Willing To Work For Fourth Less For Balance Of Year In Order To Keep Schools Open - Second Cut In Year.

Announcement was made yesterday that the employees of the Plymouth board of education including all of the teaching staff, have offered to contribute twenty-five per cent of their wages for the remainder of the school year in order to help bridge over the financial difficulties the school is now facing.

Due to unavoidable economic conditions, the board of education is finding great difficulty in acquiring sufficient funds with which to continue the Plymouth public schools.

The superintendent, principals, teachers, school nurse, bookkeeper for the board of education and secretary to the superintendent of schools, and the engineer at Stark weather school have voluntarily offered the board of education twenty-five per cent of their salary for the remainder of the school year in order to help make it possible for the boys and girls to continue their schooling.

There are a number of taxpayers of Plymouth school district No. 1, fractional who thus far have been unable to pay their taxes. It is possible, however, for anyone willing to do so to pay their school tax without paying, at the same time, the county and state tax.

By meeting the teachers and employees in their generosity of a twenty-five per cent contribution by an extra effort on the part of any and all taxpayers who thus far have been unable to pay their school tax would insure to the boys and girls the opportunity to which they are entitled.

Roller Skating Boy Hit By Auto; City Issues A Warning

Several complaints have been received by the police department relative to the practice of children roller-skating in the street. This is a dangerous practice and parents should see that their children remain on the sidewalks or some other place less dangerous than on the public thoroughfares.

When the children are out on the street to engage in good, clean, healthful exercise, said City Manager Cookingham when discussing this matter, "but we also realize that the lives of the children as well as the rights of the motorist should be protected."

PLYMOUTH GETS 18 PLACES IN FOREST ARMY

Young Men To Be Given Work As Soon As Call Is Received

Plymouth has been allotted 18 places in the unemployment army that will soon go into the north woods to clean up the forests and set out trees, the plan being a part of President Roosevelt's program to use the unemployed in forestry work.

City Manager Perry Cookingham was advised a few days ago of the government's allotment to Plymouth, following numerous inquiries on his part as to what the government proposed to do to assist the smaller communities.

Mr. Cookingham attended a meeting in Detroit last Friday when John F. Ballenger, superintendent of the Detroit Department of welfare who has charge of the forestry army for the county, made known the details of the reforestation work.

The county of Wayne has been allotted 3800 men, 1140 of which will be taken from the area outside of the city of Detroit. This quota is assigned to the several cities and townships on the basis of population.

The federal regulations require that these men be taken from families now receiving public aid because the need of these families is already a matter of verified record and these families have been long in need. This procedure avoids wholesale registration of applicants which would require investigation and would delay starting the work promptly.

Mr. Ballenger has been designated as the chief collecting officer for the state of Michigan and all applicants will be approved by him.

The actual enlistments are being handled by the city manager, who already has a list of more than the required number allotted to Plymouth. A few more than the required number will be signed up in order that any rejections on account of physical condition or otherwise may be replaced without further application.

The men from Plymouth will be sent to Fort Wayne at Detroit where they will be given preliminary physical examinations to determine whether or not they are able to perform the physical labor in the forests. After they have passed the examination they will be sent to Battle Creek for two weeks of conditioning. After which they will be assigned to one of the forest camps or national parks in this state or in a neighboring state.

The city of Plymouth will be notified by the Army officers at Fort Wayne as soon as the men enlisted are to report. The men will go prepared to entrain immediately to the conditioning camp at Battle Creek without again returning home. The conditioning is under the supervision of the U. S. Army but the actual work in the forest will be done under the direction of the U. S. foresters. The men will work five days per week, eight hours per day and will receive \$30.00 per month. All men enlisted in the State of Michigan will be required to allot a minimum of \$25.00 per month to their families, who are now being cared for at public expense.

The men enroll for a period of six months and contract with the U. S. government to remain in this service during that period. No plans for the extension of the program are known to exist at the present time. Further information concerning the enlistments which are now being made can be obtained from the City Manager.

Northwest Likes Plymouth Sprinkler

The Perfection Sprinkler company of Plymouth has recently invaded the far northwest territory with its product and has found a ready market in direct competition with one of the oldest sprinkling companies of the country that has a plant on the west coast.

A few months ago a small order went out to Oregon and Washington. Almost immediately after the sprinklers had had a chance to be shown in competition with other makes, a number of rush orders were received at the Plymouth plant for immediate delivery. The company has recently received several good sized orders from the Midwest.

Many friends of Mrs. Harmon Kingsley, a former resident of this city and well known here, will be sorry to hear that she has been confined to her bed for the past several weeks at her home in Wayne.

Former Plymouth Girl Is Married

A wedding of interest to many Plymouth people was solemnized at Port Huron April 26th, when Miss Louise Sewell, formerly of Plymouth, was married to W. J. Lindsay, a member of the police department at Port Huron. The ceremony was performed by Rev. Frank M. Field, former pastor of the Plymouth Methodist church. Sisters of the bride, remembered here as Misses Florence and Arlean Newell, now Mrs. Alex Fisher of Chelsea and Mrs. Fred Parth of Capre, were present at the wedding.

Plan Minstrel Show To Help Boy Scouts

The Ex-Servicemen's Club are sponsoring a Minstrel Show and entertainment under the management of Mr. Wilkie for the sole purpose of furthering the extension work among and for Boy Scout Troop 1-2 of Plymouth. This troop is making a remarkable record in scouting and the Ex-Servicemen's Club feels that public support for scouting must repay with interest in better citizenship for the future. Americanization work just at this moment in our country's trials
