Plymouth, Michigan, Friday, June 22, 1934

## Pere Marquette And County Plan New Separation

Work To Be Started Soon On Big Project North Of Phoenix

Both Plymouth - Northville And Five Mile Roads To Be Carried Under Railroad

Announcement has just been made of the completion of the transaction for the last major project in connection with the Wayne river park development in this vicinity. Officials of the Wayne County Road Commission have signed a contract with the Pere Marquette railroad company officials for the construction of a grade separation just north of the Phoenix - Pere Marquette crossing and the county has also purchased the triangle piece of land lying north of the intersection and between the roadway and the railroad right of way, under which the new roadway will pass.

Henry Ford has given to the county a right of way along Phoenix lake from the point where the new road will come out under the east side of the P. M. tracks to a point some 1,000 feet or more to the south where it will join on with the new parkway road that circles along Rouge river in back of the Ford plant at Phoenix.

County Road Commissioners state that this separation will be built during the present summer and fall and that it will be in use before winter sets in.

Its completion will do away with one of the worst grade crossings in Wayne county. At the point where the Plymouth-Northville road crosses the Pere Marquette track just north of Phoenix, the five mile road also crosses the railroad tracks. It makes at this place one of those dangerous triangle crossings that are always a traffic hazard.

When the new separation is completed there will be no grade crossing at this point, as it is the intention of the county officials to take all traffic under the Pere Marquette tracks. The excavations through the hill to the west of the crossing for the new right of way for the Five mile road has been completed. It will carry traffic from the present road some 700 or 800 feet to the west of the present crossing and will carry it down across the hill and under the railroad tracks to the east side of the railroad near the lake.

The survey for the new road along the west side of Phoenix lake has been completed for some time. The paved highway will be directly over the old swimming beach that was closed by the county a year ago. It is hoped to have the work completed by the middle of October.

## Big Trucker Joins Henry Ford In Battle Against NRA Scheme

One of America's largest truck operators joined with Henry Ford in opposing the NRA code of fair competition for his business.

He is Jack Keeshin, president of the National Highway Freighters' Association, who operates 307 trucks out of Chicago. He has refused to sign the code, as the deadline for signatures expired.

"I was the first trucker to sign the President's reemployment agreement last summer," he said, "and now I guess I'm the first to withdraw from the code. It has taken me 21 years to build this business, and I refuse to turn it over to the Federal Compliance Board."

## Classmates Of Years Ago Hold A Reunion

Out at the Plymouth Country club Monday night, Attorney Hal Wilson, prominent Detroit lawyer, and some 25 or 30 of his college classmates of a quarter of a century ago met for their first reunion since their school days. For several hours these school boys of the past had as delightful a time as any group that has ever met in this vicinity. It was long after the dinner hour before the party broke up and the visitors left for their homes in various parts of the country.

## Select June 28 As The Date For Next Meeting Of Plymouth W.C.T.U.

"The next meeting of the Plymouth Union will be held, Thursday, June 28, at the home of the president, Mrs. E. C. Vealey. It is hoped to have a speaker for the occasion. And, if the day is reasonably cool, a potluck luncheon will be served at 1.00 p. m. It will then be expected that members will bring their dishes, in addition to their contribution of food, for the luncheon. A benefit collection will be taken. Should the day be extremely hot, the meeting will be omitted, and there will then be no meeting until the one that occurs in September.

## Lynn Felton Is Club President

Becomes Rotary Executive At Last Week's Meeting

Due to the fact that nearly all Plymouth Rotarians will be in Detroit next week attending the International Rotary convention, the election of the local club took place at the meeting Friday night, thereby enabling President Lynn Felton to begin his work ahead of schedule.

Mr. Felton, who has served as vice president is thoroughly familiar with Rotary affairs. He has for a number of years been most active in club work.

Father Frank A. Lefevre who was elected vice president some time ago, was also advanced to his new responsibilities at the last meeting.

Plymouth Rotarians are planning on spending a large portion of a week in Detroit in attendance at the first International Rotary convention ever held in Detroit. The convention is bringing to this vicinity delegates from all parts of the world.

## Add 2,000 Square Feet Floor Space

Workers have just completed the construction of a new shipping department 15x135 feet for the Plymouth Felt Products company, a branch of the Allen Industries of Detroit.

Since taking over the plant early in the spring, its business has grown so rapidly that Manager Zuckerman found it necessary to utilize every foot of floor space. Even this did not give the room necessary at some time ago it was decided to construct an addition to the plant which could be used entirely for loading and unloading materials.

The new shipping department is about ready for use and will prove a big aid to the company in the handling of its product.

There are two shifts working at the plant at present, but it is anticipated that by fall it will be necessary to keep the plant in operation the full 24 hours each day. Mr. Zuckerman states that the company has every reason to believe that there is going to be excellent business during the forthcoming fall and winter months.

## Unpaid Tax For 1932 Over \$31,000

Delinquent county taxes for 1932 and prior years for the city of Plymouth amounted to \$31,292.18 according to data compiled by Jacob P. Sumersack, county treasurer.

These taxes may be paid on the installment plan covering 10 years. Equal annual payments are provided, but the first one must be made before Sept. 1, 1935. By prompt payment the taxpayer will avoid all interest and penalty charges and savings ranging up to 58 per cent in some cases are possible.

Mr. Sumersack reports that a great number of taxpayers have already made inquiries regarding the new plan and he is confident that a large portion of the \$40,000,000 taxes delinquent throughout the county will be collected. Until July 1 of this year the county treasurer will accept 1933 delinquent taxes without interest or penalty charges.

## Power Sprayer Plant Moved To Sturgis Garage

New Equipment Ordered By Company For Its Much Larger Quarters

General Manager Paul J. Nutting Hopes To Greatly Increase Production Of Plant

Announcement has just been made by Paul J. Nutting, president and general manager of the Universal Power Sprayer company, that a long term lease has been secured for a new fire proof and well lighted Sturgis garage building on South Mill street and that the equipment and business of the power sprayer company will be moved to this new location at once.

This action has been taken because of the uncertainty as to the question of whether the Lee Foundry plant, in which Mr. Nutting was also the head, will be replaced. The building was entirely destroyed by fire early in the spring. However, the Universal Power Sprayer company is in no way connected with the Lee company.

Mr. Nutting has been busy pushing the business of this company and just as soon as all equipment has been placed, in addition to some new machinery that has been ordered, the production of the plant can be greatly increased.

During the past year or so he has found a constantly growing market for the power sprayer that is made in this plant and Mr. Nutting expects that during the coming year he will be able to almost double his past business.

Mr. Nutting has been busy pushing the business of this company and just as soon as all equipment has been placed, in addition to some new machinery that has been ordered, the production of the plant can be greatly increased.

## June 28 Date Of Boy Scout Court

Two weeks ago The Mail carried an article about the Scout Court intended to be held on June 13th at the Plymouth high school. Circumstances have made it necessary to postpone this program to the evening of Thursday, June 28th, when the Court of Honor will be held at the Northville high school at 7.30 o'clock.

Some 400 Scouts in both districts of the District area will ensure a large and enthusiastic audience.

The commissioner of the Detroit Council will be present and a novel feature will be added to the usual Court program. A man calling himself Paul Bunyae, and claiming descent from a lumberman who worked in the camp of that legendary giant of woods lore, will be at the court, showing pictures to show on a screen. He hopes to interest the boys in camping this season. He will be in costume.

Remember the date and come. Scouts, parents, friends of Scouts and all interested in boys!

## Sewing Ladies To Present Play

The ladies of the Plymouth Home League have selected next Thursday evening, June 28 as the date for the presentation of the play titled "In Broadcasting Studio." The event will take place in the Salvation Army hall. Everyone is invited to attend. It will begin at 8 o'clock.

The League is composed entirely of Plymouth women who have met once each week during the past winter and spring and sewed clothing for the Salvation Army. Many hundreds of old garments have been made serviceable by the activities of these ladies.

Now that the work of the season is about over they thought it would be an excellent idea to start their brief vacation period by the presentation of this humorous play. Such funds as might be collected will be used entirely for the purchase of material that will be used next fall when the ladies again take up their needles and thimbles in their work for charity.

## Miss Marion Tefft On Judiciary Board At Michigan Normal

Miss Marion L. Tefft, who for the past year has been a member of the judiciary board at the Michigan State Normal College at Ypsilanti, was again chosen by the Woman's League to serve as a member of the coming college year. Miss Tefft was also re-elected to office in the Leonian Dramatic society as vice-president.

## Charles A. Root Jr. Gets A. B. Degree At Michigan University

Charles A. Root, Jr., son of Mr. and Mrs. Charles Root, received the degree of Bachelor of Arts at the graduation exercises at the University of Michigan Monday, June 18.

Mr. and Mrs. Charles Root and Mrs. Thomas Geer attended the graduation exercises of the University of Michigan at Ann Arbor last Sunday and Monday when their son and nephew, Charles Root, Jr., graduated. They also attended the President's reception given for the members of the graduating class and their friends.

## Ex-Service Men To Hold Picnic

The annual picnic of the Ex-Service Men's club will be held Sunday, June 24, at Soldiers Field, Jack Cowsan Farm, Renaissance one-half mile west of Wayne road on the corner.

The affair this year is under the general chairmanship of John Jacobs and his committee is working hard to provide at least a thousand persons with what it takes to make a summer picnic something to remember.

The committee has a full schedule of sports and games for all ages from six to sixty, and prizes to reward the skillful, the dexterous and the trickiest of participants.

During the day, before and after the competitions, several speakers will be on hand and it is expected the club's guests will find themselves looking at several view pictures, of how their local state and county government appears when the works are taken apart and examined. It is not rare to find the servicemen and their buddies are in the habit of being sold either "comycap" or "best buttons" without being convinced of their quality and they expect to postpose this program after being disassembled and reassembled again; the old in general, they intend to order next fall, shouldn't tick like a twenty jewel watch.

Everybody is invited to join in the fun. All are welcome to attend and no one is compelled to listen if they don't want to, eat if they don't feel well, and do anything else it's against their principle or even break the drouth which has been encroaching this neck of the woods for "lo" these many moons.

## Paul Weidman Back From The Exposition

Paul Weidman has returned from Chicago where he was early last week with the Ford dealers of Michigan. Each dealer in the state was invited to make the trip and when the procession from Chicago reached Chicago from Michigan, it was over three miles long.

