

How The New Postoffice Structure For Plymouth Will Look

Through the courtesy of Congressman George Dondoro, The Plymouth Mail is able to publish this week a picture of how the new postoffice building for Plymouth will look. Contracts are expected to be let in Washington during the present week for the construction of the building. The above drawing of the building was prepared by the procurement division of the United States treasury department and shows clearly what a beautiful structure has been planned for this city. Herald - Tribune Lauds Cass Hough's Buck Rogers "Disintegrator"

Plymouth Made Toys Big Hit at America's Toy Exhibition Just Closed in New York

Just back from New York city where he has been for the past month attending the American Toy Fair, Cass S. Hough of The Daisy Manufacturing company speaks most optimistically of the business outlook for the next year—optimistically, he says, if you go after business with all the drive you possess.

The American Toy Fair, sponsored by the U.S.A., had more than 50,000 designs created to please and amuse the children of the world. These 50,000 different toys represent the products of some 400 toy manufacturers of America, the Daisy company of Plymouth being one of the largest.

The New York Herald-Tribune, one of the country's biggest newspapers, featured in its write-up of the fair, one of the new products of the Daisy company, the creation of Cass Hough, known to the world as the Buck Rogers "Disintegrator".

A part of the Herald-Tribune write-up follows:

Boys Wanted For New CCC Camps

Chief of Police Vaughn Smith has been notified that the government is ready for additional enrollments for the CCC camps that the government will organize within the next three or four weeks.

He has blanks for the enrollment of Plymouth boys who desire to spend some time in the CCC service and he would like to have all the young men of the community who are anxious to enlist for this work to go to the city hall and enroll with him.

Plymouth has had a number of young men in some of the CCC camps of northern Michigan during the past year or so and they have enjoyed the conservation work they have been doing.

Chief Smith does not know to what camp the new enrollments will be assigned or where the new camps will be established.

The many friends of Mr. and Mrs. Arlo Emery will be pleased to know that their son Arlo, Jr. is making rapid progress from the recent serious operation performed on the child at Harper hospital in Detroit. Surgeons say that it will probably be another week before the patient can be returned to his home here in Plymouth.

Ford To Spend Nearly Million At Northville

Plans Call For Plant That Will Give Work To Large Number

With the completion of the staking out of the location of the new Ford factory at Northville by engineers it has been declared by those who have followed the proposed development carefully that Henry Ford plans to spend nearly three-quarters of a million dollars on the new Northville plant.

The size of the new structure and Mr. Ford's statements made while in Northville a few days ago that he proposed to have a big new power plant as well as a new foundry has given some idea to the immense scope of the project that will soon be underway in the nearby community.

While Mr. Ford and his son Edsel made their final visit to Northville a few days ago to give their approval as to the location of the plant on the Ford property in that place, he was met by a number of village officials and well known citizens of the community who assured him that Northville was willing and anxious to do anything Mr. Ford requested which might help in expediting the construction of the plant. Those who were in the delegation stated that Mr. Ford seemed highly pleased over the friendly attitude manifested on the part of the representatives of the village.

In order to build the Ford plant in the place selected by Mr. Ford, it will be necessary to change the course of the Rouge river that runs over the Ford property along East Main street in Northville. A new course for the stream will be cut along the north bank of the Ford property and the water diverted to a new channel considerable east of the present one.

While no information has come from Ford officials as to when work will be started on the new structures, it is believed that from steps already taken construction will be started within the next few weeks.

When the plant is completed and in operation, the surplus labor problem in this section will have been solved. It is stated that the plant will require nearly a thousand workmen most of the time.

Father Lefevre New Rotary Head

Directors of the Plymouth Rotary club have elected as president of that organization for the ensuing year, Father Frank A. Lefevre, for years one of the most active workers within that well known organization. Father Lefevre has served as vice president of the club during the past year. Previous to that time he was one of the directors of the club.

Fred Sabom was elected vice president and Otto Beyer was elected as treasurer. John Blackenstaff and Floyd Eckles are the new members of the board.

Mrs. F. H. Coward and sons, Franklin and Richard, also her mother, Mrs. Nellie Cunsullus, visited friends at Lansing the latter part of last week.

City Officials Warn of Rabies Epidemic Here

One Boy Is Bitten—Dog Owners Should Keep Dogs Confined

The prevalence of rabies in dogs in and around the city of Plymouth has caused city officials to issue a definite warning to the owners of all dogs in order that the danger from this disease can be stamped out immediately.

Last week a Plymouth boy, James McGraw of Auburn street, was bitten by a family pet belonging to a neighbor. The dog later was found to be infected with rabies and the result is that the boy who was bitten has to be taken to the University Hospital at Ann Arbor daily for a period of twenty-one days to receive the Pasteur treatment.

All dog owners are urged to have their dogs looked at by a veterinarian whenever they act in the least bit queerly. Dog owners are familiar enough with a healthy dog, so that they will know immediately when the dog is not himself. Regardless of whether the cause of the ailment is known, owners are urged to immediately confine the dog until the nature of the disease is definitely known.

Within the last thirty days two dogs owned in the city of Plymouth have died and the cause of the death is definitely known to be rabies. No doubt there are other dogs in the city that will become infected with this disease and there is a potential danger in every dog, whether it be a hunting dog or a household pet. It is the plan of city officials to stamp out this danger as soon as possible and it may be necessary, if the disease continues, to place a quarantine on all dogs and have them confined on the owners' premises until they can be in any way endanger the health or lives of citizens.

Even though the dog has been immunized against rabies, there is no definite assurance that it will not contract the disease. Veterinarian authorities state that the length of time which an animal is immunized is more or less indefinite, and that in some animals the immunization lasts for only a period of a few months, while in others it may last for upwards of ten years. Only the closest observation and regulation of dogs by their owners will prevent the enforcement of more stringent regulations. All dog owners are urged to cooperate to the fullest extent in this problem.

Plymouth Couple Believed To Be First Man-And-Wife From Michigan Ever Admitted To Practice Law Before Supreme Court of the United States

JUDGE FORD M. BROOKS

MRS. LUCILE BROOKS

When Judge Ford Brooks and Mrs. Brooks were admitted to practice in the supreme court of the United States at Washington this week it is believed that it is the first time any man and his wife from Michigan has ever been extended this distinction. As far as inquiry reveals, it is also

believed that Judge Brooks and his law partner, better known to many Plymouth friends as Attorney Lucile Colquitt, are among the few married couples in the country who conduct a regular law practice. It is expected that they will return home from Washington today or tomorrow.

More Property On Mill Street Taken by County

Purchase Made of Land Along South Side of New Lake

Negotiations were completed yesterday for the purchase by the county of all of the land except that owned by the city of Plymouth, along the south bank of the new Plymouth lake from the Northville-Plymouth road to the Ford property along Mill road. The property will be added to the parkway system and will enable the county to beautify the south bank of the newly formed lake. For years and years some of this section along the old mill pond has been used as a sort of dumping ground for tin cans and rubbish.

The house once used as a saloon and called the "Hole In The Wall" is one of the oldest structures in Plymouth. North-siders used to refer to the location as along the "Banks of the Wabash".

This transaction will enable the county road commission to beautify all of the south side of the newly formed lake up to the bank of the Mill road. The old house, which is now covered with political signs, has not been occupied for years. While one of the oldest structures in Plymouth, few know much about its early history.

Officials of the Crippled Children's organization selected Mr. Bennett for the work in behalf of crippled children. Knowing that he is intensely interested in Red Cross work and in cooperation with Mrs. Bennett, sees to it that Plymouth does its share each year in the support of this great charitable organization.

The Rotary clubs of Michigan were sponsors of the stamp sale for crippled children, although numerous other organizations contributed in work and cash to the campaign.

Northville To Play Schraders Here On Sunday

In the opening baseball game of the 1935 season, the strong Schraders team of Pontiac will before the Plymouth Schraders-Haggers, 6 to 2, last Sunday at Plymouth-Riverside park. A large crowd turned out to witness the opener.

Harold Fankow, Plymouth left-hander, went the route striking out five of the visitors. Reaver Pontiac's choice for mound duty did not fair so well, being touched for ten hits, four of them doubles. Bingham relieved Reaver starting the eighth inning, and held the Schraders-Haggers to one lone hit.

James Williams and L. Burnett starred at bat each getting three hits out of four trips to the plate. The Northville Wolverines will be at Plymouth-Riverside Park Sunday, May 5th, in the first game of the Plymouth-Northville series. The largest crowd ever to attend a baseball game in the new park is expected. Game time 3:30 p.m.

Workmen Thursday morning started the removal of the debris from the former residence of Dr. and Mrs. Luther Peck that was destroyed by fire last winter in preparation for the construction of a new house. The new structure will be of brick veneer and of the semi-bungalow type. It will be probably three months before the new home is completed.

Local Family To Make New Home In Alaskan Valley

But Welfare Workers From Detroit Preach Communism To Them On Departure.

Expect To Leave With Others Next Week For New Opportunities In Beautiful Alaska.

