NO EXCUSE THIS TIME.

There is justly a lot of criticism growing up because of the fact that Michigan's vacationing Governor thinks it necessary to go outside of Michigan to find men "big" enough to fill some of the important state jobs that have been created recently. Possibly the appointment of Mr. Brownrigg as head of the civil service commission isn't so bad, as he is a former Michigan resident and even though he has held political offices in California, he has apparently never given up his allegiance to good old Michigan.

But there is not the slightest excuse for the selection of some one from Massachusetts to become director of the state hospitals of Michigan, especially in view of the fact that this state has within its own boundary some of the outstanding medical administrative leaders of the nation.

What about Dr. Yoder, Dr. Inch, Dr. Campbell or our own Dr. Robert Haskell? Isn't Dr. Haskell regarded as one of America's outstanding authorities upon mental ailments? And is he not one of the best institutional administrators not only in Michigan, but the country? He is a graduate of the University of Michigan and his entire life has been spent in the management of Michigan institutions where the mentally afflicted are cared for. Dr. Haskell, or any one of the others mentioned, as well as some of the institutional medical superintendents who have not been enumerated, are rated far superior to the "imported" director from down East. In fact, there isn't a medical hospital superintendent in Michigan who is not held in much higher estimation than the one who has been selected by the Governor to have control over all of Michigan's hospitals.

If there are promotions to be made, why not give Michigan men, our own products, the benefit of these advancements?

The Governor has slapped Michigan's outstanding hospital heads. He has not only done that, but he has VIOLATED the intent of the law that was passed by the last session of the legislature creating the new commission. The law said the commission SHALL make the appointment. The commission simply rubber-stamped it.

These are not the only outside appointments. There is a C. A. Winder, imported to Michigan from somewhere, who heads up the rural electrification political racket under the public utilities commission. Winder, as far as known, was never inside the boundary line of Michigan until he came here during the last presidential campaign to make a speech over in St. Joseph county. Early this spring he showed up in Lansing with a nice big fat salary paid by the taxpayers of Michigan with a job under Paul Todd in the utilities department. How many others there might be, no one knows, but these two or three are altogether too many, especially in view of the fact that Michigan hasn't jobs enough for its own people, say nothing about importing outsiders to take some of its biggest public paychecks.

This is all typical of the Murphy type of administration. There isn't any question but what in his own mind he thinks the presidential nomination may come to him from the Democrats, and he believes that maybe by importing these outsiders they can help along his presidential aspirations in the states from where they come. No one any more, except Murphy himself, has any idea that he is of "presidential timber".

If President Roosevelt has any idea of "taking" Governor Murphy to Washington, it would be a God-send to Michigan if he would do so at once, but it begins to look as though there isn't much chance of that as the big-time political wisecracks in Washington are reported to have told him he has to step out and be re-elected governor of Michigan before they can consider him for anything under the Roosevelt administration.

STATE TAKES TAX OFF BOOZE BUT INSISTS ON TAX ON MILK

(By William Berkey in The Cassopolis Vigilant)

You mothers of children who need milk may read this and weep, or you may read it and then arise in righteous anger and march on the state capitol armed with rolling pins or milk bottles or whatever it is with which women arm themselves for battle. Michigan dairymen have attempted to have milk exempted from the sales tax, not only because of its necessity in every household but because selling a bottle or two of milk each day to a family does not entitle them to collect a sales tax, with the result that when they pay a sales tax on their gross business each month the money must come out of their own pockets. The state would not allow the exemption, claiming that it would require an act of the legislature to exempt milk from the sales tax. Then the state turns about and exempts whiskey from the

Do the jeweled halls of fashion

sales tax, and did that "burn up" the dairymen? It did. They renewed their efforts last week and asked that milk be given the same exemption as whiskey. But again they were turned down and told that it could not be done without an act of the legislature, even though whiskey was exempted without a special act of that body. Ye gods, what a state! Tax exempt whiskey for the adults and taxed milk for the babies! Have Michigan people fallen so low that whiskey takes precedence over milk and that men's appetites are more important than the babies' needs! No, we rather believe that the people of our state are still sound at heart and that it is only the little group that governs us up at Lansing who are making the state appear ridiculous by taxing milk and exempting whiskey.