Mr. Weidman declares that the Ford exhibition building is one of the big features of the fair.

In fact I think it is without a doubt the greatest feature there this year. Certainly one can spend plenty of time in that building," he said.

The return from Chicago to Detroit was made by the Ford fleet of cars in a trike over half the time taking over the time that the visitors stopped for lunch.

## Monday's Rain Big Aid To Farmers, Who Hope For More Of It

Farmers, fruit growers and gardeners in the Plymouth territory rejoiced early this week when the most beneficial rain in many months fell during most of the day. Heavy rains in other parts of the state, with a near cloud-burst in Detroit Monday morning preceded the constant rain that fell in the territory.

It was the kind of rain that soaks into the ground, not a drop of it running off.

But it came too late to be of much help to the berry crop. While strawberry growers thought the slight rain of a couple of weeks ago would help, the continued hot and dry spell that followed it, quickly killed off the expected profit and as a result this part of Michigan has the smallest strawberry crop it has ever known.

Corn, potatoes and other late crops have been aided to a large extent by Monday's rain and the general despair that prevailed in the rural sections has changed greatly during the past few days. It looks now as though with additional needed rains that there will be some fairly good crops.

Mr. and Mrs. John Kenzer, Mr. and Mrs. John Jacobs and family, Mrs. Earl Hillmer, J. O. Kenyon and Gale Kenyon, Mrs. William Powell, Mrs. Della Fillmore, Mrs. E. H. Hammond and Mrs. Lloyd Cline, attended the commencement exercises of the Michigan State Normal at Ypsilanti Monday morning, Winona Kenzer being one of the graduates.

The Loyal Daughters of the First Baptist church enjoyed a basket dinner at Plymouth-Riverdale Park Tuesday evening.

## Gleaner Hall At Newburg Bought By Legion Post

Plymouth Patriotic Group Has Taken Over Ownership of Newburg Hall

Many Changes Being Made Now And More Will Be Made Later—Potluck Dinner July 4

American Legion Myron H. Best Post No. 32 of Plymouth has purchased and moved into the former Gleaner's hall located on Newburg road, Newburg. Through the efforts of the legionnaires headed by the building chairman Melvin C. Gutherie the remodeling and landscaping is going forward rapidly and soon the legion expects to have a permanent home, that they, as well as the entire community, will be proud of.

A housewarming reception is being planned in the near future as soon as alterations are completed. All veterans are cordially invited to visit the Legion home at their regular meeting nights, the third Friday of each month.

There will be a potluck picnic at the farm of Melvin C. Gutherie, July 4th. All veterans and their families are cordially invited by Mr. Gutherie and the American Legion. Games, entertainment and refreshments will be enjoyed.

The new hall provides an ideal meeting place for the legion members. It is close to the city and three paved roads that lead almost directly to it from different parts of Plymouth make it of easy access. The Legion plans to have the new hall open to the public as time develops and hopes with in the next few months to have as pleasant a Legion headquarters as there is anywhere.

## Army Congress To Hear Everett

Captain Cyril Everett of the Plymouth Salvation Army has been named as the special cornet soloist for the eastern Michigan congress of the Salvation Army to be held in Hill auditorium in Ann Arbor, Michigan, July 27-28.

Not only will Capt. Everett play a number of special cornet solos, but he will be a member for the occasion of the popular Detroit band that will play at the congress.

Nearly all the members of the Plymouth Salvation Army are expected to attend the sessions of the congress.

## Each Vote In Last Election Expensive

For every vote cast in the primary and general election of 1932, the taxpayers of Michigan paid 41.5 cents.

The total cost of the two elections, according to a survey just completed was \$1,107,485. As there were 2,687,322 registered voters in the state, the cost of electing Michigan's state and county officials was 55.7 cents per voter.

Rental of polling places and salaries of election board officials, combined, cost \$66,446. This constituted the biggest item in election costs. Cost of registering voters amounted to \$302,790 while the 83 counties spent \$235,846 on ballots, stamps and returns. The Department of State spent \$500 in supplying the counties with official notices of the elections and official ballot forms.

## Local Republicans To Attend Celebration

Hon. Henry P. Fletcher, the new chairman of the Republican National Committee, after a conference in Washington with Senator Arthur H. Vandenberg, announced that he would attend the 80th anniversary celebration of the founding of the Republican party in Jackson, Michigan July 8 and 9.

This will be the first public appearance of Mr. Fletcher since his election in Chicago as head of the party and he will outline the aims and policies of the party in his address.

Mr. Fletcher will be presented with a gravel made from a bough of one of Jackson's historic oaks. Rep. James G. Frey, of Battle Creek, Secretary of the Republican State Central Committee, who is spending the month in Jackson, acting as secretary of the "On to Jackson Committee" states that the replies and inquiries are coming into the office in such great numbers that it looks as though this would be the greatest Republican gathering ever held in Michigan. Several from Plymouth plan to attend the celebration.

## City Manager Resigns Position As Deputy County Relief Administrator

Following an effort of several months to manage the affairs of the city of Plymouth and at the same time devote a considerable portion of his effort to a position as deputy administrator for the works division of the county relief works administration, City Manager Perry Cookingham has decided to resign his connections with the county administration and after July 1 will again devote his entire time to city affairs.

Some two months ago the city commission granted him a leave of absence with absolutely no time he might call his own. City officials and others, however felt that this city because of Mr. Cookingham's connection with the county organization, secured from the county relief works division many of its requests that it might if he had not been associated directly with the county commission.

## Must Sign Plan To Get Benefit

New Bank Bill Only Help To Trust Fund Depositors

Officials of the First National bank announced yesterday that the total number of signers among old depositors for the government release has some considerably over the 70 percent point and they hope by the first of the week to have the total up around the 75 percent mark.

There has been one confusing point, it is stated, that has caused a few of the old depositors to delay signing up. Some have believed that the passage of the Stessell bill by congress would help them, even though they did not sign the release agreement.

Now that the bill has been passed by congress, it has definitely become known that old depositors should get absolutely no benefit under the bill unless they do sign up for the plan that the First National officials have presented to their depositors. The new law does not cover anything except deposits that have been put in the trust funds of the various banks operating under the moratorium agreements.

Probably by the end of another week or so, the bank will be able to determine that the proper number of signers have been secured, if the present ratio of signing keeps up.

## Community Fair Didn't Fare Well

Due to a general misunderstanding the so-called "Community Fair" that was advertised to have been held this week at the city hall, did not take place. The promoters of the event requested that it take place in front of Kelllogg park on Main street, but the city commission decided that because those that sought the concession wanted it to remain on the street during the entire week and because it was more of a carnival than a "Community Fair" some other place would be just as well and the committee sponsoring the affair was asked to recommend some other place for it.

Finally it was decided by those who had sponsored the event not to hold it at all.

When the matter was first brought up for consideration, those that sought to hold the fair visited some members of the commission individually and asked for permission to hold the event on Main street. Those that were interviewed stated that they saw no objection to it, but when the matter finally came before a special meeting of the commission more details of the nature of the event were learned, the commission objected to the use of the street for that purpose, stated city officials yesterday especially for an entire week.

That's why there hasn't been a Ferris wheel, a merry-go-round, some roulette wheels and other kinds of wheels spinning on Main street this week.

## Miss Mary Haskell Awarded Scholarship In Columbia University

Miss Mary Elizabeth Haskell, a graduate of the Plymouth high school, daughter of Dr. and Mrs. Robert Haskell of the Wayne County Training school, has been awarded a scholarship in Columbia University.

Twenty of these scholarships are awarded each year by Columbia to women in graduate schools. Miss Haskell will register in the fall for her work at a degree in sociology.

Her father, Dr. Robert Haskell, was awarded the highest honor of the state, the degree of Doctor of Divinity, by the General Assembly of the General Synod of the Methodist Episcopal church in 1928.

Mr. Martin Stringer's brother, Rev. Henry Clay Miller of Aurora, Ill., has been spending the week with her. Honoring Rev. Miller and a nephew and wife of Canon City, Colorado, the Helen Miller branch of the family met for a potluck dinner with Mr. and Mrs. E. J. Miller of Belleville on Thursday night, June 21st. Eighteen guests were present from Canon City, Colo., Aurora, Ill., Ann Arbor, Romulus, Highland Park, Plymouth and Belleville. The day was delightful. The dinner was delicious, refreshments plentiful. The only drawback to the pleasure of the day was the absence of Dr. Lucile Carr Miller of Aurora, Ill.

## Woman Severely Choked, Robbed By Daring Thief

Stranger, Flashing Opened Knife, Robs Home Of Mrs. Sheldon Nowry

Severely Choked When She Makes Effort To Call Children Who Are Picking Near House

Forcing his way into the home of Mr. and Mrs. Sheldon Nowry, 841 Ann street, a dark heavy-set foreign looking tramp Tuesday afternoon threatened Mrs. Nowry with a knife, choked her so her cries could not be heard by children, and robbed the home of \$30 in cash.

Although a diligent search was made by officers and neighbors, the thief has not been located. A number of suspects were arrested from trains at various places along the Pere Marquette, but none of those arrested answered the description of the man wanted here.

Mrs. Nowry was alone in her home shortly after noon when the stranger whose face was covered with a beard several days old, came to the door.

As she hurriedly left the house, going towards the railroad tracks, Mrs. Nowry attracted the attention of the children, who called Mrs. Henry Ray. She immediately telephoned the police and Chief Smith and other officers, assisted by a number of neighbors began a most systematic search for the thief.

Two freight trains had passed through the yards at about that time and officers in nearby places were asked to search them.

At both Howell and Lansing, tramps were taken from the train, but none of them answered the description of the daring thief.

Not only was every spot along the railroad yards searched, but even the wooded section to the northwest of where the robbery had taken place, was tramped over by nearly a dozen men who had joined in the hunt.

Officers are continuing the search. It is apparent that the fellow probably was picked up by some passing automobile driver and got out of town before the crime became known to the officers.

Chief Smith strongly urges every one to keep their screen doors locked as he declares there are more tramps riding trains and walking the railroads now than in several years. He is convinced that the man who committed the robbery probably rode into the city on a freight train, due to the location of the Nowry home near the Pere Marquette tracks.

## Band Concerts Please Crowds

The special band concert played on Liberty street playground park last Saturday evening by the newly organized Plymouth band was greatly appreciated by the large number of people that gathered to witness the performance of Ivan Gray has made exceptional progress and the many who heard the band were highly complimentary of its playing.