While Mr. and Mrs. Fred Rotz and their two children of 1012 North Mill street were happily preparing for a new venture in life and a new hope that has been provided for them by the government on a 40-acre farm in Alaska, two employees of the Wayne County Emergency Relief Commission came to their home Monday and argued long and loud for Russian Communism.

Mr. and Mrs. Rotz and their 17-year-old son, William, and six-year-old daughter, Emma, expect to leave Thursday, May 9, with the 67 other Michigan families that are to be given new opportunities amid new and wonderful surroundings in Alaska's Matanuska valley, where winters are no more severe than here and summers much more delightful, where in addition to all the natural beauties of the country, the new settlers will find a way to provide themselves and families with a livelihood.

"It's been hard, mighty hard for us for the past four or five years. You know about the only work I have had except that which has been provided by the welfare, was the five or six weeks' employment I had last fall on the new Plymouth Mill building," said Mr. Rotz Monday evening when telling of his new opportunities.

"Yes, and we were so grateful for that help," commented Mrs. Rotz, who seems to be just as enthusiastic and as hopeful as her husband over the opportunities that have been provided by the government under which they live.

"What a great thing it is to think the country is working so hard and doing so much for us work—work and opportunity," continued Mr. Rotz.

"I've always lived around here, except for a brief time I spent in Alaska a number of years ago. I know it's just a matter of time before the country so I am not going to a place that is strange to me. I know what the government says about conditions up there are true and I know that it is all going to work out well for us as well as the other fellows who are going."

"I was talking this way to those (Continued on Page Six)

Banquet On Next Wednesday Eve

The American Legion Auxiliary Mother and Daughter banquet will be held Wednesday evening, May 8, at 6:30 in the American Legion hall, at Newburg. The committee has been very fortunate in securing Mrs. James N. Downey of Detroit, who is chairman of the Home Safety Division of the Detroit Federation of Women's Club as Toastmistress of the evening. The principal speaker will be Mrs. Norcia Crawford of Pontiac, who is very active in Legion work.

There will also be a puppet show, which will be greatly enjoyed by both mother and daughter. This is just a part of the program the Auxiliary is planning for the evening.

Name Miss Sarah Gayde President

The annual meeting of the Business and Professional Women's Club of Plymouth was held at Starkweather school last Tuesday evening, April 30th. Through the kindness of Miss Jewel Sparling, one of its members, the club had been invited to hold its meeting in the school.

The following officers were re-elected for the coming year: Miss Sarah Gayde, president, and Miss Elizabeth Sutherland, treasurer. The new officers elected are Miss Hildur Carlson, vice president; Miss Jewel Sparling, recording secretary, and Mrs. Maurine Baughn, corresponding secretary. A resume of its activities revealed that the club has been reasonably successful in carrying out its program during the past year, and is the club's intention to continue its scholarship plan. May 14th is the date of the next meeting, with a "Literature program, in charge of Miss Neva Lovell.

Following the business meeting, Miss Sutherland, who recently returned from the South, where she spent the winter, gave an informal talk on her sojourn there, which of course was greatly enjoyed.

county had expected to complete last fall but so great was the demands upon the commission for work in other localities that it was delayed until the present time.

While there is much traffic over Penniman avenue, which has been given its old name of Territorial road, it is not a thoroughfare where there is heavy trucking and the county's experiments with black top paving for roads that carry light traffic has proven satisfactory.

Travel over the Territorial road to the west is exceptionally heavy during summer months as it is the main east and west thoroughfare to the Whitmore lake country.

The Washtenaw county road commission has advised The Plymouth Mail that it is their hope and plan to continue the same type of paving on the Territorial road from the Whitmore lake country line to the Whitmore lake road. The thoroughfare in Washtenaw county this year will be treated with calcium chloride.

As the Territorial road leads directly from Plymouth into the new federal park that the government contemplates building north of Ann Arbor and almost as far west as Jackson, officials anticipate a much greater travel over the Territorial road and it is for that reason that it is now being improved.

Boys! Be At Ball Park Saturday

Members of the American Legion post have invited all the aspiring youthful Babe Ruths and Ty Cobbs of Plymouth to be at the baseball field at the Plymouth-Riverside park Saturday afternoon at 5:30 o'clock to try out for the American Legion Junior baseball team.

Commander Guthrie says he is anxious to have every youthful ball player in the city down there at that time. Harry Barnes who will have direct charge of the big year will be at the park to discuss with the boys the new team. He requests that all youngsters be there on time. Mr. Barnes suggests that you had better tell mother you'll be late home for supper Saturday.

Normally all duty and work yields pleasure.

cent years has been to make them ever more educational and more harmless. This year witnesses a new peak in scientific accuracy.

Perhaps the most impressively scientific toy is a new Buck Rogers weapon known as a "disintegrator." Last year the Buck Rogers rocket gun, which originated in the comic strip of Philip Nolan and Dick Calkins, and was substituted into concrete form as a children's toy by Cass S. Hough, swept the country and outsold every other playing on the market.

This phenomenon caused much astonishment to the Buck Rogers continuity men and also to Buck's original creator, John F. Dille, who doubted that juvenile admirers of Buck's twenty-fifth century exploits would go so far as to spend fifty cents for a fantastic looking revolver that went "Pop."

As a matter of fact the rocket gun sales exceeded even Mr. Hough's wildest dreams, and this year he has manufactured the Buck Rogers "disintegrator," which vaguely resembles the first weapon in general aspect, but really is much more spectacular. It not only goes "Pop" but it has "an electronic compression viewpoint" in the top which lights up every time the gun is fired by some mysterious but quite harmless) ray from within.

Mr. Hough explained yesterday that the sinister title "disintegrator" did not imply that Buck Rogers "disintegrated" human beings with the weapon. All it has been used for in the comic sections and in radio sketches is to disintegrate buildings, walls, and various forms of aircraft that Buck Rogers wants to get out of the way for one reason or another.

The process of disintegration is accomplished by means of an electronic barrage, created within the gun by means of an "electronic compression chamber" and a "sub-atomic condenser," discharged by an "impulse generator," controlled by a "beam intensity selector" and aimed by a "disintegration beam director." Of course, as the electronic discharge leaves the gun, the barrel under normal circumstances would become very hot. Not in the Buck Rogers disintegrator, however, for the barrel is cooled by a "tri-thermal convergence unit."

No More Pheasant Eggs Are Available

The entire probable supply of free pheasant eggs available for distribution from the state game farm has been spoken for—nearly a month in advance of the usual date, the Game Division, Department of Conservation, has announced.

As a result the Game Division will be unable to handle additional requests. Approved applications already on file aggregate approximately 20,000 eggs. Formal applications are considered in the order of receipt at the Lansing office.

Requests for free pheasant eggs began to come in unusually early this year and pyramided steadily. Most of the requests are for one setting of 15 eggs to five settings.

The number of pheasant eggs available for free distribution this year remains uncertain, although it is expected that the pheasant breeding stock at the game farm will produce enough to cover applications already approved. The pheasants are kept in three large enclosures due to a windstorm which razed nearly all the small breeding pens.

Plymouth residents are finding the change in time of The Sportsman to be most convenient. They can now leave here at 7:31 in the morning, forty minutes earlier than in the past, and arrive in Detroit at 8:10. They are hoping that this change will be made a permanent one by the Pere Marquette.

It requires two worlds to give some a fair deal.

Society

Mrs. Harold C. Finlan and Mrs. Clifford Tait were hostess Friday evening to a group of friends at a bridge-shower in honor of the late Richard Olin the party being held at the home of the former on Arthur street. State Officials Rotary Guests

Plymouth Rotarians last Friday had the pleasure of having as their special guests, Attorney Frank F. Ford, chairman of the Michigan department of labor and industry and a former prosecuting attorney of Kalamazoo county and Hon. James B. Balch, a member of the Michigan Public Utilities commission. Mr. Balch was chairman of the commission until recently. He has also served as mayor of Kalamazoo. Mr. Balch is one of the best known business men of Western Michigan, having much to do with the manufacturing business of the Kalamazoo river valley. Both of them talked briefly of the duties of their important state departments of which they serve as chief executives.

Deposit Insurance Will Be Continued

Floyd Kehrl, of the First National bank has called attention to the fact that there is an erroneous impression that Federal deposit insurance is to end July 1. As a matter of fact, however, from the first the Federal Deposit Insurance Corporation has stressed the fact that deposit insurance is a permanent part of the Federal banking laws. Mr. Kehrl in receipt of a communication from the Federal Deposit Insurance Corporation which says in part: "Since confidence in the banks is being rebuilt to so great an extent on the basis of deposit insurance and the success with which it has operated, it is of the utmost importance that this falsely held notion be dispelled. Obviously rumors of this type can only hinder the complete restoration of the public's faith in banks."