PLAY-BOY FOR SENATOR.

Newspaper dispatches a few days ago said that Governor-elect Moore of New Jersey had offered James Cromwell an appointment as United States senator from New Jersey. The new governor-elect of New Jersey is at present one of the United States senators from his state and when he assumes his new duties January 1, his first official responsibility will be the filling of the position that his election as governor makes vacant.

Now he would embarrass America and heap political indignities upon the common people by making a millionaire play-boy United States senator. "Jimmie" Cromwell is one of the country's rich men because of inherited wealth and marriage. His present wife, not his first, is Doris Duke, who inherited a vast tobacco-created fortune.

Pray tell what does a man who has lived his entire life in the lap of luxury, whose great wealth came to him as the result of what others have done, know of the plight of the American worker and farmer? Isn't the great Duke fortune the direct result of a miserable wage paid the toilers in southern tobacco fields? Hasn't Cromwell's entire career been spent in an atmosphere far removed from that of the problems a United States senator must deal with? Will the Governor-elect of New Jersey tell America why he hasn't offered the appointment to some one who has been "through the mill", some one who has had to fight his way up from the ranks, some one who has the public good at heart and will not look upon the worker, the farmer and the little "white-collar" fellow with the patronizing air of the untouchables? We hope for decency's sake, that Doris Duke's play-boy husband will refuse the appointment that has been offered him.

RAMBLING with Editors AROUND of Michigan

OUR FIRST CROWN PRINCE.

America is famous for its queens—that is, those we crown for potatoes, blossoms, beauty, etc., but it was left up to the president to anoint and coronate our first Crown Prince. When the occasion came for him to announce this crowning to the press, he did so with the appending statement that it deserved only a paragraph or two on the fifth or sixth page. We wonder, for this is the way dynasties are set up, and even though we take great pleasure in crowning our beauties for their pulchritude or to represent us at a Cherry Pickers Ball, it is a bit of something else again to see the elected executive of the land appoint his son as a sort of liaison man between him and the executive heads of 18 Federal departments. This really does make it a family affair and you may be sure to hear much more about it before many moons have waxed and waned.—George Neal in The Orion Review.

CHANGE THE MACHINE!

It would seem that many Republicans in the state are expecting to ride back to Lansing in the same old machine which created with an increasingly bad noise in the ears of so many. Not that any great fault could be found with the chauffeur, who was steady, honest and likeable, and did a good job over a bumpy road. No, it wasn't the driver so much as the fellow who furnished the gas and oil. It is an unhealthy thing for parties or persons to get themselves under too heavy financial obligations to any one man. Even though strings are not supposed to be attached, still, no person on this earth plays Santa Claus on a big scale for nothing.—Dick Cook in The Hastings Banner.

USE COMMON SENSE.

The G. O. P. will fail to get anywhere as long as it continues to fight within itself. For instance, every time a distinguished leader makes a suggestion for party good then all others rear up and oppose his proposals. There is just one way to go and all other ways lead to chaos. Acknowledge the merit of many of the new deal adventures, and experiments, but profit by those experiments by putting them in economical and business like action. Quit finding fault and instead find a way to go. Anyone can find fault and squawk but few can guide. Cut the theory out of new deal adventure and apply practical common sense to obtain new deal ideals.—Al Weber in The Cheboygan Observer.

CRIME.

Does any person remember when there were so many appalling murders and suicides as are now taking place, so that human life is counted as a thing of naught, and that too regardless of age or sex, and so often without any semblance of provocation. We may not know the why of it, but I am of the opinion as the scripture states "we fight not against flesh and blood, but against principalities and spiritual wickedness in high places". The human mind is susceptible to dire influences which the average person has little or no knowledge of, and allowing themselves to think along negative lines so their resistance against evil is so weak they fall an easy prey to unseen foes of darkness.—J. E. McMullen in The Linden Leader.