The future of the band is being questioned to come down to the high school auditorium Monday evening at 7.30 when the band will hold its regular practice.

## Did You Know That

Mobas window shades are hand painted in your home town, latest colors at a reasonable price. If you need a few new ones or old ones cleaned up just phone 530. Linoleums in all grades and patterns. National Window Shade Co.

Agnes L. Thompson who was called to St. Charles by illness, advises that she will return in time to open her store immediately.

On Wednesday afternoon, June 13, about fifty ladies of the Woman's Auxiliary of the Presbyterian church joined the Northville Woman's Union for their meeting and social hour. A very interesting program consisting of a talk on Korea by Mrs. Line, two solos by Mrs. James Sessions and Mrs. William McAllister and a talk on art by Mrs. E. J. Cutler was given by the Plymouth group while the hostess completed the afternoon with the serving of dainty refreshments.

Mrs. Cecil Laird entertained her contract bridge club Wednesday evening at her home on Blumk avenue.

Local News

Mr. and Mrs. Harold Link and family spent last week at Alpena. George Hunter is ill with jaundice at his home on Deer street. Alex Robinson of Detroit was the guest of J. D. McLaren Sunday.

Mary Arline Brown of Pontiac is spending the week with her cousin Betty Brown. Mr. and Mrs. Robert Walker are spending a few days with their son and wife, at Rose City. Mr. and Mrs. John Herdman of Ann Arbor visited their aunt, Mrs. A. A. Taft, Sunday.

Lawrence Gladstone had an operation for tonsillitis June 1, in the Seasons Hospital at Northville. The three-months old child of Mr. and Mrs. Roy Harrison is much improved after an illness of pneumonia. James Lendrum of Uphans, Illinois has joined his wife and son at the W. B. Lombard home on Ann Arbor.

Local News

Several Plymouth ladies attended the quilt exhibit and luncheon last Friday held in the Presbyterian church at Northville. Mrs. Frank Burrows and Mrs. Maxwell Moon of this city were among the judges. Mr. and Mrs. Henry Hondorp and the former's mother, Mrs. G. Hondorp, spent the week-end with their daughter and husband, Mr. and Mrs. Harold Turner of Detroit, at their summer cottage at Goodrich near Flint.

Florence Holt Weds Willard Lickfeldt - To Reside In Plymouth

Only members of the immediate families witnessed the wedding of Miss Florence Holt, daughter of Mr. and Mrs. James Holt, West Branch, Mich., to Willard A. Lickfeldt, son of Mr. and Mrs. George A. Lickfeldt, Twinning, Mich., Sunday, June 10. The Rev. Dr. M. C. Rice read the vows in the Wesley Chapel of the Metropolitan M. E. Church, Detroit. The bride wore a gown of white silk with V neck and full sleeves of Spanish lace, white slippers and hat. Her corsage tied with silver bridal ribbon was of tea roses and sweet peas.

Prison To Work Six Days A Week

Beginning with July 1, all employees of the Detroit House of Correction will go on a six day week work schedule. For a considerable length of time, all workers at the prison have been employed but five days a week, but recently the commission decided to reduce the operating expense of the prison and ordered that all employees work six days from now on instead of five days. This economy move will relieve from regular employment eleven men and eight women. It will leave on the payroll of the prison some 175 people. Capt. Edward Denniston stated that the commission gave the matter much thought as it was the desire of the members to keep as many people at work as possible, but the reduced budget of the prison for the ensuing year necessitated the action taken. Most of the men relieved of their jobs have been employed as guards and the women as matrons. Be it ever so humble there's no place like home for hearing what people really think of you. Public approval is what counts these days.

No Insurance On Wrecked Autos

Although three people died as the result of the accident on Memorial day at the corner of Schoolcraft and Farmington roads, it has just developed that the owners of the cars carried not a cent of liability insurance. This was the accident in which Donald Martin of Northville crashed into a car driven by Harold Ebert of Detroit. Both Martin and Ebert were almost instantly killed. Mr. and Mrs. Daniel Majeke and their baby of Detroit were in the car with Ebert. Their baby was so badly injured that it died a few days later. Arthur Hill of Northville who was with Martin and Mrs. Majeke have recovered from their injuries. The fact that the two car owners carried no liability insurance became known here two or three days ago when a Detroit attorney was in Plymouth and Northville making an inquiry into the accident. Even the wrong kind of a tree planted in the wrong place is a hundred times better than no tree planted no place. Reversing the old order, what we need now is labor creating, not labor saving devices.

Winning Essays In The Contest Recently Sponsored By The Local Chapter of D.A.R.—Three Plymouth Girls Take High Honors

(Continued from last week)

From a literary point of view his speeches were not of the excellence of Webster's but his eloquence, personal magnetism, fine bearing and delicately attuned voice made him successful.

During the period that Clay was speaker of the House, Webster entered as a Federalist in 1812. To him is given the credit for averting war, which was brewing between Great Britain and our country, in 1814-1842, over loud domestic quarrels. Webster's tact, endurance and good judgment was shown in the McCleod case which was concluded by the Webster-Ashburn Treaty putting an end to serious differences between Great Britain and United States. He also played an important part in Negotiations with Mexico over Texas. While a member of an important Committee on Foreign Relations, Webster spoke concerning the strengthening of the Navy, currency, bank, tariff, and against the embargo in 1827 being elected to the Senate. He was the only opposition to the protective tariffs and became a supporter of the measure of 1828 known as the "tariff of abominations."

Webster's fame as an orator reached its peak in his reply to the speech of Robert Hayne, Senator of South Carolina which concerned the nature of the Union and the right of nullification. In this reply Webster successfully combated the theory of nullification and ably freed the nationalistic view of the Union. None of this trio seem to have strictly cared for Jackson's policies. In a controversy over the renewal of the charter of the United States Bank, Webster advocated renewal opposing Jackson's financial policy in general. Many principles of sound finance from his speeches at this time have been incorporated in the Federal Reserve System. He became one of the leaders of the Whig party when it was organized. In 1852 not yet having received the Whig nomination for the presidency he refused to support the candidacy of William Henry Harrison in the campaign. He returned to his home in Marshfield in September, a disappointed man, and died on the twenty-fourth of October.

John Calhoun the completion of this important trio was in 1808 sent to the State Legislature where, having attracted much attention he was elected to Congress in 1811. He joined the Whig party in 1825. He was the author of the war-like policy with Great Britain and the two won the title of the "War Hawks." With Clay's magnetic qualities and Calhoun's intense personality the two turned Madison's administration into a declaration of war on Great Britain. For seven years he acted as Secretary of War under Monroe from 1817 to 1824 and became Vice President of the United States under John Adams. In 1829 he was reelected under General Jackson and was now looked upon as the "Champion of the South." He is well known as staunch defender of slavery and author of "nullification" which was adopted in 1829. This was drawn up in a document, mainly prepared by Calhoun and was called the "South Carolina Exposition." Some other incidents during his political life were his defense of the rights of veto which belongs to the president, his advocacy of annexation of Texas, and his maintenance of the cause of peace when war with Great Britain was threatened by the claims of the United States to Oregon. When England desired slavery abolished throughout the world Calhoun has been so bad that he was unable to work for a number of days. Some three weeks ago he cut his left thumb with a meat cleaver. The wound healed over but in a few days the hand began to swell and it was necessary that it be lanced. He is making a good recovery although his hand is still swollen and painful.

The inspiring name "Old Glory" was given to the American flag by Captain William Driver of Salem, Massachusetts in 1851. The white signifies purity, innocence, the red hardness and valor; blue is the ground of the American uniform, and this color signifies vigilance, perseverance and justice.

William Gayde is recovering from a severe case of blood poisoning in his left hand. The infection has been so bad that he was unable to work for a number of days. Some three weeks ago he cut his left thumb with a meat cleaver. The wound healed over but in a few days the hand began to swell and it was necessary that it be lanced. He is making a good recovery although his hand is still swollen and painful.

Thus concludes the great American triumvirate of the first and middle part of the nineteenth century. Each had contributed his share in the building up of our American history. Daniel Webster, Henry Clay, and John Calhoun will, as long as America is, be known as important factors in its history.

THE AMERICAN FLAG By Miss Marian Kleinschmidt The flag is a design usually in colors, symbolizing authority or ownership. It is made of flexible material as cloth or paper to wave in the air. It may be attached to a pole or the flag may be fixed to a staff that may be carried.

In 1737 the first flag of the New England colonies had on it a blue field with a white union quartered by a red cross. A flag of the union was carried at the battle of Bunker Hill. The second flag was the flag of Lexington and Concord. It was maroon in color bearing the motto "Conquer or die."

The device of a rattlesnake usually represented coiled and ready to strike was popular with the American colonists just before the Revolution. The flag of the Cupepper minutemen carried this symbol together with two inscriptions "Don't Tread on Me," and "Liberty or Death."

The next flag had upon it thirteen stripes of red and white to represent thirteen colonies. In the corner there was the "Union Jack" as it was called. When the Declaration of Independence came the colonists said we must

have a real flag, for now we are the American nation." There is nothing definite known as to what suggested the idea of stripes unless as has been claimed, it was the stripes that appeared on the coat-of-arms of the Washington family. A flag with stripes was used by the troop of light horse that escorted Washington to New York when he took command of the army; and stripes were also used on one of the flags of the East India Company.

After the adoption of the Declaration of Independence in 1776, it was felt that a national emblem of union and independence should be chosen. On June 14, 1777, the following resolution was adopted in Congress: "Resolved, that the flag, thirteen stripes, alternate red and white, and thirteen stars in a blue field." In this resolution were born the national stars and stripes.

At the time the stars and stripes were adopted, Congress was sitting in Independence Hall in Philadelphia. There was living in the city a widow named Elizabeth Ross, who for several years had made government flags. It was still standing at 229 Arch Street, Philadelphia, preserved as a memorial.

In 1818 Congress passed an act providing for the addition of one star to the flag whenever a new state was admitted to the Union, and decrees that henceforth the number of horizontal stripes should be thirteen. The stars were to be added on the Fourth of July following the admission of the state.

The United States adopted the Stars and Stripes as its emblem. The flag has become to the American people a symbol of national growth, power, union and of liberty.