Vesper Service, Livonia Center

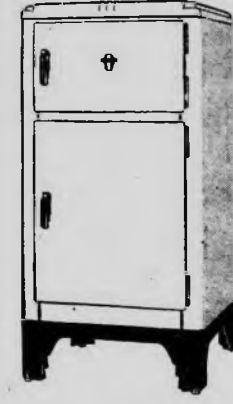

Rev. George E. Gullen, who is also a practicing attorney in Detroit and a former assistant prosecutor, will Sunday, May 5, bring a number of young people from the Mayflower Congregational church of Detroit to the Livonia Center Community church for vesper services at 6 o'clock. This church, located at the corner of the Five Mile and Farmington roads, is expected to be filled for the occasion. Plymouth residents are invited to attend the services, the invitation being directed especially to the young people of the city. There will be special music, a brief talk and a social half hour in which all may have an opportunity to become acquainted.

W. C. T. U. To Meet Again On May 23rd

Plymouth Woman's Christian Temperance Union held a pleasant meeting, April 25th, at the home of Mrs. Simmons of Main street. Those in attendance were interested in a reading by Mrs. Vealey and Mrs. McNabb. Some current events were also given and Mrs. Sutherland gave a vocal solo that was greatly appreciated. Mrs. Clemens, recording secretary, was prevented by home duties, from being present at this meeting and was greatly missed. Since in all the many years she had held the office of secretary, this was the first meeting she had missed. The next meeting will occur May 23rd at the home of Mrs. Kehrl, 451 Starkweather avenue. No two persons alike. After making each the pattern was thrown away.

WHAT! The New Air Conditioned Coolerator Costs Only \$72.50

Startling news! But not half as startling as what Coolerator does for you. In Coolerator the air conditioning chamber washes and cleans the air in the food compartment—keeping it always fresh and pure. It moistens and humidifies the air—preventing foods from drying out. Coolerator uses ice in a totally different way—needs to be re-iced only once every 4 to 7 days and maintains constant cold, whether the ice chamber is full or nearly empty. Coolerator alone offers you these exclusive patented features in all domestic and commercial models from \$30 up. See them at the Plymouth Artificial Ice Co.

Changes All Your Ideas About Refrigeration. BECAUSE:

- * Completely air conditioned
- * Has three way refrigeration
- * Maintains constant cold, and cleans the air
- * Prevents mingling of food flavors, drying.
- * Plenty of crystal clear ice cubes in 5 min.
- * Costs one-third to half what you expect to pay.

Church and Sunday School

METHODIST CHURCH
10 a.m. Morning worship. 11:30 a.m. Sunday school. 8:30 p.m. Epworth League. 7:30 p.m. Evening worship.

At the morning service Dr. Conithers of the University of Michigan will speak on the educational work of the Methodist church. He will speak more particularly on the work of the Wesleyan Foundation which cares for the religious needs of the Methodist students at the state colleges and the University. Similar presentations are being made during the month of May in all the Methodist churches of Michigan.

The May meeting of the Officers Board will be held at the church Tuesday night at eight o'clock.

The Women's Missionary Society will meet Wednesday, May 8 at three o'clock instead of at noon as usual. There will be a special supper at five o'clock. This is a union service with the Queen Esther. The Queen Esther girls will furnish the program.

On Thursday night another big church family potluck supper will be given with Doctor Brashares, Pastor of the Ann Arbor Methodist church and successor to Dr. Fisher there, as our guest speaker. Dr. Brashares is a speaker of unusual force, fully the equal of Dr. Fisher, and those who have not had the opportunity to hear him will welcome this opportunity.

CALVARY BAPTIST CHURCH
Richard W. Neale, Pastor

Are you a stranger or visitor in Plymouth? We welcome you to fellowship with us all of our services. We seek to be a friendly Bible church where Christ is preached.

The pastor plans to preach at both services Sunday, the time and subject being: 10:00 a. m. "Is the Apostle Era of Miraculous Sign Gifts God's Order For Today?" at 7:30 p.m. the evangelistic service brings us to the "Foundation Facts of the Gospel." If you long for Bible teaching which will point out God's sure way of deliverance, peace and assurance for you, we invite you to share and test our fellowship in the Gospel. The evening services may soon feature a special series of messages on the Gospel according to Luke. This will be a chapter by chapter study rich with God's best, because it presents His greatest gift—His Son—man's greatest need.

On Wednesday at 7:30 we meet for prayer, praise and fellowship. On Fridays the Young People's Fellowship meets at 7:30. The Sunday school service convenes at 11:15 a.m. with a class for you. All services are held on the main floor of the Tonguish Temple Bldg., 455 S. Main St. Meet with a happy, singing crowd. Come to Calvary!

"Everlasting Punishment" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, May 5.

Among the Bible citations is this passage (Matt. 9: 4, 5): "And Jesus knowing their thoughts said, Wherefore think ye evil in your hearts? For whether is easier, to say, Thy sins be forgiven thee; or to say, Arise, and walk?"
Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 404): "Healing the sick and reforming the sinner are one and the same thing in Christian Science. Both the cures require the same method and are inseparable in Truth. Hatred, envy, dishonesty, fear, and so forth, make a man sick, and neither material medicine nor Mind can help him permanently, even in body, unless it makes him better mentally, and so delivers him from his destroyers."

The Story of the Bible Told in Pictures

Naah's Ark.—From the time of the murder of Abel to the time of Noah the Bible devotes considerable space to the genealogical records of the descendants of Adam. One of these descendants, Jubal, was the first musician; and another, Tubal-Cain, was the first worker in brass and iron. Adam lived nine hundred and thirty years, and Methuselah reached the record age of nine hundred and sixty-nine years. But old as these patriarchs were they failed to learn wisdom with their years and "the wickedness of man was great in the earth." Gen. 6: 6, we are told, "And it repented the Lord that He had made man on the earth, and it grieved Him at His heart." Determined to wipe out the whole race and make a fresh start, God chose Noah, his wife and their three sons, Shem, Ham and Japheth, for survival. Noah was instructed to build an ark to hold his family, together with male and female representatives of each species, and provisions for them all. In this picture Merian portrays the completed ark, with the animals entering it, while Noah prays for divine guidance.

10:00 a. m. Morning sermon—"The Departing Angel." "And they passed on through one street and forthwith the angel departed from him." There were lessons learned from the prison darkness and from the messenger who came to strike off the chains, but the climax of human interest is found in a single item of the story, that having led Peter through one street, he departed it certainly was an unhealthy mood out of which Cowper sang, "Where is the blessedness I knew, When first I saw the Lord?"

THE PURPOSE OF DEPOSIT INSURANCE

When Congress created the Federal Deposit Insurance Corporation its primary objective was the protection of depositors. This Corporation began insuring deposits January 1, 1934. It is a permanent organization.

It now insures deposits in a great majority of the banks, including this institution. As a result, millions of depositors enjoy a degree of financial security heretofore unknown. When you have money on deposit here you know for a certainty that your deposits up to \$5,000 are fully safeguarded against loss. Deposit insurance is for your protection.

PHS CINDERMEN TAKE DEARBORN

The Rock's track team defeated Dearborn high school last Friday afternoon by the interesting score of 54-50. The Plymouth team scored seven firsts out of twelve events, taking all three places in the 100 yard dash while Dearborn took all three in the half mile. Wagenschutz was high man for Plymouth with three firsts and a tie for second making a total of seventeen points. Cline and Jewell were second with eight points each. Jones was the outstanding Dearborn man with two firsts and a third for a total of eleven points. So far this season the local team has made a good account of themselves, winning one meet and losing one. This, incidentally, is the first time that Plymouth had defeated Dearborn in track for a number of years.

Summary of places and records:
100 yd. dash—first, Cline, P.; second, Jewell, P.; third, Olson, P. Time 1:11.

1 mile run—first, Hayes, D.; second, Elliot, P.; third, Evans, D. Time: 4:52.5.

220 yd. dash—first, Jewell, P.; second, Olson, P.; third, Clemmens, D. Time, 24.9.

120 yd. high hurdles—first, Wagenschutz, P.; second, Campbell, D.; third, Williams, P. Time 18.5.

440 yd. run—first, Jones, D.; second, Acord, D.; third, Sabourin, P. Time 55.6.

800 yd. run—first, Dickason, D.; second, Bingham, D.; third, Allmendinger, D. Time 2:10.

Shot-Put—first, Kinsey, P.; second, Rosalk, D.; third, McEvoy, D. Distance, 45 ft. 1 in.

Pole Vault, first, Williams, P.; second, Lockmiller, D.; and Moe, P. Height, 9ft. 6 in.

High Jump—first, Jones, D.; Wagenschutz, P.; and Cline, P. Height 5 ft. 5 in.

Broad Jump—first, Wagenschutz, P.; second, Bingham, D.; third, Jones, D. Distance 21 ft. 6 in.

Relay—Won by Dearborn. Time 1:41.5.

PLYMOUTH TEAM HEARS DEBATE

Attending the annual contest for the high school debating championship of Michigan and witnessing the debate on the question to be debated throughout the state next year, members of the Plymouth high school debate squad were present at the forensics events held at the University of Michigan campus. Friday, April 26.

