thing he did after counting the money was to say, "Now I'll set out another orchard!" He

did not flinch in the face of his years. He was ready to start right in where he started fifty years before. Time ought never to down any of Our Folks. Let's not be downed by the old scamp.

As To Looks

Some folks in looks take so much pride. They don't think much on what's inside. Well, as for me, I know my face can never be made a thing of grace. And so I rather think I'll see how I can fix th' inside o' me. So folks'll say, "He looks like sin. But ain't he beautiful within!"

With The Wits

Trying to Start a War
"Some say Europe gave us the saxophone."
"Why stir up any more grudges?"

The Post's Fault

"What went wrong" with your car, girlie?
"A lamp post ran into it."

Rambling Around Michigan Editors

THE USELESS TOWNSHIP

Township officials naturally are not sweetly accepting the widespread idea that township governments could generally be abolished to the great benefit of the community and the lessened outlay for government. And it is probable that when Governor Brucker makes recommendations for radical changes in the unit system of government, there will be violent opposition.

Nevertheless it is increasingly evident that money can be saved by combining townships into larger units—perhaps eliminating most of them by merging their control with that of the county. If, as has been done with a merger of three city departments here, considerable expense to the taxpayers can be effected, much more saving can be gained by joining townships.

This column has pointed out hitherto why there is much less need for township governments today than ever before. The automobile, with its quick transportation, is one of the main factors in making township government unnecessary. The telephone is another. Here in Chippewa county there are 16 townships in addition to the city of Sault Ste. Marie. All the rural townships might easily be governed by a commission elected at large—a county government something after the manner of that which governs the city. Why 16 governments are necessary for a population that is not larger than that of the Sault is hard to see by one who is interested in efficiency.

Even combination of counties might be effected in some instances, to the advantage of all citizens. In Georgia, for instance, Campbell county, one of the state's smallest counties, allied itself with larger and richer Fulton county. As a result of this alliance the people of what was Campbell county pay \$50,000 a year less in taxes than when operating as a separate unit.—Sault Evening News.

THE STATE MOTTO

What a happy choice was made when the early settlers of Michigan selected as the state motto, "If you seek a delightful peninsula, look about you." That motto written in Latin adorns thousands of state documents of course, to the vast majority of us the Latin phrase carries no meaning. We suggest that the Latin be dropped and the English translation be used.

Especially at this season of the year are the two peninsulas delightful. The streams are sparkling clean, the lakes are at high levels, the trees are heavy with foliage. The entire state looks fresh and green. A drive in any direction opens up new vistas of beauty. Visitors from other states are quick to recognize the beauties of Michigan. Those of us who live here come to accept Michigan's beauty as a matter of course. With hundreds of miles of beaches washed by the greatest of fresh water seas, with 5000 inland lakes and streams, with thousands of acres of forests and wild lands, the two peninsulas offer so much delight that the state motto is modest indeed.

When you see the Latin phrase, "Si quaeris peninsulam amoenam, circumspice," know, and tell others, that it means, "If you seek a delightful peninsula, look about you."—Vern Brown in the Ingham County News.

'TIS THE SOLDIER WHO PAYS!

Many Legion boys from various parts of the United States are seeking to induce Congress to give them the bonus. Our own idea is that the Legion boys are a trifle late—big business beat 'em to it. Big business also beat 'em to it when the World War was fought—big business, in the next conflict, will not find bloodshed so profitable. Perhaps then, the soldier boys will be given a real chance to be rehabilitated by sharing in the possession of the things they are supposed to be fighting for.—George Averill in The Birmingham Excelsior.

He came to America with his parents in 1882 and most of his early life was spent in Pontiac where he married Grace E. Knapp, June 4, 1902. Mrs. Stevens survives with one son, Lewis K. Stevens. The aged father, four sisters and two brothers also survive.

The funeral was held Thursday at 2 o'clock from the Schrader funeral home in Plymouth. Rev. Walter Nichol of the Presbyterian church officiating. Burial took place in the family lot in Milford.

WILLIAM WOOD TO RETURN HERE

William Wood who some time ago opened up an insurance office in Ann Arbor, has decided to return to his old home town and re-engage in the life insurance business. In this city during the present week he opened up an office in his residence at 121 North Main street and will from now on conduct his life insurance work here, rather than in Ann Arbor. Mr. Wood has many friends who will be glad to know that he has decided to return here. He is a old time insurance man and knows thoroughly the problems of the business. Hardly had he returned to Plymouth this week when he received word from his old home in Beamsville, Ontario that his mother is seriously ill. Mr. Wood, Wednesday for Beamsville, but expects to return the last of the present week.

**Ford Plants Around Plymouth Are Busy Places These Days—Indications Are For Months of Steady Work For Ford Workers**

Ford Motor company plants in and around Plymouth are regular beehives these days, some of the plants working 24 hours per day and others providing more work than they have in the last four or five years.

This is due to the exceptional demand for the new Ford car, a demand that the company has not been able to meet. While the production is increasing every day, it is not believed that the company can supply all of the requests for cars for several months.