The gallant Paul Jones was the first of the naval heroes to make the star spanned banner a symbol of glory. An executive order of President Taft, in 1912, fixed the stars to start as six rows of eight stars each, the stars symbolizing the states in the order of their ratification of the constitution and their admission to the Union as follows: Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina, New Hampshire, Virginia, New York, New Jersey, Tennessee, Ohio, Louisiana, Indiana, Mississippi, Illinois, Alabama, Maine, Missouri, Arkansas, Michigan, Florida, Texas, Iowa, Wisconsin, California, Minnesota, Oregon, Kansas, West Virginia, Nevada, Nebraska, Colorado, North Dakota, South Dakota, Montana, Washington, Idaho, Wyoming, Utah, Oklahoma, New Mexico, and Arizona.

The inspiring name "Old Glory" was given to the American flag by Captain William Driver of Salem, Massachusetts in 1851. The white signifies purity, innocence, the red hardness and valor; blue is the ground of the American uniform, and this color signifies vigilance, perseverance and justice.

William Gayde is recovering from a severe case of blood poisoning in his left hand. The infection has been so bad that he was unable to work for a number of days. Some three weeks ago he cut his left thumb with a meat cleaver. The wound healed over but in a few days the hand began to swell and it was necessary that it be lanced. He is making a good recovery although his hand is still swollen and painful.

Thus concludes the great American triumvirate of the first and middle part of the nineteenth century. Each had contributed his share in the building up of our American history. Daniel Webster, Henry Clay, and John Calhoun will, as long as America is, be known as important factors in its history.

Plymouth Wins Fifth Victory

Buick Sales Team Takes Fast Detroit Outfit By Score 10-3

The Plymouth Buick Sales baseball team won its fifth victory of the season by defeating the Tigran A. C. of Detroit, 10 to 3, at the Plymouth Riverside Park last Sunday.

Warren Bassett won his third straight victory when he led the Detroit boys down with five hits and he got twelve on strikes, which is very good pitching. Tonkovich's home run in the fourth inning tied the score and Warren Bassett scored what proved to be the winning run on C. Levandowski's single in the fifth inning.

Williams, Tonkovich and L. Bassett were the leading hitters of the day, while Williams led the outfielders in fielding. The Tigran A. C. of Detroit have won seven and lost two of their other defeat being a fourteen inning game.

Next Sunday the strong Dedwite Garage Team of Detroit, a class A team will meet the local lads at Plymouth Riverside Park at one o'clock.

Table with columns AB, R, H, E and rows for Tigran A.C., Schulte, King, Mouel, Niehaus, H. Burr, Schulte, Wist, R. Burr, Dubay.

Ford Makes First Cut In Car Prices

Reductions of \$10 to \$45 in list prices of 1934 Ford V-8 passenger cars and \$10 to \$20 in list prices of Ford V-8 commercial cars and trucks were announced last week by the Ford Motor Company effective Friday, June 15.

Ford prices had remained unchanged since the introduction of the 1934 Ford V-8 last December. The Ford Motor Company not having participated in the recent general automotive price increase. The reductions announced are, therefore, a decrease in the original prices.

The price reduction on the standard and de luxe Tudor Sedans, most popular individual models in point of sales, is \$15. Prices of other standard and de luxe body types were reduced \$10 except prices of the Roadster, Phaeton and Cabriolet, de luxe types, which remain unchanged. Both standard and de luxe passenger cars have the same V-8 engine and 112 inch wheelbase chassis. Body types for both are identical except for the de luxe equipment.

A Quartermaster Sergeant in the Army is the custodian of government property of his regiment or battery, while in the Navy, a Quartermaster is an assistant to the Navigator; he keeps the charts, clocks, etc. up to date and is the man who welcomes you with a smile when you go aboard a Naval vessel.

AGAIN I'LL VACATION IN MICHIGAN By Colen W. Hungerford

Editor's Note—This year as in past years, the Michigan Bell Telephone Company is taking space in 250 Michigan newspapers to insert a series of advertisements devoted to urging readers to "Take Your Vacation in Michigan." The following editorial from the "Michigan Bell" monthly organ of the telephone company was written by Colen W. Hungerford, advertising and news manager for the utility, and is an interesting explanation of the campaign.

It is not common practice to write editorials in the first person, singular, but I claim that privilege in this instance, not only because of my deep interest in the subject, but because I feel well qualified to discuss it. I was born in Michigan. For nearly 50 years I have lived in various sections of Michigan. As newspaper writer and editor and advertising man, I have been up and down this state, back and forth across it many times. I have visited most of the cities and towns within its borders, with standing all that, each year I find new points of interest, new scenes of beauty, new industries, developments and activities significant to Michigan's growth and progress—and what is a great source of pleasure to me, new friends and new acquaintances.

I have found no better place to spend my vacations. In my opinion, there is no part of the land where both the natural and man-made attractions are equal to those offered by Michigan. Hospitable cities and people; splendid hotels; excellent tourist camps and resort centers; modern stores and theatres; the very best in transportation and communication system; up-to-date and live newspapers—add those things to Michigan's wonderful water-cooled climate, its thousands of lakes and rivers, its forests, hills, valleys and cataracts, and the long coastline of the Great Lakes, and I can wish for no more. But there also are innumerable spots of historic interest, the great centers of industry, the enormous water commerce that passes through our

channels and great ship canals. And there are mountains in Michigan—the Porcupines, far up on Lake Superior—that really surprise one. Seven years ago, it was determined that it would be beneficial to our Company to advertise Michigan as a vacation land. During the summer seasons since then, our Company's advertising in 250 newspapers in the territory we serve has urged Michigan people to spend their own vacations in their own state and to induce out-of-state relatives and friends to come to Michigan.

We believe the results have more than justified the effort that Michigan and all its people have benefited, and that our Company has benefitted. We feel certain that the huge amount of vacation money spent in Michigan each year has been increased as a result of that advertising. I've mentioned the newspapers in which we advertise—my work takes me to their doors frequently, to call upon men and women with or for whom I've worked, and for whom I've come to have the highest regard as builders of communities and of high ideals. They are advertising Michigan, constantly and in a big way—to their home folks and to the world at large. Probably few people realize the contribution that our weekly and daily papers make to their respective communities and to the entire state. Our sales advertising in their columns has brought business to our Company and employment to us. This month we shall resume our "Vacation in Michigan" advertising in those newspapers, and we believe it will bring business to Michigan, employment to Michigan people, and increased business to the Michigan Bell Telephone Company.

Tampico, an important port on the Gulf Coast of Mexico, is to become a naval base. The preliminary surveys have been made by Captain Marjica. The plans for improving the harbor include the construction of new jetties at a cost of \$3,000,000.

Try A Mail Want Ad

MICHIGAN BELL TELEPHONE CO.

THERE ARE PLENTY OF "BIG ONES" IN MICHIGAN WATERS

But fishing is only one of the varied attractions Michigan offers vacationists. The Great Lakes themselves, and 5000 inland lakes and streams, present opportunity for almost every known water sport. And for those whose chief interest is golf, tennis, riding or other land sports, Michigan is an unexcelled playground.

Michigan's tourist and resort business brings large sums of money to the state each year. It provides employment for thousands, and greater prosperity for all of us. We can increase that business further by telling out-of-state friends about Michigan's vacation advantages and by spending our own vacations here.

And, no matter which part of Michigan you visit this summer, banish worry by telephoning home and office frequently. Call ahead for reservations, or to tell friends you are coming. Long Distance calls will add but little to the cost and much to the enjoyment of your vacation.

Lauds America As World Leader

Rotary Speaker Declares That It Leads In Education

Rev. Peter E. Sudah, a son of Jerusalem, whose early career was lived in the Holy Land, a student in the schools where civilization had its beginning, was a guest of the Plymouth Rotary club last Friday evening. The occasion was the annual summer ladies' night of the club and for two hours the Rotarians and their ladies heard an intensely interesting talk by one who knows the problems of the Near East as well as of America.

The speaker, a youthful Presbyterian minister who has spent practically his entire life within the educational institutions of the Holy Lands and America, declared that it was America's advanced educational ideas that had lifted the Near East out of the plight it had been in for so many centuries.

"True, civilization was born in the land of my birth. There all enlightenment started and our people of centuries ago were educated when the peoples of other parts of the world were savages and barbarians. But that civilization for many centuries was crushed to earth and now in recent years through your aid we are again on the way back to where we were in the long centuries ago," he said.

He said that much of the misunderstanding between the Near East and Far West was due entirely to the wrong impressions tourists and some missionaries had. "They expect" he said "to

learn all about our people and our problems just by looking at us. They make no effort to talk our language or to live our lives so they may know intimately our thoughts and ideals.

"But through the great educational institutions you built in our country and the desire of our young people to know more about you and your ways, we have made wonderful progress in recent years. There are many young people from our country in your universities and colleges. They come here to learn of the way you do things and they go back to teach those who cannot come.

"It was due entirely to America's education that turned Turkey into the modern republic that it now is. It took the veils from the faces of girls and women and it has made possible a far better country than it has ever been at any time in all history.

The youthful speaker is a member of International Rotary and has addressed not only many Rotary clubs in America, but on the old continent as well. He is at present doing research work at the University of Michigan.

Burglars Rob Homes At Novi, New Hudson

Four New Hudson homes had undesirable visitors Tuesday night, with the householders knowing of their presence until the next morning. The places entered were the residences of Alfred Travis, O. A. Gooding, Herbert Fattigall and Wm. Sdunek. The amount of plunder was small, consisting of 30 cents from the Travis home, a watch from Gooding's, and \$6 from William Sdunek's. At all of the homes the occupants were sleeping upstairs and the intruders found entrance easy by unhooking a screen, raising an unlocked window or removing a window

screen. They left more or less disorder in the rooms, where they were evidently looking for money.

The home of Guy Banks at Novi was entered Monday night and the intruders pocketed \$20 in currency from the pockets of his trousers in the room where he was sleeping.

Capital is still hopeful that the day will come when it can sit up and take interest.

Useful knowledge acquired today makes every succeeding day more productive.

Hot Water for Health and Comfort with an ELECTRIC HOT WATER HEATER!

SUMMER weather brings a demand for cooling and refreshing baths, for invigorating showers, for countless uses throughout the day. Have you ever known the unequalled comfort of an abundant supply of hot water, definite in quantity, day and night, ready when you wanted it?

Here is something new: Decide how many gallons of hot water you want available for your family every 24 hours. With this new service you buy a measured quantity of hot water each day, available day and night, and you need only pay for that amount.