The first event of the afternoon's program was a contest between debaters from the University of Michigan and Albion College, on a question related to the one chosen for 1936. Albion upheld the affirmative of the proposition, "Resolved, that the nations should agree to prevent the international shipment of arms and munitions," while the negative was supported by the University of Michigan. The principle points of contention were the practicability of such a system, and whether or not it would solve the problem of ending war. Following this debate a campus tour and a complimentary baseball game were held for the students attending.

In the evening the championship debate took place, attended by an audience of 5,000. The proposition was "Resolved, that the federal government should adopt the policy of equalizing educational opportunity throughout the nation by means of annual grants to the several states for public elementary and secondary education." Marjorie Wilson Sidney Davidson and James McCulloch of Flint Northern upheld the affirmative, and Monroe's negative team included John McCallister, Walter Meir, and Aida Rolph. The decision was awarded to Monroe.

Eva Maria Scarpulla, our lovely little Italian girl, was born in Detroit, October 8, 1918. Eva has black eyes and black hair and looks very pretty in white, which happens to be her favorite color. She has a hobby of collecting souvenirs and poems. We have had somewhat of an argument among ourselves as to what an artichoke, her favorite dish, is. Some say it is a vegetable, others a fruit, but Eva says it is very delightful and after all that's what counts. Eva Maria says she likes everybody, especially a certain young man in the city of Detroit. This young lady dislikes angle worms and toads; that is why she never goes out after eight o'clock. Her activities in school have been many—Drama club is the one she likes most of all, she is now the president; others are Glee club, Junior chorus, Pilgrim Prints, Travel Club, Student Council and she has had a leading part in both the junior and senior plays. Eva also won second place in the ninth and tenth grade declamations. She likes to read Ethel M. Dell's books. She intends to attend the Detroit Business Institute next fall and after earning a lot of money she will take up dramatics. Her one other ambition is to visit Africa and India and to study the social life in the south.

Elaine Esther Shingleton was born on November 17, 1917, in Plymouth, Michigan. She entered the kindergarten here and has been a member of the class of '35 ever since. This brown-eyed bashful girl has been an active member of the Girl Reserves and Glee Club. The study she dislikes most is history and she is very much afraid of spiders. She enjoys sewing and going on picnics. Her biggest thrill is to get out of school on Friday night and not having to think of coming back until Monday. She has made no definite plans, but she is certain she is not going to college.

Harry Joseph Shoemaker was born September 30, 1916 at Mackinaw City, Michigan. He moved to Plymouth and entered school here when in the fifth grade and has been here ever since. Harry is five feet seven inches tall with brown hair and blue eyes. He is very interested in athletics especially basketball. His favorite color is gray, favorite subject history, and favorite

Marcus Edward Scheffer was born in Detroit, Michigan, on February 8, 1917. He says it was two o'clock, what a memory! After attending schools in Detroit, Charlotte, and Newburg, he entered Plymouth in the ninth grade. When asked what he didn't like he answered, "Romaine Lee and history," but don't let him fool you, Romaine, Harry, and Marcus are the best of friends; in fact if you see one of them the other two can't be far away. His favorite foods are bananas and cedar. About the time for you'll find Ray Trimble, Abe Cline and Elwood Elliott regular visitors at the Scheffers.

Marcus has been very active in class sports and plays every game well. He was also a member of the Torch and Hi-Y club and was vice-president of the Hi-Y last year. He also appeared in both this year's stunt night and class play. He plans to enter Park's Air College and become an aviator. He says he has no preference, blondes or brunettes.

Katherine Beatrice Schultz was born on December 22, 1917 in Detroit, Michigan. This pretty brown-haired young lady lived in Pasadena, California for a short time; then she moved to Detroit and attended the Custer school and the Dearborn school. She entered the Plymouth school in the sixth grade and has been an active member in the class of '35 since then. She has participated in various clubs such as the Drama Club, Speech Club, Girl Reserves, and Pilgrim Prints. This year she won first place in the local oratory contest and in the subdistrict and she received third in the subdistrict last year. She also was in the third state elimination debate which included the best sixteen schools. Her many hobbies include motoring, collecting newspaper clippings, and scrap books of people in public life. Debating has also been her hobby. She has taken several beautiful trips, visiting Washington, D. C., New England, Wisconsin, and Northern Michigan. This summer she is planning to go on a tour with her family to the west coast. Her favorite food is artichokes; she likes all colors, and she is partial to history. Her favorite expression is Herbert Hoover and her favorite newspaper editor is David Lawrence. She has many great ambitions and she doesn't know which one is greatest. Nevertheless her minor ambition is to study as late as she wants to and drive as fast as she wants to. Katherine is very much afraid of dogs and dislikes green beans. She plans to attend the University of Michigan and specialize in law.

Local Family To Make New Home In Alaskan Valley

fellows that were sent out here from Detroit by the welfare today to fix our base burner.

"One little fellow said he was a Russian and he said that if we had Communism in this country we'd be much better off. There was a big fellow with him, too, and he talked the same way. They condemned everything our country is doing and said that Communism was the only thing," said Mr. Rotz.

Mrs. Rotz then declared that she told the little fellow that if Russia was such a fine place why did he ever leave there. He said he'd go back if his children were not here.

"I told him he'd ought to go back anyway and that we are entirely satisfied with what our country is doing," said Mrs. Rotz. The visit of these workers from the Wayne County Emergency Relief commission was due to a necessary repair of the heating stove in the Rotz home, explained Mr. Rotz.

"Last winter I put in an order for a new part to our stove. Well it never came until today and there were five men on a truck that came out from the stove repair department at 176 East Jefferson avenue, which is the location of the welfare building. I guess they came from the foundry department. We never heard so much talk about Communism. It seems a shame that men who are getting pay from the government should talk so terrible about it," said Mr. Rotz. "There was one American on the truck who came into the house for a minute and he was just as disgusted with these Communists as we were."

It is with the happiest of expectations that the Rotz family is preparing to leave for their new home. They have everything in readiness to go.

"I had to sell my carpenter tools when I finished working on The Mail building and we have had pretty tough going. But you know there will be 12 acres of cleared land. We will have two cows, chickens, farm equipment, a place to live and we have 30 years in which to pay for our new Alaskan home. We have no relatives, except my wife's mother who resides in New York, and she is along in years. The government will provide us seed and do much to keep us going until the first crops are harvested. I think we were indeed fortunate to be among those selected and you can bet we are going to work and work hard for old Uncle Sam," declared Mr. Rotz.

Previous to moving to Plymouth, the family lived on the Ambler farm just west of Northville. They were residents of Oakland county for a number of years.

Biblical Play To Be Presented Sunday Eve

MISS PHYLLIS McGEACHY

A special stage is being built in the community hall of the Plymouth Methodist church for the Biblical play "The Rock," which is to be given Sunday night at 7:30 o'clock by the members of the Dearborn Methodist church. The scenery requires so much room that it cannot be accommodated on the regular stage, and Carl Lewis is constructing a special stage in the rear of the community hall. The chairs will be turned about, facing the rear of the room. The scenery is designed and executed by E. R. Ford, R. Richard, and W. Menge of Dearborn.

The play will easily be one of the outstanding dramatic events of the year, and will be given by a group of players from Dearborn. The cast, led by Ralph Mariatt, a veteran performer, in the title role, shows considerable dramatic ability. The play follows the Biblical story of the calling of Simon Peter by the Christ. It describes with sympathy and intelligence, the struggle between the man's natural desire for worldly success and the call to selfless service. The play is carefully and reverently done. It is thought-provoking and helpful in the light of modern day problems.

In addition to Mr. Mariatt, the characters are: Phyllis McGeachy whose picture appears above as Adina, Simon's wife and trusted advisor; Kathryn Owen as Deborah, Simon Peter's mother-in-law; Miss Olive Haigh interprets the difficult role of Mary Magdala; Murray Thomas plays the part of Ucel, Uncle of Adina. The cast is directed by E. R. Donaldson and is accompanied by a talented young harpist, Miss Louise Smith, also of Dearborn.

Celebrates Her 90th Birthday

MRS. ELLEN A. COLE

The host of friends and acquaintances of Mrs. Ellen A. Cole who now resides in Salem, and who has spent practically all of her life in this part of Michigan, did not forget that she celebrated her 90th birthday, April 29. For days previous to this important occasion young friends and old friends saw to it that such an important occasion was not overlooked.

All of her life has been spent in the Wolverine state. Mrs. Edith Warr of Pontiac is a daughter and there are two sons, Dr. D. L. Cole of Bangor and William Cole of Salem.

Mrs. Warr was the first to start the festivities in honor of her mother's birthday. On Easter Sunday she gave a family dinner at her home in Pontiac. Those present for this happy occasion were Mr. and Mrs. J. R. Warr, their son, Dr. H. C. Warr and Miss Charmin of Pontiac, Dr. D. L. Cole of Bangor, Mr. and Mrs. W. H. Cole and son Charles of Salem, Mr. and Mrs. Del Campbell and Miss Doris Cole of Northville and Ted Strasen of Plymouth.