This condition assures steady work for Plymouth residents who are employed by the Ford company during the entire summer and fall months and probably all next winter.

A review of the motor car industry in and around Detroit shows the popular smaller cars are in exceptional demand.

Ford Motor, Chevrolet division of General Motors, and the Plymouth division of Chrysler Corporation are proving the sustaining influence in expanding employment in the Detroit-Flint area. These three volume producers of motor cars are building up pay rolls to points unapproached in the last year and more. Ford, alone, is nearing the 100,000 mark in employment in the Detroit district, while Chrysler employment is at a new peak, due to expanding sales in its lower priced lines. Chevrolet, for some weeks, has been going along with an employment roll that compares favorably with its top figures of heavier production years.

Ford has passed the 2,000-a-day production mark, with May pointing toward a 50,000 figure. About one-half of the production is on the new V-8 line. Only a shortage of V-8 motors is holding down output figures. The bank of orders for Ford eights and fours is now around 400,000. It is understood.

The acceleration of production in the Ford, Chevrolet and Plymouth plants, which units accounted for 52 per cent of the cars produced in the

first quarter of the year, is having a beneficial effect on the steel industry. Heavy steel orders are expected from Ford on May 25 for June delivery. Detroit district steel mills are producing at the highest rate of any in the country.

Influenced mainly by orders from the automobile industry, principally Ford, steel ingot production for the country has risen a point to 25 per cent, against 24 per cent in the two preceding weeks," says Iron Age. The report adds:

"Engagement of steel making capacity shows marked contrasts. The Pittsburgh district rate having declined from 20 to 18 per cent, the lowest in many years, while Cleveland plants are operating at 38 per cent, against 26 per cent last week. The Detroit district, including the Ford steel plant, which has less than 2 per cent of the country's ingot capacity, has by far the best production, 81 per cent. The Great Lakes plant at Detroit is operating all of its open-hearth furnaces.

"While the Ford Motor Company's orders in the week have totaled only about 8,000 tons, about half of this went to a Cleveland mill. The Ford plant is making steady progress in expanding scheduled production, 2,000 cars a day. It now appears that the objective of 100,000 cars a month will not be attained before July, the tentative schedule for June indicating an output next month of 60,000 to 65,000. However, Ford's program assures a good summer performance compared with March, April and May. Other makers of low priced cars are also gaining."

Chevrolet dealers reported 85 per cent more cars sold at retail in April than in March. That April sales were 6,000 units greater than production, and that sales in the last 10-day period of the month exceeded either of the other two periods by 5,000 new cars and trucks. In the last 10 days dealers reported purchases by the public of 21,176 new units, according to W. S. Kimball, president, as compared with 19,672 in the second 10-day period and 17,461 in the first period. The total of 61,509 compares with 33,125 sold in March, a gain of 85 per cent, and with 55,432 built in April, which was 5,000 more than the production schedule called for at the beginning of that month.

Chrysler is employing more people than at any time in the last three years. This is partly due to the Plymouth activity but also to the fact that Chrysler divisions are now producing more of their own parts than ever before.

With Plymouth division accounting for 62 per cent of production Chrysler Corporation expects all divisions to top an output of around 38,000 units in May. April total for all Chrysler divisions was 32,000.

Plymouth is working on a schedule of 24,000 cars for May, as against production of approximately 20,000 in April. For the first four months this year, Plymouth shipments were 385 per cent out ahead of the corresponding period of 1931.

April deliveries by DeSoto dealers for the week ended May 7 totaled 1,379 cars, as compared with 859 for the corresponding week of last year, an increase of more than 80 per cent. These figures include Plymouth sales by DeSoto dealers in addition to DeSoto. May business promises to continue strong, according to a statement which shows 4,254 unfilled orders on hand, compared with 2,143 at this time a year ago.

Total deliveries by Dodge dealers for the week ending April 30 reached a new high for 1932 and were the largest for any week since September 3, 1931. Over-all deliveries for the week increased 7.4 per cent over the previous week, and marked the eighth consecutive week in which deliveries have shown a corresponding increase.

Shipments to overseas dealers by Chrysler Export Corporation of Plymouth cars for April were three times the number of the same month last year. In addition overseas shipments of Plymouth cars during the first quarter of this year were 192.7 per cent of the same period in 1931.

Shipments of Auburn Automobile Company in April totaled 1,124, as compared with 6,321 in April last year.

Graham-Paige has already produced and sold more eight cylinder cars this year than in any other previous full years of its history. The statement is based on the re-

**Record Race Victor Thanks Firestone**

Upper left, Harvey S. Firestone, Jr., referee of the race, and Edsel Ford, pacemaker on the first lap. Lower, Fred Frame, the winner, and Jerry Hauck, riding mechanic, in the car they drove to victory.

Men, automobiles and tires set amazing new records of speed and endurance in this year's 500-mile international race on the Indianapolis Motor Speedway. Giving a splendid exhibition of cool and steady driving, Fred Frame, veteran of many races, won the event in record-breaking time. With an admiring throng milling around him after his sensational victory, one of the first things Frame did was to send the following telegram to Harvey S. Firestone, pioneer tire manufacturer:

"I want to congratulate you and thank you on the wonderful performance of Firestone tires which helped me win the Indianapolis 500-mile race today without tire trouble, setting a new record of more than 104 miles an hour for the 500 miles."