YOU ARE NOT THE ONLY ONE.
I don't mind paying enough taxes to carry my portion of the burden of good government; but I do object, with millions of others, the necessity of paying taxes to carry on the parasitical practices of predatory political parties. And that includes some Republicans along with plenty of Democrats, too.—George Averill in The Birmingham Eclectic.

Old Furniture Worker Dies

Archie Morris, for 50 years a resident of Northville, and well known here, died Tuesday, November 16, at his home following a three-year illness. He was 78 years old.

Mr. and Mrs. Morris had celebrated their 50th wedding anniversary September 14. Mr. Morris came to Northville from St. Johns 50 years ago in April, 1887, bringing his bride with him the next September.

A cabinet maker by trade, Mr. Morris came to the village after working in a furniture factory in St. Johns. In Northville he was an employe of the former Globe Furniture company until it closed some 12 years ago. Since that time he had retired from active business.

Mr. Morris was the son of the late Robert and Joan Morris and spent his childhood in Norwich, Canada. He is survived by his wife, Helen.

Funeral services were held Thursday afternoon at the home with the Rev. T. W. Smith of the Presbyterian church in charge. Interment was made in Rural Hill cemetery.

During extreme dry spells a part of the Withlacoochee river, about six miles northwest of Valdosta, Georgia, runs upstream.

THANKSGIVING, CHRISTMAS, NEW YEAR'S...

these holiday feasts are occasions for good food and good cooking. And for the lucky family with an electric range in the kitchen, every meal is a holiday meal!

Here is the finest cooking that money can buy. Until you have tasted electric cooking, you cannot realize how it differs from all other cooking methods. You'll be surprised at the DIFFERENCE in flavor... how much better it makes all your recipes taste, what delicious natural flavor it retains in meats and vegetables, cooked in their own juices.

You'll marvel at the absolute CLEANLINESS of electric cooking, with pure heat from a glowing wire... heat as clean as sunlight. You'll take pleasure in the ease with which you can keep your kitchen bright and sparkling—because an electric range cooks with clean, refined electric heat. You'll appreciate the HEALTHFULNESS of this modern waterless cooking, which seals in pre-

cious minerals and important food values. An electric range is a boon in the household where there are small children. There is no flame, no matches.

But an electric range does more than prepare holiday meals. It gives the cook a holiday too. The Timer Clock (available at small additional cost) makes it possible to put an entire meal in the oven and go out for the afternoon. When you come home your dinner is waiting, perfectly cooked... piping hot and ready for the table. Think of the extra leisure hours to do the things you want!

Today, you can purchase an electric range for about the same price as an ordinary stove of comparable size and features. Don't deny yourself and your family the enjoyment of this latest and most modern cooking method: YOU can afford electric cooking now! Women say, "You'll wish you had installed it in your kitchen years ago."

FIRST CHURCH OF CHRIST Scientist—Sunday morning service, 10:30. Sunday school at 10:30. Pupils received up to the age of twenty years. Wednesday evening testimony service, 8:00. "Ancient and Modern Necromancy, alias Mesmerism and Hypnotism Denounced" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, November 28. The Golden Text, from Proverbs 14:22, is: "Do they not err that devise evil? but mercy and truth shall be to them that devise good." Among the Bible citations is this passage (Isaiah 55: 7): "Let the wicked forsake his way, and the unrighteous man his thoughts; and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon." Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (p. 249): "Let us feel the divine energy of Spirit, bringing us into newness of life and recognizing no mortal nor material power as able to destroy. Let us rejoice that we are subject to the divine 'powers that be.' Such is the true Science of being."

State Officials Seeking Way To Buy "Mansion" For Governor

Protest Filed With Board

Homes For Men, Women And Children Is Michigan's Greatest Need

(By ELTON R. EATON)
Lansing, Michigan. — While there are thousands and thousands of fathers and mothers in Michigan unable to provide proper shelter for themselves and children, state officials are looking for a loop-hole through which they can take \$90,000 or \$100,000 of taxpayers' money and use it to buy or build a "mansion" for the Governor.