The low rate for this service is possible through the use of a specially designed heater which stores the hot water during the night hours.

The new low rate now offered for electric water heating is a flat annual rate for year round service, which permits you to enjoy electric hot water for as little as 8c a day (40 gallons). Sixty gallons of hot water cost 10c a day, and eighty gallons 12c a day. Under this new arrangement, you may also obtain a seasonal rate for electric hot water, should you desire to use the heater only during the summer months. This rate is slightly higher—about 11c

a day for 40 gallons, 13c a day for 60 gallons, and 16c a day for 80 gallons. You may buy or rent an electric water heater, whichever you choose. Rental rates for heaters are low, and if you prefer to buy the heater, convenient monthly terms may be arranged.

### CHANGING OUR MIND

For sometime past we have thought possibly there might be some merit in the plan being advanced in Michigan to reduce the number of governmental units. Those sponsoring the idea have put forth the argument that the system of rural government now prevailing is an unnecessary burden upon the taxpayers. Like many others, we have accepted the argument without giving it a whole lot of thought.

But this week there comes direct from the headquarters of the organization that for some ulterior or altruistic motive would abolish all township government the statement that the county-township system of local rural government was devised by President Thomas Jefferson and came to this territory in 1785 during his administration.

They point out this fact as proof of their contention that anything so old as something advocated by Thomas Jefferson must be bad and is bad.

That about ends the argument as far as we are concerned. Thomas Jefferson knew more about and equaled government than any other man that ever lived. When one stops to reflect a moment and check the whole thing over, just what is the interest anyway of a lot of these salaried upstarts in the plan to change our form of government and who is so concerned in the scheme that they are willing to finance an expensive propaganda campaign to bring about the abolishment of the local governmental units? Certainly it is a lot of presumption on the part of some one to set their fantastical judgement up against that of President Thomas Jefferson, regarded as one of the wisest students of government that ever lived.

With all the graft, rumors of graft, mounting tax-supported public payrolls and a constantly decreased efficiency in government, we sometimes wonder if the public wouldn't be better off if ALL of this new tomfoolery in government was given a good swift kick and the boys and girls who are so anxious to foster more of it upon the public given some real work to do at the wages most folks of today are getting.

### WHAT IS THE ANSWER

The Michigan Automobile club, which was formerly the Detroit Automobile club, is just now making much of the fact that it has submitted to the secretary of state petitions calling for the submission of a constitutional amendment upon the amount of gas tax that can be collected in Michigan. The club officials have been "ranting and raving" over what they charge is an unfair tax upon the man who drives an automobile and now they are endeavoring to limit that tax by a constitutional amendment. Just how many years ago is it since this same automobile club was "ranting and raving" because former Governor Alex J. Groesbeck thought it advisable to veto one legislative bill that provided for an increase in the gas tax? They wanted him banished to Siberia or some other place for doing the very thing that the club now seeks to do by constitutional action. What is the answer, we would like to know, to this changed idea of things?

### THAT GRAND JURY

Now that a grand jury has been called for the first time in the history of the state to investigate rumors of graft in affairs of the state government at Lansing, the taxpayers and voters of Michigan hope that they've hit on graft and crookedness will be investigated. Never has there been so many stories floating about which insinuate wrong-doing as there has been in the last year or so. If they are untrue, then those that circulated them should be punished. If they are true, the guilty should be punished. The one big job now is to see to it that nothing keeps the inquiry from being a thorough one.

### WRONG AS USUAL

Alfred Debo, parole commissioner and what-not of the Lansing administration, had much to say the other day about the effort of Senator Couzens to force the nomination and election of Judge Lacy as governor. Debo thought that because Lacy was attorney for Couzens that surely the senator must be back of the plot to make Lacy governor instead of Comstock. Now Senator Couzens most emphatically declares that Judge Lacy has not been his attorney for some two years or more, that he is not even interested in Lacy and wouldn't vote for him even though he was nominated. Another wrong guess, Mr. Debo.

### GOOD JUDGEMENT

We cannot help but express to Judge Maher of the Detroit traffic court our commendation for the decent sentence he imposed upon Supt. of Public Instruction Voelker as the result of that unfortunate automobile accident some months ago in Detroit. Voelker declared that he was confused by the red advertising signs and did not see the traffic light. To people who do not live in Detroit and only occasionally travel the streets of that city at night time, there is nothing so confusing as the red advertising signs. Judge Maher's recommendation that Detroit give some consideration to changing the color of these lights should be given immediate action.

### Rambling Around With Michigan Editors

#### POLITICAL LEECHES

We have made frequent mention of the political leeches who have stolen the public mind under the Lansing administration. We never have claimed that the abuses were corrected under the Couzide or Hoover administrations, although we did believe that some effort in that direction was made.

his advocacy of new and higher taxes is excusable in the emergency, likewise his disagreement with the delegation in Congress is perhaps as much the fault of that delegation as it is his. On the other hand some of his mistakes, while not important in themselves, have been a direct faulting of public sentiment. This was particularly true in his pardon of the Metzger case. Regardless of the merits of the case, his act was in direct conflict with the public opinion, and suggested a lack of appreciation of the power which the citizens delegated to him.

Some of the public confidence which the Governor lost through previous acts may be restored if he insists that the Attorney General continue the grand jury investigation and it is concluded in a way to really get at the racketeers and lobbyists who prey on the public through many and devious means. On the other hand if the investigation, which is so handled as to give a white wash to some of the higher-ups who may be guilty, then all semblance of confidence in the administration will be lost.

The public at large has seen and heard enough of scandal to

### PLAYING POLITICS WITH DESPAIR

The charges made by the retiring head of the U. S. home loan office in Detroit that practically every transaction of his office was in some way involved in politics is a mighty serious one and cannot be believed that the government is permitting such an important branch of governmental service to migrate into a political football. The home loan office was created to help people save and keep their homes. It was not desired to be used for political benefits and with aid going to the favored only. We cannot believe the charge and we hope that the proper sources will provide the public with a statement showing that these charges are false.

### WHAT CONGRESS GAVE US

We do not know as yet what the benefits of the many measures passed by congress in the session just closed are going to be—but we do know that the dying congress gave to American people the biggest tax bill ever imposed upon a people since the beginning of time. There is but one question in our mind—will the property owners of the United States be able to bear the burden they face or will we collapse under the load that has been heaped upon us. Only time will tell.

It is because of our unlimited faith in the desire of President Roosevelt to use this vast amount of money for the benefit of ALL the people that we do not face this tax burden with the fear the ordinarily might possess. There is only one thing to do—cooperate and work with him in seeing to it that the greatest good comes from the billions to be collected in taxes.

### WHY A COMMUNITY NEWSPAPER?

Contest Sponsored by Adrian Van Koeveering of Zeeland, Michigan  
By DAISY D. BARSNEY, Jonesville, Michigan (Favorable Mention)

The local newspaper is the best advertisement for a wide-awake progressive community. It reports the news of the community, its people, its history, its people, and its prestige. The paper is a good index of the life and character of the community. It reveals what the people are like, their ideals, their aspirations, and their attainments either individually or collectively. The drama embracing the entire community is set forth and vividly enacted in the news. Thus, if it is attractive in its physical make-up, alert to news values, clean and fair in its point of view, and conservative of public welfare, a community newspaper is sure to attract and hold its readers and is assured of its future.

The small town stands as an intermediary between the rural district and the cities and it will play an important part in the regeneration of American social and economic life which is already in progress. Publicity is a prime requisite in any program of change or improvement and the community newspaper may and undoubtedly will become a vitalizing factor in determining the direction the future of its community shall take.

Local papers reach the people both in the village or town and in the surrounding community. By recognizing the interests and activities of the outlying neighborhoods help to bring about a spirit of "oneness" and make for common interests, co-operation, and consolidation which future community development demands.

The community newspaper is devoted largely to local news and in this it renders a service. We can get news of the outside world from the city papers but it is to our local paper that we look for contacts with neighbors and friends in their daily rounds of business and pleasure. We can depend upon it for reliable information on what the people of the community are doing, feeling, thinking. It is this that interests us and news must be interesting first of all.

Any individual who is in any way identified with a community comes to appear in the paper. Those who have spent a large part or all their life there have formed countless acquaintances and associations and they want to "keep track" of their friends and fellow townsmen and follow their goings and their comings, and their shortcomings too. Newcomers in the community can soon glean from the local press quite a clear conception of the type of community of which they have become a part. Many of those who move away want to keep in touch with the old home town and send their subscriptions regularly so they may not miss a single issue of the home paper.

Whether you are a rather casual reader of the news or a reader who devours the paper in entirety from the first headline to the final "ad," you will agree that the local paper is indispensable—that you just could not get along without it. You may wonder, however, how some communities can get along without it. The answer is they have. But if a paper isn't satisfactory the best way to get the kind of a paper they want is for the people to demand it.

The local paper is the best and perhaps the only medium for presenting to all the people the community issues and local problems. It puts before its readers whatever enterprises are undertaken by the town or village government, by social and fraternal organizations, churches, schools, and the like.

More and more use is being made of the local paper for announcements and reports of the activities of all local organizations and members and others interested depend upon it for references to meetings, time, place, etc. It is easier to look it up in the paper than it is to charge the memory with all the details of the community calendar.

The local merchants, business and professional men have, through the paper, a means of advertising their merchandise, their services, or other offerings. This proves a source of mutual benefit and of profit to advertiser and reader alike.

The community newspaper justifies its existence by the varied services which it renders. There is a possibility of a distinct service to present-day readers and a service that has in it the making of a steadied community. This is the imparting of a spirit of hope, of a belief in ultimate recovery and of a faith in the future.

### CRICKENS COMING HOME

The inconsistencies that are cropping up between the criticisms that President Roosevelt made upon activities that were in vogue before he took office and the claims that he is now making for the program that is a feathering industry by day as Candidate Roosevelt's speeches made during the campaign in 1932 are set up against President Roosevelt's policies pursued since he took office. For example, in his farm speech made at Topeka during his campaign in 1932 he is quoted as saying:

### 25 YEARS AGO

Interesting bits of news Taken from Plymouth Mail  
Fred Lee of Livonia Center was in Detroit on business last week.  
Born to Mr. and Mrs. Arthur Tilton last Thursday, a son.  
J. D. McLaren and son John and Mr. and Mrs. Will McLaren spent Sunday at Lima Center.  
A gentleman from the city has rented John Baze cottage near Livonia Center.  
Mrs. W. O. Allen received a Buick motor car last Saturday. Elmer Durant is again the chauffeur.  
Carl Hillmer came home from Flint last Friday because of illness but was able to be out Monday.  
Tommy, the most famous hunting dog which was owned by Isaac Innes of Pike's Peak, was killed last Thursday evening.