Mrs. Cole has spent the winter months at the home of her daughter in Pontiac. She is in excellent health and is as keenly interested in the affairs of today as the younger generation. While she delights in reverting back into the days that have passed into history, she is as hopeful of the future as the most optimistic.

STUDENTS PARTICIPATE IN BAND CONCERT

The second annual festival concert of the Southeastern Michigan Public school band and orchestra association entertained a capacity audience in the River Rouge high school auditorium Saturday, April 27 at 8:15 o'clock.

This association is composed of instrumental representatives from Birmingham, Highland Park, Hamtramck, Plymouth, Pontiac, River Rouge, and Wyandotte. Selected musicians from each of the schools in the association, representing the very highest degree of musical talent there sent as representatives to play in the junior and senior high school bands and orchestras.

The association is constantly striving to create better music in every community represented in the association. Last year at Pontiac the first festival was held and proved very successful. It was clearly demonstrated that a need existed for such an organization, and it is hoped that by rotating from town to town, each will receive its accumulative benefits.

The following fifteen were selected by Mr. Evans, Plymouth's Band Conductor, to participate: Richard Miller, Gladys Salow, Harold Thorne, William Rutherford, Jack Birchall and Donald Melback, clarinets; Stanley Eldridge and Robert Ege, trumpets; Wyath Dunn, saxophone; Arthur Talmadge, trombone; Neil Pierce, and Joe Merritt, basses; Gerald Hartling, baritone; Dawn Jacobs, french horn; Ralph Fisher, piccolo.

The following is the program of the concert: Symphonic Band: The Vanished Army, Alford. Valse Triste, Sibelius. Overture to Martha.

Mr. Plymouth Trout Fisherman

It was a bitter, cold rainy day—such as most opening days for the trout season are—but in spite of unfortunate weather conditions, Plymouth's brigade of trout fishermen hied off to their favorite streams early Wednesday morning to try their skill in landing the elusive beauties that thrive in fast running waters.

So that the many readers of the Plymouth Mail might have an idea as to how their friends look out on the trout streams, the staff photographer was sent along and this paper has had made a composite engraving of all of its local trout fishermen as they appear when out "after 'em."

If readers will look carefully they will note the creel of William Pettengill in the above photograph. Another glance will show the favorite smoking pose of Frank Coward as he stumbles over the slippery bottom of the Au Sable. The photographer had remarkable luck in getting the fast moving action of Dr. Champe as he contemplates which way to fish up or down stream. The perfect fitting jacket one might know is that of Dr. Paul Butz. And of course the hat, if you will look carefully, is that of Welt Smith Myron Mawhorter's wading boots are partly hidden by the water, but they can be made out if you look again.

The landing net? Sure, that is a picture of the landing net Frank Rambo tried to use in landing the six pound chunk of lightning he hooked onto but didn't get.

Now if you will look carefully at the photograph again you will see represented in the picture the outline of every trout fisherman in Plymouth.

The World's Greatest Monument To The Man Who Does Not Use The Plymouth Mail Want Ads

The Sphinx says nothing—It does nothing—it has nothing to advertise—it stands as the most useless thing in all the world, typifying an age that no one knows anything about and refusing to reveal its secret to a wondering world. It is just like the man who has a plow for sale. His next door neighbor may need a plow and doesn't know that the man living right next to him has a plow for sale. Like the Sphinx, he says nothing about it and as a result he doesn't sell it.

If the Sphinx could talk, it could advertise to the world secrets of untold mysteries. But the Sphinx can't talk, therefore it can't advertise

anything. It has through the ages been regarded as a MONUMENT TO SILENCE.

But if you want to get rid of that few extra bushels of seed oats, sell that cow, buy a used harrow, sell some surplus furniture, a baby carriage, you can't be like the Sphinx. You have got to talk about the thing you want to buy of sell—and you can talk to more people through the want ad columns of The Plymouth Mail in this part of Wayne county than you can in any other way or through any other medium. And talking through the want ad columns of The Mail costs you but 25 cents for a want ad of four lines. Try one and see how effective it is.

Use CERA Labor At The Cemetery

Riverside cemetery is gradually being improved and modernized with the assistance of the CERA work-relief program. For the past several months a portion of the labor has been assigned to the cemetery under an improvement project.

The most recent improvement is the filling of the sides along the main entrance driveway and the sodding of the entire area. Last winter the entrance pillars were moved back to a width of twenty-four feet and driveway widened. This greatly improved the appearance of the entrance, and with the filling in and the sodding of the sides of the driveway the entire appearance of the entrance has been changed.

It is planned to obtain a watering system for the cemetery, if and when funds are made available for such a purpose. The cost of a sprinkling system will be in the neighborhood of \$10,000.00. If such an improvement were made possible the cemetery could be kept in much better condition throughout the entire year. The limitation of funds now makes it impossible to care for any lot which is not paid for either under the perpetual care or annual care plan.

Recently approximately seven hundred notices were sent out from the city hall enclosing bills for the annual care of lots. The annual care charge is \$5.00 for the average size family lot. Unless this annual care fee is paid, city officials state that it will be impossible to take care of the lot. Last year there were only about fifty of the seven hundred annual care payments made. There-

fore it was necessary to neglect the other six hundred or more lots. Naturally, in some cases the lots which do not subscribe for perpetual care are taken care of by resident owners. If at least half of the owners of lots in the cemetery would subscribe to the annual care, it would be possible to employ two or three more men at the cemetery and to do considerable more maintenance and improvement work.

With the present revenues of the cemetery it is only possible to employ one full time man, and an additional man for a part of the season. It has been possible only with the assistance of relief labor to keep the cemetery in as good condition as at present without creating a large deficit which would not be possible under present financial conditions.

If a watering system can be obtained under a federal public works project, then Riverside cemetery can be made one of the most attractive burying places in this area. It is estimated that if a sprinkling system were installed that a considerable increase would be available in perpetual care revenues as many people have expressed a desire to obtain perpetual care provided the grounds were thoroughly watered. Naturally, this cannot come until the revenues are available, or funds for the improvements are otherwise made.

A sharp change from Michigan May weather was noted here Wednesday night when late travelers were blinded by snow flurries. Although the snow was followed here by a rain early in the morning house tops at Novi were still covered with snow on Thursday and cold weather and winds prevailed throughout the day.

Frank Coward and Floyd Kehr plan to spend the week-end at the former's cabin at Lucerne.

What One Little Want Ad Did

Does it pay to advertise in The Plymouth Mail? Does it pay to use the want ad columns?

According to Ed. Ryder who lives over on Napier road just off the Ford road, it pays royal dividends.

"I have used the want ad columns of The Mail frequently and with always good results, but the biggest killing I ever made was out of the 50 cents I spent for that ad telling folks about the Ted Miller nursery stock for sale," said Mr. Ryder.

"Not a person knew about the sale and not an order was taken, or a piece of nursery stock sold until after the ad was published in The Mail."

"That little ad acted like magic. I've had to fight to keep people from trampling me into the ground with their feet. Last Sunday I bet there were over a thousand people here buying nursery stock. One woman who gets The Mail down at Grosse Pointe told me she wrote to her mother-in-law in Owasco and a lot of folks drove over from that place to buy some of these fine trees. Young man, anything you say about The Plymouth Mail want ads will be OK with me because I know what they will do. If it keeps on like this, I'll have the entire nursery cleaned out within another week or two."

Concert Pleases

The concert given by the Orpheus club of Detroit at the high school auditorium last Saturday evening under the auspices of the Woman's Club of Plymouth, did not draw the large audience it well merited, but those who did attend were most appreciative and each number presented by the members of the club and by the guest soloist, Miss Winifred Huntoon Heidt, was enthusiastically received.

The four groups of songs given by the four men of the Orpheus Club were varied and beautiful and the well trained and splendid voices of the chorus formed a perfect symphony.

Dr. Lloyd Kemp, club president, played their accompaniments. Miss Heidt, soprano soloist of WWJ and of the Memorial Church of Grosse Pointe won her audience with her beautiful voice and charming personality and an encore received much applause. Charles Frederic Morse, Orpheus club conductor accompanied Miss Heidt.

The final group of two songs, "Lullaby" by Mozart and "Play Gypsies, Dance Gypsies" by Kallman, was sung by Miss Heidt and the men of the club and formed a fitting finale for an evening of rare musical enjoyment.

The Woman's Club presented Miss Heidt with an arm bouquet of red roses.

After the concert a committee from the Woman's club: Mrs. George Burr, Mrs. Max Moon, Mrs. George Cramer, and Mrs. Wm. Kaiser, served a lunch of sandwiches, cakes and coffee for the men of the Orpheus club and their ladies.

Mrs. Ray Gilder and Mrs. Vaughn Smith were the committee in charge of tickets and Miss Mabel Spicer was general chairman of arrangements.

Dr. and Mrs. W. J. Reid and William Wenner of Detroit were dinner guests Sunday of their daughter and husband. Mr. and Mrs. Cass Hough.