It seems that some of the smart aleck state officials think that they have a right to dip their hands into an "emergency" fund that the legislature had no business in creating and use some of this \$1,500,000 appropriation to buy a "mansion" for its chief executive to live in, although Michigan during prosperous times did not regard such a thing as necessary.

If these were prosperous times, if the men and women of Michigan had even decent homes in which to live, if the state had used these "emergency" funds to help relieve the deplorable condition under which it is forcing

such a large number of its residents to exist and if the governor was a married man and raising a family of children, there would be some sense and reason to giving thought to the purchase of a "mansion" for the governor to live in while in Lansing.

But Michigan has done nothing towards relieving its housing problem; probably the most serious situation facing the state. Not one word have you or any one else ever heard the Governor utter about doing something or suggesting something to provide the hundreds of thousands of good people who are now forced to rear their families in one room shacks, in trailer homes, in garages, yes, even in woodsheds, with decent homes in which to live.

The governor is in just as good a position as any one else to know how deplorable is this situation. Frequently I have been called to the homes of unfortunate families to discuss matters of welfare or old age pensions with them. I know under what terrible circumstances a lot of these good people are forced to live. Lansing officials, apparently, think that Michigan has money for every other purpose under the sun to use except for the things most needed, HOMES and PUBLIC SCHOOLS for its children.

Think of it—within two miles of the city of Plymouth an old garage is being used for a school room.

And still our state officials are looking for a way to stick their hands into state funds and take out something like a hundred thousand dollars with which to purchase a mansion for its roving bachelor governor.

It may do no good, but I have filed the following strong protest with the state treasurer, who is a member of the state board of auditors, against the state spending one penny for a "mansion" for the governor in times like these:

November 22, 1937
Hon. Theodore I. Fry,

"State Treasurer and Member
"State Board of Auditors,
Lansing, Michigan.
"Dear Mr. Fry:

"According to newspaper dispatches I note where the state board of auditors has requested "the lowest figure" on a Lansing residence which you propose to purchase for a Governor's mansion, the sale price mentioned being something like \$90,000. The dispatch further states "the legislature neglected however, to appropriate funds to finance either purchase or rental. The State Emergency Appropriations board may draw upon an annual fund of \$1,500,000 should it decide to remedy the oversight."

"As a member of the legislature, I wish to protest as strongly as I can against any expenditure of state funds for the purposes mentioned in the news dispatch. It seems to me to be the height of folly at a time when thousands of Michigan families are without decent homes in which to live for the state of Michigan is spending \$90,000 or even \$9,000 for a home for its Governor. That should be done in more prosperous times than these.

"In the next place the failure of the legislature to appropriate money for the purchase or building of a Governor's mansion was not an oversight, as the dispatch states.

"Representative Harry Glass of Grand Rapids, close personal friend and companion of Governor Murphy during the time he was in Lansing last winter and spring on January 7, introduced a bill asking for an appropriation of \$150,000 for a Governor's home. That bill first went to the state affairs committee, then to the ways and means committee, where it was left to die. I was opposed to the measure and therefore watched its legislative progress closely. I was advised several times by members of the ways and means committee that it would not be reported out, and it WAS NOT reported out.

"The failure of the legislature to appropriate money for this purpose was NOT an oversight. It was intended that way, as far as I am concerned.

"Then, too, I do not believe that the broadest interpretation of the act creating the State Emergency Appropriations board that carried with it an unwarranted appropriation of \$1,500,000 would allow that board to expend one cent for a Governor's mansion.

"I strongly opposed the enactment of the measure creating the State Emergency Appropriation board, which is nothing more than another tax spending body. But the bill was passed by the legislature and to my amazement it was signed by the Governor. There is not the slightest excuse for its existence.

"If the Governor and his budget director are so anxious to "balance the budget" and save a few pennies for the taxpayers of the state, this entire appropriation for the newly created spending board could be wiped out without causing the slightest inconvenience to the people of Michigan.

