FRANK LEARNED IN LEGISLATIVE NOMINEE RACE

City Commissioner Seeks Democratic Party Nomination

Frank Learned, member of the Plymouth city commission, and one of the best known residents of this section of Wayne County, has been induced to become a candidate for the Democratic nomination to the state legislature from this district. Friends during the past few days have circulated his petitions and secured many hundreds more signatures than were necessary to file in order to place his name upon the ballot.

Mr. Learned was a delegate from this newly formed congressional district to the Chicago convention and was one of the loyal Roosevelt supporters from the first. It was upon his return from the Chicago convention that his friends asked him for permission to use his name as a candidate in this district. Mr. Learned finally consented and his petitions were placed in immediate circulation, with the result that they were freely signed not only in Plymouth but elsewhere in the district where they were circulated.

Nearly 100 Present At Family Reunion

Nearly one hundred were present at the seventh annual Glezier family reunion held Sunday, July 10, at the home of Mr. and Mrs. Lawrence Glezier, Mr. Glezier is the son of the late Hyman Glezier, early Michigan pioneer. While the morning brought a hot sun, the afternoon was a beautiful one, permitting all the outdoor sports and features to take place. Fifty-six were present.

Former Plymouth Youth Is Married

On Sunday evening thirty-five guests were entertained at a luncheon at the L. O. Bloomer summer home on Lakeside Beach, near Traverse City. The cottage was attractively decorated. The tables were arranged prettily with organ-iron luncheon cloths in contrasting colors with the candles used as center pieces. These were in harmony with the colorful baskets of spring flowers distributed throughout the cottage.

Hundreds Attend Picnics In Parks

Over 200 were present Saturday at the annual picnic held in Plymouth-Riverside park by employees of the Euclid Investors Co. of Detroit. President Fred Palmer and Vice President William E. Lang and their families were in the group and enjoyed with the others the program of sports that had been arranged. One of the features of the afternoon was a ball game played with the Fleisig Body team, the fast Euclid outfit taking the Body makers into camp by a safe score.

Governmental Expenditures Have Increased 63 Per Cent In 5 Years

A STARTLING REVELATION TO THE NOW OVERBURDENED TAXPAYERS OF THIS NATION—THREATEN TO ABSORB THE ENTIRE RESOURCES

The following tabulation, prepared from the latest Annual Report of the Secretary of the Treasury, sets forth a comparison of Governmental expenditures by main subdivisions for the fiscal years 1927 and 1932:

	1927	1932	Am't. of Per Cent Inc.
Dept. of Agriculture	\$156,000,000	\$333,500,000	\$177,500,000 113
Agricultural Marketing Fund—net (Farm Board)	155,000,000	155,000,000	— 0
Post Office Dept.	27,000,000	195,000,000	167,700,000 614
Treasury Dept.	151,000,000	312,000,000	161,000,000 106
War Dept.	360,800,000	488,700,000	122,900,000 34
Navy Dept.	318,900,000	378,900,000	60,000,000 19
Shipping Board	13,000,000	69,800,000	41,800,000 220
Dept. of Justice	24,800,000	75,800,000	29,000,000 117
Dept. of Commerce	30,300,000	54,700,000	23,800,000 77
Other independent Offices and Commissions	37,400,000	77,600,000	22,200,000 59
Legislative Establish. Dept. of Labor	19,700,000	32,400,000	12,700,000 64
Administrative Services	9,900,000	14,700,000	4,700,000 47
Certificate Fund	115,200,000	200,000,000	84,800,000 74
Veterans' Bureau (Veterans' Administration since 1930)	381,500,000	784,400,000	382,900,000 100
Interior Dept.	302,700,000	78,300,000	224,400,000 74*
Total of Major Departments, Commissions, etc.	\$1,964,000,000	\$3,195,100,000	\$1,231,100,000 63*

* Since the Bureau of Pensions was transferred from the Interior Department to the Veterans' Bureau in 1931, in order to make a fair comparison with 1927 it is necessary to combine the expenditures of the Interior Department and the Veterans' Bureau for each period, which results in an increase in expenditures in these two divisions of \$188,500,000 for 1932 as compared with 1927.

OFFICIALS TALK NEW GAS RATES

Officials of Wayne, Northville and Plymouth met in Plymouth Monday evening for the purpose of considering gas rates charged in these three communities by the Michigan Federated Utilities.

Some time ago Mayor Robert Munnick and other officials of the City of Plymouth took up with the gas company the question of reducing rates in this place.

Then it was found that possibly it would be best to have all three communities represented at future discussions of the rate question and Plymouth officials requested the informal meeting which took place Monday evening.

TO SHOWWAYS TO IRRIGATE

Planning Demonstration At Bartel Farm On July 22nd

A method of supplying water to crops on large or small areas at a cost which gives the farmer a good profit from the increased production per acre will be shown at the Wm. Bartel and Son farm 3 miles east of Plymouth on Friday, July 22 at 1:30 p. m. by members of the Agricultural Engineers' Department of Michigan State College, according to county agricultural agent, Ralph Carr.

The demonstration at the Bartel farm will be supervised by George Amundson, specialist in agricultural engineering of Michigan State College. Two types of pump-lifting water will be shown. The water is distributed in the fields by lines of canvas hose which permit the water to seep gradually through the cloth and furnish the necessary water for plant growth.

This method of irrigation was developed by C. E. Hoyle, a member of the State College Agricultural Engineering staff. It has been tested for two years, and has proved entirely practical in the field. In some of last year's tests, the added water supplied by the canvas hose increased the yield of potatoes 150 bushels per acre.

The normal rainfall in Michigan during the plant growing season is not enough to keep crops growing rapidly, and frequently the growth of crops is stopped for periods of several days by the lack of water. Irrigation methods in common use before the development of the canvas hose system were too expensive for use on ordinary field crops and were of such character that they could not be moved readily from place to place.

Cost records kept on irrigation projects where the canvas hose was used last year showed that, in some cases, the cost of applying one inch of water to an acre of soil was as low as 50 cents. The cost will depend of course upon the distance the water has to be lifted and the type of equipment, lakes or shallow wells which can be utilized in most localities.

Additional! Help For Unemployed Families In City

In addition to the aid given by the city under the wage-work plan, the families of the unemployed need as much extra care as possible in order to take care of the necessities not furnished by the Welfare Department, according to L. P. Cookingham, City Manager.

Editor Plymouth Mail: Last week there was a word in the Plymouth Mail, as there always is every year about this time.

Skunk Family Has Moved Into Town, Noses Go Up In Air

"Skunks Chiseling Into Heart of Plymouth." "Plymouth's Skunk Problem." "What To Do With Our Growing Skunk Population." or "Skunks Are Back Yard Pets." Any one of the above headings might well sound the key note of an article if one is to judge by neighborhood comment around the intersection of Pennington Avenue and Harvey Street. It seems that a family, or possibly a colony, if that is the correct term, have established headquarters in the area bordered by Pennington Avenue, Harvey Street, Gravel Avenue, and Malu Street, and the human residents therein are becoming very much fed up with their society.

Possibly the employees and employees of business houses in that immediate vicinity do not consider this skunk invasion in the light of a problem because skunks only make their odoriferous presence known at night, but the people who really have to share this distasteful trouble are those who live on a day and night basis and are becoming weary of having the neighborhood air rendered sweet by flowers, shrubs, and growing things, contaminated by the pungent odor of skunk.