The race throughout was a remarkable Firestone triumph. Every car to finish was equipped with Firestone Tires. The first four broke the former record of 101.13 miles an hour made by Peter De Paolo in 1925. In all the history of the famous motor race there has never been a more severe test of tires and never a finer demonstration of their qualities than was furnished this year. It was the thirteenth consecutive victory for Firestone.

card for the first four months when the Graham Eight attained fifth place in eight-cylinder registrations for the United States.

An estimate made by R. E. Polk Company, Detroit, indicates that new car sales in April will reach 110,000 units, or an increase of almost 17 per cent over the 91,297 units registered in March. This estimate was based upon returns from 22 states showing registrations of 33,867, an increase of 16.35 per cent over the 29,062 registered in the same states in March, and a decrease of approximately 56 per cent from the 91,405 units registered in those states in April last year.

Selective automatic clutch control is now available on Hudson and Essex cars. This new unit is now combined with selective free-wheeling. A charge of \$10 is made in Detroit for the automatic clutch control equipment.

**Burns Buildings on His Farm, Then Ends Life With Shot Gun**

Fearing that his estranged wife might be given a large share of his property when a settlement was made in Wayne Circuit Court, at Detroit, Saturday, Joseph Eisner, 35 years old, an Oakland County farmer, early Friday destroyed seven of his farm buildings by fire

and then killed himself when a deputy sheriff found him in an orchard, where he had gone to watch the structures burn. Many from Plymouth drove over to the farm last week-end to see the destruction he had brought about.

The wife, Mary Eisner, lives at 14341 Southfield road, Detroit, with a son, George Brudna. She had obtained an injunction against her husband, restraining him from molesting her, or from damaging or destroying any of her property. Eisner, brooding over his do-

mestic difficulties ordered his son, Joseph Jr., and the son's wife to remove their belongings from the farm home five miles northwest of Farmington. They left the farm, on Eleven Mile road east, at Town-line road, Thursday. He had told the son, officers said, that if he lost his property in the settlement he would kill himself.

Early Friday Eisner brought his herd of cattle from the fields of the 192-acre farm and placed them in stalls in the cowbarn. He left three cows with calves in a field. Then he poured gas on the cow barn, another barn, the milk-house, a granary, foot shed, corn crib and silo and fired them. He removed some furniture and clothing from the house and set it afire. Although soaked with gasoline, the garage, and another building did not burn.

Eisner then climbed a tree in the orchard and watched the fire. He was found there by Deputy Sheriff Mitten of Orchard Lake, and J. C. Button, a neighbor. Mitten ordered him down. He walked about 30 feet in the darkness and killed himself. He had placed a shotgun in position, wired between a tree and a drag. A wire had been fastened to the trigger. He leaned over the muzzle and pulled the trigger wire before Mitten and Button realized what he was doing. He died instantly, the shotgun charge in his head.

Volunteers attracted by the flames were able to check the fire. Six of the burning buildings were across the road from the house.

Eisner, a prominent farmer, had come to Michigan in 1902. He had been a military instructor in Romania, and had been an athletic instructor at the University of Prague. He had been married 20 years. He had only one child, Joseph, who remained at the farm when his mother left in 1923 to live with her four children by a previous marriage. She filed a divorce complaint March 13, 1930, charging cruelty. The hearing had been delayed pending a property settlement.

Judgment of \$10,000 was awarded to Samuel Wenk in Chicago. Wenk charged that he went into a health club feeling "fine" but came out after a massage with a broken vertebra.

**TEXAS LIKES THE DEPRESSION**

Henry Ansley, editor of the Amarillo Globe-News, recently struck a cheering philosophical slant upon the "depression" which has had wide publication in the Kentucky Progress Magazine. You too may enjoy a few of the following excerpts from the article:

"I like the depression. I have had more fun since the depression started than I ever had in my life. I had forgotten how to live, what is meant to have real friends, what it was like to eat common everyday food. Fun is. I was getting just a little high-hat.

"Three years ago only one man of the Globe-News organization could be out of town at a time and he had to leave at the last minute and get back as soon as possible. Nowadays as many Globe-News employees as are invited make those trips and we stay as long as we want to. The whole outfit could leave the office now and it wouldn't make any difference.

"I have time to visit my friends, to make new ones. Two years ago when I went to a neighboring town I always stayed at the hotel. Now I go home with my friends, stay

all night and enjoy homecooking.

"It's great to drop into a store and feel that you can spend an hour or two or three or a half day just visiting and not feel that you are wasting time. I am getting acquainted with my neighbors. In the last six months I have become acquainted with folks who have been living next door to me for three years. I am following the Biblical admonition: 'Love your neighbors.' One of my neighbors has one of the best-looking wives I have ever seen. I am getting acquainted with my neighbors and learning to love them.