"It is about time for some one in Lansing to give a little thought in trying to find ways to save some of the taxpayers' dollars rather than hunting around for needless pretenses for which to spend money. There is a right time in which to do things, but this is NOT the right time to spend a large sum of money for any purpose that is not absolutely essential.

"There were no state funds appropriated for a Governor's mansion and you have not the slightest right to use one cent of the state's money for such a purpose.

"Respectfully,
"ELTON R. EATON."

Gets Deer On His First Trip

On his first deer hunting trip, on his first day in the woods and on his first shot, Charles H. Terry of the West farm implement store on South Main street brought down the biggest deer that has been brought back to Plymouth since the opening of the deer season. The deer, shot up near Lewiston, weighed well over 200 pounds. Hunting with him was Ira Curtis from the Sheldon store and he, too, on the opening day shot a nice young buck. Dave Bolton was the only one in his party that hunted near White Cloud to bag a deer. Alford S. Lyndon, vice president and manager of the Perfection Sprinkler company, was also a successful hunter in the northlands. He, too, brought back a nice deer.

Miss Esther Maunula Married On Thanksgiving Day

Miss Esther Maunula of this city and Carl Adler of Detroit were married Thanksgiving day, November 25, at the Iroquois Avenue Christ Lutheran church in Detroit, the ceremony being witnessed by a group of close personal friends of the young people. The bride's wedding gown was a beautiful creation of white slipper satin fagoted with a Juliet cap of the same material. She carried a bouquet of white roses and orchids. Mrs. George Koski, a girlhood friend of the bride's from the upper peninsula, acted as matron of honor. Her dress was of chartreuse slipper satin, of Grecian lines and trimmed in gold kid. Her bouquet was of Talisman roses. Joseph Shooshanian of Detroit was best man for the ceremony. The church altar was beautifully decorated with white chrysanthemums and candelabra. Following the ceremony a wedding dinner was served in Detroit. The bride has, for three years, been a teacher in the Plymouth public schools. She is a graduate of the Michigan State Normal school. Her home, previous to coming to Plymouth, was in the upper peninsula. During her residence in Plymouth she has made many friends who wish the young people every happiness.

Stark School News
On November 19, the boys and girls of Stark school happily climbed aboard the bus at 9:08 o'clock and were off for a trip through Greenfield Village.

When we arrived we went through the museum and saw Admiral Byrd's ship that he flew to the South Pole. From there we went to other places of interest, such as the general store, Martha Mary chapel, the jewelry store, the shepherd's cottage, where there is a dog 100 years old. We went to the court house and saw the chair Lincoln was shot in. We also saw the blacksmith shop, and glass factory. Some children bought postcards at the post-office.

The guide took us to Clinton Inn where he played the music box for us. We saw Edison's workshop and the shovel he used for planting. The guide took us to the room where the Declaration of Independence was signed. He showed us the cane that Miles Standish brought over on the Mayflower. The bus came at 12:30 and most of us ran to get it. We arrived home at 1:10. —Isaac Grove

Famed Picture To Be Shown Here

An unusual screen comedy drama with music, "100 Men and a Girl", starring singing Deanna Durbin, will begin a three-day run at the Penniman Allen theatre, starting Sunday, November 28.

In addition to the 14-year-old wonder girl's appearance in the picture, is Leopold Stokowski, noted symphony orchestra conductor, lately of the Philadelphia Symphony. He will conduct 100 musicians recruited from a list of unemployed, all of whom have had 25 years' experience in famous symphonic organizations.

Adolphe Menjou portraying an impoverished violinist, is the father of Miss Durbin in the picture, and after many comical and breath-taking escapades succeeds in organizing, with the expert help of his daughter, 100 musicians who will be directed by Stokowski. The great day of the concert arrives and when the great leader asks the girl to come to the platform to receive acknowledgements of success, some one calls "Sing!" and the young lady responds with her glorious voice. You will be thrilled with this musical spectacle as well as the wonderful music.