Legislature Is Urged To Quit

By FRANK D. BROWN, Special Correspondent

Members of the legislature would be rendering a great service to the people of the state and to themselves if they would pass the necessary appropriation bills and go home. The governor's program of governmental reform has fallen by the wayside and there is now no good excuse for the lawmakers to "hang on" at Lansing any longer. The only thing that possibly can result from further prolonging the deliberations is the passage of a lot of feather-brained bills at the expense of the taxpayer.

The democratic bloc in the House, assisted by recalcitrant republican members this week succeeded in turning aside the chief executive's proposal that state finances be centralized under one head. The opposition so emasculated the original bill by amendments that it is almost certain to be vetoed should the Senate concur.

As passed by the House despite stubborn resistance from the republican camp, the Senate bill which would have consolidated finance and budget activities under the direction of one man to be appointed by the governor now sets up a finance board of three to be composed of the lieutenant governor, the state treasurer and the auditor general.

In so amending the bill, the democrats have taken a subtle slap at the governor. Should the bill

go through, which likely it will not, the finance board would be made up of a majority openly unfriendly to the executive. The board would be composed of one democrat, State Treasurer Theo. I. Fry, Lieut.-Gov. Read, who, though a republican, is at odds with the "front office" over certain patronage matters; and Auditor General John J. O'Hara, a Fitzgerald appointee.

This bill was one of the salient parts of the original Fitzgerald plan for overhauling the state government in the interest of economy. Without it, the governor insists that the proper control cannot be had over expenditures.

In addition to the virtual defeat of this measure is another of the administration's important proposals, viz: that of consolidating the state welfare agencies under one man. Speaker George A. Schroder (D) of the House informed your scrivener this week that Washington is definitely opposed to the consolidation idea and therefore the democrats in the lower chamber will have to oppose it. The bill is now in House committee where it is liable to rest thus, marking down another defeat for the administration.

The Dunckel-Baldwin "anti-communist" bill has furnished the pyrotechnic of the week. Amid communistic pressure against the bill, the Senate finally gave a 21 to 11 approval of the measure which prohibits all gatherings of persons advocating the overthrow of the government by force.

It also sets up harsh penalties for possession of communistic literature. Opponents of the bill see in it an attempt to curb the freedom of speech, although this is denied by its sponsors.

An appropriation bill which will give the University of Michigan an annual sum of \$3,700,000 has been approved by the House. The measure awards the institution \$3,200,000 in excess of \$500,000 made available in the general sales tax act. Another bill making \$1,678,609 available to Michigan State College has also been passed.

Practical agreement has been reached on the Thatcher school-aid bill with the Senate committee on education having cut the appropriation from \$25,000,000 down to \$20,200,000 to conform with Gov. Fitzgerald's recommendations. The amended bill has been made a special order of business for next week.

The Watson integrated bar bill once defeated in the House, has been passed in substituted form and delegates to the state supreme court the authority to establish rules and regulations for attorneys licensed in this state.

The original measure drafted by the Michigan Bar association met with opposition when first considered in the House and a substitute was drafted. All attorneys would be required to maintain membership in a state bar association, the membership fees of which would not exceed \$4 a year.

The house approved of a plan for selection of county chairmen and committees of political parties by delegates at spring conventions rather than by party county candidates in the fall. The bill introduced by Representative James C. Frey (R) of Battle Creek and Representative Edward Fenlon (D) of St. Ignace, was drawn after mutual conferences between the officers of the two major parties.

The Nichols bill which would

Make Arrests Of Game Violators

Fifty cents invested in the purchase of a resident fishing license would have spared trouble and expense for a number of Michigan fishermen during March. The monthly report of the Field Administration Division, Department of Conservation, lists 169 arrests for that month and of the 169 arrests, 62 were on charges of fishing without a license, the most frequent of all infractions of the fish and game laws. Plymouth provided two of this total.

In nearly all instances where fines and costs were assessed the violators the amount involved was many times in excess of the cost of a resident fishing license. Illegal spearing and illegal netting on the lakes and streams came in for their share of attention by conservation officers during the month. Twenty-two individuals were taken into custody on illegal spearing counts and 19 for illegal netting. Rainbow trout and black bass were among the species of fish taken by waders of the spear.

Remainders of the fishing violation arrests are divided among a dozen different counts. Of the total of 169 arrests made during the month, 135 were for illegal fishing, 21 were for violation of the game laws and 12 for violating laws in the vicinity of game preserves. The total cost of the violations amounting to \$766 were assessed in justice court. The aggregate of jail sentences imposed was 890 days. Fines were suspended in 36 cases, nine violators were placed on probation, two cases were lost in justice court, one charge was dismissed and one sentence suspended.

Officers confiscated more than 600 pounds of illegal fish, 100 pounds of illegal venison, two 90-foot nets, 18 spears, five dipnets, three gill nets, two trammel nets, a fish trap, one live elk, a hound, ferret, ice spud, 28 traps and 13 muskrat pelts or hides. Possession of firearms in game areas without a permit was responsible for more arrests than any other offense. Seven individuals were taken into custody on have cancelled penalties and interest charges on 1933 and 1934 taxes and extended the time of payment of those taxes to June 1, 1935, has been defeated by the upper house.

The measure as introduced in the House by Rep. Haskell L. Nichols, R. of Jackson was first amended in the senate extending the time in which the taxes could be paid to November 1, 1935. A second amendment prohibited cancellation of interest on special assessments and a third amendment imposed a charge of four per cent of all taxes paid as a collection fee to go into the general fund of the counties.

Sen. Don Vander Werp (R) of Fremont, who framed two of the amendments, led the attack on the bill. He said the legislature is contributing to tax delinquency by its periodic grants of special privileges.

The Flynn bill, amending the sales tax act so as to exempt from tax agricultural products and industrial items used in processing was approved by the Senate without a dissenting vote. It is believed that the bill as now drawn defines sufficiently the legislative intent and removes the danger of invalidating the entire sales tax law through violation of the constitutional provision for uniform taxation.

that charge. Four were arrested for illegal possession of venison and one on each of the following charges: Hunting pheasants, hunting rabbits, possession of ferret, killing deer, possession of beaver without a license, possession of cardinal and quail without permit, possession of live elk, hunting in closed season and trapping dogs illegally.

Trapping law arrests included the following charges: Trapping muskrats, six; illegal purchase of fur, two; illegal trapping, two, and taking live raccoon, one. The arrests for fishing law violations are divided as follows: Fishing without a license, 52; illegal spearing, 26; illegal netting, 20; possession of undersize perch, five; fishing for trout, four; commercial fishing without a license, three; use of firearms to take fish, possession of short pike, possession of undersize bluegills, marketing short pike-perch, exceeding legal number of fishing lines, two each; possession of trout, possession of undersize fish, selling yellow pickerel in closed season, taking pike illegally, illegal use of fish trap, one each.

Plan Festival At Northville

The Northville May Festival sponsored by groups of music lovers from the vicinity, and participated in to some extent by most of them, will be given in Northville beginning Tuesday, May 7, a week of evening concerts.

The five programs will be of such a diversified character as to appeal to the music appreciation of all. Plymouth residents are cordially invited to attend all or as many of these entertainments as they wish. There will be no admission charged. 8 p.m. Tuesday, May 7, Northville high school band at the high school building. 8 p.m. Monday, May 6, Little Symphony of the University of Michigan, Presbyterian Church house. 8 p.m. Friday, May 10, Northville high school choir at the high school building. 7:30 p.m. Sunday, May 12, The Oratorio Elijah, Mendelssohn, by a group of local people at the M. E. church. 8 p.m. Thursday, May 9, Concert by Northville-Plymouth male chorus at the Baptist church.

Garden City Creates New Traffic Bureau

Establishment of a violation bureau, patterned on the violation bureau in Detroit, for traffic offenders, is being effected in Garden City. When the bureau is operating, fixed fines will be set for every type of traffic violation and offenders will be able to appear at the bureau, pay the prescribed fine and not appear in court if they so desire. They will still have the option, if they wish, of appearing in court. In the latter case, however, they will be obliged to pay court costs, too, in case they are ordered to pay a fine.

What You Know About a Bank

Depends Upon
What You Know About a Bank

A great many people do ask impossible things of a bank—just because they do not thoroughly understand what are the right and the wrong principles of conducting a bank.

There is a reason back of every safe rule in banking. The banker does not act from whim, or favor this person or that; he follows the charts of experience. He tries to steer a safe course, as the captain does with a great liner. Nobody asks the captain to head for an iceberg. Nobody should ask the banker to depart from any of the sound principles which give protection to the bank's depositors.

This TRIAL PLAN

enables you to try an electric range in your own kitchen— WITHOUT ANY OBLIGATION!

WE WANT to give you an opportunity to TRY electric cooking in your own home before making an investment. We want you to learn for yourself just what electric cooking will do. To this end and for a limited period, we will install an electric range without initial charge, and let you use it for six months, removing it without charge if you do not like it.