It is rumored that a well known neighborhood dog made himself decidedly unpopular by establishing contact with one of the little black and white beasts, and that a young lady was badly frightened the other night because one of these handsome but unpopular members of man's best friend's family temporarily disrupted the right-of-way to the back porch. And really it must be rather disconcerting to a hostess to have to explain, "The odor of skunk is unusually heavy this evening, one must have ventured into the back porch."

And the citizens of the neighborhood are beginning to ask themselves, "Is there a closed season in Michigan on skunks?" Why wouldn't it be a good idea to be ahead with a zoning ordinance as advocated by our chamber of commerce? Surely a restrictive zoning ordinance would not permit skunks to locate within the city limits.

It really is quite a problem. The mosquitoes could be taken on the quiet, but if a lady of the neighborhood were to display a new dress for any one of the large family of skunk fur, the source would be under suspicion. There would only tell.

Mrs. Seating Has Old Copies Of Mail

L. J. Seating brought to the Mail office the other day a number of copies of the Plymouth Mail that were over thirty years old. They have been in the possession of his mother since they were published and are in an excellent state of preservation. It is interesting to note the many changes that have taken place in Plymouth as reflected in the old papers. Mrs. Seating highly prizes these Mails published in the interest of a generation that has passed.

David Nichol Weds Miss Eloise Kincaid

Mr. and Mrs. Alfred Jennings Kincaid of Montgomery, West Virginia, announce the marriage of their daughter, Eloise, to David M. Nichol, son of Rev. and Mrs. Walter Nichol of Plymouth on Tuesday, June 21, at LaGrange, Indiana.

Jacox Oil Corp. Opens Hi-Speed Station

Announcement is made of a formal opening of Jacox Oil Corp.'s new Hi-Speed Station located at Ann Arbor and Canton Center, Road. This station was recently purchased by the Jacox Oil Corp. of Frank Palmer in order to better serve the Plymouth territory with the popular Hi-Speed Products.

Plymouth Vets To Form Bugle Corps

All members of the American Legion of Plymouth and their families are urged to attend the supper this evening at Jewell and Blitch hall at 8:30 o'clock with the regular meeting immediately following. Plans have been made to form a bugle corps at this time and representatives from a musical instrument company of Detroit will be present to demonstrate the necessary instruments. A large attendance is desired so Legionnaires plan to be there.

PLYMOUTH VET HOME FEW DAYS

Delbert Cummings of Plymouth, Michigan, returned from Camp Mark's, Annapolis, Washington, D. C., with credentials from the B. E. F. Headquarters and certification as an authoritative representative of the circulation department of the B. E. F. News, Veteran Cummings is reported to the officials of the Executive Service Men's Club of Plymouth, and the United Veterans of America, Plymouth Unit, of which he is a member, and he gave the plain facts and truth relative to the B. E. F. and which should be of great interest to all veterans and citizens of Plymouth. Veteran Cummings states that Camp Mark's, Annapolis, has 14,000 veterans camped, and that there are 13 other camps besides the main camp and estimates the total number of men at 65,000. The government's efforts to induce the Veterans to accept transportation home with an allowance of 75¢ per day for food, its meeting with no success. Mr. Cummings knows the government's offer. His personal view is NONE WILL ACCEPT, and that all there will stay camped until the bonus is paid or some adequate relief for the unemployed is developed by the government.

To illustrate how efficiently and scrupulously the affairs of the B. E. F. are handled the following copy is Mr. Cummings' official pass printed below:

LOYALTY

Loyalty is one of the most essential of the virtues; likewise one of the rarest. Just now we have in mind community loyalty—or the lack of it. In the building and growth of towns and counties and cities, or their failure to grow as they should, loyalty or disloyalty is often the determining factor.

There is one city in this region that has been pushed ahead by the loyalty of its inhabitants, nearly all of whom are constant boosters. To declare that it is the best city in all the land became a habit with the citizens there many years ago. The children of the last two or three generations have been "raised" on this brand of yeast. They are all puffed up with the idea that it is the best city in existence and they couldn't believe otherwise if they tried. They do not look elsewhere for what they want, believing it can be bought in their own city. The spirit of loyalty is a passion with most of them. There may be others who practice patronizing home enterprises with only a selfish object in view, but they also are helping to build their town. No great mental capacity is required to realize that all money spent in our own community helps everybody in it, sooner or later, directly or indirectly.

In the smaller towns the complaint is sometimes heard that the local merchants do not carry what the people want. Again, we hear that prices are lower somewhere else (at special sales probably) and some people make the trip to get something at a slight reduction, not counting the cost of the trip and the time. A saturation of community loyalty would change all this and the merchants would have in stock what the people want. Nothing would please the merchants better than to know the home people would buy from them the same things they order by mail or make trips to purchase in other towns.

The merchants need to do their part also. Oftentimes they have in stock the identical articles that people want, and go elsewhere because they do not know it. We were asked recently where a certain line of articles could be found in Louisa. We did not know because we had never had occasion to inquire at any of several stores that might be expected to have them in stock and could not recall having noticed them on display. They had not been advertised.

If the merchants can find out what the people want they will keep it in stock. If the people can learn without too much waste of time and energy what the merchants have for sale they'll buy from them more and oftener, then they otherwise do. The habit of patronizing home people may be acquired in this way, along with a development of the spirit of loyalty to home.—News-Recorder, Louisa, Kentucky.

UNCLE SAM A HARD COMPETITOR

Uncle Sam may print envelopes in competition with local printers, do dental work in competition with dentists, he can loan money, run banks, conduct commercial shipping, handle railroads, buy wheat, sell groceries, and operate mills, but there is one thing that he cannot do, he cannot make any money or pay any dividends in conducting all this business. The taxpayer, who is called upon to meet all the deficits, has found this out. Just as the government is going into business, thousands of people are going out. In the meantime, taxes have increased in the Federal government by 730%, and those who still have a "going business" find it hard to pay this increase in taxes, much less meet Uncle Sam's competition, according to officials of the Minnesota Taxpayers Association.

America's greatness is built, not upon political officiousness, but upon the industry and the thrift of the rank and file of the American people.

When the government eventually finds its way back to its proper sphere, when it quits competing with its own taxpayers, when it commences again to deal successfully with crime, with taxes, and other functions, and when the individual learns over again that individual responsibility represents opportunity, we will again enjoy the fruits of our labor and our inventive genius, and we will get back to our normally prosperous condition.—Journal-Press, Buffalo, Minnesota.

WELFARE

When business takes you into Detroit, have you ever noticed the number of men "working" along the streets that you pass over? Have you noticed that out of the dozens and dozens you see manned with shovels and brooms that seldom, if ever, they are working with them? Always they are resting on the broom or shovel handle, talking with some one, spitting tobacco juice on the street, or watching the traffic. These are the lazy bums that the good people of Detroit are called upon to support. Detroit through its welfare policy has without the slightest question done more to wreck the standard of American life than any other place in America. It has got to a point now where there are hundreds of thousands in Detroit who will not work and who believe that it is your duty to support them in their miserable laziness. Something is going to happen to rectify that condition. The average hard-working citizen, school teacher and others who are forced to support these loafers are going to rise up in revolt and refuse to support these loafers any longer—but not until this happens will these bums do anything towards trying to support themselves.

WHY?

Often the hard-working taxpayer who toils from early morning until late at night trying to make enough money to support his family and pay his taxes, wonders why the tax burden of the average American should be so great. There are just two reasons, one is graft, the other reason is official incompetence. There is no denying this fact.

An Unequal Race!