"Three years ago I was so busy and my wife was so busy that we didn't see much of each other. I never went home to lunch. About twice a week I went home to dinner—at 6:30 o'clock. I never had time to go anywhere with her. My wife belonged to all the clubs in town. She even joined the young mothers' club. We don't have any children.

"We even took down the old family bed and bought a set of twin beds—on the installment plan.

"When I would come home at night, if my wife was at home, she would already be in her bed and I would crawl in mine. If she came in first, it was vice versa. We like the depression. We have come down off our pedestal and are really living at my house now. The twin beds

are stored in the garage and the old family affair is being used. Instead of taking a hot-water bottle to bed these cold nights, she sticks her heels in my back. Just like she did before Hoover was elected.

"I haven't been out on a party in eighteen months. My wife has dropped all the clubs. I believe we are falling in love all over again.

"I am feeling better since the depression. I take more exercise. I walk to town and a lot of folks who used to drive are walking with me.

"My digestion is better. I haven't been to see a doctor in a year.

"I am getting real, honest-to-goodness food. Three years ago we had fillet mignon once a week; now we have round steak with floss gravy. Then we had roast breast of guinea hen; now we are glad to get saw-huson with the buttons on it.

"Three years ago I never had time to go to church. I played golf all day Sunday and besides I was so smart that there wasn't a preacher in West Texas who could tell me anything.

"Now I am going to church regularly, and if this depression keeps on, I will be going to prayer meetings before long. I like the depression."

**Wayne Now Plans To Become City Says Editor of Dispatch**

(Wayne Dispatch)

The last obstacle in the path of Wayne's becoming a city has been removed, according to an announcement made this week that the ways and means committee of the Wayne County Board of Supervisors on May 26 ruled that any city or village with a population of 10,000 or less could receive library services from the Wayne County library.

This action by the committee rescinds the old ruling which deprives cities of the privilege of county library service, and it means that if the village of Wayne still desires to become a city it may do so without losing the local branch of the county library.

Last January the movement to change Wayne to the city class was halted because of the fact that the question of maintenance of the library arose. At that time, no assurance was given by the county board of supervisors that the county would continue its branch in Wayne if it became a city, and consequently as the village commissioners and the majority of residents did not feel that definite steps should be taken towards the city plan of government until this question was settled, the plan was dropped. In other words, the library question was the greatest obstacle which faced Wayne residents.

At the time when the plan first was proposed, it met with the majority opinion that Wayne should become a city. Petitions recommending that such steps be taken were circulated throughout the village and a large number of signatures were placed on them. It was said, that had not the library question arose the required number of names would easily have been secured.

It is the claim of large numbers of business men and prominent residents of the village that residents will save considerably in taxes since the slight increased expenses of maintaining a city form of government will be exceedingly small compared to the savings that will be effected through not having to pay township taxes. Residents within the boundaries of a city cannot be taxed by the township.

Officials of the village have expressed themselves as highly in favor of changing the present government into a city form. They expressed the belief that now that this obstacle has been removed plans can again be started towards changing the government providing the people of the village still desire such change.

If the municipal government is to be changed a referendum to that effect will have to be voted upon. Petitions, of course, would have to be signed and filed with the clerk.

Much interest was aroused in Wayne following the action of Plymouth some weeks ago when that municipality changed from a village to a city form of government. The same question regarding the library arose in Plymouth, but it is believed that they had assurance from the county board of supervisors that their library still would be maintained.

**Corporations Have Got To Pay Tax Soon**

Corporation report blanks for 1932 are to be mailed to about 18,000 Michigan corporations during the last week in June. It was announced by the corporation division of the department of state. The total 1931 privilege tax paid up to June 4, 1932 was \$6,844,277.94.

The reports, accompanied by the 1932 corporation privilege tax can be paid to the department between July 1 and Sept. 1. While the report differs but slightly from the 1931 blank, the present year is the first in which the corporation code adopted by the 1931 legislature (P. A. 327) is fully effective and laws governing the tax and the annual report are changed in many technical ways.

In an effort to aid the corporations, the 1932 blanks will be accompanied by printed instructions, outlining the changes in the law.

In addition to the 18,000 profit corporations in the state there are approximately 7,000 other corporations that are not required to pay the privilege fee. These include non-profit corporations, which starting in 1933 must make yearly reports, and so-called utility corporations such as railroads, telegraph and telephone companies.

**Plymouth Officers Aid In Uncovering A Detroit Murder**

Two testers for the Ford Motor Car company last Friday afternoon called Chief of Police Vaughn Smith and reported the discovery of a body partly buried in the sand just off the Schoolcraft road about five miles east of Plymouth. Chief Smith, accompanied by City Manager Cookingham, immediately investigated. Immediately realizing that it was a murder, they called the officers in Detroit. Upon their arrival the body was dug from the ground and removed to Detroit.

Saturday a father and stepson confessed to beating Adolph Krupka, 42, father of five children, to death with an iron bar and burying his body in a sandpit at Schoolcraft and Stark roads.

The prisoners are James Tromblay, 42, widower and father of five children, and his step-son, Ralph, 19, of 19648 Heyden avenue.