### THE DRY SOUTH

The reaction of the south to the repeal of prohibition is interesting. Some of the states there is little indication that open selling of hard liquor in any form by the glass will ever again be clear as it is in some of the states they are still content with their 3.2 beverage and expect nothing stronger. Kentucky is shrewd enough to levy a tax on the sale of liquor. This is applied to every gallon sold no matter to what state it may be shipped. That state it may be carrying over the passage of any liquor control act. Georgia and North Carolina are expecting to remain dry. West Virginia has a state prohibition clause which cannot be removed before 1936. Michigan has an unenviable distinction of being in the very front rank of states to hurry back to the days of the legal drinking place. The south led the way to prohibition. It appears content to remain under it. Vernon J. Brown in The Ingham County News.

### NOT NEW

History shows many examples of taxing people until they repudiated tax obligations.—R. G. Jefferies in The Lowell Ledger.

### PENNY WISE!

We believe the movement to limit by constitutional amendment the Michigan gasoline tax to two cents per gallon is entirely unwise. The claim that excessive gasoline taxes are keeping 300,000 motor cars off the road is a gross distortion of fact. Actually the three cent tax here in Michigan is below average. The state is one of two which levy this rate and only four charge less. Five states have four cent taxes, ten charge five cents, six charge six cents, one state six and one-half cents and two others seven cents. So Michigan motorists enjoy one of the most reasonable gas tax rates in the entire country.

### Three Amendments To Constitution To Be Submitted In Fall

Three constitutional amendments, at least, will be submitted to Michigan voters at the general election November 6. A lot of 161,627 signatures is needed to qualify for a place on the ballot containing the proposed amendments. The final date for filing is July 6.

### NATURE'S HELP

The weather has reduced the wheat crop away beyond the fondest hopes of the brain trust. William Berkeley in The Cassopolis Vigilant.

### "PROSPERITY BY STARVATION"

"We wonder if that old axiom, 'starve the wind and reap the whirlwind,' is not applicable to the crop reduction - hog killing program of the present Washington Administration under Wallace & Tamm. For now the need of killing off a million cattle, paying for them with U. S. tax money, because Nature is helplessly co-operating with the reduction policy of a government policy of 'prosperity by starvation.' Surely, from present appearances caused by the drought if scarcity of crops is the foundation of the present policy, then the American farmers next fall ought to be rich as hell—but what will the city worker use for money to buy the expensive food with? And how many more government pay for the carrying on of welfare relief?—George Averill in The Birmingham Evening Post.

### HOW TO SURVIVE

If this country survives, we must put character ahead of money.—Mun DeFoe in The Charlotte Republican-Tribune.

### TELLING 'EM

In the good old days many a father usually consumed enough at the bar to over-satisfy the worried wife and family. Today Sally is making daddy look like a nicker. The cigarette for Sue takes the place of the free brand of father and all is well because for prosperity's sake America needs a new deal—more and merrier bars. Fred says that America's recent repeal has gone on a grand jag and I feel quite sure hard liquor being consumed will not improve our moral standards. Top it all off with the demand of the flaming youth for lousier motion pictures and we behold a spectacle which is not altogether reassuring that this generation won't have its hands full in bringing recurrence of those forces which destroyed empires.—J. John Pope in The Grandville Star.

### WHERE THE MONKEY GOES

Officials who are mere entertainers are costing the public untold millions.—Al H. Weber in The Cheboygan Observer.

Folks who never do any more than they get paid for never get paid for any more than they do.—Elbert Hubbard.

### Farmers Asking For Loans On Fall Crops Lead In This State

Michigan led the other three states of the 7th Farm Credit Administration district in volume of credit obtained for crop production purposes from the Intermediate Credit Bank of St. Paul in May, the monthly report of the bank shows. This was \$26,150 for crop production purposes out of a total for that purpose of \$46,740 for the month. More than 97 per cent of the loans made by the Intermediate were made for general agricultural purposes, about one-half of 1 per cent for livestock purposes, and less than 2 per cent for crop production.

Out of a total of new loans and discounts of \$2,839,411 made by the bank in May, \$929,733 was loaned to the Production Credit Associations, the PCA's, or new, permanent cooperative credit organizations which the farmers have formed under the Farm Credit Administration. There are 18 of these in Michigan through which \$210,344 was loaned for the month.

The interest rate which the farmers pay on these loans comprises 2 per cent which goes to the Intermediate Credit Bank to pay for the money it lends to the PCA's and 3 per cent which remains in the local association's treasury to build up the organization and constitute a part of the community's assets.

The monthly report shows that the Intermediate Credit Bank had outstanding at the end of the month loans and discounts totaling \$50,125,000 in Michigan, Wisconsin, Minnesota and North Dakota.

Total loans closed through its channels in Michigan, from January 1 to May 31, amounted to approximately \$478,000, and loans paid and charged off in Michigan during the month amounted to \$543,000.

### The bill authorizing the appointment of Richard Pearson Robson, who resigned from the naval service two years ago, as rear admiral has been favorably reported to the House. This would be in recognition of his heroic act in the sinking of the U.S.S. Merrimac in the harbor of Santiago in 1898.

Mr. and Mrs. Harry DeBar spent Sunday with relatives at Ypsilanti.

### Graphic Outlines of History By Schrader Bros.

The Round Tower, Old Fort Snelling, Minnesota. Old Fort Snelling, Minnesota, was ready for occupancy in 1822, and troops are still quartered there. An atmosphere of reverence pervades every ceremony superintended by our staff.

## WHEN YOU TRAVEL

When you travel you must have money and yet there is a definite risk in carrying cash.

Traveller's cheques solve your problem. No one can cash them but you and your signature is the only identification you need.

The next time you take a trip, provide yourself with this safe, convenient way of carrying the money you will need. The cost is very low.

Once to every woman comes the one great love of her life.

# Fear Collapse Of Building, Move

M. W. Powell & Son Now In Bronson Garage Off Penniman

Flood waters of Tonquish creek have so weakened the Baker garage on South Main street that M. W. Powell and Son this week were forced to move from the building for fear that it might crash in and damage their trucks or injure some one.

They have taken a long lease on the Bronson building in the rear of the Plymouth Mail office which will provide them with an excellent location for their trucks.

There are three driveway entrances to the Bronson garage, one from Penniman avenue, one from Harvey street and the other from Ann Arbor street.

Workers were busy Monday and Tuesday in moving trucks, equipment and other materials to the new location.

For the past two or three years the high waters of Tonquish creek have been slowly cutting off the ground at the northeast corner of the garage. Braces have held it in place. Last spring a big crack appeared in the wall and the settling of the building has caused a general fear of a mishap which resulted in the removal of the Powell trucking business to its new location.

# Our Churches

## ST. PAUL'S EV. LUTHERAN CHURCH

There will be no church services in this church on Sunday, June 24. On June 17th following children were confirmed in our faith: Alice and Jean Hoshbach, Edward Landau, Celesta and Wilbur Lute, Allan and Paul Peterson and Evelyn Wolff, and Donald Mielbeck, and on Wednesday evening, June 20, Mrs. Leila Hoshbach was confirmed.

Charles Beyer was elected delegate to represent our church at the synod session of our Michigan at Lansing. Charles Ash was elected alternate.

## CHRISTIAN SCIENCE CHURCHES

"God the Preserver of Man" was the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, June 17.

Among the Bible citations in this passage (Nehemiah 9:21): "Yes, forty years did you sustain them in the wilderness, so that they lacked nothing; their clothes waxed not old, and their feet swelled not."

Correlative passages to be read from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 566): "As the children of Israel were guided triumphantly through the Red Sea, the dark ebbing and flowing tides of human fear—as they were led

through the wilderness, walking wearily through the great desert of human hope and ambition, the promised joy—so shall the spiritual idea guide all right desires in their passage from sense to Soul, from a material sense of existence to the spiritual, up to the glory prepared for them who love God."

## CATHOLIC CHURCH

Sundays: Mass at 8:00 and 10:00. Confessions Saturday nights at 7:30, and before each mass.

Week-days—Mass at 7:30. This hour makes it convenient for the children to attend on their way to school. All should begin the day with God.

Societies—The Holy Name Society for all men and young men. Communion the second Sunday of the month. The Ladies' Altar Society receives Holy Communion the third Sunday of each month. All the ladies of the parish are to belong to this society.

Children of Mary—Every child of the parish must belong and must go to communion every fourth Sunday of the month. Instructions in religion conducted each Saturday morning at 9:30 by the Dominican Sisters. All children that have not completed their 8th grade, are obliged to attend these religious instructions.

## METHODIST NOTES

10:00 a. m. Morning worship. 10:00 a. m. Children's church. 11:00 a. m. Church school.

Rev. F. G. Wright of Saranac will be guest preacher Sunday morning. He will speak on Christian Stewardship. Pledges will be taken for the current expenses and world service for the ensuing conference year.

Tuesday evening at six thirty will be the annual potluck supper and fourth quarterly conference for the year.

## FIRST CHURCH OF CHRIST SCIENTIST

Sunday morning service at 10:30 a. m. subject—"Is the Universe, including Man, Evolved by Atomic Force?"

Wednesday evening testimony service, 7:30. Reading room in rear of church open daily from 2 to 4 p. m., except Sundays and holidays. Everyone welcome. A lending library of Christian Science literature is maintained.

## FIRST BAPTIST CHURCH

Loya Sutherland, Minister. At this ten o'clock hour, the pastor will conclude the echoes of the National Convention. "Baptists For Such a Time As This." Surely it is time for a great denunciation to have something to say about the present day sins. Other Christian leaders met their time, met it with courage and certain word. You are invited to hear the message of the morning. It will have a clear ring of truth.

11:15 Bible School. Our attendance has been most gratifying in spite of the beginning of vacation days. Come and study the Word.

7:30—It is quite impossible to tell of the delightful service we shall have brought to us again by a group of colored singers and workers from the Negro Center in Detroit. Can they sing? Well you know they can, and you will want

to hear them this Sunday night. We are in the very beginning of the summer's work, and this is just one of the fine helps we shall have during the summer months on Sunday evening.