A Prayer

Our Father in Heaven, though we can not perceive all Thy ways, and much is hidden because we are so imperfect, yet Thy great brooding soul overhangs us still. We rejoice in Thy supremacy, though it is too wonderful for our self-closed eyes. Hear us, for we approach Thee in the name of Him who so miraculously identified Himself with humanity. Arouse us all with His passion, which was a passion for good upright living; stir us with a holy restlessness with things wrong and unjust, and with a sacred determination to make our contribution toward a better day and a better country. Enable us to so labor and strive for these, that latter shall be added to our patriotic citizenship. Keep us in harmony with that divine order whose chief concern is to save man in a saved world. In the name of Jesus.

I Couldn't Live In Town

I couldn't live in my town.
 No peace for me could there be found.
 Amid its busy throng;
 I'd rather live here on the farm,
 Where I feel safe from every harm.
 And hear the robin sing.
 I do not like the hard paved street
 Where every day so many feet
 Go rattling to and fro;
 I'd rather walk on grassy ground
 Where sweetest wild flowers
 abound.
 And watch them as they grow.
 I'd rather go to my small brook
 With fishing rod and tiny hook
 Than go to miners' gay.
 I'd rather watch the drowsing bees
 And list to murmuring wind
 through trees
 Than go to picture play.
 I'd rather watch my children
 three
 A-playing 'neath the maple tree
 Out here on my front lawn;
 I'd rather hear their sweet
 "good-night"
 And prayers ere I put out the
 light
 Than dance until the dawn.

The Barnacles

I saw the little Barnacles
 All clustered on a rock.
 They did not seem to mind at all
 The great sea's noisy knock.
 But there they clung as tight as
 tight.
 I thought them fast asleep.
 Until the tide had turned and then
 I took another peep.

I saw the little Barnacles.
 The sea was not so high.
 They had their doorway open
 then.

To get their food supply,
 They reached for it with fingers
 slim
 Upon a tiny hand;
 But what they found so good to
 eat
 I could not understand.

I saw the little Barnacles
 Again. The tide was low,
 And high and dry the Barnacles
 Had been an hour or so.
 They must have had enough to eat
 Before they went to bed.
 For they were just as fast asleep
 As Baby when he's fed!

Courage

Above all, that I may not be a coward: That I may have courage—courage to be unmoved by the uncertainties of life, and without dread of loss, whether of friends, of health, or of fortune: That I may come with a firm and tranquil mind to the work of this day, fearing nothing—ready to meet bravely failure or deprivation.
 John Brisbane Walker.

Lines From A Sundial

Time is
 Too slow for those who wait;
 Too swift for those who fear;
 Too long for those who grieve;
 Too short for those who rejoice;
 But for those who love,
 Time is eternity.

EVEN LAWYERS

By DOUGLAS MALLCOCH

THE boy's decided law is what he wants to do, Although, of course, his Maw hoped preachin' was his plan. But, if it's law, O. K., I'll help to put him through, Yes, I'll be glad to pay, help any way I can.
 And when he gits his—well, whatever lawyers git,
 Though Maw has had a spell because it ain't to preach,
 And when he's home again, then we'll sit down a bit,
 And sort of figger then, together, each with each.

A father and a son, a youngster and his dad,
 Have got one duty, one they never ought to miss,
 A pair of chairs to bring, the gray-beard and the lad.
 To talk about one thing, and that one thing is this:
 It ain't how much the pay, the cash the boy'll make,
 It ain't the hours a day, it even ain't the place,
 But whether what he asks is service for men's sake,
 For even lawyers' tasks can be works of grace.

Although his Maw is sick because the law he took,
 The weeds are mighty thick, the vineyard needin' care;
 There's lots of work to do, accordin' to the Book.
 And there is labor, too, for even lawyers there.
 There's many sorts of needs that need this boy of mine,
 And lawyers can pull weeds as well as preachers can.
 Whatever trade it is, I know his light will shine,
 The lance is always his, if he's an honest man.

Living Costs

Living costs have been cut in two ways: prices have dropped; the average person has eliminated the unnecessary items from his budget and so the outgo has been cut down.

Despite reduced incomes many people are spending less than they earn and so naturally the question arises what to do with these savings.

The average person will find a savings account at this bank the best place in which to collect these accumulations for money in the bank is one of the few investments still worth 100c on the dollar.

Predicts Building Boom in Smaller Cities in Next 10 Yrs.

If the prediction of Franklin Hobbs, noted American economist, comes true, Plymouth and all other suburban communities, will during the next ten years experience the greatest growth in their history. He declares that the United States will build as many cubic feet of buildings and will add as many square feet of floor space as now exist during the next 10 years. The majority of this will be in the smaller towns, he states. His statement, he said, was based on facts as well as theories, but it had been "proved" four times in the past 30 years.

"Incredulous" he queried. "Long-experienced, hard-headed architects, contractors and engineers are not ready to accept the statement from a mere statistician that in the next ten to fifteen years it is their job to build a country equal to what lies before us today. The difficulty is that you men never thought of it in just that light. Most of you have never measured the growth of the needs of our people, let's talk about that for a moment."

"The average price of all things is now about 25 per cent below the average for 100 years, yet it costs a man three times as much to live as it did just a generation ago."

"It costs a man nine or ten times as much to live as it did 100 years ago, and yet I remind you that the average price of everything we eat, wear, use, or consume is 25 per cent below the average for 100 years."

"The difference in the cost of living, which is covered by this 200 per cent increase since 1900, is the amount required to purchase the things we did not have in 1900, and could not get along without today. It costs you, each of you, three times as much to live now as it cost you to live in 1900, even though you live no more extravagantly now than you did then. So much for the growing demands of men."

"These growing demands of men require a similar increase in buildings of every nature."

"The telephone, the electric light, the oil heater, the radio, the mechanical refrigerator, the automobile—all of these require buildings in which they may be made, and in which they may be stored, and office buildings to house the executives, and the clerical force, which handle their distribution."

"I submit, then, that the growing demands of men include a corresponding demand for additional building space and, when the demands of men multiply themselves by three in a generation, the accompanying demand for space insures the erection of practically three times as much space during a generation of time as was in existence at the beginning of that generation."

"I think the single-family dwelling is coming back, just as the small factory is now staging a sensational comeback. We shall have more hotels and large apartment buildings, but the principal building activity for the next two or three years promises to be single-family residences in suburban districts."

"Gentlemen, are you ready to build a city such as we now have before us during the next 10 or 15 years? You did it between 1887 and 1898; you did it again between 1890 and 1910; you did it again between 1911 and 1922; and you have almost completed the job of doing it again between 1922 and 1932. It is going to be done again between now and 1945 in the Chicago area, and in the Detroit area, and in many other areas of concentrated population. It is going to be done also in the small cities, and in the medium size cities."

Want a Homestead? State Tells You How To Get Public Land

Frequent requests are received by the Lands Division of the Department of Conservation for lists of state lands suitable for a particular purpose, such as sheep pasture, hunting camps and fur farms. Such lists are not available, the Lands Division states, inasmuch as detailed examinations of land are only made when the Division receives applications for the sale, exchange or homesteading of specific properties.

However, considerable information may be had from the maps published by the Land Economic Survey Division which have been located several of the northern counties. These maps, together with the accompanying reports, show in detail the nature of the soil, timber growth, lakes, streams and the location and extent of clearings and other man-made improvements.

Such maps, used in conjunction with state land maps, should prove an excellent guide for any one seeking information as to the character of state lands, a price list of such maps may be secured from the Land Economic Survey Division of the Department.

County maps showing the state owned and state tax lands may be obtained from the Lands Division at a cost of six cents per copy.