The older Tromblay said a fight started Wednesday when Krupka, who lived at 19647 Heyden avenue, came to his home and accused him of being too friendly with Mrs. Krupka and designing to drive her to Geneva, O.

Krupka reached for his hip pocket as if to draw a gun or a knife and Ralph struck him with

an iron bar," the father told deputy sheriffs.

A terrific struggle ensued in which Krupka was beating the younger Tromblay, his step-father said, until he pulled the neighbor off and Ralph again attacked with the iron bar, beating Krupka unconscious.

Father and son then wrapped the body in paper and cruised in their automobile looking for a place to bury their victim. The lonely, unlighted intersection was picked for the burying place. The two dug a shallow grave in the sand and buried Krupka.

The father then said he drove to Geneva and brought Mrs. Pearl Krupka, wife of the dead man, back to her home. The body was found Friday and the father was arrested shortly after returning.

The confession was obtained by Archie Fraser, chief deputy sheriff, and Robert Holmes, George Frahm and Lon Chamberlain, deputies.

Krupka's five children are: Lucille, 18; Arthur, 13; Lloyd, 9; Virginia, 8; and Evelyn, 4. Krupka was a factory worker. In his pockets were found a list of household supplies to be ordered but no money. Mrs. Krupka is to be questioned by Fraser today for more details of her alleged friendship with Tromblay.

**"SIX CYLINDERS NO MORE—NO LESS," says America**

**CHEVROLET**

**Anything more and you sacrifice economy— anything less and you sacrifice smoothness.**

**CHEVROLET SIX \$445** AND UP. F. O. B. FLINT, MICH.

**Ernest J. Allison, Plymouth, Michigan Phone 87**

**BUYERS** everywhere are comparing low-priced cars. Lifting hoods. Counting cylinders. And the result? An overwhelming verdict for the six, in preference to cars of fewer or more cylinders.

"SIX CYLINDERS. No more—No less!" And America backs up that conviction by purchasing more six-cylinder Chevrolets since January 1st, than the combined total of all fours and eights under \$1000.

With more than six cylinders, you sacrifice Chevrolet's famous economy of gas, oil and upkeep—the greatest economy in today's motor car market.

With less than six cylinders, you sacrifice the built-in smoothness that makes driving really enjoyable.

But with a six—a Chevrolet Six—nothing is sacrificed. You get smoothness AND economy.

And power—60 horsepower. And speed—65 to 70 miles an hour, easily! And pick-up—from a standstill to 35 miles an hour in less than 7 seconds! You also get Free Wheeling; Syncro-Mesh gear-shifting; big, spacious Fisher bodies.

So, when buying a new low-priced car, settle the question of cylinders RIGHT, and you can't go WRONG. Take America's word for it: "SIX CYLINDERS. No more—No less!"

## Newburg

Last Sunday was an ideal day for Children's Day. Beautiful flowers and smiling happy faces of the children made it an occasion to be remembered. The program consisted of special numbers by the choir under the leadership of Mrs. Purdy, with Mrs. Margaret Purdy-Moyer at the piano. The numerous recitations and songs by the children trained by Mrs. Ida Thomas, were fine.

The baptism by the pastor, Rev. Frank Purdy, of the following children took place: Margaret Jean Moyer, Robert Blair Jennings, Ralph and Dorothy Savage. A collection was taken for the M. E. Albion college.

Epworth League had the pleasure of listening to a fine talk Sunday evening by Mrs. Blanche Francis of Bettow, Mich. A number of young people were in attendance.

The last quarterly conference will be held Thursday evening, July 7, at Perrinville.

The many friends of Mr. and Mrs. Melvin Garbrie congratulate them on the birth of a blue pound son, Melvin Charles, born June 10, at Ford hospital, Highland Park.

Mr. and Mrs. Henry Melbeck and children and Mr. and Mrs. Charles Chilson and family, motored to South Bend, Ind. last week Thursday to visit Mr. and Mrs. Floyd Bussen, returning home Sunday.

Glad to note Mrs. Simmons, who is in Highland Park General Hospital, is improving.

Mr. and Mrs. Donald Ryder called on Mr. and Mrs. Frank Ryder at Salsen last week Wednesday evening. Mr. Ryder is under the doctor's care.

Mr. and Mrs. Wm. Smith called on their cousins, Mr. and Mrs. Eldridge of Detroit last week Wednesday.

Mr. and Mrs. James Norris and father, Mr. Mackender motored to Grand Rapids last Saturday. Mr. Mackender remained for a visit with his son, Vern, and family.

Mrs. Jennings of Texas is visiting Mrs. John Blair.

Mr. and Mrs. Francis Crook of Wayne called on Mr. and Mrs. Donald Ryder, Sunday evening.

Mr. and Mrs. Glen Harwick of Salsen were callers at the parsonage Sunday.

Several from here received the announcement of the marriage of Miss Charlotte Lillian Leonard to Erwin Arthur Schultz which occurred on Friday, June 10, at Lake Orion. Their many friends extend congratulations.