During the trial period, you pay for the service as registered by your meter, plus a monthly charge of \$1 for the range. If you decide to keep the range, your monthly payments will be applied toward the purchase price. If you decide that you do not want it, the range will be removed at our expense.

We want you to discover that electric cooking is not expensive and that it gives you better cooking, with more certainty, and less effort. Once you have enjoyed the delicious flavor electric cooking imparts to foods, its cleanliness, its coolness and its convenience, we believe that you will never again go back to any other method of cooking.

Applications for ranges on trial installations will be taken care of in the order they are received. Call any Detroit Edison office.

Enjoy These Advantages of Electric Cooking!

- CLEAN. Electric heat is as clean as sunlight. There is no smoke or soot to soil kitchen walls and fixtures. Cooking remains bright and shiny after long use.
- HEALTHFUL. Electric cooking seals in nourishing juices and natural vitamins in meats and vegetables. Important food values are retained.
- WATERLESS COOKING. With your electric range you use no water for roasts and only half-cup for vegetables.
- MODERN. In attractive and striking designs, these electric ranges do much to brighten and add a feeling of newness to your entire kitchen.
- FULL FLAVORED. Electric cooking has a deliciously different flavor—a natural flavor to foods. Meats and vegetables cook to melting tenderness in their own juices.
- INEXPENSIVE. Electric cooking costs less than a meal per person.
- SAFE. An electric range supplies only pure heat from a glowing wire—there is no flame, no gas, no fumes.

BUSINESS GAINS DESPITE OBSTACLES

By Mark Sullivan

The improvement in business which is now plain, rests on two main foundations. First and most dependable is the recuperative power of natural forces. Always to be borne in mind in the turmoil through which we are passing is one condition as beneficent and almost as infallible as the rising of the morning sun. When in the business cycle, a decline touches bottom, as the recent one did in July, 1932, the subsequent rise is as inevitable as was the decline before. Business recovery will leap over, or crawl under, or run around, or seep through every barrier. It can be delayed, and in the present case has been delayed, by the impediments wantonly placed in its way by the mistakes of government. But it cannot be permanently held back.

The present business improvement has been enabled to get past one obstacle of government by a fortuitous accident.

The principal artery of business is the flow of capital into industry. The mechanism for this flow consists mainly of the issue of bonds by industrial corporations, the purchase of these by investment bankers, and the retailing of the securities to investors. This process was tainted during the late '20s by some improper practices, amounting in some cases to crime. To cure these defects Mr. Roosevelt's administration wrote the securities and stock exchange control bills. The writers of these measures were tainted junior intellectuals of the brain trust, some of what the less reverent part of Washington calls "Professor Felix Frankfurter's hot dogs." They wrote a measure which not only cut out the cancer, but made it impossible for the patient to live and function.

That members of the brain trust should have written, in the condition of 1933-'34, a measure which would do that is sufficient light on the strange brains that compose that extraordinary trust. The joint securities and stock exchange control bill, as originally written, would have made the flow of capital into industry impossible.

By the time this became apparent, Congress had recovered somewhat from its early stupor, and was enacting any and every measure sent to it by the "brain trust." In Congress, the joint securities and stock exchange control bill, as originally written, would have made the flow of capital into industry impossible.

With the passage, in the state senate last week, of Senate Bill No. 290, providing, among other things, for a broader definition of the term "motor fuel," as applied to the gasoline tax collection law of the state, one of the Department of State's most vexatious problems was half way toward solution.

Orville E. Atwood, Secretary of State, has noted, with other department officials, that some users of fuel oil, when used, have made increasingly insistent representations that under the present gas tax act, this type of fuel should be exempt from the state's three cents a gallon tax. The tax has been collected in all instances, Joseph Feneley, director of the gas tax division, points out, adding that all legal differences of opinion will be cleared away if the house passes the bill now before it for action.

The present act classifies gasoline as a distillate; kerosene is exempt from the tax, except when used as fuel for motor vehicles and fuel oil is a lower grade of distillate than kerosene. In the background of the picture is the development of diesel motors. Oil was not visioned as a propulsive fuel for motor vehicles until recent times; today heavy motor trucks are being built to use it, for means of economy. Diesel motors have not reached the stage of perfection permitting their use in any but larger freight moving motor vehicles.

A look into the future, however, discloses the possibility that with increased use of diesel oil, it may be necessary to seek a higher rate of motor fuel taxation, in the instance of diesel oil, if state revenues from this source are not to drop appreciably. The oil gives nearly double the mileage delivered by equal quantities of gasoline. A year and a half ago, the amount of diesel oil used on highways was insignificant; today the amount is becoming measurable and well worthy of attention, according to Feneley.

The following information concerning the change is given out by the postoffice:

Effective June 1, Postmaster Edwin Boyle has been notified, officially, of a change in rural routes from Milford post office which has been pending for several months.

The patrons on the rural route out of Highland are to be served from Milford, and this route, together with the five out of the Milford office now are to be consolidated into four routes.

This change brings the Highland carrier U. S. Beach, to the Milford office and allows Harry M. Coulter and Ben E. Phillips to retire under the Post Office ruling that a carrier may retire after 30 years' service on full retirement pay. Mr. Coulter is in his 32nd year of service in the rural mail division and Mr. Phillips will have completed 30 years on May 15—Milford Times.

Consolidation and rearranging of the rural free delivery of mail service out of Milford postoffice will become effective on June 1, according to official notification received Monday by Postmaster Edwin Boyle. The consolidation of the number of carriers out of Milford, will be reduced from five to four, but more territory will be added, and more mileage covered by each carrier. June 1 will see the retirement of two veteran carriers on the Milford routes, Harry M. Coulter and Ben Phillips, both of whom by that date will have completed over the required 30 years of active service and will be retired. By this change the rural route now going out of Highland postoffice will be transferred to Milford, the carrier in addition to serving his old patrons, will take some of the territory relinquished by the retiring carriers. The remaining territory will be split up and added to the routes of present carriers.

County To Cover A Part of Creek Add Equipment To Playgrounds

Ray Baker, owner of the garage on South Main street that is being slowly undermined by flood waters of Tonquish creek, has been notified by Leo J. Nowicki, county drain commissioner, that he has approved the construction of retaining walls and a covering of the creek from the street line to the east end of the Baker property.

The work will be done with relief employees and it is expected to be started within the near future. Flood waters since the change in the course of the creek under the street some years ago, have washed out all of the earth along the north side of the building and last summer so threatening became the condition, that Matt Powell who used the garage for storage of his trucks, was forced to move out.

Well Drillers Get Salt Water

Drilling for a water supply at the new comfort station which is now under construction on the north shore of Newburg lake in Plymouth-Riverside park, the workmen struck a vein of salt water. Continued drilling brought in more salt water and as a result the county has abandoned its plan to put in a water pumping plant at the place.

Water for the sanitary service in the building will be pumped from the lake. It has not yet been decided from what source drinking water will be brought into the comfort station. In view of the fact that it is about a mile from the end of Plymouth's nearest water main which serves the west end of the park, it is not believed that the local water supply will be utilized. It is possible that a new effort will be made to strike another water vein somewhere in that vicinity.

Baby Chick Show To Be Held May 14 to 17 At Michigan State

The eighth annual baby chick show to be held at Michigan State College May 14, 15, 16, and 17 is expected to attract more than 7,000 chicks from hatcheries in many states.

The Michigan show has become the largest of its kind in the world. Any one may exhibit at this show. Entries must be 25 chicks, sent by mail to reach the College before Tuesday noon, May 14. Classes for turkeys, ducks, and peaseants are open for competition, as well as classes for all breeds of chickens.

Judges for the show will be the well known poultry experts, G.S. Vickers, University of Ohio, and J. A. Davidson, Michigan State College. Eight awards are in many of the classes. Prizes will be ribbons, trophies, poultry equipment, and poultry feeds.

As with most other agricultural shows, the exhibits year after year are of the highest and result in a better quality of market stock. Chicks have to be uniform in size, representative of the breed, and show good vigor to win in the show. Those same points are necessary in chicks which are to be raised in the home, or to be sold for broilers.

All chicks entered in the show will be sold at auction Friday, May 17, beginning at 1:30 p.m. These auction sales have become popular in the past few years with poultry raisers living near the college.

To Mark Grave of A Revolutionary Soldier

Few people are aware that in New Hudson cemetery rests the remains of a Revolutionary soldier—Ambrose Orvis—who died in Lyon township in 1844. He was a musician and played a snare drum at both inaugurations of President Washington in New York. The Daughters of the American Revolution have provided a bronze tablet which will be inserted in the small white slab in New Hudson cemetery before Memorial Day.

Ainger Herd Makes Another High Record

Many breeders are cooperating with the Holstein-Friesian Association of America in the development of a well organized breeding program based on continuous testing of their herds year after year for production record. More than 300 herds including nearly 10,000 cows are now included in the Holstein Herd Test and a large percentage are testing every year.

Whitmore Lake Fire Is Disastrous One

The Owen Steffe alfalfa mill and hay barns at Whitmore Lake were destroyed by fire of undetermined origin shortly after midnight Friday, causing loss estimated at \$15,000. With little wind the flames shot high into the sky and could be seen for a distance of 30 miles.