There is no standard price at which any class of state land is sold. Rather the value of each individual description is determined from the report of the Department's field examiner. When an application is received for a specific piece of property, examination is made and a value is placed on the land. This property is then sold at public sale to the highest bidder unless the highest bid is below the appraised price.

Applicants for homesteads must be at least 21 years of age, must not be the owner of 40 acres of land in any state and cannot obtain more than 160 acres as a homestead.

No state land is disposed of, according to the Lands Division, if it should conflict with the Department's public land projects or policies.

Kay Brothers Circus which will appear in Plymouth for afternoon and night performances, today (Friday) is said to be one of the largest and best circuses traveling by motor trucks. This year as a feature, the management has secured Mena, the largest performing elephant in America. A special built truck is necessary to haul this mammoth elephant from city to city. Along with the elephant you will find Mose, largest single hump camel. The circus is presented in two rings and elevated stage, and one act at a time. The program includes acrobats, clowns, aerialists, tumblers and gymnasts. Prices have been reduced this year to 10 and 25 cents for the first time in 20 years. It will show at Canton Court Road.

The state also reserves mineral, coal, oil and gas rights on property disposed of as well as maintaining the right to all aboriginal antiquities and to explore and excavate for these antiquities.

Last year the Lands Division disposed of, through sale and homesteading 15,077 acres of state lands and 2,000 city lots, bringing the state of Michigan an income of \$410,000. The Division also effected the exchange of 13,285 acres of state lands. Funds obtained through the disposal of property are placed in the general fund of the state.

The Lands Division report as of January 1, 1932, showed 2,129,001.44 acres and 76,000 plotted lots under the control of the Department of Conservation. More than nine-tenths of the land reverted to the state for continued non-pay-

chairman of the road commission. Lack of funds has cut the total number of workers to 1,400 men today, Hines said.

The detailed report of the commission was in answer to critics on the County Board of Supervisors and other assailants of the highway plan who last October opposed a half-mill tax for county road purposes.

"This tax cost only about 50 cents on \$1,000 and if it had not been levied the community would have had to pay these men through the welfare, from which department they were taken," Commissioner Hines said.

"We staggered the work so each man got a full 53-hour week every other week. The work these men did included construction of viaducts, bridges, roads, parkways and a two-mile seawall off the Lake Shore road, Gross Pointe Farms."

LEADERSHIP IS NEED OF TODAY

It is expected that radio telephone service from the United States will be extended to half a dozen Central and South American republics bordering on the Caribbean Sea by the end of this year, according to announcement today by Roy E. Crowe, manager here for the Michigan Bell Telephone company. Furnishing the service will necessitate the establishing of a new radio station at Hialeah, Florida, near Miami. Equipment for the station has been ordered.

Among the new countries to be reached by the service is Panama, including the Canal Zone. The latter will be the second outlying possession to be connected with the United States by radio telephone, as service with Hawaii was opened last December.

Other Central American republics included in the scope of the service will be Honduras, Nicaragua and Costa Rica. The South American countries to be connected are Colombia and Venezuela. The Bahama Islands also will be reached through the new station. With the proposed services in operation, the United States will have direct telephone connection with nearly all the countries and islands bordering on what was formerly known as the Spanish Main, as well as service already reaches Cuba and Mexico, and radio telephone service was extended to Bermuda late last year. The additions will bring the total foreign countries within telephone reach of the United States to 45.

Highland Parkers Trim Nethem Team

The Highland Park Mechanics semi-pro club of Highland Park, took a close game from Nethem on Sunday before the largest crowd of the season. Gale was in form but his team mates could not hit in the pinches for him, and he lost a close game.

B. Burke the pitcher was the leading hitter of the day getting three out of four, while Tonkovich again lead the Nethem boys by getting three out of five, one of which was a double.

The Nethem boys are playing good head-up base ball, but are failing to hit in the pinches, so manager R. Levandowski has secured Gus Hanan of Ann Arbor a hard hitting left-hand first baseman who will add the needed punch.

Sweet Sunday the City of Ferndale Club another strong semi-pro club will take on Nethem at Rousseau's park at the corner of Ann Arbor Road and Plymouth Road, so come early to get choice seats and parking, as the largest crowd of the season is expected, and don't forget to give Gus Hanan a hand, as he is expected to make Nethem a winning club.

WHY WE CHOSE A SIDE SERVICING HEARSE

—To surround the funeral ceremony with an atmosphere of quiet dignity.

—To leave in the minds of grieving friends and relatives the comforting feeling that the last sad rites were handled tactfully, smoothly, fittingly.

—To have available for instant call a funeral car which will contribute its share to accomplish these results.

These were the considerations which induced us to purchase a Hensley No. 3-Way Side Servicing Hearse. This new type vehicle avoids the inconvenience and awkwardness of "rear-loading." It permits the casket to be placed directly from the side-walk upon the rolling casket table which is then drawn quickly and quietly into the car.

WEDNESDAY HOTTEST DAY OF ENTIRE YEAR

Wednesday!

The hottest day of the year. There may be other and hotter days coming, but Mr. and Mrs. Plymouth will tell you that Wednesday was the hottest of any day so far during 1932.

Up to the present, this section of the state has enjoyed exceedingly delightful summer weather, not too hot and nights always cool.

Wednesday morning everyone knew that it was going to be a regular good old July day, with plenty of heat before night.

Added to the hot sun and hot wind was the additional heat generated by the political discussions.

Attention workers and farmers! Come to the open air meeting Saturday, July 16 at 8:00 p. m. Canton Center and Ann Arbor road, and hear what the Communist party has to offer the workers and farmers. Charge County Committee, Communist Party. 351pd

GET COPIES FOR ATKINSON REPORT

A. J. Koenig, city manager of Fort Atkinson, Wisconsin, former city manager of Plymouth, has called one or two copies of the annual report of that city he has just issued to some of the city officials of Plymouth. The report is an interesting one and tells in detail the work that is being accomplished in that city.

There is a chapter devoted to the welfare work that has been carried on in that city. Fort Atkinson, a place where vast numbers of transients pass through, last winter provided a lodge for the men stranded in that place.

The report prepared by Mr. Koenig for Fort Atkinson is very much like the one he compiled for the city of Plymouth when he was employed here.

America is counting cylinders and AMERICA PREFERS THE SIX

Since January 1st, buyers have chosen more Chevrolet Sixes than the combined total of all fours and all eights priced below \$1000

CHEVROLET

SIX CYLINDERS

NO MORE — NO LESS

For GREATEST ECONOMY and BUILT-IN SMOOTHNESS

With more than six cylinders you sacrifice economy—With less than six cylinders you sacrifice smoothness.

When buying a low-priced car, do as America is doing: Count cylinders! And you'll say, as America is saying: "SIX! No more. No less!" America is saying that in the most convincing way it could possibly be said! With SALES! Since January 1st, the public has purchased more Chevrolet Sixes than the combined total of all four-cylinder cars and all eights priced under \$1000.

Why? America counted cylinders and came to this conclusion: six is the ideal number for a car of lowest price! No more, because an engine with extra cylinders is bound to cost more for gas, oil and upkeep. No less, because six is the

smallest number of cylinders you can have in a car and avoid the undesirable effects of inherent vibration.

A six, as Chevrolet builds it, is the happy medium between two extremes. It gives unexcelled economy. No other motor car engine in America today costs so little for gas, oil and upkeep. It gives built-in smoothness. From 6 miles an hour to 65 or 70, Chevrolet is quietly, comfortably, enjoyably smooth. And because of this smoothness—plus the fact that the whole car is so solidly, ruggedly built—Chevrolet is a low-priced automobile that really stands up. It's a good, reliable, economical car the day you buy

it... and it keeps on being good, reliable, economical after 5,000—10,000—15,000 miles of driving.