On Wednesday and Thursday, December 1 and 2, "Wild and Woolly", with the inimitable Jane Withers, and "It Can't Last Forever" with Ralph Bellamy and Betty Furness, will be shown at the theatre. Any Jane Withers picture is good entertainment, but "Wild and Woolly" surpasses all previous efforts. She is the same mischievous, delightful bad girl in this picture, only more so. "It Can't Last Forever" is a delightful comedy, with romance as well, taking place in a radio studio where a lot of wild schemes are discovered with astonishing results.

"Riders of the Dawn" with the screen's new sensational singing cowboy, and "Hot Water" with Jed Prouty, Shirley Deane and Russell Gleason, will be shown on the screen Friday and Saturday, December 3 and 4.

Special Meeting Townsend Club

On Sunday, November 28, at 8:00 p.m., the Plymouth Townsend club will hold a special meeting in the Grange hall when Floyd R. Moody, national field representative for Michigan, will speak on "The Townsend Recovery Plan." Every person, both young and old, are urged to attend, especially all business and professional men. Mr. Moody has a special message for you. All questions will be answered concerning the plan. There is no admission but a free will offering will be taken. On Monday evening, November 29, the local club will entertain the members of the Strathmoor club in the Grange hall, returning their hospitality of several months ago. An interesting evening is planned and it is hoped all Townsendites will be present, also all interested in the Townsend Plan.

Pontiac Strike Closes Plant Here

The strikes of auto workers in Pontiac has been felt directly in Plymouth. Monday evening 73 men, employed at the Precision Products company, received notice that their services would not be needed temporarily due to the cancellations of schedules which have resulted from the strikes in nearby cities, particularly in Pontiac.

The remainder of the office force and factory employees, numbering 15, were released Tuesday evening. Secretary John Morrison explained, with the understanding that all workers would be recalled as soon as orders were again received.

Factory officials regret the lay-off exceedingly and hope for a re-opening of the plant early next week. In hope of staying off the shut-down, authorities waited until the last hour of work Monday to notify the men of their forced idleness.

Chicken Thieves Near South Lyon

Chicken thieves escaped with 24 pullets from the poultry yard at the Standard-Weiss farm, near South Lyon, Monday night of last week.

The family had gone to bed only a short time when they were aroused by the barking of the dog. Calling to the dog to keep quiet, they returned to bed, and it was not until the following morning that they discovered the theft. Tracks were visible about a quarter of a mile from the house where a car had evidently been parked. The fence was torn down at this spot, and it was supposed that the thieves had walked through the fields to approach the house from the rear. Deputy Sheriff E. J. McKinley is working on the case.

D. A. R. Meeting Interesting One

The evening meeting of the Sarah Ann Cochrane chapter, D.A.R. held last week Monday, November 22, at the home of Mrs. Irving Blunk was a most enjoyable and interesting one. The meeting was held in the evening, to enable members who could not get to the afternoon hour of meeting to be present. Out-of-town members came from Wayne, Detroit, and Northville.

Following the regular business meeting, Mrs. Henry Baker, acting as program chairman, introduced the guest speaker, Miss Margaret Clemens, who gave a very splendid talk on "Old Glass."

Miss Clemens, who has made quite an extensive study of the history of glass and glass making, talked interestingly on the origin and manufacture of different kinds of glass, the colors, shapes, and texture of the different sorts; how to distinguish one sort from another, and a number of other points which awakened a new interest in her hearers and created a desire to know more about this fascinating subject which before had simply been accepted as one of the every day things in our lives.

Miss Clemens had on display a number of glass articles which very clearly explained the points of her talk and the chapter was most grateful to her for the help and enjoyment afforded.

Mrs. John Root completed the program with some well chosen remarks on "National Defense." Each year the Daughters of the American Revolution all over the United States sponsor a "Good Citizenship Pilgrimage" in the high schools of each city or

town where there is a chapter of the D.A.R.