Along with the frame buildings destroyed were the railroad tracks, the loss included 90 tons of baled hay, two cars of alfalfa and about a thousand bushels of grain.

The mill was about 40 years old. Owen Steffe, Northfield township supervisor, owned and operated the business which was one of the most extensive mills of its type in the vicinity.—South Lyon Herald.

Cash Prizes For Housing Essays Will Be Offered

Plymouth Students To Be Given Chance To Enter Contest

Students in the English classes of Plymouth high school were notified this week that they have an opportunity to enter a national essay contest that is being sponsored in connection with the better housing campaign of the nation.

Supt. George Smith of the Plymouth public schools, who is also chairman of the local better housing committee, this week notified instructors in the school of the contest and urged that any students who desire, may enter.

Cash prizes and eight gold medals for national winners, have been arranged by the Industries Award Committee of the National Educational Better Housing Contest open to all high-school boys and girls in continental United States. All contestants will prepare and deliver an essay on the subject "Better Housing and the Home."

The contest under the sponsorship of the Federal Housing Administration, has been launched to focus the attention of the youth of America on the better-housing program.

The prizes:

To the national boy winner, \$1,000 and a gold medal. To the national girl winner, \$1,000 and a gold medal.

Second prize, \$500 and a gold medal. Duplicate prizes will be awarded in each place, to a boy and to a girl.

Third prize, \$250 and a gold medal.

Fourth prize, \$100 and a gold medal.

In localities where high-school students are not allowed to accept cash awards, scholarships will supplant the money prizes, says Mr. Smith.

Silver medals will be awarded to

winners of State contests, including the District of Columbia. Certificates of merit will be awarded by the Federal Housing Administration to the boy and the girl winner in each high school participating. In many sections of the country local better-housing committee chairmen and women's division chairmen are arranging for additional local awards.

Announcement of the prizes was made by Ernest T. Trigg, chairman of the Industries Award Committee and president of the National Paint, Varnish, and Lacquer Association. Every major industrial group in the Nation is represented on the award committee.

The contest will be based on an essay written in such form that it will not require more than 6 minutes to deliver orally. Subject matter, literary quality, and effective delivery will be taken into consideration by the judges.

Eliminations will be made by districts. Two students, a boy and a girl, will be selected in each school contest. These in turn will compete in district eliminations. State finalists will be determined from district winners in each State. Eliminations for the national finals will follow.

Detailed rules and regulations have been sent to all better-housing committee headquarters. Chairmen have been instructed to cooperate with high schools in their respective localities in conducting the contests for school, district, and State winners.

Associates Honor Miss Marion Tett

Last Thursday, April 25, at a meeting of the Ypsilanti Teachers club, which is composed of all the teachers of the city schools of Ypsilanti, Miss Marion L. Tett, daughter of Mr. and Mrs. L. I. Tett of Plymouth, who teaches at the Central school, was elected secretary. The other officers elected were Miss Olive Adams, principal of Prospect school, as president; Miss Hazel Mills, vice president; James McLaughlin, treasurer.

Happiness consists not in having much, but in wanting little.

Prof. Hover Is Appointed Dean

Prof. J. Milton Hover, head of the natural science department of the Michigan State Normal school of Ypsilanti and a brother of former Mayor Freeman B. Hover of Plymouth, has just been appointed dean of administration of that institution.

He will succeed Dr. Charles L. Anspach who has resigned to be state president of the Ashland college, at Ashland, Ohio.

Prof. Hover is well known in Plymouth and his many friends will be pleased to know of his advancement, his new position being one of the most important connected with the school.

He has been a member of the faculty of the school since 1919 and has been head of the natural science department for the past four years. Last summer he was a strong contender for the Republican nomination for congress in the second district.

To Widen Road As Far As Cemetery

Sometime during the present summer, the Wayne county road commission plans to build a 40 foot paving from the north Lilly road intersection of the Plymouth road to the entrance of Riverside cemetery.

The work will not be started until the large fill made for the grade separation at the old park entrance has entirely settled, so it will probably be late August or early September before the improvement is begun.

The commission had considered widening the Plymouth road from this point as far east as the Ann Arbor cut-off but curtailment of funds will result in this work being started at some future time instead of the present.

A forty foot widening from the Lilly road to the cemetery entrance has long been regarded as a badly needed improvement and the decision of the road commission to build it this year will bring general satisfaction to Plymouth residents.

The matter was taken up with the old commission several years ago by Fred Schrader and Ed. Gayde but the work was not done at that time because of the fact that the road commission had in mind the grade separation at the park entrance. Now that this improvement has been completed, the paving will be widened to 40 feet just as soon as the bridge fill has sufficiently settled.

Levandowski To Play In The East

Clarence Levandowski who signed with Springfield, Missouri Base Ball club last February, and who has spent the last month at home, because of a spike wound was transferred to Huntington Red Bird Base Ball club and he reported to them last Saturday night.

The Huntington Base Ball club of West Virginia is a St. Louis Cardinal Farm, and they are in the Middle Atlantic League. This team plays all of their home games at night under the strong lights which turns the night into day.

Ray Levandowski and his brother Thomas and a friend Peter Tonkovich drove Clarence down to the base ball camp last week end, and while there the Huntington Base Ball club offered them a refund of their expenses and room and board to remain one week for a try-out, but the three having jobs couldn't stay.

The three boys reported that if Clarence's leg and arm injury do not bother him that the Plymouth boy should make good.

Build Sidewalk Into the Park

After making a careful study of the traffic situation, officials of the Wayne county road commission have decided that the construction of a paved connection from the Plymouth road into the Plymouth-Riverside park near the old entrance would not be feasible and would tend to create another traffic hazard.

Instead of building a roadway, it has been decided to construct from the city limits and into the park a wide sidewalk, permitting easy access for local residents into the park who prefer to walk to the park instead of driving.

It will be recalled that some two or three years ago Glenn Smith and a number of others recommended strongly to the commission the construction of a sidewalk entrance into the park at this point. However that was before the grade separation had been constructed.

The commission recently went over the entire park problem in and around Plymouth.

The city at present has four automobile entrances into the park, one off the Northville-Plymouth road, one from Mill street, another entrance drive off Mill street near the Universal Power Sprayer plant and another off east Ann Arbor Trail at the city limits.

When the improvement is completed on Plymouth road between the city limits and the park, this city will have one of the most attractive entrances from the east of any place in Michigan for which Plymouth can thank members of the county road commission and its officials.

Buicks To Open Season Sunday

Plymouth Mail Jottings

May Day was appropriately celebrated Wednesday by a "Feast" given to the ladies of the Presbyterian church by the ladies of the Methodist church which drew an attendance of about seventy-five guests. The dining room was resplendent with lovely spring flowers and the tea table, which was covered with a beautiful lace cloth and set with silver tea service at either end, was most attractive having a miniature May pole in the center. Mrs. Sarah Ross and Mrs. John A. Miller presided. At each guest's place a tiny cottage of snapdragons was placed adding to the pleasure of each one present. Previous to the social hour a splendid talk was given by Mrs. Peter Stair of Strathmore on "Fishing Back Horizons." Two lovely sales were sung by Mrs. James Sessions, "The Rain" by Pearl Curran and "Life's Maytime" by Newton and another musical number which was very well received was "Wynken, Blunden and Nod," by Ethelbert Nevin, sung by a double quartet composed of Mrs. William McAllister, Mrs. Maxwell Moon, Mrs. Maurice Woodworth, Mrs. J. T. Chapman, Mrs. L. E. Wilson, Mrs. Charles Thorne. Mrs. Stephen Ribar and Miss Hanna Strasen

with Mrs. Sessions singing the obligato and Mrs. M. J. O'Connor and Miss Marion Beyer at the piano. Mrs. Earl Kenyon was chairman of the day.

The Ladies' Aid of the Lutheran church held Wednesday afternoon in the church was very well attended and all enjoyed the interesting meeting and social hour following. Mrs. George Springer and Mrs. Jacob Steng were hostess.

A roof fire in the Hough building on Penniman avenue called the fire department out last Sunday afternoon. The building is occupied by Meek's restaurant. Fire started on the roof from the chimney and because of the excellent work of the fire department little damage was done.

PAUL AUGUST HELM
Paul August Helm who resided at 1940 S. Main street passed away early Thursday morning, May 2nd, 1935 at the age of 68 years. Mr. Helm was a life long resident of Plymouth and the surrounding vicinity. He was the husband of Anna M. Helm, father of Mrs. Edna Rossow and Roy Helm both of this city, brother of Charles Helm of Livonia Township. The body was brought to the Schrader Brothers Funeral Home, from which place funeral services will be held Sunday, May 5th, at 3 p.m. "Old Rugged Cross" and "Rock of Ages" will be rendered by Mrs. J. T. Chapman and accompanied by Mrs. M. J. O'Connor, Rev. Loya Sutherland officiating. Interment made in Riverside Mausoleum.