In addition, Chevrolet is a modern car, with Free Wheeling, Syncro-Mesh gear-shifting, Fisher bodies—and many other advanced features. Be cylinder-wise! Follow America's lead and make your next low-priced car a six—a Chevrolet Six! Unless you do, you can't expect the smoothness, economy, and lasting satisfaction to which your money rightfully entitles you.

Girl Falls at Dam Fractures Skull

Nipping from the top of the dam at Phoenix Park where she had been standing in a bathing suit, resulted in serious injuries for Thelma Skreigan, 15 of 11388 Dyr Avenue, Highland Park on Tuesday. The girl was picked up unconscious out of the water at the foot of the dam and hurried to Receiving hospital at Redford where it was discovered she had a fractured skull. Her condition on Wednesday was reported serious.

Drought Condition Hurts Crops, Acreage To Cut Production

Drought conditions which had become serious in Michigan by the last week in June are reflected in the July 1 crop report of the Department of Agriculture which was released today by Irvin Holmes, Assistant Agricultural Statistician, and Herbert E. Powell, Commissioner of Agriculture. The condition of oats, barley, potatoes, beans, and field peas was below, average as the result of several weeks of deficient rainfall and high temperatures preceding July 1 when the survey of crop conditions was made. Generous rains which occurred during the last few days of June and the first week of July have since helped crop prospects over the greater portion of the State.

The acreage planted to crops this season is practically the same as that harvested last fall, but since there was considerable abandonment of acreage on account of the drought in 1931, the 1932 planted acreage is about two and one-half per cent or 187,000 acres smaller than that planted a year ago. Low prices for farm products appear chiefly responsible for this retrenchment. Barley, sugar beets, potatoes, rye, and alfalfa are the only major crops to show increases in acreage this year.

The acreage of field beans in Michigan is estimated at 340,000, 12 per cent less than the 614,000 harvested last fall, 19 per cent less than the 668,000 acres planted last spring, but four per cent more than the ten-year average harvested

DAREDEVIL OF THE SKIES

Bill Henderson, foremost of American parachute performers, and the balloon from which he will make a mile high dive at the Walled Lake Amusement Park Sunday, July 17th.

acres. The condition of the crop on the first of this month was 78 per cent of normal or one point above July 1 last year. As rainfall during June was quite spotted over the State, the condition on July 1 varied considerably, but in general, the early outlook was the poorest in the central counties. The pro-

duction indicated by the above acreage and condition is 5,940,000 bushels or 3,584,000 bags, but the final output depends upon future weather conditions. The 1931 crop, which was cut by extreme heat in July and August, amounted to 5,526,000 bushels or 3,316,000 bags.

The total production of all wheat in the United States including winter wheat, durum wheat, and other spring wheat is forecast at 726,911,000 bushels as compared with 894,204,000 bushels harvested last year. Increased production of spring wheat compared with the short crop of last year offsets to a considerable extent the reduction in the nation's winter wheat crop.

PLYMOUTH CLUBS LOSE

The Plymouth Clubs lost to Cherry Hill Sunday, July 10. Earl Thomas hit a home run in the first inning. George Bowers walked three men in the third and ten men faced Bowers in the third with five runs. Bowers had nine strikeouts, 4 walks.

YOUR HOME and YOU
By BETSY CALLISTER

FOR BLANKETS AND QUILTS

The up-to-date city apartment and suburban cottage has a special place provided for almost everything. There are closets for brooms and dust mops, ironing boards that can be turned up into the wall, built-in book shelves and even special closets lined with cedar in which to keep heavy clothes during the warm months. To the woman who realizes that in order to keep everything in place there must be a specially assigned place for everything, it is often a problem to find a convenient place for extra blankets and quilts.

Often a good sized closet with shelves located in the hall near the bedrooms is the answer to the question. This, of course, necessitates having a general place of supply for all the rooms.

Recently in refurbishing an old home a resourceful housewife planned to have a window box in each bedroom, to be used as a box for extra bedding. They were therefore fairly wide and long with hinges so that they might be opened up quite easily. Chintz-upholstered pads on top made them a real extra seat in each room. In these window boxes all blankets, comforters, and quilts are kept for each room—as well as clean bedspreads and two or three clean sheets and pillow cases, signed for the room. These sheets are marked with the initials of the one who occupies the room so that they are easily sent to the room where they belong after they have been washed and ironed.

Of course, winter blankets cannot be kept in these seats in summer when moth doth corrupt. Then they are simply cleaned and laid away in a cedar chest expressly set aside for bedding in the attic.

If you have little room and still want to have your bedding kept in the rooms where it is used you may use low matting-covered boxes on rollers to go under each bed. These boxes may be bought at small cost and are neat and easily pulled out and pushed under the bed.

Rosedale Gardens

Welcome to the community, Mr. and Mrs. Percy M. Butterick and son, Jack. The family has purchased the L. L. Landry cottage at 9006 Cranston Ave. and will "move in" in a short time after extensive alterations and renovations have been completed.

Storm

On last Thursday at 4:00 post meridiem did considerable damage to things not nailed down, for instance trees and shrubs in exposed places and hollyhocks, et cetera. To say nothing of the largest plate glass window on U. S. 12, that of the north window of R Drug Sunday emporium, and half jurred mind and memory from R grocers boy (Evel) when it crashed in ten million (more or less) pieces.

Picnic

of the St. Michael's Church will be this coming Sunday post meridiem (the 17th instant) and on the farm and in between the trees "everything" road down half way "tween Middlebelt Road and Merriman Road just north of Joy Road.

There will be all kinds of diversion, dancing on specially built dance floor; and tents for everything tentable, and games and all kinds of eats by the Parish Ladies.

Gone

and moved away, and missed by all are the Vandewater family.

R. B. B. C.

had its First Annual Dance in Pt. Cartwys's St. Michael's Parish Hall last Saturday Nite, and what a dance and what a music.

Yeah Northview!

came to us last Sunday to play at Rose Hall, and did at 3:00 sharp. We were to have two games but some of the boys musta felt tired

after the dance, 'cause they didna show up 'till after substitutes or alternates took their places.

Then the game was nicely played and all went well and the visiting boys and families enjoyed themselves and hobnobbed with friends and boozers from the local point.

Then the final score was Rosedale Gardens R. 12, H. 12, E. 2; Northview R. 17, H. 13, E. 2.

Laughable

features of the game were when Elmer (R team) and Pappy Arbuckle (of the N's) 3rd baseman bumped the bumps when Elmer was off on the pitch and bumps ditto and ditto when Wags went down back ways on the bag with Elmer on top and the ball between their chests.

Horn Honking

by us and visitors is being commented on by recent neighbors, so please, everybody, don't wear your bawdy down, it don't help the players, and may cause Sunday games to be discontinued. Cooperation by an auto help considerably.

Clear Air

is much in evidence after the many short showers lately, and at nite the pretty sun sets make us wish for this weather for always.

New Uniforms

for the Rosedale Gardens Base ball Club will be worn in next Sunday's game with Northville Independents.

"The World and the Flesh"

A gasty adventuro-story of the hectic days during the Russian revolution is the current vehicle for George Bancroft at the Penniman Allen Theatre Wednesday, July 20. Briskling with intense dramatic thrills, "The World and the Flesh" provides the ebullient Bancroft with his most sensational character-

ization since "The Mighty." Paramount has gone to great pains in providing an abundance of authentic atmosphere for its burly star in this film production. Scores of scenes in scores of indoor and outdoor locales heighten the realism of the story which moves rapidly from one thrilling episode to the next.