Mr. and Mrs. James McNabb and Mr. and Mrs. Mack Joy attended the graduation exercises of Miss Joy McNabb at Albion college last week Monday. Joy has secured a position as teacher in the high school at Concord, Mich. Joy is an honor student. Newburg has occasion to feel proud of her.

Mr. and Mrs. Herbert Egley and Mr. and Mrs. Gene Conklin of De-

troit were Sunday evening callers at the Ryder homestead.

Mrs. Mary Paddock of Highland Park spent the forepart of the week with Mrs. C. E. Ryder.

The Boy Scout Court of Honor was held Friday, June 10, at 8:00 P. M.

There was a council supper and meeting in the Ladies Aid Hall before the Court of Honor at which about twenty-five were present.

The opening of the Court was in charge of Charles Thompson, Mr. South was chairman. Several awards were given. The Court was closed by repeating the scout benediction, lead by Charles Thompson.

The troop wishes to thank all who attended and appreciates the interest taken in the troop.

Neckerchiefs were made for the troop by some of the ladies. They are blue with N. B. 1 sowed on yellow cloth in the angle at the bottom.

The next Scout meeting will be Thursday, June 23, at 7:30 P. M. Every fellow be sure and be there, and let's get Advancement!

## Rosedale Gardens

Mrs. Alfred Honke and Mrs. I. Taylor of Arden Ave. entertained in honor of Mrs. W. Oelster of Arden Avenue, last Monday evening, June 14. Bureau was played. The guests from Detroit were: Mrs. J. Carr, Mrs. M. Barrow, Mrs. M. McNeil, Mrs. J. Johnson, Mrs. R. South, and Mrs. G. Hettlinger.

Guests from Rosedale were: Mrs. S. Works and daughter, Mrs. Marti, Mrs. Harsh, Mrs. Ruth, Mrs. Wasmund, Miss Douglas, Mrs. Cuffiffe, Mrs. Cornell and Mrs. Bowdler. Mrs. J. Carr won first prize, Mrs. Butt, second prize and Mrs. Wasmund, consolation. Mrs. Oelster, the guest of honor, received many lovely gifts.

Mrs. E. Edmell of Herwick Avenue was hostess Tuesday evening to the "Arts and Letters" club of Rosedale Gardens. In place of the usual review of books on the program for the evening, three short stories were read.

The Ladies Ajar Society of St. Michael's church, held a bridge luncheon at the church Thursday afternoon, June 16. A dainty hot luncheon was served and delightful prizes were given out. Mrs. Cully and Mrs. Mason were hostesses.

The annual Sunday school picnic of the Rosedale Gardens Presbyterian church will be held at Riverside Park, Saturday, June 18th.

The Women's Auxiliary of the Rosedale Gardens Presbyterian church will hold an ice cream social the latter part of June, the date of which will be announced later.

It is planned that about 100 small prizes, attached to paper parachutes, will be dropped from an aeroplane which will be flown by L. A. Danse, chairman of the Western District.

Sea Scouts will sail two ships to the Island and demonstrate their program to their brother land scouts.

These annual Boat Races are sponsored by the Commissioners' high-ranking volunteers of the Council and are unusually attractive because parents, families and friends of Scouting are all welcomed to participate with their boys.

Mrs. Champaign, of Kinde, Michigan is spending a few days with her daughter, Mrs. Paul Ossmanacher.

Mr. and Mrs. Earl Mack were Friday night guests of Mr. and Mrs. Warren Gardiner of Joy Road.

The church services have been changed from 7:30 P. M. to 9 A. M. Sunday school at 10 A. M. M. B. week service Wednesday evening at 7:30.

Everyone welcome. Rev. Purdy took his text Sunday, Romans 7:14-25.

Mr. and Mrs. Peter Kubie called on Mr. and Mrs. John Burgess, of Ann Arbor Trail, Friday evening.

Elsie Biesek and Clyde Gardner, of Couper School received their diplomas at Elizabeth Park, Saturday, Clyde Gardner will enroll at the Plymouth High school this fall.

Mrs. John Beyer had as her dinner guests Wednesday, her father, W. DePew and her sister, Mrs. Forrest Smith, of Plymouth.

Herschel Crunk of Detroit will spend a few weeks with his parents, Mr. and Mrs. Ira Crunk, while his wife and little daughter are visiting relatives in Chicago.

Mr. and Mrs. Joseph Shoeh and family, of Detroit former residents of this community were Monday night callers of Mr. and Mrs. Paul Ossmanacher.

Mrs. Henry Klatt entertained the Ladies Aid Wednesday at her home on Warren Avenue. A large crowd partook of the dinner served at noon. The July meeting is to be held at the cottage of Mrs. William Wolfgram at Walpole Lake, the 13th of the month.

Visitors at the Paul Wanschuck home during the week were Mr. and Mrs. Sterling Porter, of Detroit, and Mr. and Mrs. Henry Rohloff of Ann Arbor Trail.

Children's Day exercises will be given during the Sunday school hour, at 10 A. M. Sunday.

Mr. and Mrs. Calloun, of Detroit were Sunday guests of Mr. and Mrs. Ira Krink.

Margaret Kubie had as afternoon guests Miss Margaret and Edna Knopfke of Garden City and Miss Alice and Helen Eichler of Detroit called Saturday afternoon.