Prayer service Wednesday evening at 7:30. This week Friday the pastor will be taking five boys, possibly six, to the State Boys camp at Penon. The boys will be in camp for eight days, and on their return the Junior choir of the church will have their special camp at some near-by lake. The Loyal Daughters of the church are this Tuesday night enjoying a potluck supper and meeting at Riverside Park. Mrs. Sutherland is the teacher of this fine group of women.

## BEREA CHAPEL

James A. Davis, Pastor. Sunday school, 9:45 a. m. Morning worship, 11:00 a. m. Evening service, 7:45 p. m. Wednesday evening, Young Peoples Service, 7:45 p. m. Friday, Cottage prayer meeting, 7:30 p. m. Street service, Saturday, 9:00 a. m. Pastor's home, 259 E. Ann Arbor St. Street service at the corner of Liberty and Starkweather Sts. Everybody welcome.

"And as Moses lifted up the serpent in the wilderness, even so must the Son of Man be lifted up. That whosoever believeth in him should not perish, but have eternal life." John 3:14 and 15.

## ST. JOHN'S EPISCOPAL CHURCH

Church and school closed until September.

## BEECH M. E. CHURCH

Morning worship, 9:30 a. m. 10:30 Sunday school.

## ST. MICHAEL'S CHURCH

Masses: Sundays 8:00 and 11 a. m. Holy Days 7:30 and 9:00 a. m. Week days, 8:00 a. m. Confession on the second Mass. Catechism class after first Mass. Benediction after second Mass. Baptism by appointment.

## FIRST PRESBYTERIAN CHURCH

Walter Nichol, Pastor. Next Sunday's service will be marked by the observance of the Lord's Supper. The session of the Room at 9:30 a. m. Applicants for membership may meet them there. At 10 a. m. the regular service will be held. Children will be dedicated in baptism and the communion administered.

## CHURCH OF THE OPEN DOOR

Independent Baptist. "A young woman was greatly concerned over her salvation. I had frequently talked with her, and placed Christ before her very plainly but she didn't seem to grasp the truth. One morning she came to me in great earnest saying, 'I want to be saved; will you pray for me?'"

"No, it's no use praying. I have set Christ before you as God's way of salvation. He says, 'I am the Way, the Truth, and the Life; no man cometh unto the Father but by Me. Neither is there salvation in any other; for there is none other name under heaven, given among men, whereby we must be saved. You won't have Him and you will be lost.'"

"Oh, sir," she said, trembling, "is there no hope for me?"

"Absolutely none apart from Christ. He says: 'He that believeth on the Son hath everlasting life and he that believeth not the Son shall not see life but the wrath of God abideth on him.'"

"But, sir, I would do anything in the world if I could only be saved."

"If you were to do EVERYTHING in the world you would be lost."

"If you won't receive Jesus Christ as your Saviour, all the praying between heaven and hell won't save you."

"After a pause I asked, 'Will you take Him now as your Saviour, trusting Him for salvation apart from all praying and doing?'"

"I will," she said earnestly, and I am sure she has never doubted that she was saved that moment."

Next Sunday morning the pastor will take the study of Philip's epistle which was started on last Sunday and we look for a continued blessing in the study of that portion of scripture.

## ERNEST ROE BACK FROM TRIP TO COAST SAW DROUGHT DAMAGE

"The plight of the middle west and the Rocky Mountain states is just as bad, if not worse than what the newspapers have said," declared Ernest Roe, who is just home from a month's tour of the western states and California.

"I never before saw just a hot, dry place as the middle west. The drought has certainly ruined everything out there. What the people of the middle west will do this winter I do not know, but certainly there are going to be no crops in that part of the country."

Mr. Roe left about a month ago for the western trip. He stopped at several points in the middle west where he learned just how

# Plight Of West Is Most Serious

Ernest Roe Back From Trip To Coast Saw Drought Damage

"The plight of the middle west and the Rocky Mountain states is just as bad, if not worse than what the newspapers have said," declared Ernest Roe, who is just home from a month's tour of the western states and California.

"I never before saw just a hot, dry place as the middle west. The drought has certainly ruined everything out there. What the people of the middle west will do this winter I do not know, but certainly there are going to be no crops in that part of the country."

Mr. Roe left about a month ago for the western trip. He stopped at several points in the middle west where he learned just how

bad things are in that section. "But out in California things are a little different. Business seemed to be just about as it is here. There is considerable vacant property, but business seemed to be picking up from what everyone said. You can't sell real estate out there any more than you can here. Crops looked good in California. Of course they have irrigation there and rains do not make so much difference. In the middle west there was little or no snow in the mountains last winter and of course that means there is no water in many of the streams. There was no hot weather out on the coast. "I saw the house where the kidnapers held that millionaire oil man that was kidnapped near Los Angeles sometime ago. It was right in a neighborhood where there are plenty of other houses, although there were several vacant ones near it. "The flood last winter near Los Angeles did all the damage that was reported. You can see plenty of evidence of it yet, although much has been done to repair the damage."

# MEN Risked their lives, STAKED THEIR FORTUNES SMASHED WORLD RECORDS FOR

# Your Safety! SAFEST TIRE FIRESTONE EVER BUILT

THE New Firestone High Speed Tire for 1934 was built to give you the same dependable service it provided for the 33 drivers who started in the torturous 500-mile grind at Indianapolis May 30.

This new tire has a wider tread of flatter contour, deeper non-skid, more and tougher rubber, giving you more than 50% longer non-skid mileage.

Besides being Safety Protected on the outside it is Safety Protected on the inside. Eight additional pounds of pure rubber are absorbed by every one hundred pounds of cords.

This additional rubber is so placed that it surrounds every cotton fiber inside every cord in every ply. This is accomplished by soaking the cords in liquid rubber by a Firestone patented process. Gum-Dipping, is not used in any other tire built.

Heat caused by internal friction of cotton fibers destroys tires—causes separation and blowouts.

Gum-Dipping counteracts friction and heat—provides greater adhesion and binds the cotton and rubber together into one cohesive unit of greater strength, assuring car owners of the greatest Safety, Protection and Economy that it is possible for human ingenuity to build into a tire.

The most amazing proof of this extra strength, safety and dependability is the fact that everyone of the 33 drivers at Indianapolis chose and bought Firestone High Speed Tires. Race drivers KNOW tire construction—they will not risk their lives or chance of victory on any other than Firestone.

When the grueling race started, motors roared, crowds cheered, speeds increased to 105 miles an hour—yes, to 150 miles on the straightaways.

At these terrific speeds the cars plunge into the treacherous turns—tires are braced against the scorching brick track—so hot the tires fairly smoke at times—they give—yield and stretch—every conceivable force works to tear the tire to pieces, yet Firestone High Speed Tires "come back" on the straightaways. Not once during the entire race did a tire fail—not one of the 132 tires on the cars gave way to endanger the lives of the drivers.

Surely this is the most amazing proof ever known of Extra Strength, SAFETY and dependability. Call on the Firestone Service Dealer or Service Store nearest you TODAY. Equip your car with New Firestone High Speed Tires for 1934.

Protect yourself and family with this Extra Safety. Choose the tires that Champions Buy!

SALEM FEDERATED CHURCH "The unity of the Faith" will be the subject of the message on June 24 at 10:30 o'clock.

To prepare for the quarterly review in Bible school at 11:45 a. m. read the last ten chapters of Matthew, also Micah 4:1-5. Memory verse: "Of His kingdom there shall be no end." Luke 1:33

The ladies of the Aid society take this opportunity of thanking all who helped with the cistern project - those who furnished gravel, cement, trucks and especially the men who gave many hours of labor.

Salem home-coming on July Fourth.

Favor Pension Bill Of Rail Men

Plymouth railroad men who were represented at the last convention of the Order of Railway Conductors, are rejoicing these days over the success of their congressional bill which provided for a pension for railway men over 65 years of age.

While there was no railway workers from Plymouth present at the last convention held, the local railway men were represented by delegates from Detroit.

The following is taken from a recent issue of the Railroad Pension Review, a newspaper issued by the railway workers of the country.

"All during the history of mankind the security and independence of the individual for his declining years has been a universal aim. Three and four hundred years ago a majority of the people attaining forty and forty-five years of age were old people.

"The new people of those times who attained sixty-five or more years of age were those who enjoyed economic advantages which protected them from the ravages of disease and from the wear and tear of over work.

Helped by scientific research and new unthought of technological advantages, it is freely predicted that in the next century life will be extended to seventy years. In all time heretofore, as we have become old we became a burden on our children, our friends, or public charity.

The sole purpose of the Railroad Employees National Pension Association's existence is to step in and ward off a condition of dependence being imposed on the transportation workers and to provide them unemployment relief. We are now nearing our goal, thanks to the gallant and determined efforts of men and women of vision. They have dared to take a stand for justice and equity to humanity.

There is no sound economic reason that millions of workers should be unemployed and facing starvation and want. There is no sound economic reason to step in and ward off a condition of dependence being imposed on the transportation workers and to provide them unemployment relief. We are now nearing our goal, thanks to the gallant and determined efforts of men and women of vision. They have dared to take a stand for justice and equity to humanity.

Ypsilanti Legion Plans Baby Show For Fourth Celebration

Babies, babies, short ones, tall ones, medium-sized ones, fat ones, and in-between ones - all will find the welcome sign shining out for them at the big baby show and contest to be conducted again this year as one of the features of the American Legion's third annual Fourth of July celebration at Recreation Park in Ypsilanti.

On the life of the previous years, in which the tiny ones came largely from Ypsilanti and the immediate surrounding vicinity, this year's committee is sending out general invitation for proud parents throughout the southeastern District of Michigan to show their offspring and to compete for the prizes to be awarded in three separate classes.

The baby contest has been set for the third day of the five-day celebration - Tuesday, the day before the Fourth - and in anticipation of a huge entry list the committee has arranged to use the spacious headquarters tent for the showing and judging. Times for the three classes have been set as follows: 6 to 12 months, 9:30 a. m. to 12:15 p. m.; 12 to 18 months, 10:30 a. m. to 1:15 p. m.; 18 to 24 months, 1:30 a. m. to 4:15 p. m.

In each age class there will be separate boy and girl awards for first, second and third places. All will receive ribbons and in addition five dollars will go to the boy and girl winner in each class and merchandise prizes to second and third places.