Coming Attractions At Penniman Allen

"THE DOOMED BATTALION" Many of the most remarkable feats of photography ever recorded on a screen are promised in "The Doomed Battalion," which is coming to the Penniman Allen Theatre Sunday and Monday, July 17 and 18.

It is a story of battles above the clouds, many of them at night and in the darkness of gun powder and bursting explosives, and of a heroic company which was undermined and their embattled fortress blown to kingdom come. Since much of this Universal film was taken on historic ground, the place where the Italians and the Austrians fought each other to a standstill for two years, every effort was made by the photographers to record conditions as they really existed in war time.

"The World and the Flesh"

Tala Birell, brilliant European sensation, is featured in the production, along with Victor Varconi, Luis Trenker and Henry Armetta.

WATCH OUT! It's good-bye to your gasoline dollars if Engine-Waste and her gang break into the pasture. Shell Gasoline is specially produced to stop this thievery. Old Lady Engine-Waste will never milk away another dollar of yours, once you change to Shell. Because in Shell Gasoline you get a perfectly balanced fuel—made possible only by a remarkable process plus many years of consistent development in refining and blending. Shell cuts down Engine-Waste in all its forms! We all know this Engine-Waste gang: Knocks, slow pick-up, dilution of oil, slow starting, gummy valves. When one of them occurs in your motor it means one thing—your gasoline is not performing as it should. Gasoline is being wasted. Engine-Waste is putting your mileage on the toboggan . . . shooting your driving costs upward. Why not switch now to Shell, and be rid of this danger for good? Shell costs you not one penny extra. Yet every lot of Shell must prove in engine tests at the refinery that it will cut Engine-Waste in your car. Get a tankful of Shell today. Test it. Then see if you don't agree with the millions who say, "You save with Shell."

Investing Safely

Good News! You no doubt are tired of listening to tales of lost profits and bad investments. Here's good news about an investment that has proven itself depression proof. An investment that has kept right on making money through the depression. During the past six months the 12,000 Building and Loan Associations earned a total of two hundred million dollars for their savers. Instead of apologies, the Standard paid its shareholders in excess of one quarter million dollars in dividends, and kept the value of its shares at 100 cents on the dollar. 1932 is half gone. If you are a Standard investor, congratulations. If you are not, now is the time to start and get a share of this worry-proof 5% investment.

Instead of bothering with trick guarantees, phony inducements and special deals, smart car owners ask themselves:

Why buy any SECOND-CHOICE Tire when FIRST-CHOICE costs no more?

Right now you car-owners are "sitting pretty" . . . You can buy more safe, comfortable, trouble-free mileage for a dollar than in any previous summer . . . You don't have to put up with second-choice tires for reasons of economy, because first-choice tires cost you no more! . . . Goodyear Tires—the kind we sell—are first-choice here, throughout the state, throughout the nation, by more than 2 to 1! . . . They outsell all others not because of any trick guarantees, or phony inducements, or special deals, but simply because they give people the biggest money's worth, and people know it! . . . Don't be argued out of the benefits to be had from the leading tires and our service.

Eight Questions In State to be Voted On At Fall Election

About 150 more candidates are expected to secure places on the September primary ballot by filing petitions with the Department of State before the close of business July 26. To date, only 24 candidates have filed for lieutenant governor, congress and the state legislature.

When the time for filing initiative petitions expired July 8, seven proposed constitutional changes and one referendum had qualified for submission to the people in November. Under a resolution adopted by the 1932 special session, constitutional amendments are to be numbered. The proposals will appear on the ballot in the following order:

No. 1—Alteration of present constitutional prohibition requirements to permit establishment of a liquor control commission.

No. 2—Limitation of taxes on real estate.

No. 3—Legislative reapportionment.

No. 4—Exemption from taxation of homesteads.

No. 5—Changing election laws in cases where portions of townships are incorporated into villages.

No. 6—Changing method of pardoning first degree murderers.

No. 7—To allow only property owners to vote on bond issues.

No. 8—Whether the oleomargarine tax measure adopted by the 1931 legislature, shall become effective.

The first four questions won places on the ballot by the filing of the proper number of signatures with the department of state. The legislature ordered the fifth, sixth and seventh questions submitted to the people while the last question is the result of the filing of referendum petitions preventing the oleo tax from becoming effective until approved by the people.

All candidates for governor, lieutenant governor and candidates for congress and legislature from districts comprising more than one county, must qualify by filing the required number of petitions by July 26. In addition candidates for vacancies on the bench in Kent,

Saginaw and Wayne counties must file proper petitions by the same date.

Milford Bank Is Open For Business

The First State Bank, which closed early in April to effect a reorganization, was reopened July 1, and with a new appreciation by the public of what banking facilities mean to the business life of a town. The steps of reorganization have been fully covered in these columns and the bank starts anew with bright prospects for the future. This was clearly manifest in the deposits of July 1, 2 and 3, which for the three days totalled over \$16,000. The amount paid out through cashing checks and commercial transactions amounted to \$8,500.—Milford Times.

CHRISTIAN SCIENCE CHURCHES
 "Sacrament" was the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, July 10.
 Among the Bible citations was this passage (John 13: 14, 15): "If I then, your Lord and Master, have washed your feet; ye also ought to wash one another's feet. For I have given you an example, that ye should do as I have done to you."
 Correlative passages read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, included the following (p. 37): "When will Jesus' professed followers learn to emulate him in all his ways and to imitate his mighty works? Those who procured the martyrdom of that righteous man would gladly have turned his sacred career into a mutilated doctrinal platform. May the Christians of today take up the more practical import of that career!"

This Man Had Faith Lost 24 Lbs.
 "Last November I weighed 192 lbs. Today, (February 5th, 1932) I am down to 168 lbs. and full of pep all day long—since using Kruschen I have not had to use the laxative that was my customary."—Theo. A. C. LaFleur, Providence, R. I.
 What do you think of this—you men who doubt—you stay fat—because you want to think that nature made you that way.
 You're all wrong—must fat men were made fat because of their inability to handle a knife and fork in a business like manner.
 Be frank with yourself. Are you too timid to take a safe, harmless conditioner that not only takes off surplus fat but is so helpful that it makes you feel years younger?
 To reduce safely, take one-half teaspoonful of Kruschen in a glass of hot water before breakfast every morning—cut down on fatty meats, potatoes and sweets. Kruschen is sold by Mayflower Drug Co. and druggists the world over. A jar that costs but a trifle will last four weeks—but be sure you get Kruschen—your health comes first.

TASTY LAMB SANDWICHES
 SANDWICHES that are filling and enough for a good meal are the kind to put up for an active youngster or a picnic party that will have a day of fishing or hiking.

Lamb Sandwich.
 Chop cold roast lamb fine, season with salt, pepper and tomato catsup. Add to this mayonnaise dressing in which chopped olives have been mixed and spread on buttered bread.

Lamb and Pepper Sandwich.
 To half a cupful of minced lamb add one tablespoonful of finely chopped green pepper. Mix with mayonnaise or boiled dressing to spread.

Lamb and Mint.
 Take one-half cupful of chopped lamb, one and one-half tablespoonfuls cooked green peas, one and one-half tablespoonfuls of diced celery, mayonnaise, one teaspoonful of chopped mint. Mix and use on split, buttered dinner rolls.

Lamb and Jelly Sandwich.
 Split rolls and spread with currant jelly with mint. Lay on a thin slice of roast lamb and cover with a buttered top of the roll. To the currant jelly, heat until smooth, add the grated rind of an orange, salt, and two tablespoonfuls of finely minced mint.