## SCOUT NEWS

Undoubtedly one of the most magnificent examples of Woodcrafting in the Country—a large totent pole (carved by Assistant District Commissioner John J. Core) will be dedicated at Brady, one of Detroit's Boy Scout Camps near Waterford, Michigan, on Sunday afternoon, June 19.

Mr. Gore, a veteran Scout leader of over 21 years of service, did not realize his ability as a woodcarver until recent years. He has been able to reproduce facial likenesses of Lord Baden-Powell, Theodore Roosevelt, Dan Beard and Wm. H. Mills (former Council Commissioner who died in 1930), with striking accuracy. Gore spent over nine hundred hours of labor on the totent pole which he made during spare time in the past two years.

The dedication (which takes place at 3:30 P. M.) is in connection with the "Open House" program on Sunday, from 12:00 to 4:00 P. M., when all scouts, parents and friends are invited to inspect the camp and gain information regarding the Detroit Council's summer program. Tea will be served at 4:00 o'clock. The "Open House" program will again be resumed on Sunday, June 26. Camp Brady officially opens to the scouts on Monday, June 27.

The Fifth Annual Commissioners' Boat Race of the Detroit Council will be held at Put-In-Bay on Saturday, June 18.

Games of education, stunts, songs and comedy skills will be enjoyed on board the steamer Put-In-Bay which leaves the First Street wharf at 9 A. M. Athletics will preclude the Island program and no scout trip would be complete without it.

It is planned that about 100 small prizes, attached to paper parachutes, will be dropped from an aeroplane which will be flown by L. A. Danse, chairman of the Western District.

Sea Scouts will sail two ships to the Island and demonstrate their program to their brother land scouts.

**CHRISTIAN SCIENCE CHURCHES**  
 "God the Preserver of Man" was the subject of the Lesson-Sermon in all Christian Science churches throughout the world on Sunday, June 12.

Among the Bible citations was this passage (Acts 3:9): "Then Peter said: 'Silver and gold have I none; but such as I have give I thee: In the name of Jesus Christ of Nazareth rise up and walk.'"

Correlative passages read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, included the following (p. 178): "Whoever reaches the understanding of Christian Science in its proper significance will perform the sudden cures of which it is capable; but this can be done only by taking up the cross and following Christ in the daily life."

**SHELTERS FOR POULTRY YARD**  
 Demonstration shelters for poultry will be built in this county next week by men from the Michigan State College. Cheap, efficient summer shelters, which can be used on range, are one of the poultryman's problems and the type of shelter to be built helps solve this problem.  
 Two shelters will be built in the county—one on Monday afternoon, June 20 at the farm of George Essex, two and a half miles west of the Berry's Store, which is south of Belleville on the Sumpter Road. The second will be built at the farm of Charles Foss on the Preston Road, south and east of Wayne on Tuesday afternoon, June 21.  
 Meeting will be each afternoon and should be of interest to anyone raising poultry.

**SALEM TAKES LOCAL GAME BY 13-10 SCORE**  
 With George Buers as the starting hurler the Salem baseball nine defeated the Plymouth Blue Sox by a score of 13-10. Buers was first in the first inning, walking the first three men to face him, but he broke down then and only one man scored. The Plymouth boys were unable to do much with him then until the sixth, when they scored four runs, all of them greatly aided by poor fielding on the part of the Salem team. Buers fanned seven men in the six innings he pitched. Frank Bowers who finished, allowed two hits and four runs, two of the runs as the result of three Salem errors. The other two were clean runs. Gates, batting for Martin, opened the home half of the ninth with a three-base hit. He scored and Houghton who had walked scored on Prillies hit before Waldeck ended the game by striking out 14. Buers pitched a gem in the three innings. Bowers struck out the side in the seventh. Way, who pitched the entire game for Pivots, fanned fifteen batsmen. He retired the side on strike outs in the fifth and ninth innings, although the visitors were able to hit him harder than his team could hit the Salem lad's offerings. Salem scored four runs in the first to take a lead. They never surrendered. They collected two more in the third, four in the fourth, one in the fifth, and two in the eighth. The Salem plays Camp Center next Sunday at Salem diamond at 3 o'clock.

**Coming Attractions At Penniman Allen**  
 "TARZAN THE APE MAN"  
 All of the breath-taking adventures contained in the famous Edgar Rice Burroughs story have been brought faithfully to the screen in the thrilling jungle picture, "Tarzan the Ape Man" which appears at the Penniman Allen Theatre, Sunday and Monday, June 19 and 20.  
 Johnny Weissmuller, world's champion swimmer, who was signed to play the title role due to his tremendous physical build, is almost an exact personification of Tarzan. Standing six feet three in his stocking feet, his magnificent one hundred and ninety-pound body is shown swinging through the trees and in hazardous encounters with jungle beasts.  
 One of the most notable thrills of the production is the elephant charge in which an entire native village is destroyed and an area of several acres trampled down. The animal scenes are some of the most unusual that have been shown on the screen and will not fail to tickle the pulse of father, mother, brother and sister. The entire family will find plenty of entertainment in this latest jungle adventure picture.  
 The strong supporting cast with Weissmuller includes such well known players as Neil Hamilton, Maureen O'Sullivan, C. Aubrey Smith, Doris Lloyd, Forrester Harvey and Ivory Williams.