At some time before January 1, the senior classes choose three girls from their number whom they consider as excelling in service, dependability, leadership, and patriotism. From this list of three, the teachers then select one name to represent their school. These names are sent to the D.A.R. state conference where, from the names submitted from all the schools, the name of one girl is chosen by lot to represent that state at the annual continental congress of the D.A.R. held at Washington, D. C.

The girls so honored have all expenses paid for the week's trip to the national capital during the conference.

Names are to be chosen from the Plymouth, Northville, and Wayne senior classes this year, since the Sarah Ann Cochrane chapter has members in each of these towns and are hoping they may be fortunate enough to have one of their girls in the Pilgrimage next spring.

Thanksgiving Day Services

The annual Thanksgiving service was held on Thursday morning at First Church of Christ, Scientist, corner Main and Dodge streets, with a large attendance. An interesting feature of the occasion was the testimonies of healings of sickness, sin, sorrow, and lack, through the ministrations of Christian Science, told briefly and in quick succession by members of the congregation.

The special Thanksgiving lesson sermon read in Christian Science churches throughout the United States, consisted of citations from the Bible and from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy. The Golden Text, from Psalm 28, was: "The Lord is my strength and my shield, my heart trusted in him and I am helped; therefore my heart greatly rejoiceth; and with my song will I praise him." The lesson-sermon contained this verse from Nehemiah 8: 10: "Then he said unto them, Go your way, eat the fat, and drink the sweet, and send portions unto them for whom nothing is prepared: for this day is holy unto our Lord: neither be ye sorry; for the joy of the Lord is your strength." Among the correlative passages from Science and Health was the following (p. 3): "Are we really grateful for the good already received? Then we shall avail ourselves of the blessings we have, and thus be fitted to receive more. Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than speech."

Here's Hoping Work Continues

(Continued From Page One)

and that the new director will be the top-notch director of the department that we had anticipated and still hope that he will be.

An old school friend of Commissioner Gellen stopped the writer on the street the other day and suggested that Mr. Gellen's letter was too severe and that it was critical of Mr. Gellen personally. In that we differ. The commission was intended solely of the letter and the spirit in which it was written. In our brief contacts with the new commissioner our impression has been most favorable of him and we regard him as one possessing strict integrity. Our comment was directed only at the thing said and of the action taken.

There is one thing to be added, while our ideas are in wide conflict as to what was done and what was not done by the legislature, the new parole commissioner has the reputation of being strictly honorable and honest, and that counts for much in these days. In fact, it is his most priceless possession and his highest recommendation.

Maybe he wrote the letter to the Ingham County News in too great a haste and in it he said some things that sounded differently in type than he had intended and possibly the article was written in the same way.

The writer hopes so, as he had set the new parole commissioner up as one of the best appointments made to a public job in many a year. Even after reading his attack upon those who wanted to be his friends in the legislature, we do not desire to change our first impression of him, which was and still is of a most favorable nature.

The circuit judges of Michigan for years have been endeavoring to build up a better method of handling paroles and pardons. We thought, and still believe, that under the law passed by the last session a long step had been taken in the right direction and we cannot believe that Director Gellen honestly thinks that the legislature "hamstrung" the law. While the matter has not been discussed with any judges since its enactment, the measure must be satisfactory to them. Of course no law was ever passed that probably could not be improved upon. Maybe this is one—but certainly it was not "hamstrung".

The writer sincerely hopes for the good of Michigan that the new parole director will be the outstanding official we hoped he would be in the beginning, even though he did give at least one of his legislative friends a real jolt by his letter in the Ingham County News.

Thieves Loot Place in Dearborn

The Pioneer Dry Cleaners of Dearborn had \$175 less in the cash drawer Friday morning as a result of a theft which took place some time Thursday evening between 7:00 and 10:00 o'clock, while nearby stores were still open.

Entrance was gained through a basement window in the front of the building on Michigan avenue. Harold Carnell, proprietor of the establishment, had left about 7:00 p.m., leaving an unusually large sum in the cash register. About 10 o'clock Mr. Carnell returned for the money, finding the register moved behind a screen and the money missing.

Police are investigating this and several other thefts in the same locality which have occurred in the past week.