Children of May—Every child of the parish must belong and must go to communion every fourth Sunday of the month. Instructions in religion conducted each Saturday morning at 9:30 by the Dominican Sisters. All children that have not completed their 8th grade, are obliged to attend these religious instructions.

Township officers, Charles Rathburn, supervisor; Norman Miller, clerk; Floyd Eckles, justice; Arlo Brisbois, health officer and Arlo Emery, city attorney, attended a testimonial banquet for Governor Brooker Wednesday evening, July 8, at the Grosse Pointe Yacht club. This banquet was given by Wayne County supervisors outside of the city of Detroit, for the purpose of showing their appreciation to Governor Brooker as it was largely through his efforts that the Coverlet Road tax was modified, thus bringing tax relief to those whose land bordered on a Cover Road.

Mrs. Corwin E. Walbridge delightfully entertained eight guests at a luncheon-bridge last Wednesday at her home on York avenue, Roseale Gardens, in honor of her house guest, Mrs. G. G. Fisher of Chicago, Ill. The invited guests were Mrs. James W. Partlan, Mrs. David Brooks, Mrs. H. W. Bulker, Mrs. C. B. Chamberlain, Mrs. L. E. Todd, Mrs. C. E. Smith, all of Detroit and Mrs. Henry Oakes of Plymouth.

Mr. and Mrs. Arno Thompson entertained at dinner Sunday at their home on the Novi Road Mr. and Mrs. Joseph Goddette of Detroit. Other guests during the day were Miss Edwards and Mr. Clark of Detroit and John Lorenz of Tecumseh.

Dr. and Mrs. H. A. Mason and the latter's sister, Miss Carrie Brooks had as their guests last Wednesday Mr. and Mrs. Ralph Sprague and daughter, Betty Ann of Flashing, Long Island and Chas. Gallup of Ann Arbor. Mrs. Sprague's father, all enjoyed a picnic supper in Riverside Park that evening.

Mr. and Mrs. William Wernit and son, William, were dinner guests of the former's mother, Mrs. Helen L. Wernit, Sunday at her home on Grand Boulevard, Detroit. William remained for a week's visit with his grandmother.

Christmasman of the Trust department of the First National Bank of Ann Arbor and Robert Shaw of this city were entertained at dinner last Wednesday evening at the home of Mr. and Mrs. Charles O. Ball on Ithaca avenue.

Dr. and Mrs. H. A. Mason and Miss Carrie Brooks were luncheon guests Wednesday of the former's mother, Mr. and Mrs. William Oldenburg in Detroit.

Mr. and Mrs. Milton Wilson of Royal Oak were dinner guests Sunday of Mr. and Mrs. Charles Blich at their Pennington avenue home.

A happy group of relatives gathered Sunday at Riverside Park for a reunion and picnic dinner in honor of their aunt, Mrs. Cerinda McIntire and Mrs. Ellen Andrew of St. Thomas, Ontario, who are visiting at the homes of Robert Jolliffe and the Jolliffe-Wilson home. Guests were present from Birmingham, Detroit and Plymouth including the following:—Mr. and Mrs. Raymond Wheeler and children, Mr. and Mrs. W. I. Deer, Mr. and Mrs. Frank Deer of Birmingham; Mr. and Mrs. H. M. Robins and Mr. and Mrs. Merton Andrews and children of Detroit; Mr. and Mrs. H. W. Jolliffe and son, Mr. and Mrs. Robert Jolliffe and daughter, Mr. and Mrs. L. E. Wilson and sons, Mr. and Mrs. E. V. Jolliffe, Mrs. Emma Wise, Miss Winnifred Jolliffe and Miss Elsie Carr of Plymouth.

Mr. and Mrs. Charles Draper, Mrs. Winnifred Draper, Miss Margaret Stephens of Ypsilanti, Elmore Carney, Merrill Draper, Mr. and Mrs. Harry Green, Mrs. E. S. Cook and Harlow Williams attended the Merrill family reunion which was held Sunday on the old homestead near New Boston. Nearly one hundred relatives were in attendance.

The Mayflower bridge club will be entertained today by Mrs. Arthur White and Mrs. Earl Maslick at a luncheon-bridge at the home of Mrs. White on the Canton Center Road.

Mrs. Nettie Dibble entertained Mrs. Charles Cole, Miss Grace McSweeney and Miss Beth McSweeney of Grosse Pointe Village at luncheon Tuesday at her home on Pennington avenue.

The Busy Woman's Bible Class of the Presbyterian Sunday school enjoyed a potluck dinner at the summer home of Mrs. F. H. Schrader at Island Lake Tuesday.

Mrs. Harry Barnes and daughters, Betty and Dorothy, were luncheon guests Friday of Mrs. Lewis Kitchner at her home in Strafford.

Mrs. William P. Wernit attended a luncheon Tuesday at the home of Mrs. Lawrence Rhein near Mt. Clemens.

Ed. Hines Declares Dan Webster Bought Wayne Canal Stock

By EDWARD N. HINES,
(County Road Commissioner.)
One of the finest sections of concrete road ever built in Michigan is the one and one-third mile just opened to the public east from River Road to the little village of Gibraltar and Horse Island at the head of Lake Erie, stated Road Commissioner Edward N. Hines recently.

The property owners dedicated the additional right of way required to bring the width of this road from 84 feet up to the Master Plan standard of 120 feet. The new road is built of concrete, 20 feet wide, 40 feet over all.

Big Marsh Creek, which flowed along the east side of River Road at its intersection with Gibraltar Road, was straightened and moved east about one hundred and fifty feet in order to provide a safe intersection of these roads. A new reinforced concrete beam bridge has been completed at the Gibraltar Road crossing of the relocated creek with a clear span of twenty-five feet, a road width of forty feet and two sidewalks, each six feet wide.

At the Gibraltar Road crossing of Waterway Park Canal in the Village of Gibraltar a reinforced concrete bridge of the cantilever arch type has been constructed providing a fifty foot clear waterway, a thirty-eight foot roadway and two five and one half foot sidewalks, stated Mr. Hines.

In the construction of this road it became necessary to fill up a section of the old Gibraltar and Flat Rock canal, sometimes locally called the "Dan Webster Canal," which brings out some interesting history of bygone days.

The following is taken from newspaper articles written by Friend Palmer:

In 1835, when the territory of Michigan sought admission into the union as a sovereign state, adopted a constitution, and elected Stevens T. Mason governor, there was an era of general prosperity. Michigan people never apprehended that Congress would delay its admission for two long years, and in the plenitude of their great expectations voted to issue \$5,000,000 in bonds for the construction of internal improvements, principally railroads, and was also liberal in encouraging immigration. Thousands of families left the East and poured into the new state.

"Everybody was anxious to acquire land, and the United States land offices at Detroit, Kalamazoo, and White Pigeon were thronged with applicants. An era of unbridled speculation set in, which was helped by the local banks, which had been made custodians of the land office receipts, and loaned money freely on wild lands. Then the legislature passed the so-called "wild cat" banking law, and this disintegrated the bubble to the utmost."

"One of the land syndicates organized in 1836 was the Gibraltar

Ed. Hines Declares Dan Webster Bought Wayne Canal Stock

and Flat Rock Canal Company. It is said on good authority that the scheme was hatched first in Washington, and it is certain that Lewis Cass and Senator John Davis were interested in it to a considerable extent. The corporation was organized in Detroit on July 30, 1836, with the object of building an canal between the points named, which are both in Wayne County and about six miles apart. The design was to ultimately extend the canal to Ypsilanti and Ann Arbor, making the Huron River its feeder."