Judges for the first class will be Dr. H. D. Bassis, Dr. J. E. Breakey and Dr. W. J. Wright; for the second class, Dr. M. E. Soller, Dr. H. B. Britton and Dr. D. N. Robb; for the third class, Dr. F. B. Williamson, Dr. W. J. Woods, Dr. C. B. Pillsbury and Dr. B. M. Harris.

Members of the Legion committee in charge of the event are Charles H. Osgood, chairman; Edwin E. Stahl, Owen J. Cleary, Delbert H. Moffet, Daniel H. Ohlinger and Dr. M. P. O'Hara. "It makes no difference what you may think of your child's chance to win a prize," the committee says in its invitation. "Parents often underestimate their own children - and there

OBITUARIES

STANLEY J. MARSHALL Stanley J. Marshall, age 59 years, who resided at Chicago, Illinois, passed away at his home Monday, June 18th. The body was sent to Schrader Brothers, Plymouth, and later taken to the home of his sister, Mrs. Hattie Baker who resides at 362 North Main street in this city, from which place the funeral services were held Wednesday, June 20th, at 3 p. m. Interment in Riverside cemetery, Rev. F. Ray Norton officiating.

HENRY STANLEY Henry Stanley, age 77 years, who resided at the home of his son, Roy Stanley at 390 North Harry street in this city, passed away Tuesday evening, June 19. He was the husband of the late Lillie Stanley, deceased. The body was brought to the Schrader Brothers Funeral home. The funeral services will be held from the First Baptist church on Friday, June 22nd at 2 p. m. Interment in Thayer cemetery, Rev. Loya Sutherland officiating.

MRS. THEODORE SCHOOF The following people came to Plymouth last Saturday to attend the funeral of Mrs. Theodore Schoof, which was held at the Lutheran church, Barbara Kensler of Toledo, Katherine Fisher of Detroit, Mr. and Mrs. William Streng of Detroit, Mrs. Charles Streng of Detroit, Misses Mary Saddock and Mr. and Mrs. Lawrence Oak of Detroit, Mrs. Don Leavell of Detroit, Mr. and Mrs. August Schoof and Mrs. Edward Madahl of Detroit, Rev. and Mrs. George Streng of Detroit, Mr. and Mrs. Earle Van Dyke and John G. Streng of Flint, Margaret Wells and Lewis Adkins of Detroit, Mrs. Minnie Schoof and Miss Marie Schoof of Northville, Harry Hunt of Northville, Mr. and Mrs. Otto Lammers and Charlene of Toledo, Lillian, Albert and Raymond Fisher of Detroit, Emma Graupner of Farmington, Mr. and Mrs. Emerson Gulich of Detroit, Mrs. Lloyd Van Kleeck of Detroit, Elsie Ferrell and Mr. and Mrs. Charles Ferrell and son Dick of Gladwin, Mrs. Russell Maine of St. Louis, and Wesley A. Sheere of Detroit.

CARLOS E. PARDEE Carlos E. Pardee died at his home in Northville shortly after noon Monday, June 11, after an illness of only two hours. Mr. Pardee had been in poor health for the past two years but on the morning of his death was up as usual and out of doors in the yard when suddenly stricken.

The son of Andrew Pardee and Sarah Jones Pardee, Mr. Pardee was born in Plymouth township on the old homestead where he spent his boyhood days and two years of his young manhood following his marriage to Miss Nellie Eckles of Livonia township in 1883.

For fifty-one years these two lived contentedly together, having observed their anniversary quietly on April 22. Having no children of their own they made a home for two girls whom they brought up as daughters, Betty Pardee, at the home now, and Mrs. Rossie Marshall of Walled Lake.

Mr. and Mrs. Pardee left Plymouth township and went to Northville 48 years ago and lived in the present home for 41 years. For a number of years during his active life, Mr. Pardee was a mechanic in the Globe Furniture Co. and was a member of the old Northville cornet band.

The funeral service was held at the home with only the immediate family present. There are few really 'perfect' babies. Therefore, inasmuch as general health, alertness and condition are to be considered in the judging along with actual physical development and proportions, everybody's baby may have an equal chance."

date friends and relatives present. Rev. H. G. Whitfield spoke words of comfort. Interment was made in Rural Hill.

Only the widow and two foster daughters survive of his immediate family.

WILLIAM KAPE William Kape, brother-in-law of Chris Keel of Plymouth died in Ford hospital in Detroit Thursday morning, the body was brought to the Schrader Funeral home in Plymouth. Funeral arrangements have not been announced.

All New Cars Are "Racing Cars"

It is almost breath-taking to realize that the cars of today, large and small, conceal a power plant that will hurtle them through space at racing speeds, speeds at which a slip means wreckage and disaster. They do 85 miles an hour or more. Some have speedometers to show two miles a minute.

"Sixty" is common highway speed—which means 88 feet per second—literally flying. Yet today's cars give you the thrill of motoring, the saving of time, the ease of travel and opportunity to "go places."

In racing and on the highway the most dangerous equipment is an unsafe tire. Traveling over the hot, hard surfaced roads—that under the sun reach temperatures hot enough to actually fry an egg—the tires become hot inside and out—and heat is the greatest enemy of tire safety and life. Firestone engineers 15 years ago anticipated the needs of today and have years of experience meeting the most trying conditions of racing—with such success that all the leading drivers buy Firestone tires. These men who risk their lives and stake their fortunes can't be induced, under any circumstances, to use other tires. Every one of the 33 cars in the recent Indianapolis 500-Mile Race was equipped with these tires, and they have been in the winning cars for 15 consecutive years. New records were set up this year under the sizzling sun—but not a single tire failed.

The important thing in tires is not how many plies they have, but how strongly they are held together. To do this job, Firestone uses the patented Gipping process, which soaks every cord in liquid rubber to protect every fiber against internal friction and to bind the tire into one strong and inseparable unit.

Rubber has advanced 442 percent and cotton 190 percent, but fortunately for the motorist, tire safety can be obtained today at very low cost, for prices have not advanced in proportion to the advance of materials.

Every individual is entitled to work, rest and recreation. Life is balanced when all three factors are controlled.

History shows many examples of taxing a people until they repudiate tax obligations.

Nobody hates a reformer any worse than another reformer.

Moose Will Hold Picnic Saturday

Some 2000 members of the Royal Order of Moose lodge will visit Plymouth - Riverside park Saturday for their annual picnic. Besides this big picnic which is one of the largest to be held at the park during the year, there are numerous other picnics already scheduled for Saturday. One insurance company is bringing all of its agents and their families to the park and two Detroit churches have sent word that they will have picnic crowds here Saturday.

The Metropolitan Council of Exchange clubs has tentatively fixed the date for its annual picnic, the second week in August. Plans for this big affair have not yet been completed, but details will be announced soon.

NEWBURG

#### Fat Folks Lose Weight—Feel Fine

**Lose Fat This Summer—Keep Cool—Look and Feel Younger**  
Mrs. Jessie Martin of San Francisco is happy because she has discovered the right, safe way to reduce—read her letter:  
"I have taken Kruschen Salts a month and feel great benefit. I have lost 14 lbs in that time and would lose more if I stuck to a diet as I should. I take them every morning regular and hope others will profit by them as I have."  
We have letters from men and women who have lost as much as 100 pounds of fat—from people who have reduced high blood pressure—from folks who have no more bloating or shortness of breath.  
Kruschen helps stomach, liver, bowels to function properly—increases physical attractiveness all while losing unhealthy fat. Just take a half teaspoonful in a glass of hot water every morning before breakfast—get it at drug-gists everywhere.

#### JOHN S. DAYTON, Attorney

**PROBATE NOTICE** 188406  
STATE OF MICHIGAN, County of Wayne, ss.  
At a session of the Probate Court for said County of Wayne, held at the Probate Court Rooms in the City of Detroit, on the fourth day of June in the year one thousand nine hundred and thirty-four.  
Present, EDWARD COMMAND, Judge of Probate.  
In the Matter of the Estate of CLARA ROBSON, Deceased.  
An instrument in writing purporting to be the last will and testament of said deceased having been delivered to this Court for probate.  
It is ordered, That the twentieth day of July, next, at ten o'clock in the forenoon at said Court Room be appointed for proving said instrument.  
And it is further Ordered, That a copy of this order be published three successive weeks previous to said time of hearing, in the Plymouth Mail, a newspaper printed and circulating in said County of Wayne.  
A true copy.  
EDWARD COMMAND, Judge of Probate.  
EVERETT BRUCE, Deputy Probate Registrar.  
Some sort of change is needed if our colleges are to fill the place they should fill in our national life.

### Do You Know—

That the early Grecian boxers, while in training for a bout, were given a diet of new cheese, dried figs, and boiled grain, with warm water and no meat.

### Log of NRA

**The Advance**  
June 16, 1933—Act signed by the President and General Johnson appointed administrator.  
July 9—First code—cotton textile—approved.  
August 1—Blue Eagle launched to halt speculative price rises and speed up increase in purchasing power.  
August 19—Codes approved for lumber, petroleum and iron and steel industries. Price-fixing gets its start in petroleum code.  
August 26—Seeds of labor unrest sown by approval of automobile code including "merit clause."  
September 13—New York City's phenomenal NRA parade.  
November 8—Cleaning and dyeing code approved.  
February 28, 1934—Great code conference meets with Administration hoping to allay increasing opposition.  
March 7—National Recovery Review Board (Darrow board) set up in deference to Progressive opposition in Senate.  
March 14—Executive orders require certificate of code compliance to accompany all sales to government. Henry Ford refuses and is barred from contracts.  
March 27—Automobile strike averted.  
April 19—Code Eagle announced.  
**The Retreat**  
May 15—Small town business exempted from codes.

**CHERRY HILL**  
Children's day will be observed at the Cherry Hill church, Sunday, June 24, at the church hour 11:30 o'clock.  
A Pageant "The Kingdom of the Helping Hands," will be given by the children and special music by the choir, also a baptismal service. Everybody welcome.

### Is one of your problems Credits and Collections?

If so, let us show you how we can solve it for you.

**CREDIT** properly extended is an aid to your business or profession. It adds to your volume.

An account properly opened is half paid.

**COLLECTIONS** can be made easier.

We are the only medium through which you can obtain certain advantages in both serving Plymouth and Northville communities.