**"THE PASSIONATE PLUMBER"**  
 A stellar comedy trio, composed of Buster Keaton, Jimmy "Snopzole" Durante and Dolly Moran does its share to attempt to lift the current depression blues in "The Passionate Plumber," which, headed as "McGee's latest laugh riot, will be shown at the Penniman Allen Theatre Wednesday, June 22.  
 The three are said to have side-splitting adventures in a story which depicts the diverting career of a plumber who becomes the guardian of a Parisian beauty and is involved in a series of riotous experiences in his attempt to prevent the girl from succumbing to the charms of a two-timing gigolo.  
 Keaton as the willing but bungling plumber gets into one absurd situation after another.

**"THE RIDER OF DEATH VALLEY"**  
 "The Rider of Death Valley" was filmed in the famous desert which is the lowest spot in the United States and the hottest. Thousands and thousands of moving picture fans are delighted at the return of Tom Mix to the screen. They are delighted to find that in talking pictures he is even a greater star than he was three years ago when he was the reigning western star of all time. "The Rider of Death Valley" is scheduled to play at the Penniman Allen Theatre, Saturday, June 25. It is a typical Tom Mix hard-riding, hard-fighting picture, with beautiful Lois Wilson, once Ford Kubler and silky-willful Forrest Stanley in featured roles. It also introduces little Edith Fellows, the charming scholar at University's "little red schoolhouse" in a delightful role.

Plymouth One Of Leaders Among The Suburban Detroit Communities In Taking on City Ways To Cut Expenses

Plymouth, apparently, has led the way for a reformation in the form of local government in communities around Detroit. Villages that have for years operated as villages are now turning to the city form of government as a method of cutting down taxation and expenses.

Huntington Woods voted, Tuesday, on the question, Birmingham has taken steps toward the necessary elections. Clawson is studying the problem, complicated because it lies both in Royal Oak and Troy Townships.

R. A. Jacobs, Detroit banker and president of Huntington Woods, is one of the strongest advocates of the city government. The problem of his village is similar to that of the others along Woodward avenue.

city would enable us to have our own representative on the county board.

"Last year Huntington Woods' assessed valuation represented about 1.5 per cent of the total assessed valuation when the taxes were levied. Now that Berkley has become a city, if we were to remain a village our percentage of the total would become considerably higher, and we would therefore bear a much higher percentage of any tax or assessment levied at large.

Poor relief is an important factor in the city government parade. Next year the welfare work must be financed by cities and townships, the supervisors have ruled.

"We would have been called upon to pay a big part of the cost of feeding the township's unfortunate if we had not become a city," William C. Chambers, clerk of Berkley, declared.

Edward Parkin, Royal Oak Township clerk, isn't worried over the loss of villages. He points out that the township can better centralize its operations, which have been scattered.

Ira Wilson Wins In Fight For Insurance On Fire At Howell

Plymouth friends of Ira Wilson will be pleased to know that he won the long contended court fight for a considerable portion of the insurance money that was due him as a result of the burning of his barn west of Howell two years ago.

Wilson brothers claimed they understood that Mr. Borden understood that the local company's policy included the personal property in the large barn which was destroyed by fire in September, 1929.

The case was tried in Circuit Court here in July, 1930, and the Circuit Court on May 5, 1931, gave a decision in favor of the company, holding that there was no mistake in the writing of the policy and that the plaintiffs were not entitled to recover.

**NOTICE**  
**To be Sold for the Balance Due**

Occasionally a customer, through drastic domestic changes, business misfortune or removal, is obliged to sacrifice his piano or other musical instrument. A large portion of the account may have been paid. I am authorized to transfer three such piano accounts to responsible parties who will pay only the remaining balance of small monthly payments. Pianos are very desirable and near Plymouth.

My client has been forced to take back above named instruments, notwithstanding the balances due range from \$10.00 to \$55.00. Payments from \$2 to \$5 per month. Send your inquiry immediately as this matter must be settled quickly.

**Fat Man Reduces 53 lbs.—Oh Boy!**  
 Don't be stubborn, you big fat men—throw off your fat before your fat throws you into the discard. Do as Mr. S. A. Lanier of Sawtooth, Calif., did—read his letter.  
 "I have used two reducing belts to no benefit, but since using Kruschen Salts each morning in my coffee I have taken off 7 lbs. in a week and eat most anything I like. I weighed 243 lbs. 6 months ago and now I weigh 190 lbs."  
 Take one half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats, potatoes and sweets—now you know the safe way to lose unslightly fat.  
 For a trifling sum you can get a jar of Kruschen Salts that lasts 4 weeks at Mayflower Drug Co. or any drugstore in the world—but be sure and get Kruschen—your health comes first.  
 Mrs. Caroline O. Dayton was in Owosso and Corunna on business Wednesday.