"The company purchased a saw and grist mill at Flat Rock and erected another. It also built a hotel at Gibraltar.

"Charles Noble of Monroe and Giles B. Stearns of Detroit also built warehouses and docks.

"The company hired several hundred diggers, mostly Irishmen, and the work began. In 1837 Gibraltar and the line of the canal was a busy scene. Vessels with supplies and material were arriving and departing from Gibraltar, its streets were crowded with speculators, and dealers, and hundreds of laborers, armed with pick and shovel and wheelbarrow, were excavating the big trench and casting up the big mounds. Between two and three miles were completed.

"In 1837 Daniel Webster came to Detroit to visit a son who was then living here and practicing law. He delivered an address at a grove on Cass farm and was then taken to see the new canal. He was asked to buy stock in the company, the promoters believing that it would help with the sale of stock in Boston, but said: "I have no money." This was most likely true as Webster was the famed demagogue American of all time. He did buy \$2,500 worth and gave his note, which the Bank of Detroit cashed. This is the only reference to Webster in the story.

"The Bank of Gibraltar, capital \$100,000, went to pieces with a number of other banks in the state in 1837. Work on the canal was suspended and that is the end of the story.

"It looks as though Lewis Cass was one grand promoter and never missed a chance to make a cheap profit. His name did not appear in the list of original stockholders, but he was there in a big way under another name. He also owned the largest amount of the land through which the canal passed and I take it, it was looked up in the old records, that he sold some of it off at a new profit. It may be however, that he didn't unload before the crash came. Some of his stock in the company sold in the early forties for \$1.50."

Another interesting feature in the construction of this new road and the two bridges is the fact that the labor used was largely recruited from the welfare lists.

Balloon Jumper At Walled Lake Sunday

From his aerial perch on the rim of heaven Bill Henderson, world renowned parachute jumper, will make another of his leaps through space Sunday, July 17, at the Walled Lake Amusement Park.

Henderson, who spectacular and skillful performances have thrilled thousands in all parts of the nation, will soar aloft beneath his gas-inflated balloon to the dizzy height of five thousand feet supported only by the rope sling upon which he rides and using no safety belts of any kind. Then, from his mile high altitude, the "Daredevil of the Skies" will cut himself loose and hurtle downward like a plummet until, finally, his parachute filling with air, he enters safely back to earth.

Fred W. Pearce, president of the amusement company, in announcing the engagement of Mr. Henderson, pointed out that while balloon ascensions are by no means new, in fact they were quite common during the dawn of this century, very few of the younger generation has ever witnessed such an extraordinary spectacle. In Mr. Henderson the park operator feels that he has obtained one of the very best aerialists in the profession and one well qualified to present to the youth of today that greatest of thrills which, hand in hand with the horseless carriage, the all enveloping bathing suit, and the hoop skirt caused such a furor during those now dim days of 1900 to 1910.

VISITORS TO MICHIGAN may enjoy their favorite sports

Michigan offers unlimited facilities for every summer sport. These combine with her rugged scenic beauties, fine highways, well equipped state camps and excellent hotels to make Michigan an ideal vacation state.

The millions of dollars spent each year by Michigan's thousands of visitors add to the prosperity of the state. Let us also spend our own vacations in Michigan this year, thereby contributing still further to its prosperity.

And wherever you go, dispel worry by telephoning home and office frequently. Call friends to tell them when you will arrive. Telephone ahead for hotel accommodations. Long Distance rates are low.

"CLEAN!"

The snow-white porcelain of my ELECTRO-CHEF is as easily cleaned as a china dish"

All my friends admire the snow-white porcelain and sparkling chromeplate of my new Electrochef. My new range is really lovely, and is practical as well as attractive. Cleaning the smooth, polished surfaces is as easy as cleaning a china dish. Simply wiping with a damp cloth instantly restores the original luster.

There's another reason why my Electrochef is easier to clean than other stoves. All corners are rounded, inside and out, and there are no cracks or crevices anywhere to collect dirt. Even the oven can be stripped completely, leaving only the round-cornered inner shell to be washed out. Scouring does not injure the bright chromeplate finish. I'm certainly proud of my modern, snow-white range!

ON BEING A BORE

By DOUGLAS MALLOCH

I AM not what you'd call a clam. I don't know what to do about it.

I am at times the great I Am. Not merely say it, fairly shout it. And fill the family with shame. A self-made man of self-made fame.

The things I know, or think I know. It seems I'm always telling someone.

It seems I am a Dora, though I must admit I'm not a dumb one. I think I am a wit so bright. And people say that I'm half right.

My little jokes I like to crack. And people always laugh politely.

And yet they say behind my back. I should converse more crudely. Last night, invited out to dine. I swore no more I'd try to shine.

So when there came a painful pause.

I kept us silent as I meant to. And I must say the dinner was about the worst I ever went to. I didn't say ten words, I guess. And all the others even less.

FRENCH PASTRIES

THE beautiful small cakes and pastries which are so attractively decorated and we find so expensive when we come to purchase, may be prepared at home with little work.

There are several kinds of foundations, the puff paste, chow paste (this is the kind used when making cream puffs), then the cake foundation and short bread pastry.

Almond Slices.

Spread the entire sheet of cake with a tart jelly or jam to a paste, then cut it into strips three to four inches long and one and one-half inches wide. Spread the sides with jelly. Top each with a heavy meringue made with two egg whites, eight tablespoonfuls of sugar and one-fourth teaspoonful of almond extract. Arrange with a pastry tube, then sprinkle with powdered sugar and top with shredded almonds. Place in a slow oven to lightly brown.

Neapolitan Squares.

Cut the cake into two-inch squares, spread half the squares with apricot jam, currant jelly or orange marmalade, cover with the squares and press together between boards until firmly joined. Now spread the sides with jelly beaten to a paste with a few drops of water, and dip each into finely chopped coconut. Ice the tops with a thick chocolate icing and in the center place a halved maraschino cherry, cut side down; add stem and leaves of citron or green icing.

Fruit Pastries.

Use the cake foundation, cut into strips, squares or rounds, put together with a custard cream of orange, lemon or jelly. On top of each place a halved pear or peach which has been cooked until transparent in a heavy sirup, using one cupful of the juice and three-fourths cupful of sugar. While cooling beset with this sirup as this will give a nice glaze. When the fruit is arranged pipe a border of whipped cream, sweetened and flavored all around the sides and top.

Something Is Going to Happen

In fact, two things are going to happen, and both of them at the Hayward store.

One of these events, for good and surprising reason, can't be disclosed herewith. You'll understand why if you walk down to the Hayward store, between the Post-office and the Theatre, on Penniman avenue, and look in the window tomorrow.

As for this other matter, Hayward finds on his racks there are 75 suits in men's and young men's models, mostly Nationally advertised brands, in a wide range of sizes and a variety of shades and fabrics. Hayward has been selling this line regularly to such men as a prominent lawyer, a well known doctor, a local manufacturer and members of the luncheon clubs. Men who value distinctive clothing as an asset in their business.

Hayward would like to have the space these suits are taking up, for his fall stock. If you have \$16.75 in cash or can hand over a check for that amount, one of these suits is yours. Hayward doesn't often do a thing like this but these are days, you know, when surprising things happen.

Saturday—tomorrow— if you will come to Hayward's store, you may see these suits, try on your size and if you fancy one of them, it costs you only \$16.75 to own it.

Anyway, come down and look in the show window. That other matter that can't be divulged might interest you.
